Northrop Grumman Corporation

We are an integrated enterprise consisting of many formerly separate businesses that cover the entire defense spectrum, from undersea to outer space and into cyberspace. The companies that have become part of Northrop Grumman achieved historic accomplishments, from transporting Charles Lindbergh across the Atlantic to carrying astronauts to the moon's surface and back.

The acquisitions of these businesses have shaped our company into its present position as a premier provider of technologically advanced, innovative products, services and solutions in information and services, aerospace, electronics and shipbuilding. As prime contractor, principal subcontractor, partner, or preferred supplier, we participate in many high-priority defense and commercial technology programs in the U.S. and abroad. We conduct most of our business with the U.S. Government, principally the Department of Defense. We also conduct business with local, state and foreign governments and domestic and international commercial customers.

The principal executive offices of Northrop Grumman are located at 1840 Century Park East, Los Angeles, California 90067 and our telephone number is (310) 553-6262.

We maintain an internet site at <http://www.northropgrumman.com/>. The information contained at our internet site is not incorporated by reference in this prospectus supplement or the accompanying prospectus, and you should not consider it a part of this prospectus supplement or the accompanying prospectus.

The information above concerning Northrop Grumman is only a summary and does not purport to be comprehensive. For additional information about Northrop Grumman, you should refer to the information described in Where You Can Find More Information in this prospectus supplement.

in each case, together with accrued and unpaid interest to, but not including, the date of redemption. See Description of Notes Optional Redemption in this prospectus supplement.

Ranking:

The notes will be unsecured senior obligations of Northrop Grumman. The notes will rank equally in right of payment with all Northrop Grumman's existing and future unsecured and unsubordinated indebtedness and will rank senior in right of payment to any future indebtedness that is subordinated to the notes. The notes will be effectively subordinated to (i) all of Northrop Grumman's existing and future secured indebtedness to the extent of the assets securing that indebtedness, and (ii) all indebtedness and liabilities of Northrop Grumman's subsidiaries, including any of our future indebtedness guaranteed by our subsidiaries.

Certain Covenants:

The indenture governing the notes limits our ability and the ability of our subsidiaries, among other things, to:

create liens without equally and ratably securing the notes, unless an exception applies; and

engage in certain sale and leaseback transactions.

The indenture also limits our ability to engage in mergers, consolidations and certain sales of assets. These covenants are subject to important exceptions and qualifications, as described in Description of Senior Debt Securities Obligations Under the Indentures and Description of Senior Debt Securities Consolidation, Merger or Sale in the accompanying prospectus.

Additional Notes:

We may, without notice to or consent of the holders of any notes, create and issue additional notes in a separate offering. If these additional notes have substantially the same terms as either series of notes offered hereby, we may consolidate these additional notes with that series of notes to form a single series under the indenture. See Description of Notes Issuing Additional Notes in this prospectus supplement.

No Listing:

We do not intend to list the notes on any securities exchange or automated quotation system. The notes will be new securities for which there currently is no public market. See Risk Factors Risks Related to the Offering You may not be able to sell your notes if an active trading market for the notes does not develop in this prospectus supplement.

Trustee:

The Bank of New York Mellon.

Governing Law:

The notes will be governed by New York law.

Risk Factors:

Investing in the notes involves risks. See the section titled Risk Factors beginning on page S-9 of this prospectus supplement and in the documents incorporated by reference herein and other information included in the accompanying prospectus and the documents incorporated by reference therein for a discussion of factors you should carefully consider before deciding to invest in the notes.

