

COGNEX CORP
Form 10-Q
August 01, 2016

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549
FORM 10-Q
(Mark One)

Quarterly Report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 for the quarterly period ended July 3, 2016 or

Transition Report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 for the transition period from _____ to _____

Commission File Number 001-34218

COGNEX CORPORATION

(Exact name of registrant as specified in its charter)

Massachusetts 04-2713778

(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification No.)

One Vision Drive

Natick, Massachusetts 01760-2059

(508) 650-3000

(Address, including zip code, and telephone number, including area code, of principal executive offices)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act (Check one):

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

As of July 3, 2016, there were 85,109,036 shares of Common Stock, \$.002 par value per share, of the registrant outstanding.

COGNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1: Summary of Significant Accounting Policies

As permitted by the rules of the Securities and Exchange Commission applicable to Quarterly Reports on Form 10-Q, these notes are condensed and do not contain all disclosures required by generally accepted accounting principles (GAAP). The Company has provided expanded disclosures related to its revenue recognition accounting policy in this quarterly report on Form 10-Q. Reference should be made to the consolidated financial statements and related notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015 for a full description of significant accounting policies.

In the opinion of the management of Cognex Corporation (the "Company"), the accompanying consolidated unaudited financial statements contain all adjustments, consisting of normal, recurring adjustments and financial statement reclassifications, including those related to the disposition of a business (more fully described in Note 14), necessary to present fairly the Company's financial position as of July 3, 2016, and the results of its operations for the three-month and six-month periods ended July 3, 2016 and July 5, 2015, and changes in shareholders' equity, comprehensive income, and cash flows for the periods presented.

The results disclosed in the Consolidated Statements of Operations for the three-month and six-month periods ended July 3, 2016 are not necessarily indicative of the results to be expected for the full year.

On July 6, 2015, the Company completed the sale of its Surface Inspection Systems Division (SISD). The financial results of SISD are reported as a discontinued operation for all periods presented.

Revenue Recognition

In order to recognize revenue, the Company requires that a signed customer contract or purchase order is received, the fee from the arrangement is fixed or determinable, and the collection of the resulting receivable is probable. Assuming that these criteria have been met, product revenue is generally recognized upon delivery, revenue from maintenance and support programs is recognized ratably over the program period, and revenue from consulting and training services is recognized when the services have been provided. When customer-specified acceptance criteria exists that are substantive, product revenue is deferred, along with associated incremental direct costs, until these criteria have been met and any remaining performance obligations are inconsequential or perfunctory.

For the majority of the Company's revenue transactions, revenue recognition and invoicing both occur upon delivery. In certain circumstances, however, the agreement with the customer provides for invoicing terms which differ from revenue recognition criteria, resulting in either deferred revenue or unbilled revenue. Invoicing that precedes revenue recognition is common for various customers in the logistics industry where milestone billings are prevalent, resulting in deferred revenue. Conversely, the Company records unbilled revenue in connection with a material customer in the consumer electronics industry. For this arrangement, the Company recognizes revenue for all delivered products when the first production line that incorporates these products is validated, because at that point the remaining performance obligations are inconsequential or perfunctory. Invoicing for all delivered products occurs as the production lines incorporating those products are installed over a period of several weeks. The Company also has a technical support obligation related to this arrangement for which revenue is deferred and recognized over the support period of approximately six months.

Certain customers are offered pricing discounts on current sales based upon purchasing volumes or preferred pricing arrangements, for which revenue is reported net of these discounts.

NOTE 2: New Pronouncements

Accounting Standards Update (ASU) 2014-09, "Revenue from Contracts with Customers"

The amendments in ASU 2014-09 will supersede and replace all currently existing U.S. GAAP, including industry-specific revenue recognition guidance, with a single, principle-based revenue recognition framework. The concept guiding this new model is that revenue recognition will depict transfer of control to the customer in an amount that reflects consideration to which an entity expects to be entitled. The core principles supporting this framework include (1) identifying the contract with a customer, (2) identifying separate performance obligations within the contract, (3) determining the transaction price, (4) allocating the transaction price to the performance obligations, and (5) recognizing revenue. This new framework will require entities to apply significantly more judgment. This increase

in management judgment will require expanded disclosure on estimation methods, inputs, and assumptions for revenue recognition.

In March 2016, ASU 2016-08, "Principal versus Agent Considerations (Reporting Revenue Gross versus Net)," was issued, in April 2016, ASU 2016-10, "Identifying Performance Obligations and Licensing," was issued, and in May

8

2016, ASU 2016-12, "Narrow-Scope Improvements and Practical Expedients" was issued. These Updates do not change the core principle of the guidance under ASU 2014-09, but rather provide implementation guidance. ASU 2015-14, "Deferral of the effective date," amended the effective date of ASU 2014-09 for public companies to annual reporting periods beginning after December 15, 2017. Early adoption is permitted, but only beginning after December 15, 2016. The Financial Accounting Standards Board may release additional implementation guidance in future periods. Management will continue to evaluate the impact of this standard as it evolves.

Accounting Standards Update (ASU) 2015-11, "Inventory - Simplifying the Measurement of Inventory"

ASU 2015-11 requires companies to measure most inventory at the lower of cost and net realizable value, thereby simplifying the current guidance under which a company must measure inventory at the lower of cost or market. This ASU eliminates the need to determine replacement cost and evaluate whether said cost is within a quantitative range. This ASU also further aligns U.S. GAAP and international accounting standards. For public companies, the guidance in ASU 2015-11 is effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. Early adoption is permitted. Management does not expect ASU 2015-11 to have a material impact on the Company's financial statements and disclosures.

Accounting Standards Update (ASU) 2016-01, "Financial Instruments - Recognition and Measurement of Financial Assets and Financial Liabilities"

ASU 2016-01 provides guidance related to certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. The amendments in this Update affect all entities that hold financial assets or owe financial liabilities. This ASU requires equity investments (except those accounted under the equity method) to be measured at fair value with changes in fair value recognized in net income. However, an entity may choose to measure equity investments that do not have readily determinable fair values at cost minus impairment. This ASU also eliminates the requirement for public companies to disclose the methods and significant assumptions used to estimate the fair value for financial instruments measured at amortized cost on the balance sheet, and it requires separate presentation of financial assets and financial liabilities by measurement category and form of financial asset on the balance sheet or the accompanying notes to the financial statements. For public companies, the guidance in ASU 2016-01 is effective for annual periods beginning after December 15, 2017, and interim periods within those annual periods. Early adoption is not permitted except for certain amendments in this Update. Management does not expect ASU 2016-01 to have a material impact on the Company's financial statements and disclosures.

Accounting Standards Update (ASU) 2016-02, "Leases"

ASU 2016-02 creates Topic 842, Leases. The objective of this Update is to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet, and disclosing key information about leasing arrangements. This ASU applies to any entity that enters into a lease, although lessees will see the most significant changes. The main difference between current U.S. GAAP and Topic 842 is the recognition of lease assets and lease liabilities on the balance sheet for those leases classified as operating leases under current U.S. GAAP. Topic 842 distinguishes between finance leases and operating leases, which are substantially similar to the classification criteria for distinguishing between capital leases and operating leases under current U.S. GAAP. For public companies, the guidance in ASU 2016-02 is effective for annual periods beginning after December 15, 2018, and interim periods within those annual periods. This ASU should be applied using a modified retrospective approach. Management is in the process of evaluating the impact of this Update.

Accounting Standards Update (ASU) 2016-05, "Derivatives and Hedging - Effect of Derivative Contract Novations on Existing Hedge Accounting Relationships"

ASU 2016-05 applies to all reporting entities for which there is a change in the counterparty to a derivative instrument that has been designated as the hedging instrument. The amendments in this Update clarify that a change in the counterparty does not, in and of itself, require de-designation of that hedging relationship provided that all other hedge accounting criteria continue to be met. For public companies, the guidance in ASU 2016-05 is effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. This ASU should be applied on either a prospective basis or a modified retrospective basis. Management does not expect ASU 2016-05 to have a material impact on the Company's financial statements and disclosures.

