NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollar and share amounts in millions except per share, per option and per unit amounts)

(Unaudited)

NOTE 1: BASIS OF PRESENTATION

The accompanying condensed consolidated financial statements include the balances of Nordstrom, Inc. and its subsidiaries (the "Company"). All intercompany transactions and balances are eliminated in consolidation. The interim condensed consolidated financial statements have been prepared on a basis consistent in all material respects with the accounting policies described and applied in our 2014 Annual Report on Form 10-K ("Annual Report"), and reflect all adjustments of a normal recurring nature that are, in management's opinion, necessary for the fair presentation of the results of operations, financial position and cash flows for the periods presented.

The condensed consolidated financial statements as of and for the periods ended May 2, 2015 and May 3, 2014 are unaudited. The condensed consolidated balance sheet as of January 31, 2015 has been derived from the audited consolidated financial statements included in our 2014 Annual Report. The interim condensed consolidated financial statements should be read together with the consolidated financial statements and related footnote disclosures contained in our 2014 Annual Report.

The preparation of our financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and disclosure of contingent assets and liabilities. We base our estimates on historical experience and other assumptions that we believe to be reasonable under the circumstances. Actual results may differ from these estimates and assumptions.

Our business, like that of other retailers, is subject to seasonal fluctuations. Due to our Anniversary Sale in July and the holidays in the fourth quarter, our sales are typically higher in the second and fourth quarters than in the first and third quarters of the fiscal year. Results for any quarter are not necessarily indicative of the results that may be achieved for a full fiscal year.

NOTE 2: TRUNK CLUB ACQUISITION

On August 22, 2014, we acquired 100% of the outstanding equity of Trunk Club, a personalized clothing service for men. The purchase price of \$357 was partially offset by \$46 attributable to Trunk Club employee stock awards that are subject to ongoing vesting requirements and are recorded as compensation expense. Of the purchase price consideration, \$35 represents an indemnity holdback that will be settled primarily in Nordstrom stock, most of which we expect to settle in the third quarter of fiscal 2015, upon satisfaction of the representations, warranties and covenants subject to the indemnities. We allocated the net purchase price of \$311 to the tangible and intangible assets acquired and liabilities assumed based on their estimated fair values on the acquisition date, with the remaining unallocated net purchase price recorded as goodwill. On the acquisition date, we recorded current assets of \$21, intangible assets of \$59, goodwill of \$261, and other non-current assets of \$2, offset by net liabilities of \$32.

NOTE 3: ACCOUNTS RECEIVABLE

The components of accounts receivable are as follows:

Under certain circumstances, we may make modifications to payment terms for a customer experiencing financial difficulties in an effort to help the customer avoid a charge-off or bankruptcy and to maximize our recovery of the outstanding balance. These modifications, which meet the accounting definition of troubled debt restructurings ("TDRs"), include reduced or waived fees and finance charges, and/or reduced minimum payments. Receivables classified as TDRs are as follows:

	May 2, 2015	January 31, 2015	May 3, 2014
Credit card receivables classified as TDRs	\$32	\$34	\$40
Percent of total credit card receivables classified as TDRs	1.4	% 1.5	% 1.9

Credit Quality

The primary indicators of the credit quality of our credit card receivables are aging and delinquency, particularly the levels of account balances delinquent 30 days or more, as these are the accounts most likely to be written off. The following table illustrates the aging and delinquency status of our credit card receivables:

	May 2, 2015		January 31, 2015		May 3, 2014	
	Balance	% of total	Balance	% of total	Balance	% of total

We also evaluate credit quality using FICO credit scores. The following table illustrates the distribution of our credit card receivables across FICO score ranges:

FICO Score Range ¹	May 2, 2015		January 31, 2015		May 3, 2014

Credit Facilities

As of May 2, 2015, we had total short-term borrowing capacity available for general corporate purposes of \$800. In April 2015, we terminated our \$800 senior unsecured revolving credit facility that was scheduled to expire in March 2018. We replaced this with a new five-year \$800 senior unsecured revolving credit facility ("revolver") that expires in April 2020, with an option to extend for an additional two years. Under the terms of our new revolver, we pay a variable rate of interest and a commitment fee based on our debt rating. The new revolver is available for working capital, capital expenditures and other general corporate purposes. During the first quarter ended 2015, we had no issuances under our commercial paper program and no borrowings under our revolver.

The new revolver requires that we maintain an adjusted debt to earnings before interest, income taxes, depreciation, amortization and rent ("EBITDAR") leverage ratio of less than four times. As of May 2, 2015 and May 3, 2014, we were in compliance with this covenant.

If our U.S. Visa and private label credit card portfolio transaction is consummated, we will be required to pay off the \$325 secured Series 2011-1 Class A Notes to provide the receivables free and clear. See Note 11: Subsequent Event for an update with regard to this transaction.

