

BANCFIRST CORP /OK/
Form 10-Q
July 31, 2017

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2017

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 0-14384

BancFirst Corporation

(Exact name of registrant as specified in charter)

Oklahoma 73-1221379
(State or other Jurisdiction of (I.R.S. Employer
incorporation or organization) Identification No.)

101 N. Broadway, Oklahoma City, Oklahoma 73102-8405
(Address of principal executive offices) (Zip Code)
(405) 270-1086

(Registrant's telephone number, including area code)

N/A

Edgar Filing: BANCFIRST CORP /OK/ - Form 10-Q

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No .

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (sec. 232-405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No .

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of “accelerated filer and large accelerated filer” in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

(Do not check if a smaller reporting company) Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined by Rule 12b-2 of the Exchange Act). Yes No

As of July 28, 2017 there were 15,916,719 shares of the registrant’s Common Stock outstanding.

BANCFIRST CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(1) DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of BancFirst Corporation and its subsidiaries (the “Company”) conform to accounting principles generally accepted in the United State of America (U.S. GAAP) and general practice within the banking industry. A summary of significant accounting policies can be found in Note (1) to the Company’s Annual Report on Form 10-K for the year ended December 31, 2016.

Basis of Presentation

The accompanying unaudited interim consolidated financial statements include the accounts of BancFirst Corporation, Council Oak Partners, LLC, BancFirst Insurance Services, Inc., BancFirst Risk and Insurance Company, and BancFirst and its subsidiaries. The principal operating subsidiaries of BancFirst are Council Oak Investment Corporation, Council Oak Real Estate, Inc. and BancFirst Agency, Inc. All significant intercompany accounts and transactions have been eliminated. Assets held in a fiduciary or agency capacity are not assets of the Company and, accordingly, are not included in the unaudited interim consolidated financial statements.

The accompanying unaudited interim consolidated financial statements and notes are presented in accordance with the instructions for Form 10-Q. The information contained in the financial statements and footnotes included in BancFirst Corporation’s Annual Report on Form 10-K for the year ended December 31, 2016, should be referred to in connection with these unaudited interim consolidated financial statements. Operating results for the interim periods disclosed herein are not necessarily indicative of the results that may be expected for a full year or any future period.

The unaudited interim consolidated financial statements contained herein reflect all adjustments which are, in the opinion of management, necessary to provide a fair statement of the financial position and results of operations of the Company for the interim periods presented. All such adjustments are of a normal and recurring nature. There have been no significant changes in the accounting policies of the Company since December 31, 2016, the date of the most recent annual report.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States inherently involves the use of estimates and assumptions that affect the amounts reported in the financial statements and the related disclosures. These estimates relate principally to the determination of the allowance for loan losses, income taxes, the fair value of financial instruments and the valuation of intangibles. Such estimates and assumptions may change over time and actual amounts realized may differ from those reported.

Recent Accounting Pronouncements

Standards Adopted During Current Period:

In March 2017, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2017-08, “Receivables – Nonrefundable Fees and Other Costs (Topic 310-20): Premium Amortization on Purchased

Callable Debt Securities.” ASU 2017-08 shortens the amortization period for certain callable debt securities held at a premium. The Company opted for early adoption of ASU 2017-08, as was permitted, on January 1, 2017. ASU 2017-08 did not have a significant impact on the Company’s financial statements and no prior periods were adjusted.

In October 2016, the FASB issued ASU No. 2016-17, “Consolidation (Topic 810): Interests Held Through Related Parties That Are Under Common Control.” ASU 2016-17 updates ASU No. 2015-02 to amend the consolidation guidance on how a reporting entity that is the single decision maker of a variable interest entity (“VIE”) should treat indirect interests in the entity held through related parties that are under common control with the reporting entity when determining whether it is the primary beneficiary of that VIE. ASU 2016-17 was adopted on January 1, 2017 and did not have a significant impact on the Company’s financial statements and no prior periods were adjusted.

In March 2016, the FASB issued ASU No. 2016-09, “Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting.” Under ASU 2016-09 all excess tax benefits and tax deficiencies related to share-based payment awards should be recognized as income tax expense or benefit in the income statement during the period in which they occur. Previously, such amounts were recorded in the pool of excess tax benefits included in additional paid-in capital, if such pool was

available. Because excess tax benefits are no longer recognized in additional paid-in capital, the assumed proceeds from applying the treasury stock method when computing earnings per share should exclude the amount of excess tax benefits that would have previously been recognized in additional paid-in capital. Additionally, excess tax benefits should be classified along with other income tax cash flows as an operating activity rather than a financing activity, as was previously the case. ASU 2016-09 also allows entities to make an entity-wide accounting policy election to account for forfeitures when they occur, which the Company has elected to do. ASU 2016-09 changes the threshold to qualify for equity classification (rather than as a liability) to permit withholding up to the maximum statutory tax rates (rather than the minimum as was previously the case) in the applicable jurisdictions. ASU 2016-09 was adopted on January 1, 2017 and did not have a significant impact on the Company's financial statements. In addition, ASU 2016-09 was applied prospectively and no prior periods were adjusted. The excess tax benefit for share-based payment awards that were exercised during the six months ended June 30, 2017 was approximately \$1.8 million.

In August 2014, the FASB issued ASU No. 2014-15, "Presentation of Financial Statements – Going Concern (Topic 205-40)." ASU 2014-15 provides guidance on management's responsibility in evaluating whether there is substantial doubt about the Company's ability to continue as a going concern and related footnote disclosures. For each reporting period, management will be required to evaluate whether there are conditions or events that raise substantial doubt about the Company's ability to continue as a going concern within one year from the date the financial statements are issued. ASU 2014-15 was adopted on January 1, 2017. Adoption of ASU 2014-15 did not have a significant effect on the Company's financial statements.

Standards Not Yet Adopted:

In May 2017, the FASB issued ASU No. 2017-09, "Compensation – Stock Compensation (Topic 718): Scope of Modification Accounting." The amendments in this update provide guidance about types of changes to the terms or conditions of share-based payment awards that would require an entity to apply modification accounting under ASC 718. ASU 2017-09 will be effective on January 1, 2018 and is not expected to have a significant impact on the Company's financial statements. Early adoption is permitted with prospective applications.

In January 2017, the FASB issued ASU No. 2017-04, "Intangibles – Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment." ASU 2017-04 removes the second step of goodwill testing. ASU 2017-04 will be effective on January 1, 2020 and is not expected to have a significant impact on the Company's financial statements.

In January 2017, the FASB issued ASU No. 2017-01, "Business Combinations (Topic 805): Clarifying the Definition of a Business." ASU 2017-01 clarifies the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of a business. ASU 2017-01 will be effective on January 1, 2018 and is not expected to have a significant impact on the Company's financial statements.

In October 2016, the FASB issued ASU No. 2016-16, "Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other Than Inventory." ASU 2016-16 provides guidance stating that an entity should recognize the income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs. ASU 2016-16 will be effective on January 1, 2018 and is not expected to have a significant impact on the Company's financial statements.

In August 2016, the FASB issued ASU No. 2016-15, "Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments." ASU 2016-15 is intended to reduce the diversity in practice around how certain transactions are classified within the statement of cash flows. ASU 2016-15 will be effective on January 1, 2018. Early adoption is permitted with retrospective applications. The Company is currently evaluating the potential impact of ASU 2016-15 on its financial statements.

In June 2016, the FASB issued ASU No. 2016-13, "Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments." ASU 2016-13 requires a financial asset measured at amortized cost basis to be

presented at the net amount expected to be collected. The measurement of expected credit losses is based on relevant information about past events, including historical experience, current conditions, and reasonable and supportable forecasts that affect the collectability of the reported amount. ASU 2016-13 requires enhanced disclosures related to the significant estimates and judgements used in estimating credit losses, as well as the credit quality and underwriting standards of an organization's portfolio. In addition, ASU 2016-13 amends the accounting for credit losses on available-for-sale debt securities and purchased financial assets with credit deterioration. ASU 2016-13 will be effective on January 1, 2020. The Company is currently evaluating the potential impact of ASU 2016-13 on its financial statements.

