SEMI-ANNUAL REPORT

June 30, 2004

DEAR STOCKHOLDERS

During the second quarter of 2004, the Taiwan

Edgar Filing: TAIWAN GREATER CHINA FUND - Form N-CSR

Stock Exchange (TSE) index declined 12.4% in U.S. dollar terms, closing at 5839. This compares to a 10.5% decline in the Fund's share price on the New York Stock Exchange and a 12.5% decline in its net asset value on the same basis for this period.

The Fund's discount to net asset value based on daily closing prices averaged 11.7% during the quarter and reached a high of 14.9% on June 9th. The discount reached its minimum for the quarter on June 28th, closing at 5.9% after the shares traded intraday at 5.2%. In line with its goal of enhancing shareholder value, the Fund announced on June 23rd that it would conduct a self-tender for up to one-third of its shares at 99% of net asset value.

The second quarter represents the Fund's first full reporting period under its new management structure and investment strategy of investing primarily in Taiwan-listed companies operating in or exporting to China. We will soon be tracking the Fund against the Taiwan China Strategy index, which we have developed with Morgan Stanley Capital International. The principal differences between this new custom index and the TSE index are the heavier weighting of technology stocks and the absence of shares of financial institutions in the Taiwan China Strategy index.

Despite continuing improvement in the economy and positive results for many major listed companies, Taiwan's market weakened for most of the period as the TSE index declined each month and all sectors dropped. The fall-off in trading was pronounced: average daily turnover value on a monthly basis dropped more than 50% from March to June. The second quarter also saw consecutive monthly net sales by foreign institutional investors in April and May; over the whole period net sales totaled about US\$2.5 billion compared to approximately US\$3.3 billion in net purchases by such investors in the first quarter.

Nevertheless, the market made a strong start and climbed in the first half of April to a quarterly peak of 6916 on April 15th on positive U.S. economic news. American job growth reached a four-year high in March, and one measure showed services industry growth advanced to a new record. Additionally, several major TSE-listed companies such as China Steel and Taiwan Semiconductor Mfg. Co. (TSMC), a technology bellwether, reported sound first-quarter results.

Edgar Filing: TAIWAN GREATER CHINA FUND - Form N-CSR

The Taiwan market reversed course in mid-April following a sharp drop in spot prices of the most widely used computer memory chips. Investors grew increasingly concerned about several developments that contributed to market weakness for the rest of the quarter. Most important were measures taken in China to cool the economy of that country, which is Taiwan's biggest export market and the destination of most of its external investment. These measures included raising bank reserve requirements and curbs on lending to various industries such as steel, cement and property development.

Investor nervousness also focused on record-high oil prices and the growing likelihood that U.S. interest rates would rise since both these developments could result in increased costs and a slowdown in aggregate demand. Several international investment banks, citing possible inventory increases, warned of slowing growth as they downgraded various technology stocks.

Many major listed companies, however, continued to report solid performance. Several of Taiwan's semiconductor producers achieved record-high revenue in April. AU Optronics, one of the world's biggest flat-panel display makers, saw sales more than double in May

compared to the year earlier. That same month, revenues of Formosa Chemicals & Fiber and Nan Ya Plastics increased 49% and 38%, respectively, from May 2003. And TSMC's plants operated at more than full capacity during the second quarter.

Taiwan's economy continued to steam ahead. The official forecast estimates second quarter growth of 6.8% from the year earlier period after a 6.3% advance in the first quarter. Foreign demand remained strong and helped spur private investment. Merchandise exports, equivalent to about half of gross national product, surged 29% from the corresponding quarter in 2003 and surpassed the 23% increase in the previous quarter. Continuing a trend over the last few years, this performance was primarily due to a 43% rise in shipments to China (including Hong Kong), whose share of Taiwan's total exports reached 37%. Private consumption growth improved from 3.1% in the first quarter to an estimated 4.3%, and private investment most likely exceeded the officially projected 29% rise, as indicated by the 54% increase in

Edgar Filing: TAIWAN GREATER CHINA FUND - Form N-CSR

second quarter imports of capital goods.

