Form 10-Q

October 27, 2017

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)

OF THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended September 30, 2017

Commission File Number: 1-1927

THE GOODYEAR TIRE & RUBBER COMPANY

(Exact Name of Registrant as Specified in Its Charter)

Ohio 34-0253240

(State or Other Jurisdiction of (I.R.S. Employer

Incorporation or Organization) Identification No.)

200 Innovation Way, Akron, Ohio 44316-0001

(Address of Principal Executive Offices) (Zip Code)

(330) 796-2121

(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer <input checked="" type="checkbox"/>	Accelerated filer <input type="checkbox"/>	Non-accelerated filer <input type="checkbox"/>	Smaller reporting company <input type="checkbox"/>	Emerging growth company <input type="checkbox"/>
--	---	--	---	---

(Do not check if a smaller
reporting company)

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes ☐ No ☒

Indicate the number of shares outstanding of each of the registrant's classes of common stock, as of the latest practicable date.

Number of Shares of Common Stock, 246,327,106

Without Par Value, Outstanding at September 30, 2017:

THE GOODYEAR TIRE & RUBBER COMPANY AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE 1. ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared by The Goodyear Tire & Rubber Company (the "Company," "Goodyear," "we," "us" or "our") in accordance with Securities and Exchange Commission rules and regulations and generally accepted accounting principles in the United States of America ("US GAAP") and in the opinion of management contain all adjustments (including normal recurring adjustments) necessary to fairly state the financial position, results of operations and cash flows for the periods presented. The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. These interim consolidated financial statements should be read in conjunction with the consolidated financial statements and related notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2016 (the "2016 Form 10-K").

Operating results for the three and nine months ended September 30, 2017 are not necessarily indicative of the results expected in subsequent quarters or for the year ending December 31, 2017.

Recently Adopted Accounting Standards

Effective January 1, 2017, we adopted an accounting standards update with new guidance on the transition to the equity method of accounting. The new guidance eliminates the requirement for an investor to retrospectively apply equity method accounting when an investment that it had accounted for by another method initially qualifies for the equity method. Instead, the investor is required to apply the equity method prospectively from the date the investment qualifies for the equity method. In addition, an entity that has an available-for-sale equity security that becomes qualified for the equity method must recognize through earnings the unrealized holding gain or loss in accumulated other comprehensive income at the date the investment qualifies for the equity method. The adoption of this standards update did not impact our consolidated financial statements.

Effective January 1, 2017, we adopted an accounting standards update with new guidance on the measurement of inventory. Inventory within the scope of this update is required to be measured at the lower of its cost or net realizable value, with net realizable value being the estimated selling price in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. The adoption of this standards update did not impact our consolidated financial statements.

Effective January 1, 2017, we early adopted an accounting standards update with new guidance on how certain cash receipts and cash payments are presented and classified in the statement of cash flows. This update provides guidance on eight specific cash flow issues. As a result of the adoption, premiums for debt extinguishment of \$53 million were reclassified from Operating Activities to Financing Activities in the statement of cash flows for the nine months ended September 30, 2016. The other seven specific cash flow issues were either not applicable to Goodyear or the treatment has not changed from our current practice.

Effective January 1, 2017, we early adopted an accounting standards update with new guidance on the presentation of restricted cash in the statement of cash flows. The standards update requires that the reconciliation of the beginning and end of period cash amounts shown in the statement of cash flows include restricted cash. When restricted cash is presented separately from cash and cash equivalents on the balance sheet, a reconciliation is required between the amounts presented on the statement of cash flows and the balance sheet. Also, the new guidance requires the disclosure of information about the nature of the restrictions. The restricted cash balances as of September 30, 2017, December 31, 2016, and September 30, 2016 were \$46 million, \$57 million and \$25 million, respectively.

Recently Issued Accounting Standards

In August 2017, the Financial Accounting Standards Board ("FASB") issued an accounting standards update with new guidance intended to reduce complexity in hedge accounting and make hedge results easier to understand. This includes simplifying how hedge results are presented and disclosed in the financial statements, expanding the types of hedge strategies allowed and providing relief around the documentation and assessment requirements. The standards

update is effective using a modified retrospective approach, with the presentation and disclosure guidance required prospectively, for fiscal years and interim periods beginning after December 15, 2018, with early adoption permitted. We are currently assessing the impact of this standards update on our consolidated financial statements.

In May 2017, the FASB issued an accounting standards update with new guidance to clarify when changes to the terms or conditions of a share-based payment award must be accounted for as a modification. The new guidance requires the application of modification accounting if the value, vesting conditions or classification of the award changes. The standards update is effective prospectively for fiscal years and interim periods beginning after December 15, 2017, with early adoption permitted. The adoption of this standards update is not expected to impact our consolidated financial statements.

- 5-

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

In March 2017, the FASB issued an accounting standards update intended to improve the financial statement presentation of pension and postretirement benefits cost. The standards update requires employers that offer defined benefit pension or other postretirement benefit plans to report service cost in the same income statement line as compensation costs and to report non-service related costs separately from service cost outside a sub-total of income from operations, if one is presented. Currently, the Company records both service and non-service related costs in selling, administrative and general expense ("SAG") and cost of goods sold ("CGS"), as appropriate. Under the new standard, non-service related costs, which are expected to total approximately \$70 million for full-year 2017, will be recorded in Other (Income) Expense. In addition, the new guidance allows only service cost to be capitalized. The standards update is effective retrospectively for the financial statement presentation of benefits cost and prospectively for the capitalization of service cost for fiscal years and interim periods beginning after December 15, 2017, with early adoption permitted.

In January 2017, the FASB issued an accounting standards update with new guidance intended to simplify the subsequent measurement of goodwill. The standards update eliminates the requirement for an entity to calculate the implied fair value of goodwill to measure a goodwill impairment charge. Instead, an entity will perform its annual, or interim, goodwill impairment testing by comparing the fair value of a reporting unit with its carrying amount and recording an impairment charge for the amount by which the carrying amount exceeds the fair value. The standards update is effective prospectively for annual and interim goodwill impairment testing performed in fiscal years beginning after December 15, 2019, with early adoption permitted. The adoption of this standards update is not expected to impact our consolidated financial statements.

In October 2016, the FASB issued an accounting standards update with new guidance on the accounting for the income tax consequences of intra-entity transfers of assets other than inventory, including the elimination of the prohibition on recognition of current and deferred income taxes on such transfers. The standards update is effective using the modified retrospective approach for fiscal years and interim periods beginning after December 15, 2017, with early adoption permitted. The adoption of this standards update is not expected to have a material impact on our consolidated financial statements.

In February 2016, the FASB issued an accounting standards update with new guidance intended to increase transparency and comparability among organizations relating to leases. Lessees will be required to recognize a liability to make lease payments and a right-of-use asset representing the right to use the underlying asset for the lease term. The FASB retained a dual model for lease classification, requiring leases to be classified as finance or operating leases to determine recognition in the statements of operations and cash flows; however, substantially all leases will be required to be recognized on the balance sheet. Lessor accounting is largely unchanged from the current accounting model. The standards update will also require quantitative and qualitative disclosures regarding key information about leasing arrangements. The standards update is effective using the modified retrospective approach for fiscal years and interim periods beginning after December 15, 2018, with early adoption permitted. The standard provides for certain practical expedients. The transition will require application at the beginning of the earliest comparative period presented at the time of adoption. We are substantially complete with aggregating our worldwide lease contracts, are in the process of evaluating these lease contracts and are in the early stages of implementing a new lease accounting system to support the accounting and disclosure requirements of this standards update. The adoption of this standards update is expected to have a material impact on our financial statements as the Company has significant operating lease commitments that are off-balance sheet in accordance with current US GAAP.

In May 2014, the FASB issued an accounting standards update with new guidance on recognizing revenue from contracts with customers. The standards update outlines a single comprehensive model for entities to utilize to recognize revenue when it transfers goods or services to customers in an amount that reflects the consideration that will be received in exchange for the goods and services. Additional disclosures will also be required to enable users to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. In 2016, the FASB issued several amendments which provide clarification, additional guidance, practical

expedients and technical corrections. In August 2015, the FASB deferred the effective date of this standards update to fiscal years beginning after December 15, 2017, with early adoption permitted on the original effective date of fiscal years beginning after December 15, 2016. The standard permits the use of either a retrospective or modified retrospective approach. We intend to use the modified retrospective approach. The adoption of this standards update is not expected to have a material impact on our consolidated financial statements. We will continue our evaluation of the standards update through the date of adoption, including assessing the impact of required new disclosures.

Principles of Consolidation

The consolidated financial statements include the accounts of all legal entities in which we hold a controlling financial interest. A controlling financial interest generally arises from our ownership of a majority of the voting shares of our subsidiaries. We would also hold a controlling financial interest in variable interest entities if we are considered to be the primary beneficiary. Investments in companies in which we do not own a majority interest and we have the ability to exercise significant influence

- 6-

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

over operating and financial policies are accounted for using the equity method. Investments in other companies are carried at cost. All intercompany balances and transactions have been eliminated in consolidation.

Restricted Cash

The following table provides a reconciliation of Cash, Cash Equivalents and Restricted Cash as reported within the Consolidated Statements of Cash Flows:

(In millions)	September 30, 2017 2016	
Cash and Cash Equivalents	\$822	\$975
Restricted Cash	46	25
Total Cash, Cash Equivalents and Restricted Cash	\$868	\$1,000

Restricted Cash, which is included in Prepaid Expenses and Other Current Assets in the Consolidated Balance Sheets, primarily represents amounts required to be set aside in connection with accounts receivable factoring programs and funds obtained under certain Chinese credit facilities for plant expansion in China. The restrictions lapse when cash from factored accounts receivable is remitted to the purchaser of those receivables or when funds are used for plant expansion expenditures, respectively.

Reclassifications and Adjustments

Certain items previously reported in specific financial statement captions have been reclassified to conform to the current presentation.

NOTE 2. COSTS ASSOCIATED WITH RATIONALIZATION PROGRAMS

In order to maintain our global competitiveness, we have implemented rationalization actions over the past several years to reduce high-cost and excess manufacturing capacity and associate headcount.

The following table shows the roll-forward of our liability between periods:

(In millions)	Other Exit and Associate- Non-cancelable Related Lease Costs Total Costs		
Balance at December 31, 2016	\$ 214	\$ 5	\$219
2017 Charges ⁽¹⁾	70	25	95
Incurred, including net Foreign Currency Translation of \$23 million and \$0 million, respectively	(47)	(26)	(73)
Reversed to the Statements of Operations	(7)	—	(7)
Balance at September 30, 2017	\$ 230	\$ 4	\$234

⁽¹⁾ Charges of \$95 million exclude \$14 million of benefit plan curtailments and settlements recorded in

Rationalizations in the Statement of Operations.

Rationalization actions accrued at September 30, 2017 include \$118 million related to the closure of our tire manufacturing facility in Philippsburg, Germany. The closure is in furtherance of our strategy to capture the growing demand for premium, large-rim diameter tires in part by reducing excess capacity in declining, less profitable segments of the tire market. Approximately \$65 million of the accrued charges related to the closure are expected to be paid during the fourth quarter of 2017 with the remainder paid in 2018.

The remainder of the accrual balance at September 30, 2017 is expected to be substantially utilized within the next 12 months and includes \$36 million related to global plans to reduce SAG headcount, \$30 million related to manufacturing headcount reductions in certain countries in Europe, Middle East and Africa ("EMEA"), and \$17

million related to a SAG headcount reduction plan in certain countries in EMEA.

- 7-

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The following table shows net rationalization charges included in Income before Income Taxes:

(In millions)	Three Months Ended September 30, 2017		Nine Months Ended September 30, 2016	
	2017	2016	2017	2016
Current Year Plans				
Associate Severance and Other Related Costs	\$ 26	\$ 128	\$ 51	\$ 171
Other Exit and Non-Cancelable Lease Costs	—	—	1	—
Current Year Plans - Net Charges	\$ 26	\$ 128	\$ 52	\$ 171
Prior Year Plans				
Associate Severance and Other Related Costs	\$ (5)	\$ —	\$ 12	\$ 10
Benefit Plan Curtailments and Settlements	13	1	14	—
Other Exit and Non-Cancelable Lease Costs	12	6	24	13
Prior Year Plans - Net Charges	20	7	50	23
Total Net Charges	\$ 46	\$ 135	\$ 102	\$ 194

Asset Write-off and Accelerated Depreciation Charges \$ 10 \$ 3 \$ 39 \$ 10

Substantially all of the new charges for the three and nine months ended September 30, 2017 and 2016 related to future cash outflows. Net current year plan charges for the three and nine months ended September 30, 2017 include charges of \$25 million related to a global plan to reduce SAG headcount. Net current year plan charges for the nine months ended September 30, 2017 also include charges of \$20 million related to SAG headcount reductions in certain countries in EMEA and \$7 million related to a plan to improve operating efficiency in EMEA. Net current year plan charges for the three and nine months ended September 30, 2016 primarily related to the closure of our tire manufacturing facility in Philippsburg, Germany, manufacturing headcount reductions in EMEA to improve operating efficiency and a separate plan to reduce SAG headcount globally.

Net prior year plan charges for the three months ended September 30, 2017 include \$9 million related to the closure of our tire manufacturing facility in Philippsburg, Germany and \$9 million related to a separate global plan to reduce SAG headcount. Net prior year plan charges for the nine months ended September 30, 2017 include \$29 million related to the closure of our tire manufacturing facility in Philippsburg, Germany, \$9 million related to a separate global plan to reduce SAG headcount and \$9 million related to manufacturing headcount reductions in certain countries in EMEA. Net prior year plan charges for the three and nine months ended September 30, 2016 include charges of \$2 million and \$11 million, respectively, for associate severance and idle plant costs related to the closure of one of our manufacturing facilities in Amiens, France.

Net charges for the three and nine months ended September 30, 2017 included reversals of \$5 million and \$7 million, respectively, for actions no longer needed for their originally intended purposes. Ongoing rationalization plans had approximately \$595 million in charges incurred prior to 2017 and approximately \$45 million is expected to be incurred in future periods.

Approximately 400 associates will be released under new plans initiated in 2017, of which approximately 100 were released through September 30, 2017. In the first nine months of 2017, approximately 1,100 associates were released under plans initiated in prior years, primarily related to the closure of our tire manufacturing facility in Philippsburg, Germany. Approximately 750 associates remain to be released under all ongoing rationalization plans.

Approximately 850 former associates of the closed Amiens, France manufacturing facility have asserted wrongful termination or other claims against us. Refer to Note to the Consolidated Financial Statements No. 11, Commitments and Contingent Liabilities, in this Form 10-Q.

Accelerated depreciation charges for the three and nine months ended September 30, 2017 primarily related to the closure of our tire manufacturing facility in Philippsburg, Germany. Accelerated depreciation charges for the three and nine months ended September 30, 2016 primarily related to the closure of our Wolverhampton, U.K. mixing and retreading facility. Asset write-off and accelerated depreciation charges for all periods were recorded in CGS.