Accounting Standards Update (ASU) 2016-13, "Financial Instruments - Measurement of Credit Losses"

ASU 2016-13 applies to all reporting entities holding financial assets that are not accounted for at fair value through net income (debt securities). The amendments in this Update eliminate the probable initial recognition threshold to recognize a credit loss under current U.S. GAAP and, instead, reflect an entity's current estimate of all expected credit losses. In addition, this Update broadens the information an entity must consider in developing the credit loss estimate, including the use of reasonable and supportable forecasted information. The amendments in this Update require that

credit losses on available-for-sale debt securities be presented as an allowance rather than as a write-down and an entity will be able to record reversals of credit losses in current period net income. For public companies, the guidance in ASU 2016-13 is effective for annual periods beginning after December 15, 2019, and interim periods within those annual periods. This ASU should be applied through a cumulative-effect adjustment to retained earnings as of the beginning of the first reporting period in which the guidance is effective. Management does not expect ASU 2016-13 to have a material impact on the Company's financial statements and disclosures.

NOTE 3: Fair Value Measurements

Financial Assets and Liabilities that are Measured at Fair Value on a Recurring Basis

The following table summarizes the financial assets and liabilities required to be measured at fair value on a recurring basis as of July 3, 2016 (in thousands):

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)
Assets:			
Money market instruments	\$ 7,178	\$ —	\$ —
Corporate bonds	—	248,922	—
Treasury bills	—	110,979	—
Asset-backed securities	—	105,185	—
Euro liquidity fund	—	48,941	—
Sovereign bonds	—	48,181	—
Agency bonds	—	31,781	—
Municipal bonds	—	7,365	—
Cash flow hedge forward contracts	—	205	—
Liabilities:			
Cash flow hedge forward contracts	—	757	—
Economic hedge forward contracts	—	26	—
Contingent consideration liability	—	—	2,200

The Company's money market instruments are reported at fair value based upon the daily market price for identical assets in active markets, and are therefore classified as Level 1.

The Company's debt securities and forward contracts are reported at fair value based upon model-driven valuations in which all significant inputs are observable or can be derived from or corroborated by observable market data for substantially the full term of the asset or liability, and are therefore classified as Level 2. Management is responsible for estimating the fair value of these financial assets and liabilities, and in doing so, considers valuations provided by a large, third-party pricing service. For debt securities, this service maintains regular contact with market makers, brokers, dealers, and analysts to gather information on market movement, direction, trends, and other specific data. They use this information to structure yield curves for various types of debt securities and arrive at the daily valuations. The Company's forward contracts are typically traded or executed in over-the-counter markets with a high degree of pricing transparency. The market participants are generally large commercial banks.

The Company did not record an other-than-temporary impairment of these financial assets during the six-month period ended July 3, 2016.

The Company's contingent consideration liability, related to the acquisition of Manatee Works, Inc. in 2015, is reported at fair value based upon probability-adjusted present values of the consideration expected to be transferred using significant inputs that are not observable in the market, and is therefore classified as Level 3. Key assumptions used in these estimates include probability assessments with respect to the likelihood of achieving the revenue milestones and discount rates consistent with the level of risk of achievement. The contingent consideration is remeasured each reporting period with changes in fair value recorded in "Other income (expense)" on the Consolidated Statements of Operations.

The following table summarizes the activity for the Company's liability measured at fair value using Level 3 inputs for the six-month period ended July 3, 2016 (in thousands):

Payment of contingent consideration	(337)
Fair value adjustment to the contingent consideration	(463)
Balance as of July 3, 2016	\$2,200

Financial Assets that are Measured at Fair Value on a Non-recurring Basis

The Company has an interest in a limited partnership, which is accounted for using the cost method and is required to be measured at fair value on a non-recurring basis. Management is responsible for estimating the fair value of this investment, and in doing so, considers valuations of the partnership's investments as determined by the General Partner. Publicly-traded investments in active markets are reported at the market closing price less a discount, as appropriate, to reflect restricted marketability. Fair value for private investments for which observable market prices in active markets do not exist is based upon the best information available including the value of a recent financing, reference to observable valuation measures for comparable companies (such as revenue multiples), public or private transactions (such as the sale of a comparable company), and valuations for publicly-traded comparable companies. The valuations also incorporate the General Partner's own judgment and close familiarity with the business activities of each portfolio company. Significant increases or decreases in any of these inputs in isolation may result in a significantly lower or higher fair value measurement. The portfolio consists of securities of public and private companies, and consequently, inputs used in the fair value calculation are classified as Level 3. The Company did not record an other-than-temporary impairment of this investment during the six-month period ended July 3, 2016.

Non-financial Assets that are Measured at Fair Value on a Non-recurring Basis

Non-financial assets such as property, plant and equipment, goodwill, and intangible assets are required to be measured at fair value only when an impairment loss is recognized. The Company did not record an impairment charge related to these assets during the six-month period ended July 3, 2016.

NOTE 4: Cash, Cash Equivalents, and Investments

Cash, cash equivalents, and investments consisted of the following (in thousands):

	July 3, 2016	December 31, 2015
Cash	\$47,751	\$45,951
Money market instruments	7,178	6,024
Cash and cash equivalents	54,929	51,975
Corporate bonds	90,700	54,376
Asset-backed securities	68,879	61,994
Euro liquidity fund	48,941	47,730
Treasury bills	42,013	109,360
Sovereign bonds	24,022	21,440
Agency bonds	13,177	978
Municipal bonds	6,861	590
Short-term investments	294,593	296,468
Corporate bonds	158,222	176,575
Treasury bills	68,966	44,437
Asset-backed securities	36,306	24,582
Sovereign bonds	24,159	13,503
Agency bonds	18,604	8,180
Municipal bonds	504	4,869
Limited partnership interest (accounted for using cost method)	942	942
Long-term investments	307,703	273,088
	\$657,225	\$621,531

Corporate bonds consist of debt securities issued by both domestic and foreign companies; asset-backed securities consist of debt securities collateralized by pools of receivables or loans with credit enhancement; the Euro liquidity

fund invests in a portfolio of investment-grade bonds; treasury bills consist of debt securities issued by both the U.S. and foreign governments; sovereign bonds consist of direct debt issued by foreign governments; agency bonds consist of domestic or foreign obligations of government agencies and government sponsored enterprises that have

COGNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

government backing; and municipal bonds consist of debt securities issued by state and local government entities. The Euro liquidity fund is denominated in Euros, and the remaining securities are denominated in U.S. Dollars.

The following table summarizes the Company's available-for-sale investments as of July 3, 2016 (in thousands):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Short-term:				
Corporate bonds	\$ 90,642	\$ 84	\$ (26)	\$ 90,700
Asset-backed securities	68,842	52	(15)	68,879
Euro liquidity fund	48,753	188	—	48,941
Treasury bills	41,995	18	—	42,013
Sovereign bonds	24,015	8	(1)	24,022
Agency bonds	13,176	1	—	13,177
Municipal bonds	6,845	16	—	6,861
Long-term:				
Corporate bonds	157,541	920	(239)	158,222
Treasury bills	68,756	210	—	68,966
Asset-backed securities	36,252	78	(24)	36,306
Sovereign bonds	24,076	83	—	24,159
Agency bonds	18,610	—	(6)	18,604
Municipal bonds	500	4	—	504
	\$ 600,003	\$ 1,662	\$ (311)	\$ 601,354

The following table summarizes the Company's gross unrealized losses and fair values for available-for-sale investments in an unrealized loss position as of July 3, 2016 (in thousands):

	Unrealized Loss Position For:					
	Less than 12 Months		12 Months or Greater		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Corporate bonds	\$ 32,420	\$ (65)	\$ 34,302	\$ (200)	\$ 66,722	\$ (265)
Asset-backed securities	26,480	(18)	10,966	(21)	37,446	(39)
Agency bonds	15,802	(6)	—	—	15,802	(6)
Sovereign bonds	8,101	(1)	—	—	8,101	(1)
	\$ 82,803	\$ (90)	\$ 45,268	\$ (221)	\$ 128,071	\$ (311)

As of July 3, 2016, the Company did not recognize any other-than-temporary impairment of these investments. In its evaluation, management considered the type of security, the credit rating of the security, the length of time the security has been in a loss position, the size of the loss position, our intent and ability to hold the security to expected recovery of value, and other meaningful information. The Company does not intend to sell, and is unlikely to be required to sell, any of these available-for-sale investments before its effective maturity or market price recovery. The Company recorded gross realized gains and gross realized losses on the sale of debt securities totaling \$141,000 and \$0, respectively, during the three-month period ended July 3, 2016 and \$210,000 and \$18,000, respectively, during the three-month period ended July 5, 2015. The Company recorded gross realized gains and gross realized losses on the sale of debt securities totaling \$225,000 and \$97,000, respectively, during the six-month period ended July 3, 2016 and \$408,000 and \$187,000, respectively, during the six-month period ended July 5, 2015. These gains and losses are included in "Investment income" on the Consolidated Statement of Operations. Prior to the sale of these securities, unrealized gains and losses for these debt securities, net of tax, are recorded in shareholders' equity as other comprehensive income (loss).

