(1) Per Unit numbers have been calculated using the average shares method.

- (2) Net investment income per Unit reflects receipt of a special one time dividend from a portfolio holding (Microsoft Corp.). The effect of this dividend amounted to \$0.22 per unit.
- (3) Total return is calculated assuming a purchase of Unit at net asset value per Unit on the first day and a sale at net asset value per Unit on the last day of each period reported. Distributions are assumed, for the purposes of this calculation, to be reinvested at the net asset value per unit on the respective payment dates of the Trust. Total return for a period of less than one year is not annualized. Broker commission charges are not included in this calculation.
- (4) Portfolio turnover ratio excludes securities received or delivered from processing creations or redemptions of units.

**SPDR Dow Jones Industrial Average ETF Trust**  
**Notes to Financial Statements**  
**April 30, 2010 (Unaudited)**

**Note 1 Organization**

SPDR Dow Jones Industrial Average ETF Trust (the Trust ) is a unit investment trust created under the laws of the State of New York and registered under the Investment Company Act of 1940, as amended. The Trust was created to provide investors with the opportunity to purchase a security representing a proportionate undivided interest in a portfolio of securities consisting of substantially all of the component common stocks, in substantially the same weighting, which comprise the Dow Jones Industrial Average (the DJIA ). Each unit of fractional undivided interest in the Trust is referred to as a Unit . The Trust commenced operations on January 14, 1998 upon the initial issuance of 500,000 Units (equivalent to ten Creation Units see Note 4) in exchange for a portfolio of securities assembled to reflect the intended portfolio composition of the Trust.

Under the Amended and Restated Standard Terms and Conditions of the Trust, as amended ( Trust Agreement ), PDR Services, LLC, as Sponsor of the Trust ( Sponsor ), and State Street Bank and Trust Company, as Trustee of the Trust ( Trustee ), are indemnified against certain liabilities arising from the performance of their duties to the Trust. Additionally, in the normal course of business, the Trust enters into contracts with service providers that contain general indemnification clauses. The Trust s maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust that have not yet occurred. However, based on experience the Trust expects the risk of material loss to be remote.

**Note 2 Significant Accounting Policies**

The following is a summary of significant accounting policies followed by the Trust in the preparation of its financial statements:

The preparation of financial statements in accordance with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

**Security Valuation**

The value of the Trust s portfolio securities is based on the market price of the securities, which generally means a valuation obtained from an exchange or other market (or based on a price quotation or other equivalent indication of value supplied by an exchange or other market) or a valuation obtained from an independent pricing service. If a security s market price is not readily available or does not otherwise accurately reflect the fair value of the security, the security will be valued by another method that the Trustee believes will better reflect fair value in accordance with the Trust s valuation policies and procedures. The Trustee has delegated the process of valuing securities for which market quotations are not readily available or do not otherwise accurately reflect the fair value of the security to the Pricing and Investment Committee (the Committee ). The Committee, subject to oversight by the Trustee, may use fair value pricing in a variety of circumstances, including but not limited to, situations when trading in a security has been suspended or halted. Accordingly, the Trust s net asset value may reflect certain portfolio securities fair values rather than their market prices. Fair value pricing involves subjective judgments and it is possible that the fair value determination for a security is materially different than the value that could be received on the sale of the security.

**Note 2 Significant Accounting Policies (continued)**

Effective November 1, 2008, the first day of the Trust's fiscal year 2009, the Trust adopted the authoritative guidance for fair value measurements and the fair value option for financial assets and financial liabilities. The guidance for the fair value option for financial assets and financial liabilities provides the Trust the irrevocable option to measure many financial assets and liabilities at fair value with changes in fair value recognized in earnings. The guidance also establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. The guidance establishes three levels of inputs that may be used to measure fair value:

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including, but not limited to, quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Trust's own assumptions in determining the fair value of investments)

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (e.g., one that may not be publicly sold without registration under the Securities Act of 1933, as amended); (iii) a security whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (e.g., an event that occurs after the close of the markets on which the security is traded but before the time as of which the Trust's net assets are computed and that may materially affect the value of the Trust's investments). Examples of events that may be significant events are government actions, natural disasters, armed conflict, acts of terrorism, and significant market fluctuations.

Fair value pricing could result in a difference between the prices used to calculate the Trust's net asset value and the prices used by the DJIA, which, in turn, could result in a difference between the Trust's performance and the performance of the DJIA. The inputs or methodology used for valuation are not necessarily an indication of the risk associated with investing in those investments. The type of inputs used to value each security is identified in the schedule of investments, which also includes a breakdown of the Trust's investment by industry.