Financing fees and financial instruments consist of commitment fees and charges incurred in connection with financing transactions. Financing fees and financial instruments for the nine months ended September 30, 2017 include a redemption premium of \$25 million related to the redemption of our \$700 million 7% senior notes due 2022 in May 2017. Financing fees and financial instruments for the nine months ended September 30, 2016 include redemption premiums of \$53 million related to the redemption of our \$900 million 6.5% senior notes due 2021 in June 2016 and our €250 million 6.75% senior notes due 2019 in January 2016.

Net (gains) losses on asset sales for the nine months ended September 30, 2017 include a gain of \$6 million related to the sale of a former wire plant site in Luxembourg. Net (gains) losses on asset sales for the three and nine months ended September 30, 2016 include a \$16 million gain related to the sale of the former wire plant site and a \$9 million gain related to the sale of our interest in a supply chain logistics company.

General and product liability expense (income) - discontinued products consists of charges for claims against us related primarily to asbestos personal injury claims, net of probable insurance recoveries. General and product liability expense (income) - discontinued products for the three and nine months ended September 30, 2017 includes a benefit of \$5 million for the recovery of past costs from certain asbestos insurers. General and product liability expense (income) - discontinued products for the nine months ended September 30, 2016 includes a benefit of \$4 million for the recovery of past costs from certain asbestos insurers and a benefit of \$10 million related to changes in assumptions for probable insurance recoveries for asbestos claims in future periods.

Miscellaneous expense for the three and nine months ended September 30, 2017 includes \$12 million related to expenses incurred by the Company as a direct result of hurricanes Harvey and Irma during the third quarter of 2017. Also, included in Other (Income) Expense is royalty income which is derived primarily from licensing arrangements related to divested businesses as well as other licensing arrangements, interest income which primarily consists of amounts earned on cash deposits, and net foreign currency exchange (gains) losses.

NOTE 4. INCOME TAXES

In the third quarter of 2017, we recorded tax expense of \$30 million on income before income taxes of \$162 million. For the first nine months of 2017, we recorded tax expense of \$136 million on income before income taxes of \$591 million. Income tax expense for the three and nine months ended September 30, 2017 was favorably impacted by \$12 million and \$23 million of various discrete tax adjustments, respectively. In the third quarter of 2016, we recorded a net tax benefit of \$10 million on income before income taxes of \$310 million. For the first nine months of 2016, we recorded tax expense of \$161 million on income before income taxes of \$878 million. Income tax benefit and expense for the three and nine months ended September 30, 2016 was favorably impacted by \$118 million and \$127 million of various discrete tax adjustments, respectively, primarily comprised of a tax benefit resulting from changing our election for our 2009, 2010 and 2012 U.S. tax years from deducting foreign taxes to crediting foreign taxes.

We record taxes based on overall estimated annual effective tax rates. The difference between our effective tax rate and the U.S. statutory rate was primarily attributable to the discrete items noted above and an overall lower effective tax rate in the foreign jurisdictions in which we operate.

Our losses in various foreign taxing jurisdictions in recent periods represented sufficient negative evidence to require us to maintain a full valuation allowance against certain of our net foreign deferred tax assets. Each reporting period we assess available positive

- 9-

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

and negative evidence and estimate if sufficient future taxable income will be generated to utilize these existing deferred tax assets. We do not believe that sufficient positive evidence required to release all or a significant portion of these valuation allowances will exist within the next twelve months.

At January 1, 2017, we had unrecognized tax benefits of \$63 million that if recognized, would have a favorable impact on our tax expense of \$47 million. We had accrued interest of \$4 million as of January 1, 2017. If not favorably settled, \$12 million of the unrecognized tax benefits and all of the accrued interest would require the use of our cash. We do not expect any changes to our unrecognized tax benefits during 2017 to have a significant impact on our financial position or results of operations.

We are open to examination in the United States for 2016 and in Germany from 2013 onward. Generally, for our remaining tax jurisdictions, years from 2012 onward are still open to examination.

NOTE 5. EARNINGS PER SHARE

Basic earnings per share are computed based on the weighted average number of common shares outstanding. Diluted earnings per share are calculated to reflect the potential dilution that could occur if securities or other contracts were exercised or converted into common stock.

Basic and diluted earnings per common share are calculated as follows:

	Three Months		Nine Months	
	Ended		Ended	
	September 30,		September 30,	
(In millions, except per share amounts)	2017	2016	2017	2016
Earnings per share — basic:				
Goodyear net income	\$ 129	\$ 317	\$ 442	\$ 703
Weighted average shares outstanding	250	262	251	264
Earnings per common share — basic	\$ 0.52	\$ 1.21	\$ 1.76	\$ 2.66
Earnings per share — diluted:				
Goodyear net income	\$ 129	\$ 317	\$ 442	\$ 703
Weighted average shares outstanding	250	262	251	264
Dilutive effect of stock options and other dilutive securities	4	4	4	4
Weighted average shares outstanding — diluted	254	266	255	268
Earnings per common share — diluted	\$ 0.50	\$ 1.19	\$ 1.73	\$ 2.62

Weighted average shares outstanding - diluted for the three and nine months ended September 30, 2017 and for the nine months ended September 30, 2016 exclude approximately 1 million equivalent shares related to options with exercise prices greater than the average market price of our common shares (i.e., "underwater" options). There were no equivalent shares related to options with exercise prices greater than the average market price of our common shares for the three months ended September 30, 2016.

NOTE 7. FINANCING ARRANGEMENTS AND DERIVATIVE FINANCIAL INSTRUMENTS

At September 30, 2017, we had total credit arrangements of \$8,851 million, of which \$2,420 million were unused. At that date, 41% of our debt was at variable interest rates averaging 4.08%.

Notes Payable and Overdrafts, Long Term Debt and Capital Leases due Within One Year and Short Term Financing Arrangements

At September 30, 2017, we had short term committed and uncommitted credit arrangements totaling \$627 million, of which \$351 million were unused. These arrangements are available primarily to certain of our foreign subsidiaries through various banks at quoted market interest rates.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTES

\$700 million 4.875% Senior Notes due 2027

In March 2017, we issued \$700 million in aggregate principal amount of 4.875% senior notes due 2027. These notes were sold at 100% of the principal amount and will mature on March 15, 2027. These notes are unsecured senior obligations and are guaranteed by our U.S. and Canadian subsidiaries that also guarantee our obligations under our U.S. senior secured credit facilities described below.

\$700 million 7% Senior Notes due 2022

In May 2017, we used the proceeds from the \$700 million 4.875% senior notes due 2027, together with cash and cash equivalents, to redeem in full our \$700 million 7% senior notes due 2022, which included the payment of a \$25 million redemption premium plus accrued and unpaid interest to the redemption date. We also recorded \$6 million of expense for the write-off of deferred financing fees as a result of the redemption.

CREDIT FACILITIES

\$2.0 billion Amended and Restated First Lien Revolving Credit Facility due 2021

Our amended and restated first lien revolving credit facility is available in the form of loans or letters of credit, with letter of credit availability limited to \$800 million. Subject to the consent of the lenders whose commitments are to be increased, we may request that the facility be increased by up to \$250 million. Our obligations under the facility are guaranteed by most of our wholly-owned U.S. and Canadian subsidiaries. Our obligations under the facility and our subsidiaries' obligations under the related guarantees are secured by first priority security interests in a variety of collateral. Based on our current liquidity, amounts drawn under this facility bear interest at LIBOR plus 125 basis points, and undrawn amounts under the facility will be subject to an annual commitment fee of 30 basis points. Availability under the facility is subject to a borrowing base, which is based primarily on (i) eligible accounts receivable and inventory of The Goodyear Tire & Rubber Company and certain of its U.S. and Canadian subsidiaries, (ii) the value of our principal trademarks, and (iii) certain cash in an amount not to exceed \$200 million. To the extent that our eligible accounts receivable and inventory and other components of the borrowing base decline in value, our borrowing base will decrease and the availability under the facility may decrease below \$2.0 billion. As of September 30, 2017, our borrowing base, and therefore our availability, under this facility was \$266 million below the facility's stated amount of \$2.0 billion.

The facility has customary representations and warranties including, as a condition to borrowing, that all such representations and warranties are true and correct, in all material respects, on the date of the borrowing, including representations as to no material adverse change in our business or financial condition since December 31, 2015. The facility also has customary defaults, including a cross-default to material indebtedness of Goodyear and our subsidiaries.

At September 30, 2017, we had \$375 million of borrowings and \$37 million of letters of credit issued under the revolving credit facility. At December 31, 2016, we had \$85 million of borrowings and \$40 million of letters of credit issued under the revolving credit facility.

Amended and Restated Second Lien Term Loan Facility due 2019

In March 2017, we amended our second lien term loan facility. As a result of the amendment, the term loan now bears interest, at our option, at (i) 200 basis points over LIBOR or (ii) 100 basis points over an alternative base rate (the higher of (a) the prime rate, (b) the federal funds effective rate or the overnight bank funding rate plus 50 basis points or (c) LIBOR plus 100 basis points). In addition, if the Total Leverage Ratio is equal to or less than 1.25 to 1.00, we have the option to further reduce the spreads described above by 25 basis points. "Total Leverage Ratio" has the meaning given it in the facility.

Our obligations under our second lien term loan facility are guaranteed by most of our wholly-owned U.S. and Canadian subsidiaries and are secured by second priority security interests in the same collateral securing the \$2.0 billion first lien revolving credit facility.

At September 30, 2017 and December 31, 2016, the amounts outstanding under this facility were \$399 million.

€550 million Amended and Restated Senior Secured European Revolving Credit Facility due 2020

Our amended and restated €550 million European revolving credit facility consists of (i) a €125 million German tranche that is available only to Goodyear Dunlop Tires Germany GmbH (“GDTG”) and (ii) a €425 million all-borrower tranche that is available to Goodyear Dunlop Tires Europe B.V. (“GDTE”), GDTG and Goodyear Dunlop Tires Operations S.A. Up to €150 million of swingline loans and €50 million in letters of credit are available for issuance under the all-borrower tranche. Amounts drawn under

- 14-

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

this facility will bear interest at LIBOR plus 175 basis points for loans denominated in U.S. dollars or pounds sterling and EURIBOR plus 175 basis points for loans denominated in euros, and undrawn amounts under the facility will be subject to an annual commitment fee of 30 basis points.

GDTE and certain of its subsidiaries in the United Kingdom, Luxembourg, France and Germany provide guarantees to support the facility. The German guarantors secure the German tranche on a first-lien basis and the all-borrower tranche on a second-lien basis. GDTE and its other subsidiaries that provide guarantees secure the all-borrower tranche on a first-lien basis and generally do not provide collateral support for the German tranche. The Company and its U.S. subsidiaries and primary Canadian subsidiary that guarantee our U.S. senior secured credit facilities described above also provide unsecured guarantees in support of the facility.

The facility has customary representations and warranties including, as a condition to borrowing, that all such representations and warranties are true and correct, in all material respects, on the date of the borrowing, including representations as to no material adverse change in our business or financial condition since December 31, 2014. The facility also has customary defaults, including a cross-default to material indebtedness of Goodyear and our subsidiaries.

At September 30, 2017, there were \$148 million (€125 million) of borrowings outstanding under the German tranche and there were \$242 million (€205 million) of borrowings outstanding under the all-borrower tranche. At December 31, 2016, there were no borrowings outstanding under the European revolving credit facility. There were no letters of credit issued at September 30, 2017 and December 31, 2016.

Accounts Receivable Securitization Facilities (On-Balance Sheet)

GDTE and certain other of our European subsidiaries are parties to a pan-European accounts receivable securitization facility that expires in 2019. The terms of the facility provide the flexibility to designate annually the maximum amount of funding available under the facility in an amount of not less than €45 million and not more than €450 million. For the period beginning October 16, 2016 to October 15, 2017, the designated maximum amount of the facility was €320 million. Effective October 16, 2017, the designated maximum amount of the facility was reduced to €275 million. The facility involves an ongoing daily sale of substantially all of the trade accounts receivable of certain GDTE subsidiaries to a bankruptcy-remote French company controlled by one of the liquidity banks in the facility. These subsidiaries retain servicing responsibilities. Utilization under this facility is based on eligible receivable balances. The funding commitments under the facility will expire upon the earliest to occur of: (a) September 25, 2019, (b) the non-renewal and expiration (without substitution) of all of the back-up liquidity commitments, (c) the early termination of the facility according to its terms (generally upon an Early Amortisation Event (as defined in the facility), which includes, among other things, events similar to the events of default under our senior secured credit facilities; certain tax law changes; or certain changes to law, regulation or accounting standards), or (d) our request for early termination of the facility. The facility's current back-up liquidity commitments will expire on October 15, 2018. At September 30, 2017, the amounts available and utilized under this program totaled \$241 million (€204 million). At December 31, 2016, the amounts available and utilized under this program totaled \$198 million (€188 million). The program does not qualify for sale accounting, and accordingly, these amounts are included in Long Term Debt and Capital Leases.

In addition to the pan-European accounts receivable securitization facility discussed above, subsidiaries in Australia have an accounts receivable securitization program that provides flexibility to designate semi-annually the maximum amount of funding available under the facility in an amount of not less than 60 million Australian dollars and not more than 85 million Australian dollars. From July 1, 2016 to December 31, 2017, the designated maximum amount of the facility is 60 million Australian dollars. At September 30, 2017, the amounts available and utilized under this program were \$31 million (AUD 39 million) and \$29 million (AUD 37 million), respectively. At December 31, 2016, the amounts available and utilized under this program were \$28 million (AUD 39 million) and \$12 million (AUD 16 million), respectively. The receivables sold under this program also serve as collateral for the related facility. We retain the risk of loss related to these receivables in the event of non-payment. These amounts are included in Long

Term Debt and Capital Leases due Within One Year.

For a description of the collateral securing the credit facilities described above as well as the covenants applicable to them, refer to Note to the Consolidated Financial Statements No. 15, Financing Arrangements and Derivative Financial Instruments, in our 2016 Form 10-K.

Accounts Receivable Factoring Facilities (Off-Balance Sheet)

We have sold certain of our trade receivables under off-balance sheet programs. For these programs, we have concluded that there is generally no risk of loss to us from non-payment of the sold receivables. At September 30, 2017, the gross amount of receivables sold was \$495 million, compared to \$502 million at December 31, 2016.

- 15-

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Other Foreign Credit Facilities

A Chinese subsidiary has several financing arrangements in China. At September 30, 2017, these non-revolving credit facilities had total unused availability of \$218 million and can only be used to finance the expansion of our manufacturing facility in China. At September 30, 2017 and December 31, 2016, the amounts outstanding under these facilities were \$247 million and \$315 million, respectively. The facilities ultimately mature in 2025 and principal amortization began in 2015. The facilities contain covenants relating to the Chinese subsidiary and have customary representations and warranties and defaults relating to the Chinese subsidiary's ability to perform its obligations under the facilities. At September 30, 2017 and December 31, 2016, restricted cash related to funds obtained under these credit facilities was \$14 million and \$8 million, respectively.

