What Matters Will Be Voted Upon at the Annual Meeting?

What Constitutes a Quorum?

The presence at the Meeting, in person or by proxy, of the holders of a majority of the shares of common stock outstanding on the record date will constitute a quorum, permitting the Company to conduct its business. The enclosed proxy card indicates the number of shares you own. There are four ways to vote:

By Internet at www.envisionreports.com/HOMB; we encourage you to vote this way.

By toll-free telephone at the number shown on your proxy card.

By completing and mailing your proxy card.

By written ballot at the Meeting.

If you vote by Internet or telephone, your vote must be received by 1:00 a.m. Central time on April 20, 2010. Table of Contents

If your shares are held in street name, you will need to contact your broker or other nominee to determine whether you will be able to vote by telephone or Internet.

What Are the Board's Recommendations?

Unless you give other instructions on your proxy card, the persons named as proxy holders on the proxy card will vote in accordance with the recommendations of the Board of Directors. The Board's recommendation is set forth together with each proposal in this Proxy Statement. In summary, the Board recommends a vote:

For the election of the nominated slate of directors (see pages 8-42).

For the ratification of the appointment of BKD, LLP as the Company's independent registered public accounting firm (see pages 43-44).

For the approval, on an advisory (non-binding) basis, of the Company's executive compensation (see page 45).

As of the date of this Proxy Statement, the Board knows of no other business that may properly be, or is likely to be, brought before the Annual Meeting. With respect to any other matter that properly comes before the Meeting, the proxy holders will vote as recommended by the Board of Directors or, if no recommendation is given, at their own discretion.

What Vote Is Required to Approve Each Proposal?

Election of Directors. The affirmative vote of a plurality of the votes cast in person or by proxy at the Meeting is required for the election of directors. A properly executed proxy marked **WITHHOLD AUTHORITY** with respect to the election of one or more of the directors will not be voted with respect to the director or directors indicated, although it will be counted for purposes of determining whether there is a quorum.

Other Proposals. For each other proposal, the affirmative vote of a majority of the votes cast in person or by proxy at the Annual Meeting, assuming a quorum is present, will be required for approval. A properly executed proxy marked **ABSTAIN** with respect to any such matter will not be voted, although it will be counted for purposes of determining whether there is a quorum. Accordingly, an abstention will have no effect on the outcome of the vote.

If you hold shares in street name through a broker or other nominee, your broker or nominee may not be permitted to exercise voting discretion with respect to some of the matters to be acted upon. Under a recent amendment to the New York Stock Exchange (NYSE) rules, brokers no longer have the discretion to vote on the election of directors because director elections, even if uncontested, are no longer considered a routine matter. Even though the Company's stock is listed on the NASDAQ Global Select Market, it is expected that brokers who are members of the NYSE will follow the NYSE rules governing proxy voting with respect to all proxies for publicly traded companies. *Thus, if you do not give your broker or nominee specific instructions, including with respect to the election of directors, your shares may not be voted on those matters and will not be counted in determining the number of shares necessary for approval.* Shares represented by such broker non-votes will, however, be counted in determining whether there is a quorum.

The authorized common stock of the Company consists of 50,000,000 shares at \$0.01 par value. As of the close of business on March 5, 2010, there were 25,713,567 shares eligible to vote.

Can I Change My Vote After I Return the Proxy Card?

Yes. Even after you have submitted your proxy, you may change your vote at any time before the proxy is exercised by filing with the Secretary of the Company either a notice of revocation or a duly executed proxy bearing a later date. The powers of the proxy holders will be suspended if you attend the Meeting in person and so request, although attendance at the Meeting will not by itself revoke a previously granted proxy.

PROPOSAL ONE ELECTION OF DIRECTORS

Our Restated Articles of Incorporation provide that the number of directors shall not be less than two nor more than fifteen, with the exact number to be fixed by the shareholders or the Board. After the nominations were approved by the Board, one of the nominees passed away. At this time, the Board has not elected to fill that vacancy. The Board of Directors proposes that the nominees for directors described below be re-elected for a new term of one year and until their successors are duly elected and qualified. All nominees are currently serving as directors.

Each of the nominees has consented to serve the term for which he is nominated. If any nominee becomes unavailable for election, which is not anticipated, the directors' proxies will vote for the election of such other person as the Board may nominate, unless the Board resolves to reduce the number of directors to serve on the Board and thereby reduce the number of directors to be elected at the meeting.

Table of Contents**CORPORATE GOVERNANCE****Duties of the Board**

The Board of Directors has the responsibility to serve as the trustee for the shareholders. It also has the responsibility for establishing broad corporate policies and for the overall performance of the Company. The Board, however, is not involved in day-to-day operating details. Members of the Board are kept informed of the Company's business through discussion with the Chief Executive Officer and other officers, by reviewing analyses and reports sent to them quarterly, and by participating in Board and Committee meetings.

Corporate Governance Guidelines and Policies

We believe that good corporate governance helps ensure that the Company is managed for the long-term benefit of its shareholders. We continue to review our corporate governance policies and practices, corporate governance rules and regulations of the Securities and Exchange Commission (the "SEC"), and the listing standards of the NASDAQ Global Select Market on which our common stock is traded. The Board has adopted various corporate governance guidelines and policies to assist the Board in the exercise of its responsibilities to the Company and its shareholders. The guidelines and policies address, among other items, director independence and director qualifications. You can access and print our corporate governance guidelines and policies, including the charters of our Audit Committee, Compensation Committee, Nominating and Corporate Governance Committee, our Corporate Code of Ethics for Directors, Executive Officers and Employees and other Company policies and procedures required by applicable law or regulation on our website at www.homebancshares.com under the caption "Investor Relations / Corporate Profile / Governance Documents."

Director Independence

NASDAQ rules require that a majority of the directors of NASDAQ-listed companies be independent. An independent director generally means a person other than an officer or employee of the listed company or its subsidiaries, or any other individual having a relationship, which, in the opinion of the listed company's board of directors, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. Certain categories of persons are deemed not to be independent under the NASDAQ rules, such as persons employed by the listed company within the last three years, and persons who have received (or whose immediate family members have received) payments exceeding a specified amount from the listed company within the last three years, excluding payments that are not of a disqualifying nature (such as compensation for board service, payments arising solely from investments in the listed company's securities, and benefits under a tax-qualified retirement plan). NASDAQ rules impose somewhat more stringent independence requirements on persons who serve as members of the audit committee of a listed company.

Of the eleven persons who currently serve on our Board of Directors, we believe that eight are independent for purposes of NASDAQ rules. Messrs. Mayor and Sims are not considered independent because they are officers of Home BancShares. Mr. Allison cannot be considered independent because he has been an officer within the last three years. The Board has also determined that no member of the Audit Committee, Compensation Committee or Nominating and Corporate Governance Committee has any material relationship with the Company (either directly or indirectly as a partner, shareholder or officer of an organization that has a relationship with the Company) and that all members of these committees meet the criteria for independence under the NASDAQ listing standards.

Board Structure and Role in Risk Oversight

As of July 17, 2009, the Board of Directors separated the positions of Chairman and Chief Executive Officer (CEO) when the Board promoted Mr. Sims to CEO. Mr. Allison, formerly the Chairman and CEO of the Company, now serves as Chairman of the Board. Prior to that time, Mr. Allison had been the only CEO for the Company since its founding. The primary purpose of installing a separate CEO with Mr. Allison continuing to serve as Chairman was to facilitate and strengthen the succession of management of the Company. This separation of Chairman and CEO also allows for greater oversight of the Company by the Board. The Board is actively involved in oversight of risks that could affect the Company. This oversight is conducted primarily through committees of the Board, as disclosed in the description of each of the committees below and in the charters of each of the committees, but the full Board has retained responsibility for general oversight of risks. The Board satisfies this responsibility through full reports by each committee chair regarding the committee's considerations and actions, as well as through regular reports directly

from officers responsible for oversight of particular risks within the Company.

