Report of Independent Registered Public Accounting Firm

The Board of Directors

The Gorman-Rupp Company

We have audited the accompanying statements of net assets available for benefits of The Gorman-Rupp Company 401(k) Plan as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2009 and 2008, and the changes in its net assets available for benefits for the year ended December 31, 2009, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedules of assets (held at end of year) as of December 31, 2009, and reportable transactions for the year then ended, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

**Table of Contents**

**1. Description of the Plan**

The following description of The Gorman-Rupp Company 401(k) Plan (Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

**General**

The Plan is a defined contribution plan covering substantially all employees of the Corporate, Mansfield and Industries Divisions of The Gorman-Rupp Company (Company and Plan Administrator) and Patterson Pump Company, a subsidiary of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

**Contributions**

Each year, participants may contribute up to 40% of pretax annual compensation (15% for highly compensated employees), as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Effective January 1, 2008, the Company contributes 40% of the first 4% of compensation that a participant contributes to the Plan provided such participant was hired prior to January 1, 2008. For employees hired after January 1, 2008, the Company contributes 50% of the first 6% of compensation that a participant contributes to the Plan. The Company also contributes a percentage of the employee's income based on the age of the employee and the years of service with the Company for employees hired on or after January 1, 2008.

Upon enrollment, a participant may direct employee contributions in whole increments to any of the investment fund options offered by the Plan. Employees may elect to transfer all or a portion (in 1% increments) of their account balance to any fund offered in the Plan (including the employer contributions which are invested in the Gorman-Rupp Stock Fund), based on the value of their account on the immediately preceding valuation date.

**Participant Accounts**

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

**Vesting**

Participants are immediately vested in their contributions plus actual earnings thereon. Participants are also fully vested in the Company matching contribution portion of their accounts plus actual earnings thereon. Vesting in the Company age and service contribution is based on years of continuous service; a participant is 100% vested after three years of service.

**Table of Contents**

**1. Description of the Plan (continued)**

**Forfeitures**

Upon termination of employment, participants forfeit their nonvested balances. If a participant is rehired within a five-year period, the forfeited contributions are reinstated. Forfeited balances of terminated participant's nonvested accounts are used to reduce future Company contributions. Unallocated forfeitures balances as of December 31, 2009 and 2008, were \$9,173 and \$166, respectively.

**Participant Loans**

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The term of the loan shall not exceed 5 years, or 20 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate, as quoted in *The Wall Street Journal*. Principal and interest are paid ratably through payroll deductions.

**Payment of Benefits**

Upon retirement or termination of employment, a participant may receive a lump-sum amount equal to the vested value of his or her account. A lump-sum payment is required at a participant's death.

**Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100% vested in their accounts.

**2. Summary of Significant Accounting Policies**

**New Accounting Pronouncements**

In April 2009, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSP) 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (FSP 157-4). FSP 157-4 amended FASB Statement No. 157 (codified as Accounting Standards Codification (ASC) 820) to provide additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to its normal market activity. FSP 157-4 also provided additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities to comply with the disclosure requirements of ASC 820. The Plan adopted the guidance in FSP 157-4 for the reporting period ended December 31, 2009. Adoption of FSP 157-4 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

**Table of Contents**

**2. Summary of Significant Accounting Policies (continued)**

In May 2009, the FASB issued FASB Statement No. 165, *Subsequent Events*, which was codified into ASC 855, *Subsequent Events*, to provide general standards of accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. ASC 855 was amended in February 2010. The Plan has adopted ASC 855, as amended.