COGNEX CORPORATION
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

The following table presents the effective maturity dates of the Company's available-for-sale investments as of July 3, 2016 (in thousands):

	<1 year	1-2 Years	2-3 Years	3-4 Years	4-5 Years	Total
Corporate bonds	\$90,700	\$75,069	\$77,871	\$4,663	\$ 619	\$248,922
Treasury bills	42,013	68,034	932	—	—	110,979
Asset-backed securities	68,879	18,867	7,134	10,067	238	105,185
Euro liquidity fund	48,941	—	—	—	—	48,941
Sovereign bonds	24,022	20,317	3,842	—	—	48,181
Agency bonds	13,177	12,897	5,707	—	—	31,781
Municipal bonds	6,861	504	—	—	—	7,365
	\$294,593	\$195,688	\$95,486	\$14,730	\$ 857	\$601,354

The Company is a Limited Partner in Venrock Associates III, L.P. (Venrock), a venture capital fund. The Company has committed to a total investment in the limited partnership of up to \$20,500,000, with an expiration date of December 31, 2017. The Company does not have the right to withdraw from the partnership prior to this date. As of July 3, 2016, the Company contributed \$19,886,000 to the partnership. The remaining commitment of \$614,000 can be called by Venrock at any time before December 31, 2017. Contributions and distributions are at the discretion of Venrock's management. No contributions were made and no distributions were received during the six-month period ended July 3, 2016.

NOTE 5: Inventories

Inventories consisted of the following (in thousands):

	July 3, 2016	December 31, 2015
Raw materials	\$18,263	\$27,301
Work-in-process	2,164	3,136
Finished goods	5,455	6,897
	\$25,882	\$37,334

NOTE 6: Warranty Obligations

The Company records the estimated cost of fulfilling product warranties at the time of sale based upon historical costs to fulfill claims. Obligations may also be recorded subsequent to the time of sale whenever specific events or circumstances impacting product quality become known that would not have been taken into account using historical data. While we engage in extensive product quality programs and processes, including actively monitoring and evaluating the quality of our component suppliers and third-party contract manufacturers, the Company's warranty obligation is affected by product failure rates, material usage, and service delivery costs incurred in correcting a product failure. An adverse change in any of these factors may result in the need for additional warranty provisions. Warranty obligations are included in "Accrued expenses" on the Consolidated Balance Sheets.

The changes in the warranty obligation were as follows (in thousands):

Balance as of December 31, 2015	\$4,174
Provisions for warranties issued during the period	1,308
Fulfillment of warranty obligations	(1,369)
Foreign exchange rate changes	89
Balance as of July 3, 2016	\$4,202

NOTE 7: Contingencies

Various claims and legal proceedings generally incidental to the normal course of business are pending or threatened on behalf of or against the Company. While we cannot predict the outcome of these matters, we believe that any liability arising from them will not have a material adverse effect on our financial position, liquidity, or results of operations.

COGNEX CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 8: Indemnification Provisions

Except as limited by Massachusetts law, the by-laws of the Company require it to indemnify certain current or former directors, officers, and employees of the Company against expenses incurred by them in connection with each proceeding in which he or she is involved as a result of serving or having served in certain capacities. Indemnification is not available with respect to a proceeding as to which it has been adjudicated that the person did not act in good faith in the reasonable belief that the action was in the best interests of the Company. The maximum potential amount of future payments the Company could be required to make under these provisions is unlimited. The Company has never incurred significant costs related to these indemnification provisions. As a result, the Company believes the estimated fair value of these provisions is not material.

In the ordinary course of business, the Company may accept standard limited indemnification provisions in connection with the sale of its products, whereby it indemnifies its customers for certain direct damages incurred in connection with third-party patent or other intellectual property infringement claims with respect to the use of the Company's products. The maximum potential amount of future payments the Company could be required to make under these provisions is generally subject to fixed monetary limits. The Company has never incurred significant costs to defend lawsuits or settle claims related to these indemnification provisions. As a result, the Company believes the estimated fair value of these provisions is not material.

In the ordinary course of business, the Company also accepts limited indemnification provisions from time to time, whereby it indemnifies customers for certain direct damages incurred in connection with bodily injury and property damage arising from the installation of the Company's products. The maximum potential amount of future payments the Company could be required to make under these provisions is generally limited and is likely recoverable under the Company's insurance policies. As a result of this coverage, and the fact that the Company has never incurred significant costs to defend lawsuits or settle claims related to these indemnification provisions, the Company believes the estimated fair value of these provisions is not material.

Under the terms of the Company's sale of its Surface Inspection Systems Division (SISD) to AMETEK, Inc., the Company has agreed to retain certain liabilities in connection with its business dealings occurring prior to the transaction closing date of July 6, 2015, and to indemnify AMETEK, Inc. in connection with these retained liabilities and for any breach of the representations and warranties made by the Company to AMETEK, Inc. in connection with the sale agreement itself, as is usual and customary in such transactions. A binding arbitration was concluded in the second quarter of 2016 with respect to certain product performance claims made by an SISD customer, for which the Company remained responsible under the indemnity provisions of the sale transaction. In that proceeding, the tribunal ordered the Company to pay the customer approximately \$326,000, primarily representing a refund of the product purchase price. The tribunal also ordered the customer to pay the Company approximately \$45,000, primarily representing reimbursement of legal fees. The net settlement of \$281,000 was recorded in discontinued operations in the second quarter of 2016.

NOTE 9: Derivative Instruments

The Company's foreign currency risk management strategy is principally designed to mitigate the potential financial impact of changes in the value of transactions and balances denominated in foreign currencies resulting from changes in foreign currency exchange rates. Currently, the Company enters into two types of hedges to manage this risk. The first are economic hedges which utilize foreign currency forward contracts with maturities of up to 45 days to manage the exposure to fluctuations in foreign currency exchange rates arising primarily from foreign-denominated receivables and payables. The gains and losses on these derivatives are intended to be offset by the changes in the fair value of the assets and liabilities being hedged. These economic hedges are not designated as hedging instruments for hedge accounting treatment. The second are cash flow hedges which utilize foreign currency forward contracts with maturities of up to 18 months to hedge specific forecasted transactions of the Company's foreign subsidiaries with the goal of protecting our budgeted revenues and expenses against foreign currency exchange rate changes compared to our budgeted rates. These cash flow hedges are designated as hedging instruments for hedge accounting treatment.

COGNEX CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

The Company had the following outstanding forward contracts (in thousands):

Currency	July 3, 2016		December 31, 2015

Derivatives Not Designated as Hedging Instruments:					
Gains (losses) recognized in current operations	Foreign currency gain (loss)	\$(705)	\$233	\$(1,065)	\$342

The following table provides the changes in accumulated other comprehensive income (loss), net of tax, related to derivative instruments (in thousands):

Balance as of December 31, 2015	\$206
Reclassification of net realized loss on cash flow hedges into current operations	186
Net unrealized loss on cash flow hedges	(879)
Balance as of July 3, 2016	\$(487)

Net losses expected to be reclassified from accumulated other comprehensive income (loss), net of tax, into current operations within the next twelve months are \$487,000.

