

Intercontinental Exchange, Inc.
Form 10-Q
August 03, 2016

UNITED STATES SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

Form 10-Q

(Mark One)

Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the quarterly period ended June 30, 2016

Or

Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the transition period from _____ to _____

Commission File Number 001-36198

INTERCONTINENTAL EXCHANGE, INC.
(Exact name of registrant as specified in its charter)

Delaware 46-2286804
(State or other jurisdiction of (IRS Employer
incorporation or organization) Identification Number)
5660 New Northside Drive, 30328
Atlanta, Georgia (Zip Code)
(Address of principal executive offices)
(770) 857-4700
Registrant's telephone number, including area code

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Exchange Act during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

(Do not check if a smaller company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Edgar Filing: Intercontinental Exchange, Inc. - Form 10-Q

As of August 1, 2016, the number of shares of the registrant's Common Stock outstanding was 119,133,837 shares.

Intercontinental Exchange, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(Unaudited)

1. Description of Business

We are a leading global operator of regulated exchanges, clearing houses and listings venues, and a provider of data services for commodity and financial markets. We operate regulated marketplaces for trading, listing and clearing a broad array of derivatives and securities contracts across major asset classes, including energy and agricultural commodities, interest rates, equities, equity derivatives, exchange traded funds, credit derivatives, bonds and currencies. We offer end-to-end market data services to support the trading, investment, risk management and connectivity needs of customers across virtually all asset classes.

Our exchanges include futures exchanges in the United States, or U.S., United Kingdom, or U.K., Continental Europe, Canada and Singapore and cash equities exchanges and equity options exchanges in the U.S. We also operate over-the-counter, or OTC, markets for physical energy and credit default swaps, or CDS, trade execution. To serve global derivatives markets, we operate central counterparty clearing houses in the U.S., U.K., Continental Europe, Canada and Singapore (Note 9). We offer a range of data and connectivity services to customers in global financial and commodity markets, including fixed income pricing and reference data, analytics, feeds, desktops and connectivity solutions. Through our markets, clearing houses, listings and data services, we provide end-to-end solutions for our customers through liquid markets, benchmark products, access to capital markets, information, and a range of related services to support their ability to manage risk and raise capital.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared by us in accordance with U.S. generally accepted accounting principles, or GAAP, pursuant to the rules and regulations of the Securities and Exchange Commission, or SEC, regarding interim financial reporting. Accordingly, the unaudited consolidated financial statements do not include all of the information and footnotes required by GAAP for complete financial statements and should be read in conjunction with our audited consolidated financial statements and related notes thereto for the year ended December 31, 2015. The accompanying unaudited consolidated financial statements reflect all adjustments that are, in our opinion, necessary for a fair presentation of results for the interim periods presented. These adjustments are of a normal recurring nature.

Preparing financial statements requires us to make certain estimates and assumptions that affect the amounts that are reported in the consolidated financial statements and accompanying disclosures. Although these estimates are based on our best knowledge of current events and actions that we may undertake in the future, actual results may be different from these estimates. The results of operations for the six months and three months ended June 30, 2016 are not necessarily indicative of the results to be expected for any future period or the full fiscal year.

The accompanying unaudited consolidated financial statements include the accounts of us and our wholly-owned and controlled subsidiaries. All intercompany balances and transactions between us and our wholly-owned and controlled subsidiaries have been eliminated in the consolidation. For those consolidated subsidiaries in which our ownership is less than 100% and for which we have control over the assets and liabilities and the management of the entity, the outside stockholders' interests are shown as non-controlling interests. In instances where outside stockholders' hold an option to require us to repurchase the outside stockholders' interest, these interests are shown as redeemable non-controlling interests.

New and Recently Adopted Accounting Pronouncements

In January 2016, the Financial Accounting Standards Board, or FASB, issued Accounting Standards Update No. 2016-01, Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities, or ASU 2016-01. ASU 2016-01 provides updated guidance for the recognition, measurement, presentation, and disclosure of certain financial assets and liabilities, including the requirement that equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) are to be measured at fair value with changes in fair value recognized in net income. ASU 2016-01 is

effective for annual and interim reporting periods beginning after December 15, 2017. On the adoption of ASU 2016-01, changes in the fair value of our equity investment in Cetip, S.A., or Cetip, will no longer be reflected in accumulated other comprehensive income but will be recognized in net income. As of June 30, 2016, our investment in Cetip included an accumulated unrealized gain of \$103 million (Note 10). During the six months and three months ended June 30, 2016, the change in the fair value of the Cetip investment was an increase of \$128 million and \$75 million, respectively. Once adopted, such fair value changes will be reported as other income (expense) under ASU 2016-01. We are currently evaluating this guidance to determine any additional potential impact on our consolidated financial statements upon adoption.

In February 2016, the FASB issued Accounting Standards Update No. 2016-02, Leases, or ASU 2016-02. ASU 2016-02 requires an entity to recognize both assets and liabilities arising from financing and operating leases, along with additional qualitative and

quantitative disclosures. A lessee should recognize in its balance sheet a liability to make lease payments (the lease liability) and a right-of-use asset representing its right to use the underlying asset for the lease term. In transition, lessees and lessors are required to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach. ASU 2016-02 is effective for annual and interim reporting periods beginning after December 15, 2018, with early adoption permitted. We are currently evaluating this guidance to determine the potential impact on our consolidated financial statements and whether we will adopt this guidance early.

In March 2016, the FASB issued Accounting Standards Update No. 2016-09, Stock Compensation (Topic 718) - Improvements to Employee Share-Based Payment Accounting, or ASU 2016-09. ASU 2016-09 provides updated guidance for the recognition, measurement, presentation, and disclosure of certain components of stock compensation. The guidance includes the recognition of all excess tax benefits/deficiencies in the statement of income and classification as operating activities within the statement of cash flows, as well as the option to account for forfeitures based on awards expected to vest or as they occur. ASU 2016-09 is effective for annual and interim reporting periods beginning after December 15, 2017, with early adoption permitted. We decided to adopt ASU 2016-09 early as of January 1, 2016 on a prospective basis. As a result, for the six months and three months ended June 30, 2016, we recorded \$12 million and \$1 million, respectively, in excess tax benefits within our consolidated statements of income (Note 8). No other terms of the adopted guidance resulted in any significant impact on our consolidated financial statements.

Reclassifications

Certain prior period amounts have been reclassified to conform to the current period's financial statement presentation. For the six months and three months ended June 30, 2015, we reclassified \$47 million and \$23 million, respectively, of transaction based expenses in transaction and clearing revenues, net to transaction based expenses for consistency of how we report our cash equities markets. The amounts reclassified to transaction based expenses relate to equity options markets. For the six months and three months ended June 30, 2015, we also reclassified \$27 million and \$14 million, respectively, in connectivity fees from other revenues to data services revenues.

3. Acquisitions

Interactive Data Acquisition

On December 14, 2015, we acquired 100% of Interactive Data Holdings Corporation, or Interactive Data, in a stock and cash transaction. The total purchase price was \$5.6 billion comprised of cash consideration of \$4.1 billion and 6.5 million shares of our common stock. The cash consideration was funded from \$2.5 billion of net proceeds received on November 24, 2015 in connection with the offering of new senior notes and \$1.6 billion of borrowing under our commercial paper program (Note 6). Interactive Data is a leading provider of financial market data, analytics and related data solutions, serving financial institutions, asset management firms, hedge funds, securities and the financial instrument processing and administration sectors. ICE Data Services is the marketing name we use to refer to the suite of pricing, market data, analytics, and related services offered by us and certain of our affiliates, including Interactive Data and its subsidiaries.

The total purchase price was allocated to Interactive Data's preliminary tangible and identifiable intangible assets and liabilities based on the estimated fair values of those assets as of December 14, 2015, as set forth below. The excess of the purchase price over the preliminary net tangible and identifiable intangible assets was recorded as goodwill and assigned to our data and listings reporting unit. The adjusted preliminary purchase price allocation is as follows (in millions):

Cash and cash equivalents	\$301
Goodwill	3,247
Identifiable intangible assets	2,883
Other assets and liabilities, net	268
Deferred tax liabilities on identifiable intangible assets	(1,071)
Total purchase price	\$5,628

In performing the preliminary purchase price allocation, we considered, among other factors, the intended future use of acquired assets, analysis of historical financial performance and estimates of future performance of Interactive

Data's business. We have not yet obtained all of the information related to the fair value of the acquired assets and liabilities related to the acquisition to finalize the purchase price allocation. However, during the six months ended June 30, 2016, we adjusted the preliminary purchase price allocation based on updated fair value analyses of the Interactive Data tangible and intangible assets and liabilities. The fair value adjustments reflected in the tables above and below primarily result in an increase in data/databases intangible assets of \$33 million, a decrease in trade name and trademarks intangible assets of \$21 million, a decrease in customer relationship intangible assets of \$17 million, a decrease in other assets and liabilities, net of \$28 million, an increase in deferred tax liabilities on identifiable intangible assets of \$20 million, and a corresponding increase in goodwill of \$47 million. The income statement impact for 2015 related to these fair value

adjustments is not significant and has been recorded in 2016 in accordance with ASU 2015-16, Business Combinations: Simplifying the Accounting for Measurement-Period Adjustments.

The primary areas of the preliminary purchase price allocation that are not yet finalized relate to the valuation of income taxes (including uncertain tax positions) and certain other tangible assets and liabilities. The allocation of the purchase price will be finalized upon the completion of the analysis of the acquired assets and liabilities during the year ended December 31, 2016.

The following table sets forth the components of the preliminary intangible assets associated with the acquisition as of June 30, 2016 (in millions, except years):

Preliminary Intangible Assets	Acquisition-Date Preliminary Fair Value	Foreign Currency Translation	Accumulated Amortization	Net Book Value	Useful Life (Years)
Customer relationships	\$ 2,452	\$ (45)	\$ (55)	\$2,352	20 to 25
Developed technology	168	(3)	(13)	152	5 to 8
In-process research and development	129	(3)	—	126	N/A
Data/databases	109	(1)	(16)	92	4
Trade names and trademarks	12	—	(6)	6	2
Market data provider relationships	11	—	—	11	20
Non-compete agreements	2	—	(1)	1	1
Total	\$ 2,883	\$ (52)	\$ (91)	\$2,740	

As of June 30, 2016, \$11 million of the in-process research and development has been moved to developed technology with a useful life of seven years.

Trayport Acquisition

On December 11, 2015, we acquired 100% of Trayport in a stock transaction. The total purchase price was \$620 million, comprised of 2.5 million shares of our common stock. Trayport is a software company that licenses its technology to serve exchanges, OTC brokers and traders to facilitate electronic and hybrid trade execution primarily in the energy markets. The Competition and Markets Authority in the U.K. is currently reviewing our acquisition of Trayport under the merger control laws of the U.K. During the pendency of the review, we have limited ability to integrate Trayport's operations in to our existing business operations and the review could force us to take actions that may result in us not realizing the benefits of the acquisition. The timing of a final decision is uncertain at this time.

The total purchase price was allocated to Trayport's preliminary tangible and identifiable intangible assets and liabilities based on the estimated fair values of those assets as of December 11, 2015, as set forth below. The excess of the purchase price over the preliminary net tangible and identifiable intangible assets was recorded as goodwill and assigned to our data and listings reporting unit. The preliminary purchase price allocation is as follows (in millions):

Goodwill	\$388
Identifiable intangible assets	274
Other assets and liabilities, net	8
Deferred tax liabilities on identifiable intangible assets	(50)
Total purchase price	\$620

In performing the preliminary purchase price allocation, we considered, among other factors, the intended future use of acquired assets, analysis of historical financial performance and estimates of future performance of Trayport's business. We have not yet obtained all of the information related to the fair value of the acquired assets and liabilities related to the acquisition to finalize the purchase price allocation. The primary areas of the preliminary purchase price allocation that are not yet finalized relate to the valuation of income taxes (including uncertain tax positions) and certain other tangible assets and liabilities. The allocation of the purchase price will be finalized upon the completion of the analysis of the acquired assets and liabilities during the year ended December 31, 2016.

The following table sets forth the components of the preliminary intangible assets associated with the acquisition as of June 30, 2016 (in millions, except years):

10

Edgar Filing: Intercontinental Exchange, Inc. - Form 10-Q

Preliminary Intangible Assets	Acquisition-Date Preliminary Fair Value	Foreign Currency Translation	Accumulated Amortization	Net Book Value	Useful Life (Years)
Customer relationships	\$ 242	\$ (30)	\$ (7)	\$ 205	20
Developed technology	14	(1)	(2)	11	3 to 5
Trade names and trademarks	18	(2)	—	16	Indefinite
Total	\$ 274	\$ (33)	\$ (9)	\$ 232	

Pro Forma Information

The financial information in the table below summarizes the combined results of operations of us, Interactive Data and Trayport, on a pro forma basis, as though the companies had been combined as of the beginning of the periods presented. The pro forma financial information is presented for informational purposes only and is not indicative of the results of operations that would have been achieved if the acquisitions had taken place at the beginning of the periods presented. This pro forma financial information is based on estimates and assumptions that have been made solely for purposes of developing such pro forma information, including, without limitation, purchase accounting adjustments. The pro forma financial information does not reflect any synergies or operating cost reductions that have been and may be achieved from the combined operations. The pro forma financial information combines the historical results for us, Interactive Data and Trayport for the six months and three months ended June 30, 2015 in the following table (in millions, except per share amounts).

	Six Months Ended June 30, 2015	Three Months Ended June 30, 2015
Total revenues, less transaction-based expenses	\$ 2,153	\$ 1,053
Operating income	996	478
Net income attributable to ICE	632	299
Earnings per common share:		
Basic	\$ 5.25	\$ 2.49
Diluted	\$ 5.22	\$ 2.48

Pending Acquisition

In March 2016, we entered into a definitive agreement with McGraw Hill Financial to acquire Standard & Poor's Securities Evaluations, Inc., or SPSE, a provider of fixed income evaluated pricing, and Credit Market Analysis Limited, or CMA, a provider of independent data for the OTC markets. When, and if, completed, the acquisition will enable us to offer customers new data and valuation services. Under the terms of the agreement, we can elect to satisfy our payment of the purchase price upon closing in either cash or shares of our common stock. The completion of the transaction is subject to obtaining regulatory approvals.

4. Goodwill and Other Intangible Assets

The following is a summary of the activity in the goodwill balance for the six months ended June 30, 2016 (in millions):

Goodwill balance at December 31, 2015	\$ 12,079
Foreign currency translation	(79)
Other activity, net	46
Goodwill balance at June 30, 2016	\$ 12,046

Edgar Filing: Intercontinental Exchange, Inc. - Form 10-Q

The following is a summary of the activity in the other intangible assets balance for the six months ended June 30, 2016 (in millions):

Other intangible assets balance at December 31, 2015	\$10,758
Foreign currency translation	(95)
Other activity, net	(6)
Amortization of other intangible assets	(164)
Other intangible assets balance at June 30, 2016	\$10,493

The foreign currency translation adjustments in the tables above resulted from a portion of our goodwill and other intangible assets being held at our U.K., Continental European and Canadian subsidiaries, some of whose functional currencies are not the U.S.

dollar. The foreign currency translation decrease for the six months ended June 30, 2016 is primarily due to certain of our goodwill and intangible assets being recorded in pounds sterling, which decreased in value due to the weakening pound sterling exchange rate following the U.K. referendum vote in late June 2016 to leave the European Union.

