UNITED STATES SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549
FORM 10-Q
QUARTERLY REPORT
PURSUANT TO SECTION 13 or 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934
For the quarterly period ended June 30, 2009
Commission File Number: 1-4018
Dover Corporation
(Exact name of registrant as specified in its charter)

Delaware
(State of Incorporation)

53-0257888
(I.R.S. Employer Identification No.)

280 Park Avenue, New York, NY
(Address of principal executive offices)

10017
(Zip Code)

(212) 922-1640

(Registrant's telephone number)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months, and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined by Rule 12b-2 of the Exchange Act). Yes No

The number of shares outstanding of the Registrant's common stock as of July 17, 2009 was 186,135,290.

Table of Contents

DOVER CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements, in accordance with Securities and Exchange Commission (SEC) rules for interim periods, do not include all of the information and notes required by accounting principles generally accepted in the United States of America for complete financial statements and should be read in conjunction with the Dover Corporation (Dover or the Company) Annual Report on Form 10-K for the year ended December 31, 2008, which provides a more complete understanding of Dover s accounting policies, financial position, operating results, business properties and other matters. The year-end condensed consolidated balance sheet was derived from audited financial statements. It is the opinion of management that these financial statements reflect all adjustments necessary for a fair statement of the interim results. The results of operations of any interim period are not necessarily indicative of the results of operations for the full year.

Certain prior year amounts have been reclassified to conform with the current period presentation.

2. Acquisitions

The 2009 acquisition is wholly-owned and had an aggregate cost of \$34.3 million, net of cash acquired, at the date of acquisition. The following table details the acquisition made during 2009.

2009 Acquisition

Date	Type	Acquired Companies	Location (Near)	Segment	Platform	Company
8-May	Asset	Tyler Refrigeration	Niles, MI	Engineered Systems	Engineered Products	Hill PHOENIX

For the Tyler acquisition, the Company is in the process of finalizing an appraisal of tangible and intangible assets and continuing to evaluate the initial purchase price allocations as of the acquisition date, which will be adjusted as additional information relative to the fair values of the assets and liabilities of the business becomes known.

Accordingly, management has used its best estimate in the initial purchase price allocation as of the date of these financial statements.

The following unaudited pro forma information illustrates the effect on Dover s revenue and net earnings for the three and six months ended June 30, 2009 and 2008, assuming that the 2009 and 2008 acquisitions had all taken place on January 1, 2008.

	Three Months Ended June		Six Months Ended June	
	30,	30,	30,	30,
<i>(in thousands, except per share figures)</i>	2009	2008	2009	2008
Revenue from continuing operations:				
As reported	\$ 1,390,331	\$ 2,010,978	\$ 2,769,417	\$ 3,876,464
Pro forma	1,411,800	2,067,430	2,845,155	4,000,384
Net earnings from continuing operations:				
As reported	\$ 100,874	\$ 186,910	\$ 161,969	\$ 334,841
Pro forma	101,200	189,123	163,118	340,223
Basic earnings per share from continuing operations:				
As reported	\$ 0.54	\$ 0.99	\$ 0.87	\$ 1.76
Pro forma	0.54	1.00	0.88	1.78
Diluted earnings per share from continuing operations:				
As reported	\$ 0.54	\$ 0.98	\$ 0.87	\$ 1.74
Pro forma	0.54	0.99	0.88	1.77

These pro forma results of operations have been prepared for comparative purposes only and include certain adjustments to actual financial results for the relevant periods, such as imputed financing costs, and estimated additional amortization and depreciation expenses as a result of intangibles and fixed assets acquired. They do not purport to be indicative of the results of operations that actually would have resulted had the acquisitions occurred on the date indicated or that may result in the future.

In connection with certain acquisitions that occurred prior to January 1, 2009, the Company had reserves related to severance and facility closings of \$26.4 million and \$27.9 million at June 30, 2009 and December 31, 2008, respectively. The reserves were recorded as of the date of acquisition and in accordance with the provisions of Emerging Issues Task Force Issue No. 95-3, Recognition of Liabilities in Connection with a Purchase Business Combination. During the six months ended June 30, 2009, the reserves were reduced by payments of \$1.7 million.

Total Intangible Assets	\$ 1,355,214	\$ 438,151		\$ 1,342,447	\$ 390,038

6. Income Taxes

The Company's provision for income taxes for continuing operations in interim periods is computed by applying its estimated annual effective tax rate against earnings before income tax expense for the period. In addition, non-recurring or discrete items are recorded during the period in which they occur. The effective tax rates for the three and six months ended June 30, 2009 were 1.1% and 17.4% compared to the prior year rates of 29.3% and 29.4%, respectively. The effective tax rates for the three and six months ended June 30, 2009 were favorably impacted by \$28.4 million of net benefits recognized for tax positions that were effectively settled in the quarter.

7. Discontinued Operations*2009*

During the first quarter of 2009, the Company recorded adjustments to the carrying value of a business held for sale and other adjustments resulting in a net after-tax loss of approximately \$7.4 million. Adjustments made during the second quarter of 2009 were nominal.

2008

During the second quarter of 2008, the Company discontinued Triton in the Engineered Systems segment and recorded a \$51.1 million write-down to the carrying value of Triton to its estimated fair market value and other adjustments.

During the first quarter of 2008, the Company recorded adjustments to the carrying value of a business held for sale and other adjustments resulting in a net after-tax loss of approximately \$2.0 million.

Summarized results of the Company's discontinued operations are as follows:

<i>(in thousands)</i>	Three Months Ended June		Six Months Ended June	
	2009	30, 2008	2009	30, 2008
Revenue	\$ 13,457	\$ 26,354	\$ 26,333	\$ 53,119
Loss on sale, net of taxes (1)	\$ (9)	\$ (50,993)	\$ (7,454)	\$ (52,972)
Loss from operations before taxes	(2,912)	(823)	(2,884)	(18)
Benefit (provision) for income taxes	(873)	182	(1,125)	603
Loss from discontinued operations, net of tax	\$ (3,794)	\$ (51,634)	\$ (11,463)	\$ (52,387)

(1) Includes impairments and other adjustments to previously sold discontinued operations.