In September 2009, the FASB issued Accounting Standards Update 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2009-12). ASU 2009-12 amended ASC 820 to allow entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with investment company accounting. The Plan adopted the guidance in ASU 2009-12 for the reporting period ended December 31, 2009 and has utilized the practical expedient to measure the fair value of investments within the scope of this guidance based on the investment's NAV. In addition, as a result of adopting ASU 2009-12, the Plan has provided additional disclosures regarding the nature and risks of investments within the scope of this guidance. Refer to Note 4 for these disclosures. Adoption of ASU 2009-12 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In January 2010, the FASB issued Accounting Standards Update (ASU) 2010-06, *Improving Disclosures about Fair Value Measurement* (ASU 2010-06). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each class of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. Plan management is currently evaluating the effect that the provisions of ASU 2010-06 will have on the Plan's financial statements.

**Basis of Accounting**

The financial statements have been prepared on the accrual basis of accounting.

**Investment Valuation and Income Recognition**

The Plan's investments are stated at fair value. The shares of registered investment companies are valued at quoted market prices which represent the net asset values of shares held by the Plan at year-end. The Company stock is valued at its quoted market price as of the last business day of the Plan's year. The participant loans are valued at their outstanding balances, which approximate fair value.

**Table of Contents**

**2. Summary of Significant Accounting Policies (continued)**

In accordance with ASC 820, *Fair Value Measurements and Disclosures* (formerly FASB Statement No. 157), assets and liabilities measured at fair value are categorized into the following fair value hierarchy:

Level 1 Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access at the measurement date.

Level 2 Fair value is based on quoted prices in markets that are not active, quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability. Level 2 inputs include the following:

Quoted prices for similar assets or liabilities in active markets

Quoted prices for identical or similar assets or liabilities in inactive markets

Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)

Inputs that are derived from or corroborated by observable market data by correlation or other means

Level 3 Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable. These inputs reflect management's judgment about the assumptions that a market participant would use in pricing the investment and are based on the best available information, some of which may be internally developed.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The New York Life Insurance Anchor Account I (NYL Anchor) comprises 100% of The Gorman-Rupp Stable Value Fund. The NYL Anchor is a pooled separate account made available to participating plans through a group annuity contract offered to the plans' trustee. The group annuity contract is an investment contract that is benefit-responsive. The investment contract is recorded at fair value (see Note 4); however, since the contract is benefit-responsive, an adjustment is reflected in the statements of net assets available for benefits to present the investment at contract value. Contract value is the relevant measurement attributable to benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value of the benefit-responsive investment contract represents contributions and reinvested income, less any withdrawals plus accrued interest.

**Table of Contents****2. Summary of Significant Accounting Policies (continued)**

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. However, withdrawals influenced by Company-initiated events, such as in connection with the sale of a business, may result in a distribution at other than contract value.

The contract value of the investment contracts at December 31, 2009 and 2008, was \$4,371,983 and \$4,370,921, respectively. There are no reserves against contract values for credit risk of contract issuer or otherwise.

The fair value of the investment contract at December 31, 2009 and 2008, was \$4,162,128 and \$3,784,343, respectively. The net average yield was approximately 2.82% and 4.60% in 2009 and 2008, respectively. The crediting interest rate for these investment contracts is reset daily by the issuer, but cannot be less than zero and was approximately 3.18% and 4.48% at December 31, 2009 and 2008, respectively.

**Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

**3. Investments**

During 2009, the Plan's investments (including investments purchased, sold, as well as held during the year) appreciated (depreciated) in fair value as follows:

	<b>Net Appreciation (Depreciation) in Fair Value of Investments</b>
Common stock	\$ (1,477,387)
Shares of registered investment companies	3,640,021
Pooled separate account	376,723
	<b>\$ 2,539,357</b>

**Table of Contents****3. Investments (continued)**

The fair value of individual investments that represent 5% or more of the Plan's net assets is as follows:

	<b>2009</b>	<b>2008</b>
The Gorman-Rupp Company common stock	<b>\$ 12,825,502</b>	\$ 14,352,624
NYL Insurance Anchor Account 1	<b>4,162,128</b>	3,784,343

**4. Fair Value Measurement**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

The following is a description of the valuation methodologies used for major categories of assets measured at fair value by the Plan.

