Identification Number)

419 W. Pike Street, Jackson Center, Ohio

45334-0629

(Address of principal executive offices)

(Zip Code)

Registrant's telephone number, including area code: (937) 596-6849

Securities registered pursuant to Section 12(b) of the Exchange Act:

Title of each class:

Name of each exchange on which registered:

Common Stock (par value \$.10 per share)

New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Exchange Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.

Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports); and (2) has been subject to the filing requirements for the past 90 days. Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer Accelerated Filer Non-Accelerated Filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 126-2 of the Exchange Act.)

Yes No

The aggregate market value of the voting and non-voting common equity held by non-affiliates of the registrant as of January 31, 2006 was \$1,524,716,772, based on the closing price of the registrant's common shares on January 31, 2006, the last business day of the registrant's most recently completed second fiscal quarter. Solely for the purpose of this calculation and for no other purpose, the non-affiliates of the registrant are assumed to be all shareholders of the

registrant other than (i) directors of the registrant (ii) executive officers of the registrant who are identified as named executive officers pursuant to Item 11 of the registrant's Form 10-K and (iii) any shareholder that beneficially owns 10% or more of the registrant's common stock. Such exclusion is not intended, nor shall it be deemed, to be an admission that such persons are affiliates of the registrant. The number of common shares of registrant's stock outstanding as of August 31, 2006 was 55,699,086. Documents incorporated by reference:

Portions of the Proxy Statement for the Annual Meeting of Shareholders held on December 5, 2006 are incorporated by reference in Part III of this Annual Report on Form 10-K/A.

Explanatory Note

(All amounts presented in thousands)

This amendment on Form 10-K/A amends our Annual Report on Form 10-K for the fiscal year ended July 31, 2006, originally filed with the Securities and Exchange Commission (the SEC) on September 28, 2006. We have restated our previously issued financial statements as of July 31, 2006 and 2005, and for each of the years in the three-year period ended July 31, 2006, and the financial results in each of the quarterly periods in 2006 and 2005, and are filing this amendment to reflect the restated amounts. We have also restated our unaudited interim consolidated financial statements as of and for the three months ended October 31, 2006 and will shortly file an amendment to our Quarterly Report on Form 10-Q/A for such period. The effects of this restatement are reflected in the comparative amounts included in this Form 10-K/A.

On January 29, 2007, we announced that the Audit Committee of our Board of Directors (the Audit Committee) initiated an independent investigation regarding certain accounting issues at our Dutchmen Manufacturing, Inc. operating subsidiary (Dutchmen), primarily involving inventory, accounts receivable, accounts payable, and cost of products sold. We promptly and voluntarily informed the SEC of the Audit Committee's investigation, and have been responding to SEC staff requests for additional information in connection with the staff's investigation. The Audit Committee, assisted by independent outside legal counsel and accounting experts, thoroughly investigated the accounting issues raised at Dutchmen. The Audit Committee and its advisors also reviewed the internal controls at Dutchmen and other subsidiaries.

On April 9, 2007, we announced that on April 4, 2007 our Board of Directors, acting upon the recommendation of the Audit Committee and management, concluded that our previously issued consolidated financial statements relating to the fiscal years 2004, 2005 and 2006 and the three months ended October 31, 2006 contained in our filings with the SEC, including related reports of our independent registered public accounting firm, Deloitte & Touche LLP, and press releases, should no longer be relied upon.

The consolidated financial statements and related financial information contained in our Annual Reports on Form 10-K through July 31, 2006 should be read only in conjunction with the information contained in this Form 10-K/A. See Note A of our consolidated financial statements included in this Form 10-K/A for further discussion.

The Audit Committee's investigation confirmed the Company's determination that income before income taxes recorded by Dutchmen was overstated in the amount of approximately \$26,000 in the aggregate from fiscal year 2004 to the second quarter of fiscal year 2007, as a result of misconduct by Dutchmen's former Vice President of Finance, the senior financial officer of Dutchmen in which he intentionally understated the cost of products sold. Dutchmen's Vice President of Finance manipulated accounts reflecting inventory, accounts receivable, accounts payable, and cost of products sold, by entering and approving his own inaccurate journal entries as well as reconciling the related accounts, and prepared fraudulent supporting documentation, with the net effect of overstating Dutchmen's income before income taxes by approximately \$26,000 during the relevant period. The Audit Committee's investigation found no evidence to conclude that anyone else, at Dutchmen or elsewhere in the Company, knew of or participated in this misconduct or that there was theft or misappropriation of company assets. The Audit Committee's investigation also identified issues with respect to internal controls at Dutchmen, certain of the Company's other operating subsidiaries, and the Company's corporate finance and accounting office. The Company's conclusions regarding internal controls issues are more fully detailed in Item 9A of this report.

The Company's decision to restate its previously issued financial statements follows the Company's evaluation, considering the results from the Audit Committee's investigation, of accounting practices employed at Dutchmen during the periods restated. The cumulative effect of the restatement reported in this Annual Report on Form 10-K/A is a reduction to income before income taxes of \$21,121, or \$13,255 in net income, for the fiscal years 2004 through 2006 with the primary impact occurring in fiscal year 2006. The restated financial statements as of July 31, 2006 and 2005, and for each of the years in the three-year period ended July 31, 2006, and the financial results in each of the quarterly periods in 2006 and 2005, are reported in this Annual Report on Form 10-K/A.

The effects of these restatements are reflected in the financial statements and other supplemental data, including the unaudited quarterly data for fiscal years 2004, 2005 and 2006 and selected financial data, included in this Form 10-K/A. We have not amended and do not intend to amend any of our previously filed annual reports on Form 10-K

Edgar Filing: THOR INDUSTRIES INC - Form 10-K/A

for the periods affected by the restatement or adjustments other than in this Annual Report on Form 10-K/A or any of our previously filed Quarterly Reports on Form 10-Q other than our Quarterly Report on Form 10-Q/A for the three months ended October 31, 2006 being filed shortly after this report.

Table of Contents

We did not timely file our Quarterly Report on Form 10-Q for the quarter ended January 31, 2007 by the prescribed due date of March 12, 2007. At that time, the Audit Committee's investigation was ongoing. We expect to file our Quarterly Report on Form 10-Q for the quarter ended January 31, 2007 as soon as practicable after the filing of this report.

As a result of our failure to file quarterly reports on a timely basis, we are no longer eligible to use Form S-3 to register our securities with the SEC until all required reports under the Securities Exchange Act of 1934 have been timely filed for the 12 months prior to the filing of the registration statement for those securities.

The restatement, and the reasons for and events leading to the restatement, are described in more detail in Part II, Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations and Note A to our Consolidated Financial Statements Restatement of Financial Statements. This restatement affects the following areas of the report:

- Part I Item 1 Business (Forward Looking Statements subsection only);
- Part I Item 1A. Risk Factors;
- Part II Item 6. Selected Financial Data;
- Part II Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations;
- Part II Item 8. Financial Statements and Supplementary Data (Unaudited);
- Part II Item 9A. Controls and Procedures; and
- Part IV Item 15. Exhibits and Financial Statement Schedules, as described in Note A to our Consolidated Financial Statements Restatement of Financial Statements.

Except for the foregoing amended disclosures, the information in this Form 10-K/A generally has not been updated to reflect events that occurred after September 28, 2006, the original filing date of our Annual Report on Form 10-K for the fiscal year ended July 31, 2006.

PART I

Unless otherwise indicated, all amounts presented in thousands except units, square feet, share and per share data.

ITEM 1. BUSINESS

General Development of Business

Our company was founded in 1980 and produces and sells a wide range of recreation vehicles and small and mid-size buses in the United States and Canada. We are incorporated in Delaware and are the successor to a corporation of the same name which was incorporated in Nevada on July 29, 1980. Our principal executive office is located at 419 West Pike Street, Jackson Center, Ohio 45334 and our telephone number is (937)596-6849. Our Internet address is www.thorindustries.com. We maintain current reports, available free of charge, on our web site.

Our principal recreation vehicle operating subsidiaries are Airstream, Inc. (*Airstream*), CrossRoads RV (*CrossRoads*), Dutchmen Manufacturing, Inc. (*Dutchmen*), Four Winds International, Inc. (*Four Winds*), Keystone RV Company (*Keystone*), Komfort Corp. (*Komfort*), Citair, Inc. (*Citair*), Thor California, Inc. (*Thor California*), and Damon Corporation (*Damon*). Our principal bus operating subsidiaries are Champion Bus, Inc. (*Champion*), ElDorado National California, Inc. (*ElDorado California*), ElDorado National Kansas, Inc. (*ElDorado Kansas*) and Goshen Coach, Inc. (*Goshen Coach*).

On September 2, 2003, we acquired 100% of the common stock of Damon Corporation, a major manufacturer of Class A motorhomes and the largest builder of park models. The purchase price was \$29,619. In addition, immediately after the closing, the Company paid off a \$12,973 bank debt assumed in connection with the acquisition. On November 1, 2004 we completed our acquisition of the stock of DS Corp. dba CrossRoads RV, an Indiana corporation (*CrossRoads*), pursuant to an Agreement and Plan of Merger (the *Merger Agreement*), dated as of October 28, 2004, by and among our Company, Thor Acquisition Corp., a Delaware corporation and a wholly-owned subsidiary of our Company (*Acquisition Subsidiary*), CrossRoads and the securityholders of CrossRoads. CrossRoads is engaged in the business of manufacturing towable recreation vehicles. Under the terms of the Merger Agreement, Acquisition Subsidiary merged with and into CrossRoads, and CrossRoads continued as the surviving corporation (the *Merger*). In addition, as part of the Merger, certain members of management of CrossRoads entered into non-competition agreements with our Company.

The purchase price paid by us for the acquisition of the stock of CrossRoads was \$28,030, which was payable in cash and was funded from our cash on hand. The fair value of assets acquired and liabilities assumed was \$32,958 and \$4,928 respectively. The purchase price allocation includes \$1,176 of non-compete agreements, which will be amortized over two to seven years, \$20,485 of goodwill and \$794 for trademarks that are not subject to amortization. On May 27, 2005, we completed our acquisition of the Goshen Coach Division of Veritrans Specialty Vehicles, Inc. pursuant to an asset purchase agreement dated May 26, 2005 for cash of \$10,083. The fair value of assets acquired and liabilities assumed was \$10,354 and \$271 respectively.

Recreation Vehicles

Airstream

Our Airstream subsidiary manufactures and sells premium and medium-high priced travel trailers and motorhomes under the trade name *Airstream Classic*. Airstream Classic vehicles are distinguished by their rounded shape and bright aluminum finish and, in our opinion, constitute the most recognized product in the recreation vehicle industry. Airstream, responding to the demands of the market for a lighter, lower-cost product, also manufactures and sells the *Airstream Safari, International, Bambi* and *Base Camp* travel trailers. Airstream also sells the *Interstate* and *Westfalia* Class B motorhomes.

Dutchmen

Our Dutchmen subsidiary manufactures and sells conventional travel trailers and fifth wheels primarily under the trade names *Dutchmen, Four Winds, Aero, T@b, Grand Junction* and *Colorado*.

Table of Contents

Four Winds

Our Four Winds subsidiary manufactures and sells gasoline and diesel Class C and Class A motorhomes. Its products are sold under trade names such as *Four Winds, Hurricane, Windsport, Mandalay, Presidio, Dutchmen, Chateau* and *Fun Mover*.

CrossRoads

Our CrossRoads subsidiary manufactures and sells conventional travel trailers and fifth wheels under the trade names *Paradise Pointe, Cross Terrain, Cruiser, Zinger* and *Sunset Trail*.

Citair

Our Citair subsidiary manufactures moderately-priced travel trailers, fifth wheels, Class C motorhomes and truck campers. It operates under the name *General Coach* and sells recreation vehicles under the trade names *Citation* and *Corsair*.

Keystone

Our Keystone subsidiary manufactures and sells travel trailers and fifth wheels under trade names such as *Montana, Springdale, Hornet, Sprinter, Outback, Laredo, Everest, Mountaineer, Challenger,* and *Cougar*.

Komfort

Our Komfort subsidiary manufactures and sells travel trailers and fifth wheels under the trade names *Komfort* and *Trailblazer* primarily in the western United States and western Canada.

Thor California

Our Thor California subsidiary manufactures and sells travel trailers and fifth wheels under the trade names *Wanderer, Tahoe, Summit, Wave* and *Jazz* primarily in the western United States.

Damon Motor Coach

Damon Motor Coach manufactures and sells gasoline and diesel Class A motor homes under the names *Daybreak, Intruder, Challenger, Astoria, Tuscany* and *Outlaw*.

Breckenridge

Breckenridge is the park model division of Damon Corporation. Park models are factory built second homes designed for recreational living. They are towed to a destination site such as a lake, woods or park and are considered a country cottage.

We believe that our recreation vehicle business is the largest unit and revenue manufacturer in North America based on retail statistics published by Statistical Surveys, Inc. and publicly reported results.

Buses

EIDorado National

EIDorado National, comprised of our EIDorado Kansas and EIDorado California subsidiaries, manufactures and sells buses for transit, airport car rental and hotel/motel shuttles, paramedical transit for hospitals and nursing homes, tour and charter operations and other uses.

EIDorado National manufactures and sells buses under trade names such as *Aerolite, AeroElite, Aerotech, Escort, MST, Transmark, EZ Rider,* and *Axess*, its 40 foot bus. EIDorado National's plants are located in Salina, Kansas and Riverside, California.

Table of Contents*Champion Bus*

Champion manufactures and sells small and mid-size buses under trade names such as *Challenger*, *Defender*, and *Crusader*.

Goshen Coach

Goshen Coach manufactures and sells small and mid-size buses under trade names such as *GC II* and *Pacer*.

