

INVESTORS REAL ESTATE TRUST

Form 10-Q

December 10, 2012

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C.

20549

Form 10-Q

Quarterly Report Pursuant to Section 13 or 15(d)

of the Securities Exchange Act of 1934

For Quarter Ended October 31, 2012

Commission File Number 0-14851

INVESTORS REAL ESTATE TRUST

(Exact name of registrant as specified in its charter)

North Dakota 45-0311232

(State or other jurisdiction of (I.R.S. Employer Identification No.)

incorporation or organization)

1400 31st Avenue SW, Suite 60

Post Office Box 1988

Minot, ND 58702-1988

(Address of principal executive offices) (Zip code)

(701) 837-4738

(Registrant's telephone number, including area code)

N/A

(Former name, former address, and former fiscal year, if changed since last report.)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to the filing requirements for at least the past 90 days.

Yes R No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes R No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer R

Non-accelerated filer Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No R

Registrant is a North Dakota Real Estate Investment Trust. As of November 26, 2012, it had 93,493,324 common shares of beneficial interest outstanding.

INVESTORS REAL ESTATE TRUST AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

for the six months ended October 31, 2012 and 2011

NOTE 1 • ORGANIZATION

Investors Real Estate Trust ("IRET" or the "Company") is a self-advised real estate investment trust engaged in acquiring, owning and leasing multi-family and commercial real estate. IRET has elected to be taxed as a Real Estate Investment Trust ("REIT") under Sections 856-860 of the Internal Revenue Code of 1986, as amended. As a REIT, we are subject to a number of organizational and operational requirements, including a requirement to distribute 90% of ordinary taxable income to shareholders, and, generally, are not subject to federal income tax on net income, except for taxes on undistributed REIT taxable income. IRET's multi-family residential properties and commercial properties are located mainly in the states of North Dakota and Minnesota, but also in the states of Colorado, Idaho, Iowa, Kansas, Missouri, Montana, Nebraska, South Dakota, Wisconsin and Wyoming. As of October 31, 2012, IRET owned 85 multi-family residential properties with 9,934 apartment units and 182 commercial properties, consisting of office, medical, industrial and retail properties, totaling 12.3 million net rentable square feet. IRET conducts a majority of its business activities through its consolidated operating partnership, IRET Properties, a North Dakota Limited Partnership (the "Operating Partnership"), as well as through a number of other consolidated subsidiary entities. All references to IRET or the Company refer to Investors Real Estate Trust and its consolidated subsidiaries.

NOTE 2 • BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

The accompanying condensed consolidated financial statements include the accounts of IRET and all subsidiaries in which it maintains a controlling interest. All intercompany balances and transactions are eliminated in consolidation. The Company's fiscal year ends April 30th.

The accompanying condensed consolidated financial statements include the accounts of IRET and its interest in the Operating Partnership. The Company's interest in the Operating Partnership was 81.4% and 81.5% of the common units of the Operating Partnership, respectively, as of October 31, 2012 and April 30, 2012, and 100.0% of the preferred units in the Operating Partnership as of October 31, 2012. The limited partners in the Operating Partnership have a redemption option that they may exercise. Upon exercise of the redemption option by the limited partners, IRET has the choice of redeeming the limited partners' interests ("Units") for IRET common shares of beneficial interest, on a one-for-one basis, or making a cash payment to the unitholder. The redemption generally may be exercised by the limited partners at any time after the first anniversary of the date of the acquisition of the Units (provided, however, that in general not more than two redemptions by a limited partner may occur during each calendar year, and each limited partner may not exercise the redemption for less than 1,000 Units, or, if such limited partner holds less than 1,000 Units, for all of the Units held by such limited partner). The Operating Partnership and some limited partners have contractually agreed to a holding period of greater than one year and/or a greater number of redemptions during a calendar year.

The condensed consolidated financial statements also reflect the ownership by the Operating Partnership of certain joint venture entities in which the Operating Partnership has a general partner or controlling interest. These entities are consolidated into IRET's other operations, with noncontrolling interests reflecting the noncontrolling partners' share of ownership and income and expenses.

UNAUDITED INTERIM FINANCIAL STATEMENTS

The interim condensed consolidated financial statements of IRET have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and the applicable rules and regulations of the Securities and Exchange Commission ("SEC"). Accordingly, certain disclosures accompanying annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") are omitted. The year-end balance sheet data was derived from audited financial statements, but does not include all disclosures required by U.S. GAAP. In the opinion of management, all adjustments, consisting solely of normal recurring adjustments, necessary for the fair presentation of the Company's financial position, results of operations and cash flows for the interim periods have been included.

Table of Contents

The current period's results of operations are not necessarily indicative of results which ultimately may be achieved for the year. The interim condensed consolidated financial statements and notes thereto should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended April 30, 2012, as filed with the SEC on July 16, 2012, as amended by the Current Report on Form 8-K filed with the SEC on December 10, 2012.

RECENT ACCOUNTING PRONOUNCEMENTS

In September 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2011-08, Testing Goodwill for Impairment. This standard gives entities testing goodwill for impairment the option of performing a qualitative assessment before calculating the fair value of the reporting unit (step I of the goodwill impairment test). If entities determine, on the basis of qualitative factors, that the fair value of the reporting unit is more likely than not less than its carrying amount, the two-step impairment test would be required. Otherwise, no further testing is required. The ASU does not change how goodwill is calculated or assigned to reporting units, nor does it revise the requirement to test goodwill annually for impairment. The ASU is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011, with early adoption permitted. The Company adopted this update for fiscal year 2013, but does not intend to use the methodology allowed by the ASU.

In July 2012, the FASB issued ASU 2012-02, Topic 350 - Intangibles - Goodwill and Other: Testing Indefinite-Lived Intangible Assets for Impairment ("ASU 2012-02"), which amends Topic 350 to allow an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of an indefinite-lived intangible asset is less than its carrying value. An entity would not be required to determine the fair value of the indefinite-lived intangible unless the entity determines, based on the qualitative assessment, that it is more likely than not that its fair value is less than the carrying value. ASU 2012-02 is effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012 and early adoption is permitted. The Company will adopt this standard for fiscal year 2014, and does not expect the adoption will have an impact on the Company's consolidated results of operations or financial condition.

IMPAIRMENT OF LONG-LIVED ASSETS

The Company periodically evaluates its long-lived assets, including its investments in real estate, for impairment indicators. The impairment evaluation is performed on assets by property such that assets for a property form an asset group. The judgments regarding the existence of impairment indicators are based on factors such as operational performance, market conditions, expected holding period of each asset group and legal and environmental concerns. If indicators exist, the Company compares the expected future undiscounted cash flows for the long-lived asset group against the carrying amount of that asset group. If the sum of the estimated undiscounted cash flows is less than the carrying amount of the asset group, an impairment loss is recorded for the difference between the estimated fair value and the carrying amount of the asset group. If our anticipated holding period for properties, the estimated fair value of properties or other factors change based on market conditions or otherwise, our evaluation of impairment charges may be different and such differences could be material to our consolidated financial statements. The evaluation of anticipated cash flows is subjective and is based, in part, on assumptions regarding future occupancy, rental rates and capital requirements that could differ materially from actual results. Plans to hold properties over longer periods decrease the likelihood of recording impairment losses. During the six months ended October 31, 2012 and 2011, the Company incurred no losses due to impairment.

COMPENSATING BALANCES AND OTHER INVESTMENTS; LENDER HOLDBACKS

The Company maintains compensating balances, not restricted as to withdrawal, with several financial institutions in connection with financing received from those institutions and/or to ensure future credit availability. At October 31, 2012, the Company's compensating balances totaled \$8.9 million and consisted of the following: Dacotah Bank, Minot, North Dakota, deposit of \$350,000; United Community Bank, Minot, North Dakota, deposit of \$275,000; Commerce Bank, A Minnesota Banking Corporation, deposit of \$250,000; First International Bank, Watford City, North Dakota, deposit of \$6.1 million; Peoples State Bank of Velva, North Dakota, deposit of \$225,000; Equity Bank, Minnetonka, Minnesota, deposit of \$300,000; Associated Bank, Green Bay, Wisconsin, deposit of \$500,000; Venture Bank, Egan, Minnesota, deposit of \$500,000, and American National Bank, Omaha, Nebraska, deposit of \$400,000.

Edgar Filing: INVESTORS REAL ESTATE TRUST - Form 10-Q

The deposits at United Community Bank and Equity Bank and a portion of the deposit at Dacotah Bank are held as certificates of deposit and comprise the \$637,000 in other investments on the Condensed Consolidated Balance Sheets. The certificates of deposit have remaining terms of less than two years and the Company intends to hold them to maturity.

9

Table of Contents

The Company has a number of mortgage loans under which the lender retains a portion of the loan proceeds for the payment of construction costs or tenant improvements. The decrease of \$1.0 million in lender holdbacks for improvements reflected in the Condensed Consolidated Statements of Cash Flows for the six months ended October 31, 2012 is due primarily to the release of loan proceeds to the Company upon completion of these construction and tenant improvement projects, while the increase of \$1.7 million represents additional amounts retained by lenders for new projects.

IDENTIFIED INTANGIBLE ASSETS AND LIABILITIES AND GOODWILL

Upon acquisition of real estate, the Company records the intangible assets and liabilities acquired (for example, if the leases in place for the real estate property acquired carry rents above the market rent, the difference is classified as an intangible asset) at their estimated fair value separate and apart from goodwill. The Company amortizes identified intangible assets and liabilities that are determined to have finite lives based on the period over which the assets and liabilities are expected to affect, directly or indirectly, the future cash flows of the real estate property acquired (generally the life of the lease). In the six months ended October 31, 2012 and 2011, respectively, the Company added approximately \$813,000 and \$416,000 of new intangible assets and no new intangible liabilities. The weighted average lives of the intangible assets acquired in the six months ended October 31, 2012 and 2011 are 0.5 years and 10.0 years, respectively. Amortization of intangibles related to above or below-market leases is recorded in real estate rentals in the Condensed Consolidated Statements of Operations. Amortization of other intangibles is recorded in depreciation/amortization related to real estate investments in the Condensed Consolidated Statements of Operations. Intangible assets subject to amortization are reviewed for impairment whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. An impairment loss is recognized if the carrying amount of an intangible asset is not recoverable and its carrying amount exceeds its estimated fair value.