DERIVATIVE FINANCIAL INSTRUMENTS

We utilize derivative financial instrument contracts and nonderivative instruments to manage interest rate, foreign exchange and commodity price risks. We have established a control environment that includes policies and procedures for risk assessment and the approval, reporting and monitoring of derivative financial instrument activities. We do not hold or issue derivative financial instruments for trading purposes.

Foreign Currency Contracts

We enter into foreign currency contracts in order to manage the impact of changes in foreign exchange rates on our consolidated results of operations and future foreign currency-denominated cash flows. These contracts may be used to reduce exposure to currency movements affecting existing foreign currency-denominated assets, liabilities, firm commitments and forecasted transactions resulting primarily from trade purchases and sales, equipment acquisitions, intercompany loans and royalty agreements. Contracts hedging short term trade receivables and payables normally have no hedging designation.

The following table presents the fair values for foreign currency contracts not designated as hedging instruments:

	September 30, December 31,	
(In millions)	2017	2016
Fair Values — Current asset (liability):		
Accounts receivable	\$ 6	\$ 30
Other current liabilities	(8)	(18)

At September 30, 2017 and December 31, 2016, these outstanding foreign currency derivatives had notional amounts of \$1,121 million and \$1,812 million, respectively, and were primarily related to intercompany loans. Other (Income) Expense included net transaction losses on derivatives of \$10 million and \$55 million for the three and nine months ended September 30, 2017, respectively, and net transaction losses on derivatives of \$15 million and \$33 million for the three and nine months ended September 30, 2016, respectively. These amounts were substantially offset in Other (Income) Expense by the effect of changing exchange rates on the underlying currency exposures.

The following table presents fair values for foreign currency contracts designated as cash flow hedging instruments:

	September 30, December 31,	
(In millions)	2017	2016
Fair Values — Current asset (liability):		
Accounts receivable	\$ —	\$ 9
Other current liabilities	(10)	—
Fair Values — Long term asset (liability):		
Other assets	\$ —	\$ 2
Other long term liabilities	(2)	—

At September 30, 2017 and December 31, 2016, these outstanding foreign currency derivatives had notional amounts of \$261 million and \$293 million, respectively, and primarily related to U.S. dollar denominated intercompany transactions.

We enter into master netting agreements with counterparties. The amounts eligible for offset under the master netting agreements are not material and we have elected a gross presentation of foreign currency contracts in the Consolidated Balance Sheets.

- 16-

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The following table presents information related to foreign currency contracts designated as cash flow hedging instruments (before tax and minority):

	Three Months Ended September 30, 2017		Nine Months Ended September 30, 2016	
(In millions) (Income) Expense	2017	2016	2017	2016
Amounts deferred to Accumulated Other Comprehensive Loss ("AOCL")	\$ 7	\$ 1	\$ 28	\$ 1
Amount of deferred (gain) loss reclassified from AOCL into CGS	1	—	(3)	(6)
Amounts excluded from effectiveness testing	(1)	(1)	(2)	(1)

The estimated net amount of deferred losses at September 30, 2017 that are expected to be reclassified to earnings within the next twelve months is \$14 million.

The counterparties to our foreign currency contracts were considered by us to be substantial and creditworthy financial institutions that are recognized market makers at the time we entered into those contracts. We seek to control our credit exposure to these counterparties by diversifying across multiple counterparties, by setting counterparty credit limits based on long term credit ratings and other indicators of counterparty credit risk such as credit default swap spreads, and by monitoring the financial strength of these counterparties on a regular basis. We also enter into master netting agreements with counterparties when possible. By controlling and monitoring exposure to counterparties in this manner, we believe that we effectively manage the risk of loss due to nonperformance by a counterparty.

However, the inability of a counterparty to fulfill its contractual obligations to us could have a material adverse effect on our liquidity, financial position or results of operations in the period in which it occurs.

NOTE 8. FAIR VALUE MEASUREMENTS

The following table presents information about assets and liabilities recorded at fair value on the Consolidated Balance Sheets at September 30, 2017 and December 31, 2016:

	Total Carrying Value in the Consolidated Balance Sheet		Quoted Prices in Active Markets for Identical Assets/Liabilities (Level 1)		Significant Other Observable Inputs (Level 2)		Significant Unobservable Inputs (Level 3)

Carrying amount — liability	\$ 3,580	\$ 3,514		
Fair value — liability	3,779	3,669		

Variable Rate Debt:

Carrying amount — liability	\$ 2,495	\$ 1,679
Fair value — liability	2,477	1,678

- 17-

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Long term debt with a fair value of \$3,883 million and \$3,804 million at September 30, 2017 and December 31, 2016, respectively, was estimated using quoted Level 1 market prices. The carrying value of the remaining long term debt is categorized within the Level 2 hierarchy and approximates fair value since the terms of the financing arrangements are similar to terms that could be obtained under current lending market conditions.

NOTE 9. PENSION, SAVINGS AND OTHER POSTRETIREMENT BENEFIT PLANS

We provide employees with defined benefit pension or defined contribution savings plans.

Defined benefit pension cost follows:

	U.S.		U.S.	
	Three Months		Nine Months	
	Ended		Ended	
	September 30,		September 30,	
(In millions)	2017	2016	2017	2016
Service cost	\$ 1	\$ 1	\$ 3	\$ 3
Interest cost	39	41	120	123
Expected return on plan assets	(60)	(64)	(181)	(191)
Amortization of net losses	27	28	83	82
Net periodic pension cost	7	6	25	17
Net curtailments and settlements	24	—	25	—
Total defined benefit pension cost	\$ 31	\$ 6	\$ 50	\$ 17
	Non-U.S.		Non-U.S.	
	Three Months		Nine Months	
	Ended		Ended	
	September 30,		September 30,	
(In millions)	2017	2016	2017	2016
Service cost	\$ 8	\$ 7	\$ 23	\$ 22
Interest cost	18	20	53	61
Expected return on plan assets	(20)	(21)	(59)	(67)
Amortization of net losses	8	7	24	21
Net periodic pension cost	14	13	41	37
Net curtailments and settlements	2	—	2	13
Total defined benefit pension cost	\$ 16	\$ 13	\$ 43	\$ 50

During the third quarter of 2017, we recognized a settlement charge of \$24 million in connection with our frozen salaried U.S. pension plan. The settlement charge resulted from total lump sum benefit payments exceeding annual interest cost.

For the three and nine months ended September 30, 2017, net curtailment and settlement charges of \$13 million and \$14 million, respectively, were included in rationalization charges for employees who terminated service as a result of ongoing rationalization plans.

During the second quarter of 2016, annuities were purchased from existing plan assets to settle \$41 million in obligations of one of our U.K. pension plans which resulted in a settlement charge of \$14 million.

We expect to contribute approximately \$50 million to \$75 million to our funded non-U.S. pension plans in 2017. For the three and nine months ended September 30, 2017, we contributed \$14 million and \$41 million, respectively, to our non-U.S. plans.

The expense recognized for our contributions to defined contribution savings plans for the three months ended September 30, 2017 and 2016 was \$28 million and \$30 million, respectively, and for the nine months ended September 30, 2017 and 2016 was \$86 million and \$93 million, respectively.

We also provide certain U.S. employees and employees at certain non-U.S. subsidiaries with health care benefits or life insurance benefits upon retirement. Other postretirement benefits credit for the three months ended September 30, 2017 and 2016 was \$2 million and \$4 million, respectively, and for the nine months ended September 30, 2017 and 2016 was \$5 million and \$17 million, respectively.

- 18-

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTE 10. STOCK COMPENSATION PLANS

Our Board of Directors granted 0.7 million stock options, 0.1 million restricted stock units and 0.2 million performance share units during the nine months ended September 30, 2017 under our stock compensation plans. The weighted average exercise price per share and weighted average fair value per share of the stock option grants during the nine months ended September 30, 2017 were \$35.26 and \$12.08, respectively. We estimated the fair value of the stock options using the following assumptions in our Black-Scholes model:

Expected term: 7.2 years

Interest rate: 2.13%

Volatility: 33.63%

Dividend yield: 1.13%

We measure the fair value of grants of restricted stock units and performance share units based primarily on the closing market price of a share of our common stock on the date of the grant, modified as appropriate to take into account the features of such grants. The weighted average fair value per share was \$35.05 for restricted stock units and \$36.78 for performance share units granted during the nine months ended September 30, 2017.

We recognized stock-based compensation expense of \$5 million and \$17 million during the three and nine months ended September 30, 2017, respectively. At September 30, 2017, unearned compensation cost related to the unvested portion of all stock-based awards was approximately \$29 million and is expected to be recognized over the remaining vesting period of the respective grants, through the first quarter of 2022. We recognized stock-based compensation expense of \$7 million and \$18 million during the three and nine months ended September 30, 2016, respectively. Stock based awards are made pursuant to stock compensation plans that are approved by our shareholders. The 2017 Performance Plan was adopted by our shareholders on April 10, 2017 and will expire on April 9, 2027 unless earlier terminated. The 2017 Performance Plan replaced the 2013 Performance Plan, which was terminated on April 10, 2017, except with respect to outstanding awards.

NOTE 11. COMMITMENTS AND CONTINGENT LIABILITIES

Environmental Matters

We have recorded liabilities totaling \$52 million and \$55 million at September 30, 2017 and December 31, 2016, respectively, for anticipated costs related to various environmental matters, primarily the remediation of numerous waste disposal sites and certain properties sold by us. Of these amounts, \$18 million and \$21 million was included in Other Current Liabilities at September 30, 2017 and December 31, 2016, respectively. The costs include legal and consulting fees, site studies, the design and implementation of remediation plans, post-remediation monitoring and related activities, and will be paid over several years. The amount of our ultimate liability in respect of these matters may be affected by several uncertainties, primarily the ultimate cost of required remediation and the extent to which other responsible parties contribute. We have limited potential insurance coverage for future environmental claims. Since many of the remediation activities related to environmental matters vary substantially in duration and cost from site to site and the associated costs for each vary depending on the mix of unique site characteristics, in some cases we cannot reasonably estimate a range of possible losses. Although it is not possible to estimate with certainty the outcome of all of our environmental matters, management believes that potential losses in excess of current reserves for environmental matters, individually and in the aggregate, will not have a material adverse effect on our financial position, cash flows or results of operations.

Workers' Compensation

We have recorded liabilities, on a discounted basis, totaling \$252 million and \$248 million for anticipated costs related to workers' compensation at September 30, 2017 and December 31, 2016, respectively. Of these amounts, \$46 million and \$48 million was included in Current Liabilities as part of Compensation and Benefits at September 30, 2017 and December 31, 2016, respectively. The costs include an estimate of expected settlements on pending claims, defense costs and a provision for claims incurred but not reported. These estimates are based on our assessment of potential liability using an analysis of available information with respect to pending claims, historical experience, and

current cost trends. The amount of our ultimate liability in respect of these matters may differ from these estimates. We periodically, and at least annually, update our loss development factors based on actuarial analyses. At September 30, 2017 and December 31, 2016, the liability was discounted using a risk-free rate of return. At September 30, 2017, we estimate that it is reasonably possible that the liability could exceed our recorded amounts by approximately \$30 million.

- 19-

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

General and Product Liability and Other Litigation

We have recorded liabilities totaling \$333 million and \$316 million, including related legal fees expected to be incurred, for potential product liability and other tort claims, including asbestos claims, at September 30, 2017 and December 31, 2016, respectively. Of these amounts, \$59 million and \$49 million was included in Other Current Liabilities at September 30, 2017 and December 31, 2016, respectively. The amounts recorded were estimated based on an assessment of potential liability using an analysis of available information with respect to pending claims, historical experience and, where available, recent and current trends. Based upon that assessment, at September 30, 2017, we do not believe that estimated reasonably possible losses associated with general and product liability claims in excess of the amounts recorded will have a material adverse effect on our financial position, cash flows or results of operations. However, the amount of our ultimate liability in respect of these matters may differ from these estimates. We have recorded an indemnification asset within Accounts Receivable of \$5 million and within Other Assets of \$27 million for Sumitomo Rubber Industries, Ltd.'s ("SRI") obligation to indemnify us for certain product liability claims related to products manufactured by a formerly consolidated joint venture entity, subject to certain caps and restrictions.

Asbestos. We are a defendant in numerous lawsuits alleging various asbestos-related personal injuries purported to result from alleged exposure to asbestos in certain products manufactured by us or present in certain of our facilities. Typically, these lawsuits have been brought against multiple defendants in state and federal courts. To date, we have disposed of approximately 127,400 claims by defending, obtaining the dismissal thereof, or entering into a settlement. The sum of our accrued asbestos-related liability and gross payments to date, including legal costs, by us and our insurers totaled approximately \$529 million through September 30, 2017 and \$517 million through December 31, 2016.

A summary of recent approximate asbestos claims activity follows. Because claims are often filed and disposed of by dismissal or settlement in large numbers, the amount and timing of settlements and the number of open claims during a particular period can fluctuate significantly.

	Nine Months Ended	Year Ended
(Dollars in millions)	September 30, 2017	December 31, 2016
Pending claims, beginning of period	64,400	67,400
New claims filed	1,500	1,900
Claims settled/dismissed	(4,700)	(4,900)
Pending claims, end of period	61,200	64,400
Payments ⁽¹⁾	\$ 6	\$ 20

(1) Represents cash payments made during the period by us and our insurers on asbestos litigation defense and claim resolution.

We periodically, and at least annually, review our existing reserves for pending claims, including a reasonable estimate of the liability associated with unasserted asbestos claims, and estimate our receivables from probable insurance recoveries. We recorded gross liabilities for both asserted and unasserted claims, inclusive of defense costs, totaling \$177 million and \$171 million at September 30, 2017 and December 31, 2016, respectively. In determining the estimate of our asbestos liability, we evaluated claims over the next ten-year period. Due to the difficulties in making these estimates, analysis based on new data and/or a change in circumstances arising in the future may result in an increase in the recorded obligation, and that increase could be significant.

We maintain certain primary and excess insurance coverage under coverage-in-place agreements, and also have additional excess liability insurance with respect to asbestos liabilities. After consultation with our outside legal counsel and giving consideration to agreements with certain of our insurance carriers, the financial viability and legal obligations of our insurance carriers and other relevant factors, we determine an amount we expect is probable of

recovery from such carriers. We record a receivable with respect to such policies when we determine that recovery is probable and we can reasonably estimate the amount of a particular recovery.

We recorded a receivable related to asbestos claims of \$121 million and \$123 million at September 30, 2017 and December 31, 2016, respectively. We expect that approximately 70% of asbestos claim related losses would be recoverable through insurance during the ten-year period covered by the estimated liability. Of these amounts, \$12 million was included in Current Assets as part of Accounts Receivable at September 30, 2017 and December 31, 2016. The recorded receivable consists of an amount we expect to collect under coverage-in-place agreements with certain primary and excess insurance carriers as well as an amount we believe is probable of recovery from certain of our other excess insurance carriers.

