FORWARD LOOKING STATEMENTS

Certain statements included in this prospectus and the documents incorporated by reference herein constitute forward looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995 relating to, but not limited to, our operations, anticipated financial performance, business prospects and strategies. Forward looking statements typically contain statements with words such as "could", "should", "expect", "estimate", "likely", "believe", "will" and similar expressions, including, but not limited to, statements as to: future capital expenditures, including the amount and nature thereof; oil and gas prices and demand; expansion and other development trends of the oil and gas industry; business strategy; expansion and growth of our business and operations, including our marketshare and position in the domestic and international drilling markets; and beliefs, plans, objectives, assumptions or statements about future events or performance.

You are cautioned not to place undue reliance on forward looking statements. By their nature, forward looking statements involve numerous assumptions, inherent risks and uncertainties, both general and specific, that contribute to the possibility that the predicted outcomes will not occur. These factors include, but are not limited to:

- o general economic, business and market conditions including stock market volatility;
- o volatility of crude oil, natural gas and natural gas liquids prices;
- o fluctuations in currency and interest rates;
- o competition;
- o risks inherent in foreign operations, including political and

Edgar Filing: PRECISION DRILLING CORP - Form F-10

economic risk;

- o risks of war, hostilities, civil insurrection and terrorist threats;
- o fluctuations in the level of oil and gas exploration and development activities;
- o fluctuations in the demand for well servicing, contract drilling, directional drilling, well logging and ancillary oilfield services;
- o technological changes and developments in the oil and gas industry;
- o the ability of oil and gas companies to raise capital;
- o the effects of severe and seasonal weather conditions on operations and facilities;
- o the existence of operating risks inherent in well servicing, contract drilling, directional drilling, well logging and ancillary oilfield services;
- o political circumstances impeding the progress of work in any of the countries in which we do business;
- o identifying and acquiring suitable acquisition targets on reasonable terms;
- o changes in laws or regulations, including taxation, environmental and currency regulations;
- o the lack of availability of qualified personnel or management;
- o our ability to either generate sufficient cash flow to meet current and future obligations or to obtain external debt or equity financing;
- o our ability to make capital investments and the amounts thereof; and
- o risks associated with existing and potential future lawsuits and regulatory actions against us.

5

We caution that the foregoing list of important factors is not exhaustive. Events or circumstances could cause our actual results to differ materially from those estimated or projected and expressed in, or implied by, these forward looking statements. You should also carefully consider the matters discussed under "Risk Factors" in the prospectus. We do not undertake any obligation to update publicly or otherwise revise any forward looking statements, whether as a result of new information, future events or otherwise, or the foregoing list of factors affecting this information.

RISK FACTORS

YOU SHOULD CONSIDER CAREFULLY THE RISK FACTORS SET FORTH BELOW AS WELL AS THE OTHER INFORMATION CONTAINED IN AND INCORPORATED BY REFERENCE IN THIS PROSPECTUS

Edgar Filing: PRECISION DRILLING CORP - Form F-10

AND IN THE APPLICABLE PROSPECTUS SUPPLEMENT BEFORE PURCHASING THE SECURITIES. IF ANY EVENT ARISING FROM THESE RISKS OCCURS, OUR BUSINESS, PROSPECTS, FINANCIAL CONDITION, RESULTS OF OPERATION OR CASH FLOWS COULD BE MATERIALLY ADVERSELY AFFECTED. ADDITIONAL RISKS AND UNCERTAINTIES NOT CURRENTLY KNOWN TO US OR THAT WE CURRENTLY DEEM TO BE IMMATERIAL MAY ALSO MATERIALLY ADVERSELY AFFECT OUR BUSINESS, FINANCIAL CONDITION, RESULTS OF OPERATIONS AND CASH FLOWS. CERTAIN STATEMENTS UNDER THIS CAPTION CONSTITUTE FORWARD LOOKING STATEMENTS. SEE "FORWARD LOOKING STATEMENTS."

OUR OPERATIONS ARE DEPENDENT ON THE PRICES OF OIL AND GAS A DECLINE OF EITHER OF WHICH COULD HAVE A MATERIAL ADVERSE EFFECT ON US.

Our revenue, cash flow and earnings are substantially dependent upon, and affected by, the level of activity associated with oil and gas exploration and production. Both short-term and long-term trends in oil and gas prices affect the level of such activity. Oil and gas prices and, therefore, the level of drilling, exploration and production activity have been volatile over the past few years and likely will continue to be volatile. Worldwide military, political and economic events, including initiatives by the Organization of Petroleum Exporting Countries, may affect both the demand for, and the supply of, oil and gas. Weather conditions, governmental regulation (both in Canada and elsewhere), levels of consumer demand, the availability of pipeline capacity, and other factors beyond our control may also affect the supply of and demand for oil and gas and thus lead to future price volatility. We believe that any prolonged reduction in oil and gas prices would depress the level of exploration and production activity. This would likely result in a corresponding decline in the demand for our services and could have a material adverse effect on our revenues, cash flows and profitability. Lower oil and gas prices could also cause our customers to seek to terminate, renegotiate or fail to honour our drilling contracts; affect the fair market value of our rig fleet which in turn could trigger a writedown for accounting purposes; affect our ability to retain skilled rig personnel; and affect our ability to obtain access to capital to finance and grow our businesses. We cannot assure you that the future level of demand for our services or future conditions in the oil and gas and oilfield services industries will not decline.

WE OPERATE IN A COMPETITIVE INDUSTRY.

The oilfield services industry in which we operate is, and will continue to be, very competitive. Contract drilling companies compete primarily on a regional basis, and competition may vary significantly from region to region at any particular time. Most drilling and workover contracts are awarded on the basis of competitive bids, which results in price competition. Many drilling, workover and well-servicing rigs can be moved from one region to another in response to changes in levels of activity, which can result in an oversupply of rigs in an area. In many markets in which we operate, the supply of rigs exceeds the demand for rigs, resulting in further price competition.

Certain competitors are present in more than one of the regions in which we operate, although no one competitor operates in all of these areas. In the United States there are several hundred competitors with national, regional or local rig operations. In Canada we compete with several firms of varying size. Internationally, we compete directly with various competitors at each location where we operate and some of our international competitors may be better positioned in certain markets, allowing them to compete more effectively. We cannot assure you that we will be able to continue to compete successfully or that the level of competition and pressure on pricing will not affect our margins.

Edgar Filing: PRECISION DRILLING CORP - Form F-10

OUR OPERATIONS ARE SUBJECT TO BUSINESS INTERRUPTION AND CASUALTY LOSSES FOR WHICH WE MAY NOT HAVE ADEQUATE INSURANCE.

