To the Stockholders of Valor Communications Group, Inc.:

As previously announced, the Board of Directors of Valor Communications Group, Inc. has unanimously approved a strategic merger that will combine Valor and the wireline telecommunications business of Alltel Corporation. Pursuant to the Agreement and Plan of Merger Valor entered into on December 8, 2005, as amended on May 18, 2006, with Alltel Corporation and Alltel Holding Corp. (which we refer to as Spinco), Spinco will merge with and into Valor and Valor will survive as a stand-alone company and will hold and conduct the combined business operations of Valor and Spinco. Following completion of the merger, the separate existence of Spinco will cease. The merger will take place immediately after Alltel contributes the assets making up its wireline telecommunications business to Spinco and distributes the common stock of Spinco to a third-party exchange agent for the benefit of its stockholders. As a result of the transactions, Alltel will receive approximately \$4.2 billion of combined cash proceeds and debt reduction (on a consolidated basis). Immediately following the merger, Valor will change its name to

Windstream Corporation and its common stock will be quoted on the New York Stock Exchange and will be traded under the ticker symbol WIN.

Valor will issue an aggregate number of shares of common stock to Alltel stockholders pursuant to the merger such that when the merger is completed, Alltel stockholders will collectively own approximately 85%, and Valor's stockholders will collectively own approximately 15%, of the shares of common stock of Windstream Corporation on a fully diluted basis. To achieve this result, the aggregate number of shares of Valor common stock that will be issued in the merger will be equal to 5.667 multiplied by the aggregate number of shares of Valor common stock outstanding on a fully diluted basis immediately prior to the effective time. **Therefore, this number and the value of the per share merger consideration Alltel Stockholders will receive will not be known until the effective time of the merger.** Although, based on its current shares outstanding, Valor expects to issue approximately 405,000,000 shares of common stock to Alltel stockholders in the aggregate, or approximately 1.04 shares of common stock per each share of Alltel common stock held by Alltel stockholders, pursuant to the merger, any increase or decrease in the number of shares of Valor common stock outstanding that occurs for any reason prior to the effective time of the merger would cause these numbers to change. Therefore, we cannot provide a minimum or maximum number of shares that will be issued in the merger, however, we expect that the number of shares of Valor common stock will not change significantly as Valor currently has no plans to issue any shares of its common stock prior to the effective time of the merger other than pursuant to grants of equity incentive awards in the ordinary course of business. In all cases, however, the amount of shares to be issued will yield the 85/15 relative post-merger ownership percentage described above. Based on the closing price of Valor common stock on May 24, 2006 of \$12.66, as reported by the New York Stock Exchange, the approximate value Alltel stockholders will receive in the merger will equal \$13.17 per each share of Alltel common stock they own on the record date for the spin-off. However, any change in the market value of Valor common stock prior to the effective time of the merger would cause the estimated per share value Alltel stockholders will receive to also change. The number of shares of Valor common stock to be issued to Alltel stockholders in the merger will not be adjusted as a result of fluctuations in the market price of Valor common stock. For a more complete discussion of the calculation of the number of shares of Valor common stock to be issued pursuant to the merger, see the section titled "The Transactions - Calculation of Merger Consideration" on page 35 of the accompanying proxy statement/prospectus-information statement. Before Valor may issue these shares the Valor certificate of incorporation must be amended to increase the authorized shares of Valor common stock from 200,000,000 to 1,000,000,000. Existing shares of Valor common stock will remain outstanding.

We cordially invite you to attend the annual meeting of Valor stockholders to be held on Tuesday, June 27, 2006 at the Sheraton New York Hotel & Towers, 811 Seventh Avenue, New York, New York 10019, at 2:00 p.m., local time. At the annual meeting, we will ask you to consider and vote on proposals to adopt and approve the merger agreement

and the transactions contemplated thereby. You will also be asked to elect directors and act on other matters normally considered at Valor's annual meeting. **The Board of Directors of Valor has unanimously approved the merger agreement and unanimously recommends that the Valor stockholders vote FOR the proposals to (i) adopt the merger agreement, (ii) approve the increase of the authorized number of shares of Valor common stock pursuant to the merger, and (iii) approve the issuance of Valor common stock pursuant to the merger, each of which is necessary to effect the merger, as well as FOR the adoption of the 2006 Equity Incentive Plan (which is conditioned upon stockholder approval of the merger proposals), the Board's nominees for director and the ratification of Valor's independent auditors.**

Your vote is very important. We cannot complete the merger unless the proposals relating to the adoption of the merger agreement, the increase of the authorized number of shares of Valor common stock and the issuance of Valor stock pursuant to the merger are adopted by the affirmative vote of the holders of a majority of the voting power of the outstanding shares of Valor common stock entitled to vote at the annual meeting. Only stockholders who owned shares of Valor common stock at the close of business on May 5, 2006 will be entitled to vote at the annual meeting. **Whether or not you plan to be present at the annual meeting, please complete, sign, date and return your proxy card in the enclosed envelope, or authorize the individuals named on your proxy card to vote shares by calling the toll-free telephone number or by using the Internet as described in the instructions included with your proxy card.** If you hold your shares in street name, you should instruct your broker how to vote in accordance with your voting instruction form. If you do not submit your proxy, instruct your broker how to vote your shares, or vote in person at the annual meeting, it will have the same effect as a vote against adoption of the merger agreement.

You should be aware that certain stockholders have already agreed with Alltel to vote or cause to be voted all of the Valor shares they own in favor of the adoption of the merger agreement, the increase of the authorized number of shares of Valor common stock and the issuance of Valor common stock pursuant to the merger. Further, you should also be aware that our directors and executive officers have either entered into this agreement with Alltel or otherwise indicated that they intend to vote their Valor common shares FOR the merger proposals. These stockholders and our executive officers and directors together hold an aggregate of approximately 42% of the aggregate number of votes entitled to be cast.

The accompanying proxy statement/prospectus-information statement explains the merger, the merger agreement and the transactions contemplated thereby and provides specific information concerning the annual meeting. **Please review this document carefully. You should consider the matters discussed under the heading Risk Factors Risks Relating to the Spin-Off and the Merger on page 23 of the accompanying proxy statement/prospectus-information statement before voting.**

On behalf of our Board of Directors, I thank you for your support and appreciate your consideration of this matter.

Sincerely,

John J. Mueller
President and Chief Executive Officer
Member of the Board of Directors

May 26, 2006

To the Stockholders of Alltel Corporation:

On December 9, 2005, we announced that we would spin-off for the benefit of our stockholders shares of Alltel Holding Corp. (which we refer to as Spinco), a subsidiary of Alltel Corporation into which we will contribute our wireline telecommunications business, and that Spinco would then merge with Valor Communications Group, Inc. After the spin-off and merger, Valor, which will be renamed Windstream Corporation, will be a separately traded public company that will own and operate the combined businesses of Spinco and Valor. The new company's common stock will be listed on the New York Stock Exchange under the trading symbol WIN.

It is presently estimated that approximately 1.04 shares of Valor common stock will be issued to Alltel stockholders for each share of Spinco common stock they are entitled to receive on the distribution date. However, this amount will be calculated based on the fully diluted number of shares of Valor common stock outstanding immediately prior to the effective time of the merger and Alltel common stock outstanding on the record date for the spin-off, which Alltel will publicly announce prior to the expected completion of the spin-off and merger, and therefore will not be finally determined until the effective time. As a result, the estimated ratio of 1.04 shares of Valor common stock for each share of Alltel common stock would change to the extent the number of shares of Alltel common stock or Valor common stock outstanding changes for any reason prior to these times, however, we expect that the number of shares of Valor common stock will not change significantly as Valor currently has no plans to issue any shares of its common stock prior to the effective time of the merger other than pursuant to grants of equity incentive awards in the ordinary course of business. In all cases, however, when the merger is completed, Alltel's stockholders will collectively own approximately 85%, and Valor's stockholders will collectively own approximately 15%, of the shares of common stock of Windstream Corporation on a diluted basis. Based on the closing price of Valor common stock on May 24, 2006 of \$12.66, as reported by the New York Stock Exchange, the approximate value Alltel stockholders will receive in the merger will equal \$13.17 per each share of Alltel common stock they own on the record date for the spin-off. However, any change in the market value of Valor common stock prior to the effective time of the merger would cause the estimated per share value Alltel stockholders will receive in the merger to also change. A more complete discussion of the calculation of the number of shares of Valor common stock to be issued pursuant to the merger is contained in the accompanying proxy statement/prospectus-information statement. You and all other holders of Alltel common stock will not be required to pay for the shares of Valor common stock you receive and you will also retain all of your shares of Alltel common stock.

This transaction represents a significant strategic step that will sharpen Alltel's focus on its higher growth wireless telecommunications business. The spin-off will also allow Alltel stockholders to benefit from the success and upside potential of the new company.

Alltel Corporation's Board of Directors has determined that the spin-off of the wireline business and the combination with Valor is advisable and in the best interests of Alltel and its stockholders, and has approved the proposed transaction. You need not take any action to participate in the spin-off or the merger. **No vote of Alltel Corporation stockholders is required in connection with this transaction.**

The following document contains important information describing the terms of the spin-off and the merger. We encourage you to read it carefully.

We look forward to completing the spin-off and merger and to the exciting opportunities it presents for our stockholders.

Sincerely,

Scott T. Ford

Frantz (who most recently served as Alltel's Executive Vice President - External Affairs, General Counsel and Secretary), Anthony J. de Nicola (the current Chairman of Valor's Board of Directors) and six directors designated by Alltel. QUESTIONS AND ANSWERS ABOUT THE TRANSACTIONS

Q: What are Valor Communications Group, Inc. stockholders being asked to vote on at the annual meeting?

A: Valor Communications Group, Inc. (also referred to herein as Valor) stockholders are being asked to consider and vote upon proposals to adopt the merger agreement entered into among Valor, Alltel Corporation (also referred to herein as Alltel) and Alltel Holding Corp. (also referred to herein as Spinco), to approve the increase of the authorized number of shares of Valor common stock pursuant to the merger, to approve the issuance of Valor common stock to Alltel stockholders pursuant to the merger and to adopt the 2006 Equity Incentive Plan. Other matters to be considered and voted upon at the annual meeting are the election of directors, ratification of Valor's independent auditors and such other matters as may properly come before the meeting.

Q: What will happen in the spin-off?

A: First, Alltel will contribute its wireline telecommunications business to Spinco in exchange for, among other things, a special dividend in the aggregate amount of approximately \$2.275 billion and the distribution by Spinco to Alltel of certain Spinco debt securities, which Alltel intends to exchange for outstanding Alltel debt securities or otherwise transfer to Alltel's creditors representing approximately \$1.673 billion in debt reduction to Alltel. As the sole stockholder of Spinco, Alltel will receive 100% of the special dividend. After the contribution and immediately prior to the merger, Alltel will spin-off Spinco by distributing all of the shares of Spinco common stock to a third-party exchange agent to be held for the benefit of Alltel stockholders on a pro rata basis. Such shares will be immediately converted into that number of shares of Valor common stock Alltel stockholders will be entitled to receive in the merger. As a result, Alltel stockholders will never hold Spinco securities.

Q: What will happen in the merger?

A: In the merger, Spinco will merge with and into Valor in accordance with the terms of the merger agreement. Valor will survive the merger as a stand-alone company holding and conducting the combined business operations of Valor and Spinco. Immediately following the merger, Valor will change its name to Windstream Corporation and its common stock will be quoted on the New York Stock Exchange under the symbol WIN. For ease of reference, throughout this proxy statement/prospectus-information statement we will refer to Windstream Corporation, the new company formed by the merger of Valor and Spinco as Windstream.

Q: What will Alltel Corporation stockholders be entitled to receive pursuant to the transactions?

A: As a result of the merger, it is currently estimated that Alltel stockholders will be entitled to receive approximately 1.04 shares of Valor common stock for each share of Alltel common stock that they own as of the record date for the spin-off. However, this amount will be finally determined at the effective time of the merger based on Valor shares outstanding immediately prior to the effective time and Alltel shares outstanding on the record date for the spin-off. Therefore the number of shares of Valor common stock received by Alltel stockholders will change to the extent that Valor or Alltel's shares outstanding at such times are not the same as our estimates due to increases or decreases in share amounts for any reason, however, we expect that the number of shares of Valor common stock will not change significantly as Valor currently has no plans to issue any shares of its common stock prior to the effective time of the merger other than pursuant to grants of equity incentive awards in the ordinary course of business. Based on the closing price of Valor common stock on May 24, 2006 of \$12.66, as reported by the New York Stock Exchange, the approximate value Alltel stockholders will receive in the merger will equal \$13.17 per each share of Alltel common stock they own on the record date for the spin-off. However, any change in the market value of Valor common stock prior to the effective time of the merger would cause the estimated per share value Alltel stockholders will receive in the merger to also change. No fractional

shares of Valor common stock will be issued to Alltel stockholders in the merger. Alltel stockholders that otherwise would be entitled to a fraction of a Valor common share will be entitled to receive a cash payment in lieu of issuance of that fractional share. See The Merger Agreement Merger Consideration on page 80. Following the merger, approximately 85% of the outstanding common shares of Windstream will be held by Alltel stockholders collectively.

Table of Contents

Q: Has Alltel set a record date for the distribution of Spinco shares in the spin-off?

A: No. Alltel will publicly announce the record date when it has been determined. This announcement will be made prior to the completion of the spin-off and the merger.

Q: What should Alltel stockholders do now?

A: Alltel common stockholders should carefully read this proxy statement/ prospectus-information statement, which contains important information about the spin-off, the merger, Spinco and Valor. Alltel stockholders are not required to take any action to approve the spin-off, the merger or any of the transactions contemplated thereby. After the merger, Windstream will mail to holders of Alltel common stock who are entitled to receive shares of Valor common stock book-entry statements evidencing their ownership of Valor common stock and other information regarding their receipt of Valor common stock.

ALLTEL STOCKHOLDERS WILL NOT BE REQUIRED TO SURRENDER THEIR EXISTING ALLTEL CORPORATION COMMON SHARES IN THE SPIN-OFF TRANSACTION OR THE MERGER AND THEY SHOULD NOT RETURN THEIR ALLTEL STOCK CERTIFICATES.

Q: How will the market price of Alltel common stock be affected by the merger?

A: The market value of Alltel common stock following the merger will decrease in order to give effect to the distribution. Some or all of this decrease in value realized by Alltel stockholders will be offset by the value of the Windstream common stock they will receive in the merger. However, there can be no assurances that the combined trading prices of shares of Alltel common stock and Windstream common stock after the merger will be equal to or greater than the trading price of shares of Alltel common stock prior to the merger. Until the market has fully evaluated the business of Alltel without the business of Windstream, the price at which shares of Alltel common stock trade may fluctuate significantly. Similarly, until the market has fully evaluated the combined businesses of Valor and Spinco on a stand-alone basis, the price at which shares of Windstream common stock trade may fluctuate significantly.

Q: What will be the indebtedness of Windstream following completion of the spin-off and merger?

A: By virtue of the merger, Windstream will assume \$267.0 million in Alltel debt, of which \$81.0 million (plus related make-whole premiums) will be refinanced with borrowings from its new credit facilities and/or a portion of the net proceeds from the issuance of senior unsecured debt securities in an offering under Rule 144A, promulgated under the Securities Act of 1933, as amended. Windstream will also assume \$400.0 million in outstanding Valor notes, which will be equally and ratably secured with debt under the new credit facilities. Windstream will be required to offer to repurchase any of the outstanding Valor notes that may be tendered as a result of the merger, which constitutes a change of control under the indenture governing the Valor notes, and will borrow additional amounts under its new credit facilities to the extent necessary to fund the purchase of any Valor notes that are tendered. However, no Valor bonds are expected to be tendered as a result of the merger as their current trading price exceeds the put price. The trading price of the bonds was \$102.75 as of May 18, 2006 versus a put price of \$101. In addition, Windstream will refinance approximately \$781.0 million (plus related premiums) outstanding under Valor's existing credit facility with borrowings from its new credit facilities and/or a portion of the net proceeds from the issuance of senior unsecured debt securities in a Rule 144A offering. The amounts assumed by Windstream, together with the issuance of the debt securities, the borrowings under the new credit facilities and certain expenses related to the spin-off, merger and financing transactions, will result in Windstream having approximately \$5.5 billion in total debt immediately following completion of the merger.

Q: Does Valor's Board support the merger?

A: Yes. The Valor Board of Directors has unanimously approved the merger agreement and the merger and unanimously recommends that Valor stockholders vote FOR the proposals to adopt the merger agreement, to approve the increase of the authorized number of shares of Valor common stock pursuant to the merger, to approve the issuance of Valor common stock to Alltel stockholders pursuant to the merger and to adopt the 2006 Equity Incentive Plan.

Q: How will my rights as a Windstream stockholder after the merger differ from my current rights as a Valor stockholder?

A: After the merger, your rights as a stockholder will be governed by the amended and restated certificate of incorporation and the restated bylaws, attached to this document as Annex E and Annex F, respectively, rather than the current certificate of incorporation and bylaws of Valor. A comparison of the differences of your rights as a stockholder under these two governing documents is discussed in the section titled "Comparison of the Rights of Valor Stockholders Before and After the Spin-Off and Merger" starting on page 168 of this proxy statement/prospectus-information statement.

Q: What will happen to Valor's dividend policy as a result of the merger?

A: The merger agreement provides that the initial dividend policy of Windstream (which may be changed at any time by Windstream's Board of Directors) will provide for the payment, subject to applicable law, of regular quarterly dividends on each issued and outstanding share of common stock of \$0.25 per share. See "The Transactions" Dividend Policy.

Q: Will Valor pay a dividend for the third quarter?

A: Yes. Valor expects to pay a pro-rated third quarter dividend based upon its current policy of paying dividends on each share of its common stock at a rate of \$1.44 per share per annum. Valor will pay such dividend to Valor stockholders of record as of the close of business on the business day immediately preceding the closing date of the merger, and the dividend will be payable for the period between July 1, 2006 through the closing date of the merger. For example, if closing occurs on July 17, Valor will pay a pro-rata dividend for the 17 days of the third quarter at its quarterly dividend rate of \$0.36 per share, or \$.07 per share ($17/92 \times \$0.36$).

Q: What are the material tax consequences to Valor stockholders and Alltel stockholders resulting from the spin-off and the merger?

A: The merger will be tax-free to Valor stockholders. Alltel stockholders will not recognize any gain or loss for U.S. federal income tax purposes as a result of the spin-off or the merger, except for any gain or loss attributable to the receipt of cash in lieu of a fractional share of Valor common stock. The material U.S. federal income tax consequences of the spin-off and the merger are described in more detail under "Certain United States Federal Income Tax Consequences of the Spin-Off and the Merger" on page 76.

Q: Are there risks associated with the merger?

A: Yes. We may not achieve the expected benefits of the merger because of the risks and uncertainties discussed in the section titled "Risk Factors" starting on page 23 and the section titled "Special Note Concerning Forward-Looking Statements" starting on page 217. Those risks include, among other things, risks relating to the uncertainty that we will be able to integrate the existing Valor business with the Spinco business successfully and uncertainties relating to the performance of the businesses following the completion of the merger.

Q: What should Valor stockholders do now?

A: After carefully reading and considering the information contained in this proxy statement/prospectus-information statement, Valor stockholders should vote their shares as soon as possible so that their shares will be represented and voted at the Valor annual meeting. Please follow the instructions set forth on the enclosed proxy card or on the voting instruction form provided by the record holder if your shares are held in the name of your broker or

other nominee.

Q. Have any stockholders already agreed to vote for the merger?

A. Yes. Holders of approximately 41% of Valor common stock have agreed to vote for the adoption of the merger agreement and have signed a voting agreement with Spinco to that effect.

Q: How do Valor stockholders vote?

- A: Valor stockholders may vote before the annual meeting in one of the following ways:
- use the toll-free number, if any, shown on your proxy card;
 - visit the website, if any, shown on your proxy card to submit a proxy via the Internet; or
 - complete, sign, date and return the enclosed proxy card in the enclosed postage-paid envelope.

Q: What if a Valor stockholder does not vote on the matters relating to the merger?

- A: If you are a Valor stockholder and you fail to respond with a vote or fail to instruct your broker or other nominee how to vote on the proposals to adopt the merger agreement, to approve the increase of the authorized number of shares of Valor common stock pursuant to the merger, and to approve the issuance of Valor common stock to Alltel stockholders pursuant to the merger, it will have the same effect as a vote against these proposals, each of which must be approved for the merger to occur. If you respond and abstain from voting, your proxy will have the same effect as a vote against these proposals. If you respond but do not indicate how you want to vote on the proposals, your proxy will be counted as a vote in favor of these proposals.

Q: What stockholder approvals are needed in connection with the merger?

- A: The merger cannot be completed unless the merger agreement is adopted, the increase of the authorized number of shares of Valor common stock pursuant to the merger is approved, and the issuance of Valor common stock to Alltel stockholders pursuant to the merger is approved by the affirmative vote of the holders of a majority of the voting power of the outstanding shares of Valor common stock entitled to vote at the annual meeting. No vote of Alltel stockholders is required or being sought in connection with the spin-off transaction or the merger.

Q: Why are Valor stockholders being asked to approve the 2006 Equity Incentive Plan?

- A: Valor stockholders are being asked to approve the 2006 Equity Incentive Plan to ensure that upon completion of the merger, Windstream has in place an equity incentive plan that will enable it to address equity incentives for the management of Windstream in a timely manner.

As of April 28, 2006, a total of 307,997 shares of our common stock remain available for awards under our 2005 Long-Term Equity Incentive Plan (the 2005 Plan), adopted in February 2005. Windstream will be a considerably larger company than Valor was at the time of the adoption of the 2005 Plan and will correspondingly have more key employees. As a result, to ensure that Windstream has adequate means to provide equity incentive compensation for its employees thereafter, the Board of Directors deems it to be in the best interests of Valor for its stockholders to approve the adoption of the 2006 Equity Incentive Plan.

Q: Who can vote at the Valor annual meeting?

- A: Holders of Valor common stock can vote their shares at the annual meeting if they are holders of record of those shares at the close of business on May 5, 2006, the record date for the annual meeting.

Q: When and where is the annual meeting of Valor stockholders?

A:

The annual meeting of Valor stockholders will be held on Tuesday, June 27, 2006 at the Sheraton New York Hotel & Towers, 811 Seventh Avenue, New York, New York 10019, at 2:00 p.m., local time.

Q: If I am not going to attend the annual meeting, should I return my proxy card(s)?

A: Yes. Returning your proxy card(s) ensures that your shares will be represented at the annual meeting, even if you are unable to or do not attend.

Q: Can Valor stockholders change their vote after they mail their proxy card?

A: Yes. If you are a holder of record of Valor common stock and have properly completed and submitted your proxy card, you can change your vote in any of the following ways:

by sending a written notice to the corporate secretary of Valor that is received prior to the annual meeting stating that you revoke your proxy;

by properly completing a new proxy card bearing a later date and properly submitting it so that it is received prior to the annual meeting;

Table of Contents

by logging onto the Internet website specified on your proxy card in the same manner you would to submit your proxy electronically or by calling the telephone number specified on your proxy card prior to the annual meeting, in each case if you are eligible to do so and following the instructions on the proxy card; or

by attending the annual meeting and voting in person.

Simply attending the annual meeting will not revoke a proxy.

If you are a Valor stockholder whose shares are held in street name by your broker and you have directed such person to vote your shares, you should instruct such person to change your vote.

Q: If my Valor shares are held in street name by my broker, will my broker vote my shares for me?

A: Your broker will vote your Valor shares only if you provide instructions on how to vote. You should follow the directions provided by your broker regarding how to instruct your broker to vote your shares. Without instructions, your shares will not be voted, which will have the effect of a vote against the adoption of the merger agreement, the approval of the increase of the authorized number of shares of Valor common stock pursuant to the merger, and the approval of the issuance of Valor common stock to Alltel stockholders pursuant to the merger.

Q: Can Alltel or Valor stockholders demand appraisal of their shares?

A: No. Neither Alltel nor Valor stockholders have appraisal rights under Delaware law in connection with the spin-off, the merger or the transactions contemplated thereby.

Q: When will the merger be completed?

A: We are working to complete the merger as quickly as possible. If approved by the Valor stockholders, we hope to complete the merger as early as the third quarter of 2006. However, it is possible that factors outside our control could require us to complete the merger at a later time or not complete it at all. For a discussion of the conditions to the merger see Merger Agreement Conditions to the Completion of Merger beginning on page 86.

Valor Communications Group, Inc.

Valor Communications Group, Inc.

201 E. John Carpenter Freeway, Suite 200

Irving, Texas 75062

Valor Communications Group, Inc. (also referred to herein as **Valor**) is one of the largest providers of telecommunications services in rural communities in the southwestern United States and, based on the number of telephone lines it has in service, the seventh largest independent telephone company in the country. As of March 31, 2006, Valor operated 516,511 telephone access lines in primarily rural areas of Texas, Oklahoma, New Mexico and Arkansas. Valor believes that in many of its markets it is the only service provider that offers customers an integrated package of local and long distance voice, high-speed data and Internet access as well as a variety of enhanced services such as voicemail and caller identification. Valor generated revenues of \$125.6 million and net income of \$16.0 million in the three months ended March 31, 2006, and revenues of \$505.9 million and net income of \$35.3 million in the year ended December 31, 2005.

Valor was formed in connection with the acquisition in 2000 of select telephone assets from GTE Southwest Corporation, which is now part of Verizon. Valor's formation was orchestrated by its equity sponsors Welsh, Carson, Anderson & Stowe, or WCAS, Vestar Capital Partners, Citicorp Venture Capital and a group of founding individuals. Valor completed its initial public offering of shares of common stock on February 9, 2005 and its shares began trading on the NYSE under the symbol **VCG**.

Alltel Holding Corp.

Little Rock, AR 72212

Alltel Holding Corp. (also referred to herein as **Spinco**) is currently a wholly-owned subsidiary of Alltel Corporation (also referred to herein as **Alltel**) and was incorporated in its current form as a Delaware corporation on November 2, 2005 to hold Alltel's wireline telecommunications business. Alltel's wireline

Table of Contents

telecommunications business is currently operated by certain of its subsidiaries, each of which will be transferred to Spinco prior to the closing of the spin-off and the merger. These subsidiaries provide wireline local, long-distance, network access and Internet services. These subsidiaries also sell and warehouse telecommunications products, publish telephone directories for affiliates and other independent telephone companies. This proxy statement/prospectus-information statement describes Spinco as if it held the subsidiaries and other assets that will be transferred to it prior to closing for all historical periods presented.

Spinco generated revenues and sales of \$703.0 million and net income of \$112.8 million in the three months ended March 31, 2006; and revenues and sales of \$2,923.5 million and net income of \$374.3 million in the year ended December 31, 2005.

The Annual Meeting (page 184)

The annual meeting of Valor stockholders will take place on Tuesday, June 27, 2006 at the Sheraton New York Hotel & Towers, 811 Seventh Avenue, New York, New York 10019, at 2:00 p.m., local time. At the annual meeting, Valor stockholders will be asked to consider and vote on proposals to adopt the merger agreement, to approve the increase of the authorized number of shares of Valor common stock pursuant to the merger, to approve the issuance of Valor common stock to Alltel stockholders pursuant to the merger and to adopt the 2006 Equity Incentive Plan. Other matters to be acted on at the annual meeting are the election of directors, ratification of Valor's independent auditors and such other matters as may properly come before the meeting.

Annual Meeting Record Date; Voting Information (page 185)

Valor stockholders are entitled to vote at the annual meeting if they owned shares of Valor common stock at the close of business on May 5, 2006, the annual meeting record date.

As of the annual meeting record date, approximately 71,096,887 shares of Valor common stock were issued and outstanding and entitled to vote at the annual meeting and there were 186 holders of record of Valor common stock. Each share of Valor common stock entitles the holder to one vote at the annual meeting.

Required Vote (page 185)

The affirmative vote of a majority of the voting power of the outstanding shares of Valor common stock entitled to vote on the proposals voting together as a single class is required to adopt the merger agreement, to approve the increase of the authorized number of shares of Valor common stock pursuant to the merger, and to approve the issuance of Valor common stock to Alltel stockholders pursuant to the merger. The adoption of the 2006 Equity Incentive Plan and the ratification of the appointment of Valor's independent auditors requires the affirmative vote of a majority of the votes represented and entitled to vote on each such matter, and directors shall be elected by a plurality of the votes represented and entitled to vote on the matter.

Voting by Valor Management (page 187)

Certain stockholders of Valor have entered into a voting agreement with Alltel whereby they have agreed to vote or cause to be voted all of the Valor shares they own in favor of the adoption of the merger agreement. For more information regarding the Voting Agreement see "The Voting Agreement" beginning herein at page 96. In addition, Valor's directors and executive officers have either entered into this agreement with Alltel in their capacity as a stockholder of Valor or have otherwise indicated they intend to vote their Valor common shares in favor of the merger proposals. These stockholders and Valor's executive officers and directors together hold an aggregate of approximately 42% of the aggregate number of votes entitled to be cast at the annual meeting.

The Transactions (page 33)

On December 9, 2005, Alltel and Valor announced they entered into a transaction providing for the spin-off of Alltel's wireline telecommunications business and the merger of such business with and into Valor.

Table of Contents

Below is a step-by-step list illustrating the sequence of material events relating to the spin-off of Spinco and merger of Spinco and Valor. Each of these events are discussed in more detail throughout this proxy statement/prospectus-information statement. Each of following events will occur in the following order on the closing date of the merger except for Step 1, which will occur prior to the closing date, and Steps 9 and 10, which will occur promptly following the closing of the merger.

Step 1 Alltel will engage in a series of restructuring transactions to effect the transfer to Spinco's subsidiaries of all of the assets relating to Alltel's wireline telecommunications business and the transfer to Alltel of all assets not relating to such business.

Step 2 Alltel will contribute all of the capital stock of the Spinco subsidiaries to Spinco in exchange for (i) that number of shares of Spinco common stock to be distributed to a third party exchange agent for the benefit of Alltel shareholders in the spin-off, and (ii) the issuance of the exchange notes by Spinco to Alltel.

Step 3 Spinco will enter into a new senior secured credit facility providing commitments for borrowings in an amount up to \$4.2 billion.

Step 4 Spinco will pay a special dividend to Alltel in an amount not to exceed Alltel's tax basis in Spinco (which is estimated to equal approximately \$2.275 billion).

Step 5 Alltel will spin-off Spinco by distributing all of the shares of Spinco common stock to a third-party exchange agent to be held for the benefit of Alltel stockholders on a pro rata basis.

Step 6 Alltel exchanges the exchange notes received from Spinco for outstanding Alltel debt securities or otherwise transfers such exchange notes to Alltel's creditors representing approximately \$1.673 billion in debt reduction to Alltel.

Step 7 Spinco will merge with and into Valor and shares of Spinco common stock held by the exchange agent will be converted into that number of shares of Valor common stock that Alltel stockholders will be entitled to receive in the merger.

Step 8 The exchange agent will issue shares of Valor common stock to Alltel stockholders in accordance with the terms of the merger agreement.

Step 9 Valor will change its name to Windstream Corporation and its common stock will be quoted on the New York Stock Exchange under the symbol "WIN".

Step 10 Windstream may issue up to an additional \$800 million in debt securities in a private placement pursuant to Rule 144A of the Securities Act of 1933, which will reduce dollar-for-dollar the commitments under its senior secured credit facility.

The Spin-Off (page 33)

In the spin-off, Alltel will contribute its wireline telecommunications business to Spinco in exchange for: the issuance to Alltel of Spinco common stock to be distributed in the spin-off,

the payment of a special dividend to Alltel in an amount not to exceed Alltel's tax basis in Spinco (which is estimated to equal approximately \$2.275 billion), which Alltel will use to repurchase stock pursuant to a special stock buyback program authorized by the Alltel Board of Directors in connection with the spin-off, to repay outstanding indebtedness, or both, within one year following the spin-off, and

the distribution by Spinco to Alltel of certain Spinco debt securities (which we will refer to as the exchange notes), which Alltel intends to exchange for outstanding Alltel debt securities or otherwise transfer to Alltel's creditors, representing approximately \$1.673 billion in debt reduction to Alltel.

As a result of the transactions, Alltel will receive approximately \$4.2 billion of combined cash proceeds and debt reduction through the special dividend, the distribution of the exchange notes and the assumption by Windstream on a consolidated basis of approximately \$267 million in existing Spinco debt securities.

Table of Contents

After the contribution and immediately prior to the merger, Alltel will spin-off Spinco by distributing all of the shares of Spinco common stock to a third-party exchange agent to be held for the benefit of Alltel stockholders on a pro rata basis. Such shares will be immediately converted into that number of shares of Valor common stock Alltel stockholders will be entitled to receive in the merger. As a result, Alltel stockholders will never hold shares of Spinco common stock.

The Merger (page 34)

In the merger, Spinco will merge with and into Valor in accordance with the merger agreement. Valor will survive the merger as a stand-alone company that will hold and conduct the combined business operations of Valor and Spinco. Immediately following the merger, Valor will change its name to Windstream Corporation, and its common stock will be quoted on the New York Stock Exchange under the ticker symbol WIN . For ease of reference, throughout this proxy statement/prospectus-information statement we will refer to Windstream Corporation, the new company formed by the merger of Valor and Spinco as Windstream.

It is presently estimated that Alltel stockholders will receive approximately 1.04 shares of Windstream common stock for each share of Alltel common stock they own on the record date for the spin-off. However, this amount is subject to change based on the number of shares of Alltel common stock outstanding on such date and Valor common stock outstanding immediately prior to the effective time of the merger. We do not expect the number of shares of Valor common stock to change significantly as Valor currently has no plans to issue any shares of its common stock prior to the effective time of the merger other than pursuant to grants of equity incentive awards in the ordinary course of business. In any event, upon consummation of the merger, on a diluted basis, 85% of Windstream will collectively be held by Alltel common stockholders and 15% will collectively be held by the stockholders of Valor. Based on the closing price of Valor common stock on May 24, 2006 of \$12.66, as reported by the New York Stock Exchange, the approximate value Alltel stockholders will receive in the merger will equal \$13.17 per each share of Alltel common stock they own on the record date for the spin-off. However, any change in the market value of Valor common stock prior to the effective time of the merger would cause the estimated per share value Alltel stockholders will receive in the merger to also change. For a more complete discussion of the calculation of the number of shares of Valor common stock to be issued in the merger, see the section titled The Transactions Calculation of Merger Consideration on page 35 of this proxy statement/ prospectus-information statement. Holders of Alltel common stock will not be required to pay for the shares of Valor common stock they receive and will also retain all of their shares of Alltel Corporation. Existing shares of Valor common stock will remain outstanding.

Valor Board of Directors Recommendation to Valor Stockholders (page 45)

The Valor Board of Directors has unanimously determined that the merger is advisable and fair to, and in the best interests of, Valor and its stockholders and unanimously recommends that Valor stockholders vote **FOR** the proposals to adopt the merger agreement, to approve the increase of the authorized number of shares of Valor common stock pursuant to the merger, to approve the issuance of Valor common stock to Alltel stockholders pursuant to the merger and to adopt the 2006 Equity Incentive Plan and, if necessary, to adjourn the annual meeting to solicit additional proxies for the merger proposals.

Valor's Reasons for the Merger (page 43)

In recommending the merger to Valor stockholders, the Valor Board of Directors considered Valor's current and historical financial condition and results of operations as well as its future prospects and strategic objectives. The Board of Directors examined the potential impact of industry trends and risks facing Valor and the industry as a whole on such prospects and objectives. The Board of Directors reviewed the strategic options available to Valor, both potential transaction opportunities and remaining as a separate public company and the risk associated with each option. The Board of Directors authorized management to explore potential transactions and Valor's senior management subsequently began discussions with Alltel.

In the course of their discussions, both Valor and Alltel recognized that a merger of Alltel's wireline business with Valor could potentially have substantial strategic and financial benefits. The Board considered issues such as the amount of debt that the merged company would assume and the agreements between

Table of Contents

Spinco and Alltel. The pro forma capital structure of Windstream will produce lower debt leverage, lower cost of capital and a lower dividend payout ratio than Valor, all of which should reduce the overall financial risk of the combined company. With respect to the agreements between Alltel and Spinco, the Valor Board examined those arrangements in total, and determined that the overall financial impact of those arrangements was not disadvantageous to Spinco. Upon completion of the merger, we expect that Windstream stock will trade at a modest premium over Valor's current share price. Furthermore, Valor's current stockholders may have an opportunity to improve their long-term returns by holding shares of Windstream which we expect will be a leading rural wireline telephone company and one of the largest local telecommunications carriers in the United States.

Opinion of Valor's Financial Advisors (page 46)

In deciding to approve the merger, the Valor Board of Directors considered separate opinions delivered to it by its financial advisors Wachovia Securities and Bear, Stearns & Co. Inc.

Each of Wachovia Securities and Bear Stearns delivered its opinion to the Valor Board of Directors, which opinions were subsequently confirmed in writing, that as of December 8, 2005, and based upon and subject to the factors, qualifications, judgments and assumptions set forth therein, the aggregate consideration to be issued by Valor in the merger is fair, from a financial point of view, to Valor and its stockholders.

The full text of the written opinions of each of Wachovia Securities and Bear Stearns, which set forth assumptions made, procedures followed, matters considered and qualifications and limitations on the review undertaken in connection with its opinion, is attached to this proxy statement/ prospectus-information statement as Annexes D-1 and D-2, respectively. Each of Wachovia Securities and Bear Stearns provided its opinion for the information and assistance of the Valor Board of Directors in connection with their consideration of the transactions contemplated by the merger agreement and the distribution agreement. Neither opinion is a recommendation as to how any holder of Valor common stock should vote with respect to the transactions contemplated by the merger agreement. As is customary, both Wachovia Securities and Bear Stearns will receive a fee for their services. Wachovia Securities will receive a fee of \$6,000,000 for its services, \$750,000 of which was payable upon delivery of its fairness opinion and \$5,250,000 of which is payable upon consummation of the merger. For investment banking and other financial advisory services rendered to Valor over the past two years (other than fees in connection with the merger), Valor has paid Wachovia Securities \$4.75 million. For investment banking and other financial advisory services rendered to Alltel over the past two years, Alltel has paid Wachovia Securities \$6.4 million. Bear Stearns received a fee of \$1 million for its services, none of which was contingent upon the successful completion of the merger. Bear Stearns had been previously engaged by Valor to provide certain investment banking and other services. In connection with such services Bear Stearns has received compensation of approximately \$1.1 million during the past two years. Valor encourages its stockholders to read these opinions in their entirety. Alltel has not engaged Bear Stearns for investment banking or other financial advisory services over the past two years.

Alltel's Reasons for the Spin-Off and the Merger (page 63)

In reaching its decision to approve the spin-off and merger, the Alltel board of directors consulted with its financial and legal advisors and considered a wide variety of factors, including the following:

the creation of skilled management teams at both Alltel and Windstream having proven track records of delivering financial results, a great breadth of experience in the communications industry, and a deep commitment to providing quality communications services to customers;

the expectation that Alltel will receive cash proceeds and debt reduction totaling about \$4.2 billion resulting from the spin-off, which will result in Alltel having net debt of about \$1.2 billion and having leverage of about 0.5 times net debt (or consolidated indebtedness less cash and cash equivalents) to operating income before depreciation and amortization;

the potential value, as determined by evaluating pre and post transaction discounted cash flows, EBITDA, yield, and other measures of the pre and post transaction wireline businesses, created for Alltel stockholders who collectively, in the aggregate, will hold approximately 85% of the outstanding

Table of Contents

shares of Windstream immediately following the merger and the perceived strong investor demand for both a pure-play wireless company and a pure-play rural wireline company;

Alltel's and Valor's wireline businesses have complementary geographic footprints with favorable rural characteristics, and their integration will benefit from Alltel's existing billing system outsourcing relationship with Valor providing the potential to create a market leader in the rural wireline telecommunications industry;

the potential positive financial impact resulting from such a combination (including, without limitation, an expected gain of \$40 million in net annual synergies from the combination) the benefit of which would be passed on to Alltel stockholders through the spin-off and merger;

the tax-efficient structure for Alltel and Alltel's stockholders of the proposed spin-off and immediate merger of Spinco with and into Valor; and

the expectation that Windstream will pay an annual dividend of \$1 per share of common stock, which equals \$1.04 per equivalent Alltel share.

The Alltel board of directors also considered certain countervailing factors in its deliberations concerning the spin-off and merger, including the possibility that the anticipated benefits expected to result for Windstream from the merger would fail to materialize and the potential impact that would have on Alltel stockholders receiving Windstream common shares in the transaction.

As a result of the consideration of the foregoing and other relevant considerations, the Alltel board of directors determined that the spin-off and merger, including the terms of the merger agreement, distribution agreement and the other agreements relating to the merger, are fair to, and in the best interests of, Alltel and Alltel stockholders.

Interests of Certain Persons in the Merger (page 65)

In considering the Valor Board of Directors' determination to approve the merger agreement and to recommend that Valor stockholders vote to adopt the merger agreement, to approve the amendment of the Valor organizational documents in their entirety pursuant to the merger increasing the authorized shares of Valor common stock, to approve the issuance of Valor common stock to Alltel stockholders pursuant to the merger and to adopt the 2006 Equity Incentive Plan, Valor stockholders should be aware of potential conflicts of interest of, and the benefits available to, certain Valor stockholders, directors and officers. These stockholders, directors and officers may have interests in the merger that may be different from, or in addition to, the interests of Valor stockholders as a result of, among other things:

the appointment of Valor's current Chairman of the Board of Directors to the board of Windstream;

the acceptance of employment offers or consulting agreements with Windstream by certain of Valor's executive officers;

the acceleration of vesting of a portion of each executive officer's cash awards, if any, resulting in accelerated payments of \$760,000 in the aggregate;

amendments to Mr. Mueller's and Mr. Ojile's employment agreements that will increase severance payable thereunder from 18 months of base salary to 24 months resulting in aggregate severance payments of \$1,500,000;

amendments to Mr. Mueller's and Mr. Ojile's employment agreements that will increase bonus payments upon termination of employment to two times annual target bonus resulting in aggregate bonus payments of \$1,250,000;

severance payable to Mr. Vaughn of 18 months salary and one-year's bonus resulting in an aggregate severance payment of \$1,587,500, which includes a tax gross-up benefit payable to Mr. Vaughn to compensate him for

excise taxes estimated to be \$775,000 imposed upon him pursuant to Section 280G of the Internal Revenue Code of 1986, as amended;

the acceleration of vesting of restricted stock grants made to Valor's executive officers and directors scheduled to vest in 2007 and for those executive officers who will not remain employed by Windstream, the acceleration of vesting of restricted stock grants scheduled to vest in 2008 and

Table of Contents

beyond, resulting in the accelerated vesting of 973,696 shares of Valor common stock in the aggregate; and

the filing of a shelf registration statement for the benefit of persons affiliated with WCAS, and Vestar Capital Partners, who currently hold in the aggregate approximately 41% of Valor's outstanding common stock, and the grant of certain other registration rights to WCAS and Vestar.

In addition, under the terms of the merger agreement, Alltel and Valor agreed that all rights to indemnification as provided in Valor's Certificate of Incorporation or Bylaws in favor of persons who are or were directors, officers or employees of Valor will survive for a period of six years following the merger. The parties also agreed that for a period of six years following the merger, Windstream will indemnify the current and former directors, officers or employees of Valor to the fullest extent permitted by applicable law. The merger agreement further requires that, for six years following the effective time of the merger and subject to certain limitations, Windstream will maintain coverage under a director and officer liability insurance policy, with respect to claims arising from facts or events that occurred on or before the effective time of the merger, at a level at least equal to that which Alltel is maintaining prior to the merger, except that Windstream will not be required to pay an annual premium for such insurance in excess of \$2,000,000.

Regulatory Approval (page 68)

The transactions contemplated by the merger agreement will require the approval of the public service or public utilities commissions of the following states in their capacities as regulators of competitive local exchange carriers (CLEC) and incumbent local exchange carriers (ILEC) operations of Alltel and Valor: Florida, Georgia, Kentucky, Mississippi, Missouri, New York, Ohio, Pennsylvania, South Carolina and Texas. On April 12, 2006, Alltel obtained an amendment to the commitment letter for the senior secured credit facilities to remove certain guaranties and liens, and such amendment eliminated the need for approval of the transaction by certain state regulatory agencies. The parties must also obtain state commission approval of the transfer to Spinco of the long distance customers and certificates of authority of Alltel, or the issuance to Spinco of new certificates of authority, in all states except Alaska.

Valor and Spinco completed the filing of all of the foregoing applications that were required to be filed prior to completion of the merger for the authority and approval with respect to the ILEC operation in January 2006. The public service or public utilities commission in each of the states of Florida, Georgia, Kentucky, Missouri, Mississippi and South Carolina has granted its approval. The parties expect that the remaining applicable state commissions will make a determination on these applications no later than the second quarter of 2006.

In addition, under the Communications Act of 1934, before the completion of the merger, the FCC must approve the transfer to Valor of control of Spinco and those subsidiaries of Spinco that hold FCC licenses and authorizations. Valor and Spinco filed transfer of control applications with the FCC on December 21, 2005 and received the FCC's approval of the merger on February 1, 2006.

Each party's obligations to complete the merger are subject to receipt of the consents of the above referenced state regulators (other than Texas, which is a post-closing procedural approval) and FCC authorization that, if not obtained, would reasonably be expected to have a material adverse effect on Valor, Alltel or Spinco.

In addition, completion of the spin-off and the merger requires that we submit filings under the Hart-Scott-Rodino Antitrust Improvements Act of 1976 to the Department of Justice and the Federal Trade Commission and satisfy certain waiting period requirements. Valor and Spinco submitted the required filings under the Hart-Scott-Rodino Act on December 21, 2005 and early termination of the waiting period requirements was granted on January 3, 2006.

The merger agreement provides that each of Valor, Alltel and Spinco, subject to customary limitations, will use their respective reasonable best efforts to take promptly all actions and to assist and cooperate with the other parties in doing all things necessary, proper or advisable under applicable laws and regulations to consummate the merger and the transactions contemplated by the merger agreement. Alltel, Spinco and Valor also agreed to use all reasonable efforts to resolve any objections or challenges from a regulatory authority.

Table of Contents

For a more complete discussion of regulatory matters relating to the merger, see **The Transactions** Regulatory Approvals beginning on page 68.

Merger Consideration (page 80)

The merger agreement provides that Valor will issue in the aggregate to holders of Alltel common stock a number of shares of Valor common stock equal to (a) the number of shares of Valor common stock outstanding on a fully-diluted basis as the effective time of the merger multiplied by (b) 5.667, we refer to the product of this formula as the aggregate merger consideration. Each share of Spincor common stock distributed for the benefit of Alltel stockholders in the spin-off will be converted into the right to receive a number of shares of Valor common stock equal to the aggregate merger consideration, divided by the number of Alltel shares outstanding as of the record date for the spin-off, which Alltel will announce prior to the expected completion of the spin-off and the merger.

It is presently estimated that Valor will issue in the aggregate approximately 403 million shares of common stock to Alltel stockholders pursuant to the merger, or approximately 1.04 shares of Valor common stock (subject to variation as a result of compensatory equity grants and other issuances) for each share of Alltel common stock outstanding as of the record date for the spin-off. Given that these amounts are calculated based on the number of shares of Alltel common stock outstanding as of the record date for the spin-off and Valor common stock outstanding at the effective time of the merger, the actual number of shares of Valor common stock to be issued will not be determined until the effective time, and there is no maximum or minimum number of shares that will be issued. We do not expect the number of shares of Valor common stock to change significantly as Valor currently has no plans to issue any shares of its common stock prior to the effective time of the merger other than pursuant to grants of equity incentive awards in the ordinary course of business. In any event, the calculation of the merger consideration set forth in the merger agreement is structured so that, regardless of the number of Valor shares and Spincor shares outstanding immediately prior to the effective time of the merger, when the merger is completed, Alltel stockholders will collectively own approximately 85%, and Valor's stockholders will collectively own approximately 15%, of the shares of common stock of Windstream on a fully diluted basis. Based on the closing price of Valor common stock on May 24, 2006 of \$12.66, as reported by the New York Stock Exchange, the approximate value Alltel stockholders will receive in the merger will equal \$13.17 per each share of Alltel common stock they own on the record date for the spin-off. However, any change in the market value of Valor common stock prior to the effective time of the merger would cause the estimated per share value Alltel stockholders will receive to also change.

Alltel stockholders that otherwise would be entitled to a fraction of a Valor common share will be entitled to receive a cash payment in lieu of issuance of that fractional share.

Conditions to the Completion of the Merger (page 86)

Consummation of the merger is subject to the satisfaction of certain conditions, including, among others:
the obtaining of the requisite approval by the stockholders of Valor;

the receipt of required regulatory approvals, including the approval of the Federal Communications Commission (which Valor received on February 1, 2006), the relevant state public service or public utilities commissions and the expiration of the applicable waiting period under the Hart-Scott Rodino Antitrust Improvements Act of 1976, as amended (which Valor received on January 3, 2006);

the SEC declaring effective the registration statement, of which this proxy statement/ prospectus-information statement is a part (which the SEC declared effective on May 26, 2006);

consummation of the contribution transaction, the distribution transaction and the debt exchange transaction, each of which are described elsewhere in this proxy statement/ prospectus-information statement;

consummation of the financing of Spincor;

Table of Contents

receipt of surplus, solvency and certain other opinions;

each party's compliance in all material respects with its obligations under the merger agreement;

that no event or circumstance shall have occurred that has or would have a Material Adverse Effect on Valor or Spinco; and

receipt of certain rulings from the Internal Revenue Service and certain tax opinions.

To the extent that either the board of directors of Valor or Alltel waives the satisfaction of a condition to closing that the board of directors of Valor deems material, Valor's board of directors shall resolicit stockholder approval of the merger.

Termination (page 88)

The merger agreement may be terminated:

by mutual consent of the parties,

by any of the parties if the merger has not been completed by December 8, 2006, the so-called termination date,

by any of the parties if the merger is enjoined,

by Alltel and Spinco, on the one hand, or Valor, on the other hand, upon an incurable material breach of the merger agreement by the other party or parties,

by any party if the requisite approval of Valor's stockholders is not obtained,

by Alltel or Spinco if Valor withdraws its recommendation of the merger or fails to hold its stockholder meeting within 60 days after effectiveness of the registration statement to which this proxy statement/prospectus-information statement is attached, or

by Valor to accept a superior acquisition proposal, provided that Valor gives Alltel prior notice and attempts to renegotiate the transaction, and upon termination Valor enters into a competing transaction.

Termination Fee Payable in Certain Circumstances (page 88)

In the event that (i) Valor terminates the merger agreement to accept a superior acquisition proposal, (ii) Alltel and Spinco terminate the merger agreement because Valor has withdrawn its recommendation of the merger, (iii) any of the parties terminates the merger agreement because the termination date has passed or Alltel and Spinco terminate the merger agreement because Valor fails to hold its stockholder meeting, or (iv) any of the parties terminates the merger agreement because the requisite approval of Valor's stockholders is not obtained, and in the case of clauses (iii) and (iv) prior to such termination, a third party makes a company acquisition proposal, and Valor agrees to or consummates a business combination transaction within one year after termination with a third party, then Valor must pay Alltel a \$35 million termination fee.

If any party terminates the merger agreement because the termination date has passed or Valor terminates the merger agreement because of a material breach by Alltel or Spinco and, in either case, at the time of termination substantially all other conditions to the merger have been satisfied but the required IRS rulings or tax opinions for the transaction have not been received, then Alltel must pay Valor a \$20 million termination fee and, if Spinco's financing condition has not been satisfied at the time of termination, then Alltel must pay Valor an increased termination fee of \$35 million.

Name Change; Listing (page 167)

Immediately following completion of the merger, the Board of Directors will merge a wholly-owned subsidiary of the surviving company into the company and, in connection with such merger, change the name of the company from Valor Communications Group, Inc. to Windstream Corporation Promptly

Table of Contents

thereafter, the company will file a restated certificate of incorporation with the Delaware Secretary of State reflecting the name change. Shares of Windstream Corporation will be traded on the NYSE under the new trading symbol WIN.

Distribution Agreement (page 92)

The distribution agreement between Alltel and Spinco provides for, among other things, the principal corporate transactions required to effect the proposed distribution of Spinco common stock for the benefit of Alltel stockholders in the spin-off. The distribution agreement also contains certain other terms governing the relationship between Alltel and Spinco with respect to or in consequence of the spin-off transaction.

Pursuant to the distribution agreement, Alltel will transfer to Spinco's subsidiaries all of the assets relating to Alltel's wireline telecommunications business, including Alltel's ILEC, CLEC and internet access operations, related marketing and sales operations, and other operations comprising Alltel's wireline telecommunications business, as well as all of Alltel's directory publishing operations, telecommunication information services operations, product distribution operations (other than any such operations supporting Alltel's wireless telecommunications business), network management services operations, and wireline long-distance services operations (other than the fiber backbone supporting those operations and the revenues attributable to Alltel's wireless telecommunications business as a result of its use of the fiber backbone). The distribution agreement also provides for the transfer to Alltel's subsidiaries of all assets not relating to such businesses.

Following these transactions, and immediately prior to the effective time of the merger, Alltel will contribute all of the stock of the Spinco subsidiaries to Spinco in exchange for the issuance to Alltel of Spinco common stock to be distributed to the exchange agent for the benefit of Alltel's stockholders pro rata in the spin-off, the special dividend (which Alltel will use to repurchase stock pursuant to a special stock buyback program authorized by the Alltel Board of Directors in connection with the spin-off, to repay outstanding indebtedness, or both, within one year following the spin-off) and the Spinco debt securities to be transferred to Alltel's creditors.

Certain United States Federal Income Tax Consequences of the Spin-Off and the Merger (page 76)

The spin-off is conditioned upon Alltel's receipt of a private letter ruling from the Internal Revenue Service (the IRS) (which Alltel received on April 7, 2006) to the effect that the spin-off will qualify as tax-free to Alltel, Spinco and the Alltel stockholders for United States federal income tax purposes under Sections 355, 368 and related provisions of the Internal Revenue Code of 1986, as amended (the Code). The spin-off is also conditioned upon the receipt by Alltel of an opinion of Skadden, Arps, Slate, Meagher & Flom LLP, counsel to Alltel, to the effect that the spin-off will be tax-free to Alltel, Spinco and the stockholders of Alltel under Section 355 and related provisions of the Code. As set forth in the IRS letter ruling and the tax opinion:

no gain or loss will be recognized by (and no amount will be included in the income of) Alltel common stockholders upon the receipt by the exchange agent on their behalf of shares of Spinco common stock in the spin-off;

the aggregate tax basis of the Alltel common stock and the Spinco common stock in the hands of each Alltel common stockholder after the spin-off will equal the aggregate tax basis of the Alltel common stock held by the stockholder immediately before the spin-off, allocated between the Alltel common stock and the Spinco common stock in proportion to the relative fair market value of each on the date of the spin-off; and

the holding period of the Spinco common stock received by an Alltel common stockholder will include the holding period at the time of the spin-off of the Alltel common stock on which the distribution is made.

It is a condition to the obligations of Alltel, Spinco and Valor to consummate the merger that Alltel and Spinco receive the opinion of Skadden, Arps, Slate, Meagher & Flom LLP, and that Valor receives the

Table of Contents

opinion of Kirkland & Ellis LLP, both to the effect that the merger will be treated as a tax-free reorganization within the meaning of Section 368(a) of the Code. As set forth in the tax opinions:

Alltel common stockholders will not recognize gain or loss on the exchange of their Spinco common stock (received by the exchange agent on their behalf in the spin-off) for shares of Valor common stock in the merger, except to the extent of any cash received in lieu of a fractional share of Valor common stock;

an Alltel stockholder's tax basis in the Valor common stock received in the merger (including any fractional share interest deemed to be received and exchanged for cash) will equal the stockholder's tax basis in the Spinco common stock surrendered in exchange therefor;

an Alltel stockholder's holding period for the Valor common stock received pursuant to the merger will include the holding period for the shares of Spinco common stock surrendered in exchange therefor;

neither Spinco nor Valor will recognize any gain or loss in the merger; and

Valor stockholders will not recognize any gain or loss in the merger.

Please see "Certain United States Federal Income Tax Consequences of the Spin-Off and the Merger" on page 76 for more information.

The Voting Agreement (page 96)

In connection with the execution of the distribution agreement and the merger agreement, Spinco entered in a voting agreement with persons affiliated with Welsh, Carson, Anderson & Stowe and Vestar Capital Partners who collectively owned approximately 41% of Valor's outstanding common shares as of December 8, 2005. Pursuant to the voting agreement, these stockholders have agreed to vote all of their shares of Valor common stock (i) in favor of the approval of the merger and the approval and adoption of the merger agreement and (ii) except with the written consent of Spinco, against certain alternative proposals that may be submitted to a vote of the stockholders of Valor regarding an acquisition of Valor. In the event that the merger agreement terminates for any reason, the voting agreement will automatically terminate.

Financing of Windstream (page 103)

On December 8, 2005, Alltel and J.P. Morgan Securities Inc., JPMorgan Chase Bank, N.A., Merrill Lynch, Pierce, Fenner & Smith Incorporated and Merrill Lynch Capital Corporation entered into a commitment letter and a related engagement and fee letter (which we collectively refer to as the "financing letters") with respect to the financing of Windstream following the spin-off and the merger. The commitment letter is subject to customary conditions to consummation, including the absence of any event or circumstance that, individually or in the aggregate, is materially adverse to the business, assets, properties, liabilities or condition (financial or otherwise), of Spinco and its subsidiaries or Valor and its subsidiaries since September 30, 2005. Alltel has agreed to pay JPMorgan and Merrill Lynch certain fees in connection with the commitment letter and has agreed to indemnify JPMorgan and Merrill Lynch against certain liabilities. On April 12, 2006, Alltel obtained an amendment to the commitment letter to remove certain guaranties and related liens. No other changes to the terms of the commitment letter, including the interest rates and fees, were made by such amendment.

These financing letters provide for a commitment of an aggregate amount of up to \$4.2 billion in financing, consisting of a senior secured five-year revolving credit facility in the principal amount of \$500.0 million and senior secured term loan facilities in an aggregate amount of up to \$3.7 billion. A portion of the financing of Windstream may also be financed with the proceeds from a Rule 144A offering of up to \$800.0 million of senior unsecured notes, in which case the term loan facilities, or a portion thereof, will be reduced dollar for dollar.

The proceeds of the term loan facilities and any Rule 144A offering of senior unsecured notes that is consummated will be used (i) to finance the approximately \$2.275 billion special dividend payment to Alltel, which Alltel will use to repurchase stock pursuant to a special stock buyback program authorized by the Alltel Board of Directors in connection with the spin-off, to repay outstanding indebtedness, or both, within one year following the spin-off, (ii) to refinance Valor's existing bank facility in the amount of approximately

Table of Contents

\$781.0 million and approximately \$81.0 million of Alltel's outstanding bonds (plus related make-whole premiums), and (iii) to purchase any of Valor's outstanding bonds that are tendered pursuant to the terms thereof as a result of the merger. \$3.3 billion of the \$3.7 billion term loan facilities will be available in a single draw down on the date of closing to consummate the spin-off and merger transactions. The revolving credit facility may be used by Windstream for general corporate purposes, and a portion will be available for letters of credit. The actual amount initially drawn under the revolving credit facility on the date of closing is not expected to exceed \$90.0 million. The term loan facilities and the revolving credit facility are referred to herein as the Senior Secured Credit Facilities.

Windstream's direct and indirect domestic subsidiaries will serve as guarantors of the Senior Secured Credit Facilities and hedge agreements entered into in connection therewith, except that no guarantee is required of a subsidiary to the extent that the transactions require, or the granting of such guarantee would require, the approval of any state regulatory agency. The Senior Secured Credit Facilities, guaranties thereof and hedge agreements entered into in connection therewith will be secured by substantially all of the property and assets of Windstream and its subsidiaries who are guarantors.

It is expected that following completion of the merger Windstream will have approximately \$5.5 billion in total debt. For a discussion of the debt to be assumed or incurred by Windstream in the merger see the section titled "The Transactions" in this proxy statement/prospectus-information statement beginning on page 33.

Management of Windstream following the Merger (page 152)

The merger agreement provides that the Board of Directors of Spinco at the effective time of the merger will become the Board of Directors of Windstream, and will consist of nine individuals: Francis X. Frantz, who most recently served as the Executive Vice President - External Affairs, General Counsel and Secretary of Alltel, Jeffery R. Gardner, who most recently served as Executive Vice President - Chief Financial Officer of Alltel, six other persons named by Alltel and one person named by Valor. Additionally, the merger agreement provides that, as of the completion of the merger, Mr. Frantz will serve as Chairman of the Board. Valor has designated Anthony J. de Nicola as its designee to the Windstream board. Five of Alltel's designees to the Windstream board are identified under the heading "Management of Windstream Following the Merger - Alltel Corporation Designees to the Board of Directors" on page 152 of this proxy statement/prospectus-information statement. The final Alltel designee will be named prior to completion of the spin-off and merger.

The merger agreement also provides that the officers of Spinco at the effective time of the merger will become the officers of Windstream and that Mr. Frantz will serve as Chairman, Mr. Gardner will serve as the President and Chief Executive Officer and Brent K. Whittington, who most recently served as senior vice president of operations support for Alltel, will serve as Executive Vice President and Chief Financial Officer. The other initial officers of Windstream will consist of individuals selected by Alltel. Alltel has already named Keith D. Paglusch Chief Operating Officer, John P. Fletcher as Executive Vice President and General Counsel, Michael D. Rhoda, who most recently served as vice president - wireline regulatory & wholesale services for Alltel, as Senior Vice President - Governmental Affairs, Robert G. Clancy, Jr., who most recently served as vice president of investor relations for Alltel, as Senior Vice President and Treasurer and Susan Bradley, who most recently served as vice president of human resources for Alltel, as Senior Vice President - Human Resources.

Comparison of the Rights of Stockholders Before and After the Spin-Off and Merger (page 168)

Upon completion of the spin-off and merger, the certificate of incorporation and bylaws of Windstream will be in the forms attached as Annex E and F, respectively, to this document and incorporated by reference herein. Although there are substantial similarities between the certificate of incorporation and bylaws of Valor prior to the spin-off and merger and the certificate of incorporation and bylaws of Windstream after the spin-off and merger, some differences do exist. A summary of the material differences between the rights of Valor stockholders before and after the spin-off and merger is set forth under the heading "Comparison of the Rights of Stockholders Before and After the Spin-off and Merger."

Table of Contents**SELECTED HISTORICAL FINANCIAL DATA OF SPINCO**

Spinco is a newly formed holding company organized for the sole purpose of holding the wireline telecommunications business of Alltel. This proxy statement/prospectus-information statement describes Spinco as if it held the subsidiaries that will be transferred to it prior to closing of the spin-off and the merger for all periods and dates presented. The following selected historical financial information of Spinco for each of the fiscal years ended December 31, 2005, 2004, 2003 and 2002 has been derived from the financial statements of Alltel, principally representing Alltel's historical wireline and communications support segments, which were audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm. The financial data as of March 31, 2006 and 2005 and for the three month periods then ended and the financial data as of December 31, 2001 and for the year then ended, has been derived from Alltel's unaudited financial statements which include, in management's opinion, all adjustments, consisting only of normal recurring adjustments, necessary to present fairly the results of operations and financial position of Spinco for the periods and dates presented. Market price data for Spinco has not been presented as Spinco common shares do not trade separately from Alltel Corporation common shares. Valor s dividend policy is to pay quarterly dividends at a rate of \$1.44 per share, per annum, to the extent such dividends are permitted by applicable law and by the terms of Valor s credit facility. Valor expects to pay a pro-rated third quarter dividend based upon its current policy of paying dividends on each share of its common stock at a rate of \$1.44 per share per annum. Valor will pay such dividend to Valor stockholders of record as of the close of business on the business day immediately preceding the closing date of the merger, and the dividend will be payable for the period between July 1, 2006 through the closing date of the merger. For example, if closing occurs on July 17, Valor will pay a pro-rata dividend for the 17 days of the third quarter at its quarterly dividend rate of \$0.36 per share, or \$.07 per share (17/92 x \$0.36). For information on Windstream s dividend policy following the merger, see The Transactions Dividend Policy of Windstream.

THE MERGER

Introduction

Stockholders of Valor Communications Group, Inc. are being asked to adopt the Agreement and Plan of Merger, dated as of December 8, 2005 and amended as of May 18, 2006, by and among Alltel Corporation, Alltel Holding Corp. and Valor. Under the merger agreement, Alltel Holding Corp. (which we refer to as Spinco) will merge with and into Valor, and Valor will survive as a stand-alone company and will hold and conduct the combined business operations of Valor and Spinco. Following completion of the merger, the separate existence of Spinco will cease. The merger will take place immediately after Alltel contributes the assets making up its wireline telecommunications business to Spinco and distributes the common stock of Spinco to a third-party exchange agent for the benefit of its stockholders. Immediately following the merger, Valor will change its name to Windstream Corporation , and its common stock will be quoted on the NYSE and will be traded under the ticker symbol WIN. For ease of reference, throughout this proxy statement/ prospectus-information statement we will refer to Windstream Corporation, the new company formed by the merger of Valor and Spinco as Windstream. When the merger is completed, Alltel stockholders will collectively own approximately 85%, and Valor s stockholders will collectively own approximately 15%, of the shares of common stock of Windstream on a diluted basis.

In the merger, each share of Spinco common stock will be converted into the right to receive shares of Valor common stock. Existing shares of Valor common stock will remain outstanding. Valor expects to issue up to approximately 403,000,000 shares of common stock to Alltel stockholders pursuant to the merger. However, since the number of shares to be issued will be calculated based on the number of shares of Valor common stock outstanding on a fully diluted basis immediately prior to the effective time of the merger, and our estimate is based on Valor s current shares outstanding, the actual number of shares issued may be less than or greater than 403,000,000. Before Valor may issue these shares, the Valor certificate of incorporation must be amended to increase the authorized shares of Valor common stock from 200,000,000 to 1,000,000,000. Accordingly, Valor stockholders are also being asked to approve an amendment to Valor s certificate of incorporation pursuant to the merger increasing the authorized number of shares of Valor common stock and to approve the issuance of Valor common stock to Alltel stockholders pursuant to the merger.

For a more complete discussion of the merger and the transactions to be consummated in connection therewith, see the section titled The Transactions on page 33 of this proxy statement/ prospectus-information statement.

The Companies

Valor Communications Group, Inc.

Valor is one of the largest providers of telecommunications services in rural communities in the southwestern United States and, based on its number of access lines, the seventh largest independent telephone company in the country. As of March 31, 2006, Valor operated 516,511 telephone access lines in primarily rural areas of Texas, Oklahoma, New Mexico and Arkansas. Valor believes that in many of its markets it is the only service provider that offers customers an integrated package of local and long distance voice, high-speed data and Internet access as well as a variety of enhanced services such as voicemail and caller identification. Valor generated revenues of \$125.6 million and net income of \$16.0 million in the three months ended March 31, 2006, and revenues of \$505.9 million and net income of \$35.3 million in the year ended December 31, 2005.

Valor was formed in connection with the acquisition in 2000 of select telephone assets from GTE Southwest Corporation, which is now part of Verizon. Valor s formation was orchestrated by its equity sponsors WCAS, Vestar Capital Partners, Citicorp Venture Capital and a group of founding individuals. Valor completed its initial public offering of shares of common stock on February 9, 2005, and its shares began trading on the NYSE under the symbol VCG.

Table of Contents***Alltel Holding Corp.***

Alltel Holding Corp. (also referred to herein as Spinco) is currently a wholly-owned subsidiary of Alltel Corporation and was incorporated in its current form as a Delaware corporation on November 2, 2005 for the purpose of holding Alltel Corporation's wireline business to be transferred to it in connection with the spin-off. Alltel Corporation's wireline business is currently operated by certain of its subsidiaries, each of which will be transferred to Spinco prior to the closing of the spin-off and the merger. These subsidiaries provide wireline local, long-distance, network access and Internet services. These subsidiaries also sell and warehouse telecommunications products and publish telephone directories for affiliates and other independent telephone companies. This proxy statement/prospectus-information statement describes Spinco as if it held the subsidiaries that will be transferred to it prior to closing of the spin-off and the merger for all historical periods presented.

Spinco operates its communications businesses as a single operation capable of delivering to customers one-stop shopping for a full range of communications products and services. As of March 31, 2006, including customers of its wireline and long-distance services, Spinco served approximately 2.9 million communications customers in rural areas in 15 states. Spinco generated revenues and sales of \$703.0 million and net income of \$112.8 million in the three months ended March 31, 2006; and revenues and sales of \$2,923.5 million and net income of \$374.3 million in the year ended December 31, 2005.

Spinco is organized based on the products and services that it offers. Under this organizational structure, Spinco's operations consist of its Wireline, Other Operations and Product Distribution business segments. Spinco's Wireline segment consists of Spinco's incumbent local exchange carrier (ILEC), competitive local exchange carrier (CLEC) and Internet access operations. The Other Operations segment consists of Spinco's long-distance and network management services, directory publishing operations and telecommunications information services. The Product Distribution segment consists of Spinco's communications products operations. As of March 31, 2006, Spinco's wireline subsidiaries provide local telephone service to approximately 2.9 million customers primarily located in rural areas in 15 states. The wireline subsidiaries also offer facilities for private line, data transmission and other communications services. Wireline revenues, which consist of local service, network access and long-distance and miscellaneous revenues, comprised 79.8 percent and 78.2 percent of Spinco's total operating revenues from business segments in the first quarter of 2006 and the full year of 2005, respectively. Spinco provides long-distance service in all of the states in which Spinco provides local exchange service. In addition, Spinco offers long-distance service outside its ILEC service areas. As of March 31, 2006, Spinco provided long-distance service to approximately 1.75 million customers. Network management services are currently marketed to business customers in select areas. These services are ancillary service offerings and are not significant components of Spinco's communications operations. Revenues and sales from Spinco's other operations comprised 10.6 percent and 11.6 percent of Spinco's total operating revenues from business segments in the first quarter of 2006 and the full year of 2005, respectively. Spinco's product distribution operations sell communications and data products to affiliated and non-affiliated telecommunications companies and other related industries. Revenues and sales from Spinco's product distribution operations comprised 9.6 percent and 10.2 percent of Spinco's total operative revenues from business segments in the first quarter of 2006 and the full year of 2005, respectively.

RISK FACTORS

You should carefully consider the following risk factors, together with the other information contained in this proxy statement/prospectus-information statement and the annexes hereto and documents incorporated by reference herein. Any of these risks could materially and adversely affect the price of Windstream's common stock following completion of the merger.

Risks Relating to the Spin-Off and the Merger

The calculation of the merger consideration will not be adjusted in the event the value of the business or assets of Spinco decline before the merger is completed. As a result, at the time you vote on the merger you will not know what the value of Windstream common stock will be following completion of the merger.

The calculation of the number of shares of Valor common stock to be issued pursuant to the merger will not be adjusted in the event the value of the Alltel wireline telecommunications business that is being contributed to Spinco declines. If the value of this business declines after Valor stockholders approve the merger proposals, the market price of the common stock of the combined company following completion of the merger will be less than Valor stockholders anticipated when they voted to approve the merger proposals. While Valor will not be required to consummate the merger upon the occurrence of any event or circumstances that has, or could reasonably be expected to have, a material adverse effect on Spinco, neither Alltel nor Valor will be permitted to terminate the merger agreement or resolicit the vote of Valor stockholders because of any changes in the value of the Spinco business or the market prices of their respective common stocks that do not rise to the level of a material adverse effect on Spinco (as defined in the merger agreement).

Windstream may not realize the anticipated synergies, cost savings and growth opportunities from the merger.

The success of the merger will depend, in part, on the ability of Spinco and Valor to realize the anticipated synergies, cost savings and growth opportunities from integrating the businesses of Valor with those of Spinco. Windstream's success in realizing these synergies, cost savings and growth opportunities, and the timing of this realization, depends on the successful integration of Spinco's and Valor's business and operations. Even if the companies are able to integrate their business operations successfully, there can be no assurance that this integration will result in the realization of the full benefits of synergies, cost savings and growth opportunities that Spinco and Valor currently expect from this integration or that these benefits will be achieved within the anticipated time frame. For example, the elimination of duplicative costs may not be possible or may take longer than anticipated, the benefits from the merger may be offset by costs incurred in integrating the companies and regulatory authorities may impose adverse conditions on the combined business in connection with granting approval for the merger.

The integration of Spinco and Valor following the merger may present significant challenges to Windstream management which could cause management to fail to respond effectively to the increasing forms of competition facing Windstream's business and accelerate Windstream's rate of access line loss.

There is a significant degree of difficulty and management distraction inherent in the process of integrating the Spinco and Valor businesses. These difficulties include:

the necessity of consolidating an organization with its corporate headquarters located in Irving, Texas with an organization with its corporate headquarters located in Little Rock, Arkansas;

the challenge of integrating the business cultures of Valor with the new management team principally comprised of former Alltel employees, which may prove to be incompatible; and

the need to retain key officers and personnel of Spinco and Valor.

The process of integrating operations could cause an interruption of, or loss of momentum in, the activities of one or more of Spinco and Valor's businesses. Following completion of the merger, Windstream's new senior management team, which will be put into place by virtue of the merger, may be required to devote

Table of Contents

considerable amounts of time to this integration process, which will decrease the time they will have to manage the business of Windstream, service existing customers, attract new customers and develop new products or strategies. One potential consequence of such distractions could be the failure of management to realize opportunities to respond to the increasing forms of competition that Windstream's business is facing, which could increase the rate of access line loss that Windstream's business has experienced in recent years. If Windstream's senior management is not able to effectively manage the integration process, or if any significant business activities are interrupted as a result of the integration process, Windstream's business could suffer.

Spinco and Valor cannot assure you that they will successfully or cost-effectively integrate the Valor businesses and the existing businesses of Spinco. The failure to do so could have a material adverse effect on Windstream's business, financial condition and results of operations following completion of the merger.

After the close of the transaction, sales of Windstream common stock may negatively affect its market price.

The market price of Windstream common stock could decline as a result of sales of a large number of shares of Windstream common stock in the market after the completion of the merger or the perception that these sales could occur. These sales, or the possibility that these sales may occur, also might make it more difficult for Windstream to obtain additional capital by selling equity securities in the future at a time and at a price that Windstream deems appropriate.

Immediately after the merger, Alltel stockholders will collectively hold, in the aggregate, approximately 85% of Windstream common stock on a fully diluted basis. Currently, Alltel stock is included in index funds tied to the Standard & Poor's 500 Index or other stock indices and institutional investors subject to various investing guidelines. Because Windstream may not be included in these indices at the time of the merger or may not meet the investing guidelines of some of these institutional investors, these index funds and institutional investors may be required to sell Windstream common stock that they receive in the spin-off. These sales may negatively affect Windstream's common stock price.

Regulatory agencies may delay or impose conditions on approval of the spin-off and the merger, which may diminish the anticipated benefits of the merger.

Completion of the spin-off and merger is conditioned upon the receipt of required government consents, approvals, orders and authorizations. While Valor and Spinco intend to pursue vigorously all required governmental approvals and do not know of any reason why they would not be able to obtain the necessary approvals in a timely manner, the requirement to receive these approvals before the spin-off and merger could delay the completion of the spin-off and merger, possibly for a significant period of time after Valor stockholders have approved the merger proposals at the annual meeting. In addition, these governmental agencies may attempt to condition their approval of the merger on the imposition of conditions that could have an adverse effect on Windstream's operating results or the value of Windstream's common stock after the spin-off and merger are completed. Any delay in the completion of the spin-off and merger could diminish anticipated benefits of the spin-off and merger or result in additional transaction costs, loss of revenue or other effects associated with uncertainty about the transaction. Any uncertainty over the ability of the companies to complete the spin-off and merger could make it more difficult for Spinco and Valor to retain key employees or to pursue business strategies. In addition, until the spin-off and merger are completed, the attention of Spinco and Valor management may be diverted from ongoing business concerns and regular business responsibilities to the extent management is focused on matters relating to the transaction, such as obtaining regulatory approvals.

Some of the directors, officers and stockholders of Valor have interests that may be different from, or in addition to, the interests of Valor stockholders.

In considering the Valor Board of Directors' determination to approve the merger agreement and to recommend that Valor stockholders vote to adopt the merger agreement and to take the other recommended actions, Valor stockholders should be aware of potential conflicts of interest of, and the benefits available to, certain Valor stockholders, directors and officers. These stockholders, directors and officers may have interests

Table of Contents

in the merger that may be different from, or in addition to, the interests of Valor stockholders as a result of, among other things:

arrangements regarding the appointment of directors and officers of Valor;

restrictions upon certain restricted shares under Valor stock plans issued prior to the date of the merger agreement, including those held by executive officers and directors, will lapse; and

modifications to employment and severance arrangements maintained for Valor executive officers that may result in increased benefits to such officers.

You should read *The Transactions* *Interests of Certain Persons in the Merger* on page 65 for a more complete description of the interests and benefits listed above.

The merger agreement contains provisions that may discourage other companies from trying to acquire Valor.

The merger agreement contains provisions that may discourage a third party from submitting a business combination proposal to Valor that might result in greater value to Valor stockholders than the merger. The merger agreement generally prohibits Valor from soliciting any acquisition proposal. In addition, if the merger agreement is terminated by Valor or Alltel in circumstances that obligate Valor to pay a termination fee and to reimburse transaction expenses to Alltel, Valor's financial condition may be adversely affected as a result of the payment of the termination fee and transaction expenses, which might deter third parties from proposing alternative business combination proposals.

If the spin-off does not constitute a tax-free spin-off under section 355 of the Code or the merger does not constitute a tax-free reorganization under section 368(a) of the Code, either as a result of actions taken in connection with the spin-off or the merger or as a result of subsequent acquisitions of stock of Alltel or stock of Windstream, then Alltel, Windstream and/or Alltel stockholders may be responsible for payment of United States federal income taxes.

The spin-off and merger are conditioned upon Alltel's receipt of a private letter ruling from the IRS (which Alltel received on April 7, 2006) to the effect that the spin-off, including (i) the contribution of the wireline business to Spinco, (ii) the receipt by Alltel of Spinco debt securities and the special dividend and (iii) the exchange by Alltel of Spinco debt securities for Alltel debt, will qualify as tax-free to Alltel, Spinco and the Alltel stockholders for United States federal income tax purposes under Sections 355 and 368 and related provisions of the Code. Although a private letter ruling from the IRS generally is binding on the IRS, if the factual representations or assumptions made in the letter ruling request are untrue or incomplete in any material respect, then Alltel and Windstream will not be able to rely on the ruling.

The spin-off and merger are also conditioned upon the receipt by Alltel of an opinion of Skadden, Arps, Slate, Meagher & Flom LLP, counsel to Alltel, to the effect that the spin-off will be tax-free to Alltel, Spinco and the stockholders of Alltel under Section 355 and other related provisions of the Code. The opinion will rely on the IRS letter ruling as to matters covered by the ruling. Lastly, the spin-off and the merger are conditioned on Alltel's receipt of an opinion of Skadden, Arps, Slate, Meagher & Flom LLP and Valor's receipt of an opinion of Kirkland & Ellis LLP, counsel to Valor, each to the effect that the merger will be treated as a tax-free reorganization within the meaning of Section 368(a) of the Code. All of these opinions will be based on, among other things, current law and certain representations and assumptions as to factual matters made by Alltel, Spinco and Valor. Any change in currently applicable law, which may or may not be retroactive, or the failure of any factual representation or assumption to be true, correct and complete in all material respects, could adversely affect the conclusions reached by counsel in its opinion. The opinions will not be binding on the IRS or the courts, and the IRS or the courts may not agree with the opinions.

The spin-off would become taxable to Alltel pursuant to Section 355(e) of the Code if 50% or more of the shares of either Alltel common stock or Spinco common stock (including common stock of Windstream, as a successor to Spinco) were acquired, directly or indirectly, as part of a plan or series of related transactions that included the spin-off. Because the Alltel stockholders will own more than 50% of the Windstream

Table of Contents

common stock following the merger, the merger, standing alone, will not cause the spin-off to be taxable to Alltel under Section 355(e). However, if the IRS were to determine that other acquisitions of Alltel common stock or Windstream common stock, either before or after the spin-off and the merger, were part of a plan or series of related transactions that included the spin-off, such determination could result in the recognition of gain by Alltel under Section 355(e). In any such case, the gain recognized by Alltel likely would include the entire fair market value of the stock of Spinco, and thus would be very substantial. In connection with the request for the IRS private letter rulings and the opinion of Alltel's counsel, Alltel has represented that the spin-off is not part of any such plan or series of related transactions.

In certain circumstances, under the merger agreement, Windstream would be required to indemnify Alltel against tax-related losses to Alltel that arise as a result of a disqualifying action taken by Windstream or its subsidiaries after the distribution. See Risk Factors Risks Relating to Windstream's Business After the Merger Windstream may be affected by significant restrictions after the merger and The Merger Agreement Tax Matters. If Alltel should recognize gain on the spin-off for reasons not related to a disqualifying action by Windstream, Alltel would not be entitled to be indemnified under the merger agreement. Even if Section 355(e) were to cause the spin-off to be taxable to Alltel, the spin-off would remain tax-free to Alltel's stockholders.

See Certain United States Federal Income Tax Consequences of the Spin-Off and the Merger beginning on page 76.

Failure to complete the merger could adversely impact the market price of Valor common stock as well as Valor's business and operating results.

If the merger is not completed for any reason, the price of Valor common stock may decline to the extent that the market price of Valor common stock reflects positive market assumptions that the spin-off and the merger will be completed and the related benefits will be realized. Valor may also be subject to additional risks if the merger is not completed, including:

depending on the reasons for termination of the merger agreement, the requirement that Valor pay Alltel a termination fee of \$35 million;

substantial costs related to the merger, such as legal, accounting, filing, financial advisory and financial printing fees, must be paid regardless of whether the merger is completed; and

potential disruption to the businesses of Valor and distraction of its workforce and management team.

Valor Stockholders will have a reduced ownership and voting interest after the merger and will exercise less influence over management.

After the merger's completion, Valor stockholders will own a significantly smaller percentage of Windstream than they currently own of Valor. Following completion of the merger, Valor's stockholders will own approximately 15% of Windstream on a fully-diluted basis. Consequently, Valor stockholders, as a group, will be able to exercise less influence over the management and policies of Windstream than they currently exercise over the management and policies of Valor.

Risks Relating to Windstream's Business After the Merger

Following completion of the merger, Windstream will face intense competition in its businesses from many sources that could reduce its market share or adversely affect its financial performance.

Substantial and increasing competition exists in the wireline communications industry. Some of Windstream's incumbent local exchange carrier (ILEC) operations have experienced, and will continue to experience, competition in their local service areas. Sources of competition to Windstream's local service business will include, but are not limited to, wireless communications providers, resellers of local exchange services, interexchange carriers, satellite transmission service providers, cable television companies, competitive access service providers, including, without limitation, those utilizing Unbundled Network Elements-

Table of Contents

Platform or UNE-P, and voice-over-Internet-protocol, or VoIP, and providers using other emerging technologies.

Competition could adversely impact Windstream in several ways, including (i) the loss of customers and market share, (ii) the possibility of customers reducing their usage of our services or shifting to less profitable services, (iii) our need to lower prices or increase marketing expenses to remain competitive and (iv) our inability to diversify by successfully offering new products or services.

Competition from wireless carriers, such as Alltel, is likely to continue to cause access line losses for Windstream which could adversely affect Windstream's operating results and financial performance.

Competition, mainly from wireless and broadband substitution, has caused in recent years a reduction in the number of Valor and Spinco's access lines and generally has caused pricing pressure in the industry. As wireless carriers, such as Alltel, continue to expand and improve their network coverage while lowering their prices, some customers choose to stop using traditional wireline phone service and instead rely solely on wireless service. We anticipate that this trend toward solely using wireless services will continue, particularly if wireless service rates continue to decline and the quality of wireless services improves. While Alltel's wireless services already compete with Windstream's communications services in many of Windstream's exchange areas, it is likely that competition from Alltel wireless will increase and be more directed at Windstream's communication services as a result of Alltel's increased wireless focus following the transactions. Like Alltel, many wireless carriers are substantially larger and will have greater financial resources and superior brand recognition than Windstream. In the future, it is expected that the number of access lines served by Windstream will continue to be adversely affected by wireless and broadband substitution and that industry-wide pricing pressure will continue. There can be no assurances that Windstream will be able to compete successfully with Alltel or other wireless carriers.

Windstream may not be able to compete successfully with cable operators which are subject to less stringent industry regulations.

Cable television companies deploying a cable modem service will represent Windstream's principal competitors for broadband Internet access. As of December 31, 2005 cable modem competition existed in exchanges representing 85 percent of Spinco's access lines and in exchanges representing 45 percent of Valor's access lines, representing 79 percent of the total combined access lines. Broadband offerings by cable television companies are mostly unregulated by state public service commissions who regulate Windstream and are not subject to tariffs, therefore providing such companies much greater pricing flexibility. In contrast, Windstream's broadband DSL offering is federally regulated and will be required to comply with federal tariffs.

Windstream will also face competition from cable television companies providing voice service offerings. Voice offerings of cable operators are offered mainly under Competitive Local Exchange Carrier certificates obtained in states where they offer services and therefore are subject to fewer service quality or service reporting requirements. In addition, the rates or prices of the voice service offerings of cable companies are not subject to regulation. In contrast, the voice service rates or prices of Windstream, in its capacity as an Incumbent Local Exchange Carrier, will be subject to regulation by various state public service commissions and, unlike cable operators, will also be subject to carrier of last resort obligations which will generally obligate Windstream to provide basic voice services to any person regardless of the profitability of such customer. There can be no assurances that Windstream will be able to compete successfully with cable companies in either the offering of broadband or voice services.

Windstream may not be able to compete successfully against companies offering integrated communication services.

Through mergers, joint ventures and various service expansion strategies, providers of competing communications services are increasingly able to provide integrated services in many of the markets Windstream will serve. If Windstream is unable to offer integrated service offerings, it may not be able to compete successfully against competitors that offer more integrated service packages.

Table of Contents

During the fourth quarter of 2005, Spinco began offering DISH Network satellite television service to Spinco's residential customers as part of a bundled service offering. Following the merger, Windstream is expected to continue the relationship with DISH Network and to offer additional bundled services such as DSL, Internet access, long distance and second lines with its basic voice service to create more appealing product offerings at more attractive prices to its customers. However, it may be difficult for Windstream to provide customers a single, clear invoice and integrated customer care for bundled services. There can be no assurance that Windstream will be able to successfully provide bundled service offerings to its customers or that Windstream will be able to compete successfully against competitors offering such services.

Following completion of the merger, Windstream could be harmed by rapid changes in technology.

The communications industry is experiencing significant technological changes, particularly in the areas of VoIP, data transmission and wireless communications. Rapid technological developments in cellular telephone, personal communications services, digital microwave, satellite, broadband radio services, local multipoint distribution services, meshed wireless fidelity, or WiFi, and other wireless technologies could result in the development of products or services that compete with or displace those offered by traditional local exchange carriers (LECs). For example, Windstream may be unable to retain existing customers who decide to replace their wireline telephone service with wireless telephone service. In addition, the development and deployment of cable and broadband technology will result in additional local telephone line losses for Windstream if customers choose VoIP for their local telephone service. Additional access line loss will also likely occur as customers shift from dial-up data services, which are often on a second phone line, to high-speed data services. Furthermore, the proliferation of replacement technologies impacting its wireline business could require Windstream to make significant additional capital investment in order to compete with other service providers that may enjoy network advantages that will enable them to provide services more efficiently or at a lower cost. Alternatively, Windstream may not be able to obtain timely access to new technology on satisfactory terms or incorporate new technology into its systems in a cost effective manner, or at all. If Windstream cannot develop new services and products to keep pace with technological advances, or if such services and products are not widely embraced by its customers, Windstream's results of operations could be adversely impacted.

Windstream will provide services to its customers over access lines, and if it loses access lines like Spinco and Valor historically have, its revenues, earnings and cash flow from operations could be adversely affected.

Windstream's business will generate revenue by delivering voice and data services over access lines. Spinco and Valor have each experienced net access line loss over the past few years, and during the year ended December 31, 2005, the number of access lines they served collectively declined by 4 percent due to a number of factors, including increased competition and wireless and broadband substitution. Following the merger, Windstream is expected to continue to experience net access line loss in its markets for an unforeseen period of time. Windstream's inability to retain access lines could adversely affect its revenues, earnings and cash flow from operations.

Windstream will be subject to various forms of regulation from the Federal Communications Commission and the regulatory commissions in the 16 states in which it will operate which limits Windstream's pricing flexibility for regulated voice and broadband DSL products, subjects Windstream to service quality, service reporting and other obligations, and exposes Windstream to the reduction of revenue from changes to the universal service fund or the intercarrier compensation system.

As a provider of wireline communication services, Valor and Spinco will have been granted operating authority by each of the 16 states in which they conduct ILEC and CLEC operations. Following completion of the merger, Windstream will be subject to various forms of regulation from the regulatory commissions in each of these 16 states as well as from the FCC. State regulatory commissions have primary jurisdiction over local and intrastate services including to some extent, the rates that Windstream will charge customers, including, without limitation, other telecommunications companies, and service quality standards. The FCC has primary jurisdiction over interstate services including the rates that Windstream will charge other telecommunications companies that will use its network and other issues related to interstate service. These

Table of Contents

regulations will restrict Windstream's ability to adjust rates to reflect market conditions and will impact its ability to compete and respond to changing industry conditions.

Future revenues, costs, and capital investment in Windstream's wireline business could be adversely affected by material changes to these regulations, including, but not limited to, changes in inter-carrier compensation, state and federal Universal Service Fund (USF) support, UNE and UNE-P pricing and requirements, and VoIP regulation. Federal and state communications laws may be amended in the future, and other laws may affect Windstream's business. In addition, certain laws and regulations applicable to Windstream and its competitors may be, and have been, challenged in the courts and could be changed at any time. We cannot predict future developments or changes to the regulatory environment, or the impact such developments or changes would have.

In addition, these regulations could create significant compliance costs for Windstream. Delays in obtaining certifications and regulatory approvals could cause it to incur substantial legal and administrative expenses, and conditions imposed in connection with such approvals could adversely affect the rates that Windstream is able to charge its customers. Windstream's business also may be impacted by legislation and regulation imposing new or greater obligations related to assisting law enforcement, bolstering homeland security, minimizing environmental impacts, or addressing other issues that impact Windstream's business. For example, existing provisions of the Communications Assistance for Law Enforcement Act require communications carriers to ensure that their equipment, facilities, and services are able to facilitate authorized electronic surveillance. Windstream's compliance costs will increase if future legislation, regulations or orders continue to increase its obligations.

In 2005, Spinco and Valor received 5.8% and 22.8% of their respective revenues from state and federal Universal Service Funds, and any adverse regulatory developments with respect to these funds could adversely affect Windstream's profitability following completion of the merger.

Spinco and Valor receive state and federal USF revenues to support the high cost of providing affordable telecommunications services in rural markets. Such support payments constituted 5.8% and 22.8% of Spinco and Valor's revenues, respectively, for the year ended December 31, 2005. A portion of such fees are based on relative cost structures, and we expect receipt of such fees to decline as we continue to reduce costs. Pending regulatory proceedings could, depending on the outcome, materially reduce our USF revenues.

Following completion of the merger, Windstream will be required to make contributions to state and federal USFs each year. Current state and federal regulations allow Windstream to recover these contributions by including a surcharge on its customers' bills. If state and/or federal regulations change, and Windstream becomes ineligible to receive support, such support is reduced, or Windstream becomes unable to recover the amounts it contributes to the state and federal USFs from its customers, its earnings and cash flow from operations would be directly and adversely affected.

You may not receive the level of dividends provided for in the dividend policy Windstream's Board of Directors will adopt upon the closing of the merger or any dividends at all.

The Board of Directors of Windstream will adopt a dividend policy, effective upon the closing of the merger, which reflects an intention to distribute a substantial portion of the cash generated by Windstream's business in excess of operating needs, interest and principal payments on Windstream's indebtedness, capital expenditures, taxes and future reserves, if any, as regular quarterly dividends to Windstream stockholders. See The Transactions Dividend Policy of Windstream. The Board of Directors of Windstream may, in its discretion, amend or repeal this dividend policy. Windstream's initial dividend policy is based upon Alltel and Valor's current assessment of Windstream's business and the environment in which it will operate, and that assessment could change based on competitive or technological developments (which could, for example, increase its need for capital expenditures) or new growth opportunities. In addition, future dividends with respect to shares of Windstream common stock, if any, will depend on, among other things, Windstream's cash flows, cash requirements, financial condition, contractual restrictions, provisions of applicable law and other factors that Windstream's Board of Directors may deem relevant. The Windstream Board of Directors may decrease the level of dividends provided for in the dividend policy or discontinue the payment of

Table of Contents

dividends entirely. Windstream's senior secured credit facility and notes are expected to contain significant restrictions on its ability to make dividend payments. We cannot assure you that Windstream will generate sufficient cash from continuing operations in the future, or have sufficient surplus or net profits, as the case may be, under Delaware law, to pay dividends on its common stock in accordance with the dividend policy adopted by the Windstream Board of Directors. The reduction or elimination of dividends may negatively affect the market price of Windstream's common stock.

Windstream's substantial indebtedness could adversely affect its operations and financial condition.

Although Windstream's leverage ratio of debt to operating income before depreciation and amortization will be substantially lower after the merger than Valor's current leverage ratio, Windstream will have substantial indebtedness following completion of the merger. As currently contemplated and as described in "Financing of Windstream" beginning on page 103, it is expected that Windstream will have approximately \$5.5 billion in consolidated debt after the closing of the transaction. This indebtedness could have important consequences to Windstream, such as:

limiting its operational flexibility due to the covenants contained in its debt agreements;

limiting its ability to invest operating cash flow in its business due to debt service requirements;

limiting its ability to compete with companies that are not as highly leveraged and that may be better positioned to withstand economic downturns;

increasing its vulnerability to economic downturns and changing market conditions; and

to the extent that Windstream's debt is subject to floating interest rates, increasing its vulnerability to fluctuations in market interest rates.

Windstream expects to generate sufficient funds to pay its expenses and to pay the principal and interest on its outstanding debt from its operations. Windstream's ability to meet its expenses and debt service obligations will depend on its future performance, which will be affected by financial, business, economic and other factors, including potential changes in customer preferences, the success of product and marketing innovation and pressure from competitors. If Windstream does not have enough money to meet its debt service obligations, it may be required to refinance all or part of its existing debt, sell assets or borrow more money. Windstream may not be able to, at any given time, refinance its debt, sell assets or borrow more money on terms acceptable to it.

Windstream will be subject to restrictive debt covenants, which may restrict its operational flexibility.

After the merger, Windstream's credit facilities and senior unsecured notes will contain covenants that restrict its ability with respect to the incurrence of additional indebtedness, liens, capital expenditures, loans and investments and will limit its ability to take certain action with respect to dividends and payments in respect of capital stock, and will limit its ability to enter into mergers, consolidations, acquisitions, asset dispositions and will place restrictions on other matters generally restricted in senior secured loan agreements. After the merger, the new credit facilities will also require the company to maintain specified financial ratios and satisfy financial condition tests. Windstream's ability to meet those financial ratios and tests may be affected by events beyond its control, and we cannot assure you that it will meet those ratios and tests. A breach of any of these covenants, ratios, tests or restrictions could result in an event of default under the new credit facilities and the notes, in which case, the lenders and/or holders of the notes could elect to declare all amounts outstanding to be immediately due and payable and the lenders could terminate its commitments to extend additional loans. If the lenders under the new credit facilities and/or the holders of the notes accelerate the payment of the indebtedness, we cannot assure you that Windstream's assets would be sufficient to repay in full the indebtedness and any other indebtedness that would become due as a result of any acceleration.

Table of Contents

Windstream will likely incur a significant one-time charge relating to the integration of the operations of Valor with Spinco that could materially and adversely affect the future results of operations of Windstream following the merger.

We are developing a plan to integrate the operations of Valor with Spinco after the merger. We anticipate that Windstream will incur a one-time charge to earnings of approximately \$30 million to \$50 million in connection with the transactions contemplated by the spin-off and the merger. We will not be able to quantify the exact amount of this charge or the time at which it will be incurred until after the merger is completed. The amount of the charge may be significantly different than the current estimate, and the charge may have a material and adverse effect on the results of operations of Windstream in the period in which it is recorded.

Immediately following the merger, Valor will change its name to Windstream Corporation and will launch a rebranding campaign that will require Windstream to incur substantial capital and other costs and may not receive a favorable reception from customers.

Prior to the merger of Valor and Spinco, our products and services were marketed using the Valor and Alltel brand names and logos. Immediately following the merger, Valor will change its name to Windstream Corporation and will discontinue use of the Alltel and Valor names after a brief transitional period. Windstream will incur substantial capital and other costs associated with launching and marketing its new brand. Windstream also may not be able to achieve or maintain comparable name recognition or status under its new brand, which could adversely affect its ability to attract and retain customers, resulting in reduced revenues.

Windstream may be affected by significant restrictions following the merger with respect to certain actions that could jeopardize the tax-free status of the spin-off or the merger.

Even if the spin-off otherwise qualifies as a spin-off under Section 355 of the Internal Revenue Code, the distribution of Valor common stock to the exchange agent for the benefit of Alltel stockholders in connection with the spin-off and the merger may not qualify as tax-free to Alltel under Section 355(e) of the Internal Revenue Code if 50% or more of the stock of Alltel or Spinco (including Windstream as a successor to Spinco) is acquired as part of a plan or series of related transactions that includes the spin-off.

The merger agreement restricts Windstream from taking certain actions that could cause the spin-off to be taxable to Alltel under Section 355(e) or otherwise jeopardize the tax-free status of the spin-off or the merger (which the merger agreement refers to as disqualifying actions), including:

generally, for two years after the spin-off, taking, or permitting any of its subsidiaries to take, an action that might be a disqualifying action without receiving the prior consent of Alltel;

for two years after the spin-off, entering into any agreement, understanding or arrangement or engaging in any substantial negotiations with respect to any transaction involving the acquisition of Windstream stock or the issuance of shares of Windstream's stock, or options to acquire or other rights in respect of such stock, in excess of a permitted basket of 71,130,989 shares (as adjusted for stock splits, stock dividends, recapitalizations, reclassifications and similar transactions), unless, generally, the shares are issued to qualifying Windstream employees or retirement plans, each in accordance with safe harbors under regulations issued by the IRS;

for two years after the spin-off, repurchasing Windstream's shares, except to the extent consistent with guidance issued by the IRS;

for two years after the spin-off, permitting certain wholly-owned subsidiaries that were wholly-owned subsidiaries of Spinco at the time of the spin-off to cease the active conduct of the Spinco business to the extent so conducted by those subsidiaries immediately prior to the spin-off; and

for two years after the spin-off, voluntarily dissolving, liquidating, merging or consolidating with any other person, unless (i) Windstream is the survivor of the merger or consolidation or (ii) prior to undertaking such action, Windstream receives the prior consent of Alltel.

Table of Contents

Nevertheless, Windstream will be permitted to take any of the actions described above in the event that the IRS has granted a favorable ruling to Alltel or Valor as to the effect of such action on the tax-free status of the transactions described in this document. To the extent that the tax-free status of the transactions is lost because of a disqualifying action taken by Windstream or any of its subsidiaries after the distribution date (except to the extent that Alltel has delivered a previous determination to Windstream permitting such action), Windstream generally will be required to indemnify, defend and hold harmless Alltel and its subsidiaries (or any successor to any of them) from and against any and all resulting tax-related losses incurred by Alltel.