Code of Ethics

We have adopted a Code of Ethics that applies to all of our directors, officers, and employees. We believe our Code of Ethics is reasonably designed to deter wrongdoing and to promote honest and ethical conduct, including the ethical handling of conflicts of interest, full, fair and accurate disclosure in filings and other public communications made by us, compliance with applicable laws, prompt internal reporting of ethics violations, and accountability for adherence to the Code of Ethics. This Code of Ethics is published in its entirety on our website at www.homebancshares.com under the caption Investor Relations / Corporate Profile / Governance Documents. We will post on our website any amendment to this code and any waivers of any provision of this code made for the benefit of any of our senior executive officers or directors.

BOARD MEETINGS AND COMMITTEES OF THE BOARD

The business of the Company is managed under the direction of the Board of Directors, who meet on a regularly scheduled basis during the calendar year to review significant developments affecting the Company and to act on matters that require Board approval. Special meetings are also held when Board action is required on matters arising between regularly scheduled meetings. Written consents to action without a meeting may be obtained if the Company deems it more appropriate.

All members of the Board are strongly encouraged to attend each meeting of the Board and meetings of the Board Committees on which they serve, as well as the Annual Meeting. The Board of Directors held four regularly scheduled meetings and five special meetings during calendar year 2009. During this period all current members of the Board participated in at least 91% of the Board and committee meetings, and all of the current Board members except one attended the Company's Annual Meeting in 2009. Our Director Attendance Policy is published on our website at www.homebancshares.com under the caption Investor Relations / Corporate Profile / Governance Documents.

Our Board of Directors has five standing committees: the Audit Committee, the Compensation Committee, the Nominating and Corporate Governance Committee, the Asset/Liability Committee and the Asset Quality Committee. Committee members are elected annually by the Board and serve until their successors are elected and qualified or until their earlier resignation or removal.

The following table discloses the Board members who serve on each of the Board's committees and the number of meetings held by each committee during calendar year 2009.

The Committee shall not, however, delegate to a subcommittee any power or authority required by any law, regulation or listing standard to be exercised by the Committee as a whole.

The Chairman provides recommendations to the Committee regarding the form and amount of compensation paid to our executive officers. Additionally, the Chairman, the CEO and our Chief Financial Officer (CFO) regularly attend Committee meetings, other than executive sessions. Traditionally, management has provided to the Committee historical and prospective breakdowns of primary compensation components for each executive officer, including internal pay equity analyses.

Table of Contents

Historically, the Committee meets subsequent to year end to finalize discussion regarding the Company's performance goals for the previous and current year with respect to performance-based compensation to be paid to executive officers and to approve its report for the annual proxy statement. These goals are approved within 90 days of the beginning of the year. Each year in December and/or January, the Committee generally discusses any new compensation issues, the compensation, bonus and incentive plan award analyses and the engagement of a compensation consultant for annual executive and director compensation. The Committee also meets in December and/or January to:

1. review and discuss the recommendations made by the Chairman;
2. review the performance of the Company and the individual officers;
3. review the level to which the Company's performance goals were attained and approve short-term cash bonus and long-term incentive awards; and
4. determine the executive officers' base salaries for the following year.

Management also advises the full Board, including the Committee members, throughout the year of new issues and developments regarding executive compensation.

The Board of Directors has adopted a written charter for the Nominating and Corporate Governance Committee that meets the applicable standards of the SEC and NASDAQ. The Nominating and Corporate Governance Committee Charter is published on our website at www.homebancshares.com under the caption Investor Relations / Corporate Profile / Governance Documents.

Director Candidate Qualifications

The Nominating and Corporate Governance Committee Directorship Guidelines and Selection Policy outlines the qualifications the Committee looks for in a director nominee. Generally, the candidate should possess:

17

Table of Contents

relevant business and financial expertise and experience, including an understanding of fundamental financial statements;

the highest character and integrity and a reputation for working constructively with others;

sufficient time to devote to meetings and consultation on Board matters; and

freedom from conflicts of interest that would interfere with performance as a director.

More specifically, the Nominating Committee seeks candidates who possess various qualifications, skills, or other factors it deems appropriate. These factors may include leadership experience in business or other relevant fields, knowledge of the Company and the financial services industry, experience in serving as a director of another financial institution or public company generally, education, wisdom, integrity, analytical ability, familiarity with and participation in the communities served by the Company and its subsidiaries, commitment to and availability for services as a director, and any other factors the Committee deems relevant.

Director Nominations Process

After assessing and considering prevailing business conditions of the Company, legal and listing standard requirements for Board composition, the size and composition of the current Board, and the skills and experience of current Board members, any of the Chairman, the Nominating Committee or any Board member may identify the need to add a Board member or to fill a vacancy on the Board. The Committee identifies qualified director nominees from among persons known to the members of the Committee, by reputation or otherwise, and through referrals from trusted sources, including senior management, existing Board members, shareholders and independent consultants hired for such purpose. The Committee may request that senior officers of the Company assist the Committee in identifying and assessing prospective candidates who meet the criteria established by the Board.

The Nominating Committee evaluates candidates based upon the candidate's qualifications, recommendations, or other relevant information, including a personal interview. The Nominating Committee has determined that the Board as a whole must have the right diversity, mix of characteristics and skills for the optimal functioning of the Board in its oversight of the Company. The Board believes it should be comprised of persons with skills in areas such as banking, finance, accounting, sales and marketing, law, strategic planning and leadership of large, complex organizations.

In addition to the targeted skill areas, the Nominating Committee looks for a strong record of achievement in key knowledge areas that it believes are critical for directors to add value to a Board including:

Strategy knowledge of the Company business model, the formulation of corporate strategies, knowledge of key competitors and banking markets;

Leadership skills in coaching senior executives and the ability to assist in their development;

Organizational issues understanding of strategy implementation, management processes, group effectiveness and organizational design;

Relationships understanding how to interact with investors, regulatory bodies, and communities in which the Company operates;

Functional understanding of finance matters, financial statements and auditing procedures, technical expertise, legal issues, information technology and marketing; and

Ethics the ability to identify and raise key ethical issues concerning the activities of the Company and senior management as they affect the business community and society.

The Committee meets to consider and approve the candidates to be presented to the Board. The Committee then presents its proposed nominees to the full Board. The Board considers the recommendations of the Committee and

approves candidates for nomination.

REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

In accordance with its written charter, which was re-approved in its current form by the Board of Directors on January 22, 2010, the Audit Committee assists the Board in, among other things, oversight of our accounting and financial reporting processes, our compliance with legal regulatory requirements, the qualifications and independence of the independent auditors and the performance of the internal and independent auditors. A copy of the Audit Committee charter is published on the Company's website at *www.homebancshares.com* under the caption Investor Relations / Corporate Profile / Governance Documents.

Our Board of Directors has determined that all four members of the Committee are independent based upon the independence requirements of the SEC and NASDAQ, and that our Chairman, Mr. Engelkes, satisfies the criteria of an audit committee financial expert as defined by the regulations of the SEC.

Management is responsible for the preparation, presentation, and integrity of our financial statements, for the appropriateness of our accounting principles and reporting policies and for implementing and maintaining internal control over financial reporting. Our independent auditors are responsible for auditing the financial statements and internal controls over financial reporting and for reviewing our unaudited interim financial statements. The Audit Committee's responsibility is to monitor and review these processes and procedures. Except for our Chairman, Mr. Engelkes, the members of the Audit Committee are not engaged in the practice of accounting or auditing and are not professionals in those fields. The Audit Committee relies, without independent verification, on the information provided to us and on the representations made by management that the financial statements have been prepared with integrity and objectivity and on the representations of management and the opinion of the independent auditors that

such financial statements have been prepared in conformity with accounting principles generally accepted in the United States.