Our operations are subject to many hazards inherent in the drilling, workover and well-servicing industries, including blowouts, cratering, explosions, fires, loss of well control, loss of hole, damaged or lost drilling equipment and damage or loss from inclement weather or natural disasters. Any of these hazards could result in personal injury or death, damage to or destruction of equipment and facilities, suspension of operations, environmental damage and damage to the property of others. Generally, drilling contracts provide for the division of responsibilities between a drilling company and its customer, and we seek to obtain indemnification from our customers by contract for certain of these risks. To the extent that we are unable to transfer such risks to customers by contract or indemnification agreements, we seek protection through insurance. However, we cannot assure you that such insurance or indemnification agreements will adequately protect us against liability from all of the consequences of the hazards described above. The occurrence of an event not fully insured or indemnified against, or the failure of a customer or insurer to meet its indemnification or insurance obligations, could result in substantial losses. In addition, we cannot assure you that insurance will be available to cover any or all of these risks, or, even if available, that it will be adequate or that insurance premiums or other costs will not rise significantly in the future, so as to make such insurance prohibitive. This is particularly of concern in the wake of the September 11 terrorist attacks, which have resulted in significantly increased insurance costs, deductibles and coverage restrictions. In future insurance renewals we may choose to increase our self insurance retentions (and thus assume a greater degree of risk) in order to reduce insurance premiums.

WE ARE EXPOSED TO RISKS INHERENT IN FOREIGN OPERATIONS WHICH COULD NEGATIVELY AFFECT OUR RESULTS OF OPERATIONS.

We conduct a portion of our business outside North America, including the Middle East, Africa and South America. We are subject to risks inherent in foreign operations, such as: loss of revenue, property and equipment as a result of expropriation, nationalization, war, terrorist threats, civil insurrection and other political risks; fluctuations in foreign currency and exchange controls; increases in duties, taxes and governmental royalties and renegotiation of contracts with governmental entities; as well as changes in laws and policies governing operations of foreign-based companies. In addition, in the international markets in which we operate, we are subject to various laws and regulations that govern the operation and taxation of our businesses and the import and export of our equipment from country to country, the imposition, application and interpretation of which can prove to be uncertain. Since we derive a portion of our revenues from subsidiaries outside of Canada, the payment of dividends or the making of other cash payments or advances by these subsidiaries to us may be subject to restrictions or exchange controls on the transfer of funds in or out of the respective countries or result in the imposition of taxes on such payments or advances. We have organized our foreign operations in part based on certain assumptions about various tax laws (including capital gains and withholding taxes), foreign currency exchange and capital repatriation laws and other relevant laws of a variety of foreign jurisdictions. While we believe that such assumptions are reasonable, we cannot assure you that foreign taxing or other authorities will reach the same conclusion. Further, if such foreign jurisdictions were to change or modify such laws, we could suffer adverse tax and financial consequences.

OUR BUSINESS IS SUBJECT TO ENVIRONMENTAL LEGISLATION IN ALL JURISDICTIONS IN WHICH WE OPERATE AND ANY CHANGES IN SUCH LEGISLATION COULD NEGATIVELY AFFECT OUR RESULTS OF OPERATIONS.

Our operations are subject to numerous laws, regulations and guidelines

Edgar Filing: PRECISION DRILLING CORP - Form F-10

governing the management, transportation and disposal of hazardous substances and other waste materials and otherwise relating to the protection of the environment and health and safety. These laws, regulations and guidelines include those relating to spills, releases, emissions and discharges of hazardous substances or other waste materials into the environment, requiring removal or remediation of pollutants or contaminants and imposing civil and criminal penalties for violations. Some of the laws, regulations and guidelines that apply to our operations also authorize the recovery of natural resource damages by the government, injunctive relief and the imposition of stop, control, remediation and abandonment orders. The costs arising from compliance with such laws, regulations and guidelines may be material to us.

The trend in environmental regulation has been to impose more restrictions and limitations on activities that may impact the environment, including the generation and disposal of wastes and the use and handling of chemical substances. These restrictions and limitations have increased operating costs for both us and our customers. Any regulatory changes that impose additional environmental restrictions or requirements on us or our customers could adversely affect us through increased operating costs and potential decreased demand for our services.

7

While we maintain liability insurance, including insurance for environmental claims, the insurance is subject to coverage limits and certain of our policies exclude coverage for damages resulting from environmental contamination. There can be no assurance that insurance will continue to be available to us on commercially reasonable terms, that the possible types of liabilities that may be incurred by us will be covered by our insurance, or that the dollar amount of such liabilities will not exceed our policy limits. Even a partially uninsured claim, if successful and of sufficient magnitude, could have a material adverse effect on our business, results of operations and prospects.

OUR BUSINESS IS SEASONAL AND IS INFLUENCED BY WEATHER PATTERNS.

In Canada, the level of activity in the oilfield service industry is influenced by seasonal weather patterns. During the spring months, wet weather and the spring thaw make the ground unstable. Consequently, municipalities and provincial transportation departments enforce road bans that restrict the movement of rigs and other heavy equipment, thereby reducing activity levels and placing an increased level of importance on the location of our equipment prior to imposition of the road bans. Additionally, certain oil and gas producing areas are located in sections of the Western Canadian Sedimentary Basin that are inaccessible, other than during the winter months, because the ground surrounding or containing the drilling sites in these areas consists of terrain known as muskeg. Until the muskeg freezes, the rigs and other necessary equipment cannot cross the terrain to reach the drilling site. Moreover, once the rigs and other equipment have been moved to a drilling site, they may become stranded or otherwise unable to relocate to another site should the muskeg thaw unexpectedly. Our financial results depend, at least in part, upon the severity and duration of the Canadian winter.

WE INCUR SIGNIFICANT EXPENDITURES ON RESEARCH AND DEVELOPMENT EFFORTS TO OFFER ADVANCED TECHNOLOGY TO OUR CUSTOMERS.

The continued development and growth of our Technology Services segment is dependent on the success of our research and development efforts. A number of new products have been commercialized and others are progressing to that stage. Of particular note is the Rotary Steerable tool currently under development. The research and engineering team is focusing on issues related to the reliability

Edgar Filing: PRECISION DRILLING CORP - Form F-10

of tool performance and increasing the mean time between physical failures.

The Rotary Steerable tool is a key component of the new suite of down hole tools being introduced to the market by the Technology Services segment and as such is important to the continued growth of the segment's business worldwide. However, as with any research efforts, we cannot assure you that this new product will be successfully developed and marketed.

The carrying value of Technology Services long-lived assets is reviewed annually for impairment with the assistance of independent valuation experts. The most recent review was completed in the fourth quarter of 2003 at which time it was concluded that there was no impairment of the carrying value. Should the segment's research and development efforts not be successful, assumptions with respect to the growth of the business may change such that a write-down of long-lived assets would be necessary.

WE ARE EXPOSED TO CURRENCY EXCHANGE RISK WHICH COULD HAVE A MATERIAL ADVERSE EFFECT ON OUR OPERATING RESULTS.

Although our financial results are reported in Canadian dollars, a portion of our sales and operating costs are denominated in U.S. dollars. In addition, we are exposed to currency exchange risk on those of our assets denominated in U.S. dollars. Since we present our financial statements in Canadian dollars, any change in the value of the Canadian dollar relative to the U.S. dollar during a given financial reporting period would result in a foreign currency loss or gain on the translation of our U.S. dollar assets into Canadian dollars. Consequently, our reported earnings could fluctuate materially as a result of foreign exchange translation gains or losses. While it is not our normal practice to enter into significant hedging arrangements, we may use futures and forward contracts to partially hedge against short-term fluctuations in currency; however, such activities provide only

8

short-term protection against a limited portion of our currency exposure. We may, from time to time, hedge a portion of our net exchange rate exposure by way of one or more swap transactions to Canadian dollars, to the extent our management considers it reasonable to do so having regard to the then prevailing levels of our net assets denominated in U.S. dollars and our U.S. dollar revenues, and to the extent available on reasonable terms; however, such activities provide only short-term protection and we cannot assure you that such transactions will be effective in insulating us against exchange rate fluctuations.