Because of these restrictions, Windstream may be limited in the amount of stock that it can issue to make acquisitions or raise additional capital in the two years subsequent to the spin-off and merger. Also, Windstream's indemnity obligation to Alltel might discourage, delay or prevent a change of control during this two-year period that stockholders of Windstream may consider favorable. See The Merger Agreement on page 79; The Tax Sharing Agreement on page 99 and Certain United States Federal Income Tax Consequences of the Spin-Off and the Merger beginning on page 76.

Rapid and significant changes in technology could require Windstream to significantly increase capital investment or could result in reduced demand for its services.

New communication technologies may impact Windstream's wireline business. For example, Windstream may be unable to retain existing customers who decide to replace their wireline telephone service with wireless telephone service. Furthermore, the development and deployment of cable and DSL broadband technology will likely result in additional local telephone line losses for Windstream as its customers shift from dial-up data services to high-speed data services. In addition, VoIP technology, which operates on broadband technology, now provides Windstream's competitors with a low-cost alternative to access the home and provide local telephone voice services to Windstream's wireline customers. The proliferation of replacement technologies impacting its wireline business could require Windstream to make significant additional capital investment or could result in reduced demand for its services, both of which could adversely impact its financial performance and results of operations.

Disruption in Windstream's networks and infrastructure may cause it to lose customers and incur additional expenses.

To be successful, Windstream will need to continue to provide its customers with reliable service over its networks. Some of the risks to Windstream's networks and infrastructure include: physical damage to access lines, breaches of security, capacity limitations, power surges or outages, software defects and disruptions beyond Windstream's control, such as natural disasters and acts of terrorism.

From time to time in the ordinary course of business, Windstream will experience short disruptions in its service due to factors such as cable damage, inclement weather and service failures of its third party service providers. We cannot assure you that Windstream will not experience more significant disruptions in the future. Disruptions may cause interruptions in service or reduced capacity for customers, either of which could cause Windstream to lose customers and incur expenses, and thereby adversely affect Windstream's business, revenue and cash flow.

Weak economic conditions may decrease demand for Windstream's services.

Windstream will be sensitive to economic conditions and downturns in the economy. Downturns in the economies and vendor concentration in the markets Windstream serves could cause its existing customers to reduce their purchases of Windstream's basic and enhanced services and make it difficult for Windstream to obtain new customers.

Table of Contents**THE TRANSACTIONS**

On December 9, 2005, Alltel and Valor announced that they entered into a transaction providing for the spin-off of Alltel's wireline telecommunications business and the merger of such business with and into Valor. In order to effect the spin-off and merger, Alltel, Spincor and Valor entered into a number of agreements, including a Distribution Agreement between Alltel and Spincor and an Agreement and Plan of Merger, as amended, among Alltel, Spincor and Valor. These agreements, which are described in greater detail in this proxy statement/prospectus-information statement, provide for (i) the separation of Alltel's wireline telecommunications business and certain related business operations, (ii) the contribution of such assets to Spincor, (iii) the distribution of all of the shares of capital stock of Spincor to a third-party exchange agent to be held for the benefit of Alltel stockholders on a pro rata basis, (iv) the merger of Spincor with and into Valor, with Valor continuing as the surviving corporation and (v) the conversion of Spincor shares into shares of Valor common stock.

Transaction Timeline

Below is a step-by-step list illustrating the sequence of material events relating to the spin-off of Spincor and merger of Spincor and Valor. Each of these events are discussed in more detail throughout this proxy statement/prospectus-information statement. Each of following events will occur in the following order on the closing date of the merger except for Step 1, which will occur prior to the closing date, and Steps 9 and 10, which will occur promptly following the closing of the merger.

Step 1 Alltel will engage in a series of restructuring transactions to effect the transfer to Spincor's subsidiaries of all of the assets relating to Alltel's wireline telecommunications business and the transfer to Alltel of all assets not relating to such business.

Step 2 Alltel will contribute all of the capital stock of the Spincor subsidiaries to Spincor in exchange for (i) that number of shares of Spincor common stock to be distributed to a third party exchange agent for the benefit of Alltel shareholders in the spin-off, and (ii) the issuance of the exchange notes by Spincor to Alltel.

Step 3 Spincor will enter into a new senior secured credit facility providing commitments for borrowings in an amount up to \$4.2 billion.

Step 4 Spincor will pay a special dividend to Alltel in an amount not to exceed Alltel's tax basis in Spincor (which is estimated to equal approximately \$2.275 billion).

Step 5 Alltel will spin-off Spincor by distributing all of the shares of Spincor common stock to a third-party exchange agent to be held for the benefit of Alltel stockholders on a pro rata basis.

Step 6 Alltel exchanges the exchange notes received from Spincor for outstanding Alltel debt securities or otherwise transfers such exchange notes to Alltel's creditors representing approximately \$1.673 billion in debt reduction to Alltel.

Step 7 Spincor will merge with and into Valor and shares of Spincor common stock held by the exchange agent will be converted into that number of shares of Valor common stock that Alltel stockholders will be entitled to receive in the merger.

Step 8 The exchange agent will issue shares of Valor common stock to Alltel stockholders in accordance with the terms of the merger agreement.

Step 9 Valor will change its name to Windstream Corporation and its common stock will be quoted on the New York Stock Exchange under the symbol WIN .

Step 10 Windstream may issue up to an additional \$800 million in debt securities in a private placement pursuant to Rule 144A of the Securities Act of 1933, which will reduce dollar-for-dollar the commitments under its senior secured credit facility.

The Spin-Off

As part of the spin-off, Alltel will engage in a series of preliminary restructuring transactions to effect the transfer to Spincor's subsidiaries of all of the assets relating to Alltel's wireline telecommunications business and the transfer to Alltel of all assets not relating to such business. Following these preliminary restructuring

Table of Contents

transactions, and immediately prior to the effective time of the merger, Alltel will contribute all of the stock of the Spinco subsidiaries to Spinco (which we will refer to as the contribution) in exchange for:

the issuance to Alltel of Spinco common stock to be distributed in the spin-off (which we will refer to as the distribution),

the payment of a special dividend to Alltel in an amount not to exceed Alltel's tax basis in Spinco (which is estimated to equal approximately \$2.275 billion), which Alltel will use to repurchase stock pursuant to a special stock buyback program authorized by the Alltel Board of Directors in connection with the spin-off, to repay outstanding indebtedness, or both, within one year following the spin-off, and

the distribution by Spinco to Alltel of certain Spinco debt securities (which we will refer to as the exchange notes), which Alltel intends to exchange for outstanding Alltel debt securities or otherwise transfer to Alltel's creditors representing approximately \$1.673 billion in debt reduction to Alltel. Such exchange is not required by the terms of Alltel's outstanding debt securities.

As a result of the transactions, Alltel will receive approximately \$4.2 billion of combined cash proceeds and debt reduction through the special dividend, the distribution of the exchange notes and the assumption by Windstream on a consolidated basis of approximately \$267 million in existing Spinco debt securities. The \$4.2 billion amount of total cash proceeds and debt reduction realized by Alltel in the transaction was determined in the negotiations between Alltel and Valor regarding the overall valuation of the transaction. The approximate \$1.673 billion in debt reduction which Alltel will receive in connection with the exchange notes represents the difference between the total cash proceeds and debt reduction to Alltel (\$4.2 billion) and an amount equal to (x) the approximate amount of the special dividend (which is estimated to equal approximately \$2.275 billion) plus the approximate amount in existing Spinco debt securities to be assumed by Windstream (\$267 million) less (y) \$15 million in cash to be acquired by Spinco as part of the contribution.

Prior to the distribution, Spinco will consummate certain financing transactions pursuant to which it will incur approximately \$3.978 billion in indebtedness through (1) borrowings under a new senior secured credit agreement or the issuance of senior unsecured debt securities in an offering under Rule 144A, promulgated under the Securities Act of 1933, as amended and (2) the distribution of the exchange notes to Alltel. All proceeds of the financing will be used to pay the consideration to be received by Alltel for the contribution (through payment of the special dividend and distribution of the exchange notes) and to pay related fees and expenses. For a more complete discussion of the financing of Windstream see Financing of Windstream beginning on page 103.

After the contribution and immediately prior to the merger, Alltel will spin-off Spinco by distributing all of the shares of Spinco common stock to a third-party exchange agent to be held for the benefit of Alltel stockholders on a pro rata basis. Such shares will be immediately converted into that number of shares of Valor common stock Alltel stockholders will be entitled to receive in the merger. As a result, Alltel stockholders will never hold shares of Spinco common stock.

The Merger

In the merger, Spinco will merge with and into Valor in accordance with the terms of the merger agreement. Valor will survive the merger as a stand-alone company holding and conducting the combined business operations of Valor and Spinco. Immediately following the merger, Valor will change its name to Windstream Corporation and its common stock will be quoted on the New York Stock Exchange under the symbol WIN . For ease of reference, throughout this proxy statement/prospectus-information statement we will refer to Windstream Corporation, the new company formed by the merger of Valor and Spinco, as Windstream.

Alltel stockholders will be entitled to receive a number of shares of Valor common stock to be determined based on the calculation set forth below in the section titled Calculation of Merger Consideration. Holders of Alltel common stock will not be required to pay for the shares of Valor common stock they receive and will also retain all of their shares of Alltel common stock. Existing shares of Valor common stock will remain outstanding.

By virtue of the merger, Windstream will assume \$267.0 million in Alltel debt, of which \$81.0 million (plus related make-whole premiums) will be refinanced with borrowings from its new credit facilities and/or a

Table of Contents

portion of the net proceeds from the issuance of senior unsecured debt securities in an offering under Rule 144A. Windstream will also assume \$400.0 million in outstanding Valor notes, which will be equally and ratably secured with debt under the new credit facilities. Windstream will be required to offer to repurchase any of the outstanding Valor notes that may be tendered as a result of the merger, which constitutes a change of control under the indenture governing the Valor notes, and will borrow additional amounts under its new credit facilities to the extent necessary to fund the purchase of any Valor notes that are tendered. However, no Valor bonds are expected to be tendered as a result of the merger as their current trading price exceeds the put price. The trading price of the bonds was \$102.75 as of May 18, 2006 versus a put price of \$101. In addition, Windstream will refinance approximately \$781.0 million (plus related premiums) outstanding under Valor's existing credit facility with borrowings from its new credit facilities and/or a portion of the net proceeds from the issuance of senior unsecured debt securities in a Rule 144A offering. The amounts assumed by Windstream, together with the issuance of the debt securities, the borrowings under the new credit facilities and certain expenses related to the spin-off, merger and financing transactions, will result in Windstream having approximately \$5.5 billion in total debt immediately following completion of the merger.

Calculation of Merger Consideration

The merger agreement provides that Valor will issue in the aggregate to holders of Alltel common stock a number of Valor shares equal to (a) the number of shares of Valor common stock outstanding as of the effective time of the merger multiplied by (b) 5.667. For ease of reference, we will refer to the product of this equation as the aggregate merger consideration. Pursuant to the distribution agreement, Alltel and Spinco have elected to distribute one share of Spinco common stock to the exchange agent for the benefit of Alltel stockholders for each share of Alltel common stock outstanding on the record date for the spinoff, which Alltel will announce prior to the expected completion of the spin-off and the merger. Each share of Spinco common stock held by the exchange agent will be converted into the right to receive a number of Valor shares equal to the aggregate merger consideration, divided by the number of Alltel shares outstanding as of the record date for the spin-off. For ease of reference, we will refer to the product of this equation as the per share merger consideration.

Neither the aggregate merger consideration nor the per share merger consideration will be adjusted in the event of a decline in the value of the Alltel wireline telecommunications business that is being contributed to Spinco. If the value of this business declines after Valor stockholders approve the merger proposals, the market price of Windstream common stock following completion of the merger will be less than Valor stockholders anticipated when they voted to approve the merger proposals. In this event, there will also be no adjustment of the aggregate merger consideration, or the per share merger consideration.

It is presently estimated that Valor will issue in the aggregate approximately 403 million shares of common stock to Alltel stockholders pursuant to the merger, or approximately 1.04 shares of Valor common stock (subject to variation as a result of compensatory equity grants and other issuances) for each share of Alltel common stock outstanding as of the record date for the spin-off. Given that these amounts are calculated based on the number of shares of Alltel common stock outstanding as of the record date for the spin-off and Valor common stock outstanding at the effective time of the merger, the actual number of shares of Valor common stock to be issued will not be determined until the effective time, and there is no maximum or minimum number of shares that will be issued. We do not expect the number of shares of Valor common stock to change significantly as Valor currently has no plans to issue any shares of its common stock prior to the effective time of the merger other than pursuant to grants of equity incentive awards in the ordinary course of business. In any event, the calculation of the merger consideration set forth in the merger agreement is structured so that, regardless of the number of Valor shares and Spinco shares outstanding immediately prior to the effective time of the merger, when the merger is completed, Alltel stockholders will collectively own approximately 85%, and Valor's stockholders will collectively own approximately 15%, of the shares of common stock of Windstream on a fully diluted basis. Based on the closing price of Valor common stock on May 24, 2006 of \$12.66, as reported by the New York Stock Exchange, the approximate value Alltel stockholders will receive in the merger will equal \$13.17 per each share of Alltel common stock they own on the record date for the spin-off. However, any change in the market value of Valor common stock prior to the effective time of the merger would cause the estimated per share value Alltel stockholders will receive in the

Table of Contents

merger to also change. The following illustration sets forth the manner in which these estimated amounts were calculated:

For purposes of this calculation only it is assumed that the effective time of the merger occurred on April 28, 2006. On April 28, 2006 there were 389,107,443 shares of Alltel common stock outstanding and 71,096,887 fully-diluted shares of Valor common stock outstanding.

Step 1: Calculate the aggregate merger consideration. The merger agreement provides that Valor will issue to holders of Alltel common stock a number of Valor shares equal to the number of fully-diluted shares of Valor common stock outstanding as of the effective time of the merger multiplied by 5.667. As of April 28, 2006 there were 71,096,887 shares of Valor common stock outstanding. Therefore to determine the aggregate merger consideration we must multiply 71,096,887 by 5.667, which equals 402,906,058.63 shares.

Step 2: Determine number of Spinco shares outstanding. Pursuant to the distribution agreement Alltel and Spinco have determined that one share of Spinco common stock will be issued for each share of Alltel common stock outstanding on the record date for the spin-off. Assuming for purposes of this illustration only that 389,107,443 shares of Alltel common stock will be outstanding as of such date, there will be 389,107,443 shares of Spinco common stock outstanding as of the effective time of the merger.

Step 3: Calculate the per share merger consideration. The merger agreement provides that each share of Spinco common stock will be converted into the right to receive a number of Valor shares equal to the aggregate merger consideration, divided by the number of Spinco shares outstanding as the effective time of the merger. In this illustration the aggregate merger consideration equals 402,906,058.63 shares and the number of Spinco shares outstanding as of the effective time is 389,107,443. Hence, to determine the per share merger consideration we must divide 402,906,058.63 by 389,107,443, which equals approximately 1.04.

Based on the foregoing, it is currently estimated that Alltel stockholders will receive approximately 1.04 shares of Valor common stock in exchange for each Alltel share such stockholder owns on the record date for the spin-off and that Valor will be obligated to issue in the aggregate 402,906,058.63 shares of Valor common stock to Alltel stockholders. This issuance would result in Alltel stockholders collectively owning approximately 85%, and Valor's stockholders will collectively own approximately 15%, of the shares of common stock of Windstream on a fully diluted basis following completion of the merger.

The following table set forth the values used in the above calculation:

| Valor Common Stock Outstanding (fully-diluted) | Spinco Common Stock Outstanding | Aggregate Merger Consideration | Approximate per Share Merger Consideration |
|---|--|---|---|
| 71,096,887 | 389,107,443 | 402,906,058.63 | 1.04 |

The actual number of shares of Valor common stock outstanding as of the effective time of the merger will likely be different than the number of shares outstanding as of April 28, 2006 (as set forth in the above illustration) as a result of compensatory equity grants of Valor common stock, however Valor has no other plans to issue any shares of its common stock prior to the effective time of the merger. Any change in the number of shares outstanding will cause the aggregate merger consideration to be different from that set forth in the above illustration. In addition, the actual number of shares of Spinco common stock distributed to Alltel stockholders may be different than as set forth in the above illustration as a result of compensation equity grants and other issuances of Alltel common stock. Any change in the number of shares of Spinco common stock distributed will cause the per merger consideration to change. However, the calculation of the merger consideration is structured so that following completion of the merger Alltel

stockholders will collectively own approximately 85%, and Valor's stockholders will collectively own approximately 15%, of the shares of common stock of Windstream on a fully diluted basis notwithstanding such issuances.

We encourage you to carefully read the merger agreement and the distribution agreement which are attached as Annexes A-1, A-2 and B to this proxy statement/ prospectus-information statement and

Table of Contents

incorporated herein by reference, respectively, because they set forth the terms of the merger and the distribution of shares of Spincocommon stock to Alltel's common stockholders.

Background of the Merger

In pursuing strategies to enhance stockholder value, Valor regularly considered opportunities for strategic business combinations. Valor received and responded to requests for potential transaction proposals from third parties operating rural local exchange carriers and actively pursued possible business combination transactions with those third parties. In addition, from time to time, Valor's senior management engaged in informal discussions regarding possible business combination transactions with their counterparts at other telecommunications companies. Generally in these informal discussions, Valor and the other company would sign a non-disclosure agreement and then share financial information. However, after analysis of the financial information and other factors, and after discussions with the Valor Board of Directors, none of these informal discussions progressed beyond this initial analysis, and no formal negotiations on prices, terms and conditions occurred between Valor and the other parties.

Valor previously chose not to pursue other possible transactions for a variety of reasons such as: 1) the potential transaction was not viewed as accretive to Valor; 2) the potential transaction did not make operational sense for Valor because target company lacked sufficiently concentrated operations, or operated in regions distant from Valor's current operating territory; 3) concerns over the business fundamentals of the potential target company, including the level of competition it faced; and 4) failure to agree on prices, terms or conditions.

Valor's Board of Directors received regular updates from management concerning Valor's transaction opportunities, and the topic of potential strategic transactions was a recurring agenda item at most board meetings. At various times, and most recently in August 2005, senior management invited Valor's financial advisors (other than the financial advisors that rendered opinions to the Board of Directors of Valor in connection with the merger) to provide the Board of Directors with a comprehensive overview of the potential financial and stockholder benefits of various transactional opportunities between Valor and other rural local exchange carriers.

Alltel announced in January 2005 that it would undertake a thorough review of the strategic alternatives available to its wireline business. Since the inception of Valor's business operations in July 2000, Valor has had a relationship with Alltel, which provides Valor with outsourced operational support services, including billing and customer care systems. Following the Alltel announcement, and in the context of this long-standing business relationship, at various times members of Valor's Board of Directors and senior management contacted members of Alltel's senior management team to express interest in Alltel's strategic review process, and to inquire about potential opportunities for a business combination between Valor and Alltel's wireline business. Valor's financial advisors kept the company informed regarding the Alltel process and its potential implications to Valor.

As the Alltel review process progressed, Valor's financial advisors recommended that the timing was appropriate for Valor to initiate a preliminary meeting with representatives of Alltel to further discuss a possible transaction. In August 2005, Anthony J. de Nicola, Valor's Chairman of the Board, contacted Scott Ford, Alltel's President and Chief Executive Officer, to schedule a meeting between the companies. On September 13, 2005, Mr. de Nicola and John J. Mueller, Valor's Chief Executive Officer, met in Little Rock, Arkansas with Mr. Ford and Jeffrey H. Fox, Alltel's Group President - Shared Services. At that meeting, Mr. Mueller presented information prepared by Valor management on Valor's operations and the potential operational and financial benefits of a strategic transaction between Valor and Alltel. Mr. Ford stated that Alltel was considering initiating an active process to explore strategic options for repositioning its wireline assets and invited Valor to consider participating in such a process were it to occur. At a September 14, 2005 meeting of Valor's Board of Directors, Mr. Mueller advised the Board on the meeting between Alltel and Valor senior management, and described the process that Alltel planned to undertake and the potential for a strategic combination between Valor and the Alltel wireline business. The Board of Directors authorized Valor management to participate in a potential Alltel process.

Table of Contents

On September 22, 2005, Alltel announced its intention to begin a formal process to assess the market environment for a strategic repositioning of its wireline business. On that date, Valor and Alltel executed a non-disclosure agreement. Thereafter, on September 28, 2005, Valor received an information book, which provided detailed financial and operational information on Alltel's wireline business and other related operating units it proposed to separate. Under separate cover, Valor received correspondence from Alltel's financial advisors on September 30, 2005 inviting Valor to participate in a review of a potential merger with Alltel's wireline business units and related ancillary operations in conjunction with the separation of those operations from Alltel's wireless operations. The correspondence indicated that Alltel would consider merger proposals that met certain principal objectives, including ensuring tax-free treatment of the transaction, maximizing Alltel stockholder value, establishing an appropriate capital structure, implementing a sustainable dividend policy and consummating an acceptable transaction expeditiously with the least disruption to the wireline business and its employees, suppliers and customers. Alltel requested the submission of detailed proposals no later than October 17, 2005.

In preparation for Valor's participation in the Alltel process, on September 15, 2005 Mr. de Nicola contacted Wachovia Securities to explore the possibility of Wachovia Securities serving as Valor's financial advisor in connection with Valor's evaluation of the Alltel opportunity. On September 28, 2005, Wachovia Securities met with Valor's senior management and several members of its Board to discuss a proposed framework for developing a proposal for Alltel's wireline business. Wachovia Securities presented issues for Valor to consider in developing its proposal that included financial analyses of comparable public companies, projections of operating statistics and valuations for a stand-alone Alltel wireline entity and preliminary valuation analyses for a combination of Alltel and Valor under various scenarios. On October 15, 2005, Valor and Wachovia Securities executed an engagement letter and non-disclosure agreement.

On October 10, 2005, the Valor Board of Directors held a special meeting, the purpose of which was for management to update the Board on the Alltel process and the potential participation of Valor in that process. At this meeting, the Board adopted a resolution authorizing Valor to evaluate the Alltel materials and to prepare and submit a proposal to Alltel. The Board also approved and ratified Valor's engagement of legal, financial, tax and accounting experts to aid in the evaluation of the Alltel opportunity and to assist Valor in the preparation of its proposal. Finally, the Board approved the creation of the Special Finance Committee, the purpose of which was to assist management with respect to the Alltel opportunity and to provide information on the Alltel process to the remainder of the Board. The members of the Special Finance Committee were Mr. de Nicola, and Board members Norman Alpert and Edward Heffernan.

On October 14, 2005, the Special Finance Committee met with members of Valor senior management and Wachovia Securities representatives to discuss the status of the preparation of Valor's response to Alltel. Wachovia Securities met with the Special Finance Committee to address the various financial issues raised by Valor's proposed response to Alltel, including issues of valuation of Valor and benefits to stockholders of Alltel and Valor. Valor's management also updated the Special Finance Committee on its analysis of potential synergies that might result from a merger of Valor and Alltel's wireline business.

On October 17, 2005, Valor submitted to Alltel a preliminary proposal containing the terms of a potential merger between Valor and Alltel's wireline business and its related ancillary operations. The Valor offer contained the following key terms:

stock for stock merger;

82/18 relative post-merger ownership percentage between Alltel and Valor shareholders;

\$5.3 billion in debt (3 times leverage);

Alltel to receive \$4.1 billion in cash and debt relief;

post-merger dividend of \$1 per share;

65% dividend payout; and

flexibility on governance and management arrangements.

Alltel's information book contained certain terms that Alltel expected in the proposals, and the Valor offer reflected the fact that Alltel was soliciting competing bids from several entities.

Beginning on October 25 and continuing through October 26, 2005, representatives of Valor and Alltel and their respective financial advisors met in Little Rock, Arkansas. During these meetings, Valor and Alltel made management presentations, began preliminary due diligence relating to the other's businesses and explored the possible synergies of a potential merger of Valor and Alltel's wireline business. Thereafter, Valor and Alltel provided each other with access to documents for the purpose of continued due diligence.

On November 3, 2005 the Valor Board of Directors held a regularly scheduled meeting. During this meeting, Wachovia Securities provided the Board with an update on the Alltel process and updated the Board with respect to the terms and benefits of a potential merger.

On November 11, 2005, Alltel's financial advisors scheduled a meeting with Mr. de Nicola and Wachovia Securities' representatives, and provided them with a preliminary term sheet in response to Valor's October 17, 2005 submission. The Alltel term sheet outlined the material terms upon which Alltel would be willing to merge the Alltel wireline business with Valor including:

spin-off of the Alltel wireline business and its merger with Valor on a tax-free basis to Alltel, Valor and their respective shareholders;

Alltel to receive a cash dividend up to its tax basis in Spinco which was estimated at such time to equal approximately \$2.4 billion;

Alltel to exchange approximately \$1.5 billion of its parent-level debt for Spinco debt securities, and the merged company assumes \$0.3 billion of Spinco debt;

86/14 post-merger ownership percentage between Alltel and Valor shareholders;

post-merger dividend of \$1.00 per Alltel equivalent share;

Valor designates one Board seat;

Alltel designates the post-merger management team; and

Valor's largest shareholders (Welsh, Carson, Anderson & Stowe, Vestar Capital Partners and Citicorp Venture Capital) agree to an irrevocable voting agreement to support the transaction and agree to a six month lock-up agreement.

At various times following the November 11, 2005 meeting, Mr. Ford and Mr. de Nicola discussed the differences between each company's proposal. In these discussions, and in other communications between the parties' financial advisors during the period of November 11-14, 2005, certain fundamental economic terms were negotiated, including, among other terms, the percentage of ownership that Valor and Alltel stockholders would have in the surviving corporation following the merger, the dividend pay-out ratio, the appropriate debt capitalization of the company, the amount of the annual dividend, and the number of Windstream board of director positions that would be allocated to pre-merger Valor directors in Windstream.

On November 16, 2005, the Special Finance Committee of the Valor Board of Directors met with members of Valor's senior management and representatives of Wachovia Securities in order to review the current status of the potential Alltel transaction. Representatives of Wachovia Securities highlighted the differences between the terms proposed by Valor and those proposed by Alltel. Mr. de Nicola then updated the Committee on the status of the discussions on merger terms between him and Mr. Ford, as well as other discussions between the parties' financial advisors where they attempted to resolve differences between the parties' economic terms. The Committee discussed with Wachovia Securities the terms on which Valor and Alltel could potentially reach agreement, and discussed

whether those terms would be fair to Valor's stockholders. The Committee also considered, in light of current and expected future market conditions and risks, whether other potential transactional opportunities would produce superior benefits to Valor's stockholders. After substantial discussion, the Committee members recommended that management attempt to complete a merger agreement with Alltel. Wachovia Securities preliminarily advised the Committee that it

believed, subject to further review and analysis, it would be able to render an opinion to Valor's Board of Directors that a merger on the discussed terms was fair from a financial point of view to Valor and its stockholders. The Committee also determined that it was a best practice of sound corporate governance for the Committee to recommend that the Board of Directors engage another advisor to provide the Board with a second fairness opinion.

Following the meeting of the Valor Special Finance Committee, Mr. de Nicola communicated Valor's merger terms to Mr. Ford. Valor accepted the terms proposed by Alltel on November 11, 2005, with the following exceptions:

85/15 post-merger ownership percentage between Alltel and Valor shareholders;

Post-merger dividend of \$1 per share;

Only Welsh, Carson, Anderson & Stowe and Vestar Capital Partners agree to a voting agreement to support the transaction, and Welsh Carson agrees to a three month lock-up, subject to an agreement for the orderly sale of their stock following expiration of the lock-up; and,

Spinco to pay the transaction fees of Alltel and Spinco, and Valor to assume responsibility for payment of its transaction fees.

Thereafter, Mr. Ford communicated to Mr. de Nicola Alltel's preliminary acceptance of Valor's proposed modifications to the merger terms presented on November 11, 2005, subject to completion of definitive agreements and final approval by Alltel's board of directors.

On November 18, 2005, the Valor Board of Directors held a special meeting to discuss the potential Alltel transaction. Wachovia Securities provided the Board with an overview of the proposed transaction, including the principal economic terms upon which Valor and Alltel had reached a preliminary agreement. Wachovia Securities made a presentation to the Board showing the estimated valuation and the potential stockholder value of the proposed merger. Kirkland & Ellis LLP, Valor's legal advisor, discussed the Board's obligations under Delaware law. Thereafter, the Board adopted a resolution authorizing management to take all necessary and appropriate steps required to complete a merger agreement with Alltel, including the completion of due diligence and the retention of any necessary advisors.

On November 18, 2005, Alltel's financial advisors provided Valor's management and financial advisors with the draft of a merger agreement and distribution agreement and on December 3, 2005, with a draft of a tax sharing agreement. From November 21 through December 8, 2005, management, legal and financial representatives for Valor and Alltel met numerous times, engaged in numerous conference calls and exchanged drafts to negotiate the merger agreement, various other ancillary agreements and other legal, tax and regulatory issues. In addition, Valor finalized its due diligence with respect to the Alltel wireline business, including submission of follow-up due diligence requests and meeting with members of the Alltel management team with respect to various legal, business and financial issues.

On November 29, 2005, members of the Valor and Alltel management teams met in Dallas, Texas. The purpose of the meeting was to allow various members of Alltel's management team to meet with their Valor counterparts to discuss specific issues related to discrete operational and administrative aspects of Valor's business. On November 30 through December 1, 2005, Valor and Alltel continued their discussions in Little Rock, Arkansas. Members of Valor's management team, and its legal, financial and accounting advisors, continued Valor's legal, business, tax and accounting due diligence. In addition, Alltel management provided Valor management and its legal and financial advisors with an overview of prospective, post-merger inter-company agreements between Alltel's wireline and wireless businesses, as well as discussing other potential operational details regarding a combined Valor-Alltel wireline entity.

On November 30 and December 2, 2005, the Special Finance Committee of the Valor Board met. During both meetings, counsel from Kirkland & Ellis LLP reviewed the status of the negotiations on the

merger agreement and ancillary agreements, and addressed material open issues in those negotiations, including:

Certainty of closing;

Dividend and cash issues;

Termination fees;

Tax indemnification issues;

Spinco employee benefits issues; and,

Valor participation in decisions regarding the separation of the Alltel wireline business.

Also, members of Valor management and the company's various advisors updated the Committee on the status of Valor's business, legal, tax and accounting due diligence on Alltel.

Valor engaged Bear, Stearns & Co. Inc. on December 5, 2005 to provide an independent opinion on the fairness of the potential merger. Bear Stearns met with members of Alltel's management, and it conducted an independent review of financial information regarding Valor and the Alltel wireline business and the merger documentation.

On December 6, 2005, the Valor Board met again to review the possible merger with the Alltel wireline business. Members of Valor's senior management team, and its legal, tax, accounting and financial advisors, made preliminary presentations to the Board regarding the results of their business, legal, tax and accounting due diligence of the Alltel wireline business, valuation analyses, the strategic rationale for the potential merger and the terms and conditions of the merger, including a detailed review of significant open and resolved legal issues. Following the presentation of this information, the Board authorized Valor management to continue to pursue the proposed merger.

Valor and Alltel completed their negotiations of the merger agreement and ancillary documents on December 8, 2005.

The material open issues between the parties were ultimately resolved in the following fashion:

Certainty of closing:

Valor proposed that it have the right to change its recommendation accepting the merger without receiving a superior proposal. Alltel agreed subject to Valor's payment of a \$35 million break-up fee under certain circumstances;

Valor proposed that it have the right to terminate the merger agreement to accept a superior proposal. Alltel agreed subject to Valor's agreement to pay a \$35 million break-up fee;

Valor proposed a term that would extend the termination date on the merger agreement in order for the parties to obtain financing or required approvals. Valor later withdrew this proposal;

Dividend and cash issues:

Valor proposed that it pay its dividend, including a partial quarter dividend, if applicable, through closing, and Alltel agreed;

Valor proposed that Alltel pay its transaction fees and expenses. Alltel disagreed, and the parties agreed that Spinco would bear all transaction fees and expenses of both Alltel and Spinco, subject to a cap of \$115 million;

Termination fees:

After significant negotiation on the amount of and circumstances under which a break-up fee would be payable, Valor agreed to pay a \$35 million break-up fee if: 1) it terminates the merger agreement to accept a superior offer; 2) it changes its recommendation on this merger or recommends another acquisition proposal; or 3) if another party makes an acquisition proposal and either party terminates

Table of Contents

due to a failure of the shareholder vote or failure to complete the merger within one year, and Valor completes an acquisition or signs a definitive agreement within 12 months thereafter;

Alltel agreed to pay a \$35 million break-up fee if: 1) either party terminates the agreement because of failure to complete the merger within one year and the financing condition is not met; or 2) Valor terminates due to a breach by Alltel that results in the financing condition not being met;

Alltel agreed to pay a \$20 million break-up fee if: 1) either party terminates the agreement because of failure to complete the merger within one year and the tax ruling is not met; or 2) Valor terminates due to a breach by Alltel that results in the tax ruling not being obtained;

Tax issues:

Gross-up of indemnity payments for taxes due- Valor took the position that no gross-up should occur. The parties ultimately agreed to the gross-up for payments other than those related to universal service fund issues;

Indemnity for pre-closing universal service fund related payments- Valor proposed no indemnification. The parties ultimately agreed to require indemnity, but net of any tax refunds and benefits, and not subject to gross-up;

Indemnity for all other pre-closing income tax liabilities Valor proposed no indemnity and Alltel agreed;

Indemnity for pre-closing other tax liabilities- Valor proposed no indemnification for such payments. The parties ultimately agreed to require indemnification, but Valor will control the decision to contest such taxing decisions and will receive the benefit of any favorable ruling in such proceedings;

Stock issuance by surviving company in the first two years after closing- Valor proposed a basket with no requirement of Alltel to consent and no indemnity attached. The parties agreed to a 10% basket, without consent or indemnity attached;

Spinco employee benefits issues:

Valor proposed specific identification of all active and retired employees allocated to Spinco. Alltel agreed, subject to the ability of the Steering Committee to evaluate additions or changes, and to Valor consent;

In negotiations on pensions and benefits plans, Valor was able to confirm that the plans were fully funded and that Spinco's financial statements and projections incorporated the liabilities associated with the Spinco employees. Also, Valor confirmed the intention of Spinco to replicate existing Alltel plans, and Valor ensured the protection of its employees under such plans;

New Spinco equity grants will dilute Valor and Spinco shareholders in a proportionate manner;

Shares tendered to Valor by its employees to satisfy tax obligations on stock grants vesting on January 1, 2006 were excluded from the calculation of fully diluted shares for purposes of calculating the merger exchange ratio;

Valor's proposed retention and severance plan was accepted by Alltel without modifications; and, Valor participation in decisions regarding the separation of the Alltel wireline business:

Valor proposed that a Steering Committee be formed, and that the Steering Committee have access to and involvement in all material aspects of the separation of assets, subject to Valor consent if any decision individually or in the aggregate would have a material and adverse impact on Valor. Alltel accepted this proposal.

Later that day, the Valor Board of Directors met to review the final terms and conditions of the merger agreement and received final reports regarding the business, legal, tax and accounting due diligence from Valor's senior management team, and its legal, tax, accounting and financial advisors. The Board discussed

Table of Contents

other potential strategic alternatives that Valor had reviewed prior to exploring the Alltel opportunity and that might be available to Valor, including remaining as a separate independent entity and considered such potential alternatives and the proposed Alltel transaction. At the meeting, Wachovia Securities made a presentation to the Board regarding the estimated valuation and potential stockholder value of the proposed merger. At this meeting, the Board also received oral and written opinions of Wachovia Securities and Bear Stearns, that as of December 8, 2005, and based upon and subject to the factors, qualifications, judgments and assumptions set forth in the written opinions, the aggregate consideration to be issued by Valor in the merger was fair from a financial point of view to Valor and its stockholders. Following further discussion, the Valor Board unanimously determined that the merger was in the best interests of Valor and its stockholders, approved the merger and the merger agreement, the distribution agreement, the tax sharing agreement and related ancillary agreements, authorized the filing of all necessary regulatory applications and consents on behalf of Valor, authorized the preparation and filing of a Registration Statement on Form S-4, and directed Valor's management to take all other actions necessary to effectuate the completion of the merger. It also approved the issuance of shares of Valor's common stock in connection with the merger. In addition, Valor's Compensation Committee approved certain retention and severance benefits that are being provided to retain employees in connection with the merger.

The parties signed the merger agreement on December 8, 2005. Before the opening of trading on the New York Stock Exchange on December 9, 2005, the parties issued press releases announcing the execution of the merger agreement.

Valor's Reasons for the Merger

The following discussion of the information and factors discussed by the Valor Board of Directors is not meant to be exhaustive but is believed to include all material factors considered by it in reaching its determination that the Valor-Spinco merger is fair to and in the best interests of Valor and its stockholders. The Board of Directors did not quantify or attach any particular weight to the various factors that it considered in reaching its determination that the terms of the merger are fair to, and in the best interests of, Valor and Valor stockholders. Rather, the Board of Directors viewed its position as being based on the totality of the information presented to and considered by it. As a result of the consideration of the foregoing and other relevant considerations, the Board of Directors determined that the merger, including the terms of the merger agreement, distribution agreement and the other agreements relating to the merger, are fair to, and in the best interests of, Valor and its stockholders.

In reaching its recommendation, the Board considered the future prospects of Valor on a standalone basis, and whether the proposed merger would provide potentially greater benefit to Valor and its shareholders. It analyzed the current and historical financial condition and results of operations of Valor and other rural wireline telecommunications carriers, and specifically the fact that Valor, consistent with the rest of the wireline telecommunications industry, had experienced declining access lines and flat to declining total revenues, and that these trends did not appear likely to reverse in the future. The Board also considered the increased competitive activity experienced by Valor from cable television providers, wireless carriers and other competitive local exchange carriers, and the fact this competitive activity may increase in the future with the advent of new technologies and applications, such as Voice over Internet Protocol (VoIP). In analyzing the benefits of the proposed merger, the Board considered the prospects and strategic objectives of Valor, namely to: 1) increase penetration of our DSL, Long Distance and Bundles, leading to higher revenue per access line; 2) control expenses; 3) effectively deploy capital; and 4) pursue strategic transactions.

Given the Valor-specific and industry risks identified above, and trends in the industry in which Valor operates, the Board determined Valor would have a better opportunity to achieve its objectives through a transaction with Alltel given, among other factors: the increased scale and scope of the combined company, their complementary rural markets, their common billing and customer care platform and the better diversification of customers, revenues and earnings across a broader geographic area that would result from the merger. The Board believed that because of its size, the combined company would have greater viability in the investment community and that the size and financial metrics of the new company would open up opportunities with investment funds that today do not consider Valor on a standalone basis. Also, the Board

Table of Contents

considered where the combined company's stock would trade, and it was the opinion of the Board and its financial advisors that the combined company would trade at a much lower yield than Valor. Moreover, the merger positions the combined company as an industry consolidator.

The Board of Directors also considered the strategic options available to Valor, including other potential transactional opportunities, and the risks and uncertainties associated with such alternatives. The Board felt that it had considered numerous potential business combinations with companies comparable in size to or smaller than Valor, and that none of those potential combinations made financial sense for Valor. Moreover, it did not believe that there were actionable and available transactions that would produce similar or better results for Valor shareholders in the same timeframe as the proposed merger. Also, the Board discussed whether an auction of Valor would produce a better outcome for shareholders, and it was the consensus of the Board that an auction would not produce a better offer. The Board took comfort in the fact that it could terminate the merger agreement and pay a termination fee should Valor receive an offer that its board of directors determines in good faith is superior to Alltel's while the merger was pending.

In the course of their discussions, both Valor and Alltel recognized that there were substantial potential strategic and financial benefits of the proposed merger. The completed merger should provide Valor stockholders with a modest premium over current share price, and Valor's current stockholders may have an opportunity to improve their long-term returns by creating a leading rural-focused wireline company and one of the largest local telecommunications carriers in the United States.

The footprint of Alltel's rural markets and the states in which it operates are highly complementary to Valor's rural market footprint, and Alltel will bring high quality rural assets to the combined company. With over 3.4 million access lines in sixteen states as of December 31, 2005 Windstream will have significantly greater size and scale than what Valor enjoys today and, as illustrated in the following table, will be one of the largest local telecommunications carriers in the United States and the largest local telecommunications carrier primarily focused on rural markets:

| Company | Total Switched Access Lines 12/31/05(1) | Percent of Total Access Lines(2) |
|-------------------------------|---|--|

With respect to rural markets, Windstream will be the largest carrier that satisfies the designation of a 2% carrier under federal law, which designation exempts rural carriers from certain interconnection requirements. As illustrated by the foregoing table, none of the local exchange carriers who are larger than Windstream satisfy this statutory designation of a rural carrier.

Since the inception of Valor's business operations in July 2000, Valor has had a relationship with Alltel, which provides Valor with outsourced operational support services, including a billing and customer care platform. The fact that the companies share a common billing and customer care platform may ease the business integration of Valor and Spinco, and may reduce the costs and risks associated with the integration.

Because of increased size and economies of scale, Windstream should have greater financial flexibility to develop and deploy products, expand the capacity of its network, respond to competitive pressures and implement future transactions. Windstream's increased size, economies of scale and total capabilities are also expected to enable it to improve the cost structure for its products and services, enhancing its ability to offer services and compete profitably. The post-merger company will have better diversification of customers, revenues and earnings across a broader geographic area. It also should have the ability to better leverage existing infrastructure, creating cost savings opportunities, financial flexibility and potential for further value creation.

The Board considered issues such as the amount of debt that the merged company would assume and the agreements between Spinco and Alltel. The pro forma capital structure of Windstream results in lower debt leverage and lower cost of capital, which should reduce the overall financial risk of the combined company. Also, the combined company will have a lower dividend payout ratio than Valor. With respect to the agreements between Alltel and Spinco, the Valor Board examined those arrangements in total, and determined that the overall financial impact of those arrangements was not disadvantageous to Spinco.

Valor believes that Windstream will benefit substantially from capital investment, cost and revenue synergies. Valor and Alltel estimate the annual value of these synergies at approximately \$40.0 million. Approximately \$30 million of these synergies are the result of reduced employee and related costs associated with eliminating duplicative functions and consolidating back-office functions, which will result in reduced combined sales and marketing costs and general and administrative costs. The remaining \$10 million of expected synergies will result from anticipated volume discounts and the benefits of increased purchasing capacity expected to result from Windstream's increased size and scale and a reduction in the costs associated with office space, real estate and facilities as duplicative facilities are consolidated.

The foregoing estimates were developed by the senior managements of Valor and Alltel during their due diligence reviews and were based primarily on anticipated employee reductions and the associated reduction in operating costs, including overhead and facilities costs. The expected terms for realizing potential sources of synergies and cost savings vary because of the variety of sources within each category, such that some are estimated to affect results of operations in the short term and others over the long term.

The actual synergistic benefits from the merger and costs of integration could be different from the foregoing estimates, and these differences could be material. Accordingly, there can be no assurance that any of the potential benefits described above or included in the factors considered by the Valor Board of Directors will be realized. See Risk Factors - Risks Relating to the Spin-Off and the Merger.

Valor Board of Directors Recommendation to Valor Stockholders

The Valor Communications Group, Inc. Board of Directors has unanimously approved the merger agreement and unanimously recommends that the Valor stockholders vote FOR the proposals to adopt the merger agreement, approve the increase of the authorized number of shares of Valor common stock pursuant to the merger, and to approve the issuance of Valor common stock pursuant to the merger, each of which is necessary to effect the merger, as well as FOR the adoption of the 2006 Equity Incentive Plan (which is conditioned on stockholder approval of the merger proposals).

In connection with its review, Wachovia Securities assumed and relied upon the accuracy and completeness of the foregoing financial and other information and did not and does not assume any responsibility for, nor did it conduct, any independent verification of such information. Wachovia Securities relied upon the assurances of the management of Valor and Alltel that they were not aware of any facts or circumstances that would make such information about Valor or Alltel inaccurate or misleading.

Wachovia Securities has been provided with prospective financial information, including post-merger synergies, for Valor and Spinco by each of their managements, respectively. Wachovia Securities was also provided with prospective financial information of Spinco by Alltel, including cost allocations by Alltel to Spinco. The projected financial information provided by Valor and the projected financial information provided by Alltel to Wachovia Securities is attached to this proxy statement/prospectus information statement as Annex I-1 and Annex I-2, respectively. Wachovia Securities discussed such prospective financial information, as well as the assumptions upon which they are based, with the management of each of Valor, Alltel and Spinco. Wachovia Securities assumed that the forecasts, estimates, judgments, and all assumptions expressed by the management of each of Valor, Alltel and Spinco in such projections have been reasonably formulated and that they were the best available forecasts, estimates, judgments, allocations and assumptions of each of the respective managements of Valor, Alltel and Spinco regarding such projections. Wachovia Securities also assumed that the cost allocations by Alltel to Spinco provided to Wachovia Securities by Alltel reflect the true standalone costs that Spinco will experience following the merger. Wachovia Securities discussed certain estimates for Valor and for Spinco, and the reasonableness of the assumptions upon which they are based, with the management of Valor. The Board of Directors of Valor did not place any limitations on Wachovia Securities in conducting its analysis of the merger in connection with rendering its fairness opinion. In rendering its opinion, Wachovia Securities assumed that the merger will be consummated on the terms described in the merger agreement and the agreements contemplated thereby without waiver of any material terms or conditions, and that each party to the merger agreement and the agreements contemplated thereby will perform all of the covenants and agreements required to be performed by it thereunder without any consents or waivers of the other parties thereto. Wachovia Securities also assumed that in the course of obtaining any necessary legal, regulatory or third party consents and/or approvals, no restrictions will be imposed or delay will be suffered that will have a material adverse effect on Valor, or on the merger or on other actions contemplated by the merger agreement in any way meaningful to Wachovia Securities' analysis. Wachovia Securities further assumed that the merger agreement and the agreements contemplated thereby will not differ in any material respect from the drafts furnished to and reviewed by Wachovia Securities. In addition, Wachovia Securities has assumed that the merger and the distribution to Spinco will be tax-free, for United States federal income tax purposes.

The summary set forth below does not purport to be a complete description of the analyses performed by Wachovia Securities, but describes, in summary form, the material elements of the presentation that Wachovia Securities made to Valor's Board of Directors on December 8, 2005, in connection with Wachovia Securities' fairness opinion. The preparation of a fairness opinion is a complex process and is not necessarily susceptible to a partial analysis or summary description. In arriving at its opinion, Wachovia Securities considered the results of all of its analyses as a whole and did not attribute any particular weight to any analysis or factor considered by it. The analyses described below must be considered as a whole, and considering portions of these analyses, without considering all of them, would create an incomplete view of the process underlying Wachovia Securities' analyses and opinion. Wachovia Securities reached a single conclusion as to fairness based on its experience and professional judgment and its analysis as a whole. This

fairness conclusion was communicated to the Valor Board of Directors. Wachovia Securities does not, as part of its process, isolate various analyses and reach separate conclusions with respect to their relative significance and relevance.

Wachovia Securities chose to perform the financial analyses that it performed in connection with the transaction based on its experience and professional judgment. These analyses were performed solely as a part of Wachovia Securities' analysis of the fairness, from a financial point of view, to Valor and its stockholders, as of the date of the opinion, of the aggregate merger consideration paid by Valor pursuant to the terms of the merger agreement and were conducted in connection with the delivery by Wachovia Securities of its fairness opinion to the Valor Board of Directors.

Valuation of Valor on a Stand-Alone Basis

In conducting its analysis, Wachovia Securities used five methodologies to determine the valuation of Valor as a stand-alone entity. The five methodologies used to determine the value of Valor on a stand-alone basis included: historic stock trading analysis; comparable companies analysis; selected transactions analysis; premiums paid analysis and discounted cash flow and were developed and applied collectively. Consequently, each individual methodology was not given a specific weight, nor can it be viewed individually. Wachovia Securities used these analyses to determine the impact of various operating metrics on the implied equity value of Valor on a stand-alone basis. Each of these analyses yielded a range of implied equity values, and therefore, such implied equity value ranges developed from these analyses must be viewed collectively and not individually.

Historical Stock Trading Analysis. Wachovia Securities reviewed publicly available historical trading prices for shares of Valor common stock for the period beginning on the date of Valor's initial public offering (February 9, 2005) and ending on December 6, 2005. The purpose of this analysis was to understand the market valuation of Valor since its initial public offering. The trading range of shares of Valor common stock in this period was \$11.28 - \$16.17.

Comparable Companies Analysis. Wachovia Securities compared financial, operating and stock market data of Valor to the following publicly traded companies that participate predominantly, or in part, in the regional telecommunications industry: CenturyTel, Cincinnati Bell, Commonwealth Telephone, Iowa Telecommunications, Citizens Communications, Fairpoint Communications, and Consolidated Communications. The multiples and ratios of each of the selected publicly traded companies were based upon the most recent publicly available information. Specifically, Wachovia Securities focused on three multiples, including enterprise value (defined as a company's market capitalization plus debt, less cash) to the estimated earnings before interest, taxes, depreciation and amortization (EBITDA); equity value (defined as a company's market capitalization) to the estimated free cash flow (defined as net income plus depreciation and amortization, plus non-cash charges, minus capital expenditures), and enterprise value per access line. After eliminating the high and low data points across each of the three trading multiples for the group of comparable companies, Wachovia Securities applied the reference multiple range to Valor's operating metrics of 2005(E) EBITDA, free cash flow and access lines to determine Valor's implied equity value per share.

The following table presents the most relevant analyses of the selected publicly traded companies:

| | Low | High | Median | Mean | Reference Multiple Range | Implied Valor Equity Value per Share |
|---|------|------|--------|------|--------------------------------|---|
| Enterprise Value to 2005(E) EBITDA (earnings before interest, taxes, depreciation and amortization) | 5.5x | 8.3x | 6.9x | 6.9x | 6.1x - 7.8x | \$7.64 - \$14.29 |
| | 6.3x | 9.5x | 8.0x | 8.0x | 7.0 - 9.3x | \$12.75 - \$16.97 |

Equity Value to 2005(E)

Free Cash Flow

Enterprise Value per

| | | | | | | |
|-------------|-----------|-----------|-----------|-----------|-----------------|------------------|
| Access Line | \$3,158.4 | \$4,509.1 | \$3,675.0 | \$3,678.8 | \$3,175 - 4,153 | \$7.32 - \$14.46 |
|-------------|-----------|-----------|-----------|-----------|-----------------|------------------|

With regard to the comparable companies analysis summarized above, Wachovia Securities selected comparable publicly traded companies on the basis of various factors, including the size of the public company and the similarity of the lines of business. No public company used as a comparison, however, is identical to

Table of Contents

Valor. Accordingly, these analyses are not purely mathematical, but also involve complex considerations and judgments concerning the differences in financial and operating characteristics of the comparable companies and other factors. These factors could affect the public trading value of the comparable companies to which Valor is being compared.

Selected Transactions Analysis. Using publicly available information and analysis prepared by Wachovia Securities, Wachovia Securities examined selected transactions involving companies with similar types of operations as Valor announced from December 1999 to November 2004. The selected transactions were:

| Target | Acquiror |
|-------------------------------------|-----------------------------|
| NTELOS | Quadrangle/CVC |
| Verizon Communications Hawaii | The Carlyle Group |
| TXU Communications | Consolidated Communications |
| Illinois Consolidated Telephone Co. | Homebase Acquisition Corp. |
| Conestoga Enterprises | D&E Communications |
| Verizon KY | ALLTEL |
| Verizon AL, MO | CenturyTel |
| Kerrville Communications | VALOR Telecom |
| Global Crossing ILEC | Citizens Communications |
| GTE Corp. (Illinois) | Citizens Communications |

In performing this analysis, Wachovia Securities determined the multiples of enterprise value (defined as equity value plus net debt) to the last twelve months (LTM) of EBITDA and enterprise value per access line for each of the selected transactions. From this data, Wachovia Securities developed a reference multiple range, which it applied to each of Valor's LTM EBITDA and access lines to calculate an implied equity value per share. The following table presents the most relevant analyses of these transactions:

| | Low | High | Median | Reference Multiple Range | Implied Equity Value per Share |
|---|------------|-------------|---------------|-------------------------------------|---|
| Enterprise Value to LTM (last twelve months) EBITDA | 6.0x | 9.4x | 7.4x | 6.5x - 7.5x | \$9.15 - \$13.01 |
| Enterprise Value per Access Line | \$2,334 | \$4,370 | \$3,137 | \$3,250 - \$4,000 | \$7.86 - \$13.34 |

Because the market conditions, rationale and circumstances surrounding each of the transactions analyzed were specific to each transaction and because of the inherent differences between Valor's businesses, operations and prospects and those of the comparable acquired companies, Wachovia Securities believed that it was inappropriate to, and therefore did not, rely solely on the quantitative results of the analysis. Accordingly, Wachovia Securities also made qualitative judgments concerning differences between the characteristics of these transactions (including market conditions, rationale and circumstances surrounding each of the transactions, and the timing, type and size of each of the transactions) and the merger that could affect Valor's acquisition value.

Premiums Paid Analysis. Based on publicly available information, Wachovia Securities analyzed the premiums paid in selected comparable transactions involving publicly traded companies as of thirty (30) days prior to the announcement date of each transaction. The selected comparable transactions are as follows:

| Target | Acquiror |
|----------------------------------|---------------------------|
| First National Bankshares FL | Fifth Third Bancorp |
| Varco International Inc. | National-Oilwell Inc. |
| Artesyn Technologies Inc. | Bel Fuse Inc. |
| Cornerstone Realty Income Trust | Colonial Properties Trust |
| Veritas Software Corp. | Symantec Corp. |
| Public Svc Enterprise Group Inc. | Exelon Corp. |
| Gillette Co. | Procter & Gamble Co. |
| AT&T Co. | SBC Communications Inc. |
| Great Lakes Chemical Corp. | Crompton Corp. |
| Ask Jeeves Inc. | IAC/ InterActive Corp. |
| Mykrolis Corp. | Entegris Inc. |
| Macromedia Inc. | Adobe Systems Inc. |
| SpectraSite Inc. | American Tower Corp. |
| Cinergy Corp. | Duke Energy Corp. |
| Shurgard Storage Centers Inc. | Public Storage Inc. |
| WFS Financial Inc. | Wachovia Corporation |
| Westcorp | Wachovia Corporation |
| Medicis Pharmaceutical Corp. | Mentor Corp. |

Wachovia Securities examined change of control, stock-for-stock transactions with equity values greater than \$500 million to determine a range of premiums paid in previous transactions of similar size and structure and used this analysis to determine an implied equity value per share of Valor.

The following table presents the results of this analysis:

| | Low | High | Median | Mean | Reference Multiple Range | Implied Valor Equity Value per Share |
|----------------|------------|-------------|---------------|-------------|---|---|
| 30-Day Premium | (3.4)% | 35.8% | 16.8% | 17.3% | (3.4)% - 35.8% | \$12.07 - \$16.97 |

No company utilized in the premiums paid analysis is identical to Valor, nor is any transaction identical to the merger. Therefore, a purely quantitative premiums paid analysis would not be dispositive in the context of the merger, and an appropriate use of such analysis involves qualitative judgments concerning the differences between the characteristics of these transactions and the merger that would affect the value of the selected companies and Valor.

Discounted Cash Flow Analysis of Valor. Wachovia Securities performed a discounted cash flow analysis for Valor on a stand-alone basis based on financial estimates for 2006-2010 provided by the management of Valor and estimates discussed with the management of Valor. Wachovia Securities assumed terminal value multiples ranging from 6.0x to 7.0x EBITDA in calendar year 2010. Wachovia Securities selected this terminal value multiple range based on (i) Wachovia Securities' review of trading data for comparable public companies, (ii) the implied perpetual growth rates of free cash flow derived from such multiples and the corresponding range of implied perpetual growth rates of free cash flow that Wachovia Securities deemed to be reasonable, and (iii) Wachovia Securities' overall professional experience valuing wireline businesses. Wachovia Securities used discount rates ranging from 7.5% to

8.5% after performing a weighted average cost of capital calculation that included reviewing the median risk factor for comparable public companies and was based on a debt-to-total capitalization ratio of 45%. The implied Valor equity value per share ranged from \$9.62 \$13.15.

Table of Contents

Additionally, Wachovia Securities performed a discounted cash flow analysis for Valor on a stand-alone basis based on modified financial estimates for 2006-2010 provided by and discussed with the management of Valor. The modified estimates assumed that Valor's access line loss increased to 4% annually in 2006-2010. Wachovia Securities assumed terminal value multiples ranging from 6.0x to 7.0x EBITDA in calendar year 2010 and discount rates ranging from 7.5% to 8.5%. The implied Valor equity value per share ranged from \$8.01 to \$11.25.

Implied Percentage Ownership Analysis

Based in part on the valuation of Valor as a stand-alone entity, Wachovia Securities then performed financial analyses to determine the ranges of implied percentage ownership by holders of Valor common stock in the combined company. Wachovia Securities then compared these ranges of implied percentage ownership to the actual post-merger ownership of 15.0% of the combined company by current holders of Valor common stock pursuant to the merger agreement. Specifically, Wachovia Securities took the reference multiple range for each of enterprise value to estimated 2005 access lines; enterprise value to 2005 estimated EBITDA; and equity value to estimated free cash flow, all determined as part of the comparable company analysis described above, and applied those ranges to each of Valor's and Spinco's respective operating metrics to calculate an implied equity value for both Valor and Spinco. Wachovia Securities then calculated Valor's implied equity ownership based on its relative percentage share of equity value to total (Valor plus Spinco) equity value.

Implied Percentage Ownership Analysis based on Comparable Public Companies. Wachovia Securities analyzed the implied equity value of Valor and Spinco using the same comparable companies as in the Valor stand-alone analysis of comparable publicly traded companies.

| | | | | Valor Implied Percentage Ownership of Combined Company | |
|---|-------------------------------------|---------------------------------------|--|---|-----------------------------------|
| | Reference Multiple Range | Valor Implied Equity Value | Spinco Implied Equity Value 2005(E) | Low End of Ranges | High End of Ranges |
| Enterprise Value per 2005(E) Access Lines | \$3,175 - \$4,153 | \$520 - \$1,029 | \$5,024 - \$7,841 | 9.4% | 11.6% |
| Enterprise Value to 2005(E) EBITDA | 6.1x - 7.8x | \$544 - \$1,017 | \$4,487 - \$6,922 | 10.8% | 12.8% |
| Equity Value to 2005(E) Free Cash Flow | 7.0x - 9.3x | \$907 - \$1,207 | \$3,558 - \$4,734 | 20.3% | 20.3% |

Contribution Analysis. Wachovia Securities reviewed Valor and Spinco's respective financial contribution to the combined company with respect to the relative contributions to access lines, EBITDA and free cash flow on an estimated basis for 2005 and on a projected basis for 2006 based on information provided by the managements of Valor, Alltel and Spinco. The results of this analysis indicated the following implied equity contribution by holders of Valor common stock to the combined company:

| | Implied Valor % |
|--------------------------------|------------------------|
| Access Lines 2005(E)-2006(P) | 15.3% - 15.5% |
| EBITDA 2005(E)-2006(P) | 16.3% - 16.3% |
| Free Cash Flow 2005(E)-2006(P) | 20.3% - 21.2% |

Debt-Adjusted Contribution Analysis. Wachovia Securities also reviewed Valor and Spinco's respective financial contribution to the combined company with respect to the relative contributions to access lines and EBITDA on a debt-adjusted basis for 2006 based on information provided by the managements of Valor, Alltel and Spinco and based on a range of values of the combined company reflected by dividend yields of 7%-8%. In this analysis, the enterprise value of the combined company (as implied by a particular dividend yield) was allocated to each of Valor and Alltel based on their relative contributions to access lines and EBITDA and then adjusted by the debt contributed by each company to arrive at an implied equity contribution. The results of this analysis indicated an implied equity contribution by holders of Valor common stock to the combined company of 9.9%-11.0% based on access lines and 11.7%-12.4% based on EBITDA.

Discounted Cash Flow Analysis of Valor and Spinco. Wachovia Securities performed a discounted cash flow analysis for each of Valor and Spinco on a stand-alone basis based on financial estimates for 2006-2010 provided by the managements of each of Valor and Spinco and estimates discussed with the management of Valor.

With respect to Spinco on a stand-alone basis, Wachovia Securities assumed terminal value multiples ranging from 6.0x to 7.0x EBITDA in calendar year 2010 and discount rates ranging from 6.75% to 7.75%. The implied Spinco equity values ranged from \$3,923 million to \$5,183 million.

With respect to Valor on a stand-alone basis, Wachovia Securities assumed terminal value multiples ranging from 6.0x to 7.0x EBITDA in calendar year 2010 and discount rates ranging from 7.5% to 8.5%. The implied Valor equity values ranged from \$684 million to \$935 million. Wachovia Securities selected this terminal value multiple range based on (i) Wachovia Securities' review of trading data for comparable public companies, (ii) the implied perpetual growth rates of free cash flow derived from such multiples and the corresponding range of implied perpetual growth rates of free cash flow that Wachovia Securities deemed to be reasonable, and (iii) Wachovia Securities' overall professional experience valuing wireline businesses. Wachovia Securities calculated the discount ranges applied to the respective cash flows of Spinco and Valor based on a weighed average cost of capital calculation that included reviewing the median risk factor for comparable public companies and was based on a debt-to-total capitalization ratio of 45%.

Using the relevant values from the ranges of the implied equity values resulting from the discounted cash flow analysis for each of Valor and Spinco on a stand-alone basis, Wachovia Securities calculated the following implied percentages of ownership of the combined company by holders of Valor common stock after the merger:

| | Low End of Range | High End of Range |
|-----------------------|-------------------------|--------------------------|
| Valor | Implied | Ownership |
| % of Combined Company | 14.8% | 15.3% |

Additionally, Wachovia Securities performed a discounted cash flow analysis for Valor on a stand-alone basis based on modified financial estimates for 2006-2010 provided by and discussed with the management of Valor. The modified estimates assumed that Valor's access line loss increased to 4% annually in 2006-2010. Wachovia Securities assumed terminal value multiples ranging from 6.0x to 7.0x EBITDA in calendar year 2010 and discount rates ranging from 7.5% to 8.5%. The implied Valor equity value per share ranged from \$570 million to \$800 million.

Using the relevant values from the ranges of the implied equity values resulting from the modified discounted cash flow analysis for Valor and the discounted cash flow analysis of Spinco, each on a stand-alone basis, Wachovia Securities calculated the following implied percentages of ownership of the combined company by holders of Valor common stock after the merger:

| | Low End of Range | High End of Range |
|---|-------------------------|--------------------------|
| Valor Implied Ownership % of Combined Company | 12.7% | 13.4% |

Pro Forma Merger Analysis

Wachovia Securities analyzed the pro forma financial impact of the merger on the combined company's share price and discounted cash flow value. This analysis was based on the projected financial performance of each of Valor and the combined company for 2005-2010 based on information provided by the management of each of Valor, Alltel and Spinco to Wachovia Securities and on an estimated 474.2 million outstanding shares. This analysis assumed, among other things, performance by the combined company with the synergies preliminarily estimated jointly by the managements of each of Alltel, Valor and Spinco in the amount of \$50 million in 2005 on a pro forma basis and on an actual basis of \$21 million in 2006, \$48 million in 2007 and \$50 million in each of 2008, 2009 and 2010.

Table of Contents

Based on the foregoing, Wachovia Securities determined the effects of the merger, including synergies, on the share price of the combined company based on EBITDA, dividend yield and free cash flow as follows:

Share Price Accretion/ Dilution

| | Windstream Reference Multiple Range | 2005(PF) | 2006(P) | 2007(P) | 2008(P) |
|----------------------------|--|-----------------|----------------|----------------|----------------|
| EBITDA Multiple | 6.5x - 7.5x | 23.4% - 35.4% | 18.5% - 28.8% | 20.2% - 30.7% | 20.2% - 30.4% |
| Dividend Yield | 7.0% - 8.0% | 8.5% - 14.1% | 8.5% - 14.1% | 8.5% - 14.1% | 8.5% - 14.1% |
| Free Cash Flow Multiple | 6.5x - 9.5x | (21.1)% | (26.6)% | (22.5)% | (23.9)% |

In addition, Wachovia Securities determined that the merger, including synergies, would be approximately 1.0%-3.7% accretive to the discounted cash flow equity value of the combined company compared to the discounted equity value of Valor on a stand-alone basis.

Implied Post-Merger Price Per Share Analysis. Wachovia Securities performed an analysis to estimate a range of implied post-merger price per share of Valor common stock based on a range of dividend yields. In conducting its analysis, Wachovia Securities compared certain metrics of the combined company with similar metrics of Commonwealth Telephone, Citizens Communications and CenturyTel. Although none of the selected companies is directly comparable to Valor, Spinco or the combined company, the companies included were chosen because they are publicly traded companies with operations that for purposes of analysis may be considered similar to certain operations of Valor, Spinco and the combined company. Based on this analysis, Wachovia Securities then estimated the implied post-merger price per share of the combined company with respect to a range of dividend yields of 7%-8% resulting in an implied range of share prices of \$12.50-\$14.29.

In performing its analyses, Wachovia Securities made numerous assumptions with respect to industry performance, general business and economic conditions and other matters, many of which are beyond Valor's control. No company, transaction or business used in the analyses described above is identical to Valor or the proposed merger. Any estimates contained in Wachovia Securities' analyses are not necessarily indicative of future results or actual values, which may be significantly more or less favorable than those suggested by these estimates. The analyses performed were prepared solely as a part of Wachovia Securities' analysis of the fairness, from a financial point of view, to Valor and its stockholders, of the aggregate merger consideration to be paid by Valor as of the date of the opinion, and subject to and based on the assumptions made, procedures followed, matters considered and limitations of the review undertaken in such opinion, of the aggregate merger consideration to be paid by Valor pursuant to the terms of the merger agreement and were conducted in connection with the delivery by Wachovia Securities of its oral opinion, which was subsequently confirmed in writing, dated December 8, 2005, to the Valor Board of Directors. Wachovia Securities' analyses do not purport to be appraisals or to reflect the prices at which Valor common stock might actually trade. The consideration to be paid by Valor pursuant to the merger agreement was determined through negotiations between Valor, Alltel and members of their respective senior management teams and their respective advisors, and was unanimously approved by the Valor Board of Directors. Wachovia Securities did not recommend any specific consideration to the Valor board or that any given consideration constituted the only appropriate consideration for the merger.

Wachovia Securities' opinion is necessarily based on economic, market, financial and other conditions as they exist on, and can be evaluated as of, the date thereof. Although subsequent developments may affect its opinion, Wachovia Securities does not have any obligation to update, revise or reaffirm its opinion. Wachovia Securities' opinion does not address the merits of the underlying decision by Valor to enter into the merger agreement, including the relative merits of the merger compared with other business strategies or transactions that may have been considered by Valor's management, its Board of Directors or any committee thereof. Wachovia Securities did not express any opinion with

respect to the prices at which Valor common stock will trade following the announcement of the merger or the prices at which Valor common stock will trade following the consummation of the merger.

Opinion of Valor's Financial Advisor - Bear Stearns

Pursuant to an engagement letter, dated December 5, 2005, Valor engaged Bear Stearns to render a fairness opinion in connection with the merger with Spinco. At a meeting of Valor's Board of Directors held on December 8, 2005, at which the Valor Board of Directors considered and approved the merger agreement and the merger, Bear Stearns rendered its oral opinion (which was subsequently confirmed in a written opinion, dated December 8, 2005) that, as of such date and based upon and subject to the matters reviewed with Valor's Board of Directors and the assumptions and limitations contained in the written Bear Stearns opinion, the aggregate consideration to be issued by Valor in the merger was fair, from a financial point of view, to Valor and the stockholders of Valor.

The full text of the Bear Stearns opinion is attached hereto as Annex D-2. The description of the Bear Stearns opinion set forth herein is qualified in its entirety by reference to the full text of the Bear Stearns opinion. Valor's stockholders are urged to read the Bear Stearns opinion in its entirety for a description of the assumptions made, procedures followed, matters considered and qualifications and limitations on the review undertaken by Bear Stearns. The Bear Stearns opinion did not address Valor's underlying business decision to pursue the merger, the relative merits of the merger as compared to any alternative business strategies that might have existed for Valor or the effects of any other transaction in which Valor might engage.

With respect to the projections and synergy estimates, Bear Stearns relied on representations that they have been reasonably prepared on bases reflecting the best currently available estimates and judgments of the senior management of each of Valor and Alltel, including persons who will become members of Windstream's senior management, respectively, as to the expected future performance of Valor, Spinco and the combined company. Bear Stearns did not assume any responsibility for the independent verification of any such information, including, without limitation, the projections and synergy estimates, and Bear Stearns further relied upon the assurances of the senior management of each of Valor and Alltel, including persons who will become members of Windstream's senior management, that they were unaware of any facts that would make the information, projections and synergy estimates incomplete or misleading.

In arriving at its opinion, Bear Stearns did not perform or obtain any independent appraisal of the assets or liabilities (contingent or otherwise) of Valor and Spinco, including assets and liabilities that will be contributed to or assumed by Spinco or any of its subsidiaries pursuant to the distribution agreement, nor has Bear Stearns been furnished with any such appraisals. Bear Stearns assumed that the distribution will qualify as a tax-free distribution pursuant to Section 355 of the Code and the merger will qualify as a tax-free reorganization within the meaning of Section 368(a) of the Code. Bear Stearns assumed that the contribution, the distribution and all of the transactions described in the distribution agreement would be consummated in a timely manner and in accordance with the terms of the distribution agreement, without any limitations, restrictions, conditions, amendments or modifications, regulatory or otherwise that collectively would have a material adverse effect on Valor or Spinco. Bear Stearns further assumed that the merger would be consummated in a timely manner and in accordance with the terms of the merger agreement, without any limitations, restrictions, conditions, amendments or modifications, regulatory or otherwise that collectively would have a material adverse effect on Valor or Spinco.

Summary of Financial Analyses

The following is a summary of the material financial analyses performed by Bear Stearns in connection with the rendering of its fairness opinion to the Valor Board of Directors. Some of the financial analyses summarized below include information presented in tabular format. In order to understand fully Bear Stearns' financial analyses, the tables must be read together with the text of the summary. The tables alone are not a complete description of the financial analyses. Considering the tables alone could create a misleading or incomplete view of Bear Stearns' financial analyses.

The financial analyses summarized below include (i) comparable company public market trading valuation comparisons, (ii) precedent merger and acquisition transactions valuation comparisons, (iii) discounted cash flow analyses, and (iv) transaction combination analyses. These types of analyses are some of the methodologies traditionally used when rendering a fairness opinion in transactions of this type. In particular, Bear Stearns determined to use these types of analyses in order to attempt to analyze the aggregate consideration being issued by Valor in the merger and to compare the estimated equity value of Valor on a stand alone basis, assuming no merger, with the estimated equity value of Valor's ownership in the pro forma combined company, assuming completion of the merger. A variety of analyses were employed in order to analyze the potential transaction using a number of valuation techniques and to avoid any one particular analysis presenting an incomplete or misleading view of the potential transaction.

In preparing its comparable company public market trading valuation comparisons and precedent merger and acquisition transactions valuation comparisons, Bear Stearns attempted to determine implied equity values (the value of a company attributable to its stockholders based on the company's public market trading level or acquisition price, as applicable) and/or enterprise values (calculated as a company's equity value plus its debt less its cash) as a multiple of selected financial and operating metrics for a company.

In preparing its discounted cash flow analyses, Bear Stearns used the projected cash flows for Valor and Spinco plus the respective terminal values (values for each of the companies at the end of the projection period, calculated as

multiples of 2010 projected EBITDA (defined as earnings before interest, income
56

Table of Contents

taxes, depreciation and amortization)), and discounted these cash flows to a present value using a range of rates that corresponds to the respective company's estimated cost of capital during that period. Cash flows for the projection period beginning January 1, 2006 and ending December 31, 2010 were calculated as EBITDA less changes in working capital, capital expenditures and cash taxes.

In preparing its transaction combination analyses, Bear Stearns attempted to compare the projected financial performance of Valor on a stand alone basis, assuming no merger, with the projected financial performance of the pro forma combined company, assuming completion of the merger.

Spinco Valuation

Bear Stearns analyzed the value of Spinco using the implied trading multiples of selected public companies and a discounted cash flow analysis. For purposes of Bear Stearns' review, Bear Stearns utilized, among other things, projections of the future financial performance of Spinco through 2010. The Spinco projections for 2005, 2006 and 2007, which are attached to this proxy statement/prospectus information statement as Annex I-2, were prepared by the management of Alltel and the Spinco projections for 2008, 2009 and 2010 were based on publicly available research analyst projections and were reviewed by the management of Valor.

Selected Comparable Public Companies Analysis. Bear Stearns reviewed and analyzed selected public companies in the wireline communications business that it viewed as reasonably comparable to Spinco based on Bear Stearns' knowledge of the wireline communications industry. In performing these analyses, Bear Stearns reviewed and analyzed certain financial information (including equity value, enterprise value, EBITDA, access lines, Actual Levered Free Cash Flow (Actual LFCF) (defined as EBITDA less capital expenditures less net interest expense less cash taxes assuming utilization of net operating losses and amortization of tax deductible goodwill), Normalized Levered Free Cash Flow (Normalized LFCF) (defined as defined as EBITDA less capital expenditures less net interest expense less cash taxes assuming no utilization of net operating losses and no amortization of tax deductible goodwill)) and valuation multiples and compared such information to the corresponding information of the comparable companies.

Specifically, Bear Stearns compared Spinco to six publicly traded high-dividend paying wireline companies and two publicly traded non-high dividend paying wireline companies. To the extent publicly available, for each of these companies, Bear Stearns reviewed the enterprise value as of December 6, 2005 as a multiple of 2005 and 2006 estimated EBITDA and 2005 and 2006 estimated access lines. Also, to the extent publicly available, for each of these companies, Bear Stearns reviewed the equity values as of December 6, 2005 as a multiple of 2005 and 2006 Actual LFCF and 2005 and 2006 estimated Normalized LFCF. Lastly, to the extent publicly available, for each of these companies, Bear Stearns reviewed Dividend Yield (defined as current annual dividend per share as a percentage of the per share stock price) as of December 6, 2005.

The wireline communications companies were:

Alaska Communications Systems Group, Inc.;

Citizens Communications Company (Citizens);

Consolidated Communications Holdings, Inc.;

FairPoint Communications, Inc.;

Iowa Telecommunications Services, Inc.;

Valor Communications Group, Inc.;

CenturyTel, Inc. (CenturyTel); and

Commonwealth Telephone Enterprises, Inc.

Table of Contents

In particular, of the companies listed above, Bear Stearns viewed Citizens and CenturyTel as most comparable to Spincos based on Bear Stearns' knowledge of the wireline communications industry. The table below summarizes the comparable company trading multiples that were reviewed and analyzed by Bear Stearns:

Selected Comparable Public Companies Trading Multiples

| | Citizens | CenturyTel | All Comparable Companies |
|---|----------|------------|--------------------------|
| Enterprise Value as a Multiple of: | | | |
| 2005E EBITDA | 7.2x | 5.4x | 5.4x - 8.0x |
| 2006E EBITDA | 7.5x | 5.6x | 5.6x - 8.0x |
| 2005E Access Lines | \$ 3,601 | \$ 3,098 | \$2,191 - \$4,009 |
| 2006E Access Lines | \$ 3,754 | \$ 3,255 | \$2,204 - \$4,115 |
| Equity Value as a Multiple of: | | | |
| 2005E Actual LFCF | 7.7x | 8.5x | 6.1x - 9.7x |
| 2006E Actual LFCF | 8.0x | 8.8x | 6.2x - 9.3x |
| 2005E Normalized LFCF | 9.2x | 9.3x | 7.3x - 11.0x |
| 2006E Normalized LFCF | 9.7x | 9.4x | 7.1x - 10.9x |
| Dividend Yield | 7.9% | 0.7% | 0.7% - 13.7% |

Based on the foregoing, Bear Stearns determined a reference range for each of the above valuation parameters for Spincos:

Spincos Valuation Parameters Reference Range

| | Low | High |
|---|----------|----------|
| Enterprise Value as a Multiple of: | | |
| 2005E EBITDA | 6.7x | 7.5x |
| 2006E EBITDA | 6.9x | 7.6x |
| 2005E Access Lines | \$ 3,000 | \$ 3,600 |
| 2006E Access Lines | \$ 3,200 | \$ 3,800 |
| Equity Value as a Multiple of: | | |
| 2005E Actual LFCF | 7.75x | 9.0x |
| 2006E Actual LFCF | 8.0x | 9.0x |
| 2005E Normalized LFCF | 8.7x | 10.0x |
| 2006E Normalized LFCF | 8.7x | 10.0x |
| Dividend Yield | 7.25% | 8.25% |

Bear Stearns applied each valuation parameter range to the corresponding financial estimate for Spincos to calculate Spincos' implied enterprise value based on these trading multiples. The resulting implied enterprise values ranged from approximately \$8,645 million to \$10,575 million, which implied per share equity values of \$10.95 to \$15.74 for Spincos, assuming Spincos has 403.1 million shares outstanding based on the aggregate consideration to be received by stockholders of Spincos in the merger.

Discounted Cash Flow Analysis. Bear Stearns performed an analysis of the present value of the cash flows available to equity holders that Spincos could generate over fiscal years 2006 through 2010.

For Spincos' business, Bear Stearns applied terminal value multiples ranging from 6.5x to 7.5x to Spincos' projected 2010 EBITDA. Bear Stearns chose these terminal value multiples based on (i) the implied perpetual growth rates of free cash flow derived from such multiples that Bear Stearns determined to be reasonable, (ii) Bear Stearns' review of trading data for comparable public companies and (iii) Bear Stearns' overall experience in valuing wireline

communications companies. The cash flows were then discounted to present value using a weighted average cost of capital, or WACC, of 7.00% to 8.00% (determined by observing the betas (a measure of the trading volatility of a particular company's stock relative to the broader market) of Valor and other publicly traded wireline companies and based on debt-to-total capitalization ratios between

Table of Contents

40.0% and 50.0%). The resulting implied equity values based on the discounting of these cash flows and the terminal value were \$4,641 million to \$5,911 million, which implied per share equity values of \$11.51 to \$14.66 for Spinco.

Spinco Valuation Reference Range. The average of the above analyses indicated a range of per share equity values of \$11.79 to \$14.18 for Spinco. Bear Stearns determined the appropriate equity value per share reference range for Spinco to be \$12.00 to \$14.00 based on (i) the range of per share values for Spinco using the selected comparable public companies analyses and discounted cash flow analysis and (ii) Bear Stearns' overall experience in valuing wireline companies.

Valor Valuation

Since Spinco will contribute a vast majority of the financial performance of the pro forma combined company, Bear Stearns analyzed the value of Valor by assuming the Spinco equity value per share reference range was given as consideration to the common stockholders of Valor. Bear Stearns also analyzed the value of Valor using implied multiples from selected precedent merger and acquisition transactions and a discounted cash flow analysis. For purposes of Bear Stearns' review, Bear Stearns utilized, among other things, projections of the future financial performance of Valor through 2008, as prepared by the management of Valor, which are attached to this proxy statement/prospectus information statement as Annex I-1.

Market Value Analysis. Based on the Spinco equity value per share reference range of \$12.00 to \$14.00, Bear Stearns assessed the implied premium/(discount) to Valor's stock price as of December 6, 2005, Valor's average stock price for the 20-trading days prior to and including December 6, 2005, Valor's stock price as of November 23, 2005 and Valor's average stock price for the 20-trading days prior to and including November 23, 2005. Bear Stearns considered Valor's stock price as of November 23, 2005 to be relevant because November 23, 2005 was the last trading day prior to a press release published on November 24, 2005 regarding a potential upcoming transaction between Spinco and Valor, Citizens or CenturyTel.

**Implied Premium/(Discount) to Market Value

Selected Precedent Merger and Acquisition Transactions. Bear Stearns reviewed and analyzed selected precedent merger and acquisition transactions involving recent wireline communications transactions based on Bear Stearns' determination that the transactions were reasonably comparable to the merger. In performing these analyses, Bear Stearns reviewed and analyzed certain financial information (including transaction value) and transaction multiples relating to Valor and compared such information to the corresponding information of the companies involved in such precedent transactions. Specifically, Bear Stearns reviewed 37 access line purchase transactions since January 3, 2000. Bear Stearns divided the transactions universe into two groups: (a) Most Comparable Transactions (listed by the acquirer followed by the acquired company/assets and the date these transactions closed) and (b) Other Transactions. To the extent publicly available, Bear Stearns reviewed the transaction enterprise values as a multiple of EBITDA for the last twelve months, or LTM, and as a multiple of access lines.

The precedent transactions in the Most Comparable Transactions group were:

The Carlyle Group/ Verizon Hawaii Inc. May 2, 2005;

Consolidated Communications Holdings, Inc./ TXU Corp. April 14, 2004;

Alltel Corporation/ Verizon Communications Inc. (Kentucky) August 1, 2002;
59

Table of Contents

Homebase Acquisition Texas Corp./ Illinois Consolidated Telephone Co. December 31, 2002; and
 CenturyTel, Inc./ Verizon Communications Inc. (Alabama and Missouri) July 1, 2002 and August 31, 2002.
 Bear Stearns calculated the following multiples for the recent wireline transactions used in its analysis:

Recent Wireline Transaction Multiples
Transaction Value as Multiple of:

| | LTM EBITDA | Access Lines |
|--------------------------------------|------------|--------------|
| Most Comparable Transactions: | | |
| High | 7.8x | \$ 3,199 |
| Mean | 7.2x | \$ 2,894 |
| Low | 6.7x | \$ 2,263 |
| Other Transactions: | | |
| High | 12.0x | \$ 5,698 |
| Mean | 8.6x | \$ 3,371 |
| Low | 6.2x | \$ 2,235 |
| All Transactions: | | |
| High | 12.0x | \$ 5,698 |
| Mean | 8.2x | \$ 3,292 |
| Low | 6.2x | \$ 2,235 |

Based on the foregoing, Bear Stearns determined an LTM EBITDA multiple reference range of 6.7x to 7.8x and access lines multiple reference range of \$2,900 to \$3,200 for the transactions and applied the ranges to the projected 2005 EBITDA and 2005 access lines, respectively, for Valor. The resulting implied equity value per share for Valor was calculated to be \$9.91 to \$14.15, based on the EBITDA multiple reference range, and \$5.30 to \$7.49, based on the access line multiple reference range. This compared favorably to the Spinco equity value per share reference range that Bear Stearns assumed was given as consideration to the common stockholders of Valor.

Discounted Cash Flow Analysis. Bear Stearns performed an analysis of the present value of the cash flows available to equity holders that Valor could generate over fiscal years 2006 through 2010. For Valor's business, Bear Stearns applied terminal value multiples ranging from 6.00x to 7.00x to Valor's projected 2010 EBITDA, as provided by the management of Valor. Bear Stearns chose these terminal value multiples based on (i) the implied perpetual growth rates of free cash flow derived from such multiples and the corresponding range of implied perpetual growth rates of free cash flow that Bear Stearns determined to be reasonable, (ii) Bear Stearns' review of trading data for comparable public companies and (iii) Bear Stearns' overall experience in valuing wireline companies. The cash flows were then discounted to present value using a WACC of 7.25% to 8.25% (determined by observing the betas of Valor and other publicly traded wireline companies and based on debt-to-total capitalization ratios between 52.5% and 62.5%). Valor's various tax attributes were valued separately in this analysis. The resulting implied equity values based on the discounting of these cash flows and the terminal value ranged from approximately \$806 million to \$1,067 million, which implied equity per share values of \$11.33 to \$15.01 for Valor. This compared favorably to the Spinco equity value per share reference range that Bear Stearns assumed was given as consideration to the common stockholders of Valor.

Transaction Combination Analysis

Synergies. Based on information provided by the management of Valor, Bear Stearns assumed potential operating expense synergies ranging from \$19.7 million in 2006 to \$52.0 million in 2010. Bear Stearns estimated that these potential operating expense synergies have a net capitalized value of approximately \$422.0 million to \$533.9 million.

Relative Contribution Analysis. Bear Stearns performed a contribution analysis, assuming no synergies, showing the percentages of access lines for fiscal year 2005 and projected EBITDA, Normalized LFCF and Actual LFCF for fiscal years 2005 through 2007 that are projected to be contributed by Valor and Spinco to the pro forma results for the combined company. The following tables set forth the results of such analysis:

Access Lines

| | 2005E |
|--------|--------------|
| Valor | 15.3% |
| Spinco | 84.7% |

EBITDA

| | 2005E | 2006E | 2007E |
|--------|--------------|--------------|--------------|
| Valor | 16.3% | 16.3% | 16.5% |
| Spinco | 83.7% | 83.7% | 83.5% |

Normalized LFCF Contribution

| | 2005E | 2006E | 2007E |
|--------|--------------|--------------|--------------|
| Valor | 17.2% | 16.7% | 16.0% |
| Spinco | 82.8% | 83.3% | 84.0% |

Actual LFCF Contribution

| | 2005E | 2006E | 2007E |
|--------|--------------|--------------|--------------|
| Valor | 18.7% | 20.0% | 19.7% |
| Spinco | 81.3% | 80.0% | 80.3% |

The percentages of access lines and EBITDA set forth in the tables above that are projected to be contributed to the pro forma combined company by Valor were compared to the 17.8% interest that Valor's common stockholders will have in the combined company's enterprise value (assuming that the combined company's per share stock is valued at the mid-point of the Bear Stearns reference range for Spinco's equity value per share, or \$13.00 per share). Further, the percentage of Normalized LFCF and Actual LFCF, set forth in the above table, that is projected to be contributed to the pro forma combined company by Valor was then compared to the 15.0% interest that Valor's common stockholders will have in the combined company. While the results of this analysis were considered by Bear Stearns, they were not necessarily determinative in assessing that the aggregate consideration to be issued by Valor in the merger was fair, from a financial point of view, to Valor and the stockholders of Valor.

Bear Stearns also performed a contribution analysis, assuming operating expense synergies, showing the percentages of projected access lines for fiscal year 2005 and EBITDA, Normalized LFCF and Actual LFCF for fiscal years 2005 through 2007 that are projected to be contributed by Valor and Spinco to the pro forma results for the combined company. The results of this analysis did not materially differ from the results of the contribution analysis, assuming no synergies, shown above.

Discounted Cash Flow Accretion/(Dilution) Analysis. Bear Stearns prepared a discounted cash flow valuation accretion/(dilution) analysis by comparing the stand-alone discounted cash flow equity values of Valor and Spinco to the implied value of each company's respective ownership in the pro forma combined company. For the purpose of

preparing the pro forma combined company discounted cash flow accretion/(dilution) analysis, both with and without the impact of potential operating synergies, Bear Stearns assumed the terminal EBITDA multiple range used in the Spinco stand-alone discounted cash flow analysis and a WACC range of 6.75% to 7.75% (determined by observing the betas of Valor and other publicly traded wireline companies and based on debt-to-total capitalization ratios between 45.0% and 55.0%). The table below summarizes the results of Bear Stearns discounted cash flow accretion/(dilution) analysis.

Table of Contents**Discounted Cash Flow Equity Value Accretion/(Dilution) Analysis**

| | No Synergies | With Potential Synergies |
|--------|---------------------|---------------------------------|
| Valor | 0.9% - 3.3% | 7.8% - 11.6% |
| Spinco | 2.4% - 2.7% | 9.8% - 10.7% |

Pro Forma Financial Analysis. Bear Stearns analyzed the potential pro forma impact of the merger on Valor's projected credit profile, Dividend Payout Ratio (defined as total annual dividend as a percentage of Actual LFCF), net income per share, EBITDA and Actual LFCF growth rates, and Actual LFCF per share. Bear Stearns observed that without synergies the pro forma combined company is expected to have a net debt to EBITDA leverage ratio that is approximately 0.8x to 0.9x lower for 2005 through 2010 than Valor is expected to have on a stand-alone basis. In addition, Bear Stearns noted that without synergies the pro forma combined company is expected to have a Dividend Payout Ratio that is approximately 5.3% to 12.9% lower for 2005 through 2010 than Valor is expected to have on a stand-alone basis. If potential synergies had been included in these analyses, the pro forma combined company's expected net debt to EBITDA leverage ratio and Dividend Payout Ratio would be even lower.

With potential synergies, the pro forma combined company is expected to have higher net income per share for 2005 through 2007 and without potential synergies the pro forma combined company is expected to have higher net income per share for 2005 and 2006 and lower net income per share for 2007 than Valor is expected to have on a stand-alone basis. Bear Stearns observed that without potential synergies the pro forma combined company is expected to have a lower EBITDA cumulative average growth rate from 2005 to 2007 than Valor is expected to have on a stand-alone basis and that with potential synergies the pro forma combined company is expected to have a higher EBITDA cumulative average growth rate from 2005 to 2007 than Valor is expected to have on a stand-alone basis. Bear Stearns also noted that both with and without potential synergies the pro forma combined company is expected to have a lower Actual LFCF cumulative average growth rate and lower Actual LFCF per share from 2005 to 2007 than Valor is expected to have on a stand-alone basis. While the results of this analysis were considered by Bear Stearns, they were not necessarily determinative in assessing that the aggregate consideration to be issued by Valor in the merger was fair, from a financial point of view, to Valor and the stockholders of Valor.

In connection with rendering its opinion, Bear Stearns performed a variety of financial analyses. The preparation of a fairness opinion involves various determinations as to the most appropriate and relevant methods of financial analysis and the application of these methods to the particular circumstances and, therefore, such an opinion is not readily susceptible to a partial analysis or summary description. Bear Stearns arrived at its ultimate opinion based on the results of all analyses undertaken by it and assessed as a whole and believes that the totality of the factors considered and analyses performed by Bear Stearns in connection with its opinion operated collectively to support its determination as to the fairness, from a financial point of view, of the aggregate consideration to be issued by Valor in the merger to Valor and the stockholders of Valor. Accordingly, notwithstanding the analyses summarized above, Bear Stearns believes that its analyses must be considered as a whole and that selecting portions of the analyses and factors considered by it, without considering all such analyses and factors, or attempting to ascribe relative weights to some or all such analyses and factors, could create an incomplete or misleading view of the evaluation process underlying the Bear Stearns opinion. Bear Stearns did not assign any specific weight to any of the analyses described above and did not draw any specific conclusions from or with regard to any one method of analysis.

In performing its analyses, Bear Stearns considered industry performance, general business and economic conditions and other matters, many of which are beyond the control of Valor, Alltel and Bear Stearns. The analyses performed by Bear Stearns are not necessarily indicative of actual values or actual future results, which may be significantly more or less favorable than suggested by such analyses. Accordingly, such analyses are inherently subject to substantial uncertainty.

None of the public companies used in the comparable company analysis described above are identical to Valor or Spinco, and none of the precedent transactions used in the precedent transactions analysis described above are

identical to the merger. Accordingly, an analysis of publicly traded comparable companies and comparable precedent transactions is not mathematical; rather it involves complex considerations and

Table of Contents

judgments concerning the differences in financial and operating characteristics of the companies and precedent transactions and other factors that could affect the value of Valor or Spinco and the public trading values of the companies and precedent transactions to which they were compared. The analyses do not purport to be appraisals or to reflect the prices at which any securities may trade at the present time or at any time in the future.

The type and amount of consideration payable in the merger were determined through negotiations between Valor and Alltel and approved by the Valor Board of Directors. Bear Stearns did not express any opinion as to the price or range of prices at which the shares of common stock of Valor may trade subsequent to the announcement or consummation of the merger. The decision to enter into the merger agreement was solely that of the Valor Board of Directors. The analyses do not purport to be appraisals or to reflect the prices at which any securities may trade at the present time or at any time in the future. In addition, the Bear Stearns opinion was just one of the many factors taken into consideration by the Valor Board of Directors. Consequently, Bear Stearns' analysis should not be viewed as determinative of the decision of the Valor Board of Directors or Valor's management with respect to the fairness of the aggregate consideration to be issued by Valor in the merger.

Bear Stearns is an internationally recognized investment banking firm and is continually engaged in the valuation of businesses and their securities in connection with mergers and acquisitions, negotiated underwritings, secondary distributions of listed and unlisted securities, private placements, leveraged buyouts and valuations for estate, corporate and other purposes.

Bear Stearns was selected by the Valor Board of Directors to render a fairness opinion because of its expertise and reputation in investment banking and mergers and acquisitions and its familiarity with Valor, Alltel and the wireline industry. Bear Stearns received an aggregate fee for such services of approximately \$1 million, none of which was contingent on successful consummation of the merger. Valor also agreed to reimburse Bear Stearns for certain out-of-pocket expenses incurred in connection with the engagement, including the reasonable fees of and disbursements to its legal counsel. In addition, Valor agreed to indemnify Bear Stearns against certain liabilities, including liabilities under the federal securities laws, relating to or arising out of its engagement.

Bear Stearns had been previously engaged by Valor to provide certain investment banking and other services. In connection with such services Bear Stearns has received compensation of approximately \$1.1 million during the past two years. During the past two years, Bear Stearns has not provided investment banking or financial advisory services to Alltel. Bear Stearns may be currently engaged, and in the past has been engaged, by Welsh, Carson, Anderson & Stowe and Vestar Capital Partners or their affiliates (collectively, the Financial Sponsors) to provide certain investment banking and other services in matters unrelated to the merger. In addition, various individuals and entities affiliated with Bear Stearns may have passive minority investments in the Financial Sponsors. In the ordinary course of business, Bear Stearns and its affiliates may actively trade the equity and debt securities and/or bank debt of Valor and Alltel for its own account and for the account of its customers and, accordingly, may at any time hold a long or short position in such securities or bank debt.

Alltel's Reasons for the Spin-Off and the Merger

Alltel announced in January 2005 that it would undertake a thorough review of the strategic alternatives related to its wireline business. Alltel decided to explore these strategic alternatives because of its belief that the separation of the wireless and wireline segments would better position each to take advantage of emerging strategic, operational and financial opportunities, thereby enhancing stockholder value. During the ensuing months, Alltel reviewed various capital structures and strategic alternatives that could be value enhancing to its stockholders. Based on Alltel management's review and findings, the Alltel board of directors determined that a formal process, utilizing the expertise of Alltel's financial advisors, to assess the market environment for strategic repositioning options related to its wireline business was appropriate. In September 2005, Alltel announced its intention to begin such a process. That process, which included the execution of non-disclosure agreements and the sharing of information books for use in preparing preliminary proposals, resulted in several parties expressing significant interest in Alltel's wireline business. Alltel then evaluated financing considera-

tions for potential combinations, performed due diligence, and received management presentations from potential partners addressing issues such as ensuring tax-free treatment of the transaction, maximizing Alltel stockholder value, establishing an appropriate capital structure and implementing a sustainable dividend policy.

In reaching its decision to approve the spin-off and merger with Valor, the Alltel Board of Directors consulted with its financial and legal advisors and considered a wide variety of factors, including the following:

the creation of skilled management teams at both Alltel and Windstream having proven track records of delivering financial results, a great breadth of experience in the communications industry, and a deep commitment to providing quality communications services to customers;

the expectation that Alltel will receive cash proceeds and debt reduction totaling approximately \$4.2 billion resulting from the spin-off, which will result in Alltel having net debt of approximately \$1.2 billion and being levered at about 0.5 times net debt to operating income before depreciation and amortization;

the potential value, as determined by evaluating pre and post transaction discounted cash flows, EBITDA (or earnings before interest, taxes, depreciation and amortization), yield, and other measures of the pre and post transaction wireline businesses, created for Alltel stockholders who, in the aggregate, will collectively hold 85% of the outstanding shares of Windstream immediately following the merger and the expectation of strong investor demand for both a pure-play wireless company and a pure-play rural wireline company;

Alltel's and Valor's wireline businesses have complementary geographic footprints with favorable rural characteristics, and their integration will benefit from Alltel's existing billing system outsourcing relationship with Valor, providing the potential to create a market leader in the rural wireline telecommunications industry;

the potential positive financial impact resulting from such a combination (including, without limitation, the expected achievement of \$40 million in net annual synergies from the combination) which would benefit Alltel stockholders through the spin-off and merger;

the tax-efficient structure for Alltel and Alltel's stockholders of the proposed spin-off and immediate merger of Spinco with and into Valor; and

the expectation that Windstream will pay an annual dividend of \$1 per share of common stock, which equals \$1.04 per equivalent Alltel share.

The Alltel Board of Directors also considered certain countervailing factors in its deliberations concerning the spin-off and merger, including the possibility that the anticipated benefits expected to result from the merger would fail to materialize and the potential impact that would have on Alltel stockholders receiving Windstream common shares in the transaction.

The foregoing discussion of the information and factors discussed by the Alltel Board of Directors is not meant to be exhaustive but is believed to include all material factors considered by it. The Alltel Board of Directors did not quantify or attach any particular weight to the various factors that it considered in reaching its determination that the terms of the spin-off and merger are fair to, and in the best interests of, Alltel and Alltel stockholders. Rather, the Alltel Board of Directors viewed its position as being based on the totality of the information presented to and considered by it. The Alltel Board of Directors, after considering the information available to it, also considered relevant Delaware law, the opinions of experts, and its fiduciary duties to Alltel's stockholders. As a result of the consideration of the foregoing and other relevant considerations, the Alltel Board of Directors unanimously determined that the spin-off and merger, including the terms of the merger agreement, distribution agreement and the other agreements relating to the merger, are fair to, and in the best interests of, Alltel and Alltel stockholders.

Board of Directors and Management of Windstream After the Merger

The merger agreement provides that the Board of Directors of Spinco at the effective time of the merger will become the Board of Directors of Windstream, and will consist of nine individuals: Francis X. Frantz, who most recently served as the Executive Vice President External Affairs, General Counsel and Secretary of Alltel, Jeffery R. Gardner, who most recently served as Executive Vice President Chief Financial Officer of Alltel, six other persons named by Alltel and one person named by Valor. Additionally, the merger agreement provides that, as of the completion of the merger, Mr. Frantz will serve as Chairman of the Board of Windstream. Valor has designated Anthony J. de Nicola as its designee to the Windstream board. Five of Alltel's designees to the Windstream board are identified under the heading Management of Windstream Following the Merger Alltel Corporation Designees to the Board of Directors on page 152 of this proxy statement/prospectus-information statement. The final Alltel designee will be named prior to completion of the spin-off and merger.

The merger agreement also provides that the officers of Spinco at the effective time of the merger will become the officers of Windstream and that Mr. Frantz will serve as Chairman, Mr. Gardner will serve as the President and Chief Executive Officer and Brent K. Whittington, who most recently served as senior vice president of operations support for Alltel, will serve as Executive Vice President and Chief Financial Officer. The other initial officers of Windstream will consist of individuals selected by Alltel. Alltel has already named Keith D. Paglush as Chief Operating Officer, John P. Fletcher as Executive Vice President and General Counsel, Michael D. Rhoda, who most recently served as vice president wireline regulatory & wholesale services for Alltel, as Senior Vice President Governmental Affairs, Robert G. Clancy, Jr., who most recently served as vice president of investor relations for Alltel, as Senior Vice President and Treasurer and Susan Bradley, who most recently served as vice president of human resources for Alltel, as Senior Vice President Human Resources.