6 of 27

Table of Contents

DOVER CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

At June 30, 2009, the assets and liabilities of discontinued operations primarily represent amounts related to one remaining unsold business. Additional detail related to the assets and liabilities of the Company's discontinued operations is as follows:

<i>(in thousands)</i>	At June 30, 2009	At December 31, 2008
Assets of Discontinued Operations		
Current assets	\$ 32,644	\$ 32,498
Non-current assets	22,381	36,608
	\$ 55,025	\$ 69,106
Liabilities of Discontinued Operations		
Current liabilities	\$ 8,182	\$ 13,371
Non-current liabilities	50,778	65,752
	\$ 58,960	\$ 79,123

In addition to the assets and liabilities of the entities currently held for sale in discontinued operations, the assets and liabilities of discontinued operations include residual amounts related to businesses previously sold. These residual amounts include property, plant and equipment, deferred tax assets, short and long-term reserves, and contingencies.

8. Hedging Activities and Debt*Hedging Activities*

The Company periodically enters into financial transactions specifically to hedge its exposures to various items, including, but not limited to, interest rate and foreign exchange rate risk. Through various programs, the Company hedges its cash flow exposures to foreign exchange rate risk by entering into foreign exchange forward contracts and collars. The Company does not enter into derivative financial instruments for speculative purposes and does not have a material portfolio of derivative financial instruments.

In accordance with Statement of Financial Accounting Standards (SFAS) No. 133, Accounting for Derivative Instruments and Hedging Activities and related amendments and interpretations, the Company recognizes all derivatives as either assets or liabilities on the balance sheet and measures those instruments at fair value. If the derivative is designated as a fair value hedge and is effective, the changes in the fair value of the derivative and of the hedged item attributable to the hedged risk are recognized in earnings in the same period. If the derivative is designated as a cash flow hedge, the effective portions of changes in the fair value of the derivative are recorded in other comprehensive earnings and are recognized in the statement of operations when the hedged item affects income. Ineffective portions of changes in the fair value of cash flow hedges are recognized in earnings.

There is presently one outstanding swap agreement for a total notional amount of \$50.0 million, or CHF65.1 million, which swaps the U.S. dollar 6-month LIBOR rate and the Swiss Franc 6-month LIBOR rate. This agreement hedges a portion of the Company's net investment in non-U.S. operations and the fair value outstanding at June 30, 2009 was a loss of \$10.4 million which was based on quoted market prices for similar instruments (using Level 2 inputs under the SFAS No. 157 hierarchy). The change in fair value of this hedge, which was not significant during the first six months of 2009, is recorded in Other Expense (Income), net and the \$10.4 million is recorded in Other Deferrals in the Unaudited Condensed Consolidated Balance Sheet. This hedge is effective.

The Company's other hedging activity is not significant; therefore tabular disclosures are not presented. There are no amounts excluded from the assessment of hedge effectiveness and there are no credit risk related contingent features in the Company's derivative instruments. In addition, the amount of gains or losses from hedging activity recorded in earnings is not significant and the amount of unrealized gains or losses from cash flow hedges which are expected to be reclassified to earnings in the next twelve months is not significant to Dover.

Debt

The Company's long-term debt with a book value of \$1,878.4 million, of which \$33.6 million matures in less than one year, had a fair value of approximately \$1,879.2 million at June 30, 2009. The estimated fair value of the long-term debt is based on quoted market prices, and present value techniques used to value similar instruments.

During the second quarter ended June 30, 2008, the Company repaid its \$150 million 6.25% Notes due June 1, 2008. In addition, on March 14, 2008, Dover issued \$350 million of 5.45% Notes due 2018 and \$250 million of 6.60% Notes due 2038. The net proceeds of \$594.1 million from the notes were used to repay borrowings under Dover's commercial paper program, and were reflected in long-term debt in the Consolidated Balance Sheet at December 31, 2008. The notes and debentures are redeemable at the option of Dover in whole or in part at any time at a redemption price that includes a make-whole premium, with accrued interest to the redemption date.

During the first quarter of 2008, Dover entered into several interest rate swaps in anticipation of the debt financing completed on March 14, 2008 which, upon settlement, resulted in a net gain of \$1.2 million which was deferred and will be amortized over the life of the related notes.

9. Commitments and Contingent Liabilities

A few of the Company's subsidiaries are involved in legal proceedings relating to the cleanup of waste disposal sites identified under federal and state statutes which provide for the allocation of such costs among potentially responsible parties. In each instance, the extent of the Company's liability appears to be very small in relation to the total projected expenditures and the number of other potentially responsible parties involved and is anticipated to be immaterial to the Company. In addition, a few of the Company's subsidiaries are involved in ongoing remedial activities at certain current and former plant sites, in cooperation with regulatory agencies, and appropriate reserves have been established.

The Company and certain of its subsidiaries are also parties to a number of other legal proceedings incidental to their businesses. These proceedings primarily involve claims by private parties alleging injury arising out of use of the Company's products, exposure to hazardous substances, patent infringement, employment matters and commercial disputes. Management and legal counsel, at least quarterly, review the probable outcome of such proceedings, the costs and expenses reasonably expected to be incurred, the availability and extent of insurance coverage, and established reserves. While it is not possible at this time to predict the outcome of these legal actions or any need for additional reserves, in the opinion of management, based on these reviews, it is unlikely that the disposition of the lawsuits and the other matters mentioned above will have a material adverse effect on the financial position, results of operations, cash flows or competitive position of the Company.

