On August 9, 2007, RAM Energy Resources, Inc. issued a press release announcing its results for its second quarter ended June 30, 2007. A copy of the press release is attached as Exhibit 99.1 and is incorporated into this Item by reference.

Item 4.02 Non-Reliance on Previously Issued Financial Statements or Related Audit Report or Completed Interim Review

In connection with a review of the Annual Report on Form 10-K for the fiscal year ended December 31, 2006 (2006 Form 10-K) of RAM Energy Resources, Inc. (the Company), the Staff of the Corporate Finance Division of the Securities and Exchange Commission (the Staff) issued a comment letter in which, among other things, the Staff commented on the presentation of certain items in the Company's consolidated financial statements.

Specifically, the Staff's comments required the Company to:

reconcile the Company's total decrease in annual daily production from its Boonsville area to a 5% decrease in oil production, a 16% decrease in NGL production and a 12% decrease in natural gas production; and

revise the basic and diluted weighted average number of shares and the related earnings (loss) per share reflected in the Company's consolidated balance sheet, consolidated statements of operations and the consolidated statement of stockholders' deficit in connection with accounting for the Company's acquisition of RAM Energy, Inc. as a reverse acquisition and reverse recapitalization of the Company.

As a result of its discussions with the Staff, the Company is amending its 2006 Form 10-K to:

Amend Part II, Item 6, to clarify the accounting treatment of the reverse merger recapitalization of RAM Energy, Inc.

Amend Part II, Management's Discussion and Analysis of Financial Condition and Results of Operations, to expand the disclosure to explain the downturn in average daily production during 2006 compared to 2005.

Amend Part II, Item 8 - Financial Statements, to:

- (a) Revise the Company's Statements of Stockholders' Deficit and to make corresponding changes to the related reported earnings per share;
- (b) Revise Note A, Item 5 - Natural Gas Sales and Gas Imbalances, to explain why the Company's asset value of its natural gas under-produced positions in 2006 and 2005 are classified as non-current assets; and
- (c) Revise Note O - Share Based Compensation, to reflect that at December 31, 2006, the Company did not have outstanding any options under its 2006 Long-Term Incentive Plan.

Amend Part IV, Item 15 - Financial Statements and Exhibits, to include the consent of UHY LLP to its report included in the Form 10-K/A.

In addition to the items raised in the SEC comment letter, the Company is also revising its Quarterly Report on Form 10-Q for the quarter ended March 31, 2007 for the same reasons.

As a result of the discussions and adjustments described above, on August 7, 2007, the Company's management concluded, and informed the Audit Committee of the Company's Board of Directors of its conclusions, that (1) the Company's previously issued financial statements and any related reports of its independent registered public accounting firm for the fiscal year ended December 31, 2006 should no longer be relied upon because of the aforementioned presentation of basic and diluted weighted average numbers of shares and basic and diluted earnings (loss) per share in those financial statements, (2) the Company's earnings and press releases and similar communications should no longer be relied upon to the extent that they relate to of basic and diluted weighted average numbers of shares and basic and diluted earnings (loss) per share, and (3) the Company's financial statements for the fiscal year ended December 31, 2006 should be restated to reflect the presentation changes discussed above.