We believe that, at December 31, 2016, we had approximately \$430 million in excess level policy limits applicable to indemnity and defense costs for asbestos products claims under coverage-in-place agreements. We also had additional unsettled excess level

- 20-

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

policy limits potentially applicable to such costs. We had coverage under certain primary policies for indemnity and defense costs for asbestos products claims under remaining aggregate limits pursuant to a coverage-in-place agreement, as well as coverage for indemnity and defense costs for asbestos premises claims pursuant to coverage-in-place agreements.

With respect to both asserted and unasserted claims, it is reasonably possible that we may incur a material amount of cost in excess of the current reserve; however, such amounts cannot be reasonably estimated. Coverage under insurance policies is subject to varying characteristics of asbestos claims including, but not limited to, the type of claim (premise vs. product exposure), alleged date of first exposure to our products or premises and disease alleged. Depending upon the nature of these characteristics, as well as the resolution of certain legal issues, some portion of the insurance may not be accessible by us.

Amiens Labor Claims

Approximately 850 former employees of the closed Amiens, France manufacturing facility have asserted wrongful termination or other claims totaling €119 million (\$140 million) against Goodyear Dunlop Tires France. We intend to vigorously defend ourselves against these claims, and any additional claims that may be asserted against us, and cannot estimate the amounts, if any, that we may ultimately pay in respect of such claims.

Other Actions

We are currently a party to various claims, indirect tax assessments and legal proceedings in addition to those noted above. If management believes that a loss arising from these matters is probable and can reasonably be estimated, we record the amount of the loss, or the minimum estimated liability when the loss is estimated using a range, and no point within the range is more probable than another. As additional information becomes available, any potential liability related to these matters is assessed and the estimates are revised, if necessary. Based on currently available information, management believes that the ultimate outcome of these matters, individually and in the aggregate, will not have a material adverse effect on our financial position or overall trends in results of operations.

Our recorded liabilities and estimates of reasonably possible losses for the contingent liabilities described above are based on our assessment of potential liability using the information available to us at the time and, where applicable, any past experience and recent and current trends with respect to similar matters. Our contingent liabilities are subject to inherent uncertainties, and unfavorable judicial or administrative decisions could occur which we did not anticipate. Such an unfavorable decision could include monetary damages, fines or other penalties or an injunction prohibiting us from taking certain actions or selling certain products. If such an unfavorable decision were to occur, it could result in a material adverse impact on our financial position and results of operations in the period in which the decision occurs, or in future periods.

Income Tax Matters

The calculation of our tax liabilities involves dealing with uncertainties in the application of complex tax regulations. We recognize liabilities for anticipated tax audit issues based on our estimate of whether, and the extent to which, additional taxes will be due. If we ultimately determine that payment of these amounts is unnecessary, we reverse the liability and recognize a tax benefit during the period in which we determine that the liability is no longer necessary. We also recognize income tax benefits to the extent that it is more likely than not that our positions will be sustained when challenged by the taxing authorities. We derecognize income tax benefits when based on new information we determine that it is no longer more likely than not that our position will be sustained. To the extent we prevail in matters for which liabilities have been established, or determine we need to derecognize tax benefits recorded in prior periods, our results of operations and effective tax rate in a given period could be materially affected. An unfavorable tax settlement would require use of our cash, and lead to recognition of expense to the extent the settlement amount exceeds recorded liabilities and, in the case of an income tax settlement, result in an increase in our effective tax rate in the period of resolution. A favorable tax settlement would be recognized as a reduction of expense to the extent the settlement amount is lower than recorded liabilities and, in the case of an income tax settlement, would result in a reduction in our effective tax rate in the period of resolution.

While the Company applies consistent transfer pricing policies and practices globally, supports transfer prices through economic studies, seeks advance pricing agreements and joint audits to the extent possible and believes its transfer prices to be appropriate, such transfer prices, and related interpretations of tax laws, are occasionally challenged by various taxing authorities globally. We have received various tax assessments challenging our interpretations of applicable tax laws in various jurisdictions. Although we believe we have complied with applicable tax laws, have strong positions and defenses and have historically been successful in defending such claims, our results of operations could be materially adversely affected in the case we are unsuccessful in the defense of existing or future claims.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Guarantees

We have off-balance sheet financial guarantees and other commitments totaling approximately \$39 million and \$40 million at September 30, 2017 and December 31, 2016, respectively. We issue guarantees to financial institutions or other entities on behalf of certain of our affiliates, lessors or customers. We also generally do not require collateral in connection with the issuance of these guarantees. In 2015, as a result of the dissolution of the global alliance with SRI, we issued a guarantee of approximately \$46 million to an insurance company related to SRI's obligation to pay certain outstanding workers' compensation claims of a formerly consolidated joint venture entity. As of September 30, 2017, this guarantee amount has been reduced to \$38 million. We have concluded the probability of our performance to be remote and, therefore, have not recorded a liability for this guarantee. While there is no fixed duration of this guarantee, we expect the amount of this guarantee to continue to decrease over time as the formerly consolidated joint venture entity pays its outstanding claims. If our performance under these guarantees is triggered by non-payment or another specified event, we would be obligated to make payment to the financial institution or the other entity, and would typically have recourse to the affiliate, lessor, customer, or SRI. Except for the workers' compensation guarantee described above, the guarantees expire at various times through 2020. We are unable to estimate the extent to which our affiliates', lessors', customers', or SRI's assets would be adequate to recover any payments made by us under the related guarantees.

NOTE 12. CAPITAL STOCK

Dividends

During the third quarter of 2017, cash dividends of \$0.10 per share were declared on July 12, 2017 and paid on September 1, 2017. During the third quarter of 2016, cash dividends of \$0.07 per share were declared on July 12, 2016 and paid on September 1, 2016, and cash dividends of \$0.10 per share were declared on September 7, 2016 and paid during the fourth quarter of 2016 on December 1, 2016.

In the first nine months of 2017 and 2016, we paid cash dividends of \$75 million and \$56 million, respectively, on our common stock. On October 10, 2017, the Board of Directors (or a duly authorized committee thereof) declared cash dividends of \$0.14 per share of common stock, or approximately \$35 million in the aggregate, which represents an increase of \$0.04 per share. The dividend will be paid on December 1, 2017 to stockholders of record as of the close of business on November 1, 2017. Future quarterly dividends are subject to Board approval. We will pay dividends of \$0.44 per share during 2017, and paid dividends of \$0.31 per share during 2016.

Common Stock Repurchases

On September 18, 2013, the Board of Directors approved our common stock repurchase program. From time to time, the Board of Directors has approved increases in the amount authorized to be purchased under that program. On February 2, 2017, the Board of Directors approved a further increase in that authorization to an aggregate of \$2.1 billion. This program expires on December 31, 2019. We intend to repurchase shares of common stock in open market transactions in order to offset new shares issued under equity compensation programs and to provide for additional shareholder returns. During the third quarter of 2017, we repurchased 5,592,239 shares at an average price, including commissions, of \$31.29 per share, or \$175 million in the aggregate. During the first nine months of 2017, we repurchased 6,435,359 shares at an average price, including commissions, of \$31.88 per share, or \$205 million in the aggregate. Since 2013, we repurchased 37,649,469 shares at an average price, including commissions, of \$29.71 per share, or \$1,118 million in the aggregate.

In addition, we may repurchase shares delivered to us by employees as payment for the exercise price of stock options and the withholding taxes due upon the exercise of the stock options or the vesting or payment of stock awards. During the first nine months of 2017, we did not repurchase any shares from employees.

- 24-

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTE 15. CONSOLIDATING FINANCIAL INFORMATION

Certain of our subsidiaries have guaranteed our obligations under the \$282 million outstanding principal amount of 8.75% notes due 2020, the \$1.0 billion outstanding principal amount of 5.125% senior notes due 2023, the \$900 million outstanding principal amount of 5% senior notes due 2026 and the \$700 million outstanding principal amount of 4.875% senior notes due 2027 (collectively, the “notes”). The following presents the condensed consolidating financial information separately for:

- (i) The Goodyear Tire & Rubber Company (the “Parent Company”), the issuer of the guaranteed obligations;
- (ii) Guarantor Subsidiaries, on a combined basis, as specified in the indentures related to Goodyear’s obligations under the notes;
- (iii) Non-Guarantor Subsidiaries, on a combined basis;

Consolidating entries and eliminations representing adjustments to (a) eliminate intercompany transactions between the Parent Company, the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries, (b) eliminate the investments in our subsidiaries, and (c) record consolidating entries; and

- (v) The Goodyear Tire & Rubber Company and Subsidiaries on a consolidated basis.

Each guarantor subsidiary is 100% owned by the Parent Company at the date of each balance sheet presented. The notes are fully and unconditionally guaranteed on a joint and several basis by each guarantor subsidiary. The guarantees of the guarantor subsidiaries are subject to release in limited circumstances only upon the occurrence of certain customary conditions. Each entity in the consolidating financial information follows the same accounting policies as described in the consolidated financial statements, except for the use by the Parent Company and guarantor subsidiaries of the equity method of accounting to reflect ownership interests in subsidiaries which are eliminated upon consolidation. Changes in intercompany receivables and payables related to operations, such as intercompany sales or service charges, are included in cash flows from operating activities. Intercompany transactions reported as investing or financing activities include the sale of capital stock, loans and other capital transactions between members of the consolidated group.

During the first quarter of 2017, one of our guarantor subsidiaries merged with the Parent Company. We have changed the prior year consolidating financial statements to conform to the current structure. As a result, Parent Company Total Assets decreased \$113 million and Guarantor Subsidiaries Total Assets decreased \$358 million, with corresponding offsetting adjustments presented on the same line items in the Consolidating Entries and Eliminations column, as of December 31, 2016. In addition, Parent Company Total Liabilities decreased \$113 million, Guarantor Subsidiaries Total Liabilities decreased \$46 million and Guarantor Subsidiaries Total Shareholders' Equity decreased \$312 million, with corresponding offsetting adjustments presented on the same line items in the Consolidating Entries and Eliminations column, as of December 31, 2016. Furthermore, Net Income increased \$4 million and \$12 million for Guarantor Subsidiaries, with corresponding offsetting adjustments presented on the same line items in the Consolidating Entries and Eliminations column, for the three and nine month periods ended September 30, 2016, respectively. The change did not impact the Non-Guarantor Subsidiaries presentation in the previously issued consolidating financial statements.

Certain Non-Guarantor Subsidiaries of the Parent Company are limited in their ability to remit funds to it by means of dividends, advances or loans due to required foreign government and/or currency exchange board approvals or limitations in credit agreements or other debt instruments of those subsidiaries.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

All per share amounts are diluted and refer to Goodyear net income (loss).

OVERVIEW

The Goodyear Tire & Rubber Company is one of the world's leading manufacturers of tires, with one of the most recognizable brand names in the world and operations in most regions of the world. We have a broad global footprint with 48 manufacturing facilities in 22 countries, including the United States. We operate our business through three operating segments representing our regional tire businesses: Americas; Europe, Middle East and Africa ("EMEA"); and Asia Pacific.

During the third quarter of 2017, members of the United Steelworkers ratified a new five-year master collective bargaining agreement with us. The new contract, which expires in July 2022, provides increased stability by changing from a four-year to a five-year agreement, operational improvements that increase manufacturing flexibility, and health care changes to help manage costs.

Results of Operations

In the third quarter of 2017, we continued to experience challenging global industry conditions, including higher raw material costs, increased competition and weak demand in many of our key markets, particularly for consumer tires in the United States and Europe.

In addition, Hurricane Harvey in Texas and Hurricane Irma in Florida directly impacted several Company-owned facilities, resulting in hurricane-related expenses of \$12 million and negatively impacting Americas operating income by about \$5 million. The hurricanes also adversely impacted overall consumer replacement tire demand in the United States.

Our third quarter of 2017 results reflect a 5.2% decrease in tire unit shipments compared to the third quarter of 2016. In the third quarter of 2017, we realized approximately \$72 million of cost savings, including raw material cost saving measures of approximately \$32 million, which exceeded the impact of general inflation.

Net sales in the third quarter of 2017 were \$3,921 million, compared to \$3,847 million in the third quarter of 2016. Net sales increased in the third quarter of 2017 due primarily to increases in price and product mix and favorable foreign currency translation, primarily in EMEA. These increases were partially offset by lower tire unit volumes, primarily in Americas and EMEA.

In the third quarter of 2017, Goodyear net income was \$129 million, or \$0.50 per share, compared to \$317 million, or \$1.19 per share, in the third quarter of 2016. The decrease in Goodyear net income was primarily driven by lower segment operating income, higher income tax expense and lower gains on asset sales. These decreases were partially offset by lower rationalization charges and lower corporate selling, administrative and general expense ("SAG").

Our total segment operating income for the third quarter of 2017 was \$357 million, compared to \$556 million in the third quarter of 2016. The \$199 million decrease in segment operating income was due to higher raw material costs of \$268 million, which more than offset improvements in price and product mix of \$131 million, lower volume of \$53 million, primarily in Americas and EMEA, and higher conversion costs of \$38 million, primarily due to higher under-absorbed overhead as a result of lower production volume in Americas and EMEA. These decreases were partially offset by lower SAG of \$28 million, primarily related to lower incentive compensation. Refer to "Results of Operations — Segment Information" for additional information.

Net sales in the first nine months of 2017 were \$11,306 million, compared to \$11,417 million in the first nine months of 2016. Net sales decreased in the first nine months of 2017 due to lower tire unit volumes, primarily in Americas and EMEA. This decrease was partially offset by increases in price and product mix, higher sales in other tire-related businesses, primarily related to higher prices for third-party chemical sales in Americas, and favorable foreign currency translation, primarily in Americas.

In the first nine months of 2017, Goodyear net income was \$442 million, or \$1.73 per share, compared to \$703 million, or \$2.62 per share, in the first nine months of 2016. The decrease in Goodyear net income was driven by lower segment operating income. This decrease was partially offset by lower rationalization charges, lower corporate SAG, primarily related to lower incentive compensation, lower income tax expense and lower interest expense.

Our total segment operating income for the first nine months of 2017 was \$1,103 million, compared to \$1,506 million in the first nine months of 2016. The \$403 million decrease in segment operating income was due primarily to an increase in raw material costs of \$446 million, which more than offset improvements in price and product mix of \$305 million, lower volume of \$185 million, and higher conversion costs of \$108 million, primarily due to higher under-absorbed overhead as a result of lower production volume in Americas and EMEA. These decreases were partially offset by lower SAG of \$58 million, primarily related to lower incentive compensation. Refer to "Results of Operations — Segment Information" for additional information.