The Company's identified intangible assets and intangible liabilities at October 31, 2012 and April 30, 2012 were as follows:

	(in thousands)	
	October 31, 2012	April 30, 2012
Identified intangible assets (included in intangible assets):		
Gross carrying amount	\$67,860	\$92,401
Accumulated amortization	(25,579)	(47,813)
Net carrying amount	\$42,281	\$44,588
Identified intangible liabilities (included in other liabilities):		
Gross carrying amount	\$408	\$1,104
Accumulated amortization	(294)	(967)
Net carrying amount	\$114	\$137

The effect of amortization of acquired below-market leases and acquired above-market leases on rental income was approximately \$(7,000) and \$(6,000) for the three months ended October 31, 2012 and 2011, respectively, and \$(14,000) and \$(32,000) for the six months ended October 31, 2012 and 2011. The estimated annual amortization of acquired below-market leases, net of acquired above-market leases for each of the five succeeding fiscal years is as follows:

	(in thousands)
Year Ended April 30,	
2014	\$ 35
2015	18
2016	14
2017	6
2018	(5)

Table of Contents

Amortization of all other identified intangible assets (a component of depreciation and amortization expense) was \$1.6 million and \$1.5 million for the three months ended October 31, 2012 and 2011, respectively, and \$3.1 million and \$3.2 million for the six months ended October 31, 2012 and 2011. The estimated annual amortization of all other identified intangible assets for each of the five succeeding fiscal years is as follows:

	(in thousands)
Year Ended April 30,	
2014	\$ 4,182
2015	3,825
2016	3,608
2017	3,139
2018	2,652

The excess of the cost of an acquired business over the net of the amounts assigned to assets acquired (including identified intangible assets) and liabilities assumed is recorded as goodwill. The Company's goodwill has an indeterminate life and is not amortized, but is tested for impairment on an annual basis, or more frequently if events or changes in circumstances indicate that the asset might be impaired. The book value of goodwill as of October 31, 2012 and April 30, 2012 was \$1.1 million. The annual review at April 30, 2012 indicated no impairment to goodwill and there was no indication of impairment at October 31, 2012. During the quarter ended October 31, 2012, the Company disposed of one multi-family residential property to which goodwill had been assigned, and as a result, approximately \$10,000 of goodwill was derecognized.

USE OF ESTIMATES

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

RECLASSIFICATIONS

Certain previously reported amounts have been reclassified to conform to the current financial statement presentation. The Company reports, in discontinued operations, the results of operations and the related gains or losses of a property that has either been disposed of or is classified as held for sale and otherwise meets the classification of a discontinued operation. As a result of discontinued operations, retroactive reclassifications that change prior period numbers have been made. See Note 7 for additional information. During the first and second quarters of fiscal year 2013, the Company sold four condominium units, a retail property and two multi-family residential properties and classified an additional multi-family residential property as held for sale. During the first quarter of fiscal year 2012 the Company had no real estate dispositions; in the second quarter of fiscal year 2012, the Company sold a small retail property. The results of operations for these properties are included in income from discontinued operations in the Condensed Consolidated Statements of Operations.

INVOLUNTARY CONVERSION OF ASSETS

As previously reported, Minot, North Dakota, where IRET's corporate headquarters is located, experienced significant flooding in June 2011, resulting in extensive damage to the Arrowhead Shopping Center and to the Chateau Apartments property, which consisted of two 32-unit buildings. Additionally, on February 22, 2012, one of the buildings of the Chateau Apartments property, which had been undergoing restoration work following the flood, was completely destroyed by fire. The costs related to clean-up, redevelopment and loss of rents for these properties are being reimbursed to the Company by its insurance carrier, less the Company's deductible of \$200,000 per event under the policy. The Company expensed \$400,000 in fiscal year 2012 for the flood and fire deductibles. During fiscal year 2012, for the Arrowhead and Chateau flood loss, the Company received \$5.7 million of insurance proceeds for flood clean-up costs and redevelopment. In regard to Arrowhead Shopping Center, the total insurance proceeds for redevelopment at April 30, 2012 exceeded the estimated basis in the assets requiring replacement, resulting in the recognition of approximately \$274,000 in gain from involuntary conversion in fiscal year 2012. IRET expects final settlement of the Arrowhead and Chateau flood insurance claims to occur in the third or fourth quarter of fiscal year 2013.

In the second quarter of fiscal year 2013, for the Chateau fire loss, the Company received \$2.9 million of insurance proceeds for redevelopment. The total insurance proceeds for redevelopment related to the Chateau fire at October 31, 2012 exceeded the

Table of Contents

estimated basis in the assets requiring replacement, resulting in the recognition of \$2.3 million in gain from involuntary conversion in the second quarter of fiscal year 2013. The Company expects to rebuild the destroyed building but has no firm estimates at this time for costs or expected completion date of such rebuilding. IRET expects final settlement of the Chateau fire insurance claim to occur when the property is rebuilt.

Final settlement was reached during the second quarter of fiscal year 2013 for business interruption from the flood and fire with proceeds received during the quarter of \$409,000. During fiscal year 2012, approximately \$666,000 was received, for total business interruption proceeds from the claims of \$1.1 million.

NOTE 3 • EARNINGS PER SHARE

Basic earnings per share is computed by dividing net income available to common shareholders by the weighted average number of common shares outstanding during the period. The Company has no outstanding options, warrants, convertible stock or other contractual obligations requiring issuance of additional shares that would result in dilution of earnings. Units can be exchanged for shares on a one-for-one basis after a minimum holding period of one year. The following table presents a reconciliation of the numerator and denominator used to calculate basic and diluted earnings per share reported in the condensed consolidated financial statements for the three and six months ended October 31, 2012 and 2011:

	(in thousands, except per share data)			
	Three Months Ended		Six Months Ended	
	October 31		October 31

NOTE 4 • EQUITY

On August 7, 2012, the Company completed the public offering of 4.6 million Series B Cumulative Redeemable Preferred Shares of Beneficial Interest ("Series B preferred shares") at a price of \$25.00 per share for net proceeds of approximately \$111.2 million after underwriting discounts and estimated offering expenses. These shares are nonvoting and redeemable for cash at \$25.00 per share at the Company's option on or after August 7, 2017. Holders of these shares are entitled to cumulative distributions, payable quarterly (as and if declared by the Board of Trustees). Distributions accrue at an annual rate of \$1.9875 per share, which is equal to 7.95% of the \$25.00 per share liquidation preference (\$115.0 million liquidation preference in the aggregate). The Company contributed the net proceeds from the sale to the Operating Partnership in exchange for 4.6 million Series B preferred units, which carry terms that are substantially the same as the Series B preferred shares. As of October 31, 2012, approximately \$79.0 million of the proceeds of the public offering had been applied to debt repayment. The remaining proceeds of the public offering will be applied by the Operating Partnership to debt repayment, acquisitions and construction costs at the Company's development projects.

The Company has a shelf registration statement under which it has registered common and preferred shares of beneficial interest with an aggregate public offering price of up to \$150.0 million. On January 20, 2012, the Company entered into a continuous equity offering program under this shelf registration statement with BMO Capital Markets Corp. ("BMO") as sales agent,

12

Table of Contents

pursuant to which the Company may from time to time offer and sell its common shares of beneficial interest having an aggregate gross sales price of up to \$100.0 million. Sales of common shares, if any, under the program will depend upon market conditions and other factors to be determined by IRET. During the six months ended October 31, 2012, IRET issued 300,000 common shares under this program for total proceeds (before offering expenses but after underwriting discounts and commissions) of \$2.1 million. IRET issued no shares under a continuous equity offering program during the six months ended October 31, 2011.

During the first quarter of fiscal year 2013, the Company issued approximately 53,000 common shares, with a total grant-date value of approximately \$398,000, under the Company's 2008 Incentive Award Plan, for trustee compensation and executive officer bonuses for fiscal year 2012 performance. During first quarter of fiscal year 2012, the Company issued approximately 53,000 common shares, with a total grant-date value of approximately \$443,000, under the 2008 Incentive Award Plan, for trustee compensation and executive officer bonuses for fiscal year 2011 performance.

During the six months ended October 31, 2012 and 2011, respectively, approximately 128,000 Units and 759,000 Units were converted to common shares, with a total value of approximately \$579,000 and \$3.5 million included in equity. Approximately 43,000 common shares and 46,000 common shares were issued under the Company's 401(k) plan during the six months ended October 31, 2012 and 2011, respectively, with a total value of approximately \$337,000 and \$330,000 included in equity. Under the Company's Distribution Reinvestment and Share Purchase Plan, approximately 3.2 million common shares and 2.3 million common shares were issued during the six months ended October 31, 2012 and 2011, respectively, with a total value of \$24.4 million and \$16.9 million included in equity.

NOTE 5 • SEGMENT REPORTING

IRET reports its results in five reportable segments: multi-family residential, commercial office, commercial medical (including senior housing), commercial industrial and commercial retail properties. The Company's reportable segments are aggregations of similar properties.

IRET measures the performance of its segments based on net operating income ("NOI"), which the Company defines as total real estate revenues and gain on involuntary conversion less real estate expenses and real estate taxes (excluding depreciation and amortization related to real estate investments and impairment of real estate investments). IRET believes that NOI is an important supplemental measure of operating performance for a REIT's operating real estate because it provides a measure of core operations that is unaffected by depreciation, amortization, financing and general and administrative expense. NOI does not represent cash generated by operating activities in accordance with GAAP and should not be considered an alternative to net income, net income available for common shareholders or cash flow from operating activities as a measure of financial performance.

The revenues and net operating income for these reportable segments are summarized as follows for the three and six month periods ended October 31, 2012 and 2011, along with reconciliations to the condensed consolidated financial statements. Segment assets are also reconciled to total assets as reported in the condensed consolidated financial statements.

Three Months Ended October 31, 2012	(in thousands)					Total

NOTE 6 • COMMITMENTS AND CONTINGENCIES

Litigation. The Company is not a party to any legal proceedings which are expected to have a material effect on the Company's liquidity, financial position, cash flows or results of operations. The Company is subject to a variety of legal actions for personal injury or property damage arising in the ordinary course of its business, most of which are covered by liability insurance. Various claims of resident discrimination are also periodically brought, most of which also are covered by insurance. While the resolution of these matters cannot be predicted with certainty, management believes that the final outcome of such legal proceedings and claims will not have a material effect on the Company's liquidity, financial position, cash flows or results of operations.

Insurance. IRET carries insurance coverage on its properties in amounts and types that the Company believes are customarily obtained by owners of similar properties and are sufficient to achieve IRET's risk management objectives.

Purchase Options. The Company has granted options to purchase certain IRET properties to tenants in these properties, under lease agreements. In general, the options grant the tenant the right to purchase the property at the greater of such property's appraised value or an annual compounded increase of a specified percentage of the initial cost of the property to IRET. As of October 31, 2012, the total property cost of the 17 properties subject to purchase options was approximately \$114.2 million, and the total gross rental revenue from these properties was approximately

\$4.8 million for the six months ended October 31, 2012.

Environmental Matters. Under various federal, state and local laws, ordinances and regulations, a current or previous owner or operator of real estate may be liable for the costs of removal of, or remediation of, certain hazardous or toxic substances in, on, around or under the property. While IRET currently has no knowledge of any material violation of environmental laws,

15

Table of Contents

ordinances or regulations at any of its properties, there can be no assurance that areas of contamination will not be identified at any of the Company's properties, or that changes in environmental laws, regulations or cleanup requirements would not result in material costs to the Company.

Restrictions on Taxable Dispositions. Approximately 110 of IRET's properties, consisting of approximately 6.1 million square feet of the Company's combined commercial segments' properties and 4,580 apartment units, are subject to restrictions on taxable dispositions under agreements entered into with some of the sellers or contributors of the properties. The real estate investment amount of these properties (net of accumulated depreciation) was approximately \$825.4 million at October 31, 2012. The restrictions on taxable dispositions are effective for varying periods. The terms of these agreements generally prevent the Company from selling the properties in taxable transactions. The Company does not believe that the agreements materially affect the conduct of the Company's business or decisions whether to dispose of restricted properties during the restriction period because the Company generally holds these and the Company's other properties for investment purposes, rather than for sale. Historically, however, where IRET has deemed it to be in the shareholders' best interests to dispose of restricted properties, it has done so through transactions structured as tax-deferred transactions under Section 1031 of the Internal Revenue Code.