Table of Contents

During 2009, the Audit Committee had four regularly scheduled meetings and one special meeting. The Audit Committee's regular meetings were conducted in order to encourage communication among the members of the Audit Committee, management, the internal auditors, and our independent auditors, BKD, LLP. Among other things, the Audit Committee discussed with our internal and independent auditors the overall scope and plans for their respective audits. The Audit Committee separately met with each of the internal and independent auditors, with and without management, to discuss the results of their examinations and their observations and recommendations regarding our internal controls. The Audit Committee also discussed with our independent auditors all matters required by auditing standards generally accepted in the United States of America, including those described in Auditing Standards AU Section 380, Communication with Audit Committees.

The Audit Committee reviewed and discussed our audited consolidated financial statements as of and for the year ended December 31, 2009, with management, the internal auditors, and our independent auditors. Management's discussions with the Audit Committee included a review of critical accounting policies.

The Audit Committee obtained from the independent auditors a formal written statement describing all relationships between us and our auditors that might bear on the auditors' independence consistent with Public Company Accounting Oversight Board Rule 3526, Communication with Audit Committees Concerning Independence. The Audit Committee discussed with the auditors any relationships that may have an impact on their objectivity and independence and satisfied itself as to the auditors' independence. The Audit Committee has reviewed and approved the amount of fees paid to BKD, LLP for audit and non-audit services. The Audit Committee concluded that the provision of services by BKD, LLP is compatible with the maintenance of BKD's independence.

Based on the above-mentioned review and discussions with management, the internal auditors, and the independent auditors, and subject to the limitations on our role and responsibilities described above and in the Audit Committee Charter, the Audit Committee recommended to the Board of Directors that our audited consolidated financial statements be included in our Annual Report on Form 10-K for the calendar year ended December 31, 2009, for filing with the SEC.

COMPENSATION DISCUSSION AND ANALYSIS

Overview of Compensation Philosophy and Program

The Compensation Committee, composed entirely of independent directors, administers the Company's executive compensation program. The role of the Committee is to oversee the Company's compensation and benefit plans and policies, administer its stock plans, and review and approve annually all compensation decisions related to the named executive officers, the board members, and the CEO and CFO. Our named executive officers are our CEO, our CFO and our three other most highly-compensated executive officers, as listed in the Summary Compensation Table of this Proxy Statement. The Committee submits its decision with regard to the CEO and CFO to the independent directors for their ratification.

The Committee recognizes the importance of compensation and performance and seeks to reward performance with cost-effective compensation that aligns employee efforts with the business strategy of the Company and with the interest of the shareholders. The Committee also recognizes that the compensation should assist the Company in attracting and retaining key executives critical to its long-term success.

The following principles guide the Committee:

Table of Contents

Compensation levels should be sufficiently competitive to attract and retain key management for the bank and holding company. The Company hires experienced bank executives that have a track record in the market. Competition is strong for these talented and experienced people. The compensation package must be strong and competitive in that market.

Compensation should relate directly to performance and responsibility. Compensation should vary with the performance and responsibility of the individual. It should always be proportional to the contribution to the Company's success.

Short-term incentive compensation should motivate high performance. The Company uses the cash bonus plan to motivate individuals with roles and responsibilities that give them the ability to directly impact the Company's performance and strategic direction. The incentive compensation should not cause the individual to take excessive and unnecessary risks that would threaten the institution.

The Company's Non-Qualified Stock Option Plan should align management with shareholders interests. Awards of stock options, restricted stock or other forms of long-term compensation should encourage management to focus on the long-term growth and success of the Company. It should provide management with a meaningful stake in the Company and the prospects of a long-term career.

The Committee receives regular updates on our business results from management and reviews the quarterly financial statements and projections to assess whether executive compensation continues to be properly balanced with and supportive of our business objectives. The Committee also regularly reviews information, including reported revenue, profit levels, market capitalization and disclosed governance practices, regarding comparably-sized bank holding companies in a peer group to assess our comparative performance and organizational structure. The Committee uses management updates and peer information as tools to evaluate the connection between executive compensation and our performance as a business. This information is reviewed in a subjective manner. There is no implied direct or formulaic linkage between peer information and our compensation decisions. The Committee takes the view that a close connection between compensation and performance objectives encourages our executives to make decisions that will result in significant positive short-term and long-term returns for our business and our shareholders without providing an incentive either to take unnecessary risks or to avoid opportunities to achieve long-term benefits even though they may reduce short-term benefits for the named executive officers, the business or our shareholders.

Based on these reports and assessments, the Committee regularly evaluates both the short-term and long-term performance compensation for the named executive officers to ensure alignment with our business objectives. The Committee also works closely with management regarding long-term equity incentives, including performance based equity awards, which emphasize shareholder returns while providing enhanced retention value for key executives.

The Committee in the past has compared total compensation levels for the executive officers to the compensation paid to executives in a peer group. The Committee did not perform a peer compensation review in 2009. The Committee will review this decision on an annual basis and review peer compensation as the Committee deems necessary. For 2009, the Committee evaluated and considered the overall performance of the Company and, for our regional bank presidents, the performance of the bank in each designated region, as well as the individual's performance and recommendations by the Chairman.

The Company did not use the services of an independent compensation consultant to advise on compensation issues in 2009. The Committee will review this decision on an annual basis and employ such a consultant when the Committee determines that it would be helpful.

Executive Compensation Limitations Related to Capital Purchase Program

On January 16, 2009, the Company sold \$50 million of senior preferred shares to the U.S. Department of the Treasury (the Treasury) under the Capital Purchase Program (CPP) of the Treasury's Troubled Asset Relief Program (TARP). The Board of Directors viewed the CPP as a voluntary opportunity to raise additional low cost capital to bolster the Company's already adequate sources of liquidity and well-capitalized position to support existing

operations as well as anticipated future growth. As a result of the Company's participation in the CPP, the Company became subject to certain executive compensation requirements under Section 111(b) of the Emergency Economic Stabilization Act of 2008 (EESA), the rules and guidelines promulgated by the Treasury thereunder, and the contract pursuant to which we sold the senior preferred shares.

Table of Contents

On February 17, 2009, the President signed into law the American Recovery and Reinvestment Act of 2009 (ARRA). The ARRA amended in its entirety Section 111 of the EESA. In doing so, the ARRA continues all the same compensation and governance restrictions and adds substantially to the restrictions in several areas. The ARRA implements many, but not all, of the restrictions in the guidelines issued by the Treasury on February 4, 2009, on executive pay for financial institutions receiving TARP assistance and in several instances goes beyond the Treasury guidelines. These restrictions apply to all participants that have received or will receive financial assistance under the TARP, and therefore, these additional restrictions apply to us.

On June 15, 2009, the Treasury issued an interim final rule clarifying the executive compensation requirements imposed by the EESA and the ARRA. The compensation requirements imposed by the EESA and the ARRA and our contractual agreement with the Treasury apply to what the Treasury refers to as our senior executive officers (SEOs) and, in certain instances, additional officers or employees of the Company. Presently, our SEOs are the same five officers who are our named executive officers. These requirements are:

Prohibition on Incentive Compensation that Provides an Incentive to Take Unnecessary and Excessive Risks. The EESA prohibits us from providing incentive compensation arrangements that encourage our SEOs to take unnecessary and excessive risks that threaten the value of the financial institution.

Risk Review. The Compensation Committee was required within 90 days after the sale of the senior preferred shares by the Company to the Treasury to review the incentive compensation of the SEOs with the Company's senior risk officer(s), or other personnel acting in a similar capacity, to ensure that the SEO incentive compensation arrangements do not encourage SEOs to take unnecessary and excessive risks that threaten the value of the Company. Beginning on September 14, 2009, the Committee must meet at least semiannually with the senior risk officer(s), or individual(s) acting in a similar capacity, to discuss, evaluate and review the relationship between the Company's risk management policies and practices and the SEO and employee compensation arrangements. The Committee has met with the Company's risk officer to review, evaluate and discuss the SEO and employee compensation arrangements and determined that such arrangements do not encourage the SEOs to take unnecessary and excessive risks that could threaten the value of the Company. See REPORT OF THE COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS.

