INFORMATION ABOUT THE MEETING

The Meeting

The Company's Special Meeting in Lieu of 2007 Annual Meeting of Stockholders will be held at 10:00 a.m. on Friday, June 29, 2007 at our corporate offices, located at 293 Boston Post Road West, Suite 220, Marlborough, Massachusetts 01752. At the meeting, stockholders who are present or represented by proxy will have the opportunity to vote on the election of one Class II director for a three-year term and on any other business properly presented at the meeting.

This Proxy Solicitation

We have sent you this proxy statement and the enclosed proxy card because our Board of Directors is soliciting your proxy to vote at the meeting (including any adjournment or postponement of the meeting).

This proxy statement summarizes information about the proposals to be considered at the meeting and other information you may find useful in determining how to vote.

The proxy card is the means by which you actually authorize another person to vote your shares at the meeting in accordance with your instructions.

We will pay the cost of soliciting these proxies. Our directors, officers and employees may solicit proxies in person, by telephone or by other means. We will reimburse brokers and other nominee holders of shares for expenses they incur in forwarding proxy materials to the beneficial owners of those shares. At present, we do not plan to retain the services of a proxy solicitation firm to assist us in this solicitation.

We are mailing this proxy statement and the enclosed proxy card to stockholders for the first time on or about May 15, 2007. In this mailing, we are including a copy of our 2006 Annual Report, which includes our Annual Report on Form 10-K for the year ended December 31, 2006 (excluding exhibits), as filed with the Securities and Exchange Commission (SEC).

How to Vote

You are entitled to one vote at the meeting for each share of common stock registered in your name at the close of business on May 3, 2007. You may vote your shares at the meeting in person or by proxy.

To vote in person, you must attend the meeting, and then complete and submit the ballot provided at the meeting.

To vote by proxy, you must complete and return the enclosed proxy card. Your proxy card will be valid only if you sign, date and return it before the meeting. By completing and returning the proxy card, you will direct the persons named on the proxy card to vote your shares at the meeting in the manner you specify.

If you complete all of the proxy card except the voting instructions, then the designated persons will vote your shares FOR the election of the nominated director. If any other business properly comes before the meeting, then the designated persons will have discretion to vote in any manner.

Edgar Filing: Authorize.Net Holdings, Inc. - Form DEF 14A

If you vote by proxy, you may revoke your proxy at any time before it is exercised by taking one of the following actions:

sending written notice to our Secretary at our address set forth on the notice of meeting appearing on the cover of this proxy statement;

voting again by proxy on a later date; or

attending the meeting, notifying our Secretary that you are present, and then voting in person.

Shares Held by Brokers or Nominees

If a broker or nominee holds shares of our common stock for you in its name, then this proxy statement may be forwarded to you with a voting instruction card, which allows you to instruct the broker or nominee how to vote your shares on the proposal described herein. To vote by proxy, you should follow the directions provided with the voting instruction card. If your shares are held by a broker and you do not provide timely voting instructions, the broker may have discretionary authority to vote your shares on matters which are considered routine. For non-routine matters, if you do not provide instructions, the broker will not vote your shares, which results in a broker non-vote. To vote your shares in person, you must obtain a properly executed legal proxy from the record holder of the shares which identifies you as the beneficial owner of our shares and authorizes you to act on behalf of the record holder with respect to a specified number of shares.

Quorum Required to Transact Business

At the close of business on April 24, 2007, 28,087,007 shares of common stock were outstanding. Our by-laws require that a majority of our common stock be represented, in person or by proxy, at the meeting in order to constitute the quorum we need to transact business. We will count abstentions and broker non-votes in determining whether a quorum exists.

Multiple Stockholders Sharing the Same Address

If you and other residents at your mailing address own shares of common stock through a broker or other nominee, you may have received only one copy of this proxy statement and our 2006 Annual Report if you so elected. If you and other residents at your mailing address own shares of common stock in your own names, you may have received only one copy of this proxy statement and our 2006 Annual Report unless you provided our transfer agent with contrary instructions.

This practice, known as householding, is designed to reduce our printing and postage costs. You may promptly obtain an additional copy of this proxy statement and our 2006 Annual Report by sending a written request to Authorize.Net Holdings, Inc., Investor Relations, 293 Boston Post Road West, Suite 220, Marlborough, Massachusetts 01752, by calling our Investor Relations department at 508-229-3215 or by sending an e-mail to tobrien@lightbridge.com or tobrien@authorize.net. If you hold your shares through a bank or other nominee and wish to discontinue householding or change your householding election, you may do so by calling 1-800-542-1061 or writing to Broadridge Financial Solutions, Inc., 51 Mercedes Way, Englewood, NY 11717. If you hold your shares in your own name and wish to discontinue householding or change your householding election, you may do so by calling 1-800-937-5449 or writing to American Stock Transfer & Trust Company, 59 Maiden Lane, New York, NY 10038.