Redemption Value of UPREIT Units. The limited partnership units ("UPREIT Units") of the Company's operating partnership, IRET Properties, are redeemable at the option of the holder for cash, or, at our option, for the Company's common shares of beneficial interest on a one-for-one basis, after a minimum one-year holding period. All UPREIT Units receive the same cash distributions as those paid on common shares. UPREIT Units are redeemable for an amount of cash per Unit equal to the average of the daily market price of an IRET common share for the ten consecutive trading days immediately preceding the date of valuation of the Unit. As of October 31, 2012 and 2011, the aggregate redemption value of the then-outstanding UPREIT Units of the operating partnership owned by limited partners was approximately \$177.8 million and \$143.3 million, respectively.

Joint Venture Buy/Sell Options. Certain of IRET's joint venture agreements contain buy/sell options in which each party under certain circumstances has the option to acquire the interest of the other party, but do not generally require that the Company buy its partners' interests. The Company has no joint ventures in which its joint venture partner can require the Company to buy the partner's interest.

Tenant Improvements. In entering into leases with tenants, IRET may commit itself to fund improvements or build-outs of the rented space to suit tenant requirements. These tenant improvements are typically funded at the beginning of the lease term, and IRET is accordingly exposed to some risk of loss if a tenant defaults prior to the expiration of the lease term, and the rental income that was expected to cover the cost of the tenant improvements is not received. As of October 31, 2012, the Company is committed to fund approximately \$9.0 million in tenant improvements, within approximately the next 12 months.

Development, Expansion and Renovation Projects. As of October 31, 2012, the Company had several development, expansion and renovation projects underway or recently completed, the costs for which have been capitalized, as follows:

Multi-Family Conversion, Minot, North Dakota: The Company is converting an existing approximately 15,000 square foot commercial office building in Minot, North Dakota to a 20-unit multi-family residential property, for an estimated total cost of \$3.0 million and a projected completion date in the fourth quarter of fiscal year 2013. As of October 31, 2012, the Company had incurred approximately \$1.7 million of these project costs.

Senior Housing Memory Care and Assisted Living Units, Laramie, Wyoming: During the second quarter of fiscal year 2012, the Company entered into a contract for the construction of an additional 29 assisted living units at its existing 48-unit Spring Wind senior housing facility in Laramie, Wyoming, and for the conversion of an existing 16 units at the facility to memory care units, for a total, following project completion, of 61 assisted living units and 16 memory care units. The Company estimates that the construction costs for this expansion project will total approximately \$3.8 million and that the project will be completed in the third quarter of fiscal year 2013. As of October 31, 2012, the Company had incurred approximately \$3.4 million of these project costs.

Industrial-Office Build-to-Suit, Minot, North Dakota: During the second quarter of fiscal year 2012, the Company entered into a 10-year, fully net lease with a provider of production enhancement services to the oil and gas industry, to construct and then lease an approximately 28,000 square foot industrial building to be located in Minot, North Dakota on an approximately 9.6-acre parcel of vacant land. Construction began in October 2011, with completion

estimated in the third quarter of fiscal year 2013. Total construction costs are currently estimated at \$6.0 million (including the cost of the land), subject to tenant requested changes. As of October 31, 2012, the Company had incurred approximately \$5.5 million of these estimated construction costs.

Table of Contents

Jamestown Medical Office Building, Jamestown, North Dakota: During the fourth quarter of fiscal year 2012, the Company formed a joint venture to construct a one-story, approximately 45,000 square foot medical office building on an approximately 4.9 acre parcel of land adjacent to the Jamestown Regional Medical Center campus in Jamestown, North Dakota, for a total project cost estimated at \$9.2 million. The land on which the project is being built is held by the joint venture entity under a pre-paid ground lease with an initial term of 79 years and two 10-year renewals. The Company is the majority member of the joint venture, with a 51% interest, and the Company consolidates the joint venture's results in its financial statements; the remaining interest is held by the Company's joint venture partner, a Minnesota limited liability company formed by the principal in a medical leasing and development firm based in Minneapolis, Minnesota. The Company's cash contribution to the project is expected to be approximately \$1.5 million, with the remainder of the project cost being provided by the Company's joint venture partner and from the proceeds of the joint venture entity's \$6.2 million construction loan with Wells Fargo bank. As of October 31, 2012, the joint venture entity had incurred approximately \$5.4 million of the total estimated project costs. Construction of the medical office building began in the fourth quarter of fiscal year 2012, with completion of the project currently expected in the third quarter of fiscal year 2013.

Branch Bank Building, Minot, North Dakota: During the first quarter of fiscal year 2013, the Company entered into an agreement with First International Bank and Trust, Watford City, North Dakota (First International) to construct an approximately 3,700 square-foot building on an outlot of the Company's Arrowhead Shopping Center in Minot, North Dakota, to be leased by First International under a 20-year lease for use as a branch bank location. The total cost of the project is estimated to be approximately \$1.7 million, and the building is currently expected to be completed in the fourth quarter of fiscal year 2013. As of October 31, 2012, the Company had incurred approximately \$601,000 of these estimated project costs. Stephen Stenehjem, a member of the Company's Board of Trustees, is the President and Chairman of First International, and accordingly this transaction was reviewed and approved by the Company's Audit Committee under the Company's related party transactions approval policy, and by the Company's independent trustees.

River Ridge Apartment Homes, Bismarck, ND: During the second quarter of fiscal year 2013, the Company began construction of its 146-unit River Ridge Apartments project in Bismarck, North Dakota. River Ridge is located near IRET's Cottonwood Apartments in Bismarck, and will offer amenities including a pool, exercise facility and underground parking. The Company estimates that the total cost to construct the project will be approximately \$24.2 million. Completion of the project is currently expected in the second quarter of the Company's fiscal year 2014. As of October 31, 2012, the Company had incurred approximately \$3.4 million of the total estimated project costs.

Cypress Court Apartment Homes, St. Cloud, Minnesota: In August 2012, the Company entered into a joint venture agreement with a real estate development and contracting company in St. Cloud, Minnesota, to construct a two-building, 132-unit multi-family residential property in St. Cloud, Minnesota, for an estimated total project cost of \$14.3 million. The Company owns approximately 79% of the joint venture entity, with the remaining approximately 21% owned by its joint venture partner. Completion of the apartment project is currently expected in fourth quarter of the Company's fiscal year 2014. As of October 31, 2012, the Company had incurred approximately \$3.2 million of the total estimated project costs.

Construction interest capitalized for the three month periods ended October 31, 2012 and 2011, respectively, was approximately \$120,000 and \$38,000 for development projects completed and in progress. Construction interest capitalized for the six month periods ended October 31, 2012 and 2011, respectively, was approximately \$281,000 and \$113,000 for development projects completed and in progress.

NOTE 7 • DISCONTINUED OPERATIONS

The Company reports in discontinued operations the results of operations of a property that has either been disposed of or is classified as held for sale. The Company also reports any gains or losses from the sale of a property in discontinued operations. During the second quarter of fiscal year 2013, IRET sold two condominium units and 2 multi-family residential properties. During the first quarter of fiscal year 2013, IRET sold two condominium units and a commercial retail property. During the second quarter of fiscal year 2012, the Company sold a retail property. During the first quarter of fiscal year 2012, the Company had no real estate dispositions. See Note 8 for additional information on the properties sold during the six months ended October 31, 2012 and 2011. Four condominium units and a multi-family residential property were classified as held for sale at October 31, 2012. There were no properties

classified as held for sale at October 31, 2011. The following information shows the effect on net income and the gains or losses from the sale of properties classified as discontinued operations for the three and six months ended October 31, 2012 and 2011:

NOTE 8 • ACQUISITIONS AND DISPOSITIONS**PROPERTY ACQUISITIONS**

During the second quarter of fiscal year 2013, the Company closed on its acquisitions of:

a 58-unit multi-family residential property in Sartell, Minnesota (The Ponds at Heritage Place), on approximately 6.5 acres of land, for a purchase price of approximately \$5.0 million, of which \$3.3 million was paid in cash and the remainder in limited partnership units of the Operating Partnership valued at \$1.7 million;

an approximately 2.6 acre parcel of vacant land in Williston, North Dakota, acquired for possible future development, for a purchase price of approximately \$822,500, paid in cash; and

an approximately 3.8 acre parcel of vacant land in St. Cloud, Minnesota, acquired for possible future development for a purchase price of approximately \$447,000, paid in cash.

During the first quarter of fiscal year 2013, the Company closed on its acquisitions of:

a 308-unit multi-family residential property in Topeka, Kansas, on approximately 18.3 acres of land, for a purchase price of approximately \$17.7 million, of which \$5.2 million was paid in cash with assumed debt of \$12.5 million;

a 232-unit multi-family residential property in Lincoln, Nebraska, on approximately 14.7 acres of land, for a purchase price of approximately \$17.5 million, of which \$14.2 million was paid in cash and the remainder in limited partnership units of the Operating Partnership valued at \$3.3 million; and

a 208-unit multi-family residential property in Lincoln, Nebraska, on approximately 11.5 acres of land, for a purchase price of approximately \$17.3 million, of which \$13.8 million was paid in cash and the remainder in limited partnership units of the Operating Partnership valued at \$3.5 million.

The Company had no development projects placed in service during the second quarter of fiscal year 2013. During the first quarter of fiscal year 2013, the Company placed in service its 159-unit Quarry Ridge Apartment Homes development in Rochester, Minnesota, and placed in service buildings 3 and 4 (totaling 73 units) of its four-building, 145-unit Williston Gardens multi-family residential development in Williston, North Dakota. The Company is the majority member of the joint venture entity that owns the Williston Gardens development, with a 60% interest.

Table of Contents

During the second quarter of fiscal year 2012, the Company closed on the following acquisitions: a medical office property in Edina, Minnesota; two multi-family residential properties in Sioux Falls, South Dakota; seven senior housing projects in Boise, Idaho and towns surrounding Boise; a multi-family residential property in St. Cloud, Minnesota; and two parcels of vacant land, in Minot, North Dakota and Casper, Wyoming, respectively; the Company also placed in-service during the second quarter of fiscal year 2012 an approximately 25,000 square foot medical clinic in Minot, North Dakota. During the first quarter of fiscal year 2012, the Company substantially completed construction of a six-screen movie theater at its existing Buffalo Mall property in Jamestown, North Dakota, for a total cost of \$2.2 million. The Company had no acquisitions during the first quarter of fiscal year 2012.

The Company expensed approximately \$97,000 and \$426,000 of transaction costs related to acquisitions in the six months ended October 31, 2012 and 2011, respectively. The Company's acquisitions and development projects placed in service during the six months ended October 31, 2012 and 2011 are detailed below:

PROPERTY DISPOSITIONS

During the second quarter of fiscal year 2013, the Company sold two condominium units and two-multi-family residential properties for a total sales price of \$7.3 million. Mortgage debt in the amount of \$4.6 million on the two multi-family residential properties was assumed by the buyer. During the first quarter of fiscal year 2013, IRET sold two condominium units and a commercial retail property.