YOUR ABILITY TO ENFORCE CIVIL LIABILITIES IN CANADA UNDER U.S. SECURITIES LAWS MAY BE LIMITED.

We are incorporated under the laws of Canada and a substantial portion of our assets are located in Canada. Most of our directors and officers reside in Canada and most of their assets are located in Canada. It may not be possible, therefore, for you to effect service of process within the United States upon us or our directors and officers. There is uncertainty as to the enforceability (1) in an original action in Canadian courts of liabilities predicated solely upon United States federal securities laws and (2) of judgments of United States courts obtained in actions predicated upon the civil liability provisions of United States federal securities laws in Canadian courts. Therefore, you may not be able to secure judgment against us or our directors and officers in a Canadian court or, if successful in securing a judgment against us or them in a U.S. court, you may not be able to enforce such judgment in Canada.

DESCRIPTION OF DEBT SECURITIES

In this section, "we", "us", "our" or "Precision" refers only to Precision Drilling Corporation and not any of its subsidiaries or interests in partnerships and other entities. The following description sets forth certain general terms and provisions of the debt securities. We will provide the particular terms and provisions of a series of debt securities and a description of how the general terms and provisions described below apply to that series in a prospectus supplement. Accordingly, for a description of the terms of a particular series of debt securities, you must refer to both the applicable prospectus supplement relating to the series and the description of the debt securities set forth in this prospectus.

The debt securities will be issued under an indenture (the "Indenture") to be entered into between us and The Bank of Nova Scotia Trust Company of New York, as trustee (the "Trustee"). The Indenture will be subject to and governed by the U.S. Trust Indenture Act of 1939, as amended. A copy of the form of Indenture has been filed with the SEC as an exhibit to the registration statement of which this prospectus is a part.

The following is a summary of the Indenture which sets forth certain general terms and provisions of the debt securities and is not intended to be complete. For a more complete description, including the definition of capitalized terms used but not defined in this summary, you should refer to the Indenture. Whenever we refer in this summary to particular provisions of the Indenture, those provisions are qualified in their entirety by reference to the Indenture. It is the Indenture, and not this summary, that governs the rights of holders of debt securities.

We may from time to time issue debt securities and incur additional indebtedness other than through an offering of debt securities under this prospectus.

GENERAL

The Indenture does not limit the aggregate principal amount of debt securities (which may include debentures, notes and other evidences of indebtedness) that we may issue under the Indenture and does not limit the amount of other indebtedness we may incur. The Indenture provides that debt securities may be issued from time to time in one or more series and may be denominated and payable in U.S. dollars or any other currency. Special Canadian and United States Federal income tax considerations applicable to any debt securities so denominated will be described in the prospectus supplement relating thereto. Unless otherwise indicated in an applicable prospectus supplement, the debt securities will be unsecured obligations. The debt securities offered pursuant to this prospectus will be issued in an aggregate principal amount of up to US\$1,000,000,000 or the equivalent in a foreign currency. The Indenture also permits us to increase the principal amount of any series of the debt securities previously issued and to issue that increased principal amount.

The applicable prospectus supplement will describe the specific terms of the debt securities being offered and may include, but is not limited to, any of the following:

- o the title and the aggregate principal amount of the debt securities;
- o any limit on the aggregate principal amount of the debt

Edgar Filing: PRECISION DRILLING CORP - Form F-10

securities of such series;

- o the date or dates, or the method by which such date or dates will be determined or extended, on which the principal of, and premium, if any, on the debt securities will be payable and the portion (if less than the principal amount) to be payable upon a declaration of acceleration of maturity;
- o the rate or rates (whether fixed or variable) at which the debt securities will bear interest, if any, or the method by which such rate or rates will be determined and the date or dates from which such interest will accrue and on which such interest will be payable and the regular record date or dates

10

for the payment of interest on the debt securities in registered form, or the method by which such date or dates will be determined;

- o the place or places where the principal of, and premium, if any, and interest, if any, on the debt securities will be payable and each office or agency where the debt securities may be presented for registration of transfer or exchange;
- o the period or periods within which, the price or prices at which, the currency in which, and other terms and conditions upon which the debt securities may be redeemed or purchased, in whole or in part, by us;
- o the terms and conditions upon which you may redeem the debt securities prior to maturity and the price or prices at which and the currency in which the debt securities are payable;
- o the terms, if any, on which the debt securities may be converted or exchanged for other of our debt securities or debt securities of other entities;
- o if payment of the debt securities will be guaranteed by any other person;
- o the extent and manner, if any, in which payment on or in respect of the debt securities will be secured, or will rank senior, or will be subordinated to the prior payment of our other liabilities and obligations;
- o if the series of debt securities will be issuable in the form of one or more global securities and, if so, the identity of the depository for the global securities;
- o any applicable Canadian and U.S. federal income tax consequences;
- o the terms and conditions of any sinking fund or analogous provisions;
- o if the debt securities may be issued bearing no interest or at a discount below their stated principal amount, and special considerations applicable to any such discounted debt securities or other debt securities offered and sold at par

Edgar Filing: PRECISION DRILLING CORP - Form F-10

which are treated as having been issued at a discount for Canadian and/or U.S. federal income tax purposes;

- o if the debt securities are to be registered securities, bearer securities (with or without coupons) or both;
- o if other than denominations of US\$1,000 and any integral multiple thereof, the denomination or denominations in which any definitive securities of the series shall be issuable and, if other than the denomination of US\$1,000, the denomination or denominations in which any bearer debt securities of the series shall be issuable;
- o if other than U.S. dollars, the currency or currency unit in which the debt securities are denominated or in which currency payment of the principal of, and premium, if any, or interest, if any, on such debt securities will be payable;
- o any index formula or other method used to determine the amount of payments of principal of, and premium, if any, or interest, if any, on the debt securities;
- o whether and under what circumstances we will be required to pay any Additional Amounts (defined below under "Additional Amounts") for withholding or deduction for Canadian taxes with respect to the debt securities, and whether we will have the option to redeem the debt securities rather than pay the Additional Amounts; and

11

- o any other terms, conditions, rights and preferences (or limitations on such rights and preferences) of the debt securities including covenants and events of default which apply solely to a particular series of the debt securities being offered which do not apply generally to other debt securities, or any covenants or events of default generally applicable to the debt securities which do not apply to a particular series of the debt securities.

Unless otherwise indicated in the applicable prospectus supplement, the Indenture does not afford holders of the debt securities the right to tender such debt securities to us for repurchase in the event we experience a change in control.

RANKING AND OTHER INDEBTEDNESS

Unless otherwise indicated in any applicable prospectus supplement, the debt securities will be our unsecured senior obligations and will rank equally and ratably with all of our other unsecured senior indebtedness from time to time outstanding. Unless otherwise indicated in any applicable prospectus supplement, the debt securities will be structurally subordinated to all existing and future liabilities, including trade payables and other indebtedness, of our subsidiaries, partnerships and other entities. We will specify in a prospectus supplement at the time we issue a series of debt securities the amount of our subsidiaries' and partnerships' then existing liabilities, including trade payables and other indebtedness.