Clawback. In order to comply with the EESA and the ARRA, the Company must require that any bonus, retention award, and incentive compensation paid to an SEO or the next 20 most highly compensated employees during the period that the Treasury holds an equity or debt position in the Company acquired under the CPP are subject to recovery or clawback by the Company if it is determined that the payments were based on materially inaccurate financial statements or any other materially inaccurate performance metric criteria.

Golden Parachutes. Under the EESA and the ARRA, the Company must prohibit any golden parachute payment to an SEO or the next five most highly compensated employees during the period that the Treasury holds an equity or debt position in the Company acquired pursuant to the CPP. The Company is also prohibited from deferring any such payment beyond the expiration of this TARP period. For purposes of this requirement, golden parachute payment means any payment to an SEO for departure for any reason and amounts received upon a change in control of the Company, excluding certain payments from qualified retirement plans, foreign retirement plans and severance or similar payments required under state or foreign law.

Prohibition on Bonuses and Similar Payments. The Company is prohibited by the ARRA and the Treasury interim final rule from paying or accruing any bonus, retention award, or incentive compensation during the period beginning June 15, 2009, in which any obligation to the Treasury remains outstanding. There are exceptions for long-term restricted stock meeting certain criteria and payments under legally binding employment contracts entered into on or before February 11, 2009. The prohibition applies only to the SEOs.

Limit on Tax Deduction. In connection with its sale of the senior preferred shares, the Company agreed not to claim, during any taxable year in which the Treasury holds an equity or debt position with the Company, any deduction for federal income tax purposes for compensation that would not be deductible if section 162(m)(5) of the Internal Revenue Code were to apply to the Company. Section 162(m)(5) limits the aggregate amount of compensation, including performance-based compensation, that may be deducted annually by an applicable institution for each of its five most highly compensated executive officers to \$500,000 during any applicable taxable year.

Section 162(m)(5) applies to any financial institution that has sold an aggregate of \$300 million of troubled assets to the Treasury under a program established pursuant to the EESA. Because the Company's sale of preferred stock to the Treasury occurred on January 16, 2009, the Company will be subject to this \$500,000 deduction limitation beginning with the 2009 taxable year and during any future taxable year in which the Treasury holds an equity or debt position with the Company.

Binding SEO Agreements. Prior to the Company's sale of senior preferred shares to the Treasury, each of the Company's SEOs entered into a letter agreement with the Company through which the SEO agreed to certain actions as described below in connection with the Company's compliance with the executive compensation restrictions under the CPP. Specifically, each SEO agreed to the following:

Prohibition by the Company of any golden parachute payment to the SEO during any period during which he is a senior executive officer and the Treasury holds an equity or debt position acquired from the Company in the CPP (the CPP Covered Period);

Any bonus and incentive compensation paid to the CEO during a CPP Covered Period being subject to recovery or clawback by the Company if the payments were based on materially inaccurate financial statements or any other materially inaccurate performance metric criteria;

Amendment by the Company to the extent necessary to give effect to the agreed upon limitations described above of each of the Company's compensation, bonus, incentive and other benefit plans, arrangements and agreements (including golden parachute, severance and employment agreements) (collectively, Benefit Plans) with respect to the SEO; and

Review by the Company of its Benefit Plans to ensure that they do not encourage SEOs to take unnecessary and excessive risks that threaten the value of the Company and, to the extent any such review requires revisions to any Benefit Plan with respect to the SEO, the SEO and the Company agree to negotiate such changes promptly and in good faith.

Shareholder Say-on-Pay Vote Required. Under the ARRA, we are required to permit a non-binding shareholder vote to approve the compensation of executives as disclosed in the Company's proxy statement. On January 12, 2010, the SEC adopted regulations pursuant to the ARRA to implement this say-on-pay requirement. The Company has included in this Proxy Statement a proposal providing for an advisory vote to approve the compensation of our executives. See PROPOSAL THREE ADVISORY (NON-BINDING) VOTE APPROVING EXECUTIVE COMPENSATION.

Prohibition on Compensation Plans that Encourage Earnings Manipulation. The Company is prohibited from implementing any compensation plan that would encourage manipulation of the reported earnings of the Company in order to enhance the compensation of any of its employees. The Company does not believe it has any compensation plan that would encourage manipulation of the reported earnings of the Company.

Semiannual Compensation Plan Evaluation Required. The ARRA requires the Company's Compensation Committee to meet at least semiannually to discuss and evaluate employee compensation plans in light of an assessment of any risk to the Company posed by such plans.

CEO, CFO and Compensation Committee Certification Requirements. The ARRA and the Treasury interim final rule require our CEO and CFO to provide a written certification of compliance with the executive compensation restrictions in the ARRA as an exhibit to our annual report on Form 10-K filed with the SEC. Additionally, the Company's Compensation Committee must annually certify that it has completed its review of the CEO and employee compensation plans and provide a narrative description of how it limited features in the CEO and employee compensation plans that could encourage the undesirable behaviors restricted by these requirements. The Company has included this certification and narrative in this Proxy Statement. See REPORT OF THE COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS.

Policy Regarding Excessive or Luxury Expenditures. The ARRA requires us to implement a company-wide policy regarding excessive or luxury expenditures, including excessive expenditures on entertainment or events, office and facility renovations, aviation or other transportation services. A copy of the Company's Policy Regarding Excessive or Luxury Expenditures is published on the Company's website at www.homebancshares.com under the caption Investor Relations / Corporate Profile / Governance Documents.

Perquisite Disclosure Requirements. The ARRA and the Treasury interim final rule require us to disclose any perquisite provided to any employee subject to the ARRA's bonus limitations with a total value exceeding \$25,000 during the fiscal year. We are also required to provide a narrative description of the amount and nature of any such perquisites, the recipient of these perquisites, and a justification for offering these perquisites (including a justification for offering the perquisite, and not only for offering the perquisite with a value that exceeds \$25,000). This disclosure applies only to our CEOs. During 2009, the Company did not provide any perquisite with a total value exceeding \$25,000.

Prohibition on Tax Gross-Up Payments. The Company is prohibited from making any tax gross-up payment, or a payment to cover taxes due on compensation such as golden parachutes and perquisites, to any of the CEOs and the 20 next most highly compensated employees. This prohibition includes providing a right to a payment of such a gross-up at a future date, such as a date after the Treasury no longer holds an equity or debt position in the Company acquired pursuant to the CPP.

Disclosure of Compensation Consultants. We are required to disclose whether the Company or the Committee engaged a compensation consultant and to provide a narrative description of the services provided by any such consultant, including any non-compensation related services provided by the consultant or any of its affiliates, as well as a description of the use of any benchmarking procedures in the consultant's analysis. The Company did not engage the services of a compensation consultant during 2009.

Treasury Review of Prior Payments. The ARRA directs the Treasury to review bonuses, retention awards, and other compensation paid to our CEOs and the next 20 most highly-compensated employees of the Company and to seek to negotiate with the Company and affected employees for reimbursement if it finds any such payments were inconsistent with CPP or otherwise in conflict with the public interest. The Treasury has established a Special Master for TARP who is responsible for administering these reviews and negotiating any such reimbursements, and who may render advisory opinions on whether any particular payments are inconsistent with the CPP or otherwise in conflict with the public interest.

Components of Compensation

The key elements of the Company's executive compensation program are:

Base salary

Short-term incentives (bonuses)

Long-term incentives compensation (options/restricted stock)

Retirement and insurance benefit plans

Certain defined perquisites

The Company tries to determine the proper mix of base, short-term and long-term incentive compensation. In our markets there are a number of national, regional and community banks. The competition for experienced executives in banking is strong. The Committee understands that being a public company that can offer equity incentives, a community banking philosophy, and an above average base pay puts the Company in a competitive position for strong management. The public market for the stock and its easily accessible value is a positive factor in aligning the management's interest with that of the shareholders and making them meaningful stakeholders.