NOTE 5: FAIR VALUE MEASUREMENTS

We disclose our financial assets and liabilities that are measured at fair value in our Condensed Consolidated Balance Sheets by level within the fair value hierarchy as defined by applicable accounting standards:

Level 1: Quoted market prices in active markets for identical assets or liabilities

Level 2: Other observable market-based inputs or unobservable inputs that are corroborated by market data

Level 3: Unobservable inputs that cannot be corroborated by market data that reflect the reporting entity's own assumptions

We did not have any financial assets or liabilities that were measured at fair value on a recurring basis as of May 2, 2015, January 31, 2015 or May 3, 2014.

Financial instruments not measured at fair value on a recurring basis include cash and cash equivalents, accounts receivable and accounts payable and approximate fair value due to their short-term nature. We estimate the fair value of our long-term debt using quoted market prices of the same or similar issues and, as such, this is considered a Level 2 fair value measurement. The following table summarizes the carrying value and fair value estimate of our long-term debt, including current maturities:

	May 2, 2015	January 31, 2015	May 3, 2014
Carrying value of long-term debt ¹	\$3,146	\$3,131	\$3,117
Fair value of long-term debt	3,606	3,693	3,547

¹ The carrying value of long-term debt includes the remaining unamortized adjustment from our previous effective fair value hedge.

We also measure certain non-financial assets at fair value on a nonrecurring basis, primarily goodwill and long-lived tangible and intangible assets, in connection with periodic evaluations for potential impairment. We recorded no material impairment charges for these assets for the quarters ended May 2, 2015 and May 3, 2014. We estimate the fair value of goodwill and long-lived tangible and intangible assets using primarily unobservable inputs and, as such, these are considered Level 3 fair value measurements.

NOTE 6: COMMITMENTS AND CONTINGENT LIABILITIES

Plans for our Manhattan full-line store, which we currently expect to open in late 2018 to 2019, ultimately include owning a condominium interest in a mixed-use tower and leasing certain nearby properties. As of May 2, 2015, we had approximately \$125 of fee interest in land, which is expected to convert to the condominium interest once the store is constructed. We have committed to make future installment payments based on the developer meeting pre-established construction and development milestones. In the unlikely event that this project is not completed, the opening may be delayed and we may potentially be subject to future losses or capital commitments in order to complete construction or to monetize our investment in the land.

NOTE 7: SHAREHOLDERS' EQUITY

In February 2013, our Board of Directors authorized a program to repurchase up to \$800 of our outstanding common stock, through March 1, 2015. There was \$73 of unused capacity upon program expiration. In September 2014, our Board of Directors authorized a new program to repurchase up to \$1,000 of our outstanding common stock, through March 1, 2016. During the first quarter ended May 2, 2015, we repurchased 0.4 shares of our common stock for an aggregate purchase price of \$33 and had \$969 remaining in share repurchase capacity as of May 2, 2015. The actual number and timing of future share repurchases, if any, will be subject to market and economic conditions and applicable Securities and Exchange Commission ("Commission") rules.

Subsequent to quarter end, in May 2015, we declared a quarterly dividend of \$0.37 per share, payable in June 2015.

(Unaudited)

NOTE 11: SUBSEQUENT EVENT

On May 25, 2015, the Company entered into an agreement with TD Bank USA, N.A. ("TD"), who will acquire substantially all of our U.S. Visa and private label credit card portfolio, which totals approximately \$2.2 billion. In addition, the two companies have entered into a long-term agreement under which TD will become the exclusive issuer of Nordstrom-branded Visa and private label consumer credit cards to our U.S. customers.

Under the agreement, we will sell our credit card receivables to TD at the time of closing. We will continue to perform account servicing functions, maintaining the current deep integration between our credit and retail operations. We will continue to fund and manage the Nordstrom Rewards loyalty program, Nordstrom debit cards and Nordstrom employee accounts. Under the terms of the program agreement, we will be entitled to receive a substantial portion of net revenue generated by the credit card accounts.

This transaction is subject to regulatory approvals and other customary conditions and is expected to close in the second half of 2015. Upon finalization of the transaction, we may classify the relevant credit card receivables as held for sale, which would result in a gain or loss upon reclassification. Additionally, if a transaction is consummated, we will be required to pay off the \$325 secured Series 2011-1 Class A Notes to provide the receivables free and clear.

CAUTIONARY STATEMENT

Certain statements in this Quarterly Report on Form 10-Q contain or may suggest "forward-looking" information (as defined in the Private Securities Litigation Reform Act of 1995) that involve risks and uncertainties, including, but not limited to, anticipated financial outlook for the fiscal year ending January 30, 2016, anticipated annual total and comparable sales rates, anticipated new store openings in existing, new and international markets, anticipated Return on Invested Capital and trends in our operations. Such statements are based upon the current beliefs and expectations of the company's management and are subject to significant risks and uncertainties. Actual future results may differ materially from historical results or current expectations depending upon factors including, but not limited to:

- successful execution of our customer strategy, including expansion into new domestic and international markets, acquisitions, investments in our stores and online, our ability to realize the anticipated benefits from growth initiatives and our ability to provide a seamless experience across all channels,
- timely completion of construction associated with newly planned stores, relocations and remodels, all of which may be impacted by the financial health of third parties,
- our ability to manage the investment opportunities in our online business and our ability to manage related organizational changes,
- our ability to maintain relationships with our employees and to effectively attract, develop and retain our future leaders,
- effective inventory management, disruptions in our supply chain and our ability to control costs,
- the impact of any systems failures, cybersecurity and/or security breaches, including any security breach of our systems or those of a third-party provider that results in the theft, transfer or unauthorized disclosure of customer, employee or company information or compliance with information security and privacy laws and regulations in the event of such an incident,
- successful execution of our information technology strategy,
- our ability to effectively utilize data in strategic planning and decision making,
- efficient and proper allocation of our capital resources,
- our ability to successfully close the U.S. Visa and private label credit card portfolio transaction,
- our ability to safeguard our reputation and maintain our vendor relationships,
- the impact of economic and market conditions and the resultant impact on consumer spending patterns,
- our ability to respond to the business environment, fashion trends and consumer preferences, including changing expectations of service and experience in stores and online,
- the effectiveness of planned advertising, marketing and promotional campaigns in the highly competitive retail industry,
- weather conditions, natural disasters, health hazards, national security or other market disruptions, or the prospects of these events and the resulting impact on consumer spending patterns,
- our compliance with applicable banking-related laws and regulations impacting our ability to extend credit to our customers, employment laws and regulations, certain international laws and regulations, other laws and regulations applicable to us, including the outcome of claims and litigation and resolution of tax matters, and ethical standards,
- impact of the current regulatory environment and financial system and health care reforms,
- compliance with debt covenants, availability and cost of credit, changes in interest rates, debt repayment patterns, personal bankruptcies and bad debt write-offs, and
- the timing and amounts of share repurchases by the company, if any, or any share issuances by the company, including issuances associated with option exercises or other matters.

These and other factors, including those factors described in Part I, "Item 1A. Risk Factors" in our 2014 Annual Report on Form 10-K could affect our financial results and cause actual results to differ materially from any forward-looking information we may provide. We undertake no obligation to update or revise any forward-looking statements to reflect subsequent events, new information or future circumstances.

OVERVIEW

We continue to grow and enhance our retail channels, to provide a best-in-class customer experience focused on speed, convenience and personalization. Because the customer views us simply as Nordstrom, we believe there is tremendous value in building our platform to create a seamless experience that encompasses full-price, off-price, stores and online. While each channel represents a substantial growth opportunity, there are significant synergies to leverage across channels.

Our first quarter performance reflects continued execution of this strategy, achieving sales growth of 9.8% and a comparable sales increase of 4.4%. Key contributors to this growth include:

• Expansion into new markets with 5 full-line store openings, including our openings in San Juan, Puerto Rico and in Ottawa, Ontario, Canada in the first quarter of 2015

• Continued Nordstrom Rack expansion with 27 openings, including 10 openings in the first quarter of 2015

• Outsized growth in our online channels driven by the launch of Nordstromrack.com and expanded merchandise selection at Nordstrom.com

• Investments in expanded service and convenience, including our Trunk Club acquisition, enhancements in mobile technologies and expansion of our loyalty program

The growth drivers above, in combination with our expense and inventory discipline, helped us deliver a successful quarter, in-line with our expectations.

We are encouraged with our ongoing roll-out into Canada, which over time represents over a \$1 billion sales opportunity. In March, we opened our second Canadian store, in Ottawa, Ontario. This fall, we will open our flagship store in Vancouver, British Columbia, which we expect to be one of our largest volume stores. This effort will also strengthen our capabilities leading to our upcoming flagship stores in Toronto and Manhattan. In addition to six full-line stores announced in Canada, we also look forward to introducing Nordstrom Rack stores in the fall of 2017. We are excited about our new product offerings, responding to our customers' desire for fresh, relevant brands with the introduction of Charlotte Tilbury, Madewell, Brandy Melville and several others brands offered in our curated pop-in shops. We've experienced outsized growth in our BP, Topshop and Savvy departments, particularly where we've created strong adjacencies in our stores. Topshop continues to be a terrific partnership for us, attracting new and existing customers with on-trend fashion at accessible prices. Based on strong sales performance and customer demand, we plan to expand to roughly 90 doors by the end of the year, from 15 doors three years ago.

Our personalization efforts are another way we elevate the customer experience, making shopping easier and more convenient. We've increased personalization through mobile enhancements, including location-based features and integration of our Nordstrom Rewards loyalty program. Our Rewards program continues to contribute to overall results with 285,000 new accounts in the first quarter and an 11% increase in sales from members.

We are confident in our ability to execute our customer strategy and continue to leverage capabilities across channels to serve customers on their terms. To enhance the customer experience, we continue to make investments in our stores, in our ecommerce and fulfillment capabilities and in technology to support growth. We believe these investments in our customer strategy will help us deliver mid-teens total shareholder returns through high single-digit total sales growth and mid-teens Return on Invested Capital.

