Form 35-CERT  
November 29, 2005

File No. 70-10236

CERTIFICATE OF NOTIFICATION

(RULE 24)

SECURITIES AND EXCHANGE COMMISSION

BY

NATIONAL GRID PLC<sup>1</sup>

In accordance with the order of the Securities and Exchange Commission ("Commission") dated September 30, 2004, Holding Company Act Release No. 27898 (the "September 2004 Order"), National Grid plc ("National Grid"), hereby submits its report for the period April 1, 2005 to September 30, 2005 (the "reporting period").<sup>2</sup> The following is a listing of the applicable reporting requirements contained in the Order (each, a "Reporting Requirement"), together with the response thereto. Unless otherwise defined herein, all capitalized terms in this Certificate of Notification shall have the meaning set forth in the September 2004 Order, for example:

"Authorization Period" shall mean October 1, 2004 through September 30, 2007.

"Intermediate Companies" shall mean all holding companies in the chain of ownership of National Grid USA that are direct or indirect subsidiaries of National Grid including National Grid (US) Holdings Limited, National Grid (US) Investments 4, National Grid (US) Partner 1 Limited, National Grid (US) Partner 2 Limited, National Grid General Partnership, National Grid Holdings Inc. and any new companies in the chain of ownership as the structure may be revised from time to time.

"Utility Subsidiary" shall mean all National Grid USA public utility subsidiary companies (*i.e.*, Niagara Mohawk Power Corporation, Massachusetts Electric Company, The Narragansett Electric Company, Granite State Electric Company, Nantucket Electric Company, New England Power Company, New England Electric Transmission Corporation, New England Hydro-Transmission Corporation, and New England Hydro-Transmission Electric Co. Inc.).

"National Grid USA Group" shall mean National Grid USA and its direct and indirect subsidiaries.

Pursuant to the September 2004 Order, the value of securities issued in GBP were translated into US dollars at the exchange rate prevailing on September 30, 2004 which was 1 GBP to 1.80 USD. Other items in the report reflect exchange rate translations as of the end of the reporting period at the then prevailing exchange rate of 1 GBP to 1.76 USD, or in the case of income statement items at an average rate for the period of 1 GBP to 1.85 USD. The exchange rate conversion is provided solely for convenience and should not be taken to mean that the pound sterling amounts have been, could have been, or could be converted to US Dollars at the rates indicated or at any other rates.

=====

<sup>1</sup> National Grid Transco plc changed its name to National Grid plc on October 10, 2005.

<sup>2</sup> The reporting requirements contained in the September 2004 Order replaced the reporting requirements imposed in the Commission's Order dated January 16, 2002, Holding Company Act Release No. 27490 (the "January 2002 Order") and in the Commission's Order dated October 16, 2002, Holding Company Act Release No. 27577 (the "October 2002 Order").

**Reporting Requirement No. 1:** The sales of common stock, preferred securities or equity-linked securities by National Grid and the purchase price per share and the market price per share at the date of the agreement of sale which shall also separately show the amount issued during the Authorization Period for each type of issued securities (common stock, preferred securities or equity-linked securities).

Response:

There were no sales of common stock, preferred securities or equity-linked securities by National Grid during the reporting or Authorization Period except under stock based plans as reported in Reporting Requirement No. 2.

=====

**Reporting Requirement No. 2:** The total number of shares of National Grid common stock issued or issuable under options granted during the reporting period under employee benefit plans and dividend reinvestment plans including any employee benefit plans or dividend reinvestment plans hereafter adopted, together with the number of shares issued or issuable during the Authorization Period.

Response:

Shares of common stock issued by National Grid during the reporting period:

=====

**Reporting Requirement No. 6:** National Grid's "aggregate investment"<sup>1</sup>, as defined under Rule 53, in Foreign Utility Companies (FUCOs) as of the end of the reporting period in dollars and as a percentage of National Grid's consolidated retained earnings, a calculation of the amount remaining under the FUCO investment authorization, and a description of FUCO investments during the reporting period.