The changes in other activity, net in the tables above primarily relate to adjustments to the fair value of the net tangible and identifiable intangible assets and liabilities relating to the Interactive Data acquisition, with a corresponding adjustment to goodwill (Note 3). We did not recognize any impairment losses on goodwill or other intangible assets during the six months and three months ended June 30, 2016 and 2015.

5. Deferred Revenue

Deferred revenue represents cash received that is yet to be recognized as revenue. Total deferred revenue was \$442 million as of June 30, 2016, including \$330 million in current deferred revenue and \$112 million in non-current deferred revenue. The changes in our deferred revenue during the six months ended June 30, 2016 are as follows (in millions):

	Annual Listings Revenue	Original Listings Revenues	Other Listings Revenues	Data Services and Other Revenues	Total
Deferred revenue balance at December 31, 2015	\$ —	\$ 50	\$ 59	\$ 81	\$ 190
Additions	363	12	43	263	681
Amortization	(183)	(4)	(21)	(221)	(429)
Deferred revenue balance at June 30, 2016	\$ 180	\$ 58	\$ 81	\$ 123	\$ 442

6. Debt

Our total debt, including short-term and long-term debt, consisted of the following as of June 30, 2016 and December 31, 2015 (in millions):

	As of June 30, 2016	As of December 31, 2015
Debt:		
Commercial Paper	\$ 1,811	\$ 2,591
Short-term debt	1,811	2,591
NYSE USD Notes (2.00% senior unsecured notes due October 5, 2017)	852	852
2018 Senior Notes (2.50% senior unsecured notes due October 15, 2018)	597	597
2020 Senior Notes (2.75% senior unsecured notes due December 1, 2020)	1,240	1,239
2023 Senior Notes (4.00% senior unsecured notes due October 15, 2023)	789	789
2025 Senior Notes (3.75% senior unsecured notes due December 1, 2025)	1,241	1,240
Long-term debt	4,719	4,717
Total debt	\$ 6,530	\$ 7,308
Credit Facility		

We have entered into a \$3.0 billion senior unsecured revolving credit facility, or the Credit Facility, with a maturity date of November 13, 2020. The Credit Facility includes an option for us to propose an increase in the aggregate amount available for borrowing by up to \$1.0 billion, subject to the consent of the lenders funding the increase and certain other conditions. On November 13, 2015, we utilized this option to increase the amount of the Credit Facility to \$3.4 billion. The commitments under the Credit Facility will automatically reduce to \$2.95 billion on April 3, 2019. No amounts were outstanding under the Credit Facility as of June 30, 2016.

Of the \$3.4 billion that is currently available for borrowing under the Credit Facility, \$1.8 billion is required to back-stop the amount outstanding under our Commercial Paper Program as of June 30, 2016. The amount required to back-stop the amounts outstanding under the Commercial Paper Program will fluctuate as we increase or decrease our commercial paper borrowings. The remaining \$1.6 billion as of June 30, 2016 is available to us to use for working capital and general corporate purposes including, but not limited to, acting as a back-stop to the amounts outstanding under the Commercial Paper Program.

364 Day Facility

In November 2015, we entered into a \$500 million 364 day senior unsecured revolving credit facility, or the 364 Day Facility. The amounts available under the 364 Day Facility are available for use by us for working capital and general corporate purposes, but specifically excluding any use to back-stop amounts issued under the Commercial Paper Program. The commitments under the 364 Day Credit Facility were reduced to \$375 million on May 13, 2016 and will be automatically reduced to \$250 million on August 13, 2016. No amounts were outstanding under the 364 Day Facility as of June 30, 2016.

Commercial Paper Program

We have entered into a U.S. dollar commercial paper program, or the Commercial Paper Program. Our Commercial Paper Program is currently backed by the borrowing capacity available under the Credit Facility, equal to the amount of the commercial paper that is issued and outstanding at any given point in time. The effective interest rate of commercial paper issuances does not materially differ from short term interest rates (such as USD LIBOR). The fluctuation of these rates due to market conditions may impact our interest expense.

Commercial paper notes of \$1.8 billion with original maturities ranging from 1 to 89 days were outstanding as of June 30, 2016 under our Commercial Paper Program. As of June 30, 2016, the weighted average interest rate on the \$1.8 billion outstanding under our Commercial Paper Program was 0.54% per annum, with a weighted average maturity of 18 days. We repaid \$781 million of the amounts outstanding under the Commercial Paper Program during the six months ended June 30, 2016 using cash flows from operations and a portion of our unrestricted cash balances.

Senior Notes

On November 24, 2015, we issued \$2.5 billion in aggregate senior notes, including \$1.25 billion principal amount of 2.75% senior unsecured fixed rate notes due November 2020, or the 2020 Senior Notes, and \$1.25 billion principal amount of 3.75% senior unsecured fixed rate notes due November 2025, or the 2025 Senior Notes. We used the net proceeds from the 2020 Senior Notes and 2025 Senior Notes offering, together with \$1.6 billion of borrowings under our Commercial Paper Program, to finance the \$4.1 billion cash portion of the purchase price of the acquisition of Interactive Data (Note 3).

In October 2013, we issued \$600 million principal amount of 2.50% senior unsecured fixed rate notes due October 2018, or the 2018 Senior Notes, and \$800 million principal amount of 4.00% senior unsecured fixed rate notes due October 2023, or the 2023 Senior Notes.

NYSE Notes

In connection with our acquisition on November 13, 2013 of NYSE Euronext, which we refer to as NYSE following the initial public offering and sale of Euronext in 2014, we assumed NYSE's outstanding debt instruments, which included \$850 million of 2.00% senior unsecured fixed rate notes due in October 2017, or the NYSE USD Notes, and €920 million (\$1.1 billion) of 5.375% senior unsecured fixed rate notes that were due in June 2015, or the NYSE EUR Notes, and together with the NYSE USD Notes, the NYSE Notes. On June 30, 2015, we repaid the NYSE EUR Notes using cash that had been set aside in July 2014 from the proceeds of the sale of Euronext.

During the six months and three months ended June 30, 2015, the amortization of the increase in the fair value of the NYSE Notes that was recorded in connection with the NYSE acquisition purchase accounting was \$23 million and \$11 million, respectively. No significant amortization expenses were recorded after the repayment of the NYSE EUR Notes.

7. Equity

We currently sponsor employee and director stock option and restricted stock plans. Stock options and restricted stock are granted at the discretion of the compensation committee of the board of directors. All stock options and restricted stock awards are granted at an exercise price equal to the fair value of the common stock on the date of grant. The grant date fair value is based on the closing stock price on the date of grant. The fair value of the stock options and restricted stock on the date of grant is recognized as expense over the vesting period, net of estimated forfeitures. The non-cash compensation expenses recognized in our consolidated statements of income for stock options and restricted stock were \$60 million and \$47 million for the six months ended June 30, 2016 and 2015, respectively, and \$31 million and \$23 million for the three months ended June 30, 2016 and 2015, respectively.

Stock Option Plans

The following is a summary of stock options for the six months ended June 30, 2016:

	Number of Options	Weighted Average Exercise Price per Option
Outstanding at December 31, 2015	774,551	\$ 159.66
Granted	150,323	250.07
Exercised	(92,653)	143.45

Edgar Filing: Intercontinental Exchange, Inc. - Form 10-Q

Outstanding at June 30, 2016	832,221	177.80
------------------------------	---------	--------

Details of stock options outstanding as of June 30, 2016 are as follows:

13

Edgar Filing: Intercontinental Exchange, Inc. - Form 10-Q

Number of Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (Years)	Aggregate Intrinsic Value (In millions)	
Vested or expected to vest	832,221	\$ 177.80	6.9	\$ 65
Exercisable	559,552	\$ 151.84	5.9	\$ 58

The total intrinsic value of stock options exercised during the six months ended June 30, 2016 and 2015 were \$10 million and \$14 million, respectively, and \$7 million and \$9 million for the three months ended June 30, 2016 and 2015, respectively. As of June 30, 2016, there was \$11 million in total unrecognized compensation costs related to stock options. These costs are expected to be recognized over a weighted average period of 2.0 years as the stock options vest.

We use the Black-Scholes option pricing model for purposes of valuing stock option awards. During the six months ended June 30, 2016 and 2015, we used the weighted-average assumptions in the table below to compute the value of all options for shares of common stock granted to employees:

Assumptions:	Six Months Ended June 30,			
	2016	2015		
Risk-free interest rate	1.51	% 1.08	%	
Expected life in years	5.0	5.0		
Expected volatility	24	% 24	%	
Expected dividend yield	1.36	% 1.25	%	
Estimated weighted-average fair value of options granted per share	\$49.39	\$40.94		

The risk-free interest rate is based on the zero-coupon U.S. Treasury yield curve in effect at the time of grant. The expected life computation is derived from historical exercise patterns and anticipated future patterns. Expected volatilities are based on historical volatility of our stock.

Restricted Stock Plans

In January 2016, we reserved a maximum of 330,924 restricted shares for potential issuance as performance-based restricted shares to certain of our employees. The number of shares that will ultimately be granted under the performance awards will be based on our actual financial performance as compared to financial performance targets set by our board of directors and compensation committee for the year ending December 31, 2016. The maximum compensation expense to be recognized under these performance-based restricted shares is \$80 million if the maximum financial performance target is met and all 330,924 shares vest. The compensation expense to be recognized under these performance-based restricted shares will be \$39 million if the target financial performance is met, which would result in 165,462 shares vesting. These restricted shares are also subject to a market condition that could reduce the number of shares that are ultimately granted. We will recognize expense on an accelerated basis over the three-year vesting period based on our quarterly assessment of the probable 2016 actual financial performance as compared to the 2016 financial performance targets. As of June 30, 2016, we determined that it is probable that the financial performance level will be at target for 2016. Based on this assessment, we recorded non-cash compensation expense of \$11 million and \$6 million for the six months and three months ended June 30, 2016, respectively, related to these shares and the remaining \$28 million in non-cash compensation expense will be recorded on an accelerated basis over the remaining vesting period, including \$13 million of which will be recorded over the remainder of 2016. The following is a summary of the non-vested restricted shares for the six months ended June 30, 2016:

	Number of Restricted Stock Shares	Weighted Average Grant-Date Fair Value per Share
Non-vested at December 31, 2015	1,254,235	\$ 199.44
Granted	580,901	248.45
Vested	(447,715)	187.50
Forfeited	(36,541)	225.76
Non-vested at June 30, 2016	1,350,880	224.22

Restricted stock shares granted in the table above include both time-based and performance-based grants. Performance-based shares have been presented to reflect the actual shares to be issued based on the achievement of past performance targets. Non-vested performance-based restricted shares granted are presented in the table above at the maximum number of restricted shares that would vest if the maximum performance targets are met. As of June 30, 2016, there were \$174 million in total unrecognized compensation

costs related to the time-based restricted stock and the performance-based restricted stock. These costs are expected to be recognized over a weighted-average period of 1.6 years as the restricted stock vests. These unrecognized compensation costs assume that a target performance level will be met on the performance-based restricted shares granted in January 2016. During the six months ended June 30, 2016 and 2015, the total fair value of restricted stock vested under all restricted stock plans was \$112 million and \$86 million, respectively.

Stock Repurchase Program

During 2015, our stock repurchases were completed under stock repurchase plans authorized by our board of directors. In connection with our acquisition of Interactive Data during the fourth quarter of 2015, we suspended our stock repurchase plan and that plan has now expired. We did not repurchase any of our outstanding common stock during the six months ended June 30, 2016. The timing and extent of future repurchases, if any, that are not made pursuant to a Rule 10b5-1 trading plan will be at our discretion and will depend upon many conditions. Our management and board of directors periodically review whether or not to be active in repurchasing our stock. In making a determination regarding any stock repurchases, we consider multiple factors. The factors may include: overall stock market conditions, our common stock price movements, the remaining amount authorized for repurchases by our board of directors, the potential impact of a stock repurchase program on our corporate debt ratings, our expected free cash flow and working capital needs, our current and future planned strategic growth initiatives, and other potential uses of our cash and capital resources.

In August 2016, our board of directors approved an aggregate of \$1.0 billion for future repurchases of our common stock with no fixed expiration date, subject to applicable laws and regulations. Repurchases may be made from time to time on the open market, through established plans, in privately-negotiated transactions or otherwise, in accordance with all applicable securities laws, rules and regulations. We plan to enter into a Rule 10b5-1 trading plan in the future to govern the repurchase of our shares of common stock. Assuming we do begin to repurchase our shares of common stock in the future, we may discontinue the stock repurchases at any time and may terminate the Rule 10b5-1 trading plan. The approval for the share repurchases does not obligate us to acquire any particular amount of our common stock. In addition, our board of directors may increase or decrease the amount of capacity we have for repurchases from time to time.

8. Income Taxes

Our effective tax rate was 30% and 27% for the six months ended June 30, 2016 and 2015, respectively, and 30% and 27% for the three months ended June 30, 2016 and 2015. The effective tax rates for the six months and three months ended June 30, 2016 and 2015 were lower than the federal statutory rate primarily due to favorable foreign income tax rate differentials, partially offset by state income taxes. The favorable foreign income tax rate differential results primarily from lower tax rates in the U.K. The effective tax rates for the six months and three months ended June 30, 2016 are higher than the effective tax rate for the comparable periods in 2015 primarily due to a mix of foreign versus U.S. based income and an increase to deferred income taxes in the current year, partially offset by the tax benefit from the early adoption of ASU 2016-09 (Note 2).

Our non-U.S. subsidiaries had \$3.3 billion in cumulative undistributed earnings as of June 30, 2016. This amount represents the post-income tax earnings under GAAP adjusted for previously taxed income. The earnings from our non-U.S. subsidiaries are considered to be indefinitely reinvested. Accordingly, no provision for U.S. federal and state income taxes has been made in the accompanying consolidated financial statements. Further, a determination of the unrecognized deferred tax liability is not practicable. Any future distribution by way of dividend of these non-U.S. earnings may subject us to both U.S. federal and state income taxes, as adjusted for non-U.S. tax credits, and withholding taxes payable to various non-U.S. countries.

9. Clearing Organizations

We operate regulated central counterparty clearing houses for the settlement and clearance of derivative contracts. The clearing houses include ICE Clear Europe, ICE Clear Credit, ICE Clear U.S., ICE Clear Canada, ICE Clear Netherlands and ICE Clear Singapore (referred to herein collectively as the "ICE Clearing Houses").

ICE Clear Europe performs the clearing and settlement for all futures and options contracts traded through ICE Futures Europe and ICE Endex, for CDS contracts submitted for clearing in Europe, and for energy futures and

options contracts trading through ICE Futures U.S.

• ICE Clear Credit performs the clearing and settlement for CDS contracts submitted for clearing in North America.