RESULTS OF OPERATIONS

Our reportable segments are Retail and Credit. Our Retail segment includes our Nordstrom branded full-line stores and online store, Nordstrom Rack stores, Nordstromrack.com/HauteLook, Trunk Club, Jeffrey and our Last Chance clearance store. For purposes of discussion and analysis of our results of operations of our Retail Business, we combine our Retail segment results with revenues and expenses in the "Corporate/Other" column of Note 10: Segment Reporting in the Notes to Condensed Consolidated Financial Statements (collectively, the "Retail Business"). We analyze our results of operations through earnings before interest and income taxes for our Retail Business and Credit, while interest expense and income taxes are discussed on a total company basis.

Retail Business Net Sales

In our ongoing effort to enhance the customer experience, we are focused on providing customers with a seamless experience across our channels. While our customers may engage with us through multiple channels, we know they value the overall Nordstrom brand experience and view us simply as Nordstrom, which is ultimately how we view our business. To provide additional transparency into our net sales by channel, we present the following summary of our Retail Business:

	Quarter Ended			
	May 2, 2015	May 3, 2014		
Net sales by channel:				
Nordstrom full-line stores - U.S.	\$1,699	\$1,683

4-wall sales per square foot	94	93		
Full-line sales per square foot - U.S.	83	81		
Nordstrom Rack sales per square foot	130	136		

¹ Other retail includes Trunk Club, our Nordstrom Canada full-line stores and Jeffrey boutiques.

² Comparable sales include sales from stores that have been open at least one full year at the beginning of the year. We also include sales from our online channels (Nordstrom.com, Nordstromrack.com/HauteLook) in comparable sales because of the integration with our stores.

³ Sales per square foot is calculated as net sales divided by weighted-average square footage. Weighted-average square footage includes a percentage of year-end square footage for new stores equal to the percentage of the year during which they were open. 4-wall sales per square foot is calculated as sales for our Nordstrom U.S. full-line stores, Nordstrom Rack stores, Jeffrey boutiques, Nordstrom Canada full-line stores, Last Chance and Trunk Club clubhouses divided by their weighted-average square footage.

Total company net sales increased 9.8% for the first quarter ended 2015, compared with the same period in 2014. During the quarter, we opened two full-line stores and 10 Nordstrom Rack stores. Overall comparable sales increased 4.4% for the first quarter ended 2015, driven by growth in our online channels.

Nordstrom net sales, which consist of the U.S. full-line and Nordstrom.com channels, were \$2,179 for the first quarter of 2015, an increase of 4.6% compared with the same period in 2014. This increase reflected continued momentum in Nordstrom.com and improvements in our full-line stores. Both the number of items sold and the average selling price increased on a comparable basis for the first quarter of 2015. Top-performing merchandise categories included Women's and Men's Apparel.

U.S. full-line stores' comparable sales increased 0.5% for the first quarter ended May 2, 2015, compared with the same period in 2014. The top-performing geographic regions for full-line stores for the quarter ended May 2, 2015 were the Northwest and Southeast.

Our online channels continued to experience outsized growth, driven by increased merchandise selection. In the first quarter of 2015, net sales increased 20% at Nordstrom.com and 51% at Nordstromrack.com/HauteLook, compared with the same period in 2014.

Nordstrom Rack net sales increased \$90, or 12%, for the first quarter ended May 2, 2015, compared with the same period in 2014, due to the impact of 27 store openings since the first quarter of fiscal 2014. Nordstrom Rack comparable sales decreased 0.2% in the first quarter of 2015. The average selling price increased on a comparable basis, while the number of items sold decreased for the first quarter of 2015. Top-performing merchandise categories included Cosmetics and Shoes. Nordstrom Rack sales per square foot decreased 4.6% due primarily to new store openings.

Retail Business Gross Profit

The following table summarizes the Retail Business gross profit:

	Quarter Ended		
	May 2, 2015	May 3, 2014	
Retail gross profit ¹	\$1,118	\$1,017	
Retail gross profit as a % of net sales	35.9	% 35.8	%
Ending inventory per square foot	\$73.28	\$64.29	
Inventory turnover rate ²	4.53	4.95	

¹ Retailers do not uniformly record the costs of buying and occupancy and supply chain operations (freight, purchasing, receiving, distribution, fulfillment, etc.) between gross profit and selling, general and administrative expense. As such, our gross profit and selling, general and administrative expenses and rates may not be comparable to other retailers' expenses and rates.

² Inventory turnover rate is calculated as the trailing 12-months' cost of sales and related buying and occupancy costs (for all segments) divided by the trailing 4-quarter average inventory. Retailers do not uniformly calculate inventory turnover as buying and occupancy costs may be included in selling, general and administrative expenses. As such, our inventory turnover rates may not be comparable to other retailers.

Our Retail gross profit rate increased 10 basis points for the quarter ended May 2, 2015, compared with the quarter ended May 3, 2014. Our Retail gross profit increased \$101 for the first quarter of 2015 due primarily to increased sales, partially offset by Nordstrom Rack's accelerated store expansion.

