CINTAS CORPORATION
 NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS
 (Unaudited)

1. Basis of Presentation

The consolidated condensed financial statements of Cintas Corporation (Cintas, the Company, we, us or our) included herein have been prepared by Cintas, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and footnote disclosures normally included in consolidated financial statements prepared in accordance with U.S. generally accepted accounting principles (GAAP) have been condensed or omitted pursuant to such rules and regulations. While we believe that the disclosures are adequately presented, we suggest that these consolidated condensed financial statements be read in conjunction with the consolidated financial statements and notes included in our Annual Report on Form 10-K for the fiscal year ended May 31, 2018. A summary of our significant accounting policies is presented beginning on page 39 of that report. There have been no material changes in the accounting policies followed by Cintas during the current fiscal year other than the adoption of new accounting pronouncements discussed below.

Interim results are subject to variations and are not necessarily indicative of the results of operations for a full fiscal year. In the opinion of management, adjustments (which include only normal recurring adjustments) necessary for a fair statement of the consolidated results of the interim periods shown have been made.

On March 21, 2017, Cintas completed the acquisition of G&K Services, Inc. (G&K) for consideration of approximately \$2.1 billion. G&K is now a wholly-owned subsidiary of Cintas that operates within the Uniform Rental and Facility Services operating segment. To finance the G&K acquisition, Cintas used a combination of new senior notes, a term loan, other borrowings under its existing credit facility (see Note 7 entitled Debt, Derivatives and Hedging Activities for additional discussion related to debt obligations) and cash on hand. G&K's results of operations are included in Cintas' consolidated financial statements as of and from the date of acquisition.

During the three months ended August 31, 2017, Cintas sold a significant business, referred to as "Discontinued Services," and as a result, its operations are classified as discontinued operations for all periods presented. See Note 12 entitled Discontinued Operations for more information.

Inventories, net are measured at the lower of cost (first-in, first-out) or net realizable value. Inventory is comprised of the following amounts at:

(In thousands)	November 30, 2018	May 31, 2018
Raw materials	\$ 14,005	\$ 17,042
Work in process	32,420	27,350
Finished goods	275,449	235,955
	\$ 321,874	\$ 280,347

Inventories are recorded net of reserves for obsolete inventory of \$31.9 million and \$37.0 million at November 30, 2018 and May 31, 2018, respectively.

New Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update (ASU) 2014-09, "Revenue from Contracts with Customers (Topic 606)," to clarify revenue recognition principles. This guidance is intended to improve disclosure requirements and enhance the comparability of revenue recognition practices.

Improved disclosures under the amended guidance relate to the nature, amount, timing and uncertainty of revenue that is recognized from contracts with customers. We adopted ASU 2014-09, and all the related amendments, effective June 1, 2018 using the modified retrospective method. ASU 2014-09 requires a company to recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Upon adoption of ASU 2014-09, we recorded an adjustment to the opening balance of retained earnings as of June 1, 2018. The adjustment to retained earnings primarily relates to the capitalization of certain direct and incremental contract costs required by the new guidance. Capitalized costs are amortized ratably over the anticipated period of benefit. We applied ASU 2014-09 only to contracts that were not completed prior to fiscal 2019. Results for reporting periods beginning after May 31, 2018 are presented under ASU 2014-09, while comparative prior period amounts have not been restated and continue to be presented under accounting standards in effect in those periods.

There were two implementation adjustments upon adoption of ASU 2014-09: (1) capitalization of certain direct and incremental contract costs and (2) the timing of revenue recognition for certain contracts with customers that create an asset with no alternative use to the Company and an enforceable right of payment from the customer upon termination. Adoption of ASU 2014-09 impacted the Company's previously reported results as of May 31, 2018 as follows:

Capitalization of Contract Costs. The Company has elected to apply the guidance, as a practical expedient, to a portfolio of contracts (or performance obligations) with similar characteristics because the Company reasonably expects that the effects on the consolidated condensed financial statements of applying this guidance to the portfolio would not differ materially from applying this guidance to the individual contracts within the portfolio. The Company also continues to expense certain costs to obtain a contract if those costs do not meet the criteria of the new standard or the amortization period of the asset would have been one year or less.

Assets With No Alternative Use. For our Uniform Direct Sale business, our revenue, prior to the adoption of ASU 2014-09, was primarily generated from the sale of finished products to customers as products are shipped and title passes to the customers. For certain contracts with customers, the Company creates an asset with no alternative use to the Company, and the Company has an enforceable right to payment for performance completed to date. For these contracts, we have moved from a point-in-time model to an over-time model in which our measure of progress is finished goods with no alternative use in accordance with the provisions of ASU 2014-09. We expect ASU 2014-09 will have no cash impact and will not affect the economics of our underlying customer contracts.

The adoption of ASU 2014-09 had no impact to the Company's fiscal 2019 operating cash flow, and the only impact of the adoption on our fiscal 2019 consolidated condensed statement of comprehensive income was the impact to net income as presented in the table above.

