Report of Independent Registered Public Accounting Firm  
To the Participants and Administrator of  
Merck US Savings Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of Merck US Savings Plan (the "Plan") at December 31, 2013 and 2012, and the changes in net assets available for benefits for the year ended December 31, 2013 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) and schedule of delinquent participant contributions are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

## Merck US Savings Plan

### Notes to Financial Statements

#### 1. Description of Plan

The following description of the Merck US Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

##### General

The Plan was designed to provide an easy, economical way for employees to become shareholders of Merck & Co., Inc. (“Merck” or the “Company”) as well as a systematic means of saving and investing for the future. Regular full-time, part-time, and temporary employees as defined by the Plan document are eligible to participate in the Plan on or after their dates of hire or transfer into a U.S. benefits-eligible position. Merck & Co., Inc. is the Plan sponsor (the “Sponsor”). On December 31, 2012, the assets of the Schering-Plough Employees’ Savings Plan and the Retirement Savings Plan for the Organon Biosciences US Affiliates merged into the Plan, and the Plan was renamed from the MSD Employees Savings and Security Plan to the Merck US Savings Plan. Effective January 1, 2013, participants became eligible to participate in the Merck US Savings Plan.

Participants direct the investment of their contributions into any fund investment option available under the Plan, including Merck common stock. At December 31, 2013, the Plan offered five (5) registered investment companies (mutual funds), four (4) common/collective trusts, and 14 separately managed accounts.

The Plan is administered by management committees appointed by the Company’s Chief Executive Officer, the Compensation and Benefits Committee of the Board of Directors of Merck or their delegates.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

##### Master Trust

The assets of the Plan are maintained, for investment purposes only, on a commingled basis with a portion of the MSD Puerto Rico Savings & Security Plan (formerly known as the MSD Puerto Rico Employee Savings and Security Plan) (the “Puerto Rico Plan”) and all the assets of the MSD Employee Stock Purchase and Savings Plan and the Telerx Marketing, Inc. 401(k) Plan in a single master trust (the “Master Trust”). The Puerto Rico Plan participates in the Master Trust for the specific limited purpose of enabling participants in the Puerto Rico Plan to invest in separately managed accounts, common/collective trusts and certain registered investment companies that are recordkept and trustee pursuant to the Master Trust agreement. The plans do not own specific Master Trust assets but rather maintain individual beneficial interests in such assets.

The portion of fund assets allocable to each plan is based upon the participants’ account balance within each plan. Investment income for each fund is allocated to each plan based on the relationship of each plan’s beneficial interest in the fund to the total beneficial interest of all plans in the fund.

##### Contributions

Participants may contribute up to 25% of their annual eligible compensation on a before-tax basis. However, before-tax contributions cannot exceed the statutory limit (\$17,500 in 2013). Participants may also contribute up to 25% of their annual eligible compensation on an after-tax basis. Upon reaching the before-tax statutory limit, contributions may be suspended for the remainder of the plan year or may be continued on an after-tax basis. In addition, the Company matches 75% of an employee’s contributions, up to 6% of such employee’s eligible compensation per pay period (to the statutory limit). Participant and Company matching contributions are invested according to a participant’s elections.

Effective January 1, 2013, newly eligible participants will be automatically enrolled in the Plan with a before-tax contribution rate of 6%. Also effective January 1, 2013, each participant with a before-tax base pay contribution rate of at least 1% may elect to participate in an annual automatic increase program, in whole percentages of at least 1% and not more than 3% per year. The automatic percentage increase may not cause a participant’s contribution rate to exceed 25%.

Legacy Schering-Plough Transitional Contributions – The Company shall make additional contributions of 0.5% of annual eligible compensation for participants that were eligible to participate in the Schering-Plough Employees’ Savings Plan as of December 31, 2012 and who have maintained continuous employment with the Company

thereafter. These transitional contributions will apply for the period from January 1, 2013 through December 31, 2019.

-4-

---

## Merck US Savings Plan

## Notes to Financial Statements

Legacy Organon BioSciences Transitional ANRP Contributions – For participants accruing benefits under the prior pension formula of the Akzo Nobel Retirement Plan ("ANRP") immediately prior to January 1, 2007, the Company shall make a contribution each Plan Year commencing on or after January 1, 2013 and prior to January 1, 2019 equal to a percentage of his or her total compensation for the Plan Year. The contribution ranges from 8% to 12% based on years of service, as indicated below:

Years of Service	Employer Contribution
0-19	8%
20-29	10%
30-39	12%

Age 50 and above — In addition, the Plan permits unmatched pre-tax "catch-up contributions" of up to \$5,500 for 2013 by participants who are at least age 50 by year-end.

