**Item 8.01 Other Events**

On July 18, 2011, Verisk Analytics, Inc. (the Registrant ) announced that its Board of Directors has authorized an incremental \$150 million of share repurchases under its share repurchase program.

Under the program, the Registrant may repurchase shares in the open market or as otherwise may be determined by the Registrant, subject to market conditions, business opportunities, and other factors. The Registrant has no obligation to repurchase shares under the program. This authorization is a continuation of the Registrant's plan to offset dilution from the issuance of shares under employee compensation plans, as well as to provide flexibility to selectively return capital to shareholders as a complement to the Registrant's acquisition strategy.

This authorization has no expiration date and may be suspended or terminated at any time. Repurchased shares will be recorded as treasury stock but will be available for future reissuance.