We believe that our bus division is the largest unit manufacturer of small and mid-size commercial buses in North America based on statistics published by the Mid-Size Bus Manufacturers Association.

Product Line Sales and Segment Information

The Company has three reportable segments: 1.) towable recreation vehicles, 2.) motorized recreation vehicles, and 3.) buses. The towable recreation vehicle segment consists of product lines from the following operating companies that have been aggregated: Airstream, Breckenridge, CrossRoads, Dutchmen, General Coach Hensall & Oliver, Keystone, Komfort, and Thor California. The motorized recreation vehicle segment consists of product lines from the following operating companies that have been aggregated: Airstream, Damon, Four Winds and Oliver. The bus segment consists of the following operating companies that have been aggregated: Champion Bus, ElDorado California, ElDorado Kansas, and Goshen Coach.

The table below sets forth the contribution of each of the Company's product lines to net sales in each of the last three fiscal years.

	2006		2005		2004	
	Amount	%	Amount	%	Amount	%
Recreation Vehicles:						
Towables	\$2,173,483	71	\$1,742,108	68	\$1,433,997	65
Motorized	577,025	19	566,138	22	539,010	25
Total Recreation Vehicles	2,750,508	90	2,308,246	90	1,973,007	90
Buses	315,768	10	249,895	10	214,732	10
Total Net Sales	\$3,066,276	100	\$2,558,141	100	\$2,187,739	100

Additional information concerning business segments is included in Note M of the Notes to the Company's Consolidated Financial Statements.

Recreation Vehicles*Overview*

We manufacture and sell a wide variety of recreation vehicles throughout the United States and Canada, as well as related parts and accessories. Recreation vehicle classifications are based upon standards established by the Recreation Vehicle Industry Association (RVIA). The principal types of recreation vehicles that we produce include conventional travel trailers, fifth wheels, Class A and Class C motorhomes and park models.

Travel trailers are non-motorized vehicles which are designed to be towed by passenger automobiles, pickup trucks, SUV's or vans. Travel trailers provide comfortable, self-contained living facilities for short periods of time. We produce conventional, and fifth wheel travel trailers. Conventional trailers are towed by means of a frame hitch attached to the towing vehicle. Fifth wheel trailers, designed to be towed by pickup trucks, are constructed with a raised forward section that is attached to the bed area of the pickup truck.

Park models are recreational dwellings towed to a permanent site such as a lake, woods or park. The maximum size of park models is 400 square feet. They provide comfortable self contained living and are second homes for their owners, according to *The Recreational Park Trailer Association*.

Table of Contents

A motorhome is a self-powered vehicle built on a motor vehicle chassis. Motorhomes are self-contained with their own lighting, heating, cooking, refrigeration, sewage holding and water storage facilities, so that they can be lived in without being attached to utilities.

Class A motorhomes, constructed on medium-duty truck chassis, are supplied complete with engine and drive train components by motor vehicle manufacturers such as Workhorse Custom Chassis, Spartan, Ford and Freightliner. We design, manufacture and install the living area and driver's compartment of Class A motorhomes. Class C motorhomes are built on a Ford, General Motors or Daimler Chrysler small truck or van chassis which includes an engine, drive train components, and a finished cab section. We construct a living area which has access to the driver's compartment and attaches to the cab section. Although they are not designed for permanent or semi-permanent living, recreation vehicles can provide comfortable living facilities for short periods of time.

Production

In order to minimize finished inventory, our recreation vehicles generally are produced to order. Our facilities are designed to provide efficient assembly line manufacturing of products. Capacity increases can be achieved at relatively low cost, largely by increasing the number of production employees or by acquiring or leasing additional facilities and equipment.

We purchase in finished form many of the components used in the production of our recreation vehicles. The principal raw materials used in the manufacturing processes for motorhomes and travel trailers are aluminum, lumber, plywood, plastic, fiberglass, and steel purchased from numerous suppliers. We believe that, except for chassis, substitute sources for raw materials and components are available with no material impact on our operations. We are able to obtain the benefit of volume price discounts for many of our purchases of raw materials and components by centralized purchasing.

Our relationship with our chassis suppliers is similar to all buyer/vendor relationships and no special contractual commitment is engaged in by either party. Historically, Ford and General Motors resort to an industry-wide allocation basis during restriction of supply. These allocations would be based on the volume of chassis previously purchased. Sales of motor homes and small buses rely on these chassis and are affected accordingly.

Generally, all of our operating subsidiaries introduce new or improved lines or models of recreation vehicles each year. Changes typically include new sizes and floorplans, different decors or design features, and engineering improvements.

Seasonality

Since recreation vehicles are used primarily by vacationers and campers, our recreation vehicle sales are seasonal and, in most geographical areas, tend to be significantly lower during the winter months than in other periods. As a result, recreation vehicle sales are historically lowest during the second fiscal quarter, which ends on January 31 of each year.

Marketing and Distribution

We market our recreation vehicles through independent dealers located throughout the United States and Canada. Each of our recreation vehicle operating subsidiaries maintains its own dealer organization, with some dealers carrying more than one of our product lines. As of July 31, 2006, there were approximately 1,500 dealers carrying our products in the U.S. and Canada. We believe that close working relationships between our management and sales personnel and the many independent dealers provide us with valuable information on customer preferences and the quality and marketability of our products. Additionally, by maintaining substantially separate dealer networks for each of our subsidiaries, our products are more likely to be competing against competitor's products in similar price ranges rather than against our other products. Park models are typically sold by park model dealers as well as by some travel trailer dealers.

Each of our recreation vehicle operating subsidiaries has an independent sales force to call on their dealers. Our most important sales promotions occur at the major recreation vehicle shows for dealers which take place throughout the year at different locations across the country. We benefit from the recreation vehicle awareness advertising and major marketing programs sponsored by the RVIA in national print media and television. We engage in a limited amount of consumer-oriented advertising for our recreation vehicles, primarily through industry magazines, the distribution of product brochures, direct mail advertising campaigns and the internet.

In our selection of individual dealers, we emphasize the dealer's financial strength to maintain a sufficient inventory of our products, as well as their reputation, experience, and ability to provide service. Many of our dealers carry the recreation vehicle lines of one or

Table of Contents

more of our competitors. Each of our operating subsidiaries has sales agreements with their dealers and these agreements are subject to annual review. No single recreation vehicle dealer accounted for more than 8% of our consolidated net sales of recreation vehicles during fiscal 2006.

Substantially all of our sales to dealers are made on terms requiring cash on delivery or within 10 days thereafter. We generally do not finance dealer purchases. Most dealers are financed on a floorplan basis by an unrelated bank or financing company which lends the dealer all or substantially all of the wholesale purchase price and retains a security interest in the vehicles purchased. As is customary in the recreation vehicle industry, we will execute a repurchase agreement with a lending institution financing a dealer's purchase of our products upon the lending institution's request and after completion of a credit investigation of the dealer involved. Repurchase agreements provide that for up to 12 months after a unit is financed and in the event of default by the dealer we will repurchase the unit repossessed by the lending institution for the amount then due, which is often less than 100% of the dealer's cost. The risk of loss under repurchase agreements is spread over numerous dealers and is further reduced by the high resale value of the units which we would be required to repurchase. In our experience, losses under repurchase agreements have not been significant and we believe that any future losses under these agreements would not have a material adverse effect on our company.

The losses incurred due to repurchase were approximately \$648, \$1,865 and \$642 in fiscal 2006, 2005 and 2004, respectively.

Joint Ventures

In March 1996, our Company and Cruise America, Inc. formed a 50/50 ownership joint venture, CAT Joint Venture LLC, to make short-term rentals of motorized recreation vehicles to the public. As of July 31, 2006 we were contingently liable for repurchase obligations of CAT Joint Venture inventory in the amount of approximately \$9,500. Thor Credit Corporation, operated by GE Consumer Finance, provides retail credit to ultimate purchasers of any recreation vehicle purchased from a Thor dealer. This retail credit program is not limited to Thor products.

Backlogs

As of July 31, 2006, the backlog for towable and motorized recreation vehicle orders was approximately \$229,823 and \$103,214, respectively, compared to \$202,177 and \$133,924 respectively, at July 31, 2005. Backlog represents unfilled dealer orders on a particular day which can and do fluctuate on a seasonal basis. In the recreation vehicle business our manufacturing time is quite short.

Historically, the amount of our current backlog compared to our backlog in previous periods reflects general economic and industry conditions and, together with other relevant factors such as continued acceptance of our products by the consumer, may be an indicator of our revenues in the near term.

Warranties

We currently provide purchasers of our recreation vehicles with a standard one or two-year limited warranty against defects in materials and workmanship and a standard two year limited warranty on certain major components separately warranted by the suppliers of these components. The chassis and engines of our motorhomes are warranted for three years or 36,000 miles by their manufacturers. A wholly owned captive insurance company provides coverage for product warranties.

Buses

Overview

Our line of buses are sold under the names Eldorado National, Champion Bus and Goshen Coach. Our line of small and mid-size buses consists of airport shuttle buses, intra-urban and inter-urban mass transportation buses, and buses for tourist uses. Our *Axess* 40 foot bus is designed for transit and airport shuttle uses.

Production

Our bus production facilities in Salina, Kansas; Riverside, California; Imlay City, Michigan; and Elkhart, Indiana are designed to provide efficient assembly line manufacturing of our buses. The vehicles are produced according to specific orders which are normally obtained by dealers. In April 2004, we moved out of leased premises in Chino, CA to new owned facilities in Riverside, CA.

Table of Contents

Some of the chassis, all of the engines and auxiliary units, and some of the seating and other components used in the production of our small and mid-size buses are purchased in finished form. Our Riverside, California, facility assembles chassis for our rear engine buses from industry standard components and assembles these buses directly on the chassis.

The principal raw materials used in the manufacturing of our buses are fiberglass, steel, aluminum, plywood, and plastic. We purchase most of the raw materials and components from numerous suppliers. We purchase most of our bus chassis from Ford, Freightliner and General Motors and engines from Cummins, Caterpillar, and John Deere. We believe that, except for chassis, raw materials and components could be purchased from other sources, if necessary, with no material impact on our operations.

Marketing and Distribution

We market our small and mid-size buses through a network of 80 independent dealers in the United States and Canada. We select dealers using criteria similar to those used in selecting recreation vehicle dealers. During fiscal 2006, one of our dealers accounted for 17% of the Company's bus net sales and another accounted for 11%. We also sell our small and mid-size buses directly to certain national accounts such as major rental car companies, hotel chains, and transit authorities. Most of our bus sales are derived from contracts with state and local transportation authorities, in some cases with partial funding from federal agencies.

Terms of sale are typically cash on delivery or through national floorplan financing institutions. Sales to some state transportation agencies and other government agencies may be on longer terms.

Backlog

As of July 31, 2006 the backlog for bus orders was approximately \$216,454 compared to \$130,566 at July 31, 2005. The time for fulfillment of bus orders is substantially longer than in the recreation vehicle industry because generally buses are made to customer specification. The existing backlog of bus orders is expected to be filled in fiscal 2007. Historically, the amount of our current backlog compared to our backlog in previous periods reflects general economic and industry conditions and, together with other relevant factors such as continued acceptance of our products by the consumer, may be an indicator of our revenues in the near term.

Warranties

We currently provide purchasers of our buses with a limited warranty for one year or 12,000 miles against defects in materials and workmanship, excluding only certain specified components which are separately warranted by suppliers. We provide body structure warranty on buses ranging from 2 years 50,000 miles to 5 years 75,000 miles. The chassis and engines of our small and mid-size buses are warranted for three years or 36,000 miles by their manufacturers. A wholly owned captive insurance company provides coverage for product warranties.

Regulation

We are subject to the provisions of the National Traffic and Motor Vehicle Safety Act and the safety standards for recreation vehicles, buses and recreation vehicle and bus components which have been promulgated thereunder by the U.S. Department of Transportation. Because of our sales in Canada, we are also governed by similar laws and regulations issued by the Canadian government.

We are a member of the Recreation Vehicle Industry Association (RVIA), a voluntary association of recreation vehicle manufacturers which promulgates recreation vehicle safety standards. We place an RVIA seal on each of our recreation vehicles to certify that the RVIA's standards have been met.

Both federal and state authorities have various environmental control standards relating to air, water, and noise pollution which affect our business and operations. For example, these standards, which are generally applicable to all companies, control our choice of paints, discharge of air compressor waste water and noise emitted by factories. We rely upon certifications obtained by chassis manufacturers with respect to compliance by our vehicles with all applicable emission control standards.

Table of Contents

We are also subject to the regulations promulgated by the Occupational Safety and Health Administration or OSHA. Our plants are periodically inspected by federal agencies concerned with health and safety in the work place, and by the RVIA, to ensure that our products comply with applicable governmental and industry standards.

We believe that our products and facilities comply in all material respects with applicable vehicle safety, environmental, RVIA, and OSHA regulations.

We do not believe that compliance with the regulations discussed above will have any material effect on our capital expenditures, earnings or competitive position.

Competition

Recreation Vehicles

The recreation vehicle industry is characterized by relative ease of entry, although the codes, standards, and safety requirements introduced in recent years are a deterrent to new competitors. The need to develop an effective dealer network also acts as a barrier to entry. The recreation vehicle market is intensely competitive with a number of other manufacturers selling products which compete directly with our products. Competition in the recreation vehicle industry is based upon price, design, value, quality, and service. We believe that the quality, design, and price of our products and the warranty coverage and service that we provide allow us to compete favorably for retail purchasers of recreation vehicles. We estimate that we are the largest recreation vehicle manufacturer in terms of units produced and revenue. According to Statistical Surveys our market shares for travel trailers and fifth wheels is 32% and motorhomes are at 15%.

