NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

Note 1: Summary of Significant Accounting Policies

Financial Statement Preparation

The unaudited condensed consolidated financial statements as of June 29, 2014, and for the quarter and three quarters ended June 29, 2014 and June 30, 2013, have been prepared by Starbucks Corporation under the rules and regulations of the Securities and Exchange Commission ("SEC"). In the opinion of management, the financial information for the quarter and three quarters ended June 29, 2014 and June 30, 2013 reflects all adjustments and accruals, which are of a normal recurring nature, necessary for a fair presentation of the financial position, results of operations and cash flows for the interim periods. In this Quarterly Report on Form 10-Q ("10-Q") Starbucks Corporation is referred to as "Starbucks," the "Company," "we," "us" or "our."

The financial information as of September 29, 2013 is derived from our audited consolidated financial statements and notes for the fiscal year ended September 29, 2013 ("fiscal 2013") included in Item 8 in the Fiscal 2013 Annual Report on Form 10-K (the "10-K"). The information included in this 10-Q should be read in conjunction with the footnotes and management's discussion and analysis of the financial statements in the 10-K.

The results of operations for the quarter and three quarters ended June 29, 2014 are not necessarily indicative of the results of operations that may be achieved for the entire fiscal year ending September 28, 2014 ("fiscal 2014").

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued guidance outlining a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers that supersedes most current revenue recognition guidance. This guidance requires an entity to recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Additionally, this guidance expands related disclosure requirements. The guidance will become effective for us at the beginning of our first quarter of fiscal 2018 and will require full or modified retrospective application. We are currently evaluating the impact this guidance will have on our financial statements as well as the expected adoption method.

In April 2014, the FASB issued guidance that changes the criteria for reporting discontinued operations. To qualify as a discontinued operation under the amended guidance, a component or group of components of an entity that has been disposed of or is classified as held for sale must represent a strategic shift that has or will have a major effect on the entity's operations and financial results. This guidance also expands related disclosure requirements. The guidance will become effective for us at the beginning of our first quarter of fiscal 2016. We do not expect the adoption of this guidance will have a material impact on our financial statements.

In July 2013, the FASB issued guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. This guidance requires the unrecognized tax benefit to be presented in the financial statements as a reduction to a deferred tax asset. When a deferred tax asset is not available, or the asset is not intended to be used for this purpose, the unrecognized tax benefit should be presented in the financial statements as a liability and not netted with a deferred tax asset. The guidance will become effective for us at the beginning of our first quarter of fiscal 2015. We do not expect the adoption of this guidance will have a material impact on our financial statements.

In March 2013, the FASB issued guidance on a parent's accounting for the cumulative translation adjustment upon derecognition of certain subsidiaries or groups of assets within a foreign entity or of an investment in a foreign entity. This guidance requires a parent to release any related cumulative translation adjustment into net income only if the sale or transfer results in the complete or substantially complete liquidation of the foreign entity in which the subsidiary or group of assets had resided. The guidance will become effective for us at the beginning of our first quarter of fiscal 2015. We do not expect the adoption of this guidance will have a material impact on our financial statements.

In February 2013, the FASB issued guidance that adds additional disclosure requirements for items reclassified out of accumulated other comprehensive income. This guidance requires the disclosure of significant amounts reclassified

from each component of accumulated other comprehensive income and the income statement line items affected by the reclassification. The guidance became effective for us at the beginning of our first quarter of fiscal 2014 and the additional disclosures are provided in Note 7 of this 10-Q.

In January 2013, the FASB issued guidance clarifying the scope of disclosure requirements for offsetting assets and liabilities. The amended guidance limits the scope of balance sheet offsetting disclosures to derivatives, repurchase agreements, and

7

Table of Contents

securities lending transactions to the extent that they are offset in the financial statements or subject to an enforceable master netting arrangement or similar agreement. The guidance became effective for us at the beginning of our first quarter of fiscal 2014 and did not have a material impact on our financial statements.