At September 30, 2017, we had \$822 million of Cash and cash equivalents as well as \$2,420 million of unused availability under our various credit agreements, compared to \$1,132 million and \$2,970 million, respectively, at December 31, 2016. Cash and cash

equivalents decreased by \$310 million from December 31, 2016 due primarily to cash used for working capital of \$1,056 million, capital expenditures of \$683 million, \$280 million in common stock repurchases and dividends, and redemption premiums paid of \$25 million. These uses of cash were partially offset by net income of \$455 million, which included non-cash depreciation and amortization charges of \$586 million, and net borrowings of \$800 million. Refer to "Liquidity and Capital Resources" for additional information.

Outlook

We now expect that our full-year tire unit volume for 2017 will be down approximately 5% compared to 2016, and for under-absorbed fixed overhead costs to be approximately \$145 million higher in 2017 compared to 2016. We continue to expect cost savings to more than offset general inflation in 2017. Based on current spot rates, we now expect foreign currency translation to be a benefit of approximately \$10 million in 2017 compared to 2016.

Based on current raw material spot prices, for the full year of 2017, we continue to expect our raw material costs will be approximately 20% higher than 2016, excluding raw material cost saving measures. However, given the industry environment, we now expect those higher raw material costs to exceed improvements in price and product mix by approximately \$300 million. Natural and synthetic rubber prices and other commodity prices historically have experienced significant volatility, and this estimate could change significantly based on fluctuations in the cost of these and other key raw materials. We are continuing to focus on price and product mix, to substitute lower cost materials where possible, to work to identify additional substitution opportunities, to reduce the amount of material required in each tire, and to pursue alternative raw materials.

Refer to "Forward-Looking Information — Safe Harbor Statement" for a discussion of our use of forward-looking statements in this Form 10-Q.

RESULTS OF OPERATIONS

CONSOLIDATED

Three Months Ended September 30, 2017 and 2016

Net sales in the third quarter of 2017 were \$3,921 million, increasing \$74 million, or 1.9%, from \$3,847 million in the third quarter of 2016. Goodyear net income was \$129 million, or \$0.50 per share, in the third quarter of 2017, compared to \$317 million, or \$1.19 per share, in the third quarter of 2016.

Net sales increased in the third quarter of 2017, due primarily to increases in price and product mix of \$165 million, favorable foreign currency translation of \$72 million, primarily in EMEA, and higher sales in other tire-related businesses of \$15 million, driven by higher prices for third-party chemical sales in Americas. These increases were partially offset by lower tire unit volume of \$177 million, primarily in Americas and EMEA.

Worldwide tire unit sales in the third quarter of 2017 were 39.8 million units, decreasing 2.2 million units, or 5.2%, from 42.0 million units in the third quarter of 2016. Replacement tire volume decreased 1.1 million units, or 3.8%, primarily in Americas. OE tire volume decreased 1.1 million units, or 8.8%, primarily in Americas and EMEA.

Cost of goods sold ("CGS") in the third quarter of 2017 was \$3,069 million, increasing \$333 million, or 12.2%, from \$2,736 million in the third quarter of 2016. CGS increased due to higher raw material costs of \$268 million, foreign currency translation of \$58 million, higher conversion costs of \$38 million, primarily due to increased under-absorbed overhead resulting from lower production volumes, primarily in Americas and EMEA, higher costs related to product mix of \$34 million, and higher costs in other tire-related businesses of \$14 million, primarily related to third-party chemical sales in Americas. These increases were partially offset by lower tire volume of \$124 million, primarily in Americas and EMEA.

CGS in the third quarter of 2017 included pension expense of \$12 million, excluding pension settlement charges of \$6 million (\$4 million after-tax and minority), compared to \$10 million in 2016. CGS in the third quarter of 2017 included accelerated depreciation of \$10 million (\$7 million after-tax and minority) related to the closure of our manufacturing facility in Philippsburg, Germany compared to \$3 million (\$2 million after-tax and minority) in the third quarter of 2016 primarily related to the closure of our Wolverhampton, U.K. facility. CGS in the third quarter of 2017 and 2016 also included incremental savings from rationalization plans of \$14 million and \$5 million, respectively. CGS was 78.3% of sales in the third quarter of 2017 compared to 71.1% in the third quarter of 2016. SAG in the third quarter of 2017 was \$556 million, decreasing \$43 million, or 7.2%, from \$599 million in the third quarter of 2016. SAG decreased primarily due to lower wages and benefits of \$42 million, primarily due to lower

incentive compensation, and lower advertising costs of \$10 million. These decreases were partially offset by foreign currency translation of \$10 million, primarily in EMEA.

SAG in the third quarter of 2017 included pension expense of \$10 million, excluding pension settlement charges of \$7 million (\$4 million after-tax and minority), compared to \$8 million in 2016. SAG in the third quarter of 2017 and 2016 also included

- 33-

incremental savings from rationalization plans of \$11 million and \$10 million, respectively. SAG was 14.2% of sales in the third quarter of 2017, compared to 15.6% in the third quarter of 2016.

We recorded net rationalization charges of \$46 million (\$31 million after-tax and minority) in the third quarter of 2017 and \$135 million (\$133 million after-tax and minority) in the third quarter of 2016. In the third quarter of 2017, we recorded charges of \$26 million for rationalization actions initiated during 2017, which primarily related to a global plan to reduce SAG headcount. We also recorded charges of \$20 million related to prior year plans, primarily related to the closure of our tire manufacturing facility in Philippsburg, Germany and a separate global plan to reduce SAG headcount. In the third quarter of 2016, we recorded charges of \$128 million for rationalization actions initiated during the quarter, which primarily related to the plan to close our manufacturing facility in Philippsburg, Germany. We also recorded charges of \$7 million related to prior year plans.

Interest expense in the third quarter of 2017 was \$84 million, decreasing \$6 million, or 6.7%, from \$90 million in the third quarter of 2016. The decrease was due to a lower average interest rate of 5.39% in the third quarter of 2017 compared to 5.94% in the third quarter of 2016, partially offset by a higher average debt balance of \$6,234 million in the third quarter of 2017 compared to \$6,132 million in the third quarter of 2016.

Other (Income) Expense in the third quarter of 2017 was \$4 million of expense, compared to \$23 million of income in the third quarter of 2016. The quarter-over-quarter change was primarily attributable to a decrease of \$26 million in net gains on asset sales from \$27 million in 2016 to \$1 million in 2017 driven by the sale of a former wire plant site in Luxembourg and our interest in a supply chain logistics company during 2016. Other (Income) Expense in 2017 also included \$12 million (\$11 million after-tax and minority) for hurricane related expenses and a benefit of \$5 million (\$3 million after-tax and minority) related to the recovery of past costs from certain asbestos insurers.

In the third quarter of 2017, we recorded income tax expense of \$30 million on income before income taxes of \$162 million. Income tax expense in the third quarter of 2017 was favorably impacted by \$12 million (\$12 million after minority interest) of various discrete tax adjustments. In the third quarter of 2016, we recorded an income tax benefit of \$10 million on income before income taxes of \$310 million. The income tax benefit in the third quarter of 2016 included \$118 million (\$120 million after minority interest) of various discrete tax adjustments primarily consisting of a tax benefit resulting from changing our election for our 2009, 2010 and 2012 U.S. tax years from deducting foreign taxes to crediting foreign taxes due to improvements in U.S. income that should allow us to fully utilize the value of the credits.

We record taxes based on overall estimated annual effective tax rates. The difference between our effective tax rate and the U.S. statutory rate was primarily attributable to the discrete items noted above and an overall lower effective tax rate in the foreign jurisdictions in which we operate.

Our losses in various foreign taxing jurisdictions in recent periods represented sufficient negative evidence to require us to maintain a full valuation allowance against certain of our net foreign deferred tax assets. Each reporting period we assess available positive and negative evidence and estimate if sufficient future taxable income will be generated to utilize these existing deferred tax assets. We do not believe that sufficient positive evidence required to release all or a significant portion of these valuation allowances will exist within the next twelve months.

Minority shareholders' net income in the third quarter of 2017 and 2016 was \$3 million for each period.

Nine Months Ended September 30, 2017 and 2016

Net sales in the first nine months of 2017 were \$11,306 million, decreasing \$111 million, or 1.0%, from \$11,417 million in the first nine months of 2016. Goodyear net income was \$442 million, or \$1.73 per share, in the first nine months of 2017, compared to \$703 million, or \$2.62 per share, in the first nine months of 2016.

Net sales decreased in the first nine months of 2017, due primarily to lower tire unit volume of \$638 million, primarily in Americas and EMEA. This decrease was partially offset by increases in price and product mix of \$367 million, higher sales in other tire-related businesses of \$99 million, primarily related to higher prices for third-party chemical sales in Americas, and favorable foreign currency translation of \$61 million, primarily in Americas.

Worldwide tire unit sales in the first nine months of 2017 were 117.2 million units, decreasing 7.8 million units, or 6.3%, from 125.0 million units in the first nine months of 2016. Replacement tire volume decreased 4.7 million units, or 5.5%, primarily in EMEA and Americas. OE tire volume decreased 3.1 million units, or 8.2%, primarily in Americas and EMEA.

CGS in the first nine months of 2017 was \$8,626 million, increasing \$376 million, or 4.6%, from \$8,250 million in the first nine months of 2016. CGS increased due to higher raw material costs of \$446 million, higher costs in other tire-related businesses of \$122 million, driven by third-party chemical sales in Americas, higher conversion costs of \$108 million, primarily due to increased under-absorbed overhead resulting from lower production volumes, primarily in Americas and EMEA, higher costs related to product mix of \$62 million and foreign currency translation of \$57 million, primarily in Americas. These increases were partially offset by lower tire volume of \$453 million, primarily in Americas and EMEA.

- 34-

CGS in the first nine months of 2017 included pension expense of \$36 million, compared to \$34 million in 2016, excluding settlement charges of \$6 million (\$4 million after-tax and minority) in 2017 and \$14 million in 2016. CGS in the first nine months of 2017 also included accelerated depreciation of \$39 million (\$28 million after-tax and minority) primarily related to the closure of our manufacturing facility in Philippsburg, Germany compared to \$10 million (\$9 million after-tax and minority) in the first nine months of 2016 primarily related to the closure of our Wolverhampton, U.K. mixing and retreading facility. CGS in the first nine months of 2017 and 2016 also included incremental savings from rationalization plans of \$27 million and \$8 million, respectively. CGS was 76.3% of sales in the first nine months of 2017 compared to 72.3% in the first nine months of 2016.

SAG in the first nine months of 2017 was \$1,718 million, decreasing \$89 million, or 4.9%, from \$1,807 million in the first nine months of 2016. SAG decreased primarily due to lower wages and benefits of \$73 million, primarily related to lower incentive compensation, and lower advertising costs of \$33 million. These decreases were partially offset by unfavorable foreign currency translation of \$7 million.

SAG in the first nine months of 2017 included pension expense of \$28 million, excluding pension settlement charges of \$7 million (\$4 million after-tax and minority), compared to \$23 million in the first nine months of 2016. SAG in the first nine months of 2017 and 2016 also included incremental savings from rationalization plans of \$29 million and \$24 million, respectively. SAG was 15.2% of sales in the first nine months of 2017, compared to 15.8% in the first nine months of 2016.

We recorded net rationalization charges of \$102 million (\$71 million after-tax and minority) in the first nine months of 2017 and \$194 million (\$186 million after-tax and minority) in the first nine months of 2016. In the first nine months of 2017, we recorded charges of \$52 million for rationalization actions initiated during 2017, which primarily related to a global plan to reduce SAG headcount and plans to improve operating efficiency and reduce SAG headcount in EMEA. We also recorded charges of \$50 million related to prior year plans, primarily related to the closure of our tire manufacturing facility in Philippsburg, Germany, a separate global plan to reduce SAG headcount and a plan to reduce manufacturing headcount in certain countries in EMEA. In the first nine months of 2016, we recorded charges of \$171 million for rationalization actions initiated during 2016, which primarily related to the plan to close our manufacturing facility in Philippsburg, Germany and manufacturing headcount reductions in EMEA. We also recorded charges of \$23 million related to prior year plans, including additional associate-related and dismantling costs related to the closure of one of our manufacturing facilities in Amiens, France.

Interest expense in the first nine months of 2017 was \$260 million, decreasing \$25 million, or 8.8%, from \$285 million in the first nine months of 2016. The decrease was due to a lower average interest rate of 5.80% in the first nine months of 2017 compared to 6.28% in the first nine months of 2016, and a lower average debt balance of \$5,981 million in the first nine months of 2017 compared to \$6,052 million in the first nine months of 2016. In addition, interest expense included charges of \$6 million (\$4 million after-tax and minority) and \$11 million (\$8 million after-tax and minority) for the nine months ended September 30, 2017 and 2016, respectively, related to the write-off of deferred financing fees.

Other (Income) Expense in the first nine months of 2017 was \$9 million of expense, compared to \$3 million of expense in the first nine months of 2016. Other (Income) Expense in 2017 included charges of \$25 million (\$15 million after-tax and minority) for the premium paid in conjunction with the redemption of our \$700 million 7% senior notes due 2022 and \$12 million (\$11 million after-tax and minority) for hurricane related expenses. Other (Income) Expense in 2017 also included \$14 million (\$12 million after-tax and minority) in net gains on asset sales including a gain on the sale of a former wire plant site in Luxembourg and a benefit of \$5 million (\$3 million after-tax and minority) related to the recovery of past costs from certain asbestos insurers.

In the first nine months of 2017, we recorded income tax expense of \$136 million on income before income taxes of \$591 million. Income tax expense in the first nine months of 2017 was favorably impacted by \$23 million (\$23 million after minority interest) of various discrete tax adjustments. In the first nine months of 2016, we recorded income tax expense of \$161 million on income before income taxes of \$878 million. Income tax expense in the first nine months of 2016 was favorably impacted by \$127 million (\$128 million after minority interest) of various discrete tax adjustments, primarily comprised of a tax benefit resulting from changing our election for our 2009, 2010 and 2012 U.S. tax years from deducting foreign taxes to crediting foreign taxes due to improvements in U.S. income that

should allow us to utilize the value of the credits.

We record taxes based on overall estimated annual effective tax rates. The difference between our effective tax rate and the U.S. statutory rate was primarily attributable to the discrete items noted above and an overall lower effective tax rate in the foreign jurisdictions in which we operate.

Minority shareholders' net income in the first nine months of 2017 was \$13 million, compared to \$14 million in 2016.

- 35-

SEGMENT INFORMATION

Segment information reflects our strategic business units (“SBUs”), which are organized to meet customer requirements and global competition and are segmented on a regional basis.

Results of operations are measured based on net sales to unaffiliated customers and segment operating income. Each segment exports tires to other segments. The financial results of each segment exclude sales of tires exported to other segments, but include operating income derived from such transactions. Segment operating income is computed as follows: Net Sales less CGS (excluding asset write-off and accelerated depreciation charges) and SAG (including certain allocated corporate administrative expenses). Segment operating income also includes certain royalties and equity in earnings of most affiliates. Segment operating income does not include net rationalization charges (credits), asset sales and certain other items including pension curtailments and settlements.