**Table of Contents****4. Fair Value Measurement (continued)**

Fair value for Level 1 is based upon quoted market prices of common stock, money market and mutual funds. Fair value for Level 2 is based on the unit values of the pooled separate account, which is not traded in an active market. Unit values are determined by dividing the net asset value (NAV) by the total units held by the plan at year-end. The funds' composition is mainly corroborated by various sources including market participant dealers and brokers. Fair value for Level 3 is based on amortized costs, which approximate fair value of the participant loans.

<b>Assets at Fair Value as of December 31, 2009</b>				
	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
The Gorman-Rupp Company common stock	<b>\$ 12,825,502</b>	<b>\$</b>	<b>\$</b>	<b>\$ 12,825,502</b>
Mutual funds:				
U.S. equities	<b>12,017,039</b>			<b>12,017,039</b>
International equities	<b>2,566,218</b>			<b>2,566,218</b>
Fixed income	<b>5,384,660</b>			<b>5,384,660</b>
Money market fund	<b>2,175</b>			<b>2,175</b>
Pooled separate account <sup>(1)</sup>		<b>4,162,128</b>		<b>4,162,128</b>
Participant loans			<b>997,116</b>	<b>997,116</b>
Total assets at fair value	<b>\$ 32,795,594</b>	<b>\$ 4,162,128</b>	<b>\$ 997,116</b>	<b>\$ 37,954,838</b>

<b>Assets at Fair Value as of December 31, 2008</b>				
	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
The Gorman-Rupp Company common stock	<b>\$ 14,352,624</b>	<b>\$</b>	<b>\$</b>	<b>\$ 14,352,624</b>
Mutual funds:				
U.S. equities	<b>9,004,804</b>			<b>9,004,804</b>
International equities	<b>1,792,803</b>			<b>1,792,803</b>
Fixed income	<b>4,716,624</b>			<b>4,716,624</b>
Pooled separate account <sup>(1)</sup>		<b>3,784,343</b>		<b>3,784,343</b>
Participant loans			<b>808,486</b>	<b>808,486</b>
Total assets at fair value	<b>\$ 29,866,855</b>	<b>\$ 3,784,343</b>	<b>\$ 808,486</b>	<b>\$ 34,459,684</b>

<sup>(1)</sup> These pooled funds seek a high level of income, primarily investing in fixed income investments.

**Table of Contents****4. Fair Value Measurement (continued)**

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2009.

	<b>Participant Loans</b>
Balance, beginning of year	\$ 808,486
Realized and unrealized gains/(losses)	
Purchases, sales, issuances, and settlements (net)	188,630
Transfers in and/or out of Level 3	
Balance, end of year	\$ 997,116

**5. Administrative Costs**

Fees for legal, accounting, and other services rendered to the Plan are paid by the Company.

**6. Concentrations of Credit Risk**

The Plan has investments in The Gorman-Rupp Company common stock of \$12,825,502 or 33.6% of net assets as of December 31, 2009. The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

**7. Income Tax Status**

The Plan has received a determination letter from the Internal Revenue Service dated May 14, 2004, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

**Table of Contents****8. Reconciliation of Financial Statements to the Form 5500**

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2009 and 2008, to the Form 5500:

	<b>December 31</b>	
	<b>2009</b>	<b>2008</b>
Net assets available for benefits per the financial statements	<b>\$ 38,164,693</b>	\$ 35,046,262
Adjustments from fair value to contract value for fully benefit-responsive investment contract	<b>(209,855)</b>	(586,578)
Net assets available for benefits per Form 5500	<b>\$ 37,954,838</b>	\$ 34,459,684

The following is a reconciliation of net gain from investments:

Net investment gain from investments as reported in the financial statements	<b>\$ 3,336,221</b>
Adjustments from fair value to contract value for fully benefit-responsive investment contract	<b>376,723</b>
Net gain from investments per Form 5500	<b>\$ 3,712,944</b>