• ICE Clear U.S. performs the clearing and settlement of agricultural, metals, currencies and financial futures and options contracts traded through ICE Futures U.S.

• ICE Clear Canada performs the clearing and settlement for all futures and options contracts traded through ICE Futures Canada.

• ICE Clear Netherlands offers clearing for The Order Machine, a multi-lateral trading facility for equity options.

• ICE Clear Singapore performs the clearing and settlement for all futures and options contracts traded through ICE Futures Singapore.

Each of the ICE Clearing Houses requires all clearing members to maintain cash on deposit or pledge certain assets, which may include government obligations, non-government obligations, letters of credit or gold to guarantee performance of the clearing members' open positions. Such amounts in total are known as "original margin". The ICE Clearing Houses may make intraday original margin calls in circumstances where market conditions require additional protection. The daily profits and losses from and to the ICE Clearing Houses due to the marking-to-market of open contracts is known as "variation margin". The ICE Clearing Houses mark all outstanding contracts to market, and therefore pay and collect variation margin, at least once daily, and in some cases multiple times throughout the day. Marking-to-market allows the ICE Clearing Houses to identify any clearing members that may be unable to satisfy the financial obligations resulting from changes in the prices of their open contracts before those financial obligations become exceptionally large and jeopardize the ability of the ICE Clearing Houses to ensure financial performance of clearing members' open positions.

Each of the ICE Clearing Houses requires that each clearing member make deposits into a fund known as a "guaranty fund", which is maintained by the relevant ICE Clearing House. These amounts serve to secure the obligations of a clearing member to the ICE Clearing House to which it has made the guaranty fund deposit and may be used to cover losses sustained by the respective ICE Clearing House in the event of a default of a clearing member.

The ICE Clearing Houses seek to reduce their exposure through a risk management program that includes initial and ongoing financial standards for clearing member admission and continued membership, original and variation margin requirements, and mandatory deposits to the guaranty fund. The amounts that the clearing members are required to maintain in the original margin and guaranty fund accounts are determined by standardized parameters established by the risk management departments and reviewed by the risk committees and the boards of directors of each of the ICE Clearing Houses and may fluctuate over time. As of June 30, 2016 and December 31, 2015, the ICE Clearing Houses have received or have been pledged \$89.1 billion and \$87.2 billion, respectively, in cash and non-cash collateral in original margin and guaranty fund deposits to cover price movements of underlying contracts for both periods. The ICE Clearing Houses also have powers of assessment that provide the ability to collect additional funds from their clearing members to cover a defaulting member's remaining obligations up to the limits established under the respective rules of each ICE Clearing House.

Should a particular clearing member fail to deposit original margin, or fail to make a variation margin payment, when and as required, the relevant ICE Clearing House may liquidate or hedge the clearing member's open positions and use the clearing member's original margin and guaranty fund deposits to make up any amount owed. In the event that those deposits are not sufficient to pay the amount owed in full, the ICE Clearing Houses may utilize the respective guaranty fund deposits of their respective clearing members on a pro-rata basis for that purpose.

We have contributed \$150 million, \$50 million and \$50 million in cash to the ICE Clear Europe, ICE Clear Credit and ICE Clear U.S. guaranty funds, respectively, as of June 30, 2016, and such amounts are at risk and could be used in the event of a clearing member default where the amount of the defaulting clearing member's original margin and guaranty fund deposits are insufficient. The \$250 million combined contributions to the guaranty funds as of June 30, 2016 and December 31, 2015 are included in long-term restricted cash in the accompanying consolidated balance sheets.

As of June 30, 2016, our cash margin deposits and guaranty fund are as follows for the ICE Clearing Houses (in millions):

	ICE Clear Europe	ICE Clear Credit	ICE Clear U.S.	Other ICE Clearing Houses	Total
Original margin	\$25,177	\$14,176	\$ 4,445	\$ 160	\$43,958
Guaranty fund	2,797	1,431	303	12	4,543
Total	\$27,974	\$15,607	\$ 4,748	\$ 172	\$48,501

As of December 31, 2015, our cash margin deposits and guaranty fund are as follows for the ICE Clearing Houses (in millions):

ICE Clear	ICE Clear	ICE Clear U.S.	Other ICE	Total
-----------	-----------	----------------	-----------	-------

	Europe	Credit		Clearing Houses	
Original margin	\$28,454	\$13,750	\$ 3,882	\$ 159	\$46,245
Guaranty fund	2,589	2,011	311	13	4,924
Total	\$31,043	\$15,761	\$ 4,193	\$ 172	\$51,169

We have recorded these cash deposits in the accompanying consolidated balance sheets as current assets with corresponding current liabilities to the clearing members of the relevant ICE Clearing House. All cash, securities and letters of credit are available only to meet the financial obligations of that clearing member to the relevant ICE Clearing House. ICE Clear Europe, ICE Clear Credit, ICE Clear U.S., ICE Clear Canada, ICE Clear Netherlands and ICE Clear Singapore are separate legal entities and are not subject to the liabilities of the other ICE Clearing Houses or the obligations of the members of the other ICE Clearing Houses. The

amount of these cash deposits may fluctuate due to the types of margin collateral choices available to clearing members and the change in the amount of deposits required. As a result, these assets and corresponding liabilities may vary significantly over time.

Except with respect to ICE Clear Credit, the majority of the cash held by the ICE Clearing Houses is secured in reverse repurchase agreements with primarily overnight maturities or direct investment in U.S. government securities. ICE Clear Credit has been designated as a systemically important financial market utility by the Financial Stability Oversight Council and has been authorized to establish and maintain a cash account at the Federal Reserve Bank of Chicago. ICE Clear Credit held \$7.3 billion of its U.S. dollar cash in the guaranty fund and in original margin in the cash account at the Federal Reserve Bank of Chicago as of June 30, 2016. The remaining cash deposits at the ICE Clearing Houses are held in demand deposit accounts at large, highly rated financial institutions and directly in U.S. Treasury securities with original maturities of less than 12 months.

In addition to the cash deposits for original margin and the guaranty fund, the ICE Clearing Houses have also received other assets from clearing members, which may include government obligations, certain agency and corporate debt, letters of credit or gold to mitigate credit risk. These assets are not reflected in the accompanying consolidated balance sheets as the risks and rewards of these assets remain with the clearing members unless the ICE Clearing Houses have sold or re-pledged the assets or in the event of a clearing member default, where the clearing member is no longer entitled to redeem the assets. Any income, gain or loss accrues to the clearing member. For certain non-cash deposits, the ICE Clearing Houses may impose discount or “haircut” rates to ensure adequate collateral levels to account for fluctuations in the market value of these deposits. As of June 30, 2016 and December 31, 2015, the assets pledged by the clearing members as original margin and guaranty fund deposits for each of the ICE Clearing Houses are detailed below (in millions):

	As of June 30, 2016				As of December 31, 2015			
	ICE Clear Europe	ICE Clear Credit	ICE Clear U.S.	Other ICE Clearing Houses	ICE Clear Europe	ICE Clear Credit	ICE Clear U.S.	Other ICE Clearing Houses
Original margin:

10. Fair Value Measurements

Our financial instruments consist primarily of cash and cash equivalents, short-term and long-term restricted cash and investments, short-term and long-term investments, customer accounts receivable, margin deposits and guaranty funds, cost and equity method investments, short-term and long-term debt and certain other short-term assets and liabilities. The fair value of our financial instruments are measured based on a three-level hierarchy:

Level 1 inputs — quoted prices for identical assets or liabilities in active markets.

Level 2 inputs — observable inputs other than Level 1 inputs such as quoted prices for similar assets and liabilities in active markets or inputs other than quoted prices that are directly observable.

Level 3 inputs — unobservable inputs supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

In general, we use Level 1 inputs to determine fair value. The Level 1 assets consist of U.S. Treasury securities, equity and other securities listed in active markets, and investments in publicly traded mutual funds held for the purpose of providing future payments of the supplemental executive retirement and the supplemental executive savings plans. Financial assets and liabilities recorded in the accompanying consolidated balance sheets as of June 30, 2016 and December 31, 2015 are classified in their entirety based on the lowest level of input that is significant to the asset or liability’s fair value measurement. Financial instruments measured at fair value on a recurring basis as of June 30, 2016 and December 31, 2015 are as follows (in millions):

	As of June 30, 2016			As of December 31, 2015		
	Level 1	Level 2 and 3	Total	Level 1	Level 2 and 3	Total
Assets at fair value:						
Long-term investment in equity securities	\$427	\$ —	-\$427	\$299	\$ —	-\$299
U.S. Treasury securities	503	—	503	449	—	449
Mutual Funds	24	—	24	29	—	29
Total assets at fair value	\$954	\$ —	-\$954	\$777	\$ —	-\$777

As of June 30, 2016, the fair value of our \$1.24 billion 2020 Senior Notes was \$1.30 billion, the fair value of our \$1.24 billion 2025 Senior Notes was \$1.35 billion, the fair value of our \$852 million NYSE USD Notes was \$860 million, the fair value of our \$789 million 2023 Senior Notes was \$865 million, and the fair value of our \$597 million 2018 Senior Notes was \$615 million. The fair values of these fixed rate notes were estimated using quoted market prices for these instruments. The fair value of our commercial paper approximates the carrying value since the rates of interest on this short-term debt approximate market rates as of June 30, 2016. All other financial instruments are determined to approximate carrying value due to the short period of time to their maturities.

The long-term investment in equity securities represents our investment in Cetip, which is recorded as an available-for-sale investment, and is recorded and held in Brazilian reais. Cetip was valued at \$427 million as of June 30, 2016, using its quoted market price. Changes in the fair value of the Cetip investment are currently reflected in accumulated other comprehensive income (loss) and do not impact earnings, except to the extent that unrealized losses are deemed to be other than temporary (Note 2). As of June 30, 2016, we had an accumulated unrealized gain related to this investment of \$103 million.

In April 2016, Cetip and BM&FBOVESPA in Brazil entered into a merger agreement. Consummation of the merger remains subject to approval by the regulatory bodies of the Central Bank of Brazil, the Securities and Exchange Commission of Brazil and Brazil's Council for Economic Defense. The proposed merger values Cetip at R\$43.79 per share based upon the June 30, 2016 BM&FBOVESPA closing stock price. Under the terms of the merger agreement, Cetip shareholders will receive a combination of cash (75%) and BM&FBOVESPA stock (25%). Given that a portion of the purchase price consists of BM&FBOVESPA stock, the merger agreement includes an adjustment mechanism that provides for a stock valuation based on the BMF&BOVESPA average trading price during the 30 trading days preceding the last required regulatory approval, with a minimum stock valuation of R\$42.00 per share and a maximum stock valuation of R\$48.51 per share.

As of June 30, 2016, we held \$503 million in U.S. Treasury securities, all of which had remaining maturities of less than one year at the date of purchase. Of these securities, \$33 million were recorded as cash and cash equivalents, \$320 million were recorded as short-term restricted cash and investments and \$150 million were recorded as long-term restricted cash and investments in the accompanying consolidated balance sheet as of June 30, 2016. All of the U.S. Treasury securities recorded as cash and cash equivalents have original maturities of less than 90 days. We did not use Level 2 and 3 inputs to determine the fair value of assets or liabilities measured at fair value on a recurring basis as of June 30, 2016 or December 31, 2015. We measure certain assets, such as intangible assets and cost and equity method investments, at fair value on a non-recurring basis. These assets are recognized at fair value if they are deemed to be impaired. As of June 30, 2016 and December 31, 2015, none of these assets were required to be recorded at fair value since no impairment indicators were present.

11. Condensed Consolidating Financial Statements (Unaudited)

In connection with our acquisition of NYSE, Intercontinental Exchange, Inc., or ICE, and NYSE Holdings LLC, or NYSE Holdings, established various guarantees to protect against structural subordination of each entity's existing indebtedness. NYSE Holdings is our 100% owned subsidiary and fully and unconditionally guarantees, on an unsecured and unsubordinated basis, the payment of principal, premium, if any, and interest of our senior notes. Similarly, ICE fully and unconditionally guarantees, on an unsecured and unsubordinated basis, the payment of

principal, premium, if any, and interest of the NYSE USD Notes. The guarantees will remain in place until each applicable debt obligation has been satisfied.

The following consolidating financial information sets forth, under the equity method of accounting, the condensed consolidating statements of income and comprehensive income, the condensed consolidating balance sheets, and the condensed consolidating statements of cash flows for (i) ICE (Parent); (ii) NYSE Holdings; (iii) the subsidiary non-guarantors; (iv) elimination entries necessary to consolidate each of ICE (Parent) and NYSE Holdings with the non-guarantor subsidiaries; and (v) on a consolidated basis. The condensed consolidating financial information should be read in conjunction with the accompanying consolidated financial statements.

12. Segment Reporting

We operated as a single reportable business segment as of December 31, 2015 but began operating as two operating segments in the first quarter of 2016 following our acquisition of Interactive Data. As of June 30, 2016, we continue to operate as two business segments: our Trading and Clearing segment and our Data and Listings segment. This presentation is reflective of how our chief operating decision maker reviews and operates our business. Our Trading and Clearing segment comprises our transaction-based execution and clearing businesses. Our Data and Listings segment comprises our subscription-based data services and securities listings businesses. Our chief operating decision maker does not review total assets, intersegment revenues/expenses or statements of income below operating income by segments; therefore, such information is not presented below. Financial data for our business segments is as follows for the six months and three months ended June 30, 2016 and 2015 (in millions):

	Trading and Clearing Segment	Data and Listings Segment	Consolidated
Six Months Ended June 30, 2016:			
Revenues, less transaction-based expenses	\$ 1,101	\$ 1,182	\$ 2,283
Operating expenses	427	721	1,148
Operating income	674	461	1,135
Six Months Ended June 30, 2015:			
Revenues, less transaction-based expenses	\$ 1,040	\$ 607	\$ 1,647
Operating expenses	445	310	755
Operating income	595	297	892
	Trading and Clearing Segment	Data and Listings Segment	Consolidated
Three Months Ended June 30, 2016			
Revenues, less transaction-based expenses	\$ 527	\$ 602	\$ 1,129
Operating expenses	214	364	578
Operating income	313	238	551
Three Months Ended June 30, 2015			
Revenues, less transaction-based expenses	\$ 491	\$ 306	\$ 797
Operating expenses	219	148	367
Operating income	272	158	430

Revenue from one clearing member of the Trading and Clearing segment comprised 10% of the our Trading and Clearing revenues for the six months ended June 30, 2016. Clearing members are primarily intermediaries and represent a broad range of principal trading firms. If a clearing member ceased its operations, we believe that the trading firms would continue to conduct transactions and would clear those transactions through another clearing member firm. No additional customers or clearing members accounted for more than 10% of our segment revenues or consolidated revenues for the six months and three months ended June 30, 2016 and 2015.