Management believes that total segment operating income is useful because it represents the aggregate value of income created by our SBUs and excludes items not directly related to the SBUs for performance evaluation purposes. Total segment operating income is the sum of the individual SBUs’ segment operating income. Refer to Note to the Consolidated Financial Statements No. 6, Business Segments, in this Form 10-Q for further information and for a reconciliation of total segment operating income to Income before Income Taxes.

Total segment operating income in the third quarter of 2017 was \$357 million, decreasing \$199 million, or 35.8%, from \$556 million in the third quarter of 2016. Total segment operating margin (segment operating income divided by segment sales) in the third quarter of 2017 was 9.1%, compared to 14.5% in the third quarter of 2016. Total segment operating income in the first nine months of 2017 was \$1,103 million, decreasing \$403 million, or 26.8%, from \$1,506 million in the first nine months of 2016. Total segment operating margin in the first nine months of 2017 was 9.8%, compared to 13.2% in the first nine months of 2016.

Americas

(In millions)	Three Months Ended September 30,			Nine Months Ended September 30,			
	Percent			Percent			
	2017	2016	Change	2017	2016	Change	Change
Tire Units	17.1	18.6	(1.5)	(7.7)%	51.4	55.4	(4.0) (7.2)%
Net Sales	\$2,041	\$2,070	\$ (29)	(1.4)%	\$6,028	\$6,111	\$ (83) (1.4)%
Operating Income	189	305	(116)	(38.0)%	616	856	(240) (28.0)%
Operating Margin	9.3 %	14.7 %			10.2 %	14.0 %	

Three Months Ended September 30, 2017 and 2016

Americas unit sales in the third quarter of 2017 decreased 1.5 million units, or 7.7%, to 17.1 million units.

Replacement tire volume decreased 0.9 million units, or 6.4%, primarily in our consumer business in the United States, Mexico and Canada, partially offset by an increase in Brazil. Declines in consumer replacement tire volume in the United States were primarily driven by increased competition. OE tire volume decreased 0.6 million units, or 11.3%, primarily in our consumer business in the United States, driven by reduced OEM production, partially offset by an increase in Brazil.

Net sales in the third quarter of 2017 were \$2,041 million, decreasing \$29 million, or 1.4%, from \$2,070 million in the third quarter of 2016. The decrease in net sales was primarily driven by lower tire unit volume of \$124 million. This decrease was partially offset by improvements in price and product mix of \$70 million, driven by the impact of higher raw material costs on pricing, higher sales in other tire-related businesses of \$15 million, primarily driven by an increase in price for third-party sales of chemical products, and favorable foreign currency translation of \$9 million, primarily in Brazil and Canada.

Operating income in the third quarter of 2017 was \$189 million, decreasing \$116 million, or 38.0%, from \$305 million in the third quarter of 2016. The decrease in operating income was primarily due to increased raw material costs of \$111 million, which more than offset improvements in price and product mix of \$40 million, lower tire unit volume of \$36 million, higher conversion costs of \$17 million, primarily due to increased under-absorbed overhead resulting from lower production volumes, and incremental start-up costs of \$7 million associated with our new plant in San Luis Potosi, Mexico. These decreases in operating income were partially offset by lower SAG of \$8 million, primarily related to lower incentive compensation. SAG included incremental savings from rationalization plans of \$7

million. During the third quarter of 2017, several Company facilities were directly impacted by Hurricanes Harvey and Irma, which negatively impacted Americas operating income by about \$5 million. Operating income in the third quarter of 2017 excluded rationalization charges of \$4 million and net gains on asset sales of \$1 million. Operating income in the third quarter of 2016 excluded rationalization charges of \$6 million and accelerated depreciation charges of \$1 million.

Nine Months Ended September 30, 2017 and 2016

Americas unit sales in the first nine months of 2017 decreased 4.0 million units, or 7.2%, to 51.4 million units. Replacement tire volume decreased 2.2 million units, or 5.5%, primarily in our consumer business in the United States, Mexico and Canada, partially offset by an increase in Brazil. Declines in consumer replacement tire volume in the United States were primarily driven by increased competition. OE tire volume decreased 1.8 million units, or 11.7%, primarily in our consumer business in the United States and Canada, driven by reduced OEM production, partially offset by an increase in Brazil.

Net sales in the first nine months of 2017 were \$6,028 million, decreasing \$83 million, or 1.4%, from \$6,111 million in the first nine months of 2016. The decrease in net sales was primarily driven by lower tire unit volume of \$347 million. This decrease was partially offset by improvements in price and product mix of \$112 million, driven by the impact of higher raw material costs on pricing, higher sales in our other tire-related businesses of \$106 million, primarily due to an increase in price for third-party sales of chemical products, and favorable foreign currency translation of \$45 million, primarily in Brazil.

Operating income in the first nine months of 2017 was \$616 million, decreasing \$240 million, or 28.0%, from \$856 million in the first nine months of 2016. The decrease in operating income was due to increased raw material costs of \$182 million, which more than offset improvements in price and product mix of \$107 million, lower tire unit volume of \$96 million, higher conversion costs of \$77 million, primarily due to increased under-absorbed overhead resulting from lower production volumes, incremental start-up costs of \$20 million associated with our new plant in San Luis Potosi, Mexico, and lower income in our other tire-related businesses of \$17 million. These decreases in operating income were partially offset by an out of period adjustment of \$24 million of expense in 2016 related to the elimination of intracompany profit, primarily related to the years 2012 to 2015, with the majority attributable to 2012, and lower SAG of \$12 million, primarily related to lower incentive compensation. SAG included incremental savings from rationalization plans of \$20 million. During the third quarter of 2017, several Company facilities were directly impacted by Hurricanes Harvey and Irma, which negatively impacted Americas operating income by about \$5 million. Operating income in the first nine months of 2017 excluded rationalization charges of \$6 million and net gains on asset sales of \$4 million. Operating income in the first nine months of 2016 excluded rationalization charges of \$10 million and accelerated depreciation charges of \$1 million.

Europe, Middle East and Africa

	Three Months Ended September 30,				Nine Months Ended September 30,			
			Percent				Percent	
(In millions)	2017	2016	Change	Change	2017	2016	Change	Change
Tire Units	14.9	15.4	(0.5)	(4.0)%	43.4	47.0	(3.6)	(7.8)%
Net Sales	\$1,311	\$1,236	\$ 75	6.1 %	\$3,664	\$3,748	\$ (84)	(2.2)%
Operating Income	87	152	(65)	(42.8)%	262	380	(118)	(31.1)%
Operating Margin	6.6 %	12.3 %			7.2 %	10.1 %		

Three Months Ended September 30, 2017 and 2016

Europe, Middle East and Africa unit sales in the third quarter of 2017 decreased 0.5 million units, or 4.0%, to 14.9 million units. OE tire volume decreased 0.4 million units, or 12.2%, primarily in our consumer business, driven by 16" and below rim size tires, primarily as a result of the continuation of our OE selectivity strategy and reduced OEM production on certain fitments. Replacement tire volume decreased 0.1 million units, or 1.4%.

Net sales in the third quarter of 2017 were \$1,311 million, increasing \$75 million, or 6.1%, from \$1,236 million in the third quarter of 2016. Net sales increased primarily due to improvements in price and product mix of \$61 million, primarily driven by the impact of higher raw material costs on pricing, and favorable foreign currency translation of \$59 million, primarily due to strengthening of the euro, partially offset by devaluation of the Turkish lira. These increases were partially offset by lower tire unit volume of \$47 million.

Operating income in the third quarter of 2017 was \$87 million, decreasing \$65 million, or 42.8%, from \$152 million in the third quarter of 2016. Operating income decreased primarily due to higher raw material costs of \$116 million which more than offset improvements in price and product mix of \$63 million, higher conversion costs of \$17 million, primarily related to increased under-absorbed overhead due to lower production levels, and lower volume of \$14

million. These decreases were partially offset by lower SAG of \$13 million, mainly related to lower wages and benefits and lower advertising costs. SAG and conversion costs included incremental savings from rationalization plans of \$4 million and \$14 million, respectively.

Operating income in the third quarter of 2017 excluded net rationalization charges of \$25 million, primarily related to plans initiated to streamline operations and reduce complexity across EMEA, and accelerated depreciation of \$10 million, related to the closure of our tire manufacturing facility in Philippsburg, Germany.

- 37-

Operating income in the third quarter of 2016 excluded net rationalization charges of \$126 million, primarily related to the plan to close our manufacturing facility in Philippsburg, Germany and programs initiated to streamline operations and reduce complexity across EMEA, net gains on asset sales of \$18 million, primarily related to the sale of a former wire plant site in Luxembourg, and accelerated depreciation of \$2 million, primarily related to the closure of our Wolverhampton, U.K. mixing and retreading facility.

Nine Months Ended September 30, 2017 and 2016

Europe, Middle East and Africa unit sales in the first nine months of 2017 decreased 3.6 million units, or 7.8%, to 43.4 million units. Replacement tire volume decreased 2.6 million units, or 7.8%, primarily in our consumer business driven by decreased industry demand and increased competition. OE tire volume decreased 1.0 million units, or 8.0%, primarily in our consumer business, driven by 16" and below rim size tires, primarily as a result of the continuation of our OE selectivity strategy, increased competition and reduced OEM production.

Net sales in the first nine months of 2017 were \$3,664 million, decreasing \$84 million, or 2.2%, from \$3,748 million in the first nine months of 2016. Net sales decreased due to lower tire unit volume of \$282 million, partially offset by improvements in price and product mix of \$182 million, primarily driven by the impact of higher raw material costs on pricing, and foreign currency translation of \$18 million, due to strengthening of currencies across the region, partially offset by devaluation of the Turkish lira and British pound.

Operating income in the first nine months of 2017 was \$262 million, decreasing \$118 million, or 31.1% from \$380 million in the first nine months of 2016. Operating income decreased primarily due to higher raw material costs of \$167 million that more than offset improvements in price and product mix of \$116 million, lower volume of \$84 million and higher conversion costs of \$30 million, primarily related to under-absorbed overhead due to lower production levels. These decreases were partially offset by lower SAG of \$47 million, driven by lower advertising costs and wages and benefits. SAG and conversion costs included incremental savings from rationalization plans of \$9 million and \$27 million, respectively.

Operating income in the first nine months of 2017 excluded net rationalization charges of \$78 million, primarily related to plans initiated to streamline operations and reduce complexity across EMEA, accelerated depreciation of \$39 million, primarily related to the closure of our tire manufacturing facility in Philippsburg, Germany, and gains on asset sales of \$10 million, primarily related to the sale of a former wire plant site in Luxembourg.

Operating income in the first nine months of 2016 excluded net rationalization charges of \$179 million, primarily related to the plan to close our manufacturing facility in Philippsburg, Germany and programs initiated to streamline operations and reduce complexity across EMEA, net gains on asset sales of \$18 million, primarily related to the sale of a former wire plant site in Luxembourg, and accelerated depreciation of \$9 million, primarily related to the closure of our Wolverhampton, U.K. mixing and retreading facility.

Asia Pacific

	Three Months Ended September 30,				Nine Months Ended September 30,			
			Percent				Percent	
(In millions)	2017	2016	Change	Change	2017	2016	Change	Change
Tire Units	7.8	8.0	(0.2)	(1.5)%	22.4	22.6	(0.2)	(0.8)%
Net Sales	\$569	\$541	\$ 28	5.2 %	\$1,614	\$1,558	\$ 56	3.6 %
Operating Income	81	99	(18)	(18.2)%	225	270	(45)	(16.7)%
Operating Margin	14.2 %	18.3 %			13.9 %	17.3 %		

Three Months Ended September 30, 2017 and 2016

Asia Pacific unit sales in the third quarter of 2017 decreased 0.2 million units, or 1.5%, to 7.8 million units. Replacement tire volume decreased 0.1 million units, or 1.8%. OE tire volume decreased 0.1 million units, or 1.1%. Net sales in the third quarter of 2017 were \$569 million, increasing \$28 million, or 5.2%, from \$541 million in the third quarter of 2016. Net sales increased by \$34 million due to improvements in price and product mix, primarily due to the impact of raw materials on pricing, and by \$4 million due to favorable foreign currency translation. These increases were partially offset by lower volume of \$6 million.

Operating income in the third quarter of 2017 was \$81 million, decreasing \$18 million, or 18.2%, from \$99 million in the third quarter of 2016. Operating income decreased due to higher raw material costs of \$41 million, which more than offset improvements in price and product mix of \$28 million, a decrease in incentives recognized for the expansion of our factory in China of \$5 million, higher conversion costs of \$4 million, lower volume of \$3 million, and a decrease in other tire-related businesses of \$3 million. These decreases were partially offset by lower SAG of \$7 million, primarily due to lower incentive compensation.

- 38-

Operating income in the third quarter of 2017 excluded net rationalization charges of \$1 million.

Nine Months Ended September 30, 2017 and 2016

Asia Pacific unit sales in the first nine months of 2017 decreased 0.2 million units, or 0.8%, to 22.4 million units.

Replacement tire volume increased 0.1 million units, or 0.6%. OE tire volume decreased 0.3 million units, or 2.9%, primarily in our consumer business in China, partially offset by increases in India.

Net sales in the first nine months of 2017 were \$1,614 million, increasing \$56 million, or 3.6%, from \$1,558 million in the first nine months of 2016. Net sales increased by \$73 million due to improvements in price and product mix, primarily due to the impact of raw materials on pricing. The increase was partially offset by lower volume of \$9 million and lower sales in other tire-related businesses of \$5 million.

Operating income in the first nine months of 2017 was \$225 million, decreasing \$45 million, or 16.7%, from \$270 million in the first nine months of 2016. Operating income decreased due to higher raw material costs of \$97 million, which more than offset improvements in price and product mix of \$82 million, lower income in other tire-related businesses of \$10 million, a decrease in incentives recognized for the expansion of our factory in China of \$8 million, unfavorable foreign currency translation of \$5 million, and lower volume of \$5 million.

Operating income in the first nine months of 2017 excluded net rationalization charges of \$2 million. Operating income in the first nine months of 2016 excluded net gains on asset sales of \$1 million and net rationalization charges of \$1 million.

LIQUIDITY AND CAPITAL RESOURCES

Our primary sources of liquidity are cash generated from our operating and financing activities. Our cash flows from operating activities are driven primarily by our operating results and changes in our working capital requirements and our cash flows from financing activities are dependent upon our ability to access credit or other capital.

At September 30, 2017, we had \$822 million in Cash and cash equivalents, compared to \$1,132 million at December 31, 2016. For the nine months ended September 30, 2017, net cash used by operating activities was \$154 million, primarily driven by cash used for working capital of \$1,056 million, that was partially offset by net income of \$455 million, which included non-cash charges for depreciation and amortization of \$586 million. Net cash used in investing activities was \$675 million, primarily reflecting capital expenditures of \$683 million. Net cash provided by financing activities was \$457 million, primarily due to net borrowings of \$800 million, partially offset by cash used for common stock repurchases and dividends of \$280 million.