The Fund's returns remain highly correlated with the TSE index with an R2 of 0.96. The Fund's volatility remains very close to the TSE index with a beta of 1.01.

Taiwan listed companies are now, in general, excellent values, selling at a price-earnings ratio of 16 compared to 20 for the Standard & Poor's 500 and 47 for the Nasdaq Composite, and yielding 3.1% compared to 1.7% for the S&P and less than 0.5% for the Nasdaq.

As manager of the Fund, I will be working to improve performance, reduce expenses and reduce or eliminate the discount to net asset value.

As David Laux, chairman of the Fund, recently noted, "The growth in Taiwan's exports to China over the past year has been more than 40%. The top three exporters from China are Taiwan-invested firms. An astounding 70% of China's computer and computer hardware-related exports come from Taiwan-invested firms in China. This trend is not only continuing, it is accelerating. Our Fund is focused on this phenomenon and provides investors with an opportunity to invest in the economies of both Taiwan and China. We are excited about the prospects ahead."

Respectfully submitted,

/s/ Steven R. Champion

TAIWAN GREATER CHINA FUND

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS / JUNE 30, 2004 (EXPRESSED IN U.S. DOLLARS)

NOTE 1 -- ORGANIZATION AND ACQUISITION OF THE TAIWAN (R.O.C.) FUND

The Taiwan Greater China Fund (the "Trust", formerly known as The R.O.C. Taiwan Fund) is a Massachusetts business trust formed in July 1988 and registered with the U.S. Securities and Exchange Commission as a diversified, closed-end management investment company under the Investment Company Act of 1940. The Trust changed its name from The R.O.C. Taiwan Fund to the Taiwan Greater China Fund on December 29, 2003. The change took effect on the New York Stock Exchange on January 2, 2004. The Trust was formed in connection with the reorganization (the "Reorganization") of The Taiwan (R.O.C.) Fund (the "Fund"). The Fund, which commenced operations in October 1983, was established under the laws of the Republic of China as an open-end contractual investment fund pursuant to an investment contract between International Investment Trust Company Limited ("IIT") and the Central Trust of China, as custodian. Pursuant to the Reorganization, which was completed in May 1989, the Trust acquired the entire beneficial interest in the assets constituting the Fund. On February 23, 2004, the investment contract was terminated and substantially all of the assets held in the Fund were transferred to the direct account of the Trust. The Trust thereupon converted to internal management and now directly invests in Taiwan as a Foreign Institutional Investor ("FINI"). The Fund was subsequently liquidated.

As required by the Trust's "Declaration of Trust," if the Trust's shares trade on the market at an average discount to NAV of more than 10% in any consecutive 12-week period after the most recent such vote, the Trust must submit to the shareholders for a vote at

Edgar Filing: TAIWAN GREATER CHINA FUND - Form N-CSR

its next annual meeting a binding resolution that the Trust be converted from a closed-end to an open-end investment company. The affirmative vote of a majority of the Trust's outstanding shares is required to approve such a conversion.

NOTE 2 -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES A -- Basis of presentation and principles of consolidation -- The accompanying consolidated financial statements of the Trust have been prepared in accordance with accounting principles generally accepted in the United States of America. The consolidated financial statements include the accounts of the Fund (operation ended February 22, 2004). All significant inter-company transactions and balances have been eliminated in consolidation.

B -- Valuation of investments -- Common stocks represent securities that are traded on the Taiwan Stock Exchange or the Taiwan over-the-counter market. Except when price movements are constrained by collars imposed by Republic of China regulations, in which case the Trust's Board of Trustees has provided for the use of fair valuation procedures, such securities are valued at the closing market price, or, if not quoted at the end of the period, generally at the last quoted closing market price. Short-term investments are valued at amortized cost, which approximates market value. Under this method, the difference between the cost of each security and its value at maturity is accrued into income on a straight-line basis over the days to maturity.

C -- Security transactions and investment income -- Security transactions are recorded on the date the transactions are entered into (the trade date). Dividend income is recorded on the ex-dividend date, and interest income is recorded on an accrual basis as it is earned.