NOTE 10: Stock-Based Compensation Expense

The Company's share-based payments that result in compensation expense consist of stock option grants and restricted stock awards. As of July 3, 2016, the Company had 8,282,076 shares available for grant. Stock options are granted with an exercise price equal to the market value of the Company's common stock at the grant date and generally vest over four years based upon continuous service and expire ten years from the grant date. Restricted stock awards are granted with an exercise price equal to the market value of the Company's common stock at the time of grant. Conditions of the award may be based on continuing employment and/or achievement of pre-established performance goals and objectives. Vesting for performance-based restricted stock awards and time-based restricted stock awards must be greater than one year and three years, respectively.

COGNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

The following table summarizes the Company's stock option activity for the six-month period ended July 3, 2016:

	Shares (in thousands)	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value (in thousands)
Outstanding as of December 31, 2015	6,644	\$ 28.27		
Granted	1,687	33.55		
Exercised	(461)) 18.88		
Forfeited or expired	(125)) 37.06		
Outstanding as of July 3, 2016	7,745	\$ 29.84	7.3	\$ 102,823
Exercisable as of July 3, 2016	3,408	\$ 21.92	5.6	\$ 72,213
Options vested or expected to vest as of July 3, 2016 (1)	7,025	\$ 29.13	7.2	\$ 98,222

(1) In addition to the vested options, the Company expects a portion of the unvested options to vest at some point in the future. Options expected to vest are calculated by applying an estimated forfeiture rate to the unvested options. The fair values of stock options granted in each period presented were estimated using the following weighted-average assumptions:

	Three-months Ended		Six-months Ended	
	July 3, 2016	July 5, 2015	July 3, 2016	July 5, 2015
Risk-free rate	1.7 %	2.1 %	1.7 %	2.1 %
Expected dividend yield	0.84 %	1.25 %	0.84 %	1.25 %
Expected volatility	41 %	40 %	41 %	40 %
Expected term (in years)	5.4	5.4	5.5	5.4

Risk-free rate

The risk-free rate was based upon a treasury instrument whose term was consistent with the contractual term of the option.

Expected dividend yield

Generally, the current dividend yield is calculated by annualizing the cash dividend declared by the Company's Board of Directors and dividing that result by the closing stock price on the grant date.

Expected volatility

The expected volatility was based upon a combination of historical volatility of the Company's common stock over the contractual term of the option and implied volatility for traded options of the Company's stock.

Expected term

The expected term was derived from the binomial lattice model from the impact of events that trigger exercises over time.

The Company stratifies its employee population into two groups: one consisting of senior management and another consisting of all other employees. The Company currently expects that approximately 77% of its stock options granted to senior management and 72% of its options granted to all other employees will actually vest. Therefore, the Company currently applies an estimated annual forfeiture rate of 9% to all unvested options for senior management and a rate of 11% for all other employees. The Company revised its estimated forfeiture rates in the first quarters of 2016 and 2015, resulting in an increase to compensation expense of \$334,000 and \$461,000, respectively.

The weighted-average grant-date fair values of stock options granted during the three-month periods ended July 3, 2016 and July 5, 2015 were \$12.22 and \$14.40, respectively. The weighted-average grant-date fair values of stock options granted during the six-month periods ended July 3, 2016 and July 5, 2015 were \$12.25 and \$14.34, respectively.

COGNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

The total intrinsic values of stock options exercised for the three-month periods ended July 3, 2016 and July 5, 2015 were \$5,652,000 and \$22,490,000, respectively. The total intrinsic values of stock options exercised for the six-month periods ended July 3, 2016 and July 5, 2015 were \$9,376,000 and \$39,230,000, respectively. The total fair values of stock options vested for the three-month periods ended July 3, 2016 and July 5, 2015 were \$709,000 and \$897,000, respectively. The total fair values of stock options vested for the six-month periods ended July 3, 2016 and July 5, 2015 were \$16,045,000 and \$14,419,000, respectively.

As of July 3, 2016, total unrecognized compensation expense related to non-vested stock options was \$26,079,000, which is expected to be recognized over a weighted-average period of 1.86 years.

The following table summarizes the Company's restricted stock activity for the six-month period ended July 3, 2016:

	Shares (in thousands)	Weighted-Average Grant Fair Value	Aggregate Intrinsic Value (in thousands)(1)
Nonvested as of December 31, 2015	20	\$ 34.05	
Granted	—	—	
Vested	—	—	
Forfeited or expired	—	—	
Nonvested as of July 3, 2016	20	\$ 34.05	\$ 862

(1) Fair market value as of July 3, 2016.

The fair values of restricted stock awards granted were determined based upon the market value of the Company's common stock at the time of grant. The initial cost is then amortized over the period of vesting until the restrictions lapse. These restricted shares will be fully vested in 2018. Participants are entitled to dividends on restricted stock awards, but only receive those amounts if the shares vest. The sale or transfer of these shares is restricted during the vesting period.

The total stock-based compensation expense and the related income tax benefit recognized for the three-month period ended July 3, 2016 were \$4,457,000 and \$1,462,000, respectively, and for the three-month period ended July 5, 2015 were \$4,631,000 and \$1,532,000, respectively. The total stock-based compensation expense and the related income tax benefit recognized for the six-month period ended July 3, 2016 were \$11,261,000 and \$3,690,000, respectively, and for the six-month period ended July 5, 2015 were \$11,577,000 and \$3,869,000, respectively. No compensation expense was capitalized as of July 3, 2016 or December 31, 2015.

The following table presents the stock-based compensation expense by caption for each period presented on the Consolidated Statements of Operations (in thousands):

	Three-months Ended		Six-months Ended	
	July 3, 2016	July 5, 2015	July 3, 2016	July 5, 2015
Cost of revenue	\$229	\$349	\$522	\$816
Research, development, and engineering	1,397	1,153	3,576	2,967
Selling, general, and administrative	2,831	2,985	7,163	7,367
Discontinued operations	—	144	—	427
	\$4,457	\$4,631	\$11,261	\$11,577

NOTE 11: Stock Repurchase Program

In August 2015, the Company's Board of Directors authorized the repurchase of \$100,000,000 of the Company's common stock. As of July 3, 2016, the Company repurchased 2,519,000 shares at a cost of \$92,654,000 under this program, including 208,000 shares at a cost of \$8,718,000 during the six-month period ended July 3, 2016. In November 2015, the Company's Board of Directors authorized the repurchase of an additional \$100,000,000 of the Company's common stock. Purchases under this November 2015 program will commence upon completion of the August 2015 program. The Company may repurchase shares under these programs in future periods depending upon a

variety of factors, including, among other things, the impact of dilution from employee stock options, stock price, share availability, and cash requirements.

COGNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 12: Taxes

A reconciliation of the United States federal statutory corporate tax rate to the Company's income tax expense on continuing operations, or effective tax rate, was as follows:

	Three-months Ended		Six-months Ended	
	July 3, 2016	July 5, 2015	July 3, 2016	July 5, 2015
Income tax provision at federal statutory corporate tax rate	35 %	35 %	35 %	35 %

Tax credit	(1)%	— %	(1)%	— %
Discrete tax events	(1)%	— %	(2)%	(1)%
Other	1 %	— %	1 %	1 %
Income tax provision on continuing operations	17 %	17 %	16 %	17 %

In the first quarter of 2016, the Company adopted Accounting Standards Update (ASU) 2016-09, "Improvements to Employee Share-Based Payment Accounting," which was issued by the Financial Accounting Standards Board in March 2016. This Update requires excess tax benefits to be recognized as an income tax benefit in the income statement. Previous guidance required excess tax benefits to be recognized as additional paid-in-capital in shareholders' equity on the balance sheet. This provision is required to be applied prospectively and therefore, prior periods were not restated. Additionally, this ASU also requires excess tax benefits to be classified along with other income tax cash flows as an operating activity in the statement of cash flows. In order to improve comparability, the Company applied this provision of the amendment retrospectively. For the six-month period ended July 5, 2015, the Company reclassified a tax benefit of \$9,358,000 from cash flows provided by financing activities to cash flows provided by operating activities on the consolidated statement of cash flows.