During the second quarter of fiscal year 2012, the Company sold a small retail property in Livingston, Montana, for a sale price of approximately \$2.2 million, with approximately \$1.2 million of the sale proceeds applied to pay off the outstanding mortgage loan balance on the property. The Company had no real estate dispositions in the first quarter of fiscal year 2012. The following table details the Company's dispositions during the six months ended October 31, 2012 and 2011:

Table of Contents**NOTE 9 • MORTGAGES PAYABLE AND LINE OF CREDIT**

The Company's mortgages payable and revolving line of credit are collateralized by substantially all of its properties owned. The majority of the Company's mortgages payable are secured by individual properties or groups of properties, and are non-recourse to the Company, other than for standard carve-out obligations such as fraud, waste, failure to insure, environmental conditions and failure to pay real estate taxes. As of October 31, 2012, the management of the Company believes there are no defaults or material compliance issues in regard to any mortgages payable. Interest rates on mortgages payable range from 3.32% to 8.25%, and the mortgages have varying maturity dates from the current fiscal year through July 1, 2036.

Of the mortgages payable, the balances of fixed rate mortgages totaled \$1.0 billion at October 31, 2012 and April 30, 2012. The balances of variable rate mortgages totaled \$23.5 million and \$16.2 million as of October 31, 2012 and April 30, 2012, respectively. The Company does not utilize derivative financial instruments to mitigate its exposure to changes in market interest rates. Most of the fixed rate mortgages have substantial pre-payment penalties. As of October 31, 2012, the weighted average rate of interest on the Company's mortgage debt was 5.66%, compared to 5.78% on April 30, 2012. The aggregate amount of required future principal payments on mortgages payable as of October 31, 2012, is as follows:

	(in thousands)
Year ended April 30,	
2013 (remainder)	\$25,851
2014	65,375
2015	112,475
2016	91,788
2017	197,488
Thereafter	552,220
Total payments	\$1,045,197

The Company's revolving, multi-bank line of credit with First International Bank and Trust, Watford City, North Dakota, as lead bank, had, as of October 31, 2012, lending commitments of \$60.0 million. As of October 31, 2012, the line of credit was secured by mortgages on 23 properties; under the terms of the line of credit, properties may be added and removed from the collateral pool with the agreement of the lenders. Participants in this credit facility as of October 31, 2012 included, in addition to First International Bank, the following financial institutions: The Bank of North Dakota; First Western Bank and Trust; Dacotah Bank; United Community Bank; American State Bank & Trust Company and Town & Country Credit Union. The line of credit has a current interest rate of 5.15% and a minimum outstanding principal balance requirement of \$10.0 million, and as of October 31, 2012, the Company had borrowed \$10.0 million. The facility includes covenants and restrictions requiring the Company to achieve on a calendar quarter basis a debt service coverage ratio on borrowing base collateral of 1.25x in the aggregate and 1.00x on individual assets in the collateral pool, and the Company is also required to maintain minimum depository account(s) totaling \$6.0 million with First International, of which \$1.5 million is to be held in a non-interest bearing account. As of October 31, 2012, the Company believes it is in compliance with the facility covenants.

NOTE 10 • FAIR VALUE OF FINANCIAL INSTRUMENTS

ASC 820, Fair Value Measurement and Disclosures defines and establishes a framework for measuring fair value.

The objective of fair value is to determine the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). ASC 820 establishes a fair value hierarchy that prioritizes observable and unobservable inputs used to measure fair value into three levels, as follows:

Level 1: Quoted prices in active markets for identical assets

Level 2: Significant other observable inputs

Level 3: Significant unobservable inputs

There were no transfers in and out of Level 1, Level 2 and Level 3 fair value measurements during the six months ended October 31, 2012 and 2011. Fair value estimates may be different than the amounts that may ultimately be realized upon sale or disposition of the assets and liabilities.

Fair Value Measurements on a Recurring Basis

The Company had no assets or liabilities recorded at fair value on a recurring basis at October 31, 2012 and April 30, 2012.

22

Table of Contents

Fair Value Measurements on a Nonrecurring Basis

The Company had no assets or liabilities recorded at fair value on a nonrecurring basis at October 31, 2012 and April 30, 2012.

Financial Assets and Liabilities Not Measured at Fair Value

The following methods and assumptions were used to estimate the fair value of each class of financial assets and liabilities. The fair values of our financial instruments approximate their carrying amount in our consolidated financial statements except for debt.

Cash and Cash Equivalents. The carrying amount approximates fair value because of the short maturity.

Other Investments. The carrying amount, or cost plus accrued interest, of the certificates of deposit approximates fair value.

Other Debt. The fair value of other debt is estimated based on the discounted cash flows of the loan using current market rates, which are estimated based on recent financing transactions (Level 3).

Lines of Credit. The carrying amount approximates fair value because the variable rate debt re-prices frequently.

Mortgages Payable. For variable rate loans that re-price frequently, fair values are based on carrying values. The fair value of fixed rate loans is estimated based on the discounted cash flows of the loans using current market rates, which are estimated based on recent financing transactions (Level 3).

The estimated fair values of the Company's financial instruments as of October 31, 2012 and April 30, 2012, are as follows:

	(in thousands)			
	October 31, 2012		April 30, 2012	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
FINANCIAL ASSETS				
Cash and cash equivalents	\$84,258	\$84,258	\$39,989	\$39,989
Other investments	637	637	634	634
FINANCIAL LIABILITIES				
Other debt	32,775	32,840	13,875	13,973
Line of credit	10,000	10,000	39,000	39,000
Mortgages payable	1,045,197	1,145,970	1,048,689	1,087,082

NOTE 11 • REDEEMABLE NONCONTROLLING INTERESTS

Redeemable noncontrolling interests on our Condensed Consolidated Balance Sheets represent the noncontrolling interest in a joint venture of the Company in which the Company's unaffiliated partner, at its election, could require the Company to buy its interest at a purchase price to be determined by an appraisal conducted in accordance with the terms of the agreement, or at a negotiated price. Redeemable noncontrolling interests are presented at the greater of their carrying amount or redemption value at the end of each reporting period. Changes in the value from period to period are charged to common shares of beneficial interest on our Condensed Consolidated Balance Sheets. The Company acquired its sole redeemable noncontrolling interest from its joint venture partner in the third quarter of fiscal year 2012, and, following this acquisition, currently has no redeemable noncontrolling interests in consolidated real estate entities. Below is a table reflecting the activity of the redeemable noncontrolling interests for the six months ended October 31, 2011.

	(in thousands)
Balance at April 30, 2011	\$ 987

NOTE 12 • SUBSEQUENT EVENTS

Common and Preferred Share Distributions. On December 5, 2012, the Company's Board of Trustees declared a regular quarterly distribution of 13.00 cents per share and unit on the Company's common shares of beneficial interest and the limited partnership units of IRET Properties, payable January 15, 2013, to shareholders and unitholders of record on January 2, 2013. Also on December 5, 2012, the Company's Board of Trustees declared a distribution of 51.56 cents per share on the Company's Series A preferred shares of beneficial interest, payable December 31, 2012 to Series A preferred shareholders of record on December 17, 2012, and declared a distribution of 49.68 cents per share on the Company's Series B preferred shares of beneficial interest, payable December 31, 2012 to Series B preferred shareholders of record on December 17, 2012.

Transfer of Listing. On December 5, 2012, Company provided written notice to the NASDAQ Stock Market, LLC that the Company intends to voluntarily delist its common shares of beneficial interest and Series A preferred shares of beneficial interest from the NASDAQ Global Select Market (the "NASDAQ"), and intends to transfer the listing of its common shares and Series A preferred shares to the New York Stock Exchange ("NYSE"). The Company's common shares and Series A preferred shares have been approved for listing on the NYSE. The Company expects the last day of trading of its common shares and Series A preferred shares on NASDAQ to be on or about December 17, 2012, and expects its common shares and Series A preferred shares to begin trading on the NYSE on or about December 18, 2012, under the symbols "IRET" and "IRET PR," respectively. Until they begin trading on the NYSE, the Company's common shares and Series A preferred shares will remain trading on the NASDAQ.

Disposition. On November 27, 2012, the Company closed on the sale of its Candlelight Apartments in Fargo, North Dakota, for a sale price of approximately \$2.0 million, of which approximately \$1.2 million consisted of the buyer's assumption of the existing mortgage debt on the property, for gross proceeds to the Company of approximately \$701,000.

Pending Acquisitions. The Company has signed purchase agreements to acquire the following properties:

- a 12-building, 116-unit multi-family residential property in Topeka, Kansas on approximately 5.9 acres of land, for a purchase price totaling approximately \$7.6 million, to be paid in cash;
- a 9-building, 336-unit multi-family residential property in Omaha, Nebraska on approximately 18.5 acres of land, for a purchase price of approximately \$28.6 million, to be paid in cash;
- two adjoining parcels of vacant land in Rochester, Minnesota, totaling approximately 24 acres, for a purchase price of approximately \$1.1 million, to be paid in cash;
- an approximately 10 acre parcel of vacant land in Grand Forks, North Dakota, for a total purchase price of approximately \$1.6 million, to be paid in cash; and
- two adjoining parcels of vacant land in Rapid City, South Dakota, totaling approximately 9 acres, for a purchase price of approximately \$879,000, to be paid in cash.

These pending acquisitions are subject to various closing conditions and contingencies, and no assurances can be given that any of these transactions will be completed.

ITEM 2. MANAGEMENT'S DISCUSSION
AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with the unaudited condensed consolidated financial statements included in this report, as well as the Company's audited financial statements for the fiscal year ended April 30, 2012, which are included in the Company's Form 10-K filed with the SEC on July 16, 2012, as amended by the Current Report on Form 8-K filed with the SEC on December 10, 2012.

Forward Looking Statements. Certain matters included in this discussion are forward looking statements within the meaning of the federal securities laws. Although we believe that the expectations reflected in the following statements are based on reasonable assumptions, we can give no assurance that the expectations expressed will actually be achieved. Many factors may cause actual results to differ materially from our current expectations, including general economic conditions, local real estate conditions, the general level of interest rates and the availability of financing and various other economic risks inherent in the business of owning and operating investment real estate.

Overview

This Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") is provided in addition to the accompanying condensed consolidated financial statements and notes to assist readers in understanding our results of operations and financial condition. In addition to this overview, which provides a discussion of our business, an overview of our operating results in the three and six months ended October 31, 2012 compared to the three and six months ended October 31, 2011, and a summary of significant transactions in the second quarter of fiscal year 2013 compared to the second quarter of fiscal year 2012, the MD&A includes, in the Results of Operations subsection below, a discussion of our financial results comparing the three and six months ended October 31, 2012 and the three and six months ended October 31, 2011, and, in the Liquidity and Capital Resources subsection below, a discussion of our financial condition and an analysis of changes in our capital structure and cash flows.