PROPOSAL: ELECTION OF ONE CLASS II DIRECTOR

The only proposal on the agenda for the meeting is the election of one person to serve as a Class II director for a three-year term beginning at the meeting and ending at our 2010 annual meeting of stockholders. Our Board currently has five members and is divided into three classes. We currently have two Class I directors, one Class II director and two Class III directors. Members of each class of directors serve for three-year terms. We stagger these terms so that the term of only one class expires each year.

Nominee for Election

The nominee for re-election as a Class II Director is Rachelle B. Chong. A brief biography of Ms. Chong as of April 24, 2007 follows. You will find information on Ms. Chong's holdings of common stock in the Stock Owned by Directors, Executive Officers and Greater-than-5% Stockholders table.

Rachelle B. Chong
Class II Director Nominee

Ms. Chong has served as one of our directors since February 2001. She joined our Board under the terms of our merger agreement with Corsair Communications, Inc. Ms. Chong had served as a director of Corsair since December 1998. Since January 2006, she has served as a commissioner of the Public Utilities Commission of the State of California. Since July 2001, she has been President of Carina Jewelry Inc., a retail jewelry business and e-commerce company. From January 2000, she has served as General Counsel and Vice President, Government Affairs, of BroadBand Office, Inc. (BBO), a provider of communications, Internet and e-business solutions in large office buildings. Prior to BBO, she was a partner specializing in communications and Internet matters with the multinational law firm of Coudert Brothers in San Francisco and Palo Alto, CA. From May 1994 to November 1997, she served as a Commissioner of the Federal Communications Commission in Washington, D.C. Prior to her federal government service, Ms. Chong was a partner with the international law firm of Graham & James in San Francisco, CA. Ms. Chong is 47 years old.

If for any reason Ms. Chong becomes unavailable for election, the persons designated in the proxy card may vote the shares represented by proxy for the election of a substitute. Ms. Chong has consented to serve as a director if elected, and we currently have no reason to believe that she will be unable to serve.

The one person receiving the greatest number of votes cast will be elected as a Class II director.

Our Board of Directors recommends that you vote FOR the election of Ms. Chong as a Class II Director.

Director Candidates and Selection Process

The Nominating and Governance Committee, in consultation with our Chief Executive Officer and the Chairman of the Board, identifies and reviews candidates for our Board and recommends to our full Board candidates for election to the Board. In selecting new directors, the committee considers any requirements of applicable law or listing standards, a candidate's strength of character, judgment, business experience and specific area of expertise, factors relating to the composition of the Board (including its size and structure), principles of diversity, and such other factors as the committee deems to be appropriate. As part of this responsibility, the committee is responsible for conducting, subject to applicable law, any and all inquiries into the background and qualifications of any candidate for the Board and such candidate's compliance with the independence and other qualification requirements established by the committee or imposed by applicable law or listing standards. The committee has used third-party recruiting firms at times to assist it in identifying nominees for director.

The Nominating and Governance Committee will consider director candidates recommended by stockholders. In considering candidates submitted by stockholders, the Nominating and Governance Committee will take into consideration the factors discussed above. The Nominating and Governance Committee may also take into consideration the number of shares held by the recommending stockholder and the length of time that such shares have been held. To have a candidate considered by the Nominating and Governance Committee, a stockholder must submit the recommendation in writing and must include the following information:

The name and address of the stockholder and the class and number of shares beneficially owned by the stockholder and owned of record by the stockholder; and

All information relating to the candidate that is required to be disclosed in solicitation of proxies for election of a director, or is otherwise required pursuant to Regulation 14A under the Securities Exchange Act of 1934 or any other applicable statute, rule or regulation.

The stockholder recommendation and information described above must be sent to our Secretary and must be received at our corporate offices not less than sixty (60) days prior to the date of our annual meeting of stockholders as specified in our by-laws (the fourth Wednesday in May); provided, however, that if our annual meeting is to be held on a date prior to such specified date, and if less than seventy (70) days' notice or prior public disclosure of the date of such annual or special meeting is given or made, notice by the stockholder to be timely must be so delivered or received not later than the close of business on the tenth (10th) day following the earlier of the day on which notice of the date of such annual or special meeting was mailed or the day on which public disclosure was made of the date of such annual or special meeting.