Our inventory turnover rate decreased to 4.53 times for the trailing 12-months ended May 2, 2015, from 4.95 times for the same period in 2014 due to inventory growth. The increase in ending inventory per square foot was due to planned growth across all channels, led by Nordstromrack.com/HauteLook and Nordstrom Rack. Ending inventory includes pack and hold inventory of \$201 and \$169 on May 2, 2015 and May 3, 2014, which represents strategic purchases of merchandise for upcoming selling seasons. As we continue to grow our online channels, we expect increases in inventory without corresponding increases in square footage.

Retail Business Selling, General and Administrative Expenses

Retail Business selling, general and administrative expenses ("Retail SG&A") are summarized in the following table:

	Quarter Ended		
	May 2, 2015	May 3, 2014	
Selling, general and administrative expenses	\$921	\$793	
Selling, general and administrative expense as a % of net sales	29.6	% 28.0	%

Our Retail SG&A rate increased 159 basis points for the quarter ended May 2, 2015 reflecting planned growth initiatives related to Trunk Club, Canada and continuing fulfillment and technology investments. Retail SG&A increased \$128 for the quarter ended May 2, 2015 primarily due to an increase in sales and planned expenses related to Trunk Club and Canada.

Credit Segment

Summary

The table below provides a detailed view of the operational results of our Credit segment, consistent with Note 10: Segment Reporting in the Notes to Condensed Consolidated Financial Statements. See Note 11: Subsequent Event in the Notes to the Condensed Consolidated Financial Statements for an update with regard to the sale of our U.S. Visa and private label credit card portfolio. In order to better reflect the economic contribution of our credit and debit card program, intercompany merchant fees are also included in the table below, which represent the estimated costs that would be incurred if our cardholders used third-party cards instead of ours.

Interest expense at the Credit segment is equal to the amount of interest related to securitized debt plus an amount assigned to the Credit segment in proportion to the estimated debt and equity needed to fund our credit card receivables. Based on our research, debt as a percentage of credit card receivables for other credit card companies ranges from 70% to 90%. As such, we believe a mix of 80% debt and 20% equity is appropriate, and therefore assign interest expense to the Credit segment as if it carried debt of up to 80% of the credit card receivables.

³ Volume represents sales plus applicable taxes.

Credit Card Revenues

The following is a summary of our Credit card revenues:

	Quarter Ended	
	May 2, 2015	May 3, 2014
Finance charge revenue	\$64	\$61
Interchange – third-party	22	22
Late fees and other revenue	14	11
Total Credit card revenues	\$100	\$94

Credit card revenues include finance charges, interchange fees, late fees and other revenue. Finance charges represent interest earned on unpaid balances while interchange fees are earned from the use of Nordstrom Visa credit cards at merchants outside of Nordstrom. Late fees are assessed when a credit card account becomes past due. Credit card

revenues are recorded net of estimated uncollectible finance charges and fees.

Credit card revenues increased \$6 for the quarter ended May 2, 2015, compared with the same period in the prior year, primarily due to a 5.6% increase in total quarterly volume.

Credit Expenses

Credit expenses are summarized in the following table:

	Quarter Ended	
	May 2, 2015	May 3, 2014
Operational expenses	\$40	\$37
Bad debt expense	10	15
Occupancy expenses	2	1
Total Credit expenses	\$52	\$53

Total Credit expenses decreased \$1 for the quarter ended May 2, 2015, compared with the same period in the prior year, primarily due to lower bad debt expense resulting from the reduction of our allowance for credit losses by \$5 during the first quarter of 2015, partially offset by higher operational costs related to increased credit volume.

Allowance for Credit Losses and Credit Trends

We consider a credit card account delinquent if the minimum payment is not received by the payment due date. Our aging method is based on the number of completed billing cycles during which the customer has failed to make a minimum payment. During the third quarter of 2014, we modified our write-off policy from 150 days past due to 180 days past due to better align with industry practice.

The following table illustrates activity in the allowance for credit losses:

	Quarter Ended		
	May 2, 2015	May 3, 2014	
Allowance at beginning of period	\$75	\$80	
Bad debt expense	10	15	
Write-offs	(19) (19)
Recoveries	4	4	
Allowance at end of period	\$70	\$80	
Annualized net write-offs as a % of average credit card receivables	2.6	% 2.9	%
30 days or more delinquent as a % of ending credit card receivables	1.8	% 1.6	%
Allowance as a % of ending credit card receivables	3.1	% 3.7	%

Intercompany Merchant Fees

Intercompany merchant fees represent the estimated costs that would be incurred if our cardholders used third-party cards in our Nordstrom stores and online. For the quarter ended May 2, 2015, this estimate increased to \$25 from \$23 for the same period in 2014. This was primarily driven by the increased use of our credit and debit cards in store and online, as reflected by an increase in inside volume as a percent of total volume from 52% in the first quarter of 2014 to 55% in the first quarter of 2015.

Total Company Results

Interest Expense, Net

Interest expense, net of \$33 for the first quarter of 2015 remained flat compared with the first quarter of 2014.

Income Tax Expense

Income tax expense is summarized in the following table:

	Quarter Ended		
	May 2, 2015	May 3, 2014	
Income tax expense	\$84	\$90	
Effective tax rate	39.8	% 39.2	%

The effective tax rate for the quarter ended May 2, 2015 increased compared with the same period in 2014, primarily due to changes in our estimated state tax reserves and non-deductible acquisition related expenses in 2015.