In February 2016, the FASB issued ASU No. 2016-02, "Leases - (Topic 842)." ASU 2016-02 requires that lessees recognize on the balance sheet the assets and liabilities for the rights and obligations created by leases. The amendments are effective for annual periods, and interim reporting periods within those annual periods, beginning after December 15, 2018. Early adoption is permitted. Adoption of ASU 2016-02 is not expected to have a significant effect on the Company's financial statements.

In January 2016, the FASB issued ASU No. 2016-01, "Financial Instruments - Overall (Subtopic 825-10)." ASU 2016-01 require all equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) to be measured at fair value with changes in the fair value recognized through net income. In addition, the amendment will require an entity to present separately in other comprehensive income the portion of the total change in the fair value of a liability resulting from a change in the instrument-specific credit risk when the entity has elected to measure the liability at fair value in accordance with the fair value option for financial instruments. The amendments are effective for annual periods, and interim reporting periods within those annual periods, beginning after December 15, 2017. Early adoption is not permitted. Adoption of ASU 2016-01 is not expected to have a significant effect on the Company's financial statements.

In January of 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customer (Topic 606)." ASU 2014-09 implements a comprehensive new revenue recognition standard that will supersede substantially all existing revenue recognition guidance. The new standard's core principle is that a company will recognize revenue when it transfers promised goods or services to customers in a manner that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. The guidance does not apply to revenue associated with financial instruments, including loans and securities that are accounted for under other GAAP, which comprises a significant portion of the Company's revenue stream. In August 2015, the FASB issued ASU No. 2015-14, "Revenue from Contracts with Customers (Topic 606)." ASU 2015-14 is an amendment to defer the effective date of ASU 2014-09. The amendments are effective for annual periods, and interim reporting periods within those annual periods, beginning after December 15, 2017. Adoption of ASU 2014-09 may require the Company to amend how it recognizes certain recurring revenue streams related to trust fees, which are recorded in non-interest expense; however, the Company does not expect the adoption of ASU 2014-09 to have a significant impact on the Company's financial statements.

(2) RECENT DEVELOPMENTS, INCLUDING MERGERS AND ACQUISITIONS

Effective June 1, 2017, the Company organized a new captive insurance company named BancFirst Risk and Insurance Company ("the Captive"). The Captive is a wholly-owned subsidiary of BancFirst Corporation and is regulated by the Oklahoma Insurance Department. It insures certain risks of the Company and has entered into reinsurance agreements with a risk-sharing pool.

(3) SECURITIES

The following table summarizes securities held for investment and securities available for sale:

	June 30, 2017	December 31, 2016
	(Dollars in thousands)	
Held for investment, at cost (fair value: \$3,975 and \$4,403, respectively)	\$3,942	\$4,365

(1) Primarily consists of FHLMC, FNMA, GNMA and mortgage backed securities through U.S. agencies.

(2) Primarily consists of equity securities.

The maturities of securities held for investment and available for sale are summarized in the following table using contractual maturities. Actual maturities may differ from contractual maturities due to obligations that are called or prepaid. For purposes of the maturity table, mortgage-backed securities, which are not due at a single maturity date, have been presented at their contractual maturity.

	June 30, 2017		December 31, 2016	
	Estimated		Estimated	
	Amortized Fair		Amortized Fair	
	Cost	Value	Cost	Value
(Dollars in thousands)

The following table is a summary of the Company's book value of securities that were pledged as collateral for public funds on deposit, repurchase agreements and for other purposes as required or permitted by law:

	June 30,	December
	2017	31, 2016
	(Dollars in thousands)	
Book value of pledged securities	\$ 394,974	\$ 439,692

(4) LOANS AND ALLOWANCE FOR LOAN LOSSES

The following is a schedule of loans outstanding by category:

	June 30, 2017		December 31, 2016	
	Amount	Percent	Amount	Percent
	(Dollars in thousands)			
Commercial and financial:				
Commercial and industrial	\$927,616	20.26 %	\$828,260	18.82 %
Oil & gas production and equipment	96,230	2.10	84,228	1.91
Agriculture	135,298	2.96	144,751	3.29
State and political subdivisions:				
Taxable	81,164	1.77	33,793	0.77
Tax-exempt	48,840	1.07	47,283	1.07
Real estate:				
Construction	412,367	9.01	420,884	9.57
Farmland	201,535	4.40	197,872	4.50
One to four family residences	859,980	18.78	846,360	19.24
Multifamily residential properties	46,995	1.03	57,806	1.31
Commercial	1,455,612	31.79	1,426,643	32.42
Consumer	280,345	6.12	279,704	6.36
Other (not classified above)	32,411	0.71	32,648	0.74
Total loans	\$4,578,393	100.00 %	\$4,400,232	100.00 %

The Company's commercial and industrial loan category includes a small percentage of loans to companies that provide ancillary services to the oil and gas industry, such as transportation, preparation contractors and equipment manufacturers. The balance of these loans was approximately \$70 million at June 30, 2017 and approximately \$56 million at December 31, 2016.

The Company's loans are mostly to customers within Oklahoma and over 65% of the loans are secured by real estate. Credit risk on loans is managed through limits on amounts loaned to individual and related borrowers, underwriting standards and loan monitoring procedures. The amounts and types of collateral obtained, if any, to secure loans are based upon the Company's underwriting standards and management's credit evaluation. Collateral varies, but may include real estate, equipment, accounts receivable, inventory, livestock and securities. The Company's interest in collateral is secured through filing mortgages and liens, and in some cases, by possession of the collateral.

Accounting policies related to appraisals, nonaccruals and charge-offs are disclosed in Note (1) to the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

Nonperforming and Restructured Assets

The following is a summary of nonperforming and restructured assets:

	December
	June 30, 31,
	2017 2016

	(Dollars in thousands)	
Past due 90 days or more and still accruing	\$2,217	\$ 1,962
Nonaccrual	19,607	31,798
Restructured	3,561	1,713
Total nonperforming and restructured loans	25,385	35,473
Other real estate owned and repossessed assets	4,211	3,866
Total nonperforming and restructured assets	\$29,596	\$ 39,339

Nonaccrual loans, accruing loans past due 90 days or more and restructured loans are shown in the table above. Had nonaccrual loans performed in accordance with their original contractual terms, the Company would have recognized additional interest income of approximately \$886,000 for the six months ended June 30, 2017 and approximately \$982,000 for the six months ended June 30, 2016.

The Company charges interest on principal balances outstanding on restructured loans during deferral periods. The current and future financial effects of the recorded balance of loans considered to be restructured were not considered to be material.

Edgar Filing: BANCFIRST CORP /OK/ - Form 10-Q

Loans are segregated into classes based upon the nature of the collateral and the borrower. These classes are used to estimate the credit risk component in the allowance for loan losses.

The following table is a summary of amounts included in nonaccrual loans, segregated by class of loans. Residential real estate refers to one-to-four family real estate.

	June 30, 2017	December 31, 2016
(Dollars in thousands)

Impaired Loans							

Loans are considered impaired when, based on current information and events, it is probable the Company will be unable to collect the full amount of scheduled principal and interest payments in accordance with the original contractual terms of the loan

agreement. If a loan is impaired, a specific valuation allowance may be allocated, if necessary, so that the loan is reported, net of allowance for loss, at the present value of future cash flows using the loan's existing rate, or the fair value of collateral if repayment is expected solely from the collateral.

The following table presents impaired loans, segregated by class of loans. During the six month period ended June 30, 2017, \$2.3 million of interest income was recognized on impaired loans subsequent to their classification as impaired. During previous periods no material amount of interest income was recognized on impaired loans subsequent to their classification as impaired.

Credit Risk Monitoring and Loan Grading

The Company considers various factors to monitor the credit risk in the loan portfolio including volume and severity of loan delinquencies, nonaccrual loans, internal grading of loans, historical loan loss experience and economic conditions.