13. Earnings Per Common Share

The following is a reconciliation of the numerators and denominators of the basic and diluted earnings per common share computations for the six months and three months ended June 30, 2016 and 2015 (in millions, except per share amounts):

	Six Months Ended June 30,		Three Months Ended June 30,	
	2016	2015	2016	2015
Basic:				
Net income attributable to Intercontinental Exchange, Inc.	\$726	\$598	\$357	\$283
Weighted average common shares outstanding	119	112	119	111
Basic earnings per common share	\$6.10	\$5.37	\$3.00	\$2.55
Diluted:				
Weighted average common shares outstanding	119	112	119	111
Effect of dilutive securities - stock options and restricted shares	1	—	1	1
Diluted weighted average common shares outstanding	120	112	120	112
Diluted earnings per common share	\$6.07	\$5.34	\$2.98	\$2.54

Basic earnings per common share is calculated using the weighted average common shares outstanding during the period. The weighted average common shares outstanding increased for the six months and three months ended June 30, 2016, over the prior year period, primarily due to stock issued for the Interactive Data and Trayport acquisitions in December 2015, partially offset by stock repurchases during 2015. We issued 6.5 million shares of our common stock to Interactive Data stockholders and 2.5 million shares of our common stock to Trayport stockholders, weighted to show these additional shares outstanding for periods after the respective acquisition dates (Note 3). Common equivalent shares from stock options and restricted stock awards, using the treasury stock method, are included in the diluted per share calculations unless the effect of their inclusion would be antidilutive. During the six months ended June 30, 2016 and 2015, 150,323 and 190,000 outstanding stock options, respectively, were not included in the computation of diluted earnings per common share since the inclusion would have had an antidilutive effect because the outstanding stock option exercise prices were greater than the average market price of the common shares during the relevant periods. Certain figures in the table above may not recalculate due to rounding.

14. Subsequent Events

We have evaluated subsequent events and determined that no events or transactions met the definition of a subsequent event for purposes of recognition or disclosure in the accompanying consolidated financial statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Quarterly Report on Form 10-Q, including the sections entitled "Notes to Consolidated Financial Statements", "Legal Proceedings" and "Management's Discussion and Analysis of Financial Condition and Results of Operations", contains "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995. Any statements contained herein that are not statements of historical fact may be forward-looking statements. Any forward looking statements are based on our present beliefs and assumptions as well as the information currently available to us. Forward-looking statements may be introduced by or contain terminology such as "may," "will," "should," "could," "would," "targets," "goal," "expect," "intend," "plan," "anticipate," "believe," "estimate," "predict," "potential," "continue," or the antonyms or other comparable terminology. These statements relate to future events or our future financial performance and involve known and unknown risks, uncertainties and other factors that may cause our results, levels of activity, performance, cash flows, financial position or achievements to differ materially from those expressed or implied by these forward-looking statements. These risks and other factors include those set forth in Item 1(A) under the caption "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2015, or our 2015 Form 10-K, as filed with the SEC on February 4, 2016.

Forward-looking statements and other risks and factors that may affect our performance include, but are not limited to: conditions in global financial markets and domestic and international economic conditions; volatility in commodity prices, equity prices, and price volatility of financial benchmarks and instruments such as interest rates, credit spreads, equity indices and foreign exchange rates; the business environment in which we operate and trends in our industry, including trading volumes, clearing, data services, fees, changing regulations, competition and consolidation; continued high renewal rates of subscription-based data revenues; the impact of the introduction of or any changes in laws, regulations, rules or government policy with respect to financial markets, increased regulatory scrutiny or enforcement actions and our ability to comply with these requirements; our ability to identify and effectively pursue, implement and integrate acquisitions and strategic alliances; our ability to continue to realize the synergies and benefits of our acquisitions within the expected time frame, and to integrate acquired operations with our business; the success of our clearing houses and our ability to minimize the risks associated with operating clearing houses in multiple jurisdictions; the resilience of our electronic platforms and soundness of our business continuity and disaster recovery plans; the performance and reliability of our other technologies and those of third party service providers, including our ability to keep pace with technological developments and ensure that the technology we utilize is not vulnerable to security risks or other disruptive events; the accuracy of our cost and other financial estimates and our belief that cash flows from operations will be sufficient to service our debt and fund our operational and capital expenditure needs; our ability to identify trends and adjust our business to benefit from such trends; our ability to maintain existing market participants and attract new ones, and to offer additional products and services, leverage our risk management capabilities and enhance our technology in a timely and cost-effective fashion; our ability to attract and retain key talent; our ability to protect our intellectual property rights and to operate our business without violating the intellectual property rights of others; and potential adverse results of threatened or pending litigation and regulatory actions and proceedings.

We caution you not to place undue reliance on any forward-looking statements as they speak only as of the date on which such statements were made, and we undertake no obligation to update any forward-looking statement or to reflect the occurrence of an unanticipated event. New factors emerge from time to time, and it is not possible for management to predict all factors that may affect our business and prospects. Further, management cannot assess the impact of each factor on the business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

In this Quarterly Report on Form 10-Q, unless otherwise indicated, the terms "Intercontinental Exchange", "ICE", "we", "us", "our", "our company" and "our business" refer to Intercontinental Exchange, Inc., together with its consolidated subsidiaries. Due to rounding, figures may not sum exactly.

Overview

We are a leading global operator of regulated exchanges, clearing houses and listings venues, and a provider of data services for commodity and financial markets. We operate regulated marketplaces for trading, listing and clearing a broad array of derivatives and securities contracts across major asset classes, including energy and agricultural

commodities, interest rates, equities, equity derivatives, exchange traded funds, credit derivatives, bonds and currencies. We offer end-to-end market data services to support the trading, investment, risk management and connectivity needs of customers across virtually all asset classes.

Our exchanges include futures exchanges in the U.S., U.K., Continental Europe, Canada and Singapore and cash equities exchanges and equity options exchanges in the U.S. We also operate OTC markets for physical energy and CDS trade execution. To serve global derivatives markets, we operate central counterparty clearing houses in the U.S., U.K., Continental Europe, Canada and Singapore. We offer a range of data and connectivity services to customers in global financial and commodity markets, including fixed income pricing and reference data, analytics, feeds, desktops and connectivity solutions. Through our markets, clearing houses, listings and data services, we provide end-to-end solutions for our customers through liquid markets, benchmark products, access to capital markets, information, and a range of related services to support their ability to manage risk and raise capital. Our business is

currently conducted as two reportable business segments, our Trading and Clearing segment and our Data and Listings segment, and the majority of our identifiable assets are located in the U.S. and U.K.

Recent Developments

Completed Acquisitions and Investments

On December 14, 2015, we acquired 100% of Interactive Data in a stock and cash transaction. The total purchase price was \$5.6 billion comprised of cash consideration of \$4.1 billion and 6.5 million shares of our common stock, and their results are included in our consolidated results effective from the acquisition date. Interactive Data is a leading provider of financial market data, analytics and related data solutions. On December 11, 2015, we acquired 100% of Trayport in a stock transaction. The total purchase price was \$620 million, comprised of 2.5 million shares of our common stock, and their results are included in our consolidated results effective from the acquisition date. Trayport is a software company that licenses its technology to serve exchanges, OTC brokers and traders to facilitate electronic and hybrid trade execution primarily in the energy markets. The Competition and Markets Authority in the U.K. is currently reviewing our acquisition of Trayport under the merger control laws of the U.K. During the pendency of the review, we have limited ability to integrate Trayport's operations in to our existing business operations and the review could force us to take actions that may result in us not realizing the benefits of the acquisition. The timing of a final decision is uncertain at this time. Refer to note 3 to our consolidated financial statements and related notes, which are included elsewhere in this Quarterly Report on Form 10-Q, for more information on these acquisitions.

On June 30, 2016, we acquired a majority equity position in MERSCORP Holdings, Inc., owner of Mortgage Electronic Registrations Systems, Inc., or collectively "MERS". MERS is a privately held, member-based organization that owns and manages the MERS® System and is made up of thousands of lenders, servicers, sub-servicers, investors and government institutions. In addition, we have entered into a software development agreement to rebuild the MERS® System to benefit the U.S. residential mortgage finance market. The MERS® System is a national electronic registry that tracks the changes in servicing rights and beneficial ownership interests in U.S.-based mortgage loans. This new infrastructure is expected to shift its operation to an ICE data center in the first half of 2018.

The terms of the MERS acquisition include a right for us to purchase all, but not less than, the remaining equity interests of MERS after we satisfy our deliverables under the software development agreement. In addition, the MERS equityholders may exercise a put option to require us to purchase all of the remaining equity interests of MERS. Each of these terms is subject to certain price provisions. Because we do not have the ability to control MERS' operations, we have recorded the purchase as an equity method investment and our ratable share of net income (loss) in MERS in future periods will be recorded in our consolidated statements of income as equity earnings of our unconsolidated subsidiaries, below operating income in other income (loss).

Pending Acquisition and Sale

In March 2016, we entered into a definitive agreement with McGraw Hill Financial to acquire Standard & Poor's Securities Evaluations, Inc., or SPSE, a provider of fixed income evaluated pricing, and Credit Market Analysis Limited, or CMA, a provider of independent data for the OTC markets. When completed, the acquisition will enable us to offer customers new data and valuation services. Under the terms of the agreement, we can elect to satisfy our payment of the purchase price upon closing in either cash or shares of our common stock. The completion of the transaction is subject to obtaining regulatory approvals.

In July 2016, we entered into an agreement to sell certain of the U.S. voice brokerage operations of Creditex to Tullett Prebon. We will retain Creditex's electronically traded markets and systems, post-trade connectivity platforms and intellectual property. The completion of the transaction is subject to regulatory approval.

Regulation

Our markets are primarily subject to the jurisdiction of regulatory agencies in the U.S., U.K., Canada, Singapore and the European Union. Global policy makers have undertaken reviews of their existing legal framework governing financial markets in connection with regulatory reform, and have either passed new laws and regulations, or are in the process of debating and/or enacting new laws and regulations that apply to our business and to our customers' businesses. Legislative and regulatory actions may impact the way in which we or our customers conduct business and may create uncertainty, which could affect trading volumes or demand for market data. As discussed in our 2015 Form 10-K, the implementation of Markets in Financial Instruments Directives II, or MiFID II, and its counterpart the

European Market Infrastructure Regulation, or EMIR, may result in operational, regulatory and/or business risk. In June 2016, the European Union approved plans for a twelve-month postponement of MiFID II implementation and compliance to January 1, 2018.

In March 2016, the European Commission adopted a decision relating to U.S. Commodity Futures Trading Commission, or CFTC, regulatory equivalence and margin treatment for clearing houses. The equivalence decision allows European clearing houses to margin customers at a one day gross margin period of risk (equivalent to the U.S. rules for clearing houses) and, with respect to CFTC regulated products, requires U.S. clearing houses to margin proprietary positions at a two day net margin period of risk (equivalent to the European rules for clearing houses). U.S. clearing houses are also required to demonstrate implementation of specific anti-procyclicality measures, equivalent to European regulatory standards. The equivalence decision exempts U.S. agricultural products (including ICE Futures U.S.'s coffee, cocoa, cotton and sugar contracts) from these changes. Upon recognition under the equivalence decision, European customers will be able to continue to access our CFTC regulated U.S. clearing houses with respect to CFTC regulated products. Similarly, ICE Clear Europe will be able to margin customers in a manner similar to U.S. clearing houses.

In June 2016, the European Union granted recognition to U.S. regulated exchanges, including ICE Futures U.S. With recognition, a futures transaction on a U.S. exchange is treated similar to a futures transaction on any European exchange.

In June 2016, the U.K. voted to leave the European Union. It will remain in the European Union until the withdrawal process has been negotiated and concluded. That process will commence once the U.K. government invokes Article 50 of the Lisbon Treaty. After invoking Article 50, the Lisbon Treaty envisions a period of up to two years for a Member State to negotiate its withdrawal. All European Union laws and treaties will remain in effect as the U.K. negotiates its exit. The actual impact on our business relating to the U.K. leaving the European Union and the corresponding regulatory changes are uncertain at this time and may not be known in the near future.

Proposed Future Stock Split

In August 2016, our board of directors approved pursuing an effective 5-for-1 split of ICE's common stock that will be distributed in the form of a four share stock dividend per share of common stock, subject to both SEC and stockholder approval of an amendment and restatement to our Certificate of Incorporation to increase our authorized shares of common stock and capital stock. We will provide additional information to our stockholders regarding a special meeting to approve the increase to our authorized share capital in the third quarter of 2016 and, subject to the required approvals and further action by our directors, we expect to effect the stock split through a dividend in the fourth quarter of 2016. Also, in connection with the proposed stock split, we plan to retire all of our outstanding treasury shares. No assurance can be given that the amended and restated Certificate of Incorporation will be approved by the SEC and by our stockholders or that the board of directors will proceed with the stock split.

Financial Highlights

The following summarizes our results and significant changes in our consolidated financial performance for the periods presented (dollars in millions, except per share amounts):

	Six Months Ended			Three Months				
	June 30,		Change	Ended June 30,		Change		
	2016	2015			2016		2015	
Revenues, less transaction-based expenses	\$2,283	\$1,647	39 %	\$1,129	\$797	42 %		
Operating expenses	\$1,148	\$755	52 %	\$578	\$367	58 %		
Adjusted operating expenses ⁽¹⁾	\$970	\$664	46 %	\$494	\$328	51 %		
Operating income	\$1,135	\$892	27 %	\$551	\$430	28 %		
Adjusted operating income ⁽¹⁾	\$1,313	\$983	34 %	\$635	\$469	35 %		
Operating margin	50 %	54 %	(4 pts)	49 %	54 %	(5 pts)		
Adjusted operating margin ⁽¹⁾	58 %	60 %	(2 pts)	56 %	59 %	(3 pts)		
Other expense, net	\$79	\$53	47 %	\$35	\$32	9 %		
Income tax expense	\$316	\$227	40 %	\$153	\$109	41 %		
Effective tax rate	30 %	27 %	3 pts	30 %	27 %	3 pts		
Net income attributable to ICE	\$726	\$598	21 %	\$357	\$283	26 %		
Adjusted net income attributable to ICE ⁽¹⁾	\$852	\$667	28 %	\$411	\$323	27 %		

Edgar Filing: Intercontinental Exchange, Inc. - Form 10-Q

Diluted earnings per share attributable to ICE common shareholders	\$6.07	\$5.34	14	%	\$2.98	\$2.54	17	%
Adjusted diluted earnings per share attributable to ICE common shareholders ⁽¹⁾	\$7.12	\$5.96	19	%	\$3.43	\$2.90	18	%
Cash flows from operating activities	\$1,103	\$770	43	%				

30

(1) The adjusted numbers in the table above are calculated by excluding items that are not reflective of our cash operations and core business performance, and for adjusted net income attributable to ICE and adjusted diluted earnings per share attributable to ICE common shareholders, are presented net of taxes. As a result, these adjusted numbers are not calculated in accordance with GAAP. See “- Non-GAAP Financial Measures” below.

