FORM 10-K

(Mark One)

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the fiscal year ended December 31, 2018

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934 FOR THE TRANSITION PERIOD FROM TO
Commission File Number 000-27517

GAIA, INC.

(Exact name of Registrant as specified in its Charter)

Colorado	84-1113527
(State or other jurisdiction of	(I.R.S. Employer
incorporation or organization)	Identification No.)
833 WEST SOUTH BOULDER ROAD	

LOUISVILLE, CO 80027
(Address of principal executive offices, including zip code)
(303) 222-3600
(Registrant's telephone number, including area code)
Securities registered pursuant to Section 12(b) of the Act:
Title of Each Class Name of Each Exchange on Which Registered
Class A Common Stock, \$.0001 Par Value NASDAQ Stock Market, LLC

Edgar Filing: GAIA, INC - Form 10-K

Securities registered pursuant to Section 12(g) of the Act:
None

Indicate by check mark if the Registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. YES NO

Indicate by check mark if the Registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act. YES NO

Indicate by check mark whether the Registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Indicate by check mark whether the Registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the Registrant was required to submit such files). YES NO

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405) is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	Accelerated filer
Non-accelerated filer	Smaller reporting company
Emerging growth company	

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). YES NO

The aggregate market value of the voting and non-voting common equity held by non-affiliates of the Registrant, based on the closing price of the shares of common stock on The NASDAQ Stock Market on June 30, 2018, was \$231,990,000. The registrant does not have non-voting common equity.

The number of shares of Registrant's Common Stock outstanding as of February 28, 2019 was 12,500,139 shares of the registrant's Class A common stock and 5,400,000 shares of the registrant's Class B common stock.

DOCUMENTS INCORPORATED BY REFERENCE

The following documents (or portions thereof) are incorporated by reference into the Parts of this Form 10-K noted:

Part III incorporates by reference from the definitive proxy statement for the registrant's 2019 Annual Meeting of Shareholders to be filed with the Commission pursuant to Regulation 14A not later than 120 days after the end of the fiscal year covered by this Form.

PART I

Item 1. Business

Our Business

Gaia, Inc. was incorporated under the laws of the State of Colorado on July 7, 1988 and operates a global digital video subscription service and on-line community that caters to a unique and underserved subscriber base. Our digital content library includes approximately 8,000 English language titles as well as a growing selection of titles available in French, German and Spanish. Our subscribers have unlimited access to this vast library of inspiring films, cutting edge documentaries, interviews, yoga classes, transformation-related content, and more – 85% of which is exclusively available to our subscribers for digital streaming on most internet-connected devices anytime, anywhere, commercial free.

Our mission is to create a transformational network that empowers a global conscious community. Content on our network is currently curated into four channels, Yoga, Transformation, Alternative Healing, and Seeking Truth, and delivered directly to our subscribers through our streaming platform. We curate programming for these channels by producing content in our in-house production studios with a staff of media professionals. This produced and owned content currently represents over 80% of our viewership. We complement our produced and owned content through long term, predominately exclusive, licensing agreements.

Our Content Channels

From the beginning, we have focused on establishing exclusive rights to unique content through in-house productions, licensing and strategic content acquisitions. Today, our network includes the following channels:

Yoga – Through our Yoga channel, our subscribers enjoy unlimited access to streaming yoga, Eastern arts, and other movement-based classes. Currently, we are one of the world's largest providers of streaming yoga classes. Blending ancient philosophy with anytime, anywhere access through modern technology, our classes on Eastern arts like T'ai Chi, Qigong, Ayurveda and more encourage the holistic integration of body, mind and spirit.

Transformation and Alternative Healing – Through our Transformation and Alternative healing channels, we feature a wealth of content in the niche areas of alternative and integrative medicines, holistic healing, longevity, spiritual growth and expanded consciousness. Our original and licensed content empowers subscribers to live stronger, healthier, more productive and enlightened lives.

Seeking Truth – As an alternative to mainstream media, our Seeking Truth channel provides new and enlightening perspectives for today's changing world. Through thought-provoking questions like who are we and why are we here, and topics that include ancient wisdom and metaphysics, we go beyond the boundaries of mainstream media, and encourage our viewers to find empowerment through knowledge and awareness. Through this channel, our subscribers have access to top names in the genre who conduct exclusive interviews and presentations not found anywhere else.

The Streaming Video Market and Gaia

Consumption of streaming video is expanding rapidly as more and more people augment their use of, or replace broadcast television with, streaming video to watch their favorite content on services like Netflix, Amazon Prime, Hulu, HBO Now and Gaia. The streaming video market includes various free, ad-supported and subscription service offerings focused on various genres, including films, broadcast and original series, fitness and educational content.

Gaia's position in the streaming video landscape is firmly supported by its wide variety of exclusive and unique content, which provides a complementary offering to other mostly entertainment-based streaming video services. Our original content is developed and produced in-house in our production studios near Boulder, Colorado. Over 85% of our content is available for streaming exclusively on Gaia to most internet-connected devices. By offering exclusive and unique content over a streaming service, we believe we will be able to significantly expand our target subscriber base. Gaia believes the current size of our potential target market represents approximately 15% of internet users that currently pay for a streaming video service.

Competitive Strengths

We believe that we differentiate ourselves from our competition and have been able to grow our business through the following demonstrated competitive strengths:

Exclusive Content and Ubiquitous Access – We have amassed a library of unique content for which we hold exclusive worldwide streaming distribution rights and have established exclusive relationships with certain key talent in our areas of focus. Over 85% of our titles are available to our subscribers for streaming on virtually any internet-connected device exclusively on Gaia.

Gaia Unplugged – We are able to leverage our content licensing and ownership advantage to enable “subscriber download” as part of our subscription. A Gaia subscription allows subscribers to download and view titles in our library without being actively connected to the internet as long as they remain a paying subscriber.

Proprietary and Curated Content – Proprietary and curated content lies at the core of our business model. Our media offerings introduce customers to us and help establish us as an authority in the conscious media market. Our in-house produced and owned content represents over 80% of our subscribers’ viewing time. Our licensed content has initial terms ranging from 3 to 10 years. With the growth in demand for digital rights, we expect that our large library of produced and acquired content combined with our internal production capabilities will be a key driver in our ability to grow efficiently and act as a hedge against the rising costs of digital rights.

International Rights – The strength of our proprietary content library created by our original content production strategy and our unique approach to content licensing have provided us with a library of niche content to which we hold exclusive worldwide distribution rights that we believe would be difficult to acquire in today’s market. By obtaining these rights, we have created a significant barrier to entry for competitors in our content niches and have given ourselves the potential to reach a worldwide subscriber base with no additional licensing costs. Based on viewership, over 95% of our library is available worldwide.

Unique Subscriber Base – We believe that our unique and exclusive content allows us to cater to a subscriber base that traditional media companies have mostly ignored. We believe this subscriber base can be significantly expanded as more and more people enter our niche categories and begin accessing streaming content over the internet.

Unique Content Strength – We believe that our unique focus, combined with our content exclusivity, positions us as a complementary service to larger streaming video providers who are primarily entertainment driven. In addition, this focus has allowed an opportunity for significant advantages:

- **Yoga**, we have an established consumer brand, a vast library of popular content, and knowledge and expertise on developing new content.

- **Transformation and Alternative Healing**, we bring a unique focus to an otherwise crowded field. These channels empower subscribers through programs about alternative and integrative medicines, holistic healing, longevity, meditation, and other shows on conscious topics that puts Gaia in the center of a rapidly growing market.

- **Seeking Truth**, Gaia offers category-leading talent that enables us to draw the most popular and authentic speakers, authors and experts in the alternative media world.

Growth Drivers

Our core strategy is to grow our streaming subscription business domestically and internationally using the following drivers:

Investment in Streaming Content – We believe that our investment in streaming content leads to more awareness and viewership of our unique content. This leads to subscriber acquisition and revenue growth, allowing us to invest more into our content library and enabling the growth cycle to continue. By investing in our in-house studios, digital asset management system and digital delivery platforms, we can produce and distribute new digital content at low incremental costs. With our end-to-end production capabilities and unique, exclusive, relationships with thought leaders in our areas of focus, we believe we can develop content much more efficiently than our competitors.

Continuous Service Improvements – We have found that incremental improvements in our service and quality enhance our subscriber satisfaction and retention. We have built our platform to optimize the speed and performance of streaming video playback, provide a unique and customized site experience for every subscriber and provide the foundation for our expansion into foreign languages. We continue to refine our technology, user interfaces, recommendation algorithms and delivery infrastructure to improve the customer experience.

Overall Adoption and Growth of Internet TV on Every Screen – Domestically, cable TV subscribers have been declining, while the demand for digital content services accessible on various devices has continued to grow. Gaia is accessible on a broad array of devices, including, but not limited to: Apple TV, iPad, iPhone, Roku, Chromecast, Android devices including phones, tablets and Amazon Fire, laptops, desktop computers and TVs through an HDMI cord. Through this accessibility, we believe that we enhance the value of our service to subscribers as well as position ourselves for continued growth as internet and mobile delivery of content becomes more popular.

International Market Expansion – We believe the international streaming segment represents a significant long-term growth opportunity for us as people around the world begin to adopt the viewing behaviors of the U.S. market. Our exclusive worldwide streaming rights have allowed us to expand internationally by adding foreign language support to our service without having to invest in local foreign operations. Today, approximately 30% of our direct subscribers are outside of the United States.

Complement our Existing Business with Selective Strategic Acquisitions – Our growth strategy is not solely dependent on acquisitions. However, we will consider strategic acquisitions that complement our existing business, increase our content library, expand our geographical reach, and add to our subscriber base. We will focus on companies with unique media content, a strong brand identity and subscribers that augment our existing subscriber base.

Marketing

We are building awareness and demand for the Gaia brand through various channels focusing on mobile and video. Organic search, paid search, digital and social media, email marketing, ambassador marketing, as well as various strategic partnerships make up our continually optimized portfolio of subscriber acquisition and retention tools. Rejoining subscribers are an important source of subscriber additions, many of which come back to Gaia after receiving special communications via email.

We maintain a website at www.gaia.com. The website address has been included only as a textual reference. Our website and the information contained on the website, or connected to the website, are not incorporated by reference into this Form 10-K.

History

We started as a conscious media and products company distributing conscious and non-theatrical media, with a maximum reach of approximately 70,000 retail doors in the United States. We divested several businesses in 2016, including our DVD distribution business and our Gaiam Brand consumer products business, for combined gains of over \$150 million.

We also expanded the number of conscious media titles with our 2007 acquisition of the entire content library of Wisdom Television. Wisdom operated for 20 years as a cable and satellite channel. Wisdom was the only TV channel that remained dedicated, year after year, to conscious media. With our acquisition of their digital media library we expanded our unique library of content directed at independent and progressive thinkers.

In October 2012, we launched our streaming video service and focused our efforts on growing domestically and internationally by expanding our streaming content, enhancing our user interface and extending our streaming content to even more internet-connected devices.

3

In 2013, we further expanded the digital yoga content available to our subscribers and expanded our presence and subscriber base in the yoga community through our acquisition of My Yoga Online, the largest streaming yoga media service in Canada.

In 2016, we relaunched gaia.com with an entirely new technology stack at its core. The new site was built to optimize the speed and performance of streaming video playback, provide a unique and customized site experience for every subscriber and provide the foundation for our planned expansion into foreign languages.

During 2017 and 2018, we launched French, German and Spanish language offerings. We have continued to invest in our international offerings, including original programming in French, German and Spanish.