An internal risk grading system is used to indicate the credit risk of loans. The loan grades used by the Company are for internal risk identification purposes and do not directly correlate to regulatory classification categories or any financial reporting definitions.

The general characteristics of the risk grades are disclosed in Note (5) to the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

The following table presents internal loan grading by class of loans:

	Internal Loan Grading					Total
	Grade 1	2	3	4	5

Allowance for Loan Losses Methodology

The allowance for loan losses (“ALL”) methodology is disclosed in Note (5) to the Company’s Annual Report on Form 10-K for the year ended December 31, 2016.

Edgar Filing: BANCFIRST CORP /OK/ - Form 10-Q

The following table details activity in the ALL by class of loans for the period presented. Allocation of a portion of the allowance to one category of loans does not preclude its availability to absorb losses in other categories.

Total	\$8,589	\$ 40,416	\$10,519	\$ 38,174

Edgar Filing: BANCFIRST CORP /OK/ - Form 10-Q

The following table details the loans outstanding by class of loans for the period presented, on the basis of the impairment methodology used by the Company.

	Loans June 30, 2017		Loans acquired with deteriorated credit quality	December 31, 2016		Loans acquired with deteriorated credit quality
	Individually evaluated for impairment (Dollars in thousands)	Collectively evaluated for impairment		Individually evaluated for impairment	Collectively evaluated for impairment	
Real estate:						
Non-residential real estate owner occupied	\$ 15,177	\$ 575,912	\$ —	\$ 17,149	\$ 554,482	\$ —
Non-residential real estate other	16,692	1,111,417	—	20,092	1,103,304	—
Residential real estate permanent mortgage	7,144	323,587	—	7,631	317,782	—
Residential real estate all other	16,067	742,050	—	14,873	733,356	—
Commercial and financial:						
Non-consumer non-real estate	26,194	1,182,132	—	24,002	1,027,183	—
Consumer non-real estate	2,809	281,348	—	3,203	280,674	—
Other loans	572	143,976	—	2,254	139,228	—
Acquired loans	15,834	111,830	5,652	13,459	135,616	5,944
Total	\$ 100,489	\$ 4,472,252	\$ 5,652	\$ 102,663	\$ 4,291,625	\$ 5,944
Transfers from Loans						

Transfers from loans to other real estate owned and repossessed assets are non-cash transactions, and are not included in the statements of cash flow.

Transfers from loans to other real estate owned and repossessed assets during the periods presented, are summarized as follows:

	Six Months Ended	
	June 30, 2017	2016
Other real estate owned	\$ 1,513	\$ 1,210
Repossessed assets	612	750
Total	\$ 2,125	\$ 1,960

During the six months ended June 30, 2016, the Company had gains on the sale of other real estate owned totaling \$1.3 million that is included in net expense from other real estate owned on the consolidated statements of comprehensive income.

(5) INTANGIBLE ASSETS

The following is a summary of intangible assets:

	Gross		Net
	Carrying	Accumulated	Carrying
	Amount	Amortization	Amount
	(Dollars in thousands)		
As of June 30, 2017			
Core deposit intangibles	\$17,447	\$ (7,531)) \$9,916
Customer relationship intangibles	5,699	(3,593)) 2,106
Mortgage servicing intangibles	454	(273)) 181
Total	\$23,600	\$ (11,397)) \$12,203
As of December 31, 2016			
Core deposit intangibles	\$17,447	\$ (6,611)) \$10,836
Customer relationship intangibles	5,699	(3,419)) 2,280
Mortgage servicing intangibles	473	(259)) 214
Total	\$23,619	\$ (10,289)) \$13,330

The following is a summary of goodwill by business segment:

	Metropolitan Banks	Community Banks	Other Financial Services	Executive, Operations & Support	Consolidated
(Dollars in thousands)					
Six month ended June 30, 2017					
Balance at beginning and end of period	\$ 8,078	\$ 40,050	\$ 5,464	\$ 450	\$ 54,042

Additional information for intangible assets can be found in Note (7) to the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

(6) STOCK-BASED COMPENSATION

The Company adopted a nonqualified incentive stock option plan (the "BancFirst ISOP") in May 1986. The Company amended the BancFirst ISOP to increase the number of shares to be issued under the plan to 3,200,000 shares in May 2016. At June 30, 2017, 190,735 shares were available for future grants. The BancFirst ISOP will terminate on December 31, 2019. The options are exercisable beginning four years from the date of grant at the rate of 25% per year for four years. Options expire at the end of fifteen years from the date of grant. Options outstanding as of June 30, 2017 will become exercisable through the year 2024. The option price must be no less than 100% of the fair value of the stock relating to such option at the date of grant.

In June 1999, the Company adopted the BancFirst Corporation Non-Employee Directors' Stock Option Plan (the "BancFirst Directors' Stock Option Plan"). Each non-employee director is granted an option for 10,000 shares. The Company amended the BancFirst Directors' Stock Option Plan to increase the number of shares to be issued under the plan to 260,000 shares in May 2016. At June 30, 2017, 40,000 shares were available for future grants. The options are exercisable beginning one year from the date of grant at the rate of 25% per year for four years, and expire at the end of fifteen years from the date of grant. Options outstanding as of June 30, 2017 will become exercisable through the year 2020. The option price must be no less than 100% of the fair value of the stock relating to such option at the date of grant.

The Company currently uses newly issued shares for stock option exercises, but reserves the right to use shares purchased under the Company's Stock Repurchase Program (the "SRP") in the future.

The following table is a summary of the activity under both the BancFirst ISOP and the BancFirst Directors' Stock Option Plan:

	Options	Wgted. Avg. Exercise Price	Wgted. Avg. Remaining Contractual Term	Aggregate Intrinsic Value
(Dollars in thousands, except option data)				
Six Months Ended June 30, 2017				
Outstanding at December 31, 2016	707,450	\$ 44.92		

Edgar Filing: BANCFIRST CORP /OK/ - Form 10-Q

Options granted	25,000	91.39		
Options exercised	(93,325)	34.90		
Outstanding at June 30, 2017	639,125	48.20	9.74 Yrs	\$ 30,933
Exercisable at June 30, 2017	277,250	38.77	6.85 Yrs	\$ 16,034

The following table has additional information regarding options granted and options exercised under both the BancFirst ISOP and the BancFirst Directors' Stock Option Plan:

	Three Months Ended		Six Months Ended	
	June 30, 2017	June 30, 2016	June 30, 2017	June 30, 2016
	(Dollars in thousands except per share data)			
Weighted average grant-date fair value per share of options granted	\$21.92	\$11.29	\$21.92	\$11.40
Total intrinsic value of options exercised	1,032	891	5,645	1,670
Cash received from options exercised	647	1,001	3,257	1,876
Tax benefit realized from options exercised	399	345	2,183	646

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model and is based on certain assumptions including risk-free rate of return, dividend yield, stock price volatility and the expected term. The fair value of each option is expensed over its vesting period.

The following table is a summary of the Company's recorded stock-based compensation expense:

	Three Months Ended		Six Months Ended	
	June 30, 2017	June 30, 2016	June 30, 2017	June 30, 2016
	(Dollars in thousands)			
Stock-based compensation expense	\$282	\$450	\$465	\$901
Tax benefit	109	174	180	348
Stock-based compensation expense, net of tax	\$173	\$276	\$285	\$553

The Company will continue to amortize the unearned stock-based compensation expense over the remaining vesting period of approximately seven years. The following table shows the unearned stock-based compensation expense:

	June 30, 2017 (Dollars in thousands)
Unearned stock-based compensation expense	\$ 2,858

The following table shows the assumptions used for computing stock-based compensation expense under the fair value method on options granted during the periods presented:

	Six Months Ended	
	June 30, 2017	June 30, 2016
Risk-free interest rate	2.15 to 2.38%	1.46 to 2.02%
Dividend yield	2.00%	2.00%
Stock price volatility	22.57 to 23.13%	20.41 to 20.64%
Expected term	10 Yrs	10 Yrs

The risk-free interest rate is determined by reference to the spot zero-coupon rate for the U.S. Treasury security with a maturity similar to the expected term of the options. The dividend yield is the expected yield for the expected term. The stock price volatility is estimated from the recent historical volatility of the Company's stock. The expected term is estimated from the historical option exercise experience.