At September 30, 2017, we had \$2,420 million of unused availability under our various credit agreements, compared to \$2,970 million at December 31, 2016. The table below presents unused availability under our credit facilities at those dates:

	September 30, 2017	December 31, 2016
(In millions)		
First lien revolving credit facility	\$ 1,322	\$ 1,506
European revolving credit facility	260	579
Chinese credit facilities	218	252
Other foreign and domestic debt	269	319
Notes payable and overdrafts	351	314
	\$ 2,420	\$ 2,970

We have deposited our cash and cash equivalents and entered into various credit agreements and derivative contracts with financial institutions that we considered to be substantial and creditworthy at the time of such transactions. We seek to control our exposure to these financial institutions by diversifying our deposits, credit agreements and derivative contracts across multiple financial institutions, by setting deposit and counterparty credit limits based on long term credit ratings and other indicators of credit risk such as credit default swap spreads, and by monitoring the financial strength of these financial institutions on a regular basis. We also enter into master netting agreements with counterparties when possible. By controlling and monitoring exposure to financial institutions in this manner, we believe that we effectively manage the risk of loss due to nonperformance by a financial institution. However, we cannot provide assurance that we will not experience losses or delays in accessing our deposits or lines of credit due to the nonperformance of a financial institution. Our inability to access our cash deposits or make draws on our lines of credit, or the inability of a counterparty to fulfill its contractual obligations to us, could have a material adverse effect on our liquidity, financial position or results of operations in the period in which it occurs.

We expect our 2017 cash flow needs to include capital expenditures of approximately \$800 million to \$900 million. We also expect interest expense to range between \$345 million and \$355 million, restructuring payments to be approximately \$225 million, dividends on our common stock to be approximately \$110 million, and contributions to our funded non-U.S. pension plans to be approximately \$50 million to \$75 million. We expect working capital to be a use of cash of approximately \$150 million in 2017. We intend to operate the business in a way that allows us to address these needs with our existing cash and available credit if they cannot be funded by cash generated from operations.

We believe that our liquidity position is adequate to fund our operating and investing needs and debt maturities in 2017 and to provide us with flexibility to respond to further changes in the business environment.

Our ability to service debt and operational requirements is also dependent, in part, on the ability of our subsidiaries to make distributions of cash to various other entities in our consolidated group, whether in the form of dividends, loans or otherwise. In certain countries where we operate, such as China and South Africa, transfers of funds into or out of such countries by way of dividends, loans, advances or payments to third-party or affiliated suppliers are generally or periodically subject to certain requirements, such as obtaining approval from the foreign government and/or currency

exchange board before net assets can be transferred out of the country. In addition, certain of our credit agreements and other debt instruments limit the ability of foreign subsidiaries to make distributions of cash. Thus, we would have to repay and/or amend these credit agreements and other debt instruments in order to use this cash to service our consolidated debt. Because of the inherent uncertainty of satisfactorily meeting these requirements or limitations, we do not consider the net assets of our subsidiaries, including our Chinese and South African subsidiaries, that are subject to such requirements or limitations to be integral to our liquidity or our ability to service our debt and operational requirements. At September 30, 2017, approximately \$809 million of net assets, including \$139 million of cash and cash equivalents, were subject to such requirements. The requirements we must comply with to transfer funds out of China and South Africa have not adversely impacted our ability to make transfers out of those countries.

- 40-

Operating Activities

Net cash used by operating activities was \$154 million in the first nine months of 2017, compared to net cash provided by operating activities of \$290 million in the first nine months of 2016. Net cash used by operating activities in the first nine months of 2017 increased compared to 2016 primarily due to the \$262 million decrease in net income, a \$106 million increase in cash used for working capital and a \$28 million increase in rationalization payments, driven by the closure of the Philippsburg, Germany manufacturing facility.

The increased use of cash for working capital in 2017 was primarily due to an increase of \$237 million in cash used for accounts receivable, reflecting the impact of higher raw material costs on our pricing during 2017. This increase was partially offset by a \$149 million decrease in cash used for accounts payable primarily due to the timing of current year payments, with higher average raw material prices being included in Accounts Payable - Trade on the balance sheet at September 30, 2017 as compared to 2016.

Investing Activities

Net cash used in investing activities was \$675 million in the first nine months of 2017, compared to \$708 million in the first nine months of 2016. Capital expenditures were \$683 million in the first nine months of 2017, compared to \$711 million in the first nine months of 2016. Beyond expenditures required to sustain our facilities, capital expenditures in 2017 and 2016 primarily related to the construction of a new manufacturing facility in Mexico and investments in additional capacity around the world.

Financing Activities

Net cash provided by financing activities was \$457 million in the first nine months of 2017, compared to net cash used by financing activities of \$109 million in the first nine months of 2016. Financing activities in 2017 included net borrowings of \$800 million, which were partially offset by common stock repurchases of \$205 million, dividends on our common stock of \$75 million, and debt related costs and other transactions of \$69 million, primarily due to debt refinancing activities. Financing activities in 2016 included net borrowings of \$224 million, which were partially offset by common stock repurchases of \$200 million, debt related costs and other transactions of \$77 million, primarily due to debt refinancing activities, and dividends on our common stock of \$56 million.

Credit Sources

In aggregate, we had total credit arrangements of \$8,851 million available at September 30, 2017, of which \$2,420 million were unused, compared to \$8,491 million available at December 31, 2016, of which \$2,970 million were unused. At September 30, 2017, we had long term credit arrangements totaling \$8,224 million, of which \$2,069 million were unused, compared to \$7,932 million and \$2,656 million, respectively, at December 31, 2016. At September 30, 2017, we had short term committed and uncommitted credit arrangements totaling \$627 million, of which \$351 million were unused, compared to \$559 million and \$314 million, respectively, at December 31, 2016. The continued availability of the short term uncommitted arrangements is at the discretion of the relevant lender and may be terminated at any time.

Outstanding Notes

At September 30, 2017, we had \$3,321 million of outstanding notes, compared to \$3,287 million at December 31, 2016.

\$700 million 4.875% Senior Notes due 2027

In March 2017, we issued \$700 million in aggregate principal amount of 4.875% senior notes due 2027. In May 2017, we used the proceeds of this offering, together with cash and cash equivalents, to redeem in full our \$700 million 7% senior notes due 2022.

\$2.0 Billion Amended and Restated First Lien Revolving Credit Facility due 2021

Our amended and restated first lien revolving credit facility is available in the form of loans or letters of credit, with letter of credit availability limited to \$800 million. Availability under the facility is subject to a borrowing base, which is based primarily on (i) eligible accounts receivable and inventory of The Goodyear Tire & Rubber Company and certain of its U.S. and Canadian subsidiaries, (ii) the value of our principal trademarks, and (iii) certain cash in an amount not to exceed \$200 million. To the extent that our eligible accounts receivable and inventory and other components of the borrowing base decline in value, our borrowing base will decrease and the availability under the facility may decrease below \$2.0 billion. In addition, if the amount of outstanding borrowings and letters of credit

under the facility exceeds the borrowing base, we are required to prepay borrowings and/or cash collateralize letters of credit sufficient to eliminate the excess. As of September 30, 2017, our borrowing base, and therefore our availability, under the facility was \$266 million below the facility's stated amount of \$2.0 billion. Based on our current liquidity, amounts drawn under this facility bear interest at LIBOR plus 125 basis points, and undrawn amounts under the facility will be subject to an annual commitment fee of 30 basis points.

- 41-

At September 30, 2017, we had \$375 million of borrowings and \$37 million of letters of credit issued under the revolving credit facility. At December 31, 2016, we had \$85 million of borrowings and \$40 million of letters of credit issued under the revolving credit facility.

During 2016, we began entering into bilateral letter of credit agreements. At September 30, 2017, we had \$326 million in letters of credit issued under these agreements.

Amended and Restated Second Lien Term Loan Facility due 2019

In March 2017, we amended our second lien term loan facility. As a result of the amendment, the term loan now bears interest, at our option, at (i) 200 basis points over LIBOR or (ii) 100 basis points over an alternative base rate (the higher of (a) the prime rate, (b) the federal funds effective rate or the overnight bank funding rate plus 50 basis points or (c) LIBOR plus 100 basis points). In addition, if the Total Leverage Ratio is equal to or less than 1.25 to 1.00, we have the option to further reduce the spreads described above by 25 basis points. "Total Leverage Ratio" has the meaning given it in the facility.

At September 30, 2017 and December 31, 2016, the amounts outstanding under this facility were \$399 million.

€550 Million Amended and Restated Senior Secured European Revolving Credit Facility due 2020

Our amended and restated €550 million European revolving credit facility consists of (i) a €125 million German tranche that is available only to Goodyear Dunlop Tires Germany GmbH ("GDTG") and (ii) a €425 million all-borrower tranche that is available to Goodyear Dunlop Tires Europe B.V. ("GDTE"), GDTG and Goodyear Dunlop Tires Operations S.A. Up to €150 million of swingline loans and €50 million in letters of credit are available for issuance under the all-borrower tranche. Amounts drawn under the facility will bear interest at LIBOR plus 175 basis points for loans denominated in U.S. dollars or pounds sterling and EURIBOR plus 175 basis points for loans denominated in euros, and undrawn amounts under the facility will be subject to an annual commitment fee of 30 basis points.

At September 30, 2017, there were \$148 million (€125 million) of borrowings outstanding under the German tranche and there were \$242 million (€205 million) of borrowings outstanding under the all-borrower tranche. At December 31, 2016, there were no borrowings outstanding under the European revolving credit facility. There were no letters of credit issued at September 30, 2017 and December 31, 2016.

Each of our first lien revolving credit facility and our European revolving credit facility have customary representations and warranties including, as a condition to borrowing, that all such representations and warranties are true and correct, in all material respects, on the date of the borrowing, including representations as to no material adverse change in our business or financial condition since December 31, 2015 under the first lien facility and December 31, 2014 under the European facility.

Accounts Receivable Securitization Facilities (On-Balance Sheet)

GDTE and certain other of our European subsidiaries are parties to a pan-European accounts receivable securitization facility that provides the flexibility to designate annually the maximum amount of funding available under the facility in an amount of not less than €45 million and not more than €450 million. For the period beginning October 16, 2016 to October 15, 2017, the designated maximum amount of the facility was €320 million. Effective October 16, 2017, the designated maximum amount of the facility was reduced to €275 million.

The facility involves an ongoing daily sale of substantially all of the trade accounts receivable of certain GDTE subsidiaries. Utilization under the facility is based on eligible receivable balances.

The funding commitments under the facility will expire upon the earliest to occur of: (a) September 25, 2019, (b) the non-renewal and expiration (without substitution) of all of the back-up liquidity commitments, (c) the early termination of the facility according to its terms (generally upon an Early Amortisation Event (as defined in the facility), which includes, among other things, events similar to the events of default under our senior secured credit facilities; certain tax law changes; or certain changes to law, regulation or accounting standards), or (d) our request for early termination of the facility. The facility's current back-up liquidity commitments will expire on October 15, 2018. At September 30, 2017, the amounts available and utilized under this program totaled \$241 million (€204 million). At December 31, 2016, the amounts available and utilized under this program totaled \$198 million (€188 million). The program does not qualify for sale accounting, and accordingly, these amounts are included in Long Term Debt and Capital Leases.

In addition to the pan-European accounts receivable securitization facility discussed above, subsidiaries in Australia have an accounts receivable securitization program that provides flexibility to designate semi-annually the maximum amount of funding available under the facility in an amount of not less than 60 million Australian dollars and not more than 85 million Australian dollars. From July 1, 2016 to December 31, 2017, the designated maximum amount of the facility is 60 million Australian dollars. Availability under this program is based on eligible receivable balances. At September 30, 2017, the amounts available and utilized under this program were \$31 million (AUD 39 million) and \$29 million (AUD 37 million), respectively. At December 31, 2016,

- 42-

the amounts available and utilized under this program were \$28 million (AUD 39 million) and \$12 million (AUD 16 million), respectively. The receivables sold under this program also serve as collateral for the related facility. We retain the risk of loss related to these receivables in the event of non-payment. These amounts are included in Long Term Debt and Capital Leases due Within One Year.

Accounts Receivable Factoring Facilities (Off-Balance Sheet)

We have sold certain of our trade receivables under off-balance sheet programs during the first nine months of 2017. For these programs, we have concluded that there is generally no risk of loss to us from non-payment of the sold receivables. At September 30, 2017, the gross amount of receivables sold was \$495 million, compared to \$502 million at December 31, 2016.

Supplier Financing

We have entered into payment processing agreements with several financial institutions. Under these agreements, the financial institution acts as our paying agent with respect to accounts payable due to our suppliers. These agreements also allow our suppliers to sell their receivables to the financial institutions at the sole discretion of both the supplier and the financial institution on terms that are negotiated between them. We are not always notified when our suppliers sell receivables under these programs. Our obligations to our suppliers, including the amounts due and scheduled payment dates, are not impacted by our suppliers' decisions to sell their receivables under the programs. Agreements for such financing programs totaled up to \$500 million at September 30, 2017 and December 31, 2016.

Further Information

For a further description of the terms of our outstanding notes, first lien revolving credit facility, second lien term loan facility, European revolving credit facility and pan-European accounts receivable securitization facility, please refer to Note to the Consolidated Financial Statements No. 15, Financing Arrangements and Derivative Financial Instruments, in our 2016 Form 10-K and Note to the Consolidated Financial Statements No. 7, Financing Arrangements and Derivative Financial Instruments, in this Form 10-Q.

Covenant Compliance

Our first and second lien credit facilities and some of the indentures governing our notes contain certain covenants that, among other things, limit our ability to incur additional debt or issue redeemable preferred stock, pay dividends, repurchase shares or make certain other restricted payments or investments, incur liens, sell assets, incur restrictions on the ability of our subsidiaries to pay dividends or to make other payments to us, enter into affiliate transactions, engage in sale and leaseback transactions, and consolidate, merge, sell or otherwise dispose of all or substantially all of our assets. These covenants are subject to significant exceptions and qualifications. Our first and second lien credit facilities and the indentures governing our notes also have customary defaults, including cross-defaults to material indebtedness of Goodyear and its subsidiaries.

We have additional financial covenants in our first and second lien credit facilities that are currently not applicable. We only become subject to these financial covenants when certain events occur. These financial covenants and related events are as follows:

We become subject to the financial covenant contained in our first lien revolving credit facility when the aggregate amount of our Parent Company (The Goodyear Tire & Rubber Company) and guarantor subsidiaries cash and cash equivalents ("Available Cash") plus our availability under our first lien revolving credit facility is less than \$200 million. If this were to occur, our ratio of EBITDA to Consolidated Interest Expense may not be less than 2.0 to 1.0 for the most recent period of four consecutive fiscal quarters. As of September 30, 2017, our availability under this facility of \$1,322 million, plus our Available Cash of \$95 million, totaled \$1,417 million, which is in excess of \$200 million.