D -- Office equipment -- Office equipment is stated at cost less accumulated depreciation. Depreciation is applied from the month such assets were placed into service, using the straight-line method over the respective useful lives of such assets.

E -- Realized gains and losses -- Realized gains and losses on securities transactions are determined for financial reporting purposes using the average-cost method for the cost of investments. For federal income tax purposes, realized gains and losses on securities transactions are determined using the first-in, first-out method. For the

Edgar Filing: TAIWAN GREATER CHINA FUND - Form N-CSR

fiscal year ended December 31, 2003, the Trust generated a net capital loss of \$11,721,463, and maintained a cumulative prior year capital loss carryover of \$105,731,250, resulting in a total capital loss carryover of \$117,452,713. This capital loss carryover may be used to offset any future capital gains generated by the Trust, and, if unused, \$89,141,756 of such loss will expire on December 31, 2009, \$16,589,494 of such loss will expire on December 31, 2010, and \$11,721,463 of such loss will expire on December 31, 2011.

F -- Foreign currency translation -- Substantially all of the Trust's income is earned, and its expenses are partially paid, in New Taiwan Dollars ("NT\$"). The cost and market value of securities, currency holdings, and other assets and liabilities which are denomi-

TAIWAN GREATER CHINA FUND

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS / JUNE 30, 2004 (EXPRESSED IN U.S. DOLLARS)

nated in NT\$ are reported in the accompanying consolidated financial statements after translation into United States Dollars based on the closing market rate for United States Dollars in Taiwan at the end of the period. At June 30, 2004, this rate was approximately NT\$33.775 to \$1.00. Investment income and expenses are translated at the average exchange rate for the period. Currency translation gains or losses are reported as a separate component of changes in net assets resulting from operations. The Trust does not separately record that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments.

G -- Distributions to shareholders -- It is the Trust's policy to distribute all ordinary income and net capital gains calculated in accordance with U.S. federal income tax regulations. Such calculations may differ from those based on U.S. generally accepted accounting principles. Permanent book and tax differences primarily relate to the treatment of the Trust's gains from the disposition of passive foreign investment company shares as well as the nondeductibility of net operating

Edgar Filing: TAIWAN GREATER CHINA FUND - Form N-CSR

losses for U.S. federal income tax purposes. Temporary book and tax differences are primarily due to differing treatments for certain foreign currency losses. The Trust declared a dividend of \$0.01 a share, payable on July 30, 2004, to shareholders of record on July 12, 2004 (ex-date July 8, 2004). The dividend, in total amount of \$326,990, represents undistributed net investment income totaling \$299,668 as of December 31, 2003.

H -- Taxes -- The Trust intends to continue to elect and to continue to qualify as a regulated investment company under the Internal Revenue Code of 1986, as amended (the "Code"). If the Trust complies with all of the applicable requirements of the Code, it will not be subject to U.S. federal income and excise taxes provided that it distributes all of its investment company taxable income and net capital gains to its shareholders. The Republic of China ("R.O.C.") levies a tax at the rate of 20% on cash dividends and interest received by the Trust on investments in R.O.C. securities. In addition, a 20% tax is levied based on the par value of stock dividends (except those which have resulted from capitalization of capital surplus) received by the Trust. For the six-month period ended June 30, 2004, total par value of stock dividends received was \$536,229. Realized gains on securities transactions are not subject to income tax in the R.O.C.; instead, a securities transaction tax of 0.3% of the market value of stocks sold or transferred, and 0.1% of the market value of bonds and beneficial certificates sold or transferred, is levied. Proceeds from sales of investments are net of securities transaction tax paid of \$556,980 for the six months ended June 30, 2004.

I -- Use of estimates -- The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements, consolidated financial highlights and accompanying notes. Actual results could differ from those estimates.