In March 2018, we completed an underwritten public offering of 2,683,333 shares of our Class A common stock, which included 350,000 shares of Class A common stock issued pursuant to the over-allotment option granted to our underwriters, at a public offering price of \$15.00 per share. We received net proceeds of approximately \$37.1 million after deducting underwriting discounts and commissions and offering costs. A majority of our board of directors and executive management participated in the offering.

These investments in our subscription business have been instrumental in our ability to grow by expanding our streaming video on demand capabilities and increasing our library of unique content of transformational media, intended to awaken and inspire viewers around the world.

Regulatory Matters

A number of existing and proposed laws restrict disclosure of consumers' personal information, which may make it more difficult for us to generate additional names for our direct marketing and restrict our ability to send unsolicited electronic mail. Although we believe we are generally in compliance with current laws and regulations and that these laws and regulations have not had a significant impact on our business to date, it is possible that existing or future regulatory requirements will impose a significant burden on us.

Competition

While our content offering is unique, the market for subscription-based content delivered over the internet is intensely competitive and subject to rapid change. Many consumers maintain simultaneous relationships with multiple providers and can easily shift spending from one provider to another. We are a focused provider within the streaming video market that is able to compete by providing exclusive content available on almost any device. Our principal competitors vary by world geographic region and include multichannel video programming distributors and internet-based movie and TV content providers, including those that provide legal and illegal (pirated) streaming video content. We believe that due to the exclusivity of our content, we are positioning ourselves as a complementary service to large general content providers such as television broadcasters, cable television channels, and streaming services such as Netflix, Amazon Prime, Hulu and HBO Now. Based on internal surveys of our subscribers, a majority of our U.S. subscribers also subscribe to Netflix.

Seasonality

Our subscriber growth exhibits a seasonal pattern that reflects variations when consumers typically spend more time indoors and, as a result, tend to increase their viewing, similar to those of traditional TV and cable networks. Our subscriber growth is generally greatest during October through February and slowest in the May through August

period. As we continue to expand internationally, we expect regional seasonality trends to demonstrate more predictable seasonal patterns as our service offering in each market becomes more established and we have a longer history to assess such patterns.

Employees

As of February 28, 2019, we had approximately 150 employees, all of which are full-time employees. None of our employees are covered by a collective bargaining agreement.

Intellectual Property and Other Proprietary Rights

We regard our trademarks, service marks, copyrights, domain names, trade secrets, proprietary technologies and similar intellectual property as important to our success. We use a combination of trademark, copyright and trade secret laws and confidentiality agreements to protect our proprietary intellectual property. Our ability to protect and enforce our intellectual property rights is subject to certain risks, and from time to time we encounter disputes over rights and obligations concerning intellectual property. We cannot provide assurance that we will prevail in any intellectual property disputes.

Website and Available Information

Our corporate website at www.gaia.com provides information about us, our history, goals and philosophy, as well as certain financial reports and corporate press releases. Our www.gaia.com website also features a library of information and articles on personal development and healthy lifestyles, along with an extensive offering of video content. We believe our website provides us with an opportunity to deepen our relationships with our customers and investors, educate them on a variety of issues, and improve our service. As part of this commitment, we have a link on our corporate website to our Securities and Exchange Commission filings, including our reports on Forms 10-K, 10-Q and 8-K and amendments thereto. We make those reports available through our website, free of charge, as soon as reasonably practicable after these reports are filed with the Securities and Exchange Commission.

We have included our website address only as inactive textual reference, and the information contained on our website is not incorporated by reference into this Form 10-K.

Item 1A. Risk Factors

We caution you that there are risks and uncertainties that could cause our actual results to be materially different from those indicated by forward looking statements that we make from time to time in filings with the Securities and Exchange Commission, news releases, reports, communications to shareholders and other written and oral communications. These risks and uncertainties include those risks described below of which we are presently aware. Historical results are not necessarily an indication of future results. The risk factors below discuss important factors that could cause our business, financial condition, operating results and cash flows to be materially adversely affected.

If our efforts to attract and retain subscribers are not successful, our business will be adversely affected.

We have experienced significant subscriber growth since we began our digital subscription business in 2013. Our ability to continue to attract subscribers will depend in part on our ability to consistently provide our subscribers with a valuable and quality streaming experience. Furthermore, the relative service levels, content offerings, pricing and related features of our competitors may adversely impact our ability to attract and retain subscribers. We compete for screen viewing time with multichannel video programming distributors providing free-on-demand content through authenticated internet applications, internet-based movie and TV content providers, including both those that provide legal and illegal (or pirated) streaming video content, and streaming video retail stores, among others. If consumers do not perceive our service offering to be of value, or if we introduce new or adjust existing features or change the mix of content in a manner that is not favorably received by them, we may not be able to attract and retain subscribers.

In addition, many of our subscribers originate from word-of-mouth advertising from existing subscribers. If our efforts to satisfy our existing subscribers are not successful, we may not be able to attract new subscribers, and as a result, our ability to maintain and/or grow our business will be adversely affected. Subscribers cancel our service for many reasons, including a perception that they do not use the service sufficiently, the need to cut household expenses,

unsatisfactory availability of content, competitive services providing a better value or experience and customer service issues not satisfactorily resolved. We must continually add new subscribers both to replace subscribers who cancel and to grow our business beyond our current subscriber base. If too many of our subscribers cancel our service, or if we are unable to attract new subscribers in numbers sufficient to sustain and grow our business, our operating results will be adversely affected. If we are unable to successfully compete with current and new competitors in both retaining our existing subscribers and attracting new subscribers, our business will be

adversely affected. Further, if excessive numbers of subscribers cancel our service, we may be required to incur significantly higher marketing expenditures than we currently anticipate in order to replace these subscribers with new subscribers.

If we are unable to compete effectively, our business will be adversely affected.

The market for streaming content is intensely competitive and subject to rapid change. New technologies and evolving business models for delivery of streaming content continue to develop at a fast pace. Through new and existing distribution channels, consumers are afforded various means for consuming streaming content. The various economic models underlying these differing means of streaming content delivery include subscription, transactional, ad-supported and piracy-based models. All of these have the potential to capture meaningful segments of the streaming content market. Several competitors have longer operating histories, larger customer bases, and stronger brand recognition than we do and have significant financial, marketing and other resources. They may secure better terms from suppliers, adopt more aggressive pricing and devote more resources to technology and marketing. New entrants may enter the market with unique service offerings or approaches to providing streaming content and other companies also may enter into business combinations or alliances that strengthen their competitive positions. If we are unable to successfully compete with current and new competitors, programs and technologies, our business will be adversely affected, and we may not be able to increase market share and revenues, and achieve profitability.

We could be harmed by data loss or other security breaches.

As a result of our services being internet-based and the fact that we process, store, and transmit data, including personal information, for our customers, failure to prevent or mitigate data loss or other security breaches, including breaches of our suppliers' technology and systems, could expose us or our customers to a risk of loss or misuse of such information, adversely affect our operating results, result in litigation or potential liability for us, and otherwise harm our business. We use third-party technology and systems for a variety of reasons, including, without limitation, encryption and authentication technology, employee email, content delivery to customers, back-office support, and other functions. Although we have implemented systems and processes that are designed to protect customer information and prevent data loss and other security breaches, including systems and processes designed to reduce the impact of a security breach at a third-party supplier, such measures cannot provide absolute security.

We have had operating losses, and we cannot assure future profitability.

As a result of our continued investment in subscription acquisition efforts to drive revenue growth, we reported losses from continuing operations of \$33.8 million and \$23.7 million for fiscal years 2018 and 2017, respectively. We cannot assure you that we will operate profitably in future periods and, if we do not, we may not be able to meet any future debt service requirements, working capital requirements, capital expenditure plans, production slate, acquisition plans or other cash needs. Our inability to meet those needs could have a material adverse effect on our business, financial condition, operating results, liquidity and prospects.

If we are not able to manage change and growth, our business could be adversely affected.

We are expanding our operations internationally, scaling our streaming service to effectively and reliably handle anticipated growth in both subscribers and features related to our service, as well as continuing to provide our Spiritual Cinema Circle monthly DVD subscription offerings for an additional fee. As we expand internationally, we are managing our business to address varied content offerings, consumer customs and practices, in particular those dealing with e-commerce and internet video, as well as differing legal and regulatory environments. As we scale our streaming service, we are developing technology and utilizing third-party internet-based or "cloud" computing services. If we are not able to manage the growing complexity of our business, including improving, refining or revising our

systems and operational practices related to our streaming operations, our business could be adversely affected.

6

If our efforts to build unique brand identity and improve subscriber satisfaction and loyalty are not successful, we may not be able to attract or retain subscribers, and our operating results may be adversely affected.

We must continue to build and maintain a unique brand identity. We believe that a unique brand identity will be important in attracting and retaining subscribers who have a number of choices from which to obtain streaming content. To build a unique brand identity we believe we must continue to offer content and service features that our subscribers value and enjoy. We also believe that these must be coupled with effective consumer communications, such as marketing, customer service and public relations. If our efforts to promote and maintain our brand identity are not successful, our ability to attract and retain subscribers may be adversely affected. Such a result may adversely affect our operating results.

With respect to our expansion into international markets, we will also need to establish our brand identity in new markets and languages, and to the extent we are not successful, our business in new markets may be adversely impacted.

Changes in our subscriber acquisition sources could adversely affect our marketing expenses and subscriber levels may be adversely affected.

We utilize a broad mix of marketing and public relations programs, including social media websites such as Facebook and Youtube, to promote our service to potential new subscribers. We may limit or discontinue use or support of certain marketing sources or activities if advertising rates increase or if we become concerned that subscribers or potential subscribers deem certain marketing practices intrusive or damaging to our brand. If available marketing channels are limited or curtailed, our ability to attract new subscribers may be adversely affected.

Companies that currently promote our services may cease promoting our services, may determine to compete more directly with our business or enter a similar business, or may decide to exclusively support our competitors. If we no longer have access to such marketing channels, our marketing efforts may be adversely affected. If we are unable to maintain or replace our sources of subscribers with similarly effective sources, or if the cost of our existing sources increases, our subscriber levels and marketing expenses may be adversely affected.

We face risks, such as unforeseen costs, and potential liabilities in connection with content we produce, license and/or distribute through our service.

As a distributor of content, we face potential liability for negligence, copyright or trademark infringement or other claims based on the nature and content of materials that we produce, license and/or distribute. We also face potential liability for content used in promoting our service, including marketing materials and features on our website such as subscriber reviews.

We are responsible for production costs and other expenses related to our original content. We also take on risks associated with this production, such as completion and key talent risk. To the extent we do not accurately anticipate costs or mitigate risks, or if we become liable for content we produce, license and/or distribute, our business may suffer. Litigation to defend these claims could be costly and the expenses and damages arising from any liability or unforeseen production risks could harm our results of operations. We may not be indemnified to cover claims or costs of these types and we may not have insurance coverage for these types of claims.

We rely upon a number of partners to offer instant streaming of content to various devices.

We currently offer subscribers the ability to receive streaming content through a host of internet-connected devices, including internet-enabled TVs, digital video players and mobile devices. We intend to continue to broaden our

capability to instantly stream content to other platforms over time. If we are not successful in maintaining existing and creating new relationships, or if we encounter technological, content licensing or other impediments to our streaming content, our ability to grow our business could be adversely impacted.

We have entered into agreements with certain consumer electronics partners, pursuant to which each makes available an “app” for viewing our content on its hardware platform. Our agreements with our consumer electronics

7

partners are typically between one and three years in duration and our business could be adversely affected if, upon expiration, our partners do not continue to provide access to our service or are unwilling to do so on terms acceptable to us, which terms may include the degree of accessibility and prominence of our service.