**Subsequent Events**

Management has determined there are no subsequent events or transactions that would have materially impacted the Trust's financial statements as presented.

**Investment Risk**

The Trust invests in various investments which are exposed to risks, such as market risk. Due to the level of risk associated with certain investments it is at least reasonably possible that changes in the values of investment

**SPDR Dow Jones Industrial Average ETF Trust**  
**Notes to Financial Statements (continued)**  
**April 30, 2010 (Unaudited)**

**Note 2 Significant Accounting Policies (continued)**

securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

An investment in the Trust involves risks similar to those of investing in any fund of equity securities, such as market fluctuations caused by such factors as economic and political developments, changes in interest rates and perceived trends in stock prices. The value of a Unit will decline, more or less, in correlation with any decline in value of the DJIA. The values of equity securities could decline generally or could underperform other investments. Generally, the Trust would not sell an equity security because the security's issuer was in financial trouble unless that security is removed from the DJIA.

**Investment Transactions**

Investment transactions are recorded on the trade date. Realized gains and losses from the sale or disposition of securities are recorded on the identified cost basis. Dividend income is recorded on the ex-dividend date.

**Distributions to Unitholders**

The Trust declares and distributes dividends from net investment income to its unitholders monthly. The Trust declares and distributes net realized capital gains, if any, at least annually.

Effective October 30, 2009 the Trust's Dividend Reinvestment Service is no longer available. Broker-dealers, at their own discretion, may offer a dividend reinvestment service under which additional Units are purchased in the secondary market at current market prices. Investors should consult their broker-dealer for further information regarding any dividend reinvestment service offered by such broker-dealer.

**Equalization**

The Trust follows the accounting practice known as "Equalization" by which a portion of the proceeds from sales and costs of reacquiring the Trust's Units, equivalent on a per Unit basis to the amount of distributable net investment income on the date of the transaction, is credited or charged to undistributed net investment income. As a result, undistributed net investment income per Unit is unaffected by sales or reacquisitions of the Trust's Units.

**Federal Income Tax**

The Trust has qualified and intends to continue to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended. By so qualifying and electing, the Trust will not be subject to federal income taxes to the extent it distributes its taxable income, including any net realized capital gains, for each fiscal year. In addition, by distributing during each calendar year substantially all of its net investment income and capital gains, if any, the Trust will not be subject to federal excise tax. Income and capital gain distributions are determined in accordance with income tax regulations which may differ from those determined in accordance with U.S. generally accepted accounting principles. These differences are primarily due to differing treatments for income equalization, in-kind transactions and losses deferred due to wash sales. Net investment income per unit calculations in the financial highlights for all years presented exclude these differences.

**SPDR Dow Jones Industrial Average ETF Trust**  
**Notes to Financial Statements (continued)**  
**April 30, 2010 (Unaudited)**

**Note 2 Significant Accounting Policies (continued)**

The Trust has reviewed the tax positions for the open tax years as of October 31, 2009 and has determined that no provision for income tax is required in the Trusts' Financial Statements. The Trust's federal tax returns for the prior three fiscal years remain subject to examination by the Trust's major tax jurisdictions, which include the United States of America and the State of New York.

During the six months ended April 30, 2010, the Trust reclassified \$136,836,826 of non-taxable security gains realized in the in-kind redemption of Creation Units (Note 4) as an increase to paid in capital in the Statement of Assets and Liabilities. At April 30, 2010, the cost of investments for federal income tax purposes was substantially the same as the cost for financial reporting purposes. Accordingly, the cost was \$10,666,304,951, gross unrealized appreciation was \$73,551,217 and gross unrealized depreciation was \$1,640,513,214, resulting in net unrealized depreciation of \$1,566,961,997.

At October 31, 2009, the Trust had the following capital loss carryforwards which may be used to offset any net realized gains, expiring October 31:

2010	\$	2,065,467
2011		68,716,435
2012		221,460,584
2014		52,316
2016		506,750,845
2017		779,537,215

**Note 3 Transactions with the Trustee and Sponsor**

In accordance with the Trust Agreement, the Trustee maintains the Trust's accounting records, acts as custodian and transfer agent to the Trust, and provides administrative services, including filing of certain regulatory reports. The Trustee is also responsible for determining the composition of the portfolio of securities which must be delivered and/or received in exchange for the issuance and/or redemption of Creation Units of the Trust, and for adjusting the composition of the Trust's portfolio from time to time to conform to changes in the composition and/or weighting structure of the DJIA. For these services, the Trustee received a fee at the following annual rates for the six months ended April 30, 2010:

<b>Net asset value of the Trust</b>	<b>Fee as a percentage of net asset value of the Trust</b>
\$0 - \$499,999,999	10/100 of 1% per annum plus or minus the Adjustment Amount
\$500,000,000 - \$2,499,999,999	8/100 of 1% per annum plus or minus the Adjustment Amount
\$2,500,000,000 and above	6/100 of 1% per annum plus or minus the Adjustment Amount

The Adjustment Amount is the sum of (a) the excess or deficiency of transaction fees received by the Trustee, less the expenses incurred in processing orders for creation and redemption of units and (b) the amounts earned by the Trustee with respect to the cash held by the Trustee for the benefit of the Trust. During the six months ended

April 30, 2010, the Adjustment Amount reduced the Trustee's fee by \$202,893. The Adjustment Amount included an excess of net transaction fees from processing orders of \$193,832 and a Trustee earning credit of \$9,061. Prior to 2008, the Trustee earnings credits were presented separately on the Statement of Operations.

Effective November 1, 2006, the Trustee changed the method of computing the Adjustment Amount to the Trustee Fee such that all income earned with respect to cash held for the benefit of the Trust is credited against the Trustee's Fee. In addition during the period from December 1, 2006 through December 31, 2006, the Trustee applied incremental cash balance credits of \$374,030 which is included in the Trustee earnings credit of \$965,742.

The Sponsor, a wholly-owned subsidiary of NYSE Euronext, agreed to reimburse the Trust for, or assume, the ordinary operating expenses of the Trust which exceeded 18.00/100 of 1% per annum of the daily net asset value of the Trust. There were no such reimbursements by the Sponsor for the six months ended April 30, 2010, and the fiscal years ended October 31, 2009, October 31, 2008, and October 31, 2007.

Dow Jones & Company, Inc. (Dow Jones) and State Street Global Markets, LLC (SSGM) have entered into a License Agreement. The License Agreement grants SSGM, an affiliate of the Trustee, a license to use the DJIA as a basis for determining the composition of the Portfolio and to use certain trade names and trademarks of Dow Jones in connection with the Portfolio. The Trustee on behalf of the Trust, the Sponsor and NYSE Arca, Inc. have each received a sublicense from SSGM for the use of the DJIA and such trade names and trademarks in connection with their rights and duties with respect to the Trust. The License Agreement may be amended without the consent of any of the owners of beneficial interest of Units. Currently, the License Agreement is scheduled to terminate on December 31, 2017, but its term may be extended without the consent of any of the owners of beneficial interests of Units. Pursuant to such arrangements and in accordance with the Trust Agreement, the Trust reimburses the Sponsor for payment of fees under the License Agreement to Dow Jones equal to 0.05% on the first \$1 billion of the then rolling average asset balance, and 0.04% on any excess rolling average asset balance over and above \$1 billion. The minimum annual fee for the Trust is \$1 million.

The Sponsor has entered into an agreement with SSGM (the Marketing Agent) pursuant to which the Marketing Agent has agreed to market and promote the Trust. The Marketing Agent is reimbursed by the Sponsor for the expenses it incurs for providing such services out of amounts that the Trust reimburses the Sponsor. Expenses incurred by the Marketing Agent include but are not limited to: printing and distribution of marketing materials describing the Trust, associated legal, consulting, advertising and marketing costs and other out-of-pocket expenses.

**Note 4 Shareholder Transactions**

Units are issued and redeemed by the Trust only in Creation Unit size aggregations of 50,000 Units. Such transactions are only permitted on an in-kind basis, with a separate cash payment which is equivalent to the undistributed net investment income per unit (income equalization) and a balancing cash component to equate the transaction to the net asset value per Unit of the Trust on the transaction date. A transaction fee of \$1,000 is charged in connection with each creation or redemption of Creation Units through the clearing process per participating party per day, regardless of the number of Creation Units created or redeemed. In the case of creations and redemptions outside of the clearing process, the Transaction Fee plus an additional amount not to exceed three (3) times the Transaction Fee applicable for one Creation Unit per Creation Unit redeemed, and such amount is