Interests of Certain Persons in the Merger

In considering the Valor Board of Directors determination to approve the merger agreement and to recommend that Valor stockholders vote to adopt the merger agreement, to approve the amendment of the Valor organizational documents in their entirety pursuant to the merger increasing the authorized shares of Valor common stock and to approve the issuance of Valor common stock to Alltel stockholders pursuant to the merger, Valor stockholders should be aware of potential conflicts of interest of, and the benefits available to, certain Valor stockholders, directors and officers. These stockholders, directors and officers may have interests in the merger that may be different from, or in addition to, the interests of Valor stockholders as a result of, among other things:

Anthony J. de Nicola, Valor's current Chairman of the Board of Directors, is expected to be appointed to the board of Windstream;

John J. Mueller, Valor's current chief executive officer, has entered into a consulting agreement with Windstream which is described below under the heading Consulting Agreement with Mr. Mueller;

W. Grant Raney and Cynthia B. Nash, current executive officers of Valor, have accepted offers of employment with Windstream (to be effective only upon the closing of the transactions) which are described below under the heading Employment Arrangements with Mr. Raney and Ms. Nash;

a portion of certain executive officers' cash awards and shares of restricted stock that were scheduled to vest January 1, 2007, shall vest upon the consummation of the merger, as set forth below;

the severance benefits payable to Messrs. Mueller, Raney and Ojile and Ms. Nash for termination of employment by Valor without Cause or by the executive officer for Good Reason, as each such term is defined in their employment agreements with Valor, were increased from 18 months of base salary to 24 months. Also, the bonus payment prescribed in the executive officers' employment agreements were increased to two times annual target bonus;

the acceleration of vesting of restricted stock grants scheduled to vest in 2008 and beyond for Messrs. Mueller, Ojile and Vaughn, Valor executive officers who will not remain employed by Windstream; and

prior to the completion of the merger, Valor Securityholders Agreement with certain of its stockholders will be amended so that persons affiliated with Welsh, Carson, Anderson & Stowe, or WCAS and Vestar Capital Partners, who collectively own approximately 41% of Valor's outstanding common stock, will receive the following benefits:

Windstream will file and use reasonable best efforts to have declared effective an evergreen Shelf Registration Statement permitting sales of securities of Windstream by WCAS and Vestar as soon as practicable after consummation of the merger;

if requested by the holders of at least 50% of the outstanding securities initially held by WCAS, Vestar and their respective affiliates, Windstream will conduct one underwritten offering, including management participation in road shows and similar customary obligations;

WCAS and Vestar will have customary piggyback registration rights in connection with any registration by Windstream of sales of its equity securities (other than on Forms S-4 or S-8), whether for Windstream's own account or for the benefit of one or more stockholders exercising demand registration rights; and

Windstream will pay customary fees and expenses of registrations.

The following table sets forth the payments to be made to certain executive officers of Valor and the restricted stock grants held by certain executive officers and directors of Valor that will be subject to accelerated vesting upon completion of the merger.

- (4) Ms. Nash will also receive a retention bonus in the amount of \$150,000 if employed by Windstream at the effective time of the merger and an additional \$150,000 if employed by Windstream on the six month anniversary of the effective time of the merger. In addition, Ms. Nash will be eligible to receive annual incentive bonuses up to 40% of her base salary based on the achievement of specified goals established by Windstream.

Consulting Agreement with Mr. Mueller. In connection with the merger, John J. Mueller entered into a consulting agreement with Spinco to be effective only upon closing of the transactions. Under the terms of the consulting agreement, Mr. Mueller agrees to furnish advice and counsel regarding business issues and strategies to the Chairman and to the President and CEO of Windstream. The term of the agreement will be for one year commencing on the effective date of the merger. For his services, Mr. Mueller will be paid an annual consulting fee of \$500,000 plus \$1,500 per month for ongoing expenses incurred in the performance of the consulting services. The termination of Mr. Mueller's employment and the change of control resulting from the merger will also trigger the payment of severance benefits and accelerate vesting of Mr. Mueller's existing unvested equity awards under his Restricted Stock Grant Agreement dated as of February 14, 2005. Those payments will be in addition to payments made by Windstream for services provided under the agreement.

Employment offers to Mr. Raney and Ms. Nash. In connection with the merger, Grant Raney has accepted an employment offer with Spinco. Under the offer, Mr. Raney agrees to serve as Area President of Wireline Services for Windstream. The term of Mr. Raney's employment will commence on the effective date of the merger. For his services, Mr. Raney will be paid an annual salary of approximately \$257,000 plus he will be eligible to receive an annual bonus targeted at 50% of his annual salary. Mr. Raney will also receive a \$250,000 retention bonus to be paid within 30 days after the effective time of the merger and an additional retention bonus of \$250,000 to be paid six months after the effective time of the merger if he remains continuously employed with Windstream. Windstream will also furnish Mr. Raney with an automobile and pay all related expenses for gasoline, insurance, maintenance and repairs. In addition, Windstream will pay the initiation fee (estimated not to exceed \$35,000), the annual dues, assessments and other membership charges (estimated not to exceed \$500 per month) for membership in a country club selected by Mr. Raney.

Cindy Nash also has accepted an employment offer with Spinco in connection with the merger. Under her offer, Ms. Nash agreed to serve as Senior Vice President of Customer Service for Windstream. The term of Ms. Nash's employment will commence on the effective date of the merger. For her services, Ms. Nash will be paid an annual salary of approximately \$220,000 plus she will be eligible to receive an annual bonus targeted at 40% of her annual salary. Ms. Nash will also receive a \$150,000 retention bonus to be paid within 30 days after the effective time of the merger and an additional retention bonus of \$150,000 to be paid six months after the effective time of the merger if she remains continuously employed with Windstream. In addition, Windstream will pay the initiation fee (estimated not to exceed \$35,000), annual dues, assessments and other membership charges (estimated not to exceed \$500 per month) for membership in a country club selected by Ms. Nash and will reimburse expenses related to Ms. Nash's MBA program (estimated at approximately \$20,000).

Director and Officer Indemnification and Insurance. In addition, under the terms of the merger agreement, Alltel and Valor agreed that all rights to indemnification as provided in Valor's Certificate of Incorporation or Bylaws in favor of persons who are or were directors, officers or employees of Valor will survive for a period of six years following the merger. The parties also agreed that for a period of six years following the merger, Windstream will indemnify the current and former directors, officers or employees of Valor to the fullest extent permitted by applicable law. The merger agreement further requires that, for six years following the effective time of the merger, subject to certain limitations, Windstream will maintain coverage under a director and officer liability insurance policy, with respect to claims arising from facts or events that occurred on or before the effective time of the merger, at a level at least equal to that which Alltel is maintaining prior to the merger, except that Windstream will not be required to pay an annual premium for such insurance in excess of \$2,000,000.

Table of Contents**Regulatory Approvals*****Telecommunications Regulatory Approvals***

The transactions contemplated by the merger agreement will require the approval of the public service or public utilities commissions of the following states in their capacities as regulators of CLEC and ILEC operations of Alltel and Valor: Florida, Georgia, Kentucky, Mississippi, Missouri, New York, Ohio, Pennsylvania, South Carolina and Texas. On April 12, 2006, Alltel obtained an amendment to the commitment letter for the senior secured credit facilities to remove certain guaranties and liens, and such amendment eliminated the need for approval of the transaction by certain state regulatory agencies. Although the scope of matters that must be approved varies by state, the foregoing approvals are generally required for (i) the change of control of Alltel's CLEC and ILEC subsidiaries, which will be deemed to occur in connection with the contribution and distribution transactions described elsewhere in this proxy statement/ prospectus-information statement, and (ii) the guarantee of indebtedness or the grant of security interests by Spinco and Valor's CLEC and ILEC subsidiaries in connection with the financing of Valor following completion of the merger. The parties must also obtain state commission approval of the transfer to Spinco of the long distance customers and certificates of authority of Alltel, or the issuance to Spinco of new certificates of authority, in all states except Alaska.

Valor and Spinco completed the filing of all of the applicable applications that were required to be filed prior to completion of the merger for the authority and approval with respect to the ILEC operations in January 2006. The public service or public utilities commission in each of the states of Florida, Georgia, Kentucky, Missouri, Mississippi and South Carolina has granted its approval. The parties expect that the remaining applicable state commissions will make a determination on these applications no later than the second quarter of 2006. Following the filing of such applications in certain states, other parties such as consumer groups, labor unions representing employees of Alltel or Valor, competitors and consumer advocates have filed protest applications raising concerns or objecting to the transactions. After the filing of the applications and any protests, state law or administrative rule allows regulators in certain states discretion on whether to conduct hearings on the matters. The parties are conducting discovery, preparing and filing testimony and briefs to further support the applications, and attending hearings on the matters. Following the conclusion of the applicable state procedures, each state commission will make a determination on the application for its state. These state approvals generally require the parties to demonstrate that the transactions are for a proper purpose and are consistent with the public interest, convenience and necessity, and that Spinco or its applicable subsidiary will have the financial, technical and managerial abilities to provide reasonable service to the public in such state. Following completion of the merger Windstream will be required to file an application seeking approval of the transactions from the Texas Public Utilities Commission. It is anticipated that Windstream will file this application promptly upon completion of the merger.

The parties believe that the transactions will produce benefits for the states in which Windstream will conduct its operations, the citizens of such states and the customers of the telecommunications businesses of Windstream. While the parties believe that the transactions satisfy the applicable regulatory standards for the foregoing approvals, there can be no assurances that the state regulators will grant such approvals or will not attempt to impose conditions to such approval.

In addition, under the Communications Act of 1934, before the completion of the merger, the FCC must approve the transfer to Valor of control of Spinco and those subsidiaries of Spinco that hold FCC licenses and authorizations. Valor and Spinco filed transfer of control applications with the FCC on December 21, 2005 and received the FCC's approval of the merger on February 1, 2006.

Each party's obligations to complete the merger are subject to receipt of the consents of the above referenced state commissions that, if not obtained, would reasonably be expected to have a material adverse effect on Valor, Alltel or Spinco. The merger agreement provides that each party to the merger agreement, subject to customary limitations, will use its reasonable best efforts to take promptly all actions and to assist and cooperate with the other parties in doing all things necessary, proper or advisable under applicable laws and regulations to consummate the merger and the transactions contemplated by the merger agreement.

Table of Contents

Alltel, Spinco and Valor also agreed to use all reasonable efforts to resolve any objections or challenges from a regulatory authority.

United States Antitrust Laws

Under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, or HSR Act, and the rules promulgated under that act by the FTC, the spin-off and the merger may not be completed until notifications have been given and information furnished to the FTC and to the Antitrust Division and the specified waiting period has been terminated or has expired. Valor and Spinco each filed notification and report forms under the Hart-Scott-Rodino Act with the FTC and the Antitrust Division on December 21, 2005. On January 3, 2006, the FTC notified the parties that early termination of the specified waiting period had been granted. At any time before or after completion of the spin-off and the merger, the FTC or the Antitrust Division could take any action under the antitrust laws as it deems necessary or desirable in the public interest, including seeking to enjoin completion of the spin-off and the merger or seeking divestiture of substantial assets of Valor or Spinco. The spin-off and the merger also are subject to review under state antitrust laws and could be the subject of challenges by private parties under the antitrust laws.

Accounting Treatment

SFAS 141 Business Combinations requires the use of the purchase method of accounting for business combinations. In applying the purchase method, it is necessary to identify both the accounting acquiree and the accounting acquiror. In a business combination effected through an exchange of equity interests, such as the merger transaction between Valor and Spinco, the entity that issues the interests (Valor in this case) is generally the acquiring entity. In identifying the acquiring entity in a combination effected through an exchange of equity interests, however, all pertinent facts and circumstances must be considered, including the following:

The relative voting interests in the combined entity after the combination. In this case shareholders of Alltel, the sole shareholder of Spinco, will receive approximately 85% of the equity ownership and associated voting rights in the combined entity.

The composition of the governing body of the combined entity. In this case the merger agreement provides that the composition of the Board of Directors of the surviving company will be largely determined by Alltel and/or Spinco.

The composition of the senior management of the combined entity. In this case the merger agreement provides that the senior management of the combined entity was to be exclusively determined by Alltel and/or Spinco.

While Valor is the legal acquiror and surviving registrant in this merger, Spinco is determined to be the accounting acquiror in this combination based on the facts and circumstances outlined above. Spinco will apply purchase accounting to the assets and liabilities of Valor upon consummation of the merger. Upon completion of the merger, the historical financial statements of the combined company will be those of Spinco.

Federal Securities Law Consequences; Resale Restrictions

Valor common stock issued pursuant to the merger will not be subject to any restrictions on transfer arising under the Securities Act of 1933, except for shares issued to any Valor stockholder who may be deemed to be an affiliate of Valor for purposes of Rule 145 under the Securities Act. It is expected that each affiliate will agree not to transfer any Valor common stock received pursuant to the merger except in compliance with the resale provisions of Rule 144 or 145 under the Securities Act or as otherwise permitted under the Securities Act. The merger agreement requires Valor to use its reasonable best efforts to cause its affiliates to enter into such agreements.

However, under the terms of the merger agreement, Windstream is obligated to file and will use reasonable best efforts to have declared effective an evergreen shelf registration statement permitting sales of securities of Windstream by WCAS and Vestar as soon as practicable after consummation of the merger (provided that WCAS will not be able to sell shares of Windstream prior to the expiration of the lock-up referred to above in the

Table of Contents

section titled "Amendment of Company Securityholders Agreement") which will remain effective until each of WCAS and Vestar can sell all of its Valor securities under Securities Act Rule 144 without volume limitations.

No Appraisal Rights

Neither Valor nor Alltel stockholders will be entitled to exercise appraisal rights or to demand payment for their shares in connection with the merger.

Name Change; Listing

Before the completion of the merger, Valor has agreed to use its reasonable best efforts to cause the shares of Valor common stock to be issued pursuant to the merger to be authorized for listing on the NYSE. Immediately following completion of the merger, the Board of Directors will merge a wholly-owned subsidiary of the surviving company into the company and, in connection with such merger, change the name of the company from Valor Communications Group, Inc. to Windstream Corporation. Promptly thereafter, the company will file a restated certificate of incorporation with the Delaware Secretary of State reflecting the name change. Shares of Windstream Corporation will be traded on the NYSE under the new trading symbol WIN.

Dividend Policy of Windstream

The merger agreement provides that the initial dividend policy of Windstream (which may be changed at any time by Windstream's Board of Directors) will provide for the payment, subject to applicable law, of regular quarterly dividends on each issued and outstanding share of common stock of \$0.25 per share. In determining the initial dividend level, Windstream's management reviewed and analyzed, among other things:

operating and financial results of both Valor and Spinco in recent years, including in particular the fact that pro forma combined operating income before depreciation and amortization (pro forma OIBDA), excluding the royalty expense that Spinco has historically paid to Alltel which will cease upon the consummation of this transaction, was \$1,633.7 million in 2005;

the anticipated capital expenditure requirements of Windstream;

Windstream's expected other cash needs, primarily related to working capital requirements; and

the terms of Windstream's expected indebtedness.

However, Windstream stockholders may not receive any dividends following completion of the merger as a result of the following factors:

while the merger agreement contemplates the payment of a \$0.25 per share quarterly dividend, this policy could be modified or revoked by Windstream's Board of Directors at any time in its sole discretion;

the amount of dividends distributed will be subject to covenant restrictions under Windstream's new senior secured credit facility which will restrict its ability to take certain action with respect to dividends and payments in respect of capital stock, with the exception of dividends up to the sum of excess free cash flow and net cash equity issuance proceeds so long as the pro forma leverage ratio does not exceed 4.50 to 1.0. Subject to the assumptions, considerations and limitations set forth in the following discussion under the heading "Minimum Operating Income Before Depreciation and Amortization (OIBDA)", Windstream's pro forma leverage ratio during the year following the closing of the merger is estimated to be no greater than 3.70 to 1.0.

the amount of dividends distributed will be subject to restrictions under Delaware law pursuant to which the Windstream Board of Directors will be permitted to declare dividends only to the extent of a surplus (which is defined as total assets at fair market value minus total liabilities, minus statutory capital) or, if there is no surplus, out of Windstream's net profits for the then current and/or immediately preceding fiscal year;

Windstream's stockholders have no contractual or other legal right to receive dividends; and

Windstream may not have enough cash to pay dividends due to changes in Windstream's cash from operations, working capital requirements and/or anticipated cash needs.

Table of Contents

Dividends on Windstream's common stock will not be cumulative. Consequently, if dividends on Windstream's common stock are not declared and/or paid at the targeted level, Windstream's stockholders will not be entitled to receive such payments in the future.

Minimum Operating Income Before Depreciation and Amortization (OIBDA)

Windstream's management has prepared the financial information set forth below to present the estimated cash available to pay dividends based on estimated minimum OIBDA. OIBDA is a non-GAAP financial measure that is computed as operating income plus depreciation and amortization. Windstream believes that OIBDA assists investors in understanding Windstream's ability to generate sufficient positive cash flows to fund its ongoing cash operating requirements including capital expenditures, payment of dividends and debt service obligations. OIBDA should not be considered in isolation or as a substitute for cash flow from operations prepared in accordance with GAAP.

The accompanying estimated financial information was not prepared with a view toward complying with the Public Company Accounting Oversight Board guidelines with respect to prospective financial information, but, in the view of Windstream's management, was prepared on a reasonable basis, reflects the best currently available estimates and judgments, and presents, to the best of management's knowledge and belief, Windstream's expected course of action and expected future financial performance. However, this information is not fact and should not be relied upon as being necessarily indicative of future results, and readers of this proxy statement/prospectus-information statement are cautioned not to place undue reliance on the estimated financial information.

The prospective financial information included in this proxy statement/prospectus-information statement has been prepared by, and is the responsibility of, Windstream's management. Neither PricewaterhouseCoopers LLP, Deloitte & Touche LLP, nor any other independent registered public accounting firm has either examined or compiled the accompanying prospective financial information and, accordingly, does not express an opinion or any other form of assurance on such information or its achievability, and assume no responsibility for the estimated financial information with respect thereto. The PricewaterhouseCoopers LLP and Deloitte & Touche LLP reports included in this document relate to the historical financial information of Spinco and Valor, respectively. They do not extend to the prospective financial information and should not be read to do so.

The assumptions and estimates underlying the estimated financial information below are inherently uncertain and, though considered reasonable by Windstream's management as of the date of its preparation, are subject to a wide variety of significant business, economic, and competitive risks and uncertainties, including those described under Risk Factors. Accordingly, there can be no assurance that the estimated financial information is indicative of future performance or that the actual results will not differ materially from the estimated financial information presented below.

Windstream believes that, in order to fund dividends on its common stock during the 12 months following the effective time of the merger at the level described above solely from cash generated by its business, its OIBDA for such 12 months following the merger would need to be at least \$1,492.5 million. As described under Assumptions and Considerations below, Windstream's management believes that its OIBDA for the year following the closing of this offering will be at least \$1,492.5 million and has determined that its assumptions as to capital expenditures, cash interest expense, income taxes, working capital and availability of funds under its revolving credit facility are reasonable. Windstream has also determined that if its OIBDA for such period is at or above this level, it would be permitted to pay dividends at the level described above under the leverage ratio covenant that will be contained in the senior secured credit facilities. Windstream expects that the exchange notes and any other notes to be issued in conjunction with the closing of the merger will contain restrictions on its ability to pay dividends that are no more restrictive than those contained in the senior secured credit facilities.

The following table sets forth Windstream's calculation illustrating that \$1,492.5 million of OIBDA would be sufficient to fund dividends at the above level for the 12 months following the closing of the merger and to permit it to pay dividends at the anticipated level under all relevant covenants and restrictions that will be contained in the senior secured credit facilities and any other agreement that governs any other indebtedness incurred by Windstream. OIBDA excludes certain income and expenses that are settled in cash.

Table of Contents

In the judgment of Windstream's management, the effect of these items is not material. The minimum OIBDA presented in this discussion is calculated as the sum of estimated capital expenditures, estimated cash interest expense and principal repayments on outstanding indebtedness, estimated cash income taxes, and estimated cash dividends on Windstream common stock. These amounts are based on pro forma results for the year ended December 31, 2005, which Windstream's management believes reasonably approximate the cash requirements of Windstream for the 12 months following the closing of the merger. Income and expense items settled in cash but excluded from OIBDA were \$8.2 million in income in 2005.

| | Amount |

- (1) The table below sets forth the assumed number of outstanding shares of common stock upon the closing of the merger and the estimated per share and aggregate dividend amounts payable on such shares during the year following the closing of this offering:

| Per Share Dividend | \$ 1.00 |

- (i) comprised of the outstanding shares of Valor common stock as of May 1, 2006 plus the shares expected to be issued in conjunction with the merger. (see Calculation of Merger Consideration page 35)
- (2) The majority of Windstream's capital expenditures will relate to its telecommunications network. Historical capital expenditures of Valor, Spinco and on a combined basis for the year ended December 31, 2005 were \$57.4 million, \$356.9 million and \$414.3 million respectively.
- (3) Reflects Windstream's anticipated cash interest expense under its revolving credit facility, senior secured term loan facilities and the senior notes. See Note (x) in Unaudited Pro Forma Combined Condensed Financial Information on page 182 for further discussion of interest expense anticipated to be incurred by Windstream, the interest rate assumptions included in such calculation and the sensitivity of such calculations to fluctuations of interest rates.
- (4)

Determined by calculating pro forma income tax expense on a combined basis for 2005 in the amount of \$267.9 million, less \$45.0 million representing current year impact of tax deductible amortization of intangible assets and the use of net operating loss carryforwards held by Valor. The foregoing calculation is not based on an estimation of the anticipated taxable income for 2006, which is subject to many factors beyond the control of Windstream's management or its determination at this time. Actual payments of income taxes may be materially different from the amounts presented.

- (5) Reflects anticipated principal repayments due during 2006 on Windstream's outstanding indebtedness. See Note (x) in Unaudited Pro Forma Combined Condensed Financial Information on page 182 for further discussion of anticipated future repayments of long-term debt obligations.

Table of Contents

- (6) The estimated total leverage ratio is calculated as total pro forma debt of \$5,534.7 million (see Note (f) in Unaudited Pro Forma Combined Condensed Financial Information on page 176), divided by minimum OIBDA.
- (7) The estimated interest coverage ratio is calculated as minimum OIBDA divided by estimated cash interest expense.

The following table reconciles Net Cash Provided from Operations, a GAAP measure, to pro forma OIBDA, a non-GAAP measure. The following table also illustrates, for the fiscal year ended December 31, 2005, the amount of cash that would have been available for distribution to Windstream's common stockholders based on the pro forma combined financial results of Valor and Spinco. It is assumed that the merger occurred at the beginning of the period presented, subject to the accompanying assumptions described in the table.

- (1) Valor has historically calculated Cash Available to Pay Dividends as Adjusted EBITDA minus capital expenditures, cash interest, cash income taxes and any other charges excluded from adjusted EBITDA that have been or will be settled in cash. Windstream does not currently anticipate utilizing adjusted EBITDA as a non-GAAP measure and as such, the presentation of Valor's historical Cash Available to Pay Dividends has been modified to conform to the presentation expected to be presented by Windstream, which substitutes operating income before depreciation and amortization (OIBDA) in the place of adjusted EBITDA. The most significant difference between these two measures for Valor is that adjusted EBITDA excludes the impact of non-cash stock compensation (\$12.7 million in 2005) and other non-cash items defined in Valor's existing credit facility while OIBDA does not.

- (2) Reflects the elimination of the royalty expense that Spinco has historically paid to Alltel, which will cease upon the consummation of the spin-off and the merger.
- (3) Consists of capital expenditures of both Spinco and Valor for the year ended December 31, 2005.
- (4) Reflects Windstream's anticipated cash interest expense under its revolving credit facility, senior secured term loan facilities and senior notes. by Windstream, the interest rate assumptions included in such calculation and the sensitivity of such calculations to fluctuations of interest rates.

- (5) Calculated as pro forma income tax expense of \$267.9 million, less \$45.0 million representing the use of net operating loss carryforwards held by Valor. The foregoing calculation is not based on an estimation of the anticipated taxable income for 2006, which is subject to many factors beyond the control of Windstream's management or its determination at this time. Actual payments of income taxes may be materially different.

Assumptions and Considerations

Based on a review and analysis conducted by Windstream's management, it believes that the minimum OIBDA for the 12 month period following the closing of the merger will be at least \$1,492.5 million, and Windstream's management has determined that the assumptions in the above tables as to capital expenditures, cash interest expense, income taxes, working capital and availability of funds under the revolving credit facility are reasonable. Windstream considered numerous factors in establishing its belief concerning the minimum OIBDA required to support the dividend policy and its belief that minimum OIBDA for the first 12 months following the merger will be at least \$1,492.5 million, including the following factors:

For fiscal year 2005, pro forma combined OIBDA including both Valor and Spinco, excluding the royalty expense that Spinco has historically paid to Alltel which will cease upon the consummation of this transaction, was \$1,633.7 million.

For fiscal year 2005, the combined capital expenditures of Valor and Spinco were \$414.3 million. Windstream's management expects capital expenditures for the twelve month period following the close of the merger to be approximately \$400.0 million.

Absent the significant increase in Valor's working capital that resulted from the change in its capital structure in 2005, neither Valor nor Spinco has experienced significant adverse changes in working capital requirements in the last 2 years.

Windstream's management has analyzed the impact of its intention to pay dividends at the level described above on its operations and performance in prior years and has determined that the revolving credit facility would have had sufficient capacity to finance any fluctuations in working capital and other cash needs, including the payment of dividends at the levels described above. Windstream currently does not intend to borrow under its revolving credit facility to pay dividends.

Windstream has also assumed:

That the general business climate, including such factors as consumer demand for services, the level of competition experienced and the regulatory environment, will remain consistent with previous periods; and

The absence of extraordinary business events, such as new industry-altering technological developments or adverse regulatory developments, that may adversely affect Windstream's business, results of operations or anticipated capital expenditures.

If OIBDA for the first 12 months following the closing of the merger were to fall below the \$1,492.5 million level (or Windstream's assumptions as to capital expenditures, cash taxes or cash interest expense are too low, or if Windstream's assumptions as to the sufficiency of its new revolving credit facility to finance its expected working capital needs prove incorrect, or if other assumptions stated above were to prove incorrect), Windstream would either reduce or eliminate dividends. Windstream cannot assure you that its OIBDA will in fact equal or exceed the minimum level set forth above, and its belief that it will equal or exceed such level is subject to all of the risks, considerations and factors identified in other sections of this proxy statement/ prospectus-information statement, including those identified in the section entitled Risk Factors. Furthermore, even if OIBDA for the first 12 months following the closing of the merger were to equal or exceed the \$1,492.5 million level, the Windstream board of directors retains the absolute discretion to reduce or eliminate the amount of the initial dividend policy if it determines such action is appropriate in light of its assessment of Windstream's business and the environment in which it will

operate.

As noted above, Windstream has estimated its initial dividend level and the minimum OIBDA required to pay dividends at that level only for the first 12 months following the closing of the merger. Moreover,

Table of Contents

Windstream cannot assure you that it will pay dividends during or following such period at the level estimated above, or at all. Dividend payments are within the absolute discretion of the board of directors and will be dependent upon many factors and future developments that could differ materially from the current expectations. Over time, Windstream's capital and other cash needs will invariably be subject to uncertainties, which could affect the level of any dividends paid in the future.

In accordance with its dividend policy, Windstream intends to distribute, as dividends to its stockholders, a substantial portion of the cash generated by its business in excess of operating needs, interest and principal payments on indebtedness and capital expenditures. If Windstream continues paying dividends at the level currently anticipated under the dividend policy, it is expected that it would need additional financing to fund significant acquisitions. Such additional financing could include, among other transactions, the issuance of additional shares of common stock. However, Windstream intends to retain sufficient cash after the distribution of dividends to permit the pursuit of growth opportunities that do not require material capital investments. Management currently has no specific plans to increase capital spending to expand Windstream's business materially. However, management will evaluate potential growth opportunities as they arise and, if the board of directors determines that it is in Windstream's best interest to use cash that would otherwise be available for distribution as dividends to pursue an acquisition opportunity, to increase capital spending materially or for some other purpose, the board would be free to depart from or change the dividend policy at any time.

The intended policy to distribute rather than retain a significant portion of the cash generated by the business as regular quarterly dividends is based upon the assessment of Windstream's management of its financial performance, its cash needs and its investment opportunities. If these factors were to change based on, for example, regulatory, competitive or technological developments (which could increase the need for capital expenditures) or new investment opportunities, Windstream would need to reassess that policy.

Restrictions on Payment of Dividends***Delaware Law***

Under Delaware law, Windstream's board of directors may declare and pay dividends either out of surplus or, if there is no surplus, out of net profits for the fiscal year in which the dividend is declared and/or the preceding fiscal year. Surplus is defined as the excess, if any, at any given time, of the total assets of a corporation over its total liabilities and statutory capital. The value of a corporation's assets can be measured in a number of ways and may not necessarily equal their book value. The board of directors may base this determination on its financial statements, a fair valuation of assets or another reasonable method. Subject to certain limitations, the value of Windstream's capital may be adjusted from time to time by the board of directors. Although Windstream intends to pay dividends at the anticipated levels during the 12 months following the merger in compliance with Delaware law, the board of directors will periodically seek to assure itself that the statutory requirements will be met before actually declaring dividends. In future years, the board may seek opinions from outside valuation firms to the effect that its net profits or surplus is sufficient to allow payment of dividends, and such opinions may not be forthcoming. If Windstream sought and was not able to obtain such an opinion, it likely would not be able to pay dividends.

Senior Secured Credit Facilities

Under the senior secured credit facilities, Windstream will be limited in its ability to take certain action with respect to dividends, with an exception for dividends up to the sum of excess free cash flow so long as the pro forma leverage ratio does not exceed 4.50 to 1.0. Excess free cash flow is expected to be defined as the sum of quarterly dividends per Windstream's dividend policy; cash on hand up to the amount of consolidated earnings before depreciation and amortization, interest and taxes, adjusted for non-recurring transaction and other charges (not to exceed \$10 million in any four consecutive fiscal quarters beginning after December 31, 2006), less cash interest and taxes paid, debt repayments and capital expenditures for the period; and net proceeds from the issuance of equity securities, less certain identified uses of those funds.

**CERTAIN UNITED STATES FEDERAL INCOME TAX CONSEQUENCES
OF THE SPIN-OFF AND THE MERGER**

The following summarizes certain United States federal income tax consequences of the spin-off and the merger. This summary is based on the Code, the Treasury regulations promulgated under the Code, and interpretations of the Code and the Treasury regulations by the courts and the IRS, all as they exist as of the date hereof and all of which are subject to change, possibly with retroactive effect. This summary is limited to stockholders of Valor or Alltel that are United States holders, as defined immediately below. A United States holder is a beneficial owner of Valor stock or Alltel stock that is, for United States federal income tax purposes:

an individual who is a citizen or a resident of the United States;

a corporation, or other entity taxable as a corporation for United States federal income tax purposes, created or organized under the laws of the United States or any state thereof or the District of Columbia;

an estate, the income of which is subject to United States federal income taxation regardless of its source; or

a trust, if (i) a court within the United States is able to exercise primary jurisdiction over its administration and one or more United States persons have the authority to control all of its substantial decisions, or (ii) in the case of a trust that was treated as a domestic trust under the law in effect before 1997, a valid election is in place under applicable Treasury regulations.

Further, this summary does not discuss all of the tax considerations that may be relevant to Valor stockholders or Alltel stockholders in light of their particular circumstances, nor does it address the consequences to stockholders subject to special treatment under the United States federal income tax laws, such as:

insurance companies,

dealers or traders in securities or currencies,

tax-exempt organizations,

financial institutions,

mutual funds,

partnerships or other entities classified as partnerships for United States federal income tax purpose and investors in such entities,

holders who hold their shares as a hedge or as part of a hedging, straddle, conversion, synthetic security, integrated investment or other risk-reduction transaction,

holders who are subject to the alternative minimum tax, or

holders who acquired their shares upon the exercise of employee stock options or otherwise as compensation.

In addition, this summary is limited to stockholders that hold their Valor common stock or Alltel common stock as a capital asset. Finally, this summary does not address any estate, gift or other non-income tax consequences or any state, local or foreign tax consequences.

VALOR AND ALLTEL STOCKHOLDERS SHOULD CONSULT THEIR OWN TAX ADVISORS CONCERNING THE UNITED STATES FEDERAL, STATE AND LOCAL AND NON-UNITED STATES TAX CONSEQUENCES OF THE SPIN-OFF AND THE MERGER TO THEM IN LIGHT OF THEIR PARTICULAR CIRCUMSTANCES.

Table of Contents***The Spin-Off***

The spin-off is conditioned upon Alltel's receipt of a private letter ruling from the IRS (which Alltel received on April 7, 2006) to the effect that the spin-off, including (i) the contribution of the wireline business to Spinco, (ii) the receipt by Alltel of Spinco debt securities and the special dividend, (iii) the exchange of Spinco debt securities for Alltel debt, and (iv) the distribution of Spinco stock to the Exchange Agent on behalf of Alltel stockholders, will qualify as tax-free to Alltel, Spinco and the Alltel stockholders for United States federal income tax purposes under Sections 355, 368 and related provisions of the Code. The spin-off is also conditioned upon the receipt by Alltel of an opinion of Skadden, Arps, Slate, Meagher & Flom LLP, counsel to Alltel, to the effect that the spin-off will be tax-free to Alltel, Spinco and the stockholders of Alltel under Section 355 and related provisions of the Code. The opinion will rely on the IRS letter ruling as to matters covered by the ruling. The opinion will be based on, among other things, certain assumptions and representations as to factual matters made by Alltel, Spinco and Valor, which, if incorrect or inaccurate in any material respect, would jeopardize the conclusions reached by counsel in its opinion. The opinion will not be binding on the IRS or the courts, and the IRS or the courts may not agree with the opinion.

As set forth in the IRS letter ruling and the tax opinion attached as an exhibit to this registration statement: (i) no gain or loss will be recognized by (and no amount will be included in the income of) Alltel common stockholders upon the receipt by the exchange agent on their behalf of shares of Spinco common stock in the spin-off; (ii) the aggregate tax basis of the Alltel common stock and the Spinco common stock in the hands of each Alltel common stockholder after the spin-off will equal the aggregate tax basis of the Alltel common stock held by the stockholder immediately before the spin-off, allocated between the Alltel common stock and the Spinco common stock in proportion to the relative fair market value of each on the date of the spin-off; and (iii) the holding period of the Spinco common stock received by an Alltel common stockholder will include the holding period at the time of the spin-off of the Alltel common stock on which the distribution is made.

Although a private letter ruling from the IRS generally is binding on the IRS, if the factual representations or assumptions made in the letter ruling request are untrue or incomplete in any material respect, then Alltel will not be able to rely on the ruling. Furthermore, the IRS will not rule on whether a distribution satisfies certain requirements necessary to obtain tax-free treatment under Section 355 of the Code. Rather, the private letter ruling is based upon representations by Alltel that these conditions have been satisfied, and any inaccuracy in such representations could invalidate the ruling.

The spin-off would become taxable to Alltel pursuant to Section 355(e) of the Code if 50% or more of the shares of either Alltel common stock or Spinco common stock (including common stock of Windstream, as a successor to Spinco) were acquired, directly or indirectly, as part of a plan or series of related transactions that included the spin-off. Because the Alltel stockholders will own more than 50% of the Windstream common stock following the merger, the merger, standing alone, will not cause the spin-off to be taxable to Alltel under Section 355(e). However, if the IRS were to determine that other acquisitions of Alltel common stock or Valor common stock, either before or after the spin-off and the merger, were part of a plan or series of related transactions that included the spin-off, such determination could result in the recognition of gain by Alltel under Section 355(e). In any such case, the gain recognized by Alltel likely would include the entire fair market value of the stock of Spinco, and thus would be very substantial. In connection with the request for the IRS private letter rulings and the opinion of Alltel's counsel, Alltel has represented that the spin-off is not part of any such plan or series of related transactions. In certain circumstances, under the merger agreement, Windstream would be required to indemnify Alltel against tax-related losses to Alltel that arise as a result of disqualifying actions taken by Windstream or its subsidiaries after the distribution and the merger. See *The Merger Agreement-Tax Matters* beginning on page 90. If Alltel should recognize gain on the spin-off for reasons not related to a disqualifying action by Windstream, Alltel would not be entitled to be indemnified under the merger agreement. Even if Section 355(e) were to cause the spin-off to be taxable to Alltel, the spin-off would remain tax-free to Alltel's stockholders.

United States Treasury regulations require each Alltel stockholder that receives stock in a spin-off to attach to the stockholder's United States federal income tax return for the year in which the spin-off occurs a

Table of Contents

detailed statement setting forth certain information relating to the tax-free nature of the spin-off. Shortly after the spin-off, Alltel will provide stockholders who will receive Windstream common stock in the spin-off with the information necessary to comply with that requirement.

The Merger

Skadden, Arps, Slate, Meagher & Flom LLP, counsel to Alltel, has delivered to Alltel its legal opinion, and Kirkland & Ellis LLP, counsel to Valor, has delivered to Valor its legal opinion, each attached as an exhibit to this registration statement and each to the effect that, on the basis of the facts, assumptions and representations set forth in such opinion and the representations and covenants set forth in certificates obtained from officers of Alltel, Spinco and Valor, the merger will be treated as a tax-free reorganization within the meaning of Section 368(a) of the Code. Any change in currently applicable law, which may or may not be retroactive, or the failure of any factual representation or assumption to be true, correct and complete in all material respects, could affect the validity of the Skadden, Arps, Slate, Meagher & Flom LLP opinion and/or the Kirkland & Ellis LLP opinion. An opinion of counsel represents counsel's best legal judgment and is not binding on the Internal Revenue Service or on any court.

It is a condition to the obligations of Alltel, Spinco and Valor to consummate the merger that Alltel and Spinco receive a private letter ruling from the IRS and the opinion of Skadden, Arps, Slate, Meagher & Flom LLP, described above, to the effect that the spin-off will qualify as tax-free to Alltel, Spinco and the Alltel stockholders for United States federal income tax purposes under Sections 355, 368 and related provisions of the Code. It is a further condition to the merger that Alltel and Spinco receive the opinion of Skadden, Arps, Slate, Meagher & Flom LLP, and that Valor receive the opinion of Kirkland & Ellis LLP, both to the effect that the merger will be treated as a tax-free reorganization within the meaning of Section 368(a) of the Code, which opinions will be based on private letter rulings of the IRS and on the facts, assumptions and representations set forth in each of such opinions and the representations and covenants set forth in updated officer's certificates to be provided by Alltel, Spinco and Valor at the time of closing.

As set forth in the tax opinions attached as exhibits to this registration statement: (i) Alltel common stockholders will not recognize gain or loss on the exchange of their Spinco common stock (received by the exchange agent on their behalf in the spin-off) for shares of Valor common stock pursuant to the merger, except to the extent of any cash received in lieu of a fractional share of Valor common stock; (ii) an Alltel stockholder's tax basis in the Valor common stock received pursuant to the merger (including any fractional share interest deemed to be received and exchanged for cash) will equal the stockholder's tax basis in the Spinco common stock surrendered in exchange therefor; (iii) an Alltel stockholder's holding period for the Valor common stock received pursuant to the merger will include the holding period for the shares of Spinco common stock surrendered in exchange therefor; (iv) neither Spinco nor Valor will recognize any gain or loss in the merger; and (v) Valor stockholders will not recognize gain or loss in the merger.

Alltel stockholders will not be entitled to receive any fractional shares of Valor common stock in the merger. Alltel stockholders otherwise entitled to receive fractional shares will instead be entitled to receive an amount in cash equal to (x) the closing sale price per share of Valor common stock on the NYSE on the business day preceding the merger, multiplied by (y) the fraction of a share of Valor common stock to which such stockholder would otherwise have been entitled. An Alltel stockholder generally will recognize capital gain or loss on any cash received in lieu of a fractional share of Valor common stock equal to the difference between the amount of cash received and the tax basis allocated to such fractional share. Such gain or loss will constitute long-term capital gain or loss if the holding period in the Spinco common stock surrendered in the merger (which, as described above, will include the holding period for the Alltel common stock on which such Spinco stock is distributed in the spin-off) exceeds 12 months as of the date of the merger. The deductibility of capital losses is limited.

Non-corporate holders of Alltel common stock may be subject to information reporting and backup withholding tax on any cash payments received in lieu of a fractional share interest in Valor common stock. Any such holder will not be subject to backup withholding tax, however, if such holder furnishes a correct taxpayer identification number and certifies that such holder is not subject to backup withholding tax, on the

Table of Contents

substitute Form W-9 or successor form included in the letter of transmittal to be delivered to the holder following the completion of the merger or is otherwise exempt from backup withholding tax. Any amounts withheld under the backup withholding tax rules will be allowed as a refund or credit against a holder's United States federal income tax liability, provided that the holder furnishes the required information to the Internal Revenue Service.

Holders who receive Valor common stock as a result of the merger will be required to retain records pertaining to the merger and will be required to file with their United States federal income tax return for the year in which the merger takes place a statement setting forth certain facts relating to the merger.

THE MERGER AGREEMENT

The following is a summary of selected material provisions of the merger agreement, as amended by the first amendment to the merger agreement. This summary is qualified in its entirety by reference to the merger agreement and the first amendment thereto, which are incorporated by reference in their entirety and attached to this proxy statement/prospectus-information statement as Annex A-1 and Annex A-2, respectively. We urge you to read these documents in their entirety. The merger agreement and the first amendment thereto have been included to provide you with information regarding their terms and have been publicly filed with the Securities and Exchange Commission. These documents are not intended to provide any other factual information about Alltel, Spinco, Valor or the combined company following completion of the merger. Such information can be found elsewhere in this proxy statement/prospectus-information statement.

The merger agreement, as amended, contains representations and warranties Alltel, Spinco and Valor made to each other. The assertions embodied in those representations and warranties are qualified by information in confidential disclosure schedules that Alltel, Spinco and Valor have exchanged in connection with signing the merger agreement. The disclosure schedules contain information that modifies, qualifies and creates exceptions to the representations and warranties set forth in the attached merger agreement. Accordingly, you should not rely on the representations and warranties as characterizations of the actual state of facts, since they are modified in important part by the underlying disclosure schedules. These disclosure schedules contain information that has been included in Alltel and Valor's general prior public disclosures, as well as potential additional non-public information. Moreover, information concerning the subject matter of the representations and warranties may have changed since the date of the agreement, which subsequent information may or may not be fully reflected in the companies' public disclosures. We do not believe that the disclosure schedules contain information securities laws require us to publicly disclose other than information that has already been so disclosed.

Amendment No. 1 to the Merger Agreement

On May 18, 2006, Alltel, Spinco and Valor entered into the first amendment to the merger agreement to change the form of amended and restated certificate of incorporation that would serve as the charter for the surviving corporation. The form had originally contemplated a classified board being implemented and the authorized common stock of the surviving corporation being increased to 2,000,000,000 shares. The first amendment deleted the provision regarding the classified board of directors and lowered the increase in authorized shares of common stock from 2,000,000,000 to 1,000,000,000.

The Merger

Under the merger agreement and in accordance with Delaware law, Spinco will merge with and into Valor. As a result of the merger, the separate corporate existence of Spinco will terminate and Valor will continue as the surviving corporation. For ease of reference, throughout this proxy statement/prospectus information statement we will refer to Windstream Corporation, the new company formed by the merger of Valor and Spinco as Windstream.

Effective Time

The merger will become effective at the time of filing of a certificate of merger with the Secretary of State of the State of Delaware or at such later time as Alltel, Spinco and Valor may agree. The closing date of

Table of Contents

the merger will be a date to be specified by the parties which will be not later than two business days after the satisfaction or waiver of the conditions precedent to the merger.

Merger Consideration

The merger agreement provides that Valor will issue in the aggregate to holders of Alltel common stock a number of Valor shares equal to (a) the number of Valor shares outstanding as the effective time of the merger multiplied by (b) 5.667, which we refer as the aggregate merger consideration. Each share of Spinco common stock which Alltel stockholders will be entitled to receive in the distribution will be converted into the right to receive a number of Valor shares equal to (x) the aggregate merger consideration, divided by (y) the number of Spinco shares outstanding as the effective time of the merger. The calculation of the merger consideration as set forth in the merger agreement will result in Alltel's stockholders collectively holding approximately 85% of the outstanding equity interests of Windstream immediately after the merger and the stockholders of Valor collectively holding the remaining approximately 15% of such equity interests.

Distribution of Per Share Merger Consideration

Prior to the effective time of the merger, Valor will deposit with the distribution agent certificates or book-entry authorizations representing the shares of Valor common stock for the benefit of the Alltel stockholders entitled to receive shares of Spinco common stock in the distribution. Each such Alltel stockholder will be entitled to receive the number of whole shares of Valor common stock (in lieu of the shares of Spinco common stock otherwise distributable to such stockholder) that such stockholder has the right to receive pursuant to the merger agreement. Immediately following the merger, the distribution agent will distribute these shares of Valor common stock to such persons.

Treatment of Fractional Shares

No fractional shares of Valor common stock will be issued pursuant to the merger. Alltel stockholders otherwise entitled to receive fractional shares will instead be entitled to receive an amount in cash equal to (x) the closing sale price per share of Valor common stock on the NYSE on the business day preceding the merger, multiplied by (y) the fraction of a share of Valor common stock to which such stockholder would otherwise have been entitled. Alternatively, Valor has the option of instructing the distribution agent to aggregate all fractional shares of Valor common stock, sell such shares in the public market and distribute to holders of Alltel common stock, who otherwise would have been entitled to such fractional shares, a pro rata portion of the proceeds of such sale.

Officers and Directors of Windstream

The parties to the merger agreement have agreed that, following the merger, Jeffery R. Gardner, who recently served as Executive Vice President Chief Financial Officer of Alltel, will serve as the Chief Executive Officer of Windstream, and Francis X. Frantz, who recently served as the Executive Vice President External Affairs, General Counsel and Secretary of Alltel will serve as Chairman of the Board of Directors of Windstream.

The merger agreement also provides that following the merger, the Board of Directors of Windstream will consist of the following nine members: Messrs. Frantz and Gardner, six directors to be designated by Alltel and one director to be designated by Valor, with a majority of the board being independent within the meaning of the NYSE's rules.

Stockholders Meeting

Under the terms of the merger agreement, Valor agreed to call a special meeting of its stockholders for the purpose of voting upon the adoption of the merger agreement, the increase of the authorized number of shares of Valor's common stock pursuant to the merger, and the issuance of shares pursuant to the merger and any related matters. Valor will satisfy this merger agreement requirement by asking its stockholders to vote on these matters at its annual stockholder meeting that will take place on Tuesday, June 27, 2006. Valor also agreed to deliver this proxy statement/prospectus-information statement to its stockholders in accordance with applicable law and its organizational documents.

Table of Contents

In addition, subject to certain exceptions as described herein (see The Merger Agreement – No Solicitation on page 84) the Board of Directors of Valor is obligated to recommend that Valor's stockholders adopt the merger agreement and include such recommendation in this proxy statement/prospectus-information statement.

Related Transactions

The merger agreement provides that Alltel and Spinco must take, or cause to be taken, all actions, and do, or cause to be done, all things necessary, proper or advisable that are required to consummate and make effective the contribution transaction and the distribution transaction in accordance with the terms of the distribution agreement. Also, under the terms of the merger agreement, Alltel and Spinco agreed to each execute at or prior to the merger the Tax Sharing Agreement, the Transition Services Agreement and the Employee Benefits Agreement, as well as the Distribution Agreement and all other agreements, if any, required in connection with the contribution transaction and the distribution transaction.

Financing

The merger agreement provides that Alltel and Spinco (and if requested, Valor) will use their respective reasonable best efforts to arrange financing as described in the merger agreement. See Financing of Windstream beginning on page 103.

Corporate Offices

After the merger, the location of the headquarters and principal executive offices of Windstream will be the executive offices of Spinco in Little Rock, Arkansas.

Representations and Warranties

The merger agreement contains representations and warranties between Alltel and Spinco, on the one hand, and Valor, on the other. These representations and warranties, which are substantially reciprocal, relate to, among other things:

due organization, good standing and qualification;

capital structure;

authority to enter into the merger agreement (and the other agreements executed in connection therewith) and no conflicts with or violations of governance documents or laws;

affiliate transactions.

Valor has also made representations and warranties to Alltel and Spinco relating to the required vote of Valor stockholders to adopt the merger agreement, compensation payable to financial advisors, the inapplicability to the merger of state anti-takeover laws and filings with the Securities and Exchange Commission.

Alltel has also made representations to Valor regarding Alltel's capacity as a party to the merger agreement.

Many of the representations and warranties contained in the merger agreement are subject to materiality qualifications, knowledge qualifications, or both, and none of the representations and warranties survive the effective time of the merger.

Conduct of Business Pending Closing

Each of the parties has undertaken to perform certain covenants in the merger agreement and agreed to restrictions on its activities until the effective time of the merger. In general, Spinco and Valor are required to conduct their business in the ordinary course, to use all reasonable efforts to preserve their business organizations, to keep available the services of the current officers and other key employees and preserve their relationships with customers and suppliers with the intention that the ongoing businesses shall not be materially impaired. Each of Spinco and Valor have agreed to specific restrictions relating to the following:

declaring or paying dividends in respect of its capital stock; provided, Valor may, and intends to, continue paying quarterly dividends at an annual rate of \$1.44 per share in accordance with its existing dividend policy until the transaction closes;

splitting, combining or reclassifying its capital stock or issuing securities in respect of, in lieu of or in substitution for its capital stock;

repurchasing, redeeming or otherwise acquiring its capital stock;

issuing, delivering, or selling any shares of its capital stock or any securities convertible into or exercisable for, or any right to acquire, capital stock;

making acquisitions of a substantial equity interest or material assets of another entity or selling, leasing, disposing of or otherwise encumber assets, other than inventory in the ordinary course of business consistent with past practice;

incurring debt, other than under existing agreements or in the ordinary course of business which is not material;

incurring any capital expenditures other than in the ordinary course of business consistent with past practice;

changing its accounting methods other than in accordance with accounting principles generally accepted in the United States;

making or rescinding any material tax elections or settling or compromising any material income tax liabilities, amending any material tax returns and changing any method of reporting income or deductions;

paying, discharging or satisfying any material claims, liabilities or obligations (absolute, accrued, asserted or unasserted, contingent or otherwise), other than in the ordinary course of business consistent with past practice; and

taking or agreeing or committing to take any action that would result in any of such party's representations and warranties set forth in the merger agreement or the other transaction agreements being or becoming untrue or in

any of the conditions set forth in merger agreement not being satisfied at the effective time of the merger.

In addition, Valor agreed to additional restrictions relating to the following:

amending its organizational documents in any manner that would prevent or materially impair or delay the consummation of the transactions contemplated by the merger agreement;

compensation and benefit matters with respect to directors, officers and employees;

establishing, adopting, entering into, terminating or amending any collective bargaining agreement;

complete or partial liquidation or dissolution of Valor or any of its subsidiaries;

entering into or amending agreements or arrangements with related parties; and

modifying, amending, terminating, renewing or failing to use reasonable best efforts to renew any material contract or waiving, releasing or assigning any material rights or claims except in the ordinary course of business consistent with past practice.

Alltel has also agreed to cause Spinco to adhere to the covenants listed above.

Each party has also agreed to use its reasonable best efforts to cause the spin-off or merger to qualify as generally tax-free transactions.

Proxy Materials

The parties agreed to prepare this proxy statement/ prospectus-information statement and the Registration Statement on Form S-4 of which it is a part, and to file them with the SEC and use all reasonable efforts to have the proxy statement cleared by the SEC and the registration statement declared effective by the SEC. Valor is required under the terms of the merger agreement to mail this proxy statement/ prospectus-information statement to its stockholders as promptly as practicable after the registration statement was declared effective.

Valor has agreed to make application to the NYSE for the listing of the shares of its common stock to be issued in connection with the merger and use all reasonable best efforts to cause such shares to be approved for listing.

Reasonable Best Efforts

The merger agreement provides that each party to the merger agreement, subject to customary limitations, will use its reasonable best efforts to take promptly all actions and to assist and cooperate with the other parties in doing all things necessary, proper or advisable under applicable laws and regulations to consummate the merger and the transactions contemplated by the merger agreement. Such actions include, without limitation:

the obtaining of all necessary actions or non-actions, waivers, consents, and approvals;

the making of all necessary registrations and filings pursuant to the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended;

the filing of all applications necessary to obtain state public service, or public utility commissions, and FCC consent to the transfer of control of certain licenses held by Spinco;

the taking of all steps as may be necessary to obtain an approval or waiver from, or to avoid an action or proceeding by, any governmental authority; and

the defending of any lawsuits or other legal proceedings.

Alltel, Spinco and Valor also agreed to use all reasonable efforts to resolve any objections or challenges from a regulatory authority.

Employee Matters

The merger agreement provides that, as of the closing of the merger, Windstream will continue to employ all of the employees of Spinco, except that the merger agreement does not require Windstream to retain such employees for any specific length of time. Subject to certain exceptions, Windstream is obligated to cause such employees to receive substantially the same level of benefits, in the aggregate, as provided under Spinco's employee benefit plans for a period of one year after the merger and to cause each such employee to be credited with service under the applicable benefit plans for all service earned with Spinco or Alltel, so long as such recognition will not result in duplicative benefits.

In addition, Windstream is obligated to assume, honor and discharge when due all liabilities of Spinco associated with such employees and to issue to such employees restricted shares of common stock of Windstream in such amounts, and on such terms and conditions as set forth in the Employee Benefits Agreement (see *Additional Agreements Related To The Spin-Off And The Merger - Employee Benefits Agreement*), at or as soon as practicable after the effective time of the merger. The merger agreement authorizes up to 2.8 million restricted shares of Valor common stock to be awarded. The restrictions on such shares will lapse on a date to be determined by the Board of Directors of Windstream.

No Solicitation

The merger agreement contains detailed provisions restricting Valor's ability to seek an alternative transaction. Under these provisions, Valor agrees that it and its subsidiaries will not, and will use reasonable best efforts to ensure that its and its subsidiaries' officers, directors, employees and agents do not, directly or indirectly:

knowingly solicit, initiate or encourage any inquiry or proposal that constitutes or could reasonably be expected to lead to an acquisition proposal;

provide any non-public information or data to any person relating to or in connection with an acquisition proposal, engage in any discussions or negotiations concerning an acquisition proposal, or otherwise knowingly facilitate any effort or attempt to make or implement an acquisition proposal;

approve, recommend, agree to or accept, or propose publicly to approve, recommend, agree to or accept, any acquisition proposal; or

approve, recommend, agree to or accept, or propose to approve, recommend, agree to or accept, or execute or enter into, any letter of intent, agreement in principle, merger agreement, acquisition agreement, option agreement or other similar agreement related to any acquisition proposal.

Valor also agreed to cease and cause to be terminated any existing activities, discussions or negotiations with any persons conducted heretofore with respect to any acquisition proposal.

The merger agreement provides that the term "acquisition proposal" means any proposal regarding: any merger, consolidation, share exchange, business combination, recapitalization or other similar transaction or series of related transactions involving Valor or any of its significant subsidiaries;

any direct or indirect purchase or sale, lease, exchange, transfer or other disposition of the consolidated assets (including stock of Valor's subsidiaries) of Valor and its subsidiaries, taken as a whole, constituting 15% or more of the total consolidated assets of Valor and its subsidiaries, taken as a whole, or accounting for 15% or more of the total consolidated revenues of Valor and its subsidiaries, taken as a whole, in any one transaction or in a series of transactions;

any direct or indirect purchase or sale of or tender offer, exchange offer or any similar transaction or series of related transactions engaged in by any person involving 15% or more of the outstanding shares of Valor common stock; or

any other substantially similar transaction or series of related transactions that would reasonably be expected to prevent or materially impair or delay the consummation of the transactions contemplated by the merger agreement or the other agreements executed in connection therewith.

Table of Contents

The merger agreement does not prevent Valor or its Board of Directors from engaging in any discussions or negotiations with, or providing any non-public information to, any person in response to an unsolicited bona fide superior proposal or acquisition proposal that the Valor board concludes in good faith could lead to a superior proposal. However, Valor or its Board of Directors may take such actions only if and to the extent that:

Valor stockholders have not yet adopted and approved the merger agreement;

the Valor board, after consulting with its legal advisors, determines in good faith, that failure to take such action would be a breach of its fiduciary duties to stockholders under applicable laws;

before approving or recommending a proposal or terminating the merger agreement, the Valor board has provided Alltel with at least three business days' notice of such action;

before providing any information or data to any person in connection with an acquisition proposal by that person, Valor's Board of Directors receives from that person an executed confidentiality agreement with terms substantially the same as those contained in the confidentiality agreement between Alltel and Valor; and

before providing any non-public information or data to any person or entering into discussions with any person, Valor's Board of Directors promptly notifies Alltel of any such inquiry, proposal or offer received from, any information requested by, or any discussions or negotiations sought to be initiated or continued with, that person and identifies the material terms and conditions of the acquisition proposal and the identity of the person making such acquisition proposal.

The merger agreement provides that the term "superior proposal" means any proposal or offer made by a third party to acquire, directly or indirectly, by merger, consolidation or otherwise, for consideration consisting of cash and/or securities, at least a majority of the shares of Valor's common stock then outstanding or all or substantially all of the assets of Valor and its subsidiaries and otherwise on terms which the Valor Board of Directors (after consultation with its legal and financial advisors) determines in its good faith judgment to be more favorable to its stockholders than the merger.

The Board of Directors of Valor may withdraw its recommendation that Valor stockholders adopt the merger agreement and approve the merger upon three business days' written notice to Alltel if, after consulting with its legal advisors, it concludes in good faith that failure to take such action would be a breach of its fiduciary duties to stockholders under applicable laws.

In addition, the merger agreement does not prevent Valor or its Board of Directors from disclosing to its stockholders a position with respect to a tender offer as required by law. However, neither Valor nor its Board of Directors is permitted to approve or recommend, or propose publicly to approve or recommend, an acquisition proposal unless it has first terminated the merger agreement and has otherwise complied with the provisions thereof (including, without limitation, payment to Alltel of the termination fee).

Insurance and Indemnification

Under the terms of the merger agreement, the parties agreed that all rights to indemnification as provided in Spinco and Valor's respective certificate of incorporation or bylaws in favor of persons who are or were directors, officers or employees of such companies will survive for a period of six years following the merger. The parties also agreed that for a period of six years following the merger, Windstream will indemnify the current and former directors, officers or employees of Spinco and Valor to the fullest extent permitted by applicable law. The merger agreement further requires that, for six years following the effective time of the merger, subject to certain limitations, Windstream will maintain coverage under a director and officer liability insurance policy, with respect to claims arising from facts or events that occurred on or before the effective time of the merger, at a level at least equal to that which Alltel is maintaining prior to the merger, except that Windstream will not be required to pay an annual premium for such insurance in excess of \$2,000,000.

Amendment of Company Securityholders Agreement

Valor has agreed to use its reasonable best efforts to cause the Securityholders Agreement, dated as of February 14, 2005, by and among Valor and Welsh, Carson, Anderson & Stowe and certain individuals affiliated therewith (which we collectively refer to as WCAS), Vestar Capital Partners and certain individuals affiliated therewith (which we collectively refer to as Vestar), and certain of other stockholders of Valor, to be amended effective as of the effective time of the merger, which will provide that, among other things, following the merger:

WCAS will agree not to sell, transfer or otherwise dispose of Valor shares for a period of 90 days after consummation of the merger;

Windstream will file and use reasonable best efforts to have declared effective an evergreen shelf registration statement permitting sales of securities of Windstream by WCAS and Vestar as soon as practicable after consummation of the merger (provided that WCAS will not be able to sell shares of Windstream prior to the expiration of the lock-up referred to above) which will remain effective until each of WCAS and Vestar can sell all of its Windstream securities under Securities Act Rule 144 without volume limitations;

if requested by the holders of at least 50% of the outstanding registrable securities (initially held by WCAS, Vestar and their respective affiliates), Valor will conduct one underwritten offering, including management participation in road shows and similar customary obligations (underwriters to be selected by Valor); and

WCAS and Vestar will have customary piggyback registration rights in connection with any registration by Valor of sales of its equity securities (other than on Forms S-4 or S-8), whether for Valor's own account or for the benefit of one or more stockholders exercising demand registration rights.

Dividend Policy of Windstream

The merger agreement provides that the initial dividend policy of Windstream (which may be changed at any time by Windstream's Board of Directors) will provide for the payment, subject to applicable law, of regular quarterly dividends on each issued and outstanding share of common stock of \$0.25 per share. See The Transactions' Dividend Policy.

Conditions to the Completion of the Merger

The respective obligations of Valor, Alltel and Spinco to complete the merger are subject to the satisfaction or waiver of various conditions, including:

the completion of the spin-off transaction in accordance with the terms of the merger agreement and the distribution agreement;

the termination or expiration of the applicable waiting period under the Hart-Scott-Rodino Act and receipt of certain other approvals as set forth in the merger agreement;

receipt by Alltel of a legal opinion from Alltel's counsel to the effect that the spin-off will qualify as tax-free to Alltel, Spinco and the stockholders of Alltel under Section 355 and related provisions of the Code, which opinion will rely on the IRS rulings as to matters covered by the rulings;

receipt by each of Alltel and Spinco, on the one hand, and Valor, on the other hand, of a legal opinion stating that the merger will constitute a reorganization under Section 368(a) of the Code;

Alltel and Spinco's obligations to complete the merger are also subject to the satisfaction or waiver of the following additional conditions:

performance by Valor, in all material respects, of all its obligations and compliance by Valor, in all material respects, with all covenants required by the merger agreement, as certified in writing by a senior officer of Valor;

the accuracy of Valor's representations and warranties set forth in the merger agreement (subject to certain exceptions), without any qualification as to materiality or material adverse effect set forth therein, except where the failure of such representations and warranties to be true and correct would not, individually or in the aggregate, reasonably be expected to have a material adverse effect on Valor and its subsidiaries, as certified in writing by a senior officer of Valor;

the absence of any event, occurrence, development or state of circumstances or facts that has had, individually or in the aggregate, a material adverse effect on Valor, except as previously disclosed; and

delivery of evidence, in form and substance reasonably satisfactory to Alltel and Spinco, demonstrating that Valor's securityholders agreement has been amended in accordance with the merger agreement.

Valor's obligation to complete the merger is also subject to the satisfaction or waiver of the following additional conditions:

Termination

The merger agreement may be terminated by the mutual written consent of Alltel, Spinco and Valor. Additionally, either Alltel, Spinco or Valor may terminate the merger agreement if:

the merger is not consummated by December 8, 2006 through no fault of the party seeking to terminate the merger agreement;

there are final, non-appealable legal restraints preventing the merger and the party seeking to terminate the merger agreement has used all reasonable best efforts to remove such legal restraints; or

the requisite Valor stockholder approval shall have failed to be obtained at the stockholders' meeting, except that Valor will not be permitted to terminate the merger agreement because of the failure to obtain the stockholder approval if such failure was caused by (i) Valor's actions or inactions that constitute a material breach of the merger agreement or (ii) a material breach of the voting agreement by any party thereto other than Spinco.

Either Alltel or Spinco may terminate the merger agreement at any time prior to the merger if:

Valor has breached or failed to perform in any material respect a representation, warranty, covenant or agreement contained in the merger agreement, resulting in a failure of a condition to Valor's obligation to effect the merger, and such breach cannot be cured by December 8, 2006;

the Board of Directors of Valor withdraws or modifies its approval or recommendation of the merger or the merger agreement or approves or recommends (or approves to recommend) to the Valor stockholders an acquisition proposal; or

Valor fails to call and hold stockholders' meeting within sixty (60) days after the effectiveness of the registration statement to which this proxy statement/ prospectus-information statement is a part.

Valor may terminate the merger agreement at any time prior to the merger if:

either Alltel or Spinco breached or failed to perform in any material respect a representation, warranty, covenant or agreement contained in the merger agreement, resulting in a failure of a condition to the Alltel or Spinco's obligations to effect the merger, and such breach cannot be cured by December 8, 2006; or

the Valor Board of Directors determines in good faith that an acquisition proposal constitutes a superior proposal and (i) Valor notifies Alltel of the acquisition proposal in accordance with the merger agreement, (ii) simultaneously with terminating the merger agreement Valor enters into a definitive agreement to effect the superior proposal, and (iii) Valor pays to Alltel the termination fee described below.

Termination Fee Payable in Certain Circumstances

Valor has agreed to pay Alltel a termination fee of \$35 million in the event that:

Valor terminates the merger agreement because its Board of Directors determines in good faith that an acquisition proposal constitutes a superior proposal;

Alltel and Spinco terminate the merger agreement because the Board of Directors of Valor withdraws or modifies its approval or recommendation of the merger or recommends an acquisition proposal to the Valor stockholders; or

any person makes an acquisition proposal and thereafter the merger agreement is terminated (i) by Valor, Alltel or Spinco because either the merger is not consummated by December 8, 2006 or if the requisite Valor stockholder approval shall have failed to be obtained, or (ii) by Alltel or Spinco

Table of Contents

because Valor fails to call and hold stockholders meeting within sixty (60) days after the effectiveness of the registration statement to which this proxy statement/ prospectus-information statement is a part, and, in each of the following cases, within twelve (12) months after the termination of the merger agreement:

Valor is acquired by any merger, business combination or other similar transaction;

Valor disposes of 15% or more of the total consolidated assets of Valor and its subsidiaries, taken as a whole, or accounting for 15% or more of the total consolidated revenues of Valor and its subsidiaries, taken as a whole;

any person or entity acquires 15% or more of the outstanding shares of Valor common stock;

any other substantially similar transaction that would reasonably be expected to prevent or materially impair or delay the consummation of merger is consummated; or

Valor enters into a definitive agreement with respect to the foregoing.

Alltel has agreed to pay Valor a termination fee of \$35 million in the event that:

Alltel and Spinco or Valor terminates the merger agreement because the merger is not consummated by December 8, 2006 and at the time of such termination, all of the conditions to the transactions in the merger agreement have been satisfied other than such conditions which by their terms are intended to be satisfied contemporaneously with the closing or such condition regarding the completion of the financing of the transaction; or

Valor terminates the merger agreement because either Alltel or Spinco breached or failed to perform in any material respect a representation, warranty, covenant or agreement contained in the merger agreement, resulting in a failure of the conditions to the Alltel or Spinco's obligations regarding the completion of the financing of the transaction, and such breach cannot be cured by December 8, 2006.

In addition, Alltel has agreed to pay Valor a termination fee of \$20 million in the event that:

Alltel and Spinco or Valor terminates the merger agreement because the merger is not consummated by December 8, 2006 and at the time of such termination, all of the conditions to the transactions in the merger agreement have been satisfied other than such conditions which by their terms are intended to be satisfied contemporaneously with the closing or such conditions regarding:

the receipt by Alltel and Spinco (and, to the extent applicable, Valor) of the requisite Internal Revenue Service rulings relating to the spin-off and the merger and the receipt by Alltel of a legal opinion from its counsel to the effect that the spin-off will be tax-free to Alltel, Spinco and the stockholders of Alltel under Section 355 and related provisions of the Code; or

the receipt by each of Alltel and Spinco, on the one hand, and Valor, on the other hand, of a legal opinion stating that the merger will constitute a reorganization under section 368(a) of the Internal Revenue Code; or

Valor terminates the merger agreement because either Alltel or Spinco breached or failed to perform in any material respect a representation, warranty, covenant or agreement contained in the merger agreement, resulting in a failure of the two conditions to the Alltel or Spinco's obligations listed immediately above, and such breach cannot be cured by December 8, 2006.

Indemnification

Under the merger agreement, Windstream is obligated to indemnify Alltel and its affiliates against all losses and expenses arising out of any untrue statement or alleged untrue statement of a material fact contained in this proxy statement/ prospectus-information statement, or the registration statement to which it is part, or any omission or alleged omission to state a material fact necessary to make the statements contained herein or therein not misleading. Windstream is not responsible, however, for information provided by Alltel as to itself and its subsidiaries, including Spinco.

Table of Contents

The merger agreement also provides that Alltel will indemnify Windstream and its affiliates against all losses and expenses arising out any untrue statement or alleged untrue statement of a material fact contained in this proxy statement/ prospectus-information statement, or the registration statement to which it is part, or any omission or alleged omission to state a material fact necessary to make the statements contained herein or therein not misleading, but only with respect to information provided by Alltel as to itself and its subsidiaries, including Spinco.

Amendments

The merger agreement may be amended by the parties at any time before or after approval by Valor stockholders, provided that, after approval by Valor stockholders, no amendment which by law or under the rules of any stock exchange or automated inter-dealer quotation system requires further stockholder approval may be made to the merger agreement without obtaining such further approval. All amendments to the merger agreement must be in writing and signed by each party.

Expenses

The merger agreement provides that each party will pay its own fees and expenses in connection with the merger agreement, the merger and the transactions contemplated by the merger agreement, whether or not the merger is completed, except that if the merger is consummated, all costs and expenses incurred in connection with the merger agreement, the merger and the transactions contemplated by the merger agreement will be paid by Windstream, including all underwriter s or placement agent s discounts, fees and expenses associated with the financing of Spinco and the debt exchange, and all broker, finder and similar advisory fees incurred by Alltel or Spinco in connection with the transactions contemplated by the merger agreement and the distribution agreement, subject to a cap on such fees.

Tax Matters

The merger agreement contains certain additional representations, warranties, covenants and indemnification provisions relating to the preservation of the tax-free status of (i) the contributions by Alltel to Spinco, (ii) the receipt by Alltel of the special dividend and the Spinco debt securities, (iii) the exchange of the Spinco debt securities for Alltel debt, (iv) the distribution of Spinco stock to the stockholders of Alltel and (v) the merger of Spinco and Valor (which the merger agreement refers to collectively as the tax-free status of the transactions). In particular, Spinco, Alltel and Valor each represented that it would examine all of the tax materials prepared in connection with obtaining the required tax rulings from the IRS and the required opinions of Alltel s and Valor s tax counsel, as well as the actual tax rulings and opinions, and that the facts and representations made in those rulings, opinions and other tax materials as to itself are or will be correct and complete in all material respects. In addition, Valor made further representations and warranties to Alltel and Spinco regarding the ownership of equity interests in Alltel by Valor and by certain controlling stockholders of Valor.

Valor also agreed to certain limitations on its and Windstream s future activities that restrict its ability to take actions that would jeopardize the tax-free status of the transactions (which actions the merger agreement refers to as disqualifying actions), and require it to take certain other actions in order to preserve the tax-free status of the transactions, including:

generally, not taking, or permitting any of its subsidiaries to take, any disqualifying action, provided that a disqualifying action would not include (i) an action taken pursuant to the terms of the transaction agreements, (ii) an action that would not have caused the tax-free status of the transactions to be lost, but for an action taken by Alltel or (iii) an action taken by Spinco prior to the distribution or taken solely to mitigate the adverse effects on the tax-free status of the transactions of an action taken by Spinco prior to the distribution;

generally, for two years after the distribution, not taking, or permitting any of its subsidiaries to take, an action that might be a disqualifying action, without receiving the prior determination of Alltel that the action would not jeopardize the tax-free status of the transactions;

Table of Contents

for two years after the distribution, not entering into any agreement, understanding or arrangement or engaging in any substantial negotiations with respect to any transaction involving the acquisition of Windstream stock or the issuance of shares of Windstream stock, or options to acquire or other rights in respect of such stock, in excess of a permitted basket of 71,130,989 shares (as adjusted for stock splits, stock dividends, recapitalizations, reclassifications and similar transactions), unless, generally, the shares are issued to qualifying Windstream employees or retirement plans, each in accordance with safe harbors under regulations issued by the IRS;

for two years after the distribution, not repurchasing Windstream shares, except to the extent consistent with guidance issued by the IRS;

for two years after the distribution, causing certain wholly-owned subsidiaries that were wholly-owned subsidiaries of Spinco at the time of the distribution to continue the active conduct of the Spinco business to the extent so conducted by those subsidiaries immediately prior to the distribution;

for two years after the distribution, not voluntarily dissolving, liquidating, merging or consolidating with any other person, unless (i) Windstream is the survivor of the merger or consolidation or (ii) prior to undertaking such action, Alltel has delivered a written determination to Windstream that such action would not jeopardize the tax-free status of the transactions.

Nevertheless, Windstream will be permitted to take any of the actions described above in the event that the IRS has granted a favorable ruling to Alltel or Windstream as to the effect of such action on the tax-free status of the transactions.

Valor and Spinco, on the one hand, and Alltel, on the other hand, agreed that, subject to redaction, each would furnish the other with a copy of any relevant documents delivered to the IRS. In addition, Valor agreed to take actions reasonably requested by Alltel intended to mitigate the effects of a breach by Spinco prior to the distribution date of a tax-related representation or covenant, provided that (i) Alltel would indemnify Valor for all reasonable costs and expenses of taking such actions and (ii) any such action did not and would not adversely impact in any material respect the business, operations or financial condition of Valor or any of its subsidiaries or divisions.

To the extent that the tax-free status of the transactions is lost because of a disqualifying action taken by Windstream or any of its subsidiaries after the distribution date, Windstream will be obligated to indemnify, defend and hold harmless Alltel and its subsidiaries (or any successor to any of them) from and against any and all tax-related losses incurred by Alltel. Tax related losses include not only taxes, as finally determined by the IRS, but also accounting, legal and other professional fees and court costs incurred in connection with such taxes, costs and expenses that resulted from adverse tax consequences to Alltel or Alltel stockholders, and any taxes imposed on the receipt of the indemnification payments.

Nevertheless, Windstream will not be obligated to indemnify Alltel as described above, if:

Alltel had delivered to Windstream a written determination that a potential disqualifying action would not jeopardize the tax-free status of the transactions (except to the extent that a disqualifying action resulted from the inaccuracy, incorrectness or incompleteness of any representation provided by Windstream to Alltel in respect of that determination);

the tax-related loss arose in respect of any action or transaction that was permitted to be taken without the consent of Alltel pursuant to the limitations described in the third preceding paragraph (except to the extent that, in the case of an action permitted pursuant to an IRS ruling, a disqualifying action resulted from the inaccuracy, incorrectness or incompleteness of any representation provided by Windstream to the IRS in connection with such ruling);

the tax-related loss arose in respect of any item of income, gain, deduction or loss that resulted from Alltel's preliminary internal restructuring or that was attributable, under certain provisions of the Code, to a predecessor of Alltel or Spinco; or

Table of Contents

the tax-related loss arose from the recognition of taxable income or gain by Alltel or any Alltel affiliate on the distribution, as a result of any deemed sale of Spinco stock by Alltel attributable to such stock being treated for federal income tax purposes as not having been distributed to Alltel's stockholders or any failure by Alltel to distribute an amount of Spinco stock constituting control of Spinco within the meaning of Section 368(c) of the Code as a result of such a deemed sale.

Alltel agreed to terminate as of the distribution date any and all existing tax sharing agreements and tax practices between Alltel or any subsidiary, other than Spinco or any Spinco subsidiary, on the one hand, and Spinco or any Spinco subsidiary, on the other hand.

The merger agreement provides that Alltel and Windstream will jointly control and cooperate on the defense of any third-party claim which could give rise to an indemnification payment by Windstream under the tax indemnity provisions of the merger agreement. Each party forfeited its control right if it made any public statement or filing, or took any action, materially inconsistent with any representation or warranty made by such party in the merger agreement or the tax materials. If either Alltel or Windstream failed to jointly defend any such claim, then the other party would solely defend such claim with the cooperation of the non-participating party, provided that Alltel could not compromise or settle any such claim without the prior written consent of Windstream. Each party agreed to pay its own costs and expenses incurred in defending any such claim.

THE DISTRIBUTION AGREEMENT

The following is a summary of selected material provisions of the distribution agreement. This summary is qualified in its entirety by reference to the distribution agreement, which is incorporated by reference in its entirety and attached to this proxy statement/ prospectus-information statement as Annex B. We urge you to read the distribution agreement in its entirety. The distribution agreement has been included to provide you with information regarding its terms and has been publicly filed with the Securities and Exchange Commission. It is not intended to provide any other factual information about Alltel, Spinco or Valor. Such information can be found elsewhere in this proxy statement/ prospectus-information statement.

The distribution agreement contains representations and warranties that Alltel and Spinco made to each other. The assertions embodied in those representations and warranties are qualified by information in confidential disclosure schedules that Alltel and Spinco have exchanged in connection with signing the distribution agreement. The disclosure schedules contain information that modifies, qualifies and creates exceptions to the representations and warranties set forth in the attached distribution agreement. Accordingly, you should not rely on the representations and warranties as characterizations of the actual state of facts, since they are modified in important part by the underlying disclosure schedules. These disclosure schedules contain information that has been included in Alltel general prior public disclosures, as well as potential additional non-public information. Moreover, information concerning the subject matter of the representations and warranties may have changed since the date of the agreement, which subsequent information may or may not be fully reflected in Alltel's public disclosures. We do not believe that the disclosure schedules contain information securities laws require us to publicly disclose other than information that has already been so disclosed.

General

The distribution agreement between Alltel and Spinco provides for, among other things, the principal corporate transactions required to effect the proposed distribution of Spinco common stock to Alltel stockholders and certain other terms governing the relationship between Alltel and Spinco with respect to or in consequence of the spin-off transaction.

Preliminary Transactions

Pursuant to the distribution agreement, Alltel will engage in a series of preliminary restructuring transactions to effect (i) the transfer to Spinco's subsidiaries of all of the assets relating to Alltel's wireline

Table of Contents

telecommunications business, including Alltel's ILEC, CLEC and internet access operations, related marketing and sales operations, and other operations comprising what is referred to in Alltel's Annual Report on Form 10-K for the fiscal year ended December 31, 2004 as the Wireline Segment of Alltel, as well as all of Alltel's directory publishing operations, telecommunication information services operations, product distribution operations (other than any such operations supporting Alltel's wireless telecommunications business), network management services operations, and wireline long-distance services operations (other than the fiber backbone supporting those operations and the revenues attributable to Alltel's wireless telecommunications business as a result of its use of the fiber backbone); and (ii) the transfer to Alltel's subsidiaries of all assets not relating to such businesses.

Following these preliminary restructuring transactions, and immediately prior to the effective time of the merger, Alltel will contribute all of the stock of the Spinco subsidiaries to Spinco in exchange for:

the issuance to Alltel of Spinco common stock to be distributed to the exchange agent for the benefit of Alltel's stockholders pro rata in the spin-off,

the payment of a special dividend to Alltel in an amount not to exceed Alltel's tax basis in Spinco (which is estimated to equal approximately \$2.275 billion), which Alltel will use to repurchase stock pursuant to a special stock buyback program authorized by the Alltel Board of Directors in connection with the spin-off, to repay outstanding indebtedness, or both, within one year following the spin-off, and

the distribution by Spinco to Alltel of certain Spinco debt securities, which Alltel intends to exchange for outstanding Alltel debt securities or otherwise transfer to Alltel's creditors representing approximately \$1.673 billion in debt reduction to Alltel.

Coordination of Asset Separation Transactions

The separation of the assets and liabilities of the Spinco Business from Alltel's remaining assets, as well as the terms of the various separation agreements and similar arrangements, between Alltel and Spinco will be subject to the review of a steering committee comprised of representatives designated by Alltel, Spinco and Valor. The Steering Committee will be comprised of up to two (2) designees selected by Alltel, up to two (2) designees selected by Spinco and up to two (2) designees selected by Valor, who shall be reasonably acceptable to Alltel and Spinco.

Spinco Financing

The distribution agreement provides that, prior to the distribution, Spinco will consummate certain financing transactions pursuant to which Spinco will borrow approximately \$3.978 billion through (1) a new senior secured credit agreements or the issuance of senior unsecured debt securities in an offering under Rule 144A, promulgated under the Securities Act of 1933, as amended, and (2) the distribution of the exchange notes to Alltel. All proceeds of the financing will be used to pay the consideration to be received by Alltel for the contribution (through payment of the special dividend and distribution of the exchange notes) and to pay related fees and expenses.

Alltel has received a commitment letter from J.P. Morgan Securities Inc., JPMorgan Chase Bank, N.A., Merrill Lynch, Pierce, Fenner & Smith Incorporated and Merrill Lynch Capital Corporation to provide Spinco with up to \$4.2 billion in senior secured credit facilities comprised of term loan facilities in an aggregate amount of up to \$3.7 billion and a revolving credit facility of up to \$500.0 million. For a more complete discussion of the financing of Windstream, see "Financing of Windstream" herein at page 103.

Net Debt Adjustment

The distribution agreement provides for an adjustment following completion of the merger to be paid by Alltel or Valor (as the surviving company in the merger), as the case may be, to the extent that the net indebtedness of Spinco following the merger is more or less than the sum of (x) \$4.2 billion plus (y) any fees and expenses related to Spinco's note offering and the distribution of the Spinco debt securities to Alltel (the

Table of Contents

sum of which we will refer to as Spinco's target indebtedness). If the net indebtedness of Spinco following the merger exceeds the Spinco's target indebtedness, Alltel is obligated to pay to Valor an amount equal to such excess. If the net indebtedness of Spinco following the merger is less than the Spinco's target indebtedness, Valor will pay to Alltel an amount equal to such deficit. The amount, if any, of the debt adjustment will be determined within 90 days of the closing date.

As a result of the transactions, Alltel will receive approximately \$4.2 billion in cash proceeds and debt reduction through the special dividend, the distribution of the exchange notes and the assumption by Windstream on a consolidated basis of approximately \$267 million in existing Spinco debt securities.

Covenants

Each of Alltel and Spinco have agreed to take specified actions after the signing of the distribution agreement. These actions include the following:

immediately prior to the spin-off, all material contracts, licenses, agreements, commitments and other arrangements, formal and informal, between Alltel and its subsidiaries, on the one hand, and Spinco and its subsidiaries, on the other hand, will be terminated (except as contemplated by the other agreements executed in connection with the transactions);

immediately prior to the spin-off, all intercompany cash management loan balances between Alltel and its subsidiaries, on one hand, and Spinco and its subsidiaries, on the other hand, will be canceled;

entering into the Employee Benefits Agreement, the Merger Agreement, the Tax Sharing Agreement, the Shared Assets Agreement, the Shared Contracts Agreement, and the Transition Services Agreement (see *Additional Agreements Related To The Spin-Off And The Merger* on page 97).

Conditions to the Completion of the Spin-Off

The distribution agreement provides that the distribution of Spinco common stock will occur only if each condition to obligations of Alltel and Spinco to consummate the merger shall have been fulfilled or waived by Alltel (except for the consummation of the contribution transaction and the spin-off) (see *The Merger Agreement Conditions to the Completion of the Merger* on page 86).

Subsequent Transfers

In the event that following the spin-off Alltel becomes aware that it possesses any assets that should have been transferred to Spinco, Alltel will hold such asset in trust and cause the prompt transfer of such assets, rights or properties to Spinco.

Mutual Release; Indemnification

Mutual Release of Pre-Closing Claims. Spinco and Alltel have each agreed to release the other from any and all claims that it may have against the other party which arise out of or relate to events, circumstances or actions taken by the other party occurring or failing to occur or any conditions existing at or prior to the time of the spin-off. The mutual release is subject to specified exceptions set forth in the distribution agreement. The specified exceptions include:

any liability assumed, transferred, assigned or allocated to Spinco or to Alltel in accordance with, or any other liability of either of them under, the merger agreement or any other transaction agreements or any contracts contemplated thereby;

Table of Contents

the ability of a party to enforce its rights under the merger agreement or any other transaction agreements or any contracts contemplated thereby; or

any liability the release of which would result in the release of any person other than Spinco, Alltel or their respective subsidiaries.

Indemnification by Spinco. Except as otherwise provided in transaction agreements executed in connection with the merger, Spinco is obligated to indemnify, defend and hold harmless Alltel from and against all losses arising out of or due to the failure of Spinco:

any liability of Spinco under the transaction agreements executed in connection with the merger;

any liability to be transferred to Spinco or a Spinco subsidiary in connection with a benefit and compensation plan, in accordance with the employee benefits agreement; or

any liability or obligation arising in connection with or related to the assets transferred to Spinco by Alltel in accordance with the distribution agreement; or

to perform any of its obligations under the distribution agreement.

Indemnification by Alltel. Except as otherwise provided in the transaction agreements executed in connection with the merger, Alltel is obligated to indemnify, defend and hold harmless Spinco from and against all losses arising out of or due to the failure of Alltel:

to pay or satisfy any liability of Alltel or any of its subsidiaries, including the liabilities of Alltel under the transaction agreements executed in connection with the merger, in each case, other than the liabilities of Spinco thereunder; or

to transfer to Spinco all of the assets transferred or to be transferred to Spinco pursuant to the distribution agreement, or

to perform any of its obligations under the distribution agreement.

The indemnification provisions set forth in the distribution agreement do not apply to any indemnification or other claims relating to taxes. Instead, these indemnification obligations are covered in the tax sharing agreement. See

Additional Agreements Related To The Spin-Off And The Merger The Tax Sharing Agreement beginning on page 99.

Insurance

Following the spin-off, Spinco will be responsible for obtaining and maintaining its own insurance coverage and will no longer be an insured party under Alltel insurance policies, except that Spinco will have the right to assert claims for any liability with respect to the Spinco business under shared policies with third party insurers which are occurrence basis policies arising out of incidents occurring from the date coverage commenced until the time of the spin-off. Spinco will have similar rights under claims made policies arising out of incidents occurring from the date of coverage until the time of the spin-off, so long as the claim is properly asserted to the insurer prior to the spin-off.

Non-Solicitation of Employees

Under the terms of the distribution agreement, Alltel and Spinco each agree not to solicit, recruit or hire any employee of the other for a period of twelve months following the date of the spin-off or until three

Table of Contents

months after the employee's employment with the respective company terminates, whichever occurs first. These restrictions do not apply to general recruiting efforts carried out through a public or general solicitation.

Expenses

Under the terms of the distribution agreement, whether or not the distribution is consummated, the costs and expenses incurred by Alltel or Spinco in connection with the distribution agreement, the preliminary restructuring contemplated thereby, the contribution, the special dividend, the debt exchange, the financing obtained by Spinco and the merger (including (i) all underwriter's discounts, fees and expenses, and (ii) all broker, finder and similar advisory fees incurred by Alltel or Spinco in connection with the transactions contemplated by the distribution agreement and the merger agreement) will be paid by Spinco, except that, in the event the aggregate amount of all such expenses exceeds \$115.0 million less the amount by which the principal amount of any indebtedness of Spinco following the merger exceeds Spinco's target indebtedness, Alltel will pay such excess expenses.

Spinco is not responsible for any expenses of Valor's legal, accounting, financial and other advisors or any costs of refinancing the Valor's outstanding indebtedness or any other costs incurred by Valor in connection with the transactions contemplated by the distribution agreement or by the merger agreement, except that if the merger is consummated, all costs and expenses incurred in connection with the merger agreement, the merger and the transactions contemplated by the merger agreement will be paid by Windstream.

Termination

Following termination of the merger agreement, the distribution agreement may be terminated and the spin-off abandoned at any time prior to the spin-off by and in the sole discretion of the Board of Directors of Alltel. As long as the merger agreement is in effect, the distribution agreement may not be terminated.

THE VOTING AGREEMENT

The following is a summary of selected provisions of the voting agreement. This summary is qualified in its entirety by reference to the voting agreement, which is incorporated by reference in its entirety and attached to this proxy statement/ prospectus-information statement as Annex C. We urge you to read the voting agreement in its entirety.

Contemporaneously with entering into the merger agreement, Spinco entered into a voting agreement with certain holders of Valor common stock. All of the shares of Valor common stock beneficially owned by these stockholders are subject to the voting agreement. As of the record date for Valor's annual meeting, these stockholders held 28,833,582 shares of Valor common stock, representing approximately 41% of the number of votes entitled to be cast.

Each of the stockholders party to the voting agreement are obligated by the voting agreement to vote their shares in favor of the approval and adoption of the merger agreement and the merger. Unless Alltel and Spinco consent in writing to the contrary, these stockholders also are required by the voting agreement to vote against proposals of any third party relating to the merger of Valor or acquisition of 20% or more of the assets of Valor and its subsidiaries, taken as a whole, or 20% or more of the common stock of Valor. These stockholders also may not in any manner participate in a solicitation (as that term is used in the rules of the SEC) of proxies or similar rights to vote, or seek to advise or influence any person with respect to voting intended to facilitate any such alternative merger or acquisition or to cause Valor stockholders not to vote to approve and adopt the merger agreement. Further, these stockholders may not, directly or indirectly, enter into, solicit, or otherwise conduct any discussions or negotiations with, or respond to or provide any information to, anyone other than Alltel and Spinco relating to an acquisition proposal as defined in the merger agreement (see "The Merger Agreement - No Solicitation" on page 84). In addition, these stockholders may not enter into any other agreements the effect of which is inconsistent with the requirements listed in this paragraph.

Table of Contents

The stockholders party to the voting agreement are also obligated to cause the Securityholders Agreement, dated as of February 14, 2005, by and among Valor and certain of its stockholders, to be amended as set forth in the merger agreement.

The voting agreement will terminate at any time upon notice by Alltel and Spinco to the stockholders noted above or upon the earlier of (i) the approval and adoption of the merger agreement, (ii) the failure of the Valor stockholders to vote to adopt and approve the merger and merger agreement at the stockholders meeting called for such purpose, (iii) amendment of the merger agreement in a manner that it materially disadvantageous to the stockholders party to the voting agreement without such stockholders consent, or (iv) the termination of the merger agreement.

No stockholder who is or becomes during the term of the voting agreement a director or officer of Valor was deemed to make any agreement or understanding in the voting agreement in such stockholder's capacity as a director or officer. Each such stockholder entered into the voting agreement solely in his or her capacity as the record holder or beneficial owner of, or the trustee of a trust whose beneficiaries are the beneficial owners of, such stockholder's shares and nothing in the voting agreement limits or affects any actions taken by such stockholder in his or her capacity as a director or officer of Valor.

ADDITIONAL AGREEMENTS RELATED TO THE SPIN-OFF AND THE MERGER

Valor, Spinco and Alltel have entered into or, before the completion of the spin-off and merger, will enter into, agreements related to the spin-off and the merger and various interim and on-going relationships between Valor, Spinco and Alltel. The material terms of these agreements are summarized below. The descriptions of the Employee Benefits Agreement, Tax Sharing Agreement and Transition Services Agreements are qualified by reference to the complete text of these agreements, which are incorporated by reference into this document and filed as exhibits to the Registration Statement of which this proxy statement/ prospectus-information statement is a part.

Employee Benefits Agreement

In connection with the spin-off and merger, Alltel and Spinco entered into an Employee Benefits Agreement to allocate assets, liabilities and responsibilities with respect to certain employee benefit plans, policies and compensation programs between them. We encourage you to read the entire employee benefits agreement.

Prior to the merger, Spinco will continue to pay its employees their ordinary salaries and to make pay adjustments in the normal course of business. Within 15 days prior to the merger, Alltel will designate employees who will constitute Spinco employees (which we will refer to as Spinco Employees) and former employees who were engaged in the Spinco business who have an interest in any of the employee benefit plans listed in the employee benefits agreement (which we will refer to as Spinco Individuals). Prior to the distribution date, Alltel also will take any actions necessary for Spinco to continue to maintain or to assume any collective bargaining agreements relating to the Spinco Employees.

Spinco has agreed to assume and pay all liabilities relating to the Spinco Employees and Spinco Individuals with respect to the benefit plans listed in the agreement, to the extent relating to the individuals' employment with Alltel or Spinco. Beneficiary designations under the Alltel plans will be transferred to the corresponding Spinco plan and will be in full force and effect until replaced or revoked by the participant.

Spinco plans will not provide duplicative benefits. Spinco Employees and Spinco Individuals are entitled to participate in these plans only to the extent that they were entitled to participate in the corresponding Alltel plans.

Under the terms of the employee benefits agreement, Spinco has agreed to establish the plans listed below for Spinco Employees and Spinco Individuals. In connection with the establishment of these plans,

Table of Contents

Further, Spinco will assume and honor leaves of absence granted to Spinco Employees under a leave of absence program or the Family Medical Leave Act of 1993, as amended (FMLA), by Alltel and its subsidiaries. Spinco will recognize all periods of service of Spinco employees with Alltel to the extent such service is recognized by Alltel and its subsidiaries for the purpose of eligibility for leave entitlement under an Alltel leave of absence program and FMLA.

Spinco employees will be eligible to participate in Alltel s Employee Stock Purchase Plan for the period prior to the spin-off and merger, but after the distribution date, Spinco employees will not be permitted to participate in Alltel s Employee Stock Purchase Plan.

Awards in effect as of the distribution date for the 2005 2007 performance measurement period will be deemed earned at the target performance level and paid pro rata to eligible Spinco Individuals.

Alltel Stock Options shall be handled as follows:

To the extent that a Spinco Individual is holding an award consisting of an Alltel option that is vested and outstanding as of the distribution date, he or she will be treated as experiencing a separation from service from, or otherwise terminating employment with, Alltel. Any such Alltel option will expire unless it is exercised within the time provided in the option itself.

To the extent that a Spinco employee is holding an award consisting of an Alltel option that is not vested as of the distribution date, that option shall be cancelled as of the distribution date and replaced by restricted shares of Windstream common stock in accordance with the terms of the Merger Agreement. The merger agreement authorizes up to 2.8 million restricted shares of Valor common stock to be awarded. The restrictions on such shares will lapse on a date to be determined by the Board of Directors of Windstream. The Windstream Board of Directors will also determine the value of the awards.

Restricted share awards outstanding under the 1998 Equity Incentive Plan held by a Spinco Individual will become fully vested on the distribution date.

Finally, Alltel will transfer its Executive Deferred Compensation Sub-Plan and its 1998 Management Deferred Compensation Sub-Plan to Spinco and will transfer cash to Spinco in an amount sufficient for benefits due under the respective sub-plans.

Spinco assumes no obligations, liabilities, sponsorship, administration or assets of or with respect to any other Alltel employee benefit plans, policies or compensation programs. Except as set forth in the employee benefits agreement, Spinco is not prohibited from amending or terminating any employee benefit plans, policies and compensation programs at any time after the distribution date.

The Tax Sharing Agreement

In connection with the spin-off and merger, Alltel, Valor and Spinco have agreed to enter into a tax sharing agreement that allocates the responsibility for (i) filing tax returns and preparing other tax-related information and (ii) the liability for payment and the benefit of refund or other recovery of taxes. The following is a summary of the material terms and provisions of the tax sharing agreement. We encourage you to read the entire tax sharing agreement.

Tax Returns; Responsibility for Taxes. Alltel agreed to file or cause to be filed any consolidated, combined or unitary income tax return that (i) includes both Alltel or any of its subsidiaries and Spinco or any of its subsidiaries and (ii) relates to or includes any taxable period on or prior to the distribution date. Alltel has the exclusive right to take any and all actions necessary for the filing of such returns and, except as

Table of Contents

otherwise provided in the agreement, to take actions for the purpose of making payments to, or collecting refunds from, any taxing authority in respect of such returns. Valor agreed to file or cause to be filed any other income tax return and any non-income tax return, in each case relating to Spinco or any of its subsidiaries that is required to be filed after the distribution date. Valor agreed to submit to Alltel any such income tax return that relates to or includes any taxable period on or prior to the distribution date, and to make or cause to be made any and all changes requested by Alltel to those returns in respect of items for which Alltel has responsibility under the tax sharing agreement. Valor also agreed not to file or allow to be filed any such income tax return prior to receiving Alltel's written approval of such return, not to be unreasonably withheld, delayed or conditioned.

Valor agreed to be liable for, and to indemnify and hold the Alltel group harmless against:

any net liability for income taxes of a member of the Spinco group attributable to the treatment of payments received from a federal or state universal services fund in respect of the Spinco business for the period from January 1, 1997 to the distribution;

any non-income taxes arising prior to the spin-off and relating to Spinco and its subsidiaries or to the employees, assets or transactions of the Spinco business, except for non-income taxes arising in respect of the preliminary restructuring of the Spinco group and the distribution of the stock of Spinco to the stockholders of Alltel; and

any liability for taxes arising after the spin-off attributable to Spinco and its subsidiaries or to the employees, assets or transactions of the Spinco business.

Alltel agreed to be liable for, and to indemnify and hold Valor harmless against, any taxes of the Alltel group or the Spinco group or any member thereof, other than (i) taxes specifically allocated to Valor under the tax sharing agreement or (ii) taxes for which Valor has indemnified Alltel pursuant to the merger agreement.

Valor and Alltel agreed that each is entitled to any refund of or credit for taxes for which it is responsible under the tax sharing agreement, including equitably apportioned refunds for any taxable period consisting of days both before and after the distribution.

All prior tax sharing or tax allocation agreements or practices between any member of the Alltel group, on the one hand, and Spinco or any of its subsidiaries, on the other hand, will be terminated as of the date of the spin-off.

Carrybacks and Amended Returns. Tax attributes from a period after the spin-off will not be carried back by Spinco or any of its subsidiaries to a pre-distribution tax return unless required by law or Alltel so consents. If a carryback is required by law or if Alltel so consents, then any tax benefit realized with respect to the carryback will be remitted to Valor.

Valor agreed not to file, or to permit any member of the Spinco group to file, any amended income tax return of a member of the Spinco group, or any non-income tax return that is filed on a combined basis with a member of the Alltel group, in each case with respect to returns for periods prior to the distribution, without first obtaining the consent of Alltel.

Timing Adjustments. Valor and Alltel agreed to pay to the other the amount of any tax benefit that result from any timing adjustment that (i) decreases deductions, losses or tax credits or increases income, gains or recapture of tax credits of the other and (ii) permits the paying party to increase deductions, losses or tax credits or to decrease income, gains or recapture of tax credits.

Tax Contests. Valor and Alltel agreed to promptly notify the other in writing upon receipt of a written communication from any taxing authority with respect to any pending or threatened audit, dispute, suit, action, proposed assessment or other proceeding concerning any tax return for which the other may be liable under the tax sharing agreement. Alltel agreed to give Valor sole control of any income tax contest in respect of any return related exclusively to periods following the spin-off, while Alltel maintained sole control of any other income tax contest of a member of the Spinco group, provided that, in the case of a contest relating to

Table of Contents

income taxes for which Valor is responsible under the tax sharing agreement, Alltel agreed to provide Valor with an opportunity to review and comment and to participate in such tax contest at its own expense.

Cooperation. Alltel and Valor agreed to cooperate in the filing of tax returns and the conduct of any audit or other proceeding related to taxes, as well as in the retention of tax-related records and access thereto. Each party also agreed to treat the distribution of the Spinco stock to the stockholders of Alltel, the merger with Valor and the related transactions in a manner such that no gain or loss was recognized by any of Alltel, Spinco or Valor and their respective stockholders.

Transition Services Agreement

The Transition Services Agreement and the Reverse Transition Services Agreement to be entered into between Alltel and Spinco set forth the terms and conditions for the provision of various transition services by Alltel to Spinco, and by Spinco to Alltel. The material terms contained in these two agreements are reciprocal in nature, and are summarized as follows:

Transition Services are to be provided for one year unless otherwise extended or terminated. During the term of the agreement, each provider of services will use its reasonable best efforts to accommodate any reasonable requests by the recipient of services to provide additional or modified services relating to the transition of ownership and operations of the respective business upon written request of the recipient.

Among other services, the transition services will generally relate to the following:

information technology systems,

billing,

human resources,

customer service,

accounting and finance,

engineering and network,

sales and marketing,

operations,

real estate,

branding, and

capital asset management.

The parties will each indemnify, defend and hold harmless the other for losses arising out of any default by a party in the performance of its obligations under the transition services agreement. Indemnification will be limited to actual damages, which will not exceed the total amount of compensation payable to the provider.

The transition services agreement may be terminated, in whole or in part, if:

Spinco desires, upon 30 days prior written notice to Alltel;

Spinco fails to pay for transition services within the time provided in the agreement;

Either party defaults in any material respect in the performance of the agreement;

Either party becomes insolvent, bankrupt or a receiver or trustee is appointed for either party; or

The distribution agreement is terminated.