Furthermore, the devices consumers use to access our content are manufactured and sold by entities other than Gaia and the devices' performance and the connection between these devices and our service may result in consumer dissatisfaction that could result in claims against us or otherwise adversely impact our business. In addition, technology changes to our streaming functionality may require that partners update their devices. If partners do not update or otherwise modify their devices, our service and our subscribers' use and enjoyment could be negatively impacted.

Any significant disruption in our network or information systems or those of third parties that we utilize in our operations could result in a loss or degradation of service and could adversely impact our business.

Our reputation and ability to attract, retain and serve our subscribers is dependent upon the reliable performance of our network and information systems and those of third parties that we utilize in our operations. We experience occasional system interruptions and delays that make our websites and services unavailable or slow to respond and prevent us from efficiently providing services to our customers, which may reduce the attractiveness of our services. If we are unable to effectively upgrade our systems and network infrastructure, and take other steps to improve the efficiency of our systems, it could cause system interruptions or delays and adversely affect our operating results.

Our systems may be subject to damage or interruption from adverse weather conditions, natural disasters, terrorist attacks, power loss, telecommunications failures, computer viruses, computer denial of service attacks, or other attempts to harm these systems. Interruptions in these systems, or to the internet in general, could make our service unavailable or degraded or otherwise hinder our ability to deliver content to our subscribers. Service interruptions, errors in our software or the unavailability of network or information systems used in our operations could diminish the overall attractiveness of our subscribership service to existing and potential subscribers.

We utilize third-party internet-based or "cloud" computing services in our business operations. We also utilize third-party content delivery networks to help us stream content in high volume to our subscribers over the internet. Problems with these systems faced by us or our service providers, including technological or business-related disruptions, could adversely impact the experience of our subscribers.

Any significant disruption in or unauthorized access to our network or information systems or those of third parties that we utilize in our operations arising from cyber-attacks could result in a loss or degradation of service, unauthorized disclosure of data (including subscriber and corporate information), or theft of intellectual property, including digital content assets, which could adversely impact our business.

Our network and information systems and those of third parties we use in our operations are vulnerable to cybersecurity threats, including cyber-attacks such as computer viruses, denial of service attacks, physical or electronic break-ins and similar disruptions. These systems may experience directed attacks intended to lead to interruptions and delays in our service and operations as well as loss, misuse or theft of data or confidential information. Additionally, outside parties may attempt to fraudulently induce employees or users to disclose sensitive or confidential information in order to gain access to data. Any successful attempt by hackers to obtain our data (including subscribers and corporate information) or intellectual property (including digital content assets), disrupt our service, or otherwise access our systems (or those of third parties we use), could harm our business, be expensive to remedy and damage our reputation. We have implemented certain systems and processes to thwart hackers and protect our data and systems, but techniques used to gain unauthorized access to data and software are constantly evolving, and we may be unable to anticipate or prevent unauthorized access. To date hackers have not had a material impact on

our service or systems, although a risk remains that hackers may be successful in the future. Our insurance does not cover expenses related to such disruptions or unauthorized access. Efforts to prevent hackers from disrupting our service or otherwise accessing our systems are expensive to develop, implement and maintain. These efforts require ongoing monitoring and updating as technologies change and efforts to overcome security measures become more sophisticated and may limit the functionality of or otherwise negatively impact our service offering and systems. Any significant disruption to our service or access to our systems could result in a loss of subscribers and adversely affect our business and results of operations. Further, a penetration of our systems or a

third party's systems or other misappropriation or misuse of personal information could subject us to business, regulatory, litigation and reputation risk, which could have a negative effect on our business, financial condition and results of operations.

Our reputation and relationships with subscribers would be harmed if our subscriber data, particularly payment data, were to be accessed by unauthorized persons.

We maintain personal data regarding our subscribers, including names and payment data. This data is maintained on our own systems as well as that of third parties we use in our operations. With respect to payment data, such as credit and debit card numbers, we rely on licensed encryption and authentication technology to secure such information. We take measures to protect against unauthorized intrusion into our subscribers' data. Despite these measures we, our payment processing services or other third-party services we use, could experience an unauthorized intrusion into our subscribers' data. In the event of such a breach, current and potential subscribers may become unwilling to provide the information to us necessary for them to remain or become subscribers. We may also be required to notify regulators about any actual or perceived data breach (including the EU Lead Data Protection Authority) as well as the individuals who are affected by the incident within strict time periods. Additionally, we could face legal claims or regulatory fines or penalties for such a breach. The costs relating to any data breach could be material, and we currently do not carry insurance against the risk of a data breach. For these reasons, should an unauthorized intrusion into our subscribers' data occur, our business could be adversely affected.

We rely on our proprietary technology to stream content and to manage other aspects of our operations, and the failure of this technology to operate effectively could adversely affect our business.

We continually enhance or modify the technology used for our operations. We cannot be sure that any enhancements or other modifications we make to our operations will achieve the intended results or otherwise be of value to our subscribers. Future enhancements and modifications to our technology could consume considerable resources. If we are unable to maintain and enhance our technology to manage the streaming of content to our subscribers in a timely and efficient manner, or if our technology or that of third parties we utilize in our operations fails or otherwise operates improperly, our ability to retain existing subscribers and to add new subscribers may be impaired. Also, any harm to our subscribers' personal computers or other devices caused by software used in our operations could have an adverse effect on our business, results of operations and financial condition.

Changes in how network operators handle and charge for access to data that travel across their networks could adversely impact our business.

We rely upon the ability of consumers to access our service through the internet. To the extent that network operators implement usage-based pricing, including meaningful bandwidth caps, or otherwise try to monetize access to their networks by data providers, we could incur greater operating expenses and our subscriber acquisition and retention could be negatively impacted. Furthermore, to the extent network operators were to create tiers of internet access service and either charge us for, or prohibit us from, being available through these tiers, our business could be negatively impacted.

Increases in payment processing fees, changes to operating rules, the acceptance of new types of payment methods or payment fraud could increase our operating expenses and adversely affect our business and results of operations.

Our subscribers pay for our services predominately using credit and debit cards. Our acceptance of these payment methods requires our payment of certain fees. From time to time, these fees may increase, either as a result of rate changes by the payment processing companies or as a result of a change in our business practices which increase the fees on a cost-per-transaction basis. Such increases may adversely affect our results of operations.

We are subject to rules, regulations and practices governing our accepted payment methods. These rules, regulations and practices could change or be reinterpreted to make it difficult or impossible for us to comply. If we fail to comply with these rules or requirements, we may be subject to fines and higher transaction fees and lose our ability to accept these payment methods, and our business and results of operations would be adversely affected.

We accept payment methods other than credit and debit cards. As our service continues to evolve and expand internationally, we will likely continue to explore accepting various forms of payment, which may have higher fees and costs than our currently accepted payment methods. If more consumers utilize higher cost payment methods our payment costs could increase and our results of operations could be adversely impacted.

In addition, we do not obtain signatures from subscribers in connection with their use of payment methods. To the extent we do not obtain subscribers' signatures, we may be liable for fraudulent payment transactions, even when the associated financial institution approves payment of the orders. From time to time, fraudulent payment methods are used to obtain service. While we do have safeguards in place, we nonetheless experience some fraudulent transactions. We do not currently carry insurance against the risk of fraudulent payment transactions. A failure to adequately control fraudulent payment transactions would harm our business and results of operations.

If our trademarks and other proprietary rights are not adequately protected to prevent unauthorized use or appropriation, the value of our brand and other intangible assets may be diminished, and our business may be adversely affected.

We rely and expect to continue to rely on a combination of confidentiality and license agreements with our employees, consultants and third parties with whom we have relationships, as well as trademark, copyright and trade secret protection laws, to protect our proprietary rights. We may also seek to enforce our proprietary rights through court proceedings. We may file trademark applications from time to time. These applications may not be approved, third parties may challenge any trademarks issued to or held by us, third parties may knowingly or unknowingly infringe our trademarks and other proprietary rights, and we may not be able to prevent infringement or misappropriation without substantial expense to us.

We currently hold various domain names, including www.gaia.com and www.gaiamtv.com. Failure to protect our domain names could adversely affect our reputation and make it more difficult for users to find our website and our service. We may be unable, without significant cost or at all, to prevent third parties from acquiring domain names that are similar to, infringe upon or otherwise decrease the value of our trademarks and other proprietary rights.

Intellectual property claims against us could be costly and result in the loss of significant rights related to, among other things, our website, title selection processes and marketing activities.

Our intellectual property rights extend to our technology, business processes and the content on our website. We use the intellectual property of third parties in marketing and providing our services through contractual and other rights. From time to time, third parties may allege that we have violated their intellectual property rights. If we are unable to obtain sufficient rights, successfully defend our use, or develop non-infringing technology and content or otherwise alter our business practices on a timely basis in response to claims of infringement, misappropriation, misuse or other violation of third-party intellectual property rights, our business and competitive position may be adversely affected.

Many companies devote significant resources to developing patents that could potentially affect many aspects of our business. There are numerous patents that broadly claim means and methods of conducting business on the internet. We have not searched patents relative to our technology. Defending ourselves against intellectual property claims, whether they are with or without merit or are determined in our favor, will result in costly litigation and diversion of technical and management personnel. Infringement claims also may result in our inability to use our current website, streaming technology, our recommendation and personalization technology or inability to market our service. As a result of disputes, we may have to develop non-infringing technology, enter into royalty or licensing agreements, adjust our merchandising or marketing activities or take other actions to resolve the claims. These actions, if required, may be costly or unavailable on terms acceptable to us.

Piracy of video, including digital and internet piracy, could adversely affect our business.

Video piracy is extensive in many parts of the world and is made easier by technological advances and the conversion of video into digital formats. This trend facilitates the creation, transmission and sharing of high-quality unauthorized copies of content on DVDs, Blu-ray discs, and the internet. We may have to implement elaborate and

10

costly security and anti-piracy measures, which could result in significant expenses and losses of revenue. We cannot assure you that security and anti-piracy measures will prevent the piracy of our content. The proliferation of unauthorized copies of these products could have an adverse effect on our business, because these products could reduce the revenues we receive from our subscription service.

Our online activities are subject to a variety of laws and regulations relating to privacy which, if violated, could subject us to an increased risk of litigation and regulatory actions.

In addition to our websites and applications, we use third-party applications, websites, and social media platforms to promote our service and engage consumers, as well as monitor and collect certain information about users of our service. There are a variety of laws and regulations governing individual privacy and the protection and use of information collected from such individuals, particularly in relation to an individual's personally identifiable information (e.g., credit card numbers). Many foreign countries have adopted similar laws governing individual privacy, some of which are more restrictive than similar U.S. laws. If our online activities were to violate any applicable current or future laws and regulations, we could be subject to litigation and regulatory actions, including fines and other penalties.

We may be subject to litigation which, if adversely determined, could cause us to incur substantial losses.

From time to time during the normal course of operating our businesses, we are subject to various litigation claims and legal disputes. Some of the litigation claims may not be covered under our insurance policies, or our insurance carriers may seek to deny coverage. As a result, we might be required to incur significant legal fees, which may have a material adverse effect on our financial position. In addition, because we cannot accurately predict the outcome of any dispute, it is possible that, as a result of current and/or future litigation, we will be subject to adverse judgments or settlements that could significantly reduce our earnings or result in losses.

We may face legal liability for the content contained on our website.

We could face legal liability for defamation, negligence, copyright, patent or trademark infringement, personal injury or other claims based on the nature and content of materials that we publish or distribute on our website. If we are held liable for damages for the content on our website, our business may suffer. Allegations of impropriety, even if unfounded, could therefore have a material adverse effect on our reputation and our business.

If government regulations relating to the internet or other areas of our business change, we may need to alter the manner in which we conduct our business or incur greater operating expenses.