Fiscal Year 2015 Outlook

The Company's annual earnings per diluted share expectations are unchanged, incorporating first quarter results and the impact of share repurchases in the first quarter. Our expectations for fiscal 2015 are as follows:

Net sales	7 to 9 percent increase
Comparable sales	2 to 4 percent increase
Gross profit ¹ as a % of net sales	5 to 15 basis point decrease
Selling, general and administrative expenses as a % of net sales	55 to 65 basis point increase
Earnings per diluted share ²	\$3.65 to \$3.80

¹ Gross profit is calculated as net sales less cost of sales and related buying and occupancy costs (for all segments).

² This outlook does not include the impact of any future share repurchases.

Earnings per diluted share growth in the second quarter is expected to be below the full-year outlook range of a 2 percent decrease to a 2 percent increase, primarily due to the ongoing entry into Canada and the acquisition of Trunk Club in the third quarter of 2014.

Return on Invested Capital ("ROIC") (Non-GAAP financial measure)

We believe ROIC is a useful financial measure for investors in evaluating the efficiency and effectiveness of our use of capital and believe ROIC is an important component of shareholders' return over the long term. In addition, we incorporate ROIC in our executive incentive compensation measures. For the 12 fiscal months ended May 2, 2015, our ROIC decreased to 12.2% compared with 13.3% for the 12 fiscal months ended May 3, 2014, primarily due to ongoing store expansion and increased technology investments in addition to the acquisition of Trunk Club.

ROIC is not a measure of financial performance under generally accepted accounting principles ("GAAP") and should be considered in addition to, and not as a substitute for, return on assets, net earnings, total assets or other financial measures prepared in accordance with GAAP. Our method of determining non-GAAP financial measures may differ from other companies' methods and therefore may not be comparable to those used by other companies. The financial measure calculated under GAAP which is most directly comparable to ROIC is return on assets. The following is a reconciliation of the components of ROIC and return on assets:

	12 Fiscal months ended			
	May 2, 2015	May 3, 2014		
Net earnings	\$709	\$728		
Add: income tax expense	459	454		
Add: interest expense	136	158		
Earnings before interest and income tax expense	1,304	1,340		
Add: rent expense	143	131		
Less: estimated depreciation on capitalized operating leases ¹	(76) (70))
Net operating profit	1,371	1,401		
Less: estimated income tax expense ²	(539) (538))
Net operating profit after tax	\$832	\$863		
Average total assets ³	\$9,069	\$8,490		
Less: average non-interest-bearing current liabilities ⁴	(2,806) (2,492))
Less: average deferred property incentives ³	(510) (492))
Add: average estimated asset base of capitalized operating leases ⁵	1,085	969		
Average invested capital	\$6,838	\$6,475		
Return on assets	7.8	% 8.6		%
ROIC	12.2	% 13.3		%

¹ Capitalized operating leases is our best estimate of the asset base we would record for our leases that are classified as operating if they had met the criteria for a capital lease or we had purchased the property. Asset base is calculated as described in footnote 5 below.

² Based upon our effective tax rate multiplied by the net operating profit for the 12 fiscal months ended May 2, 2015 and May 3, 2014.

³ Based upon the trailing 12-month average.

⁴ Based upon the trailing 12-month average for accounts payable, accrued salaries, wages and related benefits and other current liabilities.

⁵ Based upon the trailing 12-month average of the monthly asset base. The asset base for each month is calculated as the trailing 12 months of rent expense multiplied by eight. The multiple of eight times rent expense is a commonly used method of estimating the asset base we would record for our capitalized operating leases described in footnote 1.

LIQUIDITY AND CAPITAL RESOURCES

We strive to maintain a level of liquidity sufficient to allow us to cover our seasonal cash needs and to maintain appropriate levels of short-term borrowings. We believe that our operating cash flows, available credit facilities and potential future borrowings are sufficient to finance our cash requirements for the next 12 months and beyond.

Over the long term, we manage our cash and capital structure to maximize shareholder return, maintain our financial position, manage refinancing risk and allow flexibility for strategic initiatives. We regularly assess our debt and leverage levels, capital expenditure requirements, debt service payments, dividend payouts, potential share repurchases and other future investments. We believe that as of May 2, 2015, our existing cash and cash equivalents on-hand of \$769, available credit facilities of \$800 and potential future operating cash flows and borrowings will be sufficient to fund these scheduled future payments and potential long-term initiatives. Additionally, if a transaction is consummated in regards to our credit card receivables, it will result in additional cash flows. We are currently assessing plans for the use of proceeds in a manner that aligns with our capital allocation approach of returning shareholder value.

For the first quarter ended May 2, 2015, cash and cash equivalents decreased by \$58 to \$769, primarily due to payments for capital expenditures of \$259, partially offset by cash provided by operations of \$208.

Operating Activities

Net cash provided by operating activities decreased \$9 for the first quarter ended May 2, 2015, compared with the same period in 2014, primarily due to a decrease in net earnings and timing of tax payments.

