**Table of Contents**

**NEWPORT CORPORATION**  
**Notes to Consolidated Financial Statements**  
**September 27, 2008**

**NOTE 1 BASIS OF PRESENTATION**

The accompanying unaudited consolidated financial statements include the accounts of Newport Corporation and its wholly owned subsidiaries (collectively referred to as the Company). In the opinion of management, all adjustments (consisting of normal and recurring accruals) considered necessary for a fair presentation have been included. All significant intercompany transactions and balances have been eliminated in consolidation.

The accompanying consolidated financial statements do not include certain footnotes and financial presentations normally required under generally accepted accounting principles (GAAP) and, therefore, should be read in conjunction with the consolidated financial statements and related notes contained in the Company's Annual Report on Form 10-K for the year ended December 29, 2007. The results for the interim periods are not necessarily indicative of the results the Company will have for the full year ending January 3, 2009. The December 29, 2007 balances reported herein are derived from the audited consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 29, 2007.

Certain prior period amounts have been reclassified to conform to the current period presentation.

**NOTE 2 RECENT ACCOUNTING PRONOUNCEMENTS**

In December 2007, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 160, *Noncontrolling Interests in Consolidated Financial Statements - an amendment of ARB No. 51*. SFAS No. 160 establishes accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the entity that should be reported as equity in the consolidated financial statements. SFAS No. 160 will be effective for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. The adoption of SFAS No. 160 is not expected to have a material impact on the Company's financial position or results of operations.

In December 2007, the FASB issued SFAS No. 141 (Revised 2007), *Business Combinations* (SFAS No. 141R). SFAS No. 141R establishes principles and requirements for the manner in which the acquirer of a business recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree. SFAS No. 141R also provides guidance for recognizing and measuring the goodwill acquired in the business combination and disclosure requirements to enable users of the financial statements to evaluate the nature and financial effects of the business combination. SFAS 141R applies to business combinations that are consummated on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The adoption of SFAS No. 141R will not have an impact on the Company's financial position or results of operations other than in accounting for any business combination that may occur after the effective date.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities*. SFAS No. 161 requires enhanced disclosures by requiring qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of and gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008 and early adoption is encouraged. The adoption of SFAS No. 161 is not expected to have a material impact on the Company's financial position or results of operations.

In April 2008, the FASB issued FASB Staff Position (FSP) FAS 142-3, *Determination of the Useful Life of Intangible Assets* (FSP FAS 142-3). FSP FAS 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS No. 142, *Goodwill and Other Intangible Assets*. Under FSP FAS 142-3, companies are required to consider their own historical experience in renewing or extending similar arrangements and in the absence of historical experience, companies are required to consider the assumptions that market participants would use regarding renewal or extension, adjusted for company-specific factors. FSP FAS 142-3 will be effective for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. FSP FAS 142-3 must be applied prospectively to

**Table of Contents**

**NEWPORT CORPORATION**  
**Notes to Consolidated Financial Statements**  
**September 27, 2008**

intangible assets acquired after the effective date and early adoption is prohibited. The adoption of FSP FAS 142-3 will not have an impact on the Company's financial position or results of operations other than in accounting for the acquisition of intangible assets that may occur after the effective date.

In May 2008, the FASB issued SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles*. SFAS No. 162 identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles in the United States. SFAS No. 162 is effective 60 days following the Securities and Exchange Commission's approval of the Public Company Accounting Oversight Board amendments to AU Section 411, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*. The adoption of SFAS No. 162 will not have a material impact on the Company's financial position or results of operations.

In May 2008, the FASB issued FSP APB 14-1, *Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement)*. FSP APB 14-1 requires the liability and equity components of convertible debt instruments to be separately accounted for in a manner that reflects the non-convertible debt borrowing rate for interest expense recognition. In addition, direct issuance costs associated with the convertible debt instruments are required to be allocated to the liability and equity components in proportion to the allocation of proceeds and accounted for as debt issuance costs and equity issuance costs, respectively. FSP APB 14-1 will be effective for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. FSP APB 14-1 must be applied retrospectively and early adoption is prohibited. The Company believes that the adoption of FSP APB 14-1 will result in a reduction in the carrying value of its convertible subordinated notes, an increase to capital in excess of par value, a cumulative effect adjustment reducing retained earnings and a significant increase in interest expense, which increase will be non-cash in nature. However, the Company has not finalized the amounts of such adjustments.

**NOTE 3 FAIR VALUE MEASUREMENTS**

During the first quarter of 2008, the Company adopted SFAS No. 157, which requires that, for any assets and liabilities stated at fair value in the Company's financial statements, the fair value of such assets and liabilities be measured based on the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company's assets measured at fair value on a recurring basis are categorized in the table below based upon their level within the fair value hierarchy.

(In thousands)	September 27, 2008	Fair Value Measurements at Reporting Date Using

Allowance for excess and obsolete inventory	(23,052)	(23,144)
	\$ 105,279	\$ 113,969

*Accrued Warranty Obligations*

Unless otherwise stated in the Company's product literature or in its agreements with customers, products sold by the Company's Photonics and Precision Technologies (PPT) Division generally carry a one-year warranty from the original invoice date on all product materials and workmanship. Products of this division sold to original equipment manufacturer (OEM) customers generally carry longer warranties, typically 15 to 24 months. Products sold by the Company's Lasers Division typically carry warranties that vary by product and product component, but that generally range from 90 days to two years. In certain cases, such warranties for Lasers Division products are limited by either a set calendar period or a maximum amount of usage of the product, whichever occurs first. Defective products will be either repaired or replaced, generally at the Company's option, upon meeting certain criteria. The Company accrues a provision for the estimated costs that may be incurred for warranties relating to a product (based on historical experience) as a component of cost of sales at the time revenue for that product is recognized. Accrued warranty obligations are included in *accrued expenses and other current liabilities* in the accompanying consolidated balance sheets.

The activity in accrued warranty obligations was as follows:

<b>(In thousands)</b>	<b>Nine Months Ended September 27, 2008</b>	<b>September 29, 2007</b>

Table of Contents

**NEWPORT CORPORATION**  
**Notes to Consolidated Financial Statements**  
**September 27, 2008**

**NOTE 6 STOCK-BASED COMPENSATION**

During the three and nine months ended September 27, 2008, the Company granted 14,410 and 1.4 million restricted stock units with a weighted average grant date fair value of \$11.04 and \$9.88, respectively.

The total stock-based compensation expense included in the Company's consolidated statements of operations was as follows:

	Three Months Ended		Nine Months Ended	
	September 27, 2008	September 29, 2007	September 27, 2008	September 29, 2007
<b>(In thousands)</b>				
Cost of sales	\$ 36	\$ 152	\$ 198	\$ 396
Selling, general and administrative expenses	(195)	(322)	1,044	2,603
Research and development expense	61	(100)	264	223
	\$ (98)	\$ (270)	\$ 1,506	\$ 3,222

Certain of the Company's stock-based awards vest conditioned upon the achievement by the Company of annual financial performance goals. In the three months ended September 27, 2008 and September 29, 2007, the Company determined that the performance goals applicable to certain of the Company's outstanding stock-based awards would not be achieved. Accordingly, in the three months ended September 27, 2008 and September 29, 2007, the Company cumulatively adjusted the stock-based compensation expense previously recognized for such awards based on the expectation that such awards would not vest.