The adoption or modification of laws or regulations relating to the internet or other areas of our business could limit or otherwise adversely affect the manner in which we currently conduct our business. In addition, the continued growth and development of the market for online commerce may lead to more stringent consumer protection laws, which may impose additional burdens on us. If we are required to comply with new regulations or legislation or new interpretations of existing regulations or legislation, this compliance could cause us to incur additional expenses or alter our business model.

The adoption or modification of any laws or regulations that adversely affect the growth, popularity or use of the internet, including laws impacting internet neutrality, could decrease the demand for our service and increase our cost of doing business. For example, as a result of the repeal of internet neutrality regulations in the United States, broadband internet access providers may be able to charge web-based services such as ours for priority access to customers, which could result in increased costs and a loss of existing users, impairment of our ability to attract new users, and material adverse effects on our business and opportunities for growth. Additionally, as we expand

internationally, government regulation concerning the internet, and in particular, network neutrality, may be nascent or non-existent. Within such a regulatory environment, coupled with potentially significant political and economic power of local network operators, we could experience discriminatory or anti-competitive practices that could impede our growth, cause us to incur additional expense or otherwise negatively affect our business.

We could be subject to economic, political, regulatory and other risks arising from international operations.

Operating in international markets requires significant resources and management attention and will subject us to regulatory, economic and political risks that may be different from and incremental to those in the United States. In addition to the risks that we face in the United States, our international operations may involve risks that could adversely affect our business, including the following: the need to adapt our content and user interfaces for specific cultural and language differences, including licensing a certain portion of our content library before we have developed a full appreciation for its performance within a given territory; difficulties and costs associated with staffing and managing foreign operations; management distraction; political or social unrest and economic instability; compliance with U.S. laws, such as the Foreign Corrupt Practices Act, export controls and economic sanctions, and local laws prohibiting corrupt payments to government officials; unexpected changes in regulatory requirements; less favorable foreign intellectual property laws; adverse tax consequences such as those related to repatriation of cash from foreign jurisdictions into the United States, non-income related taxes such as value-added tax or other indirect taxes, changes in tax laws or their interpretations, or the application of judgment in determining our global provision for income taxes and other tax liabilities given inter-company transactions and calculations where the ultimate tax determination is uncertain; fluctuations in currency exchange rates, which could impact revenues and expenses of our international operations and expose us to foreign currency exchange rate risk; profit repatriation and other restrictions on the transfer of funds; differing payment processing systems as well as consumer use and acceptance of electronic payment methods, such as credit and debit cards; new and different sources of competition; different and more stringent user protection, data protection, privacy and other laws; and availability of reliable broadband connectivity and wide area networks in targeted areas for expansion.

Our failure to manage any of these risks successfully could harm our international operations and our overall business, and results of our operations.

We may seek additional capital that may result in shareholder dilution or that may have rights senior to those of our common shareholders.

From time to time, we may seek to obtain additional capital, either through equity, equity-linked or debt securities. Our cash flows provided by our operating activities have been negative in each of the last two years, primarily as a result of our decision to increase the amount expended on marketing and expanding our subscriber base. To the extent our cash flows from operations continue to be negative, we anticipate seeking additional capital. The decision to obtain additional capital will depend on, among other things, our business plans, operating performance and condition of the capital markets. If we raise additional funds through the issuance of equity, equity-linked or debt securities, our shareholders may experience dilution, and such securities may have rights, preferences or privileges senior to the rights of our common stock. Any large equity or equity-linked offering could also negatively impact our stock price.

We may lose key employees or may be unable to hire qualified employees.

We rely on the continued service and performance of our senior management, including in particular Jirka Rysavy, our Chairman, CEO and founder. In our industry, there is substantial and continuous competition for highly skilled business, product development, technical and other personnel. Hiring qualified management is difficult due to the limited number of qualified professionals in the industry in which we operate. Failure to recruit, attract and retain personnel, particularly management personnel, could materially harm our business, financial condition, and results of operations.

We may face quarterly and seasonal fluctuations that could harm our business.

Our revenues and results of operations have fluctuated in the past, and will likely continue to fluctuate, on a quarterly basis. Such fluctuation is the result of a seasonal pattern that reflects variations when consumers are typically spending more time indoors and, as a result, tend to increase their viewing, similar to those of general video streaming services. Our subscriber growth is generally greatest in the fourth and first quarters (October through March), and slowest in the May through August period.

Acquisitions and new initiatives may harm our financial results.

We have historically expanded our operations in part through strategic acquisitions and through new initiatives that we generate. We cannot accurately predict the timing, size and success of these efforts. Our acquisition and new initiative strategies involve significant risks that could inhibit our growth and negatively impact our operating results, including the following: our ability to identify suitable acquisition candidates or new initiatives at acceptable prices; our ability to complete the acquisitions of candidates that we identify or develop our new initiatives; our ability to compete effectively for available acquisition opportunities; increases in asking prices by acquisition candidates to levels beyond our financial capability or to levels that would not result in the returns required by our acquisition criteria; diversion of management's attention to expansion efforts; unanticipated costs and contingent liabilities associated with acquisitions and new initiatives; failure of acquired businesses or new initiatives to achieve expected results; our failure to retain key customers or personnel of acquired businesses and difficulties entering markets in which we have no or limited experience. In addition, the size, timing and success of any future acquisitions and new initiatives may cause substantial fluctuations in our operating results from quarter to quarter. Consequently, our operating results for any quarter may not be indicative of the results that may be achieved for any subsequent quarter or for a full fiscal year. These fluctuations could adversely affect our results.

Our founder, chairman and CEO, Jirka Rysavy, has voting control over us.

Mr. Rysavy holds 100% of our 5,400,000 outstanding shares of Class B common stock and also owns 366,682 shares of Class A common stock. The shares of Class B common stock are convertible into shares of Class A common stock at any time. Each share of Class B common stock has ten votes per share, and each share of Class A common stock has one vote per share. Consequently, Mr. Rysavy holds approximately 82% of our voting stock and is able to exert substantial influence and to control matters requiring approval by shareholders, including the election of directors, increasing our authorized capital stock, or a merger or sale of substantially all of our assets. As a result of Mr. Rysavy's control of us, no change of control can occur without Mr. Rysavy's consent.

Our business is subject to reporting requirements that continue to evolve and change, which could continue to require significant compliance effort and resources.

Because our common stock is publicly traded, we are subject to certain rules and regulations of federal, state and financial market exchange entities charged with the protection of investors and the oversight of companies whose securities are publicly traded. These entities, including the Public Company Accounting Oversight Board, the SEC and NASDAQ, periodically issue new requirements and regulations. Legislative bodies also review and revise applicable laws. As interpretation and implementation of these laws and rules and promulgation of new regulations continues, we will continue to be required to commit significant financial and managerial resources and incur additional expenses.

Liability relating to environmental matters may impact the value of our real property.

We may be subject to environmental liabilities arising from our ownership of real property. Under various U.S. federal, state and local laws, an owner or operator of real property may become liable for the costs of removal of certain hazardous substances released on its property. These laws often impose liability without regard to whether the owner or operator knew of, or was responsible for, the release of such hazardous substances.

The presence of hazardous substances on real property owned by us may adversely affect our ability to sell such real property and we may incur substantial remediation costs, thus harming our financial condition. The discovery of material environmental liabilities attached to such real property could adversely affect our results of operations and financial condition.

Any of these events, in combination or individually, could disrupt our business and adversely affect our business, financial condition, results of operations and cash flows.

Item 1B. Unresolved Staff Comments

None.

13

Item 2. Properties

Our principal executive office is located in Louisville, Colorado.

	Size	Use	Lease Expiration
Louisville, CO	150,262 sq. ft.	Headquarters and studios	Owned

We lease to third parties approximately 75,000 square feet of our building space located in Colorado. We believe our facility is adequate to meet our current needs and that suitable additional facilities will be available for lease or purchase when, and as, we need them.

Item 3. Legal Proceedings

From time to time, we are involved in legal proceedings that we consider to be in the normal course of business. We record accruals that can be reasonably estimated for losses related to matters against us that we consider to be probable. In the opinion of management, based on available information, settlements, arbitration awards and final judgments, if any, that are considered probable of being rendered against us in litigation or arbitration in existence at December 31, 2018 and that can be reasonably estimated are either reserved against or would not have a material adverse effect on our financial condition, results of operations or cash flows.

Item 4. Mine Safety Disclosures

Not applicable.

PART II

Item 5. Market for Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Stock Price History

Our Class A common stock is listed on the NASDAQ Global Market under the symbol “GAIA”. On February 28, 2019, we had 3,341 shareholders of record and 12,500,139 shares of \$.0001 par value Class A common stock outstanding, and we had 5,400,000 shares of \$.0001 par value Class B common stock outstanding, held by one shareholder.

The following table sets forth certain sales price data for our Class A common stock for the period indicated:

	High	Low
2018		
Fourth Quarter	\$17.20	\$9.36
Third Quarter	\$22.10	\$15.20
Second Quarter	\$22.75	\$14.70
First Quarter	\$17.70	\$11.32
2017		
Fourth Quarter	\$13.40	\$11.85
Third Quarter	\$13.50	\$10.35
Second Quarter	\$12.40	\$10.00
First Quarter	\$10.37	\$7.88

Issuer Purchases of Registered Equity Securities

None.

14

Dividend Policy

No dividends were declared or paid during the twelve months ended December 31, 2018 and 2017.

Sales of Unregistered Securities

None.

Equity Compensation Plan Information

The following table summarizes equity compensation plan information for our Class A common stock at December 31, 2018:

	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans
Equity compensation plans approved by security holders	1,584,225	\$ 7.97	1,415,775
Equity compensation plans not approved by security holders	—	—	—
Total	1,584,225	\$ 7.97	1,415,775

Item 6. Selected Financial Data

As a smaller reporting company, we are not required to provide the information required by this Item.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations Forward-Looking Statements

This report contains forward-looking statements that involve risks and uncertainties. When used in this discussion, we intend the words "anticipate," "believe," "plan," "estimate," "expect," "strive," "future," "intend", "will" and similar expressions to identify such forward-looking statements. Our actual results could differ materially from the results anticipated in these forward-looking statements as a result of certain factors set forth under "Risk Factors," "Management's Discussion and Analysis of Financial Condition and Results of Operations," "Quantitative and Qualitative Disclosures About Market Risk" and elsewhere in this Form 10-K. Risks and uncertainties that could cause actual results to differ include, without limitation, general economic conditions, ongoing losses, competition, loss of key personnel, pricing, brand reputation, acquisitions, new initiatives we undertake, security and information systems, legal liability for website content, failure of third parties to provide adequate service, future internet related taxes, our founder's control of us, litigation, fluctuations in quarterly operating results, consumer trends, the effect of government regulation and programs and other risks and uncertainties included in our filings with the Securities and Exchange Commission. We caution you that no forward-looking statement is a guarantee of future performance, and you should not place undue reliance on these forward-looking statements which reflect our views only as of the date of this report. We undertake no obligation to update any forward-looking information.

You should read the following discussion and analysis of our financial condition and results of operations in conjunction with the consolidated financial statements and related notes included elsewhere in this document. This section is designed to provide information that will assist readers in understanding our consolidated financial statements, changes in certain items in those statements from year to year, the primary factors that caused those changes and how certain accounting principles, policies and estimates affect the consolidated financial statements.

Overview and Outlook

We operate a global digital video subscription service with a library of approximately 8,000 English language titles as well as a growing selection of titles available in French, German and Spanish, that caters to a unique, underserved subscriber base. Our digital content is available to our subscribers on most internet-connected devices anytime, anywhere commercial-free. Through our online Gaia subscription service our subscribers have unlimited access to a library of inspiring films, cutting edge documentaries, interviews, yoga classes, transformation related content, and more – 85% of which is exclusively available to our subscribers for digital streaming on most internet-connected devices. A subscription also allows our subscribers to download files from our library and view them without being actively connected to the internet.