S-8

Table of Contents

RISK FACTORS

*Your investment in the notes is subject to certain risks. This prospectus supplement does not describe all of the risks of an investment in the notes. You should consult your own financial and legal advisors about the risks entailed by an investment in the notes and the suitability of your investment in the notes in light of your particular circumstances. For a discussion of the factors you should carefully consider before deciding to purchase any notes that may be offered, please read *Risk Factors* in the documents incorporated by reference herein, as well as those risk factors included below. Additional risks and uncertainties not currently known to us or that we currently deem immaterial may also adversely affect our business and operations. If any of the matters described in the risk factors were to occur, our business, financial condition, results of operations, cash flows or prospects could be materially adversely affected. In such case, you could lose all or a portion of your investment.*

Risks Related to the Offering

The indenture does not limit the amount of indebtedness that we may incur.

The indenture under which the notes will be issued does not limit the amount of indebtedness that we may incur. The indenture does not contain any financial covenants or other provisions that would afford the holders of the notes any substantial protection in the event we participate in a highly leveraged transaction.

The notes are obligations of Northrop Grumman and not of its subsidiaries, and will be effectively subordinated to the claims of the lenders, trade creditors and others who now or in the future have claims against those subsidiaries.

Northrop Grumman is the sole obligor on the notes. Northrop Grumman is a holding company which conducts substantially all of its operations through its subsidiaries, which are separate and distinct legal entities. None of these subsidiaries is obligated to repay the notes or to make funds available for any payments due on the notes. Northrop Grumman depends on the distribution of earnings, repayments of inter-company loans or other payments from its subsidiaries to generate cash flow. As a result, its cash flow and its ability to service its debt, including the notes, depends upon the assets, liabilities, earnings and results of operations of its subsidiaries and their ability to distribute or otherwise transfer assets to Northrop Grumman.

The subsidiaries generally have no obligation to provide Northrop Grumman with funds to meet its payment obligations under the notes, whether by dividends, distributions, loans or other payments. Payments of dividends and similar distributions by these subsidiaries to its stockholders are subject to statutory restrictions and may be subject to additional contractual restrictions or business constraints. The extension of loans or advances by those subsidiaries to Northrop Grumman could also be subject to statutory or contractual restrictions or business constraints. Failure by any subsidiary to abide by these restrictions could require Northrop Grumman to return any payments made by that subsidiary.

Northrop Grumman's right to receive any assets upon the liquidation or reorganization of any of its subsidiaries, and therefore the right of the holders of the notes to participate in those assets, will be effectively subordinated to the claims of that subsidiary's current and future creditors, including debenture and note holders (whether senior or subordinated, and including holders of our future indebtedness guaranteed by a subsidiary), banks, and trade creditors. In addition, even if Northrop Grumman were a creditor of any of its subsidiaries, its rights as a creditor would be subordinate to any creditor holding a security interest in the assets of that subsidiary or holding any indebtedness of that subsidiary senior to that held by Northrop Grumman. Northrop Grumman may also elect to issue debt which is

guaranteed by one or more of its subsidiaries, in which case the notes would be effectively structurally subordinated to the new debt.

Consequently, the notes will be effectively subordinated to all liabilities from time to time of its current and future subsidiaries. As of June 30, 2009, Northrop Grumman's subsidiaries had approximately \$3.9 billion of indebtedness.

Negative covenants in the indenture will have a limited effect.

The indenture governing the notes contains only limited negative covenants that apply to us. These covenants do not limit the amount of additional debt that we may incur and do not require us to maintain any financial ratios or specific levels of net worth, revenues, income, cash flows or liquidity. Accordingly, the indenture does not

Table of Contents

protect holders of the notes in the event we experience significant adverse changes in our financial condition or results of operations. See **Description of Senior Debt Securities Obligations Under the Indenture** in the accompanying prospectus. In light of the limited negative covenants applicable to the notes, holders of the notes may be structurally or contractually subordinated to new lenders.

You may not be able to sell your notes if an active trading market for the notes does not develop.