In February 2016, the FASB issued ASU 2016-02, "Leases (Topic 842)," which sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract (i.e., lessees and lessors). The new standard requires lessees to apply a dual approach, classifying leases as either finance or operating leases based on the principle of whether or not the lease is effectively a financed purchase by the lessee. This classification will determine whether lease expense is recognized based on an effective interest method or on a straight-line basis over the term of the lease, respectively. A lessee is also required to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months regardless of their classification. Leases with a term of 12 months or less will be accounted for similar to existing guidance for operating leases today. The guidance also requires disclosures that meet the objective of enabling financial statement users to assess the amount, timing, and uncertainty of cash flows arising from leases. Topic 842 supersedes the previous leases standard, Accounting Standards Codification (ASC) 840, "Leases." This guidance is effective for reporting periods beginning after December 15, 2018, however, early adoption is permitted. Entities are required to use a modified retrospective approach for leases that exist or are entered into after the beginning of the earliest comparative period in the financial statements. Cintas will adopt this ASU on June 1, 2019 and we expect to elect the practical expedient which will allow us to not apply the amended lease accounting guidance to comparative periods that will be presented. The Company is implementing new lease systems in connection with the adoption and is also evaluating the impact that ASU 2016-02 will have on its consolidated condensed financial statements. The majority of our lease spend relates to certain real estate with the remaining lease spend primarily related to equipment. We currently expect the adoption of this standard to result in a material increase to the assets and liabilities on the consolidated balance sheets, but we do not expect a material impact on the consolidated condensed statements of income or consolidated condensed statements of cash flows.

In August 2016, the FASB issued ASU 2016-15, "Classification of Certain Cash Receipts and Cash Payments." ASU 2016-15 makes eight targeted changes to how certain cash receipts and cash payments are presented and classified in the statement of cash flows. ASU 2016-15 is effective for interim and annual reporting periods beginning after December 15, 2017, with early adoption permitted. The Company's adoption of this standard on June 1, 2018 did not have a material impact on its consolidated condensed statements of cash flows.

In January 2017, the FASB issued ASU 2017-04, "Simplifying the Test for Goodwill Impairment." ASU 2017-04 eliminates the two-step process that required identification of potential impairment and a separate measure of the actual impairment. Goodwill impairment charges, if any, would be determined by the difference between a reporting unit's carrying value and its fair value (impairment loss is limited to the carrying value). This standard is effective for annual or any interim goodwill impairment tests beginning after December 15, 2019. The adoption of this standard is not expected to have an impact on the consolidated condensed financial statements.

In February 2018, the FASB issued ASU 2018-02, "Income Statement - Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income." ASU 2018-02 allows entities to elect to reclassify the income tax effects resulting from the Tax Cuts and Jobs Act (the Tax Act) on items within accumulated other comprehensive income to retained earnings and requires additional related disclosures. This standard is effective for fiscal years beginning after December 15, 2018 and interim periods within those fiscal years, however, early adoption is permitted. Cintas is currently evaluating the impact that ASU 2018-02 will have on its consolidated condensed financial statements.

In August 2017, the FASB issued ASU 2017-12, "Targeted Improvements to Accounting for Hedging Activities." ASU 2017-12 better aligns an entity's risk management activities and financial reporting for hedging relationships through changes to both the designation and measurement guidance for qualifying hedging relationships and the presentation of hedge results. Among other amendments, the update allows entities to designate the variability in cash flows attributable to changes in a contractually specified component stated in the contract as the hedged risk in a cash flow hedge of a forecasted purchase or sale of a nonfinancial asset. This standard is effective for annual periods beginning after December 15, 2018. We adopted the standard effective as of June 1, 2018, and the effect of adoption of this

standard did not have a material impact to our consolidated condensed financial statements.

No other new accounting pronouncement recently issued or newly effective had or is expected to have a material impact on Cintas' consolidated condensed financial statements.

2. Revenue Recognition

The following table presents Cintas' total revenue disaggregated by service type:

(In thousands)	Three Months Ended				Six Months Ended

For the three and six months ended November 30, 2018, the percentage of revenue recognized over time as the services are performed was 94.7% and 95.2%, respectively, of Uniform Rental and Facility Services revenue, 90.8% and 90.8%, respectively, of First Aid and Safety Services revenue and 100% and 100%, respectively, of Fire Protection Services revenue. During the same periods, the Uniform Direct Sales business unit recognized 96.7% and 96.4%, respectively, of revenue at a point in time, which generally occurs when the goods are transferred to the customer. Fire Protection Services and Uniform Direct Sales are recorded within the All Other reportable segment disclosed in Note 11 entitled Segment Information.