Estimated warranty program claims are provided for at the time of sale. Amounts provided for are based on historical costs and adjusted new claims. The changes in the carrying amount of product warranties through June 30, 2009 and 2008 are as follows:

<i>(in thousands)</i>	2009	2008
Beginning Balance January 1	\$ 56,137	\$ 55,437
Provision for warranties	15,219	21,608
Increase from acquisitions/dispositions	2,737	100
Settlements made	(16,924)	(18,712)
Other adjustments	66	649
Ending Balance June 30	\$ 57,235	\$ 59,082

From time to time, the Company will initiate various restructuring programs at its operating companies or record severance and other restructuring costs in connection with purchase accounting for acquisitions prior to January 1, 2009 (see Note 2 for additional detail). In the second half of 2008, the Company announced plans to increase

substantially the amount of restructuring efforts in response to the significant decline in global economic activity. For the second quarter of 2009, \$5.1 million and \$13.4 million of restructuring charges were recorded in cost of goods and services and selling and administrative expenses, respectively, in the Unaudited Condensed Consolidated Statement of Operations. For the six months ended June 30, 2009, \$17.9 million and \$35.8 million of restructuring charges were recorded in cost of goods and services and selling and administrative expenses, respectively, in the Unaudited Condensed Consolidated Statement of Operations.

13. Recent Accounting Standards

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS No. 157), which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. For financial assets and liabilities, this statement was effective for fiscal periods beginning after November 15, 2007 and did not require any new fair value measurements. The adoption of SFAS No. 157 on January 1, 2008 did not have a material effect on the Company's consolidated financial statements. In February 2008, the FASB Staff Position No. 157-2 was issued which delayed the effective date of FASB Statement No. 157 to fiscal years beginning after November 15, 2008 for nonfinancial assets and liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). The adoption of the provisions of SFAS No. 157 related to non-financial assets did not have a material effect on the Company's consolidated financial statements.

DOVER CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

In December 2007, the FASB issued SFAS No. 141 (revised 2007), *Business Combinations* (SFAS No. 141(R)). SFAS No. 141(R) retains the fundamental requirements in Statement 141 that the acquisition method of accounting (which Statement 141 called the purchase method) be used for all business combinations and for an acquirer to be identified for each business combination. In general, the statement 1) broadens the guidance of SFAS No. 141, extending its applicability to all events where one entity obtains control over one or more other businesses, 2) broadens the use of fair value measurements used to recognize the assets acquired and liabilities assumed, 3) changes the accounting for acquisition related fees and restructuring costs incurred in connection with an acquisition, and 4) increases required disclosures. The Company has applied the provisions of this statement prospectively to business combinations for which the acquisition date is on or after January 1, 2009. The impact of SFAS No. 141(R) did not have a material effect on the Company's consolidated financial statements since its adoption.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements* an amendment of ARB No. 51 (SFAS No. 160). SFAS No. 160 requires that a noncontrolling interest in a subsidiary be reported as equity and the amount of consolidated net income specifically attributable to the noncontrolling interest be identified in the consolidated financial statements. It also requires consistency in the manner of reporting changes in the parent's ownership interest and requires fair value measurement of any noncontrolling equity investment retained in a deconsolidation. The Company has applied the provisions of this statement prospectively, as required, beginning on January 1, 2009. The adoption of SFAS No. 160 did not have a material effect on the Company's consolidated financial statements.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities*, an amendment of FASB Statement No. 133 (SFAS No. 161). SFAS No. 161 amends and expands the disclosure requirements of SFAS No. 133 with the intent to provide users of financial statements with an enhanced understanding of an entity's derivative activity. The Company adopted this standard as of January 1, 2009 and has included related disclosures in Note 8.

In April 2008, the FASB issued FASB Staff Position No. 142-3 *Determination of the Useful Life of Intangible Assets* (FSP No. 142-3) to improve the consistency between the useful life of a recognized intangible asset (under SFAS No. 142) and the period of expected cash flows used to measure the fair value of the intangible asset (under SFAS No. 141(R)). FSP No. 142-3 amends the factors to be considered when developing renewal or extension assumptions that are used to estimate an intangible asset's useful life under SFAS No. 142. The guidance in the new staff position is to be applied prospectively to intangible assets acquired after December 31, 2008. In addition, FSP No. 142-3 increases the disclosure requirements related to renewal or extension assumptions. The Company has applied the provisions of this statement to business combinations for which the acquisition date is on or after January 1, 2009. The impact of FSP No. 142-3 did not have a material effect on the Company's consolidated financial statements since its adoption.

In May 2008, the FASB issued SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles* (SFAS No. 162). This statement identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles (GAAP) in the United States (the GAAP hierarchy). This Statement was effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board amendments to AU Section 411, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*. The adoption of this statement did not have a material effect on the Company's consolidated financial statements.

In April 2009, the FASB issued FASB Staff Position SFAS No. 107-1 and APB No. 28-1, *Interim Disclosures about Fair Value of Financial Instruments* (FSP No. 107-1 and APB No. 28-1). This FSP amends SFAS No. 107, *Disclosures about Fair Value of Financial Instruments* and APB Opinion No. 28, *Interim Financial Reporting*, to require disclosures about fair value of financial instruments not measured on the balance sheet at fair value in interim financial statements as well as in annual financial statements. FSP No. 107-1 and APB No. 28-1 applies to all financial instruments within the scope of SFAS No. 107 and requires all entities to disclose the methods and

significant assumptions used to estimate the fair value of financial instruments. FSP No. 107-1 and APB No. 28-1 is effective for interim periods ending after June 15, 2009 and does not require comparative disclosure for earlier periods presented upon initial adoption. The adoption of this FSP did not have a material effect on the Company's consolidated financial statements.

Table of Contents

DOVER CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

In April 2009, the FASB issued FSP No. 141R-1 Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies (FSP No. 141R-1). FSP No. 141R-1 amends the provisions in SFAS 141(R) for the initial recognition and measurement, subsequent measurement and accounting, and disclosures for assets and liabilities arising from contingencies in business combinations. FSP No. 141R-1 eliminates the distinction between contractual and non-contractual contingencies, including the initial recognition and measurement criteria in SFAS 141(R) and instead carries forward most of the provisions in SFAS 141 for acquired contingencies. The Company has applied the provisions of this statement prospectively to business combinations for which the acquisition date is on or after January 1, 2009. The impact of FSP No. 141R-1 did not have a material effect on the Company's consolidated financial statements since its adoption.