In May 1999, the Company adopted the BancFirst Corporation Directors' Deferred Stock Compensation Plan (the "BancFirst Deferred Stock Compensation Plan"). The Company amended the BancFirst Deferred Stock Compensation Plan to increase the number of shares to be issued under the plan to 111,110 shares in May 2016. Under the plan, directors and members of the community advisory boards of the Company and its subsidiaries may defer up to 100% of their board fees. They are credited for each deferral with a number of stock units based on the current market price

of the Company's stock, which accumulate in an account until such time as the director or community board member terminates serving as a board member. Shares of common stock of the Company are then distributed to the terminating director or community board member based upon the number of stock units accumulated in his or her account. There were 4,959 shares of common stock distributed from the BancFirst Deferred Stock Compensation Plan during the six months ended June 30, 2017.

A summary of the accumulated stock units is as follows:

	June 30,	December
	2017	31,
		2016
Accumulated stock units	67,226	70,022
Average price	\$43.69	\$41.74

(7) STOCKHOLDERS' EQUITY

In November 1999, the Company adopted a Stock Repurchase Program (the "SRP"). The SRP may be used as a means to increase earnings per share and return on equity, to purchase treasury stock for the exercise of stock options or for distributions under the Deferred Stock Compensation Plan, to provide liquidity for optionees to dispose of stock from exercises of their stock options and to provide liquidity for stockholders wishing to sell their stock. All shares repurchased under the SRP have been retired and not held

as treasury stock. The timing, price and amount of stock repurchases may be determined by management within the limitations of the SRP. During the third quarter of 2016 the SRP was amended to increase the remaining shares to be repurchased to 150,000.

The following table is a summary of the shares under the program, all share repurchased in 2016 where purchased in the first three months of the year:

	Six Months Ended	
	June 30, 2017	2016
Number of shares repurchased	—	100,000
Average price of shares repurchased	\$—	\$55.23
Shares remaining to be repurchased	150,000	66,276

The Company and BancFirst are subject to risk-based capital guidelines issued by the Board of Governors of the Federal Reserve System and the Federal Deposit Insurance Corporation (“FDIC”). These guidelines are used to evaluate capital adequacy and involve both quantitative and qualitative evaluations of the Company’s and BancFirst’s assets, liabilities and certain off-balance-sheet items calculated under regulatory practices. Failure to meet the minimum capital requirements can initiate certain mandatory or discretionary actions by the regulatory agencies that could have a direct material effect on the Company’s financial statements. Management believes that as of June 30, 2017, the Company and BancFirst met all capital adequacy requirements to which they are subject. The actual and required capital amounts and ratios are shown in the following table:

	Actual		Required For Capital Adequacy Purposes		With Capital Conservation Buffer		To Be Well Capitalized Under Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio	Amount	Ratio
(Dollars in thousands)								
As of June 30, 2017:								
Total Capital								
(to Risk Weighted Assets)-								
BancFirst Corporation	\$763,741	15.51%	\$394,051	8.00%	\$455,621	9.250%	N/A	N/A
BancFirst	685,395	13.93%	393,644	8.00%	455,151	9.250%	\$492,055	10.00%
Common Equity Tier 1 Capital								
(to Risk Weighted Assets)-								
BancFirst Corporation	\$683,736	13.88%	\$221,653	4.50%	\$283,224	5.750%	N/A	N/A
BancFirst	616,390	12.53%	221,425	4.50%	282,932	5.750%	\$319,836	6.50%
Tier 1 Capital								
(to Risk Weighted Assets)-								
BancFirst Corporation	\$714,736	14.51%	\$295,538	6.00%	\$357,108	7.250%	N/A	N/A
BancFirst	636,390	12.93%	295,233	6.00%	356,740	7.250%	\$393,644	8.00%
Tier 1 Capital								
(to Total Assets)-								
BancFirst Corporation	\$714,736	10.15%	\$281,701	4.00%	N/A	N/A	N/A	N/A
BancFirst	636,390	9.05%	281,404	4.00%	N/A	N/A	\$351,755	5.00%

As of June 30, 2017, the most recent notification from the Federal Reserve Bank of Kansas City and the FDIC categorized BancFirst as “well capitalized” under the regulatory framework from prompt corrective action. The Company’s trust preferred securities have continued to be included in Tier 1 capital as the Company’s total assets do not exceed \$15 billion. There are no conditions or events since the most recent notifications of BancFirst’s capital category that management believes would materially change its category under capital requirements existing as of the report date.

Basel III Capital Rules

Under the Basel III Capital Rules, in order to avoid limitations on capital distributions, including dividend payments and certain discretionary bonus payments to executive officers, a banking organization must hold a capital conservation buffer composed of CET1 capital above its minimum risk-based capital requirements. The implementation of the capital conservation buffer began on January 1, 2016 at the 0.625% level and will be phased in over a four-year period (increasing by that amount on each subsequent January 1, until it reaches 2.5% on January 1, 2019).

Management believes that, as of June 30, 2017, the Company and BancFirst would meet all capital adequacy requirements under the Basel III Capital Rules on a fully phased-in basis as if such requirements were currently in effect.

(8) NET INCOME PER COMMON SHARE

Basic and diluted net income per common share based on weighted-average shares outstanding are calculated as follows:

	Income	Shares	Per Share
	(Numerator/Denominator)		Amount
	(Dollars in thousands, except per share data)		
Three Months Ended June 30, 2017			
Basic			
Income available to common stockholders	\$23,182	15,903,805	\$ 1.46
Dilutive effect of stock options	—	357,883	
Diluted			
Income available to common stockholders plus assumed			
exercises of stock options	\$23,182	16,261,688	\$ 1.42
Three Months Ended June 30, 2016			
Basic			
Income available to common stockholders	\$17,493	15,549,811	\$ 1.12
Dilutive effect of stock options	—	292,674	
Diluted			
Income available to common stockholders plus assumed			
exercises of stock options	\$17,493	15,842,485	\$ 1.10
Six Months Ended June 30, 2017			
Basic			
Income available to common stockholders	\$45,232	15,884,414	\$ 2.85
Dilutive effect of stock options	—	365,581	
Diluted			
Income available to common stockholders plus assumed			
exercises of stock options	\$45,232	16,249,995	\$ 2.78
Six Months Ended June 30, 2016			
Basic			
Income available to common stockholders	\$34,072	15,542,114	\$ 2.19
Dilutive effect of stock options	—	288,563	
Diluted			
Income available to common stockholders plus assumed			
exercises of stock options	\$34,072	15,830,677	\$ 2.15

The following table shows the number and average exercise price of options that were excluded from the computation of diluted net income per common share for each period because the options' exercise prices were greater than the average market price of the common shares:

	Average	
	Shares	Exercise Price
Three Months Ended June 30, 2017	19,505	\$ 90.64
Three Months Ended June 30, 2016	241,945	58.52
Six Months Ended June 30, 2017	9,807	90.64
Six Months Ended June 30, 2016	239,198	58.55

(9) FAIR VALUE MEASUREMENTS

Accounting standards define fair value as the price that would be received to sell an asset or the price paid to transfer a liability in the principal or most advantageous market available to the entity in an orderly transaction between market participants on the measurement date.

FASB ASC Topic 820 establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

Level 1 Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset and liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation. This category includes certain impaired loans, repossessed assets, other real estate owned, goodwill and other intangible assets.