The effective tax rate for 2016 included the impact of the following discrete tax events: (1) a decrease in tax expense of \$463,000 in the first quarter of 2016 and \$745,000 in the second quarter of 2016 from the excess tax benefit arising from the difference between the deduction for tax purposes and the compensation cost recognized for financial reporting purposes from stock option exercises, and (2) an increase in tax expense of \$104,000 recorded in the second quarter of 2016 from the final true-up of the prior year's tax accrual upon filing the actual tax returns. These discrete events decreased the effective tax rate on continuing operations from a provision of 18% to a provision of 17% and 16% for the three-month and six-month periods ended July 3, 2016, respectively.

The effective tax rate for 2015 included the impact of the following discrete tax events: (1) a decrease in tax expense of \$364,000 recorded in the first quarter of 2015 from the expiration of the statutes of limitations for certain reserves for income tax uncertainties, (2) a decrease in tax expense of \$112,000 recorded in the second quarter of 2015 from the final true-up of the prior year's tax accrual upon filing the actual tax returns, and (3) an increase in tax expense of \$65,000 recorded in the second quarter of 2015 from the write down of a deferred tax asset. These discrete events decreased the effective tax rate on continuing operations from a provision of 18% to a provision of 17% for the six-month period ended July 5, 2015. The discrete events noted above did not have an impact on the effective tax rate on continuing operations for the three-month period ended July 5, 2015.

In the first quarter of 2016, the Company adopted Accounting Standards Update (ASU) 2015-17, "Income Taxes - Balance Sheet Classification of Deferred Taxes." This ASU requires that deferred tax assets and liabilities be classified as non-current in a classified balance sheet. In order to improve comparability, the Company applied the amendments in this Update retrospectively to all periods presented. As of December 31, 2015, the Company reclassified current deferred income tax assets and liabilities of \$7,104,000 and \$319,000, respectively, to non-current on the consolidated balance sheet.

During the six-month period ended July 3, 2016, the Company recorded a \$765,000 increase in reserves for income taxes, net of deferred tax benefit. Estimated interest and penalties included in these amounts totaled \$102,000 for the six-month period ended July 3, 2016.

The Company's reserve for income taxes, including gross interest and penalties, was \$6,678,000 as of July 3, 2016, which included \$5,651,000 classified as a non-current liability and \$1,027,000 recorded as a reduction to non-current deferred tax assets. The amount of gross interest and penalties included in these balances was \$702,000. If the

COGNEX CORPORATION
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Company's tax positions were sustained or the statutes of limitations related to certain positions expired, these reserves would be released and income tax expense would be reduced in a future period, less \$700,000 that would be recorded through additional paid-in capital. As a result of the expiration of certain statutes of limitations, there is a potential that a portion of these reserves could be released, which would decrease income tax expense by approximately \$750,000 to \$850,000 over the next twelve months.

The Company has defined its major tax jurisdictions as the United States, Ireland, China, and Japan, and within the United States, Massachusetts and California. Within the United States, the tax years 2012 through 2015 remain open to examination by the Internal Revenue Service and various state tax authorities. The tax years 2011 through 2015 remain open to examination by various taxing authorities in other jurisdictions in which the Company operates.

NOTE 13: Weighted-Average Shares

Weighted-average shares were calculated as follows (in thousands):

	Three-months Ended		Six-months Ended	
	July 3, 2016	July 5, 2015	July 3, 2016	July 5, 2015
Basic weighted-average common shares outstanding	85,107	87,199	85,024	86,977
Effect of dilutive stock options	1,699	1,986	1,689	1,974
Weighted-average common and common-equivalent shares outstanding	86,806	89,185	86,713	88,951

Stock options to purchase 3,904,396 and 4,502,777 shares of common stock, on a weighted-average basis, were outstanding during the three-month and six-month periods ended July 3, 2016, respectively, and 2,171,856 and 1,912,850 for the same periods in 2015, but were not included in the calculation of dilutive net income per share because they were anti-dilutive.

NOTE 14: Discontinued Operations

On July 6, 2015, the Company completed the sale of its Surface Inspection Systems Division (SISD). The financial results of SISD are reported as a discontinued operation for the three-month and six-month periods ended July 3, 2016 and July 5, 2015.

A binding arbitration was concluded in the second quarter of 2016 with respect to certain product performance claims made by an SISD customer, for which the Company remained responsible under the indemnity provisions of the sale transaction. In that proceeding, the tribunal ordered the Company to pay the customer approximately \$326,000, primarily representing a refund of the product purchase price. The tribunal also ordered the customer to pay the Company approximately \$45,000, primarily representing reimbursement of legal fees. The net settlement of \$281,000 was recorded in discontinued operations in the second quarter of 2016, along with \$123,000 of legal fees. The tax benefit related to this expense was \$149,000, resulting in a net loss from discontinued operations of \$255,000.

COGNEX CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

The major classes of revenue and expense included in discontinued operations were as follows (in thousands):

	Three-months Ended		Six-months Ended	
	July 3, 2016	July 5, 2015	July 3, 2016	July 5, 2015
Revenue	\$ —	\$ 11,187	\$ —	\$ 23,248
Cost of revenue	—	(5,765)	—	(11,291)
Research, development, and engineering expenses	—	(1,022)	—	(2,126)
Selling, general, and administrative expenses	—	(4,176)	—	(7,800)
Foreign currency gain (loss)	—	77	—	(177)
Operating income from discontinued operations	—	301	—	1,854
Gain (loss) on sale of discontinued operations	(404)	—	(404)	—
Income (loss) from discontinued operations before income tax expense (benefit)	(404)	301	(404)	1,854

Net income (loss) from discontinued operations	\$ (255)	\$ 198	\$ (255)	\$ 1,228

Significant non-cash items related to the discontinued business were as follows (in thousands):

	Three-months Ended		Six-months Ended
	July 3, 2016	July 5, 2015	July 3, 2016
Capital expenditures	\$ —	\$ 171	\$ —
Stock-based compensation expense	—	144	427
Depreciation expense	—	203	401
Amortization expense	—	82	165

NOTE 15: Subsequent Events

On August 1, 2016, the Company's Board of Directors declared a cash dividend of \$0.075 per share. The dividend is payable September 16, 2016 to all shareholders of record as of the close of business on September 2, 2016.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

Certain statements made in this report, as well as oral statements made by the Company from time to time, constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Readers can identify these forward-looking statements by our use of the words "expects," "anticipates," "estimates," "believes," "projects," "intends," "plans," "will," "may," "could," "should," and similar words and other statements of a similar sense. These statements are based upon our current estimates and expectations as to prospective events and circumstances, which may or may not be in our control and as to which there can be no firm assurances given. These forward-looking statements, which include statements regarding business and market trends, future financial performance, customer order rates, the timing for recognition of revenue, expected areas of growth, research and development activities, product mix, investments, and strategic plans, involve known and unknown risks and uncertainties that could cause actual results to differ materially from those projected. Such risks and uncertainties include: (1) the loss of a large customer; (2) current and future conditions in the global economy; (3) the reliance on revenue from the consumer electronics or automotive industries; (4) the inability to penetrate new markets; (5) the inability to achieve significant international revenue; (6) fluctuations in foreign currency exchange rates and the use of derivative instruments; (7) information security breaches or business system disruptions; (8) the inability to attract and retain skilled employees; (9) the reliance upon key suppliers to manufacture and deliver critical components for our products; (10) the failure to effectively manage product transitions or accurately forecast customer demand; (11) the inability to design and manufacture high-quality products; (12) the technological obsolescence of current products and the inability to develop new products; (13) the failure to properly manage the distribution of products and services; (14) the inability to protect our proprietary technology and intellectual property; (15) our involvement in time-consuming and costly litigation; (16) the impact of competitive pressures; (17) the challenges in integrating and achieving expected results from acquired businesses; (18) potential impairment charges with respect to our investments or for acquired intangible assets or goodwill; and (19) exposure to additional tax liabilities. The foregoing list should not be construed as exhaustive and we encourage readers to refer to the detailed discussion of risk factors included in Part I - Item 1A of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2015. The Company cautions readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. The Company disclaims any obligation to subsequently revise forward-looking statements to reflect the occurrence of anticipated or unanticipated events or circumstances after the date such statements are made.