Base Salary

Base salaries have been targeted at the upper levels for the peer group of companies and adjusted to recognize varying levels of responsibility, individual performance, individual bank performance if appropriate and internal equity issues. The Committee reviews the base salaries of the executive officers annually. This base salary provides the foundation for a total compensation package that is required to attract, retain and motivate the officers. Generally, base salaries are not directly related to specific measures of performance, but are determined by experience, the scope and complexity of the position, current job responsibilities, and salaries of competing banks. The Company does not use benchmarking.

Table of Contents***Short-term Incentives***

An annual cash bonus plan is intended to reward individual performance for that year. The Compensation Committee reviews the individual performance of the officer, and if he or she is in charge of a banking region, the performance of that region. In evaluating a regional bank president, the Committee reviews the goals for that banking region, including return on assets, growth in assets, asset quality, return on equity, gross margin, net income, operating income, net cash flow and regulatory examination results. In evaluating an executive officer of the parent, the Committee reviews the goals of the parent company including shareholder return, earnings per share, and the other criteria noted above. The final consideration is the overall profitability of the Company. The Committee then determines the amount of the awards. As previously described, beginning June 15, 2009, the Company is prohibited from paying or accruing any cash bonus to our CEOs so long as the Treasury holds a position in our securities pursuant to the CPP. In accordance with these limitations, the Company provided cash bonuses to our CEOs for 2009 of only such amounts as were accrued for the period prior to June 15, 2009.

Long-term Incentives

Consistent with the Company's philosophy that favors compensation based upon performance, long-term incentives comprise a significant component of total compensation. In 2006, the Board of Directors adopted and the shareholders approved the 2006 Stock Option and Performance Incentive Plan (the "Plan"). The purpose of the Plan is to attract and retain highly qualified officers, directors, and key employees, and to encourage those employees to improve our business results. The Plan is administered by our Compensation Committee. Subject to the terms of the Plan, the Committee may select participants to receive awards, determine the types, terms and conditions of awards and interpret provisions of the Plan.

It is the policy of the Committee to award grants with an exercise price set at the fair market value on the date of the grant. The Company does not have a practice of timing option or restricted stock grants to coordinate with the release of material non-public information. The Committee evaluates opportunities under the Plan along with the annual setting of salaries and awarding bonuses. The Committee will also consider awards under the Plan if appropriate in recruiting a new employee.

The Committee uses one or more of the following business criteria, on a consolidated basis and/or with respect to specified subsidiaries (except with respect to the total shareholder return and earnings per share criteria), in establishing performance goals for awards intended to comply with Section 162(m) of the Internal Revenue Code granted to covered employees:

shareholder return;

return on assets;

growth in assets;

asset quality;

return on equity;

earnings per share;

net income; and

operating income.

Section 162(m) of the Internal Revenue Code places a limit of \$1,000,000 on the compensation that publicly held corporations may deduct in any one year with respect to each of its five most highly paid executive officers. There is an exception to the \$1,000,000 limitation for performance-based compensation meeting certain requirements. Annual cash incentive compensation and stock option and restricted stock awards are generally performance-based meeting those requirements and, as such, are deductible. We did not have any executive officer with deductible compensation

of \$1,000,000 during 2009, and the Compensation Committee has not adopted a policy with regard to this issue.

Table of Contents

However, as described above, financial institutions such as the Company that have sold securities to the Treasury under the CPP are subject to Section 162(m)(5), enacted as part of the EESA, which limits the aggregate amount of compensation, including performance-based compensation, that may be deducted annually by an applicable institution for each of its five most highly compensated executive officers to \$500,000 during the period that the Treasury holds an equity or debt position in the institution. Because the Company sold senior preferred shares to the Treasury on January 16, 2009, we will be subject to this \$500,000 deduction limitation beginning with the 2009 taxable year and during any future taxable year in which the Treasury holds an equity or debt position with the Company. *See* Executive Compensation Limitations Related to Capital Purchase Program.

The Company has both regular and performance-based nonqualified stock options. The Committee issued performance-based options in 2006 with a cliff-vesting date of January 1, 2010, and with eligibility for the options tied to annual or cumulative performance goals for the Company and for our then individual banks. The remaining eligible portion of the options for which the performance goals were determined to have been met vested on the cliff-vesting date. Although the Committee determined that the cumulative performance goals had not been met due to the difficult current market conditions, particularly in our Florida market, the Committee believes that these performance-based options achieved their objectives with respect to retaining our officers and improving the results of our subsidiary bank in consideration of the difficult market conditions.

The Committee is currently considering terms for new long-term incentive awards subject to the limitation imposed on the Company in connection with the Company's sale of senior preferred shares to the Treasury pursuant to the CPP. As described above, the ARRA prohibits the Company from awarding incentive compensation, including stock options, to our senior executive officers during the period in which any obligation to the Treasury remains outstanding. However, the Company is allowed to issue long-term restricted stock provided that any such restricted stock does not fully vest during the period in which any obligation to the Treasury remains outstanding and the value of the award is not greater than one-third of the total amount of the employee's annual compensation. Under the Plan, the Company may grant restricted stock based on the criteria described above. The restricted period for such shares may be subject to the satisfaction of Company or individual performance objectives but may not be less than one year. If the restricted shares are not subject to any such performance objectives, the restricted period may not be less than three years.

During 2009, the Company granted individual restricted stock awards representing shares of our common stock to two employees, including our Chief Operating Officer, Ron W. Strother. On July 17, 2009, the Company awarded 6,400 restricted shares with a fair market value of \$20.70 to Mr. Strother. These shares were to vest in four equal annual installments beginning on July 17, 2010, subject to the limitations imposed by the ARRA and the Treasury interim final rule (as described in the following paragraph). Mr. Strother passed away on January 31, 2010. Therefore, all of these restricted shares vested to Mr. Strother's estate upon his death. However, the shares may be transferred to Mr. Strother's estate only in accordance with the transfer limitations described in the following paragraph. The restricted shares granted to an employee were issued upon the commencement of his employment and are subject to a five-year vesting period with one-third of the shares vesting in each of last three years of the vesting period.

On January 22, 2010, the Committee granted restricted stock awards representing a total of 16,600 shares of our common stock with a fair market value on the date of grant of \$25.01 to our senior executive officers and four additional employees of the Company. The awards were made pursuant to the requirements of the ARRA and the Treasury interim final rule. The restricted shares will vest in three equal annual installments beginning on January 22, 2011. However, as long as the Treasury holds a position in our securities pursuant to the CPP, any such restricted shares granted to any of our senior executive officers will only be transferable to the senior executive officer as follows: (i) 25% of the vested shares will be transferable at the time of the Company's repayment of 25% of the aggregate financial assistance received from the Treasury pursuant to the CPP; (ii) an additional 25% of the vested shares (for a total of 50% of the vested shares) will be transferable at the time of the Company's repayment of 50% of the aggregate financial assistance received from the Treasury; (iii) an additional 25% of the vested shares (for a total of 75% of the vested shares) will be transferable at the time of the Company's repayment of 75% of the aggregate financial assistance received from the Treasury; and (iv) the remainder of the vested shares will be transferable at the time of the Company's repayment of 100% of the aggregate financial assistance received from the Treasury. In

addition, under the ARRA and Treasury restrictions, the senior executive officer is required to provide services to the Company for at least two years after the grant date of the restricted stock, except in the case of the senior executive officer's death or disability.

Table of Contents***Retirement and Insurance Benefits***

Post-Termination Benefits. We do not have any employment, salary continuation, or severance agreements currently in effect for any of our executive officers.

Chairman's Retirement Plan. In 2007, our Board of Directors, based on a recommendation by the Compensation Committee, approved a Chairman's Retirement Plan for our Chairman, John W. Allison. The Chairman's Retirement Plan provides a supplemental retirement benefit to Mr. Allison of \$250,000 per year for 10 consecutive years or until Mr. Allison's death, whichever occurs later.