Revenue Recognition Policy

More than 95% of the Company's revenues are derived from fees for route servicing of Uniform Rental and Facility Services, First Aid and Safety Services and Fire Protection Services, performed by a Cintas employee-partner, at the customer's location of business. Revenues from our route servicing customer contracts represent a single-performance obligation. The Company recognizes these revenues over time as services are performed based on the nature of services provided and contractual rates (input method). The Company's remaining revenues, primarily within the Uniform Direct Sales operating segment, and representing less than 5% of the Company's total revenues, are recognized when the obligations under the terms of a contract with a customer are satisfied. This generally occurs when the goods are transferred to the customer.

Certain of our customer contracts, primarily within our Uniform Direct Sales business, include pricing terms and conditions that include components of variable consideration. The variable consideration is typically in the form of consideration paid to a customer based on performance metrics specified within the contract. Specifically, some contracts contain discounts or rebates that the customer can earn through the achievement of specified volume levels. Each component of variable consideration is earned based on the Company's actual performance during the measurement period specified within the contract. To determine the transaction price, the Company estimates the variable consideration using the most likely amount method, based on the specific contract provisions and known performance results during the relevant measurement period. When determining if variable consideration should be constrained, the Company considers whether factors outside its control could result in a significant reversal of revenue. In making these assessments, the Company considers the likelihood and magnitude of a potential reversal. The Company's performance period generally corresponds with the monthly invoice period. No constraints on our revenue recognition were applied during the three or six months ended November 30, 2018. The Company reassesses these estimates during each reporting period. Cintas maintains a liability for these discounts and rebates within accrued liabilities on the consolidated condensed balance sheets. Variable consideration also includes consideration paid to a customer at the beginning of a contract. Cintas capitalizes this consideration and amortizes it over the life of

the contract as a reduction to revenue in accordance with ASC 606. These assets are included in Other Assets, net on the consolidated condensed balance sheet.

Additionally, in accordance with ASC 606, certain Uniform Direct Sales customer contracts contain a provision with an enforceable right of payment and the underlying product has no alternative use to Cintas. Consequently, when both aforementioned provisions are prevalent in a customer contract, the revenue is recorded for finished goods that the customer is obligated to purchase under the termination terms of the contract.

Costs to Obtain a Contract

The Company capitalizes commission expenses paid to our employee-partners when the commissions are deemed to be incremental for obtaining the route servicing customer contract. The deferred commissions are amortized on a straight-line basis over the expected period of benefit. We review the deferred commission balances for impairment on an ongoing basis. Deferred commissions are classified as current or noncurrent based on the timing of when we expect to recognize the expense. The current portion is included in prepaid expenses and other current assets and the noncurrent portion is included in other assets, net on the Company's consolidated condensed balance sheets. As of November 30, 2018, the current and noncurrent assets related to deferred commissions totaled \$67.0 million and \$199.7 million, respectively. We recorded amortization expense related to deferred commissions of \$17.6 million and \$34.7 million during the three and six months ended November 30, 2018, respectively. These expenses are classified in selling and administrative expense on the consolidated condensed statements of income.

3. Fair Value Measurements

All financial instruments that are measured at fair value on a recurring basis have been classified within the most appropriate level within the fair value hierarchy based on the inputs used to determine the fair value at the consolidated condensed balance sheet date. These financial instruments measured at fair value on a recurring basis are summarized below:

(In thousands)	As of November 30, 2018			
	Level 1	Level 2	Level 3	Fair Value
Cash and cash equivalents	\$88,479	\$—	\$—	—\$88,479
Other assets, net:				
Interest rate lock agreements	—	2,307	—	2,307
Total assets at fair value	\$88,479	\$2,307	\$—	—\$90,786

(In thousands)	As of May 31, 2018			
	Level 1	Level 2	Level 3	Fair Value
Cash and cash equivalents	\$138,724	\$—	\$—	—\$138,724
Total assets at fair value	\$138,724	\$—	\$—	—\$138,724

Cintas' cash and cash equivalents and marketable securities are generally classified within Level 1 or Level 2 of the fair value hierarchy. Financial instruments classified as Level 1 are based on quoted market prices in active markets, and financial instruments classified as Level 2 are based on quoted market prices, broker or dealer quotations or alternative pricing sources with reasonable levels of price transparency. The types of financial instruments Cintas classifies within Level 1 include most bank deposits and money market securities. Cintas does not adjust the quoted market price for such financial instruments.

Interest, realized gains and losses and declines in value determined to be other than temporary on available-for-sale securities are included in interest income or expense. The cost of the securities sold is based on the specific identification method. There were no outstanding marketable securities as of November 30, 2018 or May 31, 2018.

As of November 30, 2018, other assets included the fair value of outstanding interest rate lock agreements. The fair values of Cintas' interest rate lock agreements are based on similar exchange traded derivatives (market approach) and are, therefore, included within Level 2 of the fair value hierarchy. The fair value was determined by comparing the locked rates against the benchmarked treasury rate.

The methods described above may produce a fair value that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while Cintas believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the consolidated condensed balance sheet dates.

In addition to assets and liabilities that are recorded at fair value on a recurring basis, the Company records assets and liabilities at fair value on a nonrecurring basis as required under GAAP.