In May 2009, the FASB issued SFAS No. 165, Subsequent Events (SFAS No. 165). SFAS No. 165 establishes general standards of accounting for and disclosures of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. SFAS No. 165 is effective for interim or annual financial periods ending after June 15, 2009 and was adopted by the Company in the second quarter of 2009. The adoption of SFAS No. 165 did not have a material effect on the Company's consolidated financial statements.

In June 2009, the FASB issued SFAS No. 167, Amendments to FASB Interpretation No. 46(R) (SFAS No. 167). SFAS No. 167 amends FIN 46(R), Consolidation of Variable Interest Entities (revised December 2003) an interpretation of ARB No. 51 (FIN 46(R)) to require an enterprise to perform an analysis to determine whether the enterprise's variable interest or interests give it a controlling financial interest in a variable interest entity. This analysis identifies the primary beneficiary of a variable interest entity as one with the power to direct the activities of a variable interest entity that most significantly impact the entity's economic performance and the obligation to absorb losses of the entity that could potentially be significant to the variable interest. SFAS No. 167 will be effective as of the beginning of the annual reporting period commencing after November 15, 2009 and will be adopted by the Company in the first quarter of 2010. The Company is assessing the potential impact, if any, of the adoption of SFAS No. 167 on its consolidated financial statements.

14. Equity and Cash Incentive Program

In the first quarter of 2009, the Company issued stock appreciation rights (SARs) covering 3,099,326 shares, of which a portion could potentially be converted to performance shares subject to shareholder approval of certain plan changes detailed in Dover's Proxy Statement. During the second quarter of 2009, the shareholders approved the plan changes and 303,571 SARs were converted into 75,892 performance shares. The modification of the SARs for this conversion did not have material impact on the consolidated results of operations. Additionally, in the second quarter of 2009, 29,577 SARs were granted.

In the first quarter of 2008, 2,234,942 SARs were issued.

For the six months ended June 30, 2009 and 2008, after-tax stock-based compensation expense totaled \$7.2 million and \$9.1 million, respectively.

The fair value of each SAR grant was estimated on the dates of the grant using the Black-Scholes option pricing model and the performance share grant was estimated on the date of grant using a Monte Carlo simulation pricing model with the following assumptions:

First Quarter 2009 and 2008 SAR Grant:

	2009 Grant	2008 Grant
	SARs	SARs
Risk-free interest rate	2.06%	3.21%
Dividend yield	3.23%	1.86%

15. Subsequent Events

The Company assessed events occurring subsequent to June 30, 2009 through July 24, 2009 for potential recognition and disclosure in the consolidated financial statements. No events have occurred that would require adjustment to or disclosure in the consolidated financial statements which were issued on July 24, 2009.

13 of 27

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

Refer to the section below entitled "Special Notes Regarding Forward-Looking Statements" for a discussion of factors that could cause actual results to differ from the forward-looking statements contained below and throughout this quarterly report.

OVERVIEW

Dover Corporation (Dover or the Company) owns a global portfolio of manufacturing companies providing innovative components and equipment, specialty systems and support services for a variety of applications in the industrial products, engineered systems, fluid management and electronic technologies markets. Dover discusses its operations at the platform level within the Industrial Products, Engineered Systems and Fluid Management segments, which contain two platforms each. Electronic Technologies results are discussed at the segment level.

(1) FINANCIAL CONDITION:**Liquidity and Capital Resources**

Management assesses Dover's liquidity in terms of its ability to generate cash and access capital markets to fund its operating, investing and financing activities. Significant factors affecting liquidity are: cash flows generated from operating activities, capital expenditures, acquisitions, dispositions, dividends, repurchase of outstanding shares, adequacy of commercial paper and available bank lines of credit, and the ability to attract long-term capital with satisfactory terms. The Company generates substantial cash from operations and remains in a strong financial position, maintaining enough liquidity for reinvestment in existing businesses and strategic acquisitions while managing its capital structure on a short and long-term basis.

Cash and cash equivalents of \$693.6 million at June 30, 2009 increased from the December 31, 2008 balance of \$547.4 million. Cash and cash equivalents were invested in highly liquid investment grade money market instruments with a maturity of 90 days or less. Short-term investments consist of investment grade time deposits with original maturity dates between three months and one year. Short-term investments of \$142.5 million at June 30, 2009 decreased from \$279.5 million at December 31, 2008.

The Company's total cash, cash and cash equivalents and short-term investment balance of \$836.1 million as of June 30, 2009, includes \$804.6 million held outside of the United States.

The following table is derived from the Condensed Consolidated Statements of Cash Flows:

Cash Flows from Continuing Operations (in thousands)	Six Months Ended June 30,	
	2009	2008
Net Cash Flows Provided By (Used In):		
Operating activities	\$ 307,302	\$ 385,978
Investing activities	47,964	(172,246)
Financing activities	(195,882)	(115,460)

Cash flows provided by operating activities for the first six months of 2009 decreased \$78.7 million from the prior year period, primarily reflecting lower earnings on reduced sales from continuing operations and favorable working capital.

Cash provided by investing activities in the first six months of 2009 increased \$220.2 million largely reflecting lower acquisition spending and capital expenditures, as well as net proceeds from short-term investments. Acquisition spending was \$34.3 million during the first six months of 2009 compared to \$99.8 million in the prior year period. Capital expenditures in the six months of 2009 decreased 31.3% to \$58.5 million as compared to \$85.1 million in the prior year period. The Company currently anticipates that any additional acquisitions made during 2009 will be funded from available cash and internally generated funds and, if necessary, through the issuance of commercial paper, use of established lines of credit or public debt markets.

Cash used in financing activities for the first six months of 2009 increased \$80.4 million due to higher dividend payments of \$16.7 million and higher net payments of debt, and a decrease in proceeds from the exercise of stock options in the 2009 period. In the 2008 period, higher purchases of the Company's common stock and higher debt payments were significantly offset by proceeds from new debt issuances of \$594.1 million. The Company has not purchased any of its common stock during the first six months of 2009.