Upon termination of the transition services agreement, each party will return any and all property of a proprietary nature involving the other party within 30 days and the recipient will cease all access to the provider's information, data systems and other assets that are not assets of the recipient party.

The recipient will have the right to terminate any transition service, in whole or in part, upon 30 days' prior written notice to the provider. Upon termination of the transition services agreement, each party will return any and all material and property of a proprietary nature involving the other party within 30 days, and

Table of Contents

the recipient will cease all access to the provider's information, data, systems and other assets that are not assets of the recipient party.

Under the agreement, Spinco must pay Alltel for any transition services provided within 30 days of receipt of an invoice relating to such services.

Shared Assets and Shared Contracts Agreements

The parties anticipate that certain assets and contractual arrangements involved in the spin-off and merger are of such a nature so as to preclude their separation and transfer from Alltel to Spinco. Alltel and Spinco have agreed that the separation of the Alltel assets and Spinco assets, as contemplated by the distribution agreement, will be effected in a manner that does not unreasonably disrupt either Alltel's business or Spinco's business. To the extent any assets cannot be separated without unreasonable disruption to either party's business, the parties have agreed to enter into appropriate arrangements (in form of a shared assets agreement) prior to the effective time of the spin-off and merger regarding the sharing of these assets, including the costs related to the use of such shared assets. In addition, the parties have agreed to use their reasonable best efforts to amend any contractual arrangements between Alltel, Spinco, or any of their respective affiliates, and any other person that either relate to the businesses of both Alltel and Spinco or relate solely to the business of one party but, by their terms, contain provisions relating to the other party, so that, after the contribution transaction, such contractual arrangements will relate solely to either Alltel or Spinco's business and will eliminate any provision relating the other party. In the event that an amendment to any of such contractual arrangements cannot be obtained or if an attempted amendment thereof would be ineffective or would adversely affect the rights of Alltel or Spinco thereunder, Alltel and Spinco have agreed to cooperate in negotiating a mutually agreeable shared contracts agreement prior to the contribution transaction under which Alltel or Spinco will obtain the benefits and assume the obligations thereunder.

The shared asset and shared contract agreements will generally comprise either service agreements, lease arrangements or a combination of the two. Examples include service arrangements whereby Windstream would provide signaling, switching, and other network services to Alltel's retained wireless business following the closing, lease arrangements whereby either party grants the other party the right to continue use of facilities that were shared by wireline and wireless operations prior to the closing, and information technology service agreements whereby one party provides services to the other party such as network management, mainframe data processing or mail-output processing services.

Table of Contents**FINANCING OF WINDSTREAM****Committed Financings**

On December 8, 2005, Alltel and J.P. Morgan Securities Inc., JPMorgan Chase Bank, N.A., Merrill Lynch, Pierce, Fenner & Smith Incorporated and Merrill Lynch Capital Corporation entered into a commitment letter and a related engagement and fee letter (which we collectively refer to as the financing letters) with respect to the financing of Windstream following the spin-off and the merger. The commitment letter is subject to customary conditions to consummation, including the absence of any event or circumstance that, individually or in the aggregate, is materially adverse to the business, assets, properties, liabilities or condition (financial or otherwise), of Spinco and its subsidiaries or Valor and its subsidiaries since September 30, 2005. Alltel has agreed to pay JPMorgan and Merrill Lynch certain fees in connection with the commitment letter and has agreed to indemnify JPMorgan and Merrill Lynch against certain liabilities. On April 12, 2006, Alltel obtained an amendment to the commitment letter for the senior secured credit facilities to remove certain guaranties and liens, and such amendment eliminated the need for approval of the transaction by certain state regulatory agencies. No other changes to the terms of the commitment letter, including the interest rates and fees, were made by such amendment.

These financing letters provide for a commitment of an aggregate amount of up to \$4.2 billion in financing, consisting of the following:

senior secured five-year revolving credit facility in a principal amount of \$500.0 million, and

senior secured term loan facilities in an aggregate amount of up to \$3.7 billion consisting of sub-facilities in the following amounts:

- (i) Tranche A Term Loan Facility up to \$500.0 million;
- (ii) Tranche B Term Loan Facility up to \$2.8 billion; and
- (iii) Tranche C Term Loan Facility up to \$400.0 million.

A portion of the financing of Windstream may also be financed with the proceeds from a Rule 144A, promulgated under the Securities Act of 1933, as amended, of up to \$800.0 million of senior notes, referred to herein as the

Refinancing Notes, in which case the Tranche A, Tranche B term loan facility, or a portion thereof, will be reduced dollar-for-dollar.

The proceeds of the Tranche A and Tranche B Term Loan Facilities and any Refinancing Notes that are issued will be used to finance the approximately \$2.275 billion special dividend payment to Alltel, which Alltel will use to repurchase stock pursuant to a special stock buyback program authorized by the Alltel Board of Directors in connection with the spin-off, to repay outstanding indebtedness, or both, within one year following the spin-off, and to refinance Valor's existing bank facility in the amount of approximately \$781.0 million and approximately \$81.0 million of Alltel's outstanding bonds (plus related make-whole premiums). The proceeds of the Tranche C Term Loan Facility will be used to purchase any of Valor's outstanding bonds that are tendered pursuant to the terms thereof. The term loan facilities (other than Tranche C) will be available in a single draw down on the date of closing to consummate the spin-off and merger transactions. The revolving credit facility may be used by Windstream for general corporate purposes and a portion will be available for letters of credit. The actual amount initially drawn under the Revolving Credit Facility on the date of closing is not expected to exceed \$90.0 million. The term loan facilities and the revolving credit facility are referred to herein as the Senior Secured Credit Facilities.

Windstream's direct and indirect domestic subsidiaries will serve as guarantors of the Senior Secured Credit Facilities and hedge agreements entered into in connection therewith, except that no guarantee is required of a subsidiary to the extent that the transactions require, or the granting of such guarantee would require, the approval of any state regulatory agency. The Senior Secured Credit Facilities, guaranties thereof and hedge agreements entered into in connection therewith will be secured by substantially all of the property and assets of Windstream and its subsidiaries who are guarantors.

Proposed Terms of the Senior Secured Credit Facilities

Windstream will be entitled to make borrowings at a rate based on ABR (which means the highest of (i) the rate of interest publicly announced by the administrative agent to be appointed under the facilities (the Administrative Agent) as its prime rate, and (ii) the federal funds effective rate from time to time plus 0.5%) or LIBOR, as adjusted for statutory reserve requirements for Eurocurrency liabilities plus, in each case,

the applicable margin, which is referred to as a Eurodollar Loan. The applicable margin is determined, for any day, as follows:

if the Senior Credit Facilities are rated Ba2 or higher by Moody's and BB or higher by S&P (in each case with a stable outlook):

in the case of loans under the revolving credit facility, Tranche A Term Loans and Tranche C Term Loans, 1.25% for Eurodollar Loans and 0.25% for loans based on ABR, and

in the case of Tranche B Term Loans, 1.50% for Eurodollar Loans and 0.50% for loans based on ABR, or if the Senior Credit Facilities are rated lower than Ba2 by Moody's or lower than BB by S&P:

in the case of loans under the revolving credit facility, Tranche A Term Loans and Tranche C Term Loans, 1.50% for Eurodollar Loans and 0.50% for loans based on ABR, and

in the case of Tranche B Term Loans, 1.75% for Eurodollar Loans and 0.75% for loans based on ABR.

Windstream may elect interest periods of 1, 2, 3, or 6 months for Eurodollar Loans. Interest on the loans will be calculated on the basis of a year of 360 days (or 365/366 days, in the case of ABR loans the interest rate payable on which is then based on the Administrative Agent's prime rate). Interest will be payable (a) in the case of Eurodollar Loans, on the last day of each relevant interest period and, in the case of any interest period longer than three months, on each successive date three months after the first day of such interest period, and (b) for loans accruing interest based on the ABR, quarterly in arrears. Windstream will also be required to pay certain fees and expenses in connection with the Senior Secured Credit Facilities. Windstream will be required to pay a commitment fee calculated at the rate of up to .25% per annum on the average daily amount of the unused revolving credit commitment and the unused commitment to make Tranche C Term Loans.

The revolving credit agreement and the Tranche A and Tranche C Term Loans will mature on the date five years after the closing date of the merger. The Tranche B Term Facility will mature on the date that is seven years after the closing date of the merger. The Tranche B Term Facility will be amortized quarterly with (i) 0.25% of the Tranche B Term Loans to be payable quarterly in equal installments in each quarter of the second through the sixth years and the first 3 quarters of the seventh year and (ii) the balance of the Tranche B Term Loans to be payable at maturity. The Tranche A and Tranche C Term Loans will be amortized quarterly according to the following schedule:

Each quarter during Year 1 0%

Each quarter during Year 2 1.25%

Each quarter during Year 3 2.5%

Each quarter during Year 4 3.75%

Each of the first 3 quarters of Year 5 5%

Maturity 55%

Optional prepayments of borrowings under the Senior Secured Credit Facilities and optional reductions of the unutilized portion of the Revolving Credit Facility will be permitted at any time in minimum amounts to be agreed upon by the parties. In addition, subject to certain exceptions, 100% of the net proceeds from asset sales and casualty insurance which are not reinvested within one year will be required to be applied to prepay the Term Loans under the Senior Secured Credit Facilities.

Under the terms of the Senior Secured Credit Facilities, after the completion of the merger, Windstream will be required to meet certain financial tests, including a minimum interest coverage ratio of 2.75 to 1.0 and maximum leverage ratio of 4.50 to 1.0. In addition, Windstream will agree to covenants that, among other things, will limit the incurrence of additional indebtedness, liens, capital expenditures, loans and investments and will limit its ability to

take certain action with respect to dividends and payments in respect of capital

stock (with an exception for dividends up to the sum of excess free cash flow and net cash equity issuance proceeds so long as the pro forma leverage ratio does not exceed 4.50 to 1.0) and certain payments of debt, and will limit its ability to enter into mergers, consolidations, acquisitions, asset dispositions and sale/leaseback transactions and transactions with affiliates, and will restrict changes in lines of business, amendments of material agreements, and will place restrictions on other matters customarily restricted in senior secured loan agreements. The Senior Secured Credit Facilities will also contain customary provisions protecting the lenders against increased costs or loss of yield resulting from changes in reserve, tax, capital adequacy and other requirements of law and from the imposition of or changes in withholding or other taxes and indemnifying the lenders for breakage costs incurred in connection with, among other things, any prepayment of a Eurodollar Loan on a day other than the last day of an interest period with respect thereto. Furthermore, the Senior Secured Credit Facilities will contain representations and warranties and affirmative covenants customarily contained in senior secured loan agreements.

The Senior Secured Credit Facility will contain customary events of default, including payment defaults, breach of representations and warranties, covenant defaults, cross-defaults, certain bankruptcy or insolvency events, certain ERISA-related events, material judgments, changes in control or ownership, and invalidity of any collateral or guarantee or other document.

We expect that the Senior Secured Credit Facilities closing date will be during the second quarter of 2006, with the fundings to occur contemporaneously with the completion of the spin-off and merger. However, entering into the Senior Secured Credit Facilities and any funding under the facilities will remain subject to a number of conditions. These conditions will include the consummation of the merger and spin-off, the receipt of certain financial statements and projections, satisfaction of a ratio of pro forma Consolidated Debt (to be defined) to pro forma consolidated EBITDA, perfection of security interests and miscellaneous closing conditions customary for credit facilities and transactions of this type.

Table of Contents**SPINCO MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Spinco is currently a wholly-owned subsidiary of Alltel Corporation and was formed on November 2, 2005 to hold Alltel Corporation's wireline business. Alltel Corporation's wireline business is currently operated by certain of its subsidiaries. Prior to the closing of the spin-off and the merger, each of those subsidiaries will be contributed to Spinco, along with certain assets and liabilities related to the wireline business. Until that contribution occurs, Spinco will have no material assets or operations. This proxy statement/prospectus-information statement, including the combined financial statements and the following discussion, describes Spinco and its financial condition and operations as if Spinco held the subsidiaries and other assets that will be transferred to it prior to closing for all historical periods presented. The historical financial information presented below does not, however, give effect to the merger with Valor. The following discussion should be read in conjunction with the selected combined financial data and the combined financial statements and the related notes included on pages F-1 through F-40 in this proxy statement/prospectus-information statement. Except for the historical combined financial information contained herein, the matters discussed below may contain forward-looking statements that reflect Spinco's plans, estimates and beliefs. Windstream's actual results could differ materially from those discussed in these forward-looking statements. Factors that could cause or contribute to these differences include, but are not limited to, those discussed below and elsewhere in this proxy statement/prospectus-information statement, particularly in Risk Factors and Special Note Regarding Forward-Looking Statements.

Basis of Presentation

Spinco's combined financial statements included on pages F-1 through F-40 in this proxy statement/prospectus-information statement have been derived from the accounting records of Alltel, principally representing Alltel's historical wireline and communications support segments. Spinco has used the historical results of operations, and historical basis of assets and liabilities of the subsidiaries it will own and the wireline business it will operate after completion of the spin-off, to prepare the combined financial statements. The statements of operations include expense allocations for certain corporate functions historically provided to Spinco by Alltel, including general corporate expenses, employee benefits and incentives, and interest income (expense). These allocations were made on a specifically identifiable basis or using the relative percentages, as compared to Alltel's other businesses, of net sales, payroll, fixed assets, inventory and other assets, headcount or other reasonable methods. Management of both Spinco and Alltel consider these allocations to be a reasonable reflection of the utilization of services provided. Spinco expects that its expenses after the separation from Alltel before taking into account the expected cost savings from anticipated synergies resulting from the merger of Valor and Spinco will be approximately \$12.0 million higher than the amounts reflected in the combined statements of operations as Spinco will incur certain incremental costs as an independent public company.

Management of Spinco believes the assumptions underlying its financial statements are reasonable. However, Spinco's financial statements included herein may not necessarily reflect its results of operations, financial position and cash flows in the future or what its results of operations, financial position and cash flows would have been had it been a separate, stand-alone company during the periods presented.

Spinco is organized based on the products and services that it offers. Under this organizational structure, Spinco's operations consist of its Wireline, Other Operations and Product Distribution segments. Spinco's Wireline segment consists of Spinco's incumbent local exchange carrier (ILEC), competitive local exchange carrier (CLEC) and Internet access operations. The Other Operations segment consists of Spinco's long-distance and network management services, directory publishing operations and telecommunications information services. While directory publishing operations is part of the Other Operations segment, Spinco's wireline business receives a share of the revenues from the directory publishing business in exchange for the right to publish the directory information. The wireline business revenue share is counted as an expense by the directory publishing business in the Other Operations segment. The Product Distribution segment consists of Spinco's communications products operations. Following consummation of the spin-off and merger with Valor, Spinco's long-distance services business will become part of Spinco's Wireline

Table of Contents

segment. In addition to segment divisions, Spinco divides revenues into two categories; service revenues and product revenues. Spinco's service revenues consist of wireline local access services, network access, Internet access, intra-state long-distance and miscellaneous wireline operating revenues from the Wireline segment. Network access includes toll revenues, USF revenues, network access usage revenues and data and enhanced services revenues. Miscellaneous wireline operating revenues include the wireline segment's share of advertising revenues from directory publishing, customer premises equipment sales, billing and collection services and commission revenues from offering DISH Network satellite television service. Service revenues also consist of interstate long-distance and telecommunications information services processing revenues from the Other Operations segment. Spinco's product sales primarily consist of directory publishing operations from the Other Operations segment and sales of communications products from the Product Distribution segment.

Executive Summary

Spinco is a wholly-owned subsidiary of Alltel that provides local telephone, long-distance, Internet and high-speed data services. Spinco provides local telephone service to approximately 2.9 million residential and business customers primarily located in rural areas in 15 states.

As further discussed under Pending Transactions to be Completed During 2006, Spinco has positioned its wireline business for future growth opportunities as a result of the planned spin-off from Alltel and subsequent merger with Valor. This transaction, which is expected to close by the third quarter of 2006, is significant to Spinco because it will expand Spinco's retail presence into new markets by adding more than 500,000 access lines in four states. The resulting company will represent the largest local telecommunications carrier in the United States focusing primarily on rural markets, and should have greater financial flexibility to develop and deploy products, expand the capacity of its network, respond to competitive pressures and improve the cost structure of its operations due to the resulting increased size and economies of scale.

However, during 2006, Spinco will continue to face significant challenges resulting from competition in the telecommunications industry and changes in the regulatory environment, including the effects of potential changes to the rules governing universal service and inter-carrier compensation. In addressing competition, in addition to the merger with Valor discussed above, Spinco will continue to focus its efforts on improving customer service and expanding its service offerings.

Pending Acquisitions to be Completed During 2006

On December 9, 2005, Alltel announced that its board of directors had approved the spin-off of its wireline telecommunications business to its stockholders and the merger of that wireline business with Valor. Pursuant to the plan of distribution and immediately prior to the effective time of the merger with Valor described below, Alltel will contribute all of the assets of its wireline telecommunications business to Spinco, in exchange for: (i) the issuance to Alltel of Spinco common stock to be distributed to Alltel's stockholders pro rata in the spin-off (the distribution), (ii) the payment of a special dividend to Alltel in an amount not to exceed Alltel's tax basis in Spinco (which is estimated to equal approximately \$2.275 billion), which Alltel will use to repurchase stock pursuant to a special stock buyback program authorized by the Alltel Board of Directors in connection with the spin-off, to repay outstanding indebtedness, or both, within one year following the spin-off, and (iii) the distribution by Spinco to Alltel of certain Spinco debt securities (the exchange notes), which Alltel intends to exchange for outstanding Alltel debt securities or otherwise transfer to Alltel's creditors representing approximately \$1.673 billion in debt reduction to Alltel. Prior to the distribution and merger, Spinco will consummate certain financing transactions pursuant to which it will incur approximately \$3.978 billion in indebtedness through (1) borrowing under a new senior secured credit agreement or the issuance of senior unsecured debt securities in an offering under Rule 144A, promulgated under the Securities Act of 1933, as amended and (2) the distribution of the exchange notes to Alltel. All proceeds of the financing will be used to pay the consideration to be received by Alltel for the contribution (through payment of the special dividend and distribution of the exchange notes) and to pay related fees and expenses. Alltel has received a commitment letter from various financial institutions to provide Spinco with up to \$4.2 billion in senior secured credit facilities comprised of term loan facilities in an aggregate amount of up to \$3.7 billion and a revolving credit facility of up to \$500 million.

Table of Contents

Immediately after the consummation of the spin-off, Spinco will merge with and into Valor, with Valor continuing as the surviving corporation, which we refer to as Windstream. As a result of the merger, all of the issued and outstanding shares of Spinco's common stock will be converted into the right to receive an aggregate number of shares of common stock of Valor that will result in Alltel's stockholders holding approximately 85 percent of the outstanding equity interests of Windstream immediately after the merger and the stockholders of Valor holding the remaining approximately 15 percent of such equity interests. To effect the merger, Valor will issue approximately 403 million shares of its common stock to the stockholders of Alltel. As a result of this transaction, Alltel stockholders will continue to own one share of the remaining wireless entity and will be entitled to receive approximately 1.04 shares of Valor common stock for each share of Alltel common stock they currently own.

By virtue of the merger, Windstream will assume \$267.0 million in Alltel debt (which includes accrued and unpaid interest through the closing date), of which \$81.0 million (plus related make-whole premiums) will be refinanced with borrowings from its new credit facilities and/or a portion of the net proceeds from the issuance of senior unsecured debt securities in an offering under Rule 144A. Windstream will also assume \$400.0 million in outstanding Valor notes, which will be equally and ratably secured with debt under the new credit facilities. Windstream will be required to offer to repurchase any of the outstanding Valor notes that may be tendered as a result of the merger, which constitutes a change of control under the indenture governing the Valor notes, and will borrow additional amounts under its new credit facilities to the extent necessary to fund the purchase of any Valor notes that are tendered. In addition, Windstream will refinance approximately \$781.0 million (plus related premiums) outstanding under Valor's existing credit facility with borrowings from its new credit facilities and/or a portion of the net proceeds from the issuance of senior unsecured debt securities in a Rule 144A offering. The amounts assumed by Windstream, together with the issuance of the debt securities, the borrowings under the new credit facilities and certain expenses related to the spin-off, merger and financing transactions, will result in Windstream having approximately \$5.5 billion in total debt immediately following completion of the merger.

Consummation of the merger is subject to certain conditions, including the approval of the merger proposals by the stockholders of Valor, receipt of a favorable ruling from the IRS regarding the tax-free status of the distribution, special dividend, debt exchange and merger transaction, consummation of the required financing, and the receipt of regulatory approvals, including, without limitation, the approval of the FCC and multiple state public service commissions. The transaction is expected to close in the third quarter of 2006.

THREE MONTHS ENDED MARCH 31, 2006

First Quarter Highlights

Among the highlights in the first quarter of 2006:

In its wireline business, Spinco added approximately 44,000 broadband customers, increasing Spinco's broadband customer base over 440,000. This increase more than offset the loss of approximately 23,000 local access lines.

Although revenues and sales decreased \$9.6 million, primarily due to the loss of access lines discussed above, average revenue per wireline customer increased 1 percent from a year ago to \$66.91 due primarily to growth in broadband revenues.

Operating income increased 14 percent from a year ago, primarily reflecting a decline in depreciation and amortization resulting from our reductions in depreciable lives for certain assets associated with studies performed during 2005 and 2006.

Total revenues and sales decreased 1 percent, or \$9.6 million, in the three month period ended March 31, 2006 compared to the same period of 2005. Service revenues decreased by 2 percent, or \$15.4 million, in the 2006 period as compared to the prior year. Wireline local access service and network access and toll revenues decreased \$20.9 million in the first quarter of 2006, primarily as a result of the loss of wireline access lines due, in part, to broadband and wireless substitution. Offsetting this decline were increases in revenues derived from data services and Internet operations of \$7.6 million in the 2006 period, reflecting continued customer demand for these products.

Product sales increased \$5.8 million, or 6 percent, in the three month period ended March 31, 2006 compared to the same period of 2005. The increase in product sales was primarily driven by an increase in sales of telecommunications equipment and data products to Spincos regulated wireline operations that are accounted for under Statement of Financial Accounting Standards (SFAS) No. 71, Accounting for the Effects of Certain Types of Regulation , as further discussed below.

Cost of services, which represents the cost of provisioning service, as well as business taxes and bad debt expense, decreased \$10.7 million, or 5 percent, in the three months ended March 31, 2006 compared to the same prior year period. Cost of services in the three month period in 2005 included approximately \$3.2 million of incremental costs related to work force reductions in Spincos wireline business, as well as higher overtime and maintenance costs due to

inclement weather. In addition, Spinco's long-distance and network management operations reflected reduced costs from Alltel for carrying the long-distance traffic on Alltel's network in the first quarter of 2006 compared to the same period in 2005. Partially offsetting these declines in cost of services were additional costs incurred by Spinco's wireline operations from other carriers for transport and termination of intrastate traffic in accordance with the terms of new reciprocal compensation agreements negotiated with these carriers that took effect subsequent to March of 2005.

Table of Contents

Cost of products sold increased \$5.2 million, or 7 percent, in the three month period ended March 31, 2006 compared to the same period of 2005. The increase was consistent with the overall growth in product sales noted above. Selling, general, administrative and other expenses decreased \$4.9 million, or 6 percent, in the three months ended March 31, 2006 compared to the same period in the prior year, primarily due to a decline in allocations received from Alltel related to services that Alltel provides for Spinco under a shared services agreement. Depreciation and amortization expense decreased \$23.1 million, or 18 percent, in the first quarter of 2006 compared to the first quarter in 2005. The decline primarily resulted from a reduction in depreciation rates for certain of Spinco's ILEC operations, reflecting the results of studies of depreciable lives completed during 2006 and 2005.

Royalty expense to Parent was substantially unchanged in the first quarter of 2006 compared to the first quarter of 2005. Spinco's ILEC subsidiaries incur a royalty expense from Alltel for the use of the Alltel brand name in marketing and distributing telecommunications products and services pursuant to a licensing agreement with an Alltel affiliate. Following the spin-off and merger with Valor, Spinco will no longer incur this charge as Spinco will no longer use the Alltel brand name.

Operating income increased \$21.6 million, or 14 percent, in the three month period ended March 31, 2006 compared to the same period of 2005, primarily reflecting the decrease in depreciation and amortization expense resulting from depreciation studies completed during 2005 and 2006, partially offset by the decline in wireline revenues caused by the loss of access lines. Operating income comparisons for the three months ended March 31, 2006 were also affected by the effects of restructuring and other charges, as further discussed below. The changes in wireline, product distribution and other operations in 2006 are further discussed below under Results of Operations by Business Segment.

Restructuring and Other Charges

In connection with the pending spin-off of the Company and merger with Valor, during the three months ended March 31, 2006, Spinco incurred \$2.5 million of incremental costs, primarily consisting of additional consulting and legal fees. There were no restructuring or other charges incurred by the Company during the three months ended March 31, 2005. At March 31, 2006, the remaining unpaid liability related to these charges was \$2.0 million. Cash outlays for the remaining unpaid liability will be disbursed over the next 12 months and will be funded from operating cash flows. (See Note 6 to the unaudited interim combined financial statements for additional information regarding the restructuring and other charges.)

Other Income, Net

Other income, net increased \$1.3 million in the three months ended March 31, 2006 compared to the same period of 2005, primarily due to the realization of gains from the sale of certain non-operating assets during the 2006 period.

Intercompany Interest Income (Expense)

Spinco participates in a cash management program with its parent company, Alltel. Under this program, Spinco earns interest on amounts remitted to Alltel at a rate based on current market rates for short-term investments and pays interest on amounts received from Alltel at a rate based on Alltel's weighted-average borrowing rate. Intercompany interest income (expense) increased \$14.8 million in the three months ended March 31, 2006 compared to the same period in 2005. The increase is due to an increase in the amount of funds remitted to Alltel under the cash management program, combined with an increase in the advance interest rate.

Interest Expense

Interest expense was relatively unchanged in the first quarter of 2006 compared to the same period in the prior year.

Table of Contents**Income Taxes**

Income tax expense increased \$13.6 million, or 23 percent, for the three months ended March 31, 2006 compared to the same period of 2005. The increase in income tax expense in 2006 was consistent with the overall growth in Spinco's income before income taxes. Spinco's effective income tax rates decreased to 39.1 percent in the three months ended March 31, 2006 compared to 39.9 percent for the corresponding period of 2005. In determining its quarterly provision for income taxes, Spinco uses an estimated annual effective tax rate, which is based on Spinco's expected annual income, statutory rates and tax planning opportunities and reflects Spinco's best estimate of the ultimate outcome of tax examinations and assessments. Significant or unusual items are separately recognized in the quarter in which they occur.

| Average access lines in service | 2,872.7 | 2,994.7 |
| Average revenue per customer per month (a) | \$ 66.91 | \$ 65.99 |

Notes:

(a) Average revenue per customer per month is calculated by dividing total wireline revenues by average access lines in service for the period.

Wireline operations consist of Spinco's ILEC, CLEC and Internet operations. Wireline revenues and sales decreased \$16.3 million, or 3 percent, in the three month period ended March 31, 2006, as compared to the same prior year period. Customer access lines decreased 4 percent during the twelve months ended March 31, 2006, reflecting declines in both primary and secondary access lines. Spinco lost approximately 23,000 access lines during the three month period ended March 31, 2006, compared to 26,000 access lines lost during the same period in 2005. The

declines in access lines primarily resulted from the effects of wireless and broadband substitution for Spinco's wireline services. Spinco expects access lines to continue to be impacted by the effects of wireless and broadband substitution for the remainder of 2006. Although we have not yet seen significant competition from Voice over Internet Protocol (VoIP) providers, we also expect VoIP substitution to adversely impact the number of access lines served by our wireline operations during the remainder of 2006.

Table of Contents

To slow the decline of revenue during the remainder of 2006, Spinco will continue to emphasize sales of enhanced services and bundling of its various product offerings including broadband, voice and satellite television. Deployment of broadband service is an important strategic initiative for Spinco, and as of March 31, 2006, approximately 73.8 percent of our addressable lines were broadband-capable. During the three month period ended March 31, 2006, Spinco added approximately 44,000 broadband customers, increasing its broadband customer base to over 440,000 customers. The growth in Spinco's broadband customers more than offset the decline in customer access lines noted above. As a result, as further discussed below, revenues generated from the sales of data services increased in the first quarter of 2006, which helped to offset the adverse effects on wireline revenues resulting from the loss of access lines. In addition, during the fourth quarter of 2005, we began offering DISH Network satellite television service to our residential customers as part of a bundled product offering.

Local service revenues consist of local exchange telephone services provided to both residential and business customers, including monthly recurring charges for basic service such as local dial-tone and enhanced services such as caller identification, voicemail and call waiting and non-recurring charges for service activation and reconnection of service. Local service revenues decreased 3 percent, or \$8.6 million, in the three months ended March 31, 2006, compared to the same period of 2005. The decline in local service revenues reflected reductions consistent with the overall decline in access lines discussed above.

Network access and interconnection revenues include switched access, special access and end user charges. Switched access represents usage sensitive charges to long distance companies for access to our network in connection with the completion of interstate and intrastate long-distance calls. Special access represents dedicated circuits, including circuits used to provide broadband service, while end user charges are monthly flat-rate charges assessed on access lines. Network access and interconnection revenues decreased \$8.9 million, or 3 percent, in the three months ended March 31, 2006, compared to the same period of 2005. Primarily due to the overall decline in access lines discussed above, network access usage and toll revenues decreased \$12.3 million in the three month period of 2006, compared to the same period of 2005. In addition, federal and state Universal Service Fund (USF) funding decreased \$2.2 million in the first quarter of 2006 compared to the same 2005 period, primarily due to a decrease in the high-cost loop support (HCLS) funding received by our ILEC subsidiaries. The decreases in HCLS funding primarily resulted from increases in the national average cost per loop combined with the effects of our cost control efforts. Receipts from the HCLS fund are based on a comparison of each company's embedded cost per loop to a national average cost per loop. Primarily due to expected increases in the national average cost per loop and our continued focus on controlling operating costs in our ILEC business, we expect net USF receipts in 2006 to decline by approximately \$15.0 million, compared to 2005.

The declines in network access and long-distance revenues attributable to access line loss and the decrease in federal and state USF funding were partially offset by growth in revenues from data services, which increased \$5.5 million in the three month period of 2006, reflecting increased demand for high-speed data transport services.

Miscellaneous revenues primarily consist of charges for Internet services, directory advertising, customer premise equipment sales and rentals, and billing and collections services provided to long-distance companies. Miscellaneous revenues increased by \$1.2 million, or 2 percent, in the three months ended March 31, 2006, compared to the same period of 2005. Primarily driven by growth in broadband customers, revenues from Spinco's Internet operations increased \$2.1 million in the three month period of 2006. Also during the first quarter of 2006, we generated \$1.5 million in commissions revenue in conjunction with offering DISH Network satellite television service to our residential customers as discussed above. Offsetting the increases in miscellaneous revenues due to growth in Spinco's Internet operations and commissions revenues were decreases in directory advertising revenues of \$0.9 million in the three month period of 2006, primarily due to a change in the number and mix of directories published.

Primarily due to the broadband customer growth, average revenue per customer per month increased 1 percent in the three month period of 2006, compared to the same period in 2005. Future growth in average

Table of Contents

revenue per customer per month will depend on Spinco's success in sustaining growth in sales of broadband and other enhanced services to new and existing customers.

Cost of services decreased \$4.6 million, or 3 percent, in the three month period ended March 31, 2006, compared to the prior year period. Cost of services for the three month period in 2005 included approximately \$3.2 million of incremental costs related to work force reductions in Spinco's wireline business, as well as higher overtime and maintenance costs due to inclement weather. Compared to the first quarter of 2005, customer service expense decreased \$2.4 million in the first quarter of 2006 primarily due to cost savings from Spinco's continued efforts to control operating expenses. In addition, cost of services in the three month period ended March 31, 2006 included a decrease in bad debt expense of \$1.8 million, consistent with the decline in revenues discussed above. Also, cost of services declined in the first quarter of 2006 compared to the same period in 2005 due to decreases in costs associated with providing broadband-capable modems to new broadband customers driven by volume discounts earned by Spinco. Conversely, interconnection expenses increased \$4.2 million in the three month period of 2006 as compared to 2005, primarily due to additional costs charged by other carriers for transport and termination of intrastate traffic in accordance with the terms of new reciprocal compensation agreements negotiated with these carriers that took effect subsequent to March of 2005.

Cost of products sold increased \$1.1 million, or 17 percent, in the 2006 period as compared to the same period in 2005, primarily due to sales of higher priced equipment in the current year period. Selling, general, administrative and other expenses decreased \$6.7 million, or 10 percent, in the three months ended March 31, 2006 compared to the same period of 2005, primarily resulting from a decline in intercompany allocations received from Alltel due to incremental costs in the 2005 period related to costs incurred by Alltel in complying with the Section 404 internal control reporting requirements of the Sarbanes-Oxley Act of 2002. Under a shared services agreement, Alltel provides certain functions on Spinco's behalf, including but not limited to accounting, marketing, customer billing, information technology, legal, human resources, and engineering services.

Depreciation and amortization expense decreased \$23.0 million, or 19 percent, in the three months ended March 31, 2006 compared to the prior year period. The decrease in depreciation and amortization expense primarily resulted from a reduction in depreciation rates for Spinco's Florida, Georgia, and South Carolina operations, reflecting the results of studies of depreciable lives completed during 2005, and for Spinco's Pennsylvania operations, reflecting the results of a study completed during January 2006. The depreciable lives were lengthened to reflect the estimated remaining useful lives of the wireline plant based on Spinco's expected future network utilization and capital expenditure levels required to provide service to its customers. During April, 2006, Spinco completed studies of the depreciable lives of assets held and used in Spinco's Alabama and North Carolina operations. The related depreciation rates were changed retroactively effective April 1, 2006. This change is expected to lower depreciation by approximately \$4.0 million quarterly, or \$16.0 million annually. During the remainder of 2006, Spinco expects to review the depreciation rates utilized in its remaining wireline operations.

Royalty expense to Parent was substantially unchanged in the first quarter of 2006 compared to the first quarter of 2005. Spinco's ILEC subsidiaries incur a royalty expense from Alltel for the use of the Alltel brand name in marketing and distributing telecommunications products and services pursuant to a licensing agreement with an Alltel affiliate. Following the spin-off and merger with Valor, Spinco will no longer incur this charge as Spinco will no longer use the Alltel brand name.

Wireline segment income increased \$17.1 million, or 12 percent, in the three months ended March 31, 2006 compared to the same period of 2005. The increase in segment income in the first quarter of 2006 primarily resulted from the favorable effects of reduced depreciation rates and the incremental expenses associated with work force reductions and higher overtime costs incurred in the first quarter of 2005, which were partially offset by the decline in revenues and sales due to the loss of access lines, as discussed above.

During the first quarter of 2006, restructuring and other charges totaling \$2.5 million related to the pending spin-off of the wireline operations were not included in the determination of wireline segment income. No restructuring and other charges were incurred related to the wireline operations during the first quarter of 2005.

Table of Contents**Accounting for Regulated Entities**

Except for the acquired Kentucky and Nebraska operations, Spincos ILEC operations follow the accounting for regulated enterprises prescribed by SFAS No. 71, *Accounting for the Effects of Certain Types of Regulation*. Criteria that would give rise to the discontinuance of SFAS No. 71 include (1) increasing competition restricting the regulated ILEC subsidiaries' ability to establish prices to recover specific costs and (2) significant changes in the manner in which rates are set by regulators from cost-based regulation to another form of regulation. Spincos reviews these criteria on a quarterly basis to determine whether the continuing application of SFAS No. 71 is appropriate. In assessing the continued applicability of SFAS No. 71, Spincos monitors the following:

Level of competition in its markets. Sources of competition to Spincos local exchange business include, but are not limited to, resellers of local exchange services, interexchange carriers, satellite transmission services, wireless communications providers, cable television companies, and competitive access service providers including those utilizing Unbundled Network Elements-Platform (UNE-P), VoIP providers and providers using other emerging technologies. Spincos ILEC operations have begun to experience competition in their local service areas. Through March 31, 2006, this competition has not had a material adverse effect on the results of operations of Spincos ILEC operations, primarily because these subsidiaries provide wireline telecommunications services in mostly rural areas. To date, ILEC subsidiaries have not been required to discount intrastate service rates in response to competitive pressures.

Level of revenues and access lines currently subject to rate-of-return regulation or which could revert back to rate-of-return regulation in the future. For the ILEC subsidiaries that follow SFAS No. 71, all interstate revenues are subject to rate-of-return regulation. The majority of the ILEC subsidiaries' remaining intrastate revenues are either subject to rate-of-return regulation or could become subject to rate-of-return regulation upon election by Spincos, subject in certain cases to approval by the state public service commissions.

Level of profitability of the ILEC subsidiaries. Currently, the prices charged to customers for interstate and intrastate services continue to be sufficient to recover the specific costs of the ILEC subsidiaries in providing these services to customers.

Although Spincos believes that the application of SFAS No. 71 continues to be appropriate, it is possible that changes in regulation, legislation or competition could result in Spincos ILEC operations no longer qualifying for the application of SFAS No. 71 in the near future. If Spincos ILEC operations no longer qualified for the application of SFAS No. 71, the accounting impact to Spincos would be the elimination of certain intercompany revenues and related expenses and an extraordinary non-cash credit to operations. The non-cash credit would consist primarily of the reversal of the regulatory liability for cost of removal included in accumulated depreciation, which amounted to \$158.6 million as of March 31, 2006. At this time, Spincos does not expect to record any impairment charge related to the carrying value of its ILEC plant. Under SFAS No. 71, Spincos currently depreciates its ILEC plant based upon asset lives approved by regulatory agencies or as otherwise allowed by law. Upon discontinuance of SFAS No. 71, Spincos would be required to revise the lives of its property, plant and equipment to reflect the estimated useful lives of the assets. Spincos does not expect any revisions in asset lives to have a material adverse effect on its ILEC operations.

Regulatory Matters-Wireline Operations. Spincos ILECs are regulated by both federal and state agencies. Certain of Spincos products and services (interstate) and the related earnings are subject to federal regulation and others (local and intrastate) are subject to state regulation. With the exception of the Nebraska and a portion of the Kentucky operations, Spincos ILEC operations are subject to rate-of-return regulation federally by the FCC. The Nebraska and a portion of the Kentucky operations are subject to price-cap regulation by the FCC that allows a greater degree of retail pricing flexibility than is afforded to Spincos rate-of-return operations. Companies meeting certain criteria had the option to elect price-cap regulation as part of an FCC order issued in May 2000 (the CALLS plan). The CALLS plan expired on June 30, 2005, and to date, the FCC had not established a successor mechanism for regulating price-cap companies. Nonetheless,

Table of Contents

the existing rules and regulations for price-cap companies remain effective until the FCC modifies or otherwise replaces them with a successor mechanism.

Telecommunications Law Modernization. In 1996, Congress passed the Telecommunications Act of 1996 (the 96 Act), which significantly changed the existing laws and regulations governing the telecommunications industry. The primary goal of the 96 Act was to create competition in the wireline market by requiring ILECs to sell portions of their networks to competitors at reduced wholesale rates. The 96 Act also established rules for interconnecting wireline and wireless service providers networks. Unfortunately, the 96 Act failed to contemplate the rapid evolution of technology and the associated consumer demand for wireless services, the Internet and VoIP. Today, providers of communications services are regulated differently depending primarily upon the network technology used to deliver service. In an effort to reform the manner in which telecommunications service providers are regulated, bills have been introduced in Congress that would change applicable laws governing, among other things, interconnection with other carriers and universal service. At this time, the legislative proposals are very fluid and in the early stages of development, and therefore Spinco cannot predict the outcome of these efforts to reform regulation of the telecommunications industry.

State Regulation. Most states in which Spinco's ILEC subsidiaries operate provide alternatives to rate-of-return regulation for local and intrastate services, either through legislative or public service commission (PSC) rules. Spinco has elected alternative regulation for certain of its ILEC subsidiaries in Alabama, Arkansas, Florida, Georgia, Kentucky, Nebraska, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, and Texas. The Missouri PSC ruled that the Company is not eligible for alternative regulation. However on May 5, 2005, the Missouri legislature passed an alternative regulation plan that allows Spinco to elect alternative regulation without Missouri PSC approval. The legislation became effective on August 28, 2005, and Spinco filed an election with the PSC to be regulated under the new alternative regulation plan on September 13, 2005. As a result of this election, Spinco withdrew its appeal of the Missouri PSC's previous decision during the fourth quarter of 2005. Spinco continues to evaluate alternative regulation options in markets where its ILEC subsidiaries remain subject to rate-of-return regulation, including Mississippi, New York and certain of its Kentucky operations.

Inter-carrier Compensation. In April 2001, the FCC released a notice of proposed rulemaking addressing inter-carrier compensation. Under this rulemaking, the FCC proposed a bill and keep compensation methodology under which each telecommunications carrier would be required to recover all of its costs to originate and terminate telecommunications traffic from its end-user customers rather than charging other carriers. The proposed bill and keep method would significantly overhaul the existing rules governing inter-carrier compensation. On March 3, 2005, the FCC released a further notice of proposed rulemaking addressing inter-carrier compensation. Under this proposed rulemaking, the FCC requested comment on several alternative inter-carrier compensation proposals, including bill and keep .

The outcome of this proceeding is likely to change the way Spinco receives compensation from, and remits compensation to, other carriers and its end user customers. Until this proceeding concludes and the changes to the existing rules are established, if any, Spinco cannot estimate the impact of the changes on its ILEC revenues and expenses or when the changes would occur.

On October 8, 2004, the FCC granted in part and denied in part a petition filed by Core Communications requesting that the FCC forbear from enforcing provisions of the FCC's 2001 Internet Service Provider (ISP) Remand Order. The FCC granted forbearance from the ISP Remand Order's growth caps and new market rule finding they were no longer in the public interest. The FCC denied forbearance from the ISP Remand Order's rate cap and mirroring rules. Various parties have filed for reconsideration with the FCC and have appealed the decision to the U.S. Court of Appeals for the District of Columbia Circuit. If the FCC's decision in this order is upheld, Spinco is likely to incur additional costs for delivering ISP-bound traffic to competitive wireline service providers. Although Spinco has not fully quantified the effects of this order, Spinco believes that the additional expense would not likely exceed \$10.0 million annually.

On July 6, 2005, a hearing examiner issued a recommended order to the Georgia PSC that, if adopted, would prospectively preclude LECs from assessing access charges for certain intrastate calls. Spinco, along

Table of Contents

with other LECs in Georgia, requested that the Georgia PSC reject the recommended order and find that access charges continue to apply to these intrastate calls. If the Georgia PSC ultimately adopts the recommended order, Spinco would incur a reduction in annual revenues of approximately \$12.0 million. A final order will not likely become effective before the end of the second quarter of 2006.

Universal Service. The federal universal service program is under legislative, regulatory and industry scrutiny as a result of growth in the fund and structural changes within the telecommunications industry. The structural changes include the increase in the number of Eligible Telecommunications Carriers (ETCs) receiving money from the USF and a migration of customers from wireline service providers to providers using alternative technologies like VoIP that, today, are not required to contribute to the universal service program. There are several FCC proceedings underway that are likely to change the way universal service programs are funded and the way these funds are disbursed to program recipients. The specific proceedings are discussed in greater detail below.

In May 2001, the FCC adopted the Rural Task Force Order that established an interim universal service mechanism governing compensation for rural telephone companies for the ensuing five years. The interim mechanism has allowed rural carriers to continue receiving high-cost funding based on their embedded costs. On June 2, 2004, the FCC asked the Federal/State Joint Board on Universal Service (the Joint Board) to review the FCC's rules as they pertain to rural telephone companies and to determine what changes, if any, should be made to the existing high-cost support mechanism when the interim funding program expires in June 2006. The Joint Board sought comment on such a mechanism on August 16, 2004, but has taken no further action. In the event a new mechanism is not established for rural carriers prior to the expiration of the plan, the FCC will likely extend the interim mechanism currently in place. In addition, the Joint Board sought comment on whether companies operating multiple distinct geographic market areas within a state should consolidate them for purposes of calculating universal service support. If the FCC implements this proposal, Spinco's universal service revenues would be reduced from their current level by approximately \$8.5 million annually. On August 17, 2005, the Joint Board sought comment on four separate proposals to modify the distribution of high-cost universal service support. Each of the proposals provides state public service commissions a greater role in the support distribution process, which would remain subject to specific FCC guidelines. Spinco cannot estimate the impact of the potential change from embedded cost to another methodology, or the impact of other potential changes to the fund contemplated by the Joint Board until the specific changes, if any, are determined.

On June 14, 2005, the FCC issued a notice of proposed rulemaking initiating a broad inquiry into the management and administration of the universal service programs. The notice of proposed rulemaking seeks comment on ways to streamline the application process for federal support and whether and how to increase audits of fund contributors and fund recipients in an effort to deter waste and fraud. The FCC is also considering proposals regarding the contribution methodology, which could change the types of service providers required to contribute to the fund (i.e. local exchange providers, wireless providers, long-distance providers, etc.) and the basis on which they contribute. At this time, Spinco cannot estimate the impact that the potential changes, if any, would have on its operations.

On December 9, 2005, the FCC issued a notice of proposed rulemaking seeking comments on the need to redefine certain statutory terms established by the 96 Act. Changes to these defined statutory terms could result in a different allocation of universal service support to non-rural carriers. Spinco receives approximately \$9.5 million annually in non-rural universal service support and cannot estimate the financial impact resulting from changes to the definitions of the statutory terms until such changes, if any, are determined.

The FCC mandated that Universal Service Administrative Company (USAC) begin accounting for the USF program in accordance with generally accepted accounting principles for federal agencies effective October 1, 2004, rather than the accounting rules that USAC formerly used. This change in accounting method subjected USAC to the Anti-Deficiency Act (the ADA), the effect of which could have caused delays in payments to USF program recipients and significantly increased the amount of USF regulatory fees charged to wireline and wireless consumers. In December 2004, Congress passed legislation to exempt USAC from the ADA for one year to allow for a more thorough review of the impact the ADA would have on the

Table of Contents

universal service program. In April 2005, the FCC tentatively concluded that the high-cost and low-income universal service programs are compliant with ADA requirements, and asked the Office of Management and Budget to make a final determination on this issue, which they have yet to do. The 2006 Science, State, Commerce and Justice Department appropriations bill includes a provision that prohibits the FCC from enacting a primary connection restriction on universal service support.

Emerging Competitive Technologies VoIP. Voice telecommunications services utilizing IP as the underlying transmission technology, or VoIP, are challenging existing regulatory definitions and raising questions concerning how IP-enabled services should be regulated, if at all. Several state commissions have attempted to assert jurisdiction over VoIP services, but federal courts in New York and Minnesota have ruled that the FCC preempts the states with respect to jurisdiction. These cases are on appeal. On March 10, 2004, the FCC released a notice of proposed rulemaking seeking comment on the appropriate regulatory treatment of IP-enabled communications services. The FCC indicated that the cost of the public switched telephone network should be borne equitably by the users and requested comment on the specific regulatory requirements that should be extended to IP-enabled service providers, including requirements relating to E-911, accessibility for the disabled, inter-carrier compensation and universal service. Although the FCC's rulemaking regarding IP-enabled services remains pending, the FCC has adopted a series of related orders establishing broad parameters for the regulation of those services.

On February 12, 2004, the FCC released an order declaring Pulver.com's free IP-based, peer-to-peer service that requires specialized telephone equipment or software for computers was not a regulated telecommunications service, but rather was an unregulated information service subject to federal jurisdiction.

On April 21, 2004, the FCC denied a waiver petition filed by AT&T requesting that its IP telephony service be exempt from paying access compensation to wireline local service providers and from contributions to the universal service fund. The FCC ruled AT&T's IP telephony service, which converted voice calls to an IP format for some portion of the routing over the public switched telephone network prior to converting the calls back to their original format, was a regulated telecommunications service subject to payment of access compensation to LECs, as well as the universal service fund.

On November 12, 2004, the FCC ruled that Internet-based service provided by Vonage Holdings Corporation (Vonage) should be subject to federal rather than state jurisdiction. The FCC has not yet determined how Vonage's service should be classified for regulatory purposes, but is likely to address the information service vs.

telecommunications service debate in its pending rulemaking regarding IP-enabled services. Several state commissions appealed the FCC's Vonage decision, and these appeals are presently pending before the U.S. Eighth Circuit Court of Appeals.

On June 3, 2005, the FCC took swift action in response to several incidents where VoIP customers were unable to complete E-911 calls. The FCC ordered all VoIP service providers whose service is interconnected with the public switched telephone network to provide E-911 services to their customers no later than November 28, 2005.

The Commission on Accreditation for Law Enforcement Agencies, Inc. (CALEA) requires telecommunications carriers to ensure that their networks are capable of accommodating lawful intercept requests received from law enforcement agencies. The FCC has imposed various obligations and compliance deadlines, with which Spinco has either complied or, in accordance with CALEA, filed a request for an extension of time. In response to a petition filed by the DOJ and other federal agencies, the FCC initiated a rulemaking in August 2004 to adopt new rules under CALEA pertaining to wireline carriers' packet mode communications services, including Internet protocol (IP) based services. On September 21, 2005, the FCC released its order on CALEA requirements for broadband and ISP services, including VoIP services. The FCC found that essentially, ISP and VoIP services are telecommunications services subject to CALEA requirements. Several appeals have been filed. On May 3, 2006, the FCC adopted an order specifying guidelines for broadband and VoIP service compliance with the CALEA rules. The Company is currently evaluating the order, although the specific rules have not yet been released, and at this time does not know whether the order will impact its operations.

Broadband. On September 23, 2005, the FCC released an order declaring wireline broadband Internet access service (DSL) an information service functionally integrated with a telecommunications component and no longer subject to a higher level of regulation as compared to broadband cable modem service. This order establishes a framework that may eventually allow Spincos DSL service to obtain regulatory parity with cable modem service, which is lightly regulated. The FCC order requires wireline broadband service providers, like Spincos, to continue offering broadband access on a stand-alone basis to competing unaffiliated Internet service providers for one year, after which they will no longer be required to do so. Additionally, the order preserves the current method of assessing universal service contributions on DSL revenues for a 270-day period after the effective date of the order, or until the FCC adopts a new contribution methodology to the universal service fund. The order provides price cap companies the option to deregulate DSL, de-tariff DSL or keep DSL regulated as it is today. Spincos DSL products are experiencing significant growth throughout its service areas and the primary DSL competitor is the historically less regulated cable modem service. Spincos DSL products and services currently remain regulated by the FCC.

Because certain of the regulatory matters discussed above are under FCC or judicial review, resolution of these matters continues to be uncertain, and Spincos cannot predict at this time the specific effects, if any, that the 96 Act, regulatory decisions and rulemakings, and future competition will ultimately have on its ILEC operations.

Revenues and sales from Spincos product distribution are derived from revenues associated with sales of telecommunications equipment to affiliated and non-affiliated communications companies. Revenues and sales from Spincos product distribution operations increased slightly in the first quarter of 2006 compared to the same period in the prior year. Although sales of telecommunications equipment and data products to Spincos regulated entities accounted for under SFAS No. 71 increased \$4.8 million in the first quarter of 2006 compared to the same period in the prior year, sales to Spincos other subsidiaries decreased \$5.5 million, both due to the timing of capital expenditures in those businesses. Alternatively, sales to external customers increased \$1.0 million in the 2006 period. Segment income for the three months ended March 31, 2006 also increased slightly, primarily due to improved margins on sales to affiliated companies. Prices for products sold to internal customers are established at a level that will allow the product distribution operations to recover its operating cost, plus a small operating profit.

Revenues and sales from Spinco's other operations are derived from revenues associated with publishing directories for affiliated and non-affiliated local exchange carriers; charges for long-distance services including toll-free, calling card services, dedicated access conference calling and bill management performed in connection with our long-distance business; and charges to non-affiliated telecommunications companies for information services, primarily customer billing. Revenues and sales attributable to the Spinco's other operations increased \$1.9 million, or 3 percent, for the three month period ended March 31, 2006 compared to the same period of 2005. As noted in the table above, the increase in revenues and sales in the first quarter of 2006 primarily reflected growth in revenues attributable to long-distance and network management services, partially offset by a decline in revenues derived from telecommunications information services.

Revenues attributable to long-distance and network management services increased \$2.9 million in the three month period ended March 31, 2006 as compared to the same period in 2005, primarily driven by an increase in customer billing rates initiated during the second quarter of 2005 on one of Spinco's most popular billing plans. This increase in rates was partially offset by the effects of customers migrating to packaged rate plans and a decrease in long distance customers served. In response to competitive pressures, Spinco has introduced in its long-distance markets packaged rate plans that provide customers with unlimited calling for one flat monthly rate. In addition, the majority of Spinco's long distance customers are also local access customers. Therefore, the decline in long distance customers is consistent with the loss of access lines previously discussed. Telecommunications information services revenues decreased \$1.2 million in the three months ended March 31, 2006, due to final billings earned in the first quarter of 2005 related to one of Alltel's remaining unaffiliated wireline services customers that terminated its service during the fourth quarter of 2004. Revenues derived from directory publishing in the three months ended March 31, 2005 were flat as compared to the same period in 2005.

Other operations segment income increased \$7.0 million, or 89 percent, in the three month period ended March 31, 2006 compared to the same period in 2005, primarily due to increased margins in Spinco's long-distance and network management operations. Although revenues and sales attributable to long-distance and network management services increased as discussed above, operating expenses for that business decreased \$3.9 million in the three month period of 2006 compared to the three month period in 2005, primarily due to a decrease in the charges incurred from Alltel for carrying Spinco's long-distance traffic on Alltel's network.

Cash Flows-Operating Activities

Cash provided from operations is Spinco's primary source of liquidity. The decline in cash provided from operations for the three months ended March 31, 2006 compared to March 31, 2005 primarily reflected the decline in revenues earned by Spinco's wireline business segment. Cash flows from operations in the first quarter of 2006 also reflected changes in working capital requirements, including timing differences in the billing and collection of accounts receivable, purchase of inventory and payment of accounts payable and income taxes. During the first three months of 2006, Spinco generated sufficient cash flows from operations to fund its capital expenditure requirements, dividend payments to Alltel and scheduled long-term debt payments as further discussed below. Spinco expects to generate sufficient cash flows from operations to fund its operating requirements during the balance of 2006.

Cash Flows-Investing Activities

Capital expenditures are Spinco's primary use of capital resources. Capital expenditures for the three months ended March 31, 2006 were \$62.2 million compared to \$73.3 million for the same period in 2005. Capital expenditures in both years were incurred to construct additional network facilities and to upgrade Spinco's telecommunications network in order to offer other communications services, including Internet and broadband communications services. Spinco funded substantially all of its capital expenditures through internally generated funds.

Cash Flows-Financing Activities

Dividend payments to Alltel are a significant use of capital resources for Spinco. Dividend payments to Alltel amounted to \$65.7 million in the first quarter of 2006 and \$47.8 million in the first quarter of 2005. Prior to the spin-off, Spinco expects to continue the payment of cash dividends to Alltel during 2006. Operating cash flows are expected to be sufficient to fund the future dividend payments to Alltel. As further discussed under Liquidity and Capital Resources, in connection with the spin-off, Spinco will pay a special dividend to Alltel in an amount not to exceed Alltel's tax basis in its operations, currently estimated to be approximately \$2.275 billion. Spinco will fund the special dividend payment from borrowings under a new senior secured credit agreement or the issuance of unsecured debt securities in a private placement.

Retirements of long-term debt were \$0.1 million for the three months ended March 31, 2006 and 2005. Retirements of long-term debt in both periods reflected the required scheduled principal payments under Spinco's existing long-term debt obligations.

As previously discussed, Spinco participates in the centralized cash management practices of Alltel. Under these practices, cash balances are transferred daily to Alltel bank accounts, and Spinco obtains interim financing from Alltel to fund its daily cash requirements and invest short-term excess funds with Alltel. At March 31, 2006 and 2005, Spinco had a net payable to Alltel which is included in Parent Company Investment in the accompanying unaudited combined balance sheets. During both the first quarter of 2006 and 2005, Spinco reduced its overall net borrowings from Alltel. Reductions in advances to Alltel amounted to \$159.0 million and \$203.2 million in the three months

ended March 31, 2006 and 2005, respectively.

Critical Accounting Policies

Spinco prepares its consolidated financial statements in accordance with accounting principles generally accepted in the United States. In the Management's Discussion and Analysis of Financial Condition and Results of Operations for the year ended December 31, 2005, Spinco identified the critical accounting policies which affect its more significant estimates and assumptions used in preparing its consolidated financial statements. These critical accounting policies include evaluating the collectibility of trade receivables, accounting for pension and other postretirement benefits, calculating depreciation and amortization expense, determining the fair values of goodwill and other indefinite-lived intangible assets and accounting for current and deferred income taxes. There have been no material changes to Spinco's critical accounting policies during the three month period ended March 31, 2006.

TWELVE MONTHS ENDED DECEMBER 31, 2005

Year End Highlights

Among the highlights in 2005:

Spinco added more than 154,000 high-speed data customers, increasing Spinco's DSL customer base to almost 400,000. This increase more than offset the loss of approximately 124,000 local access lines, a year-over-year decline of 4 percent.

Revenues and sales decreased by \$10.0 million and operating income decreased by \$33.8 million, primarily due to the loss in access lines discussed above. However, average revenue per access line (excluding revenues from the long-distance service business) increased 2 percent to \$67.21, primarily due to growth in broadband revenues and selling additional services and features to existing wireline customers.

During the fourth quarter of 2005, Spinco began offering DISH Network satellite television service to Spinco's residential customers as part of a bundled service offering.

Revenue and Sales

Total revenues and sales decreased less than 1 percent in 2005, or \$10.0 million, and 2 percent in 2004, or \$69.8 million, driven by decreases in service revenues of 3 percent in both years, or \$69.9 million and \$84.9 million, respectively. Wireline local access service and network access and toll revenues decreased \$78.1 million in 2005 and \$33.9 million in 2004, primarily as a result of the loss of wireline access lines due, in part, to broadband and wireless substitution. Telecommunications information services revenues decreased \$24.6 million in 2005 from 2004 due to the loss of one of Alltel's remaining unaffiliated wireline services customers during the fourth quarter of 2004. Telecommunications information services revenues decreased \$67.1 million in 2004 compared to 2003, primarily due to the December 2003 sale of certain assets and related liabilities, including selected customer contracts and capitalized software development costs, to Convergys Information Management Group, Inc. (Convergys). Offsetting the decline in service revenues attributable to local access service, network access and toll revenues and telecommunications information services were increases in revenues derived from data services and Internet operations of \$36.8 million in 2005 and \$29.4 million in 2004, reflecting continued customer demand for these

products. In addition, universal service fund (USF) revenues increased \$12.5 million in 2005 as a result of the decline in access revenues previously discussed and decreased \$20.3 million in 2004 as a result of an increase in the national average cost per loop, combined with Spinco's cost cutting measures, as further discussed below in Results of Operations by Business Segment. Finally, service revenues in 2005 reflected a decrease in advertising revenues earned from directories published in Spinco's ILEC markets of \$12.2 million due to a change in the number and mix of directories published.

Table of Contents

Product sales, which represents revenues generated from Spinco's directory publishing operations and sales of telecommunications equipment and data products, primarily to Spinco's ILEC subsidiaries increased \$59.9 million, or 15 percent in 2005 and \$15.1 million, or 4 percent in 2004. The increase in product sales in 2005 was due primarily to an increase in sales of telecommunications equipment and data products of \$50.4 million related to increased capital expenditures by Spinco's wireline operations. The 2004 increase in product sales was primarily due to an increase in directory publishing revenues of \$33.3 million associated with an increase in the number of directory contracts published, including the initial publication of directories for certain operations in Kentucky and Nebraska for which directory publishing was previously outsourced, partially offset by a decrease in sales of telecommunications equipment and data products of \$21.4 million due to a reduction in capital expenditures by Spinco's wireline operations.

Cost and Expenses

Cost of services, which represents the cost of provisioning service, as well as business taxes and bad debt expense, decreased \$17.6 million, or 2 percent, in 2005 and \$51.1 million, or 6 percent, in 2004. The 2005 decrease was driven primarily by a reduction in costs incurred by the telecommunications information services operations due to the loss of a customer as discussed herein. The 2004 decrease was also impacted by a reduction in costs incurred by the telecommunications information services operations due to the sale of customer contracts to Convergys. In addition, cost of services decreased in 2004 due to the effects of incremental costs of \$20.9 million incurred in 2003 related to a strike by our unionized workforce in Kentucky and maintenance costs due to damage caused by severe winter storms in 2003.

Cost of products sold increased \$41.0 million, or 12 percent, in 2005, consistent with the increase in product sales discussed above. Although product sales increased in 2004, cost of products sold decreased \$5.2 million, or 2 percent, primarily due to the favorable effects of increased start-up costs incurred in 2003 in Spinco's directory publishing operations in order to begin providing all directory publishing services, except printing, for all directory contracts published in 2004.

Selling, general, administrative and other expenses increased \$12.2 million, or 4 percent, in 2005 and decreased \$23.1 million, or 7 percent in 2004. The 2005 increase was due primarily to increased selling and marketing costs incurred by Spinco's publishing subsidiary. The 2004 decline in selling, general, administrative and other expense was due primarily to a decline in allocations received from Alltel related to services that Alltel provides for Spinco under a shared services agreement and reduced salaries and benefits costs as a result of cost cutting measures, as well as the favorable effect of incremental start-up costs incurred by Spinco's publishing subsidiary in 2003 as previously discussed. Depreciation and amortization expense declined \$34.3 million, or 7 percent, and \$10.9 million, or 2 percent, in 2005 and 2004, respectively. The decline in both years primarily resulted from a reduction in depreciation rates for certain of Spinco's ILEC operations, reflecting the results of studies of depreciable lives completed during 2005 and 2004. Royalty expense to Parent decreased 1 percent in both 2005 and 2004, or \$1.4 million and \$2.8 million, respectively. Spinco's ILEC subsidiaries incur a royalty expense from Alltel for the use of the Alltel brand name in marketing and distributing telecommunications products and services pursuant to a licensing agreement with an Alltel affiliate. Following the spin off and merger with Valor, Windstream will not incur this charge as it will discontinue use of the Alltel brand name following a brief transitional rebranding period.

Restructuring and Other Charges

A summary of the restructuring and other charges recorded by Spinco's wireline operations in 2005 was as follows:

| | (Millions) |
|--|----------------|
| Severance and employee benefit costs | \$ 4.4 |
| Costs associated with pending spin-off and merger of wireline operations | 31.3 |
| Total restructuring and other charges | \$ 35.7 |

Table of Contents

During the third quarter of 2005, Spinco incurred \$4.6 million of severance and employee benefit costs related to a planned workforce reduction in Spinco's wireline operations. In the fourth quarter of 2005, Spinco reduced the liabilities associated with the wireline restructuring activities by \$0.2 million to reflect differences between estimated and actual costs paid in completing the employee terminations. As of December 31, 2005, Spinco had paid \$4.4 million in severance and employee-related expenses, and all of the employee reductions had been completed. As previously discussed, on December 9, 2005, Alltel announced that it would spin off its wireline telecommunications business to its stockholders and merge it with Valor. In connection with the spin-off and merger, Spinco incurred \$31.3 million of incremental costs during the fourth quarter of 2005, principally representing accrued investment banker, audit and legal fees.

A summary of the restructuring and other charges recorded in 2004 was as follows:

| | Wireline | Product Distribution | Other | Total |
|--|----------------|-------------------------|---------------|----------------|
| | (Millions) | | | |
| Severance and employee benefit costs | \$ 11.2 | \$ 0.1 | \$ 0.3 | \$ 11.6 |
| Relocation costs | 1.2 | | 0.1 | 1.3 |
| Lease and contract termination costs | (1.8) | | | (1.8) |
| Other exit costs | 0.7 | | | 0.7 |
| Total restructuring and other charges | \$ 11.3 | \$ 0.1 | \$ 0.4 | \$ 11.8 |

In January 2004, Spinco announced plans to reorganize its operations and support teams. Also during February 2004, Spinco announced plans to exit its CLEC operations in the Jacksonville, Florida market due to the continued unprofitability of these operations. In connection with these activities, Spinco recorded a restructuring charge of \$13.6 million, consisting of \$11.6 million in severance and employee benefit costs related to a planned workforce reduction, \$1.3 million of employee relocation expenses and \$0.7 million of other exit costs. As of December 31, 2005, Spinco had paid all of the severance and employee-related expenses, and all of the employee reductions and relocations had been completed. During 2004, Spinco also recorded a \$1.8 million reduction in the liabilities associated with various restructuring activities initiated prior to 2003, consisting of lease and contract termination costs. The reductions primarily reflected differences between estimated and actual costs paid in completing the lease and contract terminations.

A summary of the restructuring and other charges recorded in 2003 was as follows:

| | Wireline | Product Distribution | Other | Total |
|--|---------------|-------------------------|---------------|----------------|
| | (Millions) | | | |
| Severance and employee benefit costs | \$ 7.0 | | \$ | \$ 7.0 |
| Lease and contract termination costs | | | (0.4) | (0.4) |
| Write-down of software development costs | 1.8 | | 3.8 | 5.6 |
| Total restructuring and other charges | \$ 8.8 | | \$ 3.4 | \$ 12.2 |

During 2003, Spinco recorded a restructuring charge of \$7.0 million consisting of severance and employee benefit costs related to a planned workforce reduction, primarily resulting from the closing of certain call center locations. As of December 31, 2005, Spinco had paid all of the severance and employee-related expenses, and all of the employee

reductions had been completed. Spinco also recorded a \$0.4 million reduction in the liabilities associated with various restructuring activities initiated prior to 2003, consisting of lease termination costs. The reduction primarily reflected differences between estimated and actual costs paid in completing the lease terminations. In 2003, Spinco also wrote off certain capitalized software development costs that had no alternative future use or functionality.

The restructuring and other charges decreased net income \$34.1 million, \$7.3 million and \$7.5 million for the years ended December 31, 2005, 2004 and 2003, respectively. The restructuring and other charges discussed above were not allocated to our business segments, as management evaluates segment performance

excluding the effects of these items. (See Note 8 to the combined financial statements for additional information regarding these changes.)

Other Income, Net

Other income, net decreased \$2.1 million, or 15 percent, in 2005 and increased \$7.9 million, or 136 percent, in 2004. The increase in other income, net in 2004 primarily resulted from an increase of \$6.2 million in the amount of annual dividends paid on Spinco's investment in Rural Telephone Bank Class C stock. In the second quarter of 2003, Spinco received additional shares of this stock investment as a result of Spinco's repayment of all outstanding debt under the Rural Utilities Services, Rural Telephone Bank and Federal Financing Bank programs, as further discussed below. As of December 31, 2005, Spinco's investment in Rural Telephone Bank Class C stock was transferred to Alltel. As a result, Spinco will not receive any related dividends during 2006.

Intercompany Interest Income (Expense)

Spinco participates in a cash management program with its parent company, Alltel. Under this program, Spinco earns interest on amounts remitted to Alltel at a rate based on current market rates for short-term investments and pay interest on amounts received from Alltel at a rate based on Alltel's weighted-average borrowing rate. Intercompany interest income (expense) increased \$38.5 million, or 253 percent, in 2005 and \$6.4 million, or 30 percent, in 2004. The increase in both years is due to an increase in the amount of funds remitted to Alltel under the cash management program, combined with an increase in the advance interest rate. Following the completion of the merger, Windstream will not participate in the cash management program with Alltel and therefore will not receive any related interest income or pay any related interest expense.

Interest Expense

Interest expense decreased \$1.3 million, or 6 percent, in 2005 and \$7.3 million, or 26 percent, in 2004. The decrease in 2004 reflected the prepayment of all outstanding borrowings, which totaled \$249.1 million, under the Rural Utilities Services, Rural Telephone Bank and Federal Financing Bank programs in the second quarter of 2003.

Gain on Disposal of Assets and Other

In 2003, Spinco sold to Convergys certain assets and related liabilities, including selected customer contracts and capitalized software development costs, associated with Spinco's telecommunications information services operations. In connection with this sale, Spinco received proceeds of \$37.0 million and recorded a pretax gain of \$31.0 million. As noted above, during the second quarter of 2003, Spinco retired, prior to stated maturity dates, \$249.1 million of long-term debt. In connection with the early retirement of this debt, Spinco incurred pretax termination fees of \$7.1 million. These transactions increased net income \$10.7 million in 2003.

Income Taxes

Income tax expense increased \$8.5 million, or 3 percent, in 2005 and \$12.3 million, or 5 percent, in 2004, consistent with the overall growth in income before income taxes. Spinco's effective tax rate in 2005 was 41.3 percent, compared to 40.2 percent in 2004. The 2005 effective tax rate was unfavorably impacted by the non-deductible spin-off related costs previously discussed.

Income before Cumulative Effect of Accounting Change

Income before cumulative effect of accounting change decreased \$4.6 million, or 1 percent, in 2005 as compared to 2004 and increased \$9.1 million, or 2 percent, in 2004 as compared to 2003. Income before cumulative effect of accounting change in 2005 was adversely affected by the decline in revenues primarily due to the loss of access lines discussed above and the additional spin-off related costs incurred during the

Table of Contents

fourth quarter of 2005, partially offset by increased intercompany interest income earned from Alltel under the cash management program. The increase in 2004 was due primarily to the decline in operating expenses due to the favorable effect of incremental strike-related costs and maintenance costs in 2003 and the gain on the sale of customer contracts to Convergys in 2003, partially offset by the decline in revenues primarily due to the loss of access lines.

Cumulative Effect of Accounting Change

During the fourth quarter of 2005, Spinco adopted FASB Interpretation No. 47, *Accounting for Conditional Asset Retirement Obligations* (FIN 47), which is an interpretation of SFAS No. 143, *Accounting for Asset Retirement Obligations*. SFAS No. 143 addresses financial accounting and reporting for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. This standard applies to legal obligations associated with the retirement of long-lived assets that result from the acquisition, construction, development, or normal use of the assets. SFAS No. 143 requires that a liability for an asset retirement obligation be recognized when incurred and reasonably estimable, recorded at fair value and classified as a liability in the balance sheet. When the liability is initially recorded, the entity capitalizes the cost and increases the carrying value of the related long-lived asset. The liability is then accreted to its present value each period, and the capitalized cost is depreciated over the estimated useful life of the related asset. At the settlement date, the entity will settle the obligation for its recorded amount and recognize a gain or loss upon settlement. FIN 47 states that the accounting guidance in SFAS No. 143 is applicable to asset retirement obligations that are conditional on the occurrence of a future event.

Spinco evaluated the effects of FIN 47 on its operations and determined that, for certain buildings containing asbestos, Spinco is legally obligated to remediate the asbestos if it were to abandon, sell or otherwise dispose of the buildings. In addition, for Spinco's acquired Kentucky and Nebraska ILEC operations not subject to SFAS No. 71, *Accounting for the Effects of Certain Types of Regulation*, it is legally obligated to properly dispose of its chemically-treated telephone poles at the time they are removed from service. In accordance with federal and state regulations, depreciation expense for Spinco's ILEC operations that follow the accounting prescribed by SFAS No. 71 have historically included an additional provision for cost of removal, and accordingly, the adoption of FIN 47 had no impact on these operations. The cumulative effect of this change in 2005 resulted in a non-cash charge of \$7.4 million, net of income tax benefit of \$4.6 million, and was included in net income for the year ended December 31, 2005.

Except for certain ILEC subsidiaries as further discussed below, Spinco adopted SFAS No. 143, *Accounting for Asset Retirement Obligations*, effective January 1, 2003. Spinco evaluated the effects of SFAS No. 143 on its operations and determined that, for telecommunications and other operating facilities in which it owns the underlying land, Spinco has no contractual or legal obligation to remediate the property if it were to abandon, sell or otherwise dispose of the property. However, certain of Spinco's lease agreements for office space require restoration of the leased site upon expiration of the lease term. Accordingly, Spinco is subject to asset retirement obligations associated with these leased facilities under the provisions of SFAS No. 143. The application of SFAS No. 143 to Spinco's office leases did not have a material impact on its consolidated results of operations, financial position or cash flows as of or for the year ended December 31, 2003.

As noted above, in accordance with federal and state regulations, depreciation expense for Spinco's ILEC operations has historically included an additional provision for cost of removal. The additional cost of removal provision does not meet the recognition and measurement principles of an asset retirement obligation under SFAS No. 143. On December 20, 2002, the Federal Communications Commission (FCC) notified wireline carriers that they should not adopt the provisions of SFAS No. 143 unless specifically required by the FCC in the future. As a result of the FCC ruling, Spinco will continue to record a regulatory liability for cost of removal for its ILEC subsidiaries that follow the accounting prescribed by SFAS No. 71. For the acquired Kentucky and Nebraska ILEC operations not subject to SFAS No. 71, effective January 1, 2003, Spinco ceased recognition of the cost of removal provision in depreciation expense and eliminated the cumulative cost of removal included in accumulated depreciation. The cumulative effect of retroactively applying these changes to periods prior to January 1, 2003, resulted in a non-cash credit of \$15.6 million, net of income tax

Table of Contents

expense of \$10.3 million, and was included in net income for the year ended December 31, 2003. The cessation of the cost of removal provision in depreciation expense for the acquired Kentucky and Nebraska ILEC operations did not have a material impact on Spinco's consolidated results of operations for the year ended December 31, 2003.

Notes:

(a) Average revenue per access line per month is calculated by dividing total wireline revenues by average access lines in service for the period.

Revenue and sales. Wireline operations consist of Spinco's ILEC, CLEC and Internet operations. Wireline revenues and sales decreased \$39.4 million, or 2 percent, in 2005 and \$17.8 million, or 1 percent, in 2004. Customer access lines decreased 4 percent in 2005 compared to a 3 percent decline in 2004. Spinco lost approximately 124,000 and 86,000 access lines during 2005 and 2004, respectively, primarily as a result of the effects of wireless and broadband substitution for Spinco's wireline services. Spinco expects the number of access lines served by its wireline operations to continue to be adversely affected by wireless and broadband substitution in 2006. Although Spinco has not yet seen significant competition from Voice over Internet Protocol (VoIP) providers, it also expects VoIP substitution to adversely impact the number of access lines served by its wireline operations during 2006.

To slow the decline of revenue in 2006, Spinco will continue to emphasize sales of enhanced services and bundling of its various product offerings including Internet, long-distance and broadband data transport services. Deployment of broadband service is an important strategic initiative for Spinco, and as of December 31, 2005, approximately 73 percent of its addressable lines were broadband-capable. During 2005 and 2004, Spinco added 154,000 and 90,000 broadband customers, respectively. At December 31, 2005, Spinco's broadband customer base had

grown to almost 400,000 customers. The growth in Spinco's broadband customers more than offset the decline in customer access lines that occurred in 2005 and 2004 noted above. In addition, during the fourth quarter of 2005, Spinco began offering DISH Network satellite television service to its residential customers as part of a bundled product offering. As further discussed below, revenues

Table of Contents

generated from the sales of data and enhanced services increased in both 2005 and 2004, which helped to partially offset the adverse effects on wireline revenues resulting from the loss of access lines.

Local service. Local service revenues consist of local exchange telephone services provided to both residential and business customers, including monthly recurring charges from basic service such as local dial-tone and enhanced services such as caller identification, voicemail and call waiting and non-recurring charges for service activation and reconnection of service. Local service revenues decreased \$34.1 million, or 3 percent, in 2005 and \$20.0 million, or 2 percent, in 2004. Local service revenues reflected reductions in basic service access line revenues of \$35.3 million in 2005 and \$25.7 million in 2004, consistent with the overall decline in access lines discussed above. The decline in local service revenues attributable to access line loss was partially offset by growth in revenues derived from the sales of enhanced products and services, such as voice mail and caller identification, and equipment protection plans. Revenues from these services increased \$3.6 million in 2005 and \$7.3 million in 2004, reflecting continued demand for these products and services.

Network access and interconnections. Network access and interconnection revenues include switched access, special access, and end user charges. Switched access represents usage sensitive charges to long distance companies for access to our network in connection with the completion of interstate and intrastate long-distance calls. Special access represents dedicated circuits, including circuits used to provide broadband service, while end user charges are monthly flat-rate charges assessed on access lines. Such revenues decreased 1 percent in both 2005 and 2004, or \$4.2 million and \$11.6 million, respectively. Primarily due to the overall decline in access lines discussed above, network access usage and toll revenues decreased \$42.8 million in 2005 and \$8.2 million in 2004. The decline in network access and interconnection revenues in both years attributable to access line loss was partially offset by growth in revenues earned from data services, which increased \$26.0 million and \$17.0 million in 2005 and 2004, respectively. The growth in revenues from data services in both 2005 and 2004 primarily reflected increased demand for high-speed data transport services. In addition to the effects of access line loss and increased demand for data services, USF revenues increased \$12.5 million in 2005 and decreased \$20.3 million in 2004. Spinco receives both federal and state USF subsidies due to the rural nature of most of its ILEC markets. The increase in USF revenues in 2005 resulted primarily from an increase of \$13.3 million in interstate common line support (ICLS) funding received in Spinco's rate-of-return markets as a result of the declining access revenues discussed above. ICLS funding is intended to ensure that rate-of-return carriers receive sufficient revenues to earn an appropriate profit margin, defined as 11.25 percent of eligible revenues. Conversely, compared to the prior year periods, high-cost loop support (HCLS) funding received by Spinco's ILEC subsidiaries decreased \$4.4 million in 2005 and \$20.3 million in 2004. The decreases in HCLS funding primarily resulted from increases in the national average cost per loop combined with the effects of Spinco's cost control efforts. Receipts from the HCLS fund are based on a comparison of each company's embedded cost per loop to a national average cost per loop. Primarily due to expected increases in the national average cost per loop and Spinco's continued focus on controlling operating costs in its ILEC business, it expects net USF receipts in 2006 to decline by approximately \$15.0 million, compared to 2005.

Miscellaneous. Miscellaneous revenues primarily consist of charges for Internet services, directory advertising, customer premise equipment sales, and billing and collection services provided to long-distance companies. Miscellaneous revenues decreased slightly in 2005 and increased \$13.8 million, or 6 percent, in 2004. Primarily driven by growth in broadband customers, revenues from Spinco's Internet operations increased \$10.8 million in 2005 and \$12.4 million in 2004. In addition, sales and rentals of customer premise equipment increased \$3.4 million in 2005, reflecting continued customer demand for these products. Also during 2005, Spinco generated \$1.1 million in commissions revenue in conjunction with offering DISH Network satellite television service to its residential customers as discussed above. Offsetting these increases in miscellaneous revenues in 2005 was a decline in advertising revenues earned from directories published in Spinco's ILEC markets of \$12.2 million from 2004, primarily due to a change in the number and mix of directories published during the period. Conversely, miscellaneous revenues for 2004 reflected a \$4.4 million increase in directory advertising revenues from 2003. Directory advertising revenues for 2004 included additional revenues of approximately \$14.9 million associated with the initial publication of directories in the acquired Kentucky and Nebraska markets, partially offset by lower directory advertising revenues in Spinco's

Table of Contents

other ILEC markets as compared to 2003. The decline in directory advertising revenues in Spinco's other ILEC markets was due primarily to a change in the number and mix of directories published during the period. The increase in miscellaneous revenues attributable to the Internet and directory publishing operations was partially offset in 2004 by a \$2.6 million decline from 2003 in customer premise equipment sales and rentals due to lower customer demand for purchasing or leasing landline-based communications equipment.

Primarily due to the broadband customer growth and increased sales of enhanced features, average revenue per access line per month increased 2 percent in both 2005 and 2004 from the corresponding prior year period. Future growth in average revenue per customer per month will depend on Spinco's success in sustaining growth in sales of broadband and other enhanced services to new and existing customers.

Cost of services. Cost of services increased slightly in 2005 and decreased by \$33.6 million, or 5 percent, in 2004. Cost of services for 2005 included approximately \$3.2 million of incremental costs incurred during the first quarter of 2005 related to work force reductions in Spinco's wireline business, as well as higher overtime and maintenance costs due to inclement weather. Cost of services in 2005 also included \$4.4 million of additional customer service expenses attributable to the growth in broadband customers, specifically the costs associated with subsidizing broadband-capable modems. In addition, cost of services in 2005 included increased regulatory fees of \$5.6 million related to an increase in the contribution factor applicable to universal service funding, which was collected from Spinco's customers. Offsetting the increase in salaries and benefits, customer service costs and regulatory fees in 2005 was a decrease in business taxes of \$6.3 million and a decrease in bad debt expense of \$4.4 million, both consistent with the decline in revenues discussed above. In addition, interconnection expenses decreased \$2.8 million in 2005 and \$8.2 million in 2004, consistent with the declines in toll revenues and access lines discussed above. Cost of services for 2004 also reflected reductions in customer service expenses and the effects of incremental strike-related expenses and maintenance costs incurred in 2003, as further discussed below. Compared to 2003, customer service expenses decreased \$3.3 million in 2004, primarily due to cost savings from Spinco's continued efforts to control operating expenses. Included in cost of services in 2003 were \$6.0 million of additional maintenance costs to repair damage caused by severe winter storms and incremental expenses of approximately \$14.9 million associated with a strike that ended on October 1, 2003, when Spinco signed a new collective bargaining agreement impacting approximately 400 employees in Kentucky represented by the Communications Workers of America.

Cost of products sold. Cost of products sold increased \$2.3 million, or 8 percent, in 2005 and \$1.4 million, or 5 percent, in 2004. The increase in 2005 was consistent with the increase in sales and rentals of customer premise equipment discussed above. Although sales and rentals of customer premise equipment declined in 2004 as compared to 2003, cost of products sold increased, primarily due to an increase in inventory write-offs during 2004 as compared to 2003.

Selling, general, administrative and other. Selling, general, administrative and other expenses increased \$3.4 million, or 1 percent, in 2005 and decreased \$16.9 million, or 6 percent, in 2004. The increase in 2005 was due primarily to higher insurance premiums related to Spinco's employee medical and dental plans. Partially offsetting the increase in employee benefit costs in 2005 was a decline in intercompany allocations received from Alltel. Under a shared services agreement, Alltel provides certain functions on Spinco's behalf, including but not limited to accounting, marketing, customer billing, information technology, legal, human resources, and engineering services. The decline in 2004 also resulted from lower intercompany allocations received from Alltel. In addition, salaries and employee benefit costs declined \$12.1 million in 2004, primarily reflecting cost savings driven by the restructuring initiatives commenced in 2003 and 2004 as previously discussed.

Depreciation and amortization. Depreciation and amortization expense decreased \$34.0 million, or 7 percent, in 2005 and \$8.0 million, or 2 percent, in 2004. The decreases in depreciation and amortization expense in both years primarily resulted from a reduction in depreciation rates for certain of Spinco's ILEC operations, reflecting the results of studies of depreciable lives completed during 2005 and 2004. During the second quarter of 2004, a triennial study of depreciable lives was completed related to Spinco's Nebraska ILEC operations as required by the Nebraska Public Service Commission. In addition, Spinco completed studies of depreciable lives during 2005 related to its Florida, Georgia and South Carolina ILEC operations,

Table of Contents

which also resulted in a reduction in depreciation rates. The depreciable lives were lengthened to reflect the estimated remaining useful lives of the ILEC plant based on Spinco's expected future network utilization and capital expenditure levels required to provide service to its customers. During 2006, Spinco expect to review the depreciation rates utilized in its remaining ILEC operations.

Royalty expense to Parent. Royalty expense to Alltel decreased 1 percent in both 2005 and 2004, or \$1.4 million and \$2.8 million, respectively. Spinco's ILEC subsidiaries incur a royalty expense from Alltel for the use of the Alltel brand name in marketing and distributing telecommunications products and services pursuant to a licensing agreement with an Alltel affiliate. Following the spin off and merger with Valor, Spinco no longer expects to incur this charge as it will no longer use the Alltel brand name.

Segment income. Wireline segment income decreased \$10.9 million, or 2 percent, in 2005 and increased \$42.1 million, or 7 percent, in 2004. The decrease in segment income in 2005 primarily resulted from the decline in revenues and sales due to the loss of access lines, which were partially offset by the favorable effects of reduced depreciation rates, as discussed above. Conversely, the increase in 2004 primarily reflected the selling of additional services and features to existing wireline customers, growth in Spinco's Internet operations, the effects of the incremental strike-related and maintenance costs incurred in 2003 and its cost savings and expense control efforts discussed above.

Set forth below is a summary of the restructuring and other charges related to the wireline operations that were not included in the determination of segment income for the years ended December 31:

Accounting for Regulated Entities

For a discussion of the accounting for regulated enterprises followed by Spinco see "Accounting for Regulated Entities" beginning on page 115 of this proxy statement/prospectus-information statement.

Revenues and sales. Revenues and sales from Spinco's Product Distribution operations represent sales of equipment to affiliated and non-affiliated communications companies, business system suppliers, govern-

ments and retail and industrial companies. Such revenues and sales increased \$50.4 million, or 20 percent, in 2005 and decreased \$21.4 million, or 8 percent, in 2004. As noted in the table above, the increase in revenues and sales in 2005 primarily reflected growth in sales of telecommunications equipment, primarily due to an increase in capital expenditures by Spincos wireline operations and data products. The decrease in revenues and sales in 2004 reflected declines in sales of telecommunications equipment, primarily due to a reduction in capital expenditures by Spincos wireline operations. For the year ended December 31, 2005, intercompany sales were \$177.0 million of \$307.9 million total revenues and sales.

Segment income. Product distribution segment income increased \$1.3 million, or 42 percent, in 2005 and remained substantially unchanged in 2004. The increase in 2005 was primarily due to a decrease in depreciation and amortization expense based on certain assets being fully depreciated.

Set forth below is a summary of the restructuring and other charges related to the other operations that were not included in the determination of segment income for the years ended December 31:

Revenues and sales. Revenues and sales from Spincos Other Operations are derived from (i) revenues associated with publishing directories for affiliated and non-affiliated local exchange carriers, (ii) charges for long-distance services including toll-free, calling card services, dedicated access conference calling and bill management performed

in connection with our long-distance business and (iii) charges for telecommunications information services, primarily customer billing services, provided to other telecommunications companies. Following completion of the spin-off and merger with Valor, Windstream does not expect to generate any further revenue from the telecommunications information services business as Spinco's remaining customer as of March 31, 2006 is Valor. Such revenues and sales decreased \$19.5 million, or 5 percent, in 2005 and decreased \$41.9 million, or 10 percent, in 2004. As noted in the table above, the decrease in revenues and sales in 2005 primarily reflected declines in revenues earned from telecommunications information services due to the loss of one of Spinco's remaining unaffiliated wireline services customers during the fourth quarter of 2004. Revenues derived from long-distance services increased \$6.3 million in 2005, primarily due to an increase in customer billing rates initiated during the second quarter of 2005 on one of Spinco's most popular billing plans. This increase in rates was partially offset by the effects of customers migrating to packaged rate plans and the decline in long-distance customers. In response to competitive pressures, Spinco has introduced packaged rate plans in its long-distance markets that provide customers with unlimited calling for one flat

Table of Contents

monthly rate. Revenues derived from directory publishing services in 2005 were relatively unchanged from 2004.

The decrease in revenues and sales in 2004 reflected declines in sales of long-distance services and telecommunications information services, partially offset by an increase in directory publishing revenues. Revenues attributable to long-distance services declined \$8.2 million in 2004. Although the number of long-distance customers served increased during 2004, revenues decreased, primarily due to declining usage by residential customers and a reduction in customer billing rates due to competition. Telecommunications information services revenues decreased \$67.1 million in 2004, primarily due to the December 2003 sale of certain assets and related liabilities, including selected customer contracts and capitalized software development costs, to Convergys, and the loss of one of Spincos remaining unaffiliated wireline services customers. The customer contracts sold to Convergys represented approximately 48 percent of the total revenues and sales reported by the telecommunications information services operations in 2003.

Directory publishing revenues increased \$33.3 million in 2004, primarily due to an increase in the number of directory contracts published, including the initial publication of directories for the acquired Kentucky and Nebraska operations previously discussed. In addition, the increase in 2004 also reflected a change in accounting for directory contracts in which Spincos has a secondary delivery obligation. Effective January 1, 2003, Spincos began deferring a portion of its revenues and related costs to provide for secondary deliveries. As a result, revenues and related costs associated with any directories for which secondary deliveries were required, but not yet made, were deferred, resulting in a reduction in directory publishing revenues in 2003 of \$5.3 million.

Segment income. Other operations segment income remained substantially unchanged in 2005 and decreased \$18.5 million, or 30 percent, in 2004. The decline in 2004 was primarily due to the decrease in revenues and sales noted above. The adverse effects on segment income attributable to the decrease in revenues and sales in 2004 were partially offset by improved profit margins in the directory publishing operations. Profit margins for the directory publishing operations in 2003 had been adversely affected by increased selling, marketing and other start-up costs incurred in order for Spincos publishing subsidiary to begin providing all directory publishing services, except printing, for all directory contracts published in 2004. Except for a limited number of directory contracts published in 2003, these publishing services were previously contracted out to a third party. Partially offsetting the 2004 improvement in the profit margins of the directory publishing operations attributable to the favorable effects of the start-up costs incurred in 2003 was an increase in bad debt expense of \$6.1 million.

Set forth below is a summary of the restructuring and other charges related to the other operations that were not included in the determination of segment income for the years ended December 31:

Segment Capital Requirements

The primary uses of cash for Spincos operating segments are capital expenditures for property, plant and equipment and expenditures for capitalized software development to support Spincos wireline operations.

Table of Contents

Annual capital expenditures and expenditures for software development by operating segment are forecasted as follows for 2006:

| | Capital Expenditures | | Software Development | | Totals | | |
|----------------------|----------------------|---|----------------------|--------|----------|---|----------|
| | (Millions) | | | | | | |
| Wireline | \$ 343.0 | - | \$ 348.0 | \$ 2.0 | \$ 345.0 | - | \$ 350.0 |
| Product Distribution | 2.0 | - | 2.0 | | 2.0 | - | 2.0 |
| Other | 3.0 | - | 3.0 | | 3.0 | - | 3.0 |
| Totals | \$ 348.0 | - | \$ 353.0 | \$ 2.0 | \$ 350.0 | - | \$ 355.0 |

Capital expenditures for 2006 will be primarily incurred to construct additional network facilities and to upgrade Spinco's telecommunications network. The forecasted spending levels in 2006 are subject to revision depending on changes in future capital requirements of Spinco's business segments. Both of Spinco's operating segments in 2005 generated positive cash flows sufficient to fund their day-to-day operations and to fund their capital requirements. Spinco expects its operating segments to continue to generate sufficient cash flows in 2006 to fund their operations and capital requirements.

Cash Flows from Operations

For each of the three years in the period ended December 31, 2005, cash provided from operations was Spinco's primary source of funds. The decreases in cash provided from operations in both 2005 and 2004 primarily reflected the decline in earnings from Spinco's Wireline operations segment. Cash flows from operations in 2004 was also adversely affected by changes in working capital requirements, including timing differences in the billing and collection of accounts receivables and the payment of trade payables and taxes. During 2005, Spinco generated sufficient cash flows from operations to fund its capital expenditure requirements, dividend payments to Alltel and scheduled long-term debt payments as further discussed below. Spinco expects to generate sufficient cash flows from operations to fund its operating requirements in 2006.

Cash Flows Used in Investing Activities

Capital expenditures continued to be Spinco's primary use of capital resources. Capital expenditures were \$352.9 million in 2005, \$333.3 million in 2004 and \$383.2 million in 2003. Capital expenditures in each of the past three years were incurred to construct additional network facilities and to upgrade Spinco's telecommunications

network in order to offer other communications services, including long-distance, Internet and broadband communications services. During each of the past three years, Spinco funded substantially all of its capital expenditures through internally generated funds. As indicated in the table above under Segment Capital Requirements, Spinco expects capital expenditures to be approximately \$348.0 million to \$353.0 million for 2006, which will be funded primarily from internally generated funds. Investing activities also included outlays for capitalized software development costs, which were \$4.0 million in 2005, \$4.5 million in 2004 and \$7.6 million in 2003. As indicated in the table above under Segment Capital Requirements, Spinco expects expenditures for capitalized software development to be approximately \$2.0 million for 2006, which also will be funded from internally generated funds.

Table of Contents

Cash flows from investing activities for 2003 included \$37.0 million of proceeds received from the sale to Convergys of certain assets related to Spincos telecommunications information services operations, as previously discussed.

Cash Flows Used in Financing Activities

Dividend payments to Alltel remained a significant use of Spincos capital resources during each of the three years in the period ended December 31, 2005. Dividend payments to Alltel amounted to \$233.6 million in 2005, \$239.1 million in 2004 and \$232.4 million in 2003. Prior to the spin-off, Spincos expects to continue the payment of cash dividends to Alltel during 2006. Operating cash flows are expected to be sufficient to fund the future dividend payments to Alltel.

As further discussed under Liquidity and Capital Resources, in connection with the spin-off, Spincos will pay a special dividend to Alltel in an amount not to exceed Alltel's tax basis in its operations, currently estimated to be approximately \$2.275 billion. Spincos will fund the special dividend payment from borrowings under a new senior secured credit agreement or the issuance of unsecured debt securities in a private placement.

Retirements of long-term debt amounted to \$22.1 million in both 2005 and 2004 and \$282.6 million in 2003. Retirements of long-term debt in 2005 and 2004 reflected the required scheduled principal payments under Spincos existing long-term debt obligations. In addition to the required scheduled principal payments, retirements of long-term debt in 2003 included the repayment of \$249.1 million of long-term debt outstanding under the Rural Utilities Service, Rural Telephone Bank and Federal Financing Bank programs. (See Note 4 to the combined financial statements for additional information regarding Spincos long-term debt.)

Spincos participates in the centralized cash management practices of Alltel. Under these practices, cash balances are transferred daily to Alltel bank accounts, and Spincos obtains interim financing from Alltel to fund its daily cash requirements and invest short-term excess funds with Alltel. At December 31, 2005 and 2004, Spincos had a net payable to Alltel which is included in the line item Parent Company Investment in the accompanying combined balance sheets and statements of equity. During each of the past three years, Spincos reduced its overall net borrowings from Alltel. Reductions in advances from Alltel amounted to \$346.7 million in 2005, \$365.9 million 2004 and \$269.2 million in 2003.

Liquidity and Capital Resources

Spincos believes that it has adequate operating cash flows to finance its ongoing operating requirements, including capital expenditures, repayment of long-term debt and payment of dividends to Alltel. As previously discussed, however, in conjunction with the spin-off, Spincos will pay a special dividend to Alltel in an amount not to exceed Alltel's tax basis in its wireline operations, currently estimated to be approximately \$2.275 billion, which Alltel will use to repurchase stock pursuant to a special stock buyback program authorized by the Alltel Board of Directors in connection with the spin-off, to repay outstanding indebtedness, or both, within one year following the spin-off, and will distribute to Alltel the exchange notes, which Alltel intends to exchange for outstanding Alltel debt securities or otherwise transfer to Alltel's creditors thereby reducing Alltel's outstanding indebtedness. In addition, in conjunction with the merger with Valor, Spincos expects to repay approximately \$81.0 million of its existing long-term debt obligations, including accrued interest. Upon repayment of Spincos existing long-term debt obligations, Spincos expects to incur approximately \$8.1 million of prepayment penalties. Prior to the distribution and merger, Spincos will consummate certain financing transactions pursuant to which it will incur approximately \$3.978 billion in indebtedness through (1) borrowing under a new senior secured credit agreement or the issuance of senior unsecured debt securities in an offering under Rule 144A, promulgated under the Securities Act of 1933, as amended and (2) the distribution of the exchange notes to Alltel. All proceeds of the financing will be used to pay the consideration to be received by Alltel for the contribution (through payment of the special dividend and distribution of the exchange notes) and to pay related fees and expenses. Alltel has received a commitment letter from various financial institutions to provide Spincos with up to \$4.2 billion in senior secured credit facilities comprised of term loan facilities in an aggregate amount of up to \$3.7 billion and a revolving credit facility of up to

Table of Contents

\$500 million to pay the special dividend and to fund its other financing requirements related to the spin-off and merger with Valor.

By virtue of the merger, Windstream will assume \$267.0 million in Alltel debt (which includes accrued and unpaid interest through the closing date), of which \$81.0 million (plus related make-whole premiums) will be refinanced with borrowings from its new credit facilities and/or a portion of the net proceeds from the issuance of senior unsecured debt securities in an offering under Rule 144A. Windstream will also assume \$400.0 million in outstanding Valor notes, which will be equally and ratably secured with debt under the new credit facilities. Windstream will be required to offer to repurchase any of the outstanding Valor notes that may be tendered as a result of the merger, which constitutes a change of control under the indenture governing the Valor notes, and will borrow additional amounts under its new credit facilities to the extent necessary to fund the purchase of any Valor notes that are tendered. In addition, Windstream will refinance approximately \$781.0 million (plus related premiums) outstanding under Valor's existing credit facility with borrowings from its new credit facilities and/or a portion of the net proceeds from the issuance of senior unsecured debt securities in a Rule 144A offering. The amounts assumed by Windstream, together with the issuance of the debt securities, the borrowings under the new credit facilities and certain expenses related to the spin-off, merger and financing transactions, will result in Windstream having approximately \$5.5 billion in total debt immediately following completion of the merger.

Certain of Spinco's debt agreements contain various covenants and restrictions specific to the subsidiary that is the legal counterparty to the agreement. As of March 31, 2006 and December 31, 2005, Spinco was in compliance with all such covenants and restrictions.

At March 31, 2006 and December 31, 2005, current maturities of long-term debt were \$22.1 million. Spinco expects to fund the payment of this obligation through operating cash flows.

Pension Plans

Substantially all of Spinco's employees participate in a qualified defined benefit pension plan maintained by Alltel. Prior to January 1, 2005, employees of Spinco's directory publishing subsidiary did not participate in the plan. In December 2005, the qualified defined benefit pension plan was amended such that future benefit accruals for all eligible non-bargaining employees ceased as of December 31, 2005 (December 31, 2010 for employees who had attained age 40 with two years of service as of December 31, 2005). Alltel also maintains a supplemental executive retirement plan that provides unfunded, non-qualified supplemental retirement benefits to a select group of Spinco's management employees. In addition, Alltel has entered into individual retirement agreements with certain of Spinco's retired executives providing for unfunded supplemental pension benefits. Spinco received allocations of pension expense related to these plans from Alltel totaling \$15.1 million in 2005, \$11.3 million in 2004 and \$16.4 million in 2003. The amount of pension expense recognized by Spinco during 2006 may change as employees performing shared functions are identified to join Spinco, and such change may be material. As of December 31, 2005 and 2004, no allocation of Spinco's share of the pension plans' assets or liabilities had been included in its financial statements. Upon completion of the spin-off, the amount of pension plans' assets or liabilities related to Spinco's employees will be allocated from Alltel.

Alltel calculated Spinco's annual pension expense for 2006 based upon a number of actuarial assumptions, including an expected long-term rate of return on qualified pension plan assets of 8.50 percent and a discount rate of 5.80 percent. In developing the expected long-term rate of return assumption, Alltel evaluated historical investment performance, as well as input from its investment advisors. Projected returns by such advisors were based on broad equity and bond indices. Alltel also considered the pension plan's historical returns since 1975 of 11.0 percent. Its expected long-term rate of return on qualified pension plan assets is based on a targeted asset allocation of 70 percent to equities, with an expected long-term rate of return of 10 percent, and 30 percent to fixed income assets, with an expected long-term rate of return of 5 percent. For the year ended December 31, 2005, the actual return on qualified pension plan assets was 7.2 percent.