DEBT SECURITIES IN GLOBAL FORM

Edgar Filing: PRECISION DRILLING CORP - Form F-10

Unless otherwise indicated in a prospectus supplement, a series of the debt securities will be issued in global form as one or more "global securities" and will be registered in the name of and be deposited with a depository, or its nominee, each of which will be identified in the prospectus supplement relating to that series. Unless and until exchanged, in whole or in part, for debt securities in definitive form, a global security may not be transferred except as a whole by the depository for such global security to a nominee of the depository, by a nominee of the depository to the depository or another nominee of the depository or by the depository or any such nominee to a successor of the depository or a nominee of the successor.

The specific terms of the depository arrangement with respect to any series or portion of a series of the debt securities to be represented by a global security will be described in the prospectus supplement relating to such series. We anticipate that the following provisions will apply to all depository arrangements.

Upon the issuance of a global security, the depository therefor or its nominee will credit, on its book entry and registration system, the respective principal amounts of the debt securities represented by the global security to the accounts of such persons, designated as "participants", having accounts with such depository or its nominee. Such accounts shall be designated by the underwriters, dealers or agents participating in the distribution of the debt securities or by us if such debt securities are offered or sold directly by us. Ownership of beneficial interests in a global security will be limited to participants or persons that may hold beneficial interests through participants. Ownership of beneficial interests in a global security will be shown on, and the transfer of that ownership will be effected only through, records maintained by the depository therefor or its nominee (with respect to beneficial interests of participants) or by participants or persons that hold through participants (with respect to beneficial interests of persons other than participants).

So long as the depository for a global security or its nominee is the registered owner of the global security, such depository or such nominee, as the case may be, will be considered the sole owner or holder of the debt securities represented by the global security for all purposes under the Indenture. Except as provided below, owners of beneficial interests in a global security will not be entitled to have a series of the debt securities represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of such series of the debt securities in definitive form and will not be considered the owners or holders thereof under the Indenture.

The laws of some states in the United States require that certain purchasers of debt securities take physical delivery of such debt securities in definitive form. These depository arrangements and these laws may impair the ability to transfer beneficial interests in a global security.

12

Any payments of principal, and premium, if any, and interest, if any, on a global security registered in the name of a depository or its nominee will be made to the depository or its nominee, as the case may be, as the registered owner of the global security representing such debt securities. None of us, the Trustee or any paying agent for the debt securities represented by the global security will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in a global security or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

We expect that the depository for a global security or its nominee, upon receipt

Edgar Filing: PRECISION DRILLING CORP - Form F-10

of any payment of principal, and premium, if any, or interest, will credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of the global security as shown on the records of such depository or its nominee. We also expect that payments by participants to owners of beneficial interests in a global security held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in "street name", and will be the responsibility of such participants.

If a depository for a global security representing a particular series of the debt securities is at any time unwilling or unable to continue as depository and a successor depository is not appointed by us within 90 days, we will issue such series of debt securities in definitive form in exchange for the global security representing such series of debt securities. In addition, we may at any time and in our sole discretion determine not to have a series of debt securities represented by a global security and, in such event, will issue a series of debt securities in definitive form in exchange for the global security representing such series of debt securities.

DEBT SECURITIES IN DEFINITIVE FORM

If indicated in a prospectus supplement, the debt securities may be issued in definitive form without coupons or in bearer form with or without coupons, or in both forms. Debt securities in definitive form may be presented for exchange and for registration of transfer in the manner, at the places and, subject to the restrictions set forth in the Indenture and in the applicable prospectus supplement, without service charge, but upon payment of any taxes or other governmental charges due in connection therewith. We have initially appointed the Trustee as security registrar. Debt securities in bearer form and the coupons appertaining thereto, if any, will be transferable by delivery.

Unless otherwise indicated in a prospectus supplement, payment of principal, and premium, if any, and interest on any debt securities in definitive form will be made at the office or agency of the Trustee, at One Liberty Plaza, 23rd Floor, New York, New York 10006, or at our option we can pay principal and any premium and interest on the debt securities by (1) check mailed or delivered to the address of the person entitled to receive payments appearing in the security register of the Trustee or (2) wire transfer to an account in the United States of the person entitled to receive payments if such person is a holder of US\$1.0 million or more in aggregate principal amount of the debt securities of a particular series.

COVENANTS

LIMITATION ON LIENS

The Indenture includes a covenant of Precision to the effect that, so long as any debt securities are outstanding and subject to the provisions of the Indenture, Precision will not, and will not permit any Restricted Subsidiary to, create, incur, assume or otherwise have outstanding any Security Interest in, on or over any of its or their interest in any property, present or future, securing any Indebtedness of any person, other than Permitted Encumbrances, unless at the time thereof or prior thereto the debt securities then outstanding under the Indenture are equally and ratably secured with such Indebtedness for so long as such Indebtedness is so secured.

CONSOLIDATION, AMALGAMATION, MERGER AND SALE OF ASSETS

The Indenture includes a covenant of Precision to the effect that it may not in a single transaction or a series of transactions consolidate or amalgamate with or merge with or into or enter into any statutory arrangement with any other

Edgar Filing: PRECISION DRILLING CORP - Form F-10

corporation, or, directly or indirectly, convey, transfer, sell, lease or otherwise dispose of all or substantially all of its property to any person, unless:

13

- o the entity formed by or continuing from such consolidation or amalgamation or into which Precision is merged or with which Precision enters into such arrangement, or the person which acquires or leases all or substantially all of Precision's property, is organized and existing under the laws of the United States, any state thereof or the District of Columbia, the laws of Canada or any province or territory thereof, or, if such consolidation, amalgamation, merger, arrangement or other transaction would not impair the rights of holders of the debt securities, in any other jurisdiction, PROVIDED THAT, if such successor entity is organized under the laws of a jurisdiction other than Canada or the United States, the successor entity assumes our obligations under the debt securities and the Indenture to pay Additional Amounts, substituting the name of such successor jurisdiction for Canada in each place that Canada appears in "Description of Debt Securities--Additional Amounts", below and submits to the jurisdiction of U.S. federal and state courts in the manner and to the extent provided in the Indenture;
- o the successor entity expressly assumes or assumes by operation of law all of Precision's obligations under the debt securities and under the Indenture;
- o immediately after giving effect to such transaction, no event of default, and no event which, after notice or lapse of time or both, would become an event of default, shall have happened and be continuing; and
- o an officer's certificate and legal opinion covering such conditions will be delivered to the Trustee.

If, as a result of any such transaction, any property of Precision or any Restricted Subsidiary becomes subject to a Security Interest, then, unless such Security Interest could be created pursuant to the Indenture provisions described under the "LIMITATION ON LIENS" covenant above without equally and ratably securing the debt securities, Precision or such Restricted Subsidiary, simultaneously with or prior to such transaction, will cause the debt securities to be secured equally and ratably with or prior to the Indebtedness secured by such Security Interest.