Adjusted Working Capital (a non-GAAP measure calculated as accounts receivable, plus inventory, less accounts
14 of 27

Table of Contents

payable) decreased from the prior year end by \$160.5 million, or 12.6%, to \$1,115.4 million which reflected a decrease in receivables of \$141.0 million, a decrease in inventory of \$44.0 million and a decrease in accounts payable of \$24.5 million generally due to lower sales. Excluding acquisitions and the effects of foreign exchange translation of \$23.9 million, Adjusted Working Capital would have decreased by \$184.4 million, or 14.5%. Average Annual Adjusted Working Capital as a percentage of revenue (a non-GAAP measure calculated as the five-quarter average balance of accounts receivable, plus inventory, less accounts payable divided by the trailing twelve months of revenue) increased to 19.9% at June 30, 2009 from 18.3% at December 31, 2008 and inventory turns were 6.4 at June 30, 2009 compared to 7.1 at December 31, 2008.

In addition to measuring its cash flow generation and usage based upon the operating, investing and financing classifications included in the unaudited Condensed Consolidated Statements of Cash Flows, the Company also measures free cash flow (a non-GAAP measure). Management believes that free cash flow is an important measure of operating performance because it provides both management and investors a measurement of cash generated from operations that is available to fund acquisitions, pay dividends, repay debt and repurchase Dover's common stock. Dover's free cash flow for the six months ended June 30, 2009 decreased \$52.0 million compared to the prior year period. The decrease primarily reflected lower earnings from continuing operations, partially offset by lower capital expenditures.

The following table is a reconciliation of free cash flow with cash flows from operating activities:

	Six Months Ended June 30,	
	2009	2008
Free Cash Flow (<i>in thousands</i>)		
Cash flow provided by operating activities	\$ 307,302	\$ 385,978
Less: Capital expenditures	58,451	85,115
Free cash flow	\$ 248,851	\$ 300,863
Free cash flow as a percentage of revenue	9.0%	7.8%

The Company utilizes total debt and net debt-to-total capitalization calculations to assess its overall financial leverage and capacity and believes the calculations are useful to investors for the same reason. The following table provides a reconciliation of total debt and net debt to total capitalization to the most directly comparable GAAP measures:

	At June 30,	At December
	2009	31,
		2008
Net Debt to Total Capitalization Ratio (<i>in thousands</i>)		
Current maturities of long-term debt	\$ 33,637	\$ 32,194
Commercial paper and other short-term debt	100,407	192,750
Long-term debt	1,844,741	1,860,729
Total debt	1,978,785	2,085,673
Less: Cash, cash equivalents and short-term investments	836,104	826,869
Net debt	1,142,681	1,258,804
Add: Stockholders' equity	3,903,908	3,792,866
Total capitalization	\$ 5,046,589	\$ 5,051,670
Net debt to total capitalization	22.6%	24.9%

The total debt level of \$1,978.8 million at June 30, 2009 decreased \$106.9 million from December 31, 2008, due to lower commercial paper borrowings. The net debt decrease was funded by cash from operations and reflects lower investment in capital expenditures and acquisitions.

Dover's long-term debt with a book value of \$1,878.4 million, of which \$33.6 million matures in less than one year, had a fair value of approximately \$1,879.2 million at June 30, 2009. The estimated fair value of the long-term debt is based on quoted market prices for similar issues, and present value techniques used to value similar instruments.

There is presently one outstanding swap agreement for a total notional amount of \$50.0 million, or CHF65.1 million, which swaps the U.S. dollar 6-month LIBOR rate and the Swiss Franc 6-month LIBOR rate. This agreement hedges a portion of the Company's net investment in non-U.S. operations and the fair value outstanding at June 30, 2009 includes a loss of \$10.4 million which was based on quoted market prices for similar instruments (using Level 2 inputs under the SFAS No. 157 hierarchy). The change in fair value of this hedge, which was not significant during the first six months of 2009, is recorded in Other Expense (Income), net and the \$10.4 million is recorded in Other Deferrals in the Unaudited Condensed Consolidated Balance Sheet. This hedge is effective.

Table of Contents**(2) RESULTS OF OPERATIONS:****CONSOLIDATED RESULTS OF OPERATIONS**

Revenue for the second quarter of 2009 decreased 31% to \$1,390.3 million from the comparable 2008 period, with decreases at all four segments. Dover's revenue decrease was primarily attributed to declines in its core businesses of 28.7% and the impact of foreign exchange of 3.2% partially offset by an acquisition of 1.0%. Gross profit decreased 33.3% to \$493.3 million from the prior year quarter while the gross profit margin decreased 130 basis points to 35.5%. Revenue for the first six months of 2009 decreased 29% to \$2,769.4 million from the comparable period, with decreases in all segments primarily driven by Industrial Products. Gross profit decreased 31.3% to \$975.5 million from the prior year period while gross profit margin decreased 140 basis points to 35.2%. Dover's revenue decrease was primarily attributed to declines in its core businesses of 26.1% and the impact of foreign exchange of 3.3%. Selling and administrative expenses of \$365.0 million for the second quarter of 2009 decreased by 18.3% or \$81.6 million over the comparable 2008 period, primarily due to decreased revenue activity, cost containment efforts and integration programs partially offset by restructuring charges. Selling and administrative expenses as a percentage of revenue increased to 26.3% from 22.2% in the comparable 2008 period, reflecting reduced revenue levels and restructuring charges of \$13.4 million.

Selling and administrative expenses of \$732.4 million for the first six months of 2009 decreased by 17.7% or \$158.0 million over the prior year period, mainly due to decreased revenue, cost containment efforts and integration programs partially offset by restructuring charges. Selling and administrative expenses as a percentage of revenue increased to 26.4% from 23.0% in the comparable period, reflecting reduced revenue levels and restructuring charges of \$35.8 million.