Stock-based compensation expense associated with personnel engaged in manufacturing is capitalized and reflected in inventories, when applicable. At September 27, 2008 and December 29, 2007, such amounts were not material.

**NOTE 7 DEBT AND LINES OF CREDIT**

At September 27, 2008 and December 29, 2007, the Company had \$175.0 million in convertible subordinated notes outstanding. The notes are subordinated to all of the Company's existing and future senior indebtedness, mature on February 15, 2012 and bear interest at a rate of 2.5% per year, payable in cash semiannually in arrears on February 15 and August 15 of each year. The notes are included in *long-term debt* in the accompanying consolidated balance sheets. The offering fees and expenses of \$3.8 million, net of accumulated amortization of \$1.8 million, are included in other long-term assets in *investments and other assets*, and are being amortized through February 15, 2012 using the effective interest method.

On June 30, 2008, the Company issued 300 million yen (\$2.8 million at September 27, 2008) in private placement bonds through a Japanese bank and used the proceeds from such issuance to pay the amounts outstanding under an expiring line of credit. These bonds bear interest at a rate of 1.55% per year, payable in cash semiannually in arrears on June 30 and December 31 of each year. The bonds mature on June 30, 2011. The bonds are included in *long-term debt* in the accompanying consolidated balance sheets.

At September 27, 2008, the Company had a total of three lines of credit, including one domestic revolving line of credit and two revolving lines of credit with Japanese banks. Additionally, the Company has agreements with two Japanese banks under which it sells trade notes receivable with recourse.

The Company's domestic revolving line of credit has a total credit limit of \$5.0 million and expires December 1, 2008. Certain cash equivalents held at this lending institution collateralize this line of credit, which bears interest at either the prevailing prime rate (5.00% at September 27, 2008), or the prevailing London Interbank Offered Rate (3.70% at September 27, 2008) plus 1.25%, at the Company's option, and carries an unused line fee of 0.25% per year. At September 27, 2008, there were no balances outstanding under this line of credit, with \$4.0 million available, after considering outstanding letters of credit totaling \$1.0 million.

**Table of Contents**

**NEWPORT CORPORATION**  
**Notes to Consolidated Financial Statements**  
**September 27, 2008**

The two revolving lines of credit with Japanese banks totaled 1.4 billion yen (\$13.2 million at September 27, 2008) and expire as follows: \$5.7 million on September 30, 2008 (which has been subsequently renewed) and \$7.5 million on November 30, 2008. These lines are not secured and bear interest at the prevailing bank rate. At September 27, 2008, the Company had \$9.3 million outstanding and \$3.9 million available for borrowing under these lines of credit. Amounts outstanding are included in *short-term obligations* in the accompanying consolidated balance sheets. The Company has agreements with two Japanese banks under which it sells trade notes receivable with recourse. These agreements allow the Company to sell receivables totaling up to 550 million yen (\$5.2 million at September 27, 2008), have no expiration dates and bear interest at the prevailing bank rate. At September 27, 2008, the Company had \$2.4 million outstanding and \$2.8 million available for the sale of notes receivable under these agreements. Amounts outstanding under these agreements are included in *short-term obligations* in the accompanying consolidated balance sheets, as the sale of these receivables has not met the criteria for sale treatment in accordance with SFAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities a replacement of FASB Statement No. 125*. As of September 27, 2008, the weighted average effective interest rate on all of the Company's Japanese borrowings, including the private placement bonds, was 1.9%.

**NOTE 8 NET INCOME (LOSS) PER SHARE**

The following table sets forth the computation of basic and diluted net income (loss) per share:

(In thousands)	Three Months Ended		Nine Months Ended	
	September 27, 2008	September 29, 2007	September 27, 2008	September 29, 2007
Net income (loss)	\$ (1,135)	\$ 5,542	\$ (202)	\$ 18,756
Shares:				
Weighted average shares outstanding basic	36,078	37,723	36,208	38,994
Dilutive potential common shares, using treasury stock method		386		684
Weighted average shares outstanding diluted	36,078	38,109	36,208	39,678
Net income (loss) per share:				
Basic	\$ (0.03)	\$ 0.15	\$ (0.01)	\$ 0.48
Diluted	\$ (0.03)	\$ 0.15	\$ (0.01)	\$ 0.47

For the three and nine months ended September 27, 2008, 36,078,000 and 36,208,000 shares, respectively, have been used as the denominator for computing both basic and diluted net loss per share, as including dilutive potential common shares in the calculation of diluted net loss per share would have had an antidilutive effect due to the Company incurring a loss. For the three and nine months ended September 29, 2007, 926,000 and 852,000 stock options with a weighted average exercise price of \$41.28 and \$43.54, respectively, were excluded from the computations of diluted net income per share, as their inclusion would be antidilutive. In addition, for both the three and nine months ended September 29, 2007, 1.2 million performance-based restricted stock units were excluded from the computation of diluted net income per share, as the performance criteria for their vesting had not been met.

Edgar Filing: NEWPORT CORP - Form 10-Q

For the three and nine months ended September 27, 2008 and September 29, 2007, the Company's convertible subordinated notes had no impact on diluted net income (loss) per share as the average price of the Company's common stock during those periods was below \$24.05, and the convertible subordinated notes, if converted, would require only cash settlement.

**Table of Contents**

**NEWPORT CORPORATION**  
**Notes to Consolidated Financial Statements**  
**September 27, 2008**

**NOTE 9 INCOME TAXES**

The Company's effective tax rates for the three and nine months ended September 27, 2008 were impacted by the fact that the Company recorded lower income, or losses, in various low tax jurisdictions and greater profits in relatively high tax international jurisdictions. In addition, the Company's effective tax rate for the three month period varied significantly compared with the effective tax rate for the nine month period due to the fact that the Company reported a pre-tax loss for the three month period, but recorded pre-tax profits for the nine month period.

The Company has maintained a valuation allowance against a portion of its gross deferred tax assets pursuant to SFAS No. 109, *Accounting for Income Taxes*, due to the uncertainty as to the timing and ultimate realization of those assets. As a result, until such valuation allowance is reversed, the U.S. tax provision relating to future earnings will be offset substantially by a reduction in the valuation allowance. Accordingly, current and future tax expense will consist of certain required state income taxes, taxes in certain foreign jurisdictions, the federal alternative minimum tax and the impact of discrete items.

The Company will continue to monitor actual results, refine forecasted data and assess the need for retaining a valuation allowance against a portion of the gross deferred tax assets. In the event it is determined that a valuation allowance is no longer required, the reversal will be recorded as a discrete item in the appropriate period. As of September 27, 2008, the Company's remaining valuation allowance was \$25.7 million.