ADDITIONAL AMOUNTS

Unless otherwise specified in a prospectus supplement, all payments made by us under or with respect to the debt securities will be made free and clear of and without withholding or deduction for or on account of any present or future tax, duty, levy, impost, assessment or other governmental charge (including penalties, interest and other liabilities related thereto) imposed or levied by or on behalf of the Government of Canada or any province or territory thereof or by any authority or agency therein or thereof having power to tax ("Canadian Taxes"), unless we are required to withhold or deduct Canadian Taxes by law or by the interpretation or administration thereof. If we are so required to withhold or deduct any amount for or on account of Canadian Taxes from any payment made under or with respect to the debt securities, we will pay to each holder of such debt securities as additional interest such additional amounts ("Additional Amounts") as may be necessary so that the net amount received by each such holder after such withholding or deduction (and after deducting any Canadian Taxes on such Additional Amounts) will not be less than the amount such holder would have received if such Canadian Taxes had not been withheld or deducted. However, no Additional Amounts will be payable with respect to a payment made to a debt securities holder (such holder, an "Excluded Holder") in respect of the beneficial owner thereof:

- o with which we do not deal at arm's length (within the meaning of the INCOME TAX ACT (Canada)) at the time of making such payment;
- o which is subject to such Canadian Taxes by reason of the holder of the debt securities being a resident, domicile or national of, or engaged in business or maintaining a permanent establishment or other physical presence in or otherwise having some connection with Canada or any province or territory thereof otherwise than by the mere holding of debt securities or the receipt of payments thereunder;
- o which is subject to such Canadian Taxes by reason of the holder's failure to comply with any certification, identification, documentation or other reporting requirements if compliance is required by law, regulation, administrative practice or an applicable treaty as a precondition to exemption from, or a reduction in the rate of deduction or withholding of, such Canadian Taxes; or
- o which by reason of the legal nature of the holder of the debt securities is disentitled to the benefit of an applicable

Edgar Filing: PRECISION DRILLING CORP - Form F-10

treaty.

We will also make such withholding or deduction and remit the full amount deducted or withheld to the relevant authority in accordance with applicable law.

17

We will furnish to the holders of the debt securities, within 60 days after the date the payment of any Canadian Taxes is due pursuant to applicable law, certified copies of tax receipts or other documents evidencing such payment by us.

We will indemnify and hold harmless each holder of debt securities (other than an Excluded Holder) and upon written request reimburse each such holder for the amount, excluding any payment of Additional Amounts that have previously been made by us, of:

- o any Canadian Taxes levied or imposed and paid by such holder as a result of payments made under or with respect to the debt securities;
- o any liability (including penalties, interest and expenses) arising therefrom or with respect thereto; and
- o any Canadian Taxes imposed with respect to any reimbursement under the preceding two bullet points, but excluding any such Canadian Taxes on such holder's net income.

At least 15 days prior to each date on which any payment under or with respect to any of the debt securities is due and payable, if we are aware that we will be obligated to pay Additional Amounts with respect to such payment, we will deliver to the Trustee an Officers' Certificate stating the fact that such Additional Amounts will be payable, the amounts so payable and will set forth such other information necessary to enable the Trustee to pay such Additional Amounts to holders on the payment date. Wherever in the Indenture there is mentioned, in any context, the payment of principal, and premium, if any, interest or any other amount payable under or with respect to a debt security, such mention shall be deemed to include mention of the payment of Additional Amounts to the extent that, in such context, Additional Amounts are, were or would be payable in respect thereof.

TAX REDEMPTION

Unless otherwise specified in a prospectus supplement, a series of debt securities will be subject to redemption at any time, in whole but not in part, at a redemption price equal to the principal amount thereof together with accrued and unpaid interest to the date fixed for redemption, upon the giving of a notice as described below, if we (or our successor) determine that (i) as a result of (A) any amendment to or change (including any announced prospective change) in the laws (or any regulations thereunder) of Canada (or our successor's jurisdiction of organization) or of any political subdivision or taxing authority thereof or therein affecting taxation, as applicable, or (B) any amendment to or change in an interpretation or application of such laws or regulations by any legislative body, court, governmental agency or regulatory authority (including the enactment of any legislation and the publication of any judicial decision or regulatory determination), which amendment or change is announced or becomes effective on or after the date specified in the applicable prospectus supplement (or the date a party organized in a jurisdiction other than Canada or the United States becomes our successor), we have or will become

Edgar Filing: PRECISION DRILLING CORP - Form F-10

obligated to pay, on the next succeeding date on which interest is due, additional amounts with respect to any debt security of such series as described under "Additional Amounts", or (ii) on or after the date specified in the applicable prospectus supplement (or the date a party organized in a jurisdiction other than Canada or the United States becomes our successor), any action has been taken by any taxing authority of, or any decision has been rendered by a court of competent jurisdiction in, Canada (or our successor's jurisdiction of organization) or any political subdivision or taxing authority thereof or therein, including any of those actions specified in (i) above, whether or not such action was taken or decision was rendered with respect to us, or any change, amendment, application or interpretation shall be officially proposed, which, in any such case, in the written opinion to us of legal counsel of recognized standing, will result in our becoming obligated to pay, on the next succeeding date on which interest is due, Additional Amounts with respect to any debt security of such series.

In the event that we elect to redeem a series of the debt securities pursuant to the provisions set forth in the preceding paragraph, we shall deliver to the Trustee a certificate, signed by an authorized officer, stating that we are entitled to redeem such series of the debt securities pursuant to their terms.

Notice of intention to redeem such series of our debt securities will be given not more than 60 nor less than 30 days prior to the date fixed for redemption and will specify the date fixed for redemption.

18

PROVISION OF FINANCIAL INFORMATION

We will furnish to the Trustee, within 30 days after we file them with or furnish them to the SEC, copies (which may be electronic copies) of our annual and quarterly reports and of the information, documents and other reports (or copies of such portions of any of the foregoing as the SEC may by rules and regulations prescribe) which we are required to file with or furnish to the SEC pursuant to Section 13 or 15(d) of the Exchange Act.

In the event that we may not remain subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act or otherwise report on an annual and quarterly basis on forms provided for such annual and quarterly reporting pursuant to rules and regulations promulgated by the SEC, we will continue to furnish to the Trustee:

- o within the time periods required for the filing of annual information forms and annual financial statements (or similar annual filings) by the Canadian securities regulatory authorities, the information required to be contained in annual reports on Form 40-F (or any successor form); and
- o within the time periods for filing interim reports by the Canadian securities regulatory authorities, the information required to be contained in reports on Form 6-K (or any successor form) which, regardless of applicable requirements shall, at a minimum, contain such information required to be provided in quarterly reports under the laws of Canada or any province thereof to security holders of a corporation with securities listed on the Toronto Stock Exchange, whether or not we have any of our securities listed on such exchange. Such information will be prepared in accordance with Canadian disclosure requirements and GAAP; PROVIDED, HOWEVER, that we shall not be obligated to file such report with the SEC if the

Edgar Filing: PRECISION DRILLING CORP - Form F-10

SEC does not permit such filings.