Interest expense, net, for the second quarter of 2009 decreased by 9.3% or \$2.5 million to \$24.8 million compared to the same quarter last year, primarily due to lower average outstanding commercial paper balances during the quarter and a reduction of long-term debt. Other expense (income), net, of \$1.5 million and \$1.2 million for the three months ended June 30, 2009 and 2008, respectively, primarily related to the effects of foreign exchange fluctuations on assets and liabilities denominated in currencies other than the Company's functional currency.

Interest expense, net, for the first six months of 2009 decreased 7.0% or \$3.6 million to \$47.2 million, compared to the same period last year, primarily due to lower average outstanding commercial paper balances during the period and a reduction of long-term debt. Other expense (income), net, for the first six months of 2009 decreased \$3.9 million to \$(0.2) million over the comparable 2008 period due to the effects of foreign exchange fluctuations and a favorable insurance settlement.

The effective tax rates for continuing operations for the three and six months ended June 30, 2009 were 1.1% and 17.4% compared to the prior year rates of 29.3% and 29.4%, respectively. The effective tax rates for the three and six months ended June 30, 2009 were favorably impacted by \$28.4 million of net benefits recognized for tax positions that were effectively settled in the quarter. Higher domestic earnings and the mix of non-U.S. earnings in low-tax jurisdictions both had a negative impact on the effective tax rates for the three and six months ended June 30, 2009 compared to the prior year periods, absent the settlement of tax positions in the second quarter of 2009.

Earnings from continuing operations for the second quarter decreased 46.0% to \$100.9 million or \$0.54 diluted EPS (EPS) compared to \$186.9 million or \$0.98 EPS in the prior year second quarter. The decrease was primarily a result of end-market weakness across all of the Company's segments and restructuring charges offset by cost containment efforts and lower average borrowing costs. Earnings from continuing operations for the first six months of 2009 decreased 51.6% to \$162.0 million or \$0.87 diluted EPS compared to \$334.8 million or \$1.74 diluted EPS in the prior year period primarily driven by the same factors for the second quarter of 2009.

Table of Contents

Loss from discontinued operations for the second quarter 2009 was \$3.8 million, or \$0.02 EPS, compared to a second quarter 2008 loss of \$51.6 million or \$0.27 EPS. The 2009 loss included a \$0.09 million loss, net of tax, related to adjustments to the fair value of a business held for sale and other adjustments, as well as a loss from operations of \$3.8 million, net of tax. The 2008 loss included losses from the sales of businesses, net of tax, of approximately \$51.0 million and loss from operations of \$0.6 million.

Loss from discontinued operations for the first six months of 2009 was \$11.5 million or \$0.06 EPS compared to a loss of \$52.4 million or \$0.27 EPS in the comparable 2008 period. The 2009 events includes the second quarter events mentioned above as well as first quarter adjustments to the carrying value of certain businesses held for sale. The loss from discontinued operations for the first six months of 2009 and 2008 included an impairment charge of \$7.2 million and \$51.0, net of tax, respectively.

Severance and Other Restructuring Reserves

From time to time, the Company will initiate various restructuring programs at its operating companies or record severance and other restructuring costs in connection with purchase accounting for acquisitions prior to January 1, 2009. In the second half of 2008, the Company announced plans to increase substantially the amount of restructuring efforts in response to the significant decline in global economic activity. During the first six months of 2009, the Company closed 16 facilities and reduced headcount by approximately 5,150 or 15.8% based on December 31, 2008 headcount. The Company expects to incur approximately \$20 million in restructuring costs and reduce headcount by approximately 2,500 during the remainder of 2009. The Company expects the restructuring costs incurred during 2009 to yield savings of approximately \$125 million in 2009.

At June 30, 2009 and December 31, 2008, the Company had reserves related to severance and other restructuring activities of \$48.9 million and \$31.0 million, respectively. During the second quarter of 2009, the Company recorded \$18.5 million in additional charges and made \$18.4 million in payments related to reserve balances. For the second quarter of 2009, \$5.1 million and \$13.4 million of restructuring charges were recorded in cost of goods and services and selling and administrative expenses, respectively, in the Unaudited Condensed Consolidated Statement of Operations.

During the first six months of 2009, the Company recorded \$53.7 million in charges and made payments of \$33.4 million related to these reserves. For the first six months of 2009, \$17.9 million and \$35.8 million of restructuring charges were recorded in cost of goods sold and services and selling and administrative expenses, respectively, in the Unaudited Condensed Consolidated Statement of Operations.

Current Economic Environment

With few exceptions, Dover experienced lower demand across all of its end markets resulting in lower bookings and backlog in the fourth quarter of 2008 and first quarter of 2009 with modest improvements in certain segments in the second quarter of 2009. Although this downturn will have a significant adverse impact on revenue and earnings for the remainder of the year, Dover remains committed to maintaining margin levels. The structural changes made over the last few years, becoming less dependent on capital goods markets and having greater recurring revenue, together with improved working capital management and strong pricing discipline is expected to partially offset the impact of the economic downturn during 2009. As discussed above in the Liquidity and Capital Resources section, the Company believes that existing sources of liquidity are adequate to meet anticipated funding needs at comparable risk-based interest rates.

2009 Outlook

Dover currently anticipates that 2009 revenue will decline approximately 25% below 2008 levels. Although bookings improved across the majority of our segments, Dover does not anticipate a meaningful recovery in the latter half of 2009 from these demand levels. Based on these assumptions, Dover has projected that its continuing diluted earnings per share for 2009 will be in the range of \$1.75 to \$2.00 and expects its earnings to follow a traditional seasonal pattern of being higher in the third quarter and lower in the fourth quarter. If global or domestic economic conditions deteriorate further, Dover's operating results for 2009 could be materially worse than currently projected.

Table of Contents**SEGMENT RESULTS OF OPERATIONS**

Earnings at the platform level are defined as earnings before interest, taxes, depreciation and amortization.

assets.