Correction of an Immaterial Error

Effective at the beginning of fiscal 2014, we reclassified certain fees related to our US and Seattle's Best Coffee foodservice operations in our Channel Development segment and All Other Segments, respectively, from other operating expenses to foodservice revenues included in CPG, foodservice and other net revenues in our consolidated statements of earnings. This reclassification results from a correction of an error in our prior period financial statements which we have determined to be immaterial. In order to align prior period classifications with the current period presentation, the historical consolidated financial statements have been corrected, resulting in reclassifications of \$25.4 million and \$22.7 million for fiscal years 2013 and 2012, respectively. The reclassifications for the quarter and three quarters ended June 30, 2013 were \$6.4 million and \$19.1 million, respectively. The consolidated statements of earnings as corrected are presented below (in millions):

Note 2: Derivative Financial Instruments

Interest Rates

Depending on market conditions, we enter into interest rate swap agreements to hedge the variability in cash flows due to changes in the benchmark interest rate related to anticipated debt issuances. These agreements are cash settled at the time of the pricing of the related debt. The effective portion of the derivative's gain or loss is recorded in accumulated other comprehensive income ("AOCI") and is subsequently reclassified to interest expense over the life of the related debt.

Foreign Currency

To reduce cash flow volatility from foreign currency fluctuations, we enter into forward and swap contracts to hedge portions of cash flows of anticipated revenue streams and inventory purchases in currencies other than the entity's functional currency. The effective portion of the derivative's gain or loss is recorded in AOCI and is subsequently reclassified to revenue or cost of sales when the hedged exposure affects net earnings.

We also enter into forward contracts to hedge the foreign currency exposure of our net investment in certain foreign operations. The effective portion of the derivative's gain or loss is recorded in AOCI and will be subsequently reclassified to net earnings when the hedged net investment is either sold or substantially liquidated.

To mitigate the translation risk of certain balance sheet items, we enter into foreign currency forward contracts that are not designated as hedging instruments. Gains and losses from these derivatives are largely offset by the financial impact of translating foreign currency denominated payables and receivables; both are recorded in net interest income and other.

Commodities

Depending on market conditions, we enter into coffee futures contracts and collars (the combination of a purchased call option and a sold put option) to hedge a portion of anticipated cash flows under our price-to-be-fixed green coffee contracts, which are described further in Note 4, Inventories. The effective portion of the derivative's gain or loss is recorded in AOCI and is subsequently reclassified to cost of sales when the hedged exposure affects net earnings.

To mitigate the price uncertainty of a portion of our future purchases of dairy products and diesel fuel, we enter into dairy and diesel fuel swap contracts, as well as dairy futures and collars that are not designated as hedging instruments. Gains and losses from these derivatives are recorded in net interest income and other. Gains and losses from dairy swaps, futures and collars largely offset price fluctuations on our dairy purchases, which are included in cost of sales. Gains and losses from diesel fuel swaps largely offset the financial impact of diesel fuel fluctuations on our shipping costs, which are included in operating expenses.

Gains and losses on derivative contracts designated as hedging instruments included in AOCI and expected to be reclassified into earnings within 12 months, net of tax (in millions):

There were no material transfers between levels and there was no significant activity within Level 3 instruments during the periods presented. In the second quarter of fiscal 2014, we revised the classification of coffee and dairy futures from Level 2 to Level 1, as we use quoted prices in active markets for identical assets to determine fair value. The fair values of any financial instruments presented above exclude the impact of netting assets and liabilities when a legally enforceable master netting agreement exists.

Gross unrealized holding gains and losses on investments were not material as of June 29, 2014 and September 29, 2013.

Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis

Assets and liabilities recognized or disclosed at fair value in the financial statements on a nonrecurring basis include items such as property, plant and equipment, goodwill and other intangible assets, equity and cost method investments, and other assets. These assets are measured at fair value if determined to be impaired. During the the quarter and three quarters ended June 29, 2014 and June 30, 2013, there were no material fair value adjustments.

The estimated fair value of our long-term debt based on the quoted market price (Level 2) is included at Note 6, Debt.

Packaging and other supplies	154.6	139.5	134.6
Total	\$1,025.8	\$1,111.2	\$1,173.8

Other merchandise held for sale includes, among other items, tea and serveware. Inventory levels vary due to seasonality, commodity market supply and price fluctuations.

As of June 29, 2014, we had committed to purchasing green coffee totaling \$398 million under fixed-price contracts and an estimated \$753 million under price-to-be-fixed contracts. As of June 29, 2014, approximately \$33 million of our price-to-be-fixed contracts were effectively fixed through the use of futures contracts and approximately \$3 million were price-protected through the use of collar instruments. Price-to-be-fixed contracts are purchase commitments whereby the quality, quantity, delivery period, and other negotiated terms are agreed upon, but the date, and therefore the price, at which the base "C" coffee commodity price component will be fixed has not yet been established. For these types of contracts, either Starbucks or the seller has the option to "fix" the base "C" coffee commodity price prior to the delivery date. Until prices are fixed, we estimate the total cost of these purchase commitments. We believe, based on relationships established with our suppliers in the past, the risk of non-delivery on these purchase commitments is remote.