Financial Assets and Financial Liabilities Measured at Fair Value on a Recurring Basis

A description of the valuation methodologies and key inputs used to measure financial assets and financial liabilities at fair value on a recurring basis, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below. These valuation methodologies were applied to the following categories of the Company's financial assets and financial liabilities.

Securities Available for Sale

Securities classified as available for sale are reported at fair value. U.S. Treasuries are valued using Level 1 inputs. Other securities available for sale including U.S. federal agencies, registered mortgage backed securities and state and political subdivisions are valued using prices from an independent pricing service utilizing Level 2 data. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the bond's terms and conditions, among other things. The Company also invests in private label mortgage backed securities and equity securities classified as available for sale for which observable information is not readily available. These securities are reported at fair value utilizing Level 3 inputs. For these securities, management determines the fair value based on replacement cost, the income approach or information provided by outside consultants or lead investors.

The Company reviews the prices for Level 1 and Level 2 securities supplied by the independent pricing service for reasonableness and to ensure such prices are aligned with traditional pricing matrices. In general, the Company does not purchase investment portfolio securities that are esoteric or that have complicated structures. The Company's portfolio primarily consists of traditional investments including U.S. Treasury obligations, federal agency mortgage pass-through securities, general obligation municipal bonds and a small amount of municipal revenue bonds. Pricing for such instruments is fairly generic and is easily obtained. For in-state bond issues that have relatively low issue sizes and liquidity, the Company utilizes the same parameters for pricing mentioned in the preceding paragraph adjusted for the specific issue. Periodically, the Company will validate prices supplied by the independent pricing service by comparison to prices obtained from third party sources.

Derivatives

Derivatives are reported at fair value utilizing Level 2 inputs. The Company obtains dealer and market quotations to value its oil and gas swaps and options. The Company utilizes dealer quotes and observable market data inputs to substantiate internal valuation models.

Loans Held For Sale

The Company originates mortgage loans to be sold. At the time of origination, the acquiring bank has already been determined and the terms of the loan, including interest rate, have already been set by the acquiring bank, allowing the Company to originate the loan at fair value. Mortgage loans are generally sold within 30 days of origination. Loans held for sale are valued using Level 2 inputs. Gains or losses recognized upon the sale of the loans are determined on a specific identification basis.

21

Edgar Filing: BANCFIRST CORP /OK/ - Form 10-Q

The following table summarizes financial assets and financial liabilities measured at fair value on a recurring basis as of the periods presented, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value:

	Level 1 Inputs (Dollars in thousands)	Level 2 Inputs	Level 3 Inputs	Total Fair Value
June 30, 2017				
Securities available for sale:				
U.S. Treasury	\$285,387	\$—	\$—	\$ 285,387
U.S. federal agencies	—	98,398	—	98,398
Mortgage-backed securities	—	5,767	13,018	18,785
States and political subdivisions	—	38,935	—	38,935
Other securities	—	—	5,955	5,955
Derivative assets	—	256	—	256
Derivative liabilities	—	116	—	116
Loans held for sale	—	9,061	—	9,061
December 31, 2016				
Securities available for sale:				
U.S. Treasury	\$268,543	\$—	\$—	\$ 268,543
U.S. federal agencies	—	129,642	—	129,642
Mortgage-backed securities	—	4,856	14,816	19,672
States and political subdivisions	—	41,042	—	41,042
Other securities	—	—	6,569	6,569
Derivative assets	—	1,569	—	1,569
Derivative liabilities	—	1,306	—	1,306
Loans held for sale	—	9,318	—	9,318

The changes in Level 3 assets measured at estimated fair value on a recurring basis during the periods presented were as follows:

	Six Months Ended June 30, 2017	Twelve Months Ended December 31, 2016
	(Dollars in thousands)	
Balance at the beginning of the year	\$21,385	\$ 21,124
Purchases	293	1,096
Settlements	(1,905)	(191)
Sales	—	(429)
Losses included in earnings	(330)	(111)
Total unrealized losses	(470)	(104)
Balance at the end of the period	\$18,973	\$ 21,385

The Company's policy is to recognize transfers in and transfers out of Levels 1, 2 and 3 as of the end of the reporting period. During the six months ended June 30, 2017 and 2016, the Company did not transfer any securities between levels in the fair value hierarchy.

Financial Assets and Financial Liabilities Measured at Fair Value on a Nonrecurring Basis

Certain financial assets and financial liabilities are measured at fair value on a nonrecurring basis; that is, the instruments are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (for example, when there is evidence of impairment). These financial assets and financial liabilities are reported at fair value utilizing Level 3 inputs.

Impaired loans are reported at the fair value of the underlying collateral if repayment is dependent on liquidation of the collateral. In no case does the fair value of an impaired loan exceed the fair value of the underlying collateral. The impaired loans are adjusted to fair value through a specific allocation of the allowance for loan losses or a direct charge-down of the loan.

Repossessed assets, upon initial recognition, are measured and adjusted to fair value through a charge-off to the allowance for possible loan losses based upon the fair value of the foreclosed asset.

Other real estate owned is revalued at fair value subsequent to initial recognition, with any losses recognized in net expense from other real estate owned.

The following table summarizes assets measured at fair value on a nonrecurring basis. The fair value represents end of period values, which approximate fair value measurements that occurred on various measurement dates throughout the period:

	Total Fair Value Level 3 (Dollars in thousands)
As of and for the Year-to-date Period Ended June 30, 2017	
Impaired loans (less specific allowance)	\$ 21,392
Repossessed assets	238
Other real estate owned	1,329
As of and for the Year-to-date Period Ended December 31, 2016	
Impaired loans (less specific allowance)	\$ 29,912
Repossessed assets	340
Other real estate owned	1,480

Estimated Fair Value of Financial Instruments

The Company is required under current authoritative accounting guidance to disclose the estimated fair value of their financial instruments that are not recorded at fair value. For the Company, as for most financial institutions, substantially all of its assets and liabilities are considered financial instruments. A financial instrument is defined as cash, evidence of an ownership interest in an entity or a contract that creates a contractual obligation or right to deliver or receive cash or another financial instrument from a second entity. The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

Cash and Cash Equivalents Include: Cash and Due from Banks, Federal Funds Sold and Interest-Bearing Deposits

The carrying amount of these short-term instruments is a reasonable estimate of fair value.

Securities Held for Investment

For securities held for investment, which are generally traded in secondary markets, fair values are based on quoted market prices or dealer quotes, if available. If a quoted market price is not available, fair value is estimated using quoted market prices for similar securities making adjustments for credit or liquidity if applicable.

Loans

For certain homogeneous categories of loans, such as some residential mortgages, fair values are estimated using the quoted market prices for securities backed by similar loans, adjusted for differences in loan characteristics. The fair values of other types of loans are estimated by discounting the future cash flows using the current rates at which similar loans would be made to borrowers with similar credit ratings and for the same remaining maturities.

Deposits

The fair values of transaction and savings accounts are the amounts payable on demand at the reporting date. The fair values of fixed-maturity certificates of deposit are estimated using the rates currently offered for deposits of similar remaining maturities.

Short-term Borrowings

The amounts payable on these short-term instruments are reasonable estimates of fair value.

Junior Subordinated Debentures

The fair values of junior subordinated debentures are estimated using the rates that would be charged for junior subordinated debentures of similar remaining maturities.

Loan Commitments and Letters of Credit

The fair values of commitments are estimated using the fees currently charged to enter into similar agreements, taking into account the terms of the agreements. The fair values of letters of credit are based on fees currently charged for similar agreements.

