(Unaudited)

#### NOTE 1 – BASIS OF FINANCIAL STATEMENT PRESENTATION AND PRINCIPLES OF CONSOLIDATION

The accompanying unaudited interim consolidated financial statements of BancorpSouth, Inc. (the "Company") have been prepared in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") and follow general practices within the industries in which the Company operates. For further information, refer to the audited consolidated financial statements and notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014. In the opinion of management, all adjustments necessary for a fair presentation of the consolidated financial statements have been included and all such adjustments were of a normal, recurring nature. The results of operations for the three-month period ended March 31, 2015 are not necessarily indicative of the results to be expected for the full year. Certain 2014 amounts have been reclassified to conform with the 2015 presentation.

The consolidated financial statements include the accounts of the Company, its wholly-owned subsidiaries, BancorpSouth Bank (the "Bank") and Gumtree Wholesale Insurance Brokers, Inc., and the Bank's wholly-owned subsidiaries, BancorpSouth Insurance Services, Inc., BancorpSouth Municipal Development Corporation and BancorpSouth Bank Securities Corporation.

#### NOTE 2 – LOANS AND LEASES

The Company's loan and lease portfolio is disaggregated into the following segments: commercial and industrial; real estate; credit card; and all other loans and leases. The real estate segment is further disaggregated into the following classes: consumer mortgages; home equity; agricultural; commercial and industrial-owner occupied; construction, acquisition and development; and commercial real estate. A summary of gross loans and leases by segment and class as of the dates indicated follows:

March 31, December 31, 2015 2014 2014

(In thousands)

Total	\$	1,089,591	\$	1,244,540	\$	1,036,083	\$	3,159,975	\$	454,752	\$	1,030,513	\$

The Company's loan concentrations which exceed 10% of total loans are reflected in the preceding tables. A substantial portion of construction, acquisition and development loans are secured by real estate in markets in which the Company is located. The Company's loan policy generally prohibits the use of interest reserves on loans originated after March 2010. Certain of the construction, acquisition and development loans were structured with interest-only terms. A portion of the consumer mortgage and commercial real estate portfolios originated through the permanent financing of construction, acquisition and development loans. Future economic distress could negatively impact borrowers' and guarantors' ability to repay their debt which would make more of the Company's loans collateral dependent.

The following tables provide details regarding the aging of the Company's loan and lease portfolio, net of unearned income, by segment and class at March 31, 2015 and December 31, 2014:

The Company utilizes an internal loan classification system to grade loans according to certain credit quality indicators. These credit quality indicators include, but are not limited to, recent credit performance, delinquency, liquidity, cash flows, debt coverage ratios, collateral type and loan-to-value ratio. The Company's internal loan classification system is compatible with classifications used by the Federal Deposit Insurance Corporation, as well as other regulatory agencies. Loans may be classified as follows:

Pass: Loans which are performing as agreed with few or no signs of weakness. These loans show sufficient cash flow, capital and collateral to repay the loan as agreed.

Special Mention: Loans where potential weaknesses have developed which could cause a more serious problem if not corrected.

Substandard: Loans where well-defined weaknesses exist that require corrective action to prevent further deterioration.

Doubtful: Loans having all the characteristics of Substandard and which have deteriorated to a point where collection and liquidation in full is highly questionable.

Loss: Loans that are considered uncollectible or with limited possible recovery.

Impaired: Loans for which it is probable that the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement and for which a specific impairment reserve has been considered.