**NOTE 10 COMPREHENSIVE INCOME (LOSS)**

The components of comprehensive income (loss), net of related tax, were as follows:

	<b>Three Months Ended</b>		<b>Nine Months Ended</b>	
	<b>September 27, 2008</b>	<b>September 29, 2007</b>	<b>September 27, 2008</b>	<b>September 29, 2007</b>
<b>(In thousands)</b>				
Net income (loss)	\$ (1,135)	\$ 5,542	\$ (202)	\$ 18,756
Foreign currency translation gains (losses)	(4,772)	381	781	2,281
Unrecognized net pension gains (losses)	1	(20)	24	(49)
Unrealized gains (losses) on marketable securities	(511)	104	(652)	108
	\$ (6,417)	\$ 6,007	\$ (49)	\$ 21,096

**NOTE 11 STOCKHOLDERS' EQUITY TRANSACTIONS**

In 2006, the Board of Directors of the Company approved a share repurchase program, authorizing the purchase of up to 4.2 million shares of its common stock. Under this program, the Company repurchased 1.1 million shares for \$11.4 million during the first quarter of 2008, which completed its purchases under this program.

In May 2008, the Board of Directors of the Company approved a new share repurchase program, authorizing the purchase of up to 4.0 million shares of the Company's common stock. Purchases may be made under this program from time to time in the open market or in privately negotiated transactions, and the timing and amount of the purchases will be based on factors including the Company's share price, cash balances, expected cash requirements and general business and market conditions. Under this program, the Company repurchased 127,472 shares for \$1.4 million during the nine months ended September 27, 2008. As of September 27, 2008, a total of approximately 3.9 million shares remained available for repurchase under the program.

**NOTE 12 DEFINED BENEFIT PENSION PLANS**

Several of the Company's non-U.S. subsidiaries have defined benefit pension plans covering substantially all full-time employees at those subsidiaries. Some of the plans are unfunded, as permitted under the plans and applicable laws. For financial reporting purposes, the calculation of net periodic pension costs is based upon a number of actuarial assumptions, including a discount rate for plan obligations, an assumed rate of return on pension plan

**Table of Contents**

**NEWPORT CORPORATION**  
**Notes to Consolidated Financial Statements**  
**September 27, 2008**

assets and an assumed rate of compensation increase for employees covered by the plan. All of these assumptions are based upon management's judgment, considering all known trends and uncertainties. Actual results that differ from these assumptions would impact future expense recognition and the cash funding requirements of the Company's pension plans.

Net periodic benefit costs for the plans in aggregate included the following components:

<b>(In thousands)</b>	<b>Three Months Ended</b>		<b>Nine Months Ended</b>	
	<b>September 27, 2008</b>	<b>September 29, 2007</b>	<b>September 27, 2008</b>	<b>September 29, 2007</b>
Service cost	\$ 143	\$ 161	\$ 438	\$ 477
Interest cost on benefit obligations	172	165	523	486
Expected return on plan assets	(40)	(47)	(123)	(139)
Net gain		2		6
	<b>\$ 275</b>	<b>\$ 281</b>	<b>\$ 838</b>	<b>\$ 830</b>

**NOTE 13 BUSINESS SEGMENT INFORMATION**

The operating segments reported below are the segments of the Company for which separate financial information is available and for which operating results are evaluated regularly by the Chief Executive Officer in deciding how to allocate resources and in assessing performance. The Company develops, manufactures and markets its products within two distinct business segments, its Lasers Division and its PPT Division.

The Company measured operating income (loss) reported for each business segment, which included only those costs that were directly attributable to the operations of that segment, and excluded certain corporate expenses, interest and other income (expense), net, and income taxes.

<b>(In thousands)</b>	<b>Lasers</b>	<b>Photonics and Precision Technologies</b>	<b>Total</b>
<b>Three months ended September 27, 2008:</b>			
Sales to external customers	\$ 44,847	\$ 60,179	\$ 105,026
Segment income (loss)	\$ (2,218)	\$ 8,935	\$ 6,717
<b>Three months ended September 29, 2007:</b>			
Sales to external customers	\$ 45,080	\$ 63,921	\$ 109,001
Segment income	\$ 182	\$ 13,239	\$ 13,421
<b>Nine months ended September 27, 2008:</b>			
Sales to external customers	\$ 142,212	\$ 195,721	\$ 337,933
Segment income (loss)	\$ (4,143)	\$ 33,367	\$ 29,224
<b>Nine months ended September 29, 2007:</b>			
Sales to external customers	\$ 133,835	\$ 193,334	\$ 327,169
Segment income	\$ 1,470	\$ 41,602	\$ 43,072

**Table of Contents**

**NEWPORT CORPORATION**  
**Notes to Consolidated Financial Statements**  
**September 27, 2008**

The following reconciles segment income to consolidated income (loss) before income taxes:

(In thousands)	Three Months Ended		Nine Months Ended	
	September 27, 2008	September 29, 2007	September 27, 2008	September 29, 2007
Segment income	\$ 6,717	\$ 13,421	\$ 29,224	\$ 43,072
Unallocated operating expenses	(6,660)	(8,297)	(19,427)	(22,539)
Recovery (write-down) of note receivable and other amounts related to previously discontinued operations, net	743		(6,317)	
Interest and other income (expense), net	(849)	132	(1,538)	349
	\$ (49)	\$ 5,256	\$ 1,942	\$ 20,882

**NOTE 14 WRITE-DOWN OF NOTE RECEIVABLE AND OTHER AMOUNTS**

In 2005, the Company sold its robotic systems operations to Kensington Laboratories LLC (Kensington) for \$0.5 million in cash and a note receivable of \$5.7 million, after adjustments provided for in the purchase agreement, and subleased the facility relating to such operations to Kensington. Such business had been previously classified by the Company as a discontinued operation. Kensington has failed to make certain principal, interest and rent payments due under its agreements with the Company. The note is secured by a first-priority security interest in certain Kensington assets, and the Company has begun legal proceedings to collect amounts owed. Due to uncertainty regarding collectibility, in the second quarter of 2008, the Company recognized a charge of \$7.1 million to fully write off such note receivable and other amounts owed. In accordance with the Securities and Exchange Commission Staff Accounting Bulletin Topic 5.Z.5, the Company has recorded this write-down through continuing operations in its consolidated statements of operations. During the third quarter of 2008, the Company recovered \$0.7 million of the rent payments due, which has been included in the Company's consolidated statements of operations. Any additional amounts recovered in the future will be included in the Company's consolidated statements of operations for the periods in which the cash is collected.

**NOTE 15 SUBSEQUENT EVENTS**

In October 2008, the Company repurchased \$3.0 million of its convertible subordinated notes at a price equal to 65% of the principal amount of the notes, or \$2.0 million. The \$1.0 million gain on extinguishment of the debt, net of unamortized fees, will be recorded as non-operating income in the Company's consolidated statements of operations for the fourth quarter of 2008.

In October 2008, the Company sold a building under a sale-leaseback agreement for \$7.0 million, net of \$0.3 million in selling costs. The Company will record a gain on the sale of the building of approximately \$3.1 million in the fourth quarter of 2008 after considering the net book value of the building and the present value of the leaseback agreement.