Response:

National Grid has no investments in Exempt Wholesale Generators (EWGs) and its aggregate investment, as defined under Rule 53, in FUCOs as of the end of the reporting period is as follows:

- A. As of September 30, 2005, National Grid's consolidated retained earnings calculated in accordance with US GAAP were GBP 1,730 million (USD 3,045 million) - excluding Other Comprehensive Loss (OCL) of GBP (865) million (USD (1,522) million). Retained earnings combined with OCL were GBP 865 million (USD 1,522 million).
- B. National Grid's aggregate investment, as defined in Rule 53, in FUCOs as of September 30, 2005 was GBP 10,217 million (USD 17,983 million).
- C. National Grid's aggregate investment in FUCOs as a percentage of its consolidated retained earnings was 591% as of September 30, 2005. Under the Order of the Commission dated March 9, 2005 (Release No. 35-27950), National Grid was authorized to invest up to USD 36.143 billion in FUCOs. National Grid had USD 18.160 billion of unused FUCO investment authority based on the aggregate investment as of the end of the reporting period.

D. The change in National Grid's aggregate investment in FUCOs reflects movements in guarantees and intercompany loans. Otherwise, no major FUCO investments were made during the reporting period. National Grid Holdings One plc owns both National Grid Holdings Limited and Lattice Group plc, each a FUCO. As of the end of the prior reporting period, using a conversion ratio at that time of 1 GBP to 1.89 USD, National Grid 's aggregate investment, as defined in Rule 53, in FUCOs was GBP 12,149 million (USD 22,962 million).

<sup>1</sup>In conformance with Rule 53, the aggregate investment calculation does not include loans that are solely between companies in the FUCO group for which there is no direct or indirect recourse to National Grid plc. Previous filings of this report did include such loans from National Grid Holdings One plc in the calculation of the aggregate investment for Lattice Group plc and National Grid Holdings Limited.

=====

**Reporting Requirement No. 7:** A list showing the current "aggregate investment"<sup>1</sup> under Rule 53, for each FUCO owned.

Response:

National Grid holds all of its FUCO investments under one holding company, National Grid Holdings One plc ("NGH One"), which is a FUCO. NGH One owns Lattice Group plc and National Grid Holdings Limited, each a FUCO.

The current "aggregate investment" under Rule 53 for National Grid Holdings One plc as of September 30, 2005 was GBP 10,217 million (USD 17,983 million).

The current "aggregate investment" under Rule 53 for Lattice Group plc as of September 30, 2005 was GBP 7,585 million (USD 13,350 million).

The current "aggregate investment" under Rule 53 for National Grid Holdings Limited as of September 30, 2005 was GBP 3,417 million (USD 6,015 million).

<sup>1</sup>In conformance with Rule 53, the aggregate investment calculation does not include loans that are solely between companies in the FUCO group for which there is no direct or indirect recourse to National Grid plc. Previous filings of this report did include such loans from National Grid Holdings One plc in the calculation of the aggregate investment for Lattice Group plc and National Grid Holdings Limited.

=====

**Reporting Requirement No. 8:** The ratio of investment in FUCOs to National Grid's total consolidated capitalization, the market to book ratio of National Grid's common stock, and an analysis of the growth in consolidated retained earnings, segregating total earnings growth attributable to FUCO investments from that attributable to other businesses of National Grid.

Response:

A. The ratio of investment in FUCOs to National Grid's total consolidated capitalization as of September 30, 2005 was 44%.

- B. The market to book ratio of National Grid's common stock as of September 30, 2005 was 1.6.
- C. National Grid's consolidated earnings under US GAAP for the reporting period were GBP 831 million (USD 1,537 million). This excludes other comprehensive income under US GAAP for the reporting period of GBP 353 million (USD 653 million). Consolidated retained earnings under US GAAP were reduced during the reporting period by dividends and return of capital to shareholders of GBP 2,478 million (USD 4,584 million).

National Grid Holdings One plc consolidated earnings under US GAAP as of September 30, 2005 was GBP 841 million (USD 1,556 million). Other comprehensive loss under US GAAP for the reporting period was GBP 1 million (USD 2 million). No dividends were paid by National Grid Holdings One plc to National Grid during the reporting period.

As described in more detail in the half year results of National Grid filed on Form 6K on November 17, 2005, SEC File No. 001-14958, National Grid's consolidated earnings from continuing operations, under IFRS, for the six months ended September 30, 2005 before exceptional items and remeasurements (remeasurement gains or losses arising from movements in the carrying value of commodity contracts and of financial instruments that do not achieve hedge accounting) was GBP 528 million (USD 977 million) on revenue of GBP 3,891 million (USD 7,198 million). Consolidated earnings including discontinued operations was GBP 3,062 million (USD 5,665 million), reflecting a gain in disposal of four gas distribution networks, net of tax, of GBP 2,534 million (USD 4,688 million). The four gas distribution networks were held indirectly by National Grid Holdings One plc, which is a FUCO.