## Settlements

The Plan recorded receivables related to court-approved settlements to be distributed to the Plan in connection with ERISA lawsuits ("ERISA Lawsuits"). The ERISA Lawsuits are consolidated class actions alleging breaches of fiduciary duty by the Company by causing or permitting the Plan to imprudently invest in Merck common stock or failing to provide material information regarding Merck common stock to Plan participants.

## Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contributions and an allocation of Plan earnings. The allocation is based on participants' account balances, as defined in the Plan document.

## Vesting

Participants are immediately vested in their contributions, all Company matching contributions, plus actual earnings thereon.

## Notes Receivable from Participants

Participants may borrow from their account balances with interest charged at the prime rate plus 1%. Loan terms range from one to five years for a short-term loan or up to fifteen years for the purchase of a primary residence and bear interest at rates that range from 4.25% to 12.50%. The minimum loan is \$1,000 and the maximum loan is the lesser of (i) \$50,000 less the highest outstanding loan balance(s) during the one year period prior to the new loan application date, or (ii) 50% of the participant's account balance less any current outstanding loan balance(s) and defaulted loan amounts. Principal and interest is paid ratably through payroll deductions.

## Payment of Benefits

Participants are entitled to receive automatic, voluntary, in-service (which include hardship withdrawals), or mandatory distributions as provided in the applicable Plan provisions.

## Other Matters

Transfers in and out during 2013 relate to transfers between the Plan and the MSD Employee Stock Purchase and Savings Plan and the MSD Puerto Rico Savings & Security Plan for employees who changed their status during the year.

## 2. Summary of Accounting Policies

## Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Merck US Savings Plan

Notes to Financial Statements

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Management believes that these estimates are adequate. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

All investments are recorded at fair value in the accompanying financial statements. Valuation of investments of the Plan represents the Plan's allocable portion of the Master Trust. The Plan's investment in the Master Trust is stated at fair value and is based on the beginning of year value of the Plan's interest in the Master Trust plus actual Plan contributions and allocated investment income less Plan distributions, allocated investment losses and allocated expenses.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned. Realized gains and losses from security transactions are reported on the average cost method.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as benefit payments based upon the terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2013 and 2012.

Contributions

Employee and Company matching contributions are recorded in the period in which the Company makes the payroll deductions from the participants' earnings.

Payment of Benefits

Benefits are recorded when paid.

Expenses

The Plan's administrative expenses are generally paid by the Company.

Recently Issued Accounting Standards

In July 2013, the Financial Accounting Standards Board issued ASU 2013-09 Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in Update No. 2011-04 ("ASU 2013-09"). ASU 2013-09 defers indefinitely the effective date of certain required disclosures in Update 2011-04 of qualitative information about the significant unobservable inputs used in Level 3 investment fair value measurements. The Plan was not impacted by the adoption of this new guidance as it did not hold any Level 3 assets at December 31, 2013 and 2012.

Risks and Uncertainties

The Plan provides for various investment options in investment securities. Investment securities, in general, are exposed to various risks and may decline in value for a number of reasons, including changes in prevailing interest rates and credit availability, increases in defaults, increases in voluntary prepayments for investments that are subject to prepayment risk under normal market conditions, widening of credit spreads and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

3. Related-Party Transactions

Contributions are held and managed by Fidelity Management Trust Company ("Fidelity" or the "Trustee"), which invests cash received, interest and dividend income and makes distributions to the participants. The Trustee also administers the participants' payment of interest and principal on the notes receivable from participants. These transactions qualify as permitted party-in-interest transactions.

## Merck US Savings Plan

## Notes to Financial Statements

Certain Plan investments are shares of registered investment companies (mutual funds) managed by the Trustee. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The total market value of the Plan's allocated portion of the investments managed by the Trustee was \$739.8 million and \$704.0 million at December 31, 2013 and December 31, 2012, respectively. During 2013, the Plan's allocated portion of interest and dividends, realized gains and unrealized gains from investments managed by the Trustee was \$581,851, \$14.4 million and \$32.2 million, respectively.