**Table of Contents****Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

*This Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with our unaudited consolidated financial statements and related notes included elsewhere in this Quarterly Report on Form 10-Q and in conjunction with our Annual Report on Form 10-K for the year ended December 29, 2007. This discussion contains descriptions of our expectations regarding future trends affecting our business. These forward-looking statements and other forward-looking statements made elsewhere in this report are made in reliance upon safe harbor provisions in Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Words such as may, will, expect, believe, anticipate, intend, could, continue or the negative or other variations thereof or comparable terminology are intended to identify forward-looking statements. In addition, any statements that refer to projections of our future financial performance or condition, trends in our business, or other characterizations of future events or circumstances are forward-looking statements. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of several factors, including, but not limited to those factors set forth and discussed elsewhere in this Quarterly Report on Form 10-Q and in Item 1 (Business) and Item 1A (Risk Factors) of Part I, and Item 7 (Management's Discussion and Analysis of Financial Condition and Results of Operations) of Part II, of our Annual Report on Form 10-K for the year ended December 29, 2007. In light of the significant uncertainties inherent in the forward-looking information included in this report, the inclusion of this information should not be regarded as a representation by us or any other person that our objectives or plans will be achieved and readers are cautioned not to place undue reliance on such forward-looking information. We undertake no obligation to update or revise these forward-looking statements, whether as a result of new information, future events or otherwise.*

**Overview**

We are a global supplier of advanced technology lasers, components, instruments, subsystems and systems to markets where high-precision, efficient manufacturing, test, measurement and assembly are critical. Our products are used worldwide in industries including scientific research, microelectronics, aerospace and defense/security, life and health sciences and industrial manufacturing. We operate within two distinct business segments, our Lasers Division and our Photonics and Precision Technologies (PPT) Division. Both of our divisions offer a broad array of advanced technology products and services to original equipment manufacturer and end-user customers across a wide range of applications and markets.

The following is a discussion and analysis of certain factors that have affected our results of operations and financial condition during the periods included in the accompanying consolidated financial statements.

**Critical Accounting Policies and Estimates**

The preparation of our financial statements requires that we make estimates and assumptions that affect the reported amounts of assets and liabilities and related disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. On an ongoing basis, we evaluate these estimates and assumptions, which are based on historical experience and on other assumptions that we believe to be reasonable. In the event that any of our estimates and assumptions are inaccurate in any material respect, it could have a material adverse effect on our reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. A summary of our critical accounting policies is included in Item 7 (Management's Discussion and Analysis of Financial Condition and Results of Operations) of Part II, of our Annual Report on Form 10-K for the fiscal year ended December 29, 2007. There have been no material changes to the critical accounting policies disclosed in our Annual Report on Form 10-K for the fiscal year ended December 29, 2007.

**Table of Contents****Stock-Based Compensation**

During the three and nine months ended September 27, 2008, we granted 14,410 and 1.4 million restricted stock units with a weighted average grant date fair value of \$11.04 and \$9.88, respectively.

The total stock-based compensation expense included in our consolidated statements of operations was as follows:

(In thousands)	Three Months Ended		Nine Months Ended	
	September 27, 2008	September 29, 2007	September 27, 2008	September 29, 2007
Cost of sales	\$ 36	\$ 152	\$ 198	\$ 396
Selling, general and administrative expenses	(195)	(322)	1,044	2,603
Research and development expense	61	(100)	264	223
	\$ (98)	\$ (270)	\$ 1,506	\$ 3,222

Certain of our stock-based awards vest conditioned upon our achievement of annual financial performance goals. In the three months ended September 27, 2008 and September 29, 2007, we determined that the performance goals applicable to certain of our outstanding stock-based awards would not be achieved. Accordingly, in the three months ended September 27, 2008 and September 29, 2007, we cumulatively adjusted the stock-based compensation expense previously recognized for such awards based on the expectation that such awards would not vest.

Stock-based compensation expense associated with personnel engaged in manufacturing is capitalized and reflected in inventories, when applicable. At September 27, 2008 and December 29, 2007, such amounts were not material.

**Results of Operations for the Three and Nine Months Ended September 27, 2008 and September 29, 2007**

The following table presents our results of operations for the periods indicated as a percentage of net sales:

	Percentage of Net Sales			
	Three Months Ended September 27, 2008	Three Months Ended September 29, 2007	Nine Months Ended September 27, 2008	Nine Months Ended September 29, 2007
Net sales	100.0%	100.0%	100.0%	100.0%
Cost of sales	62.3	60.0	60.6	57.4
Gross profit	37.7	40.0	39.4	42.6
Selling, general and administrative expenses	26.9	26.4	26.1	26.8
Research and development expense	10.8	8.9	10.4	9.5
Operating income	0.0	4.7	2.9	6.3
Recovery (write-down) of note receivable and other amounts related to previously discontinued operations, net	0.7		(1.9)	
Interest and other income (expense), net	(0.8)	0.1	(0.5)	0.1
Income (loss) before income taxes	(0.1)	4.8	0.5	6.4
Income tax provision (benefit)	1.0	(0.3)	0.6	0.6

Net income (loss)	(1.1)%	5.1%	(0.1)%	5.8%
-------------------	--------	------	--------	------

16

---

**Table of Contents**

In the following discussion regarding our results of operations, certain prior period amounts have been reclassified to conform to the current period presentation.

***Net Sales***

Net sales for the three months ended September 27, 2008 decreased \$4.0 million, or 3.6%, compared with the corresponding period in 2007. Net sales by our Lasers Division decreased \$0.2 million, or 0.5%, and net sales by our PPT Division decreased \$3.8 million, or 5.9%, compared with the prior year period. The decrease in total net sales during the three months ended September 27, 2008 compared with the prior year period was due primarily to lower sales to customers in our scientific research, aerospace and defense/security end market, offset in part by increased sales to our microelectronics end market.

Net sales for the nine months ended September 27, 2008 increased \$10.8 million, or 3.3%, compared with the corresponding period in 2007. Net sales by our Lasers Division increased \$8.4 million, or 6.3%, and net sales by our PPT Division increased \$2.4 million, or 1.2%, compared with the prior year period. The increase in total net sales during the nine months ended September 27, 2008 compared with the prior year period was due primarily to higher sales to customers in our microelectronics and industrial manufacturing and other end markets, offset in part by lower sales to our scientific research, aerospace and defense/security end market.

Net sales to the scientific research, aerospace and defense/security markets for the three months ended September 27, 2008 decreased \$4.1 million, or 10.7%, compared with the same period in 2007. Net sales to these markets for the nine months ended September 27, 2008 decreased \$1.2 million, or 1.1%, compared with the same period in 2007. The decrease in sales to these markets in the third quarter of 2008 compared with the prior year period was due in large part to shipments of large systems by our PPT Division for a major aerospace program in the 2007 period that did not recur in the 2008 period. The decrease in sales to this market in the nine month period of 2008 was due primarily to lower sales by our PPT Division for the reasons noted above, as well as generally weaker market conditions.

Generally, our net sales to these markets by each of our divisions may fluctuate from period to period due to changes in overall research and defense spending levels and the timing of large sales relating to major research and aerospace/defense programs and, in some cases, these fluctuations may be offsetting between our divisions or between such periods.