Consumption of streaming video is expanding rapidly as more and more people augment their use of, or replace broadcast television and turn to, streaming video to watch their favorite content on services like Netflix, Amazon Prime, Hulu, HBO Now and Gaia.

Gaia's position in the streaming video landscape is firmly supported by its wide variety of exclusive and unique content, which provides a complementary offering to other entertainment-based streaming video services. Our original content is developed and produced in-house in our production studios near Boulder, Colorado. Over 85% of our content is available for streaming exclusively on Gaia. By offering exclusive and unique content through our streaming service, we believe we will be able to significantly expand our target subscriber base.

Our available content is currently focused on yoga, transformation, alternative healing, seeking truth and conscious films. This content is specifically targeted to a unique customer base that is interested in alternatives and supplements to the content provided by mainstream media. We have grown these content options both organically through our own productions and through strategic acquisitions. In addition, through our investments in our streaming video technology

and our user interface, we have expanded the many ways our subscription customer base can access our unique library of media titles.

Our core strategy is to grow our subscription business domestically and internationally by expanding our unique and exclusive content library, enhancing our user interface, extending our streaming service to new internet-connected devices as they are developed and creating a conscious community built around our content.

16

We are a Colorado corporation. Our principal and executive office is located at 833 West South Boulder Road, Louisville, CO 80027-2452. Our telephone number at that address is (303) 222-3600. We maintain an internet website at www.gaia.com. The website address has been included only as a textual reference. Our website and the information contained on that website, or connected to that website, are not incorporated by reference into this Form 10-K.

Results of Operations

The table below summarizes certain of our results for the periods indicated:

(in thousands, except per share data)	Years ended	
	December 31,	
	2018	2017
Streaming revenues	\$41,997	\$26,220
DVD subscription and other revenues	1,846	2,070
Cost of streaming	5,352	3,602
Cost of DVD subscription and other	353	325
Gross margin	87.0 %	86.1 %
Selling and operating	68,321	43,979
Corporate, general and administration	5,909	5,525
Loss from operations	(36,092)	(25,141)
Interest and other income	355	515
Loss before taxes	(35,737)	(24,626)
Income tax benefit	(1,944)	(925)
Net loss from continuing operations	(33,793)	(23,701)
Income from discontinued operations, net	—	429
Net loss	\$(33,793)	\$(23,272)

The following table sets forth certain financial data as a percentage of net revenues for the periods indicated:

	Years ended	
	December 31,	
	2018	2017
Net revenues		
Streaming	95.8 %	92.7 %
DVD subscription and other	4.2 %	7.3 %
Total net revenues	100.0%	100.0%
Cost of revenues		
Cost of streaming	12.2 %	12.8 %
Cost of DVD subscription and other	0.8 %	1.1 %
Total cost of revenues	13.0 %	13.9 %
Gross margin	87.0 %	86.1 %
Expenses:		
Selling and operating	155.8%	155.5%
Corporate, general and administration	13.5 %	19.5 %

Edgar Filing: GAIA, INC - Form 10-K

Total expenses	169.3%	175.0%
Loss from operations	(82.3)%	(88.9)%
Interest and other income	0.8%	1.8%
Loss before taxes	(81.5)%	(87.0)%
Income tax benefit	(4.4)%	(3.3)%
Net loss from continuing operations	(77.1)%	(83.8)%
Income from discontinued operations	0.0%	1.5%
Net loss	(77.1)%	(82.3)%

Year Ended December 31, 2018 Compared to Year Ended December 31, 2017

Net revenue. Net revenue increased \$15.5 million, or 54.8%, to \$43.8 million during 2018, compared to \$28.3 million during 2017. Net revenue from streaming increased \$15.8 million, or 60.3%, to \$42.0 million during 2018 from \$26.2 million during 2017. The increase in streaming revenues was primarily driven by 51% growth in the number of paying subscribers. Net revenues were not significantly impacted by either changing prices or inflation.

Cost of revenues. Cost of revenues increased \$1.8 million, or 46.2%, to \$5.7 million during 2018 from \$3.9 million during 2017. Cost of revenues for streaming increased \$1.8 million, or 50.0%, to \$5.4 million during 2018 from \$3.6 million during 2017 and, as a percentage of streaming revenue, decreased to 12.9% compared to 13.7% during 2017 due primarily to relatively fixed streaming costs and disciplined content investment as compared to our higher volumes and increased revenues.

Selling and operating expenses. Selling and operating expenses increased \$24.3 million, or 55.2%, to \$68.3 million during 2018 from \$44.0 million during 2017 and, as a percentage of net revenue, remained relatively steady at 155.8% during 2018 from 155.5% during 2017. The increase was primarily due to investment in marketing spending to drive increased revenues and growth in personnel related costs from increased headcount to support our larger subscriber base.

Corporate, general and administration expenses. Corporate, general and administration expenses increased \$0.4 million, or 7.3%, to \$5.9 million during 2018 from \$5.5 million during 2017 and, as a percentage of net revenue, decreased to 13.5% during 2018 from 19.5% during 2017. The increase was primarily due to increased corporate costs, including insurance, that are tied to revenue and market capitalization.

Net loss. As a result of the above factors, net loss was \$33.8 million, or \$1.96 per share, for 2018 compared to net loss of \$23.3 million, or \$1.54 per share, for 2017. Net loss was not significantly impacted by either changing prices or inflation.

Quarterly and Seasonal Fluctuations

The following tables set forth our unaudited results of operations for each of the quarters in 2018 and 2017. In our opinion, this unaudited financial information includes all adjustments, consisting solely of normal recurring accruals and adjustments, necessary for a fair presentation of the results of operations for the quarters presented. You should read this financial information in conjunction with our consolidated financial statements and related notes included elsewhere in this Form 10-K. The results of operations for any quarter are not necessarily indicative of future results of operations.

(in thousands, except per share data)	Year 2018 Quarters Ended			
	March	June 30	September 30	December 31
Net revenues	\$9,615	\$10,460	\$11,387	\$12,381
Gross profit	8,343	9,084	9,913	10,798
Gross margin	86.8 %	86.8 %	87.1 %	87.2 %
Loss from operations	(7,878)	(6,509)	(10,449)	(11,256)
Net loss	(6,035)	(6,349)	(10,329)	(11,080)
Basic and diluted net loss per share	\$(0.39)	\$(0.35)	\$(0.58)	\$(0.62)
Weighted average shares outstanding - basic and				
diluted	15,364	17,890	17,890	17,890

(in thousands, except per share data)	Year 2017 Quarters Ended			
	March 31	June 30	September 30	December 31
Net revenues	\$5,784	\$6,558	\$ 7,522	\$ 8,426
Gross profit	4,964	5,647	6,485	7,267

Our subscriber base growth reflects seasonal variations driven primarily by when consumers typically spend more time indoors and, as a result, tend to increase their viewing, similar to those of traditional TV and cable networks. Our subscriber growth is generally greatest in the fourth and first quarters (October through February), and slowest in the May through August period. This drives quarterly variations in our spending on customer acquisition efforts but does not drive a corresponding seasonality in net revenue.

Critical Accounting Policies

We prepare our consolidated financial statements in conformity with accounting principles generally accepted in the United States, which require us to make judgments, estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Note 2 to the consolidated financial statements in Item 8 of this Form 10-K summarizes the significant accounting policies and methods used in the preparation of our consolidated financial statements.

We believe the following to be critical accounting policies whose application has a material impact on our financial presentation, and involve a higher degree of complexity, as they require us to make judgments and estimates about matters that are inherently uncertain.

Media Library

Media Library represents the lower of unamortized cost or net realizable value of capitalized costs to produce our proprietary media content, rights obtained through license arrangements and digital media content acquired through asset purchases or business combinations.

The value of our produced media library consists of capitalized costs incurred to produce original media content, including salary and overhead costs of our in-house production team and other third-party costs.

Our licensed media library is obtained through license arrangements. Generally, we pay an advance against a percentage royalty or an upfront license fee in exchange for the distribution rights for a specific license window, but we may also obtain a license for a fixed fee for perpetuity. These payments are capitalized at the time of payment. Certain agreements also include an ongoing royalty obligation, which entitles the licensor to a share of the revenues generated from the licensed works. These expenses are calculated and accrued on a monthly basis and included in

costs of streaming. We pay these accrued royalties on a quarterly basis and therefore have included the related liability in accrued liabilities.

The value of our acquired media library consists of the fair value of media assets obtained through asset acquisitions and business combinations recorded at the estimated fair value of the titles acquired, which is based on a number of factors, including the number of titles, the total hours of content, the production quality and age of the acquired media assets.

We amortize our media library in cost of streaming on a straight-line basis over the shorter of the license period or the estimated useful life of the titles, which typically ranges from 12 to 90 months. The amortization period begins with the first month of availability on our service.

Management reviews content viewership to determine whether viewing patterns correlate with initial estimates supporting the amortization period utilized. If current estimates indicate that viewing is significantly higher in earlier periods relative to the remaining amortization period, we will begin amortizing the respective titles on an accelerated basis over the amortization period. Due to our exclusive content and growing subscriber base, viewership of our library continues to grow each month, therefore no additional amortization was recorded during 2018 or 2017.

Our media library is reviewed for impairment when an event or change in circumstances indicates that the carrying amount of the media library may not be recoverable. Recoverability of the media library is measured by a comparison of the carrying amount of the media library to estimated undiscounted future cash flows expected to be generated by the media library. If the carrying amount of the media library exceeds its estimated future cash flows, an impairment charge is recognized by the amount by which the carrying value of the media library exceeds its fair value. No impairment charges were recorded during 2018 or 2017.

Goodwill

Goodwill represents the excess of the purchase consideration over the estimated fair value of assets acquired less liabilities assumed in a business acquisition. We have only one reporting unit; therefore, goodwill is assessed at the enterprise level. We review goodwill for impairment annually as of December 31. We have the option of first assessing qualitative factors to determine whether events and circumstances indicate that it is more likely than not that the estimated fair value of goodwill is less than its carrying amount. If the estimated fair value of goodwill exceeds its carrying amount, we consider the goodwill to not be impaired. If the carrying amount of goodwill exceeds its estimated fair value, we use either a comparable market approach or a traditional present value method to test for potential impairment. The process of evaluating the potential impairment of goodwill is highly subjective and requires significant judgment at many points during the analysis. Application of alternative assumptions and definitions could yield significantly different results. During 2018 and 2017, no impairment of goodwill was indicated.

Income Taxes and Deferred Tax Balances

ASC 740, Income Taxes, requires deferred tax assets and liabilities be measured at the enacted tax rate expected to apply when the temporary differences are to be realized or settled. The tax expense or benefit related to ordinary income or loss must be computed at an annual effective tax rate and the tax expense or benefit related to all other items must be individually computed and recognized as a discrete item when it occurs. However, due to the federal tax rate reduction beginning in 2018, the net deferred tax assets were remeasured at 22.5%, a 13% decrease from the prior year annual effective tax rate of 35.5%. The 13% difference in our effective tax rate is the result of the reduction in the federal corporate tax rate from 34% to 21% beginning in 2018. The effect of a change in tax law is recorded discretely as a component of the income tax provision related to continuing operations in the period of enactment, which was the fourth quarter of 2017.