Investing Activities

Net cash used in investing activities was \$239 for the first quarter ended May 2, 2015, compared with net cash used of \$165 for the same period in 2014. The increase relates to capital expenditures made to support our customer strategy, including investments in technology, remodels and new stores.

Financing Activities

Net cash used in financing activities was \$27 for the first quarter ended May 2, 2015, compared with \$231 for the same period in 2014, primarily due to decreased share repurchase activity in the current year. During the first quarter ended May 2, 2015, we made payments of \$28 for repurchases of common stock, compared with \$207 for the same period in 2014.

Free Cash Flow (Non-GAAP financial measure)

Free Cash Flow is one of our key liquidity measures, and when used in conjunction with GAAP measures, provides investors with a meaningful analysis of our ability to generate cash from our business. For the first quarter ended 2015, Free Cash Flow decreased to \$(116) compared with \$(29) for the first quarter ended 2014, primarily due to increased capital expenditures related to new store openings and increased investments in technology.

Free Cash Flow is not a measure of financial performance under GAAP and should be considered in addition to, and not as a substitute for, operating cash flows or other financial measures prepared in accordance with GAAP. Our method of determining non-GAAP financial measures may differ from other companies' methods and therefore may not be comparable to those used by other companies. The financial measure calculated under GAAP which is most directly comparable to Free Cash Flow is net cash provided by operating activities. The following is a reconciliation of net cash provided by operating activities to Free Cash Flow:

	Quarter Ended	
	May 2, 2015	May 3, 2014
Net cash provided by operating activities	\$208	\$217
Less: capital expenditures	(259)	(174)
Less: cash dividends paid	(71)	(63)
Add: change in credit card receivables originated at third parties	16	12
Less: change in cash book overdrafts	(10)	(21)
Free Cash Flow	\$(116)	\$(29)
Net cash used in investing activities	\$(239)	\$(165)
Net cash used in financing activities	(27)	(231)

Credit Capacity and Commitments

As of May 2, 2015, we had total short-term borrowing capacity available for general corporate purposes of \$800. In April 2015, we terminated our \$800 senior unsecured revolving credit facility that was scheduled to expire in March 2018. We replaced this with a new five-year \$800 senior unsecured revolving credit facility ("revolver") that expires in April 2020, with an option to extend for an additional two years. Under the terms of our new revolver, we pay a variable rate of interest and a commitment fee based on our debt rating. The new revolver is available for working capital, capital expenditures and other general corporate purposes. During the first quarter ended 2015, we had no issuances under our commercial paper program and no borrowings under our revolver.

If our U.S. Visa and private label credit card portfolio transaction is consummated, we will be required to pay off the \$325 secured Series 2011-1 Class A Notes to provide the receivables free and clear. See Note 11: Subsequent Event for an update with regard to this transaction.

Impact of Credit Ratings

Under the terms of our revolver, any borrowings we may enter into will accrue interest for Euro-Dollar Rate Loans at a floating base rate tied to LIBOR, for Canadian Dealer Offer Rate Loans at a floating rate tied to CDOR, and for Base Rate Loans at the highest of: (i) the Euro-Dollar rate plus 100 basis points, (ii) the federal funds rate plus 50 basis points and (iii) the prime rate.

The rate depends upon the type of borrowing incurred, plus in each case an applicable margin. This applicable margin varies depending upon the credit ratings assigned to our long-term unsecured debt. At the time of this report, our long-term unsecured debt ratings, outlook and resulting applicable margin were as follows:

	Credit Ratings	Outlook
Moody's	Baa1	Stable
Standard & Poor's	A-	Stable
	Base Interest Rate	Applicable Margin
Euro-Dollar Rate Loan	LIBOR	0.91%
Canadian Dealer Offer Rate Loan	CDOR	0.91%
Base Rate Loan	various	—

Should the ratings assigned to our long-term unsecured debt improve, the applicable margin associated with any such borrowings may decrease, resulting in a slightly lower borrowing cost under this facility. Should the ratings assigned to our long-term unsecured debt worsen, the applicable margin associated with our borrowings may increase, resulting in a slightly higher borrowing cost under this facility.

Debt Covenant

The new revolver requires that we maintain an adjusted debt to earnings before interest, income taxes, depreciation, amortization and rent ("EBITDAR") leverage ratio of less than four times (see the following additional discussion of Adjusted Debt to EBITDAR).

As of May 2, 2015 and May 3, 2014, we were in compliance with this covenant. We will continue to monitor this covenant and believe that we will remain in compliance with this covenant during the remainder of fiscal 2015.

Adjusted Debt to EBITDAR (Non-GAAP financial measure)

Adjusted Debt to EBITDAR is one of our key financial metrics, and we believe that our debt levels are best analyzed using this measure. Our goal is to manage debt levels to maintain an investment-grade credit rating and operate with an efficient capital structure. In evaluating our debt levels, this measure provides a reflection of our credit worthiness that could impact our credit rating and borrowing costs. We also have a debt covenant that requires an adjusted debt to EBITDAR leverage ratio of less than four times. As of May 2, 2015 and May 3, 2014, our Adjusted Debt to EBITDAR was 2.1.