4. Investments

Investments at November 30, 2018 of \$183.5 million include the cash surrender value of insurance policies of \$165.4 million, equity method investments of \$16.9 million and cost method investments of \$1.2 million. Investments at May 31, 2018 of \$175.6 million include the cash surrender value of insurance policies of \$154.0 million, equity method investments of \$16.4 million and cost method investments of \$5.2 million. Investments are generally evaluated for impairment on an annual basis or when indicators of impairment exist. For the six months ended November 30, 2018 and 2017, no impairment losses were recorded.

During the three months ended November 30, 2018, Cintas sold a cost method investment to a third party. Proceeds from the sale were \$73.3 million, which resulted in a pre-tax gain of \$69.4 million.

5. Earnings Per Share

Both basic and diluted loss per share from discontinued operations were \$0.01 for the three months ended November 30, 2017. For the six months ended November 30, 2017, basic and diluted earnings per share from discontinued operations were \$0.51 and \$0.50, respectively.

For the three months ended November 30, 2018 and 2017, options granted to purchase 0.4 million and 0.5 million shares of Cintas common stock, respectively, were excluded from the computation of diluted earnings per share. For the six months ended November 30, 2018 and 2017, options granted to purchase 0.4 million and 0.6 million shares of Cintas common stock, respectively, were excluded from the computation of diluted earnings per share. The exercise prices of these options were greater than the average market price of the common stock (anti-dilutive).

On August 2, 2016, Cintas announced that the Board of Directors authorized a \$500.0 million share buyback program, which does not have an expiration date. The August 2, 2016 share buyback program was completed during the second quarter of fiscal 2019. From the inception of the August 2, 2016 share buyback program through November 2018, Cintas purchased a total of 2.6 million shares of Cintas common stock at an average price of \$188.82 per share for a total purchase price of \$500.0 million. On October 30, 2018, we announced that the Board of Directors authorized a new \$1.0 billion share buyback program, which does not have an expiration date. The following table summarizes the buyback activity by program and fiscal period.

(In thousands except per share data)	Three Months Ended			Six Months Ended

From the inception of the October 30, 2018 share buyback program through January 8, 2019, Cintas has purchased a total of 0.8 million shares of Cintas common stock at an average price of \$170.87 for a total purchase price of \$136.6 million.

For the three months ended November 30, 2018, Cintas acquired less than 0.1 million shares of Cintas common stock for employee payroll taxes dues on restricted stock awards that vested during the three months ended November 30, 2018. These shares were acquired at an average price of \$194.14 per share for a total purchase price of \$0.4 million. During the six months ended November 30, 2018, Cintas acquired 0.3 million shares of Cintas common stock for employee payroll taxes due on restricted stock awards that vested during the six months ended November 30, 2018. These shares were acquired at an average price of \$204.32 per share for a total purchase price of \$61.5 million.

⁽¹⁾ Variable rate debt instrument. The rate presented is the variable borrowing rate at November 30, 2018.

⁽²⁾ Cintas assumed these senior notes with the acquisition of G&K in the fourth quarter of fiscal 2017, and they were recorded at fair value. The interest rate shown above is the effective interest rate. The principal amount of these notes is \$50.0 million with a stated interest rate of 3.73%.

⁽³⁾ Cintas assumed these senior notes with the acquisition of G&K in the fourth quarter of fiscal 2017, and they were recorded at fair value. The interest rate shown above is the effective interest rate. The principal amount of these notes is \$50.0 million with a stated interest rate of 3.88%.

Cintas' senior notes, excluding the G&K senior notes assumed with the acquisition of G&K in fiscal 2017, are recorded at cost, net of debt issuance costs. The fair value of the long-term debt is estimated using Level 2 inputs based on general market prices. The carrying value and fair value of Cintas' debt as of November 30, 2018 were \$2,723.5 million and \$2,715.0 million, respectively, and as of May 31, 2018 were \$2,550.0 million and \$2,582.0 million, respectively. During the six months ended November 30, 2018, Cintas issued \$173.5 million, net of commercial paper.

The credit agreement that supports our commercial paper program was amended on September 16, 2016. The amendment increased the capacity of the revolving credit facility from \$450.0 million to \$600.0 million and added a \$250.0 million term loan facility. The credit agreement has an accordion feature that provides Cintas the ability to request increases to the borrowing commitments under either the revolving credit facility or a new term loan of up to \$250.0 million in the aggregate, subject to customary conditions. The maturity date of the credit agreement is September 15, 2021. As of November 30, 2018, there was \$173.5 million of commercial paper outstanding with a weighted average interest rate of 2.60% and maturity dates less than 30 days and no borrowings on our revolving credit facility. As of May 31, 2018, there was no commercial paper outstanding and no borrowings on our revolving credit facility.