The estimated fair values of the Company's financial instruments that are reported at amortized cost in the Company's consolidated balance sheets, segregated by the level of valuation inputs within the fair value hierarchy utilized to measure fair value, are as follows:

	June 30, 2017 Carrying		December 31, 2016 Carrying	
	Amount	Fair Value	Amount	Fair Value
(Dollars in thousands)				
FINANCIAL ASSETS				
Level 2 inputs:				
Cash and cash equivalents	\$1,716,900	\$1,716,900	\$1,851,161	\$1,851,161
Securities held for investment	3,442	3,475	3,722	3,760
Level 3 inputs:				
Securities held for investment	500	500	643	643
Loans, net of allowance for loan losses	4,529,388	4,534,977	4,351,539	4,367,363
FINANCIAL LIABILITIES

Non-financial Assets and Non-financial Liabilities Measured at Fair Value

The Company has no non-financial assets or non-financial liabilities measured at fair value on a recurring basis. Certain non-financial assets and non-financial liabilities measured at fair value on a nonrecurring basis include intangible assets (excluding mortgage service rights, which are valued semi-annually) and other non-financial long-lived assets measured at fair value and adjusted for impairment. These items are evaluated at least annually for impairment. The overall levels of non-financial assets and non-financial liabilities measured at fair value on a nonrecurring basis were not considered to be significant to the Company at June 30, 2017 or December 31, 2016.

(10) DERIVATIVE FINANCIAL
INSTRUMENTS

The Company enters into oil and gas swaps and options contracts to accommodate the business needs of its customers. Upon the origination of an oil or gas swap or option contract with a customer, the Company simultaneously enters into an offsetting contract with a counterparty to mitigate the exposure to fluctuations in oil and gas prices. These derivatives are not designated as hedged instruments and are recorded on the Company's consolidated balance sheet at fair value.

The Company utilizes dealer quotations and observable market data inputs to substantiate internal valuation models. The notional amounts and estimated fair values of oil and gas derivative positions outstanding are presented in the following table:

		June 30, 2017		December 31, 2016	
		Estimated		Estimated	
		Notional		Notional	
		Fair		Fair	
Oil and Natural Gas Swaps and Options	Notional Units	Amount	Value	Amount	Value
(Notional amounts and dollars in thousands)					
Oil					
Derivative assets	Barrels	46	\$ 108	83	\$ 576
Derivative liabilities	Barrels	(46)	(59)	(83)	(496)
Natural Gas					
Derivative assets	MMBTUs	830	148	1,900	993
Derivative liabilities	MMBTUs	(830)	(57)	(1,900)	(810)
Total Fair Value		Included in			
Derivative assets	Other assets	256		1,569	
Derivative liabilities	Other liabilities	(116)		(1,306)	

The following table is a summary of the Company's recognized income related to the activity, which was included in other noninterest income:

	Three Months Ended June 30, 2017	Six Months Ended June 30, 2016
Derivative income	\$—\$ 6	\$5 \$ 11

(Dollars in thousands)

The Company's credit exposure on oil and gas swaps and options varies based on the current market prices of oil and natural gas. Other than credit risk, changes in the fair value of customer positions will be offset by equal and opposite changes in the counterparty positions. The net positive fair value of the contracts is the profit derived from the activity and is unaffected by market price movements. The Company's share of total profit is approximately 35%.

Customer credit exposure is managed by strict position limits and is primarily offset by first liens on production while the remainder is offset by cash. Counterparty credit exposure is managed by selecting highly rated counterparties (rated A- or better by Standard and Poor's) and monitoring market information.

The following table is a summary of the Company's net credit exposure relating to oil and gas swaps and options with bank counterparties:

June 30, 2017	December 31, 2016
------------------	----------------------

(Dollars in thousands)

Credit exposure	\$ 76	\$	—
-----------------	-------	----	---

Balance Sheet Offsetting

Derivatives may be eligible for offset in the consolidated balance sheet and/or subject to master netting arrangements. The Company's derivative transactions with upstream financial institution counterparties and bank customers are generally executed under International Swaps and Derivative Association ("ISDA") master agreements which include "right of set-off" provisions. In such cases there is generally a legally enforceable right to offset recognized amounts and there may be an intention to settle such amounts on a net basis. Nonetheless, the Company does not generally offset such financial instruments for financial reporting purposes.

(11) SEGMENT INFORMATION

The Company evaluates its performance with an internal profitability measurement system that measures the profitability of its business units on a pre-tax basis. The four principal business units are metropolitan banks, community banks, other financial services and executive, operations and support. Metropolitan and community banks offer traditional banking products such as commercial and retail lending and a full line of deposit accounts. Metropolitan banks consist of banking locations in the metropolitan Oklahoma City and Tulsa areas. Community banks consist of banking locations in communities throughout Oklahoma. Other financial services are specialty product business units including guaranteed small business lending, residential mortgage lending, trust services, securities brokerage, electronic banking and insurance. The executive, operations and support groups represent executive management, operational support and corporate functions that are not allocated to the other business units.

Edgar Filing: BANCFIRST CORP /OK/ - Form 10-Q

The results of operations and selected financial information for the four business units are as follows:

	Metropolitan Community Banks		Financial Services	Other & Support	Executive, Operations Eliminations	Consolidated
	(Dollars in thousands)

December 31, 2016	2,493,096	4,412,174	83,594	803,810	(773,722)	7,018,952

The financial information for each business unit is presented on the basis used internally by management to evaluate performance and allocate resources. The Company utilizes a transfer pricing system to allocate the benefit or cost of funds provided or used by the various business units. Certain services provided by the support group to other business units, such as item processing, are allocated at rates approximating the cost of providing the services. Eliminations are adjustments to consolidate the business units and companies. Capital expenditures are generally charged to the business unit using the asset.

(12) SUBSEQUENT EVENT

Subsequent to June 30, 2017, the Company completed a two-for-one stock split of the Company's outstanding shares of common stock. The stock is payable in the form of a dividend on or about July 31, 2017 to shareholders of record of the outstanding common stock as of the close of business record date of July 17, 2017. Stockholders will receive

one additional share for each share held on that date. This represents the second stock split for the Company since going public.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis presents factors that the Company believes are relevant to an assessment and understanding of the Company's consolidated financial position and results of operations. This discussion and analysis should be read in conjunction with the Company's December 31, 2016 consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2016 and the Company's consolidated financial statements and the related Notes included in Item 1.

FORWARD LOOKING STATEMENTS

The Company may make forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 with respect to earnings, credit quality, corporate objectives, interest rates and other financial and business matters. Forward-looking statements include estimates and give management's current expectations or forecasts of future events. The Company cautions readers that these forward-looking statements are subject to numerous assumptions, risks and uncertainties, including economic conditions; the performance of financial markets and interest rates; legislative and regulatory actions and reforms; competition; as well as other factors, all of which change over time. Examples of forward-looking statements include, but are not limited to: (i) projections of revenues, expenses, income or loss, earnings or loss per share, the payment or nonpayment of dividends, capital structure and other financial items; (ii) statements of plans, objectives and expectations, including those relating to products or services; (iii) statements of future economic performance; and (iv) statements of assumptions underlying such statements. Words such as "believes", "anticipates", "expects", "intends", "targeted", "continue", "remain", "will", "should", "may" and other similar expressions are intended to identify forward-looking statements but are not the exclusive means of identifying such statements.

Forward-looking statements involve risks and uncertainties that may cause actual results to differ materially from those in such statements. Factors that could cause actual results to differ from those discussed in the forward-looking statements include, but are not limited to:

- Local, regional, national and international economic conditions and the impact they may have on the Company and its customers and the Company's assessment of that impact.
- Changes in the mix of loan geographies, sectors and types or the level of non-performing assets and charge-offs.
- Inflation, interest rate, crude oil price, securities market and monetary fluctuations.
- The effect of changes in laws and regulations (including laws and regulations concerning taxes, banking, securities and insurance) with which the Company must comply.
- Impairment of the Company's goodwill or other intangible assets.
- Changes in consumer spending, borrowing and savings habits.
- Changes in the financial performance and/or condition of the Company's borrowers.
- Technological changes.
- Acquisitions and integration of acquired businesses.
- The effect of changes in accounting policies and practices, as may be adopted by the regulatory agencies, as well as the Public Company Accounting Oversight Board, the Financial Accounting Standards Board and other accounting standard setters.
- The Company's success at managing the risks involved in the foregoing items.

Actual results may differ materially from forward-looking statements.