EVENTS OF DEFAULT

The following are summaries of events with respect to any series of our debt securities which will constitute an event of default with respect to the debt securities of that series:

- o default in the payment of the principal of, or premium, if any, on, any debt security when it becomes due and payable;
- o default in the payment of any interest on any debt security, when it becomes due and payable, and continuance of such default for a period of 30 days;
- o default in the performance, or breach, of any covenant or warranty in the Indenture, and continuance of such default or breach for a period of 60 days after written notice has been given to us by the Trustee or by the holders of at least 25% in principal amount of all outstanding debt securities of any series affected thereby;
- o default in the performance of any covenant of Precision or any Restricted Subsidiary contained in any instrument (other than the Indenture) under which Indebtedness (other than Non-Recourse Debt) is created or issued if such Indebtedness has an outstanding principal amount in excess of the greater of US\$40 million and 2.5% of Shareholders' Equity at the time of default and the holders of such Indebtedness, or a trustee, if any, for those holders, declare such Indebtedness to be due and payable prior to the stated maturity of such Indebtedness, and such acceleration shall not be rescinded or annulled, or such default shall not be remedied or cured, whether by payment or otherwise, or waived by the holders of such accelerated Indebtedness within a period of seven days after such Indebtedness has been accelerated (or, if such acceleration is the result of an event of default which is not related to the failure to pay principal or interest, within 30 days after such Indebtedness has been accelerated);
- o certain events in bankruptcy, insolvency, assignment for the benefit of creditors or analogous process relating to Precision or any Significant Subsidiary of Precision, as described in the Indenture; or
- o any other events of default provided with respect to debt securities of that series.

If an event of default occurs and is continuing with respect to debt securities of any series, unless the principal of all of the debt securities of that series shall have already become due and payable, the Trustee may, in its discretion, and shall upon request in writing made by the holders of not less than 25% in principal amount of all outstanding debt securities affected by such event of default, declare the principal of, and premium, if any, on, all the outstanding debt securities of that series and the interest accrued thereon and all other money, if any, owing under the provisions of the Indenture in respect of those debt securities, to be immediately due and payable.

Edgar Filing: PRECISION DRILLING CORP - Form F-10

The indenture governing our 6.85% Debentures due June 2007 and our 7.65% Debentures due October 2010 provides that an event of default shall have occurred with respect to such debentures if there is a default by us or by a material subsidiary of ours in respect of any indebtedness for borrowed money in excess of \$20 million if such default consists of a failure to pay the indebtedness when due or results in the acceleration of such indebtedness. Since the similar event of default described in the fourth bullet point in the above paragraph provides for an event of default with respect to the debt securities only if there is a default with respect to other Indebtedness having a principal amount in excess of the greater of US\$40 million or 2.5% of Shareholders' Equity, it is possible that holders of such debentures could accelerate payment of those debentures as a result of a default in other indebtedness while the holders of the debt securities would not be entitled to accelerate payment of the debt securities.

Subject to certain conditions contained in the Indenture, the holders of a majority of the aggregate principal amount of the debt securities of the affected series can rescind this accelerated payment requirement. Subject to certain limitations contained in the Indenture, the holders of a majority in principal amount of the outstanding debt securities of all series affected by an event of default shall have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee, or exercising any trust or power conferred on the Trustee, with respect to the debt securities of all series affected by such event of default.

No holder of a debt security of any series will have any right to institute any proceeding with respect to the Indenture, or for the appointment of a receiver or a trustee, or for any other remedy thereunder, unless:

- o such holder has previously given to the Trustee written notice of a continuing event of default with respect to the debt securities of such series affected by such event of default;
- o the holders of at least 25% in aggregate principal amount of the outstanding debt securities of such series (voting as one class) affected by such event of default have made written request, and such holder or holders have offered reasonable indemnity, to the Trustee to institute such proceeding as Trustee; and
- o the Trustee has failed to institute such proceeding, and has not received from the holders of a majority in aggregate principal amount of the outstanding debt securities of such series affected by such event of default a direction inconsistent with such request, within 60 days after such notice, request and offer.

However, such above-mentioned limitations do not apply to a suit instituted by the holder of a debt security for the enforcement of payment of the principal of or any premium or interest on such debt security on or after the applicable due date specified in such debt security.

The Indenture requires that we annually furnish to the Trustee a statement by certain of our officers as to whether or not Precision, to the best of their knowledge, is in compliance with all conditions and covenants of the Indenture and, if not, specifying all such known defaults. We will also be required under the Indenture to notify the Trustee as soon as practicable upon becoming aware of any event of default.

DEFEASANCE

Unless otherwise specified in the applicable prospectus supplement, the

Edgar Filing: PRECISION DRILLING CORP - Form F-10

Indenture provides that, at our option, we will be discharged from any and all obligations in respect of the outstanding debt securities of any series upon irrevocable deposit with the Trustee, in trust, of money and/or government securities which will provide money in an amount sufficient in the opinion of a nationally recognized firm of independent chartered accountants to pay the principal of and premium, if any, and each installment of interest on the outstanding debt securities of such series ("Defeasance") (except with respect to the authentication, transfer, exchange or replacement of our debt securities or

20

the maintenance of a place of payment and certain other obligations set forth in the Indenture). Such trust may only be established if, among other things:

- o we have delivered to the Trustee an opinion of counsel in the United States stating that Precision has received from, or there has been published by, the Internal Revenue Service a ruling or, since the Issue Date, there has been a change in the applicable U.S. federal income tax law, in either case to the effect that the holders of the outstanding debt securities of such series will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such Defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Defeasance had not occurred;
- o we have delivered to the Trustee an opinion of counsel in Canada or a ruling from Canada Revenue Agency to the effect that the holders of the outstanding debt securities of such series will not recognize income, gain or loss for Canadian federal or provincial income or other tax purposes as a result of such Defeasance and will be subject to Canadian federal or provincial income and other tax on the same amounts, in the same manner and at the same times as would have been the case had such Defeasance not occurred (and for the purposes of such opinion, such Canadian counsel shall assume that holders of the outstanding debt securities of such series include holders who are not resident in Canada);
- o we are not an "insolvent person" within the meaning of the BANKRUPTCY AND INSOLVENCY ACT (Canada) on the date of such deposit or at any time during the period ending on the 91st day following such deposit; and
- o no event of default or event that, with the passing of time or the giving of notice, or both, shall constitute an event of default, shall have occurred and be continuing on the date of such deposit.

We may exercise our Defeasance option notwithstanding our prior exercise of our Covenant Defeasance option described in the following paragraph if we meet the conditions described in the preceding sentence at the time we exercise the Defeasance option.

The Indenture provides that, at our option, unless and until we have exercised our Defeasance option described in the preceding paragraph, we may omit to comply with the "Limitation on Liens" and "Consolidation, Amalgamation, Merger and Sale of Assets" covenants and certain other covenants and such omission shall not be deemed to be an event of default under the Indenture upon

Edgar Filing: PRECISION DRILLING CORP - Form F-10

irrevocable deposit with the Trustee, in trust, of money and/or government securities which will provide money in an amount sufficient in the opinion of a nationally recognized firm of independent chartered accountants to pay the principal of and premium, if any, and each installment of interest, if any, on the outstanding debt securities ("Covenant Defeasance"). If we exercise our Covenant Defeasance option, the obligations under the Indenture other than with respect to such covenants and the events of default with respect to such covenants shall remain in full force and effect. Such trust may only be established if, among other things:

- o we have delivered to the Trustee an opinion of counsel in the United States to the effect that the holders of the outstanding debt securities will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such Covenant Defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Covenant Defeasance had not occurred;
- o we have delivered to the Trustee an opinion of counsel in Canada or a ruling from Canada Revenue Agency to the effect that the holders of the outstanding debt securities will not recognize income, gain or loss for Canadian federal or provincial income or other tax purposes as a result of such Covenant Defeasance and will be subject to Canadian federal or provincial income and other tax on the same amounts, in the same manner and at the same times as would have been the case had such Covenant Defeasance not occurred (and for the purposes of such opinion, such Canadian counsel shall assume that holders of our outstanding debt securities include holders who are not resident in Canada);

21

- o we are not an "insolvent person" within the meaning of the Bankruptcy and Insolvency Act (Canada) on the date of such deposit or at any time during the period ending on the 91st day following such deposit; and
- o no event of default or event that, with the passing of time or the giving of notice, or both, shall constitute an event of default, shall have occurred and be continuing on the date of such deposit.

MODIFICATION AND WAIVER

Modifications and amendments of the Indenture may be made by us and the Trustee with the consent of the holders of a majority in principal amount of the outstanding debt securities of each series issued under the Indenture affected by such modification or amendment (voting as one class); provided that no such modification or amendment may, without the consent of the holder of each outstanding debt security of such affected series:

- o change the stated maturity of the principal of, or extend the scheduled time of payment of any instalment of interest, if any, on any debt security;
- o reduce the principal amount of, or premium, if any, or interest rate, if any, on any debt security;

Edgar Filing: PRECISION DRILLING CORP - Form F-10

- o change the place of payment;
- o change the currency of payment of principal of, or premium, if any, or interest, if any, on any debt security;
- o impair the right to institute suit for the enforcement of any payment on or with respect to any debt security;
- o reduce the percentage of principal amount of outstanding debt securities of such series, the consent of the holders of which is required for modification or amendment of Indenture provisions or for waiver of compliance with provisions of the Indenture or for waiver of defaults; or
- o modify any provisions of the Indenture relating to the modification and amendment of the Indenture or the waiver of past defaults or covenants, except as otherwise specified in the Indenture.

The holders of a majority in principal amount of the outstanding debt securities of any series may on behalf of the holders of all debt securities of that series waive, insofar as that series is concerned, compliance by us with certain restrictive provisions of the Indenture. The holders of a majority in principal amount of outstanding debt securities of any series may waive any past default under the Indenture with respect to that series, except a default in the payment of the principal of, or premium, if any, and interest, if any, on any debt security of that series or in respect of a provision which under the Indenture cannot be modified or amended without the consent of the holder of each outstanding debt security of that series.

The Indenture or the debt securities may be amended or supplemented, without the consent of any holder of such debt securities, in order to, among other things, cure any ambiguity or inconsistency that, in each case, does not materially adversely affect the rights of any holder of such debt securities.

RESIGNATION OF TRUSTEE

The Trustee may resign or be removed with respect to one or more series of debt securities and a successor Trustee may be appointed to act with respect to such series. In the event that two or more persons are acting as Trustee with respect to different series of debt securities, each such Trustee shall be a Trustee of a trust under the Indenture separate and apart from the trust administered by any other such Trustee, and any action described herein to be taken by the "Trustee" may then be taken by each such Trustee with respect to, and only with respect to, the one or more series of debt securities for which it is Trustee.

22

GOVERNING LAW

Our debt securities and the Indenture will be governed by and construed in accordance with the laws of the State of New York.

CONSENT TO JURISDICTION AND SERVICE

Under the Indenture, we have irrevocably appointed CT Corporation System, 111 8th Avenue, 13th Floor, New York, New York 10011, as our authorized agent for service of process in any suit or proceeding arising out of or relating to the debt securities or the Indenture and for actions brought under U.S. federal or state securities laws in any U.S. federal or state court located in the Borough

Edgar Filing: PRECISION DRILLING CORP - Form F-10

of Manhattan in The City of New York, New York, and we have irrevocably submitted to the non-exclusive jurisdiction of such courts.

ENFORCEABILITY OF JUDGMENTS

Since most of our assets, as well as the assets of a number of our directors and officers, are outside the United States, any judgment obtained in the United States against us or certain of our directors or officers, including judgments with respect to the payment of principal on any debt securities, may not be collectible within the United States.

We have been informed by Borden Ladner Gervais LLP, our Canadian counsel, that the laws of the Province of Alberta and the federal laws of Canada applicable therein permit an action to be brought in a court of competent jurisdiction in the Province of Alberta on any final and conclusive judgment IN PERSONAM of any federal or state court located in the State of New York (a "New York Court") against us, which judgment is subsisting and unsatisfied for a sum certain with respect to the enforcement of the Indenture and the debt securities that is not impeachable as void or voidable under the internal laws of the State of New York if: (i) the New York Court rendering such judgment had jurisdiction over the judgment debtor, as recognized by the courts of the Province of Alberta (and submission by us in the Indenture to the jurisdiction of the New York Court will be sufficient for that purpose); (ii) such judgment was not obtained by fraud or in a manner contrary to natural justice and the enforcement thereof would not be inconsistent with public policy, as such terms are understood under the laws of the Province of Alberta or contrary to any order made by the Attorney General of Canada under the FOREIGN EXTRATERRITORIAL MEASURES ACT (Canada) or by the Competition Tribunal under the COMPETITION ACT (Canada); (iii) the enforcement of such judgment would not be contrary to the laws of general application limiting the enforcement of creditors' rights including bankruptcy, reorganization, winding up, moratorium and similar laws and does not constitute, directly or indirectly, the enforcement of foreign revenue, expropriatory or penal laws in the Province of Alberta; (iv) no new admissible evidence relevant to the action is discovered prior to the rendering of judgment by the court in the Province of Alberta; (v) interest payable on the debt securities is not characterized by a court in the Province of Alberta as interest payable at a criminal rate within the meaning of Section 347 of the CRIMINAL CODE (Canada); and (vi) the action to enforce such judgment is commenced within the appropriate limitation period, except that any court in the Province of Alberta may only give judgment in Canadian dollars.

In the opinion of such counsel, there are no reasons under present laws of the Province of Alberta for avoiding recognition of such judgments of New York Courts under the Indenture or on the debt securities based upon public policy. We have been advised by such counsel that there is doubt as to the enforceability in Canada by a court in original actions, or in actions to enforce judgments of United States courts, of civil liabilities predicated solely upon the United States federal securities laws.

DESCRIPTION OF SHARE CAPITAL

AUTHORIZED CAPITAL

Our authorized capital consists of an unlimited number of common shares without nominal or par value and an unlimited number of non-voting, cumulative, convertible, redeemable preferred shares ("Preferred Shares") without nominal or par value, issuable in series. As at April 30, 2004, 55,897,119 common shares are issued and outstanding and no Preferred Shares have been issued.

Edgar Filing: PRECISION DRILLING CORP - Form F-10

COMMON SHARES

Each common share entitles the holder to receive notice of and to attend all meetings of our shareholders, other than meetings at which only the holders of another class or series are entitled to vote. Each common share entitles the holder to one vote. The holders of common shares, in the discretion of the board of directors, are entitled to receive out of any monies properly applicable to the payment of dividends, and after the payment of any dividends payable on the Preferred Shares of any series or any other series ranking prior to the common shares as to the payment of dividends, any dividends declared and payable on the common shares. Upon any liquidation, dissolution or winding-up of Precision, or other distribution of our assets among our shareholders for the purposes of winding-up our affairs, the holders of the common shares are entitled to share on a share-for-share basis in the distribution, except for the prior rights of the holders of the Preferred Share of any series, or any other class ranking prior to the common shares. There are no pre-emptive or conversion rights, and the common shares are not subject to redemption. All common shares currently outstanding and to be outstanding upon exercise of outstanding options are, or will be, fully paid and non-assessable.