Revenues

Streaming revenues consist primarily of subscription fees paid by our streaming customers. DVD subscription and other revenues consist of subscription fees paid by our DVD customers and rental income from tenant leases. We present revenues net of taxes collected from customers. Subscribers are billed in advance and streaming revenues are recognized ratably over the subscription term. Deferred revenues consist of subscription fees collected from customers that have not been earned and is recognized ratably over the remaining term of the subscription. We recognize revenue

on a net basis for relationships where our partners have the primary relationship, including billing and service delivery, with the subscriber. Payments made to partners to assist in promoting our service on their platforms are expensed to marketing expenses in the period incurred. We do not allow access to our service to be provided as part of a bundle by any of our partners.

20

Share-Based Compensation

We recognize compensation cost for share-based awards based on the estimated fair value of the award on the date of grant. We measure compensation cost at the grant date based on the estimated fair value of the award and recognize compensation cost upon the probable attainment of a specified performance condition over the estimated performance period or for time-based awards over the service period. We use the Black-Scholes option or intrinsic valuation model to estimate the fair value of the award. In estimating this fair value, we use certain assumptions, as disclosed in Note 9. Share-Based Compensation, consisting of the expected life of the option, risk-free interest rate, dividend yield, and volatility. The use of a different estimate for any one of these assumptions could have a material impact on the amount of calculated compensation expense.

Liquidity and Capital Resources

Our capital needs arise from working capital required to fund operations, capital expenditures related to acquisition and development of media content, development and marketing of our digital platforms, acquisitions of new businesses and other investments, replacements, expansions and improvements to our infrastructure, and future growth. These capital requirements depend on numerous factors, including the rate of market acceptance of our offerings, our ability to expand our customer base, the cost of ongoing upgrades to our offerings, the level of expenditures for marketing, and other factors. Additionally, we will continue to pursue opportunities to expand our media libraries, evaluate possible investments in businesses and technologies, and increase our marketing programs as needed. At December 31, 2018, our cash balance was \$30.0 million. We estimate that our capital expenditures, including produced content, will total approximately \$12 million to \$18 million for 2019, which will be funded through our available cash balance and cash flows from operations.

We have an active shelf registration with the Securities and Exchange Commission under which 2,316,667 shares of our Class A common stock are currently authorized. In March 2018, we completed an underwritten public offering of 2,683,333 shares of our Class A common stock under the shelf registration, which included 350,000 shares of Class A common stock issued pursuant to the over-allotment option granted to our underwriters, at a public offering price of \$15.00 per share. We received net proceeds of approximately \$37.1 million after deducting underwriting discounts and commissions and offering costs.

On December 28, 2017, our wholly-owned subsidiary Boulder Road LLC entered into a \$13.5 million revolving credit facility with Great Western Bank, secured by its real estate and guaranteed by Gaia. The credit facility matures on December 28, 2020, and the maximum available under the credit facility reduces by \$500,000 semi-annually each June 30 and December 31. The maximum borrowing capacity under the credit facility was \$12.5 million at December 31, 2018, all of which was drawn. Interest accrues at the prime rate plus 0.5% with a floor of 4.25%. The credit facility requires Boulder Road to maintain a debt service coverage ratio of 1.2 to 1.0 as of the end of each calendar year period, and contains various other affirmative and negative covenants, including among others, limitations on indebtedness, liens, investments and loans.

In the normal course of our business, we investigate, evaluate and discuss acquisition, joint venture, minority investment, strategic relationship and other business combination opportunities in our market. For any future investment, acquisition or joint venture opportunities, we may consider using then-available liquidity, issuing equity securities or incurring additional indebtedness.

While there can be no assurances, we believe our cash on hand, cash expected to be generated from future operations, and cash that could be raised by the sale of our stock or from new or revised credit facilities would be sufficient to fund our operations on both a short-term and long-term basis. However, our projected cash needs may change as a result of acquisitions, content development, unforeseen operational difficulties or other factors.

Cash Flows

The following table summarizes our primary sources (uses) of cash during the periods presented:

(in thousands)	Years ended	
	December 31,	
	2018	2017
Net cash provided by (used in):		
Operating activities	(21,385)	(20,792)
Investing activities	(18,859)	(13,011)
Financing activities	37,430	12,554
Net decrease in cash	\$(2,814)	\$(21,249)

2018 Compared to 2017

Operating activities. Cash flow used in operations increased \$0.6 million during 2018 compared to the same period in 2017. The increase was primarily due to continued investment in marketing to drive subscriber acquisition and increased revenues.

Investing activities. Cash flow used in investing activities increased \$5.8 million during 2018 compared to the same period in 2017. The increase is due to increased investments in our media library, product enhancements, and the build out of our live streaming center at our corporate campus.

Financing activities. Cash flows from financing activities increased \$24.9 million during 2018 compared to the same period in 2017, primarily due to the net proceeds of \$37.1 million from the sale of Class A common stock in March 2018, offset by borrowings under our line of credit in 2017.

Off-Balance Sheet Arrangements

We do not participate in transactions that generate relationships with unconsolidated entities or financial partnerships, such as special purpose entities or variable interest entities, which have been established for the purpose of facilitating off-balance sheet arrangements or other limited purposes.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

As a smaller reporting company, we are not required to provide the information required by this Item.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors of Gaia, Inc.

Opinion on the Financial Statements and Internal Control over Financial Reporting

We have audited the accompanying consolidated balance sheet of Gaia, Inc. (the “Company”) as of December 31, 2018, the related statements of operations, changes in equity, and cash flows for the year ended December 31, 2018, and the related notes (collectively referred to as the “financial statements”). We also have audited the Company's internal control over financial reporting as of December 31, 2018, based on criteria established in Internal Control-Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (the “COSO framework”).

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2018, and the results of its operations and its cash flows for the year ended December 31, 2018, in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2018, based on criteria established in the COSO framework.

Basis for Opinion

The Company's management is responsible for these financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management’s Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company’s financial statements and an opinion on the Company's internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the financial statements included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such

procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made

only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Plante Moran, PLLC

March 4, 2019

Denver, Colorado

We have served as the Company's auditor since 2004.

Report of Independent Public Accounting Firm

To the Shareholders and Board of Directors of Gaia, Inc.

OPINIONS ON THE CONSOLIDATED FINANCIAL STATEMENTS

We have audited the accompanying consolidated balance sheet of Gaia, Inc. (the "Company") as of December 31, 2017, and the related consolidated statements of operations, changes in equity, and cash flows, for the year ended December 31, 2017, and the related notes (collectively referred to as the "financial statements").

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2017, and the results of its operations and its cash flows for the year ended December 31, 2017, in conformity with accounting principles generally accepted in the United States of America.

BASIS FOR OPINIONS

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Notes to Consolidated Financial Statements

References in this report to “we”, “us”, “our”, “Company” or “Gaia” refer to Gaia, Inc. and its subsidiaries, unless we indicate otherwise.

1. Organization, Nature of Operations, and Principles of Consolidation

Gaia, Inc., operates a global digital video subscription service and on-line community that caters to a unique and underserved subscriber base. Our digital content is available to our subscribers on most internet-connected devices anytime, anywhere commercial free. Through our online Gaia subscription service, our customers have unlimited access to a vast library of inspiring films, cutting edge documentaries, interviews, yoga classes, transformation related content, and more – exclusively available to our subscribers for digital streaming. A subscription also allows our subscribers to download and view files from our library without being actively connected to the internet. We were incorporated under the laws of the State of Colorado on July 7, 1988.

We have prepared the accompanying consolidated financial statements in accordance with accounting principles generally accepted in the United States, or GAAP, and they include our accounts and those of our subsidiaries, over which we exercise control. Intercompany transactions and balances have been eliminated.

2. Significant Accounting Policies

Cash

Cash represents on-demand accounts with financial institutions that are denominated in U.S. dollars. We consider investments in financial instruments purchased with an original maturity of 90 days or less to be cash equivalents. We also classify amounts in transit from payment processors for customer credit card and debit card transactions as cash.

Property and Equipment

We state property and equipment at cost less accumulated depreciation and amortization. We include in property and equipment the cost of internal-use software, including software used in connection with our websites. We expense all costs related to the development of internal-use software other than those incurred during the application development stage. We capitalize the costs we incur during the application development stage and amortize them over the estimated useful life of the software, which is typically three years. We compute depreciation of property and equipment on the straight-line method over estimated useful lives, generally 3 to 45 years. We amortize building improvements over the shorter of the estimated useful lives of the assets or remaining life of the building. Depreciation expense is included in selling and operating expense, and corporate, general and administration expense in the accompanying consolidated statements of operations.

Media Library

Media Library represents the lower of unamortized cost or net realizable value of capitalized costs to produce our proprietary media content, rights obtained through license arrangements and digital media content acquired through asset purchases or business combinations.

We amortize our media library in cost of streaming on a straight-line basis over the shorter of the license period or the estimated useful life of the titles, which typically ranges from 12 to 90 months. The amortization period begins with the first month of availability on our service.

Our media library is reviewed for impairment when an event or change in circumstances indicates that the carrying amount of the media library may not be recoverable. Recoverability of the media library is measured by a comparison of the carrying amount of the media library to estimated undiscounted future cash flows expected to be generated by the media library. If the carrying amount of the media library exceeds its estimated future cash flows, an impairment charge is recognized by the amount by which the carrying value of the media library exceeds its fair value.

Goodwill

Goodwill represents the excess of the purchase consideration over the estimated fair value of assets acquired less liabilities assumed in a business acquisition. We have only one reporting unit; therefore, goodwill is assessed at the enterprise level. We review goodwill for impairment annually on December 31. We have the option of first assessing qualitative factors to determine whether events and circumstances indicate that it is more likely than not that the fair value of a goodwill is less than its carrying amount. If it is determined that the estimated fair value of goodwill is more likely than not greater than the carrying amount of goodwill, then an impairment test is unnecessary. If it is determined that an impairment test is necessary, then we compare the estimated fair value of goodwill with its carrying amount, including goodwill. If the estimated fair value of goodwill exceeds its carrying amount, we consider the goodwill not impaired. If the carrying amount of goodwill exceeds its estimated fair value, we will record an impairment loss for the difference. We use either a comparable market approach or a traditional present value method to test for potential impairment. The process of evaluating the potential impairment of goodwill is highly subjective and requires significant judgment at many points during the analysis. Application of alternative assumptions and definitions could yield significantly different results. During 2018 and 2017, no impairment of goodwill was indicated.

Long-Lived Assets

We evaluate the carrying value of long-lived assets held and used, other than goodwill, when events or changes in circumstances indicate the carrying value may not be recoverable. We consider the carrying value of a long-lived asset impaired when the total projected undiscounted cash flows from such asset are separately identifiable and are less than the carrying value. We recognize a loss based on the amount by which the carrying value exceeds the estimated fair value of the long-lived asset. We determine the estimated fair value primarily using the projected cash flows from the asset discounted at a rate commensurate with the risk involved. During 2018 and 2017, no impairment of long-lived assets was recognized.

Income Taxes

We provide for income taxes pursuant to the liability method. The liability method requires recognition of deferred income taxes based on temporary differences between financial reporting and income tax bases of assets and liabilities, using current enacted income tax rates and regulations. These differences will result in taxable income or deductions in future years when the reported amount of the asset or liability is recovered or settled, respectively. Considerable judgment is required in determining when these events may occur and whether recovery of an asset, including the utilization of a net operating loss or other carryforward prior to its expiration, is more likely than not.

Revenue Recognition

Streaming revenues consist primarily of subscription fees paid by our streaming customers. DVD subscription and other revenues consist of subscription fees paid by our DVD customers and rental income from tenant leases. We present revenues net of taxes collected from customers. Subscribers are billed in advance and streaming revenues are recognized ratably over the subscription term. Deferred revenues consist of subscription fees collected from customers that have not been earned and is recognized ratably over the remaining term of the subscription. We recognize revenue on a net basis for relationships where our partners have the primary relationship, including billing and service delivery, with the subscriber. Payments made to partners to assist in promoting our service on their platforms are expensed to marketing expenses in the period incurred. We do not allow access to our service to be provided as part of a bundle by any of our partners.