The benefits under the plan vest based on Mr. Allison's age according to the following schedule: age 61 7.5%, age 62 35.0%, age 63 60.0%, age 64 82.0% and age 65 100.0%. These benefits will become 100% vested if any of the following events occur before Mr. Allison reaches the age of 65: his death, disability or involuntary termination from the Company without cause, or a change in control of the Company. The vested benefits are payable over 10 years or Mr. Allison's life, whichever is greater, and commence on the earlier of Mr. Allison reaching age 65 or termination of his employment with the Company for any reason other than death.

If Mr. Allison dies before the benefits commence, his beneficiary is entitled to receive the benefits for 10 years. If he dies during the 10 year guaranteed benefit period, his beneficiary will receive the remaining payments due during the guaranteed period. If he dies after the guaranteed benefit period, no further benefits will be paid. The annual benefit will be paid in monthly installments.

Supplemental Executive Retirement Plan. Prior to our acquisition of Community Bank, the bank purchased life insurance policies on its President and Chief Executive Officer, Tracy M. French. The policies offset benefit expenses associated with a supplemental annual retirement benefit that grows on a tax-deferred basis. A portion of the benefit is determined by an indexed formula. The balance of the benefit is determined by crediting interest on the accrued balances. The calculation for the benefit expense accrual is: insurance policy income minus opportunity cost plus interest. The opportunity cost is determined by the bank and is equal to the five year average of the one year Treasury Bill rate. The bank (now Centennial Bank) retains the opportunity cost. Prior to Mr. French's retirement, any earnings in excess of the opportunity costs are accrued to a liability reserve account for his benefit. In addition, that liability account is credited with interest at a rate of 8.0%. At retirement, this liability reserve account is amortized with interest and paid out over a period of 15 years. If Mr. French dies while there is a balance in his account, this balance will be paid in a lump sum to Mr. French's beneficiaries.

The life insurance benefit for Mr. French is being provided by an endorsement split dollar life plan. Upon the death of the executive, the death benefit payable is equal to 70% of the net at risk life insurance portion (total benefit less cash value) of the policies insuring the life of Mr. French. The bank has all ownership rights in the death benefits and surrender values of the insurance policy on Mr. French. Its obligations under the retirement benefit portion of this policy are unfunded; however, the bank has purchased life insurance policies on Mr. French that are actuarially designed to offset the annual expenses associated with the benefit portion of the policy and will, given reasonable actuarial assumptions, offset all of the cost during Mr. French's lifetime and provide a complete recovery of costs at death.

401(k) Plan. All our full- and part-time employees over the age of 21 are eligible to participate in our 401(k) Plan immediately. We contribute a matching contribution equal to 50% of the participants' first 6% of deferred compensation contribution. In addition, we may make a discretionary contribution. No discretionary contributions were made during 2009.

Health and Insurance Benefits. Our full-time officers and employees are provided hospitalization and major medical insurance. We pay a substantial part of the premiums for these coverages. All insurance coverage under these plans is provided under group plans on generally the same basis to all of our full-time employees. Also, we provide other basic insurance coverage including dental, life, and long-term disability insurance.

In 2004, First State Bank (now Centennial Bank) adopted an endorsement split dollar life insurance plan which provides for the purchase of life insurance policies insuring the life of Mr. Allison. Both the bank and Mr. Allison have an interest in each of the policies, and therefore, this is classified as an endorsement split-dollar plan. Mr. Allison's beneficiaries will be entitled to an amount equal to 50% of the net-at-risk insurance portion of the total proceeds. The net-at-risk portion is the total proceeds less the cash value of the policy. Mr. Allison recognizes the

economic value of this death benefit each year on his individual income tax return. The beneficiaries of the policies are named by Mr. Allison and the bank will receive the remainder of the death benefit. The bank has all ownership rights in the death benefits and surrender values of the policies. The premium paid on June 4, 2004, for the policies was \$4.8 million. Effective December 22, 2006, the death benefits payable under these policies split between the bank and Mr. Allison's beneficiaries. If the death benefit were paid in 2010, approximately \$8.2 million would be paid to the bank and approximately \$2.2 million would be paid to Mr. Allison's beneficiaries.

Perquisites

The Company provided certain perquisites to executive management in 2009. These perquisites included:

Country club dues

Gasoline for personal car

401(k) contributions

Use of company owned car

The Company does not own its own airplane, but does use an airplane owned by Mr. Allison's company, Capital Buyers. An employee of the Company is a pilot and flies the airplane. Mr. Allison also uses the pilot for personal travel which may or may not occur during working hours. When the Company uses the plane, Capital Buyers charges the Company for out of pocket expenses only.

Compensation of the Chairman

On October 17, 2008, based on a recommendation by the Compensation Committee, the Board of Directors granted Mr. Allison, who was then our Chairman and Chief Executive Officer, an annual base salary of \$275,000 beginning on November 1, 2008, and made him eligible for an annual discretionary cash bonus. Any cash bonus will be based upon the goals of the Company including shareholder return, earnings per share and other criteria. However, as long as the Company has an obligation outstanding under the CPP, Mr. Allison will not be eligible for a cash bonus. Mr. Allison had not previously received any salary from the Company for his services. The Committee based its decision to provide a salary to Mr. Allison on the Company's performance under his leadership over the past 10 years.

On July 17, 2009, the Board of Directors promoted C. Randall Sims to Chief Executive Officer, with Mr. Allison remaining as Chairman of the Board. In connection with this change, the Board determined that Mr. Allison should continue to receive an annual salary of \$225,000 for his services to the Company and to be eligible for an annual discretionary cash bonus based on the previously described criteria, provided that as long as the Company has an obligation outstanding under the CPP, Mr. Allison will not be eligible for a cash bonus. This determination was based on Mr. Allison's historical role as founder of the Company, his instrumental leadership in the Company's achievements during his tenure as Chairman and Chief Executive Officer, and his continued active role in overseeing the management of the Company as Chairman. During 2009, Mr. Allison received \$252,885 as salary from the Company. In accordance with the bonus limitations imposed by the ARRA, Mr. Allison received a cash bonus of \$57,292 for the period from January 1, 2009, through June 14, 2009. On January 22, 2010, he also received a restricted stock grant representing 4,000 shares of our common stock with a fair market value on the date of grant of \$25.01. The restricted shares will vest in three equal annual installments beginning on January 22, 2011, subject to the transfer limitations imposed by the Treasury in connection with the CPP.

In March 2006, Mr. Allison received performance based stock options that represent, on a stock dividend adjusted basis, 67,392 shares of common stock with an exercise price of \$12.20 per share. The stock options would vest on January 1, 2010, subject to the Company meeting certain performance goals from 2005 through 2009. Twenty percent of the options would become eligible for exercise every year if the Company met the annual performance goals. If the annual performance goals were not met, that 20% of the options would only become eligible if before January 1, 2010, the Company had met the cumulative goals. The Company met its goals in 2006 and 2007 but did not meet its goals in 2005 and 2008. The Compensation Committee determined that the Company met its annual performance goals for 2009 but did not meet its cumulative goals as of December 31, 2009. Therefore, a total of 40,435 options became eligible for exercise by Mr. Allison on January 1, 2010. Because the cumulative goals were not met, the remaining 26,957 options were forfeited.

Table of Contents

On January 10, 2008, in connection with the grant of stock options to all non-employee directors of the Company, Mr. Allison received stock options that represent, on a stock dividend adjusted basis, 2,160 shares of common stock with an exercise price of \$18.93 per share. These stock options vest in five equal annual installments beginning on January 10, 2009. As of January 10, 2010, a total of 864 of these options have vested.

On January 18, 2008, the Compensation Committee awarded Mr. Allison additional stock options that represent, on a stock dividend adjusted basis, 16,200 shares of common stock with an exercise price of \$18.78 per share. These stock options vest in five equal annual installments beginning on January 18, 2009. The Committee based the award on its conclusion that, through Mr. Allison's leadership, the Company completed a very successful year in 2007, which included record earnings for the Company and the acquisition of an additional bank subsidiary in the Central Arkansas market area. As of January 18, 2010, a total of 6,480 of these options have vested.