Small and Mid-Size Buses

We estimate that we have a 39% market share of the U.S. and Canadian small and mid-size bus market after accounting for the acquisition of Goshen Coach on May 27, 2005. Our competitors offer lines of buses which compete with all of our products. Price, quality, and delivery are the primary competitive factors. As with recreation vehicles, we believe that the quality, design, and price of small and mid-size buses, the warranty coverage and service that we provide, and the loyalty of our customers allow us to compete favorably with similar products of our competitors.

Trademarks and Patents

We have registered United States and Canadian trademarks or licenses covering the principal trade names and model lines under which our products are marketed. We are not dependent upon any patents or technology licenses for the conduct of our business.

Employee Relations

At July 31, 2006, we had approximately 9,117 employees in the United States and 246 employees in Canada. Of these 9,363 employees, 1,112 are salaried. Citair's approximately 210 hourly employees are currently represented by certified labor organizations. Our Citair Hensall division contract was ratified on January 13, 2004 and will expire on September 30, 2006. Citair Oliver's contract was ratified on October 17, 2003 and will expire on October 16, 2008. Employees of our other subsidiaries are not represented by certified labor organizations. We believe that we maintain a good working relationship with our employees.

Information About Foreign and Domestic Operations and Export Sales

Sales from our Canadian operations and export sales to Canada from our U.S. operations amounted to approximately 1.3% and 10.0% in fiscal 2006, 1.5% and 9.8% in fiscal 2005, and 1.5% and 7.0% in fiscal 2004 respectively of our total net sales to unaffiliated customers.

Forward Looking Statements

This Annual Report on Form 10-K/A includes certain statements that are forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934 as amended. These forward looking statements involve uncertainties and risks. There can be no assurance that actual results will not differ from the Company's expectations. Factors which could cause materially different results include, among others, the Company's ability to become current in

Table of Contents

its filings with the SEC, additional issues that may arise in connection with the findings of the Audit Committee's investigation and the SEC's requests for additional information, fuel prices, fuel availability, interest rate increases, increased material costs, the success of new product introductions, the pace of acquisitions and cost structure improvements, competition and general economic conditions and other risks and uncertainties discussed more fully in Item 1A. Risk Factors below. We disclaim any obligation or undertaking to disseminate any updates or revisions to any forward looking statements contained in this Annual Report on Form 10-K/A or to reflect any change in our expectations after the date of this Annual Report on Form 10-K/A or any change in events, conditions or circumstances on which any statement is based, except as required by law.

Available Information

Our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and all amendments to those reports and the Proxy Statement for our Annual Meeting of Shareholders are made available, free of charge, on our web site, <http://www.thorindustries.com>, as soon as reasonably practicable after such reports have been filed with or furnished to the SEC.

ITEM 1A. RISK FACTORS

The following risk factors should be considered carefully in addition to the other information contained in this filing. The risks and uncertainties described below are not the only ones we face and represent some of the risks that our management believes are material to our company and our business. If any of the following risks actually occur, our business, financial condition or results of operations could be harmed.

Risks Relating to Our Investigation

The SEC is reviewing the facts and circumstances giving rise to the restatement of our previously issued financial statements.

As previously announced, in connection with an internal review of our Dutchmen Manufacturing, Inc. operating subsidiary, we promptly and voluntarily informed the SEC of the Audit Committee's independent investigation, and have been responding to SEC staff requests for additional information in connection with the staff's investigation. We continue to be in discussions with the SEC and intend to cooperate fully with the SEC. The investigation by the SEC staff could result in the SEC seeking various penalties and relief, including, without limitation, civil injunctive relief and/or civil monetary penalties or administrative relief. The nature of the relief or remedies the SEC may seek, if any, cannot be predicted at this time.

Risks Relating To Our Business

The recreation vehicle and small and mid-size bus industries are highly competitive.

The recreation vehicle and bus industries that we are currently engaged in are highly competitive and we have numerous competitors and potential competitors. Competition in these industries is based upon price, design, value, quality and service. Competitive pressures, especially in the entry-level segment of the recreation vehicle market for travel trailers, have, from time to time, resulted in a reduction of our profit margins. Sustained increases in these competitive pressures could have a material adverse effect on our results of operations. There can be no assurance that existing or new competitors will not develop products that are superior to our recreation vehicles or small or mid-size buses or that achieve better consumer acceptance, thereby adversely affecting our market share, sales volume and profit margins.

Our businesses are cyclical and this can lead to fluctuations in our operating results.

The industries in which we operate are cyclical and there can be substantial fluctuations in our manufacturing, shipments and operating results. Consequently, the results for any prior period may not be indicative of results for any future period.

External Factors Affecting Any Business.

Companies within the recreation vehicle and bus industries are subject to volatility in operating results due to external factors such as general economic conditions, including consumer confidence, employment rates, prevailing interest rates, inflation, and other economic conditions affecting consumer attitudes and disposable consumer income generally, demographic changes and political changes. Specific factors affecting the recreation vehicle and bus industries include:

overall consumer confidence and the level of discretionary consumer spending;

Table of Contents

inventory levels, including the level of retail sales by our dealers;

general economic conditions;

demographics, such as the retirement of baby boomers ;

interest rates;

employment trends;

the amount of backlog, which may be a predictor of near-term future revenues;

fuel availability and prices;

the adverse impact of terrorism on consumer spending and travel related activities; and

adverse impact on our margins of increases in raw material costs which we are unable to pass on to customers without negatively affecting sales.

Two dealers accounted for 28% of our bus sales. Loss of either dealer could have a significant effect on our bus business.

A significant portion of our sales of small and mid-size buses are derived from state and local transportation authorities.

Approximately 60% of our bus sales are derived from contracts with state and local transportation authorities, in most cases with partial funding from federal agencies. There can be no assurance that these authorities will not reduce their expenditures for our buses in the future as a result of budgetary constraints or otherwise. A reduction in the purchase of our buses by these authorities could have an adverse effect on our business and results of operations.

Our recreation vehicle business is seasonal, and this leads to fluctuations in sales, production and net income.

We have experienced, and expect to continue to experience, significant variability in sales, production and net income as a result of seasonality in our businesses. Demand in the recreation vehicle industry generally declines during the winter season, while sales and profits are generally highest during the spring and summer months. In addition, unusually severe weather conditions in some markets may delay the timing of shipments from one quarter to another.

Our business is affected by the availability and terms of financing to dealers and retail purchasers.

Our business is affected by the availability and terms of financing to dealers and retail purchasers. Substantial increases in interest rates and decreases in the general availability of credit have had an adverse impact upon our business and results of operations in the past and may continue to do so in the future.

Changes in consumer preferences for our products or our failure to gauge those preferences could lead to reduced sales and additional costs.

We cannot be certain that historical consumer preferences for our products in general, and recreation vehicles in particular, will remain unchanged. We believe that the introduction of new features, designs and models will be critical to the future success of our recreation vehicle operations. Delays in the introduction of new models, designs or product features, or a lack of market acceptance of new models, designs or product features could have a material adverse effect on our business. For example, we may incur significant additional costs in designing or redesigning models that are not accepted in the marketplace. Products may not be accepted for a number of reasons, including changes in consumer preferences or our failure to properly gauge consumer preferences. Further, we cannot be certain that new product introductions will not reduce revenues from existing models and adversely affect our results of operations. In addition, there can be no assurance that any of these new models or products will be introduced to the market on time or that they will be successful when introduced.

If the frequency and size of product liability and other claims against us rises, our business, results of operations and financial condition may be harmed.

Table of Contents

We are frequently subject, in the ordinary course of business, to litigation involving product liability and other claims, including wrongful death, against us related to personal injury and warranties. We partially self-insure our product liability claims and also purchase product liability insurance in the commercial insurance market. We cannot be certain that our insurance coverage will be sufficient to cover all future claims against us. Any increase in the frequency and size of these claims, as compared to our experience in prior years, may cause the premium that we are required to pay for insurance to rise significantly. It may also increase the amounts we pay in punitive damages, not all of which are covered by our insurance.

When we introduce new products into the marketplace we may incur expenses that we did not anticipate, which, in turn, can result in reduced earnings.

The introduction of new models of recreation vehicles and buses is critical to our future success. We may incur unexpected expenses, however, when we introduce new models of recreation vehicles and buses. For example, we may experience unexpected engineering or design flaws that will force a recall of a new product. The costs resulting from these types of problems could be substantial, and could have a significant adverse effect on our earnings.

Fuel shortages, or continuing high prices for fuel, could have a negative effect on sales of our recreation vehicles.

Gasoline or diesel fuel is required for the operation of recreation vehicles. There can be no assurance that the supply of these petroleum products will continue uninterrupted, that rationing will not be imposed or that the price of or tax on these petroleum products will not significantly increase in the future. Shortages of gasoline and substantial increases in the price of gasoline have had a material adverse effect on the recreation vehicle industry as a whole in the past and could have a material adverse effect on our business in the future.

Our repurchase agreements with floor plan lenders could result in increased costs.

In accordance with customary practice in the recreation vehicle industry, upon the request of a lending institution financing a dealer's purchase of our products and after completion of a credit investigation of the dealer involved, we will execute a repurchase agreement with the lending institution. Repurchase agreements provide that, for up to 12 months after a recreation vehicle is financed and in the event of default by the dealer, we will repurchase the recreation vehicle repossessed by the lending institution for the amount then due, which is usually less than 100% of dealer's cost. The difference between the gross repurchase price and the price at which the repurchased product can then be resold, which is typically at a discount to the original sale price, is an expense to us. Thus, if we were obligated to repurchase a substantially greater number of recreation vehicles in the future, this would increase our costs.

For some of our components, we depend on a small group of suppliers, and the loss of any of these suppliers could affect our ability to obtain components at competitive prices, which would decrease our margins.

Most recreation vehicle and bus components are readily available from a variety of sources. However, a few components are produced by only a small group of quality suppliers that have the capacity to supply large quantities on a national basis. Primarily, this occurs in the case of chassis for our motor homes and buses, where Ford Motor Company and General Motors are the dominant suppliers. The recreation vehicle industry as a whole has from time to time experienced shortages of chassis due to the concentration or allocation of available resources by suppliers of chassis to the manufacturers of vehicles other than recreation vehicles or for other causes. Historically, in the event of an industry-wide restriction of supply, Ford Motor Company and General Motors have allocated chassis among us and our competitors based on the volume of chassis previously purchased. If Ford Motor Company or General Motors were to discontinue the manufacturing of motor home or bus chassis, or if as a group all of our chassis suppliers significantly reduced the availability of chassis to the industry, our business could be adversely effected. Similarly, shortages at, or production delays or work stoppages by the employees of Ford Motor Company, General Motors or other chassis suppliers could have a material adverse effect on our sales. Finally, as is standard in the industry, arrangements with chassis suppliers are terminable at any time by either our company or the chassis supplier. If we cannot obtain an adequate chassis supply, this could result in a decrease in our sales and earnings.

Table of Contents

Our business is subject to numerous federal, state and local regulations.

We are subject to numerous federal, state and local regulations governing the manufacture and sale of our products, including the provisions of the National Traffic and Motor Vehicle Safety Act, or NTMVSA, and the safety standards for recreation vehicles and components which have been promulgated under the NTMVSA by the Department of Transportation. The NTMVSA authorizes the National Highway Traffic Safety Administration to require a manufacturer to recall and repair vehicles which contain certain hazards or defects. Any recalls of our vehicles, voluntary or involuntary, could have a material adverse effect on our company.

We are also subject to federal and numerous state consumer protection and unfair trade practice laws and regulations relating to the sale, transportation and marketing of motor vehicles, including so-called "Lemon Laws". Federal and state laws and regulations also impose upon vehicle operators various restrictions on the weight, length and width of motor vehicles, including buses and motor homes, that may be operated in certain jurisdictions or on certain roadways. Certain jurisdictions also prohibit the sale of vehicles exceeding length restrictions. Finally, federal and state authorities also have various environmental control standards relating to air, water, noise pollution and hazardous waste generation and disposal which affect our business and operations. Failure to comply with any of the foregoing laws or regulations could have an adverse impact on our business.

Risks Relating To Our Company.

Provisions in our charter documents and of Delaware law may make it difficult for a third party to acquire our company and could depress the price of our common stock.

Our Restated Certificate of Incorporation contains certain supermajority voting provisions that could delay, defer or prevent a change in control of our company. These provisions could also make it more difficult for you and other stockholders to elect directors, amend our Restated Certificate of Incorporation and take other corporate actions.

We are also subject to certain provisions of the Delaware General Corporation Law that could delay, deter or prevent us from entering into an acquisition, including provisions which prohibit a Delaware corporation from engaging in a business combination with an interested stockholder unless specific conditions are met. The existence of these provisions could limit the price that investors are willing to pay in the future for shares of our common stock and may deprive you of an opportunity to sell your shares at a premium over prevailing prices.

We will continue to be effectively controlled by one of our shareholders.

Wade F. B. Thompson, our President and Chief Executive Officer and Chairman of our board of directors, owns directly or indirectly voting control over an aggregate of 16,546,470 shares of our common stock, representing 29.7% of our issued and outstanding voting stock as of August 31, 2006. As a result, Mr. Thompson will be able to significantly influence most matters requiring approval by our shareholders, including the election of board members and the approval of mergers or other business combination transactions.

Our operations may be adversely affected if our Chief Executive Officer is unable to continue in his present roles.