Industrial Products revenue and earnings decreased by 41% and 71%, respectively, from the prior year second quarter primarily due to general economic conditions as well as continued weakness in infrastructure (construction) and energy markets as significant weakness continued in the housing and domestic energy, production and transportation markets. The segment decline in revenue primarily reflected a core business decrease of 39.1%, with 1.4% due to foreign exchange. Earnings and margin were impacted by the factors mentioned above as well as \$5.7 million in restructuring charges partially offset by benefits captured from business restructuring and integration programs completed to date.

Material Handling revenue and earnings decreased 50% and 82%, respectively, when compared to the prior year second quarter. The platform continued to experience significant challenges in its core infrastructure, automotive and energy markets, compared to the second quarter of 2008. Restructuring charges at the platform also negatively impacted the earnings comparison with the second quarter of 2008.

Mobile Equipment revenue and earnings decreased 33% and 39%, respectively, over the prior year second quarter. Although the aerospace and military markets remained relatively strong, their results were offset by challenges in the energy, bulk transport and vehicle service markets. Earnings at the platform were negatively impacted by the lower revenue levels and various restructuring activities.

For the six months ended June 30, 2009, Industrial Products revenue and earnings decreased by 35% and 64%, respectively, as compared to the prior year six months. General softness in the markets served by the segment in core businesses contributed to the decrease in revenue. The earnings decline was substantially attributable to the revenue drivers above and restructuring charges of \$12.1 million partially offset by benefits captured from restructuring and integration programs completed to date.

assets.

Engineered Systems revenue and earnings decreased from the prior year second quarter by 13% and 28%, respectively. General softness in the markets served by the segment resulted in a 14% decline in core business revenue and the unfavorable impact of foreign exchange of 5.3% were partially offset by the impact of the Tyler acquisition by Hill Phoenix which closed in May 2009. The earnings decline was substantially driven by the softness in end markets, the impact of foreign exchange of \$1.1 million and \$3.9 million of restructuring charges and acquisition related expenses partially offset by benefits captured from business restructuring and integration programs completed to date. Engineered Products revenue decreased by 5% compared to the prior year quarter driven by weakness in most Engineered Products businesses except for the commercial refrigeration and display cases business which experienced business activity that was relatively consistent with the prior year second quarter levels and aided by revenue generated from the Tyler acquisition. The Engineered Products earnings decline of 10% resulted from broad weakness in core business revenue and acquisition expenses, partially offset by savings realized from restructuring activities across all business.

Product Identification platform revenue and earnings declined by 23% and 35%, respectively, compared to the prior year second quarter. Core revenue decreased 17% due to continued softness in both the Direct Marking and Bar Coding businesses with the balance of the revenue decline due to foreign exchange. The earnings decline was due to the volume decrease, additional restructuring charges and the unfavorable impact from foreign exchange, partially offset by restructuring benefits and integration activities completed to date.

For the six months ended June 30, 2009, Engineered Systems revenue and earnings decreased by 16% and 30%, respectively, as compared to the prior year six months. General softness in the markets served by the segment in core businesses and unfavorable impact of foreign exchange contributed to the decrease in revenue, partially offset by the Tyler acquisition. The earnings decline was substantially attributable to the revenue drivers as well as \$11.6 million of restructuring charges and acquisition expenses partially offset by acquisition earnings and benefits captured from restructuring and integration programs completed to date.

and intangible
assets.

Fluid Management's revenue and earnings decreased over the prior year second quarter by 34% and 43%, respectively, and were driven by continued weakness in the oil and gas sectors served by the Energy platform as well as the diverse markets served by the Fluid Solutions group. Compared to the second quarter of 2008, operating margins decreased 310 basis points due to lower sales volume, product mix and foreign exchange, partially offset by continued cost cutting measures. The segment's revenue decline represented a core business decline of 31.2%, with the remainder due to foreign exchange. In addition, the segment incurred \$1.8 million in restructuring charges during the second quarter of 2009.

Energy's revenue and earnings decreased over the prior year second quarter by 41% and 42%, respectively. While the power generation market remained strong, the oil and gas sectors continued to show weakness. Although there is increasing evidence that the market has reached bottom, there is a growing consensus that recovery from current demand levels in the energy segment will be slow. The decrease in margins reflect lower sales volume partially offset by operational improvements, lower incentive accruals and cost savings as a result of restructuring activities.

Fluid Solutions revenue and earnings decreased over the prior year second quarter by 25% and 25%, respectively, due to lower demand in their various industrial markets. Decreased margins reflect lower sales volume partially offset by the benefits of restructuring savings and product mix.

For the six months ended June 30, 2009, revenue and earnings decreased 26% and 28% over the same period of 2008, primarily driven by the continued weakness in the oil and gas sectors served by the Energy platform as well as the diverse markets served by the Fluid Solutions group. Earnings for the first six months of 2009 included \$4.3 million of restructuring charges.

Table of Contents**Electronic Technologies**

<i>(in thousands)</i>	Three Months Ended June 30,			Six Months Ended June 30,		
	2009	2008	% Change	2009	2008	% Change
Revenue	\$245,953	\$379,958	-35%	\$459,988	\$731,715	-37%

* Represents the pre-tax impact on earnings from the depreciation and amortization of acquisition accounting write-ups to reflect the fair value of inventory, property, plant and equipment and intangible assets.

Electronic Technologies revenue and earnings decreased 35% and 65%, respectively, over the same quarter of 2008, primarily driven by the impact of weak demand for telecom components and assembly and test equipment. However, sales increased 15% from the first quarter of 2009. Overall demand for consumer electronics and telecom applications is below 2008 demand levels but the increase in sales during 2009 was primarily due to higher demand for specialty acoustic component and application specific demand for equipment. Hearing aid markets were down quarter over quarter but are expected to increase over the near term in accordance with historical rates. Micro Electronic Mechanical Systems (MEMS) products showed strong sales in widening applications. Military and Space programs continue to be supported by the electronic component companies. The segment's core revenue decline amounted to 28.9% while the impact on revenue from foreign exchange was 4.0%. Earnings for the second quarter of 2009, while negatively impacted by the factors mentioned on a quarter over quarter basis, rebounded from the first quarter loss due in part to the improved sales and the benefit of significant restructuring programs. Second quarter earnings included \$7.1 million in restructuring charges.