Cintas uses interest rate locks to manage our overall interest expense as interest rate locks effectively change the interest rate of specific debt issuances. The interest rate locks are entered into to protect against unfavorable movements in the benchmark treasury rate related to forecasted debt issuances. Cintas used interest rate lock

agreements to hedge against movements in the treasury rates at the time Cintas issued its senior notes in fiscal 2007, fiscal 2012, fiscal 2013 and fiscal 2017. The amortization of the cash flow hedges resulted in a decrease to other comprehensive income of \$0.3 million and \$0.1 million for the three months ended November 30, 2018 and 2017, respectively. For the six months ended November 30, 2018 and 2017, the amortization of the cash flow hedges resulted in a decrease to other comprehensive income of \$0.6 million and \$0.3 million, respectively. During the first quarter of fiscal 2019, Cintas entered into interest rate lock agreements with a notional value of \$500.0 million for a forecasted debt issuance. As of November 30, 2018, the fair value of these interest rate locks was an asset of \$2.3 million recorded in other assets and in other comprehensive income, net of tax. The interest rate locks had no impact on net income or cash flows from continuing operations for the three and six months ended November 30, 2018.

Cintas has certain covenants related to debt agreements. These covenants limit Cintas' ability to incur certain liens, to engage in sale-leaseback transactions and to merge, consolidate or sell all or substantially all of Cintas' assets. These covenants also require Cintas to maintain certain debt to consolidated earnings before interest, taxes, depreciation and amortization (EBITDA) and interest coverage ratios. Cross-default provisions exist between certain debt instruments. If a default of a significant covenant were to occur, the default could result in an acceleration of the maturity of the indebtedness, impair liquidity and limit the ability to raise future capital. Cintas was in compliance with all debt covenants for all periods presented.

8. Income Taxes

In the normal course of business, Cintas provides for uncertain tax positions and the related interest and adjusts its unrecognized tax benefits and accrued interest accordingly. As of November 30, 2018 and May 31, 2018, recorded unrecognized tax benefits were \$28.8 million and \$26.9 million, respectively, and are included in long-term accrued liabilities on the consolidated condensed balance sheet.

The majority of Cintas' operations are in North America. Cintas is required to file federal income tax returns, as well as state income tax returns in a majority of the domestic states and also in certain Canadian provinces. At times, Cintas is subject to audits in these jurisdictions. The audits, by nature, are sometimes complex and can require several years to resolve. The final resolution of any such tax audit could result in either a reduction in Cintas' accruals or an increase in its income tax provision, either of which could have an impact on the consolidated condensed results of operations in any given period.

All U.S. federal income tax returns are closed to audit through fiscal 2014. Cintas is currently in various audits in certain foreign jurisdictions and certain domestic states. The years under foreign and domestic state audits cover fiscal years back to 2013. Based on the resolution of the various audits and other potential regulatory developments, it is reasonably possible that the balance of unrecognized tax benefits would not change for the fiscal year ending May 31, 2019.

On December 22, 2017, the President signed into legislation the Tax Act. Among other changes, the Tax Act reduces the U.S. corporate tax rate from 35% to 21% and requires companies to pay a one-time transition tax on earnings of foreign subsidiaries. The Tax Act also includes provisions that are expected to offset some of the benefit of the U.S. corporate tax rate reduction, including the repeal of the deduction for domestic production activities and the expansion of the limitation on the deduction of certain executive compensation. In addition, the Tax Act alters the landscape of taxation of non-U.S. operations and provides immediate deductions for certain new investments, among other provisions.

In acknowledgment of the substantial changes incorporated in the Tax Act, and with the timing of the enactment being just weeks before the majority of the provisions became effective, the SEC staff issued Staff Accounting Bulletin (SAB) 118 to provide certain guidance in determining the accounting for income tax effects of the legislation in the accounting period of enactment as well as provide a measurement period within which to finalize and reflect such final effects associated with the Tax Act. During the first quarter of fiscal 2019, Cintas recorded an adjustment to the provisional transition tax, net of foreign tax credits, of \$3.3 million. Cintas is still revising the transition tax calculation, and this amount is subject to change based on computation of the final fiscal 2018 earnings and profit and the amounts held in cash and cash equivalents at the end of fiscal 2018. There were no provisional adjustments recorded during the three months ended November 30, 2018. Cintas also analyzed the impact of the new provisions under the Tax Act surrounding executive compensation, the foreign derived intangible income deduction and global intangible low-taxed income and determined that the impact was immaterial for the three and six months ended November 30, 2018.

Cintas' effective tax rate for continuing operations was 24.2% and 33.3% for the three months ended November 30, 2018 and 2017, respectively. For the six months ended November 30, 2018 and 2017, Cintas' effective tax rate for continuing operations was 18.9% and 29.8%, respectively. The effective tax rate for all periods was largely impacted by certain discrete items (primarily the tax accounting for stock-based compensation). The three and six-month periods ended November 30, 2018 were also impacted by the reduced U.S. corporate tax rate as a result of the enactment of the Tax Act.