Wade F. B. Thompson continues as our Chairman, President, and Chief Executive Officer, but has relinquished most of his day to day operating responsibilities to H. Coleman Davis, III, the Chief Operating Officer, while Mr. Thompson undergoes medical treatment for cancer. If Mr. Thompson is unable to continue in these roles, the search for and appointment of a Chief Executive Officer will result in a transition period for our management team and our Board of Directors, which may adversely impact the Company's operations. Peter B. Orthwein, a co-founder of our company, continues in his role as Vice Chairman of our company and has undertaken additional responsibilities and an enhanced executive role.

ITEM 1B. UNRESOLVED STAFF COMMENTS

Not applicable.

ITEM 2. PROPERTIES

We own or lease approximately 6,024,000 square feet of plant and office space. We believe that our present facilities, consisting primarily of steel clad, steel or wood frame, and masonry construction, and the machinery and equipment contained in these facilities,

Table of Contents

are well maintained and in good condition. We believe that these facilities, together with facilities planned for fiscal 2007, are adequate for our current and foreseeable purposes and that we would be able to obtain replacement for our leased premises at acceptable costs should our leases not be renewed.

The following table describes the location, number and size of our facilities as of July 31, 2006.

Locations	Owned or Leased	No. of Buildings	Approximate Building Area Square Feet
RVs:			
Jackson Center, OH (Airstream)	Owned	9	299,000

ITEM 3. LEGAL PROCEEDINGS

The SEC is reviewing the facts and circumstances giving rise to the restatement of our previously issued financial statements as of July 31, 2006 and 2005, and for each of the years in the three-year period ended July 31, 2006, and the financial results in each of the quarterly periods in 2006 and 2005, and our financial statements as of and for the three months ended October 31, 2006. We intend to cooperate fully with the SEC. The investigation by the SEC staff could result in the SEC seeking various penalties and relief, including, without limitation, civil injunctive relief and/or civil monetary penalties or administrative relief. The nature of the relief or remedies the SEC may seek, if any, cannot be predicted at this time.

In addition, we are involved in certain litigation arising out of our operations in the normal course of our business most of which are based upon state lemon laws, warranty claims, other claims and accidents (for which we carry insurance above a specified deductible amount). We do not believe that any one of these claims is material.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters submitted.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

(a) Market Information

The Company's Common Stock is traded on the New York Stock Exchange. Set forth below is the range of high and low prices for the common stock for each quarter during the Company's two most recent fiscal years, as quoted in the New York Stock Exchange Monthly Market Statistics and Trading Reports.

Fiscal 2006		Fiscal 2005	
High	Low	High	Low

First Quarter	\$36.39	\$30.63	\$31.40	\$24.16
Second Quarter	43.46	31.66	37.99	27.55
Third Quarter	56.93	41.65	36.76	26.27
Fourth Quarter	53.28	42.00	36.52	27.00

(b) Holders

As of August 31, 2006, the number of holders of record of the Company's common stock was 168.

(c) Dividends

We paid a special \$.25 per share dividend as well as a \$.05 dividend in our first quarter of fiscal 2006. For the second quarter of fiscal 2006 we paid a \$.05 per share dividend. In the third and fourth quarters of fiscal 2006, we paid a \$.07 per share dividend in each quarter. In fiscal 2005 we paid quarterly dividends of \$.03 per share in each of the four quarters. Any payment of cash dividends in the future will be at the discretion of the Board of Directors and will depend upon our financial condition, capital requirements, earnings and any other factors which the Board of Directors may deem relevant. There are no limitations to the Company's ability to pay dividends pursuant to any credit facility.

(d) Securities Authorized for Issuance Under Equity Compensation Plans

Table of Contents

The following table provides information as of July 31, 2006 about the Company's Common Stock that may be issued upon the exercise of options, warrants and rights granted to employees or members of the Board of Directors under all the Company's existing equity compensation plans, including the Thor Industries, Inc. 1999 Stock Option Plan and the Thor Industries, Inc. 1997 Restricted Stock Plan.

Equity Compensation Plan Information

Plan category	Number of securities to be issued upon exercise of outstanding options, warrants and rights (a)	Weighted-average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)
Equity compensation plans approved by security holders	533,038	\$ 21.29	666,003
Equity compensation plans not approved by security holders (1)		NA	398,013
Total	533,038	\$ 21.29	1,064,016

(1) Constitutes shares remaining available for issuance under the Thor Industries, Inc. Restricted Stock Plan (the "Stock Plan"). The Stock Plan, which was adopted in 1997, is intended to advance the interests of the Company, its stockholders, its subsidiaries and its affiliates by encouraging and enabling inside directors,

officers and other employees to acquire and retain a proprietary interest in the Company by ownership of its stock. The Compensation Committee of the Board of Directors, which administers the Stock Plan, may, at any time and from time to time, make grants to plan participants in such amounts as it shall determine. Each grant vests as determined by the Compensation Committee but, in any event, each grant automatically vests upon the earliest of (x) the termination by the Company of the recipient other than for cause and (y) the recipient's death, disability or retirement.

(e) Issuer Purchases of Equity Securities

(a) Total Number of Shares (or units)	(b) Average Price Paid Per	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced	(d) Maximum Number of Shares that May Yet Be Purchased
--	-----------------------------------	--	---

Period	Purchased	Share (or Unit)	Plans or Programs (1)	Under the Plans or Programs
May 2006				1,032,800
June 2006	728,600	\$ 44.82	728,600	2,304,200
July 2006	316,600	\$ 43.29	316,600	1,987,600

(1) On March 11, 2003, we announced that our Board of Directors had approved a share repurchase program, pursuant to which up to 1,000,000 shares of our common stock may be repurchased. In the second quarter of fiscal 2004, we effected a two-for-one stock split, resulting in 2,000,000 shares authorized for repurchase under the program. On June 26, 2006 our Board of Directors authorized the repurchase of an additional 2,000,000 shares extending over a 24-month period before expiring. At July 31, 2006, 1,987,600 shares of common stock remained authorized for

repurchase
under the
repurchase
program.

two-for-one
stock split in
January 2004
and July 2002.

Table of Contents

- (2) Selected financial data for 2006, 2005 and 2004 include the results of Damon Corporation, which was acquired on September 2, 2003. Selected financial data for 2006, 2005, 2004, 2003 and 2002 include the results of Keystone RV Company, which was acquired on November 9, 2001.
- (3) Selected financial data for 2006 and 2005 includes the results of CrossRoads RV, which was acquired on November 1, 2004, and Goshen Coach, Inc. which was acquired on May 27, 2005.
- (4) Amounts reflect the restatement discussed in Note A in the Consolidated Financial Statements

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Executive Overview

We were founded in 1980 and have grown to be the largest manufacturer of Recreation Vehicles (RVs) and a major manufacturer of commercial buses in North America. Our position in the travel trailer and fifth wheel segment of the industry (towables), with the acquisition of CrossRoads RV, gives us an approximate 32% market share. In the motorized segment of the industry we have an approximate 15% market share. Our market share in small and mid-size buses is approximately 39%. We entered the 40-foot bus market with a new facility in Southern California designed for that product as well as our existing 30-foot and 35-foot buses.

Our growth has been internal and by acquisition. Our strategy has been to increase our profitability in North America in the recreation vehicle industry and in the bus business through product innovation, service to our customers, manufacturing quality products, improving our facilities and acquisitions. We have not entered unrelated businesses and have no plans to do so in the future.

We rely on internally generated cash flows from operations to finance our growth although we may borrow to make an acquisition if we believe the incremental cash flows will provide for rapid payback. We invested significant capital to modernize and expand our plant facilities and have expended approximately \$31,008 for that purpose in fiscal 2006.

Our business model includes decentralized operating units and we compensate operating management primarily with cash based upon profitability of the unit which they manage. Our corporate staff provides financial management, centralized purchasing services, insurance, legal and human resources, risk management, and internal audit functions. Senior corporate management interacts regularly with operating management to assure that corporate objectives are understood clearly and are monitored appropriately.

Our RV products are sold to dealers who, in turn, retail those products. Our buses are sold through dealers to municipalities and private purchasers such as rental car companies and hotels. We do not directly finance dealers but do provide repurchase agreements in order to facilitate the dealers obtaining floor plan financing. We have a joint venture, Thor Credit, operated by GE Consumer Finance, which provides retail credit to ultimate purchasers of any recreation vehicle purchased from a Thor dealer. This retail credit on recreation vehicles is not limited to Thor products only.

Restatement

On January 29, 2007, we announced that the Audit Committee of our Board of Directors (the Audit Committee) initiated an independent investigation regarding certain accounting issues at our Dutchmen Manufacturing, Inc. operating subsidiary (Dutchmen), primarily involving inventory, accounts receivable, accounts payable, and cost of products sold. We promptly and voluntarily informed the SEC of the Audit Committee's investigation, and have been responding to SEC staff requests for additional information in connection with the staff's investigation. The Audit Committee, assisted by independent outside legal counsel and accounting experts, thoroughly investigated the accounting issues raised at Dutchmen. The Audit Committee and its advisors also reviewed the internal controls at Dutchmen and other subsidiaries.

On April 9, 2007, we announced that on April 4, 2007 our Board of Directors, acting upon the recommendation of the Audit Committee and management, concluded that our previously issued consolidated financial statements relating to the fiscal years 2004, 2005 and 2006 and the three months ended October 31, 2006 contained in our filings with the SEC, including related reports of our independent registered public accounting firm, Deloitte & Touche LLP, and press releases, should no longer be relied upon.

Upon completing their investigation, the Audit Committee's independent advisors presented the findings and recommendations of the investigation to the Company's Board of Directors on April 17, 2007 and April 30, 2007 and to the SEC staff on May 4, 2007. The

Table of Contents

Audit Committee's investigation confirmed the Company's determination that income before income taxes recorded by Dutchmen was overstated in the amount of approximately \$26,000 in the aggregate from fiscal year 2004 to the second quarter of fiscal year 2007, as a result of misconduct by Dutchmen's former Vice President of Finance, the senior financial officer of Dutchmen in which he intentionally understated the cost of products sold. Dutchmen's Vice President of Finance manipulated accounts reflecting inventory, accounts receivable, accounts payable, and cost of products sold, by entering and approving his own inaccurate journal entries as well as reconciling the related accounts, and prepared fraudulent supporting documentation, with the net effect of overstating Dutchmen's income before income taxes by approximately \$26,000 during the relevant period. The Audit Committee's investigation found no evidence to conclude that anyone else, at Dutchmen or elsewhere in the Company, knew of or participated in this misconduct or that there was theft or misappropriation of company assets. The Audit Committee's investigation also identified issues with respect to internal controls at Dutchmen, certain of the Company's other operating subsidiaries, and the Company's corporate finance and accounting office. The Company's conclusions regarding internal controls issues are more fully detailed in Item 9A of this report.

The Company's decision to restate its previously issued financial statements as of July 31, 2006 and 2005, and for each of the years in the three-year period ended July 31, 2006, and the financial results in each of the quarterly periods in 2006 and 2005, and the financial statements as of and for the three months ended October 31, 2006, follows the Company's evaluation, considering the results from the Audit Committee's investigation, of accounting practices employed at Dutchmen during these periods. As further described in Note A to our Consolidated Financial Statements

Restatement of Financial Statements, the cumulative effect of the restatement reported in this Annual Report on Form 10-K/A is a reduction to income before income taxes of \$21,121, or \$13,255 in net income, for the fiscal years 2004 through 2006 with the primary impact occurring in fiscal year 2006. The restated financial statements as of July 31, 2006 and 2005, and for each of the years in the three-year period ended July 31, 2006, and the financial results in each of the quarterly periods in 2006 and 2005, are reported in this Annual Report on Form 10-K/A. The restated financial statements as of and for the three months ended October 31, 2006 will be reported in our Quarterly Report on Form 10-Q/A which will be filed shortly after this report. The accompanying management's discussion and analysis of financial condition and results of operations gives effect to the restatement described in Note A.

We have incurred material expenses in 2007 as a direct result of the Audit Committee's investigation and the Company's review of the accounting practices at Dutchmen and certain of our other operating subsidiaries. These costs primarily relate to professional services for legal, accounting and tax guidance. In addition, we have incurred costs related to the preparation, review and audit of our restated consolidated financial statements. We expect that we will continue to incur costs associated with these matters.

Information on our accounting controls and procedures, including our internal controls, is described in Item 9A Controls and Procedures.

Trends and Business Outlook

The most important determinant of demand for Recreation Vehicles is demographics. The baby boomer population is now reaching retirement age and retirees are a large market for our products. The baby boomer retiree population in the United States is expected to grow five times as fast as the total United States population. We believe a primary indicator of the strength of the recreation vehicle industry is retail RV sales, which we closely monitor to determine industry trends. Recently, the towable segment of the RV industry has been stronger than the motorized segment. For the towable segment, retail sales as reported by Statistical Surveys, Inc. were approximately even with last year for the 6 months ended June 30, 2006; however the motorized segment was down approximately 14%. Higher interest rates and fuel prices appear to affect the motorized segment more severely.

Government entities are primary users of our buses. Demand in this segment is subject to fluctuations in government spending on transit. In addition, hotel and rental car companies are also major users of our small and mid-size buses and therefore airline travel is an important indicator for this market. The majority of our buses have a 5-year useful life, so many of the buses are being replaced. According to Mid Size Bus Manufacturers Association unit sales of small and mid-sized buses are up 11% in the 6 months ended June 30, 2006.

Economic or industry-wide factors affecting our recreation vehicle business include raw material costs of commodities used in the manufacture of our product. Material cost is the primary factor determining our cost of

products sold. Additional increases in raw material costs would impact our profit margins negatively if we were unable to raise prices for our products by corresponding amounts.