Executive Overview

Cognex Corporation is a leading worldwide provider of machine vision products that capture and analyze visual information in order to automate tasks, primarily in manufacturing processes, where vision is required. On July 6, 2015, the Company completed the sale of its Surface Inspection Systems Division (SISD) that specialized in machine vision products that inspected the surfaces of materials processed in a continuous fashion. The financial results of SISD are reported as a discontinued operation for all periods presented.

In addition to product revenue derived from the sale of machine vision products, the Company also generates revenue by providing maintenance and support, consulting, and training services to its customers; however, service revenue accounted for less than 10% of total revenue for all periods presented.

The Company's customers are predominantly in the factory automation market. Factory automation customers purchase Cognex products and incorporate them into their manufacturing processes. Virtually every manufacturer can achieve better quality and manufacturing efficiency by using machine vision, and therefore, this market includes a broad base of customers across a variety of industries, including consumer electronics, automotive, consumer products, food and beverage, medical devices, and pharmaceuticals. Factory automation customers also purchase Cognex products for use outside of the manufacturing process, such as using ID products in logistics automation for package sorting and distribution. Sales to factory automation customers represented 96% of total revenue for the

second quarter of 2016 compared to 95% of total revenue for the second quarter of 2015.

A small percentage of the Company's customers are in the semiconductor and electronics capital equipment market. These customers purchase Cognex products and integrate them into the automation equipment that they manufacture and then sell to their customers to either make semiconductor chips or assemble printed circuit boards. Demand from these customers has been relatively flat on an annual basis for the past several years. Sales to semiconductor and electronics capital equipment manufacturers represented only 4% of total revenue for the second quarter of 2016 compared to 5% of total revenue for the second quarter of 2015.

Revenue for the second quarter of 2016 totaled \$147,274,000, representing an increase of \$3,445,000, or 2%, from the second quarter of 2015. Gross margin was 76% of revenue in the second quarter of 2016 compared to 79% of revenue in the second quarter of 2015 due primarily to lower margins on products sold to a material customer in the consumers electronics industry, a trend toward higher hardware content in our product sales, and higher inventory charges in the second quarter of 2016. Operating expenses increased by \$843,000, or 1%, from the second quarter of 2015, as higher personnel-related costs were offset by the settlement of patent litigation actions in the second quarter of 2015. Operating income was \$49,675,000, or 34% of revenue, in the second quarter of 2016 compared to \$51,778,000, or 36% of revenue, in the second quarter of 2015; net income from continuing operations was \$43,014,000, or 29% of revenue, in the second quarter of 2016 compared to \$43,516,000, or 30% of revenue, in the second quarter of 2015; and net income from continuing operations per diluted share was \$0.50 in the second quarter of 2016 compared to \$0.49 in the second quarter of 2015.

Results of Operations

As foreign currency exchange rates are a factor in understanding period-to-period comparisons, we believe the presentation of results on a constant-currency basis in addition to reported results helps improve investors' ability to understand our operating results and evaluate our performance in comparison to prior periods. We also use results on a constant-currency basis as one measure to evaluate our performance. Constant-currency information compares results between periods as if exchange rates had remained constant period-over-period. We generally refer to such amounts calculated on a constant-currency basis as excluding the impact of foreign currency exchange rate changes. Results on a constant-currency basis are not in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) and should be considered in addition to, and not as a substitute for, results prepared in accordance with U.S. GAAP.

Revenue

Revenue increased by \$3,445,000, or 2%, for the three-month period and decreased by \$1,723,000, or 1%, for the six-month period. Changes in foreign currency exchange rates did not have a material impact on revenue in either period. Revenue from factory automation customers increased by \$4,076,000 for the three-month period and decreased by \$461,000 for the six-month period. For both the three-month and six-month periods, lower revenue from a material customer in the consumer electronics industry was offset by growth in factory automation revenue from other customers, to result in relatively flat comparisons to the prior year.

The lower revenue from this customer is due to the timing of when orders are recognized as revenue in each year. In 2015, the majority of revenue from this customer was recognized in the second quarter with a still large, but lesser, amount recognized in the third quarter. In 2016, we expect revenue from this customer to be recognized more evenly between the second and third quarters. This timing has resulted in lower revenue in the second quarter of 2016 compared to the second quarter of 2015; however, we expect to record higher revenue from this customer in the third quarter of 2016 compared to the third quarter of 2015. Revenue from this customer has historically not been significant in either the first or fourth quarters of the year. Future seasonality will depend upon the new product introduction cycles of this customer.

Revenue from other factory automation customers increased by 20% for the three-month period and increased by 11% for the six-month period. These increases were driven by a higher volume of products sold in the Company's largest three regions, the Americas, Greater China, and Europe. The increased volume in the Americas was largely driven by higher revenue from customers in the logistics industry. The seasonality of this industry typically results in higher revenue in the second and third quarters of the year as certain customers are making investments in advance of the year-end holiday season. We typically experience a sequential decline in factory automation revenue during the summer months.

Revenue from semiconductor and electronics capital equipment manufacturers, which represented only 4% and 5% of total revenue for the three-month and six-month periods in 2016, respectively, decreased by \$631,000 for the three-month period and decreased by \$1,262,000 for the six-month period.

Gross Margin

Gross margin as a percentage of revenue was 76% and 77% for the three-month and six-month periods in 2016, respectively, compared to 79% and 78% for the same periods in 2015. The decrease for the three-month period was due in part to lower margins on products sold to a material customer in the consumers electronics industry. Although this customer, which receives preferred pricing, represented a smaller percentage of total revenue in the second quarter

of 2016 compared to the second quarter of 2015, the mix of products sold to this customer in 2016 had lower margins than the mix of products sold in 2015, resulting in a net unfavorable impact on the gross margin for the three-month period. A trend toward higher hardware content in our product sales, as well as higher inventory charges, also contributed to the decrease in gross margin for the three-month and six-month periods. While we expect the trend toward higher hardware content in our product sales to continue as we move away from software-only solutions, the second quarter of 2016 included an inventory charge reducing gross margin by approximately 100 basis points resulting from changes in product development plans that are not expected to recur for the remainder of the year. During the second half of 2016, the Company expects to recognize a greater percentage of total revenue from on-site support services, which carry relatively lower margins.

Operating Expenses

Research, Development, and Engineering Expenses

Research, development, and engineering (RD&E) expenses increased by \$1,369,000, or 7%, for the three-month period and increased by \$4,938,000, or 14%, for the six-month period as detailed in the table below (in thousands).

	Three-month period	Six-month period
RD&E expenses in 2015	\$ 18,302	\$ 35,288
Personnel-related costs	806	2,196
Outsourced engineering costs	(684) 1,060
Company bonus accruals	615	744
Stock option expense	223	608
Foreign currency exchange rate changes	(35) (245
Other	444	575
RD&E expenses in 2016	\$ 19,671	\$ 40,226

RD&E expenses increased due to higher personnel-related costs resulting primarily from headcount additions to support new product introductions and anticipated future revenue. Higher company bonus accruals were also recorded in 2016 as a result of the additional headcount and higher achievement levels on plans that were set at the beginning of the year. In addition, stock option expense was higher than the prior year. Although outsourced engineering costs were lower for the three-month period, they were higher for the six-month period due to high costs in the first quarter of 2016 related to the development of engineering prototypes for customer orders that were received in the second quarter of 2016.

RD&E expenses as a percentage of revenue were 13% and 17% for the three-month and six-month periods in 2016, respectively, compared to 13% and 14% for the same periods in 2015. We believe that a continued commitment to RD&E activities is essential in order to maintain or achieve product leadership with our existing products and to provide innovative new product offerings, as well as to provide engineering support for large customers. In addition, we consider our ability to accelerate time to market for new products to be critical to our revenue growth. Therefore, we expect to continue to make significant RD&E investments in the future. Although we target our RD&E spending to be between 10% and 15% of revenue, this percentage is impacted by revenue levels and investment cycles. RD&E spending for the first quarter in each year included investments to support anticipated customer orders in later quarters, resulting in a higher percentage for the six-month period. We expect RD&E expenses to be within the targeted range of 10% and 15% of revenue for the remainder of the year.