9. Pension Plans

In conjunction with the acquisition of G&K in fiscal 2017, Cintas assumed G&K's noncontributory frozen defined benefit pension plan (the Pension Plan) that covers substantially all G&K employees who were employed as of July 1, 2005, except certain employees who were covered by union-administered plans. Benefits are based on the number of years of service and each employee's compensation near retirement. We will make annual contributions to the Pension Plan consistent with federal funding requirements. The Pension Plan was frozen by G&K effective December 31, 2006. Future growth in benefits will not occur beyond this date. Applicable accounting standards require that the consolidated condensed balance sheet reflect the funded status of the Pension Plan. The funded status of the Pension Plan is measured as the difference between the plan assets at fair value and the projected benefit obligation. The net pension liability is included in long-term accrued liabilities on the consolidated condensed balance sheets. Unrecognized differences between actual amounts and estimates based on actuarial assumptions are included in accumulated other comprehensive income in our consolidated condensed balance sheets. CINTAS CORPORATION

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

BUSINESS STRATEGY

Cintas helps more than one million businesses of all types and sizes, primarily in North America, as well as Latin America, Europe and Asia, get Ready™ to open their doors with confidence every day by providing a wide range of products and services that enhance our customers' image and help keep their facilities and employees clean, safe and looking their best. With products and services including uniforms, floor care, restroom supplies, first aid and safety products, fire extinguishers and testing, and safety and compliance training, Cintas helps customers get Ready for the Workday™.

We are North America's leading provider of corporate identity uniforms through rental and sales programs, as well as a significant provider of related business services, including entrance mats, restroom cleaning services and supplies, carpet and tile cleaning services, first aid and safety services and fire protection products and services.

Cintas' principal objective is "to exceed customers' expectations in order to maximize the long-term value of Cintas for shareholders and working partners," and it provides the framework and focus for Cintas' business strategy. This strategy is to achieve revenue growth for all of our products and services by increasing our penetration at existing customers and by broadening our customer base to include business segments to which we have not historically served. We will also continue to identify additional product and service opportunities for our current and future customers.

To pursue the strategy of increasing penetration, we have a highly talented and diverse team of service professionals visiting our customers on a regular basis. This frequent contact with our customers enables us to develop close personal relationships. The combination of our distribution system and these strong customer relationships provides a platform from which we launch additional products and services.

We pursue the strategy of broadening our customer base in several ways. Cintas has a national sales organization introducing all of its products and services to prospects in all business segments. Our broad range of products and services allows our sales organization to consider any type of business a prospect. We also broaden our customer base through geographic expansion, especially in our first aid and safety service reportable operating segment and fire protection businesses. Finally, we evaluate strategic acquisitions as opportunities arise.

RESULTS OF OPERATIONS

Cintas classifies its business into two reportable operating segments and places the remainder of its operating segments in an All Other category. Cintas' two reportable operating segments are Uniform Rental and Facility Services and First Aid and Safety Services. The Uniform Rental and Facility Services operating segment consists of the rental and servicing of uniforms and other garments including flame resistant clothing, mats, mops, and shop towels and other ancillary items. In addition to these rental items, restroom cleaning services and supplies and carpet and tile cleaning services are also provided within this operating segment. The First Aid and Safety Services operating segment consists of first aid and safety services. The remainder of Cintas' business, which consists of Fire Protection Services and its Uniform Direct Sale business, is included in All Other. These operating segments consist of fire protection products and services and the direct sale of uniforms and related items. Revenue and income before income taxes for the three and six months ended November 30, 2018 and 2017 for the two reportable operating segments and All Other is presented in Note 11 entitled Segment Information of "Notes to Consolidated Condensed Financial Statements."

On March 21, 2017, Cintas completed the acquisition of G&K Services, Inc. (G&K) for consideration of approximately \$2.1 billion. G&K is now a wholly-owned subsidiary of Cintas that operates within the Uniform Rental and Facility Services operating segment. To finance the G&K acquisition, Cintas used a combination of new senior notes, a term loan, other borrowings under its existing credit facility and cash on hand. G&K's results of operations are included in Cintas' consolidated financial statements as of and from the date of acquisition.

During the first quarter of fiscal 2018, Cintas sold a significant business, referred to as "Discontinued Services," and as a result, its operations are classified as discontinued operations for all periods presented. See Note 12 entitled Discontinued Operations of "Notes to Consolidated Condensed Financial Statements" for more information.

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update (ASU) 2014-09, "Revenue from Contracts with Customers (Topic 606)," to clarify revenue recognition principles. This guidance is intended to improve disclosure requirements and enhance the comparability of revenue recognition practices. Cintas adopted this ASU, and all the related amendments, effective June 1, 2018 using the modified retrospective method. See Note 1 entitled Basis of Presentation and Note 2 entitled Revenue Recognition of "Notes to Consolidated Condensed Financial Statements" for more information.