In addition to 1.2 billion shares of authorized common stock with \$0.001 par value per share, the Company has authorized 7.5 million shares of preferred stock, none of which was outstanding as of June 29, 2014.

We repurchased 8.2 million shares of common stock at a total cost of \$595.2 million, and 10.8 million shares at a total cost of \$544.1 million for the three quarters ended June 29, 2014 and June 30, 2013, respectively. As of June 29, 2014, 18.1 million shares remained available for repurchase under current authorizations.

During the third quarter of fiscal 2014, our Board of Directors declared a quarterly cash dividend to shareholders of \$0.26 per share to be paid on August 22, 2014 to shareholders of record as of the close of business on August 7, 2014.

Note 9: Earnings Per Share

Calculation of net earnings per common share ("EPS") — basic and diluted (in millions, except EPS):

	Quarter Ended		Three Quarters Ended	
	Jun 29, 2014	Jun 30, 2013	Jun 29, 2014	Jun 30, 2013
Net earnings attributable to Starbucks	\$512.6	\$417.8	\$1,480.3	\$1,240.3
Weighted average common shares outstanding (for basic calculation)	751.8	749.7	753.9	748.3
Dilutive effect of outstanding common stock options and RSUs	9.2	12.2	10.0	13.2
Weighted average common and common equivalent shares outstanding (for diluted calculation)	761.0	761.9	763.9	761.5
EPS — basic	\$0.68	\$0.56	\$1.96	\$1.66
EPS — diluted	\$0.67	\$0.55	\$1.94	\$1.63

Potential dilutive shares consist of the incremental common shares issuable upon the exercise of outstanding stock options (both vested and non-vested) and unvested RSUs, calculated using the treasury stock method. The calculation of dilutive shares outstanding excludes out-of-the-money stock options (i.e., such options' exercise prices were greater than the average market price of our common shares for the period) because their inclusion would have been antidilutive. Out-of-the-money stock options totaled approximately 2.9 million and 0.1 million as of June 29, 2014 and June 30, 2013, respectively.

Note 10: Commitments and Contingencies

Legal Proceedings

On November 12, 2013, the arbitrator in our arbitration with Kraft Foods Global, Inc. (now known as Kraft Foods Group, Inc.) ("Kraft") ordered Starbucks to pay Kraft \$2,227.5 million in damages plus prejudgment interest and attorneys' fees. We estimated prejudgment interest, which included an accrual through the estimated payment date, and attorneys' fees to be approximately \$556.6 million. As a result, we recorded a litigation charge of \$2,784.1 million in our fiscal 2013 operating results.

Table of Contents

In the first quarter of fiscal 2014, Starbucks paid all amounts due to Kraft under the arbitration, including prejudgment interest and attorneys' fees, and fully extinguished the litigation charge liability. Of the \$2,784.1 million litigation charge accrued in the fourth quarter of fiscal 2013, \$2,763.9 million was paid and the remainder was released as a litigation credit to reflect a reduction to our estimated prejudgment interest payable as a result of paying our obligation earlier than anticipated.

Starbucks is party to various other legal proceedings arising in the ordinary course of business, including, at times, certain employment litigation cases that have been certified as class or collective actions, but is not currently a party to any legal proceeding that management believes could have a material adverse effect on our consolidated financial position, results of operations or cash flows.

Note 11: Segment Reporting

Segment information is prepared on the same basis that our ceo, who is our chief operating decision maker, manages the segments, evaluates financial results, and makes key operating decisions.

The table below presents financial information for our reportable operating segments and All Other Segments for the quarter and three quarters ended June 29, 2014 and June 30, 2013, including reclassifications resulting from the correction of the immaterial error discussed in Note 1. The reclassifications for fiscal years 2013 and 2012 were \$21.8 million and \$19.2 million for the Channel Development segment, respectively, and \$3.6 million and \$3.5 million for All Other Segments, respectively. The reclassifications for the quarter and three quarters ended June 30, 2013 were \$5.4 million and \$16.3 million for the Channel Development segment, respectively, and \$1.0 million and \$2.8 million for All Other Segments, respectively.
