NOTES TO FINANCIAL STATEMENTS

1. SIGNIFICANT ACCOUNTING POLICIES

Petroleum & Resources Corporation (the Corporation) is registered under the Investment Company Act of 1940 as a non-diversified investment company. The Corporation's investment objectives as well as the nature and risk of its investment transactions are set forth in the Corporation's registration statement.

Security Valuation--Investments in securities traded on national security exchanges are valued at the last reported sale price on the day of valuation. Over-the-counter and listed securities for which a sale price is not available are valued at the last quoted bid price. Short-term investments (excluding purchased options) are valued at amortized cost. Purchased and written options are valued at the last quoted asked price.

Security Transactions and Investment Income--Investment transactions are accounted for on the trade date. Gain or loss on sales of securities and options is determined on the basis of identified cost. Dividend income and distributions to shareholders are recognized on the ex-dividend date, and interest income is recognized on the accrual basis.

2. FEDERAL INCOME TAXES

The Corporation's policy is to distribute all of its taxable income to its shareholders in compliance with the requirements of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. For federal income tax purposes, the identified cost of securities at June 30, 2006 was \$395,128,519 and net unrealized appreciation aggregated \$466,935,589, of which the related gross unrealized appreciation and depreciation were \$469,716,003 and \$2,780,414, respectively.

Distributions are determined in accordance with income tax regulations which may differ from generally accepted accounting principles. Accordingly, annual reclassifications are made within the Corporation's capital accounts to reflect income and gains available for distribution under income tax regulations.

3. INVESTMENT TRANSACTIONS

The Corporation's investment decisions are made by a committee of management, and recommendations to that committee are made by the research staff.

Purchases and sales of portfolio securities, other than options and short-term investments, during the six months ended June 30, 2006 were \$48,677,573 and \$74,249,686, respectively. 5. RETIREMENT PLANS

The Corporation's qualified defined benefit pension plan covers all employees with at least one year of service. In addition, the Corporation has a nonqualified defined benefit plan which provides eligible employees with retirement benefits to supplement the qualified plan. Benefits are based on length of service and compensation during the last five years of employment. The Corporation's policy is to contribute annually to the plans those amounts that can be deducted for federal income tax purposes, plus additional amounts as the Corporation deems appropriate in order to provide assets sufficient to meet benefits to be paid to plan participants. During the six months ended June 30, 2006, the Corporation contributed \$15,604 to the plans and will contribute an additional \$15,604 to the plans during the remainder of 2006. Any further contribution cannot be determined with certainty until certain pension reform legislation, pending in Congress, is passed. Such a contribution, if any, will not exceed \$625,000.

The following table aggregates the components of the plans' net periodic pension cost for the six months ended June 30, 2006.

Service Cost	\$ 167,438
Interest Cost	163,996
Expected return on plan assets	(156,096)
Amortization of prior service cost	18,859

Net periodic pension cost	\$ 306,878

The Corporation also sponsors a defined contribution plan that covers substantially all employees. For the six months ended June 30, 2006, the Corporation expensed contributions of \$50,994. The Corporation does not provide postretirement medical benefits.

6. STOCK-BASED COMPENSATION

The Stock Option Plan adopted in 1985 ("1985 Plan") permits the issuance of stock options and stock appreciation rights for the purchase of up to 895,522 shares of the Corporation's Common Stock at the fair market value on the date of grant. The exercise price of the options and related stock appreciation rights is reduced by the per share amount of capital gains paid by the Corporation during subsequent years. Options are exercisable beginning not less than one year after the date of grant and stock appreciation rights are exercisable beginning not less than two years after the date of grant. The stock appreciation rights allow the holders to surrender their rights to exercise

Edgar Filing: PETROLEUM & RESOURCES CORP - Form N-CSRS

their options and receive cash or shares in an amount equal to the difference between the option exercise price and the fair market value of the Common Stock at the date of surrender. All options terminate 10 years from the date of grant if not exercised. With the adoption of the 2005 Equity Incentive Compensation Plan at the 2005 Annual Meeting, no further grants will be made under the 1985 Plan, although unexercised awards granted in 2004 and prior years remain outstanding.

A summary of option activity under the 1985 Plan as of June 30, 2006, and changes during the period then ended is presented below:

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Compensation cost resulting from stock options and stock appreciation rights granted under the 1985 Plan is based on the intrinsic value of the award, recognized over the award's vesting period, and remeasured at each reporting date through the date of settlement. The total compensation cost recognized for the six months ended June 30, 2006 was \$146,623.