We become subject to a covenant contained in our second lien credit facility upon certain asset sales. The covenant provides that, before we use cash proceeds from certain asset sales to repay any junior lien, senior unsecured or subordinated indebtedness, we must first offer to use such cash proceeds to prepay borrowings under the second lien credit facility unless our ratio of Consolidated Net Secured Indebtedness to EBITDA (Pro Forma Senior Secured Leverage Ratio) for any period of four consecutive fiscal quarters is equal to or less than 3.0 to 1.0.

In addition, our European revolving credit facility contains non-financial covenants similar to the non-financial covenants in our first and second lien credit facilities that are described above and a financial covenant applicable only

to GDTE and its subsidiaries. This financial covenant provides that we are not permitted to allow GDTE's ratio of Consolidated Net J.V. Indebtedness to Consolidated European J.V. EBITDA for a period of four consecutive fiscal quarters to be greater than 3.0 to 1.0 at the end of any fiscal quarter. Consolidated Net J.V. Indebtedness is determined net of the sum of cash and cash equivalents in excess of \$100 million held by GDTE and its subsidiaries, cash and cash equivalents in excess of \$150 million held by the Parent Company and its U.S. subsidiaries, and availability under our first lien revolving credit facility if the ratio of EBITDA to Consolidated Interest Expense described above is not applicable and the conditions to borrowing under the first lien revolving credit facility are met. Consolidated Net J.V. Indebtedness also excludes loans from other consolidated Goodyear entities. This financial covenant is also included in

- 43-

our pan-European accounts receivable securitization facility. At September 30, 2017, we were in compliance with this financial covenant.

Our credit facilities also state that we may only incur additional debt or make restricted payments that are not otherwise expressly permitted if, after giving effect to the debt incurrence or the restricted payment, our ratio of EBITDA to Consolidated Interest Expense for the prior four fiscal quarters would exceed 2.0 to 1.0. Certain of our senior note indentures have substantially similar limitations on incurring debt and making restricted payments. Our credit facilities and indentures also permit the incurrence of additional debt through other provisions in those agreements without regard to our ability to satisfy the ratio-based incurrence test described above. We believe that these other provisions provide us with sufficient flexibility to incur additional debt necessary to meet our operating, investing and financing needs without regard to our ability to satisfy the ratio-based incurrence test.

Covenants could change based upon a refinancing or amendment of an existing facility, or additional covenants may be added in connection with the incurrence of new debt.

At September 30, 2017, we were in compliance with the currently applicable material covenants imposed by our principal credit facilities and indentures.

The terms “Available Cash,” “EBITDA,” “Consolidated Interest Expense,” “Consolidated Net Secured Indebtedness,” “Pro Forma Senior Secured Leverage Ratio,” “Consolidated Net J.V. Indebtedness” and “Consolidated European J.V. EBITDA” have the meanings given them in the respective credit facilities.

Potential Future Financings

In addition to our previous financing activities, we may seek to undertake additional financing actions which could include restructuring bank debt or capital markets transactions, possibly including the issuance of additional debt or equity. Given the challenges that we face and the uncertainties of the market conditions, access to the capital markets cannot be assured.

Our future liquidity requirements may make it necessary for us to incur additional debt. However, a substantial portion of our assets are already subject to liens securing our indebtedness. As a result, we are limited in our ability to pledge our remaining assets as security for additional secured indebtedness. In addition, no assurance can be given as to our ability to raise additional unsecured debt.

Dividends and Common Stock Repurchase Program

Under our primary credit facilities and some of our note indentures, we are permitted to pay dividends on and repurchase our capital stock (which constitute restricted payments) as long as no default will have occurred and be continuing, additional indebtedness can be incurred under the credit facilities or indentures following the payment, and certain financial tests are satisfied.

During the third quarter of 2017, cash dividends of \$0.10 per share were declared on July 12, 2017 and paid on September 1, 2017. During the third quarter of 2016, cash dividends of \$0.07 per share were declared on July 12, 2016 and paid on September 1, 2016, and cash dividends of \$0.10 per share were declared on September 7, 2016 and paid during the fourth quarter of 2016 on December 1, 2016. In the first nine months of 2017 and 2016, we paid cash dividends of \$75 million and \$56 million, respectively, on our common stock. On October 10, 2017, the Board of Directors (or a duly authorized committee thereof) declared cash dividends of \$0.14 per share of common stock, or approximately \$35 million in the aggregate, which represents an increase of \$0.04 per share. The dividend will be paid on December 1, 2017 to stockholders of record as of the close of business on November 1, 2017. Future quarterly dividends are subject to Board approval. We will pay dividends of \$0.44 per share during 2017, and paid dividends of \$0.31 per share during 2016.

On September 18, 2013, the Board of Directors approved our common stock repurchase program. From time to time, the Board of Directors has approved increases in the amount authorized to be purchased under that program. On February 2, 2017, the Board of Directors approved a further increase in that authorization to an aggregate of \$2.1 billion. This program expires on December 31, 2019. We intend to repurchase shares of common stock in open market transactions in order to offset new shares issued under equity compensation programs and to provide for additional shareholder returns. During the third quarter of 2017, we repurchased 5,592,239 shares at an average price, including commissions, of \$31.29 per share, or \$175 million in the aggregate. During the first nine months of 2017, we repurchased 6,435,359 shares at an average price, including commissions, of \$31.88 per share, or \$205 million in the

aggregate. Since 2013, we repurchased 37,649,469 shares at an average price, including commissions, of \$29.71 per share, or \$1,118 million in the aggregate.

The restrictions imposed by our credit facilities and indentures did not affect our ability to pay the dividends on or repurchase our capital stock as described above, and are not expected to affect our ability to pay similar dividends or make similar repurchases in the future.

Asset Dispositions

The restrictions on asset sales imposed by our material indebtedness have not affected our strategy of divesting non-core businesses, and those divestitures have not affected our ability to comply with those restrictions.

- 44-

FORWARD-LOOKING INFORMATION — SAFE HARBOR STATEMENT

Certain information in this Form 10-Q (other than historical data and information) may constitute forward-looking statements regarding events and trends that may affect our future operating results and financial position. The words “estimate,” “expect,” “intend” and “project,” as well as other words or expressions of similar meaning, are intended to identify forward-looking statements. You are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date of this Quarterly Report on Form 10-Q. Such statements are based on current expectations and assumptions, are inherently uncertain, are subject to risks and should be viewed with caution. Actual results and experience may differ materially from the forward-looking statements as a result of many factors, including:

- if we do not successfully implement our strategic initiatives, our operating results, financial condition and liquidity may be materially adversely affected;

- we face significant global competition and our market share could decline;

- deteriorating economic conditions in any of our major markets, or an inability to access capital markets or third-party financing when necessary, may materially adversely affect our operating results, financial condition and liquidity;

- raw material and energy costs may materially adversely affect our operating results and financial condition;

- if we experience a labor strike, work stoppage or other similar event our business, results of operations, financial condition and liquidity could be materially adversely affected;

- our international operations have certain risks that may materially adversely affect our operating results, financial condition and liquidity;

- we have foreign currency translation and transaction risks that may materially adversely affect our operating results, financial condition and liquidity;

- our long term ability to meet our obligations, to repay maturing indebtedness or to implement strategic initiatives may be dependent on our ability to access capital markets in the future and to improve our operating results;

- financial difficulties, work stoppages, supply disruptions or economic conditions affecting our major OE customers, dealers or suppliers could harm our business;

- our capital expenditures may not be adequate to maintain our competitive position and may not be implemented in a timely or cost-effective manner;

- we have a substantial amount of debt, which could restrict our growth, place us at a competitive disadvantage or otherwise materially adversely affect our financial health;

- any failure to be in compliance with any material provision or covenant of our debt instruments, or a material reduction in the borrowing base under our revolving credit facility, could have a material adverse effect on our liquidity and operations;

- our variable rate indebtedness subjects us to interest rate risk, which could cause our debt service obligations to increase significantly;

- we have substantial fixed costs and, as a result, our operating income fluctuates disproportionately with changes in our net sales;

- we may incur significant costs in connection with our contingent liabilities and tax matters;

- our reserves for contingent liabilities and our recorded insurance assets are subject to various uncertainties, the outcome of which may result in our actual costs being significantly higher than the amounts recorded;

- we are subject to extensive government regulations that may materially adversely affect our operating results;

- we may be adversely affected by any disruption in, or failure of, our information technology systems due to computer viruses, unauthorized access, cyber-attack, natural disasters or other similar disruptions;

- if we are unable to attract and retain key personnel, our business could be materially adversely affected; and

- we may be impacted by economic and supply disruptions associated with events beyond our control, such as war, acts of terror, political unrest, public health concerns, labor disputes or natural disasters.

It is not possible to foresee or identify all such factors. We will not revise or update any forward-looking statement or disclose any facts, events or circumstances that occur after the date hereof that may affect the accuracy of any forward-looking statement.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

We utilize derivative financial instrument contracts and nonderivative instruments to manage interest rate, foreign exchange and commodity price risks. We have established a control environment that includes policies and procedures for risk assessment and the approval, reporting and monitoring of derivative financial instrument activities. We do not hold or issue derivative financial instruments for trading purposes.

Commodity Price Risk

The raw material costs to which our operations are principally exposed include the cost of natural rubber, synthetic rubber, carbon black, fabrics, steel cord and other petrochemical-based commodities. Approximately two-thirds of our raw materials are oil-based derivatives, the cost of which may be affected by fluctuations in the price of oil. We currently do not hedge commodity prices. We do, however, use various strategies to partially offset cost increases for raw materials, including centralizing purchases of raw materials through our global procurement organization in an effort to leverage our purchasing power, expanding our capabilities to substitute lower cost raw materials, and reducing the amount of material required in each tire.

Interest Rate Risk

We continuously monitor our fixed and floating rate debt mix. Within defined limitations, we manage the mix using refinancing. At September 30, 2017, 41% of our debt was at variable interest rates averaging 4.08%.

The following table presents information about long term fixed rate debt, excluding capital leases, at September 30, 2017:

(In millions)

Carrying amount — liability \$3,580

Fair value — liability 3,779

Pro forma fair value — liability 3,903

The pro forma information assumes a 100 basis point decrease in market interest rates at September 30, 2017, and reflects the estimated fair value of fixed rate debt outstanding at that date under that assumption. The sensitivity of our fixed rate debt to changes in interest rates was determined using current market pricing models.

Foreign Currency Exchange Risk

We enter into foreign currency contracts in order to reduce the impact of changes in foreign exchange rates on our consolidated results of operations and future foreign currency-denominated cash flows. These contracts reduce exposure to currency movements affecting existing foreign currency-denominated assets, liabilities, firm commitments and forecasted transactions resulting primarily from trade purchases and sales, equipment acquisitions, intercompany loans and royalty agreements. Contracts hedging short term trade receivables and payables normally have no hedging designation.

The following table presents foreign currency contract information at September 30, 2017:

(In millions)

Fair value — asset (liability) \$(14)

Pro forma decrease in fair value (127)

10/17

Contract maturities -

9/19

The pro forma decrease in fair value assumes a 10% adverse change in underlying foreign exchange rates at September 30, 2017, and reflects the estimated change in the fair value of contracts outstanding at that date under that assumption. The sensitivity of our foreign currency positions to changes in exchange rates was determined using current market pricing models.

Fair values are recognized on the Consolidated Balance Sheet at September 30, 2017 as follows:

(In millions)

Current asset (liability):

Accounts receivable \$6

Other current liabilities (18)

Long term asset (liability):

Other assets \$—

Other long term liabilities (2)

- 46-

For further information on foreign currency contracts, refer to Notes to the Consolidated Financial Statements No. 7, Financing Arrangements and Derivative Financial Instruments, in this Form 10-Q. Refer to “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Liquidity and Capital Resources” for a discussion of our management of counterparty risk.

ITEM 4. CONTROLS AND PROCEDURES.

Management’s Evaluation of Disclosure Controls and Procedures

We maintain “disclosure controls and procedures” which, consistent with Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended, we define to mean controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms, and to ensure that such information is accumulated and communicated to our management, including our principal executive and financial officers, as appropriate, to allow timely decisions regarding required disclosure.

Our management, with the participation of our principal executive and financial officers, has evaluated the effectiveness of our disclosure controls and procedures. Based on such evaluation, our principal executive and financial officers have concluded that such disclosure controls and procedures were effective as of September 30, 2017 (the end of the period covered by this Quarterly Report on Form 10-Q).

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Asbestos Litigation

As reported in our Form 10-Q for the period ended June 30, 2017, we were one of numerous defendants in legal proceedings in certain state and federal courts involving approximately 61,400 claimants relating to their alleged exposure to materials containing asbestos in products allegedly manufactured by us or asbestos materials present in our facilities. During the third quarter of 2017, approximately 500 new claims were filed against us and approximately 700 were settled or dismissed. The amount expended on asbestos defense and claim resolution by Goodyear and its insurance carriers during the third quarter of 2017 was \$2 million. At September 30, 2017, there were approximately 61,200 asbestos claims pending against us. The plaintiffs are seeking unspecified actual and punitive damages and other relief. Refer to Note to the Consolidated Financial Statements No. 11, Commitments and Contingent Liabilities, in this Form 10-Q for additional information on asbestos litigation.

Reference is made to Item 3 of Part I of our 2016 Form 10-K and to Item 1 of Part II of our Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2017 and our Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2017 for additional discussion of legal proceedings.

ITEM 1A. RISK FACTORS

Refer to "Item 1A. Risk Factors" in our 2016 Form 10-K for a discussion of our risk factors.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table presents information with respect to repurchases of common stock made by us during the three months ended September 30, 2017.

Period	Total Number of Shares Purchased (1)	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (2)
7/1/17-7/31/17	—	\$	—	\$1,156,490,275
8/1/17-8/31/17	2,056,136	30.38	2,056,136	1,094,018,918
9/1/17-9/30/17	3,536,103	31.82	3,536,103	981,490,337
Total	5,592,239	31.29	5,592,239	\$981,490,337

Total number of shares purchased as part of our common stock repurchase program and delivered to us by

- (1) employees as payment for the exercise price of stock options and the withholding taxes due upon the exercise of stock options or the vesting or payment of stock awards.

- (2) On September 18, 2013, the Board of Directors authorized \$100 million for use in our common stock repurchase program. From time to time, the Board of Directors has approved increases in the amount authorized to be purchased under that program. On February 2, 2017, the Board of Directors approved a further increase in that authorization to an aggregate of \$2.1 billion. This program expires on December 31, 2019. We intend to repurchase shares of common stock in open market transactions in order to offset new shares issued under equity compensation programs and to provide for additional shareholder returns. During the three month period ended September 30, 2017, we repurchased 5,592,239 shares at an average price, including commissions, of \$31.29 per share, or \$175 million in the aggregate.

ITEM 6. EXHIBITS.

Refer to the Index of Exhibits at page 49, which is by specific reference incorporated into and made a part of this Quarterly Report on Form 10-Q.