Business. IRET is a self-advised equity REIT engaged in owning and operating income-producing real estate properties. Our investments include multi-family residential properties and commercial office, commercial medical, commercial industrial and commercial retail properties located primarily in the upper Midwest states of Minnesota and North Dakota. Our properties are diversified by type and location. As of October 31, 2012, our real estate portfolio consisted of 85 multi-family residential properties containing 9,934 apartment units and having a total real estate investment amount net of accumulated depreciation of \$493.0 million, and 182 commercial properties containing approximately 12.3 million square feet of leasable space. Our commercial properties consist of:

- 68 commercial office properties containing approximately 5.1 million square feet of leasable space and having a total real estate investment amount net of accumulated depreciation of \$478.6 million;
- 65 commercial medical properties (including senior housing) containing approximately 2.9 million square feet of leasable space and having a total real estate investment amount net of accumulated depreciation of \$416.3 million;
- 19 commercial industrial properties containing approximately 2.9 million square feet of leasable space and having a total real estate investment amount net of accumulated depreciation of \$97.4 million; and
- 30 commercial retail properties containing approximately 1.4 million square feet of leasable space and having a total real estate investment amount net of accumulated depreciation of \$104.4 million.

Our primary source of income and cash is rents associated with multi-family residential and commercial leases. Our business objective is to increase shareholder value by employing a disciplined investment strategy. This strategy is focused on growing assets in desired geographical markets, achieving diversification by property type and location, and adhering to targeted returns in acquiring properties. We intend to continue to achieve our business objective by investing in multi-family residential properties and in commercial office, commercial medical, commercial industrial, and commercial retail properties that are leased to single or multiple tenants, usually for five years or longer, and are located throughout the upper Midwest. We operate mainly within the states of North Dakota and Minnesota, although we also have real estate investments in Colorado, Idaho, Iowa, Kansas, Missouri, Montana, Nebraska, South Dakota, Wisconsin and Wyoming.

Table of Contents

We compete with other owners and developers of multi-family and commercial properties to attract tenants to our properties, and we compete with other real estate investors to acquire properties. Principal areas of competition for tenants are in respect of rents charged and the attractiveness of location and quality of our properties. Competition for investment properties affects our ability to acquire properties we want to add to our portfolio, and the price we pay for acquisitions.

Operating Results. The Company's results of operations in the three and six months ended October 31, 2012 and 2011 were as follows:

(in thousands, except percentages)

Three Months Ended October 31

			\$	%	
	2012	2011	Change	Change	
Real estate revenue	\$64,943	\$60,200	\$4,743	7.9	%
NOI ⁽¹⁾	42,402	34,673	7,729	22.3	%
Net income attributable to Investors Real Estate Trust	8,512	1,285	7,227	562.4	%

(2) See pages 43-44 of the MD&A for the definition of FFO and reconciliations of FFO to net income.

Physical occupancy as of October 31, 2012 compared to October 31, 2011 increased in two of our five reportable segments, decreasing slightly in our multi-family residential, commercial medical and commercial industrial segments, on a stabilized basis and an all-property basis. Stabilized properties are properties owned and in operation for the entirety of the periods being compared (including properties that were redeveloped or expanded during the periods being compared, with properties purchased or sold during the periods being compared excluded from the stabilized property category), and, in the case of development or re-development properties, which have achieved a target level of occupancy.

Physical Occupancy Levels on a Stabilized Property⁽¹⁾ and All Property Basis:

Segments	Stabilized Properties		All Properties	
	As of October 31, 2012	As of October 31, 2011	As of October 31, 2012	As of October 31, 2011
Multi-Family Residential	94.8%	95.2%	94.6%	94.7%
Commercial Office	78.4%	78.0%	78.4%	78.0%
Commercial Medical	94.9%	96.0%	95.2%	96.2%
Commercial Industrial	90.7%	92.3%	90.7%	92.3%
Commercial Retail	88.3%	87.0%	88.3%	87.0%

(1) See page 29 of the MD&A for the definition of Stabilized Property.

Significant Events and Transactions during the Three Months Ended October 31, 2012 and 2011. Summarized below are the Company's significant transactions and events during the second quarters of fiscal years 2013 and 2012:

Three Months Ended October 31, 2012

the acquisition of a multi-family residential property in Sartell, Minnesota, for approximately \$5.0 million, adding 58 units to the Company's multi-family residential portfolio.
the acquisition of two parcels of vacant land for development, in Williston, North Dakota and St. Cloud, Minnesota, respectively.

Table of Contents

- the commencement of construction of the Company's 146-unit River Ridge Apartments project in Bismarck, North Dakota.
- the commencement of construction of the 132-unit Cypress Court Apartment Homes project in St. Cloud, Minnesota, of which the Company owns approximately 79%, with the remaining 21% owned by the Company's joint venture partner.
- the sale of two condominium units in Grand Chute, Wisconsin, and the sale of two multi-family residential properties in Fargo, North Dakota and Moorhead, Minnesota, respectively, for a total sales price of \$7.3 million.
- the completion of a public offering of 4.6 million Series B preferred shares, for net proceeds of approximately \$111.2 million, after underwriting discounts and estimated offering expenses.

Three Months Ended October 31, 2011

- the acquisition of two multi-family residential properties in Sioux Falls, South Dakota, for approximately \$7.0 million, and a multi-family residential property in St. Cloud, Minnesota, for approximately \$10.9 million, adding a total of 221 units to the Company's multi-family residential portfolio.
- the acquisition of a medical office property in Edina, Minnesota, for a purchase price of approximately \$505,000.
- the acquisition of seven senior housing projects in Boise, Idaho and towns surrounding Boise, for a total purchase price of approximately \$33.8 million.
- the completion of construction of an approximately 25,000 square foot, build-to-suit medical clinic in Minot, North Dakota.
- the acquisition of two parcels of vacant land in, respectively, Minot, North Dakota (approximately 9.6 acres) and Casper, Wyoming (approximately 0.39 acres, adjoining the Company's Meadow Wind senior housing facility).
- the sale of a small retail property in Livingston, Montana, for a sale price of approximately \$2.2 million.

Critical Accounting Policies. In preparing the condensed consolidated financial statements management has made estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. A summary of the Company's critical accounting policies is included in the Company's Form 10-K for the fiscal year ended April 30, 2012, filed with the SEC on July 16, 2012, as amended by the Current Report on Form 8-K filed with the SEC on December 10, 2012, in Management's Discussion and Analysis of Financial Condition and Results of Operations. There have been no significant changes to those policies during the three months ended October 31, 2012.

Recent Accounting Pronouncements. For disclosure regarding recent accounting pronouncements and the anticipated impact they will have on our operations, please refer to Note 2 to our condensed consolidated financial statements.

Results of Operations

Consolidated Results of Operations

Revenues. Revenues for the three months ended October 31, 2012 were \$64.9 million compared to \$60.2 million in the three months ended October 31, 2011, an increase of \$4.7 million or 7.9%. Revenues for the six months ended October 31, 2012 were \$126.9 million compared to \$119.4 million in the six months ended October 31, 2011, an increase of \$7.6 million or 6.3%. The increase in revenue for the three and six months ended October 31, 2012 resulted primarily from properties acquired in Fiscal 2013 and 2012, as shown in the table below.

	(in thousands)	
	Increase	
	in Total	Increase
	Revenue	in Total
	Three	Revenue
	Months	Six
	ended	Months
	October	ended
	31,	October
	2012	31, 2012
Rent in Fiscal 2013 primarily from 16 properties acquired or placed in service in Fiscal 2012 in excess of that received in Fiscal 2012 from the same 16 properties	\$2,292	\$ 5,006
Rent in Fiscal 2013 primarily from 4 properties acquired in Fiscal 2013	2,262	3,665
Increase in rent on stabilized properties due primarily to increased occupancy in the multi-family residential segment and increased tenant reimbursements in the commercial office segment ⁽¹⁾	1,213	1,939
Decrease in rent on stabilized properties due primarily to changes within the assisted living portfolio in the commercial medical segment ⁽²⁾	(1,652)	(4,518)
Decrease in straight line rent	(827)	(357)
Decrease in tenant concessions	1,455	1,830
Net increase in total revenue	\$4,743	\$ 7,565

(1) See analysis of multi-family residential and commercial office NOI on pages 31,32, 37 and 38 of the MD&A for additional information.

Decrease in rent was offset by \$1.8 million and \$3.6 million decrease in expense in the three and six months ended (2)October 31, 2012, respectively. See analysis of commercial medical NOI on pages 33 and 39 of the MD&A for additional information.

Changes in Expenses and Net Income. Net income available to common shareholders increased by \$4.9 million and \$5.2 million during the three and six months ended October 31, 2012, compared to the three and six months ended October 31, 2011. The increase in net income is due primarily to an increase in NOI from acquisitions in the three and six months ended October 31, 2012, compared to the same periods in fiscal year 2012, as well as other factors shown by the following analysis:

	Increase in Net	
	Income

Interest Expense. Our mortgage interest expense increased approximately \$236,000, or 1.6%, to \$15.4 million during the second quarter of fiscal year 2013, compared to \$15.2 million in the second quarter of fiscal year 2012. Mortgage interest expense increased approximately \$980,000, or 3.3%, to \$30.8 million during the six months ended October 31, 2012, compared to \$29.8 million in same period of the prior fiscal year. Mortgage interest expense for properties newly acquired in fiscal years 2013 and 2012 added \$1.0 million and \$1.9 million to our total mortgage interest expense in the three and

Table of Contents

six months ended October 31, 2012, while mortgage interest expense on existing properties decreased \$800,000 and \$965,000 for the three and six months ended October 31, 2012, respectively, compared to the same periods of fiscal year 2012. The decrease in mortgage interest expense is due to loan payoffs and refinancings in our stabilized properties portfolio. The mortgage interest expense category does not include interest expense on our line of credit, which totaled approximately \$141,000 and \$706,000 in the three and six months ended October 31, 2012, and \$540,000 and \$1.0 million in the same periods of the prior fiscal year. Mortgage interest expense and interest expense on our line of credit are all components of "Interest expense" on our Condensed Consolidated Statements of Operations. Our overall weighted average interest rate on all outstanding mortgage debt (excluding borrowings under our secured line of credit and construction loans) was 5.66% as of October 31, 2012 and 5.86% as of October 31, 2011. Our mortgage debt on October 31, 2012 decreased approximately \$3.5 million, or 0.3% from April 30, 2012. Mortgage debt does not include our multi-bank line of credit or our construction loans which appear on our Condensed Consolidated Balance Sheets in "Revolving line of credit" and "Other," respectively.

In addition to IRET's mortgage interest expense, the Company incurs interest expense for a line of credit, amortization of loan costs, security deposits, and special assessments offset by capitalized construction interest. For the three months ended October 31, 2012 and 2011 these amounts were approximately \$876,000 and \$1.0 million, respectively, for a total interest expense for the three months ended October 31, 2012 and 2011 of \$16.3 million and \$16.2 million, an increase of approximately \$107,000. For the six months ended October 31, 2012 and 2011 these amounts were \$1.9 million and \$2.2 million, respectively, for a total interest expense for the six months ended October 31, 2012 and 2011 of \$32.7 million and \$32.0 million, an increase of approximately \$745,000.

Net Operating Income

Net Operating Income ("NOI") is a non-GAAP measure which we define as total real estate revenues and gain on involuntary conversion less real estate expenses and real estate taxes (excluding depreciation and amortization related to real estate investments and impairment of real estate investments). We believe that NOI is an important supplemental measure of operating performance for a REIT's operating real estate because it provides a measure of core operations that is unaffected by depreciation, amortization, financing and general and administrative expense.