NOTE 3 -- INVESTMENT CONSIDERATIONS Because the Trust concentrates its investments in publicly traded equity and debt securities issued by R.O.C. corporations, its portfolio involves considerations not typically associated with investing in U.S. securities. In addition, the Trust is more susceptible to factors adversely affecting the R.O.C. economy than a fund not concentrated in these

Edgar Filing: TAIWAN GREATER CHINA FUND - Form N-CSR

issuers to the same extent. Since the Trust's investment securities are primarily denominated in New Taiwan Dollars, changes in the relationship of the New Taiwan Dollar to the U.S. Dollar may also significantly affect the value of the investments and the earnings of the Trust.

NOTE 4 -- INVESTMENT AND ADMINISTRATIVE MANAGEMENT

A -- As described in Note 1, the Trust's investment management agreement with IIT (the "Investment Contract") was terminated on February 23, 2004, and the Trust was converted to internal management. Before the termination of the Investment Contract, the Trust paid IIT a fee in NT\$, which was accrued daily and paid monthly in arrears, at the annual rate of 1.35% of the net asset value ("NAV") with respect to Trust assets held in Taiwan under the Investment Contract up to NT\$6 billion, 1.15% of such NAV in excess of NT\$6 billion up to NT\$8 billion, 0.95% of such NAV in excess of NT\$8 billion up to NT\$10 billion and 0.75% of such NAV in excess of NT\$10 billion. B -- Upon the termination of the Investment Contract, the Trust entered into an administrative services agreement with IIT. Pursuant to this agreement, IIT provides clerical, accounting, tax, regulatory compliance

TAIWAN GREATER CHINA FUND

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS / JUNE 30, 2004 (EXPRESSED IN U.S. DOLLARS)

and other administrative services to the Trust. The Trust pays IIT a fee for these services in NT\$ at an annual rate of 0.15% of the Trust's average daily NAV.

NOTE 5 -- CUSTODIAN

Pursuant to a custodian contract, the Central Trust of China ("CTC") serves as custodian of the assets of the Trust held in the R.O.C. The Trust pays CTC a monthly fee in NT\$ at the annual rate of 0.13% of the NAV of the Trust's assets up to NT\$6 billion, 0.12% of such NAV in excess of NT\$6 billion up to NT\$8 billion, 0.11% of such NAV in excess of NT\$8 billion up to NT\$10 billion and 0.10% of such NAV in excess of NT\$10 billion. Before February 22, 2004, pursuant to the Investment Contract, the Trust paid CTC a monthly fee at the annual rate of 0.15% of the NAV with respect to Trust assets held in Taiwan under the Investment Contract up to NT\$6 billion, 0.13% of such NAV in excess of NT\$6 billion

Edgar Filing: TAIWAN GREATER CHINA FUND - Form N-CSR

up to NT\$8 billion, 0.11% of such NAV in excess of NT\$8 billion up to NT\$10 billion and 0.09% of such NAV in excess of NT\$10 billion, subject to a minimum annual fee of NT\$2.4 million.

NOTE 6 -- INVESTMENTS IN SECURITIES

Purchases and proceeds from sales of securities, excluding short-term investments, for the six months ended June 30, 2004, included approximately \$186,109,778 for stock purchases and approximately \$184,922,448 for stock sales, respectively.

At June 30, 2004, the cost of investments for U.S. federal income tax purposes was approximately equal to the cost of such investments for financial reporting purposes. At June 30, 2004, the unrealized depreciation of \$21,811,070 for financial reporting purposes consisted of \$435,182 of gross unrealized appreciation and \$22,246,252 of gross unrealized depreciation.

NOTE 7 -- SHARES OF BENEFICIAL INTEREST

A -- The Trust's "Declaration of Trust" permits the trustees to issue an unlimited number of shares of beneficial interest or additional classes of other securities. The shares have a par value of \$0.01, and no other classes of securities are outstanding at present. At June 30, 2004, 32,698,976 shares were outstanding. B --The Trust plans to conduct a tender offer to purchase up to one-third of the Trust's outstanding shares at a price equal to 99% of the Trust's net asset value per share at the conclusion of such offer. The tender offer is expected to commence during the first week in August and be completed by mid-September.