For the six months ended June 30, 2009, revenue and earnings decreased 37% and 93% over the same period of 2008, primarily driven by the impact of weak demand for telecom components and assembly and test equipment. Earnings for the six months ended June 30, 2009 were negatively impacted by lower overall volume, partially offset by the benefit of restructuring programs. Earnings for the first six months of 2009 included \$25.6 million in restructuring

charges.

Critical Accounting Policies

The Company's consolidated financial statements and related public financial information are based on the application of generally accepted accounting principles in the United States of America (GAAP). GAAP requires the use of estimates, assumptions, judgments and subjective interpretations of accounting principles that have an impact on the assets, liabilities, revenue and expense amounts reported. These estimates can also affect supplemental information contained in the public disclosures of the Company, including information regarding contingencies, risk and its financial condition. The Company believes its use of estimates and underlying accounting assumptions conform to GAAP and are consistently applied. Valuations based on estimates are reviewed for reasonableness on a consistent basis throughout the Company.

Recent Accounting Standards

See Note 13 Recent Accounting Standards

Table of Contents**Special Notes Regarding Forward-Looking Statements**

This Quarterly Report on Form 10-Q, especially Management's Discussion and Analysis, contains forward-looking statements within the meaning of the Securities Act of 1933, as amended, the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995. Such statements relate to, among other things, income, earnings, cash flows, changes in operations, operating improvements, industries in which Dover companies operate and the U.S. and global economies. Statements in this 10-Q that are not historical are hereby identified as forward-looking statements and may be indicated by words or phrases such as anticipates, supports, plans, projects, expects, believes, should, would, could, hope, forecast, management is of the opinion, use of the future, or similar words or phrases. Forward-looking statements are subject to inherent risks and uncertainties that could cause actual results to differ from current expectations including, but not limited to: current economic conditions and uncertainties in the credit and capital markets; the Company's ability to achieve expected savings from integration, synergy and other cost-control initiatives; the ability to identify and successfully consummate value-adding acquisition opportunities; increased competition and pricing pressures in the markets served by Dover's operating companies; the ability of Dover's companies to expand into new geographic markets and to anticipate and meet customer demands for new products and product enhancements; increases in the cost of raw materials; changes in customer demand; political events that could impact the worldwide economy; the impact of natural disasters and their effect on global energy markets; a downgrade in Dover's credit ratings; international economic conditions including interest rate and currency exchange rate fluctuations; the relative mix of products and services which impacts margins and operating efficiencies; short-term capacity constraints; domestic and foreign governmental and public policy changes including environmental regulations and tax policies (including domestic and international export subsidy programs, R&E credits and other similar programs); unforeseen developments in contingencies such as litigation; protection and validity of patent and other intellectual property rights; the cyclical nature of some of Dover's companies; domestic housing industry weakness; and continued events in the Middle East and possible future terrorist threats and their effect on the worldwide economy. Readers are cautioned not to place undue reliance on such forward-looking statements. These forward-looking statements speak only as of the date made. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

The Company may, from time to time, post financial or other information on its Internet website, www.dovercorporation.com. The Internet address is for informational purposes only and is not intended for use as a hyperlink. The Company is not incorporating any material on its website into this report.

Non-GAAP Information

In an effort to provide investors with additional information regarding the Company's results as determined by generally accepted accounting principles (GAAP), the Company also discloses non-GAAP information which management believes provides useful information to investors. Free cash flow, net debt, total debt, total capitalization, Adjusted Working Capital, Average Annual Adjusted Working Capital, earnings adjusted for non-recurring items, revenue excluding the impact of changes in foreign currency exchange rates and organic revenue growth are not financial measures under GAAP and should not be considered as a substitute for cash flows from operating activities, debt or equity, earnings, revenue and working capital as determined in accordance with GAAP, and they may not be comparable to similarly titled measures reported by other companies. Management believes the (1) net debt to total capitalization ratio and (2) free cash flow are important measures of operating performance and liquidity. Net debt to total capitalization is helpful in evaluating the Company's capital structure and the amount of leverage it employs. Free cash flow provides both management and investors a measurement of cash generated from operations that is available to fund acquisitions, pay dividends, repay debt and repurchase the Company's common stock. Reconciliations of free cash flow, total debt and net debt can be found in Part (1) of Item 2-Management's Discussion and Analysis. Management believes that reporting adjusted working capital (also sometimes called working capital), which is calculated as accounts receivable, plus inventory, less accounts payable, provides a meaningful measure of the Company's operational results by showing the changes caused solely by revenue. Management believes that reporting adjusted working capital and revenues at constant currency, which excludes the positive or negative impact of fluctuations in foreign currency exchange rates, provides a meaningful measure of the Company's operational changes,

given the global nature of Dover's businesses. Management believes that reporting organic revenue growth, which excludes the impact of foreign currency exchange rates and the impact of acquisitions, provides a useful comparison of the Company's revenue performance and trends between periods.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There has been no significant change in the Company's exposure to market risk during the first six months of 2009. For a discussion of the Company's exposure to market risk, refer to Item 7A, Quantitative and Qualitative Disclosures about Market Risk, contained in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2008.

Item 4. Controls and Procedures

At the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(e). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of June 30, 2009.

During the second quarter of 2009, there were no changes in the Company's internal control over financial reporting that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. In making its assessment of changes in internal control over financial reporting as of June 30, 2009, management has excluded those companies acquired in purchase business combinations during the twelve months ended June 30, 2009. The Company is currently assessing the control environments of these acquisitions. These companies are wholly-owned by the Company and their total revenue for the three and six month periods ended June 30, 2009 represent approximately 3.3% and 2.1% respectively, of the Company's consolidated revenue for the same period. Their assets represent approximately 1.9% of the Company's consolidated assets at June 30, 2009.

Item 4T. Controls and Procedures

Not applicable.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

See Part I, Notes to Condensed Consolidated Financial Statements, Note 9.