Table of Contents**CONSOLIDATED**

Net sales and gross profit for fiscal 2006 were up 19.9% and 28.6% respectively compared to fiscal 2005. Income before income taxes for fiscal 2006 was up 35.2% compared to 2005. Selling, general and administrative expenses for fiscal 2006 increased 20.6% compared to fiscal 2005. The specifics on changes in net sales, gross profit, general and administrative expense and income before income taxes are addressed in the segment reporting below.

Corporate costs in selling, general and administrative were \$19,424 for fiscal 2006 compared to \$12,487 in fiscal 2005. This increase of \$6,937 is primarily the result of increased insurance costs, legal expenses, and increased compensation expenses.

Other income for fiscal 2005 included a \$2,037 gain from the sale of our Thor America property.

Net sales and income before income taxes for fiscal 2006 included net sales and income (loss) before income taxes of \$41,510 and \$(892) respectively, for Goshen Coach acquired May 27, 2005. The overall effective tax rate for fiscal 2006 was 36.2% compared to 37.1% for fiscal 2005.

Segment Reporting**RECREATION VEHICLES**

Analysis of Percentage Change in Net Sales Versus Prior Year

	Impact from Acquisitions	Impact from Internal Growth		Net Change
		Average Price Per Unit	Units	
Recreation Vehicles				
Towables	2.2%	(1.9)%	24.5%	24.8%
Motorized		5.6%	(3.7)%	1.9%

TOWABLE RECREATION VEHICLES

The increase in towable net sales of 24.8% resulted primarily from an increase in unit shipments. The overall industry increase in towables for August 2005 thru July 2006 was 20.4% according to statistics provided by the Recreation Vehicle Industry Association. Decreases in the average price per unit resulted from product mix. We estimate that \$122,258 or 5.6% of towable net sales were related to hurricane relief units which were sold through our dealer network. We have no comparable industry statistics for the total hurricane relief units sold.

Towables gross profit percentage increased to 16.1% of net sales for fiscal 2006 from 15.0% of net sales for fiscal 2005. The primary factor for the 34.3% increase in gross profit was the 24.8% increase in net sales, improved manufacturing cost and reduced warranty cost as a percentage of net sales. Selling, general and administrative expenses were 5.6% of net sales for fiscal 2006 and fiscal 2005.

Towables income before income taxes increased to 10.5% of net sales for fiscal 2006 from 9.4% of net sales for fiscal 2005. The primary factors for this increase was our 24.8% revenue increase and reduced manufacturing and warranty costs as a percentage of net sales.

MOTORIZED RECREATION VEHICLES

The increase in motorized net sales of 1.9% resulted primarily from an increase in average price per unit. The decrease in units sold of approximately 3.7% outperformed the overall market decrease in motorhomes of 13.7% for the period August 2005 through July 2006 according to statistics published by the Recreation Vehicle Industry Association.

Motorized gross profit percentage was 9.6% of net sales for fiscal 2006 and 9.4% of net sales for fiscal 2005. Selling, general and administrative expense were 4.9% of net sales for fiscal 2006 compared to 5.0% of net sales for fiscal 2005.

Table of Contents

Motorized income before income taxes was 4.7% of net sales for fiscal 2006 and 4.3% of net sales for fiscal 2005. This increase of 11.4% includes an impairment charge of \$1,360 reflected in cost of goods sold in fiscal 2006 due to a decision to not produce a planned motorized product line.

BUSES

Analysis of Percentage Change in Net Sales Versus Prior Year

	Impact from Acquisition	Impact from Internal Growth	Net Change
		Average Price Per Unit	Units
Buses	16.6%	6.8%	3.0%
			26.4%

The increase in buses net sales of 26.4% resulted from a combination of an increase in both average price per unit and unit shipments and our acquisition of Goshen Coach.

Buses gross profit percentage decreased to 7.9% of net sales for fiscal 2006 from 8.5% of net sales for fiscal 2005 due to low gross profit on bus contracts assumed in the purchase of Goshen Coach and highly competitive market conditions. Selling, general and administrative expenses were 4.6% of net sales for fiscal 2006 and 5.4% for fiscal 2005.

Buses income before income taxes was 3.0% of net sales for fiscal 2006 and fiscal 2005.

CONSOLIDATED

Net sales and gross profit for fiscal 2005 were up 16.9% and 12.6% respectively compared to fiscal 2004. Income before income taxes for fiscal 2005 was up 14.3% compared to 2004. Selling, general and administrative expenses for fiscal 2005 increased 10.8% compared to fiscal 2004. The specifics on changes in net sales, gross profit, general and administrative expense and income before income taxes are addressed in the segment reporting below.

Corporate costs in selling, general and administrative were \$12,487 for fiscal 2005 compared to \$19,799 in fiscal 2004. This \$7,312 reduction is primarily the result of lower legal costs and insurance claims in fiscal 2005 of approximately \$9,861 offset by increased costs of Sarbanes-Oxley compliance of approximately \$1,989.

Other income for fiscal 2005 increased due primarily to a \$2,037 gain on the sale of our Thor America property.

Net sales and income before income taxes for fiscal 2005 included net sales and income before income taxes of \$74,165 and \$7,526 respectively, for CrossRoads RV acquired November 1, 2004 and net sales and loss before income taxes of \$4,776 and \$248 respectively, for Goshen Coach acquired May 27, 2005. The overall effective tax rate for fiscal 2005 was 37.1% compared to 36.9% for fiscal 2004.

Segment Reporting**RECREATION VEHICLES**

Analysis of Percentage Change in Net Sales Versus Prior Year

**Impact from Internal
Growth**

	Impact from	Average Price		Net Change
	Acquisitions	Per Unit	Units	
Recreation Vehicles				
Towables	5.2%	8.8%	7.5%	21.5%
Motorized		7.5%	(2.5)%	5.0%

TOWABLE RECREATION VEHICLES

The increase in towables net sales resulted from a combination of an increase in both average price per unit and unit shipments and our acquisition of CrossRoads RV. The increase in units sold of approximately 12.5% would be a 7.5% increase excluding CrossRoads. The overall industry increase in towables on a comparable basis was 7.3%. Increases in the average price per unit resulted from the combination of price increases and product mix.

Table of Contents

Towables gross profit percentage decreased to 15.0% of net sales for fiscal 2005 from 15.7% of net sales for fiscal 2004. The primary factors for the reduced gross margin in 2005 was a \$9,300 decline in gross margin at our Thor California operation due to reduced sales volumes of 19%, higher costs of materials, increased workers compensation claims, and the overall inability to reduce manufacturing overhead costs in relationship to the sales reductions. Selling, general and administrative expenses were 5.6% of net sales for fiscal 2005 and 5.7% for fiscal 2004.

Towables income before income taxes decreased to 9.4% of net sales for fiscal 2005 from 10.0% of net sales for fiscal 2004. The primary factors for this reduction were reductions in gross margin as mentioned earlier.

MOTORIZED RECREATION VEHICLES

The increase in motorized net sales resulted primarily from an increase in average prices per unit. The decrease in units sold of approximately 2.5% outperformed the overall market decrease in motorhomes of 7.2%. Increases in the average price per unit resulted from the combination of price increases and product mix.

Motorized gross profit percentage decreased to 9.4% of net sales from 9.9% of net sales for fiscal 2004. The primary factor for the reduced gross margin in 2005 was lower unit sales. Selling, general and administrative expense increased to 5.0% of net sales for fiscal 2005 from 4.7% of net sales for fiscal 2004.

Motorized income before income taxes decreased to 4.3% of net sales for fiscal 2005 from 5.2% of net sales for fiscal 2004. The reduction was due primarily to lower gross margins on individual unit sales and higher selling general and administrative costs.

BUSES

Analysis of Percentage Change in Net Sales Versus Prior Year

		Impact from Internal Growth		
	Impact from Acquisition	Average Price Per Unit	Units	Net Change
Buses	2.2%	4.3%	9.9%	16.4%

The increase in buses net sales resulted from a combination of an increase in both average price per unit and unit shipments and our acquisition of Goshen Coach. The increase in units sold of approximately 14.3% would have been 9.9% excluding Goshen Coach. The unit sales increases are indicative of an expected replacement cycle on our buses the majority of which have a 5 year useful life. In addition, replacement of many older buses was delayed due to decline in the travel industry subsequent to the 9/11 terrorist attacks.

Buses gross profit percentage decreased to 8.5% of net sales for fiscal 2005 from 9.4% of net sales for fiscal 2004 due to continuing discounts offered to achieve bus contracts in a very competitive market place. Selling, general and administrative expenses were 5.4% of net sales for fiscal 2005 and 5.2% for fiscal 2004.

Buses income before income taxes decreased to 3.0% of net sales for fiscal 2005 from 4.5% for fiscal 2004. The primary reason for the decrease is due to reduced gross margins as explained above.

Financial Condition and Liquidity

As of July 31, 2006, we had \$264,373 in cash, cash equivalents and short-term investments, compared to \$208,815 on July 31, 2005. Short term investments, which are principally investment grade securities composed of asset-based notes, mortgage-backed notes, auction rate securities and corporate bonds, are generally bought and held for sale in the near term and are classified as trading securities. Trading securities are carried at fair market value. Realized and unrealized gains and losses on trading securities are included in earnings. Dividend and interest income are recognized when earned.

Due to the relative short-term maturity (average 3 months) of our trading securities, we do not believe that a change in the interest rates will have a significant impact on our financial position or results of future operations.

Working capital at July 31, 2006 was \$360,751 compared to \$271,032 on July 31, 2005. We have no long-term debt. We currently have a \$30,000 revolving line of credit which bears interest at negotiated rates below prime and expires on November 30, 2006. There were no borrowings on this line of credit during the year ended July 31, 2006. The loan agreement executed in connection with the

Table of Contents

line of credit contains certain covenants, including restrictions on additional indebtedness, and requires us to maintain certain financial ratios. We believe that internally generated funds and the line of credit will be sufficient to meet our current needs and any additional capital requirements. Capital expenditures of approximately \$31,008 for fiscal year ended July 31, 2006 were primarily for planned expansions and improvements of \$26,613 at our recreation vehicle facilities and \$4,395 for our bus operations, primarily at our new Goshen Coach facility. We paid a special 25¢ dividend in fiscal 2006 totalling \$14,166. We also bought back 1,145,200 shares of Thor common stock in fiscal 2006 at a total cost of \$51,462.

The Company anticipates capital expenditures in fiscal 2007 of approximately \$20,000. These expenditures will be made primarily for planned capacity expansions and for replacement of machinery and equipment to be used in the ordinary course of business and expansions primarily in our recreation vehicle segment.

Critical Accounting Principles

The consolidated financial statements of Thor are prepared in conformity with accounting principles generally accepted in the United States. The preparation of these financial statements requires the use of estimates, judgments, and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the periods presented. We believe that of our accounting policies, the following may involve a higher degree of judgments, estimates, and complexity:

Impairment of Goodwill, Trademarks and Long-Lived Assets

We at least annually review the carrying value of goodwill and other intangible assets. Long-lived assets, identifiable intangibles that are amortized, goodwill and trademarks with indefinite useful lives are also reviewed for impairment whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable from future cash flows. This review is performed using estimates of future cash flows. If the carrying value of a long-lived asset is considered impaired, an impairment charge is recorded for the amount by which the carrying value of the long-lived asset exceeds its fair value. Management believes that the estimates of future cash flows and fair values are reasonable; however changes in estimates of such cash flows and fair values could affect the evaluations.

Insurance Reserves

Generally, we are self-insured for workers' compensation and group medical insurance. Under these plans, liabilities are recognized for claims incurred, including those incurred but not reported, and changes in the reserves. The liability for workers' compensation claims is determined by a third party administrator using various state statutes and reserve requirements. Group medical reserves are funded through a trust and are estimated using historical claims' experience. We have a self-insured retention for products liability and personal injury matters of \$5,000 per occurrence. We have established a reserve on our balance sheet for such occurrences based on historical data and actuarial information. We maintain excess liability insurance aggregating \$25,000 with outside insurance carriers to minimize our risks related to catastrophic claims in excess of all our self-insured positions. Any material change in the aforementioned factors could have an adverse impact on our operating results.

Warranty

We provide customers of our products with a warranty covering defects in material or workmanship for periods generally ranging from one to two years, with longer warranties on certain structural components. We record a liability based on our best estimate of the amounts necessary to settle future and existing claims on products sold as of the balance sheet date. Factors we use in estimating the warranty liability include a history of units sold, existing dealer inventory, average cost incurred and a profile of the distribution of warranty expenditures over the warranty period. A significant increase in dealer shop rates, the cost of parts or the frequency of claims could have a material adverse impact on our operating results for the period or periods in which such claims or additional costs materialize. Management believes that the warranty reserve is adequate; however actual claims incurred could differ from estimates, requiring adjustments to the reserves. Warranty reserves are reviewed and adjusted as necessary on a quarterly basis.

Income Taxes

The Company accounts for income taxes under the provision of SFAS No. 109 "Accounting for Income Taxes". The objectives of accounting for income taxes are to recognize the amount of taxes payable or refundable for the current year and deferred tax liabilities and assets for the future tax consequences of events that have been recognized in the

Table of Contents

returns. Judgement is required in assessing the future tax consequence of events that have been recognized in the Company's financial statements or tax returns. Fluctuations in the actual outcome of these future tax consequences could materially impact the Company's financial position or its results of operations.

Revenue Recognition

Revenue from the sale of recreation vehicles and buses are recorded when all of the following conditions have been met:

- 1) An order for a product has been received from a dealer;
- 2) Written or oral approval for payment has been received from the dealer's financing institution;
- 3) A common carrier signs the delivery ticket accepting responsibility for the product as agent for the dealer; and
- 4) The product is removed from the Company's property for delivery to the dealer who placed the order.

Certain shipments are sold to customers under cash on delivery (COD) terms. The Company recognizes revenue on COD sales upon payment and delivery. Most sales are made by dealers financing their purchases under financing arrangements with banks or finance companies. Products are not sold on consignment, dealers do not have the right to return products, and dealers are typically responsible for interest costs to floorplan lenders. On average, the Company receives payments from floor-plan lenders on products sold to dealers within 15 days of the invoice date.

Repurchase Commitments

It is customary practice for companies in the recreational vehicle industry to enter into repurchase agreements with financing institutions to provide financing to their dealers. Generally, these agreements provide for the repurchase of products from the financing institution in the event of a dealer's default. The risk of loss under these agreements is spread over numerous dealers and further reduced by the resale value of the units which the Company would be required to repurchase. Losses under these agreements have not been significant in the periods presented in the consolidated financial statements, and management believes that any future losses under these agreements will not have a significant effect on the Company's consolidated financial position or results of operations. The Company records repurchase and guarantee reserves based on prior experience and known current events.

Principal Contractual Obligations and Commercial Commitments

Our principal contractual obligations and commercial commitments at July 31, 2006 are summarized in the following charts. We have no other off balance sheet commitments.

Contractual Obligations	Total	Payments Due By Period			
		Fiscal 2007	Fiscal 2008-2009	Fiscal 2010-2011	After 5 Years
Operating leases	\$ 13,094	\$ 4,021	\$ 5,589	\$ 2,609	\$ 875
Total contractual cash obligations	\$ 13,094	\$ 4,021	\$ 5,589	\$ 2,609	\$ 875

Other Commercial Commitments	Total Amounts Committed	Amount of Commitment Expiration Per Period Less Than 1 Year			
		1-3 Years	4-5 Years	Over 5 Years	
Guarantees	\$ 2,574	\$ 2,574	\$	\$	\$
Standby repurchase obligations	\$ 813,795	\$ 813,795	\$	\$	\$
Total commercial commitments	\$ 816,369	\$ 816,369	\$	\$	\$

Accounting Pronouncements

In June 2006, the Financial Accounting Standards Board issued FIN No. 48, Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement No. 109, which clarifies the accounting for uncertainty in income taxes recognized in an enterprise’s financial statements in accordance with FASB Statement No. 109, Accounting for Income Taxes. The interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN No. 48 requires recognition of tax benefits that satisfy a greater than 50% probability threshold. FIN No. 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods,

Table of Contents

disclosure, and transition. FIN No. 48 is effective for us beginning August 1, 2007. We are assessing the potential impact that the adoption of FIN No. 48 will have on our financial statements.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT RISK

The Company is exposed to market risk from changes in foreign currency related to its operations in Canada. However, because of the size of Canadian operations, a hypothetical 10% change in the Canadian dollar as compared to the U.S. dollar would not have a significant impact on the Company's financial position or results of operations. The Company is also exposed to market risks related to interest rates because of its investments in corporate debt securities. A hypothetical 10% change in interest rates would not have a significant impact on the Company's financial position or results of operations.

ITEM 9A. CONTROLS AND PROCEDURES

Part A. Restatement of the Consolidated Financial Statements

As discussed in the Explanatory Note, Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations and Note A to the financial statements in this Form 10-K/A, the Company has restated its previously issued financial

Table of Contents

statements as of July 31, 2006 and 2005, and for each of the years in the three-year period ended July 31, 2006, and the financial results in each of the quarterly periods in 2006 and 2005.

The Company's decision to restate its financial statements follows the Company's evaluation, considering the results from the Audit Committee's investigation, of accounting practices employed at Dutchmen during these periods.

Part B. Evaluation of Disclosure Controls and Procedures

In connection with the preparation of the Company's amended Annual Report on Form 10-K/A for the year ended July 31, 2006, management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, re-evaluated its prior conclusion regarding the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by the amended Annual Report. As described below, a material weakness was identified in our internal control over financial reporting. The Public Company Accounting Oversight Board's Auditing Standard No. 2 defines a material weakness as a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected. Based upon management's re-evaluation, conducted under Exchange Act Rule 13a-15, management, including the Chief Executive Officer and Chief Financial Officer, concluded that the Company's disclosure controls and procedures were not effective as of July 31, 2006 due to the material weakness described in Part C below.

Part C. Management's Report on Internal Control Over Financial Reporting (as revised)

Management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Exchange Act Rule 13a-15(f). Internal control over financial reporting refers to a process designed by, or under the supervision of, our Chief Executive Officer and Chief Financial Officer and effected by our Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America and includes those policies and procedures that: (i) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of our assets; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America, and that our receipts and expenditures are being made only in accordance with authorizations of our management and members of our board of directors; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of our assets that could have a material effect on our financial statements.

Because of its inherent limitations, internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Internal control over financial reporting also can be circumvented by collusion or improper override. Because of such limitations, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. Projections of any evaluation of effectiveness to future periods are also subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with established policies or procedures may deteriorate.

In our previously-filed Annual Report on Form 10-K for the year ended July 31, 2006, management conducted an assessment of the effectiveness of our internal control over financial reporting as of July 31, 2006, using the criteria set forth in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

As a result of the findings of the independent investigation of the Audit Committee of the Board of Directors and the restatement of the Company's financial statements, management reassessed our internal control over financial reporting using the COSO criteria. Management identified the following material weakness in the Company's internal control over financial reporting as of July 31, 2006:

Lack of Segregation of Duties. In January 2007, management was informed by the President of one of the Company's operating subsidiaries, Dutchmen Manufacturing, Inc., or Dutchmen, of facts that led it to discover that there was a lack of segregation of duties at Dutchmen. It is Company policy to segregate duties among different people to reduce the risk of error or inappropriate action. Despite certain efforts by the Company to improve internal controls at

Dutchmen, Dutchmen's Vice President of Finance was able to perform functions that were or should have been specifically assigned to other employees of Dutchmen, including Dutchmen's controller and internal auditor/accountant. Specifically, Dutchmen's Vice President of Finance, through various means, was entering, approving and reconciling entries into various accounts, such as inventory, accounts receivable, accounts payable and cost of products sold, which duties should have been segregated, and continued to do so after the Company caused additional finance staff to be hired

Table of Contents

at Dutchmen. Dutchmen's Vice President of Finance also entered inaccurate accounting entries and prepared fraudulent supporting documentation and had excessive access rights to various aspects of Dutchmen's accounting and information systems. Dutchmen's internal policies did not sufficiently segregate duties for making or approving entries in key accounts and account reconciliations, and the Company lacked sufficient compensating internal controls to prevent or detect the acts described above. This material weakness caused the financial results reported by Dutchmen to the Company's corporate finance and accounting group to be materially inaccurate and to be incorporated into the Company's consolidated financial statements and the Company's required SEC filings. In addition, certain of the Company's other operating subsidiaries also had functions that should have been but were not segregated, there were employees who had inappropriate levels of access to various aspects of the accounting and information systems at certain operating subsidiaries, and the Company's corporate level monitoring of certain operating subsidiaries reconciliations was insufficient.

As a result of the aforementioned material weakness, as of July 31, 2006, management has revised its previously reported assessment of the effectiveness of internal control over financial reporting and has concluded that, as of July 31, 2006, the Company's internal control over financial reporting was not effective.

Management's revised assessment of the effectiveness of internal control over financial reporting as of July 31, 2006 has been audited by Deloitte & Touche LLP, the independent registered public accounting firm that audited our consolidated financial statements included in this Annual Report on Form 10-K/A. As stated in their attestation report on management's assessment of the Company's internal control over financial reporting, Deloitte has expressed an unqualified opinion on management's assessment and an adverse opinion on the effectiveness of the Company's internal control over financial reporting as of July 31, 2006.

Part D. Remedial Actions

To remediate the material weakness described above, the Company has taken or intends to take the following actions:

The Company has terminated the employment of the Dutchmen Vice President of Finance and has hired a new Vice President of Finance at Dutchmen;

The Company has eliminated the excessive accounting and information system access rights found to be available to the Dutchmen Vice President of Finance;

Since discovery of the activities of the former Dutchmen Vice President of Finance, the Company has assigned a member of its internal audit department to Dutchmen to assist in implementing full segregation of duties in Dutchmen's accounting function;

The Company is modifying the duties of accounting personnel to improve segregation of duties and modifying certain information access rights at certain of its other operating subsidiaries;

The Company is providing additional training on fraud risk and awareness and assisting management and other key personnel to understand the lessons learned through the Dutchmen review;

To improve the Company's oversight of internal controls at its subsidiaries, the Company's Board of Directors has hired a professional services firm to lead and coordinate ongoing compliance efforts under Sarbanes-Oxley section 404 and partner with the internal audit function of the Company;

More frequent and in-depth periodic, unannounced internal audits of controls will be conducted at the subsidiary level;

The Company has enhanced its corporate level monitoring of the operating subsidiaries' accounts receivable, accounts payable and cash reconciliations, including verification that financial information submitted by the operating subsidiaries agrees with the financial information recorded in the operating subsidiaries' information systems; and

The Company has modified its reporting relationships so that heads of subsidiary accounting departments report directly to the Chief Financial Officer of the Company as opposed to subsidiary level presidents.

28

Table of Contents

Part E. Changes in Internal Control Over Financial Reporting

Other than the foregoing initiatives, during the fourth quarter of fiscal year 2006 and through the date of this report, there have been no material changes in our internal control over financial reporting, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part F. Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of Thor Industries, Inc.:

We have audited management's assessment, included in the accompanying Management's Report on Internal Controls Over Financial Reporting (as revised), that Thor Industries, Inc. and subsidiaries (the Company) did not maintain effective internal control over financial reporting as of July 31, 2006 because of the effect of the material weakness identified in management's assessment based on the criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinions. A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our report dated September 28, 2006, we expressed an unqualified opinion on management's assessment that the Company maintained effective internal control over financial reporting and an unqualified opinion on the effectiveness of internal control over financial reporting as of July 31, 2006. As described in the following paragraph, the Company subsequently identified material misstatements in its annual financial statements, which caused such annual financial statements to be restated. Management subsequently revised its assessment due to the identification of a material weakness, described in the following paragraph, in connection with the financial statement restatement. Accordingly, our opinion on the effectiveness of the Company's internal control over financial reporting as of July 31, 2006 expressed herein is different from that expressed in our previous report.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected. A material weakness has been identified and included in management's revised assessment regarding the lack

of segregation of duties as the Company did not design and implement controls necessary to provide reasonable assurance that there was appropriate segregation of duties at certain operating subsidiaries. This material weakness resulted in the restatement of the Company's previously issued

Table of Contents

financial statements as described in Note A to the consolidated financial statements. This deficiency was determined to be a material weakness, based upon the actual misstatements identified, the potential for additional material misstatements to have occurred as a result of the deficiency and the lack of other mitigating controls. This material weakness was considered in determining the nature, timing, and extent of audit tests applied in our audit of the consolidated financial statements as of and for the year ended July 31, 2006 (as restated), of the Company and this report does not affect our report on such financial statements.

In our opinion, management's revised assessment that the Company did not maintain effective internal control over financial reporting as of July 31, 2006, is fairly stated, in all material respects, based on the criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Also in our opinion, because of the effect of the material weakness described above on the achievement of the objectives of the control criteria, the Company has not maintained effective internal control over financial reporting as of July 31, 2006, based on the criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements as of and for the year ended July 31, 2006 of the Company and our report dated September 28, 2006 (June 8, 2007 as to the effects of the restatement discussed in Note A) expressed an unqualified opinion on those financial statements and includes an explanatory paragraph regarding the restatement of the Company's consolidated financial statements.

DELOITTE & TOUCHE LLP

Dayton, Ohio

September 28, 2006 (June 8, 2007 as to the effect of the material weakness described in Management's Report on Internal Controls Over Financial Reporting (as revised)).

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of Thor Industries, Inc.

We have audited the accompanying consolidated balance sheets of Thor Industries, Inc. and subsidiaries (the Company) as of July 31, 2006 and 2005, and the related consolidated statements of income, stockholders' equity and comprehensive income, and cash flows for each of the three years in the period ended July 31, 2006. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Thor Industries, Inc. and subsidiaries at July 31, 2006 and 2005, and the results of their operations and their cash flows for each of the three years in the period ended July 31, 2006, in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note A, the accompanying 2006, 2005, and 2004 consolidated financial statements have been restated.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of the Company's internal control over financial reporting as of July 31, 2006, based on the criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated September 28, 2006, (June 8, 2007 as to the effects of the material weakness described in management's Report on Internal Control over Financial Reporting, as revised) expressed an unqualified opinion on management's assessment of the effectiveness of the Company's internal control over financial reporting and an adverse opinion on the effectiveness of the Company's internal control over financial reporting.

DELOITTE & TOUCHE LLP

Dayton, Ohio

September 28, 2006 (June 8, 2007 as to the effects of the restatement discussed in Note A)

Table of Contents**Notes to the Consolidated Financial Statements Years Ended July 31, 2006, 2005 and 2004****(All amounts presented in thousands except share and per share data)****A. RESTATEMENT**

On January 29, 2007, we announced that the Audit Committee of our Board of Directors (the "Audit Committee") initiated an independent investigation regarding certain accounting issues at our Dutchmen Manufacturing, Inc. operating subsidiary ("Dutchmen"). The Vice President of Finance at Dutchmen was intentionally understating the cost of products sold during the periods restated, primarily by overstating inventory and accounts receivable and understating accounts payable. We promptly and voluntarily informed the SEC of the Audit Committee's investigation, and have been responding to SEC staff requests for additional information in connection with the staff's investigation. The Audit Committee, assisted by independent outside legal counsel and accounting experts, thoroughly investigated the accounting issues raised at Dutchmen. The Audit Committee and its advisors also reviewed the internal controls at Dutchmen and other subsidiaries.