Director Compensation

Directors who are not our employees receive \$2,000 for each Board meeting they attend and \$1,000 for each meeting they attend of a committee of the Board on which they serve. Non-employee Directors (other than the Chairman of the Board) also receive an annual retainer of \$20,000 for their services as Directors. In 2006, the Audit Committee Chair received an annual retainer of \$10,000, the Compensation Committee Chair received an annual retainer of \$6,000. Effective January 1, 2007, the annual retainers for the Audit Committee Chair and Compensation Committee Chair were increased to \$15,000 and \$10,000, respectively. Other committee chairs receive an annual retainer of \$5,000 for their services as chairperson of a committee. Any non-employee Director who also serves as Chairman of the Board receives an annual all-inclusive retainer of \$70,000 for the additional services, duties and responsibilities of the Chairman of the Board.

It has been our practice that Directors who are not our employees also receive stock option grants. Upon election to the Board of Directors, each non-employee Director receives options to purchase 25,000 shares of common stock, which vest in three equal annual installments. In addition, following each annual meeting of stockholders (or special meeting in lieu thereof), each non-employee Director re-elected to or remaining on the Board is granted fully vested options to purchase 10,000 shares of common stock, *provided* that:

any prior grants held by the Director have fully vested; or

at least two annual meetings of stockholders (or special meetings in lieu thereof) have elapsed between any prior grant made to the Director and the meeting upon which the subsequent grant would occur.

The exercise price per share of each option grant is equal to the closing price of our common stock on the date of such grant, as reported by The NASDAQ Global Market. Directors who are our employees are not entitled to receive any separate compensation for serving as Directors.

Compensation Discussion & Analysis

This Compensation Discussion & Analysis (CD&A) outlines our compensation philosophy, objectives and processes, while it sets forth the method for decision-making regarding executive compensation as well as some of the data and reasoning behind the decisions that are made. Elsewhere in this proxy statement are several tables setting forth the actual compensation for our named executive officers, together with associated narratives that explain the data contained in the tables. There is also a section detailing the compensation amounts related to termination of employment of each named executive in several different situations.

Overview

What person or group is responsible for determining the compensation levels of named executive officers?

The Compensation Committee of our Board of Directors determines compensation for the named executive officers and recommends to the Board compensation for Board members. In doing so, the Committee reviews the performance of the Company, assesses the performance of the individuals, and, as needed, confers with an independent compensation consultant about the competitive market for comparable executives. The Committee assesses the performance of the Company in part based on financial and business measures.

In 2006, the Committee retained the services of Pearl Meyer & Partners (PM&P), an independent compensation consultant, to prepare peer group and survey data, to assist with the review of overall executive and director compensation programs, to prepare documentation for our proxy statement, to assist us to understand applicable legal and regulatory requirements related to compensation, and to provide general compensation advice.

Table of Contents

The Compensation Committee retains PM&P directly and relies on it for independent advice. In carrying out assignments, PM&P also works directly with Company management when necessary or appropriate and may seek input and feedback from management about its work product before presentation to the Compensation Committee.

What are the objectives of our compensation program for executive officers, and what is it designed to reward?

The Compensation Committee seeks to achieve three broad goals in connection with our Company's executive compensation programs and decisions regarding individual compensation.

Structuring executive compensation programs in a manner that is designed to enable the Company to attract and retain key executives.

Rewarding executives based on the Company's achievement of financial goals or individual management business objectives.

Providing executives with an equity interest in the Company so as to link a portion of their compensation with the performance of the common stock.

What are the elements of executive compensation?

We utilize three main components of compensation.

Base Salary Fixed pay that takes into account an individual's title, duties and responsibilities, experience, expertise and individual performance.

Annual Incentive/Bonus Variable pay that is designed to reward the attainment of financial goals or management business objectives with target awards generally expressed as a percentage of base salary. Individual performance is also taken into consideration in some cases.

Long-Term Incentives (stock-based awards) stock options and/or restricted stock awards, which vest based on continued service or achievement of financial measures.

Why do we choose to pay each element and how do we decide how much to pay?

The Compensation Committee determines the elements and levels of executive compensation. The Committee reviews executive compensation at least annually, although specific matters may be addressed at various times throughout the year. Determining compensation for any given year includes a review of appropriate market data, Company and individual performance, discussions among the Committee members and management, presentations to the Committee of proposed compensation for the year, and a review of the prior year's compensation. From time to time, the Committee considers and makes off-cycle changes to an individual executive's compensation as a result of changes in title, duties or responsibilities, or for retention or other business reasons.

Compensation elements include:

Base Salary

The Committee approves base salaries for executive officers based on a recommendation from the CEO (except with respect to the CEO's base salary), appropriate market data provided by our compensation consultant, consideration of

the internal management structure of the Company, and other relevant factors. Pursuant to its charter, our Nominating and Governance Committee, with participation from the Chairman of the Board, oversees the CEO's annual performance evaluation. The Chairman of the Board of Directors, with the input from the Nominating and Governance Committee and the Board of Directors, recommends the

Table of Contents

CEO's base salary to the Compensation Committee, which approves, or recommends to the Board of Directors the approval of, such base salary. The CEO's salary determination is considered and voted upon with the CEO absent from the discussion and vote. The Compensation Committee reviews base salaries each year and adjusts them appropriately to reflect market conditions, changes in duties or responsibilities, individual performance, general economic conditions and other relevant factors.

Current base salaries for executive officers are generally within the 50th percentile range of the market data (+/- 10%) provided by our compensation consultant. The CFO's base salary is at the 75th percentile of the market data based on his experience, expertise and individual performance. The market data considered consists of peer group data and compensation survey data described below.

Annual Incentive/Bonus

Our annual incentive/bonus plan is designed to focus our executive officers on the execution of our business plan and the achievement of specific financial goals and individual management objectives each year. We believe that the annual incentive/bonus program is an effective tool to motivate our executives to achieve their goals and objectives and to create shareholder value.

Our annual incentive targets are stated as a percentage of base salary, as follows:

Mr. Donahue 100%

Mr. O'Brien 60%

Mr. Banks 50%

Mr. DiDonato 40%

J. Donald Oldham, the former President of our Telecom Decisioning Services (TDS) business, was not employed for the entire fiscal year and was not eligible for a bonus. His target percentage of base salary would have been 50%.

Each year, the Committee works with management to establish appropriate performance measures for the annual incentive plan. The Committee establishes payout targets under the annual incentive plan based on the performance of the Company with regard to the measures determined by the Committee early in the year and the achievement of individual management objectives. In 2006, there were three performance measures that determined the amount of the actual payout. These measures were weighted as follows:

Messrs. Donahue, O'Brien and DiDonato 30% corporate earnings per share (EPS), 30% corporate revenue, and 40% individual management objectives

Mr. Banks 30% business unit operating income, 30% business unit revenue, 10% corporate EPS, and 30% individual management objectives

Individual management objectives vary based upon the positions held, and reflect objectives such as managing costs and expenses, succession planning, management development, improving operating performance, maintaining regulatory compliance or fulfilling designated strategic or tactical business goals. Individual management objectives are designed to be achieved within the year, and it is more likely than not that such objectives will be met by the end of a given year.

In 2006, each executive officer other than the CEO had the potential to earn an incremental bonus equal to a percentage of a total pool that was based on corporate operating income in excess of goal. The percentage was the same as the percentage that each executive officer's regular bonus was of the total bonuses paid to all participants in the pool for the year. The pool was funded if the Company exceeded its operating income goal for the year. In 2006, Messrs. O'Brien, Banks and DiDonato each received incremental bonuses in the respective amounts of \$36,459, \$23,737 and \$17,850.

The Committee approved \$192,430 of additional bonuses to be paid to the executive officers of the Company other than Mr. Oldham. This was done in recognition of exemplary performance by the executive officers and Company during a year that presented many challenges. For example, in 2006, the Company was

Table of Contents

notified that two significant TDS customers were terminating their relationships with the Company. The Company accordingly decided to exit the TDS business. The value of the Company's stock increased approximately 63% in 2006 in spite of this development. The amount of such additional bonuses paid to each of the executive officers (other than Mr. Oldham) is set forth in the 2006 Summary Compensation Table below under the Bonus column. Mr. Oldham received a \$25,000 sign-on bonus when he joined the Company.

Compensation under the annual incentive/bonus plan is believed by the Company and the Committee to be performance based under Section 162(m) of the Internal Revenue Code. As such, it is exempt from the limitation on deduction of such payments to an executive officer if total compensation exceeds \$1.0 million in a fiscal year. However, the additional bonuses described in the preceding paragraph are not considered performance based and would not qualify for exemption from this limitation on deduction. However, taxable compensation for individual executive officers for base salary and discretionary bonus in 2006 did not exceed \$1.0 million, making all such payments to the executives deductible.

Long-Term Incentives

The Compensation Committee approves all long-term incentive awards for the executive officers. The Committee's approach is to keep equity compensation competitive within the 50th percentile of market data, yet reflective of an individual's performance and long-term value to the Company.

Long-term incentives have typically been offered to executives at the Company in the form of time-vested stock options. Because restricted stock awards are generally made for significantly fewer shares of stock than are stock option awards, in 2006, we issued restricted stock awards to the executive officers (except the CEO) in order to help limit the overall equity dilution of the Company. We believe that equity compensation promotes long-term focus, helps to build shareholder value by aligning our executives' interests with those of our shareholders, and helps us to retain key individuals. Equity awards are made at the fair market value of our common stock on the date of award.

Although our long-term incentive stock options have typically been time-vested instruments, Messrs. Donahue and O'Brien have been granted performance-vested stock options tied to our stock trading above certain levels for certain periods of time.

Stock Options In 2006, the Committee granted 100,000 options to each of Mr. Donahue and Mr. Oldham; 40,000 options to Mr. Banks; 30,000 options to Mr. O'Brien; and 25,000 options to Mr. DiDonato. Mr. Oldham's employment with the company was terminated on November 24, 2006 as a result of our decision to exit the TDS business.

Restricted Stock Awards In 2006, the Committee issued restricted stock to Mr. O'Brien, Mr. Banks and Mr. DiDonato, each of whom received a time-vested restricted stock grant of 10,000 shares vesting quarterly over a four-year period. Restricted stock was utilized mainly to offer retention value to these executives and to limit dilution.

Other

The Company does not provide perquisites to executives. Executives are eligible for the standard benefits and programs available to all employees.

Timing of Long-Term Incentives

The Company does not currently have any program, plan or practice in place to time option or other equity awards to its executives or its other employees in coordination with the release of material non-public information. Typically, annual long-term incentives have been granted during the first quarter of the year. The precise timing of our annual long-term incentive awards may be affected by the availability of benchmark

Table of Contents

data, the completion of our evaluation process for a given year, and other circumstances. We plan to continue to approve our annual long-term incentives in the first quarter of a given year. If circumstances necessitate, additional grants may be made during the year. The Committee reserves the right to make awards in special situations and at special times if business circumstances necessitate, such as the hiring or retention of an employee.

Pay Mix

We utilize base salary, annual incentive/bonus and long-term incentives in our compensation mix because we believe they provide a balanced mix of fixed compensation (base salary) and variable compensation that balances short-term and long-term performance incentives and rewards. We endeavor to achieve employee retention through vesting schedules for long-term incentives. The mix of measures in the annual incentive/bonus plan serves to focus executives attention on the near-term performance needs of building the Company, while long-term incentives provide a focus on the long-term shareholder value. We believe this is the appropriate balance between near-term and long-term financial performance.

Currently, our pay mix is similar to that found among our peer group. However, we will evaluate the mix each year and may deviate from the peer group practice to incent or retain our executive officers.

Pay Levels and Benchmarking

Decisions with regard to the actual amount or value of compensation paid to each executive officer are based on a number of factors. These factors include objective compensation data representing pay levels in the marketplace, pay levels of other executives at a similar level within the Company, the individual's title, duties and responsibilities within the Company, the individual's particular experience and expertise, and the performance of the individual.

In determining pay levels, the Compensation Committee looks at all forms of compensation and benefits received by the executive. We have used tools such as tally sheets to assist in the review of the total compensation delivered to each executive officer in a given year. The tally sheets have also quantified the potential future value of the Committee's current compensation decisions by tracking accumulated values related to stock options and possible termination payments.

The Committee assesses competitive market compensation using a number of sources. The primary data sources utilized for executive officer comparisons is the information publicly disclosed by companies within our 2006 peer group as provided by our independent compensation consultant. The peer group is made up of selected companies within our industry that have overall slightly higher revenue and market cap than the Company. We believe it is appropriate to utilize a peer group of larger companies based on our need to retain key executives and our goal to build the Company. We update the peer group as necessary to remain relevant and provide meaningful comparisons.

Peer group data is supplemented with published executive compensation surveys, which provide position-based compensation levels. The survey data that we utilize is made up of technology companies of similar size and scope to the Company. In 2006, the Compensation Committee retained PM&P to develop a competitive assessment of executive compensation, which provided the data necessary to assist us to make our compensation decisions.

In general, we compare market data for executive officers by similarity of position. While objective data is a good starting point for determining appropriate compensation, we recognize that there may be circumstances that warrant an adjustment or deviation from market data.

While the Committee, in making decisions regarding an individual executive officer's target total compensation, relies heavily on the external competitive levels of compensation, it also considers other

Table of Contents

important circumstances that may warrant an adjustment or deviation from the benchmark data, particularly if it is necessary to further our goals of attracting, retaining and motivating an experienced and effective management team. Other factors we may consider include title, individual duties and responsibilities, individual performance, the difficulty of recruiting a new executive, individual experience and expertise, tenure, or the value of institutional knowledge.

The amount and mix of compensation that the Committee determines is considered within the context of both the objective data from our competitive assessment of compensation and discussion of the subjective factors as outlined above. We believe that each of the compensation packages for our executives is within the competitive range of pay practices when compared to objective comparative data, even where subjective factors have influenced our compensation decisions.

Employment and Executive Retention Agreements

The Company has an employment agreement with Mr. Donahue and executive retention agreements with its named executives.

The main provisions of the agreements pertain to termination of employment. Providing severance and benefits continuation allows the executive team to assess business situations objectively and without regard to the personal outcomes of implementing a sound business decision for the Company. For example, the executives may not objectively assess a merger opportunity if it would result in the executives being terminated without the safety of income being provided post-termination, even if the merger would produce very positive shareholder value.

The Company believes that the employment and retention agreements provide a reasonable level of security in the case of termination.

The Donahue Employment Agreement

In January 2005, the Company entered into an employment agreement with Mr. Donahue related to his employment as CEO, which was then amended in January 2007. The agreement does not state a specific term, but either party may terminate Mr. Donahue's employment at any time with one month's notice.

In the case of termination of employment by the Company without cause (as defined in the agreement), Mr. Donahue will continue to receive his base salary for a period of one year (paid on the normal payroll schedule unless such payments are required to be suspended or delayed under Internal Revenue Code (IRC) Section 409A. IRC Section 409A provides for a 6-month suspension of the Company's obligation to pay such salary during such period, with unpaid salary accruing during such period. In addition, stock options under the First Stock Option (as described below) that would have become vested within one year of the termination become immediately vested at the date of termination and Mr. Donahue has until 90 days following the end of the salary continuation period to exercise the First Stock Option and the Second Stock Option (as described below). The First Stock Option consists of 250,000 options subject to time-based vesting over four years from the date of grant and the Second Stock Option consists of 150,000 options subject to performance-based vesting. In order to receive the salary continuation, Mr. Donahue is required to sign a release and severance agreement.

In the case of termination of employment within two years after a change-in-control (CIC) by the Company without cause or by the employee for good reason (as defined in the agreement), Mr. Donahue is entitled to (a) a lump-sum payment of 1.5 times his then-current base salary plus 1.5 times his bonus earned for the immediately preceding calendar year (unless that bonus has not been determined, in which case it is equal to 60% of the target bonus); (b) benefits continuation for 18 months, and (c) vesting of all unvested stock options.

In the event that the compensation paid to him as a result of a CIC would constitute an excess parachute payment (which triggers an excise tax under IRC Section 280G), Mr. Donahue has the right to cause the Company to reduce his compensation to avoid the tax. We believe this is beneficial to both the Company and the executive and is within the competitive norm of our peer group.

Table of Contents

Executive Retention Agreements

Our executive retention agreements cover each of the current executive officers other than Mr. Donahue. We believe that the terms of the agreements are reasonable and fair to both the Company and the executives and are within the norm when compared to similar companies.

The retention agreements are for one-year terms with automatic renewal. Upon termination of employment within two years after a CIC by the Company without cause or by the employee for good reason (as defined in the agreements), each executive officer would receive (a) a lump sum payment of one times his then-current base salary plus one-times his bonus earned for the immediately preceding calendar year (unless that bonus has not been determined, in which case it is equal to 60% of the target bonus), (b) benefits continuation for 12 months, and (c) vesting of all unvested stock options.

In the event that the compensation paid to any of the executives as a result of a CIC would constitute an excess parachute payment (which triggers an excise tax under IRC Section 280G), he or she has the right to cause the Company to reduce his or her compensation to avoid the tax. Again, we believe this is beneficial to both the Company and the executive and is within the competitive norm of our peer group.

Benefits

Employee benefits received by executive officers are the same as those received by other employees. They include group life, accidental death and long-term disability coverage. The Company also maintains a 401(k) plan and pays matching amounts.

Tax and Accounting Considerations

The Compensation Committee and the Company consider the accounting and tax (individual and corporate) consequences of the compensation plans prior to making changes to compensation. Section 162(m) of the IRC limits deduction of compensation paid to executive officers to \$1,000,000 unless the compensation is performance-based. In the Company's case, base salary, discretionary bonuses and time-vested restricted stock are not considered performance-based. Therefore, any taxable amount transferred or paid to the executives attributable to base salary, discretionary bonus or vesting on time-based restricted stock that is over \$1.0 million is not a deductible compensation expense. Although base salaries and discretionary bonuses for our executive officers are not more than \$1.0 million, amounts attributable to vesting on time-based restricted stock may result in non-deductibility.

When determining amounts of long-term incentive awards to executives and employees, we examine the accounting cost associated with the awards. Under Statement of Financial Accounting Standards No. 123 (revised 2004), grants of stock options, restricted stock, restricted stock units and other share-based payments result in an accounting charge for the Company. The accounting charge is equal to the fair value of the instruments being issued. We consider the prospective compensation expense for our long-term incentive awards to determine whether an accounting charge for them is acceptable in light of our financial situation.

While the Committee considers the tax and accounting effect of the compensation programs, there may be times when the Committee accepts a less advantageous tax and accounting outcome in order to achieve other goals, such as incentivizing and retaining executives.

Equity Ownership by Executives

The Company does not currently have a formal stock ownership requirement for executives. However, we encourage stock ownership by executives on a voluntary basis. Each of our named executives holds both vested and unvested stock options and, except for Mr. Donahue, vested and unvested restricted stock as shown in our Outstanding Equity Awards at 2006 Year End table. We review the vested and unvested holdings by our named executive officers and evaluate whether there is sufficient ownership or potential ownership to appropriately align the interests of the executives with those of the shareholders. We believe that currently no formal ownership requirement is necessary.

- All executives, except for Mr. Oldham received a discretionary bonus at the end of the year. Mr. Oldham received a sign-on bonus in September 2006, in the amount of \$25,000, which is reflected under the Bonus column.
- Reflects the 2006 compensation cost of stock awards over the requisite service period (excluding the impact of estimated forfeitures related to service-based vesting conditions). The awards reflect the 2006 compensation cost using a fair market value of \$13.17, the closing price as of May 9, 2006. Detailed information on estimated future payouts can be found under the table 2006 Grants of Plan-Based Awards.
- Option awards do not reflect compensation actually received by the named executive officer. Instead, the amounts in the Option Awards column reflect the dollar amounts recognized for financial statement reporting purposes for the fiscal year ended December 31, 2006, in accordance with SFAS 123R (excluding the impact of estimated forfeitures related to service-based vesting conditions), and include amounts attributable to awards granted during and before 2006. Excluding the impact of estimated forfeitures related to service-based vesting conditions, assumptions made in the calculation of these amounts are included in Note 4, Stock Based Compensation to the Company's consolidated financial statements for the fiscal year ended December 31, 2006, included in the Company's Annual Report on Form 10-K filed with the SEC on March 15, 2007.

POTENTIAL POST-EMPLOYMENT PAYMENTS

The tables below reflect the compensation and benefits due to each of the named executive officers in the event of termination of employment. The compensation and benefits payable to each named executive officer upon (i) a termination in the normal course of business for cause, upon voluntary resignation or upon retirement, disability or death, (ii) a termination in the normal course of business by the Company without cause, (iii) a termination following a change in control for cause, upon voluntary resignation or upon retirement, disability or death, or (iv) a termination following a change of control by the Company without cause or by the employee for good reason. termination of employment. Generally, a change in control, as defined in the employment and executive retention agreements and equity plan documents, occurs when a person acquires greater than fifty percent (50%) of the combined voting power of the Company's then outstanding securities, the stockholders of the Company approve a merger or consolidation other than one which results in the voting securities of the Company prior to such merger or consolidation continuing to represent more than fifty percent (50%) of the voting securities of the surviving entity after such merger or consolidation, or the stockholders of the Company approve a plan of liquidation or sale or disposition of all or substantially all of the Company's assets. Generally, termination of employment by an executive officer for "good reason" as defined in the employment and executive retention agreements means a significant reduction in an employee's duties, a reduction in the employee's base salary, or a relocation of the employee's primary office of more than 35 miles. Generally, termination of employment by the Company for "cause" as defined in the employment and executive retention agreements means commission of a felony, fraud or theft of Company property, material breach of agreements between the Company and the executive or of Company policies and procedures, or willful refusal or failure by an executive to perform his duties subject to notice and cure.

Notes:

1. Mr. Donahue has an employment agreement and the other named executives have retention agreements with the Company as described above.
2. Under Table 2, Mr. Donahue receives cash severance payments equal to 1 times his base salary and twelve months of benefits continuation for a termination and Mr. Oldham received cash severance payments equal to .5 times his base salary and 6 months of benefits continuation in connection with the termination of his employment by the Company without cause on November 24, 2006. Generally, it has been the practice of the Company to provide severance payments to executives who have been terminated without cause equal to 1 times their base salary and benefits continuation for 12 months.