Net sales to the microelectronics market for the three months ended September 27, 2008 increased \$1.4 million, or 5.0%, compared with the same period in 2007. Net sales to this market for the nine months ended September 27, 2008 increased \$8.0 million, or 8.5%, compared with the same period in 2007. The increases in sales to this market during the three and nine months ended September 27, 2008 compared with the same periods in 2007 were due primarily to increased sales of products and systems for photovoltaic applications and laser-based disk texturing systems, offset in part by a significant decrease in sales to our semiconductor manufacturing equipment customers as a result of the continued cyclical downturn in that market.

Net sales to the life and health sciences market for the three months ended September 27, 2008 decreased \$0.5 million, or 2.5%, compared with the same period in 2007, due to lower sales by our PPT Division. Net sales to this market during the nine months ended September 27, 2008 were approximately equal to the same period in 2007, due to increased sales by our Lasers Division, offset by lower sales by our PPT Division.

Net sales to our industrial manufacturing and other end markets for the three months ended September 27, 2008 decreased \$0.8 million, or 3.7%, compared with the same period in 2007, due to lower sales by our Lasers Division, offset in part by higher sales by our PPT Division. Net sales to these markets for the nine months ended September 27, 2008 increased \$3.9 million, or 6.3%, compared with the same period in 2007, due to increased sales by our PPT Division, offset in part by lower sales by our Lasers Division.

**Table of Contents**

Geographically, net sales were as follows:

(In thousands)	Three Months Ended		Increase (Decrease)	Percentage Increase (Decrease)
	September 27, 2008	September 29, 2007		
United States	\$ 50,869	\$ 53,332	\$ (2,463)	(4.6)%
Europe	27,165	29,865	(2,700)	(9.0)
Pacific Rim	21,872	19,260	2,612	13.6
Other	5,120	6,544	(1,424)	(21.8)
	\$ 105,026	\$ 109,001	\$ (3,975)	(3.6)%

(In thousands)	Nine Months Ended		Increase (Decrease)	Percentage Increase (Decrease)
	September 27, 2008	September 29, 2007		
United States	\$ 157,249	\$ 167,884	\$ (10,635)	(6.3)%
Europe	86,982	83,245	3,737	4.5
Pacific Rim	78,207	56,436	21,771	38.6
Other	15,495	19,604	(4,109)	(21.0)
	\$ 337,933	\$ 327,169	\$ 10,764	3.3%

The decrease in sales to customers in the United States for the three and nine months ended September 27, 2009 was due primarily to decreased sales to our semiconductor manufacturing equipment customers. Our decreased sales to customers in Europe in the third quarter of 2008 compared with the prior year period was due primarily to shipments of large systems by our PPT Division for a major aerospace program in the 2007 period that did not recur in the 2008 period. Our increased sales to the Pacific Rim in both periods of 2008 were due in large part to increased sales of laser-based disk texturing systems compared with the prior year period. Our sales of these systems are typically made in batches rather than a steady stream and do not occur every quarter. Our decreased sales to customers in other areas of the world in both periods of 2008 were due primarily to decreased sales to our semiconductor manufacturing equipment customers.

**Gross Margin**

Gross margin was 37.7% and 40.0% for the three months ended September 27, 2008 and September 29, 2007, respectively, and was 39.4% and 42.6% for the nine months ended September 27, 2008 and September 29, 2007, respectively. The decrease in gross margin in both periods in 2008 was due primarily to lower gross margins in our Lasers Division, which experienced reduced absorption of overhead costs due to lower manufacturing volume, particularly in the third quarter, a higher proportion of sales of products with lower gross margins, and generally greater market pricing pressure. In addition, our PPT Division experienced lower gross margins in the third quarter of 2008 due to its lower sales volume.

**Selling, General and Administrative (SG&A) Expenses**

SG&A expenses totaled \$28.2 million, or 26.9% of net sales, and \$28.7 million, or 26.4% of net sales, for the three months ended September 27, 2008 and September 29, 2007, respectively. The decrease in SG&A expenses in absolute dollars for the current year period was due primarily to decreased personnel costs, particularly equity and incentive compensation, offset in part by costs associated with actions initiated in the third quarter of 2008 to reduce operating costs and improve our profitability.

SG&A expenses totaled \$88.1 million, or 26.1% of net sales, and \$87.5 million, or 26.8% of net sales, for the nine months ended September 27, 2008 and September 29, 2007, respectively. The increase in SG&A expenses in absolute dollars for the current year period was due primarily to a \$1.8 million increase in rent and utilities expense, offset in part by a \$1.3 million reduction in personnel costs, even after considering the additional charges associated with our cost reduction actions.

**Table of Contents*****Research and Development (R&D) Expense***

R&D expense totaled \$11.3 million, or 10.8% of net sales, and \$9.7 million, or 8.9% of net sales, for the three months ended September 27, 2008 and September 29, 2007, respectively, and \$35.1 million, or 10.4% of net sales, and \$31.2 million, or 9.5% of net sales, for the nine months ended September 27, 2008 and September 29, 2007, respectively. The increase in R&D expense in the current year periods was due primarily to increased spending on new product development for photovoltaic applications.

We believe that the continued development and advancement of our key products and technologies is critical to our future success, and we intend to continue to invest in key R&D initiatives, while working to ensure that the efforts are focused and the funds are deployed efficiently. In general, we expect that R&D expense as a percentage of net sales will vary in the future based on our sales level in any given period. Because of our commitment to continued product development, and because the majority of our R&D expense is fixed in the short term, changes in R&D expense will likely not be in proportion to the changes in net sales.

***Recovery (Write-Down) of Note Receivable and Other Amounts***

In 2005, we sold our robotic systems operations to Kensington Laboratories LLC (Kensington) for \$0.5 million in cash and a note receivable of \$5.7 million, after adjustments provided for in the purchase agreement, and subleased the facility relating to such operations to Kensington. We had previously classified such business as a discontinued operation. Kensington has failed to make certain principal, interest and rent payments due under our agreements. The note is secured by a first-priority security interest in certain Kensington assets, and we have begun legal proceedings to collect amounts owed. Due to uncertainty regarding collectibility, in the second quarter of 2008, we recognized a charge of \$7.1 million to fully write off the note receivable and other amounts owed. In accordance with the Securities and Exchange Commission Staff Accounting Bulletin Topic 5.Z.5, we have recorded this write-down through continuing operations in our consolidated statements of operations. During the third quarter of 2008, we recovered \$0.7 million of the rent payments due, which has been included in our consolidated statements of operations. Any additional amounts recovered in the future will be included in our consolidated statements of operations for the periods in which the cash is collected.

***Interest and Other Income (Expense), Net***

Interest and other expense, net totaled \$0.8 million for the three months ended September 27, 2008 compared with interest and other income, net of \$0.1 million for the three months ended September 29, 2007. Interest and other expense, net totaled \$1.5 million for the nine months ended September 27, 2008 compared with interest and other income, net of \$0.3 million for the nine months ended September 29, 2007. In the current year periods, interest income was negatively impacted by lower cash balances compared with the same periods in 2007, when we had higher cash balances due primarily to proceeds received from our convertible debt offering in February 2007, a significant portion of which was subsequently used for stock repurchases and capital expenditures. In addition, during both periods of 2008, interest income was negatively impacted by lower interest rates.