The Audit Committee's investigation confirmed the Company's determination that the income before income taxes recorded by Dutchmen were overstated during the periods restated, as a result of misconduct by Dutchmen's former Vice President of Finance, the senior financial officer of Dutchmen.

The Company has restated its previously issued financial statements as of July 31, 2006 and 2005, and for each of the years in the three-year period ended July 31, 2006, and the financial results in each of the quarterly periods in 2006 and 2005. The restatement followed the Company's evaluation, considering the results from the Audit Committee's investigation, of accounting practices employed at Dutchmen during these periods. The cumulative effect of the restatement is a reduction to income before income taxes of \$21,121, or \$13,255 in net income, for the fiscal years 2004 through 2006 with the primary impact occurring in fiscal year 2006.

In addition, the Company determined that certain of its liabilities associated with capital expenditures were incorrectly reflected as cash inflows from operating activities and cash outflows from investing activities. The consolidated statements of cash flow for the years ended July 31, 2005 and 2004 have been corrected by reducing net cash from operating activities and net cash used for investing activities by \$1,492 and \$836, respectively, and disclosing non-cash investing activity for the same amounts. In note D, the Company added comparative goodwill and trademarks by segment for 2005.

The following tables show the previously reported, restatement adjustment and restated amounts for those accounts in the Consolidated Balance Sheet and the Statements of Consolidated Income and Cash Flow affected by the restatement.

Year ended July 31, 2006

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation The accompanying consolidated financial statements include the accounts of Thor Industries, Inc. and its wholly-owned domestic and foreign subsidiaries (collectively, the Company). All intercompany balances and transactions are eliminated upon consolidation.

Cash and Cash Equivalents Interest-bearing deposits and other investments with maturities of three months or less when purchased are considered cash equivalents. Cash, cash equivalents and short term investments of \$238,097 are held by three financial institutions. The remaining \$26,276 is held at various other financial institutions.

Investments Short term investments, which are principally investment grade securities composed of asset-based notes, mortgage-backed notes, auction rate securities, and corporate bonds, are generally bought and held for sale in the near term and are classified as trading securities. Trading securities are carried at fair market value. Realized and unrealized gains and losses on trading securities are included in earnings. Dividend and interest income are recognized when earned.

Fair Value of Financial Investments the carrying amount of cash equivalents, investments, accounts receivable, and accounts payable approximate fair value because of the relatively short maturity of these financial instruments.

Inventories Inventories are stated at the lower of cost or market, determined principally by the last-in, first-out (LIFO) basis.

Depreciation Property, plant and equipment is recorded at cost and depreciated using the straight-line method over the estimated useful lives of the assets as follows:

Buildings and improvements 10 to 39 years

Machinery and equipment 3 to 10 years

Other Assets Other assets consist of goodwill, trademarks, and non-compete agreements. Non-compete agreements are amortized using the straight-line method over 5 to 10 years. Goodwill and trademarks are not amortized but are tested at least annually for impairment. Trademarks are not amortized because they have indefinite useful lives.

Long-lived Assets Long-lived assets and identifiable intangibles that are amortized are reviewed for impairment annually or whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable from future cash flows. If the carrying value of a long-lived asset is impaired, an impairment charge is recorded for the amount by which the carrying value of the long-lived asset exceeds its fair value.

Product Warranties Estimated warranty costs are provided at the time of sale of the warranted products. Warranty reserves are reviewed and adjusted as necessary on a quarterly basis.

Table of Contents

Allowance for Doubtful Accounts A summary of bad debt activity is as follows:

	Year Ended July 31, 2006	Year Ended July 31, 2005	Year Ended July 31, 2004
Beginning Balance	\$ 506	\$ 558	\$ 625
Charged to expense	98	76	(45)
Write-offs net of recoveries/payments	(499)	(128)	(38)
Acquisitions			16
Ending Balance	\$ 105	\$ 506	\$ 558

Insurance Reserves Generally, we are self-insured for workers' compensation and group medical insurance. Under these plans, liabilities are recognized for claims incurred, including those incurred but not reported, and changes in the reserves. The liability for workers' compensation claims is determined by a third party administrator using various state statutes and reserve requirements. Group medical reserves are funded through a trust and are estimated using historical claims' experience. We have a self-insured retention for products liability and personal injury matters of \$5,000 per occurrence. We have established a reserve on our balance sheet for such occurrences based on historical data and actuarial information. We maintain excess liability insurance aggregating \$25,000 with outside insurance carriers to minimize our risks related to catastrophic claims in excess of all our self-insured positions.

Revenue Recognition Revenues from the sale of recreation vehicles and buses are recognized when title passes, which is when shipped to dealers, distributors, or contract buyers in accordance with shipping terms, which are FOB shipping point.

Revenue from the sale of recreation vehicles and buses are recorded when all of the following conditions have been met:

- 1) An order for a product has been received from a dealer;
- 2) Written or oral approval for payment has been received from the dealer's financing institution;
- 3) A common carrier signs the delivery ticket accepting responsibility for the product as agent for the dealer; and
- 4) The product is removed from the Company's property for delivery to the dealer who placed the order.

Certain shipments are sold to customers under cash on delivery (COD) terms. The Company recognizes revenue on COD sales upon payment and delivery. Most sales are made by dealers financing their purchases under financing arrangements with banks or finance companies. Products are not sold on consignment, dealers do not have the right to return products, and dealers are typically responsible for interest costs to floorplan lenders. On average, the Company receives payments from floorplan lenders on products sold to dealers within 15 days of the invoice date.

Dealer Volume Rebates and Sales Incentives Estimated costs related to dealer volume rebates and sales incentives are accrued as a reduction of revenue at the latter of the time products are sold or the date the rebate or incentive is offered.

Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the U.S. requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Foreign Currency Assets and liabilities of the Company's Canadian Operations reported in the consolidated balance sheets have been translated at current exchange rates. Revenues and expenses reported in the consolidated statements of income have been translated at the average exchange rate for the year. Translation adjustments have been included in accumulated other comprehensive income. Transaction gains and losses are not significant.

Stock Split The Company declared a two-for-one common stock split in the second quarter of 2004 that was distributed to shareholders of record as of January 5, 2004. All share and per share amounts have been retroactively adjusted for the effect of the common stock splits.

Stock Options Effective August 1, 2005, we adopted Statement of Financial Accounting Standard (SFAS) No. 123R, Share Based Payment, using the modified prospective transition method. Under the modified prospective method, awards that are granted, modified or settle after the date of the adoption are measured and accounted for in accordance with SFAS 123R. SFAS 123R establishes a fair-

F-10

Table of Contents

value method of accounting for employee stock options. The Company uses the Black-Scholes option pricing model to estimate the grant date fair value of its option grants. The fair value, and related compensation costs are recognized over the option vesting period which is 3 to 4 years.

Earnings Per Share Basic earnings per common share (EPS) is computed by dividing net income by the weighted average number of common shares outstanding. Diluted EPS is computed by dividing net income by the weighted average number of common shares outstanding assuming dilution. The difference between basic EPS and diluted EPS is the result of outstanding stock options and restricted stock.

	2006	2005	2004
Weighted average shares outstanding for basic earnings per share	56,502,865	56,726,200	57,224,404
Stock options and restricted stock	394,174	381,363	365,790
Weighted average shares outstanding assuming dilution	56,897,039	57,107,563	57,590,194

The following table illustrates the pro forma effect on net income and income per share for fiscal 2005 and fiscal 2004 assuming the Company had applied the fair value recognition provisions of Statement 123R to all previously granted share-based awards. The fair value of each option grant is estimated at the grant date using the Black-Scholes option pricing model based on the assumptions listed in Footnote K.

	2005	2004
Net income as reported	\$ 119,143	\$ 104,513
Deduct: Total stock-based employee compensation expense determined under fair value method for all awards, net of related tax effects	(1,161)	(884)
Pro forma	\$ 117,982	\$ 103,629
Earnings per common share basic		
As reported	\$ 2.10	\$ 1.83
Pro forma	\$ 2.08	\$ 1.81
Earnings per common share diluted		
As reported	\$ 2.09	\$ 1.81
Pro forma	\$ 2.07	\$ 1.80

The implementation of Statement 123R did not have any impact on our fiscal 2006 cash flow from operating and financing activities.

Accounting Pronouncements In June 2006, the FASB issued FIN No. 48, Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109, which clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement No. 109, Accounting for Income Taxes. The interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN No. 48 requires recognition of tax benefits that satisfy a greater than 50% probability threshold. FIN No. 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. FIN No. 48 is effective for us beginning August 1, 2007. We are assessing the potential impact that the adoption of FIN No. 48 will have on our financial statements.

C. ACQUISITIONS

On May 27, 2005, we completed our acquisition of the Goshen Coach Division of Veritrans Specialty Vehicles Inc. pursuant to an asset purchase agreement dated May 26, 2005 for cash of \$10,083. The fair value of assets acquired and

liabilities assumed was \$10,354 and \$271, respectively.

On November 1, 2004, we completed our acquisition of the stock of DS Corp. dba CrossRoads RV, an Indiana corporation, pursuant to an Agreement and Plan of Merger (the Merger Agreement), dated as of October 28, 2004, by and among our company, Thor Acquisition Corp., a Delaware corporation and a wholly-owned subsidiary of our company (Acquisition Subsidiary), CrossRoads and the security holders of CrossRoads. CrossRoads is engaged in the business of manufacturing towable recreation vehicles. Under the terms of the Merger Agreement, Acquisition Subsidiary merged with and into CrossRoads, and CrossRoads continued as the surviving corporation (the Merger). In addition, as part of the Merger, certain members of management of CrossRoads entered into non-competition agreements with our company.

F-11

Table of Contents

The purchase price paid by us for the acquisition of the stock of CrossRoads was \$28,030, which was payable in cash and was funded from our cash on hand. The fair value of assets acquired and liabilities assumed was \$32,958, and \$4,928 respectively. The purchase price allocation includes \$1,176 of non-compete agreements, which will be amortized over two to seven years, \$20,485 of goodwill and \$794 for trademarks that are not subject to amortization. On September 2, 2003, Thor acquired 100% of the common stock of Damon Corporation. Damon is engaged in the business of manufacturing Class A motorhomes and park models. The cash price of the acquisition was \$29,619 which was paid from internal funds. Immediately after the closing, the Company paid off a \$12,973 bank debt assumed in connection with the acquisition.

D. GOODWILL AND OTHER INTANGIBLE ASSETS

Statement of Financial Accounting Standards (SFAS) No. 142, Goodwill and Other Intangible Assets, requires goodwill to be tested for impairment at least annually and more frequently if an event occurs which indicates the goodwill may be impaired. On an annual basis, we test goodwill for impairment as of April 30.

The components of other intangibles are as follows:

	July 31, 2006		July 31, 2005	
	Cost	Accumulated Amortization	Cost	Accumulated Amortization
Amortizable Intangible Assets- Non-compete agreements	\$ 15,889	\$ 13,048	\$ 15,889	\$ 12,099

Aggregate amortization expense for non-compete agreements for the years ended, July 31, 2006, 2005 and 2004 were \$949, \$967, and \$799, respectively. Non-compete agreements are amortized on a straight-line basis. The weighted average remaining amortization period at July 31, 2006 is 3.8 years.

Estimated Amortization Expense:

For the year ending July 2007	\$ 887
For the year ending July 2008	\$ 828
For the year ending July 2009	\$ 492
For the year ending July 2010	\$ 337
For the year ending July 2011	\$ 239

There was no change in the carrying value of goodwill and trademarks for the year ended July 31, 2006. The change in the carrying value of goodwill and trademarks for the year ended July 31, 2005 was as follows:

	Goodwill	Trademark
Balance as of July 31, 2004	\$ 140,857	\$ 12,270
Acquisitions	24,805	1,630
Balance as of July 31, 2005	\$ 165,662	\$ 13,900

Goodwill and trademarks by segment totaled as follows:

	July 31, 2006		July 31, 2005	
	Goodwill	Trademark	Goodwill	Trademark
Recreation Vehicles				
Towables	\$ 143,795	\$ 10,237	\$ 143,795	\$ 10,237
Motorized	17,252	2,600	17,252	2,600
Buses	4,616	1,063	4,615	1,063
Total	\$ 165,663	\$ 13,900	\$ 165,662	\$ 13,900

F-12

Table of Contents**E. INVENTORIES**

Major classifications of inventories are:

	As of July 31,	
	2006	2005
Finished products	\$ 13,416	\$ 14,196
Work in process	51,208	55,413
Raw materials	99,807	77,171
Chassis	39,772	29,506
Subtotal	204,203	176,286
Less excess of FIFO costs over LIFO costs	21,034	15,801
Total inventories	\$ 183,169	\$ 160,485

F. LINE OF CREDIT

The Company has a \$30,000 unsecured revolving line of credit which bears interest at prime less 2.15% (6.1% at July 31, 2006) and expires on November 30, 2006. There was no outstanding balance at July 31, 2006 and July 31, 2005. The loan agreement executed in connection with the line of credit contains certain covenants, including restrictions on additional indebtedness, and requires the Company to maintain certain financial ratios. The Company intends to renew the unsecured revolving line of credit prior to expiration.

G. INCOME TAXES

	Years ended July 31,		
	2006	2005	2004
Income taxes:			
Federal	\$ 82,256	\$ 54,963	\$ 49,850
State and local	13,415	7,645	10,320
Foreign	1,129	797	858
Total current	96,800	63,405	61,028
Federal deferred	(3,863)	5,934	243
State and local deferred	(231)	897	(142)
Total deferred	(4,094)	6,831	101
Income taxes	\$ 92,706	\$ 70,236	\$ 61,129

The increase in deferred tax liabilities for the year ended July 31, 2005 was due primarily to increased funding of self-insurance reserves.