Merck also is a party-in-interest to the Plan under the definition provided in Section 3(14) of ERISA. Therefore, Plan transactions of Merck common stock qualify as party-in-interest transactions. The market value of the Plan's allocated portion of the investments in Merck common stock was \$836.0 million and \$788.8 million at December 31, 2013, and December 31, 2012, respectively. During 2013, the Plan's allocated portion of dividends, realized gains and unrealized gains from Merck common stock was \$29.6 million, \$24.4 million and \$142.1 million, respectively. The Plan's allocated portion of purchases and sales of Merck common stock during 2013 were \$30.0 million and \$143.5 million, respectively.

## 4. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, each participant thereby affected would receive the entire value of his or her account as though he or she had retired as of the date of such termination.

## 5. Tax Status

The Plan obtained a tax determination letter from the Internal Revenue Service ("IRS") dated August 20, 2003, indicating that the Plan had been designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). However, the Plan has been amended since the receipt of the determination letter. The Plan experienced certain plan document and operational failures during the years ended December 31, 2013 and 2012. The Company voluntarily requested to correct these failures under the Voluntary Correction Program with the IRS. Under this program, the Company proposed various corrective actions to address the failures in order to obtain a compliance statement from the IRS. The Sponsor believes that the Plan is designed and currently operates in compliance with the IRC. Therefore, no provision for income taxes has been made.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

## 6. Master Trust

The Plan had a 93.9% and 94.1% interest in the Master Trust at December 31, 2013 and December 31, 2012, respectively. The Plan's interest in the Master Trust represents more than 5% of the Plan's net assets as of year-end. The net assets of the Master Trust are as follows:

(in thousands)	December 31,	
	2013	2012
Registered investment companies (mutual funds)	\$ 3,075,793	\$ 2,775,149
Common/collective trusts	3,060,861	2,678,924
Merck common stock	976,393	917,329
Other common stocks	1,481,360	881,547
Accrued interest and dividends	9,870	10,346

Edgar Filing: Merck & Co. Inc. - Form 11-K

Other net assets/(liabilities)	(3,813)	7,781
	\$ 8,600,464	\$ 7,271,076

-7-

---

## Merck US Savings Plan

## Notes to Financial Statements

Total investment income of the Master Trust for the year ended December 31, 2013, is as follows:

(in thousands)	Year Ended December 31, 2013
Investment income, net	
Interest and dividends	\$ 113,490
Net appreciation in Registered investment companies (mutual funds)	273,438
Net appreciation in Common/collective trusts	625,904
Net appreciation in Merck common stock	194,206
Net appreciation in Other common stocks	411,275
 Total investment income	 \$ 1,618,313

#### 7. Fair Value Measurements – Master Trust

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Entities are required to use a fair value hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs when measuring fair value. There are three levels of inputs that may be used to measure fair value:

Level 1 – Quoted prices in active markets for identical assets or liabilities. The Plan's Level 1 assets primarily include registered investment companies (mutual funds) and common stocks.

Level 2 – Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. The Plan's Level 2 assets primarily include investments in common/collective trusts.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant judgment or estimation. The Plan did not hold any Level 3 assets at December 31, 2013 and 2012.

If the inputs used to measure the financial assets and liabilities fall within more than one level described above, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument. There have been no changes in the valuation methodology used at December 31, 2013 and 2012. The policy of the Master Trust and the Plan is to recognize transfers between levels at the end of the reporting period. There were no transfers between Levels 1 and 2.

Within the Master Trust, investments are recorded at fair value as follows:

##### Registered Investment Companies (Mutual Funds)

Registered investment companies (mutual funds) are valued at their respective net asset values. The net asset values are typically determined by the fund at the close of regular trading on the New York Stock Exchange. Investments in registered investment companies (mutual funds) generally may be redeemed daily.

##### Common/Collective Trusts

The common/collective trusts are valued at their respective net asset values. The fair value of investments in the common/collective trusts are determined by their trustee. The Plan's investments in common/collective trusts generally may be redeemed daily.

## Merck US Savings Plan

## Notes to Financial Statements

## Common Stocks

Common stocks, for which market quotations are readily available, are generally valued at the last reported sales price on their principal exchange on valuation date, or official close price for certain markets. If no sales are reported for that day, investments are valued at the more recent of (i) the last published sale price or (ii) the mean between the last reported bid and asked prices for long positions, or at fair value as determined in good faith by the Trustee and the Company.

## Investments Measured at Fair Value

Investments measured at fair value are summarized below:
