Note 1 Basis of Presentation and Summary of Significant Accounting Policies

The accompanying unaudited condensed consolidated financial statements of Lawson Products, Inc. (the Company) have been prepared in accordance with generally accepted accounting principles for interim financial information, the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not contain all disclosures required by generally accepted accounting principles. Reference should be made to the Company's Annual Report on Form 10-K for the year ended December 31, 2010. In the opinion of the Company, all normal recurring adjustments have been made, that are necessary to present fairly the results of operations for the interim periods. Operating results for the three-month period ended March 31, 2011 are not necessarily indicative of the results that may be expected for the year ending December 31, 2011.

The condensed consolidated financial statements have been reclassified for all prior periods presented to reflect current discontinued operations treatment (see Note 2 *Discontinued Operations*). Unless noted otherwise, discussions in the Notes to Condensed Consolidated Financial Statements pertain to continuing operations. Certain other reclassifications have been made to prior period amounts to conform to current period presentation. Such reclassifications have no effect on net income as previously reported.

There have been no material changes in our significant accounting policies during the three months ended March 31, 2011 as compared to the significant accounting policies described in our Annual Report on Form 10-K for the year ended December 31, 2010. The Company has determined that there were no subsequent events to recognize or disclose in these financial statements.

Note 2 Discontinued operations

In December 2010, the Company sold substantially all of the assets of Rutland Tool & Supply Company, Inc. (Rutland). Accordingly, Rutland's results of operations have been reflected in discontinued operations. Rutland's results of operations, which were previously included in the Company's Maintenance Repair and Operations (MRO) segment, consisted of net sales and loss from operations for the first quarter of 2010 of \$7.7 million and \$0.1 million respectively.

In August 2010, the Company sold substantially all of the assets of Assembly Component Systems, Inc. (ACS) and as a result, ACS's results of operations have been reflected in discontinued operations. ACS's results of operations, which were previously included in the Company's Original Equipment Marketplace (OEM) segment, consisted of net sales and operating income for the first quarter of 2010 of \$12.5 million and \$0.2 million, respectively.

Note 3 Inventories

Components of inventories were as follows:

	(Amounts in thousands)	
	March 31, 2011	December 31, 2010

Balance at end of the period	\$ 2,696	\$ 3,425

Note 5 Gain on Sale of Assets

In the first three months of 2010, the Company received cash proceeds of \$2.0 million from the sale of its Dallas, Texas distribution center, resulting in a gain of \$1.7 million.

Note 6 Legal Settlement

In the first quarter of 2010, the Company recorded a \$0.6 million benefit related to proceeds received from legal remedies related to the actions of several former sales agents and the Share Corporation alleging, among other things, breach of contract and interference with customer relationships.

Note 7 Income Tax

The Company and its subsidiaries are subject to U.S. Federal income tax as well as income tax of multiple state and foreign jurisdictions. As of March 31, 2011, the Company is subject to U.S. Federal income tax examinations for the year 2009 and income tax examinations from various other jurisdictions for the years 2005 through 2009.

Note 8 Comprehensive Income

Components of comprehensive income for the three months ended March 30, 2011 and 2010 are as follows:

Note 9 Related Party Transaction

The Company's Chairman of the Board, Dr. Port, was a partner in two partnerships that had an interest in Lawson's common stock. During 2010, litigation was initiated against Dr. Port, requesting that the partnerships be changed to allow the partners to have more control over their respective shares. The suit named Dr. Port as a defendant based on his role in the partnerships and as a Director of the Company. The Company was not a party to the lawsuit.

On March 17, 2011 the litigation was settled with assets distributed under the terms of a settlement agreement and all parties agreed to release Dr. Port, individually and as a Director of the Company, from any and all claims related to the litigation. Through March 31, 2011, the Company had incurred \$0.8 million for legal services provided to Dr. Port in relation to this litigation of which \$0.1 million was incurred in the three months ended March 31, 2011.

Note 10 Segment Reporting

The Company has two operating segments: MRO and OEM. The Company's MRO segment is a distributor of products and services to the industrial, commercial, institutional, and governmental maintenance, repair and operations marketplace. The Company's OEM segment manufactures, sells and distributes production and specialized component parts to the original equipment marketplace. The Company's two reportable segments are distinguished by the nature of products distributed and sold, types of customers and manner of servicing them. The Company evaluates performance and allocates resources to reportable segments primarily based on operating income.

The following table presents summary financial information for the Company's reportable segments:

Net Sales

Net sales for the first quarter of 2011 increased 10.2% to \$82.6 million, from \$74.9 million in the first quarter of 2010. Excluding the Canadian exchange rate impact, net sales increased 9.6% for the quarter.

MRO net sales increased 10.2% in the first quarter of 2011, to \$79.3 million from \$71.9 million in the prior year period, primarily reflecting continued growth within our national, governmental and automotive sectors of our business. MRO average daily sales increased to \$1.258 million in the first quarter of 2011 compared to \$1.142 million in the first quarter of 2010 driven by improvements in average orders per day and average order size.

OEM net sales increased 11.7% in the first quarter of 2011, to \$3.3 million from \$3.0 million in the prior year period driven by strength in our aerospace customer base and new customer growth.

Table of Contents

Gross Profit

Gross profit increased \$3.6 million in the first quarter of 2011, to \$49.9 million from \$46.3 million in the prior year period. MRO gross profit as a percent of net MRO sales decreased to 62.2% in the first quarter of 2011, compared to 63.8% achieved in the first quarter of 2010 primarily due to the intentional shift toward higher volume national customers with lower margins. On a combined basis, national and government accounts represent approximately 19% of net sales for the quarter versus approximately 14% in the prior year quarter.