The differences between income taxes at the federal statutory rate and the actual income taxes are as follows:

	Years ended July 31,		
	2006	2005	2004
Provision at statutory rates	\$ 89,639	\$ 66,283	\$ 57,975
State and local income taxes, net of federal tax benefit	8,730	5,552	6,616
Extraterritorial income benefit	(1,013)	(1,221)	(867)
Credits and incentives	(233)	(490)	(1,181)

Other	(4,417)	112	(1,414)
Income taxes	\$ 92,706	\$ 70,236	\$ 61,129

Income before income taxes includes foreign income of \$2,962 in fiscal 2006, \$2,101 in fiscal 2005, and \$2,192 in fiscal 2004.

	July 31, 2006	July 31, 2005
A summary of deferred income taxes is:		
Current deferred tax asset (liability):		
Inventory basis	\$ (1,076)	\$ (931)
Employee benefits	2,110	801
Self-insurance	(518)	(1,645)
Product warranties	3,377	3,059
Other	1,005	(22)

	July 31, 2006	July 31, 2005
Total current deferred tax asset included in deferred income taxes and other	4,898	1,262
Long-term deferred tax asset (liability):		
Property basis	(2,211)	(2,754)
Investments	162	686
Deferred compensation	3,859	3,179
Intangibles	(3,547)	(3,696)
Other	(1,840)	(1,450)
Total net long-term deferred tax liability included in deferred income taxes and other liabilities	(3,577)	(4,035)
Net deferred tax asset (liability)	\$ 1,321	\$ (2,773)

H. LEASES

The Company has operating leases principally for land, buildings and equipment. Future minimum rental payments required under these operating leases are \$13,094, which includes the following amount due in each of the next five fiscal years ending July 31: \$4,021 in fiscal 2007; \$3,480 in fiscal 2008; \$2,109 in fiscal 2009; \$1,742 in fiscal 2010; \$867 in fiscal 2011 and \$875 thereafter. Rent expense was \$4,956 in fiscal 2006, \$4,918 in fiscal 2005 and \$6,172 in fiscal 2004.

I. EMPLOYEE BENEFIT PLANS

Substantially all non-highly compensated employees can participate in a 401(k) plan. Company contributions are at the discretion of the Company's board of directors. Total expense for the plan was \$644 in fiscal 2006, \$630 in fiscal 2005, and \$645 in fiscal 2004.

The Company has established a deferred compensation plan for executives who do not participate in a 401(k) plan. This plan allows executives to defer a portion of their compensation and to direct the Company to invest the funds in mutual fund investments held by the Company. Participant benefits are limited to the value of the investments held on their behalf. Investments held by the Company are accounted for as trading securities and the obligation to the participants is reported as a liability. No income or loss is recorded through the Consolidated Statements of Income. The Company does not make contributions to the plan. The balance of investments held in this plan was \$7,542 at July 31, 2006 and \$5,907 at July 31, 2005.

J. CONTINGENT LIABILITIES AND COMMITMENTS

It is customary practice for companies in the recreation vehicle industry to enter into repurchase agreements with financing institutions to provide financing to their dealers. Generally, these agreements provide for the repurchase of products from the financing institution in the event of a dealer's default.

Our principal commercial commitments at July 31, 2006 are summarized in the following chart:

Commitment	Total Amount Commitment	Term of Guarantee
Guarantee on dealer financing	\$ 2,574	less than 1 year
Standby repurchase obligation on dealer financing	\$ 813,795	less than 1 year

The risk of loss under these agreements is spread over numerous dealers and further reduced by the resale value of the units which the company would be required to repurchase. Losses under these agreements have not been significant in

the periods presented in the consolidated financial statements, and management believes that any future losses under these agreements will not have a significant effect on the Company's consolidated financial position or results of operations.

The Company records repurchase and guarantee reserves based on prior experience and known current events. The combined repurchase and recourse reserve balances are approximately \$1,563 as of July 31, 2006 and \$1,368 as of July 31, 2005.

	Fiscal 2006	Fiscal 2005	Fiscal 2004
Cost of units repurchased	\$ 4,878	\$ 11,220	\$ 3,775
Realization of units resold	4,230	9,355	3,133
Losses due to repurchase	\$ 648	\$ 1,865	\$ 642

The Company obtains certain vehicle chassis from automobile manufacturers under converter pool agreements. These agreements generally provide that the manufacturer will supply chassis at the Company's various production facilities under the terms and

F-14

Table of Contents

conditions set forth in the agreement. The manufacturer does not transfer the certificate of origin to the Company and, accordingly, the Company accounts for the chassis as consigned, unrecorded inventory. Chassis are typically converted and delivered to customers within 90 days of delivery. If the chassis is not converted within 90 days of delivery to the Company, the Company purchases the chassis and records the inventory. At July 31, 2006 and July 31, 2005, chassis on hand accounted for as consigned, unrecorded inventory was approximately \$24,970 and \$22,285 respectively.

The Company is involved in various litigation generally incidental to normal operations.

K. STOCKHOLDERS EQUITY

The Company purchased 1,145,200 shares of Thor's common stock in fiscal 2006 at an average cost of \$44.94 per share. In fiscal 2005 the Company purchased and retired 323,200 shares of Thor's common stock at an average cost of \$26.27 per share. This retirement resulted in a reduction of \$8,490 in Treasury Stock, \$32 in Common Stock, \$458 in Additional Paid-In Capital and \$8,000 in Retained Earnings in fiscal 2005. In addition, the Company purchased 256,000 shares of Thor Common Stock in fiscal 2005 at a cost of \$7,031 and an average cost of \$27.46 per share to be held as Treasury shares.

In the fourth quarter of fiscal 2005 the Company declared a special 25¢ dividend as well as the regular dividend which was raised from 3¢ to 5¢ to be paid in the first quarter of fiscal 2006. These dividends have been accrued for on the Consolidated Balance Sheet in the line item captioned dividends payable.

Effective August 1, 2005, we adopted Statement of Financial Accounting Standard (SFAS) No. 123R, Share Based Payment, using the modified prospective transition method. Under the modified prospective method, awards that are granted, modified or settled after the date of the adoption are measured and accounted for in accordance with SFAS 123R.

Stock Options The Company's Board of Directors approved the 1999 Stock Option Plan. 2,000,000 shares were authorized under the Plan. Options expire 10 years from the date of grant and are vested evenly over 3 to 4 years from the date of grant.

A summary of option activity under the 1999 Stock Option Plan is as follows:

	2006		2005		2004	
	Shares	Weighted-Average Exercise Price	Shares	Weighted-Average Exercise Price	Shares	Weighted-Average Exercise Price
Outstanding at beginning of year	704,041	\$ 19.63	792,344	\$ 18.07	658,714	\$ 9.26
Exercised	(171,003)	14.47	(110,636)	11.79	(227,370)	7.42
Canceled			(12,667)		(16,000)	
Granted			35,000	30.51	377,000	27.12
Outstanding at end of year	533,038	\$ 21.29	704,041	\$ 19.63	792,344	\$ 18.07
Exercisable at year-end	382,843	\$ 18.79	426,375	\$ 14.48	303,343	\$ 9.11

The weighted average fair value of options granted was \$12.31 and \$11.10 in fiscal 2005 and fiscal 2004, respectively as calculated by the Black-Scholes method. The weighted average-remaining contractual life for options outstanding and exercisable at July 31, 2006, was 6.9 years and 6.6 years respectively. The aggregate intrinsic value of options outstanding and exercisable at July 31, 2006 was \$11,486 and \$9,209 respectively. There are 666,003 shares available for grant under the 1999 plan.

The assumptions used in determining the fair value of options granted during fiscal 2005 and 2004 is as follows:

	2005	2004
Expected volatility	38%	38%
Expected life of grant	6 years	6 years
Risk free interest rate	3.90%	3.29%
Expected dividend rate	.30%	.26%

The fair value of each option award is estimated on the date of grant using the Black-Scholes option-pricing model. Assumptions utilized in the model are evaluated when awards are granted. Forfeiture assumptions are revised as necessary to reflect experience. The fair value of the stock options is based upon the market price of the underlying common stock as of the date of the grant, reduced by the present value of estimated future dividends, and risk-free interest rates. The risk-free rate for periods within the contractual life of the option is based on the U.S. treasury security rate estimated for the expected life of the options at the date of grant. Expected

F-15

Table of Contents

volatilities are based on the historical volatility of our stock. The expected term of the options represents the period of time that options granted are outstanding and is estimated using historical exercise and termination behavior.

The amount expensed in the current period under SFAS No. 123R is consistent with prior proforma disclosures under SFAS 123.

For fiscal year 2006, the Company recorded expense of \$858 for stock option awards. At July 31, 2006, there was \$496 of total unrecognized compensation costs related to stock options that is expected to be recognized over a weighted average period of 1.0 years.

Cash received from stock option exercises for the year ended July 31, 2006 was \$2,474. The total intrinsic value of stock options exercised in 2006, 2005 and 2004 was \$5,417, \$2,518 and \$5,025, respectively.

Exercises of options are satisfied with the issuance of new shares from authorized shares.

Stock Awards The Company has a stock award plan which allows for the granting of up to 600,000 shares of restricted stock to selected executives. Restrictions expire 50% after 5 years following the date of issue and the balance after six years. A summary of stock award activity under this Plan for the year ended July 31, 2006 is as follows:

	Shares	Weighted Average Grant Date Fair Value
Nonvested, August 1, 2005	115,700	\$ 12.93
Granted		
Vested	16,800	5.77
Forfeited	4,200	9.98
Nonvested, July 31, 2006	94,700	\$ 14.33

For the fiscal year 2006, the Company recorded expense of \$211 for restricted stock awards. At July 31, 2006, there was \$495 of total unrecognized compensation costs related to restricted stock awards that is expected to be recognized over a weighted average period of 2.4 years.

The total fair value of restricted shares vested during fiscal year 2006 was \$604. 398,013 shares are available for grant under the restricted stock plan.

L. JOINT VENTURES

In March 1996, the Company and Cruise America, Inc., an unrelated third party, formed a joint venture, CAT Joint Venture LLC (CAT), to make short-term rentals of motorized recreation vehicles to the public. As of July 31, 2006 we were contingently liable for repurchase obligations of CAT inventory in the amount of approximately \$9,500. Any losses related to these obligations would be shared equally by the Company and Cruise America. The Company's total investment is \$1,170.

In March 1994, the Company and a financial services company formed a joint venture, Thor Credit Corporation (TCC), to finance the sales of recreation vehicles to consumer buyers. Historically, the majority of these financing arrangements were provided to consumers buying recreation vehicles manufactured by unrelated parties. The Company's total investment is \$1,567.

These investments are 50% owned and are accounted for using the equity method. The Company's share of the combined earnings (loss) for these investments was \$(63), \$640 and \$446, in fiscal 2006, 2005 and 2004 respectively, and is included in the other income caption of the Consolidated Statements of Income. Additionally, TCC pays the Company a referral fee based upon the amount of loans generated from Thor dealerships. The Company recognized referral income of \$1,564, \$1,859 and \$1,921 in fiscal 2006, 2005 and 2004 respectively, which is included in the other income caption of the Consolidated Statements of Income.

During fiscal 2006, our Four Winds subsidiary had sales to Cruise America of \$32,277 and Cruise America had sales to CAT of \$6,657. During fiscal 2005, our Four Winds subsidiary had sales to Cruise America of \$57,979 and Cruise

America had sales to CAT of \$9,521. During fiscal 2004, our Four Winds subsidiary had sales to Cruise America of \$48,963 and Cruise America had sales to CAT of \$6,299.

F-16

Table of Contents**M. BUSINESS SEGMENTS**

The Company has three reportable segments: 1.) towable recreation vehicles, 2.) motorized recreation vehicles, and 3.) buses. The towable recreation vehicle segment consists of product lines from the following operating companies that have been aggregated: Airstream, Breckenridge, CrossRoads, Dutchmen, General Coach Hensall & Oliver, Keystone, Komfort, and Thor California. The motorized recreation vehicle segment consists of product lines from the following operating companies that have been aggregated: Airstream, Damon, Four Winds and Oliver. The bus segment consists of the following operating companies that have been aggregated: Champion Bus, Eldorado California, Eldorado Kansas and Goshen Coach.

Manufacturing and sales are conducted in the United States and, to a much lesser extent, in Canada. Identifiable assets are those assets used in the operation of each reportable segment. Corporate assets primarily consist of cash and cash equivalents, deferred income tax assets, the cash value of Company-owned life insurance and various investments.

Table of Contents**N. WARRANTY**

Thor provides customers of our product with a warranty covering defects in material or workmanship for periods generally ranging from one to two years, with longer warranties of up to five years on certain structural components. We record a liability based on our best estimate of the amounts necessary to settle future and existing claims on products sold as of the balance sheet date. Factors we use in estimating the warranty liability include a history of units sold, existing dealer inventory, average cost incurred and a profile of the distribution of warranty expenditures over the warranty period. A significant increase in dealer shop rates, the cost of parts or the frequency of claims could have a material adverse impact on our operating results for the period or periods in which such claims or additional costs materialize. Management believes that the warranty reserves are adequate. However, actual claims incurred could differ from estimates, requiring adjustments to the reserves. Warranty reserves are reviewed and adjusted as necessary on a quarterly basis.

	Year Ended July 31, 2006	Year Ended July 31, 2005	Year Ended July 31, 2004
Beginning Balance	\$ 55,118	\$ 45,829	\$ 35,115