Marketing

Marketing costs consist primarily of advertising expenses, which include promotional activities such as online advertising and public relations expenditures. Advertising costs are expensed as incurred. During 2018 and 2017 we expensed \$46.3 million and \$25.7 million, respectively.

Share-Based Compensation

We recognize compensation cost for share-based awards based on the estimated fair value of the award on date of grant. We measure compensation cost at the grant date based on the estimated fair value of the award and recognize compensation cost upon the probable attainment of a specified performance condition over the estimated performance period or for time-based awards over the service period. We use the Black-Scholes option and intrinsic valuation model to estimate the fair value of the award. In estimating this fair value, we use certain assumptions, as disclosed in Note 9, consisting of the expected life of the option, risk-free interest rate, dividend yield, and volatility. The use of a different estimate for any one of these assumptions could have a material impact on the amount of calculated compensation expense.

Defined Contribution Plan

We have adopted a defined contribution retirement plan under Section 401(k) of the Internal Revenue Code of 1986, as amended (“Internal Revenue Code”), which covers substantially all employees. Eligible employees may contribute amounts to the plan, via payroll withholding, subject to certain limitations. The 401(k) plan permits, but does not require, us to make additional matching contributions to the 401(k) plan on behalf of all participants in the 401(k) plan. We match 50% of an employee’s contribution, up to an annual maximum matching contribution of \$3,000. We made matching contributions to the 401(k) plan of \$175,000 and \$100,000 in each of the years ended December 31, 2018 and 2017, respectively.

Fair Value Measurements

Fair value represents the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Assets and liabilities are valued based upon observable and non-observable inputs. Valuations using Level 1 inputs are based on unadjusted quoted prices that are available in active markets for the identical assets or liabilities at the measurement date. Level 2 inputs utilize significant other observable inputs available at the measurement date, other than quoted prices included in Level 1, either directly or indirectly; and valuations using Level 3 inputs are based on significant unobservable inputs that cannot be corroborated by observable market data and reflect the use of significant management judgment. The carrying amounts of our cash, accounts receivable, accounts payable and other current liabilities approximate their fair values.

Net Loss Per Share

Basic net loss per share excludes any dilutive effects of outstanding stock awards. We compute basic net loss per share using the weighted average number of shares of common stock outstanding during the period. We compute diluted net loss per share using the weighted average number of shares of common stock and common stock equivalents outstanding during the period. We excluded common stock equivalents of 66,000 and 57,000 from the computation of diluted net loss per share for 2018 and 2017 respectively, because their effect was antidilutive.

Investments

Our cost method investments are carried at cost and adjusted for other-than-temporary declines in fair value. We evaluate our investments for impairments annually and when factors indicate that a significant decrease in value has occurred. Variables considered in making such assessments may include near-term prospects of the investees and the investees’ capital structure, as well as other economic variables which reflect assumptions market participants may use in pricing these assets. If an investment is deemed to have experienced an other-than-temporary decline below its cost basis, we reduce the carrying amount of the investment to its quoted or estimated fair value, as applicable, and

establish a new cost basis for the investment. We did not record any impairment charges on our cost method investments during the years 2018 or 2017.

32

Use of Estimates and Reclassifications

The preparation of financial statements in accordance with GAAP requires us to make estimates and assumptions that affect the amounts reported in the accompanying consolidated financial statements and disclosures. Although we base these estimates on our best knowledge of current events and actions that we may undertake in the future, actual results may be different from the estimates. We have made certain reclassifications to prior period amounts to conform to the current period presentations.

Accounting Pronouncements Adopted in 2018

In May 2014, the Financial Accounting Standards Board ("FASB") issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606) which amended the existing accounting standards for revenue recognition. ASU 2014-09 establishes principles for recognizing revenue upon the transfer of promised goods or services to customers, in an amount that reflects the expected consideration received in exchange for those goods or services. We adopted ASU 2014-09 in the first quarter of 2018 using the modified retrospective approach. Because our primary source of revenues is from monthly subscription fees which are recognized ratably over each monthly subscription period, the impact on our consolidated financial statements is not material.

In January 2017, the FASB issued ASU 2017-04, Intangibles – Goodwill and Other (Topic 350): Simplifying the Accounting for Goodwill Impairment, to simplify financial reporting by eliminating the need to determine the fair value of individual assets and liabilities of a reporting unit to measure goodwill impairment. We adopted the new guidance in the fourth quarter of 2018 when we performed our annual goodwill impairment analysis, with no impact on the results.

In August 2018, the SEC adopted the final rule under SEC Release No. 33-10532, Disclosure Update and Simplification, amending certain disclosure requirements that were redundant, duplicative, overlapping, outdated or superseded. In addition, the amendments expanded the disclosure requirements on the analysis of stockholders' equity for interim financial statements. Under the amendments, an analysis of changes in each caption of stockholders' equity presented in the balance sheet must be provided in a note or separate statement. The analysis should present a reconciliation of the beginning balance to the ending balance of each period for which a statement of comprehensive income is required to be filed. This final rule was effective on November 5, 2018. We adopted the rule in the fourth quarter of 2018 and the impact on our consolidated financial statements was not material.

Recently Issued Accounting Pronouncements

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842). The new standard establishes a right-of-use (ROU) model that requires a lessee to record a ROU asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the income statement. The new standard is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. A modified retrospective transition approach is required for lessees for capital and operating leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements, with certain practical expedients available. The new standard will not have a material impact on our reported financial position or results of operations.

3. Property and Equipment

Building and Land, stated at lower of cost or estimated fair value, consists of the following as of December 31:

Edgar Filing: GAIA, INC - Form 10-K

(in thousands)	2018	2017
Land	\$4,829	\$4,829
Buildings	23,064	17,664
	27,893	22,493
Accumulated depreciation	(6,205)	(5,465)
	\$21,688	\$17,028

33

Software, equipment and media library stated at lower of cost or estimated fair value, consists of the following as of December 31:

(in thousands)	2018	2017
Website development costs and other software	\$12,063	\$8,236
Studio, computer and telephone equipment	1,267	1,097
Media library	27,134	18,807
	40,464	28,140
Accumulated depreciation and amortization	(12,841)	(7,753)
	\$27,623	\$20,387

Future depreciation and amortization consists of the following:

(in thousands)	
2019	\$8,762
2020	7,286
2021	5,828
2022	4,545
2023	3,290
Thereafter	14,771
	\$44,482

4. Investments and Other Assets

In 2016, we purchased 10% of the outstanding common stock and associated voting rights of a privately held Colorado corporation for \$10.0 million. We are accounting for this investment using the cost method. As part of our initial investment, we have the right, but not the obligation, to purchase additional shares. If we elect not to utilize our right to purchase additional shares or transfer these rights to another party by certain deadlines, we may be required to surrender and forfeit our existing stock ownership.

Other assets consist of the following as of December 31:

(in thousands)	2018	2017
Cost method investments	\$10,000	\$10,000
Other assets	1,661	1,626
Income tax receivable	1,080	414
	\$12,741	\$12,040

5. Accounts Payable, Accrued and Other Liabilities

Accounts payable, accrued and other liabilities consist of the following as of December 31:

(in thousands)	2018	2017
Accounts payable	5,295	2,283
Accrued compensation	1,503	1,127
Accrued expenses	1,195	938
	\$7,993	\$4,348

6. Line of Credit

On December 28, 2017, our wholly-owned subsidiary Boulder Road LLC entered into a revolving credit agreement (the “Credit Agreement”) with Great Western Bank, as lender (“Great Western”). Borrowings under the Credit

Agreement are secured by a deed of trust on the real estate owned by Boulder Road LLC, and guaranteed by Gaia. The Credit Agreement provides for a revolving line of credit for up to \$13.5 million, which is reduced by \$500,000 semi-annually, and is subject to certain covenants applicable to Boulder Road LLC. The maximum borrowing capacity under the credit facility was \$12.5 million at December 31, 2018, all of which was drawn. Subject to certain limitations, the principal amount of the loan is due and payable on the earlier of December 28, 2020 or the termination of the Credit Agreement. The note evidencing borrowings under the Credit Agreement bears interest at the prime rate plus 0.5% (6.0% at December 31, 2018) with a floor of 4.25%.

7. Contingencies

From time to time, we are involved in legal proceedings that we consider to be in the normal course of business. We record accruals for losses related to those matters against us that we consider to be probable and that can be reasonably estimated. Based on available information, in the opinion of management, settlements, arbitration awards and final judgments, if any, that are considered probable of being rendered against us in litigation or arbitration in existence at December 31, 2018 and that can be reasonably estimated are either reserved against or would not have a material adverse effect on our financial condition, results of operations or cash flows.

8. Equity

Our common stock has two classes, Class A and Class B. Each holder of our Class A common shares is entitled to one vote for each share held on all matters submitted to a vote of shareholders. Each of our Class B common shares is entitled to ten votes on all matters submitted to a vote of shareholders. There are no cumulative voting rights. All holders of our Class A common shares and our Class B common shares vote as a single class on all matters that are submitted to the shareholders for a vote, except as provided by law or as set forth in our charter. Shareholders may consent to an action in writing and without a meeting under certain circumstances. Jirka Rysavy, our chairman, holds 100% of our 5,400,000 outstanding shares of class B common stock and also owns 366,682 shares of Class A common stock. Consequently, our chairman holds approximately 82% of our voting stock and thus is able to exert substantial influence and control matters requiring approval by shareholders, including the election of directors, increasing our authorized capital stock, or a merger or sale of substantially all of our assets. As a result of Mr. Rysavy's control of us, no change of control can occur without Mr. Rysavy's consent.

Our Class A common shares and our Class B common shares are entitled to receive dividends, if any, as may be declared by our board of directors out of legally available funds. In the event of a liquidation, dissolution or winding up of Gaia, our Class A common shares and our Class B common shares are entitled to share ratably in our assets remaining after the payment of all of our debts and other liabilities. Holders of our Class A common shares and our Class B common shares have no preemptive, subscription or redemption rights, and there are no redemption or sinking fund provisions applicable to our Class A common shares or our Class B common shares.

Our Class B common shares may not be transferred unless converted into our Class A common shares, other than certain transfers to affiliates, a trust, family members, and charitable organizations. Our Class B common shares are convertible one-for-one into our Class A common shares, at the option of the holder of the Class B common shares. During 2018 and 2017, we issued shares of our Class A common stock as shown in the table below under our 2009 Long-Term Incentive Plan (the "Plan"). We recorded the shares issued to our directors at their estimated fair value based on the market's closing price of our stock on the date the shares were issued, which by policy is the last trading day of each quarter in which the services were rendered.

In March 2018, we completed an underwritten public offering of 2,683,333 shares of our Class A common stock, which included 350,000 shares of Class A common stock issued pursuant to the over-allotment option granted to our underwriters, at a public offering price of \$15.00 per share. We received net proceeds of approximately \$37.1 million

after deducting underwriting discounts and commissions and offering costs. A majority of our board of directors and executive management participated in the offering.

	For the Years Ended December 31,	
	2018	2017
Shares issued to independent directors for services rendered, in lieu of cash compensation	1,045	2,430
Shares issued to employees upon exercise of stock options	45,800	15,000

As of December 31, 2018, we had the following Class A common shares reserved for future issuance:

Conversion of Class B common shares	5,400,000
Awards under the Plan:	
Stock options outstanding	496,557
Restricted stock units outstanding	1,087,668
Total shares reserved for future issuance	6,984,225

9. Share-Based Compensation

We issue stock-based compensation awards under the Plan. The purpose of the Plan is to advance our interests and those of our shareholders by providing incentives to certain persons who contribute significantly to our strategic and long-term performance objectives and growth. An aggregate of not more than 3 million of our Class A common shares, subject to certain adjustments, may be issued under the Plan, and the Plan terminates no later than April 23, 2019. The exercise price for our options is generally equal to the closing market price of our stock at the date of the grant, and the options normally vest at 2% per month for the 50 months beginning in the eleventh month after the grant date. Follow on option grants begin vesting in the first month after grant. We recognize the compensation expense related to share-based payment awards on a straight-line basis over the requisite service periods of the awards, which are generally five years for employees, and five years for board members.