NOI does not represent cash generated by operating activities in accordance with GAAP and should not be considered an alternative to net income, net income available for common shareholders or cash flow from operating activities as a measure of financial performance.

The following tables show real estate revenues, real estate operating expenses and NOI by reportable operating segment for the three and six months ended October 31, 2012 and 2011. For a reconciliation of net operating income of reportable segments to net income as reported, see Note 5 of the Notes to the Condensed Consolidated Financial Statements in this report.

The tables also show net operating income by reportable operating segment on a stabilized property and non-stabilized property basis. Stabilized properties are properties owned and in operation for the entirety of the periods being compared (including properties that were redeveloped or expanded during the periods being compared, with properties purchased or sold during the periods being compared excluded from the stabilized property category), and, in the case of development or re-development properties, which have achieved a target level of occupancy. This comparison allows the Company to evaluate the performance of existing properties and their contribution to net income.

Management believes that measuring performance on a stabilized property basis is useful to investors because it enables evaluation of how the Company's properties are performing year over year. Management uses this measure to assess whether or not it has been successful in increasing net operating income, renewing the leases of existing tenants, controlling operating costs and appropriately handling capital improvements. The discussion below focuses on the main factors affecting real estate revenue and real estate expenses from stabilized properties, since changes from one fiscal year to another in real estate revenue and expenses from non-stabilized properties are due to the addition of those properties to the Company's real estate portfolio, and accordingly provide less useful information for evaluating the ongoing operational performance of the Company's real estate portfolio.

Table of Contents

An analysis of NOI by segment follows.

Multi-Family Residential

Real estate revenue at stabilized properties in our multi-family residential segment increased by \$786,000 in the three months ended October 31, 2012 compared to the same period in the prior fiscal year. The continued levels of high occupancy provided for the ability to raise rents, and accordingly \$581,000 of this increase was due to rental rate increases. The remainder of the real estate revenue increase is attributable to a decrease of \$162,000, in allowances and concessions and an increase of \$43,000 in other fee revenue items.

Real estate expenses at stabilized properties decreased by \$782,000 in the three months ended October 31, 2012 compared to the same period in the prior fiscal year. The primary factors were decreased maintenance expense of \$616,000, and decreased property management expenses of \$370,000. The decrease in maintenance expenses was primarily due to fewer general maintenance items being completed during the quarter and a decrease in non-reimbursed insurance claims expense. The decrease in property management expense was primarily due to overall efficiencies and cost savings due to internalization of in-house property management. Utilities, real estate taxes and insurance expense combined increased by \$204,000.

In the second quarter of fiscal year 2013, the Company received insurance proceeds for the Chateau Apartments fire loss that exceeded the estimated basis in the assets requiring replacement, resulting in recognition of \$2.3 million in gain from involuntary conversion. Detail on the gain from involuntary conversion is provided in Note 2.

Table of Contents

Commercial Office

Real estate revenue from stabilized properties in our commercial office segment increased by 4.1%, or \$761,000, in the second quarter of fiscal year 2013 compared to the second quarter of fiscal year 2012. While occupancy remained relatively the same for both periods, the increase in revenue was due to increased tenant reimbursements of \$529,000, resulting from increased recoverable operating expenses, and a decrease in allowances and concessions of \$232,000. Real estate expenses at stabilized properties increased by approximately \$579,000 in the second quarter of fiscal year 2013 compared to the second quarter of fiscal 2012. The increase is primarily due to an increase in real estate taxes of \$272,000 and an increase in property management expense of \$412,000, offset by an overall decrease in other expenses of \$105,000. The increase in property management expense is attributable to recoverable allocations of internal management fees as compared to prior periods.

Table of Contents

Commercial Medical

Real estate revenue from stabilized properties in our commercial medical segment decreased by \$2.1 million in the second quarter of fiscal year 2013 compared to the second quarter of fiscal year 2012. The decrease was primarily due to the reduction in revenue of \$1.9 million at our Wyoming senior living facilities (partially offset by a \$1.8 million reduction in real estate expenses, as discussed below), following the restructuring of the Company's assisted living portfolio in the third quarter of fiscal year 2012, when the Company sold its wholly-owned taxable REIT subsidiary. Following the sale of this entity, the Company's revenue from its Wyoming assisted living portfolio is received as rent under the lease agreement with the tenant in the facilities, and property management expenses are paid by the tenant, rather than (as was previously the case) included in the property management expense category of the Company's statements. Additionally, slightly lower occupancy at our property in Sartell, Minnesota also decreased revenue in this segment by approximately \$215,000 in the second quarter of fiscal year 2013 compared to the second quarter of fiscal year 2012.

Real estate expenses from stabilized properties decreased by \$1.8 million, primarily due to the portfolio restructuring discussed above.

Table of Contents

Commercial Industrial

Real estate revenue from stabilized properties in our commercial industrial segment increased by approximately \$11,000 in the second quarter of fiscal year 2013 compared to the second quarter of fiscal year 2012. The increase was primarily due to increased tenant reimbursements of \$32,000, offset by a decrease in occupancy which resulted in \$21,000 of lost rent.

Real estate expenses from stabilized properties decreased by approximately \$200,000 in the second quarter of fiscal 2013 compared to the second quarter of fiscal 2012. General maintenance expenses overall decreased by \$94,000 and real estate taxes decreased by \$81,000 with a decrease in other expense categories of \$25,000.

Table of Contents

Commercial Retail

Real estate revenue from stabilized properties in our commercial retail segment increased by \$374,000 in the second quarter of fiscal year 2013 compared to the second quarter of fiscal year 2012. The increase was due primarily to a \$340,000 increase in real estate rentals with the remaining increase of \$34,000 being attributable to tenant reimbursements. Increased occupancy and stabilization of our Minot Arrowhead Shopping Center post-flood accounted for \$275,000 of the increase in real estate rentals.

Real estate expenses from stabilized properties increased by \$199,000, primarily due to an increase in general maintenance expense of \$60,000, an increase in real estate taxes of \$43,000, an increase in property management expenses of \$77,000 and an increase in other expense items of \$19,000. The increase in property management expenses was due primarily to an increase in bad debt provision expense.

Table of Contents

An analysis of NOI by segment follows.

Multi-Family Residential

Real estate revenue from stabilized properties in our multi-family residential segment increased by \$1.7 million in the six months ended October 31, 2012 compared to the same period in the prior fiscal year. The continued levels of high occupancy provided for the ability to raise rents, and accordingly \$1.3 million of this increase was due to rental rate increases. The remainder of the real estate revenue increase is attributable to a decrease of \$280,000 in allowances and concessions and an increase of \$127,000 in other fee revenue items.

Real estate expenses at stabilized properties decreased by \$815,000 in the six months ended October 31, 2012 compared to the same period in the prior fiscal year. Utilities, real estate taxes and insurance expense combined increased by \$309,000; maintenance expense decreased by \$487,000, and property management expenses decreased by \$637,000 for a net decrease of \$815,000. Maintenance expenses decreased primarily due to decreases in maintenance salaries and benefits and non-reimbursed insurance claims expenses. The decreases in property management expenses were primarily due to overall efficiencies and cost savings due to internalization of in-house property management.

In the second quarter of fiscal year 2013, the Company received insurance proceeds for the Chateau Apartments fire loss that exceeded the estimated basis in the assets requiring replacement, resulting in recognition of \$2.3 million in gain from involuntary conversion. Detail on the gain from involuntary conversion is provided in Note 2.

Commercial Office

Real estate revenue from stabilized properties in our commercial office segment increased by \$585,000 in the six months ended October 31, 2012 compared to the same period from the prior fiscal year. Real estate rentals increased by \$376,000 and tenant reimbursements increased by \$209,000 due to a slight increase in occupancy and increased recoverable operating expenses.

Real estate expenses at stabilized properties increased by 5.2%, or \$926,000 in the six months ended October 31, 2012 compared to the same period from the prior fiscal year. The increase was primarily due to an increase in real estate taxes of \$387,000; an increase in property management expense of \$608,000 and a decrease of \$69,000 in other expense items. The increase in property management expenses is attributable to recoverable allocations of internal management fees as compared to prior periods.

Table of Contents

Commercial Medical

Real estate revenue from stabilized properties in our commercial medical segment decreased by \$4.4 million in the six months ended October 31, 2012 compared to the same period in the prior fiscal year. The decrease was due to a reduction in real estate rentals of \$4.5 million and a slight increase in tenant reimbursements of \$119,000. The decrease in real estate rentals was primarily due to a reduction in revenue of \$3.9 million at our Wyoming senior living facilities (partially offset by a \$3.6 million reduction in real estate expenses, as discussed below), following the restructuring of the Company's assisted living portfolio in the third quarter of fiscal year 2012, when the Company sold its wholly-owned taxable REIT subsidiary. Following the sale of this entity, the Company's revenue from its Wyoming assisted living portfolio is received as rent under the lease agreement with the tenant in the facilities, and property management expenses are paid by the tenant, rather than (as was previously the case) included in the property management expenses category of the Company's statements. Additionally, slightly lower occupancy at our property in Sartell, Minnesota also decreased revenue in this segment by approximately \$392,000 in the six months ended October 31, 2012, as compared to the same period in the prior fiscal year.

Real estate expenses from stabilized properties decreased by \$3.4 million primarily due to the portfolio restructuring discussed above, which reduced real estate expenses by \$3.6 million. These expense reductions were offset by an increase in other real estate expenses of \$264,000.

Commercial Industrial

Real estate revenue from stabilized properties in our commercial industrial segment increased by \$36,000 in the six months ended October 31, 2012 compared to the same period in the prior fiscal year. The increase was primarily due to increased tenant reimbursements of \$99,000 offset by a decrease in occupancy which resulted in \$63,000 of lost rent.

Real estate expenses from stabilized properties decreased by \$146,000 in the six months ended October 31, 2012 compared to the same period in the prior fiscal year. Utilities, insurance and property management expenses combined increased by \$34,000, general maintenance expenses decreased by \$84,000 and real estate taxes decreased by \$96,000.

Commercial Retail

Real estate revenue from stabilized properties in our commercial retail segment increased by approximately \$517,000 in the six months ended October 31, 2012 compared to the same period of the prior fiscal year. The increase was due primarily to a \$442,000 increase in real estate rentals with the remaining increase of \$75,000 being attributable to tenant reimbursements. Increased occupancy and stabilization of our Minot Arrowhead Shopping Center post-flood accounted for \$346,000 of the increase in real estate rentals.

Real estate expenses from stabilized properties increased by \$290,000, primarily due to an increase in general maintenance expense of \$150,000, and an increase in other expense items of \$140,000.

Table of Contents**CREDIT RISK**

The following table lists our top ten commercial tenants on October 31, 2012, for all commercial properties owned by us, measured by percentage of total commercial segments' minimum rents as of October 1, 2012. Our results of operations are dependent on, among other factors, the economic health of our tenants. We attempt to mitigate tenant credit risk by working to secure creditworthy tenants that meet our underwriting criteria and monitoring our portfolio to identify potential problem tenants. We believe that our credit risk is also mitigated by the fact that no individual tenant accounts for more than 10% of our total real estate rentals, although affiliated entities of Edgewood Vista together accounted for approximately 13.2% of our total commercial segments' minimum rents as of October 1, 2012, and they accounted for approximately 7.9% of our total real estate rentals as of October 1, 2012.