OEM gross profit increased \$0.3 million and increased as a percent of OEM sales to 19.8% in the first quarter of 2011 from 13.4% in the first quarter of 2010. The improvement as a percent of sales was primarily driven by lower manufacturing costs and higher margin new business growth.

Selling, General and Administrative Expenses (SG&A)

SG&A expenses increased \$1.7 million or 4.0% to \$45.4 million in the first quarter of 2011 from \$43.7 million in 2010. As a percent of net sales, SG&A improved by 3.4 percentage points to 55.0% in the first quarter of 2011 compared to 58.4% in the first quarter of 2010.

Commission expenses decreased to \$16.1 million in the first quarter of 2011 from \$17.4 million in the first quarter of 2010 and decreased as a percent of MRO sales to 20.3% in 2011 from 24.1% in 2010. The decrease, as a percent of sales, reflects the changes of the district sales managers transitioning to full-time employees during 2010, the planned shift toward higher volume lower margin national customers that pay a lower commission and lower agent insurance costs.

Excluding commission expenses, the remaining SG&A expenses increased \$3.0 million. The increase was primarily driven by the transition of independent district sales managers to full-time employees no longer earning commissions and \$1.9 million of ERP implementation expenses.

Severance Expenses

Severance expense was \$0.7 million in the first quarter of 2011 compared to \$0.4 million in the first quarter of 2010 primarily related to employees supporting distribution services related to a divested business.

Gain on Sale of Assets

During the first quarter of 2010 we recorded a gain on sale of assets of \$1.7 million related to the sale of our Dallas, Texas distribution center.

Legal Settlement

In the first quarter of 2010, we recorded a \$0.6 million benefit related to proceeds received from legal remedies related to the actions of several former sales agents and the Share Corporation alleging, among other things, breach of contract and interference with customer relationships.

Interest Expense

Interest expense of \$0.5 million in the first quarter of 2011 relates primarily to interest assessed on unclaimed property settlements.

Income Tax Expense

Income tax expense of \$1.2 million was recorded based on pre-tax income of \$3.2 million for the three months ended March 31, 2011, resulting in an effective tax rate of 36.9%. For the three months ended March 31, 2010, income tax expense was \$2.1 million resulting in an effective tax rate of 48.8%. The 2010 tax rate was higher primarily due to the effect of valuation reserves.

Table of Contents*Income from Continuing Operations*

We reported income from continuing operations of \$2.1 million or \$0.24 per diluted share in the first quarter of 2011. First quarter 2010 income from continuing operations, which included the gain from the sale of the Dallas distribution center and a favorable legal settlement, was \$2.2 million or \$0.26 per diluted share. Excluding these items, income from continuing operations per diluted share in 2010 was \$0.13.

Liquidity and Capital Resources

Cash and cash equivalents were \$27.2 million on March 31, 2011 compared to \$40.6 million on December 31, 2010. Net cash used in continuing operations was \$6.9 million for the first three months of 2011. Accounts receivable at March 31, 2011 increased \$3.3 million or 10.0% compared to December 31, 2010, as net sales in March 2011 were 16.4% higher than net sales in December 2010. Inventories increased by \$4.0 million in the first quarter of 2011 to support the increased sales and to temporarily build fast moving items as we prepare for our ERP implementation.

Capital expenditures were \$4.3 million for the first three months of 2011 compared to \$0.3 million for the first three months of 2010. Capital expenditures related to the ERP implementation were \$3.2 million for the first quarter of 2011. We anticipate that total capital expenditures for 2011 will be \$12.0 to \$15.0 million. Overall, we anticipate the total cost of the ERP implementation, including both capital and expense, will range from \$20.0 million to \$25.0 million of which \$15.4 million has been incurred through March 31, 2011.

The net outlay for the sale of businesses in the first quarter of 2011 consisted of a payment of approximately \$0.9 million due to the final value of Rutland's working capital that was sold in the fourth quarter of 2010, partially offset by \$0.3 million received as payment on the note receivable from the sale of ACS in the third quarter of 2010. Cash flows from investing activities in the first three months of 2010 benefited from the receipt of \$2.0 million from the sale of our Dallas, Texas distribution center.

Net cash used in financing activities primarily consisted of dividend payments of \$1.0 million and \$0.5 million for the first three months of 2011 and 2010, respectively. On March 31, 2011 and 2010, we had no borrowings outstanding on our revolving line of credit.

At March 31, 2011 we were in compliance with all covenants related to our revolving line of credit as detailed below:

Covenant	Minimum Requirement	Actual
Cash plus accounts receivable and inventory to debt ratio	2.00:1.00	87.42:1.00 \$90.8
Tangible net worth	\$55.0 million	million
Debt service ratio	1.2	15.3

We believe that cash on hand, cash provided by future operations and our \$55.0 million revolving line of credit will be sufficient to fund our operating requirements, capital expenditures, ERP implementation and other commitments and obligations in the next twelve months.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in market risk at March 31, 2011 from that reported in the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

ITEM 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our senior management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act), as of the end of the period covered by this report (the Evaluation Date). Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded as of the Evaluation Date that our disclosure controls and procedures were effective such that (i) the information relating to Lawson, including our consolidated subsidiaries, required to be disclosed in our SEC reports is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and (ii) include, without limitation, controls and procedures designed to ensure that information required to be disclosed is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

There was no change in the Company's internal control over financial reporting during the quarter ended March 31, 2011 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