Operating profit before exceptional items and remeasurements, under IFRS, from UK electricity and gas transmission was up 2% at GBP 397 million (USD 734 million) compared with GBP 388 million (USD 718 million) last year. This increase reflected higher gas Transmission Owner income, up GBP 16 million (USD 30 million) primarily from capacity auctions, as well as higher capacity auction income earned from both the Group's LNG storage business and its French interconnector which are up a combined GBP 26 million (USD 48 million) from last year. This reflected the high demand from market participants for both LNG storage and interconnector capacity. The higher auction income was partially offset by an increased Transmission Owner depreciation charge of GBP 11 million (USD 20 million), a non-recurring one-off benefit to the same period last year of GBP 15 million (USD 28 million), and lower revenues under the connections charging reform ('Plugs'), the benefit of which decreased by GBP 8 million (USD 15 million).

Operating profit before exceptional items and remeasurements, under IFRS, from the continuing UK gas distribution business was up 21% at GBP 94 million (USD 174 million) compared with GBP 78 million (USD 144 million) last year. This reflected a very strong performance on costs, with operating expenditure (excluding shrinkage) reduced by GBP 19 million (USD 35 million) through realization of the benefits of the Way Ahead program. Business rates were GBP 11 million (USD 20 million) higher than last year but are now being recovered as part of an average price increase of 4.6% implemented on 1 October 2005. Shrinkage gas costs, which in this period increased by GBP 2 million (USD 4 million), are forecast to increase further during the winter due to higher commodity costs.

The UK electricity and gas transmission business and the UK gas distribution business are both owned indirectly by National Grid Holdings One plc, which is a FUCO.

In the US, operating profit before exceptional items and remeasurements, under IFRS, from US electricity transmission was stable at constant currency.

The strength of US electricity and gas distribution's performance was partially masked by an under recovery of commodity costs. Operating profit before exceptional items and remeasurements, under IFRS, for US electricity and gas distribution was up 2% at GBP 170m (USD 315 million) on a constant currency basis compared with GBP 166 million (USD 307 million) last year. This good performance, which more than offset the under recoveries of GBP 25 million (USD 46 million) for the first six months of the year (compared to an under recovery of GBP 5 million (USD 9 million) last year), was primarily driven by volume growth and a continued focus on cost efficiencies.

The operating profit contribution before exceptional items and remeasurements, under IFRS, from US stranded cost recoveries for this period was GBP 251 million (USD 464 million). This comprises the ongoing recovery of and return on the stranded cost base amounting to GBP 173 million (USD 320 million), as well as GBP 57 million (USD 105 million) primarily related to the recovery of payments made under certain long term purchased power arrangements. This segment has also benefited from a settlement reached with USGen New England, Inc. following the resolution of that company's bankruptcy filing which resulted in GBP 21 million (USD 39 million) of operating profit.

Across the US Distribution business, electricity delivery volumes increased 4.8% compared to the prior year. Excluding the effects of weather, higher margin residential sales deliveries increased by 2%, contributing to a GBP 10 million (USD 19 million) increase in operating profit. The period-on-period weather effect increased operating profit by some GBP 21 million (USD 39 million), primarily due to a warmer summer than last year.

Operating profit before exceptional items and remeasurements for Wireless infrastructure was GBP 36 million (USD 67 million), up from GBP 8 million (USD 15 million) and reflected a full period contribution from the enlarged business.

Operating profit from the Group's Other businesses, was up 9% at GBP 75 million (USD 139 million) compared with GBP 69 million (USD 128 million) last year. Strong performance by National Grid Metering, primarily from cost efficiency gains made in the period, was largely offset by the expected lower profits from National Grid Property.

Under US GAAP National Grid revenues in the six months ended 30 September 2005 were GBP 3,933 million (USD 7,276 million) and net income was GBP 831 million (USD 1,537 million). Operating profit for UK electricity and gas transmission and UK gas distribution (continuing operations) were GBP 363 million (USD 672 million) and GBP 17 million (USD 31 million).

=====

**Reporting Requirement No. 9:** A statement of revenues and net income for each FUCO for the twelve months ending as of the end of the reporting period.

Response:

A. The consolidated revenue under US GAAP for National Grid Holdings One plc for the year ended September 30, 2005 was GBP 4,752 million (USD 8,791 million).

The consolidated revenue under US GAAP for National Grid Holdings Limited for the

year ended September 30, 2005 was GBP 1,572 million (USD 2,908 million).