Selling, General, and Administrative Expenses

Selling, general, and administrative (SG&A) expenses decreased by \$526,000, or 1%, for the three-month period and decreased by \$2,121,000, or 3%, for the six-month period as detailed in the table below (in thousands).

	Three-month period	Six-month period
SG&A expenses in 2015	\$ 43,241	\$ 83,174
Microscan legal fees and settlement	(3,470)	(5,023)
Personnel-related costs	932	2,255
Company bonus accruals	901	820
Marketing activities	563	641
Foreign currency exchange rate changes	84	(646)
Other	464	(168)
SG&A expenses in 2016	\$ 42,715	\$ 81,053

SG&A expenses decreased from the prior year due to the settlement of patent litigation actions with Microscan Systems, Inc. in the second quarter of 2015. The Company incurred legal fees related to these actions totaling \$1,637,000 and \$3,190,000 in the three-month and six-month periods in 2015, respectively, and recorded a settlement expense of \$1,833,000 in the second quarter of 2015. Offsetting this decrease was higher personnel-related costs resulting primarily from headcount additions, principally sales personnel. Higher company bonus accruals were also recorded in 2016 as a result of the additional headcount and higher achievement levels on plans that were set at the beginning of the year. In addition, the Company increased its spending on marketing activities to promote new products.

Non-operating Income (Expense)

The Company recorded foreign currency gains of \$330,000 and \$230,000 for the three-month and six-month periods in 2016, respectively, compared to losses of \$39,000 for the three-month period in 2015 and gains of \$620,000 for the six-month period in 2015. The foreign currency gains and losses in each period resulted primarily from the revaluation and settlement of accounts receivable, accounts payable, and intercompany balances that are reported in one currency and collected in another.

Investment income increased by \$490,000, or 51%, for the three-month period and increased \$777,000, or 43%, for the six-month period due primarily to increased funds available for investment.

The Company recorded other income of \$222,000 and \$429,000 for the three-month and six-month periods in 2016, respectively, compared to other expense of \$55,000 and \$365,000 for the same periods in 2015. Other income in 2016 included a \$200,000 benefit in the three-month period and a \$463,000 benefit in the six-month period resulting from a decrease in the fair value of the contingent consideration liability that arose from a business acquisition completed in the third quarter of 2015. Other income (expense) also includes rental income, net of associated expenses, from leasing space in buildings adjacent to the Company's corporate headquarters.

Income Tax Expense

The Company's effective tax rate was 17% and 16% of the Company's pre-tax income for the three-month and six-month periods in 2016, respectively, compared to 17% for the same periods in 2015.

The effective tax rate for 2016 included a decrease in tax expense of \$463,000 in the first quarter of 2016 and \$745,000 in the second quarter of 2016 from the excess tax benefit arising from the difference between the deduction for tax purposes and the compensation cost recognized for financial reporting purposes from stock option exercises. In the first quarter of 2016, the Company adopted Accounting Standards Update 2016-09, "Improvements to Employee Share-Based Payment Accounting," which was issued by the Financial Accounting Standards Board in March 2016. This Update requires excess tax benefits to be recognized as an income tax benefit in the income statement. Previous guidance required excess tax benefits to be recognized as additional paid-in-capital in shareholders' equity on the balance sheet. The effective tax rate for 2016 also included an increase in tax expense of \$104,000 recorded in the second quarter of 2016 from the final true-up of the prior year's tax accrual upon filing the actual tax returns.

The effective tax rate for 2015 included a decrease in tax expense of \$364,000 recorded in the first quarter of 2015 from the expiration of the statutes of limitations for certain reserves for income tax uncertainties, a decrease in tax expense of \$112,000 recorded in the second quarter of 2015 from the final true-up of the prior year's tax accrual upon filing the actual tax returns, and an increase in tax expense of \$65,000 recorded in the second quarter of 2015 from the write down of a deferred tax asset.

Excluding the impact of these discrete tax events, the Company's effective tax rate was approximately 18% for all periods presented. The majority of income earned outside of the United States is permanently reinvested to provide funds for international expansion. The Company is tax resident in numerous jurisdictions around the world and has identified its major tax jurisdictions as the United States, Ireland and China. The statutory tax rate is 12.5% in Ireland and 25% in China. International rights to certain of the Company's intellectual property are held by a subsidiary which is tax resident in a country with no income tax, resulting in a foreign effective tax rate lower than the above mentioned statutory rates.

Discontinued Operations

On July 6, 2015, the Company completed the sale of its Surface Inspection Systems Division (SISD) that specializes in machine vision products that inspect the surfaces of materials processed in a continuous fashion. Net loss from discontinued operations was \$255,000 for the three-month and six-month periods in 2016, compared to net income of \$198,000 for the three-month period in 2015 and net income of \$1,228,000 for the six-month period in 2015. Net income from discontinued operations in the prior year represents the operating results of SISD for these periods prior to the sale transaction closing date.

A binding arbitration was concluded in the second quarter of 2016 with respect to certain product performance claims made by an SISD customer, for which the Company remained responsible under the indemnity provisions of the sale transaction. In that proceeding, the tribunal ordered the Company to pay the customer approximately \$326,000, primarily representing a refund of the product purchase price. The tribunal also ordered the customer to pay the Company approximately \$45,000, primarily representing reimbursement of legal fees. The net settlement of \$281,000 was recorded in discontinued operations in the second quarter of 2016, along with \$123,000 of legal fees. The tax benefit related to this expense was \$149,000, resulting in a net loss from discontinued operations of \$255,000.

Liquidity and Capital Resources

The Company has historically been able to generate positive cash flow from operations, which has funded its operating activities and other cash requirements and has resulted in an accumulated cash, cash equivalent, and investment balance of \$657,225,000 as of July 3, 2016. The Company has established guidelines relative to credit ratings, diversification, and maturities of its investments that maintain liquidity.

The Company's cash requirements during the six-month period in 2016 were met with positive cash flows from operations, investment maturities, and the proceeds from stock option exercises. Cash requirements consisted of operating activities, investment purchases, the payment of dividends, the repurchase of common stock, and capital expenditures. Capital expenditures for the six-month period in 2016 totaled \$5,347,000 and consisted primarily of computer hardware, computer software, manufacturing test equipment related to new product introductions, and improvements made to the Company's headquarters building in Natick, Massachusetts.

The Company's Board of Directors declared and paid a cash dividend of \$0.07 per share in the second, third, and fourth quarters of 2015, as well as in the first quarter of 2016. The cash dividend was increased to \$0.075 per share in the second quarter of 2016. Dividends paid during the six-month period in 2016 amounted to \$12,335,000. The dividend in the second quarter of 2015 was the first dividend declared and paid since the fourth quarter of 2012 when the Company's Board of Directors accelerated dividends in advance of an increase in the federal tax on dividends paid after December 31, 2012. Due to these accelerated payments, no dividends were declared or paid in 2013, 2014, or the first quarter of 2015. Future dividends will be declared at the discretion of the Company's Board of Directors and will depend upon such factors as the Board deems relevant including, among other things, the Company's ability to generate positive cash flows from operations.

In August 2015, the Company's Board of Directors authorized the repurchase of \$100,000,000 of the Company's common stock. As of July 3, 2016, the Company repurchased 2,519,000 shares at a cost of \$92,654,000 under this program, including 208,000 shares at a cost of \$8,718,000 repurchased in the second quarter of 2016. In November 2015, the Company's Board of Directors authorized the repurchase of an additional \$100,000,000 of the Company's common stock. Purchases under this November 2015 program will commence upon completion of the August 2015 program. The Company may repurchase shares under these programs in future periods depending upon a variety of factors, including, among other things, the impact of dilution from employee stock options, stock price, share

availability, and cash requirements.