Consolidated Results

Three Months Ended November 30, 2018 Compared to Three Months Ended November 30, 2017

Total revenue increased 7.0% for the three months ended November 30, 2018 over the same period in the prior fiscal year, from \$1,606.4 million to \$1,718.3 million. Revenue increased organically by 7.0% as a result of increased sales volume. Organic growth adjusts for the impact of acquisitions and foreign currency exchange rate fluctuations. Total revenue was positively impacted by 0.3% due to acquisitions and negatively impacted by 0.3% due to foreign currency exchange rate fluctuations.

Uniform Rental and Facility Services reportable operating segment revenue increased 6.3% for the three months ended November 30, 2018 over the same period in the prior fiscal year, from \$1,308.0 million to \$1,390.8 million. Revenue increased organically by 6.6%. Revenue growth was negatively impacted by 0.3% due to foreign currency exchange rate fluctuations. Growth was driven by many factors including new business sold by sales representatives, penetration of additional products and services into existing customers and strong customer retention.

Other revenue, consisting of revenue from the First Aid and Safety Services reportable operating segment and All Other, increased 9.7% for the three months ended November 30, 2018 compared to the same period in the prior fiscal year, from \$298.4 million to \$327.5 million. Revenue increased organically by 8.4%. Revenue growth was positively impacted by 1.4% due to growth derived through acquisitions in our Fire Protection business, which is included in All Other, and our First Aid and Safety Services reportable operating segment and negatively impacted by 0.1% due to foreign currency exchange rate fluctuations.

Cost of uniform rental and facility services consists primarily of production expenses, delivery expenses and the amortization of in service inventory, including uniforms, mats, shop towels and other ancillary items. Cost of uniform rental and facility services increased \$37.2 million, or 5.1%, for the three months ended November 30, 2018, compared to the three months ended November 30, 2017. This increase was due to higher Uniform Rental and Facility Services reportable operating segment sales volume.

Cost of other consists primarily of cost of goods sold (predominantly first aid and safety products, uniforms, and fire protection products), delivery expenses and distribution expenses in the First Aid and Safety Services reportable operating segment and All Other. Cost of other increased \$15.9 million, or 9.6%, for the three months ended November 30, 2018, compared to the three months ended November 30, 2017. The increase was primarily due to higher sales volume in the First Aid and Safety Services reportable operating segment and All Other.

Selling and administrative expenses increased \$23.6 million, or 5.0%, for the three months ended November 30, 2018, compared to the same period in the prior fiscal year. The majority of the increase was due to higher Uniform Rental and Facility Services and First Aid and Safety Services reportable operating segment sales volume, as well as

increased employee-partner related expenses.

Operating income for the three months ended November 30, 2018 was negatively impacted by \$7.8 million of integration expenses incurred in connection with the G&K acquisition. For the three months ended November 30, 2018, the after-tax effect of these integration expenses represents a negative impact of \$0.05 per share on diluted earnings per share.

During the three months ended November 30, 2018, Cintas sold a cost method investment for \$73.3 million, resulting in a pre-tax gain of \$69.4 million. For the three months ended November 30, 2018, the after-tax effect of the gain represents a positive impact of \$0.47 per share on diluted earnings per share.

Net interest expense (interest expense less interest income) was \$24.5 million for the three months ended November 30, 2018, compared to \$28.8 million for the three months ended November 30, 2017. The decrease was primarily due to lower debt outstanding during the current period as a result of the payment of \$300.0 million aggregate principal amount of our 6.13% 10-year senior notes that matured on December 1, 2017. Also, during the second quarter of the prior year, Cintas made payments of \$7.5 million, net on commercial paper borrowings.

Cintas' effective tax rate for continuing operations was 24.2% and 33.3% for the three months ended November 30, 2018 and 2017, respectively. The effective tax rate for both periods was largely impacted by certain discrete items (primarily the tax accounting for stock-based compensation). The three-month period ended November 30, 2018 was also impacted by the reduced U.S. corporate tax rate as a result of the enactment of the Tax Cuts and Jobs Act (the Tax Act).

Net income from continuing operations for the three months ended November 30, 2018 increased \$105.3 million, or 76.4%, compared to the three months ended November 30, 2017. Diluted earnings per share from continuing operations was \$2.18 for the three months ended November 30, 2018, which was an increase of 75.8% compared to the same period in the prior fiscal year. Diluted earnings per share from continuing operations increased due to the increase in earnings from continuing operations.

Uniform Rental and Facility Services Reportable Operating Segment

Three Months Ended November 30, 2018 Compared to Three Months Ended November 30, 2017

Uniform Rental and Facility Services reportable operating segment revenue increased from \$1,308.0 million to \$1,390.8 million, or 6.3%, for the three months ended November 30, 2018, over the same period in the prior fiscal year, and the cost of uniform rental and facility services increased \$37.2 million, or 5.1%. Revenue increased organically by 6.6%. The reportable operating segment's gross margin was \$629.7 million, or 45.3% of revenue. The gross margin was 60 basis points higher than the prior fiscal year's second quarter gross margin of 44.7%. The increase was driven by lower production related supplies expenses and improvements in process efficiency.