SUMMARY

BancFirst Corporation's net income was \$23.2 million, or \$1.42 diluted earnings per share, for the second quarter of 2017, compared to net income of \$17.5 million, or \$1.10 diluted earnings per share, for the second quarter of 2016. A lower effective tax rate and the resolution of a problem loan during the second quarter of 2017 added 7 cents per share. Net income was \$45.2 million, or \$2.78 diluted earnings per share, for the six months ended June, 30, 2017, compared to net income of \$34.1 million, or \$2.15 diluted earnings per share, for the six months ended June, 30, 2016. Net income for the first half of 2017 included the effects of favorable resolutions of three problem loans which resulted in principal recovery of \$894,000 and unaccrued interest income of \$2.7 million.

The Company's net interest income for the second quarter of 2017 increased to \$56.4 million, compared to \$50.9 million for the second quarter of 2016. The net interest margin for the quarter was 3.43%, compared to 3.28% a year ago. The increase in margin was primarily due to the increase in the federal funds rate and the favorable resolution of an acquired loan, which added 2 basis points. The Company's provision for loan losses for the second quarter of 2017 decreased to \$1.8 million, compared to \$2.8 million a year ago. The decrease in the provision was due in part to an unusually high provision for a few commercial loans in the prior year. Net charge-offs were stable at 0.02% of average loans for the second quarter of both 2017 and 2016. Noninterest income for the quarter totaled \$28.0 million, compared to \$26.1 million last year. Noninterest expense for the quarter totaled \$49.0 million, compared to \$47.7 million last year. The increase in noninterest expense was due to salary increases in 2017. The Company's effective tax rate was 31.1% compared to 33.7% for the second quarter of 2016 adding approximately \$875,000 to net income. The decrease in effective tax rate was due to a change in accounting standards related to stock based compensation.

At June 30, 2017, the Company's total assets were largely unchanged at \$7.0 billion, \$27.6 million above the December 31, 2016 total. Securities of \$451.4 million were down slightly from December 31, 2016. Loans totaled \$4.6 billion, an increase of \$177.9 million over December 31, 2016. Deposits were flat totaling \$6.2 billion at both June 30, 2017 and December 31, 2016. The Company's total stockholders' equity was \$748.5 million, an increase of \$37.4 million, or 5.3%, over December 31, 2016.

Asset quality remained strong during the second quarter of 2017. Nonperforming and restructured assets fell to 0.42% of total assets at June 30, 2017 compared to 0.56% at December 31, 2016. The decrease in nonperforming and restructured assets was largely due to the favorable resolution of three problem loans during the first half of 2017. The allowance to total loans was 1.07%, compared to 1.10% at year-end 2016. The allowance to nonperforming and restructured loans was 193.1% compared to 137.3% at year-end 2016.

On May 31, 2017, the Company announced that its Board of Directors approved a two-for-one stock split of the Company's outstanding shares of common stock. The stock is payable in the form of a dividend on or about July 31, 2017 to shareholders of record of the outstanding common stock as of the close of business record date of July 17, 2017. Stockholders will receive one additional share for each share held on that date. This represents the second stock split for the Company since going public.

Effective June 1, 2017, the Company organized a new wholly-owned captive insurance company named BancFirst Risk and Insurance. It insures certain risks of the Company and has entered into reinsurance agreements with a risk-sharing pool.

FUTURE APPLICATION OF ACCOUNTING STANDARDS

See Note (1) of the Notes to Consolidated Financial Statements for a discussion of recently issued accounting pronouncements.

SEGMENT INFORMATION

Net Interest Income

For the three months ended June 30, 2017, net interest income, which is the Company's principal source of operating revenue, increased 11.0% compared to the three months ended June 30, 2016. Net interest margin, which is shown in the preceding table, is the ratio of taxable-equivalent net interest income to average earning assets for the period. The increase in the federal funds rate of 25 basis points during the fourth quarter of 2016 and the first and second quarters of 2017 and the favorable resolution of an acquired loan, contributed to the higher net interest income and margin in 2017. If interest rates and/or loan volume do not increase, management would expect its net interest margin to generally remain at current levels.

Net interest income for the six months ended June 30, 2017 increased 10.3% compared to the six months ended June 30, 2016. The net interest margin for the year-to-date increased compared to the same period of the previous year, as

shown in the preceding table. The increase in the margin was primarily due to interest income of \$2.3 million related to the favorable resolution of three problem loans, which added approximately 0.09% to the margin, and the increase in the federal funds rate of 25 basis points during the fourth quarter of 2016 and the first and second quarters of 2017.

Provision for Loan Losses

The Company's provision for loan loss for the second quarter of 2017 decreased \$963,000 or 34.3% compared to a year ago. The decrease in the provision was due in part to an unusually high provision for a few commercial loans in the prior year. The Company establishes an allowance as an estimate of the probable inherent losses in the loan portfolio at the balance sheet date. Management believes the allowance for loan losses is appropriate based upon management's best estimate of probable losses that have been incurred within the existing loan portfolio. Should any of the factors considered by management in evaluating the appropriate level of the allowance for loan losses change, the Company's estimate of probable loan losses could also change, which could affect the amount of future provisions for loan losses. Net loan charge-offs were \$757,000 for the second quarter of 2017, compared to \$809,000 for the second quarter of 2016. The rate of net charge-offs to average total loans, as presented in the preceding table, continues to be at a very low level.

For the six months ended June 30, 2017, the Company's provision for loan losses decreased \$5.0 million or 72.3% compared to the six months ended June 30, 2016. The decrease in the provision was due in part to the resolution of three problem loans and an unusually high provision for a few commercial loans in the prior year. Net loan charge-offs were \$1.6 million, compared to \$2.0 million for the same period of the prior year.

Noninterest Income

Noninterest income totaled \$28.0 million for the second quarter of 2017 compared to \$26.1 million for the second quarter of 2016. Noninterest income included increases in trust revenue, insurance commissions, debit card usage fees and non-sufficient funds fees. The Company had fees from debit card usage totaling \$6.6 million and \$6.1 million during the three month periods ended June 30, 2017 and 2016, respectively. This represents 23.7% and 23.5% of the Company's noninterest income for the three month periods ended June 30, 2017 and 2016, respectively. In addition, the Company had non-sufficient fund fees totaling \$7.0 million and \$6.5 million during the three month periods ended June 30, 2017 and 2016, respectively. This represents 25.1% of the Company's noninterest income for both the three month periods ended June 30, 2017 and 2016.

Noninterest income for the six months ended June 30, 2017 totaled \$56.1 million compared to \$51.7 million for the six months ended June 30, 2016. Noninterest income included increases in trust revenue, insurance commissions, debit card usage fees and non-sufficient funds fees. Fees from debit card usage totaled \$12.9 million and \$12.0 million during the six months ended June 30, 2017 and 2016, respectively. This represents 22.9% and 23.3% of the Company's noninterest income for the six month periods ended June 30, 2017 and 2016, respectively. In addition, the Company had non-sufficient fund fees totaling \$13.9 million and \$12.7 million during the six months ended June 30, 2017 and 2016, respectively. This represents 24.8% and 24.5% of the Company's noninterest income for the six month periods ended June 30, 2017 and 2016, respectively.

Noninterest Expense

For the three months ended June 30, 2017, noninterest expense totaled \$49.0 million, compared to \$47.7 million for the three months ended June 30, 2016. The increase in noninterest expense for the second quarter of 2017 was primarily due to salary increases.

For the six months ended June 30, 2017, noninterest expense totaled \$98.5 million compared to \$94.0 million for the six months ended June 30, 2016. The increase in noninterest expense for year-to-date 2017 was primarily due to salary increases and \$1.3 million in gains on sale of other real estate owned that reduced expenses in 2016.

Income Taxes

The Company's effective tax rate on income before taxes was 31.1% for the second quarter of 2017, compared to 33.7% for the second quarter of 2016. The decrease in the effective tax rate was primarily due to Accounting Standards Update 2016-09, which is a change in accounting standards related to stock based compensation.