The Company believes that its existing cash, cash equivalent, and investment balances, together with cash flow from operations, will be sufficient to meet its operating, investing, and financing activities for the next twelve months. As of July 3, 2016, the Company had approximately \$657 million in cash, cash equivalents, and debt securities that could be converted into cash. In addition, the Company has no debt and does not anticipate needing debt financing in the

near future. We believe that our strong cash position has put us in a relatively good position with respect to our longer-term liquidity needs.

New Pronouncements

Accounting Standards Update (ASU) 2014-09, "Revenue from Contracts with Customers"

The amendments in ASU 2014-09 will supersede and replace all currently existing U.S. GAAP, including industry-specific revenue recognition guidance, with a single, principle-based revenue recognition framework. The concept guiding this new model is that revenue recognition will depict transfer of control to the customer in an amount that reflects consideration to which an entity expects to be entitled. The core principles supporting this framework include (1) identifying the contract with a customer, (2) identifying separate performance obligations within the contract, (3) determining the transaction price, (4) allocating the transaction price to the performance obligations, and (5) recognizing revenue. This new framework will require entities to apply significantly more judgment. This increase in management judgment will require expanded disclosure on estimation methods, inputs, and assumptions for revenue recognition.

In March 2016, ASU 2016-08, "Principal versus Agent Considerations (Reporting Revenue Gross versus Net)," was issued, in April 2016, ASU 2016-10, "Identifying Performance Obligations and Licensing," was issued, and in May 2016, ASU 2016-12, "Narrow-Scope Improvements and Practical Expedients" was issued. These Updates do not change the core principle of the guidance under ASU 2014-09, but rather provide implementation guidance. ASU 2015-14, "Deferral of the effective date," amended the effective date of ASU 2014-09 for public companies to annual reporting periods beginning after December 15, 2017. Early adoption is permitted, but only beginning after December 15, 2016. The Financial Accounting Standards Board may release additional implementation guidance in future periods. Management will continue to evaluate the impact of this standard as it evolves.

Accounting Standards Update (ASU) 2015-11, "Inventory - Simplifying the Measurement of Inventory"

ASU 2015-11 requires companies to measure most inventory at the lower of cost and net realizable value, thereby simplifying the current guidance under which a company must measure inventory at the lower of cost or market. This ASU eliminates the need to determine replacement cost and evaluate whether said cost is within a quantitative range. This ASU also further aligns U.S. GAAP and international accounting standards. For public companies, the guidance in ASU 2015-11 is effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. Early adoption is permitted. Management does not expect ASU 2015-11 to have a material impact on the Company's financial statements and disclosures. Accounting Standards Update (ASU) 2016-01, "Financial Instruments - Recognition and Measurement of Financial Assets and Financial Liabilities"

ASU 2016-01 provides guidance related to certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. The amendments in this Update affect all entities that hold financial assets or owe financial liabilities. This ASU requires equity investments (except those accounted under the equity method) to be measured at fair value with changes in fair value recognized in net income. However, an entity may choose to measure equity investments that do not have readily determinable fair values at cost minus impairment. This ASU also eliminates the requirement for public companies to disclose the methods and significant assumptions used to estimate the fair value for financial instruments measured at amortized cost on the balance sheet, and it requires separate presentation of financial assets and financial liabilities by measurement category and form of financial asset on the balance sheet or the accompanying notes to the financial statements. For public companies, the guidance in ASU 2016-01 is effective for annual periods beginning after December 15, 2017, and interim periods within those annual periods. Early adoption is not permitted except for certain amendments in this Update. Management does not expect ASU 2016-01 to have a material impact on the Company's financial statements and disclosures.

Accounting Standards Update (ASU) 2016-02, "Leases"

ASU 2016-02 creates Topic 842, Leases. The objective of this Update is to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet, and disclosing key information about leasing arrangements. This ASU applies to any entity that enters into a lease, although lessees will see the most significant changes. The main difference between current U.S. GAAP and Topic 842 is the recognition of lease assets and lease liabilities on the balance sheet for those leases classified as operating leases under current U.S.

GAAP. Topic 842 distinguishes between finance leases and operating leases, which are substantially similar to the classification criteria for distinguishing between capital leases and operating leases under current U.S. GAAP. For public companies, the guidance in ASU 2016-02 is effective for annual periods beginning after December 15, 2018, and interim periods within those annual periods. This ASU should be applied using a modified retrospective approach. Management is in the process of evaluating the impact of this Update.

Accounting Standards Update (ASU) 2016-05, "Derivatives and Hedging - Effect of Derivative Contract Novations on Existing Hedge Accounting Relationships"

ASU 2016-05 applies to all reporting entities for which there is a change in the counterparty to a derivative instrument that has been designated as the hedging instrument. The amendments in this Update clarify that a change in the counterparty does not, in and of itself, require de-designation of that hedging relationship provided that all other hedge accounting criteria continue to be met. For public companies, the guidance in ASU 2016-05 is effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. This ASU should be applied on either a prospective basis or a modified retrospective basis. Management does not expect ASU 2016-05 to have a material impact on the Company's financial statements and disclosures.

Accounting Standards Update (ASU) 2016-13, "Financial Instruments - Measurement of Credit Losses"

ASU 2016-13 applies to all reporting entities holding financial assets that are not accounted for at fair value through net income (debt securities). The amendments in this Update eliminate the probable initial recognition threshold to recognize a credit loss under current U.S. GAAP and, instead, reflect an entity's current estimate of all expected credit losses. In addition, this Update broadens the information an entity must consider in developing the credit loss estimate, including the use of reasonable and supportable forecasted information. The amendments in this Update require that credit losses on available-for-sale debt securities be presented as an allowance rather than as a write-down and an entity will be able to record reversals of credit losses in current period net income. For public companies, the guidance in ASU 2016-13 is effective for annual periods beginning after December 15, 2019, and interim periods within those annual periods. This ASU should be applied through a cumulative-effect adjustment to retained earnings as of the beginning of the first reporting period in which the guidance is effective. Management does not expect ASU 2016-13 to have a material impact on the Company's financial statements and disclosures.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes to the Company's exposures to market risk since December 31, 2015.

ITEM 4: CONTROLS AND PROCEDURES

As required by Rules 13a-15 and 15d-15 of the Securities Exchange Act of 1934, the Company has evaluated, with the participation of management, including the Chief Executive Officer and the Chief Financial Officer, the effectiveness of its disclosure controls and procedures (as defined in such rules) as of the end of the period covered by this report. Based on such evaluation, the Chief Executive Officer and Chief Financial Officer concluded that such disclosure controls and procedures were effective as of that date. From time to time, the Company reviews its disclosure controls and procedures, and may from time to time make changes aimed at enhancing their effectiveness and to ensure that the Company's systems evolve with its business. There was no change in the Company's internal control over financial reporting that occurred during the quarter ended July 3, 2016 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II: OTHER INFORMATION**ITEM 1. LEGAL PROCEEDINGS**

Various claims and legal proceedings generally incidental to the normal course of business are pending or threatened on behalf of or against the Company. While we cannot predict the outcome of these matters, we believe that any liability arising from them will not have a material adverse effect on our financial position, liquidity, or results of operations.

ITEM 1A. RISK FACTORS

For a complete list of factors that could affect the Company's business, results of operations, and financial condition, see the risk factors discussion provided in Part I—Item 1A of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2015.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table sets forth information with respect to purchases by the Company of shares of its common stock during the three-month period ended July 3, 2016:

	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1)	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
April 4 - May 1, 2016	—	—	—	\$ 116,064,000
May 2 - May 29, 2016	97,500	40.33	97,500	112,132,000
May 30 - July 3, 2016	110,500	43.31	110,500	107,346,000
Total	208,000	41.92	208,000	\$ 107,346,000

(1) In August 2015, the Company's Board of Directors authorized the repurchase of \$100,000,000 of the Company's common stock. Purchases under this program commenced in the third quarter of 2015. In November 2015, the Company's Board of Directors authorized the repurchase of an additional \$100,000,000 of the Company's common stock. Purchases under this program will commence once the August 2015 program is complete.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

None.