NOTE 8 -- TRUSTEE FEES AND EXPENSES

The amount shown is comprised of trustee fees and expenses, which included spousal travel expenses through the meeting of the Board of Trustees held in February 2004 but not, by decision of the Board of Trustees, thereafter. Aggregate trustee remuneration for the six months ended June 30, 2004 was \$61,444.

The Trust and its predecessors, The Taiwan (R.O.C.) Fund and The R.O.C. Taiwan Fund, have been certified as distributing funds by the Board of Inland Revenue of the United Kingdom for the period from their inception to December 31, 2003. The Trust intends to apply for such status for succeeding accounting periods.

Steven R. Champion has been the President, Chief Executive Officer and portfolio manager

Edgar Filing: TAIWAN GREATER CHINA FUND - Form N-CSR

of the Trust since February 2004. He was Executive Vice President of Bank of Hawaii from 2001-2003 and Chief Investment Officer of Aetna International from 1997-2001. Mr. Champion also previously served as the portfolio manager of the Taiwan (R.O.C.) Fund, predecessor to the Trust, from 1987 to 1989, and President and portfolio manager of the Trust from 1989 to 1992. Other positions he has held include Vice Chairman of the Bank of San Francisco, Chief International Investment Officer at the Bank of America, and Vice President and Country Manager in Taiwan for Continental Illinois National Bank.

PROXY VOTING POLICY

The Trust's policy with regard to voting stocks held in its portfolio is to vote in accordance with the recommendations of Institutional Shareholder Services, Inc. ("ISS") unless the Trust's portfolio manager recommends to the contrary, in which event the decision as to how to vote will be made by the Executive Committee of the Trust's Board of Trustees. A summary of the voting policies followed by ISS may be found on the Trust's website, <http://www.taiwangreaterchinafund.com>, and a more detailed description of those policies is available on the website of the Securities and Exchange Commission (the "Commission"), <http://www.sec.gov>. Information concerning how the Trust voted proxies relating to its portfolio securities during the period from July 1, 2003 through June 30, 2004 will be available on or through the Trust's website and on the Commission's website no later than August 31, 2004.

2004 ANNUAL MEETING OF SHAREHOLDERS

On July 21, 2004, the Trust held an annual meeting to:

1. Elect two trustees.
2. Consider whether to convert the Trust from a closed-end investment company into an open-end investment company. The Trust's Declaration of Trust required a shareholder vote on this question, because the Trust's shares had traded at an average discount of more than 10% to its net asset value over a 12-week-period beginning after the most recent such vote.

The results of the shareholder votes are shown below. Proxies representing 26,496,035, or 81.03%, of the 32,698,976 eligible shares outstanding were voted in respect of the election of trustees. The trustees of the Trust recommended that shareholders vote against the conversion proposal, which would have required the affirmative vote of a majority of the outstanding shares to pass. Proxies representing approximately 37.80% of the outstanding shares were voted

Edgar Filing: TAIWAN GREATER CHINA FUND - Form N-CSR

for conversion.

Review Report of Independent Registered Public Accounting Firm

Trustees and Shareholders of the Taiwan
Greater China Fund

We have reviewed the accompanying consolidated statement of assets and liabilities of the Taiwan Greater China Fund, a Massachusetts business trust (the "Trust"), including the consolidated schedule of investments, as of June 30, 2004, and the related consolidated statements of operations and of changes in net assets and the consolidated financial highlights for the six-month period ended June 30, 2004. These consolidated financial statements and financial highlights are the responsibility of the Trust's management.

We conducted our review in accordance with standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the consolidated financial statements and financial highlights referred to above in order for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with standards of the Public Company Accounting Oversight Board (United States), the consolidated statement of changes in net assets for the year ended December 31, 2003, and the consolidated financial highlights for each of the years in the five-year period ended

Edgar Filing: TAIWAN GREATER CHINA FUND - Form N-CSR

December 31, 2003, and in our report dated January 5, 2004, we expressed an unqualified opinion on the consolidated statement of changes in net assets and financial highlights.