Revenues, less transaction-based expenses, increased \$636 million and \$332 million for the six months and three months ended June 30, 2016, respectively, from the comparable periods in 2015, primarily due to our acquisitions of Interactive Data and Trayport, and to a lesser extent, revenue increases in our exchange-related data services, cash equities, Brent crude and agricultural transaction and clearing. We recognized \$525 million and \$265 million in Interactive Data and Trayport data services revenues for the six months and three months ended June 30, 2016, respectively. See “- Trading and Clearing Segment” and “Data and Listings Segment” below. Partially offsetting the revenue increases were unfavorable foreign exchange effects of \$15 million and \$6 million arising from the strengthening U.S. dollar (primarily impacting revenues billed in pounds sterling) for the six months and three months ended June 30, 2016, respectively, from the comparable periods in 2015. See Item 3 “Quantitative and Qualitative Disclosures About Market Risk - Foreign Currency Exchange Rate Risk” below for additional information on the impact of currency fluctuations.

Operating expenses increased \$393 million and \$211 million for the six months and three months ended June 30, 2016, respectively, from the comparable periods in 2015, primarily due to \$428 million and \$210 million in operating expenses relating to Interactive Data and Trayport for the six months and three months ended June 30, 2016, respectively. Offsetting the Interactive Data and Trayport operating expenses were decreases in operating expenses of \$35 million for the six months ended June 30, 2016 from the comparable period in 2015. See “- Consolidated Operating Expenses” below. Also partially offsetting the operating expense increases were favorable foreign exchange effects of \$10 million and \$5 million arising from the strengthening U.S. dollar (primarily impacting operating expenses incurred in pounds sterling) for the six months and three months ended June 30, 2016, respectively, from the comparable periods in 2015.

Other expense, net increased for the six months and three months ended June 30, 2016 from the comparable periods in 2015, primarily due to the additional interest expense we recognized on the new debt we incurred to finance the Interactive Data acquisition in December 2015. See “- Debt” below.

Variability in Quarterly Comparisons

The business environments in which we operate directly affect our results of operations. Our results have been and will continue to be affected by many factors, including, without limitation, market volatility and the level of trading activity in our markets, which during any period is significantly influenced by general market conditions; legislative and regulatory changes, as well as our fulfillment of our regulatory obligations; competition; demand for our data services and our market share; our system reliability; our ability to offer new products; our acquisition activities and the pace of industry consolidation; broad trends in the data and finance industry; the number and financial health of companies listed on our cash markets; geopolitical events; real and perceived supply and demand imbalances; changing technology in the financial services industry; and our reputation, among other factors. In particular, in recent years, the business environment has been characterized by increasing competition among global markets for trading volumes and listings; the globalization of exchanges, customers and competitors; market participants’ demand for speed, capacity and reliability, which requires continuing investment in technology; and increasing competition for market data services. Price volatility increases the need to hedge risk and creates demand among market participants for the exchange of risk. Market liquidity is one of the primary market attributes for attracting and maintaining customers and is an important indicator of a market’s strength. The maintenance and growth of our revenues could also be impacted if we face increased pressure on pricing. Changes in these and other factors could cause our revenues to fluctuate from period to period and these fluctuations may affect the reliability of period to period comparisons of our revenues and operating results. For additional information regarding the factors that affect our results of operations, see Item 1(A) “Risk Factors” included in our 2015 Form 10-K.

Segment Reporting

We operated as a single reportable business segment as of December 31, 2015 but began operating as two operating segments in the first quarter of 2016 following our acquisition of Interactive Data. As of June 30, 2016, we continue to

operate as two business segments: our Trading and Clearing segment and our Data and Listings segment. This presentation is reflective of how our chief operating decision maker reviews and operates our business. Our Trading and Clearing segment comprises our transaction-based execution and clearing businesses. Our Data and Listings segment comprises our subscription-based data services and securities listings businesses. Our chief operating decision maker does not review total assets, intersegment revenues/expenses or statements of income below operating income by segments; therefore, such information is not presented below.

While revenues are allocated directly to segments, a significant portion of our operating expenses are not solely related to a specific segment because the expenses serve functions that are necessary for the operation of both segments. Because these expenses do not relate to a single segment, we have employed a reasonable allocation method to allocate expenses between the segments for presentation purposes. We have elected to use a pro-rata revenue approach as the allocation method for the expenses that do not relate

solely to one segment. Further, precise allocation of expenses to specific revenue streams within these segments is not reasonably possible. Accordingly, we did not allocate expenses to specific revenue streams within the segments.

Trading and Clearing Segment

The following table presents our selected statements of income data for our Trading and Clearing segment (dollars in millions):

	Six Months Ended June 30,			Three Months Ended June 30,		
	2016	2015	Change	2016	2015	Change

Operating income	\$674	\$595	13 %	\$313	\$272	15 %

Transaction and Clearing Revenues

Overview

Our transaction and clearing revenues are reported on a net basis, except for the NYSE-related transaction-based expenses discussed below, and consist of fees collected from our derivatives trading and clearing, and from our cash trading and equity options exchanges. In our derivatives markets, we earn transaction and clearing revenues from both counterparties to each contract that is traded and/or cleared, and in our equity and equity options markets, we receive trade execution fees as well as routing fees related to orders in our markets which are routed to other markets for execution.

Revenues per-contract are driven by the number of contracts or securities traded and the fees charged per contract, net of certain rebates. Our per-contract transaction and clearing revenues will depend upon many factors, including, but not limited to, market conditions, transaction and clearing volume, product mix, pricing, applicable revenue sharing and market making agreements, and new product introductions. Because transaction and clearing revenues are generally assessed on a per-contract basis, revenues and profitability fluctuate with changes in contract volume but not to the same degree due to product mix.

Our transaction and clearing revenues are presented net of rebates. We recorded rebates of \$347 million and \$271 million for the six months ended June 30, 2016 and 2015, respectively, and \$165 million and \$130 million for the

three months ended June 30, 2016 and 2015, respectively. We offer rebates in certain of our markets primarily to support market liquidity and trading volume by providing qualified participants in those markets a discount to the applicable commission rate. Such rebates are calculated based on

volumes traded. The increase in the rebates is due primarily to an increase in the number of participants in the rebate programs offered on various contracts, an increase in our traded volume and an increase in the number of rebate programs. The level of rebates as a percentage of our total transaction and clearing revenues remained relatively consistent for the six months ended June 30, 2016 and 2015.

Commodities Markets

We operate global crude oil and refined oil futures markets, including the ICE Brent, ICE WTI and ICE Gasoil futures and options contracts, as well as over 400 refined oil futures products that relate to our benchmark futures contracts. Total oil volume and revenues increased 11% and 8%, respectively, for the six months ended June 30, 2016 from the comparable period in 2015, and 15% and 15%, respectively, for the three months ended June 30, 2016 from the comparable period in 2015. The ICE Brent crude futures contract is relied upon by a broad range of global market participants, including oil producing nations and multinational companies, to price and hedge their crude oil production and consumption. ICE Brent crude futures and options volume increased 15% and 19% for the six months and three months ended June 30, 2016, respectively, from the comparable periods in 2015. ICE WTI crude futures and options volume increased 7% and 11% for the six months and three months ended June 30, 2016, respectively, from the comparable periods in 2015. ICE Brent crude and ICE WTI crude futures and options volume increased primarily due to increased oil price volatility and broader market volatility in oil products, equities and foreign exchange rates. Our global natural gas futures and options volume declined 2% and revenues increased 6%, respectively, for the six months ended June 30, 2016 from the comparable period in 2015, and increased 7% and 18%, respectively, for the three months ended June 30, 2016 from the comparable period in 2015. Our North American natural gas volume increased for the three months ended June 30, 2016, from the comparable period in 2015, primarily due to increased price volatility.

Total volume and revenues in our agricultural and metals futures and options markets increased 20% and 18%, respectively, for the six months ended June 30, 2016 from the comparable period in 2015, and 21% and 18%, respectively, for the three months ended June 30, 2016 from the comparable period in 2015. Volume in our largest agricultural contract, sugar futures and options, increased 14% and 12%, respectively, for the six months and three months ended June 30, 2016 from the comparable periods in 2015, and other agricultural and metal futures and options volume increased 26% and 29%, respectively, for the six months and three months ended June 30, 2016 from the comparable periods in 2015. The increases in agricultural volume were primarily driven by increased price volatility due to changing supply and demand expectations largely related to weather and production levels for sugar, cocoa and coffee.

Financial Markets

Financial futures and options volume and revenues increased 14% and 1%, respectively, for the six months ended June 30, 2016 from the comparable period in 2015, and increased 5% and declined 2%, respectively, for the three months ended June 30, 2016 from the comparable period in 2015. Interest rate futures and options volume increased 13% and 3%, respectively, for the six months and three months ended June 30, 2016 from the comparable periods in 2015, primarily due to uncertainty around central bank actions and economic data during the first quarter of 2016. Revenue increased at a lower rate than volume primarily due to increased market making rebates that apply at higher volume levels and the impact of foreign currency translation.

Other financial futures and options volume increased 14% and 13%, respectively, for the six months and three months ended June 30, 2016 from the comparable periods in 2015, primarily due to price volatility in equity indexes driven by strong global equity market volatility. Volume in our MSCI futures and options contracts increased 65% and 63%, respectively, for the six months and three months ended June 30, 2016 from the comparable periods in 2015 due to global equity market volatility.

CDS clearing revenues were \$53 million and \$51 million for the six months ended June 30, 2016 and 2015, respectively, and \$24 million and \$22 million for the three months ended June 30, 2016 and 2015, respectively. The notional value of CDS cleared during the same periods were \$6.4 trillion and \$6.0 trillion for the six months ended June 30, 2016 and 2015, respectively, and \$2.6 trillion and \$2.7 trillion for the three months ended June 30, 2016 and 2015, respectively. Buyside participation at our U.S. CDS clearing house, ICE Clear Credit, reached record levels in terms of number of participants and notional cleared due to increased participation from both U.S. and European buyside customers due to the breadth of products and cost efficient margining in the U.S. relative to Europe.

CDS trade execution revenues were \$22 million and \$26 million for the six months ended June 30, 2016 and 2015, respectively, and \$11 million and \$12 million for the three months ended June 30, 2016 and 2015, respectively. The notional value of the underlying CDS traded was \$273 billion and \$518 billion for the six months ended June 30, 2016 and 2015, respectively, and \$140 billion and \$241 billion for the three months ended June 30, 2016 and 2015, respectively.

Cash equities handled volume increased 21% and 17%, respectively, for the six months and three months ended June 30, 2016, from the comparable periods in 2015, primarily due to increased market volatility and to a lesser extent, gains in market share by NYSE. Cash equities revenues, net of transaction-based expenses, were \$117 million for the six months ended June 30, 2016, an

increase of 14% from \$103 million for the six months ended June 30, 2015 and \$55 million for the three months ended June 30, 2016, an increase of 6% from \$52 million for the three months ended June 30, 2015.

Equity options volume increased 8% and 4%, respectively, for the six months and three months ended June 30, 2016 compared to the same periods in 2015 due to market volatility. Equity options revenues, net of transaction-based expenses, were \$52 million for the six months ended June 30, 2016, a decrease of 11% from net equity options revenues of \$58 million for the six months ended June 30, 2015 and \$24 million for the three months ended June 30, 2016, a decrease of 10% from \$27 million for the three months ended June 30, 2015. Equity options rate per contract decreased compared to the prior year periods primarily due to increased market maker rebates at higher volume levels.

Other Revenues

Other revenues include interest income on certain clearing margin deposits, regulatory penalties and fines, fees for use of our facilities, regulatory fees charged to member organizations of our U.S. securities exchanges, designated market maker service fees, exchange membership fees and agricultural grading and certification fees.

Selected Operating Data

The following table presents trading activity in our futures and options markets by commodity type based on the total number of contracts traded, as well as futures and options rate per contract (in millions, except for percentages and rate per contract amounts):

	Six Months Ended June 30,			Three Months Ended June 30,		
	2016	2015	Change	2016	2015	Change
Number of contracts traded:						
Brent crude futures and options	116	100	15 %	55	46	19 %
Other oil futures and options	46	44	5	22	20	8
Gasoil futures and options	32	31	6	16	14	13

Equity options rate per contract	\$0.148	\$0.180	(18))%	\$0.148	\$0.174	(15))%

Handled volume represents the total number of shares of equity securities, exchange traded funds, or ETFs, and crossing session activity internally matched on our exchanges or routed to and executed on an external market center. Matched volume represents the total number of shares of equity securities, ETFs and crossing session activity executed on our exchanges.

Transaction-Based Expenses

Our equities and options markets pay fees to the SEC pursuant to Section 31 of the Exchange Act. Section 31 fees collected from customers are recorded on a gross basis as a component of transaction and clearing fee revenue. These Section 31 fees are designed to recover the government's costs of supervising and regulating the securities markets and securities professionals. We, in turn, collect activity assessment fees, which are included in transaction and clearing revenues in our consolidated statements of income, from member organizations clearing or settling trades on the equities and options exchanges and recognize these amounts when invoiced. The activity assessment fees are designed so that they are equal to the Section 31 fees which are included in transaction-based expenses in our consolidated statements of income. As a result, activity assessment fees and Section 31 fees do not have an impact on our net income. Activity assessment fees received are included in cash at the time of receipt and, as required by law, the

amount due to the SEC is remitted semi-annually and recorded as an accrued liability until paid. As of June 30, 2016, the accrued liability related to the un-remitted SEC Section 31 fees was \$195 million.

We also incur liquidity payments made to cash and options trading customers and routing charges made to other exchanges that are included in transaction-based expenses. We incur routing charges when we do not have the best bid or offer in the market for a security that a customer is trying to buy or sell on one of our securities exchanges. In that case, we route the customer's order to the external market center that displays the best bid or offer. The external market center charges us a fee per share (denominated in tenths

of a cent per share) for routing to its system. We record routing charges on a gross basis as a component of transaction and clearing fee revenue.

Operating Expenses

Trading and Clearing segment operating expenses decreased \$18 million and \$5 million, respectively, for the six months and three months ended June 30, 2016 from the comparable period in 2015. See “- Consolidated Operating Expenses” below. Trading and Clearing segment adjusted operating expenses were \$388 million and \$394 million for the six months ended June 30, 2016 and 2015, respectively, and \$196 million for both the three months ended June 30, 2016 and 2015. See “- Non-GAAP Financial Measures” below.

Data and Listings Segment

The following table presents our selected statements of income data for our Data and Listings segment (dollars in millions):

	Six Months Ended June 30,			Three Months Ended June 30,		
	2016	2015	Change	2016	2015	Change
Revenues:						
Pricing and analytics	\$415	\$52	695 %	\$211	\$27	681 %

Data Services Revenues

The Data and Listings segment represents subscription-based, or recurring, revenue businesses that relate to data services and listings services offered across ICE, NYSE, ICE Benchmark Administration, Interactive Data, SuperDerivatives and Trayport. Through ICE Data Services, we generate revenues from a range of data services, including the dissemination of our pricing data and analytics, desktops and connectivity and exchange market data. Through NYSE and NYSE MKT, we generate listings revenue related to the provision of listings services and related corporate actions for listed companies.

Our pricing and analytics services consist of an extensive set of independent evaluated pricing services focused primarily on fixed income and international equity securities, valuation services, reference data, market data, end of day pricing, fixed income, equity portfolio analytics and risk management analytics. We also serve as an administrator of regulated benchmarks, including LIBOR, the ICE Swap Rate and the LBMA Gold Price. Our index services offer a range of products across fixed income, energy, equities, ETFs and other asset classes to provide the methodology, pricing and licensing of key benchmarks.

