TO THE SECURITIES AND EXCHANGE COMMISSION:

This Master Certificate contains the Rule 24 certificates required to be filed on a periodic basis for File No. 70-10246 and various other files in order to eliminate the burden of making numerous separate individual filings. This Certificate is filed in accordance with Rule 24 under the Public Utility Holding Company Act of 1935 (the "Act"), as a notification that with respect to the various transactions authorized under the Orders issued in the proceedings identified in the above caption, the following have been carried out in accordance with the terms and conditions of, and for the purposes represented by, the respective Application-Declarations and the Orders. This Master Certificate acts as a compilation of the various other certificates and incorporates all Rule 24 reporting from the other captioned proceedings.

By Order dated December 22, 2004, HCAR No. 35-27927 ("Financing Order") under File No. 70-10246, the Securities and Exchange Commission ("SEC") permitted the Application-Declaration of Dominion Resources, Inc. ("Dominion"), Consolidated Natural Gas Company, Inc. ("CNG") and certain of their subsidiaries named therein ("Subsidiaries") to become effective, thereby authorizing Dominion, CNG and their Subsidiaries to engage in various financing and related transactions through December 31, 2007. Part A contains reporting on external and intra-system financing of the Dominion system as required by the Financing Order.

Part B contains reporting required by other SEC orders in the captioned proceedings. This information is subdivided by SEC file number. Rule 52 transactions (Form U-6B-2) and any order-specific financial information (i.e. income statements, balance sheets) are filed as exhibits to Part A and Part B, respectively, as appropriate.

PART A  
EXTERNAL AND INTRA-SYSTEM FINANCING UNDER FINANCING ORDER  
(File No. 70-10246)

I. EWG/FUCO Investments.

A. As determined pursuant to the Financing Order, the Modified Rule 53 Test applicable to Dominion's investment in EWG's and FUCO's is one hundred percent of consolidated retained earnings plus \$5 billion. At March 31, 2005, Dominion's "aggregate investment" (as defined in Rule 53(a) under PUHCA) in all EWGs and FUCOs was approximately \$3.0 billion<sup>(a)</sup> and "consolidated retained earnings" (as defined in Rule 53(a) under PUHCA) was approximately \$1.5 billion. Accordingly, at March 31, 2005, Dominion's remaining investment capacity under the Modified Rule 53 Test was approximately \$3.5 billion.

B. Dominion has invested in the following new EWGs or FUCOs counting against its EWG/FUCO authority during the quarter:

In January 2005, Dominion completed the acquisition of three electric power generation facilities from USGen New England, Inc. The plants, collectively referred to as Dominion Energy New England (DENE), include the 1,521-megawatt Brayton Point Station in Somerset, Massachusetts; the 743-megawatt Salem Harbor Station in Salem, Massachusetts; and the 426-megawatt Manchester Street Station in Providence, Rhode Island. Dominion has an aggregate investment in DENE of \$655 million, which includes guarantees of \$3 million, at March 31, 2005.

C. At March 31, 2005, Dominion's consolidated capitalization ratio was: debt 61%, common equity 38%, and preferred securities of subsidiaries 1%. (For these purposes, "consolidated debt" means all long-term debt, long-term debt due within one year, notes payable and other short-term obligations, including any short-term debt and non-recourse debt of EWG/FUCO Projects, to the extent normally consolidated under applicable financial reporting rules.)

D. At March 31, 2005 the market-to-book ratio of Dominion's common stock was 2.4 to 1.

E. A breakdown showing Dominion's investment in each EWG and FUCO that count against the Modified Rule 53 Test is set forth in Exhibit A, which is being filed in paper format pursuant to a request for confidential treatment under Rule 104(b) of PUHCA.

F. Pursuant to a request for confidential treatment under Rule 104(b) of PUHCA, Dominion is concurrently filing in paper format as Exhibit A, total earnings growth by EWG and FUCO Projects for the quarter ending March 31, 2005, segregating total earnings growth of EWGs and FUCOs, if any, from that attributable to the other subsidiaries of Dominion.

G. Pursuant to a request for confidential treatment under Rule 104(b) of PUHCA, Dominion is concurrently filing in paper format as Exhibit A, net income and revenues of Dominion's EWG and FUCO Projects for the twelve months ending March 31, 2005.

---

<sup>(a)</sup> The amount of Dominion's "Aggregate Investment" excludes undistributed equity earnings and includes guarantees in the amount of \$1.1 billion.