We expect that interest and other expense, net in the fourth quarter of 2008 will be slightly higher than the third quarter. In general, we expect interest and other income (expense), net to fluctuate slightly in future periods, depending on our levels of cash and marketable securities and interest earned thereon in a given period. Upon adoption of FSP APB 14-1 in fiscal year 2009, we expect that the interest expense associated with our convertible subordinated notes will increase significantly, which increase will be non-cash in nature.

***Income Taxes***

Our effective tax rate for the three and nine months ended September 27, 2008 was (2,216.3%) and 110.4%, respectively, compared with a tax benefit of 5.4% and tax expense of 10.2%, respectively, in the corresponding prior year periods. The effective tax rate for the three and nine month periods ended September 27, 2008 were impacted by the fact that we recorded lower income, or losses, in various low tax jurisdictions and greater profits in relatively high tax international jurisdictions, compared with the corresponding prior year periods. In addition, our effective tax rate for the three month period varied significantly compared with the effective tax rate for the nine month

**Table of Contents**

period due to the fact that we reported a pre-tax loss for the three month period, but recorded pre-tax profits for the nine month period.

Under Accounting Principles Board (APB) Opinion No. 28, *Interim Financial Reporting*, we are required to adjust our effective tax rate each quarter to be consistent with the estimated annual effective tax rate. We are also required to record the tax impact of certain discrete items, unusual or infrequently occurring, including changes in judgment about valuation allowances and effects of changes in tax laws or rates, in the interim period in which they occur. In addition, jurisdictions with a projected loss for the year or a year-to-date loss where no tax benefit can be recognized are excluded from the estimated annual effective tax rate. The impact of such an exclusion could result in a higher or lower effective tax rate during a particular quarter, based upon the mix and timing of actual earnings compared with annual projections.

We have maintained a valuation allowance against a portion of our gross deferred tax assets pursuant to Statement of Financial Accounting Standard (SFAS) No. 109, *Accounting for Income Taxes*, due to the uncertainty as to the timing and ultimate realization of those assets. As a result, until such valuation allowance is reversed, the U.S. tax provision relating to future earnings will be offset substantially by a reduction in the valuation allowance. Accordingly, current and future tax expense will consist of certain required state income taxes, taxes in certain foreign jurisdictions, the federal alternative minimum tax and the impact of discrete items.

As of September 27, 2008, our remaining valuation allowance was \$25.7 million. We will continue to monitor actual results, refine forecasted data and assess the need for retaining a valuation allowance against a portion of our gross deferred tax assets. In the event it is determined that a valuation allowance is no longer required, the reversal will be recorded as a discrete item in the appropriate period. Based upon our past projections of future profitability, we had anticipated recording a reversal of a substantial portion of the valuation allowance as a discrete item during the fourth quarter of 2008. However, we continue to evaluate our business outlook and our judgments regarding future profitability may change due to many factors, including future market conditions and our ability to successfully execute our business plans and/or tax planning strategies. These changes may require material adjustments to these deferred tax asset balances. Therefore, we will continue to monitor actual results and refine forecasted data as appropriate to facilitate future determinations made with respect to the realization of deferred tax assets.

**Liquidity and Capital Resources**

Our cash and cash equivalents and marketable securities balances increased to \$148.9 million as of September 27, 2008 from \$143.9 million as of December 29, 2007. The increase was attributable primarily to cash generated by operations, offset in part by repurchases of our common stock and capital expenditures made during the year. Net cash provided by our operating activities of \$31.6 million for the nine months ended September 27, 2008 consisted of net non-cash charges of \$31.0 million and an increase in working capital of \$0.8 million, offset in part by our net loss of \$0.2 million. Such non-cash charges consisted of \$16.2 million for depreciation and amortization, \$7.1 million for the write-down of the note receivable and other amounts related to previously discontinued operations, \$4.4 million for the provision for losses on inventories, \$1.5 million for stock-based compensation and \$1.2 million related to deferred income taxes. The increase in working capital consisted of a decrease in accounts receivable of \$5.6 million due to the timing of collections, a decrease in inventories of \$3.8 million due to a concerted effort to reduce inventory levels and an increase in accrued expenses and other liabilities of \$3.3 million due to an increase in accrued taxes and an increase in deferred revenue, offset in part by a decrease in accounts payable of \$9.6 million and a decrease in accrued payroll and related expenses of \$1.2 million, both due to timing of payments, coupled with an increase in prepaid expenses and other assets of \$1.1 million due to an increase in income taxes receivable.

Net cash used in investing activities of \$33.4 million for the nine months ended September 27, 2008 consisted of purchases of property and equipment of \$16.1 million, which included \$5.3 million in purchases related to our SAP implementation, and net purchases of marketable securities of \$17.3 million.

Net cash used in financing activities for the nine months ended September 27, 2008 of \$10.1 million consisted primarily of the repurchase of 1.2 million shares of our common stock for approximately \$12.8 million, including

**Table of Contents**

the cancellation of common stock in connection with the payment of taxes owed by employees related to our stock incentive plans and the repayment of short-term borrowings of \$1.6 million, offset in part by long-term borrowings of \$2.8 million and by \$1.6 million received as consideration for the issuance of common stock in connection with exercises of stock options and purchases of common stock under our employee stock purchase plan.

At September 27, 2008, we had cash and cash equivalents of \$77.0 million and marketable securities of \$72.0 million. The majority of the marketable securities are invested in one portfolio managed by a professional investment management firm, under the oversight of our senior financial management team. This portfolio manager invests the funds allocated in accordance with our Investment Policy, which is reviewed regularly by our senior financial management and the Audit Committee of our Board of Directors. We expect that our cash balances will fluctuate in the future based on factors such as cash used in or provided by ongoing operations, acquisitions or divestitures, investments in other companies, share repurchases, capital expenditures and contractual obligations, and changes in interest rates.

On June 30, 2008, we issued 300 million yen (\$2.8 million at September 27, 2008) in private placement bonds through a Japanese bank and used the proceeds from such issuance to pay the amounts outstanding under an expiring line of credit. These bonds bear interest at a rate of 1.55% per year, payable in cash semiannually in arrears on June 30 and December 31 of each year. The bonds mature on June 30, 2011. The bonds are included in *long-term debt* in the accompanying consolidated balance sheets.

At September 27, 2008, we had a total of three lines of credit, including one domestic revolving line of credit and two revolving lines of credit with Japanese banks. In addition, we had two other agreements with Japanese banks under which we sell trade notes receivable with recourse.

Our domestic revolving line of credit has a total credit limit of \$5.0 million and expires on December 1, 2008. Certain cash equivalents held at this lending institution collateralize this line of credit, which bears interest at either the prevailing prime rate (5.00% at September 27, 2008), or the prevailing London Interbank Offered Rate (3.70% at September 27, 2008) plus 1.25%, at our option, and carries an unused line fee of 0.25% per year. At September 27, 2008, there were no balances outstanding under this line of credit, with \$4.0 million available, after considering outstanding letters of credit totaling \$1.0 million.