The following tables provide details of the Company's loan and lease portfolio, net of unearned income, by segment, class and internally assigned grade at March 31, 2015 and December 31, 2014:

Loans considered impaired under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 310, Receivables ("FASB ASC 310"), are loans for which, based on current information and events, it is probable that the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement. The Company's recorded investment in loans considered impaired

exclusive of accruing TDRs at March 31, 2015 and December 31, 2014 was \$24.8 million and \$28.1 million, respectively. At March 31, 2015 and December 31, 2014, \$2.0 million and \$6.1 million, respectively, of those impaired loans had a valuation allowance of approximately \$388,000 and \$1.5 million, respectively. The remaining balance of impaired loans of \$22.8 million and \$22.0 million at March 31, 2015 and December 31, 2014, respectively, were charged down to fair value, less estimated selling costs which approximated net realizable value. Therefore, such loans did not have an associated valuation allowance. Impaired loans that were characterized as TDRs totaled \$4.8 million and \$4.6 million at March 31, 2015 and December 31, 2014, respectively. The average recorded investment in impaired loans was \$31.1 million for the three months ended March 31, 2015 and \$33.9 million for the year ended December 31, 2014.

Non-performing loans and leases ("NPLs") consist of non-accrual loans and leases, loans and leases 90 days or more past due and still accruing, and loans and leases that have been restructured (primarily in the form of reduced interest rates and modified payment terms) because of the borrower's weakened financial condition or bankruptcy proceedings. The following table presents information concerning NPLs as of the dates indicated:

	Mar 201:	rch 31, 5	2014	4	Dec. 2014	ember 31,
	(In th	ousands)				
Non-accrual loans and leases	\$	54,418	\$	77,531	\$	58,052
Loans and leases 90 days or more past due, still accruing	1,61	.5	1,94	.9	2,76	3
Restructured loans and leases still accruing	5,43	33	13,7	76	10,9	20
Total non-performing loans and leases	\$	61,466	\$	93,256	\$	71,735

The Bank's policy for all loan classifications provides that loans and leases are generally placed in non-accrual status if, in management's opinion, payment in full of principal or interest is not expected or payment of principal or interest is more than 90 days past due, unless such loan or lease is both well-secured and in the process of collection. At March 31, 2015, the Company's geographic NPL distribution was concentrated primarily in its Louisiana, Mississippi and Tennessee markets. The following table presents the Company's nonaccrual loans and leases by segment and class as of the dates indicated:

	March 31, 2015 2014		December 3 2014

In the normal course of business, management will sometimes grant concessions, which would not otherwise be considered, to borrowers that are experiencing financial difficulty. Loans identified as meeting the criteria set out in FASB ASC 310 are identified as TDRs. The concessions granted most frequently for TDRs involve reductions or delays in required payments of principal and interest for a specified period, the rescheduling of payments in accordance with a bankruptcy plan or the charge-off of a portion of the loan. In most cases, the conditions of the credit also warrant nonaccrual status, even after the restructure occurs. Other conditions that warrant a loan being considered a TDR include reductions in interest rates to below market rates due to bankruptcy

plans or by the bank in an attempt to assist the borrower in working through liquidity problems. As part of the credit approval process, the restructured loans are evaluated for adequate collateral protection in determining the appropriate accrual status at the time of restructure. TDRs recorded as nonaccrual loans may generally be returned to accrual status in periods after the restructure if there has been at least a six-month period of sustained repayment performance by the borrower in accordance with the terms of the restructured loan and the interest rate at the time of restructure was at or above market for a comparable loan. During the first quarter of 2015, the most common concessions that were granted involved rescheduling payments of principal and interest over a longer amortization period, granting a period of reduced principal payment or interest only payment for a limited time period, or the rescheduling of payments in accordance with a bankruptcy plan.

The following tables summarize the financial effect of TDRs recorded during the periods indicated:

Total				\$	140,924	\$	142,443		

Management evaluates impaired loans individually in determining the adequacy of the allowance for impaired loans. As a result of the Company individually evaluating loans of \$500,000 or more that are 60 or more days past due for impairment, further review of remaining loans collectively, as well as the corresponding potential allowance, would be immaterial in the opinion of management.

NOTE 4 – OTHER REAL ESTATE OWNED
The following table presents the activity in other real estate owned ("OREO") for the periods indicated:

Edgar Filing: BANCORPSOUTH INC - Form 10-Q
