ITEM 8.01 OTHER EVENTS.

As announced in a press release issued February 5, 2008, Company officials made a presentation to the investment community at the BB&T Capital Markets Transportation Services Conference in Coral Gables, Florida on February 13, 2008. This presentation was open to the public through an

audio webcast via the internet at the time of the presentation and a replay is accessible from the Company's website at www.werner.com for thirty days following the date of the presentation. During the Company's prepared remarks, management made the following comments regarding January 2008 results and regarding first quarter 2008 earnings expectations compared to first quarter 2007.

"The weak freight market is placing increasing pressure on rates, however we are remaining as disciplined as possible with pricing. Costs were much higher in January of 2008 compared to January of 2007 due to: (1) significantly higher fuel prices, (2) much higher maintenance due in part to worse than normal winter weather and (3) higher insurance. Based on January 2008 results, it is likely that our earnings per share for the first quarter of 2008 will be significantly lower than our earnings per share for the first quarter of 2007."

This current report on Form 8-K and the oral public statements made by Company representatives during the aforementioned webcast contain forward-looking statements, which are based on information currently available to our management. Actual results could differ materially from those anticipated as a result of a number of factors, including, but not limited to, those discussed in Item 1A of the Company's Annual Report on Form 10-K for the year ended December 31, 2006. The Company assumes no obligation to update any forward-looking statement to the extent it becomes aware that it will not be achieved for any reason.