Our two revolving lines of credit with Japanese banks totaled 1.4 billion yen (\$13.2 million at September 27, 2008) and expire as follows: \$5.7 million on September 30, 2008 (which has been subsequently renewed) and \$7.5 million on November 30, 2008. These lines are not secured and bear interest at the prevailing bank rate. At September 27, 2008, we had \$9.3 million outstanding and \$3.9 million available for borrowing under these lines of credit. Amounts outstanding under these revolving lines of credit are included in *short-term obligations* in the accompanying consolidated balance sheets. Our two other agreements with Japanese banks, under which we sell trade notes receivable with recourse, totaled 550 million yen (\$5.2 million at September 27, 2008), have no expiration dates and bear interest at the bank's prevailing rate. At September 27, 2008, we had \$2.4 million outstanding and \$2.8 million available for the sale of notes receivable under these agreements. Amounts outstanding under these agreements are included in *short-term obligations* in the accompanying consolidated balance sheets. As of September 27, 2008, the weighted average effective interest rate on all of our Japanese borrowings, including the private placement bonds, was 1.9%.

In 2006, our Board of Directors approved a share repurchase program, authorizing the purchase of up to 4.2 million shares of our common stock. During the first quarter of 2008, we repurchased 1.1 million shares of common stock under this program in the open market at an average price of \$10.78 per share for a total of \$11.4 million, which completed our purchases under this program.

In May 2008, our Board of Directors approved a new share repurchase program, authorizing the purchase of up to 4.0 million shares of our common stock. Purchases may be made under this program from time to time in the open market or in privately negotiated transactions, and the timing and amount of the purchases will be based on factors including our share price, cash balances, expected cash requirements and general business and market conditions. Under this program, we have repurchased 127,472 shares for \$1.4 million during the nine months ended September 27, 2008. As of September 27, 2008, a total of approximately 3.9 million shares remained available for repurchase under the program.

**Table of Contents**

In October 2008, we repurchased \$3.0 million of our convertible subordinated notes at a price equal to 65% of the principal amount of the notes, or \$2.0 million. The \$1.0 million gain on extinguishment of the debt, net of unamortized fees, will be recorded as non-operating income in our consolidated statements of operations for the fourth quarter of 2008.

In October 2008, we sold a building under a sale-leaseback agreement for \$7.0 million, net of \$0.3 million in selling costs. We will record a gain on the sale of the building of approximately \$3.1 million in the fourth quarter of 2008 after considering the net book value of the building and the present value of the leaseback agreement.

During the remainder of 2008, we expect to use an additional \$2 million to \$4 million of cash for capital expenditures. We believe our current working capital position, together with our expected future cash flows from operations, will be adequate to fund our operations in the ordinary course of business, anticipated capital expenditures, debt payment requirements and other contractual obligations for at least the next twelve months. However, this belief is based upon many assumptions and is subject to numerous risks including those discussed in Item 1A (Risk Factors) of Part I of our Annual Report on Form 10-K for the year ended December 29, 2007, and there can be no assurance that we will not require additional funding in the future.

Except for the aforementioned capital expenditures, we have no present agreements or commitments with respect to any material acquisitions of other businesses, products, product rights or technologies or any other material capital expenditures. However, we will continue to evaluate acquisitions of and/or investments in products, technologies, capital equipment or improvements or companies that complement our business and may make such acquisitions and/or investments in the future. Accordingly, there can be no assurance that we will not need to obtain additional sources of capital in the future to finance any such acquisitions and/or investments. There can be no assurance that any such financing would be available, or that, if available, such financing would be obtainable on terms favorable to us and would not be dilutive.

**Recent Accounting Pronouncements**

In December 2007, the Financial Accounting Standards Board (FASB) issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements - an amendment of ARB No. 51*. SFAS No. 160 establishes accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the entity that should be reported as equity in the consolidated financial statements. SFAS No. 160 will be effective for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. The adoption of SFAS No. 160 is not expected to have a material impact on our financial position or results of operations.

In December 2007, the FASB issued SFAS No. 141 (Revised 2007), *Business Combinations* (SFAS No. 141R). SFAS No. 141R establishes principles and requirements for the manner in which the acquirer of a business recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree. SFAS No. 141R also provides guidance for recognizing and measuring the goodwill acquired in the business combination and disclosure requirements to enable users of the financial statements to evaluate the nature and financial effects of the business combination. SFAS 141R applies to business combinations that are consummated on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The adoption of SFAS No. 141R will not have an impact on our financial position or results of operations other than in accounting for any business combination that may occur after the effective date.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities*. SFAS No. 161 requires enhanced disclosures by requiring qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of and gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008 and early adoption is encouraged. The adoption of SFAS No. 161 is not expected to have a material impact on our financial position or results of operations.

**Table of Contents**

In April 2008, the FASB issued FASB Staff Position (FSP) FAS 142-3, *Determination of the Useful Life of Intangible Assets* (FSP FAS 142-3). FSP FAS 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS No. 142, *Goodwill and Other Intangible Assets*. Under FSP FAS 142-3, companies are required to consider their own historical experience in renewing or extending similar arrangements and in the absence of historical experience, companies are required to consider the assumptions that market participants would use regarding renewal or extension, adjusted for company-specific factors. FSP FAS 142-3 will be effective for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. FSP FAS 142-3 must be applied prospectively to intangible assets acquired after the effective date and early adoption is prohibited. The adoption of FSP FAS 142-3 will not have an impact on our financial position or results of operations other than in accounting for the acquisition of intangible assets that may occur after the effective date.

In May 2008, the FASB issued SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles*. SFAS No. 162 identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles in the United States. SFAS No. 162 is effective 60 days following the Securities and Exchange Commission's approval of the Public Company Accounting Oversight Board amendments to AU Section 411, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*. The adoption of SFAS No. 162 will not have a material impact on our financial position or results of operations.

In May 2008, the FASB issued FSP APB 14-1, *Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement)*. FSP APB 14-1 requires the liability and equity components of convertible debt instruments to be separately accounted for in a manner that reflects the non-convertible debt borrowing rate for interest expense recognition. In addition, direct issuance costs associated with the convertible debt instruments are required to be allocated to the liability and equity components in proportion to the allocation of proceeds and accounted for as debt issuance costs and equity issuance costs, respectively. FSP APB 14-1 will be effective for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. FSP APB 14-1 must be applied retrospectively and early adoption is prohibited. We believe that the adoption of FSP APB 14-1 will result in a reduction in the carrying value of our convertible subordinated notes, an increase to capital in excess of par, a cumulative effect adjustment reducing retained earnings and a significant increase in interest expense, which increase will be non-cash in nature. However, we have not finalized the amounts of such adjustments.