The determination of the estimated fair value of share-based payment awards on the date of grant using the Black-Scholes option-pricing model is affected by our stock price as well as assumptions regarding a number of complex and subjective variables. We derive the expected terms from the historical behavior of participant groupings. We base expected volatilities on the historical volatility of our stock over the expected term. Our use of historical volatilities is based upon the expectation that future volatility over the expected term is not likely to differ significantly from historical results. We base the risk-free interest rate used in the option valuation model on U.S. Treasury zero-coupon issues with remaining terms similar to the expected term on the options.

The following are the variables we used in the Black-Scholes option pricing model to determine the estimated grant date fair value for options granted under the Plan for each of the years presented:

	2018	2017
Expected volatility	41%	38% - 41%
Weighted-average volatility	41%	38%

Expected dividends	—%	—%
Expected term (in years)	6.6	3.2 - 3.5
Risk-free rate	2.86%	1.45% - 1.99%

In 2015, we commenced issuing restricted stock units (RSUs) under the Plan. The RSUs entitle the recipient to receive one share of Class A common stock for each RSU upon vesting. The RSUs vest with cliff vesting in 5 years, provided that the recipient is still an employee or director of Gaia on such date. The RSUs will be automatically forfeited and of no further force and effect if the vesting conditions are not met.

We use intrinsic valuation for RSUs, which due to the nature of these awards, is typically market price of our common stock on the date of grant.

The table below presents a summary of activity under the Plan, as of December 31, 2018, and changes during the year then ended:

(in thousands, except share and per share amounts)	Shares	Price	Weighted-Average Remaining Contractual Term (Years)	Weighted-Average Aggregate Intrinsic Value
Outstanding at January 1, 2018	1,436,348	\$ 7.67		
Option grants	7,257	14.95		
Restricted stock unit grants	316,661	—		
Exercised options	(45,800)	5.86		
Cancelled or forfeited options	(32,000)	7.36		
Cancelled or forfeited restricted stock units	(98,241)	—		
Outstanding at December 31, 2018	1,584,225	\$ 7.97	4.4	\$12,563,473
Exercisable options at December 31, 2018	274,540	\$ 7.30	6.4	\$853,670

The table below presents our valuation data for the Plan:

(in thousands, except per share amounts)	2018	2017
Valuation Data:		
Weighted-average fair value (per share)	\$14.95	\$7.68
Total stock-based compensation expense	\$1,650	\$1,833
Total income tax impact on provision	\$346	\$585

The table below presents our RSU's by vest date:

Vest Date	RSU's
March 16, 2020	348,841
January 1, 2021	12,294
March 31, 2022	565,449
January 1, 2023	12,294
March 31, 2024	292,073
	1,230,951

We issue new shares upon the exercise of options and vesting of RSUs. We received approximately \$0.3 million and \$0.1 million in cash from stock options exercised during 2018 and 2017, respectively. The total intrinsic value of options exercised during 2018 and 2017 was \$0.4 million and \$0.1 million respectively. The total fair value of options vested was \$0.3 million during both 2018 and 2017.

As of December 31, 2018, there was \$7.8 million of unrecognized cost related to non-vested share-based compensation arrangements granted under the Plan. We expect that cost to be recognized over a weighted-average period of 4.05 years.

10. Income Taxes

Our provision for income taxes is comprised of the following:

(in thousands)	For the Years Ended December 31,	
	2018	2017
Current:		
Federal	\$—	\$(1,040)
State	9	5
Total current	9	(1,035)
Deferred:		
Federal	(1,818)	105
State	(135)	5
Total deferred	(1,953)	110
Total income tax benefit	\$(1,944)	\$(925)

Variations from the federal statutory rate are as follows:

(in thousands)	2018	2017
Expected federal income tax benefit at		
statutory rate of 21% in 2018 and 34% in 2017	\$(7,506)	\$(8,373)
Effect of permanent other differences	18	184
Return to provision adjustments	(2,241)	(1,144)
Effect of federal rate change at year-end	—	2,870
State income tax benefit, net of federal benefit tax		
assets	(536)	(369)
Valuation allowance	8,321	5,907
Total income tax benefit	\$(1,944)	\$(925)

Deferred income taxes reflect net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. The components of the net accumulated deferred income tax assets (liabilities) as of December 31, 2018 and 2017 are as follows:

(in thousands)	As of December 31,	
	2018	2017
Deferred tax assets (liabilities):		

Edgar Filing: GAIA, INC - Form 10-K

Stock-based compensation	\$933	\$587
Depreciation and amortization	(571)	(318)
Section 181 qualified production expense	(3,312)	(1,933)
Net operating loss carryforward	15,999	6,012
Charitable carryforward	231	278
Other	508	342
Tax credits	276	276
Valuation allowance	(14,228)	(5,907)
Total deferred tax assets (liabilities), net of valuation allowance		
	allowance	\$(164) \$(663)

The source of income (loss) before income taxes are as follows:

(in thousands)	2018	2017
Domestic	\$(35,737)	\$(24,626)

Periodically, we perform assessments of the realization of our net deferred tax assets considering all available evidence, both positive and negative. We determined that a \$14.2 million and a \$5.9 million valuation allowance

against our deferred tax assets was necessary in 2018 and 2017, respectively, due to the cumulative loss incurred over a three-year period, excluding the sale of the Gaiam Brand segment in 2016. We released a full valuation allowance in 2016 on these deferred tax assets and in 2017 for AMT tax credits as recent federal tax law has recharacterized them as fully refundable by 2021. We have federal and state net operating loss carryforwards of approximately \$71.1 million and \$20.0 million, respectively, of which \$30.3 million in federal net operating losses expire after 2037. Net operating losses generated in 2018 and beyond do not expire.

We did not realize a tax benefit recorded to additional paid-in capital because of the exercise of stock options during 2018; in 2017 we recognized \$0.8 million in relation to this tax benefit. We recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. We measure the tax benefits recognized in the consolidated financial statements from such a position based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate resolution. The application of income tax law is inherently complex. Laws and regulations in this area are voluminous and are often ambiguous. As such, we are required to make many subjective assumptions and judgments regarding our income tax exposures. Interpretations of and guidance surrounding income tax law and regulations change over time and may result in changes to our subjective assumptions and judgments which can materially affect amounts recognized in our consolidated balance sheets and consolidated statements of operations.

The result of our assessment of our uncertain tax positions did not have a material impact on our consolidated financial statements. Our federal and state tax returns for all years after 2013 are subject to future examination by tax authorities for all our tax jurisdictions. We recognize interest and penalties related to income tax matters in interest and other income (expense) and corporate, general and administrative expenses, respectively.

11. Segment Information and Geographic Information

Our chief operating decision maker reviews operating results on a consolidated basis and we therefore have one reportable segment.

Geographic Information

We have subscribers in the United States and over 185 foreign countries. The major geographic territories are the U.S. and Canada and are based on the billing location of the customer. The following represents geographical data for our operations as of and for the years ended December 31, 2018 and 2017:

(in thousands)	2018	2017
Revenue:		
United States	\$34,252	\$21,977
International	9,591	6,313
	\$43,843	\$28,290

12. Quarterly Results of Operations (Unaudited)

The following tables set forth our unaudited results of operations for each of the quarters in 2018 and 2017.

Year 2018 Quarters Ended

Edgar Filing: GAIA, INC - Form 10-K

(in thousands, except per share data)	March			
	31	June 30	September 30	December 31
Net revenues	\$9,615	\$10,460	\$ 11,387	\$ 12,381
Gross profit	8,343	9,084	9,913	10,798
Gross margin	86.8 %	86.8 %	87.1 %	87.2 %
Loss from operations	(7,878)	(6,509)	(10,449)	(11,256)
Net loss	(6,035)	(6,349)	(10,329)	(11,080)
Basic and diluted net loss per share	\$(0.39)	\$(0.35)	\$ (0.58)	\$ (0.62)
Weighted average shares outstanding - basic and				
diluted	15,364	17,890	17,890	17,890

(in thousands, except per share data)	Year 2017 Quarters Ended			
	March 31	June 30	September 30	December 31
Net revenues	\$5,784	\$6,558	\$ 7,522	\$ 8,426
Gross profit	4,964	5,647	6,485	7,267
Gross margin	85.8 %	86.1 %	86.2 %	86.2 %
Loss from continuing operations	(6,180)	(6,310)	(5,634)	(5,577)
Income from discontinued operations	—	—	429	—
Net loss	(6,180)	(6,310)	(5,205)	(5,577)
Basic and diluted net loss per share	\$(0.41)	\$(0.42)	\$ (0.34)	\$ (0.37)
Weighted average shares outstanding - basic and diluted	15,153	15,157	15,161	15,168

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure
None.

Item 9A. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rule 13a-15(e) and Rule 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended. Based upon their evaluation as of December 31, 2018, our management has concluded that those disclosure controls and procedures are effective.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting during the year ended December 31, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, the effectiveness of our controls in future periods is uncertain and subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Our management assessed the effectiveness of our internal control over financial reporting as of December 31, 2018 using the criteria set forth in 2013 by the Committee of Sponsoring Organizations of the Treadway Commission in its "Internal Control-Integrated Framework." Based on that assessment, our management concluded that, as of December 31, 2018, our internal control over financial reporting was effective.

The effectiveness of our internal control over financial reporting as of December 31, 2018 has been audited by Plante Moran, PLLC, an independent registered public accounting firm, as stated in their report, which is included herein.

Item 9B. Other Information

None.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

We incorporate herein the information required by this Item by reference to our Proxy Statement for our Annual Meeting of Shareholders, to be held on April 25, 2019, to be filed with the Commission pursuant to Regulation 14A.

Code of Ethics

We have adopted a Code of Ethics applicable to our employees, including our principal executive officer, principal financial officer, principal accounting officer and persons performing similar functions. We have posted a copy of our Code of Ethics on the corporate section of our website at <http://ir.gaia.com/governance-docs>. Our full board of directors must approve in advance any waivers of the Code of Ethics with respect to any executive officer or director. We will post any amendments or waivers from our Code of Ethics that apply to our executive officers and directors on the "Governance" section of our internet website located at <http://ir.gaia.com/governance-docs>.

Item 11. Executive Compensation

We incorporate herein the information required by this Item by reference to our Proxy Statement for our Annual Meeting of Shareholders, to be held on April 25, 2019, to be filed with the Commission pursuant to Regulation 14A.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

We incorporate herein the information required by this Item by reference to our Proxy Statement for our Annual Meeting of Shareholders, to be held on April 25, 2019, to be filed with the Commission pursuant to Regulation 14A.

Item 13. Certain Relationships and Related Transactions, and Director Independence

We incorporate herein the information required by this Item by reference to our Proxy Statement for our Annual Meeting of Shareholders, to be held on April 25, 2019, to be filed with the Commission pursuant to Regulation 14A.

Item 14. Principal Accountant Fees and Services

We incorporate herein the information required by this Item by reference to our Proxy Statement for our Annual Meeting of Shareholders, to be held on April 25, 2019, to be filed with the Commission pursuant to Regulation 14A.

PART IV

Item 15. Exhibits and Financial Statement Schedules