The discount rate selected is based on a review of current market interest rates of high-quality, fixed-rate debt securities adjusted to reflect the duration of expected future cash outflows for pension benefit payments. In developing the discount rate assumption for 2006, Alltel reviewed the high-grade bond indices published by Moody's and

Standard & Poor's as of December 31, 2005 and other available market data and constructed a
136

Table of Contents

hypothetical portfolio of high quality bonds with maturities that mirrored the expected payment stream of its pension benefit obligation. The discount rate determined on this basis decreased from 6.00 percent at December 31, 2004 to 5.80 percent at December 31, 2005.

In conjunction with the spin off, Spinco's employees and retirees will cease to participate in Alltel's qualified defined benefit pension plan. Spinco will establish a separate plan that will mirror Alltel's plan, which will recognize its employees' and retirees' prior rights and benefits under the Alltel pension plan. Alltel will transfer an amount, currently estimated to be approximately \$750.0 million, from Alltel's qualified defined benefit pension plan to Spinco's plan trust. The actual amount of the transfer will be determined upon completion of the spin-off. Spinco does not expect that any contributions to the plan calculated in accordance with the minimum funding requirements of the Employee Retirement Income Security Act of 1974 will be required in 2006. Future contributions to the plan will depend on various factors, including future investment performance, changes in future discount rates and changes in the demographics of the population participating in the qualified pension plan.

Other Postretirement Benefits

Spinco provides postretirement healthcare and life insurance benefits for eligible employees. Retired employees share a portion of the cost of these benefits. Spinco funds the accrued costs of these plans as benefits are paid. Spinco incurred postretirement benefits expense totaling \$16.7 million in 2005, \$14.5 million in 2004 and \$18.1 million in 2003. Postretirement benefits expense for 2006 is estimated to be approximately \$16.6 million. As of December 31, 2005 and 2004, \$89.0 million and \$80.5 million, respectively, of the postretirement benefits plans' liabilities were included in the other liabilities in the accompanying combined balance sheets.

Spinco calculated its annual postretirement expense for 2006 based upon a number of actuarial assumptions, including a healthcare cost trend rate of 10.00 percent and a discount rate of 5.70 percent. Consistent with the methodology used to determine the appropriate discount rate for Alltel's pension obligations, the discount rate selected for postretirement benefits is based on a hypothetical portfolio of high quality bonds with maturities that mirrored the expected payment stream of the benefit obligation. The discount rate determined on this basis decreased from 6.00 percent at December 31, 2004 to 5.70 percent at December 31, 2005. Lowering the discount rate by an additional 0.25 percent (from 5.70 percent to 5.45 percent) would result in an increase in Spinco's allocation of postretirement expense of approximately \$400,000 in 2006.

The healthcare cost trend rate is based on Spinco's actual medical claims experience and future projections of medical costs. For the year ended December 31, 2005, a one percent increase in the assumed healthcare cost trend rate would increase Spinco's postretirement benefit cost by approximately \$1.1 million, while a one percent decrease in the rate would reduce its allocation of postretirement benefit cost by approximately \$1.0 million.

Under the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the Act), beginning in 2006, the Act will provide a prescription drug benefit under Medicare Part D, as well as a federal subsidy to plan sponsors of retiree healthcare plans that provide a prescription drug benefit to their participants that is at least actuarially equivalent to the benefit that will be available under Medicare. The amount of the federal subsidy will be based on 28 percent of an individual beneficiary's annual eligible prescription drug costs ranging between \$250 and \$5,000. Based on Spinco's understanding of the Act, it determined that a substantial portion of the prescription drug benefits provided under its postretirement benefit plan would be deemed actuarially equivalent to the benefits provided under Medicare Part D. On January 21, 2005, the Department of Health and Human Services issued final federal regulations related to the federal subsidy. These final rules did not have a material effect on Spinco's benefit costs or accumulated postretirement benefit obligation.

Table of Contents**Off-Balance Sheet Arrangements**

Spinco does not use securitization of trade receivables, affiliation with special purpose entities, variable interest entities or synthetic leases to finance its operations. Additionally, Spinco has not entered into any arrangement requiring it to guarantee payment of third party debt or to fund losses of an unconsolidated special purpose entity.

Contractual Obligations and Commitments

Set forth below is a summary of Spinco's material contractual obligations and commitments as of December 31, 2005:

| | Payments Due by Period | | | | |
|--|---------------------------------|----------------------|----------------------|----------------------------------|-------------------|
| | Less Than 1 Year | 1-3 Years | 3-5 Years | More Than 5 Years | Total |
| | (Millions) | | | | |
| Long-term debt, including current maturities(a) | \$ 22.1 | \$ 45.7 | \$ 39.9 | \$ 154.1 | \$ 261.8 |
| Interest payments on long-term debt obligations | 18.8 | 32.5 | 25.4 | 128.0 | 204.7 |
| Operating leases | 5.0 | 6.7 | 3.6 | 2.5 | 17.8 |
| Purchase obligations(b) | 1.3 | 0.6 | | | 1.9 |
| Other long-term liabilities(c) | 32.3 | 98.4 | 99.4 | 607.7 | 837.8 |
| Total contractual obligations and commitments | \$ 79.5 | \$ 183.9 | \$ 168.3 | \$ 892.3 | \$ 1,324.0 |

(a) Excludes \$(1.0) million of unamortized discounts included in long-term debt at December 31, 2005.

(b) Purchase obligations represent amounts payable under noncancellable contracts and primarily represent agreements for software licensing.

(c) Other long-term liabilities primarily consist of deferred tax liabilities and other postretirement benefit obligations.

Under Spinco's long-term debt borrowing agreements, acceleration of principal payments would occur upon payment default, violation of debt covenants not cured within 30 days or breach of certain other conditions set forth in the borrowing agreements. At December 31, 2005, Spinco was in compliance with all of its debt covenants. There are no provisions within any of Spinco's leasing agreements that would trigger acceleration of future lease payments. (See Notes 4, 6, 10 and 11 to the consolidated financial statements for additional information regarding certain of the obligations and commitments listed above.)

Market Risk

Because Spinco does not hold significant investments in marketable equity securities, it is not subject to material market risk from changes in marketable equity security prices. In addition, because Spinco does not have business operations in foreign countries, it is not subject to foreign currency exchange rate risk from movements of foreign currency. Finally, because all of Spinco's outstanding borrowings are at fixed interest rates, it also is not subject to material market risk from changes in interest rates.

Critical Accounting Policies

Spinco prepares its consolidated financial statements in accordance with accounting principles generally accepted in the United States. Spinco's significant accounting policies are discussed in detail in Note 1 to the consolidated financial statements. Certain of these accounting policies as discussed below require management to make estimates and assumptions about future events that could materially affect the reported

Table of Contents

amounts of assets, liabilities, revenues and expenses and disclosure of contingent assets and liabilities. These critical accounting policies include the following:

In evaluating the collectibility of Spinco's trade receivables, it assesses a number of factors including a specific customer's ability to meet its financial obligations to it, as well as general factors, such as the length of time the receivables are past due and historical collection experience. Based on these assumptions, Spinco records an allowance for doubtful accounts to reduce the related receivables to the amount that it ultimately expects to collect from customers. If circumstances related to specific customers change or economic conditions worsen such that Spinco's past collection experience is no longer relevant, its estimate of the recoverability of its trade receivables could be further reduced from the levels provided for in the consolidated financial statements. At December 31, 2005, Spinco's allowance for doubtful accounts was \$14.1 million. A 10 percent increase in this reserve would have increased the provision for doubtful accounts by \$1.4 million for the year ended December 31, 2005.

The annual costs of providing pension and other postretirement benefits are based on certain key actuarial assumptions as discussed above. As previously discussed, the discount rate selected is based on a review of current market interest rates on high-quality, fixed-rate debt securities adjusted to reflect Spinco's longer duration of expected future cash outflows for benefit payments. The expected return on plan assets reflects Spinco's view of the long-term returns available in the investment market based on historical averages and consultation with investment advisors. The healthcare cost trend rate is based on Alltel's actual medical claims experience and future projections of medical costs. See *Pension Plans* and *Other Postretirement Benefits* for the effects on Spinco's future benefit costs resulting from changes in these key assumptions.

The calculation of depreciation and amortization expense is based on the estimated economic useful lives of the underlying property, plant and equipment and finite-lived intangible assets. Although Spinco believes it is unlikely that any significant changes to the useful lives of its tangible or finite-lived intangible assets will occur in the near term, rapid changes in technology or changes in market conditions could result in revisions to such estimates that could materially affect the carrying value of these assets and Spinco's future operating results. In addition, as previously discussed, during 2005 and 2004, Spinco reduced the depreciation rates on property, plant and equipment used in certain of Spinco's ILEC markets based on studies of the related lives. Spinco also intends to perform similar studies on the property, plant and equipment used in its remaining ILEC markets during 2006. Spinco cannot predict what impact the results of those studies will have on depreciation and amortization expense in 2006. However, an extension of the average useful life of Spinco's property, plant and equipment and finite-lived intangible assets of one year would decrease depreciation and amortization expense by approximately \$20.5 million per year, while a reduction in the average useful life of one year would increase depreciation and amortization expense by approximately \$24.0 million per year.

In accordance with SFAS No. 142, Spinco tests its goodwill and other indefinite-lived intangible assets for impairment at least annually, which requires it to determine the fair value of these intangible assets, as well as the fair value of its reporting units. For purposes of testing goodwill, fair value of the reporting units is determined utilizing a combination of the discounted cash flows of the reporting units and calculated market values of comparable public companies. Fair value of the other indefinite-lived intangible assets is determined based on the discounted cash flows of the related business segment. During 2005 and 2004, no write-downs in the carrying values of either goodwill or indefinite-lived intangible assets were required based on their calculated fair values. In addition, reducing the calculated fair values of goodwill and the other indefinite-lived intangible assets by five percent would not have resulted in an impairment of the carrying value of the related assets in either 2005 or 2004. Changes in the key assumptions used in the discounted cash flow analysis due to changes in market conditions could adversely affect the calculated fair values of goodwill and other indefinite-lived intangible assets, materially affecting the carrying value of these assets and Spinco's future consolidated operating results.

Spinco's estimates of income taxes and the significant items resulting in the recognition of deferred tax assets and liabilities are disclosed in Note 10 to the consolidated financial statements and reflect its

139

assessment of future tax consequences of transactions that have been reflected in its financial statements or tax returns for each taxing authority in which it operates. Actual income taxes to be paid could vary from these estimates due to future changes in income tax law or the outcome of audits completed by federal, state and foreign taxing authorities. Included in the calculation of Spinco's annual income tax expenses are the effects of changes, if any, to its income tax contingency reserves. Spinco maintains income tax contingency reserves for potential assessments from the IRS or other taxing authorities. The reserves are determined based upon Spinco's judgment of the probable outcome of the tax contingencies and are adjusted, from time to time, based upon changing facts and circumstances. Changes to the tax contingency reserves could materially affect its future consolidated operating results in the period of change.

Legal Proceedings

Spinco is party to various legal proceedings arising in the ordinary course of business. Although the ultimate resolution of these various proceedings cannot be determined at this time, Spinco does not believe that such proceedings, individually or in the aggregate, will have a material adverse effect on its future results of operations or financial condition. In addition, Spinco is currently not aware of any environmental matters that, individually or in the aggregate, would have a material adverse effect on its consolidated financial condition or results of operations.

Recently Issued Accounting Pronouncements

On December 16, 2004, the FASB issued SFAS No. 123(R), *Share-Based Payment*, which is a revision of SFAS No. 123 and supercedes Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees* and related Interpretations. SFAS No. 123(R) requires all share-based payments to employees, including grants of employee stock options, to be valued at fair value on the date of grant, and to be expensed over the applicable vesting period. Pro forma disclosure of the income statement effects of share-based payments is no longer an alternative. In addition, companies must also recognize compensation expense related to any awards that are not fully vested as of the effective date. Compensation expense for the unvested awards will be measured based on the fair value of the awards previously calculated in developing the pro forma disclosures in accordance with the provisions of SFAS No. 123. On March 25, 2005, the SEC staff issued Staff Accounting Bulletin (SAB) 107, which summarizes the staff's views regarding the interaction between SFAS No. 123(R) and certain SEC rules and regulations and provides additional guidance regarding the valuation of share-based payment arrangements for public companies. On April 15, 2005, the SEC amended Rule 4-01(a) of Regulation S-X regarding the date public companies are required to comply with the provisions of SFAS No. 123(R), such that calendar year companies will now be required to comply with the standard beginning January 1, 2006. Upon adoption of the standard on January 1, 2006, we followed the modified prospective transition method and will value our share-based payment transactions using a Black-Scholes valuation model. Under the modified prospective transition method, we recognized compensation cost in our consolidated financial statements for all awards granted after January 1, 2006 and for all existing awards for which the requisite service has not been rendered as of the date of adoption. Prior period operating results were not restated. For further discussion of the adoption of SFAS No. 123(R) see the accompanying notes to the unaudited combined condensed financial statements.

SPINCO DESCRIPTION OF BUSINESS

General

Spinco owns subsidiaries that provide wireline local, long-distance, network access and Internet services. Telecommunications products are warehoused and sold by its distribution subsidiary. A subsidiary also publishes telephone directories for affiliates and other independent telephone companies. In addition, a subsidiary provides billing, customer care and other data processing and outsourcing services to telecommunications companies. Spinco is incorporated in the state of Delaware.

Employees

At March 31, 2006, Spinco had 6,967 employees. Within Spinco's work force, approximately 1,363 employees are part of collective bargaining units. During 2005, Spinco had no material work stoppages due to labor disputes with its unionized employees. Spinco recently entered into a new union contract for its Kentucky operations, which covers approximately 350 employees. The new contract will expire on June 7, 2009. The previous union contract for Spinco's Kentucky operations was scheduled to expire on June 7, 2006.

Organizational Structure and Operating Segments

Spinco has focused its communications business strategy on enhancing the value of its customer relationships by offering additional products and services and providing superior customer service. Through the acquisition of Verizon's wireline properties in Kentucky, completed in 2002, Spinco added more than 500,000 customers. As of March 31, 2006, including customers of its wireline and long-distance services, Spinco serves more than 2.9 million local telecommunications customers in 15 states. Spinco operates its communications businesses as a single operation capable of delivering to customers one-stop shopping for a full range of communications products and services. In addition to its wireline and long-distance service offerings, Spinco also provides Internet, broadband products and services (DSL), and cable television services in select markets.

Spinco is organized based on the products and services that it offers. Under this organizational structure, Spinco's communications operations consist of its Wireline, Other Operations and Product Distribution business segments. The wireline segment consists of Spinco's incumbent local exchange carrier (ILEC), competitive local exchange carrier (CLEC) and Internet access operations. The Other Operations segment consists of Spinco's long-distance and network management services, directory publishing operations and telecommunications information services. The Product Distribution segment consists of Spinco's communications products operations.

ILEC Operations

Spinco's ILEC subsidiaries provide local telephone service to 2.9 million customers primarily located in rural areas in 15 states. The ILEC subsidiaries also offer facilities for private line, data transmission and other communications services.

Local service operations provide lines from telephone exchange offices to customer premises for the origination and termination of telecommunications services including basic dial-tone service and dedicated private line facilities for the transport of data and video. Spinco also offers various enhanced service features including call waiting, call forwarding, caller identification, three-way calling, no-answer transfer and voicemail. Additional local service revenues are derived from charges for equipment rentals, equipment maintenance contracts, information and directory assistance and public payphone services. Spinco also provides cable television service to approximately 35,000 customers in Georgia and Missouri. The cable television properties are not significant to Spinco's wireline operating results.

Network access and interconnection services are provided by Spinco by connecting the equipment and facilities of its customers to the communications networks of long-distance carriers, CLECs, competitive switched and special access providers, and wireless service providers. These companies pay access and network

Table of Contents

usage charges to Spinco's local exchange subsidiaries for the use of their local networks to originate and terminate their voice and data transmissions. Network access revenues also include amounts derived from DSL services. Miscellaneous revenues primarily consist of revenues derived from Spinco's Internet access services, charges for billing and collections services provided to long-distance companies, customer premise equipment sales and directory advertising services.

Competition

Many of Spinco's ILEC operations have begun to experience competition in their local service areas. Sources of competition to Spinco's local exchange business include, but are not limited to, resellers of local exchange services, interexchange carriers, satellite transmission services, wireless communications providers, cable television companies, and competitive access service providers including those utilizing Unbundled Network Elements-Platform (UNE-P), voice-over-Internet-protocol (VoIP) providers and providers using other emerging technologies. Through March 31, 2006, this competition has not had a material adverse effect on the results of operations of Spinco's wireline operations, although competition has adversely affected its access line growth rates. Customer access lines decreased 4 percent during the twelve months ended December 31, 2005, and 1% during the three months ended March 31, 2006. Spinco lost approximately 23,000 access lines during the first quarter of 2006 and 124,000 access lines during 2005, primarily as a result of the effects of wireless and broadband substitution for its wireline services. Spinco expects the number of access lines served by its wireline operations to continue to be adversely affected by wireless and broadband substitution in the remainder of 2006. In addition, although Spinco has not yet seen significant competition from VoIP providers, it also expects VoIP substitution to adversely impact the number of access lines served by its wireline operations during the remainder of 2006.

To address competition, Spinco is focusing its efforts on marketing and selling additional products and services to its customers by bundling together and offering at competitive rates its various product offerings, including long-distance, Internet and DSL services. Deployment of DSL service is an important strategic initiative for Spinco. During 2005, Spinco added approximately 154,000 DSL customers, continuing a three year long trend of strong growth in this service offering. For the twelve months ended December 31, 2005, the number of DSL customers grew by more than 60 percent to approximately 400,000 customers, or approximately 20 percent of Spinco's addressable access lines. During the first quarter of 2006, Spinco added approximately 44,000 DSL customers, increasing the total to more than 440,000 customers. During the first quarter of 2006 and the full year of 2005, the growth rate in Spinco's DSL customers outpaced the rate of decline in customer access lines discussed above. In addition, during the fourth quarter of 2005, Spinco began offering DISH network satellite television service to its residential customers as part of a bundled product offering. In addition to its marketing efforts, Spinco remains focused on providing improved customer service, increasing operating efficiencies and maintaining the quality of its network.

Although DSL services have been a source of revenue and customer growth for Spinco in the first quarter of 2006 and 2005, 2004 and 2003, that service offering experiences competition from other broadband service providers, including cable television and satellite transmission service providers. Under the Federal Communications Commission's recent decision in its Triennial Review proceeding, as further discussed below under the caption "Local Service Regulation," it appears that Spinco's provisioning of broadband DSL services will be largely deregulated. In addition, a number of carriers have begun offering voice telecommunications services utilizing the Internet as the means of transmitting those calls. This service, commonly known as VoIP telephony, is challenging existing regulatory definitions. As further discussed below under the caption "Network Access Services Regulation," on March 10, 2004, the Federal Communications Commission (FCC) adopted a Notice of Proposed Rulemaking that will consider the appropriate regulatory treatment of Internet-enabled communications services and address which regulatory requirements, for example, those relating to E-911, disability accessibility, access charges, and universal service, should be extended to Internet-enabled services. The results of the FCC's proceedings related to VoIP could have a significant effect on Spinco's wireline operations.

Table of Contents**Local Service Regulation**

Spinco's ILECs are regulated by both federal and state agencies. Spinco's interstate products and services and the related earnings are subject to federal regulation by the FCC and its local and intrastate products and services and the related earnings are subject to regulation by state public service commissions (PSCs). The FCC has primary jurisdiction over interstate switched and special access rates and Spinco's DSL service offering. State PSCs have primary jurisdiction over matters including local service rates, intrastate access rates, quality of service, depreciation rates, the disposition of public utility property, the issuance of securities or debt, and the accounting systems used by these companies.

Federal Regulation

With the exception of the Nebraska and a portion of the Kentucky operations, Spinco's interstate ILEC operations, primarily access charges, are subject to rate-of-return regulation federally by the FCC. The Nebraska and a portion of the Kentucky interstate operations are subject to price-cap regulation by the FCC that allows a greater degree of pricing flexibility than is afforded to Spinco's rate-of-return operations. Companies meeting certain criteria had the option to elect price-cap regulation for interstate services as part of an FCC order issued in May 2000 (the CALLS plan). The CALLS plan expired on June 30, 2005, and to date, the FCC had not established a successor mechanism for regulating price-cap companies. Nonetheless, the existing rules and regulations for price-cap companies remain effective until the FCC modifies or otherwise replaces them with a successor mechanism.

The FCC requires ILECs to interconnect their networks with the networks of other telecommunications carriers in order to foster competition. These requirements obligate Spinco to unbundle many of its existing products and services into network elements so that they are made available to other telecommunications companies at wholesale rates. Furthermore, Spinco is obligated to allow other telecommunications carriers to locate their network equipment on the premises of the incumbent local exchange carriers for the purpose of exchanging traffic and to compensate one another for the transport and termination of calls on one another's networks.

Today, providers of communications services are regulated differently depending primarily upon the network technology used to deliver service. This patchwork regulatory approach unfairly advantages certain companies and disadvantages others, which impedes market-based competition where service providers, regardless of technology, exchange telecommunications traffic between their networks and are competing for the same customers.

In an effort to update the patchwork regulatory approach, Congress began the legislative reform process in July 2005 when two separate telecommunications bills were introduced in the U.S. Senate. The first bill, entitled the Broadband Investment and Consumer Choice Act, was introduced on July 27, 2005. This bill reduces the existing level of government regulation within the telecommunications industry in favor of market-based competition and provides for parity in the remaining rules governing functionally equivalent services, such as broadband access to the Internet either via DSL, cable modem or other technological means. Another bill, entitled the Universal Service for the 21st Century Act, was introduced on July 29, 2005. This bill changes the way telecommunications companies contribute to the universal service fund, establishes limited support for broadband investment in unserved areas and calls for the FCC to establish inter-carrier compensation reform within six months of enactment.

Two telecommunications reform bills have also been introduced in the U.S. House of Representatives. The first bill, entitled the Universal Service Reform Act of 2006, was introduced on March 30, 2006. This bill would broaden the base of contributors to the universal service fund, allow universal service funding for broadband deployment and cap the total amount of USF at current levels. The second bill, entitled the Communications Opportunity, Promotion and Enforcement Act of 2006, was approved by the House Energy and Commerce Subcommittee on April 6, 2006. This bill is tailored to speed telecommunication carrier entry into the video market by eliminating the need for local franchise approvals. The bill also addresses net neutrality by giving the FCC the authority to enforce its 2005 broadband policy statement and related principles. The bill would also give VoIP providers the same rights and obligations as telecommunica-

tion carriers with regards to interconnection and access to E911 databases. The bill also allows local governments to offer competitive communications services.

Except for certain of its subsidiaries in Nebraska, Ohio and Kentucky, Spincos local exchange subsidiaries are rural telephone companies, as defined under the 96 Act, and are exempt from certain of the foregoing obligations, unless, in connection with a bona fide request, a state regulatory commission removes that exemption. All of Spincos local exchange subsidiaries may seek specific suspensions or modification of interconnection obligations under the 96 Act as it serves less than two percent of the nations access lines, where such interconnection obligations would otherwise cause undue economic burden or are technically infeasible. Spincos currently serves 1.9 percent of the nations access lines and to the extent it exceeds 2.0 percent, its local exchange subsidiaries will not be able to seek suspensions or modifications under the 96 Act.

State Regulation

Most states in which Spincos ILEC subsidiaries operate provide alternatives to rate-of-return regulation for local and intrastate services, either through legislative or state PSC rules. Spincos has elected alternative regulations for certain of its ILEC subsidiaries in Alabama, Arkansas, Florida, Georgia, Kentucky, Missouri, Nebraska, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, and Texas. The Missouri PSC ruled that Spincos is not eligible for alternative regulation. However on May 5, 2005, the Missouri legislature passed an alternative regulation bill that allows Spincos to elect alternative regulation without Missouri PSC approval. The legislation became effective on August 28, 2005, and Spincos filed an election with the Missouri PSC to be regulated under the new alternative regulation plan on September 13, 2005. As a result of this election, Spincos withdrew its appeal of the Missouri PSCs previous decision during the fourth quarter of 2005. Spincos continues to evaluate alternative regulation options in markets where its ILEC subsidiaries remain subject to rate-of-return regulation including Mississippi, New York and certain of its Kentucky operations.

The following summary sets forth a description of the alternative regulation plan for each of the states in which Spincos has elected alternative regulations:

Spincos regulated Alabama wireline subsidiary has operated since 1996 under a PSC-established alternative regulation plan. In 2005 the previous alternative regulation plan was replaced by two alternative regulation plans approved by the PSC. Spincos elected to be regulated under the price flexibility plan. Under this plan basic residential local service rates are capped for two years. Also in 2005, the legislature passed the Alabama Communications Reform Act of 2005. Under this Reform Act, only stand-alone basic service, wholesale access services and certain calling features remain regulated after February 1, 2007. Spincos has elected to be regulated under the Reform Act, effective February 2007.

Spincos regulated Arkansas wireline subsidiary has operated since 1997 under an alternative regulation plan established by statute. Under this plan, basic local rates and access rates may be adjusted annually by up to 75 percent of the annual change in the Gross Domestic Product-Price Index (GDP-PI). Other local rates may be changed without PSC approval and become effective upon the filing of revised tariffs.

Spincos regulated Florida wireline subsidiary operates under alternative regulation established by Florida statute. Under this plan, basic local rates may be increased once in any twelve-month period by an amount not to exceed the twelve month change in the GDP-PI less one percent. Spincos may increase rates for non-basic services as long as the annual increase for any category does not exceed six percent in any twelve-month period. Non-basic rates can be increased by up to 20 percent annually in exchanges where another local provider is providing service. Intrastate access rates can be increased by the annual change in GDP-PI or three percent, whichever is less, only after access rates reach parity with Spincos interstate rates.

Spincos regulated Georgia wireline subsidiaries operate under an alternative regulation plan established by statute. Under this plan, basic local rates may be increased annually based on the annual change in GDP-PI. Other local rates may be increased by filing revised tariffs.

Table of Contents

Spinco has two regulated operating subsidiaries in Kentucky. The larger subsidiary is subject to rate-of-return regulation. However, legislation was recently enacted providing electing companies with an alternative regulation option to the existing rate-of-return regulation. The alternative regulation option includes pricing flexibility and removes certain aspects from the jurisdiction of the Kentucky PSC. The Company is currently evaluating whether to elect to be regulated under this new alternative and will likely make a final determination prior to the end of the third quarter of 2006. The smaller subsidiary has operated under alternative regulation established by statute beginning in 1998. Under this plan, the subsidiary may adjust basic business and residential rates, once during any 24-month period by an amount not to exceed the sum of the annual percentage change in GDP-PI for the immediately preceding two calendar years subject to the following limitations: (1) basic business and residence rates may not exceed the average basic rates of the state's largest telephone utility, and (2) rates may not be increased by more than 20 percent. Access charges may not be adjusted if the change would result in intrastate access rates that exceed Spinco's interstate rates. Other local rates may be adjusted by filing tariffs.

Spinco's regulated Missouri wireline subsidiary is subject to alternative regulation election established by statute. Under Missouri's alternative regulation, basic local service and intrastate access rates are adjusted annually based on changes to the telephone service component of the Consumer Price Index. Prices for non-basic services may be increased up to five percent per year after the initial twelve-month period.

Spinco's regulated Nebraska operations are subject to alternative regulation established by statute. In exchanges where competition exists, companies are required to file rate lists, which are effective after 10 days notice to the PSC. In exchanges where competition does not exist, companies file rate lists for all services except basic local service with 10 days notice to the PSC, and basic local rates may be increased after 90 days notice to affected subscribers. Basic local rate increases are reviewed by the PSC only if rates are increased more than 10 percent in twelve consecutive months or in response to a formal complaint signed by two percent of affected subscribers.

Spinco's regulated North Carolina subsidiary has operated since 1998 under alternative regulation plan approved by the State Utility Commission. Local rates are adjusted annually by the annual change in GDP-PI. Rate changes are effective upon 14 days notice. Spinco has recently obtained Commission approval for changes to its current price regulation plan that will allow greater pricing flexibility, shorter implementation intervals for promotional offerings and deregulation of pricing for bundled services.

Spinco's regulated Ohio wireline subsidiaries began in 2004 to operate under an alternative regulation plan established by the Ohio Public Utilities Commission. Under this plan, basic service rates have been capped. Non-basic service rates are subject to limited pricing flexibility. New rules for alternative regulatory treatment of basic service, which include competitive market tests, are pending.

In 1997 Spinco's regulated Oklahoma wireline subsidiaries began to operate under an alternative regulation plan established by statute. Under this plan, basic service rates can be increased annually as long as the increase does not exceed a pre-determined amount.

In July 2005, Spinco's regulated Pennsylvania subsidiary began operating under a new alternative regulation plan passed by the Pennsylvania General Assembly in 2004. Under this plan, Spinco is required to make broadband access to the Internet available for purchase to 100 percent of its customer base by 2013. Rates for competitive services are not regulated, but the PUC retains authority over the quality of these services. Rate increases for noncompetitive services are restricted to the GDP-PI less two percent, annually. The total amount of an increase to basic local service rates cannot exceed \$3.50 annually. Revenue neutral rate rebalancing is also permitted for noncompetitive services.

Spinco's regulated South Carolina operations are subject to alternative regulation established by statute. Local rates can be adjusted pursuant to an inflation-based index. All other service rates may be increased subject to a complaint process for abuse of market position. The PSC has determined that

any allegations of abuse of market position will be investigated on a case-by-case basis. Rate increases become effective 14 days after filing.

Spinco has two operating subsidiaries in Texas. These subsidiaries are subject to alternative regulation established by statute. All rates are capped for the duration of the plan.

Universal Service

The federal universal service program is under legislative, regulatory and industry scrutiny as a result of the growth in the fund and structural changes within the telecommunications industry. The structural changes include the increase in the number of Eligible Telecommunications Carriers (ETCs) receiving funds from the USF and a migration of customers from wireline service providers to providers using alternative technologies like VoIP that, today, are not required to contribute to the universal service program. There are several FCC proceedings underway that are likely to change the way the universal service programs are funded and the way universal service funds are disbursed to program recipients. The specific proceedings are discussed in greater detail below.

In May 2001, the FCC adopted the Rural Task Force Order that established an interim universal service mechanism governing universal service compensation for rural telephone companies for the ensuing five years. The interim mechanism has allowed rural carriers to continue receiving high-cost funding based on their embedded costs. On June 2, 2004, the FCC asked the Federal/State Joint Board on Universal Service (the Joint Board) to review the FCC s rules as they pertain to rural telephone companies and to determine what changes, if any, should be made to the existing high-cost support mechanism when the interim funding program expires in June 2006. The Joint Board sought comment on such a mechanism on August 16, 2004, but has taken no further action. In the event a new mechanism is not established for rural carriers prior to the expiration of the plan, the FCC will likely extend the interim mechanism currently in place. In addition, the Joint Board sought comment on whether companies operating in multiple distinct geographic market areas within a state should consolidate them for purposes of calculating universal service support. If the FCC implements this proposal, Spinco s universal service revenues would be reduced from their current level by approximately \$8.5 million annually. On August 17, 2005, the Joint Board sought comment on four separate proposals to modify the distribution of high-cost universal service support. Each of the proposals provides state PSCs a greater role in the support distribution process, which would remain subject to specific FCC guidelines. Spinco cannot estimate the impact of the potential change from embedded cost to another methodology, or the impact of other potential changes to the fund contemplated by the Joint Board until the specific changes, if any, are determined.

On November 8, 2002, the FCC requested that the Joint Board review certain of the FCC s rules relating to the high-cost universal service support and the process by which carriers are designated as ETCs. On February 27, 2004, the Joint Board issued its recommended decision regarding a number of issues related to universal service support for ETCs. Among its recommendations, the Joint Board suggested that the FCC should limit universal service support to a single primary connection per customer. On June 8, 2004, the FCC asked for comments on the Joint Board s recommended decision, but did not elaborate or reach tentative conclusions on any of the Joint Board s recommendations. The 2005 Omnibus Appropriations Bill included a provision that prevented the FCC from enacting a primary connection restriction on universal service support. The 2006 Science, State, Commerce and Justice Department appropriations bill enacted in December 2005 includes a provision that prohibits the FCC from enacting a primary connection restriction on universal service support.

On June 14, 2005, the FCC issued a notice of proposed rulemaking initiating a broad inquiry into the management and administration of the universal service programs. The notice of proposed rulemaking seeks comment on ways to streamline the application process for federal support and whether and how to increase audits of fund contributors and fund recipients in an effort to deter waste and fraud. The FCC is also considering proposals regarding the contribution methodology, which could change the types of service providers required to contribute to the fund (i.e. local exchange providers, wireless providers, long-distance providers, etc.) and the basis on which they contribute. At this time, Spinco cannot estimate the impact that the potential changes, if any, would have on its operations.

Table of Contents

On December 9, 2005, the FCC issued a notice of proposed rulemaking seeking comments on the need to redefine certain statutory terms established by the 96 Act. Changes to these definitions could result in a different allocation of universal service support received by non-rural carriers. Spinco receives approximately \$9.5 million annually in non-rural support and cannot estimate the financial impact resulting from changes to the definitions of the statutory terms until such changes, if any, are determined.

The FCC mandated that, effective October 1, 2004, the Universal Service Administrative Company (USAC) must begin accounting for the USF program in accordance with generally accepted accounting principles for federal agencies, rather than the accounting rules that USAC formerly used. This accounting method change subjected USAC to the Anti-deficiency Act (ADA), the effect of which could have caused delays in payments to USF program recipients and significantly increase the amount of USF regulatory fees charged to wireline consumers. In December 2004, Congress passed legislation to exempt USAC from the ADA for one year to allow for a more thorough review of the impact the ADA would have on the universal service program. In April 2005, the FCC tentatively concluded that the high-cost and low-income universal service programs of the universal service fund are compliant with ADA requirements, and has asked the Office of Management and Budget (OMB) to make a final determination on this issue, which they have yet to do. On November 22, 2005, the 2006 Science, State, Commerce and Justice Department appropriations bill was enacted, which exempted the universal service fund from the ADA for another year, until December 31, 2006.

Unbundled Network Elements

On December 20, 2001, the FCC released a notice of proposed rulemaking initiating the first triennial review of the FCC's policies on unbundled network elements (UNEs) including UNE-P. UNE-P is created when a competing carrier obtains all the network elements needed to provide service from the ILEC at a discounted rate. On August 21, 2003, the FCC released the text of its Triennial Review Order. The FCC adopted new rules governing the obligations of ILECs to unbundle certain elements of their local networks for use by competitors. As part of the Triennial Review Order the FCC also opened a further notice of proposed rulemaking to consider the pick and choose rule under which a competing carrier could select from among the various terms of interconnection offered by an ILEC in its various interconnection agreements. On July 13, 2004, the FCC released an order eliminating the pick and choose rule, replacing it with an all-or-nothing rule. Under the new rules, a requesting carrier may only adopt an effective interconnection agreement in its entirety, taking all rates, terms and conditions of the adopted agreement. The FCC explained that it eliminated the pick and choose rule to promote commercial negotiations and produce agreements better tailored to meet carriers' individual needs.

On March 2, 2004, the United States Circuit Court for the District of Columbia overturned key portions of the FCC's Triennial Review Order. On September 13, 2004, the FCC released its Interim UNE Order requiring ILECs to maintain the status quo through March 13, 2005 and indicated that it would release permanent rules prior to that date. The Triennial Remand Order containing the permanent UNE rules was released on February 4, 2005. This order eliminated UNE-P as a CLEC entry strategy by dropping mass market switching from the required list of UNEs and reduced CLEC access to high-capacity loops and transport based on specified economic conditions in relevant wire centers. These permanent rules establish a twelve-month transition for most of the UNEs being eliminated. Several parties have appealed the order in various federal appellate courts and to the FCC. To date, the impact of the Triennial Review proceeding and permanent UNE rules on Spinco's ILEC operations have not been material.

On September 15, 2003, the FCC launched its first comprehensive review of the rules that establish wholesale pricing of UNEs. The notice of proposed rulemaking sought comment on a variety of UNE and resale pricing-related issues and on a proposal to make total element long-run incremental cost methodology rules more closely account for the real-world attributes of the incumbent carrier's network. The FCC has not issued an Order on this proceeding but if this proposal were adopted, the result would likely be increased UNE prices. The potential increases are not expected to have a material impact on Spinco's wireline operations.

Section 251(b) of the Communications Act of 1934 (the '34 Act'), as amended, requires, in part, that local exchange carriers provide local number portability to any requesting telecommunications carrier. Wireless carriers are generally defined as telecommunications carriers under the '34 Act, and are therefore eligible to port numbers with wireline carriers, which is referred to as intermodal porting. This could cause an increase in Spincor's loss of access lines.

On November 10, 2003, the FCC released a decision providing guidance on intermodal porting issues. The intermodal porting requirement took effect on November 24, 2003 for wireline carriers in the top 100 Metropolitan Statistical Areas (MSAs) and on May 24, 2004 for wireline carriers operating in markets below the top 100 MSAs. The majority of Spincor's wireline operations are conducted in markets below the top 100 MSAs and were subject to the later May 24, 2004 implementation date for intermodal porting. To date, implementation of intermodal porting has not had a significant impact on Spincor's wireline operating results, however, this could cause an increase in access line loss.

Periodically, Spincor's local exchange subsidiaries receive requests from wireless communications providers for renegotiation of existing transport and termination agreements. In these cases, Spincor's local exchange subsidiaries renegotiate the appropriate terms and conditions in compliance with the '96 Act. Spincor's local exchange subsidiaries have also executed contracts for transport and termination services with CLECs.

Network Access Services Regulation

Spincor's local exchange subsidiaries currently receive compensation from other telecommunications providers, including long-distance companies, for origination and termination of inter-exchange traffic through access charges or toll settlements that are established in accordance with state and federal laws.

A number of carriers have begun offering voice telecommunications services utilizing Internet protocol as the underlying means for transmitting those calls. This service, commonly known as VoIP telephony, is challenging existing regulatory definitions and raises questions as to how such services should be regulated, if at all. Several state commissions have attempted to assert jurisdiction over VoIP services, but federal courts in New York and Minnesota have ruled that the FCC preempts the states with respect to jurisdiction. These cases are on appeal. On March 10, 2004, the FCC released a notice of proposed rulemaking seeking comment on the appropriate regulatory treatment of IP-enabled communications services. The FCC indicated that the cost of the public switched telephone network should be borne equitably by the users and requested comment on the specific regulatory requirements that should be extended to IP-enabled service providers, including requirements relating to E-911, accessibility for the disabled, inter-carrier compensation and universal service. Although the FCC's rulemaking regarding IP-enabled services remains pending, the FCC has adopted a series of related orders establishing broad parameters for the regulation of those services.

On February 12, 2004, the FCC released an order declaring Pulver.com's free IP-based, peer-to-peer service that requires specialized telephone equipment or software for computers was not a regulated telecommunications service, but rather was an unregulated information service subject to federal jurisdiction.

On April 21, 2004, the FCC denied a waiver petition filed by AT&T requesting that its IP telephony service be exempt from paying access compensation to wireline local service providers. The FCC ruled AT&T's IP telephony service, which converted voice calls to an IP format for some portion of the routing over the public switched telephone network prior to converting the calls back to their original format, was a regulated telecommunications service subject to payment of access compensation to Local Exchange Carriers (LECs), as well as the universal service fund.

On November 12, 2004, the FCC ruled that Internet-based service provided by Vonage Holdings Corporation (Vonage) should be subject to federal rather than state jurisdiction. The FCC has not yet determined how Vonage's service should be classified for regulatory purposes, but is likely to address the information service vs.

telecommunications service debate in its pending rulemaking regarding IP-enabled services. Several state commissions appealed the FCC's Vonage decision, and these appeals are presently pending before the U.S. Eighth Circuit Court of Appeals.

Table of Contents

On June 3, 2005, the FCC took swift action in response to several incidents where VoIP customers were unable to complete E-911 calls. The FCC ordered all VoIP service providers whose service is interconnected with the public switched telephone network to provide E-911 services to their customers no later than November 28, 2005. On September 21, 2005, the FCC released its order on CALEA requirements for broadband and ISP services, including VoIP services. The FCC found that essentially, ISP and VoIP services are telecommunications services subject to CALEA requirements. Several appeals have been filed. If the FCC ultimately determines that IP-enabled services are not subject to similar regulatory requirements that are applicable to inter-exchange and local exchange service providers, including contributions to federal and state universal service programs, inter-carrier compensation obligations, federal and state tax obligations and service quality metrics, Spinco's regulated local exchange operations will be competitively disadvantaged. However, until the FCC issues its decision in these proceedings, Spinco cannot determine the extent of the impact on its operations, if any.

In April 2001, the FCC released a notice of proposed rulemaking addressing inter-carrier compensation. Under this rulemaking, the FCC proposed a bill and keep compensation methodology under which each telecommunications carrier would be required to recover all of its costs to originate and terminate telecommunications traffic from its end-user customers rather than through access charges assessed to other carriers. The proposed bill and keep method would significantly overhaul the existing rules governing inter-carrier compensation. On March 3, 2005, the FCC released a further notice of proposed rulemaking addressing inter-carrier compensation. Under this proposed rulemaking, the FCC requested comment on several alternative inter-carrier compensation proposals, including bill and keep. The outcome of this proceeding is likely to change the way Spinco receives compensation from, and remits compensation to, other carriers and its end user customers. Until this proceeding concludes and the changes to the existing rules are established, if any, Spinco cannot estimate the impact of the changes on its ILEC revenues and expenses or when the changes would occur.

On October 8, 2004, the FCC granted in part and denied in part a petition filed by Core Communications requesting that the FCC forbear from enforcing provisions of the FCC's 2001 Internet Service Provider (ISP) Remand Order. The FCC granted forbearance from part of the ISP Remand Order's growth caps and new market rule finding they were no longer in the public interest. The FCC denied forbearance from the ISP Remand Order's rate cap and mirroring rules. Various parties have filed for reconsideration with the FCC and have appealed the decision to the U.S. Court of Appeals for the District of Columbia Circuit. If the FCC's decision in this order is upheld, Spinco is likely to incur additional costs for delivering ISP-bound traffic originated by their customers to competitive wireline service providers serving ISPs. Although Spinco has not fully quantified the effects of this order, it believes that the additional expense would be less than \$10.0 million annually.

On July 6, 2005, a hearing examiner issued a recommended order to the Georgia PSC that, if adopted, would prospectively preclude LECs from assessing access charges for non-local intrastate calls between 0 and 16 miles that originate on the network of one LEC and terminate on the network of a different LEC. Spinco, along with other LECs in Georgia, requested that the Georgia PSC reject the recommended order and find that access charges continue to apply to these intrastate calls. If the Georgia PSC ultimately adopts the recommended order, Spinco would incur a reduction in annual revenues of approximately \$12.0 million. A final order will not likely become effective before the end of the second quarter of 2006.

On March 15, 2002, the FCC issued a declaratory ruling concluding that cable modem service was an interstate information service and not a cable service or a telecommunications service. On October 6, 2003, the U.S. Court of Appeals for the Ninth Circuit (the Ninth Circuit Court) rejected the FCC's classification of cable modem service as solely an unregulated information service, finding a portion of the service to be a telecommunications service. The Ninth Circuit Court's decision was appealed to the Supreme Court. On June 27, 2005, the Supreme Court reversed the Ninth Circuit Court's ruling and upheld the FCC Order finding that cable modem service was an interstate information service. This decision shifted the focus back to the FCC to address the rulemaking proceeding initiated in 2002 in which the FCC tentatively concluded that wireline broadband Internet access should be classified as an information service rather than a telecommunications service and, therefore, should not be subject to common carrier regulation.

Table of Contents

On September 23, 2005, the FCC released an order declaring wireline broadband Internet access service (or DSL) an information service functionally integrated with a telecommunications component and no longer subject to a higher level of regulation as compared to broadband cable modem service. This order established a framework that may eventually allow Spincos DSL service to obtain regulatory parity with cable modem service, which is lightly regulated. The FCC order requires wireline broadband service providers, like Spincos, to continue offering broadband access on a stand-alone basis to competing unaffiliated Internet service providers for one year, after which they will no longer be required to do so. Additionally, the order preserves the current method of assessing universal service contributions on DSL revenues for a 270-day period after the effective date of the order, or until the FCC adopts a new contribution methodology to the universal service fund. The order provides price cap companies the option to deregulate DSL, de-tariff DSL, or keep DSL regulated as it is today. Spincos could benefit from the decreased regulatory oversight of its DSL service through additional retail pricing flexibility. Spincos DSL products are experiencing significant growth throughout its service areas, and the primary DSL competitor is the historically less-regulated cable modem service. However, Spincos DSL products and services currently remain regulated by the FCC.

On October 11, 2001, the FCC adopted rate-of-return access charge reform and initiated a further round of rulemaking to consider other rate-of-return carrier issues. The order lowered traffic sensitive switched access rates, increased the subscriber line charge (SLC) over time to bring it in line with SLCs adopted for price cap carriers and phased out carrier common line charges in favor of a new portable Interstate Common Line Support universal service mechanism, and retained the authorized 11.25 percent rate of return.

Technology

Spincos believes the local exchange business is in transition from circuit switched technology, which forms the basis of the conventional landline telephone network, to digital packet-switched technology, which form the basis of the Internet Protocols (IP) used over the Internet. Spincos is addressing this challenge with a strategy of providing data service to both business and residential customers through deployment of an IP packet data network, broadband access services like DSL, and targeted VoIP deployments in selected markets.

CLEC Operations

Spincos has authority to provide competitive local exchange services in 17 states. As of March 31, 2006, Spincos provided these services in four states on both a facilities-based and resale basis, and, where necessary, has negotiated interconnection agreements with the appropriate incumbent local exchange carriers. Spincos strategy is to provide local service in combination with other services provided by subsidiaries of Spincos, including long-distance and Internet services. Spincos primary focus for marketing and selling its CLEC services is directed toward the business customer segment through the offering of competitively priced and reliable services. Spincos CLEC operations were not a material portion of its business in the first quarter of 2006 or the full year 2005. Spincos continues to evaluate the profitability of its existing CLEC operations in all markets.

Generally, CLECs are required to obtain certificates of public convenience and necessity in the same manner as ILECs. In addition, CLECs are required to file interstate access tariffs with the FCC and in most states, intrastate tariffs with the state public utility commissions. CLECs, however, are subject to significantly less regulation than ILECs. For example, CLECs are not subject to direct rate regulation (such as rate-of-return or price-cap regulation). In February 2005, the FCC released its Triennial Review Remand Order, which established specific impairment criteria to determine whether ILECs would remain obligated to provide network elements to CLECs on an unbundled basis. As a result of that Order, Spincos CLEC operations will incur additional annual expenses of approximately \$300,000 in 2006 and beyond for access to certain components of the networks of other non-affiliated ILECs.

In December 2005, the FCC ruled that Qwest was no longer obligated to provide CLECs, like Spincos, with access to certain UNEs in nine Omaha, Nebraska central offices. Currently, Spincos leases approximately 3,600 UNEs from Qwest that will likely be affected by this decision. The FCC ruling may result in an additional annual expense of approximately \$600,000 for Spincos CLEC operations to continue providing service to its Omaha customers.

Table of Contents**Long-Distance and Network Management Operations**

Long-distance telecommunications services are provided on a resale basis by Spinco subsidiaries. Spinco provides long-distance service in all of the states in which it provides local exchange service. In addition, Spinco offers long-distance service outside its ILEC service areas. As of March 31, 2006, Spinco provided long-distance service to nearly 1.8 million customers most of whom are local access customers. The long-distance marketplace is extremely competitive and continues to receive relaxed regulation from both the FCC and state regulatory commissions. To meet the competitive demands of the long-distance industry, Spinco has created several business and residential service offerings to attract potential customers, such as volume price discounts, calling cards and simplified one-rate plans. As a long-distance service provider, Spinco's intrastate long-distance business is subject to limited regulation by state regulatory commissions, and its interstate business is subject to limited regulation by the FCC. State regulatory commissions currently require long-distance service providers to obtain a certificate of operating authority, and the majority of states also require long-distance service providers to file tariffs.

Product Distribution

Spinco's product distribution subsidiary, Communications Products, operates four warehouses and four counter-sales showrooms across the United States. Communications Products is a distributor of telecommunications equipment and materials. Communications Products supplies equipment to affiliated and non-affiliated communications companies, business systems suppliers, railroads, governments, and retail and industrial companies. Communications Products offers a large variety of telecommunications-related products for sale. Certain of these products are inventoried including single and multi-line telephone sets, local area networks, switching equipment modules, interior cable, pole line hardware, and various other telecommunications supply items. Spinco has not encountered any material shortages or delays in delivery of products from their suppliers.

Communications Products experiences substantial competition throughout its sales territories from other distribution companies and from direct sales by manufacturers. Competition is based primarily on quality, product availability, service, price, and technical assistance. Communications Products also offers other services including expert technical assistance, maintaining wide-ranging inventories in strategically located warehouses and counter-sales showrooms to facilitate single supplier sourcing and just-in-time delivery, maintaining a full range of product lines, and by providing staging, assembly and other services. Spinco periodically evaluates its product and service offerings to meet customer expectations and position Communications Products in the market as a quality, customer-focused distributor.

Directory Publishing

The directory publishing subsidiary coordinates advertising, sales, printing, and distribution for 386 telephone directory contracts in 36 states. Of the total number of directory contracts published, 159 contracts pertain to Spinco's ILEC subsidiaries. The directory publishing subsidiary provides all directory publishing services, except printing. The services provided by the directory publishing subsidiary includes directory yellow page advertising sales, contract management, production, billing, and marketing. Both Verizon Directories and Quebecor World Printers performed printing services for the directories published in the first quarter of 2006 and the full year 2005 under two separate service agreements that expire in 2007 and 2008, respectively.

Spinco's directory publishing business has experienced an increase in competition in its markets from independent publishers such as Yellow Book as well as the RBOC's publishers producing independent directories where they are not the local telephone company. Additionally, other products such as internet Yellow Pages, search engines and other local search products have contributed to a more competitive marketplace for directory advertising.

Telecommunications Information Services

Following the sale of certain assets and related liabilities, including selected customer contracts and capitalized software development costs to Convergys Information Management Group, Inc. in December 2003 and the loss of one of its remaining unaffiliated wireline services customers in 2004, Spinco's telecommunications information services operations consist solely of providing data processing and outsourcing services to Valor.

OTHER COMPENSATION ARRANGEMENTS**Change in Control Agreements**

Alltel is a party to agreements with each of Messrs. Frantz, Gardner and Rhoda which provide that if, following a change in control of Alltel, the executive's employment terminates within twelve months (unless the termination is as a result of death, by Alltel as a result of the executive's disability or for cause, or by the executive without good reason) or, in the case of Messrs. Frantz and Gardner, if after remaining employed for twelve months the executive's employment terminates during the following three-month period (unless the termination is a result of death or is by

Alltel as a result of the executive's disability) (each of the foregoing events being referred to as a Payment Trigger), Alltel is required to pay the executive an amount equal to, in the case of Messrs Frantz and Gardner, three times and in the case of Mr. Rhoda, one times the sum of his base salary as in effect immediately prior to the change in control or Payment Trigger and the maximum amounts he could have received under the Incentive Plans for the period commencing coincident with or most recently prior to the period in which the change in control or Payment Trigger occurs, but reduced by any other cash severance paid to him. Alltel also is required to make an additional payment to the executive in the amount of any excise tax under Section 4999 of the Internal Revenue Code as a result of any payments or distributions by Alltel plus the amount of all additional income tax payable by him as a result of such

Table of Contents

additional payments. Payments under the agreements to Messrs. Frantz and Gardner are covered by Alltel's grantor trust described below.

It is anticipated that, following consummation of the merger, Windstream will enter into change in control agreements with its senior officers. The specific terms of the change in control agreements will be determined by Windstream's Board of Directors. The agreements are expected to provide generally that if following a change in control of Windstream, an officer who is a party to an agreement is terminated without cause, or under other circumstances as may be specified in the change in control agreements, such officer would be entitled to receive a severance payment equal to a range of one to three times the senior officer's annual base salary and amounts payable under the incentive plan for the period. Other benefits, including health and welfare benefits, may also be provided to such officers under the terms of the change in control agreements.

Defined Benefit Pension Plan

Alltel maintains a trustee, noncontributory, defined benefit pension plan covering salaried and non-salaried employees under which benefits are not determined primarily by final compensation (or average final compensation). For nonbargaining participants, the pension plan was closed to new participants as of December 31, 2005 and frozen to additional accruals as of December 31, 2005 (December 31, 2010 for employees who had attained age 40 with two years of service as of December 31, 2005). Under this pension plan, Messrs. Frantz, Gardner, Rhoda and Clancy would have each period of post-January 1, 1988 through December 31, 2010, service credited at 1% of compensation, plus 0.4% of that part of his compensation that exceeds the Social Security Taxable Wage Base for such year. Mr. Whittington would have each period of post-January 1, 1988 through December 31, 2005, service credited at 1% of compensation plus 0.4% of that part of his compensation that exceeds the Social Security Taxable Wage Base for such year. Service prior to 1988, if any, would be credited on the basis of a percentage of his highest consecutive five-year average annual base salary, equal to 1% for each year of service prior to 1982 and thereafter increasing by .05% each year until 1988, but only prospectively, i.e., with respect to service earned in such succeeding year; in addition, each of Messrs. Frantz, Gardner, Rhoda, Clancy and Whittington would receive an additional credit of .25% for each pre-1988 year of service after age 55, subject to a maximum of 10 years' such credit, and would have added to his annual pension benefits an amount equal to 0.4% of the amount by which his pre-1988 career average annual base salary (three highest years) exceeds his Social Security covered compensation, multiplied by his years of pre-1988 credited service. Various benefit payment options are available on an actuarially equivalent basis, including joint and survivor benefits. Compensation included in the pension base includes cash awards under the Incentive Plans.

As part of and in accordance with the merger agreement, the portion of the defined benefit plan covering Windstream employees will be transferred to Windstream. Assuming annual increases in compensation in future years of 5% per year through December 31, 2010 (or December 31, 2005 for Mr. Whittington), continuation in the position he held during 2005, and retirement at age 65, the estimated annual benefit under the pension plan for each of Messrs. Frantz, Gardner, Rhoda, Clancy and Whittington is \$297,890, \$240,169, \$57,991, \$41,254 and \$7,182, respectively. Amounts shown are straight life annuity amounts and include amounts payable under the defined benefit portion of the Alltel Benefit Restoration Plan.

Benefit Restoration Plan

Federal laws place certain limitations on pensions that may be paid under federal income tax qualified plans. The Alltel Benefit Restoration Plan provides for the payment to certain employees outside tax-qualified plans of any amounts not payable under the tax-qualified plans by reason of limitations specified in the Internal Revenue Code. Currently, under the Alltel Benefit Restoration Plan, Messrs. Frantz, Gardner, Rhoda, and Clancy are eligible for accruals with respect to benefits not payable under Alltel's defined contribution plans and defined benefit pension plan. Amounts accrued, if any, under the defined contribution portion of these plans in 2005 for each of these executives are included in the Summary Compensation Table on page 156. As part of and in accordance with the merger agreement, the portion of the Alltel Benefit Restoration Plan covering Windstream employees will be transferred to Windstream.

Table of Contents**Supplemental Executive Retirement Plan**

Alltel maintains a non-qualified supplemental executive retirement plan (the "SERP") in which certain employees designated by its Board of Directors, including Messrs. Frantz and Gardner, participate. Each of Messrs. Frantz and Gardner is entitled to an early retirement benefit under the SERP upon the earliest to occur of January 1, 2007, and the distribution date (as defined in the distribution agreement by and between Alltel and Spinco). The lump sum benefit under the SERP payable for each of Messrs. Frantz and Gardner is \$7,615,028 and \$9,256,645, respectively. These payments will be made by Alltel within 10 days of the earliest of the distribution date and January 1, 2007. These payments reflect retirement benefits that were earned by Messrs. Frantz and Gardner in accordance with the SERP during their tenure at Alltel, and Alltel will make these payments on the foregoing date due to the pending separation of Spinco from Alltel which will result in the termination of these individuals' employment with Alltel.

Grantor Trust

Alltel maintains a grantor trust under Section 671 of the Internal Revenue Code (the "Trust") to provide certain participants in designated compensation and supplemental retirement plans and arrangements with greater assurance that the benefits and payments to which those participants are entitled under those plans and arrangements will be paid. Contributions by Alltel to the Trust are discretionary. Prior to a change of control of Alltel (as defined in the trust agreement for the Trust), benefits may not be paid from the Trust.

Following a change of control of Alltel, benefits and payments may be paid from the Trust to the extent those benefits and payments are not paid by Alltel or its successor. The assets of the Trust are subject to the claims of the creditors of Alltel in the event Alltel becomes insolvent (as defined in the trust agreement for the Trust).

DESCRIPTION OF SPINCO CAPITAL STOCK

As part of the merger, the separate existence of Spinco will cease and Valor, which will be renamed Windstream, will be the surviving company. The certificate of incorporation and bylaws of Valor will be amended to become the governing documents of Windstream. The following summary describes the material terms of the capital stock of Spinco prior to the merger. The certificate of incorporation and bylaws of Spinco are being filed as exhibits to the registration statement of which this prospectus is a part. The rights of Spinco stockholders after the merger as stockholders of Windstream will be as set forth below under the heading Description of Windstream Capital Stock beginning on page 163.

Authorized Shares

Under the Spinco Amended and Restated Certificate of Incorporation (the Spinco Certificate), Spinco is authorized to issue up to 500,000,000 shares of common stock, each having a par value of \$.01 per share. There are no outstanding options or warrants to purchase, or securities convertible into, common stock of Spinco.

Voting Rights

Pursuant to Delaware law and Spinco s bylaws, each outstanding share of Spinco common stock will be entitled to one vote per share on each matter to be voted on by the holders of Spinco common stock. Unless otherwise required by the Delaware law, the Spinco Certificate or Spinco s bylaws, any question brought before the stockholders, except the election of directors, shall be decided by the vote of the holders of a majority of the total number of votes of Spinco common stock represented and entitled to vote, voting as a single class. The holders of Spinco common stock will not be entitled to cumulative voting of their shares in elections of directors.

Dividends and Dividend Policy

Holders of shares of Spinco common stock will be entitled to receive dividends as declared by Spinco s board of directors out of funds that are legally available for that purpose. Spinco has never declared or paid any cash dividends on Spinco common stock and, except for the special dividend which will be paid to Alltel prior to the spin-off and distribution of Spinco common stock to Alltel stockholders, Spinco does not anticipate paying any cash dividends on shares of Spinco common stock prior to the merger. The merger agreement provides that the initial dividend policy of Windstream (which may be changed at any time by Windstream s Board of Directors) will provide for the payment, subject to applicable law, of regular quarterly dividends on each issued and outstanding share of common stock of \$.25 per share. See The Transactions Dividend Policy.

Preemptive Rights

No holder of shares of Spinco common stock will have any preemptive right to acquire shares of Spinco common stock.

Indemnification of Officers and Directors

The Spinco Certificate provides for indemnification of directors and officers to the fullest extent authorized or permitted by Delaware law, as amended from time to time. DESCRIPTION OF WINDSTREAM CAPITAL STOCK

As part of the merger, the certificate of incorporation and bylaws of Valor will be amended to become the governing documents of Windstream. The following summary describes the material terms of the Amended and Restated Certificate of Incorporation of Windstream (which we refer to as the Windstream Certificate) and the Amended and Restated Bylaws of Windstream (which we refer to as the Windstream Bylaws), but it does not purport to describe all of the terms, of such certificate and bylaws. The full text of the Windstream Certificate and Bylaws are attached as Annex E and F, respectively, to this document and are incorporated by reference herein. All stockholders are urged to read such certificate and bylaws in their entirety. The summary is qualified in its entirety by the General Corporation Law of the State of Delaware (which we refer to as the DGCL).

The Windstream Certificate and Windstream Bylaws will not become effective until the completion of the spin-off and merger.

General

Under the Windstream Certificate, the total authorized capital stock of Windstream will consist of 200,000,000 shares of preferred stock, par value \$.0001 per share and 1,000,000,000 shares of common stock, par value \$.0001 per share.

Preferred Stock

The Windstream Certificate provides that Windstream's Board of Directors will be authorized without further stockholder approval, to issue from time to time up to a total of 200,000,000 shares of preferred stock in one or more series and to fix or alter the powers, preferences and rights, and any qualifications, limitations or restrictions thereof, of the shares of each series. The Board of Directors may fix the number of shares of any series of preferred stock, and it may increase or decrease the number of shares of any series of preferred stock, as long as it acts within the limitations or restrictions stated in the original resolution or resolutions that fixed the number of shares in the series and as long as it does not decrease the number of shares of any series below the number then outstanding. If the number of shares of any series of preferred stock is decreased, the shares constituting the decrease will resume the status they had prior to the adoption of the resolution that originally fixed the number of shares of the series, subject to the requirements of applicable law.

Common Stock

Under the Windstream Certificate, the holders of Windstream common stock will have one vote per share on matters submitted to a vote of stockholders. Holders of the common stock will be entitled to receive dividends ratably, if any, as may be declared by the Board of Directors out of legally available funds, subject to any preferential dividend rights of any outstanding preferred stock. Upon Windstream's liquidation, dissolution or winding up, the holders of common stock will be entitled to receive ratably Windstream's net assets available after the payment or provision for payment of all debts and subject to the prior rights of any outstanding preferred stock. The Windstream common stock will have no preemptive rights, no cumulative voting rights and no redemption, sinking fund or conversion provisions.

To the greatest extent permitted by applicable Delaware law, the shares of common stock will be uncertificated, and transfer will be reflected by book entry.

All rights, preferences and privileges of holders of Windstream common stock stated in this summary are subject to the rights of holders of shares of any series of preferred stock which Windstream may designate and issue in the future without further stockholder approval.

Delaware Anti-Takeover Statute

Section 203 of the DGCL restricts business combinations with certain interested stockholders (defined generally under the DGCL to include persons who beneficially own or acquire 15% or more of a Delaware corporation's voting stock, hereinafter a Section 203 Interested Stockholder). Section 203, which applies to

Table of Contents

Windstream, prohibits business combination transactions between a publicly held Delaware corporation and any Section 203 Interested Stockholder for a period of three years after the time on which the Section 203 Interested Stockholder became an interested stockholder unless: (a) prior to that time the corporation's Board of Directors approved either the proposed business combination or the transaction which resulted in the Section 203 Interested Stockholder becoming an interested stockholder; (b) upon consummation of the transaction which resulted in the Section 203 Interested Stockholder becoming an interested stockholder, the Section 203 Interested Stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding for purposes of determining the number of shares outstanding those shares owned (i) by persons who are directors and also officers; and (ii) by employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer; or (c) on or subsequent to such time the business combination is approved by the corporation's Board of Directors and authorized at an annual or special meeting of stockholders, and not by written consent, by the affirmative vote of at least 66²/₃ % the outstanding voting stock which is not owned by the Section 203 Interested Stockholder.

Rights of Appraisal

Under the DGCL, Windstream stockholders may demand appraisal of and obtain payment of the fair value of their shares. This remedy may be an exclusive remedy, except where the corporate action involves fraud or illegality. The DGCL provides appraisal rights only in certain mergers or consolidations and not (unless the certificate of incorporation of a corporation so provides, which the Windstream Certificate will not) for a sale or transfer of all or substantially all of a corporation's assets or an amendment to its certificate of incorporation. Moreover, the DGCL does not provide appraisal rights in connection with a merger or consolidation (unless the certificate of incorporation so provides, which the Windstream Certificate will not) to the holders of shares of a constituent corporation listed on a national securities exchange (or designated as a national market system security by the National Association of Securities Dealers, Inc.) or held of record by more than 2,000 stockholders, unless the applicable agreement of merger or consolidation requires the holders of such shares to receive, in exchange for such shares, any property other than shares of stock of the resulting or surviving corporation, shares of stock of any other corporation listed on a national securities exchange (or designated as described above) or held of record by more than 2,000 holders, cash in lieu of any fractional shares or any combination of the foregoing. In addition, the DGCL denies appraisal rights if the stockholders of the surviving corporation in a merger did not have to vote to approve the merger. Appraisal rights are not available to Valor stockholders or Alltel stockholders with respect to the spin off and merger.

Board of Directors

The Windstream Certificate provides for a Board of Directors consisting of not less than three nor more than fifteen members, the exact number of which shall be fixed from time to time by the affirmative vote of a majority of the entire Board of Directors. Under the Windstream Certificate, the initial Board of Directors will consist of nine directors. In accordance with the merger agreement, the initial directors will consist of six Alltel designees, one Valor designee and the chairman of the Board of Directors and the chief executive officer of Windstream. The term of office for these directors will expire at the annual meeting of Windstream stockholders in 2007.

Nominations of persons for election to the Windstream Board of Directors may be made at a meeting of stockholders by or at the direction of the Board of Directors. In addition, any stockholder may nominate persons for election to the Windstream Board of Directors by giving timely notice to Windstream's Secretary. To be timely:

in the case of an annual meeting, a stockholder's notice must be delivered to or mailed and received at Windstream's principal executive offices not less than 90 days nor more than 120 days before the first anniversary of the preceding year's annual meeting; provided, however, that if the date of the annual meeting is changed by more than 30 days from such anniversary date, notice by the stockholder must be received not later than the close of business on the 10th day following the day on which notice of the date of the meeting was mailed or public disclosure of the meeting was made; and

Table of Contents

in the case of a special meeting, a stockholder's notice must be delivered to or mailed and received at Windstream's principal executive offices not later than the close of business on the 10th day following the day on which notice of the date of the meeting was mailed or public disclosure of the meeting was made.

Directors will be elected at a stockholders' meeting by a plurality of the votes of the shares present in person or represented by proxy at the meeting and entitled to vote.

Any vacancy on the Windstream Board of Directors that results from an increase in the number of directors may be filled by the majority vote of the directors then in office as long as a quorum is present. Any other vacancy may be filled by a majority of the Board of Directors then in office, even if less than a quorum, or by a sole remaining director.

Any or all directors may be removed, with cause, by the affirmative vote of at least a majority of the total voting power of Windstream's outstanding voting securities, voting together as a single class at a meeting specifically called for such purpose.

Notwithstanding the foregoing, if the holders of any one or more classes or series of Windstream preferred stock have the right to elect directors, the election, term of office, filling of vacancies and other features of such directorships shall be established by the Board of Directors.

The Windstream Board of Directors will have an annual meeting and may hold regular meetings without notice according to a resolution of the board. Special meetings may be called by the chairman of the board, the president (if the president is a director) or, upon the written request of a majority of the total number of directors then in office. A majority of the total number of Windstream directors will constitute a quorum, and directors present at any meeting at which a quorum is present may act by majority vote.

Stockholders

The Windstream Bylaws provide that an annual meeting of stockholders for the purpose of electing those directors whose term of office expires at such meeting and of transacting such other business as may properly come before it will be held each year. A stockholder may bring business before an annual meeting of stockholders by giving timely notice in writing to Windstream's secretary in accordance with the provisions of the Windstream Bylaws.

Under Delaware law, a special meeting of the stockholders may be called by the Board of Directors of the corporation or by any other person authorized to do so in the certificate of incorporation or bylaws. The Windstream Certificate states that as long as any security of the company is registered under Section 12 of the Securities Exchange Act of 1934, as amended, special meetings of stockholders of Windstream may be called only by a resolution of the Board of Directors.

In accordance with Delaware law, the Windstream Bylaws provide that written notice of any stockholders meeting must be given to each stockholder entitled to vote not less than 10 or more than 60 days before the date of the meeting. Except as otherwise provided by DGCL or the Windstream Certificate, the holders of a majority of Windstream's outstanding shares of stock entitled to vote constitutes a quorum for the transaction of business, and except for the election of directors, the affirmative vote of the majority of shares present in person or represented by proxy at the meeting and entitled to vote on the subject matter shall be the act of the stockholders.

As long as any security of Windstream is registered under Section 12 of the Securities Exchange Act of 1934, no stockholder action may be taken without a meeting, and the certificate of incorporation expressly denies the power of stockholders to consent in writing without a meeting.

Voting on Certain Fundamental Issues

Delaware law permits a corporation to include supermajority provisions in its certificate of incorporation and bylaws with respect to the approval of various issues. However, other than the effect of Section 203 of the DGCL and voting on an amendment to certain sections of the Windstream Certificate, no supermajority

Table of Contents

voting requirement provisions related to matters upon which the stockholders of Windstream may vote are included in the Windstream Certificate or Windstream Bylaws.

Amendment of the Windstream Certificate

Under Delaware law, unless a higher vote is required in the certificate of incorporation of a corporation, an amendment to such certificate of incorporation generally may be approved by a majority of the outstanding shares entitled to vote on the proposed amendment. Notwithstanding any provision of a corporation's certificate of incorporation to the contrary, under Delaware law, holders of a class of a corporation's stock are entitled to vote as a class on the approval of any amendment to the corporation's certificate of incorporation which would:

increase or decrease the aggregate number of authorized shares of such class (subject to certain exceptions);

increase or decrease the par value of the shares of such class; or

alter or change the powers, preferences or rights of such class so as to affect them adversely.

Under the Windstream Certificate, the affirmative vote of the holders of at least two-thirds of the combined voting power of all of the then-outstanding shares of Windstream eligible to be cast in the election of directors is required in order to amend, alter, change or repeal the sections of the Windstream Certificate related to the limitation of liability of directors and indemnification of directors and officers, the prohibition of stockholder action by written consent, the calling of special meetings of stockholders, the election to be covered by DGCL Section 203, and the procedures required to amend the Windstream Certificate.

Amendment of the Windstream Bylaws

Under the Windstream Certificate, the Board of Directors will be expressly authorized to amend, alter, change or repeal the Windstream Bylaws. The stockholders will also have the ability to amend, alter, change or repeal the Windstream Bylaws by the affirmative vote of a majority of the outstanding shares, except that a two-thirds vote is required for the stockholders to amend the bylaws sections related to bringing matters before an annual stockholder meeting, nominating and electing directors and filling vacancies on the Board, and the procedures required to amend the Windstream Bylaws.

Limitation of Liability of Directors

The DGCL provides that a corporation can, by a provision in its certificate of incorporation, limit a director's liability for monetary damages for breach of fiduciary duty as a director; however, a corporation cannot limit a director's liability for any breach of the director's duty of loyalty to the corporation or its stockholders; acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law; payment of a dividend or the repurchase or redemption of stock in violation of Delaware law; or any transaction from which the director derived an improper personal benefit.

The Windstream Certificate provides that to the fullest extent permitted by the DGCL, no Windstream director will be liable to the corporation or its stockholders for damages arising from a breach of fiduciary duty owed to Windstream or its stockholders.

Indemnification

The Windstream Certificate will require the corporation to indemnify any party to the fullest extent permitted by the DGCL who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding because he is or was a director or officer of Windstream, or, while a director, officer or other employee of Windstream, is or was serving at the request of Windstream as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise.

In addition, Windstream, to the fullest extent authorized under Delaware law shall pay in advance of the final disposition of any such proceeding all expenses incurred by any director or officer in connection with such

Table of Contents

proceeding. The right to indemnification is not exclusive of any other right which that individual may have or hereafter acquire under the Windstream Certificate or under any statute, bylaw, agreement, vote of stockholders or disinterested directors or otherwise.

Windstream may, by action of its Board of Directors, provide indemnification to its employees and agents with the same or lesser scope and effect as the foregoing indemnification of directors and officers.

Windstream is authorized to purchase and maintain insurance on its own behalf and on behalf of any person required or permitted to be indemnified.

The rights to indemnification and to the advance of expenses conferred in the Windstream Certificate are not be exclusive of any other right which any person may have or acquire.

Name Change; Listing

Immediately following completion of the merger, the Board of Directors will merge a wholly-owned subsidiary of the surviving company into the company and, in connection with such merger, change the name of the company from Valor Communications Group, Inc. to Windstream Corporation. Promptly thereafter, the company will file a restated certificate of incorporation with the Delaware Secretary of State reflecting the name change. Shares of Windstream Corporation will be traded on the NYSE under the new trading symbol WIN.

Transfer Agent and Registrar

The transfer agent and registrar for the common stock is Computershare Investor Services, LLC.

Table of Contents**COMPARISON OF THE RIGHTS OF STOCKHOLDERS
BEFORE AND AFTER THE SPIN-OFF AND MERGER**

Upon completion of the spin-off and merger, the Windstream Certificate and Windstream Bylaws will be in the form attached as Annex E and F, respectively, to this document and incorporated by reference herein. Although there are substantial similarities between the certificate of incorporation and bylaws of Valor prior to the spin-off and merger (which we refer to as the Pre-Merger Certificate and the Pre-Merger Bylaws) and the Windstream Certificate and Bylaws, some differences do exist. The following is a summary of the material differences between the rights of stockholders before and after the spin-off and merger. Although we believe that this summary covers the material differences between the two, this summary may not contain all of the information that is important to you. This summary is not intended to be a complete discussion of stockholders' rights, and it is qualified in its entirety by reference to the DGCL and the various documents we refer to in this summary.

Shares of Stock

Total authorized shares of capital stock will increase from 220,000,000 to 1,200,000,000. The authorized number of shares of preferred stock will increase from 20,000,000 shares, with a par value of \$.0001 per share in the Pre-Merger Certificate to 200,000,000 shares of preferred stock, with a par value of \$.0001 per share in the Windstream Certificate. The authorized number of shares of common stock will increase from 200,000,000 shares of common stock, with a par value of \$.0001 per share in the Pre-Merger Certificate to 1,000,000,000 shares of common stock, with a par value \$.0001 per share in the Windstream Certificate.

The Pre-Merger Bylaws contemplated that all shares of stock would be certificated, but under the Windstream Certificate and Bylaws, to the greatest extent permitted by applicable Delaware law, the shares of common stock will be uncertificated, and transfer will be reflected by book entry. Under the Windstream Bylaws, any certificated shares of stock will be transferred by surrendering the certificates with the proper endorsement and additional items required by the corporation. Upon surrender of the certificate, no new certificate will be issued to the transferee; instead, the transfer will be made by book entry.

Board of Directors

The Pre-Merger Certificate and Bylaws established an initial Board of Directors consisting of four directors elected by the stockholders. Thereafter, the number of directors was established by resolution of the Board. No term for the directors was specified, and a special meeting could be called upon the written request of at least three directors.

The Windstream Certificate and Bylaws state that the Board of Directors will consist of not less than three nor more than fifteen members, with the exact number fixed from time to time by the affirmative vote of a majority of the entire Board of Directors. The directors will serve terms of one year and will stand for election at each annual meeting of stockholders. A special meeting can be called upon the written request of a majority of the directors then in office.

Further, vacancies on the Board under the Pre-Merger Bylaws were filled by a majority vote of the board, regardless of whether a quorum was present. Under the Windstream Bylaws, a quorum must be present in order to vote to fill a vacancy on the Windstream Board of Directors that results from an increase in the number of directors. Other vacancies may be filled by a majority vote of the Board of Directors then in office, even if less than a quorum, or by a sole remaining director.

Stockholders

Under both the Pre-Merger Bylaws and the Windstream Bylaws, a stockholder may bring business before an annual meeting of stockholders by giving timely notice in writing to corporation's secretary. However, the requirements for a timely meeting notice differ between the two documents. Under the Pre-Merger Bylaws, the meeting notice must have been provided to the corporation no less than 60 nor more than 90 days prior to the meeting; provided, however, that in the event that less than 70 days' notice or prior public announcement

Table of Contents

of the date of the meeting was given, the stockholder's notice must be received by the corporation no later than the 10th day following the date of the notice of the annual meeting was mailed or the public announcement was made. Under the Pre-Merger Bylaws, the meeting notice must contain the following information: (1) a brief description of the business desired to be brought before the annual meeting; (2) the name and address of the stockholder submitting the meeting notice; (3) the class and number of shares beneficially owned by the stockholder; and (4) any material interest of the stockholder in the business brought before the meeting.

The Windstream Bylaws require the stockholder to provide the meeting notice no less than 90 nor more than 120 days prior to the anniversary date of the immediately preceding annual meeting of stockholders; provided, however, that in the event that the annual meeting is called for a date that is not within 25 days before or after the anniversary date, the meeting notice must be received no later than the 10th day following the date on which notice of the annual meeting was mailed or a public announcement of the annual meeting was made. Under the Windstream Bylaws, the meeting notice must contain the information required under the Pre-Merger Bylaws, as well as the following additional information: (1) a representation that the stockholder is a stockholder of record entitled to vote at the meeting and intends to appear in person or by proxy at the meeting to propose the business described in the meeting notice; and (2) a representation as to whether the stockholder or the beneficial owner, if any, intends or is part of a group which intends (a) to deliver a proxy statement and/or form of proxy to holders of at least the percentage of the outstanding capital stock required to approve or adopt the proposal and/or (b) otherwise to solicit proxies from stockholders in support of such proposal.

The notice requirements for nomination of directors at an annual meeting also change under the Windstream Bylaws. The Pre-Merger Bylaws require the submission of the nomination not less than 60 nor more than 90 days prior to the first anniversary of the preceding year's annual meeting, but if the date of the annual meeting is changed by more than 30 days from the anniversary date, then the nomination must be received no later than the 10th day following the date of the notice of the annual meeting was mailed or the public announcement was made. Under the Pre-Merger Bylaws, the nomination must contain: (1) as to the stockholder submitting the nomination: (a) his or her name and address; and (b) the class and number of shares beneficially owned and owned of record by the stockholder; and (2) as to the beneficial owner, if any, on whose behalf the nomination is made: (i) the name and address of the beneficial owner; and (ii) the class and number of shares beneficially owned by him or her.

Under the Windstream Bylaws, the nomination must be submitted not less than 90 nor more than 120 days prior to the first anniversary of the preceding year's annual meeting, but if the date of the annual meeting is changed by more than 30 days from the anniversary date, then the nomination must be received no later than the 10th day following the date of the notice of the annual meeting was mailed or the public announcement was made. Under the Windstream Bylaws the nomination must contain the same information required under the Pre-Merger Bylaws, but it also must contain the following additional information: (1) a representation that the stockholder is a holder of record of stock of the corporation entitled to vote at the meeting and intends to appear in person or by proxy at the meeting to propose the nomination, and (2) a representation as to whether the stockholder or the beneficial owner, if any, intends or is part of a group which intends (a) to deliver a proxy statement and/or form of proxy to holders of at least the percentage of the corporation's outstanding capital stock required to elect the nominee and/or (b) otherwise to solicit proxies from stockholders in support of the nomination.

The Pre-Merger Certificate contains no provision allowing the stockholders to amend the corporation's bylaws although the DGCL provides for this right. While the Windstream Certificate allows the stockholders to amend, alter, change or repeal the Windstream Bylaws by an affirmative majority vote, or in the case of amendment to the bylaws sections related to bringing matters before an annual meeting of the stockholders, nominating and electing directors and filling vacancies on the Board of Directors, and amending the Windstream Bylaws, a two-thirds vote.

Certain Related Party Transactions

The Pre-Merger Certificate contained provisions stating that the partners, principals, directors, officers, members, managers and/or employees of Vestar Capital Partners, III, L.P., Vestar Capital Partners IV, L.P. and Vestar/ Valor LLC (which we collectively refer to as Vestar) and Welsh, Carson, Anderson & Stowe VIII, L.P. and Welsh, Carson, Anderson & Stowe IX, L.P. (which we collectively refer to as WCAS) were deemed interested stockholders under Section 203 of the DGCL and were expected to serve as directors and/or officers of the corporation; engage in business activities that are the same, similar to, or related to the business in which the corporation was engaged; and engage in material business transactions with the corporation. The Pre-Merger Certificate stated that these activities by Vestar and WCAS were not breaches of fiduciary duty and that neither Vestar nor WCAS had a duty to inform the corporation of any potential corporate opportunity unless the opportunity was expressly offered to the representative of Vestar or WCAS in his or her capacity as a director or officer of the corporation. The Pre-Merger Certificate also identified certain matters that were not corporate opportunities and set forth requirements for approval of agreements or transactions between the corporation and Vestar or WCAS. None of these provisions, nor any similar provisions concerning interested parties, are included in the Windstream Certificate or Windstream Bylaws.

Other than the differences described above, the rights of Windstream stockholders will remain the same as the rights of Valor stockholders immediately prior to the merger.

Rights of Alltel Corporation Stockholders Before and After the Merger

Alltel Corporation stockholders will not be required to surrender their Alltel Corporation shares in the spin-off transaction or the merger. The distribution of Valor common stock to Alltel Corporation stockholders will not cancel or affect the number of outstanding shares of Alltel Corporation common stock or the related rights. The rights of Alltel stockholders after the merger as stockholders of Windstream will be as set forth above under the heading Description of Windstream Capital Stock beginning on page 163.

Table of Contents**UNAUDITED PRO FORMA COMBINED CONDENSED FINANCIAL INFORMATION**

The following unaudited pro forma combined condensed balance sheet as of March 31, 2006 and the unaudited pro forma combined condensed statements of income for the three months ended March 31, 2006 and for the year ended December 31, 2005 are based on the historical financial statements of Spinco and Valor. The unaudited pro forma combined condensed financial statements give effect to (1) the contribution of Alltel's wireline operations to Spinco, (2) the spin off of Spinco to Alltel's stockholders and (3) the merger of Spinco with Valor accounted for as a reverse acquisition of Valor by Spinco, with Spinco considered the accounting acquirer, based on the assumptions and adjustments described in the accompanying notes to the unaudited pro forma combined condensed financial statements.

The unaudited pro forma combined condensed financial statements have been prepared using the purchase method of accounting as if the transaction had been completed as of January 1, 2005 for purposes of the combined condensed statements of income and on March 31, 2006 for purposes of the combined condensed balance sheet.

The unaudited pro forma combined condensed financial statements present the combination of historical financial statements of Spinco and Valor adjusted to give effect (1) to the transfer of certain assets and liabilities from and to Alltel and Spinco immediately prior to the spin-off that are not included in Spinco's historical balance sheet as of March 31, 2006, (2) the issuance of \$4.9 billion of long-term debt by Windstream as further discussed in Notes (b) and (f) below (assuming Valor's outstanding notes remain outstanding), (3) to the spin-off of Spinco to Alltel's stockholders through a tax free stock dividend, payment of a special dividend by Spinco to Alltel in an amount not to exceed Alltel's tax basis in Spinco and the distribution by Spinco of certain of its debt securities to Alltel, as further discussed in Note (b) below and (4) to the merger of Spinco with Valor. (See Note (i) below.)

The unaudited pro forma combined condensed financial statements were prepared using (1) the unaudited combined financial statements of Spinco as of and for the quarterly period ended March 31, 2006 included in this proxy statement/prospectus-information statement, (2) the audited combined financial statements of Spinco as of and for the year ended December 31, 2005 included in this proxy statement/prospectus-information statement, (3) the unaudited consolidated financial statements of Valor included in Valor's quarterly report on Form 10-Q as of and for the quarterly period ended March 31, 2006, which are incorporated herein by reference, and (4) the audited consolidated financial statements of Valor included in Valor's annual report on Form 10-K as of and for its fiscal year ended December 31, 2005, which are incorporated herein by reference.

Although Valor will issue approximately 405 million of its common shares to effect the merger with Spinco, the business combination will be accounted for as a reverse acquisition with Spinco considered the accounting acquirer. As a result, the fair value of Valor's common stock issued and outstanding as of the date of the merger will be allocated to the underlying tangible and intangible assets and liabilities of Valor based on their respective fair market values, with any excess allocated to goodwill. The pro forma purchase price allocation was based on an estimate of the fair market value of the tangible and intangible assets and liabilities of Valor. Certain assumptions have been made with respect to the fair market value of identifiable intangible assets as more fully described in the accompanying notes to the unaudited pro forma combined condensed financial statements. As of the date of this filing, Spinco has just commenced the appraisals necessary to arrive at the fair market value of the assets and liabilities to be acquired and the related allocations of purchase price. Once Spinco has completed the appraisals necessary to finalize the required purchase price allocation after the consummation of the merger, the final allocation of purchase price will be determined. The final purchase price allocation based on third party appraisals may be different than that reflected in the pro forma purchase price allocation, and this difference may be material.

Spinco, together with the management of Windstream, is developing a plan to integrate the operations of Valor and Spinco after the merger. Both companies provide local telephone service to customers in primarily rural markets. The footprint of Spinco's rural markets and the states in which it operates are highly complementary to Valor's rural market footprint. As a result, the management of Windstream expects to fully integrate Valor's business into that of Spinco, and will report Valor's operations with those of Spinco in the

Table of Contents

wireline segment. Windstream's business strategy is not expected to differ significantly from that of either Spinco or Valor. In particular, one of the more important challenges facing both Spinco and Valor, and which is expected to continue to impact Windstream, is the loss of access lines, primarily due to wireless and broadband substitution. The management of Windstream will continue focusing on the strategy of selling enhanced services to existing customers, including broadband services, and increasing average revenue per line through a combination of new product offerings and bundling of various services. In addition to stemming the loss of access lines and related revenues, a priority of Windstream will be the generation of sufficient cash flows to fund interest payments of the long-term debt being issued, as further discussed in Notes (b), (f) and (p) below, repayment of that debt, employee benefit plan obligations, capital expenditures necessary to maintain and enhance the network, and payment of dividends pursuant to the policy established by Windstream's management. Currently, the management of Windstream believes that the combined, post-merger company will generate sufficient cash flow from operations to fund each of these payments, as further discussed in Dividend Policy of Windstream on page 86. In connection with the plan to integrate the operations of Valor and Spinco, management anticipates that certain non-recurring charges, such as severance and relocation expenses and branding and signage costs, will be incurred in connection with this integration. Management cannot identify the timing, nature and amount of such charges as of the date of this proxy statement/prospectus-information statement.

However, any such charge could affect the combined results of operations of Spinco and Valor in the period in which such charges are recorded. The unaudited pro forma combined condensed financial statements do not include the effects of the costs associated with any restructuring or integration activities resulting from the transaction. In addition, the unaudited pro forma combined condensed financial statements do not include the realization of any cost savings from operating efficiencies, synergies or other restructurings resulting from the transaction, nor do they include any potential incremental costs due to loss of synergies due to the separation from Alltel.

The unaudited pro forma combined condensed financial statements are not intended to represent or be indicative of the combined results of operations or financial condition of Spinco and Valor that would have been reported had the merger been completed as of the dates presented, and should not be taken as representative of the future consolidated results of operations or financial condition of Spinco and Valor. The unaudited pro forma combined condensed financial statements should be read in conjunction with the separate historical financial statements and accompanying notes of Spinco and Valor that are included or incorporated by reference in this proxy statement/prospectus-information statement.

Table of Contents**NOTES TO UNAUDITED PRO FORMA COMBINED CONDENSED FINANCIAL STATEMENTS**

- a.** Immediately prior to the effective date of the spin off, Alltel will transfer to Spinco property, plant and equipment (net book value of \$114.1 million), pension assets (\$207.9 million) and additional other postretirement liabilities (\$7.4 million) related to the wireline operations and associated deferred income taxes (\$97.6 million). In addition, Spinco will transfer to Alltel certain tax contingency reserves that will be retained by Alltel pursuant to the distribution agreement (\$11.7 million), as well as certain international operations. The amounts of the transferred assets and liabilities reflected in the pro forma combined condensed balance sheet have been based upon the March 31, 2006 carrying values and are subject to change. The actual carrying values of the transferred assets and liabilities will be determined as of the date of the spin-off. As a result, those carrying amounts may change, and such changes may be material.
- b.** Prior to the spin-off and merger with Valor, Spinco will borrow approximately \$4.9 billion through a new senior secured credit agreement and the issuance of unsecured debt securities in a private placement and through the distribution to Alltel of certain of Spinco's debt securities representing approximately \$1.673 billion in debt reduction to Alltel. Proceeds from the debt issuance will be used to pay a special dividend to Alltel in an amount not to exceed Alltel's tax basis in Spinco and for other purposes, including the repayment of certain debt obligations of Valor and Spinco, as further discussed in Note (f) below. Spinco expects to capitalize \$43.0 million of debt issuance costs associated with the issuance of the \$4.9 billion of long-term debt. Effective with the spin off, Alltel will contribute all of the assets and liabilities of its wireline business to Spinco in exchange for the issuance to Alltel of Spinco's common stock to be distributed pro rata to Alltel's stockholders as a tax free stock distribution, the payment of a special dividend to Alltel in an amount not to exceed Alltel's tax basis in Spinco (estimated to be \$2.275 billion), which Alltel will use to repurchase stock pursuant to a special stock buyback program authorized by the Alltel Board of Directors in connection with the spin-off, to repay outstanding indebtedness, or both, within one year following the spin-off, and the distribution by Spinco of certain debt securities (as described above) to Alltel. Immediately after the consummation of the spin off, Spinco will merge with and into Valor, with Valor continuing as the surviving corporation. As a result of the merger, all of the issued and outstanding shares of Spinco common stock will be converted into the right to receive an aggregate number of shares of common stock of Valor that will result in Alltel's stockholders holding approximately 85 percent of the outstanding equity interests of the surviving corporation immediately after the merger and the stockholders of Valor holding the remaining approximately 15 percent of such equity interests. It is presently estimated that 1.04 shares of Valor common stock will be distributed to Alltel stockholders for each share of Spinco common stock they are entitled to receive. The final number of shares of Valor common stock issued to effect the merger will be determined based on the actual number of Valor shares outstanding as of the merger date.
- c.** This adjustment is to reclassify Valor's investments in certain wireless partnerships and RTFC equity certificates as of the merger date from other assets to investments to conform to Spinco's financial statement presentation. Approximately \$5.6 million of the RTFC equity certificates will be redeemed upon repayment of the related debt, as further discussed below in Note (f).
- d.** This adjustment is to eliminate as of the merger date the recorded values of Valor's goodwill of \$1,057.0 million and customer list of \$0.3 million and to write-off Valor's remaining unamortized debt issuance costs of \$29.7 million.
- e.** This adjustment is to eliminate, as of the merger date, Valor's current and long-term portion of deferred activation fees of \$3.1 million and \$1.9 million, respectively, and the corresponding amounts of deferred acquisition costs in accordance with Emerging Issues Task Force (EITF) No. 01-3, Accounting in a Business Combination for Deferred Revenue of an Acquiree.

- f.** Immediately following the merger, the surviving corporation will repay with available cash on hand all borrowings outstanding under Valor's existing credit facility (\$780.6 million at March 31, 2006) and \$80.0 million of long-term debt obligations of Spinco. In addition, the surviving company will pay

176

approximately \$8.1 million of early termination penalties in conjunction with repaying the long-term debt obligations of Spinco, as well as \$1.9 million of accrued interest, and approximately \$7.8 million of early termination penalties in conjunction with repaying borrowings outstanding under Valor's existing credit facility. Also, certain RTFC equity certificates totaling approximately \$5.6 million will be refunded in cash upon repayment of Valor's debt, resulting in net prepayment penalties of \$2.2 million. The following table presents the estimated long-term debt outstanding of the combined company immediately following the merger on a pro forma basis (amounts in millions):

| | |
|---|-------------------|
| Bank Debt: | |
| Senior secured five-year revolving credit facility | \$ 34.0 |
| Term loan A 5 year maturity | 500.0 |

| Total bank debt and notes | 5,534.7 |
| Current portion of long-term debt | 10 |
| Total long-term debt | \$ 5,524.7 |

The above table presents the total pro forma long-term debt obligations of the combined company. The final amount of bank debt and notes that will be issued will be determined near close of the transaction. To the extent additional notes are issued, the bank debt will be reduced by a corresponding amount.

- g.** This adjustment is to recognize, as of March 31, 2006, Valor's unfunded pension and other postretirement benefits liabilities of \$46.7 million and to eliminate Valor's pension asset of \$0.1 million and pension and other postretirement benefits liabilities of \$24.6 million in accordance with SFAS No. 87, Employers' Accounting for Pensions and SFAS No. 106, Employers' Accounting for Postretirement Benefits Other Than Pensions.
- h.** This adjustment is to eliminate Valor's additional paid in capital, accumulated other comprehensive income and retained deficit accounts as of the merger date.

Table of Contents**NOTES TO UNAUDITED PRO FORMA COMBINED CONDENSED
FINANCIAL STATEMENTS (Continued)**

- i. This adjustment represents the estimated purchase price allocation as of March 31, 2006. For purposes of determining the purchase price allocation, the fair market value of all tangible and intangible assets and liabilities of Valor were estimated at March 31, 2006. The allocation of purchase price was as follows:

| Consideration: | |
|--|--------------|
| Value of Valor shares issued and outstanding at March 31, 2006 (1) | \$ 926.4 |
| Valor treasury stock | (0.4) |
| Repayment of Valor credit facility, including net prepayment penalty | 782.8 |
| Direct costs of acquisition (2) | 0.8 |
| Total | 1,709.6 |
| Allocated to: | |
| Current assets | 133.7 |
| Property, plant and equipment | 707.6 |
| Investments and other tangible assets | 18.3 |
| Identifiable intangible assets (3) | 675.0 |
| Current liabilities acquired | (85.9) |
| Long-term debt assumed (including fair value adjustment) (4) | (416.5) |
| Other long-term liabilities acquired (including deferred taxes) | (279.7) |
| Goodwill (3) | \$ 957.1 |

- (1) The value of Valor's common stock was calculated on the basis of (1) 71,096,887 shares outstanding as of April 28, 2006 and (2) the closing price of Valor common stock on May 22, 2006 of \$12.78. The final value of Valor shares will be based on the actual number of shares outstanding and the closing price of Valor stock as of the merger date.
- (2) Direct cash costs consist of estimates for professional fees (including banking fees) and other direct costs of the transaction that are expected to be incurred and capitalized as part of the merger transaction, including \$11.1 million of costs incurred through March 31, 2006. Pursuant to the terms of the distribution agreement, Alltel will assume any transaction costs related to the spin off, the merger, or the issuance of debt that exceeds \$115.0 million.
- (3) The identifiable intangibles consisted of (1) value assigned to the Valor customer base as of March 31, 2006 of \$175.0 million and (2) value assigned to the Valor franchise rights as of March 31, 2006 of \$500.0 million. For purposes of preparing the unaudited pro forma combined condensed statement of income, Spinco expects to amortize the fair value of the customer base on a straight-line basis over its average estimated life of six years. The franchise rights have been classified as indefinite-lived intangible assets and are not subject to amortization because Spinco expects both the renewal by the granting authorities and the cash flows generated from the franchise rights to continue indefinitely. Goodwill of \$957.1 million represents the excess of the purchase price of the acquired business over the fair value of the underlying identifiable net tangible and intangible assets at March 31, 2006. The premium paid by Spinco in this transaction is due to the potential for greater long-term returns as the combination of Spinco and Valor will create the largest telecommunications carrier in the United

States which is primarily focused on rural markets. Subsequent to this merger, due to the resulting increased size and economies of scale, the combined company should have greater financial flexibility to develop and deploy products, expand the capacity of its network, respond to competitive pressures and improve the cost structure of its operations. The preliminary allocation of value to the intangible assets was based on assumptions as to the fair value of customers and franchise rights. These values were determined by use of a market approach, which seeks to measure the value of assets as compared to similar transactions in

Table of Contents**NOTES TO UNAUDITED PRO FORMA COMBINED CONDENSED
FINANCIAL STATEMENTS (Continued)**

the marketplace. To determine market values, Spinco utilized a third party valuation firm to derive current market values for the customer base (computed on a per customer basis) and franchise rights licenses (computed on a per access line basis) from publicly available data for similar transactions in the wireline industry. These valuations are preliminary and do not necessarily represent the ultimate fair value of such assets that will be determined by an independent valuation firm subsequent to the consummation of the merger.

- (4) Fair value adjustments of \$16.5 million have been made to the carrying value of Valor's long term debt that was outstanding as of the merger date and not immediately repaid. The effect of the fair value adjustment to Valor's long-term debt will be amortized as a reduction to interest expense over the term of each debt issue. The effect of the fair value adjustment to long-term debt has been included in the adjustments to the unaudited pro forma combined condensed statement of income. See Note (p).
- j. This adjustment is to record the incremental deferred taxes required under SFAS No. 109, Accounting for Income Taxes, for the difference between the revised book basis, i.e., fair value, of Valor's assets other than goodwill and liabilities recorded under purchase accounting and the carryover tax basis of those assets and liabilities. Because certain of the identifiable intangible assets recognized in the purchase price allocation had no tax basis at the time of the transaction, a deferred tax liability has been recognized for the difference in book and tax basis of the identifiable intangible assets. The pro forma adjustment to deferred income taxes was based on Spinco's statutory tax rate of 38.9 percent.

A summary of the effects of the pro forma adjustments outlined in (c) to (i) on goodwill, other assets, other liabilities and additional paid-in capital was as follows:

| | |

- k.** This adjustment is to eliminate the intercompany revenues and related expenses associated with Spinco's agreement to provide customer billing services to Valor.
- l.** This adjustment reflects the amortization of the finite-lived identifiable intangible assets recorded in this transaction as previously described in Note (i)(3) above. For purposes of determining the amount of the adjustment, the estimated life of Valor's customer base was assumed to be six years.
- m.** This adjustment is to eliminate royalty expense charged to Spinco by Alltel pursuant to a licensing agreement with an Alltel affiliate under which Spinco's incumbent local exchange carrier subsidiaries were charged a royalty fee for the use of the Alltel brand name in marketing and distributing telecommunications products and services. Following the spin-off and merger with Valor, Spinco will no longer incur this charge as it will cease use of the Alltel brand name, and accordingly, this expense has been eliminated in the pro forma combined condensed statement of income.
- n.** This adjustment is to eliminate spin-off-related costs incurred by Spinco during the first quarter of 2006 which are directly related to the transaction. Following the spin-off and merger, Spinco will not incur these charges, and accordingly, these expenses have been eliminated in the pro forma combined condensed statement of income.
- o.** This adjustment is to eliminate the intercompany interest income earned by Spinco from Alltel on certain interim financing that Spinco provides to Alltel in the normal course of business. In conjunction with the spin-off, all intercompany balances between Spinco and Alltel will be settled via the special dividend discussed in Note (b). Accordingly, the intercompany interest income has been eliminated in the pro forma combined condensed statement of income.
- p.** The adjustment is to record (1) the estimated quarterly interest expense recognized on newly issued debt of the combined company as calculated below, (2) the amortization of debt issuance costs capitalized associated with the newly issued debt as computed below, (3) elimination of interest expense and amortization of debt issuance costs related to pre-existing debt of Spinco and Valor that will be repaid immediately upon consummation of the merger as discussed in Note (f) above, and (4) the effects of amortizing the fair value adjustment to Valor's long-term debt discussed in Note (i)(4) above. As of January 1, 2006, the fair value adjustment to Valor's long-term debt was estimated to be \$16.5 million.