Our desktop and connectivity services comprise technology based information platforms, feeds and connectivity. These include trading applications, desktop solutions and data feeds to support trading, voice brokers and investment functions. Our desktop and web-based applications deliver real-time market information, analytical and decision support tools to support trading and investment decisions. Through our consolidated feeds, clients receive consolidated real-time and/or delayed financial data from global exchanges, trading venues and data sources for exchange-traded and OTC markets.

Our connectivity services are primarily provided by our Secured Financial Transaction Infrastructure, or SFTI, network, and related connectivity and colocation services for the transmission of exchange data to our customers. SFTI is a secure, resilient, private multi-participant network that provides connectivity to global exchanges and

content service providers via dedicated data circuits with a redundant design to help ensure that no single point of failure exists across the network. Our connectivity infrastructure managed services solution also offers direct exchange access, proximity hosting and support services that enable access to real-time exchange data and facilitates low latency electronic trading. We also offer server colocation space at our data centers for market participants to house their servers and applications near our matching engine on equivalent terms.

Our exchange data primarily represents subscription fees for the provision of our market data that is created from activity in our Trading and Clearing segment. In our derivatives markets, exchange data fees primarily relate to subscription fees charged for customer and license access from third party data vendors, or quote vendors such as Thomson Reuters or Bloomberg, and from end users, as well as view-only data access, direct access services, terminal access, daily indices, forward curves and other valuation services, and end of day reports.

We earn exchange data fees relating to our cash equity and options markets, and related data and network services. We collect cash trading market data fees principally for consortium-based data products and, to a lesser extent, for NYSE proprietary data products. Consortium-based data fees are determined by the securities industry plans and are charged to vendors based on their redistribution of data. Consortium-based data revenues (net of administrative costs) are distributed to participating securities markets on the basis of a formula set by the SEC under Regulation NMS. Last trade prices and quotes in New York Stock Exchange-listed, NYSE MKT-listed, and NYSE Arca-listed securities are disseminated through “Tape A” and “Tape B,” which constitute the majority of our revenues from consortium-based market data revenues.

Our data services revenues increased for the six months and three months ended June 30, 2016, from the comparable periods in 2015, primarily due to the acquisition of Interactive Data and Trayport in December 2015, the high retention rate of existing customers, the addition of new customers, increased usage by existing customers and the development of new and enhanced products designed to efficiently deliver more value to our customers. We recognized \$525 million and \$265 million, respectively, in data services revenues for Interactive Data and Trayport during the six months and three months ended June 30, 2016.

Listings Revenues

We recognize listings revenues in our securities markets from two types of fees applicable to companies listed on our cash equities exchanges - original listing fees and annual listing fees. Original listing fees consist of two components: initial listing fees and fees related to other corporate-related actions. Initial listing fees, subject to a minimum and maximum amount, are based on the number of shares that a company initially lists. Initial listing fees are recognized as revenue on a straight-line basis over estimated service periods of nine years for NYSE and five years for NYSE Arca and NYSE MKT. U.S. companies pay annual fees based on the number of outstanding shares the company has and non-U.S. companies pay annual fees based on the number of outstanding shares the company has issued or held in the U.S. Annual fees are recognized as revenue on a pro rata basis over the calendar year.

In addition, other corporate actions-related listing fees are paid by listed companies in connection with actions involving the issuance of new shares, such as stock splits, rights issues and sales of additional securities, as well as mergers and acquisitions. Other corporate actions-related listing fees are recognized as revenue on a straight-line basis over estimated service periods of six years for NYSE and three years for NYSE Arca and NYSE MKT. Unamortized balances are recorded as deferred revenue in our consolidated balance sheet.

Listings revenues increased for the six months and three months ended June 30, 2016, from the comparable periods in 2015, primarily due to the amortization of the original listing fees earned since the acquisition of NYSE and due to additional annual listing fee revenue from new customers.

Operating Expenses

Data and Listings segment operating expenses increased \$411 million and \$216 million, respectively, for the six months and three months ended June 30, 2016 from the comparable periods in 2015, primarily due to \$428 million and \$210 million in operating expenses recognized relating to Interactive Data and Trayport for the six months and three months ended June 30, 2016, respectively. See “- Consolidated Operating Expenses” below for further details on the Interactive Data and Trayport operating expenses for the six months and three months ended June 30, 2016. Data and Listings segment adjusted operating expenses were \$582 million and \$270 million for the six months ended June 30, 2016 and 2015, respectively, and \$298 million and \$132 million for the three months ended June 30, 2016 and 2015, respectively. See “- Non-GAAP Financial Measures” below.

Consolidated Operating Expenses

The following table presents our consolidated operating expenses (dollars in millions):

	Six Months Ended June 30,			Three Months Ended June 30,		
	2016	2015	Change	2016	2015	Change
Compensation and benefits	\$472	\$295	60 %	\$236	\$144	64 %
Technology and communication	184	98	88	92	47	94
Professional services	69	65	5	37	32	12
Rent and occupancy	35	31	15	17	15	18
Acquisition-related transaction and integration costs	47	26	83	20	7	215
Selling, general and administrative	52	58	(11)	30	29	3
Depreciation and amortization	289	182	59	146	93	58
Total operating expenses	\$1,148	\$755	52 %	\$578	\$367	58 %

As of June 30, 2016, we had 5,503 employees and as of June 30, 2015, we had 2,866 employees. The increase in the employee headcount was primarily due to the acquisitions of Interactive Data and Trayport in December 2015. We recognized \$175 million and \$86 million, respectively, in compensation and benefits expenses relating to these acquisitions for the six months and three months ended June 30, 2016. Non-cash compensation expenses recognized in our consolidated financial statements for employee stock options and restricted stock were \$60 million and \$47 million for the six months ended June 30, 2016 and 2015, respectively, and \$31 million and \$23 million for the three months ended June 30, 2016 and 2015, respectively. The increase in non-cash compensation expenses is a result of a greater restricted stock award value in the January 2016 annual award, primarily due to the issuance of more restricted stock awards to NYSE employees and employees at other acquired companies than in the same period in the prior year.

Technology and communication expenses increased for the six months and three months ended June 30, 2016, from the comparable periods in 2015, primarily due to \$81 million and \$40 million, respectively, relating to Interactive Data and Trayport.

Professional services expenses increased for the six months and three months ended June 30, 2016, from the comparable periods in 2015, primarily due to \$16 million and \$8 million, respectively, in professional services expenses relating to Interactive Data and Trayport for the six months and three months ended June 30, 2016, from the comparable periods in 2015. The increases were partially offset by the continued reduction of contractors at NYSE and the recognition of a credit during the first quarter of 2016 from a third party service provider related to fees charged during 2015. In addition, we incurred lower legal fees during the six months and three months ended June 30, 2016, from the comparable periods in 2015. Legal fees, which are included in professional services expenses, primarily related to class action lawsuits in which NYSE is a defendant.

Rent and occupancy expenses increased for the six months and three months ended June 30, 2016, from the comparable periods in 2015, primarily due to \$14 million and \$7 million, respectively, relating to Interactive Data and Trayport. The increases were partially offset by reduced rent and occupancy costs realized in 2016 related to consolidation of our New York and London office locations during 2015.

We incurred acquisition-related transaction and integration costs during the six months and three months ended June 30, 2016 primarily relating to our integration of Interactive Data, Trayport and NYSE, our investment in MERS, our pending acquisition of SPSE and CMA, and various other potential and discontinued acquisitions. We incurred acquisition-related transaction and integration costs during the six months and three months ended June 30, 2015 primarily relating to our integration of NYSE. The integration costs primarily relate to employee termination, lease termination and professional services costs.

Selling, general and administrative expenses increased by \$12 million and \$6 million relating to the inclusion of expenses for Interactive Data and Trayport for the six months and three months ended June 30, 2016, respectively. Selling, general and administrative expenses otherwise decreased for the six months and three months ended June 30, 2016, from the comparable periods in 2015, primarily due to the release of non-income tax-related reserves of \$18

million and \$6 million during the six months and three months ended June 30, 2016, respectively.

We recorded amortization expenses on the intangible assets acquired as part of our acquisitions, as well as on other intangible assets, of \$164 million and \$77 million for the six months ended June 30, 2016 and 2015, respectively, and \$82 million and \$39 million for the three months ended June 30, 2016 and 2015, respectively. We recorded depreciation expenses on our fixed assets of \$125 million and \$105 million for the six months ended June 30, 2016 and 2015, respectively, and \$64 million and \$54 million for the three months ended June 30, 2016 and 2015, respectively. We recognized amortization expenses and depreciation expenses for Interactive Data and Trayport of \$90 million and \$23 million for the six months ended June 30, 2016, respectively, and \$45 million and \$12 million for the three months ended June 30, 2016, respectively.

Consolidated Non-Operating Income (Expense)

Income and expenses incurred through activities outside of our core operations are considered non-operating. The following tables present our non-operating income (expenses) (dollars in millions):

	Six Months Ended June 30,			Three Months Ended June 30,		
	2016	2015	Change	2016	2015	Change
Other income (expense):						
Interest expense	\$(90)	\$(46)	96 %	\$(44)	\$(23)	91 %
Other income (expense), net	11	(7)	n/a	9	(9)	n/a
Total other expense, net	\$(79)	\$(53)	47 %	\$(35)	\$(32)	9 %
Net income from continuing operations attributable to non-controlling interest	\$(14)	\$(14)	— %	\$(6)	\$(6)	(7) %

The increase in interest expense for the six months and three months ended June 30, 2016, from the comparable periods in 2015, is primarily due to the interest expense we recognized on the additional debt incurred to finance for the Interactive Data acquisition in December 2015. See “- Debt” below.

We recognized dividend income received relating to our investment in Cetip in other income of \$8 million and \$10 million for the six months ended June 30, 2016 and 2015, respectively, and \$4 million and \$7 million for the three months ended June 30, 2016 and 2015, respectively.

We recognized equity income relating to our 40% ownership in The Options Clearing Corporation, or OCC, in other income, which was \$7 million and \$3 million for the six months ended June 30, 2016 and 2015, respectively, and \$2 million for both the three months ended June 30, 2016 and 2015.

We incurred foreign currency transaction gains (losses) of (\$1 million) and (\$7 million) for the six months ended June 30, 2016 and 2015, respectively, and \$2 million and (\$2 million) for the three months ended June 30, 2016 and 2015, respectively, primarily attributable to the fluctuations of the pound sterling and euro relative to the U.S. dollar. Foreign currency gains and losses are recorded in other income (expense) and relate to the settlement of foreign currency assets, liabilities and payables that occur through our foreign operations that are received in non-functional currencies due to the increase or decrease in the period-end foreign currency exchange rates between periods. During the six months and three months ended June 30, 2015, we incurred \$19 million in various litigation accruals, including the ATG/ATS arbitration proceeding, which was recorded in other expense. Refer to note 13 to our consolidated financial statements, which is included in our 2015 Form 10-K, for additional information on the ATG/ATS arbitration proceeding.

We recognized interest income of \$1 million and \$5 million for the six months ended June 30, 2016 and 2015, respectively, and \$1 million and \$3 million for the three months ended June 30, 2016 and 2015, respectively. Interest income is recorded in other income and the interest income recognized during 2015 primarily relates to interest earned on the cash that had been set aside in July 2014 from the proceeds of the sale of Euronext that was used to repay the NYSE EUR Notes on June 30, 2015.

For consolidated subsidiaries in which our ownership is less than 100%, and for which we have control over the assets, liabilities and management of the entity, the outside stockholders’ interests are shown as non-controlling interests.

Consolidated Income Tax Provision

Consolidated income tax expense was \$316 million and \$227 million for the six months ended June 30, 2016 and 2015, respectively, and \$153 million and \$109 million for the three months ended June 30, 2016 and 2015, respectively. The change in consolidated income tax expense between periods is primarily due to the change in our pre-tax income and the change in our effective tax rate each period. Our effective tax rate was 30% and 27% for the six months ended June 30, 2016 and 2015, respectively, and 30% and 27% for the three months ended June 30, 2016 and 2015. The effective tax rates for the six months and three months ended June 30, 2016 and 2015 were lower than

the federal statutory rate primarily due to favorable foreign income tax rate differentials, partially offset by state income taxes. The favorable foreign income tax rate differential results primarily from lower tax rates in the U.K. The effective tax rate for the six months and three months ended June 30, 2016 is higher than the effective tax rate for the comparable periods in 2015 primarily due to a mix of foreign versus U.S. based income and an increase to deferred income taxes in the current year, partially offset by the tax benefit from the early adoption of ASU 2016-09.

Quarterly Results of Operations

The following quarterly unaudited consolidated statements of income data have been prepared on substantially the same basis as our audited consolidated financial statements and include all adjustments, consisting only of normal recurring adjustments, necessary for the fair presentation of our consolidated results of operations for the quarters presented. The historical results for any quarter do not necessarily indicate the results expected for any future period. The following table sets forth quarterly consolidated statements of income data (in millions):

	Three Months Ended,				
	June 30, 2016 ⁽¹⁾	March 31, 2016 ⁽¹⁾	December 31, 2015 ⁽¹⁾	September 30, 2015	June 30, 2015

- (1) We acquired Trayport on December 11, 2015 and Interactive Data on December 14, 2015 and have included their financial results in our results of operations for the periods subsequent to their acquisition dates, with all revenues included in data services revenues.
- (2) Other expense, net for the three months ended June 30, 2015 includes \$19 million in litigation settlements and accruals.
- (3) The decrease in the income tax expense for the three months ended December 31, 2015 is primarily due to the deferred tax benefit associated with future U.K. income tax rate reductions along with certain favorable settlements with various taxing authorities.

Liquidity and Capital Resources

We have financed our operations, growth and cash needs primarily through income from operations and borrowings under our various debt facilities. Our principal capital requirements have been to fund capital expenditures, working capital, strategic acquisitions and investments, stock repurchases, dividends to our shareholders and the continued development of our electronic trading and clearing platforms. We believe that our cash on hand and cash flows from operations will be sufficient to repay our outstanding debt as it matures. In the future, we may need to incur additional debt or issue additional equity securities, which we may be unable to do or to do on favorable terms. See “- Future Capital Requirements” below.

Our commercial paper program enables us to borrow efficiently at reasonable short term interest rates and provides us with the flexibility to de-lever using our strong annual cash flows from operating activities whenever our leverage becomes elevated as a result of investment or acquisition activities. We reduced our outstanding commercial paper during the six months ended June 30, 2016 by \$781 million, enabled by strong cash flows, which include annual listings billings during the first quarter of 2016, and a reduction in our unrestricted cash balance from year end. Upon maturity of old issuances of commercial paper and to the extent old issuances are not repaid by cash on hand, we are exposed to the rollover risk of not being able to issue new commercial paper. To mitigate the rollover risk, we maintain an undrawn back-stop bank revolving credit facility for an aggregate amount equaling at any time the amount issued under our commercial paper program. If we were not able to issue new commercial paper, we have the option of drawing on the back-stop revolving facility, however electing to do so would result in higher interest expense. See “- Debt” below.