Lessee	% of Total Commercial Segments' Minimum Rents as of October 1, 2012

PROPERTY ACQUISITIONS AND DISPOSITIONS

During the second quarter of fiscal year 2013, the Company closed on its acquisitions of:

a 58-unit multi-family residential property in Sartell, Minnesota (The Ponds at Heritage Place), on approximately 6.5 acres of land, for a purchase price of approximately \$5.0 million, of which \$3.3 million was paid in cash and the remainder in limited partnership units of the Operating Partnership valued at \$1.7 million;

an approximately 2.6 acre parcel of vacant land in Williston, North Dakota, acquired for possible future development, for a purchase price of approximately \$822,500, paid in cash; and

an approximately 3.8 acre parcel of vacant land in St. Cloud, Minnesota, acquired for possible future development for a purchase price of approximately \$447,000, paid in cash.

During the first quarter of fiscal year 2013, the Company closed on its acquisitions of:

a 308-unit multi-family residential property in Topeka, Kansas, on approximately 18.3 acres of land, for a purchase price of approximately \$17.7 million, of which \$5.2 million was paid in cash with assumed debt of \$12.5 million;

a 232-unit multi-family residential property in Lincoln, Nebraska, on approximately 14.7 acres of land, for a purchase price of approximately \$17.5 million, of which \$14.2 million was paid in cash and the remainder in limited partnership units of the Operating Partnership valued at \$3.3 million; and

a 208-unit multi-family residential property in Lincoln, Nebraska, on approximately 11.5 acres of land, for a purchase price of approximately \$17.3 million, of which \$13.8 million was paid in cash and the remainder in limited partnership units of the Operating Partnership valued at \$3.5 million.

The Company had no development projects placed in service during the second quarter of fiscal year 2013. During the first quarter of fiscal year 2013, the Company placed in service its 159-unit Quarry Ridge Apartment Homes development in Rochester, Minnesota, and placed in service buildings 3 and 4 (totaling 73 units) of its four-building, 145-unit Williston Gardens

Table of Contents

multi-family residential development in Williston, North Dakota. The Company is the majority member of the joint venture entity that owns the Williston Gardens development, with a 60% interest.

During the second quarter of fiscal year 2013, the Company sold two condominium units and two-multi-family residential properties for a total sales price of \$7.3 million. Mortgage debt in the amount of \$4.6 million on the two multi-family residential properties was assumed by the buyer. During the first quarter of fiscal year 2013, IRET sold two condominium units and a commercial retail property.

During the second quarter of fiscal year 2012, the Company sold a small retail property in Livingston, Montana, for a sale price of approximately \$2.2 million, with approximately \$1.2 million of the sale proceeds applied to pay off the outstanding mortgage loan balance on the property. The Company had no real estate dispositions in the first quarter of fiscal year 2012.

See Note 8 of Notes to Condensed Consolidated Financial Statements above for a table detailing the Company's acquisitions and dispositions during the six month periods ended October 31, 2012 and 2011.

FUNDS FROM OPERATIONS

IRET considers Funds from Operations ("FFO") a useful measure of performance for an equity REIT. IRET uses the definition of FFO adopted by the National Association of Real Estate Investment Trusts, Inc. ("NAREIT"). NAREIT defines FFO to mean "net income (computed in accordance with generally accepted accounting principles), excluding gains (or losses) from sales of property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures will be calculated to reflect funds from operations on the same basis." In addition, in October 2011 NAREIT clarified its computation of FFO so as to exclude impairment charges for all periods presented. Because of limitations of the FFO definition adopted by NAREIT, IRET has made certain interpretations in applying the definition. IRET believes all such interpretations not specifically provided for in the NAREIT definition are consistent with the definition.

IRET management considers that FFO, by excluding depreciation costs, impairment write-downs, the gains or losses from the sale of operating real estate properties and extraordinary items as defined by U.S. GAAP, is useful to investors in providing an additional perspective on IRET's operating results. Historical cost accounting for real estate assets in accordance with U.S. GAAP assumes, through depreciation, that the value of real estate assets decreases predictably over time. However, real estate asset values have historically risen or fallen with market conditions. NAREIT's definition of FFO, by excluding depreciation costs, reflects the fact that real estate, as an asset class, generally appreciates over time and that depreciation charges required by U.S. GAAP may not reflect underlying economic realities. Additionally, the exclusion, in NAREIT's definition of FFO, of impairment write-downs and gains and losses from the sales of previously depreciated operating real estate assets, assists IRET management and investors in identifying the operating results of the long-term assets that form the core of IRET's investments, and assists in comparing those operating results between periods. FFO is used by IRET management and investors to identify trends in occupancy rates, rental rates and operating costs.

While FFO is widely used by REITs as a primary performance metric, not all real estate companies use the same definition of FFO or calculate FFO in the same way. Accordingly, FFO presented here is not necessarily comparable to FFO presented by other real estate companies. FFO should not be considered as an alternative to net income as determined in accordance with U.S. GAAP as a measure of IRET's performance, but rather should be considered as an additional, supplemental measure, and should be viewed in conjunction with net income as presented in the consolidated financial statements included in this report. FFO does not represent cash generated from operating activities in accordance with U.S. GAAP, and is not necessarily indicative of sufficient cash flow to fund all of IRET's needs or its ability to service indebtedness or make distributions.

FFO applicable to common shares and Units for the three and six months ended October 31, 2012 increased to \$20.7 million compared to \$15.2 million, and \$38.3 million compared to \$31.0 million for the comparable periods ended October 31, 2011, an increase of 36.2% and 23.4%, respectively.

Real estate depreciation and amortization consists of the sum of depreciation/amortization related to real estate investments and amortization related to non-real estate investments from the Condensed Consolidated Statements (1) of Operations, totaling \$16,506 and \$14,874, and depreciation/amortization from Discontinued Operations of \$50 and \$77, less corporate-related depreciation and amortization on office equipment and other assets of \$36 and \$61, for the three months ended October 31, 2012 and 2011, respectively.

(2) UPREIT Units of the Operating Partnership are exchangeable for cash, or, at the Company's discretion, for common shares of beneficial interest on a one-for-one basis.

(3) Net income attributable to Investors Real Estate Trust is calculated on a per share basis. FFO is calculated on a per share and unit basis.

Real estate depreciation and amortization consists of the sum of depreciation/amortization related to real estate investments and amortization related to non-real estate investments from the Condensed Consolidated Statements (4) of Operations, totaling \$32,728 and \$29,682, and depreciation/amortization from Discontinued Operations of \$114 and \$169, less corporate-related depreciation and amortization on office equipment and other assets of \$135 and \$138, for the six months ended October 31, 2012 and 2011, respectively.

DISTRIBUTIONS

The following distributions per common share and unit were paid during the six months ended October 31 of fiscal years 2013 and 2012:

LIQUIDITY AND CAPITAL RESOURCES

OVERVIEW

The Company's principal liquidity demands are maintaining distributions to the holders of the Company's common and preferred shares of beneficial interest and UPREIT Units, capital improvements and repairs and maintenance to the Company's properties, acquisition of additional properties, property development, tenant improvements and debt service and repayments.

The Company has historically met its short-term liquidity requirements through net cash flows provided by its operating activities, and, from time to time, through draws on secured and unsecured lines of credit (the Company currently has one multi-bank line of credit with a total commitment capacity of \$60.0 million, secured by mortgages on 23 Company properties). Management considers the Company's ability to generate cash from property operating activities, cash-out refinancing of existing properties and, from time to time, draws on its line of credit to be adequate to meet all operating requirements and to make distributions to its shareholders in accordance with the REIT provisions of the Internal Revenue Code. Budgeted expenditures for ongoing maintenance and capital improvements and renovations to our real estate portfolio are also generally expected to be funded from existing cash on hand, cash flow generated from property operations, cash-out refinancing of existing properties, and/or new borrowings.

However, the commercial real estate market continues to experience significant challenges including reduced tenant demand, occupancies and rental rates. In the event of deterioration in property operating results, or absent the Company's ability to successfully continue cash-out refinancing of existing properties and/or new borrowings, the Company may need to consider additional cash preservation alternatives, including scaling back development activities, capital improvements and renovations and reducing the level of distributions to shareholders.

To the extent the Company does not satisfy its long-term liquidity requirements, which consist primarily of maturities under the Company's long-term debt, construction and development activities and potential acquisition opportunities, through net cash flows provided by operating activities and its credit facilities, the Company intends to satisfy such requirements through a combination of funding sources which the Company believes will be available to it, including the issuance of UPREIT Units, additional common or preferred equity, proceeds from the sale of properties, and additional long-term secured or short-term unsecured indebtedness.

SOURCES AND USES OF CASH

While the economy continues to recover and credit markets are stable, underwriting on commercial real estate continues to be more conservative compared to the underwriting standards employed prior to the recessionary period.

We continue to expect to be able to refinance our maturing debt, but we also expect lenders to continue to employ conservative underwriting regarding asset quality, occupancy levels and tenant creditworthiness, and accordingly we are cautious regarding our ability in the remainder of fiscal year 2013 to rely on cash-out refinancing at levels we have achieved in recent years to provide funds for investment opportunities and other corporate purposes. Additionally, while to date there has been no material negative impact on our ability to borrow in our multi-family segment, we continue to closely monitor proposals such as the Federal Housing Finance Agency's proposal released in February 2012, to modify the roles of the Federal Home Loan Mortgage Corporation (Freddie Mac) and the Federal National Mortgage Association (Fannie Mae) in financing multi-family residential properties. As we have previously noted, we consider that one of the consequences of a modification in the agencies' roles could potentially be a narrowing of their lending focus away from the smaller secondary or tertiary markets which we generally target, to multi-family residential properties in major metropolitan markets. IRET obtains a majority of its multi-family debt from primarily Freddie Mac. Our current plan is to refinance a majority of our maturing multi-family debt with these two entities, so any change in their ability or willingness to lend going forward will most likely result in higher loan costs or more constricted availability of financing for us; accordingly, we continue to closely monitor announcements regarding both firms. As of October 31, 2012, approximately 24.0%, or \$2.9 million, of our mortgage debt maturing in the third and fourth quarters of fiscal year 2013 is debt placed on multi-family residential assets, and approximately 76.0%, or \$9.2 million, is debt placed on properties in our four commercial segments. Of this \$12.1 million, approximately \$2.9 million will be extended for one year, as allowed by the mortgage agreement, and will mature in the fourth quarter of fiscal year 2014. As of October 31, 2012, approximately 51.0%, or \$14.7 million, of our mortgage debt maturing in the next twelve months is debt placed on multi-family residential assets, and approximately 49.0%, or \$14.1 million,

is debt placed on properties in our four commercial segments.