The consolidated revenue under US GAAP for Lattice Group plc for the year ended September 30, 2005 was GBP 2,909 million (USD 5,382 million).

- B. The consolidated net income under US GAAP for National Grid Holdings One plc for the year ended September 30, 2005 was GBP 1,597 million (USD 2,954 million).

The consolidated net income under US GAAP for National Grid Holdings Limited for the year ended September 30, 2005 was GBP 426 million (USD 788 million).

The consolidated net income under US GAAP for Lattice Group plc for the year ended September 30, 2005 was GBP 1,094 million (USD 2,024 million).

=====

**Reporting Requirement No. 10:** A list of the securities issued by the Intermediate Companies during the reporting period, including principal amount, interest rate, term, number of shares and aggregate proceeds, as applicable, with the acquiring company identified and a brief explanation of the procedure followed to determine the market rate of interest charged, as applicable.

Response:

There were no securities issued by Intermediate Companies during the reporting period.

=====

**Reporting Requirement No. 11:** The amount and terms of any short-term debt issued by any Utility Subsidiary, and a list of the deposit or withdrawal balance by company participating in the money pool as of the end of the reporting period.

Response:

The table below lists short term debt issued by Utility Subsidiaries during the reporting period, with the exception of money pool borrowings which are reported on a net balance basis in the immediately following table.

Issuing Company	Acquiring Company	Initial Principal	Interest Rate	Installment Date	Term of Loan	GBP Balance at 09/30/05	USD Balance at 09/30/05
Niagara Mohawk Power Corp.	Niagara Mohawk Holdings, Inc.	\$13,000,000	3.02%	May 2, 2005	Demand	5,113,636	9,000,000

EUA Energy Investment Corporation	21,600,000	-
National Grid USA Service Company, Inc.	-	1,100,000
Total	\$ 563,225,000	\$ 563,225,000

<sup>1</sup>The following companies are also authorized to participate in the Money Pool, but did not participate during the reporting period: AEMC, L.L.C., Metrowest Realty LLC, NEES Communications, Inc., NEES Energy, Inc., NEES Telecommunications Corp., New England Energy Incorporated, New England Hydro Finance Company, Inc., Wayfinder Group, Inc., GridAmerica Holdings Inc., and GridAmerica LLC.

=====

**Reporting Requirement No. 12:** A retained earnings analysis of each company in the National Grid USA Group, detailing Gross Earnings (as that term is defined in the Commission's Order dated March 15, 2000, Holding Co. Act Release No. 27154) or income available for dividends, dividends paid out of each capital account, and the resulting capital account balances at the end of the reporting period.

Response:

Please see Exhibit A-1 attached hereto.

=====

**Reporting Requirement No. 13:** A table showing, as of the end of the reporting period, the dollar and percentage components of the capital structures of National Grid, National Grid Holdings One plc ("NGH One"), each Intermediate Company, and each Utility Subsidiary.

Response:

For National Grid, NGH One, and each Intermediate Company, please see Exhibit A-2 attached hereto.

For the Utility Subsidiaries, please see Exhibit A-3 attached hereto.

=====

**Reporting Requirement No. 14:** A list of borrowings by National Grid USA Group companies from associated FUCOs, indicating at least three other sources of funds (with rates and terms) and demonstrating how the Best Rate Method was applied to such borrowings.

Response:

There were no borrowings by National Grid USA Group companies from associated FUCOs during the reporting period.

=====

**Reporting Requirement No. 15:** If any subsidiaries are Variable Interest Entities ("VIEs") as that term is used in FASB Interpretation 46R, Consolidation of Variable Interest Entities, National Grid will provide a description of any financing transactions conducted during the reporting period that were used to fund such VIEs.

Response:

No subsidiaries of National Grid are considered VIEs as the term is used in FASB Interpretation 46R.

=====

**Reporting Requirement No. 16:** If any financing proceeds are used for VIEs, a description of the accounting for such transaction under FASB Interpretation 46R.

Response:

No subsidiaries of National Grid are considered VIEs as the term is used in FASB Interpretation 46R.

=====

**Reporting Requirement No. 17:** A list of U-6B-2 forms filed with the Commission during the reporting period, including the name of the filing entity and the date of filing.

Response:

No U-6B-2s were filed with the Commission during the reporting period.

## SIGNATURE

Pursuant to the requirements of the Public Utility Holding Company Act of 1935, the undersigned company has duly caused this certificate of notification (Commission's File No 70-10236) to be signed on its behalf by the undersigned thereunto duly authorized.

NATIONAL GRID PLC