In April 2007, our Board of Directors, based on a recommendation by the Compensation Committee, approved a Chairman's Retirement Plan for Mr. Allison, which provides him a supplemental retirement benefit of \$250,000 per year for 10 consecutive years or until Mr. Allison's death, whichever occurs later. The benefits under the plan vest based on Mr. Allison's age beginning at age 61 and fully vest when Mr. Allison reaches age 65. The benefits will also become 100% vested if, before Mr. Allison reaches the age of 65, he dies, becomes disabled, is involuntarily terminated from the Company without cause, or there is a change in control of the Company. The vested benefits will be paid in monthly installments. The benefit payments will begin on the earlier of Mr. Allison reaching age 65 or the termination of his employment with the Company for any reason other than death. If Mr. Allison dies before the benefits commence or during the 10 year guaranteed benefit period, his beneficiary will receive any remaining payments due. If he dies after the guaranteed benefit period, no further benefits will be paid. *See* COMPENSATION DISCUSSION AND ANALYSIS - Components of Compensation for more information on the Chairman's Retirement Plan.

Mr. Allison receives an additional fee for his service as Chairman of the Board of Directors of the Company. The fee for his service as Chairman of the Board is set by the Board of Directors. In addition, Mr. Allison is Chairman of the board of directors of the Company's subsidiary bank and serves on each regional board of directors of the bank. He receives a fee for his service on the board of directors and each regional board of the bank. The fees for his service on each board are set by the respective boards of the bank.

Compensation of the Chief Executive Officer

In connection with C. Randall Sims' promotion to Chief Executive Officer on July 17, 2009, the Board of Directors granted Mr. Sims an increase in his annual salary to \$275,000 for his services as Chief Executive Officer. Mr. Sims will continue to be eligible for an annual discretionary cash bonus based on the previously described criteria, provided that as long as the Company has an obligation outstanding under the CPP, Mr. Sims will not be eligible for a cash bonus. This salary increase was to make his salary consistent with the salary of his predecessor as Chief Executive Officer at the time of Mr. Sims' promotion. During 2009, Mr. Sims received \$238,750 as salary from the Company. In accordance with the bonus limitations imposed by the ARRA, Mr. Sims received a cash bonus of \$43,750 for the period from January 1, 2009, through June 14, 2009. On January 22, 2010, he also received a restricted stock grant representing 3,000 shares of our common stock with a fair market value on the date of grant of \$25.01. The restricted shares will vest in three equal annual installments beginning on January 22, 2011, subject to the transfer limitations imposed by the Treasury in connection with the CPP.

In March 2006, Mr. Sims received performance based stock options that represent, on a stock dividend adjusted basis, 40,435 shares of common stock with an exercise price of \$12.20 per share. The stock options would vest on January 1, 2010, subject to the Company and First State Bank (now Centennial Bank) meeting certain performance goals from 2005 through 2009. Ten percent of the options would become eligible for exercise every year if the Company met its annual performance goals, and ten percent would become eligible for exercise every year if the bank met its annual performance goals. If the annual performance goals were not met, that 10% of the options would only become eligible if before January 1, 2010, the Company or the bank had met its respective cumulative goals. The bank met its goals in each year as well as its cumulative goals. The Company met its goals in 2006 and 2007 but did not meet its goals in 2005 and 2008. The Compensation Committee determined that the Company met its annual performance goals for 2009 but did not meet its cumulative goals as of December 31, 2009. Therefore, a total of

32,348 options became eligible for exercise by Mr. Sims on January 1, 2010. Because the Company's cumulative goals were not met, the remaining 8,087 options were forfeited.

**REPORT OF THE COMPENSATION COMMITTEE
OF THE BOARD OF DIRECTORS**

The following Compensation Committee Report should not be deemed filed or incorporated by reference into any other document, including the Company's filings under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent the Company specifically incorporates this Report into any such filing by reference.

In accordance with its written charter, which was re-adopted in its current form by the Board of Directors on January 22, 2010, the Compensation Committee evaluates and approves the plans and policies related to the compensation of the Company's executive officers and directors. A copy of the Compensation Committee charter is published on the Company's website at www.homebancshares.com under the caption Investor Relations / Corporate Profile / Governance Documents.

The Committee met four times in 2009 to discuss, among other items, the salaries, bonuses and other compensation of the senior executive officers and other key employees of the Company, including the Chief Executive Officer. The Committee did not act by unanimous written consent at any time in 2009.

In determining the compensation of the executive officers for 2010, the Committee, among other things, evaluated the performance of the Chief Executive Officer and the other executive officers in light of corporate goals and objectives and reviewed the Chairman's compensation recommendations. The Committee also set the annual cash bonuses of the executive officers for 2009 up to the limitations imposed by the ARRA and the Treasury interim final rule.

The Compensation Committee reviewed and discussed with management the information provided in the preceding Compensation Discussion and Analysis section of this Proxy Statement. Based on its review and discussions with management, the Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement and our Annual Report on Form 10-K for the calendar year ended December 31, 2009, for filing with the SEC.

Additionally, the Compensation Committee certifies that:

- (1) It has reviewed with the Company's senior risk officer(s) the compensation plans of its senior executive officers and has made all reasonable efforts to ensure that such plans do not encourage the senior executive officers to take unnecessary and excessive risks that threaten the value of the Company;
- (2) It has reviewed with the Company's senior risk officer(s) the compensation plans of its employees and has made all reasonable efforts to limit any unnecessary risks these plans pose to the Company; and
- (3) It has reviewed the employee compensation plans to eliminate any features of these plans that would encourage the manipulation of reported earnings of the Company to enhance the compensation of any employee.

This certification above and the narrative below are being provided in accordance with the requirement of the Interim Final Rule of the Treasury, TARP Standards for Compensation and Corporate Governance, issued on June 15, 2009.

SEO Compensation Plans. The Company's compensation plans for its SEOs are currently operating within the constraints of the Treasury's limitations. The Compensation Committee believes, however, that the Company's compensation programs for executives do not encourage unnecessary and excessive risks, even before application of these limitations. As discussed above in the Compensation Discussion and Analysis, the Company's incentive compensation programs for SEOs, before the impact of the Treasury requirements, consisted of short-term incentives in the form of annual cash bonus awards and long-term incentives in the form of equity awards under the Company's 2006 Stock Option and Performance Incentive Plan. These short-term and long-term incentive awards are closely linked to the Company's or our bank subsidiary's financial performance compared with the Company's or the bank's strategic goals for each year. The opportunity to earn annual cash bonus awards and long-term equity awards provides a mix of variable compensation that integrates the Company's short-term and long-term goals, as well as helps to attract and retain executive officers.

Table of Contents

Annual cash bonuses are awarded based on the individual CEO's performance together with the performance of the Company or our bank subsidiary, as applicable, in light of specific performance goals of the Company or the bank. As described in the Compensation Discussion and Analysis, the Compensation Committee evaluates a number of performance criteria for the Company or the bank and considers the overall profitability of the Company before determining the awards. In each case, the Compensation Committee makes the determination at their discretion as to the issuance and amount of any award. This process allows the Compensation Committee to take into consideration a variety of factors as well as any activities that might have risk to the Company before making any cash bonus awards.

Stock options, restricted stock and other equity awards are an important component of the Company's CEO compensation program as they encourage the alignment of senior management's goals with those of our shareholders, with the ultimate goal of increasing overall shareholder value. Historically, the Compensation Committee has granted stock options on both a fixed basis and a long-term incentive basis. Awards granted on a fixed basis carry a set vesting schedule based on a certain time period of at least two years with no performance-based requirements. Long-term incentive awards are payable in recognition of achievement of certain annual and/or cumulative performance goals of the Company or our bank subsidiary over a period of time longer than one year. The Compensation Committee approves all incentive compensation paid to the executive officers, including the CEOs. The incentive awards are typically based on a number of various performance goals as described in the Compensation Discussion and Analysis. The Compensation Committee may confer with the Audit Committee as necessary when confirming achievement of performance goals. The equity awards (both fixed and incentive) typically have been based on a five-year vesting period.