Our by-laws provide for certain rights of holders of our common shares in accordance with the provisions of the BUSINESS CORPORATIONS ACT (Alberta). Such by-laws may be amended either by a majority vote of the holders of common shares or by a majority vote of the board of directors. Any amendment of the by-laws by action of the board of directors must be submitted to the next meeting of our shareholders whereupon the by-law amendment must be confirmed, confirmed as amended or replaced by a majority of the vote of the shareholders voting on such matter.

Our shareholders do not have cumulative voting rights on the election of our directors. Therefore, the holder of more than 50% of the common shares voting for the election of our directors could, if they chose to do so, elect all of the directors and, in such event, the holders of the remaining common shares would not be able to elect any director.

PLAN OF DISTRIBUTION

We may sell Securities to or through underwriters or dealers and also may sell Securities directly to purchasers or through agents. These Securities may be sold in Canada, the United States and elsewhere where permitted by law.

The distribution of Securities of any series may be effected from time to time in one or more transactions:

- o at a fixed price or prices, which may be changed;
- o at market prices prevailing at the time of sale; or
- o at prices related to such prevailing market prices to be negotiated with purchasers.

In connection with the sale of Securities, underwriters may receive compensation from us or from purchasers of Securities for whom they may act as agents in the form of concessions or commissions. Underwriters, dealers and agents that participate in the distribution of Securities may be deemed to be underwriters and any commissions received by them from us and any profit on the resale of Securities by them may be deemed to be underwriting commissions under the United States Securities Act of 1933, as amended (the "Securities Act").

The prospectus supplement will also set forth the terms of the offering of the Securities, including to the extent applicable, the initial offering price, our

Edgar Filing: PRECISION DRILLING CORP - Form F-10

proceeds from the offering, the underwriting concessions or commissions, and any other discounts or concessions to be allowed or reallocated to dealers. Underwriters with respect to each series sold to or through underwriters will be named in the prospectus supplement relating to such series.

Under agreements which may be entered into by us, underwriters, dealers and agents who participate in the distribution of debt securities may be entitled to indemnification by us against certain liabilities, including liabilities under the Securities Act. The underwriters, dealers and agents with whom we enter into agreements may be customers of, engage in transactions with or perform services for us in the ordinary course of business.

24

Each series of debt securities will be a new issue of securities with no established trading market. Unless otherwise specified in a prospectus supplement relating to a series of debt securities, the debt securities will not be listed on any securities exchange or on any automated dealer quotation system. Certain broker-dealers may make a market in the debt securities, but will not be obligated to do so and may discontinue any market making at any time without notice. We cannot assure you that any broker-dealer will make a market in the debt securities of any series or as to the liquidity of the trading market, if any, for the debt securities of any series.

CERTAIN INCOME TAX CONSIDERATIONS

The applicable prospectus supplement will describe certain Canadian federal income tax consequences to an investor who is a resident of Canada or who is a non-resident of Canada of acquiring any Securities offered thereunder, including whether the payments of principal of, premium, if any, and interest on the debt securities will be subject to Canadian non-resident withholding tax.

The applicable prospectus supplement will also describe certain United States federal income tax consequences of the acquisition, ownership and disposition of any Securities offered under this prospectus by an initial investor who is a United States person (within the meaning of the United States Internal Revenue Code), including, to the extent applicable, any such consequences relating to debt securities payable in a currency other than the United States dollar, issued at an original issue discount for United States federal income tax purposes or containing early redemption provisions or other special terms.

LEGAL MATTERS

Unless otherwise specified in the prospectus supplement certain legal matters relating to Canadian law will be passed upon for us by Borden Ladner Gervais LLP, Calgary, Alberta, Canada. Certain legal matters in connection with the offering relating to United States law will be passed upon for us by Paul, Weiss, Rifkind, Wharton & Garrison LLP, New York, New York. Certain legal matters relating to Canadian law will be passed upon for any underwriters, dealers or agents by Burnet Duckworth & Palmer LLP, Calgary, Alberta, Canada. In addition, certain legal matters relating to United States law will be passed upon for any underwriters, dealers or agents by Skadden, Arps, Slate, Meagher & Flom LLP, Toronto, Ontario, Canada.

The partners and associates of Borden Ladner Gervais LLP and Paul, Weiss, Rifkind, Wharton & Garrison LLP as a group beneficially own, directly or indirectly, less than 1% of any class of Precision's securities.

INFORMATION NOT REQUIRED TO BE
DELIVERED TO OFFEREES OR PURCHASERS

Edgar Filing: PRECISION DRILLING CORP - Form F-10

INDEMNIFICATION OF DIRECTORS AND OFFICERS

Under the BUSINESS CORPORATIONS ACT (Alberta) (the "ABCA"), the registrant may indemnify a present or former director or officer or a person who acts or acted at the registrant's request as a director or officer of a body corporate of which the registrant is or was a shareholder or creditor, and his heirs and legal representatives, against all costs, charges and expenses, including an amount paid to settle an action or satisfy a judgment, reasonably incurred by him in respect of any civil, criminal or administrative action or proceeding to which he is made a party by reason of being or having been a director or officer of the registrant or that body corporate, if the director or officer acted honestly and in good faith with a view to the best interests of the registrant, and, in the case of a criminal or administrative action or proceeding that is enforced by a monetary penalty, had reasonable grounds for believing that his conduct was lawful. Such indemnification may be in connection with a derivative action only with court approval. A director or officer is entitled to indemnification from the registrant as a matter of right if he was substantially successful on the merits, fulfilled the conditions set forth above, and is fairly and reasonably entitled to indemnify.

The By-laws of the registrant provide that, subject to the limitations contained in the ABCA, the registrant shall indemnify a director or officer, a former director or officer, or a person who acts or acted at the registrant's request as a director or officer of a body corporate of which the registrant is or was a shareholder or creditor (or a person who undertakes or has undertaken any liability on behalf of the registrant or any such body corporate), and his heirs and legal representatives, against all costs, charges and expenses, including an amount paid to settle an action or satisfy a judgment, reasonably incurred by him in respect of any civil, criminal or administrative action or proceeding to which he is made a party by reason of being or having been a director or officer of the registrant or such body corporate, if he acted honestly and in good faith with a view to the best interests of the registrant; and, in the case of a criminal or administrative action or proceeding that is enforced by a monetary penalty, he had reasonable grounds for believing that his conduct was lawful.

The By-laws of the registrant provide that the registrant may, subject to the limitations contained in the ABCA, purchase and maintain such insurance for the benefit of its directors and officers as such, as the board of directors of the registrant may from time to time determine.

Insofar as indemnification for liabilities arising under the Act may be permitted to directors, officers or persons controlling the registrant pursuant to the foregoing provisions, the registrant has been informed that, in the opinion of the SEC, such indemnification is against public policy as expressed in the Act and is therefore unenforceable.