The notes are a new issue of securities for which there currently is no public trading market. We do not intend to apply for listing or quotation of the notes on any securities exchange or automated quotation system. As a result, we cannot provide any assurance that a market will develop for the notes or that you will be able to sell your notes. If the notes are traded after their initial issuance, they may trade at a discount from their initial offering price. Future trading prices of the notes will depend on many factors, including prevailing interest rates, the market for similar securities, general economic conditions and our financial condition, performance and prospects. Accordingly, you may be required to bear the financial risk of an investment in the notes for an indefinite period of time. Any trading markets that might develop would be affected by many factors independent of and in addition to the foregoing, including:

time remaining to the maturity of the notes;

outstanding amount of the notes;

the terms related to optional redemption of the notes; and

the level, direction and volatility of market interest rates generally.

Changes in our credit rating may adversely affect your investment in the notes.

Actual or anticipated changes or downgrades in our credit ratings, including any announcement that our ratings are under further review for a downgrade, could increase our corporate borrowing costs and affect the market value of the notes. Also, our credit ratings may not reflect the potential impact of risks related to structure, market or other factors related to the value of the notes.

The notes are expected to be rated Baa2 by Moody's Investors Service, BBB by Standard & Poor's Ratings Services, and BBB+ by Fitch Ratings, in each case with a stable outlook. A rating is not a recommendation to purchase, sell or hold a financial obligation, and does not address market price or suitability for a particular investor. Ratings are limited in scope, and do not address all material risks relating to an investment in the notes. Ratings may be changed, suspended, or withdrawn as a result of changes in, or unavailability of, information about the issuer, or based on other circumstances. An explanation of the significance of a rating may be obtained from the issuing agency.

USE OF PROCEEDS

We expect the net proceeds from this offering to be approximately \$841 million, after deducting the underwriting discount and our estimated expenses of this offering totaling approximately \$1.7 million. We expect to use these net proceeds for our corporate purposes, including debt repayment, acquisitions, share repurchases, pension plan funding, and working capital. The debt repayment may include the repayment of up to \$400 million of our 8% senior notes that mature on October 15, 2009 and the replacement of funds used to repay \$71 million of our 7 1/8% notes that matured on June 1, 2009. Pending their application, we may invest the net proceeds in short-term investments.

Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES**

The following table sets forth our ratios of earnings to fixed charges for the periods indicated:

2008 (1)	Year Ended December 31,		2005	2004	Six Months Ended	
	2007	2006			2009	2008
	6.1	5.4	4.7	3.7	6.0	5.6

- (1) For the year ended December 31, 2008, our earnings were insufficient to cover fixed charges by \$368 million. This loss was entirely due to the non-cash goodwill impairment charge of \$3.1 billion recorded during the fourth quarter at Shipbuilding and Aerospace Systems.

For purposes of computing the ratios of earnings to fixed charges, earnings represent earnings from continuing operations before income taxes and fixed charges, and fixed charges consist of interest expense, the portion of rental expense calculated to be representative of the interest factor, and amortization of debt premiums. The ratios, and the note to the above table, should be read in conjunction with the financial statements and other financial data incorporated by reference in this prospectus supplement and the accompanying prospectus. See [Where You Can Find More Information](#) in this prospectus supplement.

Table of Contents**SELECTED HISTORICAL FINANCIAL INFORMATION**

The following table presents our selected historical financial information as of the dates and for the periods indicated. The financial information set forth below for the completed fiscal years is derived from our audited consolidated financial statements, which have been audited by Deloitte & Touche LLP, an independent registered public accounting firm. The financial information set forth below at June 30 and for the six month periods ended June 30 is derived from our unaudited consolidated financial statements, but includes all adjustments of normal recurring nature considered necessary by management for a fair presentation of our condensed consolidated financial position, results of operations, and cash flows. This financial information is not necessarily indicative of results that may be expected for the entire year. This financial information is only a summary and should be read in conjunction with, and is qualified by reference to, our historical consolidated financial statements and related notes, and Management's Discussion and Analysis of Financial Condition and Results of Operations, contained in our annual, quarterly and current reports filed with the SEC and incorporated in this prospectus supplement and the accompanying prospectus by reference.