The 2005 Equity Incentive Compensation Plan ("2005 Plan") permits the grant of stock options, restricted stock awards and other stock incentives to key employees and all non-employee directors. The 2005 Plan provides for the issuance of up to 872,639 shares of the Corporation's Common Stock, including both performance and nonperformance-based restricted stock. Performance-based restricted stock awards vest at the end of a specified three year period, with the ultimate number of awards earned contingent on achievement of certain

Edgar Filing: PETROLEUM & RESOURCES CORP - Form N-CSRS

performance targets. If performance targets are not achieved, all or a portion of the performance-based awards are forfeited and become available for future grants. Nonperformance-based restricted stock awards vest ratably over a three year period and nonperformance-based restricted stock units (granted to non-employee directors) vest over a one year period. The 2005 Plan provides for accelerated vesting in the event of death or retirement. Non-employee directors also may elect to defer a portion of their cash compensation, with such deferred amount to be paid by delivery of deferred stock units. Outstanding awards were granted at fair market value on grant date. The number of shares of Common Stock which remain available for future grants under the 2005 Plan at June 30, 2006 is 846,163 shares.

The Corporation pays dividends and dividend equivalents on outstanding awards, which are charged to net assets when paid. Dividends and dividend equivalents paid on restricted awards that are later forfeited are reclassified to compensation expense.

A summary of the status of the Corporations's awards granted under the 2005 Plan as of June 30, 2006, and changes during the period then ended is presented below:

Awards	Shares/ Units	Weighted Average Grant-Date Fair Value
Balance at December 31, 2005	8,630	\$28.35
Granted:		
Restricted stock	13,025	34.32
Restricted stock units	4,000	33.21
Deferred stock units	584	33.63
Vested & issued	(4,260)	28.06
Forfeited	(486)	28.06

Balance at June 30, 2006 (includes 13,025 performance-based awards and 8,468 nonperformance-based awards)	21,493	\$33.08
=====		

Compensation costs resulting from awards granted under the 2005 Plan are based on the fair value of the award on grant date (determined by the average of the high and low price on grant date) and recognized on a straight-line basis over the requisite service period. For those awards with performance conditions, compensation costs are based on the most probable outcome and, if such goals are not met, no compensation cost is recognized and any recognized compensation cost is reversed. The total compensation costs for restricted stock granted to employees for the period ended June 30, 2006 were \$81,175. The total compensation costs for restricted stock units granted to non-employee directors for the period ended June 30, 2006 were \$80,533. As of June 30, 2006, there were total unrecognized compensation costs of \$577,674 related to nonvested share-based compensation arrangements granted under the 2005 Plan. Those costs are expected to be recognized over a weighted average period of 1.98 years.

7. EXPENSES

The aggregate remuneration paid during the six months ended June 30, 2006 to officers and directors amounted to \$1,378,329, of which \$233,587 was paid as fees and compensation to directors who were not officers. These amounts represent the taxable income to the Corporation's officers and directors and therefore differ from the amounts reported in the accompanying Statement of Operations that are recorded and expensed in accordance with generally accepted

Edgar Filing: PETROLEUM & RESOURCES CORP - Form N-CSRS

accounting principles.

8. PORTFOLIO SECURITIES LOANED

The Corporation makes loans of securities to brokers, secured by cash deposits, U.S. Government securities, or bank letters of credit. The Corporation accounts for securities lending transactions as secured financing and receives compensation in the form of fees or retains a portion of interest on the investment of any cash received as collateral. The Corporation also continues to receive interest or dividends on the securities loaned. The loans are secured at all times by collateral of at least 102% of the fair value of the securities loaned plus accrued interest. Gain or loss in the fair value of securities loaned that may occur during the term of the loan will be for the account of the Corporation. At June 30, 2006, the Corporation had securities on loan of \$40,738,724 and held collateral of \$41,638,110, consisting of an investment trust fund which may invest in money market instruments, commercial paper, repurchase agreements, U.S. Treasury Bills, and U.S. agency obligations.

TO THE BOARD OF DIRECTORS AND STOCKHOLDERS OF PETROLEUM & RESOURCES CORPORATION:

In our opinion, the accompanying statement of assets and liabilities, including the schedule of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of Petroleum & Resources Corporation (hereafter referred to as the "Corporation") at June 30, 2006, and the results of its operations, the changes in its net assets and the financial highlights for each of the fiscal periods presented, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Corporation's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We believe that our audits, which included confirmation of securities at June 30, 2006 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.