The requirements imposed by Congress and the Treasury in connection with the TARP program have significantly limited or prohibited the payment of annual cash bonus awards and have restricted equity awards for our CEOs while the Treasury holds a position in our securities. During 2009, the Company did not grant any stock option awards. Pursuant to the TARP requirements, the only equity awards granted to any of our CEOs during 2009 were in the form of long-term restricted stock. The shares granted would vest in three equal installments on the first, second and third anniversaries of the date of grant but may not be transferred to the CEO until the Company has repaid at least 25% of the financial assistance it received under TARP and then only in 25% increments based on the percentage of financial assistance repaid to the Treasury. The CEO to whom these restricted shares were granted passed away on January 31, 2010, causing the shares to become vested; however, these shares remain subject to the transferability limitations.

Based on the various criteria for determining the short-term and long-term incentive awards and the Compensation Committee's discretion in making short-term awards, the Compensation Committee believes that the Company's current compensation practices for CEOs do not encourage short-term results over long-term value creation and do not encourage unnecessary or excessive risks that could threaten the value of the Company.

Employee Compensation Plans. In addition to the CEOs, certain employees may be participants under the 2006 Stock Option and Incentive Plan. Awards granted to employees are determined by the Compensation Committee in the same manner as for the CEOs. In 2006, the Compensation Committee granted incentive stock options to employees of our former separately chartered bank subsidiaries based on long-term annual and cumulative performance goals of each respective bank. These stock options vested on January 1, 2010. During 2009, the only equity awards made to an employee who was not an CEO were in shares of restricted stock, which were granted to a new employee based on a five-year vesting period with one-third of the shares vesting on the third, fourth and fifth anniversaries of the date of grant. For the reasons described above with respect to the CEOs, the Compensation Committee believes that the features of this plan do not encourage unnecessary or excessive risks and do not encourage the manipulation of reported earnings to enhance the compensation of any employee or CEO.

The Company's business model does not generally include areas that are engaged in activities regarded as having significant inherent risk, such as mortgage-backed securities and proprietary trading. However, the Compensation Committee reviewed and evaluated the Company's employee compensation plans with the Company's senior risk officer(s) for possible credit, market, compliance and operational risks. Based on its review, the Compensation Committee believes effective controls are in place providing for management review of compensation arrangements of employees of the Company or our bank subsidiary having compliance, risk, credit quality, quality assurance and finance roles. In light of the oversight and controls surrounding the employee compensation plans, and the significant

amounts that would be required to impact the Company's reported earnings, the Compensation Committee believes that the compensation plans for employees do not contain any features that would encourage the manipulation of reported earnings to enhance the compensation of any employee.

Table of Contents**CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS**

Banking Transactions. Most of our directors and officers, as well as the firms and businesses with which they or members of their immediate families are associated, are customers of our bank subsidiary. Our bank subsidiary and former bank subsidiaries have engaged in a variety of loan transactions in the ordinary course of business with individuals and their families and businesses, and it is anticipated that such transactions will occur in the future. In the case of all such related party transactions, each transaction was approved by either the Audit Committee, the Nominating and Corporate Governance Committee, the Board of Directors or the bank subsidiary's board of directors. In addition, these loans were made on the same terms, including interest rates and collateral requirements, as those prevailing at the time for comparable transactions of others. In the opinion of our management, those loan transactions do not involve more than a normal risk of collectability or present other unfavorable features.

As of December 31, 2009, the loans made by our bank subsidiary to its directors and officers and to directors and officers of the Company, either directly or as guarantors, amounted to \$50.0 million. We believe that all such extensions of credit were made in conformity with the requirements of Federal Reserve Board Regulation O.

Real Estate Transactions. We lease certain of our properties from persons who are affiliated with us. The property used by our Marketing and Sales Department in Conway, Arkansas, is leased from First Real Estate LTD Partnership LLLP, which includes one of our directors, Robert H. Adcock, Jr. Additionally, we lease the land for a banking office in Lakewood Village Shopping Center in North Little Rock, Arkansas, from Conservative Development Company, a corporation controlled, through common ownership, by Richard H. Ashley, who is one of our directors. During 2009, the aggregate payments we made, directly or indirectly, to the named persons for the various leases described above were less than \$120,000.

We also lease the property for the property for the Centennial Bank office located at Pavilion in the Park in Little Rock, Arkansas from a company owned by S. Gene Cauley, who was one of our directors until April 2009. During 2009, we paid rent payments of an aggregate of approximately \$196,000 in connection with this lease.

We believe the terms of each of the agreements are no less favorable to us than we could have obtained from an unaffiliated third party. We expect we will continue to engage in similar banking and business transactions in the ordinary course of business with our directors, executive officers, principal shareholders and their associates. All proposed related party transactions are presented to the Nominating and Corporate Governance Committee of our Board of Directors for consideration and approval. The Committee approved each of the transactions described above. The Committee does not currently have any formal policies or procedures with respect to its review, approval, or ratification of related party transactions, but considers each related party transaction or proposed related party transaction on a case-by-case basis. According to its charter, the Committee follows the definition of related party transaction provided in the SEC's regulations under the Securities Act of 1933.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16 of the Securities and Exchange Act of 1934, as amended, requires each director, officer, and any individual beneficially owning more than 10 percent of the Company's common stock to file reports on Forms 3, 4, and 5 disclosing beneficial ownership and changes in beneficial ownership of the common stock of the Company with the SEC within specified time frames. These specified time frames require the Form 3's to be filed on or before the effective date of the issuer's registration statement or within 10 days after the person becomes a reporting person. Changes in ownership must be filed on Form 4 within two business days of the transaction. Based solely on information provided to the Company by individual directors and officers, we believe that all our Section 16 filers complied with the filing requirements during the fiscal year, except as follows: Robert H. Adcock failed to timely file three Form 4 reports disclosing three dispositions of shares of the Company's common stock. William G. Thompson failed to timely file two Form 4 reports disclosing two dispositions of shares of the Company's common stock.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

Our consolidated financial statements as of and for the fiscal year ended December 31, 2009, were audited by BKD, LLP, an independent registered public accounting firm. In 2009, the Audit Committee of the Board of Directors and our shareholders approved the engagement of BKD, LLP to be our independent registered accounting firm for fiscal year 2009. The Audit Committee intends to approve the re-engagement of BKD, LLP to be our independent registered public accounting firm for the fiscal year ending December 31, 2010, subject to the ratification of the appointment by our shareholders at the Annual Meeting and our formal acceptance of an engagement letter from BKD, LLP after the Annual Meeting.

Shareholders' ratification of the selection of BKD, LLP to be our independent registered public accounting firm for fiscal year 2010 is not required by our Bylaws or otherwise. However, the Board is submitting the selection of the independent registered public accounting firm to the shareholders for ratification as a matter of good corporate practice. If the shareholders fail to ratify the selection of BKD, LLP, the Audit Committee will reconsider whether or not to retain that firm. Even if the selection is ratified, the Audit Committee may, at its discretion, direct the appointment of a different independent registered accounting firm at any time during the year if it determines that such change is in the best interests of the Company and our shareholders.

Representatives of BKD, LLP are expected to attend the Annual Meeting, will have an opportunity to make a statement if they so desire, and will be available to respond to appropriate questions.

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Independent Auditor

The Audit Committee has the responsibility of appointing, setting compensation for and overseeing the work of the independent auditor, and has established a policy to pre-approve all audit and permissible non-audit services provided by the independent auditor.

Prior to engagement of the independent auditor for next year's audit, management will submit an aggregate of services expected to be rendered during that year for each of four categories of services to the Audit Committee for approval.