Adjusted Debt to EBITDAR is not a measure of financial performance under GAAP and should be considered in addition to, and not as a substitute for, debt to net earnings, net earnings, debt or other financial measures prepared in accordance with GAAP. Our method of determining non-GAAP financial measures may differ from other companies' methods and therefore may not be comparable to those used by other companies. The financial measure calculated under GAAP which is most directly comparable to Adjusted Debt to EBITDAR is debt to net earnings. The following is a reconciliation of the components of Adjusted Debt to EBITDAR and debt to net earnings:

	2015 ¹	2014 ¹
Debt	\$3,146	\$3,117
Add: estimated capitalized operating lease liability ²	1,147	1,045
Less: fair value hedge adjustment included in long-term debt	(33) (45
Adjusted Debt	\$4,260	\$4,117
Net earnings	\$709	\$728
Add: income tax expense	459	454
Add: interest expense, net	136	157
Earnings before interest and income taxes	1,304	1,339
Add: depreciation and amortization expenses	526	464
Add: rent expense	143	131
Add: non-cash acquisition-related charges	14	7
EBITDAR	\$1,987	\$1,941
Debt to Net Earnings	4.4	4.3
Adjusted Debt to EBITDAR	2.1	2.1

¹ The components of Adjusted Debt are as of May 2, 2015 and May 3, 2014, while the components of EBITDAR are for the 12 months ended May 2, 2015 and May 3, 2014.

² Based upon the estimated lease liability as of the end of the period, calculated as the trailing 12 months of rent expense multiplied by eight. The multiple of eight times rent expense is a commonly used method of estimating the debt we would record for our leases that are classified as operating if they had met the criteria for a capital lease or we had purchased the property.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We discussed our interest rate risk and our foreign currency exchange risk in Part II, "Item 7A. Quantitative and Qualitative Disclosures About Market Risk" in our 2014 Annual Report on Form 10-K filed with the Commission on March 16, 2015. There have been no material changes to these risks since that time.

Item 4. Controls and Procedures.

Disclosure Controls and Procedures

On May 4, 2015, the Company filed a Form 8-K announcing the appointment of Blake Nordstrom, Pete Nordstrom and Erik Nordstrom as co-presidents of Nordstrom, Inc. The three executives retained their current roles and responsibilities following that appointment. In light of those individual responsibilities, Blake Nordstrom continues to serve as the Company's principal executive officer for purposes of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). The Company's Executive Vice President and Chief Financial Officer is the Company's principal financial officer for purposes of the Exchange Act.

As of the end of the period covered by this Quarterly Report on Form 10-Q, the Company performed an evaluation under the supervision and with the participation of management, including our principal executive officer and principal financial officer, of the design and effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Exchange Act). Based upon that evaluation, our principal executive officer and principal financial officer concluded that, as of the end of the period covered by this Quarterly Report, our disclosure controls and procedures were effective in the timely and accurate recording, processing, summarizing and reporting of material financial and non-financial information within the time periods specified within the Commission's rules and forms. Our principal executive officer and principal financial officer also concluded that our disclosure controls and procedures were effective to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) or 15d-15(f) of the Exchange Act) during our most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings.

We are subject from time to time to various claims and lawsuits arising in the ordinary course of business, including lawsuits alleging violations of state and/or federal wage and hour and other employment laws, privacy and other consumer-based claims. Some of these lawsuits include certified classes of litigants, or purport or may be determined to be class or collective actions and seek substantial damages or injunctive relief, or both, and some may remain unresolved for several years. We believe the recorded reserves in our condensed consolidated financial statements are adequate in light of the probable and estimable liabilities. As of the date of this report, we do not believe any currently identified claim, proceeding or litigation, either alone or in the aggregate, will have a material impact on our results of operations, financial position or cash flows. Since these matters are subject to inherent uncertainties, our view of them may change in the future.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

(c) Repurchases

(Dollar and share amounts in millions, except per share amounts)

The following is a summary of our first quarter share repurchases:

	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs ¹
February 2015 (February 1, 2015 to February 28, 2015)	—	\$75.82	—	\$ 1,073
March 2015 (March 1, 2015 to April 4, 2015)	0.1	79.71	0.1	990
April 2015 (April 5, 2015 to May 2, 2015)	0.3	77.45	0.3	969
Total	0.4	\$78.05	0.4	

¹ In February 2013, our Board of Directors authorized a program to repurchase up to \$800 of our outstanding common stock, through March 1, 2015. There was \$73 of unused capacity upon program expiration. In September 2014, our Board of Directors authorized a new program to repurchase up to \$1,000 of our outstanding common stock, through March 1, 2016.

During the first quarter ended May 2, 2015, we repurchased 0.4 shares of our common stock for an aggregate purchase price of \$33 and had \$969 remaining in share repurchase capacity as of May 2, 2015. The actual number and timing of future share repurchases, if any, will be subject to market and economic conditions and applicable Commission rules.
