ITEM 7. FINANCIAL STATEMENTS AND EXHIBITS.

(c) Exhibits.

99.1 Press Release dated January 28, 2004

ITEM 12. RESULTS OF OPERATIONS AND FINANCIAL CONDITION.

On January 28, 2004, Credit Acceptance Corporation (the "Company") issued a press release announcing its financial results for the three months and year ended December 31, 2003. The press release, dated January 28, 2004, is attached as Exhibit 99.1 to this Form 8-K.

The financial information included in the press release includes a presentation of net income excluding certain adjustments, in addition to the presentation of the Company's reported net income. The Company believes this information is helpful to investors in measuring the performance of the business, in that excluding the impact of items that are deemed unlikely to recur and foreign exchange losses on forward contracts more accurately reflects the financial performance of the business.

The financial information included in the press release also includes a return on capital analysis, which provides an additional perspective on the financial performance of the Company. The Company believes this information

provides a useful measurement of how effectively the Company is utilizing its capital.

Finally, the financial information included in the press release includes a presentation of economic profit. Management uses economic profit to assess the Company's performance and the amount of value created for shareholders as well as to make capital allocation decisions. The Company believes this information is important to shareholders because it allows shareholders to compare the returns earned by the Company investing capital in its business with the return they could expect if the Company returned capital to shareholders and they invested in other securities.
