FDA APPROVES SYMBICORT FOR CHRONIC OBSTRUCTIVE  
PULMONARY DISEASE

AstraZeneca today announced that the U.S. Food and Drug Administration (FDA) has approved SYMBICORT (budesonide/formoterol fumarate dihydrate) 160/4.5 mcg for the twice daily maintenance treatment of airflow obstruction in patients with chronic obstructive pulmonary disease (COPD), including chronic bronchitis and emphysema.

The FDA approval is based on results from two pivotal clinical trials, SHINE (6-month) and SUN (12-month), which found SYMBICORT significantly improved lung function within five minutes of the first dose and sustained that lung function improvement for the duration of the studies. SYMBICORT pMDI (pressurized metered-dose inhaler) has been available in the U.S. since June 2007 for the long-term maintenance treatment of asthma in patients 12 years of age and older.

“More than 12 million Americans with COPD struggle each day to live with the debilitating symptoms of COPD,” said Dr. Howard Hutchinson, Chief Medical Officer, AstraZeneca. “With the approval of SYMBICORT in COPD, patients have a new treatment option that can deliver long-term lung function improvement and daily symptom control, together with a rapid onset of action.”

COPD is a disorder encompassing two serious lung diseases – emphysema and chronic bronchitis – which result in chronic airway inflammation and progressive loss of lung function, making it difficult to breathe normally.

About SYMBICORT

Symbicort is approved for use in the treatment of COPD in 91 countries worldwide.

The AstraZeneca Performance Share Plan was approved by shareholders at the Company's AGM in 2005. Awards made under the Plan may not generally vest before the third anniversary of the relevant date of grant nor unless the specified performance target(s) have been met at the end of the three year period which, for this award, is 1 January 2009 to 31 December 2011.

The performance target that applies to this award is the Company's Total Shareholder Return ("TSR") compared to the TSR of a selected peer group of 12 other pharmaceutical companies. The actual number of shares to which a participant may become unconditionally entitled will depend on the extent to which the performance target(s) have been met. A summary of the Plan, including a more detailed explanation of the performance target(s), can be found in the AstraZeneca Annual Report and Form 20-F Information 2008 which is available on the Company's website [www.astrazeneca.com](http://www.astrazeneca.com).