**Table of Contents****Item 3. Quantitative and Qualitative Disclosures About Market Risk**

The principal market risks (i.e., the risk of loss arising from adverse changes in market rates and prices) to which we are exposed are foreign currency exchange rates, which may generate translation and transaction gains and losses, and changes in interest rates.

**Foreign Currency Risk**

Operating in international markets sometimes involves exposure to volatile movements in currency exchange rates. The economic impact of currency exchange rate movements on our operating results is complex because such changes are often linked to variability in real growth, inflation, interest rates, governmental actions and other factors. These changes, if material, may cause us to adjust our financing and operating strategies. Consequently, isolating the effect of changes in currency does not incorporate these other important economic factors.

From time to time we use forward exchange contracts to mitigate the risks associated with certain foreign currency transactions entered into in the ordinary course of business, primarily foreign currency denominated receivables and payables. We do not engage in currency speculation. The forward exchange contracts generally require us to exchange U.S. dollars for foreign currencies at maturity, at rates agreed to at the inception of the contracts. If the counterparties to the exchange contracts (banks rated A+ or better) do not fulfill their obligations to deliver the contracted currencies, we could be at risk for any currency related fluctuations. Transaction gains and losses are included in our current net income (loss) in our statements of operations. Net foreign exchange gains and losses were not material to our reported results of operations for the three and nine months ended September 27, 2008. There were no forward exchange contracts outstanding at September 27, 2008.

As currency exchange rates change, translation of the statements of operations of international operations into U.S. dollars affects the year-over-year comparability of operating results. We do not generally hedge translation risks because cash flows from international operations are generally reinvested locally. We do not enter into hedges to minimize volatility of reported earnings because we do not believe it is justified by the exposure or the cost.

Changes in currency exchange rates that would have the largest impact on translating our future international operating income include the euro and Japanese yen. We estimate that a 10% change in foreign exchange rates would not have had a material effect on our reported net income (loss) for the three and nine months ended September 27, 2008. We believe that this quantitative measure has inherent limitations because, as discussed in the first paragraph of this section, it does not take into account any governmental actions or changes in either customer purchasing patterns or our financing and operating strategies.

**Interest Rate Risk**

The interest rates we pay on certain of our debt instruments are subject to interest rate risk. Our collateralized line of credit bears interest at either the prevailing prime rate, or the prevailing London Interbank Offered Rate plus 1.25%, at our option. Our revolving lines of credit and other credit agreements with Japanese banks bear interest at the lending bank's prevailing rate. Our convertible subordinated notes and private placement bonds bear interest at a fixed rate of 2.5% and 1.55% per year, respectively, and are not impacted by changes in interest rates. Our cash and marketable securities, which totaled \$148.9 million at September 27, 2008, are sensitive to changes in the general level of U.S. interest rates. In addition, certain assets related to our pension plans that are not owned by such plans, which totaled \$6.9 million at September 27, 2008, are sensitive to interest rates and economic conditions in Europe. We estimate that a 10% change in the interest rate earned on our cash and marketable securities or a 10% change in interest rates payable on our lines of credit would not have had a material effect on our net income (loss) for the three and nine months ended September 27, 2008.

**Table of Contents**

**Item 4. Controls and Procedures**

**(a) Evaluation of Disclosure Controls and Procedures**

Our chief executive officer and our chief financial officer, after evaluating our disclosure controls and procedures (as defined in Securities Exchange Act of 1934 (the Exchange Act) Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this Quarterly Report on Form 10-Q (the Evaluation Date), have concluded that as of the Evaluation Date, our disclosure controls and procedures are effective to ensure that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and to ensure that information required to be disclosed by us in such reports is accumulated and communicated to our management, including our chief executive officer and chief financial officer where appropriate, to allow timely decisions regarding required disclosure.

**(b) Changes in Internal Control Over Financial Reporting**

There was no change in our internal control over financial reporting that occurred during the period covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. We continue to enhance our internal control over financial reporting, primarily by evaluating and enhancing our process and control documentation, in connection with our ongoing efforts to meet the requirements of Section 404 of the Sarbanes-Oxley Act of 2002. We discuss with and disclose these matters to the Audit Committee of our Board of Directors and our independent registered public accounting firm.

**Table of Contents**

**PART II OTHER INFORMATION**

**Item 1A. Risk Factors**

Our Annual Report on Form 10-K for the year ended December 29, 2007 contains a full discussion of the risks associated with our business. Except as indicated in the new risk factor set forth below, there has been no material change to the risks described in our Annual Report on Form 10-K.

**Our operating results may be adversely affected by unfavorable economic and market conditions.**

The current uncertain macroeconomic climate, which includes but is not limited to decreased consumer confidence, volatile corporate operating results, reduced capital spending, lower research budgets, and the effects of reduced availability of credit, could lead to reduced demand from our customers and increased price competition for our products, increased risk of excess and obsolete inventory and higher overhead costs as a percentage of revenue. Continued or increased weakness in our end markets could negatively impact our revenue, gross margin and operating expenses, and consequently have a material adverse effect on our business, financial condition and results of operations.

In particular, recent concerns regarding the availability of credit, particularly in the United States, may make it more difficult for our customers to raise capital, whether debt or equity, to finance their purchases of capital equipment. Delays in our customers' ability to obtain such financing, or the unavailability of such financing, could adversely affect sales of our products and systems, particularly high-value integrated systems, and therefore harm our business and operating results.

Further, a continued decline in the condition of the global financial markets could adversely impact the market values or liquidity of our investments. Our investment portfolio includes U.S. government and agency debt securities, corporate debt securities, asset-backed securities and certificates of deposit. Although we believe our portfolio continues to be comprised of sound investments due to the credit quality and government guarantees of the underlying investments, a further decline in the capital and financial markets would adversely impact the market values of our investments and their liquidity. Such a decline in market value, or any sale of our investments under illiquid market conditions, could result in our recognition of an impairment charge on such investments or a loss on such sales, either of which could have an adverse effect on our financial condition and operating results.

**Table of Contents****Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

The following table reflects purchases made by us during the quarter ended September 27, 2008, of equity securities that are registered by us pursuant to Section 12 of the Securities Exchange Act of 1934, as amended:

<b>Period<sup>(1)</sup></b>	<b>Total Number of Shares (or Units) Purchased</b>	<b>Average Price Paid per Share (or Unit)</b>	<b>Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs</b>	<b>Maximum Number (or Approximate Dollar Value of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs</b>
June 29, 2008 – July 26, 2008		\$		
July 27, 2008 – August 23, 2008		\$		
August 24, 2008 – September 27, 2008 <sup>(2)</sup>	127,472	\$ 10.76	127,472	3,872,528
<b>Totals</b>	<b>127,472</b>	<b>\$ 10.76</b>	<b>127,472</b>	

(1) The periods reported conform to our fiscal calendar which consists of two periods of four weeks and one period of five weeks in each fiscal quarter.

(2) Represents shares of our common stock repurchased in open market transactions under a share repurchase program approved by our Board of Directors in

May 2008. A total of 4.0 million shares have been authorized for repurchase under this program and this program has no fixed expiration date. As of September 27, 2008, we had purchased a total of 127,472 shares and 3,872,528 shares remained available for purchase under the program.