The Company's effective tax rate on income before taxes was 32.3% for the first six months of 2017, compared to 34.0% for the first six months of 2016. The decrease in the effective tax rate was primarily due to Accounting Standards Update 2016-09, which is a change in accounting standards related to stock based compensation.

FINANCIAL POSITION

BANCFIRST CORPORATION

SELECTED CONSOLIDATED FINANCIAL DATA

(Dollars in thousands, except per share data)

	June 30, 2017 (unaudited)	December 31, 2016

Nonperforming and restructured assets to total assets	0.42		0.56	
Allowance for loan losses to total loans	1.07		1.10	
Allowance for loan losses to nonperforming and restructured loans	193.05		137.27	

Cash and Interest-Bearing Deposits with Banks

The aggregate of cash and due from banks, interest-bearing deposits with banks and federal funds sold decreased \$134.3 million, or 7.3% to \$1.7 billion, from December 31, 2016 to June 30, 2017. This decrease was due primarily to the increase in loans and no growth in deposits.

Securities

At June 30, 2017, total securities decreased \$18.4 million, or 3.9% compared to December 31, 2016. The size of the Company's securities portfolio is determined by the Company's liquidity and asset/liability management. The net unrealized gain on securities available for sale, before taxes, was \$727,000 at June 30, 2017, compared to \$153,000 at December 31, 2016. These unrealized gains are included in the Company's stockholders' equity as accumulated other comprehensive income, net of income tax, in the amounts of \$446,000 and \$94,000, respectively.

Loans

At June 30, 2017, loans totaled \$4.6 billion, an increase of \$177.9 million over December 31, 2016. The 4.0% increase in loans was due to the continuation of internal loan growth.

Allowance for Loan Losses/Fair Value Adjustments on Acquired Loans

At June 30, 2017, the allowance for loan losses to total loans represented 1.07% of total loans, compared to 1.10% at December 31, 2016.

The fair value adjustment on acquired loans consists of an interest rate component to adjust the effective rates on the loans to market rates and a credit component to adjust for estimated credit exposures in the acquired loans. The credit component of the adjustment was \$1.5 million at June 30, 2017 and \$2.0 million at December 31, 2016, while the acquired loans outstanding were \$133.3 million and \$155.0 million, respectively.

Nonperforming and Restructured Assets

Nonperforming and restructured assets totaled \$29.6 million at June 30, 2017, compared to \$39.3 million at December 31, 2016. The Company's level of nonperforming and restructured assets has continued to be relatively low. The decrease in nonperforming and restructured assets in 2017 was due to the resolution of three problem loans.

Nonaccrual loans totaled \$19.6 million at June 30, 2017, compared to \$31.8 million at December 31, 2016. The Company's nonaccrual loans are primarily commercial and real estate loans. Nonaccrual loans negatively impact the Company's net interest margin. A loan is placed on nonaccrual status when, in the opinion of management, the future collectability of interest or principal or both is in serious doubt. Interest income is recognized on certain of these loans on a cash basis if the full collection of the remaining principal balance is reasonably expected. Otherwise, interest income is not recognized until the principal balance is fully collected. Had nonaccrual loans performed in accordance with their original contractual terms, the Company would have recognized additional interest income of approximately \$886,000 for the six months ended June 30, 2017 and \$982,000 for the for the six months ended June 30, 2016. Only a small amount of this interest is expected to be ultimately collected.

Other real estate owned and repossessed assets totaled \$4.2 million at June 30, 2017, compared to \$3.9 million at December 31, 2016.

Potential problem loans are performing loans to borrowers with a weakened financial condition, or which are experiencing unfavorable trends in their financial condition, which causes management to have concerns as to the ability of such borrowers to comply with the existing repayment terms. The Company had approximately \$6.3 million of these loans at June 30, 2017, compared to \$7.5 million at December 31, 2016. Potential problem loans are not included in nonperforming and restructured loans. In general, these loans are adequately collateralized and have no specific identifiable probable loss. Loans which are considered to have identifiable probable loss potential are placed on nonaccrual status, are allocated a specific allowance for loss or are directly charged-down, and are reported as nonperforming.

Liquidity and Funding

Deposits

At both June 30, 2017 and December 31, 2016, deposits totaled \$6.2 billion. The Company's core deposits provide it with a stable, low-cost funding source. The Company's core deposits as a percentage of total deposits were 94.8% at June 30, 2017 compared to 94.7% at December 31, 2016. Noninterest-bearing deposits to total deposits were 40.9% at June 30, 2017, compared to 40.4% at December 31, 2016.

Short-Term Borrowings

Short-term borrowings, consisting primarily of federal funds purchased and repurchase agreements are another source of funds for the Company. The level of these borrowings is determined by various factors, including customer demand and the Company's ability to earn a favorable spread on the funds obtained. Short-term borrowings were \$1.0 million at June 30, 2017, compared to \$500,000 at December 31, 2016.

Long-Term Borrowings

The Company has a line of credit from the Federal Home Loan Bank ("FHLB") of Topeka, Kansas to use for liquidity or to match-fund certain long-term fixed rate loans. The Company's assets, including residential first mortgages of \$681.4 million, are pledged as collateral for the borrowings under the line of credit. As of June 30, 2017 and December 31, 2016, the Company had no advances outstanding under the line of credit from FHLB. In addition, the Company has a revolving line of credit with the ability to draw up to \$10.0 million with no advances outstanding. This

line of credit has a variable rate based on prime rate minus 25 basis points and matures in 2020.

There have not been any other material changes from the liquidity and funding discussion included in Management's Discussion and Analysis in the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

Capital Resources

Stockholders' equity totaled \$748.5 million at June 30, 2017, compared to \$711.1 million at December 31, 2016. In addition to net income of \$45.2 million, other increases in stockholders' equity during the six months ended June 30, 2017 included \$3.4 million related to stock option exercises, \$465,000 related to stock-based compensation and \$352,000 increase in other comprehensive income, that were partially offset by \$12.1 million in dividends. The Company's leverage ratio and total risk-based capital ratios at June 30, 2017 were well in excess of the regulatory requirements.

See Note (7) of the Notes to Consolidated Financial Statements for a discussion of capital ratio requirements.

On January 20, 2017, the Company filed with the Securities and Exchange Commission (“SEC”) an automatic shelf registration statement on Form S-3, which became effective upon filing with the SEC. Under the shelf registration, the Company may offer and sell, from time to time, an indeterminate amount of its common stock in one or more future offerings.

CONTRACTUAL OBLIGATIONS

There have not been any material changes in the resources required for scheduled repayments of contractual obligations from the table of Contractual Cash Obligations included in Management’s Discussion and Analysis which was included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2016.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There have been no significant changes in the Registrant's disclosures regarding market risk since December 31, 2016, the date of its most recent annual report to stockholders.

Item 4. Controls and Procedures.

The Company's Chief Executive Officer, Chief Financial Officer and its Disclosure Committee, which includes the Company's Executive Chairman, Chief Risk Officer, Chief Internal Auditor, Chief Asset Quality Officer, Controller and General Counsel, have evaluated, as of the last day of the period covered by this report, the Company's disclosure controls and procedures. Based on their evaluation they concluded that the disclosure controls and procedures of the Company are effective to ensure that information required to be disclosed by the Company in the reports filed or submitted by it under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the applicable rules and forms.

No changes were made to the Company's internal control over financial reporting during the period covered by this report that materially affected, or are likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings.

The Company has been named as a defendant in various legal actions arising from the conduct of its normal business activities. Although the amount of any liability that could arise with respect to these actions cannot be accurately predicted, in the opinion of the Company, any such liability will not have a material adverse effect on the consolidated financial statements of the Company.

Item 1A. Risk Factors.

As of June 30, 2017, there have been no material changes from the risk factors previously disclosed in Part I, Item 1A, of the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

None.

Item 5. Other Information.

None.