Calculation of estimated quarterly interest expense for newly issued debt of the combined company is as follows:

The weighted average interest rate for the newly issued debt was estimated to be 6.938 percent, resulting in quarterly interest expense of \$85.6 million. A change in the weighted average interest rate of one-eighth of one percent would change quarterly interest expense by \$1.6 million. Debt issuance costs are amortized over the life of the related debt. Debt issuance costs, the related amortization period and cost per quarter are estimated as follows:

| | Amortization | | |
|--|-----------------|-----------------------|----------------|
| | Issuance Fee | Number of Years | Per Quarter |
| Senior secured five-year revolving credit facility | \$ 5.0 | 5.0 | \$ 0.25 |
| Term loan A 5 year maturity | 5.0 | 5.0 | 0.25 |
| Term loan B 7 year maturity | 19.0 | 7.0 | 0.70 |
| Senior notes maturity to be determined (assumed to be 7 years) | 14.0 | 7.0 | 0.50 |
| Totals | \$ 43.0 | | \$ 1.70 |

A summary of the effects of the adjustments on interest expense are as follows:

| | |
|---|----------------|
| Estimated quarterly interest expense related to newly issued debt of the combined company (per above) | \$ 85.6 |
| Amortization of estimated capitalized debt issuance costs associated with the newly issued debt (per above) | 1.7 |
| Elimination of interest expense and amortization of debt issuance costs related to repayment of borrowings outstanding under Valor's existing credit agreement and repurchase of certain debt obligations of ALLTEL Holding | (14.8) |
| Reduction in interest expense due to amortizing fair value adjustment Note (i)(4) | (0.4) |
| Net increase in interest expense | \$ 72.1 |

- q.** This adjustment is to reflect the tax effect of the pro forma adjustments described in Notes (k) through (o) above and was based on Spinco's statutory tax rate of 38.9 percent.
- r.** The adjustment to both the weighted average shares outstanding and the diluted weighted average shares outstanding is to reflect the additional Valor common shares of 403.0 issued to effect the merger with Spinco, as well as 1.8 million shares of unvested restricted stock issued by Valor that will vest upon consummation of the merger.
- s.** This adjustment is to eliminate the intercompany revenues and related expenses associated with Spinco's agreement to provide customer billing services to Valor.
- t.** This adjustment reflects the amortization of the finite-lived identifiable intangible assets recorded in this transaction as previously described in Note (i)(3) above. For purposes of determining the amount of the adjustment, the estimated life of Valor's customer base was assumed to be six years.

- u.** This adjustment is to eliminate royalty expense charged to Spinco by Alltel pursuant to a licensing agreement with an Alltel affiliate under which Spinco's incumbent local exchange carrier subsidiaries were charged a royalty fee for the use of the Alltel brand name in marketing and distributing telecommunications products and services. Following the spin-off and merger with Valor, Spinco will no longer incur this charge as it will cease use of the Alltel brand name, and accordingly, this expense has been eliminated in the pro forma combined condensed statement of income.
- v.** This adjustment is to eliminate spin-off-related costs incurred by Spinco and merger-related costs incurred by Valor during 2005 which are directly related to the transaction. Following the spin-off and merger, neither company will incur these charges, and accordingly, these expenses have been eliminated

in the pro forma combined condensed statement of income. In addition, this adjustment is to eliminate the operating results of the international operations to be transferred from Spinco to Alltel upon consummation of the merger as discussed in Note (a).

- w. This adjustment is to eliminate the intercompany interest income earned by Spinco from Alltel on certain interim financing that Spinco provides to Alltel in the normal course of business. In conjunction with the spin-off, all intercompany balances between Spinco and Alltel will be settled via the special dividend discussed in Note (b). Accordingly, the intercompany interest income has been eliminated in the pro forma combined condensed statement of income.
- x. The adjustment is to record (1) the estimated annual interest expense recognized on newly issued debt of the combined company as calculated below, (2) the amortization of debt issuance costs capitalized associated with the newly issued debt as computed below, (3) elimination of interest expense and amortization of debt issuance costs related to pre-existing debt of Spinco and Valor that will be repaid immediately upon consummation of the merger as discussed in Note (f) above, and (4) the effects of amortizing the fair value adjustment to Valor's long-term debt discussed in Note (i)(4) above. As of January 1, 2006, the fair value adjustment to Valor's long-term debt was estimated to be \$16.5 million.

Calculation of estimated annual interest expense for newly issued debt of the combined company is as follows:

| | |
|--|-----------------|
| Senior secured five-year revolving credit facility | \$ 2.2 |
| Term loan A 5 year maturity | 32.1 |
| Term loan B 7 year maturity | 126.8 |
| Senior notes maturity to be determined | 58.0 |
| Senior notes 10 year fixed maturity | 123.5 |
| Total | \$ 342.6 |

The weighted average interest rate for the newly issued debt was estimated to be 6.938 percent, resulting in annual interest expense of \$342.6 million. A change in the weighted average interest rate of one-eighth of one percent would change interest expense by \$6.2 million.

Debt issuance costs are amortized over the life of the related debt. Debt issuance costs, the related amortization period and cost per year are estimated as follows:

| | Amortization | | |
|--|-------------------------|--------------------------------|---------------------|
| | Issuance Fee | Number of Years | Per Year |
| Senior secured five-year revolving credit facility | \$ 5.0 | 5.0 | \$ 1.0 |

| Term loan B 7 year maturity | 19.0 | 7.0 | 2.7 |
| Senior notes maturity to be determined (assumed to be 7 years) | 14.0 | 7.0 | 2.0 |
| Totals | \$ 43.0 | | \$ 6.7 |

| Amortization of estimated capitalized debt issuance costs associated with the newly issued debt (per above) | 6.7 |

The following pro forma contractual obligations table represents a summary of future repayments of long-term debt obligations and related interest expense resulting from the issuance of long-term debt discussed in Note (f) as of December 31, 2005. Spinco's management is currently in the process of evaluating the capital and operating leases of both Spinco and Valor and negotiating certain contracts necessary to the operations of Windstream. As a result, capital and operating leases and purchase obligations have been excluded from the following pro forma contractual obligations table. In addition, because Spinco cannot currently estimate the timing of recognition of the pro forma long-term liabilities, primarily consisting of deferred income taxes, due to net operating loss carryforwards generated by Valor that may be utilized by Windstream, such other long-term liabilities are also excluded from the following pro forma contractual obligations table:

Payments Due by Period (in millions)

| | Less Than 1 Year | 1-3 Years | 3-5 Years | More Than 5 Years | Total |
|---|---------------------------------|----------------------|-------------------|----------------------------------|-------------------|
| Long-term debt, including current maturities (a) | \$ 10.2 | \$ 133.5 | \$ 517.3 | \$ 4,857.2 | \$ 5,518.2 |
| Interest payments on long-term debt obligations (b) | 385.6 | 763.5 | 740.5 | 1,253 | 3,143.3 |
| Total projected long-term debt and interest payments | \$ 395.8 | \$ 897.0 | \$ 1,253.7 | \$ 6,110.9 | \$ 8,661.5 |

(a) Excludes fair value adjustment of \$16.5 million related to the Valor 7.75% notes.

(b) Excludes amortization of estimated capitalized debt issuance costs and reduction in interest expense due to amortizing fair value adjustment related to the Valor 7.75% notes.

y. This adjustment is to reflect the tax effect of the pro forma adjustments described in Notes (s) through (x) above and was based on Spinco's statutory tax rate of 38.9 percent.

THE ANNUAL MEETING

Date, Time and Place

These proxy materials are delivered in connection with the solicitation by Valor's Board of Directors of proxies to be voted at the Valor annual meeting, which is to be held on Tuesday, June 27, 2006 at the Sheraton New York Hotel & Towers, 811 Seventh Avenue, New York, New York 10019 at 2:00 p.m., local time. On or about May 26, 2006, Valor commenced mailing this proxy statement/ prospectus-information statement and the enclosed form of proxy to its stockholders entitled to vote at the meeting.

Matters for Consideration

At the annual meeting, Valor stockholders will be asked to:

1. to adopt the Agreement and Plan of Merger, dated as of December 8, 2005, as amended on May 18, 2006, as such may be further amended from time to time (the Merger Agreement), by and among Alltel Corporation, Alltel Holding Corp. (Spinco) and Valor Communications Group, Inc., pursuant to which (i) Alltel Holding Corp. will merge with and into Valor, after which Valor will survive as a stand-alone company and will hold and conduct the combined business operations of Valor and Spinco and (ii) Valor will issue an aggregate number of shares in the merger equal to 5.667 multiplied by Valor's total number of shares of common stock outstanding on a fully-diluted basis immediately prior to the merger, which we expect to equal approximately 403,000,000 shares;
2. To approve the amendment of the certificate of incorporation of Valor pursuant to the merger to increase the authorized number of shares of Valor common stock from 200,000,000 to 1,000,000,000;
3. to approve the issuance of up to 405,000,000 shares of Valor common stock to Alltel stockholders in accordance with the terms of the Merger Agreement;
4. to adopt and approve the 2006 Equity Incentive Plan, a copy of which is attached as Annex G to this proxy statement/ prospectus-information statement;
5. to elect eleven (11) directors to serve until the 2007 Annual Meeting of Stockholders or until their successors are duly elected and qualified or until their earlier removal, resignation or death;
6. to ratify the appointment of Deloitte & Touche LLP as Valor's independent registered public accounting firm for the fiscal year ending December 31, 2006 or until their earlier removal or termination;
7. to adjourn the annual meeting, if necessary, to solicit additional proxies for the adoption of the merger agreement, approval of the amendment to the certificate of incorporation and bylaws of Valor pursuant to the merger or approval of the issuance of shares of Valor common stock pursuant to the merger; and
8. to transact any and all other business that may properly come before the annual meeting or any adjourned session of the annual meeting.

THE PROPOSALS SET FORTH IN ITEMS ONE THROUGH THREE ABOVE ARE CONDITIONED ON THE OTHER TWO AND APPROVAL OF EACH IS REQUIRED FOR COMPLETION OF THE MERGER. The proposal set forth in item four is conditioned upon the approval of the first three items. In addition, with respect to item five, you should be aware that if the merger is completed, then by virtue of the merger the persons elected at the annual meeting to serve as directors shall be replaced by the persons who serve as directors of Spinco immediately prior to the merger. It is currently anticipated that Valor's post-merger Board of Directors will consist of the following nine persons: Jeffery R. Gardner (who most recently served as Alltel's Executive Vice President - Chief Financial Officer), Francis X. Frantz (who most recently served as Alltel's Executive Vice President - External Affairs, General Counsel and Secretary), Anthony J. de Nicola (the current Chairman of Valor's Board of Directors) and six additional individuals designated by Alltel. Furthermore, with respect to item six, you should also be aware that if the

Table of Contents

merger is completed, PricewaterhouseCoopers LLP will become Valor's post-merger independent registered public accounting firm for the fiscal year ending December 31, 2006.

THE VALOR COMMUNICATIONS GROUP, INC. BOARD OF DIRECTORS HAS UNANIMOUSLY APPROVED THE MERGER AGREEMENT AND THE MERGER AND UNANIMOUSLY RECOMMENDS THAT VALOR STOCKHOLDERS VOTE FOR THE PROPOSALS TO ADOPT THE MERGER AGREEMENT, TO APPROVE THE INCREASE OF THE AUTHORIZED NUMBER OF SHARES OF VALOR COMMON STOCK PURSUANT TO THE MERGER, AND TO APPROVE THE ISSUANCE OF VALOR COMMON STOCK PURSUANT TO THE MERGER, EACH OF WHICH IS NECESSARY TO EFFECT THE MERGER, AS WELL AS FOR THE ADOPTION OF THE 2006 EQUITY INCENTIVE PLAN (WHICH IS CONDITIONED UPON STOCKHOLDER APPROVAL OF THE MERGER PROPOSALS), THE BOARD'S NOMINEES FOR DIRECTOR AND FOR THE RATIFICATION OF VALOR'S INDEPENDENT AUDITORS AND, IF NECESSARY, THE ADJOURNMENT OF THE ANNUAL MEETING TO SOLICIT ADDITIONAL PROXIES FOR THE MERGER PROPOSALS.

Annual Meeting Record Date; Voting Information

The Valor Board of Directors has fixed the close of business on May 5, 2006 as the record date for determining the holders of Valor common stock entitled to notice of, and to vote at, the annual meeting. Only holders of record of Valor common stock at the close of business on the record date will be entitled to notice of, and to vote at, the annual meeting or any adjournments or postponements thereof.

As of the record date, approximately 71,096,887 shares of Valor common stock were issued and outstanding and entitled to vote at the annual meeting and there were 186 holders of record of Valor common stock. Valor's amended bylaws provide that each share of Valor common stock shall entitle the holder to one vote on each matter to be considered at the annual meeting. A complete list of stockholders entitled to vote at the meeting will be open to the examination of stockholders for a period of ten days prior to the meeting, during ordinary business hours, at the offices of Valor, 201 E. John Carpenter Freeway, Suite 200, Irving, Texas 75062, and also on the meeting date.

If you are a record holder of Valor common stock on the record date, you may vote your shares of Valor common stock and Valor in person at the annual meeting or by proxy as described below under "Voting by Proxy" on page 186.

Quorum

In order to carry on the business of the meeting, Valor must have a quorum. A quorum requires the presence, in person or by proxy, of the holders of a majority of the votes entitled to be cast at the meeting. Valor counts abstentions and broker non-votes as present and entitled to vote for purposes of determining a quorum. A broker non-vote occurs when a stockholder fails to provide voting instructions to its broker for shares it holds in street name. Under those circumstances, a stockholder's broker may be authorized to vote for it on some routine items but is prohibited from voting on other items. Brokers are not authorized to vote on the proposals relating to the merger or the approval of the 2006 Equity Compensation Plan without instructions. Those items for which a stockholder's broker cannot vote result in broker non-votes.

Required Vote

The affirmative vote of a majority of the voting power of the outstanding shares of Valor common stock entitled to vote on the proposals, voting together as a single class, is required to adopt the merger agreement, to approve the increase of the authorized number of shares of Valor common stock pursuant to the merger, and to approve the issuance of Valor common stock to Alltel stockholders pursuant to the merger. Because the required vote of Valor stockholders for these matters is based upon the number of outstanding shares of Valor common stock entitled to vote, rather than upon the number of shares actually voted, the failure by the holder of any such shares to submit a proxy or vote in person at the annual meeting, including abstentions and broker non-votes, will have the same effect as a vote against the merger proposals. No vote of Alltel stockholders is required or being sought in connection with the spin-off transaction or the merger.

Table of Contents

In connection with the execution of the distribution agreement and the merger agreement, Spinco entered in a voting agreement with persons affiliated with Welsh, Carson, Anderson & Stowe and Vestor Capital Partners who collectively own approximately 41% of Valor's outstanding common shares. Pursuant to the voting agreement, these stockholders have agreed to vote all of their shares of Valor common stock (i) in favor of the approval of the merger and the approval and adoption of the merger agreement and (ii) except with the written consent of Spinco, against certain alternative proposals that may be submitted to a vote of the stockholders of Valor regarding an acquisition of Valor. In the event that the merger agreement terminates for any reason, the voting agreement will automatically terminate.

The Directors shall be elected by a plurality of the votes of the shares present in person or represented by proxy at the meeting and entitled to vote in the election of directors. The accompanying proxy card provides space for a stockholder to withhold authority to vote for any of the nominees to Valor's Board of Directors. Neither shares as to which the authority to vote on the election of directors have been withheld nor broker/nominee non-votes will be counted as affirmative votes to elect director nominees to the Board of Directors. However, since director nominees need only receive the vote of a plurality of the votes represented and entitled to vote at the meeting, a vote withheld from a particular nominee and broker/nominee non-votes will not affect the election of such nominee.

Except as applicable laws may otherwise provide, if a quorum is present, the approval of any other matter that may properly come before the meeting, including the ratification of Valor's independent auditor, will require the affirmative vote of a majority of the votes represented and entitled to vote on the matter at the meeting. Shares of Valor common stock that are voted to abstain from any other business coming before the meeting will be counted and will have the effect of a negative vote. Broker/nominee non-votes will not be counted as votes for or against any such other matter and thus will have no effect.

Computershare, the transfer agent and registrar for Valor common stock as of the Record Date, has been appointed by the Board of Directors to ascertain the number of shares represented, receive proxies and ballots, tabulate the vote and serve as inspector of election at the meeting.

Voting by Proxy

Giving a proxy means that a Valor stockholder authorizes the persons named in the enclosed proxy card to vote its shares at the Valor annual meeting in the manner it directs. A Valor stockholder may cause its shares to be voted by granting a proxy or by voting in person at the meeting. A Valor stockholder may use one of three methods to grant a proxy if it is a registered holder (that is, it holds its stock in its own name):

Via telephone, by calling Computershare Investor Services, LLC toll-free at 1-800-652-VOTE(8683) from the United States and Canada and following the series of voice instructions that will direct you how to grant a proxy. Have your proxy card available when you call. Telephone voting will be available 24 hours a day until 1:00 a.m., Central Standard Time, on June 27, 2006;

Via the Internet, as permitted by Section 212(c) of the DGCL, by going to the website www.computershare.com/expressvote and following the on-screen instructions that will direct you how to grant a proxy. Internet proxy submission will be available 24 hours a day until 1:00 a.m., Central Standard Time, on June 27, 2006. Have your proxy card available when you access the website as it contains individual proxy access and account numbers that you will need to enter the website.

Mail, by completing and returning the proxy card or voter information form in the enclosed envelope. The envelope requires no additional postage if mailed in the United States.

Valor requests that Valor stockholders complete and sign the accompanying proxy and return it to Valor as soon as possible in the enclosed postage-paid envelope. When the accompanying proxy is returned properly executed, the shares of Valor stock represented by it will be voted at the Valor annual meeting in accordance with the instructions contained on the proxy card.

If any proxy is returned without indication as to how to vote, the Valor stock represented by the proxy will be voted in favor of all matters for consideration at the Valor annual meeting described in this proxy

Table of Contents

statement/prospectus-information statement. Unless a Valor stockholder checks the box on its proxy card to withhold discretionary authority, the proxyholders may use their discretion to vote on other matters relating to the Valor annual meeting.

If a Valor stockholder's shares are held in street name by a broker or other nominee, the stockholder should check the voting form used by that firm to determine whether it may provide voting instructions by telephone or the Internet.

EVERY VALOR STOCKHOLDER'S VOTE IS IMPORTANT. ACCORDINGLY, EACH VALOR STOCKHOLDER SHOULD SIGN, DATE AND RETURN THE ENCLOSED PROXY CARD, OR SUBMIT A PROXY VIA THE INTERNET OR BY TELEPHONE, WHETHER OR NOT IT PLANS TO ATTEND THE VALOR ANNUAL MEETING IN PERSON.

Revocability of Proxies and Changes to a Valor Stockholder's Vote

Valor stockholders of record may revoke their proxy at any time prior to the time their shares are voted at the annual meeting. Stockholders of record may revoke their proxy by:

sending a written notice to the corporate secretary of Valor that is received prior to the annual meeting stating that you revoke your proxy;

properly completing a new proxy card bearing a later date and properly submitting it so that it is received prior to the annual meeting;

logging onto the Internet website specified on your proxy card in the same manner you would to submit your proxy electronically or by calling the telephone number specified on your proxy card prior to the annual meeting, in each case if you are eligible to do so and following the instructions on the proxy card; or

attending the annual meeting and voting in person.

Simply attending the annual meeting will not revoke your proxy. If you instructed a broker to vote your shares and you wish to change your instructions, you must follow your broker's directions for changing those instructions. If an adjournment occurs and no new record date is set, it will have no effect on the ability of Valor stockholders of record as of the record date to exercise their voting rights or to revoke any previously delivered proxies.

Solicitation of Proxies

This solicitation is made on behalf of the Valor Board of Directors. Valor will pay the costs of soliciting and obtaining the proxies, including the cost of reimbursing brokers, banks and other financial institutions for forwarding proxy materials to their customers. Proxies may be solicited, without extra compensation, by Valor's officers and employees by mail, telephone, fax, personal interviews or other methods of communication. Valor may engage a proxy solicitor to assist it in the distribution and solicitation of proxies and may pay up to \$10,000 plus out-of-pocket expenses for such services.

Voting by Valor Management

Certain stockholders of Valor have entered into a voting agreement with Alltel whereby they have agreed to vote or cause to be voted all of the Valor shares they own in favor of the adoption of the merger agreement. For more information regarding the voting agreement see "The Voting Agreement" beginning herein at page 96. In addition, Valor's directors and executive officers have either entered into this agreement with Alltel in their capacity as a stockholder of Valor or have otherwise indicated they intend to vote their Valor common shares in favor of the merger and transactions contemplated thereby. These stockholders and Valor's executive officers and directors together hold an aggregate of approximately 42% of the aggregate number of votes entitled to be cast at the annual meeting.

Table of Contents

Other Matters

As of the date of this proxy statement/ prospectus-information statement, Valor's Board of Directors knows of no other matters that will be presented for consideration at the annual meeting other than as described in this proxy statement/ prospectus-information statement. If any other matters properly come before the annual meeting of Valor stockholders, or any adjournments of the annual meeting are proposed (other than any adjournments contemplated by Proposal No. 7), and are properly voted upon, the enclosed proxies will give the individuals that Valor stockholders name as proxies discretionary authority, to vote the shares represented by these proxies as to any of these matters; *provided, however*, that such individuals will only exercise this discretionary authority with respect to matters that were unknown a reasonable time before the solicitation of proxies. The individuals named as proxies intend to vote or not to vote in accordance with the recommendation of Valor's Board of Directors.

Stockholder Proposals for the 2007 Annual Meeting

Stockholders may submit proposals on matters appropriate for stockholder action at Valor's annual stockholders meetings, consistent with rules adopted by the SEC. We must receive such proposals no later than February 27, 2007 to be considered for inclusion in the proxy statement and form of proxy card relating to the Annual Meeting of Stockholders in 2007. In addition, our Bylaws establish an advance notice procedure with regard to certain matters, including stockholder proposals not included in our proxy statement, to be brought before an annual meeting of stockholders. In general, notice must be received by our Secretary at our principal executive office not less than 60 days or more than 90 days prior to the scheduled annual meeting, regardless of any postponements, deferrals or adjournments of that meeting unless less than 70 days notice or prior public disclosure of the date scheduled for the meeting is given or made, in which event notice by the stockholder to be timely must be delivered or received not later than the close of business on the tenth day following the earlier of (i) the day on which such notice of the date of the scheduled annual meeting was mailed or (ii) the day on which such public disclosure was made. Our bylaws require that the proposal must set forth a brief description of the proposal, the name and address of the proposing stockholder as they appear on our books, the number of shares of Valor Common Stock the stockholder holds and any material interest the stockholder has in the proposal.

2005 Annual Report on Form 10-K

A copy of our Annual Report on Form 10-K for the fiscal year ended December 31, 2005, as filed with the SEC, was included as part of the annual report mailed to Valor's stockholders on or about April 28, 2006. This Annual Report on Form 10-K may also be accessed on our website at www.valortelecom.com.

PROPOSAL 1.
ADOPTION OF THE MERGER AGREEMENT
(Item 1 on Proxy Card)

As discussed elsewhere in this proxy statement/ prospectus-information statement, holders of Valor common stock are considering adoption of the merger agreement. Valor stockholders should read carefully this joint proxy statement/ prospectus-information statement in its entirety, including the annexes, for more detailed information concerning the merger agreement, the merger and the transactions contemplated thereby. See The Transactions. In particular, holders of Valor common stock are directed to the merger agreement and the first amendment thereto composite copies of which are attached as Annex A-1 and Annex A-2, respectively, to this joint proxy statement/ prospectus-information statement.

VALOR S BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE ADOPTION OF THE MERGER AGREEMENT IN THIS PROPOSAL 1.

PROPOSAL 2.
(Item 2 on Proxy Card)
AMENDMENT OF THE CERTIFICATE OF INCORPORATION
OF VALOR PURSUANT TO THE MERGER TO INCREASE THE AUTHORIZED SHARES
OF VALOR COMMON STOCK FROM 200,000,000 TO 1,000,000,000.

Pursuant to Section 2.5 of the Merger Agreement, Valor and Alltel agreed that at the effective time of the merger, the certificate of incorporation of Valor, as the surviving corporation of the merger, would be amended to read in its entirety in the form attached to this document as Annex E to implement a number of governance and other changes, including the increase of the number of shares of Valor common stock from 200,000,000 to 1,000,000,000. Under state law, the adoption of the merger agreement by Valor s stockholders would constitute an approval of the amendment of Valor s certificate of incorporation as contemplated by the merger agreement. However, in order to comply with applicable rules of the SEC relating to proxy statements, we are also presenting Proposal No. 2 to Valor s stockholders as a separate proposal for approval. **Because we are required to present this proposal separately and because all of the revisions to Valor s existing certificate of incorporation that are reflected in the attached Annex E are considered by Valor and Alltel to be integral parts of the overall transaction, the approval of Proposal No. 2 is a condition to completion of the merger. Accordingly, a vote against Proposal No. 2 is effectively a vote against the merger of Valor and Spinco.**

Valor currently has 200,000,000 shares of common stock authorized for issuance. On the record date for the annual meeting, Valor had outstanding 71,096,887 shares of common stock. Valor expects to issue an aggregate of approximately 403,000,000 shares of common stock to holders of Spinco common stock pursuant to the merger. Therefore, pursuant to the merger, Valor is proposing to increase the number of authorized shares of common stock to 1,000,000,000 in order to give it sufficient authorized shares to complete the merger. The increased share authorization will also provide greater flexibility in the capital structure of the resulting company by allowing it to raise capital that may be necessary to further develop its business, to fund potential acquisitions, to have shares available for use in connection with stock plans and to pursue other corporate purposes that may be identified by the Board of Directors.

The Board of Directors of Windstream will determine whether, when and on what terms the issuance of shares of common stock may be warranted in connection with any future actions. No further action or authorization by Windstream s stockholders will be necessary before issuance of the additional shares of common stock authorized under the Certificate of Incorporation resulting from the merger, except as may be required by applicable law or regulatory agencies or by the rules of the NYSE or of any stock exchange on which the common stock may then be listed.

Although an increase in the authorized shares of common stock could, under certain circumstances, also be construed as having an anti-takeover effect (for example, by permitting easier dilution of the stock ownership of a person seeking to effect a change in the composition of the Board of Directors or contemplating a tender offer or other transaction resulting in the acquisition of Windstream by another company), the

Table of Contents

proposed increase in shares authorized is not in response to any effort by any person or group to accumulate common stock or to obtain control of Valor by any means. In addition, the proposal is not part of any plan by Valor's Board of Directors to recommend or implement a series of anti-takeover measures.

VALOR'S BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THIS PROPOSAL 2

The amendment of Valor's organizational documents reflected in Proposal 2 will become effective only in connection with and at the time and by virtue of completion of the merger.

PROPOSAL 3.

ISSUANCE OF VALOR COMMON STOCK PURSUANT TO THE MERGER

(Item 3 on Proxy Card)

Under Rule 312.03 of the NYSE, a company listed on the NYSE is required to obtain stockholder approval before the issuance of common stock, or securities convertible into or exercisable for common stock, if the common stock issued in a transaction exceeds 20% of the shares of common stock of the corporation outstanding immediately before the effectiveness of the transaction. At the effective time of the merger, Valor will issue approximately 403 million shares of Valor common stock in the aggregate to the holders of Spinco common stock pursuant to the merger. The aggregate number of shares of Valor common stock to be issued pursuant to the merger will exceed 20% of the shares of Valor's common stock outstanding on the record date for the annual meeting, and for this reason Valor must obtain the approval of its stockholders for the issuance of these securities to Alltel stockholders pursuant to the merger.

Valor is asking its stockholders to approve the issuance of up to 405 million shares of Valor common stock to Alltel stockholders pursuant to the merger. The issuance of these securities to Alltel stockholders is necessary to effect the merger. **This Proposal 3 is conditioned on the approval of Proposals 1 and 2, and the approval of all three of these Proposals is required for completion of the merger.**

VALOR'S BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THIS PROPOSAL 3.

PROPOSAL 4.

ADOPTION OF 2006 EQUITY INCENTIVE PLAN

(Item 4 on Proxy Card)

If the merger proposals are approved, the stockholders will be asked to approve the new 2006 equity incentive plan (the 2006 Plan).

Introduction

The Board of Directors of Valor considers stock-based incentive compensation an essential tool to attract, retain and motivate our officers, key employees and directors and to align their interests with the interests of our stockholders. Consistent with this view, on February 9, 2005, the Board of Directors of Valor adopted the 2005 Long-Term Equity Incentive Plan (the 2005 Plan). A total of 2,500,000 shares of our common stock were reserved for issuance under the 2005 Plan, of which February 9, 2005 remain available for awards.

After the proposed merger, however, Windstream will be considerably larger than Valor was at the time that the 2005 Plan was adopted, with an increased number of key employees. It is anticipated that Windstream will make equity awards to its employees following completion of the merger. As a result, in order to ensure that Windstream has adequate means to provide equity incentive compensation for its employees on a going forward basis, the Board of Directors deems it to be in the best interests of its stockholders to adopt the 2006 Plan.

The 2006 Plan reflects recent changes in the tax laws applicable to certain deferred compensation arrangements, changes in financial accounting rules that govern equity compensation and other developments in executive compensation practices. Moreover, the 2006 Plan is designed to comply with the requirements under Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code). Section 162(m) of

Table of Contents

the Code generally prevents a publicly held corporation from claiming federal income tax deductions for compensation in excess of \$1 million paid to certain of its senior executives. Compensation is exempt from this limitation, however, if it qualifies as performance-based compensation.

Our stockholders are asked to approve the 2006 Plan to qualify stock options for treatment as incentive stock options for purposes of Section 422 of the Code (ISOs), to qualify certain compensation under the 2006 Plan as performance-based compensation for purposes of Section 162(m) of the Code, and to satisfy New York Stock Exchange guidelines relating to equity compensation. The 2006 Plan, if approved by our stockholders, will become effective as of the effective time of the merger.

The affirmative vote of a majority of the votes present and entitled to vote on the matter is required for approval of the 2006 Plan.

**THE BOARD OF DIRECTORS OF VALOR UNANIMOUSLY
RECOMMENDS THAT STOCKHOLDERS VOTE FOR PROPOSAL NO. 4.**

The following is a summary of the 2006 Plan and is qualified in its entirety by reference to the full text of the 2006 Plan, a copy of which is attached as Annex G to this proxy statement/ prospectus-information statement.

Plan Limits

The maximum number of shares of Windstream common stock that may be issued or transferred with respect to awards under the 2006 Plan is 10,000,000, which may include authorized but unissued shares, treasury shares, or a combination thereof. Shares covered by an award granted under the 2006 Plan shall not be counted as used unless and until they are actually issued and delivered to a participant. Shares covering awards that expire, are forfeited or are cancelled will again be available for issuance under the 2006 Plan, and upon payment in cash of the benefit provided by any award granted under the 2006 Plan, any shares that were covered by that award will be available for issue or transfer under the 2006 Plan. Importantly, however, the following shares of Windstream common stock will not be added back to the aggregate plan limit described above: (1) shares tendered in payment of the option price of a stock option granted under the 2006 Plan; (2) shares withheld by Windstream to satisfy the tax withholding obligation; and (3) shares that are repurchased by Windstream in connection with the exercise of a stock option granted under the 2006 Plan. Moreover, all shares of Windstream common stock covered by a stock appreciation right, to the extent that it is exercised and settled in shares, and whether or not shares are actually issued to the participant upon exercise of the right, shall be considered issued or transferred pursuant to the 2006 Plan.

In addition to the aggregate limit on awards described above, the 2006 Plan imposes various sub-limits on the number of shares of Windstream common stock that may be issued or transferred under the 2006 Plan. In order to comply with the rules applicable to ISOs, the 2006 Plan provides that the aggregate number of shares of Windstream common stock actually issued or transferred by Windstream upon the exercise of ISOs may not exceed 10,000,000 shares. In order to comply with the exemption from Section 162(m) of the Code relating to performance-based compensation, the 2006 Plan imposes the following additional sub-limits: (i) no participant may be granted option rights and SARs, in the aggregate, for more than 1,000,000 shares of Windstream common stock during any calendar year, (ii) no participant may be granted performance shares and restricted shares specifying management objectives (described below), in the aggregate, for more than 1,000,000 shares of Windstream common stock during any calendar year, and (iii) no participant may be granted performance units having an aggregate maximum value as of their date of grant in excess of \$12,000,000 during any calendar year. Finally, the 2006 Plan provides that the number of shares of Windstream common stock issued as SARs, restricted shares and restricted stock units (after taking forfeitures into account) shall not exceed, in the aggregate, 8,500,000 shares.

The maximum number of shares of Windstream common stock which may be awarded under the 2006 Plan, the various sub-limits described above, and the number of shares and price per share applicable to any outstanding award, are subject to adjustment in the event of stock dividends, stock splits, combinations of shares, recapitalizations, mergers, consolidations or other reorganizations of Windstream.

Table of Contents

Administration

The Compensation Committee of Windstream, or such other committee or subcommittee of the Board of Directors of Windstream that qualifies as a compensation committee under the New York Stock Exchange listing standards (all references to the Compensation Committee used in this description of the 2006 Plan shall refer to such committee or subcommittee), is authorized to administer the 2006 Plan. The Compensation Committee will have complete and absolute authority to make any and all decisions regarding the administration of the 2006 Plan, including the authority to construe and interpret the plan and awards granted thereunder.

Eligibility

All of the officers and other key employees of Windstream and its subsidiaries (or any person who has agreed to serve in such capacity) are eligible to participate in the 2006 Plan as selected by the Compensation Committee in its discretion. In addition, non-employee directors of Windstream are eligible to participate in the 2006 Plan as selected by the Compensation Committee in its discretion. Accordingly, it is estimated that approximately 300 employees and 7 non-employee directors may be eligible for awards under the 2006 Plan.

Officers and other key employees may be granted each type of award available under the 2006 Plan. Non-employee directors may be granted nonqualified stock options, SARs, restricted shares, restricted stock units and other share-based awards, but are not eligible for grants of incentive stock options, performance shares or performance units.

Option Rights

The Compensation Committee may, in its discretion, award option rights to officers and other key employees of Windstream and its subsidiaries. Option rights granted to employees under the 2006 Plan may be option rights that are intended to qualify as ISOs or option rights that are not intended to so qualify (i.e., non-qualified stock options) or combinations thereof.

Option rights provide the right to purchase shares of Windstream common stock at a price not less than their fair market value on the date of grant (which date may not be earlier than the date that the Compensation Committee takes action with respect thereto). No option rights may be exercised more than ten years from the date of grant. Each grant must specify the period of continuous employment that is necessary before the option rights become exercisable, and may provide for the earlier exercise of such option rights in the event of a change in control of Windstream, retirement, death or disability of the optionee, or other similar transaction or event approved by the Compensation Committee.

The option price is payable at the time of exercise (i) in cash, (ii) by the transfer to Windstream of nonforfeitable, unrestricted shares of Windstream common stock that are already owned by the option holder and have a value at the time of exercise equal to the option price, (iii) with any other legal consideration that the Compensation Committee may deem appropriate or (iv) by any combination of the foregoing methods of payment. Any grant of option rights may provide for deferred payment of the option price from the proceeds of sale through a broker on the date of exercise of some or all of the shares of Windstream common stock to which the exercise relates, or the payment of the option price in installments (although, in the case of executive officers and directors, these payment methods may be affected by the restrictions on personal loans to executive officers provided by the Sarbanes-Oxley Act of 2002).

Any grant of option rights may specify management objectives (as described below) that must be achieved as a condition to exercise such rights. The Compensation Committee may, at the date of grant of any option rights (other than the grant of an ISO), provide for the payment of dividend equivalents to the optionee on a current, deferred or contingent basis or may provide that such equivalents be credited against the option price. Successive grants may be made to the same option holder regardless of whether option rights previously granted to him or her remain unexercised.

Table of Contents***SARs***

The Compensation Committee may, in its discretion, award SARs to officers and other key employees of Windstream and its subsidiaries. SARs represent the right to receive from Windstream an amount, determined by the Compensation Committee and expressed as a percentage not exceeding 100 percent, of the difference between the base price established for such SARs (not less than the fair market value per share of Windstream common stock on the date of grant) and the market value of the common stock on the date the SARs are exercised.

SARs can be tandem (granted with option rights to provide an alternative to exercise of the option rights) or free-standing. Tandem SARs may only be exercised at a time when the related option right is exercisable and the spread is positive, and requires that the related option right be surrendered for cancellation. Free-standing SARs must have a base price per appreciation right (not less than the fair market value of a share on the date of grant) and may not be exercisable more than ten years from the date of grant.

Any grant of SARs may specify that the amount payable by Windstream on exercise of the appreciation right may be paid in cash, in shares of Windstream common stock or in any combination thereof, and may either grant to the recipient or retain in the Compensation Committee the right to elect among those alternatives. Any grant of SARs may provide for the payment of dividend equivalents in the form of cash or shares of Windstream common stock paid on a current, deferred or contingent basis. Each grant must specify the period of continuous employment that is necessary before the SARs become exercisable, and may provide for the earlier exercise of such SARs in the event of a change in control of Windstream, retirement, death or disability of the employee, or other similar transaction or event approved by the Compensation Committee. Any grant of SARs may specify management objectives (as described below) that must be achieved as a condition to exercise such rights.

Performance Shares and Performance Units

The Compensation Committee may, in its discretion, award performance shares and/or performance units to officers and other key employees of Windstream and its subsidiaries. A performance share is the equivalent of one share of Windstream common stock and a performance unit is the equivalent of \$1.00.

The participant will be given one or more management objectives (as described below) to meet within a specified period (the performance period). A minimum level of acceptable achievement will also be established by the Compensation Committee. If by the end of the performance period, the participant has achieved the specified management objectives, the participant will be deemed to have fully earned the performance shares or performance units. If the participant has not achieved the management objectives, but has attained or exceeded a predetermined minimum level of acceptable achievement, the participant will be deemed to have partly earned the performance shares or performance units in accordance with a predetermined formula. To the extent earned, the performance shares or performance units will be paid to the participant at the time and in the manner determined by the Compensation Committee in cash, shares of Windstream common stock or any combination thereof. The grant may provide for the payment of dividend equivalents thereon in cash or in shares of Windstream common stock on a current, deferred or contingent basis. The grant may also provide for the earlier termination of the performance period in the event of a change in control of Windstream, retirement, death or disability of the participant, or other similar transaction or event approved by the Compensation Committee.

Restricted Shares

The Compensation Committee may, in its discretion, award restricted shares to officers and other key employees of Windstream and its subsidiaries. Restricted shares constitute an immediate transfer of ownership of a specified number of shares of Windstream common stock to the recipient in consideration of the performance of services. The participant is entitled immediately to voting, dividend and other ownership rights in shares of Windstream common stock (unless otherwise determined by the Compensation Committee). The transfer may be made without additional consideration or in consideration of a payment by such participant that is less than the fair market value per share of Windstream common stock on the date of grant.

Table of Contents

Restricted shares must be subject to a substantial risk of forfeiture, within the meaning of Section 83 of the Code, for a period to be determined by the Compensation Committee on the date of the grant, and may provide for the earlier termination of the forfeiture provisions in the event of a change in control of Windstream, retirement, death or disability of the participant, or other similar transaction or event approved by the Compensation Committee. In order to enforce these forfeiture provisions, the transferability of restricted shares will be prohibited or restricted in the manner prescribed by the Compensation Committee on the date of grant for the period during which such forfeiture provisions are to continue.

Any grant of restricted shares may specify management objectives which, if achieved, will result in termination or early termination of the restrictions applicable to such shares. Any such grant may also specify in respect of such specified management objectives, a minimum acceptable level of achievement and must set forth a formula for determining the number of restricted shares on which restrictions will terminate if performance is at or above the minimum level, but below full achievement of the specified management objectives.

Restricted Stock Units

The Compensation Committee may, in its discretion, award restricted stock units to officers and other key employees of Windstream and its subsidiaries. Restricted stock units constitute an agreement to deliver shares of Windstream common stock to the recipient in the future in consideration of the performance of services over a specified period, but subject to the fulfillment of such conditions as the Compensation Committee may specify.

During the restriction period the participant has no right to transfer any rights under his or her award and no right to vote or receive dividends on the shares of Windstream common stock covered by the restricted stock units, but the Compensation Committee may authorize the payment of dividend equivalents with respect to the restricted stock units, in cash or shares of Windstream common stock, on a current, deferred or contingent basis. The Compensation Committee must fix a restriction period at the time of grant, and may provide for the earlier termination of the restriction period in the event of a change in control of Windstream, retirement, death or disability of the employee, or other similar transaction or event approved by the Compensation Committee. Awards of restricted stock units may be made without additional consideration or in consideration of a payment by such participant that is less than the fair market value per share of Windstream common stock on the date of grant.

Other Awards

The Compensation Committee may, in its discretion and subject to limitations under applicable law, grant to officers and other key employees of Windstream and its subsidiaries other awards that may be denominated or payable in, valued in whole or in part by reference to, or otherwise based on or related to, shares of Windstream common stock or factors that may influence the value of such shares (including, without limitation, convertible or exchangeable debt securities or other securities, purchase rights for shares of Windstream common stock, or awards with value and payment contingent upon performance of Windstream or its subsidiaries or other factors determined by the Compensation Committee). The Compensation Committee will determine the terms and conditions of these awards. Shares of Windstream common stock delivered pursuant to these types of awards will be purchased for such consideration, by such methods and in such forms as the Compensation Committee determines. Cash awards, as an element of or supplement to any other award granted under the 2006 Plan, may also be granted. The Compensation Committee may also grant shares of Windstream common stock as a bonus, or may grant other awards in lieu of obligations of Windstream or a subsidiary to pay cash or deliver other property under the 2006 Plan or under other plans or compensatory arrangements, subject to such terms as are determined by the Compensation Committee.

Non-employee directors

The Compensation Committee may, from time to time and upon such terms and conditions as it may determine, authorize the granting to non-employee directors of option rights (that are not intended to qualify

Table of Contents

as ISOs), SARs, restricted shares, restricted stock units, or any combination of the foregoing. Each such grant shall be upon terms and conditions consistent with the above description of such awards.

Management Objectives

The 2006 Plan requires that the Compensation Committee establish management objectives for purposes of performance shares and performance units. When so determined by the Compensation Committee, option rights, SARs, and restricted shares may also specify management objectives.

Management objectives may be described in terms of either company-wide objectives or objectives that are related to the performance of the individual participant or subsidiary, division, department, region or function within Windstream or a subsidiary in which the participant is employed. Management objectives applicable to any award to a participant who is, or is determined by the Compensation Committee likely to become, a covered employee within the meaning of Section 162(m)(3) of the Code (and that is intended to qualify for the performance-based compensation exception to Section 162(m) of the Code) will be limited to specified levels of or growth in one or more of the following criteria: revenues, weighted average revenue per unit, earnings from operations, operating income, earnings before or after interest and taxes, operating income before or after interest and taxes, net income, cash flow, earnings per share, debt to capital ratio, economic value added, return on total capital, return on invested capital, return on equity, return on assets, total return to stockholders, earnings before or after interest, taxes, depreciation, amortization or extraordinary or special items, operating income before or after interest, taxes, depreciation, amortization or extraordinary or special items, return on investment, free cash flow, cash flow return on investment (discounted or otherwise), net cash provided by operations, cash flow in excess of cost of capital, operating margin, profit margin, contribution margin, stock price and/or strategic business criteria consisting of one or more objectives based on meeting specified product development, strategic partnering, research and development, market penetration, geographic business expansion goals, cost targets, customer satisfaction, gross or net additional customers, average customer life, employee satisfaction, management of employment practices and employee benefits, supervision of litigation and information technology, and goals relating to acquisitions or divestitures of subsidiaries, affiliates and joint ventures.

Except in the case of a covered employee where such modification would result in the loss of an otherwise available exemption under Section 162(m) of the Code, if the Compensation Committee determines that a change in our business, operations, corporate structure or capital structure of Windstream, or the manner in which we conduct our business, or other events or circumstances render the management objectives unsuitable, the Compensation Committee may modify such management objectives, in whole or in part, as the Compensation Committee deems appropriate and equitable.

Change in Control

A definition of change in control is included in the 2006 Plan, which is attached to this proxy-statement/prospectus-information statement as Annex G.

Transferability

Except as otherwise determined by the Compensation Committee, option rights, SARs and any other derivative security granted under the 2006 Plan will not be transferable by a participant other than by will or the laws of descent and distribution. Except as otherwise determined by the Compensation Committee, option rights and SARs are exercisable during a participant's lifetime only by him or her or by his or her guardian or legal representative. Any award made under the 2006 Plan may provide that any shares of Windstream common stock issued or transferred as a result of the award will be subject to further restrictions upon transfer.

Adjustments

The Compensation Committee may make or provide for such adjustments in the numbers of shares of Windstream common stock covered by outstanding option rights, SARs, performance shares, restricted stock units and other share-based awards, in the option price and base price provided in outstanding options and

Table of Contents

SARs, and in the kind of shares covered thereby, as the Compensation Committee in its sole discretion may in good faith determine to be equitably required in order to prevent dilution or enlargement of the rights of participants that would otherwise result from (a) any stock dividend, stock split, combination of shares, recapitalization or other change in the capital structure, (b) any merger, consolidation, spinoff, spin-out, split-off, split-up, reorganization, partial or complete liquidation or other distribution of assets, issuance of rights or warrants to purchase securities, or (c) any other corporate transaction or event having an effect similar to any of the foregoing. In the event of any such transaction or event, the Compensation Committee may provide in substitution for any or all of the outstanding awards under the 2006 Plan such alternative consideration (or no consideration) as it may in good faith determine to be equitable in the circumstances and may require in connection therewith the surrender of all awards so replaced. The Compensation Committee may also make or provide for such adjustments in the number of shares available under the Plan and other share limitations contained in the Plan as the Compensation Committee may determine to reflect any transaction or event described above.

Amendments and Miscellaneous

The 2006 Plan may be amended by the Board of Directors of Windstream, but any amendment that must be approved by Windstream's stockholders in order to comply with applicable laws or rules will not be effective unless and until such approval has been obtained. However, the Board of Directors of Windstream may amend the 2006 Plan to eliminate provisions which are no longer necessary as a result of changes in tax or securities laws and regulations, or in the interpretation of such laws and regulations.

Where the Compensation Committee has established conditions to the exercisability or retention of certain awards, the 2006 Plan allows the Compensation Committee to take action in its sole discretion at or after the date of grant to adjust such conditions in certain circumstances, including in the case of the death, disability or retirement of a participant.

The Compensation Committee may not, without the further approval of Windstream's stockholders, authorize the amendment of any outstanding option right or appreciation right to reduce the option price or base price. No option right or appreciation right may be cancelled and replaced with awards having a lower option price or base price, respectively, without further approval of our stockholders.

The Compensation Committee may permit participants to elect to defer the issuance of shares of Windstream common stock or the settlement of awards in cash under the 2006 Plan pursuant to such rules, procedures or programs as it may establish for purposes of the 2006 Plan. The Compensation Committee also may provide that deferred issuances and settlements include the payment or crediting of dividend equivalents or interest on the deferral amounts.

The Compensation Committee may condition the grant of any award or combination of awards authorized under the 2006 Plan on the deferral by the participant of his or her right to receive a cash bonus or other compensation otherwise payable by Windstream or a subsidiary to the participant.

The Compensation Committee may provide for special terms for awards to participants who are foreign nationals or who are employed by Windstream or any of its subsidiaries outside of the United States of America as the Compensation Committee may consider necessary or appropriate to accommodate differences in local law, tax policy, or custom.

Compliance with Section 409A of the Internal Revenue Code

The American Jobs Creation Act of 2004, enacted on October 22, 2004, revised the federal income tax law applicable to certain types of awards that may be granted under the 2006 Plan. To the extent applicable, it is intended that the 2006 Plan and any grants made under the plan comply with the provisions of Section 409A of the Code. The 2006 Plan and any grants made under the 2006 Plan will be administered in a manner consistent with this intent, and any provision of the 2006 Plan that would cause the plan or any grant made under the plan to fail to satisfy Section 409A of the Code shall have no force and effect until amended to comply with such Code Section (which amendment may be retroactive to the extent permitted by

Table of Contents

Section 409A of the Code and may be made by Windstream without the consent of the participants). Any reference to Section 409A of the Code will also include any proposed, temporary or final regulations, or any other guidance, promulgated with respect to such Code Section by the U.S. Department of the Treasury or the Internal Revenue Service.

Termination

No grant will be made under the 2006 Plan more than 10 years after the date on which the 2006 Plan is first approved by the Board of Directors of Valor, but all grants made on or prior to such date will continue in effect thereafter subject to the terms thereof and of the 2006 Plan.

Federal Income Tax Consequences

The following is a brief summary of certain of the federal income tax consequences of certain transactions under the 2006 Plan. This summary is not intended to be complete and does not describe state, local, foreign or other tax consequences.

Tax Consequences to Participants

Nonqualified Stock Options. In general, (a) no income will be recognized by an optionee at the time a nonqualified option right is granted; (b) at the time of exercise of the nonqualified option right ordinary income will be recognized by the optionee in an amount equal to the difference between the option price paid for the shares of Windstream common stock and the fair market value of the shares, if unrestricted, on the date of exercise; and (c) at the time of sale of shares of Windstream common stock acquired pursuant to the exercise of the nonqualified option right, appreciation (or depreciation) in value of the shares after the date of exercise will be treated as either short-term or long-term capital gain (or loss) depending on how long the shares have been held.

Incentive Stock Options. No income will be recognized by an optionee upon the grant of an ISO. In general, no income will be recognized upon the exercise of an ISO. However, the difference between the option price paid and the fair market value of the shares at exercise may constitute a preference item for the alternative minimum tax. If shares of Windstream common stock are issued to the optionee pursuant to the exercise of an ISO, and if no disqualifying disposition of such shares is made by such optionee within two years after the date of the grant or within one year after the transfer of such shares to the optionee, then upon sale of such shares, any amount realized in excess of the option price will be taxed to the optionee as a long-term capital gain and any loss sustained will be a long-term capital loss.

If shares of Windstream common stock acquired upon the timely exercise of an ISO are disposed of prior to the expiration of either holding period described above, the optionee generally will recognize ordinary income in the year of disposition in an amount equal to the excess (if any) of the fair market value of such shares at the time of exercise (or, if less, the amount realized on the disposition of such shares if a sale or exchange) over the option price paid for such shares. Any further gain (or loss) realized by the participant generally will be taxed as short-term or long-term capital gain (or loss) depending on the holding period.

SARs. No income will be recognized by a participant in connection with the grant of a tandem appreciation right or a free-standing appreciation right. When the appreciation right is exercised, the participant normally will be required to include as taxable ordinary income in the year of exercise an amount equal to the amount of cash received and the fair market value of any unrestricted shares of Windstream common stock received on the exercise.

Performance Shares and Performance Units. No income generally will be recognized upon the grant of performance shares or performance units. Upon payment in respect of the earn-out of performance shares or performance units, the recipient generally will be required to include as taxable ordinary income in the year of receipt an amount equal to the amount of cash received and the fair market value of any nonrestricted shares of Windstream common stock received.

Table of Contents

Restricted Shares. The recipient of restricted shares generally will not be subject to tax until the shares are no longer subject to forfeiture or restrictions on transfer for purposes of Section 83 of the Code (restrictions). At such time the recipient will be subject to tax at ordinary income rates on the fair market value of the restricted shares (reduced by any amount paid by the participant for such restricted shares). However, a recipient who so elects under Section 83(b) of the Code within 30 days of the date of transfer of the shares will have taxable ordinary income on the date of transfer of the shares equal to the excess of the fair market value of such shares (determined without regard to the restrictions) over the purchase price, if any, of such restricted shares. Any appreciation (or depreciation) realized upon a later disposition of such shares will be treated as long-term or short-term capital gain depending upon how long the shares have been held. If a Section 83(b) election has not been made, any dividends received with respect to restricted shares that are subject to the restrictions generally will be treated as compensation that is taxable as ordinary income to the participant.

Restricted Stock Units. Generally, no income will be recognized upon the award of restricted stock units. The recipient of a restricted stock unit award generally will be subject to tax at ordinary income rates on the fair market value of unrestricted shares of Windstream common stock on the date that such shares are transferred to the participant under the award (reduced by any amount paid by the participant for such restricted stock units), and the capital gains/loss holding period for such shares also will commence on such date.

Other Share-Based Awards. The recipient of a share-based award other than an award described above generally will be subject to tax at ordinary income rates on the fair market value of shares of Windstream common stock on the date of grant of the share-based award, and the capital gains/loss holding period for such shares also will commence on such date.

Dividend Equivalents. Any dividend equivalents awarded with respect to awards granted under the 2006 Plan and paid in cash or unrestricted shares of Windstream common stock will be taxed to the participant at ordinary income rates when received by the participant.

Because the tax consequences to a participant may vary depending on his or her individual circumstances, each participant should consult his or her personal tax advisor regarding the federal and any state, local, foreign or other consequences to him or her.

Tax Consequences to Windstream

To the extent that a participant recognizes ordinary income in the circumstances described above, Windstream or the subsidiary for which the participant performs services will be entitled to a corresponding deduction provided that, among other things, (a) the income meets the test of reasonableness, (b) is an ordinary and necessary business expense, (c) is not an excess parachute payment within the meaning of Section 280G of the Code and (d) is not disallowed by the \$1 million limitation on certain executive compensation.

Registration with the SEC

Windstream intends to file a Registration Statement on Form S-8 relating to the issuance of common shares under the 2006 Plan with the Securities and Exchange Commission pursuant to the Securities Act of 1933, as amended, contemporaneously with the closing of the merger.

Plan Benefits

It is not possible to determine the specific amounts and types of awards that may be granted in the future under the 2006 Plan because the grant of awards under the 2006 Plan is within the discretion of the Compensation Committee.

Director Compensation

Independent members of the Board of Directors receive compensation for their services. Each independent director receives an annual retainer of \$45,000, which is supplemented by additional payments of \$1,250 for each board meeting attended in person, \$625 for each board meeting attended telephonically, \$5,000 annually for acting as a committee member (\$10,000 for acting as audit committee chairperson and \$7,500 for acting as compensation committee chairperson), \$1,000 for each committee meeting attended in person, \$500 for each committee meeting attended telephonically and reasonable travel expenses for attendance in person at board and committee meetings. In addition, each independent member of the Board of Directors received an up-front grant of 9,705 restricted shares pursuant to our 2005 Long-Term Incentive Plan. These restricted shares vest over the three years following their issuance at 33% per year. In addition, Mr. Cole, our Vice Chairman, will receive the compensation described above for serving as a member of our Board of Directors. No other non-independent director, however, shall receive compensation for serving as a member of our Board of Directors. Throughout the year, we reimburse our non-employee directors for reasonable expenses incurred in attending meetings and in the performance of other services rendered on behalf of the Board of Directors or its committees.

GOVERNANCE OF VALOR AND COMMITTEES OF THE BOARD OF DIRECTORS

We continually review our corporate governance policies and practices. This includes comparing our current policies and practices to policies and practices of other public companies, as well as to those suggested by various groups or authorities active in corporate governance. Based upon this review, we have adopted changes to current policies and practices to reflect what the Board of Directors believes are best practices, as well as those that are required to comply with Sarbanes-Oxley Act of 2002 and the rules of the SEC and the NYSE.

The Board of Directors held six regular meetings and five special meetings during the fiscal year ended December 31, 2005. Each director attended at least 75% of the aggregate of these meetings and the total

number of meetings held by all committees of the board on which he or she served, as described below under Committees of the Board.

Director Independence

Under the NYSE rules, a director is not independent if the director has a direct or indirect material relationship with Valor. The Nomination and Corporate Governance Committee annually reviews the independence of all directors and reports its findings to the full Board. To assist in this review, the Nomination and Corporate Governance Committee has adopted director independence guidelines as defined and prescribed by the NYSE. In the event a director has any relationship with Valor that is not addressed in the Corporate Governance Guidelines, the independent members of the Board determine whether such relationship is material. In 2005, outside counsel reviewed these guidelines and Valor's Board verified the independence of the Company's directors in accordance with these guidelines.

All of our directors, other than Mr. Mueller, our current Chief Executive Officer, and Mr. Cole, our former Chief Executive Officer and Vice-Chairman, are independent as determined by that analysis conducted by Valor's outside counsel. Our independent directors have regularly scheduled executive sessions in which they meet without the presence of management. These executive sessions generally are held immediately after regularly scheduled meetings of the Board of Directors, and Anthony J. de Nicola, Chairman of the Board, presides over these non-management executive sessions. The independent directors have held five such meetings in 2005, and all of the independent directors were present for three of these sessions.

Committees of the Board

In connection with our initial public offering in February 2005, our Board of Directors established the following committees: Audit, Compensation, and Nomination and Governance. Each of these committees operates under a written charter approved by the Board of Directors in compliance with the applicable requirements of the SEC and the NYSE listing requirements. Our charters can be located on our website at www.valortelecom.com and are available to in hard copy to stockholders upon request. We also have adopted a Code of Business Conduct and Ethics that applies to all directors, officers and employees, which is located on our website at www.valortelecom.com and is available in hardcopy to interested parties upon request. All members of the audit, nominating and compensation committees are independent as defined by the rules of the SEC and NYSE. The members of each standing committee are elected by the Board of Directors each year for a term of one year or until his or her successor is elected. The members of the committees are identified in the table below.

Audit Committee. The Audit Committee recommends to the Board of Directors the selection of our independent accountants. Our independent accountants are responsible for performing an independent audit of our consolidated financial statements in accordance with auditing standards generally accepted in the United States of America for issuing a report thereon, and for reviewing our Annual Reports on Form 10-K and Quarterly Reports on Form 10-Q. Management is responsible for our internal controls and the financial reporting process. The Audit Committee assists the Board of Directors in undertaking and fulfilling its responsibilities in monitoring Valor's financial reporting

process, including (i) the integrity of the financial

statements of Valor, (ii) Valor's compliance with legal and regulatory requirements, (iii) the independence and qualifications of Valor's internal and independent auditors, (iv) the performance of Valor's internal audit function and independent auditors, and (v) the preparation of an audit committee report to be included in Valor's annual proxy statements.

Our Audit Committee pre-approves all auditing and permissible non-auditing services that will be provided by Deloitte & Touche LLP, our independent accountants, in accordance with the Sarbanes-Oxley Act of 2002 and the rules of the SEC and the New York Stock Exchange.

In accordance with the rules of the SEC, our Audit Committee has established procedures to receive, retain, and treat complaints received regarding accounting, internal accounting controls, or auditing matters and to allow for the confidential and anonymous submission by employees of concerns regarding questionable accounting or auditing matters.

Each current and prospective member of the Audit Committee is financially literate, as required by the listing standards of the New York Stock Exchange. The Board of Directors has determined that Mr. Heffernan meets the standard of an audit committee financial expert under the rules of the SEC. The Audit Committee met seven times during the fiscal year ended December 31, 2005. No member of the audit committee serves on more than three public company audit committees.

Compensation Committee. The Compensation Committee reviews our general compensation strategies, acts as the Committee for Valor's Incentive Compensation Plan and 2005 Long-Term Incentive Plan, and establishes and reviews compensation for our Chief Executive Officer and other executive officers. The Compensation Committee met twice during the fiscal year ended December 31, 2005.

Nomination and Governance Committee. One of the committee's primary functions is to establish criteria and qualifications for candidates for the Board of Directors and then to identify and recommend candidates for election to the Board of Directors. In addition, the Nominating and Corporate Governance Committee takes a leadership role in shaping our corporate governance, including making recommendations on matters relating to the composition of the Board of Directors and its various committees and our Corporate Governance Guidelines. Each candidate for nomination as a director, including persons recommended by stockholders, is evaluated in accordance with our Corporate Governance Guidelines which are posted on our website at www.valortelecom.com. The Nomination and Corporate Governance Committee may seek advice from other members of the Board of Directors or the Chief Executive Officer regarding director candidates. The Board of Directors will consider a potential director nominee's ability to satisfy the need, if any, for any required expertise on the Board of Directors or one of its committees. Historically, our management has recommended director nominees to the Board of Directors. The Nominating Committee acted via unanimous consent during the fiscal year ended December 31, 2005. Most issues within the jurisdiction of this Committee were acted upon by the full Board.

Nominations by Stockholders

Pursuant to our bylaws, a stockholder may nominate a person for election as a director at an annual meeting of stockholders only if written notice of such stockholder's intent to make such nomination has been given to the Secretary of Valor not less than sixty (60) days nor more than ninety (90) days prior to the first anniversary of the preceding year's annual meeting, or if the date of the annual meeting is changed by more than 30 days from such anniversary date, not later than the close of business on the tenth (10th) day following the earlier of the day on which notice of the date of such meeting was mailed or public disclosure of the meeting date was made. Each notice is required to set forth certain information, including (1) the name and address of the stockholder making the nomination and the number of shares of our common stock they own beneficially of record, (2) information regarding each nominee as would be required to be included in a proxy statement filed pursuant to the proxy rules of the United States Securities and Exchange Commission had the nominee been nominated, or intended to be nominated, by the Board, and (3) the consent of each nominee to serve as a director if so elected.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Compensation Committee of the Board of Directors is responsible for setting and administering compensation, including base salaries, annual incentives, and stock-based awards, paid or awarded to our executive officers. The Compensation Committee also oversees and approves incentive plan design, costs and administration. This report discusses the Compensation Committee's activities, as well as its development and implementation of policies regarding compensation paid to our executive officers for 2005.

Overall Compensation Policies

The Compensation Committee reviews and approves compensation policies and practices, including those related to stock-based compensation, for our executive officers and certain other employees. Our executive compensation system generally consists of three primary components: base salary, an incentive compensation award pursuant to an Annual Incentive Compensation Plan adopted by the Compensation Committee and restricted stock grants. Through the use of the foregoing, the Compensation Committee seeks to achieve a balanced compensation package that will attract and retain high quality key executives, appropriately reflect each such executive officer's individual performance, contributions, and general market value, and provide further incentives to the executive officers to maximize annual operating performance and long-term stockholder value. In doing so, the Committee will regularly review and update:

An appropriate peer group of companies for the purposes of comparing compensation levels and practices; and

Key measures that the Compensation Committee will use in assessing performance for the purposes of incentive compensation awards to the chief executive officer and other members of the senior management team.

Annual Salaries

Annual base salaries for our executive officers have been established on a position-by-position basis. The chief executive officer has the responsibility to conduct annual internal reviews of executive officer salary levels in order to rank salary, individual performance and job value to each position. The chief executive officer then makes recommendations on salaries, other than his own, to the Compensation Committee. The

Table of Contents

Compensation Committee determines, reviews and approves corporate goals and objectives relevant to the compensation of the chief executive officer. The Compensation Committee reviews the recommendations regarding changes in salaries for executive officers. The Compensation Committee may take such action, including modifications to the recommendations, as it deems appropriate. The determinations of the Compensation Committee may be based on a variety of factors, including a subjective evaluation of past and potential future individual performance and contributions and alternative career opportunities that might be available to the executives. The Compensation Committee may also review compensation data from companies employing executives in positions similar to those whose salaries were being reviewed, as well as market conditions for executives in general with similar skills, responsibilities, background and performance levels and other companies with similar financial and business characteristics.

Annual Incentive Compensation

We maintain an incentive compensation plan that compensates certain management and supervisory personnel if our company meets or exceeds certain financial performance targets. These awards allow us to recognize individual performance and contributions to Valor on an annual basis. Our chief executive officer, in consultation with the Compensation Committee, may adjust or eliminate any incentive payment that would otherwise be earned under the Incentive Compensation Plan based on such factors as they may determine in their sole discretion. Our chief executive officer, in consultation with the Compensation Committee, may also amend or cancel the bonus plan at any time for any reason. Under the terms of the approved Incentive Compensation Plan, the Compensation Committee bases the amount of any annual incentive compensation to be paid to our executive officers, including the chief executive officer, on Valor performance (determined by reference to revenue and EBITDA targets established by Board resolution) and each such officer's performance, attitude and potential.

The 2004 Incentive Compensation Plan. In 2005, the Compensation Committee awarded incentive compensation under our 2004 Incentive Compensation Plan to certain of our executive officers, based on 2004 operating results and a discretionary evaluation of each such officer's performance, attitude and potential. In 2005, all incentive compensation paid under the 2004 Incentive Compensation Plan was in the form of cash awards. The Compensation Committee based its actions regarding 2004 incentive compensation upon the performance of Valor and upon the chairman of the board's recommendation regarding the chief executive officer, the chief executive officer's recommendations regarding the other executive officers and the Compensation Committee members' general business knowledge. The bonuses the named executive officers received under the 2004 Incentive Compensation Plan are disclosed in the bonus column in the Summary Compensation Table set forth below.

The 2005 Incentive Compensation Plan. The Compensation Committee, at its March 22, 2005 meeting approved the 2005 Incentive Compensation Plan. That Plan allowed semi-annual payments if we were meeting or exceeding financial objectives and the outlook for the remaining half of the year was favorable. In August 2005, our chief executive officer, with the approval of our Compensation Committee, authorized bonus amounts for the first half of 2005 for members of our management team at the level of director and below eligible to participate in the incentive compensation plan that qualified for payment. The payments made were approximately one-third of the 2005 bonus opportunity for the respective employees. Members of our senior management team did not receive any payment. On February 9, 2006, the Compensation Committee awarded incentive compensation under our 2005 Incentive Compensation Plan to certain of our executive officers, based on 2005 operating results and a discretionary evaluation of each such officer's performance, attitude and potential. In 2006, all incentive compensation paid under the 2005 Incentive Compensation Plan was in the form of cash awards. The Compensation Committee based its actions regarding 2005 incentive compensation upon the performance of Valor and upon the chairman of the board's recommendation regarding the chief executive officer, the chief executive officer's recommendations regarding the other executive officers and the Compensation Committee members' general business knowledge. The bonuses the named executive officers received under the 2005 Incentive Compensation Plan are disclosed in the bonus column in the Summary Compensation Table set forth below.

Table of Contents

The 2006 Incentive Compensation Plan. The Compensation Committee, at its February 9, 2006 meeting, approved the 2006 Incentive Compensation Plan.

2005 Long-Term Incentive Plan. Our 2005 Long-Term Incentive Plan provides for grants of stock options, restricted stock and performance awards. Members of our Board of Directors, our officers and other employees and persons who engage in services for us are eligible for grants under the plan. We plan to grant awards to these individuals from time to time to provide long-term incentives that are designed to couple the interests of key employees with those of stockholders in that the potential value of the awards is directly related to the future value of our stock.

A total of 2,500,000 shares of our common stock are authorized for issuance under the plan, subject to adjustment in the event of a reorganization, stock split, merger or similar change in our corporate structure or the outstanding shares of common stock. We granted 2,157,531 shares of restricted stock, of which 2,099,739 shares were granted to executive officers, members of senior management and directors, leaving 342,469 shares available for issuance under the plan.

Tax code limitation on executive compensation deductions. In 1993, Congress amended the Internal Revenue Code to impose a \$1.0 million deduction limit on compensation paid to the chief executive officer and the four other most highly compensated executive officers of public companies, subject to certain transition rules and exceptions for compensation received pursuant to non-discretionary performance-based plans approved by such company's stockholders. It is our general policy to structure the performance-based portion of the compensation of its executive officers in a manner that permits Valor to deduct fully such compensation.

Compensation of Chief Executive Officer

John J. Mueller, Chief Executive Officer, earned \$500,000 in base salary in 2005, per our employment agreement with him. In February 2005, the Compensation Committee approved an employment agreement with Mr. Mueller, which replaced a previous employment agreement, as further described under the heading *Employment and Severance Agreements*. Mr. Mueller's contract states that he will earn a \$500,000 annual base salary during the three year term of the agreement. In setting the Chief Executive Officer's base salary, the committee considered company objectives, market and corporate challenges and market compensation practices.

Mr. Mueller earned a bonus under our annual incentive compensation plan of \$625,000 in respect of the year ended December 31, 2004. Mr. Mueller's bonus reflects our philosophy of meeting and exceeding certain corporate financial targets. In addition, he was awarded a \$1,000,000 bonus in connection with the completion of our initial public offering, of which \$600,000 has been paid, and the remainder of which is payable January 1, 2007. See *Related Party Transactions*.

Mr. Mueller owns 634,420 shares of Valor common stock pursuant to a restricted stock grant made to him in February 2005 under our 2005 Long-Term Incentive Plan, of which 303,418 of such shares are fully vested and the remainder will vest in equal installments on January 1, 2007 and 2008. This grant ties the Chief Executive Officer's long-term compensation to the goals of increasing stockholder value and including at-risk compensation as a significant portion of the executive's compensation.

Conclusion

The Compensation Committee has reviewed each element of compensation for each of the executive officers for fiscal 2005. The Compensation Committee reported to the Board of Directors that in the Compensation Committee's opinion, the compensation of each executive officer is reasonable in view of Valor's performance and the Compensation Committee's subjective evaluation of the contribution of each executive officer to that performance.

Table of Contents

Agreement with John J. Mueller. We entered into an employment agreement with John J. Mueller upon the consummation of our initial public offering, which replaced his previous employment agreement executed in 2004. Mr. Mueller's new employment agreement will remain in effect until February 14, 2008 and can be renewed for successive one year periods thereafter. Mr. Mueller receives an annual base salary of \$500,000, an annual incentive bonus and medical and other benefits. Mr. Mueller's annual bonus is targeted to be one times his base salary for the applicable year, although our Board of Directors may increase or decrease the amount of any award in its discretion. Pursuant to his employment agreement, Mr. Mueller also received an initial public offering cash bonus, as described below under the heading "Related Party Transactions."

On February 9, 2006, the Compensation Committee approved amendments to Mr. Mueller's employment agreement to reflect severance and retention provisions adopted by the Compensation Committee on December 8, 2005 in conjunction with the approval of the merger agreement by the Valor Board of Directors. If we terminate Mr. Mueller's employment without cause or if he resigns for Good Reason, as each such term is defined in his new employment agreement, he will be entitled to receive severance benefits consisting of his annual base salary for twenty-four months following the date of his termination, plus two times the full amount of his target bonus for the year in which his employment terminates and life insurance and medical benefits for various periods. Mr. Mueller's employment agreement provides that he will be restricted from engaging in competitive activities for one year after the termination of his employment although this restriction may be extended for an additional six months under certain circumstances.

Agreement with Jerry E. Vaughn. We entered into an employment agreement with Jerry E. Vaughn on October 1, 2005 (the Effective Date). Mr. Vaughn's employment agreement will remain in effect until the fourth anniversary of the Effective Date and can be renewed thereafter for one-year extensions of the employment term, unless either party provides written notice of its intention not to review the agreement within 90 days of the expiration of the then current term. Mr. Vaughn receives an annual base salary of \$325,000, an annual incentive bonus and medical and other benefits. Mr. Vaughn's annual bonus is targeted to be 100% of his base salary for the applicable year, although our Board of Directors may increase or decrease the amount of any award in its discretion.

If we terminate Mr. Vaughn's employment without cause or if he resigns for Good Reason, as each such term is defined in his employment agreement, he will be entitled to receive severance benefits consisting of his annual base salary and continued medical and other benefits for eighteen months following the date of his termination, plus, with respect to the fiscal year in which his employment terminates, the pro rata portion of the annual bonus he would have received had he been employed by our company for the full fiscal year. Mr. Vaughn's employment agreement provides that he will be restricted from engaging in competitive activities for one year after the termination of his employment. Mr. Vaughn may not solicit employees for one year following termination of his employment with our company.

Agreement with William M. Ojile, Jr. We entered into an employment agreement with William M. Ojile, Jr. upon the consummation of our initial public offering, which replaced the previous employment agreement we entered into with him in 2000. Table of Contents**NOTES TO UNAUDITED INTERIM COMBINED FINANCIAL STATEMENTS****1. General:**

Organization The Wireline Division (the Company) is not a separate stand-alone legal entity and is comprised of certain wholly-owned subsidiaries and other component operations of ALLTEL Corporation (Alltel or the Parent). No direct equity ownership interest exists among the individual subsidiaries or other component operations that comprise the Wireline Division. The Company provides wireline local, long-distance, network access, and Internet services to residential and business customers. A subsidiary, ALLTEL Publishing Corporation (ALLTEL Publishing), publishes telephone directories for affiliates and other independent telephone companies. The Company also warehouses and sells telecommunications equipment to subsidiaries of the Company and to other non-affiliated communications companies in related industries. In addition, the Company provides billing, customer care and other data processing and outsourcing services to telecommunications companies. (See Note 8 for additional information regarding the Company's business segments.)

Basis of Presentation The accompanying combined financial statements present the financial position, results of operations and cash flows of the Company in contemplation of a spin-off of the business and merger with Valor Communications Group, Inc. (Valor) as more fully discussed in Note 9. The Company is a fully integrated business of Alltel; consequently these financial statements have been derived from the consolidated financial statements and accounting records of Alltel, using the historical results of operations and historical basis of assets and liabilities of the Company. The combined financial statements as of March 31, 2006 and 2005 and for the three month periods then ended of the Company are unaudited. The combined financial statements have been prepared in accordance with generally accepted accounting principles for interim financial reporting and Securities and Exchange Commission rules and regulations. Certain information and footnote disclosures have been condensed or omitted in accordance with those rules and regulations. The combined financial statements reflect all adjustments (consisting only of normal recurring adjustments) which are, in the opinion of management, necessary for a fair presentation of the financial position and operating results for the interim periods presented.

Related Party Transactions Certain services such as information technology, accounting, legal, tax, marketing, engineering, and risk and treasury management were provided to the Company by the Parent. Expenses which were paid by the Parent on behalf of the Company have been allocated based on actual direct costs incurred. Where specific identification of expenses was not practicable, the cost of such services was allocated based on the most relevant allocation method to the service provided, either net sales of the Company as a percentage of net sales of the Parent, total assets of the Company as a percentage of total assets of the Parent, or headcount of the Company as a percentage of headcount of the Parent. Total expenses allocated to the Company were \$66.3 million and \$75.3 million in the three months ended March 31, 2006 and 2005, respectively. The costs of these services charged to the Company and the allocated liabilities assigned to the Company are not necessarily indicative of the costs and liabilities that would have been incurred if the Company had performed these functions as a stand-alone entity. However, management believes that methods used to make such allocations are reasonable, and costs of these services charged to the Company are reasonable representations of the costs that would have been incurred if the Company had performed these functions as a stand-alone company.

The Company maintains a licensing agreement with The ALLTEL Kansas Limited Partnership, an Alltel affiliate, under which the Company's incumbent local exchange carrier (ILEC) subsidiaries are charged a royalty fee for the use of the Alltel brand name in marketing and distributing telecommunications products and services. The amount of the royalty fee charged is computed by multiplying the ILEC subsidiaries' annual revenues and sales by 12.5 percent.

The Company participates in the centralized cash management practices of Alltel. Under these practices, cash balances are transferred daily to Alltel bank accounts. The Company obtains interim financing from the Parent to fund its daily cash requirements and invests short-term excess funds with Alltel. The Company earns interest income on receivables due from the Parent and is charged interest expense for payables due to the

Table of Contents**NOTES TO UNAUDITED INTERIM COMBINED FINANCIAL STATEMENTS (Continued)****1. General, Continued:**

Parent. The interest rates charged on payables to the Parent were 5.91 percent and 6.63 percent in the three months ended March 31, 2006 and 2005, respectively. Interest rates earned on receivables from the Parent were 4.75 percent and 2.76 percent in the three months ended March 31, 2006 and 2005, respectively. At March 31, 2006 and December 31, 2005, the Company had a net payable to the Parent which is included in the Parent Company Investment in the accompanying combined balance sheets, because such amounts have been considered contributed by the Parent to the Company. The Company's cash and short-term investments held at the Alltel level were not allocated to the Company in the interim combined condensed financial statements. Cash and short-term investments reflected in the interim combined condensed financial statements represents only those amounts held at the Company level. Debt reflected in the interim combined condensed financial statements represents only those debentures and notes that were directly issued by subsidiaries of the Company. No other debt has been allocated by the Parent to the Company's balance sheet. See Transactions With Certain Affiliates below for a discussion of additional related party transactions.

Transactions With Certain Affiliates The Company's product distribution operations sell equipment to the affiliated ILEC operations (\$28.6 million and \$26.8 million in the three months ended March 31, 2006 and 2005, respectively). The cost of equipment sold to the ILEC operations is included, principally, in wireline plant in the combined financial statements. ALLTEL Publishing contracts with the ILEC subsidiaries to provide directory publishing services which include the publication of a standard directory at no charge. ALLTEL Publishing bills the wireline subsidiaries for services not covered by the standard contract (\$1.7 million and \$1.8 million for the three months ended March 31, 2006 and 2005, respectively). Wireline revenues and sales include directory royalties received from ALLTEL Publishing (\$9.6 million and \$9.9 million for the three months ended March 31, 2006 and 2005, respectively) and amounts billed to other affiliates of the Company (\$10.6 million and \$11.9 million for the three months ended March 31, 2006 and 2005) for interconnection and toll services. These intercompany transactions involving the ILEC operations (excluding the acquired operations in Kentucky and Nebraska) have not been eliminated because the revenues received from the affiliates and the prices charged by the communications products and directory publishing operations are priced in accordance with Federal Communications Commission guidelines and are recovered through the regulatory process.

2. Accounting Changes:

Change in Accounting Estimate Effective January 1, 2006, the Company prospectively reduced depreciation rates for its incumbent local exchange carrier operations in Pennsylvania to reflect the results of a study of depreciable lives completed in January 2006. The depreciable lives were lengthened to reflect the estimated remaining useful lives of the wireline plant based on the Company's expected future network utilization and capital expenditure levels required to provide service to its customers. The effect of this change resulted in a decrease in depreciation expense of \$4.4 million and an increase in net income of \$2.7 million for the three months ended March 31, 2006.

Change in Accounting Principle As further discussed in Note 4 below, under the Parent's stock-based compensation plans, the Parent may grant fixed and performance-based incentive and non-qualified stock options, restricted stock and other equity securities of Alltel to officers and other management employees of the Company. In December 2004, the Financial Accounting Standards Board (FASB) issued SFAS No. 123(R), Share-Based Payment, which is a revision of SFAS No. 123, Accounting for Stock-Based Compensation and supercedes Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees and related interpretations. SFAS No. 123(R) requires all share-based payments to employees, including grants of employee stock options, to be valued at fair value on the date of grant, and to be expensed over the employee's requisite service period. Effective January 1, 2006, the Company adopted the provisions of SFAS No. 123(R) using the modified prospective transition method. Under the modified prospective transition method, the Company is required to recognize compensation cost for all stock option awards granted after January 1, 2006 and for all existing awards for which the requisite service had not been

Table of Contents**NOTES TO UNAUDITED INTERIM COMBINED FINANCIAL STATEMENTS (Continued)****2. Accounting Changes, Continued:**

rendered as of the date of adoption. Compensation expense for the unvested awards outstanding as of January 1, 2006 will be recognized over the remaining requisite service period based on the fair value of the awards on the date of grant, as previously calculated by the Company in developing its pro forma disclosures in accordance with the provisions of SFAS No. 123. Operating results for prior periods have not been restated. Upon adoption of SFAS No. 123(R), the Company elected to continue to value its share-based payment transactions using a Black-Scholes valuation model, which was previously used for purposes of preparing the pro forma disclosures under SFAS No. 123.

Under the provisions of SFAS No. 123(R), stock-based compensation expense recognized during the period is based on the portion of the share-based payment awards that is ultimately expected to vest. Accordingly, stock-based compensation expense recognized in the first quarter of 2006 has been reduced for estimated forfeitures. SFAS No. 123(R) requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. Pre-vesting forfeitures were estimated to be 5.1 percent based on the Company's historical experience. Historically, in the Company's pro forma information required under SFAS No. 123, the Company accounted for forfeitures as they occurred.

Stock-based compensation expense recognized for the three months ended March 31, 2006 was as follows:

(Millions)

| | |
|--|--------|
| Compensation expense related to stock options issued by Alltel | \$ 1.1 |
| Compensation expense related to restricted stock awards | 0.3 |
| Compensation expense before income taxes | 1.4 |
| Income tax benefit | (0.5) |
| Compensation expense, net of tax | \$ 0.9 |

Comparatively, stock-based compensation expense recognized for the three months ended March 31, 2005 was \$0.5 million, consisting solely of expense related to restricted stock awards. Stock-based compensation expense is included in selling, general, administrative and other expenses within the Company's unaudited interim combined statements of operations and comprehensive income.

Prior to adopting the provisions of SFAS No. 123(R), the Company recorded estimated compensation cost for stock options granted to the Company's employees by Alltel based upon the intrinsic value of the option on the date of grant consistent with the recognition and measurement principles of APB Opinion No. 25. Because the Parent had established the exercise price of its employee stock options based on the fair market value of Alltel's stock at the date of grant, the stock options had no intrinsic value upon grant, and accordingly, the Company did not record compensation expense for employee stock options prior to adopting SFAS No. 123(R). The following table illustrates the effects on net income had the Company applied the fair value recognition provisions of SFAS No. 123 to its stock-based employee compensation plans for the three months ended March 31, 2005:

(Millions)

| Deduct stock-based employee compensation expense determined under fair value method for all awards, net of related tax effects | (1.3) |
| Pro forma net income | \$ 87.3 |

Table of Contents**NOTES TO UNAUDITED INTERIM COMBINED FINANCIAL STATEMENTS (Continued)****3. Goodwill and Other Intangible Assets:**

Goodwill represents the excess of cost over the fair value of net identifiable tangible and intangible assets acquired through various business combinations. The Company has acquired identifiable intangible assets through its acquisitions of interests in various wireline properties. The cost of acquired entities at the date of the acquisition is allocated to identifiable assets, and the excess of the total purchase price over the amounts assigned to identifiable assets is recorded as goodwill. As of January 1, 2006, the Company completed the annual impairment reviews of its goodwill and other indefinite-lived intangible assets and determined that no write-down in the carrying value of these assets was required. The carrying amount of goodwill by business segment as of March 31, 2006 and December 31, 2005 was as follows:

| (Millions) | Wireline | Product Distribution | Total |
|---|------------|-------------------------|------------|
| Balance at March 31, 2006 and December 31, 2005 | \$ 1,218.4 | \$ 0.3 | \$ 1,218.7 |

At March 31, 2006 and December 31, 2005, the carrying value of the indefinite-lived wireline franchise rights in the state of Kentucky acquired in 2002 was \$265.0 million.

Intangible assets subject to amortization were as follows:

| March 31, 2006 | | | |
|------------------|---------------|-----------------------------|-----------------------|
| (Millions) | Gross Cost | Accumulated Amortization | Net Carrying Value |
| Customer lists | \$ 67.6 | \$ (22.7) | \$ 44.9 |
| Franchise rights | 22.5 | (16.7) | 5.8 |
| | \$ 90.1 | \$ (39.4) | \$ 50.7 |

| December 31, 2005 | | | |
|-------------------|---------------|-----------------------------|-----------------------|
| (Millions) | Gross Cost | Accumulated Amortization | Net Carrying Value |
| Customer lists | \$ 67.6 | \$ (21.0) | \$ 46.6 |
| Franchise rights | 22.5 | (16.4) | 6.1 |
| | \$ 90.1 | \$ (37.4) | \$ 52.7 |

Intangible assets subject to amortization are amortized on a straight-line basis over their estimated useful lives, which are 10 years for customer lists and 15 years for franchise rights. Amortization expense for intangible assets subject to amortization was \$2.0 million for the three month periods ended March 31, 2006 and 2005. Amortization expense for intangible assets subject to amortization is estimated to be \$8.2 million in each of the years 2006 through 2009 and \$6.8 million in 2010.

4. Stock-Based Compensation:

Under the Parent's stock-based compensation plans, the Parent may grant fixed and performance-based incentive and non-qualified stock options, restricted stock and other equity securities of Alltel to officers and other management employees of the Company. The maximum number of shares of the Parent's common stock that may be issued to officers and other management employees under all stock option plans in effect at March 31, 2006 was 31.6 million shares. Fixed options granted under the Parent's stock option plans generally become exercisable over a period of one to five years after the date of grant. Certain fixed options granted in 2000 become exercisable in increments of 50%, 25% and 25% over a five-year period beginning three years after the date of grant. For all plans, the exercise price of the option equals the market value of Alltel's common stock on the date of grant. For fixed stock options, the maximum term for each option granted is 10 years.

Amounts reflected as Transfers, net in the table above represent options held by employees that transferred between the wireless and wireline divisions of Alltel between December 31, 2005 and March 31, 2006. At March 31, 2006, the total unamortized compensation cost for non-vested stock option awards amounted to \$7.6 million and is expected to be recognized over a weighted average period of 1.8 years.

In January 2005 and 2004, Alltel granted to certain senior management employees of the Company restricted stock awards which had an aggregate fair value on the date of grant of \$1.8 million and \$2.5 million, respectively. The cost of the restricted stock awards is determined based on the fair market value of the shares at the date of grant reduced by the \$1.00 par value per share charged to the employee and is expensed ratably over the vesting period. The restricted shares granted in 2005 vest three years from the date of grant, except that one-third of the restricted shares may vest after each of the first two-year anniversaries from the grant date if Alltel achieves a certain targeted total stockholder return for its peer group during the three-year period preceding each of those two years. The restricted shares granted in 2004 will vest in equal increments over a three-year period following the date of grant.

Non-vested restricted stock activity for the three months ended March 31, 2006 was as follows:

| | Number of Shares | | Weighted Average Fair Value Per Share |
|---------------------------------|---------------------|----|--|
| Non-vested at December 31, 2005 | 68,183 | \$ | 52.52 |
| Granted | | | |
| Vested | (11,967) | | 49.28 |
| Forfeited | | | |
| Non-vested at March 31, 2006 | 56,216 | \$ | 53.20 |

At March 31, 2006, unrecognized compensation expense for the restricted shares amounted to \$0.8 million. The unrecognized compensation expense for the non-vested restricted shares at March 31, 2006 is expected to be recognized over a weighted average period of 1.5 years.

In conjunction with the pending spin-off of the Company and merger with Valor discussed more fully in Note 9, all employees of the Company will be treated as having severed employment with Alltel under Alltel's stock option and restricted stock plans. Any vested, unexercised stock options will be forfeited if not exercised by the employee within 90 days of the spin-off. Any unvested stock options will be cancelled by Alltel and replaced with shares of restricted stock of the new combined company resulting from the spin-off of the Company and the merger with Valor. As a result, any compensation expense previously recognized associated with the unvested stock options that are cancelled upon spin will be reversed into income at that time.

5. Employee Benefit Plans and Postretirement Benefits Other Than Pensions:

The Parent maintains a qualified defined benefit pension plan, which covers substantially all employees. Prior to January 1, 2005, employees of the Company's directory publishing subsidiary did not participate in the plan. In December 2005, the qualified defined benefit pension plan was amended such that future benefit accruals for all eligible nonbargaining employees ceased as of December 31, 2005 (December 31, 2010 for employees who had attained age 40 with two years of service as of December 31, 2005). Expenses recorded by the Company related to the pension plan amounted to \$2.9 million and \$3.8 million during the three month periods ended March 31, 2006 and 2005, respectively. These expenses are included in cost of services and selling, general, administrative and other expenses in the combined statements of operations and comprehensive income. No allocation of the Company's share of the pension plan's assets or liabilities have been included in the accompanying combined balance sheets because the final amounts have yet to be actuarially determined.

Table of Contents**NOTES TO UNAUDITED INTERIM COMBINED FINANCIAL STATEMENTS (Continued)****5. Employee Benefit Plans and Postretirement Benefits Other Than Pensions, Continued:**

The Company also provides postretirement healthcare and life insurance benefits for eligible employees. Employees share in the cost of these benefits. The Company funds the accrued costs of these plans as benefits are paid. The components of postretirement expense were as follows for the three month periods ended March 31:

| (Millions) | 2006 | 2005 |
|---------------------------------------|--------|--------|
| Benefits earned during the year | \$ | \$ |
| Interest cost on benefit obligation | 2.4 | 2.4 |

| Recognized net actuarial loss | 1.3 | 1.3 |
| Expected return on plan assets | | |
| Net periodic benefit expense | \$ 4.2 | \$ 4.2 |

6. Restructuring and Other Charges:

In connection with the pending spin-off of the Company and merger with Valor, during the three months ended March 31, 2006, the Company incurred \$2.5 million of incremental costs, primarily consisting of additional consulting and legal fees. There were no restructuring or other charges incurred by the Company during the three months ended March 31, 2005.

The following is a summary of the activity related to the liabilities associated with the Company's integration and other restructuring activities for the three months ended March 31, 2006:

| Balance, beginning of period | \$ |
| Integration expenses and other charges recorded during the period | 2.5 |
| Cash outlays during the period | (0.5) |

7. Commitments and Contingencies:

The Company is party to various legal proceedings arising from the ordinary course of business. Although the ultimate resolution of these various proceedings cannot be determined at this time, management of the Company does not believe that such proceedings, individually or in the aggregate, will have a material adverse effect on the future combined results of operations, cash flows or financial condition of the Company.

8. Business Segment Information:

The Company manages its business operations based on differences in products and services. The Company evaluates performance of the segments based on segment income, which is computed as revenues and sales less operating expenses, excluding the effects of the restructuring and other charges discussed in

9. Pending Spin-off of Company and Merger with Valor Communications Group, Inc.:

On December 9, 2005, Alltel announced that its board of directors had approved the spin-off of the Company's wireline telecommunications business to its stockholders and the merger of that wireline business with Valor. Pursuant to the plan of distribution and immediately prior to the effective time of the merger with Valor described below, Alltel will contribute all of the assets of the Company to ALLTEL Holding Corp. (Alltel Holding or Spinco), a

wholly-owned subsidiary of Alltel, in exchange for: (i) the issuance to Alltel of Spinco common stock to be distributed pro rata to Alltel's stockholders as a tax free stock dividend, (ii) the payment of a special dividend to Alltel in an amount not to exceed Alltel's tax basis in Spinco, and (iii) the distribution by Spinco to Alltel of certain Spinco debt securities, which Alltel intends to exchange for outstanding debt securities of Alltel or otherwise transfer to Alltel's creditors. Prior to the distribution and merger with Valor, Spinco will borrow approximately \$3.978 billion (the Spinco financing amount) through a new senior secured credit agreement and through the issuance of senior unsecured debt securities in the private placement market to pay the special dividend and to distribute debt securities to Alltel in an amount equal to the difference between the Spinco financing amount and the special dividend. Alltel has received a commitment letter from various financial institutions to provide Spinco with up to \$4.2 billion in senior secured credit facilities comprised of term loan facilities in an aggregate amount of up to \$3.7 billion and a

Table of Contents**NOTES TO UNAUDITED INTERIM COMBINED FINANCIAL STATEMENTS (Continued)****9. Pending Spin-off of Company and Merger with Valor Communications Group, Inc., Continued:**

revolving credit facility of up to \$500 million. Immediately after the consummation of the spin-off, Alltel Holding will merge with and into Valor, with Valor continuing as the surviving corporation. As a result of the merger, all of the issued and outstanding shares of Spinco common stock will be converted into the right to receive an aggregate number of shares of common stock of Valor that will result in Alltel's stockholders holding approximately 85 percent of the outstanding equity interests of the surviving corporation immediately after the merger and the stockholders of Valor holding the remaining approximately 15 percent of such equity interests. To effect the merger, Valor will issue approximately 405 million shares of its common stock to the shareholders of Alltel and assume approximately \$4.2 billion of long-term debt. As a result of this transaction, Alltel shareholders will continue to own one share of the remaining wireless entity and will receive approximately 1.04 shares of Valor common stock for each share of Alltel common stock they currently own.

Including the effects on interest expense that would result from the issuance of the long-term debt obligations discussed above, the Company's net income for the three months ended March 31, 2006 would have been reduced to the following pro forma amount:

| | (Millions) |
|--|-------------------|
| Net income as reported | \$ 112.8 |
| Pro forma interest expense, net of related tax effects | (42.2) |
| Pro forma net income | \$ 70.6 |

The pro forma interest expense was calculated based upon the assumed financing of the Company of \$3.978 billion to fund the dividend payable of approximately \$2.275 billion to the Parent and to distribute debt securities of \$1.703 billion to Alltel at an annual weighted-average interest rate of 6.938 percent, net of tax of \$26.8 million.

Immediately prior to the effective date of the spin-off, Alltel will transfer to Alltel Holding property, plant and equipment (net book value of \$114.1 million at March 31, 2006), pension assets (currently estimated to be \$207.9 million) and additional other postretirement liabilities (currently estimated to be \$7.4 million) related to the wireline operations and associated net deferred income tax assets (currently estimated to be \$97.6 million). Conversely, Alltel Holding will transfer to Alltel certain income tax contingency reserves that will be retained by Alltel pursuant to the distribution agreement (\$11.7 million at March 31, 2006), as well as the residual foreign currency translation adjustment (\$0.5 million at March 31, 2006), because the underlying international assets which gave rise to the translation adjustment will be retained by Alltel following the spin-off. The actual carrying values of the transferred assets and liabilities will be determined as of the date of the spin-off. As a result, these carrying values may change, and such change may be material.

Upon the spin-off of the wireline business, unvested options held by wireline employees will be replaced with restricted shares of Valor common stock based on the underlying intrinsic value of the Alltel stock options. As of March 31, 2006, wireline employees held vested options to purchase approximately 1.7 million shares of Alltel common stock.

Consummation of the merger is subject to certain conditions, including the approval of the merger by the stockholders of Valor, receipt of a favorable ruling from the IRS regarding the tax-free status of the distribution, special dividend, debt exchange and merger transaction, consummation of the Spinco financing, and the receipt of regulatory approvals, including, without limitation, the approval of the FCC and multiple state public service commissions. The transaction is expected to close during the third quarter of 2006. The merger agreement contains certain termination rights for each of Alltel and Valor and further provides that, upon termination of the merger agreement under specified circumstances involving an alternative transaction, Valor may be required to pay Alltel a

termination fee of \$35.0 million. Conversely, Alltel may be required to pay Valor a termination fee of (i) \$35.0 million if Valor terminates the merger agreement because of a

material breach by Alltel or Spinco that results in the failure of the parties to obtain the Spinco financing or any party terminates the merger agreement after December 8, 2006 and at the time of termination all conditions have been satisfied other than the Spinco financing condition and (ii) \$20.0 million if Valor terminates the merger agreement because of a material breach by Alltel or Spinco that results in the failure of the parties to obtain the required IRS rulings or tax opinions or any party terminates the merger agreement after December 8, 2006 and at the time of termination all conditions have been satisfied other than the IRS ruling or tax opinion conditions.

Table of Contents**NOTES TO COMBINED FINANCIAL STATEMENTS****1. Summary of Significant Accounting Policies:**

Organization The Wireline Division (the Company) is not a separate stand-alone legal entity and is comprised of certain wholly-owned subsidiaries and other component operations of ALLTEL Corporation (Alltel or the Parent). No direct equity ownership interest exists among the individual subsidiaries or other component operations that comprise the Wireline Division. The Company provides wireline local, long-distance, network access, and Internet services to residential and business customers. A subsidiary, ALLTEL Publishing Corporation (ALLTEL Publishing), publishes telephone directories for affiliates and other independent telephone companies. The Company also warehouses and sells telecommunications equipment to subsidiaries of the Company and to other non-affiliated communications companies in related industries. In addition, the Company provides billing, customer care and other data processing and outsourcing services to telecommunications companies. (See Note 12 for additional information regarding the Company's business segments.)

Basis of Presentation The accompanying combined financial statements present the financial position, results of operations and cash flows of the Company in contemplation of a spin-off of the business and merger with Valor Communications Group, Inc. (Valor) as more fully discussed in Note 13. The Company is a fully integrated business of Alltel; consequently these financial statements have been derived from the consolidated financial statements and accounting records of Alltel, using the historical results of operations and historical basis of assets and liabilities of the Company. The financial statements include the accounts of Alltel's wholly-owned subsidiaries and certain other accounts that comprise the Company. Investments in less than 20 percent owned entities and in which the Company does not exercise significant influence over operating and financial policies are accounted for under the cost method. All intercompany transactions, except those with certain affiliates described below, have been eliminated in the combined financial statements. Certain prior year amounts have been reclassified to conform to the 2005 financial statement presentation.

Service revenues consist of wireline local service, network access, Internet access, long-distance and miscellaneous wireline operating revenues and telecommunications information services processing revenues. Product sales primarily consist of the directory publishing operations and sales of communications equipment. Cost of services include the costs related to completing calls over the Company's telecommunications network, including access, interconnection and toll charges paid to other carriers, as well as the costs to operate and maintain the network. Additionally, cost of services includes the costs to provide telecommunications information services, bad debt expense and business taxes.

Related Party Transactions Certain services such as information technology, accounting, legal, tax, marketing, engineering, and risk and treasury management were provided to the Company by the Parent. Expenses which were paid by the Parent on behalf of the Company have been allocated based on actual direct costs incurred. Where specific identification of expenses was not practicable, the cost of such services was allocated based on the most relevant allocation method to the service provided, either net sales of the Company as a percentage of net sales of the Parent, total assets of the Company as a percentage of total assets of the Parent, or headcount of the Company as a percentage of headcount of the Parent. Total expenses allocated to the Company were \$300.5 million in 2005, \$278.9 million in 2004 and \$299.6 million in 2003. The costs of these services charged to the Company and the allocated liabilities assigned to the Company are not necessarily indicative of the costs and liabilities that would have been incurred if the Company had performed these functions as a stand-alone entity. However, management believes that methods used to make such allocations are reasonable and costs of these services charged to the Company are reasonable representations of the costs that would have been incurred if the Company had performed these functions as a stand-alone company.

The Company maintains a licensing agreement with The ALLTEL Kansas Limited Partnership, an Alltel affiliate, under which the Company's incumbent local exchange carrier (ILEC) subsidiaries are charged a royalty fee for the use of the Alltel brand name in marketing and distributing telecommunications

Table of Contents**NOTES TO COMBINED FINANCIAL STATEMENTS (Continued)**

products and services. The amount of the royalty fee charged is computed by multiplying the ILEC subsidiaries annual revenues and sales by 12.5 percent.

Transfers with Alltel affiliates of property, plant and equipment and capitalized software development costs are recorded at net book value on the date of transfer. During 2003, the Company transferred to Alltel affiliates certain capitalized software development costs of \$5.3 million.

The Company participates in the centralized cash management practices of Alltel. Under these practices, cash balances are transferred daily to Alltel bank accounts. The Company obtains interim financing from the Parent to fund its daily cash requirements and invests short-term excess funds with Alltel. The Company earns interest income on receivables due from the Parent and is charged interest expense for payables due to the Parent. The interest rates charged on payables to the Parent were 6.1 percent in 2005, 6.8 percent in 2004 and 6.9 percent in 2003. Interest rates earned on receivables from the Parent were 3.5 percent in 2005, 1.6 percent in 2004 and 1.3 percent in 2003. At December 31, 2005 and 2004, the Company had a net payable to the Parent which is included in the Parent Company Investment in the accompanying combined balance sheets and statements of equity, because such amounts have been considered contributed by the Parent to the Company. The Company's cash and short-term investments held at the Alltel level were not allocated to the Company in the combined financial statements. Cash and short-term investments reflected in the combined financial statements represents only those amounts held at the Company level. Debt reflected in the combined financial statements represents only those debentures and notes that were directly issued by subsidiaries of the Company. (See Note 4). No other debt has been allocated by the Parent to the Company's balance sheet. See *Transactions With Certain Affiliates* below for a discussion of additional related party transactions.

Use of Estimates The preparation of financial statements, in accordance with accounting principles generally accepted in the United States, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and disclosure of contingent assets and liabilities. The estimates and assumptions used in the accompanying combined financial statements are based upon management's evaluation of the relevant facts and circumstances as of the date of the financial statements. Actual results may differ from the estimates and assumptions used in preparing the accompanying combined financial statements, and such differences could be material.