The Company's revolving, multi-bank line of credit with First International Bank and Trust, Watford City, North Dakota, as lead bank, had, as of October 31, 2012, lending commitments of \$60.0 million. As of October 31, 2012, the line of credit was secured by mortgages on 23 properties; under the terms of the line of credit, properties may be added and removed from the collateral pool with the agreement of the lenders. Participants in this credit facility as of October 31, 2012 included, in addition to First International Bank, the following financial institutions: The Bank of North Dakota; First Western Bank and Trust; Dacotah Bank;

Table of Contents

United Community Bank; American State Bank & Trust Company and Town & Country Credit Union. The line of credit has a current interest rate of 5.15% and a minimum outstanding principal balance requirement of \$10.0 million, and as of October 31, 2012, the Company had borrowed \$10.0 million. The facility includes covenants and restrictions requiring the Company to achieve on a calendar quarter basis a debt service coverage ratio on borrowing base collateral of 1.25x in the aggregate and 1.00x on individual assets in the collateral pool, and the Company is also required to maintain minimum depository account(s) totaling \$6.0 million with First International, of which \$1.5 million is to be held in a non-interest bearing account. As of October 31, 2012, the Company believes it is in compliance with the facility covenants.

The Company maintains compensating balances, not restricted as to withdrawal, with several financial institutions in connection with financing received from those institutions and/or to ensure future credit availability. At October 31, 2012, the Company's compensating balances totaled \$8.9 million and consisted of the following: Dacotah Bank, Minot, North Dakota, deposit of \$350,000; United Community Bank, Minot, North Dakota, deposit of \$275,000; Commerce Bank, A Minnesota Banking Corporation, deposit of \$250,000; First International Bank, Watford City, North Dakota, deposit of \$6.1 million; Peoples State Bank of Velva, North Dakota, deposit of \$225,000; Equity Bank, Minnetonka, Minnesota, deposit of \$300,000; Associated Bank, Green Bay, Wisconsin, deposit of \$500,000; Venture Bank, Eagan, Minnesota, deposit of \$500,000, and American National Bank, Omaha, Nebraska, deposit of \$400,000. The issuance of UPREIT Units for property acquisitions continues to be an expected source of capital for the Company. In the three months ended October 31, 2012, approximately 204,000 Units, valued at issuance at \$1.7 million were issued in connection with the Company's acquisition of property. During the six months ended October 31, 2012, 1.1 million Units, valued at issuance at \$8.1 million were issued in connection with the Company's acquisition of property. In the three and six months ended October 31, 2011, approximately 226,000 Units, valued at issuance at \$2.0 million were issued in connection with the Company's acquisition of two properties.

The Company has a Distribution Reinvestment and Share Purchase Plan ("DRIP"). The DRIP provides common shareholders and UPREIT Unitholders of the Company an opportunity to invest their cash distributions in common shares of the Company, and purchase additional shares through voluntary cash contributions, at a discount (currently 3%) from the market price. The maximum monthly voluntary cash contribution permitted without prior Company approval is currently \$10,000. The Company can issue waivers to DRIP participants to provide for investments in excess of the \$10,000 maximum monthly investment. There were no waivers issued during the three months ended October 31, 2012. During the three months ended October 31, 2012, the Company issued a total of approximately 1.3 million common shares under its DRIP through reinvestments and voluntary cash contributions, with a total value of \$9.9 million. During the six months ended October 31, 2012 the Company issued a total of approximately 3.2 million common shares under its DRIP through reinvestments and voluntary cash contributions with a total value of \$24.4 million. During the three months ended October 31, 2011, the Company issued a total of approximately 1.7 million common shares under its DRIP through reinvestments and voluntary cash contributions, with a total value of \$12.4 million. During the six months ended October 31, 2011, the Company issued a total of approximately 2.3 million common shares under its DRIP through reinvestments and voluntary cash contributions, with a total value of \$16.9 million.

Cash and cash equivalents on October 31, 2012 totaled \$84.3 million, compared to \$32.7 million on October 31, 2011, an increase of approximately \$51.6 million. Net cash provided by operating activities for the six months ended October 31, 2012 increased by approximately \$10.8 million, primarily due to collections of accounts receivable and an increase in net income with depreciation and amortization added back, compared to the six months ended October 31, 2011. Net cash used by investing activities increased by \$9.3 million for the six months ended October 31, 2012 compared to the six months ended October 31, 2011, primarily due to an increase in payments for acquisitions and improvements of real estate and a decrease in disbursements of lender holdbacks for improvements, net of an increase in proceeds from the sale of discontinued operations. Net cash provided by financing activities was \$84.9 million for the six months ended October 31, 2012, compared to \$33.6 million in the comparable period of the prior year. The increase in funds provided by financing activity was primarily due to proceeds from a public offering of preferred shares, net of an increase in principal payments on mortgages payable and the pay down of the Company's line of credit in the six months ended October 31, 2012 as compared to the six months ended October 31, 2011.

Table of Contents

FINANCIAL CONDITION

Mortgage Loan Indebtedness. Mortgage loan indebtedness decreased by \$3.5 million as of October 31, 2012, compared to April 30, 2012, due to principal payments and loans that were paid off. As of October 31, 2012, approximately 97.7% of the Company's \$1.0 billion of mortgage debt is at fixed rates of interest, with staggered maturities. This limits the Company's exposure to changes in interest rates, which minimizes the effect of interest rate fluctuations on the Company's results of operations and cash flows. As of October 31, 2012, the weighted average rate of interest on the Company's mortgage debt was 5.66%, compared to 5.78% on April 30, 2012.

Property Owned. Property owned increased to \$2.0 billion at October 31, 2012 from \$1.9 billion at April 30, 2012. During the six months ended October 31, 2012, the Company acquired six additional investment properties, placed two construction projects in service and disposed of three properties and four condominium units, as described above in the "Property Acquisitions and Dispositions" subsection of this Management's Discussion and Analysis of Financial Condition and Results of Operations.

Cash and Cash Equivalents. Cash and cash equivalents on hand on October 31, 2012 were \$84.3 million, compared to \$40.0 million on April 30, 2012.

Other Investments. Other investments, consisting of certificates of deposit held primarily for compensating balances, totaled approximately \$637,000 and \$634,000 on October 31, 2012 and on April 30, 2012, respectively.

Operating Partnership Units. Outstanding units in the Operating Partnership increased to 21.3 million Units at October 31, 2012 compared to 20.3 million Units outstanding at April 30, 2012. The increase resulted primarily from the issuance of Units in exchange for property, net of the conversion of Units to common shares.

Common and Preferred Shares of Beneficial Interest. Common shares of beneficial interest outstanding on October 31, 2012 totaled 93.2 million, compared to 89.5 million outstanding on April 30, 2012. During the six months ended October 31, 2012, IRET issued approximately 300,000 common shares under its continuous equity offering program for total proceeds (before offering expenses but after underwriting discounts and commissions) of \$2.1 million. The Company issued common shares pursuant to its Distribution Reinvestment and Share Purchase Plan, consisting of approximately 3.2 million common shares issued during the six months ended October 31, 2012, for a total value of \$24.4 million. Conversions of approximately 128,000 UPREIT Units to common shares, for a total of approximately \$578,000 in IRET shareholders' equity, also increased the Company's common shares of beneficial interest outstanding during the six months ended October 31, 2012.

On August 7, 2012, the Company completed the public offering of 4.6 million Series B Cumulative Redeemable Preferred Shares of Beneficial Interest ("Series B preferred shares") at a price of \$25.00 per share for net proceeds of approximately \$111.2 million after underwriting discounts and estimated offering expenses. These shares are nonvoting and redeemable for cash at \$25.00 per share at the Company's option on or after August 7, 2017. Holders of these shares are entitled to cumulative distributions, payable quarterly (as and if declared by the Board of Trustees). Distributions accrue at an annual rate of \$1.9875 per share, which is equal to 7.95% of the \$25.00 per share liquidation preference (\$115.0 million liquidation preference in the aggregate). The Company contributed the net proceeds from the sale to the Operating Partnership in exchange for 4.6 million Series B preferred units, which carry terms that are substantially the same as the Series B preferred shares.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our exposure to market risk is limited primarily to fluctuations in the general level of interest rates on our current and future fixed and variable rate debt obligations.

Variable interest rates. Because approximately 97.7% and 98.5% of our debt, as of October 31, 2012 and April 30, 2012, respectively, is at fixed interest rates, we have little exposure to interest rate fluctuation risk on our existing debt, and accordingly interest rate fluctuations during the second quarter of fiscal year 2013 did not have a material effect on the Company. However, even though our goal is to maintain a fairly low exposure to interest rate risk, we are still vulnerable to significant fluctuations in interest rates on any future repricing or refinancing of our fixed or variable rate debt, and on future debt. We primarily use long-term (more than nine years) and medium term (five to seven years) debt as a source of capital. We do not currently use derivative securities, interest rate swaps or any other type of hedging activity to manage our interest rate risk. As of October 31, 2012, we had the following amount of future principal and interest payments due on mortgages secured by our real estate:

(in thousands)									
Future Principal Payments									
Remaining									
	Fiscal	Fiscal	Fiscal	Fiscal	Fiscal	Thereafter	Total	Fair Value	
	2013	2014	2015	2016	2017				
Mortgages									
Fixed Rate	\$25,645	\$64,483	\$95,381	\$91,664	\$197,359	\$547,129	\$1,021,661	\$1,122,434	
Average Fixed Interest Rate ⁽¹⁾	5.67 %	5.59 %	5.47 %	5.39 %	4.90 %				
Variable Rate	\$206	\$892	\$17,094	\$124	\$129	\$5,091	\$23,536	\$23,536	
Average Variable Interest Rate ⁽¹⁾	4.44 %	4.34 %	5.03 %	3.34 %	3.33 %				
							\$1,045,197	\$1,145,970	

(in thousands)									
Future Interest Payments									
Remaining									
	Fiscal	Fiscal	Fiscal	Fiscal	Fiscal	Thereafter	Total		
	2013	2014	2015	2016	2017				
Mortgages									
Fixed Rate	\$28,986	\$55,642	\$50,984	\$45,075	\$36,447	\$89,879	\$307,013		
Variable Rate	522	1,013	452	178	174	320	2,659		
							\$309,672		

(1) Interest rate given is for the entire year.

The weighted average interest rate on our fixed rate and variable rate debt as of October 31, 2012, was 5.66%. Any fluctuations in variable interest rates could increase or decrease our interest expenses. For example, an increase of one percent per annum on our \$23.5 million of variable rate indebtedness would increase our annual interest expense by approximately \$235,000.

ITEM 4. CONTROLS AND PROCEDURES

IRET's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rule

13a-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of October 31, 2012, such disclosure controls and procedures were effective to ensure that information required to be disclosed by IRET in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms, and is accumulated and communicated to management, including the Company's principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

Internal Control Over Financial Reporting: There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rule 13a-15(f) under the Securities and Exchange Act of 1934, as amended) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings

In the course of our operations, we become involved in litigation. At this time, we know of no pending or threatened proceedings that would have a material impact upon us.

Item 1A. Risk Factors

Important factors that could cause our actual results to be materially different from expectations expressed in forward-looking statements include the risk factors previously disclosed in our Annual Report on Form 10-K for the fiscal year ended April 30, 2012.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the first and second quarters of fiscal year 2013, respectively, the Company issued an aggregate of 89,241 and 75,239 unregistered common shares to holders of limited partnership units of IRET Properties, on a one-for-one basis upon redemption and conversion of an equal number of limited partnership units. All such issuances of common shares were exempt from registration as private placements under Section 4(2) of the Securities Act, including Regulation D promulgated thereunder. The Company has registered the re-sale of such common shares under the Securities Act.