All executives, except Mr. Donahue and Mr. Oldham, receive lump-sum cash severance equal to 1 times base salary and 1 times bonus earned for the immediately preceding calendar year in the event of termination by the Company without cause or for resignation for good reason within 24 months after a CIC. Mr. Donahue receives lump-sum cash severance equal to 1.5 times base salary and 1.5 times bonus earned for the immediately preceding calendar year in the event of termination by the Company without cause or for resignation for good reason within 24 months after a CIC. Mr. Oldham's employment with the Company was terminated on

November 24, 2006.

3. Under Table 2, for Mr. Donahue, the value of unvested equity represents the value of shares under the First Stock Option that are scheduled to vest within one year following the date of termination. Under Table 3, the value of unvested equity includes all unvested options and restricted stock awards under the Company's 2004 Stock Incentive Plan that are assumed to have fifty percent (50%) of the unvested shares accelerated as of December 31, 2006 (except with respect to Mr. Donahue's Second Stock Option) and all unvested options under the Company's 1996 Incentive and Non-Qualified Stock Option Plan, as amended (the 1996 Plan), and the 1998 Non-Statutory Stock Option Plan, as amended (the 1998 Plan), that are assumed to have an additional one year of unvested shares vested as of December 31, 2006. Mr. Donahue's Employment Agreement was amended in January 2007 to provide that the Second Stock Option would be subject to accelerated vesting in a change in control as provided under the Company's 2004 Stock Incentive Plan. The amounts shown represent the spread of the accelerated options assuming a fair market value of \$13.54, the closing price of the Company's common stock as of December 29, 2006.
4. All unvested options are assumed to have accelerated as of December 31, 2006 upon termination for all the executives, except in the case of Mr. Donahue. For Mr. Donahue, the value of the unvested equity value represents (i) the acceleration of awards pursuant to the First Stock Option and the 300,000 stock options granted on August 4, 2004, and (ii) all other unvested options under the Company's 2004 Stock Incentive Plan that are assumed to have fifty percent (50%) of the unvested shares accelerated as of December 31, 2006 (except with respect to the Second Stock Option) and all unvested options under the 1996 Plan and 1998 Plan that are assumed to have an additional one year of unvested shares vested as of December 31, 2006. The amounts shown represent the spread of the accelerated options assuming a fair market value of \$13.54, the closing price as of December 29, 2006. Mr. Donahue's Employment Agreement was amended in January 2007 to provide for vesting of all unvested stock options in the event of termination without cause or for good reason within 24 months after a CIC. One-half of all unvested restricted stock awards is assumed to have accelerated as of December 31, 2006.

Table of Contents

5. See Outstanding Equity Awards at 2006 Year-End table for the vesting status of each executive's equity awards as of December 31, 2006.
6. Benefits are continued for 12 months for all executives other than Mr. Donahue and Mr. Oldham. Mr. Donahue's benefits are continued for 18 months. Mr. Oldham's benefits would have been continued for six months.
7. Represents the amount that would be cut back so that the executive does not trigger the Golden Parachute excise tax under Section 280G of the IRC. Under their agreements, each executive who triggers the Golden Parachute excise tax has the right to have his benefits cutback to the point where the tax would not apply, unless paying the tax would provide a better after-tax answer. We performed the excise tax calculations using the following assumptions: \$13.54 as the fair market value of the Company's stock on December 29, 2006, and any other assumptions contained in the footnotes above.
8. All severance and benefits are subject to the executive signing a release and separation agreement.

Our Independent Registered Public Accounting Firm

Deloitte & Touche LLP has been selected by the Audit Committee of the Board as the independent registered public accounting firm to perform an integrated audit of our consolidated financial statements and internal controls over financial reporting for the year ending December 31, 2007. Deloitte & Touche LLP also served as our independent registered public accounting firm in 2006. We expect that representatives of Deloitte & Touche LLP will attend the meeting, will have an opportunity to make a statement if they desire to do so, and will be available to respond to appropriate questions.

Pre-Approval Policies and Procedures

At present, our Audit Committee approves each engagement for audit or non-audit services before we engage Deloitte & Touche LLP to provide those services. All such audit and non-audit services require pre-approval by the Audit Committee.

Our Audit Committee has not established any pre-approval policies or procedures that would allow our management to engage Deloitte & Touche LLP to provide any specified services with only an obligation to notify the Audit Committee of the engagement for those services. None of the services provided by Deloitte & Touche LLP for 2006 were obtained in reliance on the waiver of the pre-approval requirement afforded in SEC regulations.

Whistleblower Procedures

In our Code of Ethics, our Audit Committee has adopted procedures for the treatment of complaints regarding accounting, internal accounting controls or auditing matters, including procedures for the confidential and anonymous submission by our directors, officers and employees of concerns regarding questionable accounting, internal accounting controls or auditing matters.