Consolidated cash and cash equivalents were \$390 million and \$627 million as of June 30, 2016 and December 31, 2015, respectively, and short-term and long-term restricted cash and investments were \$984 million and \$920 million as of June 30, 2016 and December 31, 2015, respectively. See “- Cash Flows - Investing Activities” below for a discussion of the increase in the restricted cash and investments as of June 30, 2016.

As of June 30, 2016, the amount of unrestricted cash held by our non-U.S. subsidiaries was \$236 million. While we consider our non-U.S. earnings to be indefinitely reinvested overseas, if these cash balances are needed for our operations in the U.S., any repatriation by way of dividend may be subject to both U.S. federal and state income taxes, as adjusted for any non-U.S. tax credits. However, we do not have any current needs or foreseeable future needs or other plans to repatriate cash by way of dividends from our non-U.S. subsidiaries.

During 2015, our stock repurchases were completed under stock repurchase plans authorized by our board of directors. In connection with our acquisition of Interactive Data during the fourth quarter of 2015, we suspended our stock repurchase plan and that plan has now expired. We did not repurchase any of our outstanding common stock during the six months ended June 30, 2016. The timing and extent of future repurchases, if any, that are not made pursuant to a Rule 10b5-1 trading plan will be at our discretion and will depend upon many conditions. Our management and board of directors periodically review whether or not to be active in repurchasing our stock. In making a determination regarding any stock repurchases, we consider multiple factors. The factors may include: overall stock market conditions, our common stock price movements, the remaining amount authorized for repurchases by our board of directors, the potential impact of a stock repurchase program on our corporate debt ratings, our expected free cash flow and working capital needs, our current and future planned strategic growth initiatives, and other potential uses of our cash and capital resources.

In August 2016, our board of directors approved an aggregate of \$1.0 billion for future repurchases of our common stock with no fixed expiration date, subject to applicable laws and regulations. Repurchases may be made from time to time on the open market, through established plans, in privately-negotiated transactions or otherwise, in accordance with all applicable securities laws, rules and regulations. We plan to enter into a Rule 10b5-1 trading plan in the future to govern the repurchase of our shares of common stock. Assuming we do begin to repurchase our shares of common stock in the future, we may discontinue the stock repurchases at any time and may terminate the Rule 10b5-1 trading plan. The approval for the share repurchases does not obligate us to acquire any particular amount of our common stock. In addition, our board of directors may increase or decrease the amount of capacity we have for repurchases from time to time. We expect funding for any share repurchases to come from our operating cash flow or borrowings under our debt facilities or commercial paper program.

Cash Flows

The following tables present the major components of net increases (decreases) in cash and cash equivalents (in millions):

	Six Months	
	Ended June 30,	
	2016	2015
Net cash provided by (used in):		
Operating activities	\$1,103	\$770
Investing activities	(302)	899
Financing activities	(1,031)	(1,635)
Effect of exchange rate changes	(7)	(8)
Net increase (decrease) in cash and cash equivalents	\$(237)	\$26

Operating Activities

Net cash provided by operating activities primarily consists of net income adjusted for certain non-cash items, including depreciation and amortization and the effects of changes in working capital. Fluctuations in net cash provided by operating activities are primarily attributable to increases and decreases in our net income between periods and due to fluctuations in working capital. The \$336 million increase in net cash provided by operating activities for the six months ended June 30, 2016, from the comparable period in 2015, is primarily due to \$171 million in cash provided by operating activities for Interactive Data and Trayport for the six months ended June 30, 2016, increase in the net income of our historical income statement excluding Interactive Data and Trayport, and other fluctuations in working capital. See “- Financial Highlights” above.

Investing Activities

Consolidated net cash used in investing activities for the six months ended June 30, 2016 and 2015 primarily relates to proceeds from term deposits and sales of available-for-sale investments, increases in our capital expenditures and capitalized software development costs and changes in restricted cash.

We received net proceeds from term deposits and sales of available-for-sale investments of \$1.1 billion for the six months ended June 30, 2015, with the proceeds from the term deposits used for the repayments of the NYSE EUR Notes.

We had capital expenditures of \$96 million and \$92 million for the six months ended June 30, 2016 and 2015, respectively, and we had capitalized software development expenditures of \$61 million and \$44 million for the six months ended June 30, 2016 and 2015, respectively. The capital expenditures primarily relate to hardware purchases to continue the development and expansion of our electronic platforms and clearing houses and leasehold improvements associated with the new and renovated office spaces in Atlanta, New York and London. The software development expenditures primarily relate to the continued development and expansion of our electronic trading platforms and clearing houses.

We had a net increase in restricted cash and investments of \$75 million for the six months ended June 30, 2016. The net restricted cash increase primarily related to increases in the regulatory capital restricted cash at ICE Clear Europe and ICE Futures Europe, partially offset by a decrease in the cash held as escrow for the SuperDerivatives acquisition and the reported regulatory capital restricted cash at LIFFE, whose restricted cash is held in pounds sterling and it decreased due to the impact of the weakening pound sterling on our exchange rate. The increases in the regulatory capital restricted cash at ICE Clear Europe and ICE Futures Europe were primarily due to additional costs incurred due to the growth of our trading and clearing businesses and additional regulatory capital buffers required by the Bank of England that we have classified as restricted cash.

Financing Activities

Consolidated net cash used in financing activities for the six months ended June 30, 2016 primarily relates to \$781 million in net repayments under our commercial paper program, \$205 million in dividend and dividend equivalent payments to our shareholders and \$48 million in cash payments related to treasury shares received for restricted stock tax payments and stock options exercises.

Consolidated net cash used in financing activities for the six months ended June 30, 2015 primarily relates to \$918 million in net repayments under our debt facilities and commercial paper program, \$399 million in repurchases of

common stock, \$158 million in dividend and dividend equivalent payments to our shareholders, \$128 million for the purchase of subsidiary shares from non-controlling interest holders (for the purchase of the NYSE Amex Options shares) and \$39 million in cash payments related to treasury shares received for restricted stock tax payments and stock options exercises.

Debt

Our total debt, including short-term and long-term debt, consisted of the following as of June 30, 2016 and December 31, 2015 (in millions):

	As of June 30, 2016	As of December 31, 2015
Debt:		
Commercial Paper	\$ 1,811	\$ 2,591
Short-term debt	1,811	2,591
NYSE USD Notes (2.00% senior unsecured notes due October 5, 2017)	852	852
2018 Senior Notes (2.50% senior unsecured notes due October 15, 2018)	597	597
2020 Senior Notes (2.75% senior unsecured notes due December 1, 2020)	1,240	1,239
2023 Senior Notes (4.00% senior unsecured notes due October 15, 2023)	789	789
2025 Senior Notes (3.75% senior unsecured notes due December 1, 2025)	1,241	1,240
Long-term debt	4,719	4,717
Total debt	\$6,530	\$ 7,308

Credit Facility

We have entered into a \$3.0 billion senior unsecured revolving credit facility, or the Credit Facility, with a maturity date of November 13, 2020. The Credit Facility includes an option for us to propose an increase in the aggregate amount available for borrowing by up to \$1.0 billion, subject to the consent of the lenders funding the increase and certain other conditions. On November 13, 2015, we utilized this option to increase the amount of the Credit Facility to \$3.4 billion. The commitments under the Credit Facility will automatically reduce to \$2.95 billion on April 3, 2019. No amounts were outstanding under the Credit Facility as of June 30, 2016.

Of the \$3.4 billion that is currently available for borrowing under the Credit Facility, \$1.8 billion is required to back-stop the amount outstanding under our Commercial Paper Program as of June 30, 2016. The amount required to back-stop the amounts outstanding under the Commercial Paper Program will fluctuate as we increase or decrease our commercial paper borrowings. The remaining \$1.6 billion as of June 30, 2016 is available to us to use for working capital and general corporate purposes including, but not limited to, acting as a back-stop to the amounts outstanding under the Commercial Paper Program.

364 Day Facility

On November 13, 2015, we entered into a \$500 million 364 day senior unsecured revolving credit facility, or the 364 Day Facility. The amounts available under the 364 Day Facility are available for use by us for working capital and general corporate purposes but specifically excluding any use to back-stop amounts issued under the Commercial Paper Program. The commitments under the 364 Day Credit Facility were reduced to \$375 million on May 13, 2016 and will be automatically reduced to \$250 million on August 13, 2016. No amounts were outstanding under the 364 Day Facility as of June 30, 2016.

Commercial Paper Program

We have entered into a U.S. dollar commercial paper program, or the Commercial Paper Program. Our Commercial Paper Program is currently backed by the borrowing capacity available under the Credit Facility, equal to the amount of the commercial paper that is issued and outstanding at any given point in time. The effective interest rate of commercial paper issuances does not materially differ from short term interest rates (such as USD LIBOR). The fluctuation of these rates due to market conditions may impact our interest expense.

Commercial paper notes of \$1.8 billion with original maturities ranging from 1 to 89 days were outstanding as of June 30, 2016 under our Commercial Paper Program. As of June 30, 2016, the weighted average interest rate on the \$1.8 billion outstanding under our Commercial Paper Program was 0.54% per annum, with a weighted average maturity of 18 days. We repaid \$781 million of the amounts outstanding under the Commercial Paper Program during the six months ended June 30, 2016 using cash flows from operations and a portion of our unrestricted cash balances.

Senior Notes

In November 2015, we issued \$2.5 billion in aggregate senior notes, including \$1.25 billion principal amount of 2.75% senior unsecured fixed rate notes due November 2020, or the 2020 Senior Notes, and \$1.25 billion principal amount of 3.75% senior unsecured fixed rate notes due November 2025, or the 2025 Senior Notes. We used the net proceeds from the 2020 Senior Notes and 2025 Senior Notes offering, together with \$1.6 billion of borrowings under our Commercial Paper Program, to finance the \$4.1 billion cash portion of the purchase price of the acquisition of Interactive Data.

In October 2013, we issued \$600 million principal amount of 2.50% senior unsecured fixed rate notes due October 2018, or the 2018 Senior Notes, and \$800 million principal amount of 4.00% senior unsecured fixed rate notes due October 2023, or the 2023 Senior Notes.

NYSE Notes

In connection with our acquisition on November 13, 2013 of NYSE Euronext, which we refer to as NYSE following the initial public offering and sale of Euronext in 2014, we assumed NYSE's outstanding debt instruments, which included \$850 million of 2.00% senior unsecured fixed rate notes due in October 2017, or the NYSE USD Notes, and €920 million (\$1.1 billion) of 5.375% senior unsecured fixed rate notes that were due in June 2015, or the NYSE EUR Notes, and together with the NYSE USD Notes, the NYSE Notes. On June 30, 2015, we repaid the NYSE EUR Notes using cash that had been set aside in July 2014 from the proceeds of the sale of Euronext.

Committed Contingent Liquidity Facilities

To provide a tool to address the liquidity needs of our clearing houses and manage the liquidation of margin and guaranty fund deposits held in the form of cash and high quality sovereign debt, ICE Clear Europe, ICE Clear Credit and ICE Clear U.S. have entered into Committed Repurchase Agreement Facilities, or Committed Repo. Additionally, ICE Clear Credit has entered into Committed F/X Facilities to support these liquidity needs. As of June 30, 2016, the following facilities were in place:

ICE Clear Europe: \$1.05 billion in Committed Repo to finance U.S. dollar, euro and pound sterling sovereign debt deposits.

ICE Clear Credit: \$400 million in Committed Repo to finance U.S. dollar and euro sovereign debt deposits, €500 million in Committed Repo to finance euro sovereign debt deposits, and €1.0 billion in Committed F/X Facilities to finance euro payment obligations with U.S. dollar deposits.

ICE Clear U.S.: \$250 million in Committed Repo to finance U.S. dollar sovereign debt deposits.

Future Capital Requirements

Our future capital requirements will depend on many factors, including the rate of growth across our trading and clearing, data services and listings businesses, strategic plans and acquisitions, available sources for financing activities, required technology and clearing initiatives, regulatory requirements, the timing and introduction of new products and enhancements to existing products, the geographic mix of our business, potential stock repurchases, and the continuing market acceptance of our electronic trading and clearing platforms. We currently expect to make aggregate operational capital expenditures and to incur capitalized software development costs ranging between \$280 million and \$300 million for the year ended December 31, 2016, which we believe will support the enhancement of our technology and the continued expansion of our businesses. In addition, we currently expect between \$45 million to \$55 million in real estate capital expenditures during 2016 for leasehold improvements primarily associated with our Atlanta and New York headquarters.

Our board of directors has adopted a quarterly dividend declaration policy providing that the declaration of any dividends will be approved quarterly by the board of directors or audit committee of the board of directors taking into account such factors as our evolving business model, prevailing business conditions and our financial results and capital requirements, without a predetermined annual net income payout ratio. During the second quarter of 2016, we paid a quarterly dividend of \$0.85 per share of our common stock for an aggregate payout of \$103 million, which includes the payment of dividend equivalents on unvested employee restricted stock units. During the six months ended June 30, 2016, our dividend payout was \$1.70 per share of our common stock for an aggregate payout of \$205 million, which includes the payment of dividend equivalents. On August 3, 2016, we announced a \$0.85 per share dividend for the third quarter of 2016 with the dividend payable on September 30, 2016 to shareholders of record as of September 16, 2016.

As of June 30, 2016, we had \$6.5 billion in outstanding debt. We currently have a \$3.4 billion Credit Facility. After factoring in the \$1.8 billion currently required to backstop our Commercial Paper Program, \$1.6 billion of our Credit Facility is currently available for general corporate purposes. The Credit Facility, our \$375 million 364 Day Facility and our Commercial Paper Program are currently the only significant agreements or arrangements that we have with

third parties for liquidity and capital resources. In the event of any strategic acquisitions, mergers or investments, or if we are required to raise capital for any reason or desire to return capital to our stockholders, we may incur additional debt, issue additional equity to raise necessary funds, repurchase additional shares of our common stock or pay a dividend. However, we cannot provide assurance that such financing or transactions will be available or successful, or that the terms of such financing or transactions will be favorable to us. See “- Debt” above.

45

Non-GAAP Financial Measures

We use non-GAAP measures internally to evaluate our performance and in making financial and operational decisions. When viewed in conjunction with our GAAP results and the accompanying reconciliation, we believe that our presentation of these measures provides investors with greater transparency and a greater understanding of factors affecting our financial condition and results of operations than GAAP measures alone. In addition, we believe the presentation of these measures is useful to investors for period-to-period comparison of results because the items described below as adjustments to GAAP are not reflective of our core business performance. These financial measures are not in accordance with, or an alternative to, GAAP financial measures and may be different from non-GAAP measures used by other companies. We use these adjusted results because we believe they more clearly highlight trends in our business that may not otherwise be apparent when relying solely on GAAP financial measures, since these measures eliminate from our results specific financial items that have less bearing on our core operating performance. We strongly recommend that investors review the GAAP financial measures included in this Quarterly Report on Form 10-Q, including our consolidated financial statements and the notes thereto.