Selling and administrative expenses increased \$11.7 million, but decreased as a percent of revenue to 27.2%, compared to 28.1% in the second quarter of the prior fiscal year. The decrease was primarily due to lower labor and employee-partner related expenses as a percent of revenue.

Income before income taxes increased \$39.1 million, or 19.2%, for the Uniform Rental and Facility Services reportable operating segment for the three months ended November 30, 2018 compared to the same period in the prior fiscal year. Cash flows provided by operating activities have historically supplied us with a significant source of liquidity. We generally use these cash flows to fund most, if not all, of our operations and expansion activities and dividends on our common stock. We may also use cash flows provided by operating activities, as well as proceeds from long-term debt and short-term borrowings, to fund growth and expansion opportunities, as well as other cash requirements such as the repurchase of our common stock and payment of long-term debt.

Net cash provided by operating activities was \$344.6 million for the six months ended November 30, 2018, a decrease of \$34.4 million compared to the six months ended November 30, 2017. The decrease was primarily the result of changes in working capital, which were partially offset by an increase in net income.

Net cash used in investing activities includes capital expenditures, proceeds from the sale of investments and businesses and cash paid for acquisitions of businesses. Capital expenditures were \$137.6 million and \$132.5 million for the six months ended November 30, 2018 and 2017, respectively. ⁽¹⁾ Variable rate debt instrument. The rate presented is the variable borrowing rate at November 30, 2018.

⁽²⁾ Cintas assumed these senior notes with the acquisition of G&K in the fourth quarter of fiscal 2017, and they were recorded at fair value. The interest rate shown above is the effective interest rate. The principal amount of these notes is \$50.0 million with a stated interest rate of 3.73%.

⁽³⁾ Cintas assumed these senior notes with the acquisition of G&K in the fourth quarter of fiscal 2017, and they were recorded at fair value. The interest rate shown above is the effective interest rate. The principal amount of these notes is \$50.0 million with a stated interest rate of 3.88%.

The credit agreement that supports our commercial paper program was amended on September 16, 2016. The amendment increased the capacity of the revolving credit facility from \$450.0 million to \$600.0 million and added a

\$250.0 million term loan facility. The credit agreement has an accordion feature that provides Cintas the ability to request increases to the borrowing commitments under either the revolving credit facility or a new term loan of up to \$250.0 million in the aggregate, subject to customary conditions. The maturity date of the credit agreement is September 15, 2021. As of November 30, 2018, there was \$173.5 million commercial paper outstanding and no borrowings on our revolving credit facility. As of May 31, 2018, there was no commercial paper outstanding and no borrowings on our revolving credit facility.

Cintas has certain covenants related to debt agreements. These covenants limit our ability to incur certain liens, to engage in sale-leaseback transactions and to merge, consolidate or sell all or substantially all of Cintas' assets. These covenants also require Cintas to maintain certain debt to earnings before interest, taxes, depreciation and amortization (EBITDA) and interest coverage ratios. Cross-default provisions exist between certain debt instruments. If a default of a significant covenant were to occur, the default could result in an acceleration of the maturity of the indebtedness, impair liquidity and limit the ability to raise future capital. As of November 30, 2018, Cintas was in compliance with all debt covenants.

Our access to the commercial paper and long-term debt markets has historically provided us with sources of liquidity. We do not anticipate having difficulty in obtaining financing from those markets in the future in view of our favorable experiences in the debt markets in the recent past. Our ability to continue to access the commercial paper and long-term debt markets on favorable interest rate and other terms will depend, to a significant degree, on the ratings assigned by the credit rating agencies to our indebtedness. As of November 30, 2018, our ratings were as follows:

Rating Agency	Outlook	Commercial Paper	Long-term Debt
Standard & Poor's	Positive	A-2	BBB+
Moody's Investors Service	Stable	P-2	A3

In the event that the ratings of our commercial paper or our outstanding long-term debt issues were substantially lowered or withdrawn for any reason, or if the ratings assigned to any new issue of long-term debt securities were significantly lower than those noted above, particularly if we no longer had investment grade ratings, our ability to access the debt markets may be adversely affected. In addition, in such a case, our cost of funds for new issues of commercial paper and long-term debt would be higher than our cost of funds would have been had the ratings of those new issues been at or above the level of the ratings noted above. The rating agency ratings are not recommendations to buy, sell or hold our commercial paper or debt securities. Each rating may be subject to revision or withdrawal at any time by the assigning rating organization and should be evaluated independently of any other rating. Moreover, each credit rating is specific to the security to which it applies.

To monitor our credit rating and our capacity for long-term financing, we consider various qualitative and quantitative factors. One such factor is the ratio of our total debt to EBITDA. For the purpose of this calculation, debt is defined as the sum of short-term borrowings, long-term debt due within one year, obligations under capital leases due in one year, long-term debt and long-term obligations under capital leases.