Regulatory Accounting The Company's ILEC operations, except for certain operations acquired in Kentucky in 2002 and Nebraska in 1999, follow the accounting for regulated enterprises prescribed by Statement of Financial Accounting Standards (SFAS) No. 71, *Accounting for the Effects of Certain Types of Regulation*. This accounting recognizes the economic effects of rate regulation by recording costs and a return on investment as such amounts are recovered through rates authorized by regulatory authorities. Accordingly, SFAS No. 71 requires the Company's ILEC operations to depreciate wireline plant over the useful lives approved by regulators, which could be different than the useful lives that would otherwise be determined by management. SFAS No. 71 also requires deferral of certain costs and obligations based upon approvals received from regulators to permit recovery of such amounts in future years. Criteria that would give rise to the discontinuance of SFAS No. 71 include (1) increasing competition restricting the wireline subsidiaries' ability to establish prices to recover specific costs and (2) significant changes in the manner in which rates are set by regulators from cost-based regulation to another form of regulation. The Company reviews these criteria on a quarterly basis to determine whether the continuing application of SFAS No. 71 is appropriate. In assessing the continued applicability of SFAS No. 71, the Company monitors the following:

Level of competition in its markets. To date, competition has not had a significant adverse effect on the operating results of the Company's ILEC subsidiaries, primarily because these subsidiaries provide wireline telecommunications services in mostly rural areas. To date, ILEC subsidiaries have not been required to discount intrastate service rates in response to competitive pressures.

Level of revenues and access lines currently subject to rate-of-return regulation or which could revert back to rate-of-return regulation in the future. For the ILEC subsidiaries that follow SFAS No. 71, all interstate revenues are subject to rate-of-return regulation. The majority of the ILEC subsidiaries

Table of Contents**NOTES TO COMBINED FINANCIAL STATEMENTS (Continued)**

remaining intrastate revenues are either subject to rate-of-return regulation or could become subject to rate-of-return regulation upon election by the Company, subject in certain cases to approval by the state public service commissions.

Level of profitability of the ILEC subsidiaries. Currently, the prices charged to customers for interstate and intrastate services continue to be sufficient to recover the specific costs of the ILEC subsidiaries in providing these services to customers.

While the Company believes that the application of SFAS No. 71 continues to be appropriate, it is possible that changes in regulation, legislation or competition could result in the Company's ILEC operations no longer qualifying for the application of SFAS No. 71 in the near future. If the Company's ILEC operations no longer qualified for the application of SFAS No. 71, the accounting impact to the Company would be an extraordinary non-cash credit to operations. The non-cash credit would consist primarily of the reversal of the regulatory liability for cost of removal included in accumulated depreciation, as further discussed below, which amounted to \$156.9 million and \$147.9 million as of December 31, 2005 and 2004, respectively. The Company does not expect to record any impairment charge related to the carrying value of its ILEC plant. Upon discontinuance of SFAS No. 71, the Company would be required to revise the lives of its property, plant and equipment to reflect the estimated useful lives of the assets. The Company does not expect any revisions in asset lives to have a material adverse effect on its ILEC operations. In accordance with federal and state regulations, depreciation expense for the Company's ILEC operations has historically included an additional provision for cost of removal.

The additional cost of removal provision does not meet the recognition and measurement principles of an asset retirement obligation under SFAS No. 143, Accounting for Asset Retirement Obligations. In December 2002, the Federal Communications Commission (FCC) notified ILEC carriers that they should not adopt the provisions of SFAS No. 143 unless specifically required by the FCC in the future. As a result of the FCC ruling, the Company continues to record a regulatory liability for cost of removal for its ILEC operations that follow the accounting prescribed by SFAS No. 71.

Transactions with Certain Affiliates The Company's product distribution operations sell equipment to the affiliated ILEC operations (\$134.4 million in 2005, \$85.9 million in 2004 and \$123.7 million in 2003). The cost of equipment sold to the ILEC operations is included, principally, in wireline plant in the combined financial statements. ALLTEL Publishing contracts with the ILEC subsidiaries to provide directory publishing services which include the publication of a standard directory at no charge. ALLTEL Publishing bills the wireline subsidiaries for services not covered by the standard contract (\$7.6 million in 2005, \$7.0 million in 2004 and \$7.3 million in 2003). Wireline revenues and sales include directory royalties received from ALLTEL Publishing (\$35.8 million in 2005, \$40.1 million in 2004 and \$42.9 million in 2003) and amounts billed to other affiliates of the Company (\$45.0 million in 2005, \$51.7 million in 2004 and \$51.3 million in 2003) for interconnection and toll services. These intercompany transactions involving the ILEC operations (excluding the acquired operations in Kentucky and Nebraska) have not been eliminated because the revenues received from the affiliates and the prices charged by the communications products and directory publishing operations are priced in accordance with FCC guidelines and are recovered through the regulatory process.

Cash and Short-term Investments Cash and short-term investments consist of highly liquid investments with original maturities of three months or less.

Accounts Receivable Accounts receivable consist principally of trade receivables from customers and are generally unsecured and due within 30 days. Expected credit losses related to trade accounts receivable are recorded as an allowance for doubtful accounts in the combined balance sheets. In establishing the allowance for doubtful accounts, the Company considers a number of factors, including historical collection experience, aging of the accounts receivable balances, current economic conditions, and a specific customer's ability to meet its financial obligations to the Company. When internal collection efforts on accounts have been exhausted, the accounts are written off by reducing the allowance for doubtful accounts. Concentration of

Table of Contents**NOTES TO COMBINED FINANCIAL STATEMENTS (Continued)**

credit risk with respect to accounts receivable is limited because a large number of geographically diverse customers make up the Company's customer base, thus spreading the credit risk.

Inventories Inventories are stated at the lower of cost or market value. Cost is determined using either an average original cost or specific identification method of valuation.

Investments Investments in Rural Telephone Bank (RTB) Class C stock were reported at cost due to the lack of a readily available market price. During December 2005, the Company transferred its investment in RTB Class C stock to the Parent. The Company received dividend income of \$11.4 million in 2005, \$11.8 million in 2004 and \$5.6 million in 2003 related to its investment in the RTB Class C stock, which is included in other income, net in the accompanying statements of income. All other investments are accounted for using the cost method. Investments were as follows at December 31:

| | 2005 | 2004 |
|---|------------|---------|
| | (Millions) | |
| Investments in Rural Telephone Bank Class C stock | \$ | \$ 22.1 |
| Other cost investments | 2.0 | 2.2 |
| | \$ 2.0 | \$ 24.3 |

Goodwill and Other Intangible Assets Goodwill represents the excess of cost over the fair value of net identifiable tangible and intangible assets acquired through various business combinations. The Company has acquired identifiable intangible assets through its acquisitions of interests in various wireline properties. The cost of acquired entities at the date of the acquisition is allocated to identifiable assets, and the excess of the total purchase price over the amounts assigned to identifiable assets is recorded as goodwill. In accordance with SFAS No. 142, Goodwill and Other Intangible Assets, goodwill is to be assigned to a company's reporting units and tested for impairment annually using a consistent measurement date, which for the Company is January 1st of each year. The impairment test for goodwill requires a two-step approach, which is performed at a reporting unit level. Step one of the test identifies potential impairments by comparing the fair value of a reporting unit to its carrying amount. Step two, which is only performed if the fair value of a reporting unit is less than its carrying value, calculates the impairment loss as the difference between the carrying amount of the reporting unit's goodwill and the implied fair value of that goodwill. The Company completed step one of the annual impairment reviews of goodwill for 2005, 2004 and 2003 and determined that no write-down in the carrying value of goodwill for any of its reporting units was required. For purposes of completing the annual impairment reviews, fair value of the reporting units was determined utilizing a combination of the discounted cash flows of the reporting units and calculated market values of comparable public companies.

The Company's indefinite-lived intangible assets consist of wireline franchise rights in the state of Kentucky acquired in August 2002. The Company determined that the wireline franchise rights met the indefinite life criteria outlined in SFAS No. 142, because the Company expects both the renewal by the granting authorities and the cash flows generated from these intangible assets to continue indefinitely. The Company's intangible assets with finite lives are amortized over their estimated useful lives, which are 10 years for customer lists and 15 years for franchise rights. SFAS No. 142 also requires intangible assets with indefinite lives to be tested for impairment on an annual basis, by comparing the fair value of the assets to their carrying amounts. For purposes of completing the annual impairment reviews, the fair value of the wireline franchise rights was determined based on the discounted cash flows of the acquired operations in Kentucky. Upon completing the annual impairment reviews of its wireline franchise rights for 2005, 2004 and 2003, the Company determined that no write-down in the carrying value of these assets was required.

Property, Plant and Equipment Property, plant and equipment are stated at original cost. Wireline plant consists of aerial and underground cable, conduit, poles, switches and other central office and transmission-related equipment.

Information processing plant consists of data processing equipment, purchased software and internal use capitalized software development costs. Other plant consists of furniture,

F-24

Table of Contents**NOTES TO COMBINED FINANCIAL STATEMENTS (Continued)**

fixtures, vehicles, machinery and equipment. The costs of additions, replacements and substantial improvements, including related labor costs, are capitalized, while the costs of maintenance and repairs are expensed as incurred. For the Company's non-regulated operations, when depreciable plant is retired or otherwise disposed of, the related cost and accumulated depreciation are deducted from the plant accounts, with the corresponding gain or loss reflected in operating results. The Company's ILEC operations utilize group composite depreciation. Under this method, when plant is retired, the original cost, net of salvage value, is charged against accumulated depreciation, and no gain or loss is recognized on the disposition of the plant. Depreciation expense amounted to \$466.0 million in 2005, \$500.4 million in 2004 and \$511.0 million in 2003.

Depreciation for financial reporting purposes is computed using the straight-line method over the following estimated useful lives:

| | Depreciable Lives |
|----------------------------|------------------------------|
| Buildings and improvements | 5-50 years |
| Wireline | 5-56 years |
| Information processing | 3-16 years |
| Other | 3-23 years |

The Company capitalizes interest in connection with the acquisition or construction of plant assets. Capitalized interest is included in the cost of the asset with a corresponding reduction in interest expense. Capitalized interest amounted to \$2.6 million in 2005, \$2.9 million in 2004 and \$3.2 million in 2003.

Capitalized Software Development Costs Software development costs incurred in the application development stage of internal use software are capitalized and recorded in information processing plant in the accompanying combined balance sheets. Modifications and upgrades to internal use software are capitalized to the extent such enhancements provide additional functionality. Software maintenance and training costs are expensed as incurred. Internal use software is amortized over periods ranging from three to ten years.

Impairment of Long-Lived Assets Long-lived assets and intangible assets subject to amortization are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value of the asset may not be recoverable from future, undiscounted net cash flows expected to be generated by the asset. If the asset is not fully recoverable, an impairment loss would be recognized for the difference between the carrying value of the asset and its estimated fair value based on discounted net future cash flows or quoted market prices. Assets to be disposed of that are not classified as discontinued operations are reported at the lower of their carrying amount or fair value less cost to sell.

Parent Company Investment The Company has obtained financing for its day-to-day operations from the Parent. Parent Company Investment includes the Parent's equity investment in the Company and net amounts due to the Parent, because such amounts have been considered contributed by the Parent to the Company.

Foreign Currency Translation Adjustment During 2004 and 2003, the Company provided data processing and outsourcing services to international telecommunications companies. For these foreign operations, assets and liabilities are translated from the applicable local currency to U.S. dollars using the current exchange rate as of the balance sheet date. Revenue and expense accounts are translated using the weighted average exchange rate in effect during the period. Foreign currency transaction gains and losses are recognized in income as incurred. The Company accounts for unrealized gains or losses on its foreign currency translation adjustments in accordance with SFAS No. 130, Reporting Comprehensive Income, which required the adjustments to be recorded as a separate component of equity.

Revenue Recognition Communications revenues are primarily derived from providing access to or usage of the Company's networks and facilities. Wireline local access revenues are recognized over the period that the corresponding services are rendered to customers. Revenues derived from other telecommunications

Table of Contents**NOTES TO COMBINED FINANCIAL STATEMENTS (Continued)**

services, including interconnection, long-distance and custom calling feature revenues are recognized monthly as services are provided. Due to varying customer billing cycle cut-off times, the Company must estimate service revenues earned but not yet billed at the end of each reporting period. Included in accounts receivable are unbilled receivables related to communications revenues of \$21.1 million and \$24.9 million at December 31, 2005 and 2004, respectively. Sales of communications products including customer premise equipment and accessories are recognized when products are delivered to and accepted by customers.

ALLTEL Publishing recognizes directory publishing and advertising revenues and related directory costs when the directories are published and delivered. For directory contracts with a secondary delivery obligation, ALLTEL Publishing defers a portion of its revenues and related directory costs until secondary delivery occurs. Included in accounts receivable are unbilled receivables related to directory advertising revenues earned but not yet billed of \$60.7 million and \$64.0 million at December 31, 2005 and 2004, respectively. The royalties paid by ALLTEL Publishing to the Company's ILEC subsidiaries (excluding the acquired operations in Kentucky and Nebraska) are recognized as revenue over the life of the corresponding contract, which is generally twelve months.

Telecommunications information services revenues are recognized in accordance with the American Institute of Certified Public Accountants' Statement of Position (SOP) 97-2 Software Revenue Recognition and SOP 98-9 Modification of SOP 97-2, Software Revenue Recognition, With Respect to Certain Transactions. Data processing revenues are recognized as services are performed. When the arrangement with the customer includes significant production, modification or customization of the software, the Company uses contract accounting, as required by SOP 97-2. For those arrangements accounted for under SOP 81-1 Accounting for Performance of Construction-Type and Certain Production-Type Contracts, the Company uses the percentage-of-completion method. Under this method, revenue and profit are recognized throughout the term of the contract, based upon estimates of the total costs to be incurred and revenues to be generated throughout the term of the contract. Changes in estimates for revenues, costs and profits are recognized in the period in which they are determinable. When such estimates indicate that costs will exceed future revenues and a loss on the contract exists, a provision for the entire loss is then recognized. Included in accounts receivable are unbilled receivables related to telecommunications information services revenues of \$1.5 million and \$4.0 million at December 31, 2005 and 2004, respectively.

Advertising Advertising costs are expensed as incurred. Advertising expense totaled \$25.1 million in 2005, \$23.8 million in 2004 and \$23.7 million in 2003.

Stock-Based Compensation The Company accounts for stock-based employee compensation in accordance with the recognition and measurement principles of Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees and related interpretations. For fixed stock options granted under the Parent's stock-based compensation plans, the exercise price of the option equals the market value of Alltel's common stock on the date of grant. Accordingly, no compensation expense has been recognized by the Company in the accompanying combined statements of income for any of the fixed options granted. Had compensation costs for the fixed options granted been determined based on the basis of the fair value of the awards at the date of grant, consistent with the methodology prescribed by SFAS No. 123, Accounting for Stock-Based Compensation, the Company's net income would have been reduced to the following pro forma amounts for the years ended December 31:

| | 2005 | 2004 | 2003 |
|--|------------|----------|----------|

The pro forma amounts presented above may not be representative of the future effects on reported net income that will result from the future granting of stock options, since the pro forma compensation expense is allocated over the periods in which options become exercisable, and new option awards may be granted each year.

On December 16, 2004, the Financial Accounting Standards Board (FASB) issued SFAS No. 123(R), Share-Based Payment, which is a revision of SFAS No. 123 and supercedes APB Opinion No. 25. SFAS No. 123(R) requires all share-based payments to employees, including grants of employee stock options, to be valued at fair value on the date of grant, and to be expensed over the applicable vesting period. Pro forma disclosure of the income statement effects of share-based payments is no longer an alternative. In addition, companies must also recognize compensation expense related to any awards that are not fully vested as of the effective date. Compensation expense for the unvested awards will be measured based on the fair value of the awards previously calculated in developing the pro forma disclosures in accordance with the provisions of SFAS No. 123. Upon adoption of the standard on January 1, 2006, the Company will follow the modified prospective transition method and expects to value its share-based payment transactions using a Black-Scholes valuation model. Under the modified prospective transition method, the Company will recognize compensation cost in its consolidated financial statements for all awards granted after January 1, 2006 and for all existing awards for which the requisite service has not been rendered as of the date of adoption. Prior period operating results will not be restated. At December 31, 2005, the total unamortized compensation cost for nonvested stock option awards amounted to \$9.4 million and is expected to be recognized over a weighted average period of 3 years. The pro forma compensation expense for 2005 reflected in the table above is expected to approximate the effect of the adoption of SFAS No. 123(R) on the Company's future reported consolidated results of operations.

Income Taxes Income taxes are calculated on a separate return basis and are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax balances are adjusted to reflect tax rates, based on currently enacted tax laws, which will be in effect in the years in which the temporary differences are expected to reverse. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the results of operations in the period that includes the enactment date. For the Company's regulated operations, the adjustment in deferred tax balances for the change in tax rates is reflected as regulatory assets or liabilities. These regulatory assets and liabilities are amortized over the lives of the related depreciable asset or liability concurrent with recovery in rates. A valuation allowance is recorded to reduce the carrying amounts of deferred tax assets unless it is more likely than not that such assets will be realized.

2. Accounting Changes:

Change in Accounting Estimate Effective September 1, 2005 and July 1, 2005, the Company prospectively reduced depreciation rates for its ILEC operations in Florida, Georgia and South Carolina to reflect the results of studies of depreciable lives completed by the Company in the second quarter of 2005. The depreciable lives were lengthened to reflect the estimated remaining useful lives of the wireline plant based on the Company's expected future network utilization and capital expenditure levels required to provide service to its customers. The effects of this change during the year ended December 31, 2005 resulted in a decrease in depreciation expense of \$21.8 million and increase in net income of \$12.8 million. Effective April 1, 2004, the Company prospectively reduced depreciation rates for its ILEC operations in Nebraska, reflecting the results of a triennial study of depreciable lives completed by the Company in the second quarter of 2004, as required by the Nebraska Public Service Commission. The effects of this change during the year ended December 31, 2004 resulted in a decrease in depreciation expense of \$19.1 million and increase in net income of \$11.4 million.

Change in Accounting Principle During the fourth quarter of 2005, the Company adopted FASB Interpretation No. 47, Accounting for Conditional Asset Retirement Obligations (FIN 47). The

Table of Contents**NOTES TO COMBINED FINANCIAL STATEMENTS (Continued)**

Company evaluated the effects of FIN 47 on its operations and determined that, for certain buildings containing asbestos, the Company is legally obligated to remediate the asbestos if the Company were to abandon, sell or otherwise dispose of the buildings. In addition, for its acquired Kentucky and Nebraska wireline operations not subject to SFAS No. 71, the Company is legally obligated to properly dispose of its chemically-treated telephone poles at the time they are removed from service. In accordance with federal and state regulations, depreciation expense for the Company's wireline operations that follow the accounting prescribed by SFAS No. 71 have historically included an additional provision for cost of removal, and accordingly, the adoption of FIN 47 had no impact to these operations. The cumulative effect of this change in 2005 resulted in a non-cash charge of \$7.4 million, net of income tax benefit of \$4.6 million, and was included in net income for the year ended December 31, 2005.

On a pro forma basis assuming the change in accounting for conditional asset retirement obligations had been applied retrospectively for all periods presented, the liability for conditional asset retirement obligations would have been as follows:

| | (Millions) |
|-------------------|-------------------|
| Balance, as of: | |
| January 1, 2003 | \$ 12.8 |
| December 31, 2003 | \$ 13.2 |
| December 31, 2004 | \$ 13.7 |
| December 31, 2005 | \$ 14.0 |

Effective January 1, 2005, the Company changed its accounting for operating leases with scheduled rent increases. Certain of the Company's operating lease agreements for office and retail locations include scheduled rent escalations during the initial lease term and/or during succeeding optional renewal periods. Previously, the Company had not recognized the scheduled increases in rent expense on a straight-line basis in accordance with the provisions of Statement of Financial Accounting Standards No. 13, Accounting for Leases and Financial Accounting Standards Board Technical Bulletin No. 85-3, Accounting for Operating Leases with Scheduled Rent Increases. The effects of this change, which are included in cost of services expense, were not material to the Company's previously reported combined results of operations, financial position or cash flows.

Except for certain ILEC operations as further discussed below, the Company adopted SFAS No. 143, Accounting for Asset Retirement Obligations, effective January 1, 2003. SFAS No. 143 addresses financial accounting and reporting for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. This standard applies to legal obligations associated with the retirement of long-lived assets that result from the acquisition, construction, development, or normal use of the assets. SFAS No. 143 requires that a liability for an asset retirement obligation be recognized when incurred and reasonably estimable, recorded at fair value, and classified as a liability in the balance sheet. When the liability is initially recorded, the entity capitalizes the cost and increases the carrying value of the related long-lived asset. The liability is then accreted to its present value each period, and the capitalized cost is depreciated over the estimated useful life of the related asset. At the settlement date, the entity will settle the obligation for its recorded amount and recognize a gain or loss upon settlement. The Company has evaluated the effects of SFAS No. 143 on its operations and has determined that, for telecommunications and other operating facilities in which the Company owns the underlying land, the Company has no contractual or legal obligation to remediate the property if the Company were to abandon, sell or otherwise dispose of the property. Certain of the Company's lease agreements for office locations require restoration of the leased site upon expiration of the lease term. Accordingly, the Company is subject to asset retirement obligations associated with these leased facilities under the provisions of SFAS No. 143. The application of SFAS No. 143 to the Company's leased office locations did not have a material impact on the Company's combined results of operations, financial position, or cash flows as of and for the year ended December 31, 2003.

Table of Contents**NOTES TO COMBINED FINANCIAL STATEMENTS (Continued)**

As previously discussed, in accordance with federal and state regulations, depreciation expense for the Company's ILEC operations has historically included an additional provision for cost of removal. The additional cost of removal provision does not meet the recognition and measurement principles of an asset retirement obligation under SFAS No. 143. In December 2002, the FCC notified ILECs that they should not adopt the provisions of SFAS No. 143 unless specifically required by the FCC in the future. As a result of the FCC ruling, the Company continues to record a regulatory liability for cost of removal for its ILEC operations that follow the accounting prescribed by SFAS No. 71.

For the acquired Kentucky and Nebraska ILEC operations not subject to SFAS No. 71, effective January 1, 2003, the Company ceased recognition of the cost of removal provision in depreciation expense and eliminated the cumulative cost of removal included in accumulated depreciation. The effect of these changes in 2003 was to decrease depreciation expense by \$6.4 million and increase income before cumulative effect of accounting change by \$4.0 million. The cumulative effect of retroactively applying these changes to periods prior to January 1, 2003, resulted in a non-cash credit of \$15.6 million, net of income tax expense of \$10.3 million, and was included in net income for the year ended December 31, 2003.

3. Goodwill and Other Intangible Assets:

The carrying amount of goodwill by business segment was unchanged during the two year period ended December 31, 2005 and was as follows:

| | Wireline | Product Distribution | Totals |
|---------------------------------------|-------------------|---------------------------------|---------------|
| | (Millions) | | |
| Balance at December 31, 2005 and 2004 | \$ 1,218.4 | \$ 0.3 | \$ 1,218.7 |

At December 31, 2005 and 2004, the carrying value of the indefinite-lived wireline franchise rights in the state of Kentucky acquired in 2002 was \$265.0 million.

Intangible assets subject to amortization were as follows at December 31:

| | 2005 | | |
|------------------|-----------------------|-------------------------------------|-----------------------------------|
| | Gross Cost | Accumulated Amortization | Net Carrying Value |
| | (Millions) | | |
| Customer lists | \$ 67.6 | \$ (21.0) | \$ 46.6 |
| Franchise rights | 22.5 | (16.4) | 6.1 |
| | \$ 90.1 | \$ (37.4) | \$ 52.7 |

| | 2004 | | |

| | Gross Cost | Accumulated Amortization | Net Carrying Value |

| | (Millions) | | |
|------------------|------------|-----------|---------|

| Franchise rights | 22.5 | (14.9) | 7.6 |
| | \$ 90.1 | \$ (29.2) | \$ 60.9 |

Intangible assets subject to amortization are amortized on a straight-line basis over their estimated useful lives, which are 10 years for customer lists and 15 years for franchise rights. Amortization expense for intangible assets subject to amortization was \$8.2 million in 2005, \$8.1 million in 2004 and \$8.4 million in 2003. Amortization expense for intangible assets subject to amortization is estimated to be \$8.2 million in each of the years 2006 through 2009 and \$6.8 million in 2010.

Certain of the indentures provide, among other things, for various restrictions on the subsidiaries' payment of dividends to the Parent and redemption of the subsidiaries' capital stock. The subsidiaries are also required to maintain defined amounts in member's equity and working capital after the payment of dividends. Retained earnings of the subsidiaries restricted as to the payment of dividends to the Parent were \$55.5 million at December 31, 2005.

Maturities and sinking fund requirements for the four years after 2005 for long-term debt outstanding as of December 31, 2005, were \$22.1 million, \$23.5 million, \$23.6 million and \$16.4 million, respectively.

5. Financial Instruments:

The Company's financial instruments consist primarily of cash and short-term investments, accounts receivable, trade accounts payable and long-term debt. The carrying amount of cash and short-term investments, accounts receivable and trade accounts payable was estimated by management to approximate carrying value due to the relatively short period of time to maturity for those instruments. The fair values of the Company's long-term debt, including current maturities, was estimated to be approximately \$281.1 million and \$327.7 million at December 31, 2005 and 2004, respectively, compared to a carrying value of \$260.8 million and \$282.9 million at December 31, 2005 and 2004, respectively. The fair value estimates were based on a discounted cash flow of the outstanding long-term debt using the weighted maturities and interest rates currently available in the long-term financing markets.

6. Employee Benefit Plans and Postretirement Benefits Other Than Pensions:

The Parent maintains a qualified defined benefit pension plan, which covers substantially all employees of the Company. Prior to January 1, 2005, employees of ALLTEL Publishing did not participate in the plan. In

Table of Contents**NOTES TO COMBINED FINANCIAL STATEMENTS (Continued)**

December 2005, the qualified defined benefit pension plan was amended such that future benefit accruals for all eligible nonbargaining employees ceased as of December 31, 2005 (December 31, 2010 for employees who had attained age 40 with two years of service as of December 31, 2005). Expenses recorded by the Company related to the pension plan amounted to \$15.1 million in 2005, \$11.3 million in 2004 and \$16.4 million in 2003. These expenses are included in cost of services and selling, general and administrative expenses in the combined statements of operations and comprehensive income. No allocation of the Company's share of the pension plan's assets or liabilities have been included in the accompanying combined balance sheets because the amounts have yet to be actuarially determined.

The Company's Parent has a non-contributory defined contribution plan in the form of profit-sharing arrangements for eligible employees, except bargaining unit employees. The amount of profit-sharing contributions to the plan is determined annually by Alltel's Board of Directors. Profit-sharing expense amounted to \$4.4 million in 2005, \$3.9 million in 2004 and \$4.5 million in 2003. The Company's Parent also sponsors employee savings plans under section 401(k) of the Internal Revenue Code, which cover substantially all full-time employees, except bargaining unit employees. Employees may elect to contribute to the plans a portion of their eligible pretax compensation up to certain limits as specified by the plans. Alltel also makes annual contributions to the plans. Expense recorded by the Company related to these plans amounted to \$1.3 million in both 2005 and 2004 and \$1.5 million in 2003. The expenses charged to the Company related to the profit-sharing and 401(k) plans are included in cost of services and selling, general and administrative expenses in the combined statements of operations and comprehensive income.

The Company also provides postretirement healthcare and life insurance benefits for eligible employees of the Company. Employees share in the cost of these benefits. The Company funds the accrued costs of the postretirement benefit plan as benefits are paid. The components of postretirement expense were as follows for the years ended December 31:

| | Postretirement Benefits | | |
|---|--------------------------------|----------------|----------------|
| | 2005 | 2004 | 2003 |
| | (Millions) | | |
| Benefits earned during the year | \$ | \$ | \$ 0.2 |

| Effects of Medicare subsidy | | (2.2) | |
| Expected return on plan assets | | | |
| Total postretirement benefit expense | \$ 16.7 | \$ 14.5 | \$ 18.1 |

The Company uses a December 31 measurement date for its postretirement benefit plan. The discount rate used to measure postretirement expense was 6.00%, 6.40% and 6.85% for the years ended December 31, 2005, 2004 and 2003, respectively. The discount rate used to measure the projected benefit obligation was 5.70% at December 31, 2005 and 6.00% at December 31, 2004.

For the year ended December 31, 2005, a one percent increase in the assumed healthcare cost trend rate would increase the postretirement benefit cost by approximately \$1.0 million, while a one percent decrease in the rate would reduce the postretirement benefit cost by approximately \$0.8 million. As of December 31, 2005, a one percent increase in the assumed healthcare cost trend rate would increase the postretirement benefit obligation by approximately \$20.2 million, while a one percent decrease in the rate would reduce the postretirement benefit obligation by approximately \$16.9 million.

Under the Medicare Prescription Drug, Improvement and Modernization Act of 2003, (the Act) beginning in 2006, the Act will provide a prescription drug benefit under Medicare Part D, as well as a federal subsidy to plan sponsors of retiree healthcare plans that provide a prescription drug benefit to their participants that is at least actuarially equivalent to the benefit that will be available under Medicare. The amount of the federal subsidy will be based on 28 percent of an individual beneficiary's annual eligible prescription drug costs ranging between \$250 and \$5,000. On May 19, 2004, the FASB issued Staff Position No. 106-2, Accounting and Disclosure Requirements Related to the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (FSP No. 106-2). FSP No. 106-2 clarified that the federal subsidy provided under the Act should be accounted for as an actuarial gain in calculating the accumulated postretirement benefit obligation and annual postretirement expense. As of December 31, 2004, the Department of Health and Human Services had yet to issue final regulations on the determination of actuarial equivalence and the federal subsidy. Based on its current understanding of the Act, the Company determined that a substantial portion of the prescription drug benefits provided under its postretirement benefit plan would be deemed actuarially equivalent to the benefits provided under Medicare Part D. Effective July 1, 2004, the Company prospectively adopted FSP No. 106-2 and remeasured its accumulated postretirement benefit obligation as of that date to account for the federal subsidy, the effects of which resulted in an \$14.2 million reduction in the Company's accumulated postretirement benefit obligation and a \$2.2 million reduction in the Company's 2004 postretirement expense. On January 21, 2005, the Department of Health and Human Services issued final federal regulations related to the federal subsidy. These final rules did not have a material effect on the Company's benefit costs or accumulated postretirement benefit obligation.

7. Stock-Based Compensation Plans:

Under the Parent's stock-based compensation plans, the Parent may grant fixed and performance-based incentive and non-qualified Alltel stock options, restricted stock and other equity securities of Alltel to officers and other management employees of the Company. The maximum number of shares of Alltel's common stock that may be issued to officers and other management employees under all stock option plans in effect at December 31, 2005 was 30.6 million shares. Fixed options granted under the Parent stock option plans generally become exercisable over a

period of one to five years after the date of grant. Certain fixed options granted in 2000 become exercisable in increments of 50%, 25% and 25% over a five-year period beginning three years after the date of grant. For all plans, the exercise price of the option equals the market value of Alltel's common stock on the date of grant. For fixed stock options, the maximum term for each option granted is 10 years.

8. Restructuring and Other Charges:

During 2005, the Company incurred \$4.4 million of severance and employee benefit costs related to a planned workforce reduction in its wireline operations. As further discussed in Note 13, on December 9, 2005, Alltel announced that it would spin-off the Company to its stockholders and merge it with Valor Communications Group, Inc. (Valor). In connection with the spin-off, the Company incurred \$31.3 million of incremental costs during 2005, principally consisting of investment banker, audit and legal fees. As of December 31, 2005, the Company had funded through advances from Parent payment of these expenses, and all of the employee reductions and relocations had been completed.

In January 2004, the Company announced its plans to reorganize its operations and support teams. Also, during February 2004, the Company announced its plans to exit its Competitive Local Exchange Carrier (CLEC) operations in the Jacksonville, Florida market due to the continued unprofitability of these operations. In connection with these activities, the Company recorded a restructuring charge of \$13.6 million consisting of \$11.6 million in severance and employee benefit costs related to a planned workforce reduction, \$1.3 million of employee relocation expenses and \$0.7 million of other exit costs. As of December 31, 2004, the Company had funded through advances from Parent payment of the restructuring expenses, and all of the employee reductions and relocations had been completed. During 2004, the Company also recorded a \$1.8 million reduction in the liabilities associated with various restructuring activities initiated prior to 2003, consisting of lease and contract termination costs. The reduction primarily reflected differences between estimated and actual costs paid in completing the previous planned lease and contract terminations.

A summary of the restructuring and other charges recorded in 2003 was as follows:

| | Wireline | Other Operations | Total |
|--|---------------|---------------------|----------------|
| | (Millions) | | |
| Severance and employee benefit costs | \$ 7.0 | \$ | \$ 7.0 |
| Lease termination costs | | (0.4) | (0.4) |
| Write-down of software development costs | 1.8 | 3.8 | 5.6 |
| Total restructuring and other charges | \$ 8.8 | \$ 3.4 | \$ 12.2 |

During 2003, the Company recorded a restructuring charge of \$7.0 million consisting of severance and employee benefit costs related to a planned workforce reduction, primarily resulting from the closing of certain call center locations. As of December 31, 2004, the Company had funded through advances from Parent payment of the restructuring expenses, and all of the employee reductions had been completed. The Company also recorded a \$0.4 million reduction in the liabilities associated with various restructuring activities initiated prior to 2003, consisting of lease termination costs. The reduction primarily reflected differences between estimated and actual costs paid in completing the previous planned lease terminations. During 2003, the Company also wrote off certain capitalized software development costs that had no alternative future use or functionality.

9. Gain on Disposal of Assets and Other:

In December 2003, the Company sold to Convergys Information Management Group, Inc. (Convergys) certain assets and related liabilities, including selected customer contracts and capitalized software development costs, associated with the Company s telecommunications information services operations. In connection with this sale, the Company recorded a pretax gain of \$31.0 million. In addition, during the second quarter of 2003, the Company retired, prior to stated maturity dates, \$249.1 million of long-term debt, representing all of the long-term debt outstanding under the Rural Utilities Services, Rural Telephone Bank and Federal Financing Bank programs. In connection with the early retirement of the debt, the Company incurred pretax termination fees of \$7.1 million. These transactions increased net income \$10.7 million.

The Company is included in the consolidated federal income tax return filed by Alltel. As a result, income tax expense and related income tax balances included in the accompanying combined financial statements have been calculated as if the Company had operated as a separate entity.

Income tax expense (benefit) was as follows for the years ended December 31:

| | 2005 | 2004 | 2003 |
|------------------|-------------------|-------------|-------------|
| | (Millions) | | |
| Current: | | | |
| Federal | \$ 215.5 | \$ 155.0 | \$ 124.4 |

| | (3.5) | 67.2 | 92.4 |
| | \$ 267.9 | \$ 259.4 | \$ 247.1 |

Deferred income tax expense (benefit) for all three years primarily resulted from temporary differences between depreciation expense for income tax purposes and depreciation expense recorded in the financial statements. Deferred income tax expense for 2005, 2004 and 2003 also included the effects of no longer amortizing indefinite-lived intangible assets for financial statement purposes in accordance with SFAS No. 142. These intangible assets continue to be amortized for income tax purposes. Differences between the federal income tax statutory rates and effective income tax rates, which include both federal and state income taxes, were as follows for the years ended December 31:

| | 2005 | 2004 | 2003 |
|---|-------------|-------------|-------------|
| Statutory federal income tax rates | 35.0% | 35.0% | 35.0% |
| Increase (decrease): | | | |

| Other items, net | 0.5 | 0.4 | (0.2) |
| Effective income tax rates | 41.3% | 40.2% | 39.6% |

The significant components of the net deferred income tax liability were as follows at December 31:

At December 31, 2005 and 2004, total deferred tax assets were \$42.2 million and \$31.3 million, respectively, and total deferred tax liabilities were \$712.2 million and \$711.5 million, respectively.

11. Commitments and Contingencies:

Lease Commitments Minimum rental commitments for all non-cancelable operating leases, consisting principally of leases for network facilities, real estate, office space, and office equipment were as follows as of December 31, 2005:

Litigation The Company is party to various legal proceedings arising from the ordinary course of business. Although the ultimate resolution of these various proceedings cannot be determined at this time, management of the Company does not believe that such proceedings, individually or in the aggregate, will have a material adverse effect on the future combined results of operations, cash flows or financial condition of the Company.

12. Business Segments:

The Company disaggregates its business operations based upon differences in products and services. The Company's wireline subsidiaries provide local service and network access in 15 states. Wireline operations also include the Company's local competitive access and Internet access operations. Competitive Local Exchange Carrier (CLEC) services are currently provided on both a facilities-based and resale basis in four states. Internet access services are currently marketed in 17 states. Both ILEC and Internet services are provided to customers utilizing the Company's existing network infrastructure. For the Company, Internet service is an additional product offering provided to ILEC and CLEC customers and does not represent a separate line of business. Accordingly, the Company manages its wireline-based services as a single operating segment. In assessing operating performance and allocating resources within the wireline business, the segment manager's focus is at a level that consolidates the results of the ILEC, CLEC and Internet operations. The Company does not have separate segment managers overseeing its ILEC, CLEC or Internet operations. In addition, incentive-based compensation for the wireline segment manager is directly tied to the combined operating results of the ILEC, CLEC and Internet operations.

The Company's product distribution subsidiary is a distributor of telecommunications equipment and materials and operates four warehouses and four counter-sales showrooms across the United States. Other operations consist of the Company's directory publishing, long-distance and telecommunications information services operations. The Company's publishing subsidiary coordinates advertising, sales, printing, and distribution for 386 telephone directory contracts in 36 states. Long-distance services are currently marketed in 25 states. The telecommunications information services operations provide application software, data processing and outsourcing services to telecommunications companies in the United States and select international markets.

Table of Contents**NOTES TO COMBINED FINANCIAL STATEMENTS (Continued)**

The accounting policies used in measuring segment assets and operating results are the same as those described in Note 1. The Company accounts for intercompany sales at current market prices or in accordance with regulatory requirements. The Company evaluates performance of the segments based on segment income, which is computed as revenues and sales less operating expenses, excluding the effects of the restructuring and other charges discussed in Note 8. In addition, none of the non-operating items such as other income, net, gain on disposal of assets, debt prepayment penalties, interest expense and income taxes have been allocated to the segments.

Table of Contents**NOTES TO COMBINED FINANCIAL STATEMENTS (Continued)****13. Pending Spin-Off of Company and Merger with Valor Communications Group, Inc.:**

On December 9, 2005, Alltel announced that its board of directors had approved the spin-off of the Company's wireline telecommunications business to its stockholders and the merger of that wireline business with Valor. Pursuant to the plan of distribution and immediately prior to the effective time of the merger with Valor described below, Alltel will contribute all of the assets of the Company to ALLTEL Holding Corp. (Alltel Holding or Spinco), a wholly owned subsidiary of Alltel, in exchange for: (i) the issuance to Alltel of Spinco common stock to be distributed pro rata to Alltel's stockholders as a tax free stock dividend, (ii) the payment of a special dividend to Alltel in an amount not to exceed Alltel's tax basis in Spinco, and (iii) the distribution by Spinco to Alltel of certain Spinco debt securities, which Alltel intends to exchange for outstanding debt securities of Alltel or otherwise transfer to Alltel's creditors. Prior to the distribution and merger with Valor, Spinco will borrow approximately \$3.978 billion (the Spinco financing amount) through a new senior credit agreement, the issuance of high yield debt securities in the private placement market to pay the special dividend and to distribute debt securities to Alltel in an amount equal to the difference between the Spinco financing amount and the special dividend. Alltel has received a commitment letter from various financial institutions to provide Spinco with up to \$4.2 billion in senior secured credit facilities comprised of term loan facilities in an aggregate amount of up to \$3.7 billion and a revolving credit facility of up to \$500 million. Immediately after the consummation of the spin-off, Alltel Holding will merge with and into Valor, with Valor continuing as the surviving corporation. As a result of the merger, all of the issued and outstanding shares of Spinco common stock will be converted into the right to receive an aggregate number of shares of common stock of Valor that will result in Alltel's stockholders holding 85 percent of the outstanding equity interests of the surviving corporation immediately after the merger and the stockholders of Valor holding the remaining 15 percent of such equity interests. To effect the merger, Valor will issue approximately 405 million shares of its common stock to the shareholders of Alltel and assume approximately \$4.2 billion of long-term debt. As a result of this transaction, Alltel shareholders will continue to own one share of the remaining wireless entity and will receive approximately 1.04 shares of Valor common stock for each share of Alltel common stock they currently own.

Including the effects on interest expense that would result from the issuance of the long-term debt obligations discussed above, the Company's net income for the year ended December 31, 2005 would have been reduced to the following pro forma amount:

| | 2005 |
|--|--------------------|
| | (Unaudited) |
| | (Millions) |
| Net income as reported | \$ 374.3 |
| Pro forma interest expense, net of related tax effects | (107.4) |
| Pro forma net income | \$ 205.7 |

The pro forma interest expense was calculated based upon the assumed financing of the Company of \$3.978 billion to fund the dividend payable of \$2.275 billion to the Parent and to distribute debt securities of \$1.703 billion to Alltel (which includes \$30 million to be paid in related fees) at an interest rate of 6.938 percent, net of tax of \$107.7 million.

Immediately prior to the effective date of the spin-off, Alltel will transfer to Alltel Holding property, plant and equipment (net book value of \$109.6 million at December 31, 2005), pension assets (currently estimated to be \$207.9 million), additional other postretirement liabilities (currently estimated to be \$7.4 million) and deferred compensation obligations (currently estimated to be \$14.8 million) related to the wireline operations and associated net deferred income tax assets (currently estimated to be \$103.1 million). Conversely, Alltel Holding will transfer to

Alltel certain income tax contingency reserves that will be retained by Alltel pursuant to the distribution agreement (\$11.9 million at December 31, 2005), as well as the residual foreign currency translation adjustment (\$0.5 million at December 31, 2005), because the underlying international assets which gave rise to the translation adjustment will be retained by Alltel following the spin-off. The actual carrying values of the transferred

F-40

Table of Contents

NOTES TO COMBINED FINANCIAL STATEMENTS (Continued)

assets and liabilities will be determined as of the date of the spin-off. As a result, these carrying values may change, and such change may be material.

Upon the spin-off of the wireline business, unvested options held by wireline employees will be replaced with restricted shares of Valor common stock based on the underlying intrinsic value of the Alltel stock options. As of December 31, 2005, wireline employees held vested options to purchase approximately 1.8 million shares of Alltel common stock.

Consummation of the merger is subject to certain conditions, including the approval of the merger by the stockholders of Valor, receipt of a favorable ruling from the IRS regarding the tax-free status of the distribution, special dividend, debt exchange and merger transaction, consummation of the Spinco financing, and the receipt of regulatory approvals, including, without limitation, the approval of the FCC and multiple state public service commissions. The transaction is expected to close by mid-year 2006. The merger agreement contains certain termination rights for each of Alltel and Valor and further provides that, upon termination of the merger agreement under specified circumstances involving an alternative transaction, Valor may be required to pay Alltel a termination fee of \$35.0 million. Conversely, Alltel may be required to pay Valor a termination fee of (i) \$35.0 million if Valor terminates the merger agreement because of a material breach by Alltel or Spinco that results in the failure of the parties to obtain the Spinco financing or any party terminates the merger agreement after December 8, 2006 and at the time of termination all conditions have been satisfied other than the Spinco financing condition and (ii) \$20.0 million if Valor terminates the merger agreement because of a material breach by Alltel or Spinco that results in the failure of the parties to obtain the required IRS rulings or tax opinions or any party terminates the merger agreement after December 8, 2006 and at the time of termination all conditions have been satisfied other than the IRS ruling or tax opinion conditions.

6.15 Material Contracts.

(a) Except for this Agreement, each other Transaction Agreement, the Spinco Credit Agreement, the Indenture governing the Spinco Notes, the Voting Agreement, the Spinco Benefit Plans and except as filed as an exhibit to any AT Co. (a) Section 6.19(a) of the Spinco Disclosure Letter sets forth the address and description of all Real Property that is, or following the Contribution will be, Spinco Owned Real Property, the loss of which would be material and adverse to the Spinco Business as a whole. With respect to such Spinco Owned Real Property: (A) except as set forth in Section 6.19(a) of the Spinco Disclosure Letter, Spinco or Spinco Subsidiaries have not leased or otherwise granted to any Person the right to use or occupy such Spinco Owned Real Property or any material portion thereof; and (B) other than the right of the Company pursuant to this Agreement, there are no outstanding options, rights of first offer or rights of first refusal to purchase such Spinco Owned Real Property or any material portion thereof or interest therein.

(b) Section 6.19(b) of the Spinco Disclosure Letter sets forth the address of all Spinco Leased Real Property, the loss of which would be material and adverse to the Spinco Business as a whole, and a true and complete list of all Spinco Leases for such properties (including all amendments, extensions, renewals, guaranties and other agreements with respect thereto) for each such Spinco Leased Real Property. (b) Each Spinco License is, or will be on the Distribution Date, valid and in full force and effect and has not been, or will not have been, suspended, revoked, cancelled or adversely modified, except where the failure to be in full force and effect, or the suspension, revocation, cancellation or modification of which has not had or would not reasonably be expected to have, individually or in the aggregate, a Material Adverse Effect on Spinco. No Spinco License is subject to (i) any conditions or requirements that have not been imposed generally upon licenses in the same service, unless such conditions or requirements would not reasonably be expected to have, individually or in the aggregate, a Material Adverse Effect on Spinco, or (ii) any pending regulatory proceeding (other than those affecting the wireline industry generally) or judicial review before a Governmental Authority, unless such pending regulatory proceedings or judicial review would not reasonably be expected to have, individually or in the aggregate, a Material Adverse Effect on Spinco. Neither AT Co. nor Spinco has knowledge of any event, condition or circumstance that would preclude any Spinco License from being renewed in the ordinary course (to the extent that such Spinco License is renewable by its terms), except where the failure to be renewed has not had or would not reasonably be expected to have, individually or in the aggregate, a Material Adverse Effect on Spinco.

(c) The licensee of each Spinco License is, or on the Distribution Date will be in compliance with each Spinco License and has fulfilled and performed, or will fulfill or perform, all of its material obligations with respect thereto, including all reports, notifications and applications required by the Communications Act or the rules, regulations, policies, instructions and orders of the FCC (the FCC Rules) or similar rules, regulations, policies, instructions and orders of State Regulators and the payment of all regulatory fees, except (i) for exemptions, waivers or similar concessions or allowances and (ii) where such failure to be in compliance, fulfill or perform its obligations or pay such fees or contributions has not had, or would not reasonably be expected to have, individually or in the aggregate, a Material Adverse Effect on Spinco.

(d) Spinco or a wholly owned Spinco Subsidiary owns, or on the Distribution Date will own, one hundred percent (100%) of the equity and controls, or on the Distribution Date will control, one hundred percent (100%) of

Spinco is a direct, wholly owned Subsidiary of AT Co. that, subject to the terms of the Distribution Agreement, following the Contribution will own, directly or indirectly, the Spinco Assets, and will have assumed, directly or indirectly, the Spinco Liabilities, all as provided in the Distribution Agreement.

6.22 Opinion of Spinco Financial Advisor. Spinco and AT Co., as the sole stockholder of Spinco, have received the written opinions of Merrill Lynch, Pierce, Fenner & Smith Incorporated, JP Morgan Securities Inc. and Stephens, Inc., to the effect that, as of the date hereof the Exchange Ratio (as defined therein) is fair from a financial point of view to holders of AT Co. SEC Documents, there are no transactions or Contracts of the type that would be required to be disclosed by Spinco under Item 404 of Regulation S-K if Spinco were a company subject to such Item between or among (a) AT Co., Spinco or any Spinco Subsidiary, on the one hand, and (b) Jeffrey R. Gardner or Francis X. Frantz, on the other hand.

The Company agrees that it will immediately cease and cause to be terminated any existing activities, discussions or negotiations with any Persons conducted heretofore with respect to any Company Acquisition Proposal (except with respect to the transactions contemplated by this Agreement).

(b) Notwithstanding the foregoing, nothing contained in this Agreement shall prevent the Company or the Company's Board of Directors from, prior to the adoption of this Agreement by the holders of Company Common Stock, engaging in any discussions or negotiations with, or providing any non-public information to, any Person, if and only to the extent that (i) the Company receives from such Person an unsolicited bona fide Company Superior Proposal or a Company Acquisition Proposal that the Company's Board of Directors determines in good faith could lead to a Company Superior Proposal, (ii) the Company's Board of Directors determines in good faith (after consultation with its legal advisors) that its failure to do so would be inconsistent with the Company's Board of Directors' fiduciary duties under applicable Law, (iii) prior to providing any information or data to any Person in connection with a proposal by any such Person, the Company's Board of Directors receives from such Person an executed confidentiality agreement substantially similar to the Confidentiality Agreement and (iv) prior to providing any non-public information or data to any Person or entering into discussions or negotiations with any Person, the Company's Board of Directors notifies AT Co. promptly of any such inquiry, proposal or offer received by, any such information requested from, or any such discussions or negotiations sought to be initiated or continued with, the Company, any Company Subsidiary or any of their officers, directors, employees, advisors and agents indicating, in connection with such notice, the material terms and conditions of the Company Acquisition Proposal and the identity of the Person making such Company Acquisition Proposal. Table of Contents

(c) Prior to the adoption of this Agreement by the holders of Company Common Stock, the Board of Directors of the Company may, if it concludes in good faith (after consultation with its legal advisors) that failure to do so would be inconsistent with its obligations to comply with its fiduciary duties under applicable Law, withdraw its recommendation of the Merger, but only at a time that is after the third business day following AT Co.'s receipt of written notice from the Company advising AT Co. of its intention to do so.

(d) Nothing in this Agreement shall prohibit the Company from taking and disclosing to its stockholders a position contemplated by Rule 14e-2(a) promulgated under the Exchange Act or from making any disclosure to the Company stockholders if, in the good faith judgment of the Board of Directors of the Company (after consultation with its legal advisors), it is required to do so in order to comply with its fiduciary duties to the Company's stockholders under applicable Law; provided, however, that neither the Company nor its Board of Directors nor any committee thereof shall approve or recommend, or propose publicly to approve or recommend, a Company Acquisition Proposal unless the Company has first terminated this Agreement pursuant to Section 11.1(h) hereof and has otherwise complied with the provisions thereof.

8.13 Director and Officer Indemnification: Insurance.

(a) From and after the Effective Time, the Surviving Corporation shall, for a period of six years after the Effective Time, indemnify, defend and hold harmless to the fullest extent permitted by applicable Law each person who is, or has been at any time prior to the Effective Time, an officer or director of the Company or Spinco and each person who served at the request of the Company or Spinco as a director, officer, trustee or fiduciary of another corporation, partnership, joint venture, trust, pension or other employee benefit plan or enterprise, including any person serving in such capacity at the request of AT Co. with respect to Spinco or a Spinco Subsidiary (individually, an Indemnified Party and, collectively, the Indemnified Parties) against all losses, claims, damages, liabilities, costs and expenses (including attorneys' fees), judgments, fines, penalties and amounts paid in settlement with approval of the indemnifying party (which approval shall not be unreasonably withheld, conditioned or delayed) in connection with any claim, action, suit, proceeding or investigation arising out of or pertaining to acts or omissions, or alleged acts or omissions, by them in their capacities as such, whether commenced, asserted or claimed before or after the Effective Time. In the event of any such claim, action, suit, arbitration, proceeding or investigation (Action): (i) the Surviving Corporation shall pay, as incurred, the reasonable fees and expenses of counsel selected by the Indemnified Party, which counsel shall be reasonably acceptable to the Surviving Corporation, in advance of the final disposition of any such Action to the fullest extent permitted under applicable Law upon receipt of an undertaking to repay such amounts in the event it is determined that such person is not entitled to be indemnified under applicable Law, and (ii) the Surviving Corporation will provide reasonable cooperation in the defense of any such Action; provided, however, the Surviving Corporation shall not be liable for any settlement effected without its written consent (which consent shall not be unreasonably withheld, conditioned or delayed), and provided further, that the Surviving Corporation shall not be obligated pursuant to this Section 8.12(a) to pay the fees and disbursements of more than one counsel for all Indemnified Parties in a single Action, unless, in the good faith judgment of any of the Indemnified Parties, there is or may be a conflict of interests between two or more of such Indemnified Parties, in which case there may be separate counsel for each similarly situated group (which counsel shall be reasonably acceptable to the Surviving Corporation). In the event of any Action, any Indemnified Party wishing to claim indemnification will promptly notify the Surviving Corporation thereof (provided, that failure to so notify the Surviving Corporation will not affect the obligations of the Surviving Corporation except to the extent that the Surviving Corporation shall have been prejudiced as a result of such failure). Notwithstanding the foregoing, nothing contained in this Section 8.12 shall be deemed to grant any right to any Indemnified Party which is not permitted to be granted to an officer or director of the Surviving Corporation under Delaware law, assuming for such purposes that the Surviving Corporation's Amended and Restated Certificate of Incorporation and Amended and Restated Bylaws provide for the maximum indemnification permitted by Law.

(b) Without limiting the rights that any Indemnified Party may have under applicable Law, the parties agree that all rights of indemnification existing as of the date hereof as provided in the respective certificate of incorporation and bylaws of the Company and Spinco shall survive the Merger and shall continue in full force and effect in accordance with their terms for a period of six years following the Effective Time.

Table of Contents

(c) For a period of six years following the Effective Time, the Surviving Corporation shall cause to be maintained directors and officers liability insurance policies covering the Indemnified Parties; provided that with respect to any Indemnified Party who is or at any time prior to the Effective Time was covered by AT Co.'s existing directors and officers liability insurance policies, such coverage shall be on terms substantially no less advantageous to the Indemnified Parties than such insurance with respect to claims arising from facts or events that occurred up to and including the Effective Time to the extent available; provided, however, that the Surviving Corporation may substitute therefor policies of at least the same coverage and amounts containing terms and conditions that are no less advantageous to the covered persons; provided further, that the Surviving Corporation shall not be required to pay an annual premium for such insurance in excess of \$2,000,000.

(d) This Section 8.12 is intended to be for the benefit of, and shall be enforceable by, the persons for whom indemnification is provided pursuant to this Section 8.12, their heirs and personal representatives, and shall be binding on Spinco and the Company and their respective successors and assigns.

Spinco shall furnish such information and documents as the Company may reasonably request for the purpose of reviewing such list. Spinco shall use all reasonable best efforts to cause each person who is identified as a Rule 145 Affiliate in the list furnished pursuant to this Section 8.14 to execute a written agreement (each, a Rule 145 Affiliate Agreement), substantially in the form of Exhibit F to this Agreement, at or prior to the Effective Time.

None of AT Co., Spinco or the Company shall settle any such action, suit or proceeding or fail to perfect on a timely basis any right to appeal any judgment rendered or order entered against such party therein without having previously consulted with the other parties. Each of AT Co., Spinco and the Company shall use all reasonable best efforts to cause each of its Affiliates, directors and officers to use all reasonable best efforts to defend any such action, suit or proceeding in which such Affiliate, director or officer is named as a defendant and which seeks any such relief to comply with this Section 8.16 to the same extent as if such Person was a party.

(c) Each of the parties hereto shall keep the others informed on a timely basis as to the status of the transactions contemplated by the Transaction Agreements and the obtaining of all necessary and appropriate exemptions, rulings, consents, authorizations and waivers related thereto.

No representation is made as to any person other than a Specified Fund Shareholder, including any direct or indirect partner of a Specified Fund Shareholder.

10.2 Restrictions Relating to the Distribution.

(a) Neither the Company, nor the Surviving Corporation shall, nor shall the Company or the Surviving Corporation permit any of its Subsidiaries to, take any action, including entering into any agreement, understanding or arrangement or any substantial negotiations with respect to any transaction or series of transactions that would cause a Distribution Disqualification to occur (any such action, a Disqualifying Action); provided, however, that the term Disqualifying Action shall not include (i) any action that is taken pursuant to the terms of the Transaction Agreements, (ii) any action that would not have caused a Distribution Disqualification to occur but for an AT Co. Action, (iii) for the avoidance of doubt, any action taken by Spinco or any of its Subsidiaries prior to the Distribution, (v) any action taken solely to mitigate the adverse effects on the Tax-Free Status of the Transactions of a breach by Spinco, occurring prior to the Distribution, of a representation, warranty or covenant contained in the Transaction Agreements, regardless of whether such breach or its effects continue after the Distribution.

(b) Except as otherwise provided in subsection (c) or (g) of this Section 10.2, until the first day after the second anniversary of the Distribution Date, the Surviving Corporation shall not, nor shall the Surviving

Corporation permit any of its Subsidiaries to, take any action (including entering into any agreement, understanding or arrangement or any substantial negotiations with respect to any transaction or series of transactions) that might cause a Distribution Disqualification to occur (any such action or failure to act, a Potential Disqualifying Action), including any action or failure to act that might be inconsistent with any representation made in the Tax Materials, unless, prior to the taking of the Potential Disqualifying Action, AT Co. has delivered to the Surviving Corporation a written determination, in its reasonable discretion, which discretion shall be exercised in good faith solely to preserve the Tax-Free Status of the Transactions, that the Potential Disqualifying Action would not jeopardize the Tax-Free Status of the Transactions.

(c) Until the first day after the second anniversary of the Distribution Date, the Surviving Corporation shall not enter into any agreement, understanding or arrangement or any substantial negotiations with respect to any transaction (including a merger to which the Surviving Corporation is a party) involving the acquisition (including by the Surviving Corporation or any of its Subsidiaries) of common stock of the Surviving Corporation and shall not issue any additional shares of capital stock or transfer or modify any options, warrants, convertible obligations or other instrument that provides for the right or possibility to issue, redeem or transfer any shares of capital stock of the Surviving Corporation (or enter into any agreement, understanding, arrangement or any substantial negotiations with respect to any such issuance, transfer or modification), except to the extent that all such agreements, understandings, arrangements, substantial negotiations and other issuances, taken together, do not involve a direct or indirect acquisition by any Person or Persons of more than 71,130,989 shares of the stock of the Surviving Corporation (as adjusted to take into account any stock split, stock dividend, recapitalization, reclassification or similar transaction with respect to the stock of the Surviving Corporation). Notwithstanding the foregoing,

(i) the Surviving Corporation may issue additional shares of common stock of the Surviving Corporation to a person in a transaction to which Section 83 or Section 421(a) or (b) of the Code applies (or options to acquire stock in such a transaction) in connection with the person's performance of services as an employee, director or independent contractor of AT Co., the Company, the Surviving Corporation, any of their respective Subsidiaries, or any other person that is related to AT Co., the Company or the Surviving Corporation under Section 355(d)(7)(A) of the Code or a corporation the assets of which the Surviving Corporation or Subsidiary acquires in a reorganization under Section 368 of the Code (including Spinco or any of its Subsidiaries), provided that such stock is not excessive by reference to the services performed by such person and such person or a coordinating group of which the person is a member will not be a controlling shareholder or a ten-percent shareholder of the Surviving Corporation (within the meaning of Treasury Regulations Section 1.355-7(h)(3) and (8)) immediately after the issuance of such common stock; and

(ii) the Surviving Corporation may issue additional shares of common stock of the Surviving Corporation to a retirement plan of the Surviving Corporation or any other person that is treated as the same employer as the Surviving Corporation under Section 414(b), (c), (m), or (o) of the Code that qualifies under Section 401(a) or 403(a) of the Code, provided that the stock acquired by all of the qualified plans of the Surviving Corporation and such other persons during the four-year period beginning two years before the Distribution Date does not, in the aggregate, represent more than ten percent of the total combined voting power of all classes of stock of the Surviving Corporation entitled to vote or more than ten percent of the total value of shares of all classes of stock of the Surviving Corporation.

(d) Until the first day after the second anniversary of the Distribution Date, the Surviving Corporation shall not, and shall not permit any of its Subsidiaries to, repurchase any shares of common stock of the Surviving Corporation except to the extent consistent with the requirements of Revenue Procedure 96-30.

(e) Until the first day after the second anniversary of the Distribution Date, the Surviving Corporation shall cause its wholly-owned Subsidiaries that were wholly-owned Subsidiaries of Spinco at the time of the Distribution (other than those set forth on Spinco Schedule 10.2(e)) to continue the active conduct of the Spinco Business to the extent so conducted by those Subsidiaries immediately prior to the Distribution. The Surviving Corporation shall cause those Subsidiaries to continue the active conduct of the Spinco Business

primarily through officers and employees of the Surviving Corporation or any of its Subsidiaries (and not primarily through independent contractors).

(f) Until the first day after the second anniversary of the Distribution Date, the Surviving Corporation shall not voluntarily dissolve, liquidate, merge or consolidate with any other person, unless (i) in the case of a merger or consolidation, the Surviving Corporation is the survivor of the merger or consolidation or (ii) prior to undertaking such action, AT Co. has delivered to the Surviving Corporation a written determination, in its reasonable discretion, which discretion shall be exercised in good faith solely to preserve the Tax-Free Status of the Transactions, that such action would not jeopardize the Tax-Free Status of the Transactions.

(g) Permitted Actions and Transactions. Notwithstanding the foregoing, the provisions of this Section 10.2 shall not prohibit the Surviving Corporation from implementing any Potential Disqualifying Action upon which the IRS has granted a favorable ruling to AT Co. or the Surviving Corporation. Any such ruling will be treated as favorable for purposes of this Section 10.2(f) only if the Potentially Disqualifying Action is described in reasonable detail in such ruling and it is clear on the face of such ruling that such Potentially Disqualifying Action may be implemented without jeopardizing the Tax-Free Status of the Transactions.

10.3 Cooperation and Other Covenants.

(a) Notice of Subsequent Actions. From and after the Effective Time, each of Spinco and the Company, on the one hand, and AT Co., on the other hand, shall furnish the other with a copy of any ruling requests or other documents delivered to the IRS that relate to the Distribution or that otherwise reasonably could be expected to have an impact on the Tax-Free Status of the Transactions; provided, that each party may redact from any IRS Submission or other documents any Redactable Information.

(b) Certain Post-Closing Actions Requested by AT Co. After the Distribution Date, if reasonably requested by AT Co., the Surviving Corporation will take an action (or fail to take an action) to mitigate the effects of a breach by Spinco prior to the Distribution Date of a representation or covenant in this Article X; provided that (i) the Surviving Corporation's obligations under this Section 10.3(b) are subject to AT Co.'s agreement to pay and indemnify the Surviving Corporation against all reasonable costs and expenses of taking or refraining from taking such action and (ii) any such action (or failure to take such action), even if reasonably requested, does not and will not adversely impact in any material respect the business, operations or financial condition of the Surviving Corporation or any of its Subsidiaries or divisions. No action taken pursuant to this Section 10.3(b) shall be treated as a Disqualifying Action or a Potential Disqualifying Action. Except as provided in this Section 10.3(b), the Surviving Corporation and its Subsidiaries shall have no duty to take any action to mitigate the effects of a breach by Spinco or its Subsidiaries prior to the Distribution of a representation or covenant contained in this Article X.

10.4 Indemnification for Disqualifying Actions.

(a) General. Notwithstanding any other provision of this Agreement or any provision of any of the Tax Sharing Agreement to the contrary, if there is a Final Determination that a Distribution Disqualification has occurred, then the Surviving Corporation shall indemnify, defend and hold harmless AT Co. and the AT Co. Subsidiaries (or any successor to any of them) from and against any and all (A) Taxes imposed pursuant to a Final Determination and (B) accounting, legal and other professional fees and court costs incurred in connection with such Taxes (other than such costs incurred in the joint defense of a Third-Party Claim, which costs are subject to Section 10.5(e) below), (C) costs and expenses that result from adverse tax consequences to AT Co. or AT Co.'s stockholders (including all costs, expenses and damages associated with stockholders litigation or controversies) and (D) all Taxes resulting from indemnification payments hereunder (collectively, Tax-Related Losses), incurred by AT Co. to the extent that the Distribution Disqualification is caused by any Disqualifying Action taken by the Surviving Corporation or any of its Subsidiaries after the Distribution Date.

(b) Exceptions to Indemnification.

(i) If AT Co. delivers to the Surviving Corporation a written determination, pursuant to any clause of Section 10.2, that a Potential Disqualifying Action or other action described in Section 10.2 would not

jeopardize the Tax-Free Status of the Transactions, then the Surviving Corporation shall have no obligation to indemnify AT Co. in respect of such Potentially Disqualifying Action or other action pursuant to Section 10.4(a), except to the extent that a Disqualifying Action results from the inaccuracy, incorrectness or incompleteness of any representation provided by the Surviving Corporation to AT Co. in respect of that determination.

(ii) The Surviving Corporation shall have no obligation to indemnify AT Co. pursuant to Section 10.4(a) in respect of any action or transaction that is permitted to be taken without the consent of AT Co. under Section 10.2, except to the extent that, in the case of an action permitted pursuant to a ruling described in Section 10.2(g), a Disqualifying Action results from the inaccuracy, incorrectness or incompleteness of any representation provided by the Surviving Corporation to the IRS in connection with such ruling.

(iii) The Surviving Corporation shall have no obligation to indemnify AT Co. pursuant to Section 10.4(a) in respect of any item of income, gain, deduction or loss arising in respect of or as a result of the Preliminary Restructuring, including an intercompany transaction pursuant to Section 1.1502-13 of the Treasury Regulations, an excess loss account pursuant to Section 1.1502-19 of the Treasury Regulations or any similar item, in each case, resulting from such Preliminary Restructuring, or any item that is includable in income without regard to the Tax-Free Status of the Transactions because such item is attributable to a predecessor of AT Co. or Spinco, within the meaning of Section 355(e)(4)(D) of the Code.

(iv) Nothing contained in this Article X shall be interpreted as requiring the Surviving Corporation to indemnify AT Co. against any Tax-Related Loss to the extent that such Tax-Related Loss arises from the recognition of taxable income or gain by AT Co. or any AT Co. Affiliate on the Distribution as a result of (A) any deemed sale of Spinco stock attributable to such stock being treated for federal income tax purposes as not having been distributed to AT Co. stockholders or (B) any failure by AT Co. to distribute an amount of Spinco stock constituting control of Spinco within the meaning of Section 368(c) of the Code as a result of any deemed sale described in clause (A).

(c) Timing and Method of Tax Indemnification Payments. The Surviving Corporation shall pay any amount that is due and payable to AT Co. pursuant to this Section 10.4 on or before the ninetieth (90th) day following the earlier of the date of an agreement of the parties or the date of a Final Determination that such amount is due and payable to AT Co. All payments pursuant to this Section 10.4 shall be made by wire transfer to the bank account designated by AT Co. for such purpose, and, on the date of such wire transfer, the Surviving Corporation shall give AT Co. notice of the transfer.

(d) Prior Period Agreements. Except for the Tax Sharing Agreement, any and all existing Tax Sharing agreements and practices regarding Taxes and their payment, allocation or sharing between (i) AT Co. or any Subsidiary of AT Co. other than Spinco or a Subsidiary of Spinco, on the one hand, and (ii) Spinco or any Subsidiary of Spinco, on the other hand, shall be terminated with respect to Spinco and all Subsidiaries of Spinco as of the Distribution Date, and no remaining liabilities thereunder shall exist thereafter.

10.5 Procedure for Indemnification for Tax Liabilities.

(a) If AT Co. receives notice of the assertion of any Third-Party Claim with respect to which the Surviving Corporation may be obligated under Section 10.4(a) to provide indemnification, AT Co. shall give the Surviving Corporation notice thereof (together with a copy of such Third-Party Claim, process or other legal pleading) promptly after becoming aware of such Third-Party Claim; provided, however, that the failure of AT Co. to give notice as provided in this Section shall not relieve the Surviving Corporation of its obligations under Section 10.4, except to the extent that the Surviving Corporation is actually prejudiced by such failure to give notice. Such notice shall describe such Third-Party Claim in reasonable detail.

(b) AT Co. and the Surviving Corporation shall jointly control the defense of, and cooperate with each other with respect to defending, any Third-Party Claim with respect to which the Surviving Corporation may be obligated under Section 10.4 to provide indemnification; provided that the Surviving Corporation shall forfeit such joint control right with respect to a particular Third-Party Claim if the Surviving Corporation or any Affiliate of the Surviving Corporation makes any public statement or filing, or takes any action (including the filing of any submission or pleading, or the giving of a deposition or production of documents, in any

administrative or court proceeding) in connection with such Third-Party Claim that is inconsistent in a material respect with any representation or warranty made by Spinco in this Agreement or the Tax Materials and provided, further that AT Co. shall forfeit such joint control right with respect to a particular Third-Party Claim if the AT Co. or any Affiliate of AT Co. makes any public statement or filing, or takes any action (including the filing of any submission or pleading, or the giving of a deposition or production of documents, in any administrative or court proceeding) in connection with such Third-Party Claim that is inconsistent in a material respect with any representation or warranty made by AT Co. or Spinco in this Agreement or the Tax Materials.

(c) The Surviving Corporation and AT Co. shall exercise their rights to jointly control the defense of any such Third-Party Claim solely for the purpose of defeating such Third-Party Claim and, unless required by Applicable Law, neither the Surviving Corporation nor AT Co. shall make any statements or take any actions that would reasonably be expected to result in the shifting of liability for Losses or Tax-Related Losses arising out of such Third-Party Claim from the party making such statement or taking such action (or any of its Affiliates) to the other party (or any of its Affiliates).

(d) Statements made or actions taken by either the Surviving Corporation or AT Co. in connection with the defense of any such Third-Party Claim shall not prejudice the rights of such party in any subsequent action or proceeding between the parties.

(e) If either AT Co. or the Surviving Corporation fails to jointly defend any such Third-Party Claim, then the other party shall solely defend such Third-Party Claim and the party failing to jointly defend shall use reasonable best efforts to cooperate with the other party in its defense of such Third-Party Claim; provided, however, that AT Co. may not compromise or settle any such Third-Party Claim without the prior written consent of the Surviving Corporation, which consent shall not be unreasonably withheld, conditioned or delayed. All costs and expenses of either party in connection with, and during the course of, the joint control of the defense of any such Third-Party Claim shall be paid by the party that incurs such costs and expenses.

10.6 Exclusivity of Article X. This Article X constitutes the complete and exclusive agreement of the parties with respect to the indemnification of AT Co. for Tax-Related Losses contained in Section 10.4. Any conflict between the terms of this Section 10.6 and any other provision of this Agreement, or any provision of any other agreement, shall be resolved in favor of this Section 10.6, unless such other provision expressly provides that it shall be given priority over this specific Section.

ARTICLE XI

11.1 Termination. Notwithstanding anything contained in this Agreement to the contrary, this Agreement may be terminated and the transactions contemplated hereby may be abandoned prior to the Effective Time, whether before or after the Requisite Approval:

(a) by the mutual written consent of each party hereto, which consent shall be effected by action of the Board of Directors of each such party;

(b) by any party hereto if the Effective Time shall not have occurred on or before the one year anniversary of the date of this Agreement, provided that the right to terminate this Agreement pursuant to this clause 11.1(b) shall not be available to any party whose failure to perform any of its obligations under this Agreement required to be performed by it at or prior to such date has been a substantial cause of, or substantially contributed to, the failure of the Merger to have become effective on or before such date;

(c) by any party hereto if, (i) a statute, rule, regulation or executive order shall have been enacted, entered or promulgated prohibiting the consummation of the Merger or (ii) an Order, decree, ruling or injunction shall have been entered permanently restraining, enjoining or otherwise prohibiting the consummation of the Merger and such Order, decree, ruling or injunction shall have become final and

non-appealable and the party seeking to terminate this Agreement pursuant to this clause 11.1(c)(ii) shall have used all reasonable best efforts to remove such injunction, order, decree or ruling;

(d) by the Company, if either AT Co. or Spinco shall have breached or failed to perform in any material respect any of its respective representations, warranties, covenants or other agreements contained in this Agreement, which breach or failure to perform (i) would result in a failure of a condition set forth in Section 9.1 or 9.3 and (ii) cannot be cured by the Termination Date, provided that the Company shall have given AT Co. and Spinco written notice, delivered at least thirty (30) days prior to such termination, stating the Company's intention to terminate this Agreement pursuant to this Section 11.1(d) and the basis for such termination;

(e) by AT Co. and Spinco, if the Company shall have breached or failed to perform in any material respect any of its representations, warranties, covenants or other agreements contained in this Agreement, which breach or failure to perform (i) would result in a failure of a condition set forth in Section 9.1 or 9.2 and (ii) cannot be cured by the Termination Date, provided that AT Co. and Spinco shall have given the Company written notice, delivered at least thirty (30) days prior to such termination, stating AT Co. and Spinco's intention to terminate the Agreement pursuant to this Section 11.1(e) and the basis for such termination;

(f) by AT Co. and Spinco or the Company if, at the Company Stockholders Meeting (including any adjournment, continuation or postponement thereof), the Requisite Approval shall not be obtained; except that the right to terminate this Agreement under this Section 11.1(f) shall not be available to the Company where the failure to obtain the Requisite Approval shall have been caused by the action or failure to act of the Company and such action or failure to act constitutes a material breach by the Company of this Agreement or a material breach of the Voting Agreement by any party thereto other than Spinco.

(g) by AT Co. and Spinco, if (i) the Board of Directors of the Company (or any committee thereof), shall have withdrawn or modified its approval or recommendation of the Merger or this Agreement, approved or recommended to the Company stockholders a Company Acquisition Proposal or resolved to do any of the foregoing, or (ii) the Company fails to call and hold the Company Stockholders Meeting within sixty (60) days after the effectiveness of the Registration Statement.

(h) by the Company if the Board of Directors of the Company determines in good faith that a Company Acquisition Proposal constitutes a Company Superior Proposal, except that the Company may not terminate this Agreement pursuant to this Section 11.1(h) unless and until (i) three business days have elapsed following delivery to AT Co. of a written notice of such determination by the Board of Directors of the Company and during such three business day period the Company (x) informs AT Co. of the terms and conditions of the Company Acquisition Proposal and identity of the person making the Company Acquisition Proposal and (y) otherwise cooperates with AT Co. with respect thereto with the intent of enabling AT Co. and Spinco to agree to a modification of the terms and conditions of this Agreement so that the transactions contemplated hereby may be effected, (ii) at the end of such three business day period the Board of Directors of the Company continues to determine in good faith that the Company Acquisition Proposal constitutes a Company Superior Proposal, (iii) simultaneously with such termination the Company enters into a definitive acquisition, merger or similar agreement to effect the Company Superior Proposal and (iv) the Company pays to AT Co. the amount specified and within the time period specified in Section 11.3.

11.2 Effect of Termination. In the event of termination of this Agreement pursuant to Section 11.1, this Agreement shall terminate (except for the Confidentiality Agreement referred to in Section 12.1 and the provisions of Section 11.3, and Sections 12.2 through 12.13), without any liability on the part of any party or its directors, officers or stockholders except as set forth in Section 11.3; provided, that nothing in this Agreement shall relieve any party of liability for breach of this Agreement or prejudice the ability of the non-breaching party to seek damages, including any damages based on the value that would otherwise have been available to the stockholders of the non-breaching

party by virtue of this Agreement, from any other party for any breach of this Agreement, including attorneys' fees and the right to pursue any remedy at law or in equity.

Whenever the words include, includes or including are used in this Agreement, they shall be deemed to be followed by the words without limitation. The words hereof, herein and hereunder and words of similar import when used in this Agreement shall refer to this Agreement as a whole and not to any particular provision of this Agreement. 12.5 Severability. If any provision of this Agreement or the application of any such provision to any Person or circumstance, shall be declared judicially to be invalid, unenforceable or void, such decision shall not have the effect of invalidating or voiding the remainder of this Agreement, it being the intent and agreement of the parties hereto that this Agreement shall be deemed amended by modifying such provision to the extent necessary to render it valid, legal and enforceable while preserving its intent or, if such modification is not possible, by substituting therefor another provision that is legal and enforceable and that achieves the same objective.

12.6 Assignment: Binding Effect. Neither this Agreement nor any of the rights, benefits or obligations hereunder may be assigned by any of the parties hereto (whether by operation of law or otherwise) without the prior written consent of all of the other parties. It is accordingly agreed that the parties shall be entitled to an injunction or injunctions to prevent breaches of this Agreement and to enforce specifically the terms and provisions of this Agreement in any court of the United States located in the State of Delaware or the Delaware Court of Chancery, this being in addition to any other remedy to which they are entitled at law or in equity. In addition, each of the parties hereto (a) consents to submit itself to the personal jurisdiction of any federal court located in the State of Delaware or the Delaware Court of Chancery in the event any dispute arises out of this Agreement or any of the transactions contemplated by this Agreement, (b) agrees that it will not attempt to deny or defeat such personal jurisdiction by motion or other request for leave from any such court and (c) agrees that it will not bring any action relating to this Agreement or any of the transactions contemplated by this Agreement in any court other than a federal court sitting in the State of Delaware.

Spinco shall assume or cause to be assumed, and thereafter timely pay, perform and discharge, or cause to be paid, performed and discharged, all of the Spinco Liabilities.

Notwithstanding the foregoing, AT Co. and Spinco agree, and agree to cause their respective Subsidiaries, to use their reasonable best efforts to obtain, before the Distribution Date, any consent, approval or waiver from, and to satisfy any notification requirements to, any Governmental Authority or other third party. Prior to the Distribution Date, AT Co. and Spinco shall use their reasonable best efforts to identify all Assets that cannot be separated in a commercially reasonable manner, and Spinco and AT Co. will enter into appropriate arrangements regarding such shared Assets (the Shared Assets Agreement), including the costs related to the use of such shared Assets.

On the Closing Date, AT Co. shall use its reasonable best efforts to deliver to Spinco a schedule setting forth all material Delayed Transfer Assets and Delayed Transfer Liabilities existing as of the Closing Date. Nothing herein shall be deemed to require the transfer of any Assets or the assumption of any Liabilities which by their terms or operation of law cannot be transferred or assumed until such time as all legal impediments to such transfer or assumption have been removed; provided, however, that AT Co. and Spinco shall, and shall cause their respective Subsidiaries to, use its reasonable best efforts to obtain any necessary consents or approvals for the transfer of all Assets and the assumption of all Liabilities contemplated to be transferred or assumed pursuant to this Article II. As and when any such Asset becomes transferable or such Liability can be assumed, such transfer or assumption automatically and without any further action shall be effected forthwith. Subject to the foregoing, the parties agree that, as of the Distribution Date (or such earlier time as any such Asset may have been assigned or Liability assumed), each party hereto shall be deemed to have acquired complete and sole beneficial ownership over all of the Assets, together with all rights, powers and privileges incident thereto, and shall be deemed to have assumed in accordance with the terms of this Agreement all of the Liabilities, and all duties, obligations and responsibilities incident thereto, which such party is entitled to acquire or required to assume pursuant to the terms of this Agreement.

At the Effective Time (as defined in the Merger Agreement), all such shares of Spinco Common Stock shall be converted into the right to receive shares of Company Common Stock pursuant to, and in accordance with the terms of, the Merger Agreement, immediately following which the Agent shall distribute by book-entry transfer in respect of the outstanding shares of AT Co. Common Stock held by holders of record of AT Co. ARTICLE IV

Net Debt Adjustment

Section 4.1 Post-Closing Adjustment to Net Spinco Indebtedness.

(a) Within ninety (90) days after the Closing Date (as defined in the Merger Agreement), the Surviving Corporation (as defined in the Merger Agreement) shall cause to be prepared and delivered to AT Co. (i) a combined balance sheet of Spinco and the Spinco Subsidiaries as of 12:01 a.m. on the Distribution Date (the Closing Spinco Balance Sheet) and (ii) a statement derived from the Closing Spinco Balance Sheet and prepared in accordance with this Section 4.1 (the Closing Statement), setting forth the Net Spinco Indebtedness (as defined below) as of 12:01 a.m. on the Distribution Date (the Closing Net Spinco Indebtedness), including reasonable detail regarding the calculation thereof. The Closing Spinco Balance Sheet shall be prepared in accordance with GAAP, consistently applied, utilizing the same

methodology and adjustments as were utilized in preparing the Spinco Audited Balance Sheet, and the Closing Statement shall be derived from the Closing Spinco Balance Sheet.

(b) Following the Distribution Date, each of AT Co. and Spinco shall give the other party and any representatives of such other party access at all reasonable times to the properties, books, records, working papers and personnel of the Spinco Business to the extent required to prepare and review the Closing Spinco Balance Sheet and the Closing Statement. AT Co. shall have thirty (30) days following delivery of the Closing Spinco Balance Sheet and the Closing Statement during which to notify the Surviving Corporation of any dispute of any item contained in the Closing Statement, which notice shall (i) set forth in reasonable detail the nature and amount of any such dispute and (ii) include only disputes based on mathematical errors or the calculation of amounts not in accordance with the procedures set forth in this Section 4.1. If AT Co. fails to notify the Surviving Corporation of any such dispute within such thirty (30) day period, or if the dispute involves amounts less than \$5 million in the aggregate, the Closing Statement delivered to AT Co. shall be deemed to be the Final Closing Statement, final, conclusive and binding on the parties hereto. In the event that AT Co. shall so notify the Surviving Corporation of a dispute, AT Co. and the Surviving Corporation shall cooperate in good faith to resolve such dispute as promptly as possible.

(c) If AT Co. and the Surviving Corporation do not resolve any such disputed item within thirty (30) days of the delivery of such notice, such disputed item shall be resolved by the Independent Accounting Firm (as defined below). In connection therewith, the Independent Accounting Firm shall address only items disputed by the parties and may not assign an amount to any disputed item greater than the greatest amount for such item that is claimed by a party or less than the smallest amount for such item that is claimed by a party. The Independent Accounting Firm shall make its determination with respect to any such disputed item as promptly as practicable and such determination shall be final, conclusive and binding on the parties and shall be enforceable in any court of competent jurisdiction and may be entered as a judgment in any such court. Any expenses relating to the engagement of the Independent Accounting Firm shall be shared equally between AT Co. and the Surviving Corporation. The Closing Statement, as modified by resolution of any disputed items between AT Co. and Spinco or by the Independent Accounting Firm, shall be the Final Closing Statement, final, conclusive and binding on the parties hereto.

(d) Provided that the Spinco Financing has been consummated, if the amount of the Net Spinco Indebtedness, as set forth in the Final Closing Statement (the Final Net Spinco Indebtedness), exceeds the sum of (x) \$4.2 billion plus (y) the principal amount of any additional Indebtedness (the Additional Spinco Indebtedness) incurred in respect of the fees and expenses related to the Spinco Notes (the sum of clause (x) plus clause (y) being referred to herein as Target Net Spinco Indebtedness), AT Co. shall pay to Spinco an amount equal to such excess and if the amount of the Final Net Spinco Indebtedness is less than the amount of the Target Net Spinco Indebtedness, Spinco shall pay to AT Co. an amount equal to such deficit (such payment amount being referred to herein as the Final Adjustment Amount).

(e) Any payment to be made by AT Co. or the Surviving Corporation, as the case may be, in respect of the Final Adjustment Amount pursuant to Section 4.1(d) hereof shall be made by wire transfer of immediately available funds within five (5) Business Days after the date upon which the Closing Statement becomes the Final Closing Statement (either upon mutual agreement pursuant to Section 4.1(a) or by resolution of any dispute with respect to the Statement in accordance with Sections 4.1(b) and/or 4.1(c)) in an amount determined pursuant to Section 4.1(d) hereof, together with interest thereon from the Distribution Date through the date such payment is made, at the prime lending rate as reported as of the date of such payment by *The Wall Street Journal* (the Prime Rate). Notwithstanding the foregoing, in the event that the aggregate amount required to be paid by the Surviving Corporation to AT Co. pursuant to Section 4.1(d) exceeds \$50 million, then the Surviving Corporation (i) shall pay \$50 million of such amount to AT Co. in cash as provided in the immediately preceding sentence and (ii) shall pay the remaining amount due through the issuance of a promissory note having a maturity of not more than ninety (90) days and bearing interest at the Prime Rate, or through any combination of the foregoing.

(f) As used herein, the following terms shall have the following meanings: (i) Net Spinco Indebtedness shall mean (A) the aggregate amount of Indebtedness (as defined below) of Spinco and its Subsidiaries

immediately prior to the Distribution Date which shall remain an obligation of Spinco or any of the Spinco Subsidiaries following the Distribution Date minus (B) the aggregate amount of Cash and Cash Equivalents (as defined below) of Spinco and the Spinco Subsidiaries as of the Distribution Date. The Net Spinco Indebtedness shall be calculated in good faith in accordance with GAAP, consistently applied, utilizing the same methodology and adjustments as were used in preparing the Spinco Audited Balance Sheet; (ii) Indebtedness of any Person (as defined in the Merger Agreement) at any date shall mean (x) any obligation of such Person (A) with respect to indebtedness of such Person for borrowed money or for the deferred purchase price of property or services, including all accrued and unpaid interest, premiums, penalties and fees thereon (other than accounts payable, accrued expenses (including book overdrafts) and other current liabilities arising in the ordinary course of business), (B) evidenced by a note, bond, debenture or similar instrument (including a purchase money obligation) or (iii) under any lease or similar arrangement that would be required to be accounted for by the lessee as a capital lease in accordance with GAAP; (y) any guarantee (or keepwell agreement) by such Person of any indebtedness of others described in the preceding clause (x); and (z) all obligations to reimburse any bank or other Person for amounts paid under a letter of credit or similar instrument; (iii) Cash and Cash Equivalents shall mean all cash, cash equivalents, including certificates of deposit or bankers' acceptances maturing within one year from the date of acquisition thereof, marketable direct obligations issued by, or unconditionally guaranteed by, the United States government or an agency thereof, and investments in money market funds with assets of \$5,000,000 or greater, and other liquid investments, including all deposited but uncleared bank deposits; (iv) Spinco Audited Balance Sheet shall mean the audited combined balance sheet of Spinco and the Spinco Subsidiaries as of December 31, 2004; (v) GAAP shall mean United States generally accepted accounting principles; and (vi) Independent Accounting Firm shall mean an internationally recognized accounting firm mutually selected and agreed upon by AT Co. and Spinco.

Survival and Indemnification

Section 7.1 Survival of Agreements. Except as otherwise provided herein with respect to any specific representation, warranty or covenant, all representations, warranties, covenants and agreements of the parties hereto contained in this Agreement shall survive the Distribution Date for a period of two (2) years. For the avoidance of doubt, this Section 7.1 shall in no event alter or otherwise affect the operation of Section 12.1 of the Merger Agreement.

holders (including trustees and beneficiaries of trusts holding such securities), advisors and Representatives (in each case, in their respective capacities as such) and their respective heirs, executors, administrators, successors and assigns, of and from all debts, demands, actions, causes of action, suits, accounts, covenants, contracts, agreements, damages, claims and other Liabilities whatsoever of every name and nature, both in law and in equity, which the releasing party has or ever had or ever will have, which exist or arise out of or relate to events, circumstances or actions taken by such other party occurring or failing to occur or any conditions existing at or prior to the Distribution Date whether or not known on the Distribution Date, including in connection with the transactions and all other activities to implement the Contribution and the Distribution; provided, however, that the foregoing general release shall not apply to (i) any Liabilities or other obligations (including Liabilities with respect to payment, reimbursement, indemnification or contribution) under the Merger Agreement or the other Transaction Agreements or any Contracts (as defined therein) contemplated thereby, or assumed, transferred, assigned, allocated or arising under any of the Merger Agreement or the other Transaction Agreements or any Contract contemplated thereby (including any Liability that the parties may have with respect to payment, performance, reimbursement, indemnification or contribution pursuant to the Merger Agreement or any other Transaction Agreement or any Contract contemplated thereby for claims brought against the parties by third Persons or any Indemnitee), and the foregoing release will not affect any party's right to enforce the Merger Agreement or the other Transaction Agreements or the Contracts contemplated thereby in accordance with their terms or (ii) any Liability the release of which would result in the release of any Person other than a Person released pursuant to this Section 7.2 (provided, that the parties agree not to bring suit or permit any of their Subsidiaries to bring suit against any such Person with respect to any Liability to the extent such Person would be released with respect to such Liability by this Section 7.2 but for this clause (ii)). Each party to this Agreement agrees, for itself and each member of its Group, not to make any claim or demand or commence any action or assert any claim against any member of the other Party's Group with respect to the Liabilities released pursuant to this Section 7.2.

Section 7.3 Indemnification.

(a) Except as specifically otherwise provided in the other Transaction Agreements, Spinco shall indemnify, defend and hold harmless the AT Co. Indemnitees from and against all Indemnifiable Losses arising out of or due to the failure of any member of the Spinco Group (i) to pay or satisfy any Spinco Liabilities (including the Spinco Group's Delayed Liabilities), or (ii) to perform any of its obligations under this Agreement.

(b) Except as specifically otherwise provided in the other Transaction Agreements, AT Co. shall indemnify, defend and hold harmless the Spinco Indemnitees from and against all Indemnifiable Losses arising out of or due to the failure of any member of the AT Co. Group (i) to pay or satisfy any AT Co. Liabilities (including the AT Co. Group's Delayed Liabilities), (ii) to transfer to Spinco or any member of the Spinco Group all of the Spinco Assets transferred or to be transferred to Spinco or the Spinco Group pursuant to Article II hereof, or (iii) to perform any of its obligations under this Agreement.

(c) Notwithstanding anything to the contrary set forth herein, indemnification relating to any arrangements between any member of the AT Co. Group and any member of the Spinco Group for the provision after the Distribution Date of goods and services in the ordinary course shall be governed by the terms of such arrangements and not by this Section or as otherwise set forth in this Agreement and the other Transaction Agreements.

(d) Indemnification for matters subject to the Tax Sharing Agreement is governed by the terms, provisions and procedures of the Tax Sharing Agreement and not by this Article VII and indemnification for matters subject to the Merger Agreement is governed by the terms, provisions and procedures of the Merger Agreement and not by this Article VII.

Section 7.4 Procedures for Indemnification for Third-Party Claims.

(a) AT Co. shall, and shall cause the other AT Co. Indemnitees to, notify Spinco in writing promptly after learning of any Third-Party Claim for which any AT Co. Indemnitee intends to seek indemnification from Spinco under this Agreement. Spinco shall, and shall cause the other Spinco Indemnitees to, notify AT

Co. in writing promptly after learning of any Third-Party Claim for which any Spinco Indemnitee intends to seek indemnification from AT Co. under this Agreement. The failure of any Indemnitee to give such notice shall not relieve any Indemnifying Party of its obligations under this Article VII except to the extent that such Indemnifying Party is actually prejudiced by such failure to give notice. Such notice shall describe such Third-Party Claim in reasonable detail considering the Information provided to the Indemnitee and shall indicate the amount (estimated if necessary) of the Indemnifiable Loss that has been claimed against or may be sustained by such Indemnitee.

(b) Except as otherwise provided in paragraph (c) of this Section 7.3, an Indemnifying Party may, by notice to the Indemnitee and to AT Co., if Spinco is the Indemnifying Party, or to the Indemnitee and Spinco, if AT Co. is the Indemnifying Party, within 30 days after receipt by such Indemnifying Party of such Indemnitee's notice of a Third-Party Claim, undertake (itself or through another member of the Group of which the Indemnifying Party is a member) the defense or settlement of such Third-Party Claim, at such Indemnifying Party's own expense and by counsel reasonably satisfactory to the Indemnitee. If an Indemnifying Party undertakes the defense of any Third-Party Claim, such Indemnifying Party shall control the investigation and defense or settlement thereof, and the Indemnitee may not settle or compromise such Third-Party Claim without the prior written consent of the Indemnifying Party, except that such Indemnifying Party shall not (i) require any Indemnitee, without its prior written consent, to take or refrain from taking any action in connection with such Third-Party Claim, or make any public statement, which such Indemnitee reasonably considers to be against its interests, or (ii) without the prior written consent of the Indemnitee and of AT Co., if the Indemnitee is an AT Co. Indemnitee, or the Indemnitee and of Spinco, if the Indemnitee is a Spinco Indemnitee, consent to any settlement that does not include as a part thereof an unconditional release of the relevant Indemnitees from liability with respect to such Third-Party Claim or that requires the Indemnitee or any of its Representatives or Affiliates to make any payment that is not fully indemnified under this Agreement or to be subject to any non-monetary remedy. Subject to the Indemnifying Party's control rights, as specified herein, the Indemnitees may participate in such investigation and defense, at their own expense. Following the provision of notices to the Indemnifying Party, until such time as an Indemnifying Party has undertaken the defense of any Third-Party Claim as provided herein, such Indemnitee shall control the investigation and defense or settlement thereof, without prejudice to its right to seek indemnification hereunder.

(c) If an Indemnitee reasonably determines that there may be legal defenses available to it that are different from or in addition to those available to its Indemnifying Party which make it inappropriate for the Indemnifying Party to undertake the defense or settlement thereof, then such Indemnifying Party shall not be entitled to undertake the defense or settlement of such Third-Party Claim; and counsel for the Indemnifying Party shall be entitled to conduct the defense of such Indemnifying Party and counsel for the Indemnitee (selected by the Indemnitee) shall be entitled to conduct the defense of such Indemnitee, in which case the reasonable fees, costs and expenses of such counsel for the Indemnitee (but not more than one counsel (in addition to local counsel, if any) reasonably satisfactory to the Indemnifying Party) shall be paid by such Indemnifying Party, it being understood that both such counsel shall cooperate with each other to conduct the defense or settlement of such action as efficiently as possible.

(d) In no event shall an Indemnifying Party be liable for the fees and expenses of more than one counsel for all Indemnitees (in addition to local counsel and its own counsel, if any) in connection with any one action, or separate but similar or related actions, in the same jurisdiction arising out of the same general allegations or circumstances.

(e) If the Indemnifying Party undertakes the defense or settlement of a Third-Party Claim, the Indemnitee shall make available to the Indemnifying Party and its counsel all information and documents reasonably available to it which relate to any Third-Party Claim, and otherwise cooperate as may reasonably be required in connection with the investigation, defense and settlement thereof, subject to the terms and conditions of a mutually acceptable joint defense agreement.

Section 7.5 Reductions for Insurance Proceeds, Tax Benefits and Other Recoveries. The amount that any Indemnifying Party is or may be required to pay to any Indemnitee pursuant to this Article VII shall be

reduced (retroactively or prospectively) by (i) any insurance proceeds or other amounts actually recovered from third parties by or on behalf of such Indemnitee in respect of the related Indemnifiable Losses (net of all costs of recovery, including deductibles, co-payments or other payment obligations) and (ii) any tax benefit actually realized by the Indemnitee in respect of the related Indemnifiable Losses. The existence of a claim by an Indemnitee for insurance or against a third party in respect of any Indemnifiable Loss or the availability of potential tax benefits shall not, however, delay or reduce any payment pursuant to the indemnification provisions contained herein and otherwise determined to be due and owing by an Indemnifying Party. The Indemnifying Party shall make payment in full of such amount so determined to be due and owing by it and, if, and to the extent that, there exists a claim against any third party (other than an insurer) in respect of such Indemnifiable Loss, the Indemnitee shall assign such claim against such third party to the Indemnifying Party. Any tax benefit actually received by an Indemnified Party shall be paid over to the Indemnifying Party to the extent such tax benefit relates to an Indemnifiable Loss for which indemnification has already been received. Notwithstanding any other provisions of this Agreement, it is the intention of the parties hereto that no insurer or any other third party shall be (i) entitled to a benefit it would not be entitled to receive in the absence of the foregoing indemnification provisions or (ii) relieved of the responsibility to pay any claims for which it is obligated. If an Indemnitee shall have received the payment required by this Agreement from an Indemnifying Party in respect of any Indemnifiable Losses and shall subsequently actually receive insurance proceeds, tax benefits or other amounts in respect of such Indemnifiable Losses, then such Indemnitee shall hold such insurance proceeds in trust for the benefit of such Indemnifying Party and shall pay to such Indemnifying Party a sum equal to the amount of such insurance proceeds, tax benefits or other amounts actually received, up to the aggregate amount of any payments received from such Indemnifying Party pursuant to this Agreement in respect of such Indemnifiable Losses.

Section 7.6 Consequential Damages. In no event shall an Indemnifying Party be liable for special, punitive, exemplary, incidental, consequential or indirect damages, or lost profits, whether based on contract, tort, strict liability, other law or otherwise.

Section 7.7 Survival of Indemnities. Except as otherwise provided herein with respect to any specific covenant or obligation, for a period of two (2) years from and after the Distribution Date, the obligations of each of AT Co. and Spinco under this Article VII shall survive the sale or other transfer by it of any of its Assets or Business or the assignment by it of any of its Liabilities, with respect to any Indemnifiable Loss of the other related to such Assets, Business or Liabilities.

ARTICLE VIII

Certain Additional Covenants

Section 8.1 Notices to Third Parties. In addition to the actions described in Section 8.2, the members of the AT Co. Group and the members of the Spinco Group shall use reasonable best efforts to make all other filings and give notice to and obtain consents from all third parties that may be required to consummate the transactions contemplated by this Agreement and the other Transaction Agreements.

Section 8.2 Licenses and Permits. Each party hereto shall cause the appropriate members of its Group to prepare and file with the appropriate licensing and permitting authorities applications for the transfer or issuance, as may be necessary or advisable in connection with the transactions contemplated by this Agreement and the other Transaction Agreements, to its Group of all material governmental licenses and permits required for the members of its Group to operate its Business after the Distribution Date. The members of the Spinco Group and the members of the AT Co. Group shall cooperate and use all commercially reasonable efforts to secure the transfer or issuance of such licenses and permits.

Section 8.3 Intercompany Agreements; Intercompany Accounts.

(a) Except as set forth on Section 8.3 of the Disclosure Letter or specifically provided herein or in the other Transaction Agreements, all material contracts, licenses, agreements, commitments and other arrangements, formal and informal, between any member of the AT Co. Group, on the one hand, and any member of the Spinco Group, on the other hand, in existence as of the Distribution Date, shall terminate as of the close of

business on the day prior to the Distribution Date. No such terminated contract, license, agreement, commitment or other arrangement (including any provision thereof that purports to survive termination) shall be of any further force or effect after the Distribution Date and all parties shall be released from all obligations thereunder. From and after the Distribution Date, no member of either Group shall have any rights under any such contract, license, agreement, commitment or arrangement with any member of the other Group, except as specifically provided herein or in the other Transaction Agreements or as may be agreed to at arms length after the Distribution Date.

(b) Effective immediately prior to the Distribution Date, all intercompany cash management loan balances between AT Co. and the AT Co. Subsidiaries, on one hand, and Spinco and the Spinco Subsidiaries, on the other hand, shall be canceled.

Section 8.4 Further Assurances. In addition to the actions specifically provided for elsewhere in this Agreement, each of the parties hereto shall use its reasonable best efforts to take, or cause to be taken, all actions, and to do, or cause to be done, all things reasonably necessary, proper or advisable under applicable laws, regulations and agreements to consummate and make effective the transactions contemplated by this Agreement and the other Transaction Agreements. Without limiting the foregoing, each party hereto shall cooperate with the other party, and execute and deliver, or use its reasonable best efforts to cause to be executed and delivered, all instruments, and to make all filings with, and to obtain all consents, approvals or authorizations of, any Governmental Authority or any other Person under any permit, license, agreement, indenture or other instrument, and take all such other actions as such party may reasonably be requested to take by any other party hereto from time to time, consistent with the terms of this Agreement and the other Transaction Agreements, in order to effectuate the provisions and purposes of this Agreement.

Section 8.5 Guarantee Obligations and Liens.