Adjusted operating expenses, adjusted operating income, adjusted operating margin, adjusted net income attributable to ICE common shareholders and adjusted earnings per share for the periods presented below are calculated by adding or subtracting the adjustments described below, which are not reflective of our cash operations and core business performance, and their related income tax effect and other tax adjustments (in millions, except for percentages and per share amounts):

	Trading and Clearing Segment		Data and Listings Segment		Consolidated

Less: NYSE and Interactive Data transaction and integration costs	—	2	7	4	7	6
Less: Amortization of acquisition-related intangibles	18	21	59	12	77	33
Adjusted operating expenses	\$196	\$196	\$298	\$132	\$494	\$328
Operating income	\$313	\$272	\$238	\$158	\$551	\$430
Adjusted operating income	\$331	\$295	\$304	\$174	\$635	\$469
Operating margin	59 %	55 %	40 %	52 %	49 %	54 %
Adjusted operating margin	63 %	60 %	50 %	57 %	56 %	59 %
Net income attributable to ICE common shareholders					\$357	\$283
Add: NYSE and Interactive Data transaction and integration costs					7	6
Add: Amortization of acquisition-related intangibles					77	33
Add: Litigation settlements and accruals					—	19
Less: Income tax effect for the above items					(30)	(15)
Less: Deferred tax adjustment on acquisition-related intangibles					—	(10)
Add: Other tax adjustments					—	7
Adjusted net income attributable to ICE common shareholders					\$411	\$323
Basic earnings per share attributable to ICE common shareholders					\$3.00	\$2.55
Diluted earnings per share attributable to ICE common shareholders					\$2.98	\$2.54
Adjusted basic earnings per share attributable to ICE common shareholders					\$3.45	\$2.91
Adjusted diluted earnings per share attributable to ICE common shareholders					\$3.43	\$2.90

Acquisition-related transaction costs are included as part of our core business expenses, except for those that are directly related to the announcement, closing, financing or termination of a transaction. However, all acquisition-related transaction and integration costs relating to NYSE and Interactive Data are included in non-GAAP adjustments given the sizes of these acquisitions. Amortization of acquisition-related intangibles are included in non-GAAP adjustments as excluding these non-cash expenses provides greater clarity regarding our financial strength and stability of cash operating results. Also, included in non-GAAP adjustments are litigation settlements and accruals incurred during the six and three months ended June 30, 2015. The income tax effects relating to these items above are included in non-GAAP adjustments as well as deferred tax adjustments on acquisition-related intangibles and other tax effects relating to certain foreign tax law changes.

Contractual Obligations and Commercial Commitments

In the second quarter of 2016, there were no significant changes to our contractual obligations and commercial commitments from those disclosed in the section “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our 2015 Form 10-K.

Off-Balance Sheet Arrangements

We do not have any relationships with unconsolidated entities or financial partnerships, often referred to as structured finance or special purpose entities, which have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes.

New and Recently Adopted Accounting Pronouncements

Refer to note 2 to our consolidated financial statements above for information on the new and recently adopted accounting pronouncements that are applicable to us.

Critical Accounting Policies and Estimates

In the second quarter of 2016, except as discussed below, there were no significant changes to our critical accounting policies and estimates from those disclosed in the section "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our 2015 Form 10-K.

Our goodwill and other identifiable intangible assets are identified as part of our critical accounting policies and affect our more significant judgments and estimates used in the preparation of our consolidated financial statements and could materially increase or decrease our reported results, assets and liabilities. Our goodwill and other indefinite-lived intangible assets are evaluated for impairment annually in our fiscal fourth quarter or more frequently if conditions exist that indicate that the value may be impaired. We test our goodwill for impairment at the reporting unit level. These impairment evaluations are performed by comparing the carrying value of the goodwill reporting unit or other indefinite-lived intangibles to its estimated fair value. We allocate goodwill to reporting units based on the reporting unit expected to benefit from the business combination.

We had previously identified three reporting units: our futures reporting unit, our CDS reporting unit, and our cash listings reporting unit. We have conducted a review to determine the appropriate reporting units as a result of operating under two business segments effective January 1, 2016 and following our acquisition of Interactive Data in December 2015. This review has led to the identification of four reporting units: our futures reporting unit, our CDS reporting unit, our cash reporting unit, and our data and listings reporting unit. The change in reporting units is not considered a triggering event and we therefore have not evaluated for impairment during the interim period, as there were otherwise no conditions that indicate that the value may be impaired.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a result of our operating and financing activities, we are exposed to market risks such as interest rate risk, foreign currency exchange rate risk and credit risk. We have implemented policies and procedures designed to measure, manage, monitor and report risk exposures, which are regularly reviewed by the appropriate management and supervisory bodies.

Interest Rate Risk

We have exposure to market risk for changes in interest rates relating to our cash and cash equivalents, short-term investments, short-term and long-term restricted cash and investments, and indebtedness. As of June 30, 2016 and December 31, 2015, our cash and cash equivalents, short-term investments and short-term and long-term restricted cash and investments were \$1.4 billion and \$1.6 billion, respectively, of which \$334 million and \$439 million, respectively, were denominated in pounds sterling, euros or Canadian dollars. The remaining cash and cash equivalents, short-term investments and short-term and long-term restricted cash and investments are denominated in U.S. dollars. We do not use our investment portfolio for trading or other speculative purposes. A hypothetical decrease in long-term interest rates to zero basis points would decrease annual pre-tax earnings by \$3 million as of June 30, 2016, assuming no change in the amount or composition of our cash and cash equivalents, short-term investments and short-term and long-term restricted cash and investments.

Our investment in Cetip, which is recorded as an available-for-sale, long-term investment and is recorded and held in Brazilian reais, was valued at \$427 million as of June 30, 2016, including an accumulated unrealized gain of \$103 million. Changes in the fair value of the Cetip investment are currently reflected in accumulated other comprehensive income (loss) and do not impact earnings, except to the extent that unrealized losses are deemed to be other than temporary.

As of June 30, 2016, we had \$6.5 billion in outstanding debt, of which \$3.9 billion relates to senior notes and \$852 million relates to the NYSE Notes, all of which bear interest at fixed interest rates. The remaining amount outstanding of \$1.8 billion relates to our Commercial Paper Program, which bears interest at fluctuating rates and, therefore, subjects us to interest rate risk. A hypothetical 100 basis point increase in long-term interest rates relating to the amounts outstanding under our Commercial Paper Program as of June 30, 2016 would decrease annual pre-tax earnings by \$18 million, assuming no change in the volume or composition of our outstanding indebtedness and no hedging activity. The interest rates on our Commercial Paper Program are currently evaluated based upon current maturities and market conditions. See Item 2 “- Management’s Discussion and Analysis of Financial Condition and Results of Operations - Debt” included elsewhere in this Quarterly Report.

Foreign Currency Exchange Rate Risk

As an international business, we are subject to foreign currency exchange rate risk. We may experience gains or losses from foreign currency transactions in the future given that a significant part of our assets, liabilities, revenues and expenses are recorded in euros or pounds sterling. Certain assets, liabilities, revenues and expenses of foreign subsidiaries are denominated in the local functional currency of such subsidiaries. Our exposure to foreign denominated earnings for the six months and three months ended June 30, 2016 is presented by primary foreign currency in the following table (dollars in millions, except exchange rates):

	Six Months Ended June 30, 2016		Three Months Ended June 30, 2016		
	Pound sterling	Euro	Pound sterling	Euro	
Average exchange rate to the U.S. dollar in the current year period	\$1.4417	\$1.1170	\$1.4383	\$1.1313	
Average exchange rate to the U.S. dollar in the same period in the prior year	\$1.5236	\$1.1186	\$1.5301	\$1.1073	
Average exchange rate increase (decrease)	(5)%	— %	(6)%	2 %	%
Foreign denominated percentage of:					
Revenues, less transaction-based expenses	11 %	5 %	11 %	5 %	%
Operating expenses	15 %	4 %	16 %	4 %	%
Operating income	7 %	7 %	5 %	7 %	%
Impact of the currency fluctuations ⁽¹⁾ on:					
Revenues, less transaction-based expenses	\$(15)	\$—	\$(8)	\$2	
Operating expenses	\$(10)	\$—	\$(6)	\$1	
Operating income	\$(5)	\$—	\$(2)	\$1	

⁽¹⁾ Represents the impact of currency fluctuation for the six months and three months ended June 30, 2016 compared to the same periods in the prior year.

We have a significant part of our assets, liabilities, revenues and expenses recorded in pounds sterling or euros. For the six months and three months ended June 30, 2016, 17% and 16%, respectively, of our consolidated revenues, less transaction-based expenses, were denominated in pounds sterling or euros and 19% of both our consolidated expenses were denominated in pounds sterling or euros. As the pound sterling or euro exchange rate changes, the U.S. equivalent of revenues and expenses denominated in foreign currencies changes accordingly.

We have foreign currency transaction risk related to the settlement of foreign currency denominated assets, liabilities and payables that occur through our operations, which are received in or paid in pounds sterling or euros, due to the increase or decrease in the foreign currency exchange rates between periods. We had foreign currency transaction gains (losses) of (\$1 million) and (\$7 million) for the six months ended June 30, 2016 and 2015, respectively, and \$2 million and (\$2 million) for the three months ended June 30, 2016 and 2015, respectively, primarily attributable to the

fluctuations of the pound sterling and euro relative to the U.S. dollar. A 10% adverse change in the underlying foreign currency exchange rates as of June 30, 2016 would result in a foreign currency transaction loss of \$4 million, assuming no change in the composition of the foreign currency denominated assets, liabilities and payables and assuming no hedging activity.

We entered into foreign currency hedging transactions during the six months and three months ended June 30, 2016 as economic hedges to help mitigate a portion of our foreign exchange risk exposure and may enter into additional hedging transactions in the future to help mitigate our foreign exchange risk exposure. Although we may enter into additional hedging transactions in the future to help mitigate our foreign exchange risk exposure, these hedging arrangements may not be effective, particularly in the event of imprecise forecasts of the levels of our non-U.S. denominated assets and liabilities.

We have foreign currency translation risk equal to our net investment in our foreign subsidiaries. The financial statements of these subsidiaries are translated into U.S. dollars using a current rate of exchange, with gains or losses included in the cumulative translation adjustment account, a component of equity. Our exposure to the net investment in foreign currencies is presented by primary foreign currencies in the table below (in millions):

	As of June 30, 2016	
	Position in pounds sterling	Position in euros
Assets	£ 1,346	€ 220
of which goodwill represents	522	43
Liabilities	146	92
Net currency position	£ 1,200	€ 128
Impact on consolidated equity of a 10% decrease in foreign currency exchange rates	\$ 160	\$ 14

As of June 30, 2016 and December 31, 2015, the portion of our equity attributable to accumulated other comprehensive loss from foreign currency translation was \$244 million and \$45 million, respectively. As of June 30, 2016, we had net exposure of pounds sterling and euros of £1.2 billion (\$1.6 billion) and €128 million (\$143 million), respectively. Based on these June 30, 2016 net currency positions, a hypothetical 10% decrease of the pound sterling against U.S. dollar would negatively impact our equity by \$160 million and a hypothetical 10% decrease of the euro against U.S. dollar would negatively impact our equity by \$14 million. For the six months and three months ended June 30, 2016, currency exchange rate differences had a negative impact of \$199 million and \$125 million, respectively, on our consolidated equity, primarily due to the decrease in the pound sterling/U.S. dollar exchange rate to 1.3312 as of June 30, 2016 (from 1.4868 as of December 31, 2015 and from 1.4363 as of March 31, 2016) due to the weakening pound sterling. The pound sterling decreased in late June 2016 following the U.K. referendum that resulted in a vote for the U.K. to leave the European Union. The future impact on our business relating to the U.K. leaving the European Union and the corresponding regulatory changes are uncertain at this time, including future impacts on currency exchange rates.

Credit Risk

We are exposed to credit risk in our operations in the event of a counterparty default. We limit our exposure to credit risk by rigorously selecting the counterparties with which we make our investments and execute agreements. Credit risk is monitored by using exposure limits depending on ratings assigned by rating agencies as well as the nature and maturity of transactions. Our investment objective is to invest in securities that preserve principal while maximizing yields, without significantly increasing risk. We seek to substantially mitigate credit risk associated with investments by ensuring that these financial assets are placed with governments, well-capitalized financial institutions and other creditworthy counterparties.

An ongoing review is performed to evaluate changes in the status of counterparties. In addition to the intrinsic creditworthiness of counterparties, our policies require diversification of counterparties (banks, financial institutions, bond issuers and funds) so as to avoid a concentration of risk.

Our clearing houses hold material amounts of clearing member cash deposits which are held or invested primarily to provide security of capital while minimizing credit, market and liquidity risks. Refer to note 9 to our consolidated financial statements above for more information on the clearing houses cash deposits, which were \$48.5 billion as of June 30, 2016. While we seek to achieve a reasonable rate of return which may generate interest income for our clearing members, we are primarily concerned with preservation of capital and managing the risks associated with these deposits. As the clearing houses may pass on interest revenues (minus costs) to the members, this could include negative or reduced yield due to market conditions. For a summary of the risks associated with this investment activity and how these risks are mitigated, see Part II, Item 7(A) "Quantitative and Qualitative Disclosures About Market Risk" in our 2015 Form 10-K.

Impact of Inflation

We have not been adversely affected by inflation as technological advances and competition have generally caused prices for the hardware and software that we use for our electronic platforms to remain constant or to decline. In the event of inflation, we believe that we will be able to pass on any price increases to our participants, as the prices that we charge are not governed by long-term contracts.

ITEM 4. CONTROLS AND PROCEDURES

(a) Evaluation of Disclosure Controls and Procedures. As of the end of the period covered by this report, an evaluation was carried out by our management, with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that these disclosure controls and procedures were effective as of the end of the period covered by this report.

(b) Changes in Internal Controls over Financial Reporting. There were no changes in our internal controls over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting. As a result, no corrective actions were taken.

PART II. Other Information

ITEM 1. LEGAL PROCEEDINGS

We are subject to legal proceedings and claims that arise in the ordinary course of business. Typically, we do not believe that the resolution of ordinary course matters will have a material adverse effect on our consolidated financial condition, results of operations, or liquidity. It is possible, however, that future results of operations for any particular quarterly or annual period could be materially and adversely affected by any developments relating to the legal proceedings and claims. Refer to Part 1, Item 3, "Legal Proceedings" in our 2015 Form 10-K for a summary of our legal proceedings and claims.

ITEM 1(A). RISK FACTORS

In the second quarter of 2016, there were no significant new risk factors from those disclosed in Part 1, Item 1A, "Risk Factors" in our 2015 Form 10-K. In addition to the other information set forth in this Quarterly Report, including the regulatory update information of Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations, you should carefully consider the factors discussed under "Risk Factors" and the regulation discussion under "Business - Regulation" in our 2015 Form 10-K. These risks could materially and adversely affect our business, financial condition and results of operations. The risks and uncertainties in our 2015 Form 10-K are not the only ones facing us. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also adversely affect our business.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None. Please refer to Part I, Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources for information about potential future stock repurchases.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

Not applicable.

ITEM 6. EXHIBITS
