#### General American Investors

General American Investors Company, Inc. (the "Company"), established in 1927, is registered under the Investment Company Act of 1940 as a closed-end, diversified management investment company. It is internally managed by its officers under the direction of the Board of Directors.

#### 1. SECURITY VALUATION

Securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the period. Securities reported on the NASDAQ national market are valued at the official closing price on that day. Listed and NASDAQ securities for which no sales or prices are reported on that day and other securities traded in the over-the-counter market are valued at the last bid price (asked price for open short positions and written options) on the valuation date. Corporate discount notes are valued at amortized cost, which approximates market value. Special holdings are valued at fair value in the opinion of the Directors. In determining fair value, in the case of restricted shares, consideration is given to cost, operating and other financial data and, where applicable, subsequent private offerings or market price of the issuer's unrestricted shares (to which a 30 percent discount is applied).