(a) AT Co. and Spinco shall cooperate, and shall cause their respective Groups to cooperate and use their respective reasonable best efforts to: (x) terminate, or to cause a member of the Spinco Group to be substituted in all respects for any member of the AT Co. Group in respect of, all obligations of any member of the AT Co. Group under any Spinco Liabilities for which such member of the AT Co. Group may be liable, as guarantor, original tenant, primary obligor or otherwise, and (y) terminate, or to cause Spinco Assets to be substituted in all respects for any AT Co. Assets in respect of, any liens or encumbrances on AT Co. Assets which are securing any Spinco Liabilities. If such a termination or substitution is not effected by the Distribution Date: (i) Spinco shall indemnify and hold harmless the AT Co. Indemnitees for any Indemnifiable Loss arising from or relating thereto, and (ii) without the prior written consent of AT Co., from and after the Distribution Date, Spinco shall not, and shall not permit any member of the Spinco Group to, renew or extend the term of, increase its obligations under, or transfer to a third party, any loan, lease, contract or other obligation for which a member of the AT Co. Group is or may be liable or for which any AT Co. Asset is or may be encumbered unless all obligations of the AT Co. Group and all liens and encumbrances on any AT Co. Asset with respect thereto are thereupon terminated by documentation reasonably satisfactory in form and substance to AT Co.

(b) AT Co. and Spinco shall cooperate, and shall cause their respective Groups to cooperate and use their respective reasonable best efforts to: (x) terminate, or to cause a member of the AT Co. Group to be substituted in all respects for any member of Spinco Group in respect of, all obligations of any member of the Spinco Group under any AT Co. Liabilities for which such member of the Spinco Group may be liable, as guarantor, original tenant, primary obligor or otherwise, and (y) terminate, or to cause AT Co. Assets to be substituted in all respects for any Spinco Assets in respect of, any liens or encumbrances on Spinco Assets which are securing any AT Co. Liabilities. If such a termination or substitution is not effected by the Distribution Date: (i) AT Co. shall indemnify and hold harmless the Spinco Indemnitees for any Indemnifiable Loss arising from or relating thereto, and (ii) without the prior written consent of Spinco, from and after the Distribution Date, AT Co. shall not, and shall not permit any member of the AT Co. Group to, renew or extend the term of, increase its obligations under, or transfer to a third party, any loan, lease, contract or other obligation for which a member of the Spinco Group is or may be liable or for which any Spinco Asset is or may be encumbered unless all obligations of the Spinco Group and all liens and encumbrances on any

Spinco Asset with respect thereto are thereupon terminated by documentation reasonably satisfactory in form and substance to Spinco.

Section 8.6 *Insurance.*

(a) *Rights Under Policies.* Notwithstanding any other provision of this Agreement, from and after the Distribution Date, Spinco and the Spinco Subsidiaries will have no rights with respect to any Policies, except that (i) Spinco may assert claims, and AT Co. will use its reasonable best efforts to assist Spinco in asserting claims, for any loss, liability or damage with respect to the Spinco Assets or Spinco Liabilities under Policies with third-party insurers which are occurrence basis insurance policies (Occurrence Basis Policies) arising out of insured incidents occurring from the date coverage thereunder first commenced until the Distribution Date to the extent that the terms and conditions of any such Occurrence Basis Policies and agreements relating thereto so allow and (ii) Spinco may continue to prosecute, and AT Co. will use reasonable best efforts to assist Spinco to continue to prosecute, claims with respect to Spinco Assets or Spinco Liabilities properly asserted with an insurer prior to the Distribution Date under Policies with third-party insurers which are insurance policies written on a claims made basis (Claims Made Policies) arising out of insured incidents occurring from the date coverage thereunder first commenced until the Distribution Date to the extent that the terms and conditions of any such Claims Made Policies and agreements relating thereto so allow; provided, that in the case of both clauses (i) and (ii) above, (A) all of AT Co. s and each AT Co. Subsidiary s reasonable out-of-pocket costs and expenses incurred in connection with the foregoing are promptly paid by Spinco, (B) AT Co. and the AT Co. Subsidiaries may, at any time, without liability or obligation to Spinco or any Spinco Subsidiary (other than as set forth in Section 8.6(c)), amend, commute, terminate, buy-out, extinguish liability under or otherwise modify any Occurrence Basis Policies or Claims Made Policies (and such claims shall be subject to any such amendments, commutations, terminations, buy-outs, extinguishments and modifications), and (C) any such claim will be subject to all of the terms and conditions of the applicable Policy. AT Co. s obligation to use its reasonable best efforts to assist Spinco in asserting claims under applicable Policies will include using reasonable best efforts in assisting Spinco to establish its right to coverage under such Policies (so long as all of AT Co. s reasonable out-of-pocket costs and expenses in connection therewith are promptly paid by Spinco). In the event that the terms and conditions of any Policy do not allow Spinco the right to assert or prosecute a claim as set forth in clause (i) or (ii) above, then in such case, AT Co. shall use its reasonable best efforts to pursue such claim under such Policy and Spinco shall promptly pay all of AT Co. s and each AT Co. Subsidiary s reasonable costs and expenses incurred in connection therewith.

(b) *Assistance by AT Co.* AT Co. will use reasonable best efforts to assist Spinco in connection with any efforts by Spinco to recover damages under any Policy with respect to the Spinco Business for incidents occurring prior to the Distribution Date; provided, that all of AT Co. s reasonable out-of-pocket costs and expenses incurred in connection with the foregoing are promptly paid by Spinco.

(c) *AT Co. Actions.* In the event that after the Distribution Date, AT Co. or any AT Co. Subsidiary proposes to amend, commute, terminate, buy-out, extinguish liability under or otherwise modify any Policies under which Spinco has rights to assert claims pursuant to Section 8.6(a) in a manner that would adversely affect any such rights of Spinco (i) AT Co. will give Spinco prior written notice thereof (it being understood that the decision to take any such action will be in the sole discretion of AT Co.) and (ii) AT Co. will pay to Spinco its equitable share (which shall be determined by AT Co. in good faith based on the amount of premiums paid or allocated to the Spinco business in respect of the applicable Policy) of any net proceeds actually received by AT Co. from the insurer under the applicable Policy as a result of such action by AT Co. (after deducting AT Co. s reasonable costs and expenses incurred in connection with such action).

(d) *Administration.* From and after the Distribution Date:

(i) AT Co. or an AT Co. Subsidiary, as appropriate, will be responsible for the Claims Administration with respect to claims of AT Co. and the AT Co. Subsidiaries under the Policies; and

(ii) Spinco or a Spinco Subsidiary, as appropriate, will be responsible for the Claims Administration with respect to claims of Spinco and the Spinco Subsidiaries under the Policies.

(e) *Insurance Premiums.* Subject to clause (B) of the proviso to Section 8.6(a), from and after the Distribution Date, AT Co. will pay all premiums (retrospectively-rated or otherwise) as required under the terms and conditions of the respective Policies in respect of periods prior to the Distribution Date, whereupon Spinco will upon the request of AT Co., forthwith reimburse AT Co. for that portion of such premiums paid by AT Co. as are reasonably determined by AT Co. to be attributable to the Spinco Business.

(f) *Agreement for Waiver of Conflict and Shared Defense.* In the event that a Policy provides coverage for both AT Co. and/or an AT Co. Subsidiary, on the one hand, and Spinco and/or a Spinco Subsidiary, on the other hand, relating to the same occurrence, AT Co. and Spinco agree to defend jointly and to waive any conflict of interest necessary to the conduct of that joint defense.

(g) Nothing in this Section 8.6 will be construed to limit or otherwise alter in any way the indemnity obligations of the parties to this Agreement, including those created by this Agreement, by operation of law or otherwise.

Section 8.7 *Use of Names.*

(a) Any material showing any affiliation or connection of AT Co. or any member of the AT Co. Group with Spinco or any member of the Spinco Group shall not be used by AT Co. or any member of the AT Co. Group after the Distribution Date, except that the restrictions contained in this Section 8.7(a) shall not apply to filings, reports and other documents required by applicable law or regulations of securities exchanges to be filed and/or made publicly available. On and after the Distribution Date, neither AT Co. nor any AT Co. Subsidiary shall represent to third parties that any of them is affiliated or connected with Spinco or any member of the Spinco Group.

(b) Subject to Section 8.7(c) below, any material showing any affiliation of Spinco or any member of the Spinco Group with AT Co. or any member of the AT Co. Annex D-1

OPINION OF WACHOVIA SECURITIES

December 8, 2005
Board of Directors
Valor Communications Group, Inc.
200 E. John Carpenter Freeway
Suite 200
Irving, TX 75062
Ladies and Gentlemen:

You have asked Wachovia Capital Markets, LLC (Wachovia Securities) to advise you with respect to the fairness, from a financial point of view, to Valor Communications Group, Inc., a Delaware corporation (Valor or the Company) and its stockholders, of the Aggregate Merger Consideration (as hereinafter defined) to be paid by the Company pursuant to that certain Agreement and Plan of Merger, dated as of December 8, 2005 (the Agreement), by and among the Company, Alltel Corporation, a Delaware corporation (AT Co.), Alltel Holding Corp., a newly formed Delaware corporation and a wholly owned subsidiary of AT Co. (Spinco). Terms used, but not defined, herein, shall have the meaning ascribed to them by the Agreement.

Pursuant to the Agreement and the Distribution Agreement entered into by and between AT Co. and Spinco as of the date of the Agreement, AT Co. will engage in the Preliminary Restructuring (as defined in the Distribution Agreement) in order to separate the Spinco Assets from the AT Co. Assets and in exchange for the contribution to Spinco, directly or indirectly, of all of the issued and outstanding capital stock or other equity securities of the Spinco Subsidiaries, Spinco will issue to AT Co. the Spinco Common Stock (as defined in the Distribution Agreement), distribute to AT Co. the Spinco Exchange Notes (as defined in the Distribution Agreement) and pay to AT Co. the Special Dividend (as defined in the Distribution Agreement), all upon the terms and subject to the conditions set forth in the Distribution Agreement. On the Distribution Date, AT Co. will distribute all of the issued and outstanding shares of Spinco Common Stock to the Distribution Agent for the benefit of the holders as of the Record Date (as defined in the Distribution Agreement) of the outstanding AT Co. Common Stock. Pursuant to the Agreement, at the Effective Time, Spinco shall be merged with and into the Company (the Merger), the separate existence of Spinco shall cease and the Company shall continue as the surviving corporation of the Merger. The Agreement further provides that all of the shares of Spinco Common Stock issued and outstanding immediately prior to the Effective Time shall be converted into the right to receive an aggregate number of shares of the Company, par value \$0.0001 (Company Common Stock), equal to the product of (x) 5.6667 multiplied by (y) the aggregate number of shares of Company Common Stock issued and outstanding, on a Fully Diluted Basis, immediately prior to the Effective Time (the Aggregate Merger Consideration) that will result in the fully diluted Company Common Stock at the Effective Time of the Merger being held 85% by the former AT Co. stockholders and 15% by the stockholders of the Company immediately prior to the Effective Time of the Merger. The terms and conditions of the Merger are more fully set forth in the Agreement.

In arriving at our opinion, we have, among other things:

Reviewed the Agreement, including the financial terms of the Merger, and the agreements contemplated thereby;

Reviewed Annual Reports on Form 10-K of AT Co. for the three fiscal years ended December 31, 2004; Annual Reports on Form 10-K of the Company for the fiscal year ended December 31, 2004; certain interim reports to stockholders and Quarterly Reports on Form 10-Q of AT Co. and the Company; and certain business, financial, and other information regarding each of AT Co. and the Company that was publicly available;

Reviewed certain business, financial, and other information regarding the Company and its prospects that was furnished to us by, and we have discussed with, the management of the Company;

Reviewed certain business, financial, and other information regarding AT Co. and Spinco and their prospects that were furnished to us by, and we have discussed with, the management of AT Co. and Spinco;

Reviewed the stock price and trading history of the Company Common Stock;

Compared the available business, financial, and other information regarding each of the Company and Spinco with similar information regarding certain publicly traded companies that we deemed relevant;

Compared the proposed financial terms of the Agreement with the financial terms of certain other business combinations and transactions that we deemed relevant;

Developed discounted cash flow models for each of the Company and Spinco based upon estimates provided by the management of each of the Company and Spinco, as to each of the Company and Spinco respectively, and certain estimates discussed with the management of the Company;

Reviewed the potential pro forma impact of the Merger on the Company's financial statements;

Considered other information such as financial, economic and market criteria that we deemed relevant; and

Participated in the discussions and negotiations among representatives of the Company and AT Co. and their respective financial and legal advisors that resulted in the Agreement.

In connection with our review, we have assumed and relied upon the accuracy and completeness of the foregoing financial and other information we have obtained and reviewed for the purpose of our opinion, and we have not assumed any responsibility for, nor conducted, any independent verification of such information. We have relied upon the assurances of the management of the Company and AT Co. that they are not aware of any facts or circumstances that would make such information about the Company or AT Co. inaccurate or misleading. We have been provided with prospective financial information, including post-merger synergies, for the Company and Spinco by each of their managements, respectively. We have also been provided with prospective financial information of Spinco by AT Co., including cost allocations by AT Co. to Spinco. We have discussed such prospective financial information, as well as the assumptions upon which they are based, with the managements of the Company, AT Co. and Spinco. We have assumed that the forecasts, estimates, judgments, and all assumptions expressed by the management of each of the Company, AT Co. and Spinco in such projections have been reasonably formulated and that they are the best currently available forecasts, estimates, judgments, allocations and assumptions of each of the respective managements of the Company, AT Co. and Spinco regarding such projections. We assume no responsibility for the preparation or verification of and express no view as to any such prospective financial information or the assumptions upon which they are based. We have also assumed that the cost allocations by AT Co. to Spinco provided to us by AT Co. reflect the true standalone costs that Spinco will experience following the Merger. We have discussed certain estimates for the Company and for Spinco, and the reasonableness of the assumptions upon which they are based, with the management of the Company. You have not asked us to, nor have we, explored or conducted a review of strategic alternatives for the Company. In arriving at our opinion, we have not conducted any physical inspection or assessment of the facilities or assets of the Company, AT Co. or Spinco. In addition, we have not made an independent evaluation or appraisal of the assets and liabilities (including any contingent, derivative or off-balance sheet assets and liabilities) of the Company, AT Co. or Spinco or any of their respective subsidiaries and have not been furnished with any such evaluations or appraisals.

In rendering our opinion, we have assumed that the Merger will be consummated on the terms described in the Agreement and the agreements contemplated thereby without waiver of any material terms or conditions and that each party to the Agreement and the agreements contemplated thereby will perform all of

D-1-2

the covenants and agreements required to be performed by it thereunder without any consents or waivers of the other parties thereto. We have also assumed that in the course of obtaining any necessary legal, regulatory or third party consents and/or approvals, no restrictions will be imposed or delay will be suffered that will have a material adverse effect on the Company, or on the Merger or on other actions contemplated by the Agreement in any way meaningful to our analysis. We have further assumed that the Agreement and the agreements contemplated thereby will not differ in any material respect from the drafts furnished to and reviewed by us. In addition, we have assumed that the Merger and the distribution to Spinco will be tax-free, for federal income tax purposes.

Our opinion is necessarily based on economic, market, financial and other conditions as they exist on, and can be evaluated as of, the date hereof. Although subsequent developments may affect this opinion, we do not have any obligation to update, revise or reaffirm this opinion. Our opinion does not address the merits of the underlying decision by the Company to enter into the Agreement, including the relative merits of the Merger compared with other business strategies or transactions that may have been considered by the Company's management, its Board of Directors or any committee thereof. We are not expressing any opinion herein with respect to the prices at which the Company Common Stock will trade following the announcement of the Merger or the prices at which the Company Common Stock will trade following the consummation of the Merger.

Wachovia Securities is a trade name of Wachovia Capital Markets, LLC, an investment banking subsidiary and affiliate of Wachovia Corporation. We have been engaged to render certain financial advisory services to the Board of Directors of the Company in connection with the Merger, and will receive a fee for such services, a portion of which is payable upon delivery of this opinion, and the principal portion of which is payable upon consummation of the Merger. In addition, the Company has agreed to reimburse our expenses and indemnify us against certain liabilities that may arise out of our engagement. Wachovia Securities and our affiliates provide a full range of financial advisory, securities and lending services in the ordinary course of business for which we receive customary fees. In connection with unrelated matters, Wachovia Securities and its affiliates (including Wachovia Corporation and its affiliates) in the past have provided financing services to the Company, certain of its affiliates and AT Co. and may provide similar or other such services to, and maintain relationships with, the Company, certain of its affiliates and AT Co. in the future. Wachovia Securities served as a co-Lead Arranger, Joint Book-Running Manager and Syndication Agent in the Company's \$1.67 billion refinancing in October 2004, as a Senior co-Manager for the Company's \$440 million initial public offering in February 2005 and as a co-Manager on the Company's \$400 million senior unsecured notes offering in February 2005. Wachovia Securities and its affiliates maintain banking, finance and investment relationships with certain affiliates of the Company, including Welsh Carson Anderson & Stowe, in certain of whose funds an affiliate of Wachovia Securities invests, and Vestar Capital Partners and certain of their respective portfolio companies. Wachovia Securities or one of its affiliates is currently a senior secured lender to AT Co. Additionally, in the ordinary course of our business, we currently, and in the future may, trade in the debt and equity securities (or related derivative securities) of the Company and AT Co. for our own account and for the accounts of our customers and, accordingly, may at any time hold a long or short position in such securities. Wachovia Securities maintains research coverage of the equity securities of the Company and the equity and debt securities of AT Co.

This opinion is for the information and use of the Board of Directors of the Company in connection with its consideration of the Merger. This opinion does not and shall not constitute a recommendation to any holder of shares of Company Common Stock as to how such holder should vote in connection with the Agreement or any other matter related thereto. Our opinion may not be disclosed, summarized, excerpted from, or otherwise publicly referred to without our prior written consent, except that this opinion may be reproduced in full in any proxy statement mailed or provided to the holders of Company Common Stock.

(Valor), Alltel Corporation (Alltel) and Alltel Holding Corp., a wholly owned subsidiary of Alltel (SpinCo), have entered into an Agreement and Plan of Merger dated as of December 8, 2005 (the Merger Agreement), pursuant to which SpinCo will merge with and into Valor (the Merger) with Valor continuing as the surviving corporation. We further understand that, pursuant to the Merger Agreement, the stockholders of SpinCo will exchange all of the issued and outstanding shares of common stock of SpinCo for an aggregate number of shares of Valor common stock equal to the product of (x) 5.6667 multiplied by (y) the aggregate number of shares of Valor common stock issued and outstanding, on a fully diluted basis taking into account all shares subject to outstanding options, warrants, and convertible securities, immediately prior to the effective time of the Merger (the Aggregate Merger Consideration), all as more fully described in the Merger Agreement. You have provided us with a copy of the Merger Agreement in substantially final form.

We understand that Alltel and SpinCo have entered into a Distribution Agreement dated as of December 8, 2005 (the Distribution Agreement) pursuant to which Alltel will transfer or cause to be transferred to SpinCo or one or more subsidiaries of SpinCo substantially all of the assets primarily used in Alltel s wireline telecommunications business, along with certain specified assets, and that SpinCo or one or more subsidiaries of SpinCo will assume substantially all of the liabilities primarily relating to Alltel s wireline telecommunications business, along with certain specified liabilities (collectively, the Contribution), all as more fully described in the Distribution Agreement. In arriving at our opinion, we have not performed or obtained any independent appraisal of the assets or liabilities (contingent or otherwise) of Valor and SpinCo, including assets and liabilities that will be contributed to or assumed by SpinCo or any of its subsidiaries pursuant to the Distribution Agreement, nor have we been furnished with any such appraisals. We have assumed that the Distribution will qualify as a tax-free distribution pursuant to Section 355 of the Internal Revenue Code and the Merger will qualify as a tax-free reorganization within the meaning of Section 368(a) of the Internal Revenue Code. We have assumed that the Contribution, the Distribution and all of the transactions described in the Distribution Agreement will be consummated in a timely manner and in accordance with the terms of the Distribution Agreement, without any limitations, restrictions, conditions, amendments or modifications, regulatory or otherwise, that collectively would have a material adverse effect on Valor or SpinCo. We have further assumed that the Merger will be consummated in a timely manner and in accordance with the terms of the Merger Agreement without any limitations, restrictions, conditions, amendments or modifications, regulatory or otherwise, that collectively would have a material adverse effect on Valor or SpinCo.

We do not express any opinion as to the price or range of prices at which the shares of common stock of Valor may trade subsequent to the announcement or consummation of the Merger.

We have been engaged by Valor to provide it with certain financial advice and to render this letter. Bear Stearns has previously provided certain investment banking and other services to Valor for which we received customary fees. In addition, Bear Stearns is currently engaged, and in the past has been engaged, by affiliates of Alltel in matters unrelated to the Merger. Furthermore, we may be currently engaged, and in the past have been engaged, by Welsh, Carson, Anderson & Stowe and Vestar Capital Partners or their affiliates (collectively, the Financial Sponsors) to provide certain investment banking and other services in matters unrelated to the Merger. In addition, various individuals and entities affiliated with us may have passive minority investments in the Financial Sponsors. In the ordinary course of business, Bear Stearns and its affiliates may actively trade the equity and debt securities and/or bank debt of Valor, Alltel and/or entities affiliated with the Financial Sponsors for our own account and for the account of our customers and, accordingly, may at any time hold a long or short position in such securities or bank debt.

It is understood that this letter is intended for the benefit and use of the Board of Directors of Valor and does not constitute a recommendation to the Board of Directors of Valor or any holders of Valor common stock as to how to vote in connection with the Merger or otherwise. This opinion does not address Valor's underlying business decision to pursue the Merger, any financing or refinancing to be undertaken by SpinCo or Valor in connection with the Distribution or the Merger, the relative merits of the Merger as compared to any alternative business strategies that might exist for Valor or the effects of any other transaction in which Valor might engage. This letter is not to be used for any other purpose, or be reproduced, disseminated, quoted from or referred to at any time, in whole or in part, without our prior written consent; provided, however, that this letter may be included in its entirety in any proxy statement or other regulatory filing to be distributed to the holders of Valor common stock in connection with the Merger or otherwise required to be filed by Valor and summaries of this letter may be included in the proxy statement or any such filing. Our opinion is subject to the assumptions and conditions contained herein and is necessarily based on economic, market and other conditions, and the information made available to us, as of the date hereof. We assume no responsibility for updating or revising our opinion based on circumstances or events occurring after the date hereof.

(c) **Preemptive Rights.** No holder of Common Stock shall have any preemptive rights with respect to the Common Stock or any other securities of the Corporation, or to any obligations convertible (directly or indirectly) into securities of the Corporation whether now or hereafter authorized.

(d) **Voting Rights.** Except as otherwise provided by the Delaware General Corporation Law or this Certificate of Incorporation and subject to the rights of holders of any series of Preferred Stock, all of the voting power of the stockholders of the Corporation shall be vested in the holders of the Common Stock, and each holder of Common Stock shall have one vote for each share held by such holder on all matters voted upon by the stockholders of the Corporation.

A merger or consolidation of the Corporation with or into any other corporation or other entity, or a sale or conveyance of all or any part of the assets of the Corporation (which shall not in fact result in the liquidation of the Corporation and the distribution of assets to its stockholders) shall not be deemed to be a voluntary or involuntary liquidation or dissolution or winding up of the Corporation within the meaning of this Section 3(e).

(f) **Registration or Transfer.** The Corporation shall keep or cause to be kept at its principal office (or such other place as the Corporation reasonably designates) a register for the registration of Common Stock. To the greatest extent permitted by applicable Delaware law, the shares of the Corporation's Common Stock shall be uncertificated and transfer of such shares shall be reflected by book entry. Upon the surrender of any certificate representing shares of any class of Common Stock, the Corporation shall forthwith cancel such certificate and the holder thereof shall no longer be entitled to a certificate or certificates representing the shares of such class represented by the surrendered certificate. Any shares represented by a surrendered certificate cancelled as provided above shall be registered in the name and will represent such number of shares of such class as is requested by the holder of the surrendered certificate. Such book entry shall be made without charge to the holders of the surrendered certificates for any issuance tax in respect thereof or other cost incurred by the Corporation in connection with such issuance.

(g) **Replacement.** Upon receipt of evidence reasonably satisfactory to the Corporation (an affidavit of the registered holder will be satisfactory) of the ownership and the loss, theft, destruction or mutilation of any certificate evidencing one or more shares of any class of Common Stock that is represented by a certificate, and in the case of any such loss, theft or destruction, upon receipt of indemnity reasonably satisfactory to the Corporation (provided that if the holder is a financial institution or other institutional investor, its own agreement will be satisfactory), or, in the case of any such mutilation upon surrender of such certificate, the Corporation shall (at its expense) execute and deliver in lieu of such certificate a new certificate of like kind representing the number of shares of such class represented by such lost, stolen, destroyed or mutilated certificate and dated the date of such lost, stolen, destroyed or mutilated certificate.

Section 1. Number, Election and Term of Office of Directors.

(a) The Board of Directors shall consist of not less than three nor more than fifteen members, the exact number of which shall be fixed from time to time by the affirmative vote of a majority of the entire Board of Directors.

(b) Except as expressly provided herein, the manner of election and removal of such directors and the term such directors shall hold office shall be designated in the Bylaws of the Corporation. Each director shall hold office until a successor is duly elected and qualified or until his or her earlier death, resignation or removal. Elections of directors need not be by written ballot unless the Bylaws of the Corporation shall so provide.

(c) Subject to the rights, if any, of holders of any series of Preferred Stock, any vacancy on the Board of Directors that results from an increase in the number of directors may be filled by a majority of the Board of Directors then in office, provided that a quorum is present, and any other vacancy occurring on the Board of Directors may be filled by a majority of the Board of Directors then in office, even if less than a quorum, or by a sole remaining director. Any director elected to fill a vacancy not resulting from an increase in the number of directors shall have the same remaining term as that of his or her predecessor. Subject to the rights, if any, of the holders of any series of Preferred Stock, any or all of the directors of the Corporation may be removed from office at any time, with or without cause by the affirmative vote of the holders of at least a majority of the voting power of the Corporation's then outstanding capital stock entitled to vote generally in the election of directors. Notwithstanding the foregoing, whenever the holders of any one or more classes or series of Preferred Stock issued by the Corporation shall have the right, voting separately by class or series, to elect directors at an annual or special meeting of stockholders, the election, term of office, filling of vacancies and other features of such directorships shall be governed by the terms of this Restated Certificate applicable thereto.

In furtherance and not in limitation of the powers conferred by statute, the Board of Directors is expressly authorized to amend, alter, change or repeal the Bylaws of the Corporation. affirmative vote of the holders of at least two thirds of the combined voting power of all of the then outstanding shares of the Corporation entitled to vote on such amendment, alteration, change or repeal.

Section 1. Limitation of Liability.

(a) To the fullest extent permitted by the Delaware General Corporation Law as it now exists or may hereafter be amended, no director of the Corporation shall be liable to the Corporation or its stockholders for monetary damages arising from a breach of fiduciary duty owed to the Corporation or its stockholders.

(b) Any repeal or modification of the foregoing paragraph by the stockholders of the Corporation shall not adversely affect any right or protection of a director of the Corporation existing at the time of such repeal or modification.

Section 2. Right to Indemnification. Each person who was or is made a party or is threatened to be made a party to or is otherwise involved (including involvement as a witness) in any action, suit or proceeding, whether civil, criminal, administrative or investigative (a proceeding), by reason of the fact that he or she is or was a director or officer of the Corporation or, while a director, officer or other employee of the Corporation, is or was serving at the request of the Corporation as a director, officer, employee or agent of another corporation or of a partnership, joint venture, trust or other enterprise, including service with respect to an employee benefit plan (an indemnitee), whether the basis of such proceeding is alleged action in an official capacity as a director or officer or in any other capacity while serving as a director or officer, shall be indemnified and held harmless by the Corporation to the fullest extent authorized by the Delaware General Corporation Law, as the same exists or may hereafter be amended, against all expense, liability and loss (including attorneys' fees, judgments, fines, excise taxes or penalties and amounts paid in settlement) reasonably incurred or suffered by such indemnitee in connection therewith and such indemnification shall continue as to an indemnitee who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the indemnitee's heirs, executors and administrators; provided, however, that, except as provided in Section 3 of this ARTICLE EIGHT with respect to proceedings to enforce rights to indemnification, the Corporation shall indemnify any such indemnitee in connection with a proceeding (or part thereof) initiated by such indemnitee only if such proceeding (or part thereof) was authorized by the Board of Directors of the Corporation. The right to indemnification conferred in this Section 2 of this ARTICLE EIGHT shall be a contract right. In addition, the Corporation shall pay the expenses incurred in defending any such proceeding in advance of its final disposition (an advance of expenses); provided, however, that, if and to the extent that the Delaware General Corporation Law requires, an advance of expenses incurred by an indemnitee in his or her capacity as a director or officer (and not in any other capacity in which service was or is rendered by such indemnitee, including, without limitation, service to an employee benefit plan) shall be made only upon delivery to the Corporation of an undertaking (an undertaking), by or on behalf of such indemnitee, to repay all amounts so advanced if it shall ultimately be determined by final judicial decision from which there is no further right to appeal (a final adjudication) that such indemnitee is not entitled to be indemnified for such expenses under this Section 2 or otherwise. The Corporation may, by action of its Board of Directors, provide indemnification to employees and agents of the Corporation with the same or lesser scope and effect as the foregoing indemnification of directors and officers.

Section 3. Procedure for Indemnification. Any indemnification of a director or officer of the Corporation or advance of expenses under Section 2 of this ARTICLE EIGHT shall be made promptly, and in any event within forty-five days (or, in the case of an advance of expenses, twenty days), upon the written request of the director or officer. If a determination by the Corporation that the director or officer is entitled to indemnification pursuant to this ARTICLE EIGHT is required, and the Corporation fails to respond within sixty days to a written request for indemnity, the Corporation shall be deemed to have approved the request. If the Corporation denies a written request for indemnification or advance of expenses, in whole or in part, or if payment in full pursuant to such request is not made within forty-five days (or, in the case of an advance of

Table of Contents

expenses, twenty days), the right to indemnification or advances as granted by this ARTICLE EIGHT shall be enforceable by the director or officer in any court of competent jurisdiction. Such person's costs and expenses incurred in connection with successfully establishing his or her right to indemnification, in whole or in part, in any such action shall also be indemnified by the Corporation. It shall be a defense to any such action (other than an action brought to enforce a claim for the advance of expenses where the undertaking required pursuant to Section 2 of this ARTICLE EIGHT, if any, has been tendered to the Corporation) that the claimant has not met the standards of conduct which make it permissible under the Delaware General Corporation Law for the Corporation to indemnify the claimant for the amount claimed, but the burden of such defense shall be on the Corporation. Neither the failure of the Corporation (including its Board of Directors, independent legal counsel or its stockholders) to have made a determination prior to the commencement of such action that indemnification of the claimant is proper in the circumstances because he or she has met the applicable standard of conduct set forth in the Delaware General Corporation Law, nor an actual determination by the Corporation (including its Board of Directors, independent legal counsel or its stockholders) that the claimant has not met such applicable standard of conduct, shall be a defense to the action or create a presumption that the claimant has not met the applicable standard of conduct. The procedure for indemnification of other employees and agents for whom indemnification is provided pursuant to Section 2 of this ARTICLE EIGHT shall be the same procedure set forth in this Section 3 for directors or officers, unless otherwise set forth in the action of the Board of Directors providing indemnification for such employee or agent.

Section 4. Insurance. The Corporation may purchase and maintain insurance on its own behalf and on behalf of any person who is or was a director, officer, employee or agent of the Corporation or was serving at the request of the Corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, including service with respect to an employee benefit plan, against any expense, liability or loss asserted against him or her and incurred by him or her in any such capacity, whether or not the Corporation would have the power to indemnify such person against such expenses, liability or loss under the Delaware General Corporation Law.

Section 5. Service for Subsidiaries. Any person serving as a director, officer, employee or agent of another corporation, partnership, limited liability company, joint venture or other enterprise, at least 50% of whose equity interests are owned by the Corporation (a subsidiary for this ARTICLE EIGHT) shall be conclusively presumed to be serving in such capacity at the request of the Corporation.

Section 6. Reliance. Persons who after the date of the adoption of this provision become or remain directors or officers of the Corporation or who, while a director, officer or other employee of the Corporation, become or remain a director, officer, employee or agent of a subsidiary, shall be conclusively presumed to have relied on the rights to indemnity, advance of expenses and other rights contained in this ARTICLE EIGHT in entering into or continuing such service. The rights to indemnification and to the advance of expenses conferred in this ARTICLE EIGHT shall apply to claims made against an indemnitee arising out of acts or omissions which occurred or occur both prior and subsequent to the adoption hereof.

Section 7. Non-Exclusivity of Rights. The rights to indemnification and to the advance of expenses conferred in this ARTICLE EIGHT shall not be exclusive of any other right which any person may have or hereafter acquire under this Restated Certificate or under any statute, by-law, agreement, vote of stockholders or disinterested directors or otherwise.

Section 8. Merger or Consolidation. For purposes of this ARTICLE EIGHT, references to the Corporation shall include, in addition to the resulting Corporation, any constituent Corporation (including any constituent of a constituent) absorbed in a consolidation or merger which, if its separate existence had continued, would have had power and authority to indemnify its directors, officers and employees or agents, so that any person who is or was a director, officer, employee or agent of such constituent Corporation, or is or was serving at the request of such constituent Corporation as a director, officer, employee or agent of another Corporation, partnership, joint venture, trust or other enterprise, shall stand in the same position under this ARTICLE EIGHT with respect to the resulting or surviving Corporation as he or she would have with respect to such constituent Corporation if its separate existence had continued.

Section 9. *Savings Clause.* If this ARTICLE EIGHT or any portion hereof shall be invalidated on any ground by any court of competent jurisdiction, then the Corporation shall nevertheless indemnify each person entitled to indemnification under Section 2 of this ARTICLE EIGHT as to all expense, liability and loss (including attorneys' fees and related disbursements, judgments, fines, ERISA excise taxes and penalties, penalties and amounts paid or to be paid in settlement) actually and reasonably incurred or suffered by such person and for which indemnification is available to such person pursuant to this ARTICLE EIGHT to the full extent permitted by any applicable portion of this ARTICLE EIGHT that shall not have been invalidated and to the full extent permitted by applicable law.

ARTICLE II

Meetings of Stockholders

Section 1. Annual Meeting. An annual meeting of the stockholders shall be held on such date and at such time as shall be designated from time to time by the Board of Directors. At the annual meeting, stockholders shall elect Directors and transact such other business as properly may be brought before the annual meeting pursuant to Section 11 of ARTICLE II hereof.

Section 2. Special Meetings. Special meetings of the stockholders may only be called in the manner provided in ARTICLE TEN of the Restated Certificate of Incorporation of the Corporation (the Certificate of Incorporation). Business transacted at any special meeting of stockholders shall be limited to the purposes stated in the notice.

Section 3. Place of Meetings. The Board of Directors may designate any place, either within or without the State of Delaware, as the place of meeting for any annual meeting or for any special meeting. If no designation is made, or if a special meeting be otherwise called, the place of meeting shall be the principal executive office of the Corporation.

Section 4. Notice. Whenever stockholders are required or permitted to take action at a meeting, written or printed notice, or notice by electronic transmission, stating the place, if any, date, time, if applicable, the means of remote communications and, in the case of special meetings, the purpose or purposes, of such meeting, shall be given to each stockholder entitled to vote at such meeting not less than 10 nor more than 60 days before the date of the meeting. All such notices shall be delivered, either personally or by mail, by or at the direction of the Board of Directors, the chairman of the board, the president or the secretary, and if mailed, such notice shall be deemed to be delivered when deposited in the United States mail, postage prepaid, addressed to the stockholder at his, her or its address as the same appears on the records of the Corporation. Attendance of a person at a meeting shall constitute a waiver of notice of such meeting, except when the person attends for the express purpose of objecting at the beginning of the meeting to the transaction of any business because the meeting is not lawfully called or convened.

Table of Contents

Section 5. Stockholders List. The officer having charge of the stock ledger of the Corporation shall make, at least 10 days before every meeting of the stockholders, a complete list of the stockholders entitled to vote at such meeting arranged in alphabetical order, showing the address of each stockholder and the number of shares registered in the name of each stockholder. Such list shall be open to the examination of any stockholder, for any purpose germane to the meeting, during ordinary business hours, for a period of at least 10 days prior to the meeting, either (i) on a reasonably accessible electronic network, provided that the information required to gain access to such list is provided with the notice of meeting or (ii) during ordinary business hours at the principal place of business of the Corporation. The list shall also be produced and kept at the time and place of the meeting during the whole time thereof, and may be inspected by any stockholder who is present.

Section 6. Quorum. The holders of a majority of the outstanding shares of capital stock entitled to vote, present in person or represented by proxy, shall constitute a quorum at all meetings of the stockholders, except as otherwise provided by the General Corporation Law of the State of Delaware or by the Certificate of Incorporation. If a quorum is not present, the holders of a majority of the shares present in person or represented by proxy at the meeting, and entitled to vote at the meeting, may adjourn the meeting to another time and/or place. When a specified item of business requires a vote by a class or series (if the Corporation shall then have outstanding shares of more than one class or series) voting as a class or series, the holders of a majority of the shares of such class or series shall constitute a quorum (as to such class or series) for the transaction of such item of business.

Section 7. Adjourned Meetings. When a meeting is adjourned to another time and place, notice need not be given of the adjourned meeting if the time and place thereof are announced at the meeting at which the adjournment is taken. At the adjourned meeting the Corporation may transact any business which might have been transacted at the original meeting. If the adjournment is for more than 30 days, or if after the adjournment a new record date is fixed for the adjourned meeting, a notice of the adjourned meeting shall be given to each stockholder of record entitled to vote at the meeting.

Section 8. Vote Required. When a quorum is present, the affirmative vote of the majority of shares present in person or represented by proxy at the meeting and entitled to vote on the subject matter shall be the act of the stockholders, unless (i) by express provisions of an applicable law or of the Certificate of Incorporation a different vote is required, in which case such express provision shall govern and control the decision of such question, or (ii) the subject matter is the election of Directors, in which case Section 2 of ARTICLE III hereof shall govern and control the approval of such subject matter.

Section 9. Voting Rights. Except as otherwise provided by the General Corporation Law of the State of Delaware, the Certificate of Incorporation or these Bylaws, every stockholder shall at every meeting of the stockholders be entitled to one vote in person or by proxy for each share of capital stock held by such stockholder.

Section 10. Proxies. Each stockholder entitled to vote at a meeting of stockholders or to express consent or dissent to corporate action in writing without a meeting may authorize another person or persons to act for him or her by proxy, but no such proxy shall be voted or acted upon after three years from its date, unless the proxy provides for a longer period. A duly executed proxy shall be irrevocable if it states that it is irrevocable and if, and only as long as, it is coupled with an interest sufficient in law to support an irrevocable power. A proxy may be made irrevocable regardless of whether the interest with which it is coupled is an interest in the stock itself or an interest in the Corporation generally. Any proxy is suspended when the person executing the proxy is present at a meeting of stockholders and elects to vote, except that when such proxy is coupled with an interest and the fact of the interest appears on the face of the proxy, the agent named in the proxy shall have all voting and other rights referred to in the proxy, notwithstanding the presence of the person executing the proxy. At each meeting of the stockholders, and before any voting commences, all proxies filed at or before the meeting shall be submitted to and examined by the secretary or a person designated by the secretary, and no shares may be represented or voted under a proxy that has been found to be invalid or irregular.

Section 11. *Business Brought Before an Annual Meeting.* At an annual meeting of the stockholders, only such business shall be conducted as shall have been properly brought before the meeting. To be properly brought before an annual meeting, business must be (i) specified in the notice of meeting (or any supplement thereto) given by or at the direction of the Board of Directors, (ii) brought before the meeting by or at the direction of the Board of Directors or (iii) otherwise properly brought before the meeting by a stockholder. For business to be properly brought before an annual meeting by a stockholder, such proposed business, other than the nominations of persons for election to the Board of Directors, must constitute a proper matter for stockholder actions, and the stockholder must have given timely notice thereof in writing to the secretary of the Corporation. To be timely, a stockholder's notice must be delivered to or mailed and received at the principal executive offices of the Corporation, not less than 90 days nor more than 120 days prior to the anniversary date of the immediately preceding annual meeting of stockholders; provided, however, that in the event that the annual meeting of stockholders is called for a date that is not within 25 days before or after such anniversary date, notice by the stockholder to be timely must be so received not later than the close of business on the 10th day following the date on which notice of the date of the annual meeting was mailed or public announcement of such date was made, whichever occurs first. In no event shall the public announcement of an adjournment or postponement of an annual meeting commence a new time period (or extend any time period) for the giving of a stockholder's notice as described above. A stockholder's notice to the secretary shall set forth as to each matter the stockholder proposes to bring before the annual meeting (i) a brief description of the business desired to be brought before the annual meeting and the text of the proposal or business, (ii) the name and address, as they appear on the Corporation's books, of the stockholder proposing such business, (iii) the class and number of shares of the Corporation which are beneficially owned by the stockholder, (iv) any material interest of the stockholder in such business, (v) a representation that the stockholder is a holder of record of stock of the Corporation entitled to vote at such meeting and intends to appear in person or by proxy at the meeting to propose such business, and (vi) a representation whether the stockholder or the beneficial owner, if any, intends or is part of a group which intends (a) to deliver a proxy statement and/or form of proxy to holders of at least the percentage of the Corporation's outstanding capital stock required to approve or adopt the proposal and/or (b) otherwise to solicit proxies from stockholders in support of such proposal. Notwithstanding anything in these Bylaws to the contrary, no business shall be conducted at an annual meeting except in accordance with the procedures set forth in this section. The presiding officer of an annual meeting shall, if the facts warrant, determine and declare to the meeting that business was not properly brought before the meeting and in accordance with the provisions of this section; if he should so determine, he shall so declare to the meeting and any such business not properly brought before the meeting shall not be transacted. For purposes of this section, "public announcement" shall mean disclosure in a press release reported by Dow Jones News Service, Associated Press or a comparable national news service. Nothing in this section shall be deemed to affect any rights of stockholders to request inclusion of proposals in the Corporation's proxy statement pursuant to Rule 14a-8 promulgated under the Securities Exchange Act of 1934 (the "Exchange Act").

ARTICLE III

Directors

Section 1. *General Powers.* The business and affairs of the Corporation shall be managed by or under the direction of the Board of Directors. In addition to such powers as are herein and in the Certificate of Incorporation expressly conferred upon it, the Board of Directors shall have and may exercise all the powers of the Corporation, subject to the provisions of the laws of Delaware, the Certificate of Incorporation and these Bylaws.

Section 2. *Number, Election and Term of Office.* The Board of Directors shall consist of not less than three nor more than fifteen members, the exact number of which shall be fixed from time to time by the affirmative vote of a majority of the entire Board of Directors. Except as provided in Section 3 of this Article III, the Directors shall be elected by a plurality of the votes of the shares present in person or represented by proxy at the meeting and entitled to vote in the election of directors. The Directors shall be elected in this manner at the annual meeting of stockholders, except as provided in Section 3 of this

Article III. Each Director shall hold office until a successor is duly elected and qualified or until his or her earlier death, resignation or removal as hereinafter provided.

Section 3. Vacancies. Subject to the rights of holders of any series of Preferred Stock, any vacancy on the Board of Directors that results from an increase in the number of directors may be filled by a majority of the Board of Directors then in office, provided that a quorum is present, and any other vacancy occurring on the Board of Directors may be filled by a majority of the Board of Directors then in office, even if less than a quorum, or by a sole remaining director. Any director elected to fill a vacancy not resulting from an increase in the number of directors shall have the same remaining term as that of his predecessor. Subject to the rights, if any, of the holders of any series of Preferred Stock, any or all of the directors of the Corporation may be removed from office at any time, with or without cause by the affirmative vote of the holders of at least a majority of the voting power of the Corporation's then outstanding capital stock entitled to vote generally in the election of directors. Notwithstanding the foregoing, whenever the holders of any one or more classes or series of Preferred Stock issued by the Corporation shall have the right, voting separately by class or series, to elect directors at an annual or special meeting of stockholders, the election, term of office, filling of vacancies and other features of such directorships shall be governed by the terms of the Certificate of Incorporation applicable thereto.

Section 4. Nominations.

(a) Only persons who are nominated in accordance with the procedures set forth in these Bylaws shall be eligible to serve as Directors. Nominations of persons for election to the Board of Directors of the Corporation may be made at a meeting of stockholders (i) by or at the direction of the Board of Directors or (ii) by any stockholder of the Corporation who was a stockholder of record at the time of giving of notice provided for in these Bylaws, who is entitled to vote generally in the election of Directors at the meeting and who shall have complied with the notice procedures set forth below in Section 4(b).

(b) In order for a stockholder to nominate a person for election to the Board of Directors of the Corporation at a meeting of stockholders, such stockholder shall have delivered timely notice of such stockholder's intent to make such nomination in writing to the secretary of the Corporation. To be timely, a stockholder's notice shall be delivered to or mailed and received at the principal executive offices of the Corporation (i) in the case of an annual meeting, not less than 90 nor more than 120 days prior to the first anniversary of the preceding year's annual meeting; provided, however, that in the event that the date of the annual meeting is changed by more than 30 days from such anniversary date, notice by the stockholder to be timely must be so received not later than the close of business on the 10th day following the day on which notice of the date of the meeting was mailed or public disclosure of the meeting was made, whichever occurs first, and (ii) in the case of a special meeting at which Directors are to be elected, not later than the close of business on the 10th day following the day on which notice of the date of the meeting was mailed or public disclosure of the meeting was made, whichever occurs first. In no event shall the public announcement of an adjournment or postponement of an annual meeting commence a new time period (or extend any time period) for the giving of a stockholder's notice as described above. Such stockholder's notice shall set forth (i) as to each person whom the stockholder proposes to nominate for election as a Director at such meeting all information relating to such person that is required to be disclosed in solicitations of proxies for election of Directors, or is otherwise required, in each case pursuant to Regulation 14A under the Exchange Act (including such person's written consent to being named in the proxy statement as a nominee and to serving as a Director if elected) and such person's written consent to being named in the proxy statement as a nominee and to serving as a director if elected; (ii) as to the stockholder giving the notice (A) the name and address, as they appear on the Corporation's books, of such stockholder and (B) the class and number of shares of the Corporation which are beneficially owned by such stockholder and also which are owned of record by such stockholder; and (iii) as to the beneficial owner, if any, on whose behalf the nomination is made, (A) the name and address of such person and (B) the class and number of shares of the Corporation which are beneficially owned by such person (C) a representation that the stockholder is a holder of record of stock of the Corporation entitled to vote at such meeting and intends to appear in person or by proxy at the meeting to propose such nomination, and (D) a representation whether the stockholder or the beneficial owner, if any, intends or is part of a group which intends (a) to deliver a proxy statement and/or form of proxy to holders of

at least the percentage of the Corporation's outstanding capital stock required to elect the nominee and/or (b) otherwise to solicit proxies from stockholders in support of such nomination. At the request of the Board of Directors, any person nominated by the Board of Directors for election as a Director shall furnish to the secretary of the Corporation that information required to be set forth in a stockholder's notice of nomination which pertains to the nominee.

(c) No person shall be eligible to serve as a Director of the Corporation unless nominated in accordance with the procedures set forth in this section. The chairman of the meeting shall, if the facts warrant, determine and declare to the meeting that a nomination was not made in accordance with the procedures prescribed by this section, and if he should so determine, he shall so declare to the meeting and the defective nomination shall be disregarded. A stockholder seeking to nominate a person to serve as a Director must also comply with all applicable requirements of the Exchange Act, and the rules and regulations thereunder with respect to the matters set forth in this section.

Section 5. Annual Meetings. The annual meeting of the Board of Directors shall be held, without any notice other than this Section 5, immediately after, and at the same place as, the annual meeting of stockholders.

Section 6. Other Meetings and Notice. Regular meetings, other than the annual meeting, of the Board of Directors may be held without notice at such time and at such place as shall from time to time be determined by resolution of the Board of Directors. Special meetings of the Board of Directors may be called by the chairman of the board, the president (if the president is a Director) or, upon the written request of a majority of the total number of Directors then in office, the secretary of the Corporation on at least 24 hours notice to each Director, either personally, by telephone, by mail or by telecopy.

Section 7. Chairman of the Board, Quorum, Required Vote and Adjournment. The Board of Directors shall elect, by the affirmative vote of a majority of the total number of Directors then in office, a chairman of the board, who shall preside at all meetings of the stockholders and Board of Directors at which he or she is present and shall have such powers and perform such duties as the Board of Directors may from time to time prescribe. If the chairman of the board is not present at a meeting of the stockholders or the Board of Directors, the president (if the president is a Director and is not also the chairman of the board) shall preside at such meeting, and, if the president is not present at such meeting, a majority of the Directors present at such meeting shall elect one of their members to so preside. A majority of the total number of Directors then in office shall constitute a quorum for the transaction of business. Unless by express provision of an applicable law, the Certificate of Incorporation or these Bylaws a different vote is required, the vote of a majority of Directors present at a meeting at which a quorum is present shall be the act of the Board of Directors. If a quorum shall not be present at any meeting of the Board of Directors, the Directors present thereat may adjourn the meeting from time to time, without notice other than announcement at the meeting, until a quorum shall be present.

Section 8. Committees. The Board of Directors may, by resolution passed by a majority of the total number of Directors then in office, designate one or more committees, each committee to consist of one or more of the Directors of the Corporation, which to the extent provided in such resolution or these Bylaws shall have, and may exercise, the powers of the Board of Directors in the management and affairs of the Corporation, except as otherwise limited by law. The Board of Directors may designate one or more Directors as alternate members of any committee, who may replace any absent or disqualified member at any meeting of the committee. Such committee or committees shall have such name or names as may be determined from time to time by resolution adopted by the Board of Directors. Each committee shall keep regular minutes of its meetings and report the same to the Board of Directors upon request.

Section 9. Committee Rules. Each committee of the Board of Directors may fix its own rules of procedure and shall hold its meetings as provided by such rules, except as may otherwise be provided by a resolution of the Board of Directors designating such committee. Unless otherwise provided in such a resolution, the presence of at least a majority of the members of the committee shall be necessary to constitute a quorum. Unless otherwise provided in such a resolution, in the event that a member and that member's alternate, if alternates are designated by the Board of Directors, of such committee is or are absent or

disqualified, the member or members thereof present at any meeting and not disqualified from voting, whether or not such member or members constitute a quorum, may unanimously appoint another member of the Board of Directors to act at the meeting in place of any such absent or disqualified member.

Section 10. Communications Equipment. Members of the Board of Directors or any committee thereof may participate in and act at any meeting of such board or committee through the use of a conference telephone or other communications equipment by means of which all persons participating in the meeting can hear and speak with each other, and participation in the meeting pursuant to this section shall constitute presence in person at the meeting.

Section 11. Waiver of Notice and Presumption of Assent. Any member of the Board of Directors or any committee thereof who is present at a meeting shall be conclusively presumed to have waived notice of such meeting except when such member attends for the express purpose of objecting at the beginning of the meeting to the transaction of any business because the meeting is not lawfully called or convened. Such member shall be conclusively presumed to have assented to any action taken unless his or her dissent shall be entered in the minutes of the meeting or unless his or her written dissent to such action shall be filed with the person acting as the secretary of the meeting before the adjournment thereof or shall be forwarded by registered mail to the secretary of the Corporation immediately after the adjournment of the meeting. Such right to dissent shall not apply to any member who voted in favor of such action.

Section 12. Action by Written Consent. Unless otherwise restricted by the Certificate of Incorporation, any action required or permitted to be taken at any meeting of the Board of Directors, or of any committee thereof, may be taken without a meeting if all members of such board or committee, as the case may be, consent thereto in writing or by electronic transmission, and the writing or writings or electronic transmission are filed with the minutes of proceedings of the board or committee.

Any number of offices may be held by the same person, except that neither the chief executive officer nor the president shall also hold the office of secretary. Section 5. Compensation. Compensation of all executive officers shall be approved by the Board of Directors, and no officer shall be prevented from receiving such compensation by virtue of his or her also being a Director of the Corporation; provided however, that compensation of all executive officers may be determined by a committee established for that purpose if so authorized by the Board of Directors.

Section 6. Chairman of the Board. The chairman of the Board of Directors shall preside at all meetings of the stockholders and of the Board of Directors and shall have such other powers and perform such other duties as may be prescribed to him or her by the Board of Directors or provided in these Bylaws.

Section 7. Chief Executive Officer. The chief executive officer shall have the powers and perform the duties incident to that position. Subject to the powers of the Board of Directors and the chairman of the board, the chief executive officer shall be in the general and active charge of the entire business and affairs of the Corporation, and shall be its chief policy making officer. The chief executive officer shall have such other powers and perform such other duties as may be prescribed by the Board of Directors or provided in these Bylaws. The chief executive officer is authorized to execute bonds, mortgages and other contracts requiring a seal, under the seal of the Corporation, except where required or permitted by law to be otherwise signed and executed and except where the signing and execution thereof shall be expressly delegated by the Board of Directors to some other officer or agent of the Corporation. Whenever the president is unable to serve, by reason of sickness, absence or otherwise, the chief executive officer shall perform all the duties and responsibilities and exercise all the powers of the president.

Section 8. The President. The president of the Corporation shall, subject to the powers of the Board of Directors, the chairman of the board and the chief executive officer, have general charge of the business, affairs and property of the Corporation, and control over its officers, agents and employees. The president shall see that all orders and resolutions of the Board of Directors are carried into effect. The president is authorized to execute bonds, mortgages and other contracts requiring a seal, under the seal of the Corporation, except where required or permitted by law to be otherwise signed and executed and except where the signing and execution thereof shall be expressly delegated by the Board of Directors to some other officer or agent of the Corporation. The president shall have such other powers and perform such other duties as may be prescribed by the chairman of the board, the chief executive officer, the Board of Directors or as may be provided in these Bylaws.

Section 9. Vice-Presidents. The vice-president, or if there shall be more than one, the vice-presidents in the order determined by the Board of Directors or the chairman of the board, shall, in the absence or disability of the president, act with all of the powers and be subject to all the restrictions of the president. The vice-presidents shall also perform such other duties and have such other powers as the Board of Directors, the chairman of the board, the chief executive officer, the president or these Bylaws may, from time to time, prescribe. The vice-presidents may also be designated as executive vice-presidents or senior vice-presidents, as the Board of Directors may from time to time prescribe.

Section 10. The Secretary and Assistant Secretaries. The secretary shall attend all meetings of the Board of Directors, all meetings of the committees thereof and all meetings of the stockholders and record all the proceedings of the meetings in a book or books to be kept for that purpose or shall ensure that his or her designee attends each such meeting to act in such capacity. Under the chairman of the Board of Directors supervision, the secretary shall give, or cause to be given, all notices required to be given by the Certificate of Incorporation, these Bylaws or by applicable law; shall have such powers and perform such duties as the Board of Directors, the chairman of the board, the chief executive officer, the president or these Bylaws may, from time to time, prescribe; and shall have custody of the corporate seal of the Corporation. The secretary, or an assistant secretary, shall have authority to affix the corporate seal to any instrument requiring it and when so affixed, it may be attested by his or her signature or by the signature of such assistant secretary. The Board of Directors may give general authority to any other officer to affix the seal of the Corporation and to attest the affixing by his or her signature. The assistant secretary, or if there be more than one, any of the assistant secretaries, shall in the absence or disability of the secretary, perform the duties and exercise the powers of the secretary and shall perform such other duties and have such other powers as the Board of Directors, the chairman of the board, the chief executive officer, the president, or secretary may, from time to time, prescribe.

If required by the Board of Directors, the chief financial officer shall give the Corporation a bond (which shall be rendered every six years) in such sums and with such surety or sureties as shall be satisfactory to the Board of Directors for the faithful performance of the duties of the office of chief financial officer and for the restoration to the Corporation, in case of death, resignation, retirement or removal from office of all books, papers, vouchers, money and other property of whatever kind in the possession or under the control of the chief financial officer belonging to the Corporation.

Section 12. Other Officers, Assistant Officers and Agents. Officers, assistant officers and agents, if any, other than those whose duties are provided for in these Bylaws, shall have such authority and perform such duties as may from time to time be prescribed by resolution of the Board of Directors.

Section 13. Absence or Disability of Officers. In the case of the absence or disability of any officer of the Corporation and of any person hereby authorized to act in such officer's place during such officer's absence or disability, the Board of Directors may by resolution delegate the powers and duties of such officer to any other officer or to any Director, or to any other person selected by it.

ARTICLE V

Certificates of Stock

Section 1. Form. To the greatest extent permitted by applicable Delaware law, the shares of the Corporation's Common Stock shall be uncertificated and transfer of such shares shall be reflected by book entry. Notwithstanding the foregoing, every holder of stock in the Corporation, if any, that is represented by a certificate shall be entitled to have a certificate, signed by, or in the name of the Corporation by the chairman of the board, the chief executive officer or the president and the secretary or an assistant secretary of the Corporation, certifying the number of shares owned by such holder in the Corporation. If such a certificate is countersigned (i) by a transfer agent or an assistant transfer agent other than the Corporation or its employee or (ii) by a registrar, other than the Corporation or its employee, the signature of any such chairman of the board, chief executive officer, president, secretary or assistant secretary may be facsimiles. In case any officer or officers who have signed, or whose facsimile signature or signatures have been used on, any such certificate or certificates shall cease to be such officer or officers of the Corporation whether because of death, resignation or otherwise before such certificate or certificates have been delivered by the Corporation, such certificate or certificates may nevertheless be issued and delivered as though the person or persons who signed such certificate or certificates or whose facsimile signature or signatures have been used thereon had not ceased to be such officer or officers of the Corporation. All certificates for shares shall be consecutively numbered or otherwise identified. The name of the person to whom the shares represented thereby are issued, with the number of shares and date of issue, shall be entered on the books of the Corporation. Shares of stock of the Corporation shall only be transferred on the books of the Corporation by the holder of record thereof or by such holder's attorney duly authorized in writing, in the case of certificated shares, upon surrender to the Corporation of the certificate or certificates for such shares endorsed by the appropriate person or persons, with such evidence of the authenticity of such endorsement, transfer, authorization and other matters as the Corporation may reasonably require, and accompanied by all necessary stock transfer stamps, or in the case of uncertificated shares, upon delivery to the Corporation of evidence, in form and substance reasonably satisfactory to the Corporation, demonstrating that the party requesting such transfer is the record holder thereof or the holder's attorney duly authorized in writing. Upon the surrender of any certificate representing shares of any class of Common Stock, the Corporation shall forthwith cancel such certificate and the holder thereof shall no longer be entitled to a certificate or certificates representing the shares of such class represented by the surrendered certificate. Any shares represented by a surrendered certificate cancelled as provided above shall be registered in the name and will represent such number of shares of such class as is

Table of Contents

requested by the holder of the surrendered certificate. Such book entry shall be made without charge to the holders of the surrendered certificates for any issuance tax in respect thereof or other cost incurred by the Corporation in connection with such issuance. The Board of Directors may appoint a bank or trust company organized under the laws of the United States or any state thereof to act as its transfer agent or registrar, or both in connection with the transfer of any class or series of securities of the Corporation.

Section 2. Lost Certificates. The Board of Directors may direct a new certificate or certificates, if any, to be issued in place of any certificate or certificates previously issued by the Corporation alleged to have been lost, stolen or destroyed, upon the making of an affidavit of that fact by the person claiming the certificate of stock to be lost, stolen or destroyed. When authorizing such issue of a new certificate or certificates, the Corporation may, in its discretion and as a condition precedent to the issuance thereof, require the owner of such lost, stolen or destroyed certificate or certificates, or his or her legal representative, to give the Corporation a bond sufficient to indemnify the Corporation against any claim that may be made against the Corporation on account of the loss, theft or destruction of any such certificate or the issuance of such new certificate.

Section 3. Fixing a Record Date for Stockholder Meetings. In order that the Corporation may determine the stockholders entitled to notice of or to vote at any meeting of stockholders or any adjournment thereof, the Board of Directors may fix a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted by the Board of Directors, and which record date shall not be more than 60 nor less than 10 days before the date of such meeting. If no record date is fixed by the Board of Directors, the record date for determining stockholders entitled to notice of or to vote at a meeting of stockholders shall be the close of business on the next day preceding the day on which notice is first given. A determination of stockholders of record entitled to notice of or to vote at a meeting of stockholders shall apply to any adjournment of the meeting; provided, however, that the Board of Directors may fix a new record date for the adjourned meeting.

Section 4. Fixing a Record Date for Other Purposes. In order that the Corporation may determine the stockholders entitled to receive payment of any dividend or other distribution or allotment or any rights or the stockholders entitled to exercise any rights in respect of any change, conversion or exchange of stock, or for the purposes of any other lawful action, the Board of Directors may fix a record date, which record date shall not precede the date upon which the resolution fixing the record date is adopted, and which record date shall be not more than 60 days prior to such action. If no record date is fixed, the record date for determining stockholders for any such purpose shall be at the close of business on the day on which the Board of Directors adopts the resolution relating thereto.

Section 5. Registered Stockholders. Prior to the surrender to the Corporation of the certificate or certificates, if any, for a share or shares of stock with a request to record the transfer of such share or shares, the Corporation may treat the registered owner as the person entitled to receive dividends, to vote, to receive notifications and otherwise to exercise all the rights and powers of an owner. The Corporation shall not be bound to recognize any equitable or other claim to or interest in such share or shares on the part of any other person, whether or not it shall have express or other notice thereof.

Section 6. Subscriptions for Stock. Unless otherwise provided for in the subscription agreement, subscriptions for shares shall be paid in full at such time, or in such installments and at such times, as shall be determined by the Board of Directors. Any call made by the Board of Directors for payment on subscriptions shall be uniform as to all shares of the same class or as to all shares of the same series. In case of default in the payment of any installment or call when such payment is due, the Corporation may proceed to collect the amount due in the same manner as any debt due the Corporation.

ARTICLE VI

General Provisions

Section 1. Dividends. Dividends upon the capital stock of the Corporation, subject to the provisions of the Certificate of Incorporation, if any, may be declared by the Board of Directors at any regular or special

Table of Contents

meeting, in accordance with applicable law. Dividends may be paid in cash, in property or in shares of the capital stock, subject to the provisions of the Certificate of Incorporation. Before payment of any dividend, there may be set aside out of any funds of the Corporation available for dividends such sum or sums as the Directors from time to time, in their absolute discretion, think proper as a reserve or reserves to meet contingencies, or for equalizing dividends, or for repairing or maintaining any property of the Corporation, or any other purpose and the Directors may modify or abolish any such reserve in the manner in which it was created.

Section 2. Checks, Drafts or Orders. All checks, drafts or other orders for the payment of money by or to the Corporation and all notes and other evidences of indebtedness issued in the name of the Corporation shall be signed by such officer or officers, agent or agents of the Corporation, and in such manner, as shall be determined by resolution of the Board of Directors or a duly authorized committee thereof.

Section 3. Contracts. In addition to the powers otherwise granted to officers pursuant to ARTICLE IV hereof, the Board of Directors may authorize any officer or officers, or any agent or agents, of the Corporation to enter into any contract or to execute and deliver any instrument in the name of and on behalf of the Corporation, and such authority may be general or confined to specific instances.

Section 4. Loans. Subject to compliance with applicable laws, the Corporation may lend money to, or guarantee any obligation of, or otherwise assist any officer or other employee of the Corporation or of its subsidiaries, including any officer or employee who is a Director of the Corporation or its subsidiaries, whenever, in the judgment of the Directors, such loan, guaranty or assistance may reasonably be expected to benefit the Corporation. The loan, guaranty or other assistance may be with or without interest, and may be unsecured, or secured in such manner as the Board of Directors shall approve, including, without limitation, a pledge of shares of stock of the Corporation. Nothing in this section shall be deemed to deny, limit or restrict the powers of guaranty or warranty of the Corporation at common law or under any statute.

Section 5. Fiscal Year. The fiscal year of the Corporation shall be fixed by resolution of the Board of Directors.

Section 6. Corporate Seal. The Board of Directors may provide a corporate seal which shall be in the form of a circle and shall have inscribed thereon the name of the Corporation and the words Corporate Seal, Delaware. The seal may be used by causing it or a facsimile thereof to be impressed or affixed or reproduced or otherwise. No seal shall be required by virtue of this Section.

Section 7. Voting Securities Owned By Corporation. Voting securities in any other Corporation held by the Corporation shall be voted by the chief executive officer, the president or a vice-president, unless the Board of Directors specifically confers authority to vote with respect thereto, which authority may be general or confined to specific instances, upon some other person or officer. Any person authorized to vote securities shall have the power to appoint proxies, with general power of substitution.

Section 8. Inspection of Books and Records. The Board of Directors shall have power from time to time to determine to what extent and at what times and places and under what conditions and regulations the accounts and books of the Corporation, or any of them, shall be open to the inspection of the stockholders; and no stockholder shall have any right to inspect any account or book or document of the Corporation, except as conferred by the laws of the State of Delaware, unless and until authorized so to do by resolution of the Board of Directors or of the stockholders of the Corporation.

Section 9. Section Headings. Section headings in these Bylaws are for convenience of reference only and shall not be given any substantive effect in limiting or otherwise construing any provision herein.

Section 10. Inconsistent Provisions. In the event that any provision of these Bylaws is or becomes inconsistent with any provision of the Certificate of Incorporation, the General Corporation Law of the State of Delaware or any other applicable law, the provision of these Bylaws shall not be given any effect to the extent of such inconsistency but shall otherwise be given full force and effect.

ARTICLE VII
Amendments

In furtherance and not in limitation of the powers conferred by statute, the Board of Directors of the Corporation is expressly authorized to make, alter, amend, change, add to or repeal these Bylaws by the affirmative vote of a majority of the total number of Directors then in office. Any alteration or repeal of these Bylaws by the stockholders of the Corporation shall require the affirmative vote of a majority of the outstanding shares of the Corporation entitled to vote on such alteration or repeal; provided, however, that Section 11 of ARTICLE II and Sections 2, 3, and 4 of ARTICLE III and this ARTICLE VII of these Bylaws shall not be altered, amended or repealed and no provision inconsistent therewith shall be adopted without the affirmative vote of the holders of at least two-thirds of the combined voting power of all of the then outstanding shares of the Corporation entitled to vote on such alteration or repeal.

No member of the Board shall be liable for any such action or determination made in good faith.

c. To the extent permitted by applicable law, the Board or, to the extent of any delegation as provided in Section 16(a), the committee, may delegate to one or more of its members or to one or more officers of the Company, or to one or more agents or advisors, such administrative duties or powers as it may deem advisable, and the Board, the committee, or any person to whom duties or powers have been delegated as aforesaid, may employ one or more persons to render advice with respect to any responsibility the Board, the committee or such person may have under the Plan. To the extent permitted by applicable law, the Board or the committee may, by resolution, authorize one or more officers of the Company to do one or both of the following on the same basis as the Board or the committee: (i) designate employees to be recipients of awards under this Plan; (ii) determine the size of any such awards; provided, however, that (A) the Board or the committee shall not delegate such responsibilities to any such officer for awards granted to an employee who is an officer, Director, or more than 10% beneficial owner of any class of the Company's equity securities that is registered pursuant to Section 12 of the Exchange Act, as determined by the Board in accordance with Section 16 of the Exchange Act; (B) the resolution providing for such authorization sets forth the total number of Common Shares such officer(s) may

grant; and (iii) the officer(s) shall report periodically to the Board or the committee, as

the case may be, regarding the nature and scope of the awards granted pursuant to the authority delegated.

17. Amendments and Other Matters.

a. The Board may at any time and from time to time amend the Plan in whole or in part; provided, however, that any amendment which must be approved by the stockholders of the Company in order to comply with applicable law or the rules of the New York Stock Exchange or, if the Common Shares are not traded on the New York Stock Exchange, the principal national securities exchange upon which the Common Shares are traded or quoted, shall not be effective unless and until such approval has been obtained. Presentation of this Plan or any amendment thereof for stockholder approval shall not be construed to limit the Company's authority to offer similar or dissimilar benefits under other plans or otherwise with or without stockholder approval. Without limiting the generality of the foregoing, the Board may amend this Plan to eliminate provisions which are no longer necessary as a result in changes in tax or securities laws or regulations, or in the interpretation thereof.

b. The Board shall not, without the further approval of the stockholders of the Company, authorize the amendment of any outstanding Option Right or Appreciation Right to reduce the Option Price or Base Price. Furthermore, no Option Right or Appreciation Right shall be cancelled and replaced with awards having a lower Option Price or Base Price, respectively, without further approval of the stockholders of the Company. This Section 17(b) is intended to prohibit the repricing of underwater Option Rights and Appreciation Rights and shall not be construed to prohibit the adjustments provided for in Section 12 of this Plan.

c. The Board also may permit Participants to elect to defer the issuance of Common Shares or the settlement of awards in cash under the Plan pursuant to such rules, procedures or programs as it may establish for purposes of this Plan. The Board also may provide that deferred issuances and settlements include the payment or crediting of dividend equivalents or interest on the deferral amounts.

d. The Board may condition the grant of any award or combination of awards authorized under this Plan on the deferral by the Participant of his or her right to receive a cash bonus or other compensation otherwise payable by the Company or a Subsidiary to the Participant.

e. If permitted by Section 409A of the Code, in case of termination of employment by reason of death, disability or normal or early retirement, or in the case of hardship or other special circumstances, of a Participant who holds an Option Right or Appreciation Right not immediately exercisable in full, or any Restricted Shares as to which the substantial risk of forfeiture or the prohibition or restriction on transfer has not lapsed, or any Restricted Stock Units as to which the Restriction Period has not been completed, or any Performance Shares or Performance Units which have not been fully earned, or any other awards made pursuant to Section 10 subject to any vesting schedule or transfer restriction, or who holds Common Shares subject to any transfer restriction imposed pursuant to Section 11(b) of this Plan, the Board may, in its sole discretion, accelerate the time at which such Option Right, Appreciation Right or other award may be exercised or the time at which such substantial risk of forfeiture or prohibition or restriction on transfer will lapse or the time when such Restriction Period will end or the time at which such Performance Shares or Performance Units will be deemed to have been fully earned or the time when such transfer restriction will terminate or may waive any other limitation or requirement under any such award.

f. This Plan shall not confer upon any Participant any right with respect to continuance of employment or other service with the Company or any Subsidiary, nor shall it interfere in any way with any right the Company or any Subsidiary would otherwise have to terminate such Participant's employment or other service at any time.

g. To the extent that any provision of this Plan would prevent any Option Right that was intended to qualify as an Incentive Stock Option from qualifying as such, that provision shall be null and void with respect to such Option Right. Such provision, however, shall remain in effect for other Option Rights and there shall be no further

effect on any provision of this Plan.

G-11

Table of Contents

h. Subject to Section 20, this Plan shall continue in effect until the date on which all Common Shares available for issuance or transfer under this Plan have been issued or transferred and the Company has no further obligation hereunder.

i. Neither a Participant nor any other person shall, by reason of participation in the Plan, acquire any right or title to any assets, funds or property of the Company or any Subsidiary, including without limitation, any specific funds, assets or other property which the Company or any Subsidiary may set aside in anticipation of any liability under the Plan. A Participant shall have only a contractual right to an award or the amounts, if any, payable under the Plan, unsecured by any assets of the Company or any Subsidiary, and nothing contained in the Plan shall constitute a guarantee that the assets of the Company or any Subsidiary shall be sufficient to pay any benefits to any person.

j. This Plan and each Evidence of Award shall be governed by the laws of the State of Delaware, excluding any conflicts or choice of law rule or principle that might otherwise refer construction or interpretation of the Plan to the substantive law of another jurisdiction.

k. If any provision of the Plan is or becomes invalid, illegal or unenforceable in any jurisdiction, or would disqualify the Plan or any award under any law deemed applicable by the Board, such provision shall be construed or deemed amended or limited in scope to conform to applicable laws or, in the discretion of the Board, it shall be stricken and the remainder of the Plan shall remain in full force and effect.

18. *Compliance with Section 409A of the Code.* To the extent applicable, it is intended that this Plan and any grants made hereunder comply with the provisions of Section 409A of the Code. The Plan and any grants made hereunder shall be administrated in a manner consistent with this intent, and any provision that would cause the Plan or any grant made hereunder to fail to satisfy Section 409A of the Code shall have no force and effect until amended to comply with Section 409A of the Code (which amendment may be retroactive to the extent permitted by Section 409A of the Code and may be made by the Company without the consent of Participants). Any reference in this Plan to Section 409A of the Code will also include any proposed, temporary or final regulations, or any other guidance, promulgated with respect to such Section by the U.S. Department of the Treasury or the Internal Revenue Service.

19. *Applicable Laws.* The obligations of the Company with respect to awards under the Plan shall be subject to all Applicable Laws and such approvals by any governmental agencies as the Board determines may be required.

20. *Termination.* No grant shall be made under this Plan more than 10 years after the date on which this Plan is first approved by the Board, but all grants effective on or prior to such date shall continue in effect thereafter subject to the terms thereof and of this Plan.

Valor Communications Group, Inc.
AUDIT COMMITTEE CHARTER

This Audit Committee Charter was adopted by the Board of Directors (the Board) of Valor Communications Group, Inc. (the Company) on February 8, 2005 and replaces any charter previously used by the committee.

Mandate

The Audit Committee (the Committee) assists the Board in its oversight responsibilities relating to financial matters including:

- (i) the integrity of the Company s financial statements;
- (ii) the independent auditor s qualifications and independence;
- (iii) the performance of the Company s internal audit function and independent auditors;
- (iv) the Company s compliance with legal and regulatory requirements; and
- (v) the preparation of an audit committee report as required by the Securities and Exchange Commission (the SEC) to be included in the Company s annual proxy statement.

In discharging its responsibilities, the Committee is not itself responsible for the planning or conduct of audits, or for any determination that the Company s financial statements and disclosures are complete and accurate or are in accordance with generally accepted accounting principles (GAAP) and applicable rules and regulations. This is the responsibility of the Company s management, internal auditor (or others responsible for the internal audit function, including contracted non-employee or audit or accounting firms engaged to provide internal audit services) (the internal auditor) and the Company s independent auditor.

Notwithstanding any thing to the contrary contained in this charter, the Company s independent auditor is ultimately accountable to the Committee and the Board. The Committee and the Board have the ultimate authority and responsibility to select, evaluate and, where appropriate, replace the Company s independent auditor (or, as and when applicable, to nominate the independent auditor to be proposed for approval in any proxy statement of the Company).

Organization

Committee Members

The Committee shall be comprised of no less than three, but no more than five, directors. The members and the Chair of the Committee shall be appointed by the full Board on an annual basis and may be re-appointed or replaced at the Board s discretion at any time.

Each Committee member shall be financially literate, as determined by the Board in its business judgment, or must become financially literate within a reasonable period of time after his or her appointment to the Committee. At least one member of the Committee shall have accounting or related financial management expertise, as the Board interprets such qualification in its business judgment. In addition, at least one member of the Committee shall be an audit committee financial expert as defined in Item 401(h) of

Regulation S-K; provided that if no member of the Committee is an audit committee financial expert, then the Company shall disclose in its periodic reports filed with the SEC pursuant to the Securities Exchange Act of 1934 (the Exchange Act) the reasons why at least one member of the Committee is not an audit committee financial expert. A determination by the Board that a member of the Committee is an audit committee financial expert shall constitute a determination by the Board that such member has accounting or related financial management expertise.

Independence

Each Committee member shall satisfy the independence requirements of the New York Stock Exchange Listed Company Manual Sections 303 and 303A and Exchange Act Rule 10A-3, unless the Company avails itself of any applicable exemption allowed under such rules and regulations. The Company shall make any required disclosures relating to the use of any such exemptions.

Other Service

No Committee member may serve on the audit committee of more than three public companies unless the Board has determined that such simultaneous service would not impair the ability of such member to serve effectively on the Committee. Any such determination shall be disclosed in the Company's annual proxy statement or annual report.

Committee Meetings

The Chair of the Committee shall be responsible for calling meetings of the Committee, developing the meeting agenda, providing reading materials to Committee members relative to agenda items and chairing the meetings.

The Committee shall meet at least four times a year. Meetings may be in person or by conference call. A majority of the Committee members must be in attendance for a quorum. The Committee may also act by unanimous written consent. The Committee shall keep minutes of its meetings and report regularly to the full Board on the Committee's activities. Such reports shall include, without limitation, the minutes as required hereunder and a review of any issues that arise with respect to the quality or integrity of the Company's financial statements, the Company's compliance with legal or regulatory requirements, the performance and independence of the Company's independent auditors, or the performance of the internal audit function.

Separate Meetings

The Committee shall meet separately, periodically, with management, with internal auditor (or other personnel responsible for the internal audit function) and independent auditor.

**PROJECTED FINANCIAL INFORMATION PROVIDED BY
VALOR COMMUNICATIONS GROUP, INC. TO
ALLTEL CORPORATION AND ALLTEL S FINANCIAL ADVISORS**

I-1-1

Table of Contents**Projected Financial Information for Valor**

Valor does not as a matter of course make public projections as to future sales, earnings, or other results. However, the management of Valor has prepared the prospective financial information set forth below to present the projected financial information provided by Valor to Alltel Corporation for purposes of evaluating the proposed merger. The accompanying prospective financial information was not prepared with a view toward public disclosure or with a view toward complying with the guidelines established by the American Institute of Certified Public Accountants with respect to prospective financial information, but, in the view of Valor's management, was prepared on a reasonable basis, and at the time such prospective financial information was prepared in October 2005, reflected the best currently available estimates and judgments, and presented, to the best of management's knowledge and belief, the expected course of action and the expected future financial performance of Valor. However, this information is not fact and should not be relied upon as being necessarily indicative of future results, and readers of this registration statement are cautioned not to place undue reliance on the prospective financial information. Furthermore, the prospective financial information presented below has not been updated since the time of its preparation to reflect any changes in Valor's operating results or any other additional information that has become available to Valor's management since October 2005 that could affect management's judgment as to the expected future financial performance of Valor.

Neither the Valor's independent auditors, nor any other independent accountants, have compiled, examined, or performed any procedures with respect to the prospective financial information contained herein, nor have they expressed any opinion or any other form of assurance on such information or its achievability, and assume no responsibility for, and disclaim any association with, the prospective financial information.

The assumptions and estimates underlying the prospective financial information are inherently uncertain and, though considered reasonable by the management of Valor as of the date of its preparation, are subject to a wide variety of significant business, economic, and competitive risks and uncertainties that could cause actual results to differ materially from those contained in the prospective financial information, including, among others, risks and uncertainties discussed in the section "Risk Factors". Accordingly, there can be no assurance that the prospective results are indicative of the future performance of Valor or that actual results will not differ materially from those presented in the prospective financial information. Inclusion of the prospective financial information in this registration statement should not be regarded as a representation by any person that the results contained in the prospective financial information will be achieved.

Valor does not generally publish its business plans and strategies or make external disclosures of its anticipated financial position or results of operations. Accordingly, Valor does not intend to update or otherwise revise the prospective financial information to reflect circumstances existing since its preparation or to reflect the occurrence of unanticipated events, even in the event that any or all of the underlying assumptions are shown to be in error. Furthermore, Valor does not intend to update or revise the prospective financial information to reflect changes in general economic or industry conditions.

Additional information relating to the principal assumptions used in preparing the projections is set forth below. See "Risk Factors" for a discussion of various factors that could materially affect Valor's financial condition, results of operations, business, prospects and securities.

In addition, the following projections include certain financial measures that were not calculated in accordance with GAAP. These include earnings before interest, taxes, depreciation and amortization (EBITDA), Adjusted EBITDA and Adjusted EBITDA Margin. These non-GAAP financial measures are by definition not measures of financial performance under GAAP and are not alternatives to operating income or net income reflected in the statement of operations or to cash flow as reflected in the statement of cash flows and are not necessarily indicative of cash available to fund all of Valor's cash flow needs.

EBITDA was calculated in the following projections by adding Valor's interest expense (net of any interest income), income tax expense (net of any income tax credits), depreciation and amortization to its net income. Adjusted EBITDA was determined by adding the following items to EBITDA (i) certain expenses related to Valor's initial public offering of common stock, its recent debt recapitalization and related

Table of Contents

transactions, (ii) other nonrecurring or unusual costs or losses; and (iii) all other non-cash charges that represent an accrual for which no cash is expected to be paid in a future period. Adjusted EBITDA margin is equal to Adjusted EBITDA divided by total revenue. Adjusted EBITDA Margin measures the proportion of Adjusted EBITDA remaining after deducting operating expenses.

Valor uses EBITDA, Adjusted EBITDA and EBITDA Margin as a means to evaluate its performance and liquidity. Valor considers these non-GAAP financial measures to be important indicators of its ability to service its debt obligations, pay its taxes and fund capital expenses. If Valor's Adjusted EBITDA were to decline below certain levels, covenants in its credit facility that are based on Adjusted EBITDA, including its interest coverage ratio and total leverage ratio covenants, may be violated and could cause, among other things, a default or mandatory prepayment under its credit facility, or result in its inability to pay dividends. EBITDA, Adjusted EBITDA and Adjusted EBITDA Margin are not measures in accordance with GAAP, and should not be considered a substitute for operating income, net income or any other measure of financial performance reported in accordance with GAAP. In addition, EBITDA, Adjusted EBITDA and Adjusted EBITDA Margin should not be used as a substitute for Valor's various cash flow measures (e.g., operating, investing and financing cash flows). The non-GAAP financial measures used by Valor may not be comparable to similarly titled measures of other companies.

Model Assumptions

Access Lines

Valor has forecast access line losses based on its historical experience and current and expected competitive dynamics in its markets.

The following types of acquisition and retention campaigns and programs will help mitigate access line loss: Integrated Local Service, Verticals, LD and Data bundle offers.

DSL/2nd line program.

Dedicated additional line acquisition programs, second line and multi-line bundles.

Dish Network bundle.

Campaigns to drive continued migration of customer base from zero features, to a la carte, to bundles.

Targeted win-back and retention programs.

Local Revenue

Local Services Revenue Growth in local service revenue is directly attributable to access line growth or declines, while ARPU remains flat, adjusted for the loss of ELC in 2006.

Vertical Services Bundled special calling features have increased revenue over the last several years, and the increase in vertical services ARPU is attributable to migration of a la carte customers to higher revenue generating bundles.

Valor will continue to convert existing customers to bundle customers through a variety of marketing and promotional activities.

Because Valor is a Chapter 58 company in Texas, it is allowed to increase rates on a la carte pricing without regulatory approval. This should continue to lead to further migration of customers to bundles and increases in ARPU.

Non-Recurring Charges (NRCs) Consist principally of installation, reconnection and premise trip charges. Projected to remain flat.

Data Services

By leveraging the ATM Core Network, Valor can be more competitive in selling data products.

Growth of DSL customer base will be driven by increasing addressable market from 70% to 80% over time with technologies such as extended DSL.

By the end of 2008, projected DSL penetration of 24% of total access lines.

Long Distance

Long Distance Forecast growth in subscribers offset by decreases in ARPU.

Following significant growth through 2004, Valor anticipates continued, but slower, growth rates in LD.

Valor expects mature LD penetrations in its markets to reach approximately 53% of its access lines.

Table of Contents

Other

CPE Revenue stream flat to slightly decreasing as data equipment costs decline.

Directory Valor currently publishes 52 in-region white and yellow pages phone books outsourced through the Berry Company, which sells advertising and publishes the books.

Recent product enhancements and the introduction of electronic directories result in projected growth of 1% per year.

Other Includes UNE, E911, Billing and Collections, Paystation, Late Payment Charges, NSF Fees, Cname/LIDB and other miscellaneous revenue. Projected to remain flat.

Access Revenue

Generated from network access and government support.

Interstate End User Revenue/ Subscriber Line Charges (SLC) Assessed on all end user access lines based on customer class and geography, this revenue stream is forecast based on access lines.

Model assumes the SLC is waived on 50% of the net DSL additions in accordance with Valor's ValueLine Plan marketing.

Switched Access

In recent years, Valor has experienced a decrease in Originating minutes of use (MOUs) primarily as a result of increased wireless penetration coupled with the loss of access lines.

Special Access Based on historical trends, Valor has projected special access revenue to increase modestly throughout the projection period.

USF

Universal Service Includes Texas state USF, High Cost Loop, CALLS USF and Local Switching Support.

State USF The largest source of Valor's USF revenue comes from the Texas state USF fund, representing 85% of the Universal Service category.

Weighted average Texas USF per line is approximately \$44-45 per month.

While the regulations that govern the USF in Texas (PURA) sunset in 2005, it is anticipated that the subsidy will remain in place for the foreseeable future.

Revenue from Texas USF is modeled flat as access lines in these exchanges have historically been stable.

Federal USF

High Cost Loop support is calculated by applying a percentage to the difference between Valor's average cost per loop and 115% of the national average cost per loop. Valor's cost per line has decreased while the national average has increased significantly due to wireless carriers becoming eligible for ETC status.

Approximately 495,000 Valor lines are eligible for CALLS USF support, and the support is available only to Price Cap carriers operating in Price Cap carrier exchanges. The amount of support depends on LFAM and access lines.

Valor will lose \$4.4 million of Federal USF funding in 2005 (High Cost Loop support of \$1.0 million and CALLS USF of \$2.9 million) due to reduced costs and capital expenditures.

Table of Contents

Operating Expenses

Cost of Sales Valor has been able to reduce operating costs through discontinuing the use of contractors and reducing personnel as a result of targeted capital expenditures.

Network modernization should help maintain operating expense on a per access line basis.

Projections assume cost of sales will remain relatively flat as Valor will continue to reduce costs where possible through automation, headcount reduction and general continued streamlining of the business.

This decrease will be offset by union pay scale increases and the increase in long distance costs as that revenue stream grows.

Selling, General & Administrative (SG&A) Valor has projected SG&A expense to decrease in 2005 due to planned reductions of headcount and the absence of non-recurring items that occurred in 2004. The Company expects to continue to reduce expenses and automate procedures.

I-2-1

Table of Contents**Projected Financial Information for Spinco**

Spinco does not as a matter of course make public long-term projections as to future revenues, earnings or other results. However, in connection with the evaluation of the terms of this transaction, Spinco's management prepared and made available to Valor, its Board of Directors, and its financial advisors Spinco's internal projections of its financial performance for the remainder of its fiscal year ending December 31, 2005 and for its full fiscal years 2006 and 2007, which were based on the application of a number of assumptions determined by Spinco's management. The internal financial forecasts (upon which these projections were based) are, in general, prepared solely for internal use and capital budgeting and other management decisions and are subjective in many respects and thus susceptible to interpretations and periodic revision based on actual experience and business developments. The projections were prepared in good faith at the time they were made; however, it should not be assumed that the projections continue to be accurate or reflective of management's current view. These projections are attached to this proxy statement/prospectus-information statement only because such projections were considered by Spinco and Valor in connection with their evaluations of this transaction at the time this transaction was being considered. In addition, these projections were provided to Wachovia Securities and Bear Stearns, Valor's financial advisors, in connection with their financial analyses of this transaction and the preparation of their respective fairness opinions.

The projected financial information set forth below is presented as if Spinco were a separate stand-alone business independent of Alltel, which it is not. Alltel provides Spinco with various support services, including engineering management, information technology, financial management, regulatory management, and other general administrative support, which are neither separately identifiable nor independent of Alltel. Although the costs associated with this support have historically been allocated to Spinco on a basis that Spinco's management believes reasonably approximates the cost of those services, and such costs are included in the projected financial information set forth below on a consistent basis, as a result of this relationship, the projected financial information set forth below may not be representative of Spinco's financial performance if it were an independent stand-alone entity.

The projected financial information set forth below was not prepared with a view toward public disclosure or with a view toward complying with the rules and regulations established by the Securities and Exchange Commission, generally accepted accounting principles (GAAP) or the guidelines established by the American Institute of Certified Public Accountants with respect to the preparation and presentation of projected financial information, but, in the view of Spinco's management and based on the key assumptions described below, was prepared on a reasonable basis, reflects the best estimates and judgments available at the time of its preparation, and presented at the time of preparation, to the best of the knowledge and belief of Spinco's management, the expected course of action and the expected future financial performance of Spinco. However, this information is not fact and should not be relied upon as being necessarily indicative of future results, and readers of this proxy statement/prospectus-information statement are cautioned not to place undue reliance on the projected financial information. The projected financial information set forth below is included solely for the purpose of giving Valor's stockholders access to the same non-public information that was provided to Valor's Board of Directors.

The projected financial information attached to this proxy statement/prospectus-information statement has been prepared by, and is the responsibility of, Spinco's management. PricewaterhouseCoopers LLP has neither examined nor compiled the accompanying projected financial information and, accordingly, PricewaterhouseCoopers LLP does not express an opinion or any other form of assurance with respect thereto. The PricewaterhouseCoopers LLP report included in this proxy statement/prospectus-information statement relates to Spinco's historical financial information. It does not extend to the projected financial information and should not be read to do so.

The assumptions and estimates underlying the projected financial information set forth below are inherently uncertain and, though considered reasonable by Spinco's management as of the date of its preparation, are subject to significant business, economic and competitive risks and uncertainties that could cause actual results to differ materially from those contained in the projected financial information, including, among others, risks and uncertainties relating to Spinco's business (including Spinco's ability to achieve

Table of Contents

strategic goals, objectives and targets over applicable periods), industry performance, the regulatory environment, general business and economic conditions and other matters, and are subject to significant contingencies, many of which are beyond Spinco's control. See Cautionary Statement Regarding Forward-Looking Statements. Accordingly, the projected results set forth below may not be indicative of Spinco's future performance, and actual results may differ materially from those presented in the projected financial information.

The information presented for periods 2005-2007 was prepared in October 2005 and was based upon assumptions management believed to be reliable at that time. Amounts presented for 2005 (also identified as 2005E) represent actual results for the nine months ended September 30, 2005 and estimated results for the three month period from October 1, 2005 through December 31, 2005. While all projections are necessarily speculative and should not have undue reliance placed upon them, the prospective financial information covering periods beyond 2005 carry increasingly higher levels of uncertainty and should be read in that context. If this information were prepared by our management as of the date of this proxy statement/prospectus-information statement, the financial information below likely would be different. Attachment of the projected financial information to this proxy statement/prospectus-information statement should not be regarded as a representation by any person that the results contained in the projected financial information will be achieved.

Spinco does not generally publish its business plans and strategies or make external disclosures of its anticipated financial position or results of operations. Accordingly, Spinco does not intend to update or otherwise revise the projected financial information to reflect circumstances arising since its preparation or to reflect the occurrence of unanticipated events, even in the event that any or all of the underlying assumptions are shown to be no longer appropriate. Furthermore, Spinco does not intend to update or revise the projected financial information to reflect changes in general economic or industry conditions.

The accompanying projected financial information includes financial measures and terms that were not calculated in accordance with GAAP. Specifically, they include the non-GAAP measures EBITDA and EBITDA Margin. EBITDA is calculated as operating income plus depreciation and amortization expense, while EBITDA Margin is calculated as EBITDA divided by total revenues. Spinco believes that these measures provide management with an alternative method for assessing Spinco's operating results in a manner that enables management to evaluate operating cash flow available to service Spinco's debt obligations, pay its taxes and fund its capital expenditures. In addition, Spinco believes that these measures provide management with useful information about the Company's performance because they eliminate the effects of period to period changes in taxes, costs associated with capital investments, interest expense and other non-operating items. The non-GAAP measures presented below are the types of measures that Spinco's management uses in analyzing Spinco's results of operations and in determining a component of employee incentive compensation. However, these measures do not provide a complete picture of our operations. Non-GAAP measures are not prepared in accordance with GAAP, and should not be considered a substitute for or superior to GAAP results.

Key Assumptions Overall

The following key assumptions have been used to develop the information set forth below. For all periods presented, product sales and cost of products sold did not include revenues and related expenses from sales of the product distribution segment to regulated affiliates that are reported as revenues and expenses under GAAP. In addition, intercompany revenue and expense eliminations were not included in the projected financial information set forth below. Other than the assumptions related to intercompany revenues and expenses discussed above, the assumptions used in the projected financial information are consistent with the accounting policies disclosed in Spinco's historical consolidated financial statements included in this proxy statement/prospectus-information statement. The projected financial information does not reflect the adoption of any new accounting pronouncements subsequent to October 2005, the date it was prepared, including the adoption of Statement of Financial Accounting Standards (SFAS) No. 123(R), Share-Based Payment on January 1, 2006. The adoption of SFAS No. 123(R) did not have a material impact on Spinco's results of operations for the three months ended March 31, 2006. However, Spinco has not determined the

impact of adopting SFAS No. 123(R) on post-spin periods. In addition, the projected financial information reflects no changes in the regulatory environment in which Spinco operates, other than as discussed below.

Projected Service Revenues:

Core Wireline The service revenue projections for the years ended December 31, 2006 and 2007 were based on a continued loss of access lines (5% in both years), offset by growth in broadband (identified as DSL) customers (39% and 22% in 2006 and 2007, respectively). Access line loss was projected to accelerate due to increased competition as cable companies and other alternative providers of voice and data services introduce attractive offerings in Spinco's markets, as well as increased substitution of broadband access for secondary access lines, resulting in the projected growth in broadband customers. In addition, satellite video service offered through an agreement with DISH Network, which was launched in late 2005, was projected to accelerate throughout 2006 and 2007 and help mitigate access line loss. Local service revenues were projected to decrease proportionately to access line loss, offset somewhat by modest growth in features. Network access revenues, excluding broadband, were projected to experience declines due to declines in Intrastate traffic with continued industry migration to wireless and cable telephony. In addition, Spinco expected special access rates to decline effective July 1, 2006 when new tariff filings become effective. These declines in revenue are partially offset by continued growth in broadband revenue as discussed above, resulting in total core wireline service revenue declines of 2.1% and 2.3% in 2006 and 2007, respectively.

Retail Long Distance (identified as AXN) Spinco projected modest customer and revenue growth in 2006 due to additional launches of unlimited long distance packages. The increases in recurring revenue offset the declines in usage based billings in 2006. Revenue was projected to decline in 2007 as the customer base more closely realigns itself with loss in access lines.

Projected Product Sales:

Product distribution sales were projected to increase modestly in 2006 and 2007 due to growth in non-affiliate sales of the product distribution segment (identified as ACP). Directory advertising sales (identified as APC) were projected to remain consistent with 2005 in both 2006 and 2007.

Projected Cash Operating Expenses:

Cash operating expenses are projected to decline by 0.5% and 1.1% in 2006 and 2007, respectively, to be achieved through strong expense management. Operations work force is projected to decrease 14% from the beginning of 2005 to the end of 2007, resulting in a 1% decline in cost of services in 2006 and 2007. Cost of products sold increases proportionately to the slight increases in product sales, and selling, general and administrative expenses are relatively flat due to increases in advertising and promotions for broadband and video offerings, offset by reductions in other cash costs. The work force reductions are projected as Spinco continues to right size the work force, to appropriately support a lower customer base.

Projected Capital Expenditures/ Depreciation Expense:

Capital expenditures in 2006 include incremental spending in order to support the continued expansion of broadband coverage. While capital expenditures in 2005 and 2006 are slightly higher than 2004, these expenditures are lower than historical spending. This lower spending, combined with depreciation studies resulting in the extension of remaining asset lives, contribute to the projection for depreciation expense to remain relatively flat in 2006 and 2007.

KEY ASSUMPTIONS BY PRODUCT

The following forecast assumptions by individual product are intended to supplement the overall assumptions documented above.

Table of Contents

ILEC (76% of Spinco revenue, 88% of Spinco EBITDA and 93% of Spinco Capex in 2006):

The ILEC service revenue projections for the years ended December 31, 2006 and 2007 were based on a continued loss of access lines (5% in both years), offset by growth in broadband (identified as DSL) customers (39% and 22% in 2006 and 2007, respectively). Access line loss was projected to accelerate due to increased competition as cable companies and other alternative providers of voice and data services introduce attractive offerings in Spinco's markets, as well as increased substitution of broadband access for secondary access lines, resulting in the projected growth in broadband customers. In addition, satellite video service offered through an agreement with DISH Network, which was launched in late 2005, was projected to accelerate throughout 2006 and 2007 and help mitigate access line loss. Local service revenues were projected to decrease proportionately to access line loss, offset somewhat by modest growth in features. Network access revenues, excluding broadband, were projected to experience declines due to declines in Intrastate traffic with continued industry migration to wireless and cable telephony. In addition, Spinco expected special access rates to decline effective July 1, 2006 when new tariff filings become effective. These declines in revenue are partially offset by continued growth in broadband revenue as discussed above, resulting in total core wireline service revenue declines of 3.4% and 3.3% in 2006 and 2007, respectively. ILEC service revenue includes the regulated portion of broadband revenue, which remains flat in 2006 and 2007. The remaining broadband revenue is captured in the Internet product and reflects the growth portion of broadband revenue in 2006 and 2007, discussed below.

ILEC product sales, consisting primarily of large customer premise equipment (CPE) sales to business customers, were projected to increase 8.6% and 3.5% in 2006 and 2007, respectively, due to realignment and centralization of the business sales force and associated new initiatives in that sales channel.

ILEC cash operating expenses are projected to decline by 1.5% and 1.9% in 2006 and 2007, respectively, to be achieved through strong expense management. Operations work force was projected to decrease 13% from the beginning of 2005 to the end of 2007, resulting in decreases in cost of services and selling, general and administrative expenses in both 2006 and 2007. Cost of products sold increases in both years due to the increase in product sales previously discussed. The work force reductions are projected as Spinco continues to right size the work force, to appropriately support a lower customer base.

ILEC capital expenditures in 2006 include incremental spending in order to support the continued expansion of broadband coverage. While capital expenditures in 2005 and 2006 are slightly higher than 2004, these expenditures are lower than historical spending. This lower spending, combined with depreciation studies resulting in the extension of remaining asset lives, contribute to the projection for depreciation expense to remain relatively flat in 2006 and 2007.

CLEC (3% of Spinco revenue, 2% of Spinco EBITDA and 2% of Spinco Capex in 2006):

The CLEC operations were projected to maintain overall revenues consistent with 2005 with continued access line loss offset by growth in product sales and network access due to increased sales of special circuits. Cash expenses were projected to remain relatively flat with the exception of cost of products sold which will increase relative to product sales. Capital expenditures were projected to remain flat.

Internet (4% of Spinco revenue, 5% of Spinco EBITDA and 4% of Spinco Capex in 2006):

Internet revenues were projected to increase 25% and 13% in 2006 and 2007, respectively, due to the increase in broadband customers discussed previously. The growth in broadband revenues is offset by a significant decline in dial access customers (46% and 41% in 2006 and 2007, respectively). Internet cash expenses were projected to increase slightly in both years, primarily in those costs directly associated with growth in customers (specifically bad debt and billing costs). Furthermore, capital expenditures were projected to increase in connection with growth in broadband.

Table of Contents

Retail Long Distance, identified as AXN (7% of Spinco revenue and 2% of Spinco EBITDA in 2006):

Retail Long Distance was projected to have modest customer and revenue growth in 2006 due to additional launches of unlimited long distance packages. The increases in recurring revenue offset the declines in usage-based billings in 2006. Revenue was projected to decline in 2007 as the customer base more closely realigns itself with loss in access lines. Cash expenses are primarily driven by customer usage and correspond directionally to revenue. The projections for the retail long distance operations assumed that Spinco does not own the network to transport long distance traffic, as that network will be retained by Alltel.

Product Distribution, identified as ACP (3% of Spinco revenue and <1% of Spinco EBITDA in 2006):

Product distribution sales and cost of products sold were projected to increase modestly in 2006 and 2007 due to growth in non-affiliate sales. As previously mentioned, the projections for ACP reflect only the non-affiliate business.

Directory Publishing, identified as APC (6% of total Wireline revenue and <1% of Wireline EBITDA in 2006):

Directory advertising sales and EBITDA in 2006 and 2007 were projected to remain consistent with 2005.

Originating access declining proportionate to access line

Reduction in special access rates effective July 1, 2006, due to over earnings carry forward through 2007, offset slightly by increased sales of special circuits
