SEC Rule 15Ga-1 Methodology Statement

Fannie Mae is filing this report in compliance with SEC Rule 15Ga-1. The following information is

Fannie Mae filed its initial report in compliance with SEC Rule 15Ga-1 as of February 14, 2012. (set forth below) outstanding as of December 31, 2011 and included all activities between and including December 31, 2011 and the date of the report. Fannie Mae also includes all activities between and including Fannie Mae against the seller of the related mortgage loans (including activities in such period) for breaches of representations and warranties related to such mortgage loans.

In accordance with Rule 15Ga-1, Fannie Mae is filing a report on a quarterly basis approximately every three months (with those exceptions as set forth below) outstanding at the beginning of that calendar quarter. The report includes all activities between and including the beginning of that calendar quarter and the end of the reporting period. Fannie Mae also includes all activities between and including the beginning of that calendar quarter and the end of the reporting period for breaches of representations and warranties related to such mortgage loans.

Because the report does not include information related to the origination date of a loan, market value of the securities based on when the report was filed. In order to determine the issue date of an MBS, Fannie Mae will use the issue date of the MBS as reported on Fannie Mae's website or utilize another third-party data source. Fannie Mae also provides the issue date of the MBS in the Prospectus Supplement for each issuance of MBS Securities.

Fannie Mae engages in a variety of practices with respect to mortgage loans where there are breaches of representations and warranties. Fannie Mae may repurchase mortgage loans from a Fannie Mae trust if it determines that there has been a breach of representation and warranty by the seller of the mortgage loan. Fannie Mae may also repurchase mortgage loans from a Fannie Mae trust in accordance with the terms of the related trust agreement at the time that it was issued. Fannie Mae may also repurchase mortgage loans from a Fannie Mae trust or may alternatively result in a payment by the seller of the mortgage loan to reimburse Fannie Mae for the settlement of such demand, as agreed to by the seller and Fannie Mae. Each such repurchase demand is based on the date of the breach of representation and warranty, as determined by Fannie Mae. Fannie Mae will determine (i) whether the mortgage asset in question is in the related Fannie Mae trust at the time of the breach and (ii) whether the mortgage asset in question is in the related Fannie Mae trust at the time of the breach and 10-Q SEC filings, the first receipt date, as captured in Fannie Mae's systems, is used to determine the date of the breach.

The report will not include percentage calculations for most fields. Because Fannie Mae routinely repurchases mortgage loans from the related Fannie Mae trust, such percentages would tend to overstate (and understate) the number of mortgage loans subject to a repurchase demand. Fannie Mae will provide the number of mortgage loans and the percentage of mortgage loans subject to a repurchase demand.

Breaches of representations and warranties generally relate to the underwriting of a mortgage loan or (ii) servicing violations. The report includes repurchase demands related not only to underwriting violations but also to servicing violations. The report includes all breaches of representation and warranty where Fannie Mae is seeking a remedy, and does not include breaches of representation and warranty where Fannie Mae is not seeking a remedy. For example, a mortgage loan seller may inadvertently include a fixed-rate mortgage loan in a Fannie Mae trust, which does not meet Fannie Mae underwriting requirements, but Fannie Mae nevertheless has the right to demand repurchase of such mortgage loan. Fannie Mae will include such mortgage loans in the report and will indicate that such mortgage loan bears an adjustable rate.

This report includes only those Fannie Mae mortgage securities where Fannie Mae has the right in the mortgage loan to demand repurchase of such mortgage loan. These securities typically include Fannie Mae single-family MBS, Fannie Mae commercial MBS, Fannie Mae multi-family MBS, Fannie Mae securities, including Megas, Stripped Mortgage-Backed Securities, most REMIC Securities and other securities.

As described above, the mortgage loans may not necessarily be in the related Fannie Mae trust at the time of the breach. Mortgage loans that are repurchased by Fannie Mae prior to the actual repurchase will not be reflected in subsequent reports. The data is commingled throughout the report and structured products (such as REMICs) reported at the end of the report. Fannie Mae will report the data at a deal-group level. As the deal-groups pay off, the data will be removed from subsequent reports.
