GENERAL INFORMATION

The accompanying proxy is solicited on behalf of the Board of Directors of Goodrich Corporation. Our Annual Meeting of Shareholders will be held at our corporate headquarters, Four Coliseum Centre, 2730 West Tyvola Road, Charlotte, North Carolina at 10:00 A.M. on April 16, 2002.

All shareholders of record of Common Stock at the close of business on February 25, 2002 are entitled to notice of and to vote at the meeting. There were 101,700,426 shares outstanding and entitled to vote on such date, and each share is entitled to one vote. There are no cumulative voting rights. All of the shares represented by proxies submitted by such shareholders, and not revoked by them, will be voted on all matters presented for a vote.

Most shareholders have a choice of voting over the Internet, by using a toll-free telephone number or by completing a proxy card and mailing it in the postage-paid envelope provided. Please refer to your proxy card or the information forwarded by your bank, broker or other holder of record to see which options are available to you. Please be aware that if you vote over the Internet, you may incur costs such as telephone and Internet access charges for which you will be responsible. The Internet and telephone voting facilities for shareholders of record will close at 5:00 p.m. E.S.T. on April 15, 2002.

Proxies for shares of Common Stock will also represent shares held under our Dividend Reinvestment Plan. Proxies will also be considered to be voting instructions to the Plan Trustee with respect to shares held in accounts under the following plans: Goodrich Corporation Employees Savings Plan; Goodrich Corporation Employees Savings Plan for Wage Employees; Goodrich Corporation Savings Plan for Rohr Employees; Coltec Industries Inc Retirement Savings Plan; Coltec Industries Inc Retirement Accumulation Plan; Noveon, Inc. Retirement Savings Plan; Noveon, Inc. Retirement Savings Plan for Wage Employees; Geon Retirement Savings Plan; Michelin 401(k) Savings Plan; and UGTM Wage 401(k) Savings Plan. If participants in any such plan also are shareholders of record with the same account information, they will receive a single proxy which will represent all shares. If the account information is different, then the participants will receive separate proxies. Participants in other Company employee benefit plans will receive separate proxies.

You can revoke your proxy at any time before it is exercised by written notice to the Company's Secretary, timely delivery of a properly executed, later-dated proxy (including an Internet or telephone vote) or voting by ballot at the meeting. If your shares are held in the name of a bank, broker or other holder of record, you must obtain a proxy, executed in your favor, from the holder of record to be able to vote at the meeting.

We will pay the expense of soliciting these proxies. In addition to using the mails, our Officers, Directors and employees may solicit proxies personally, or by telephone or by facsimile. We will reimburse brokers and others holding shares in their names, or in the names of nominees, for their expenses in sending proxy material to the beneficial owners of such shares and obtaining their proxies. We have retained D.F. King & Co., Inc., 77 Water Street, New York, New York 10005-4495, to assist us in soliciting proxies from shareholders, including brokers, custodians, nominees and fiduciaries, and will pay that firm fees estimated at \$9,500 for its services, plus the firm's expenses and disbursements.

Our 2001 Annual Report, including financial statements, is being mailed with this proxy statement to each shareholder of record. An additional copy will be furnished to any shareholder upon request.

This proxy statement and our 2001 Annual Report are available on our Internet site at www.goodrich.com. Most shareholders can elect to view future proxy statements and annual reports over the Internet instead of receiving paper copies in the mail. If you are a shareholder of record, you can choose this option and save us the cost of producing and mailing these documents by checking the appropriate box on your proxy card or by following the instructions provided if you vote over the Internet or by telephone. If you are a shareholder of record and choose to view future proxy statements and annual reports over the Internet, you will receive a proxy card in the mail next year with instructions containing the Internet address to access those documents. If your shares are held through a bank, broker or other holder of record, check the information provided by that entity for instructions on how to elect to view future proxy statements and annual reports over the Internet.

Table of Contents

The approximate date on which we will begin mailing this proxy statement and the accompanying proxy to shareholders is March 12, 2002. Our principal executive offices are located at Four Coliseum Centre, 2730 West Tyvola Road, Charlotte, North Carolina 28217.

VOTE REQUIRED FOR APPROVAL

The presence, in person or by proxy, of the holders of a majority of the shares entitled to vote at the meeting is necessary to constitute a quorum. Abstentions and broker non-votes are counted as present and entitled to vote for purposes of constituting a quorum. A broker non-vote occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power for that particular item and has not received voting instructions from the beneficial owner.

The twelve nominees for Director receiving a plurality of the votes cast at the meeting in person or by proxy shall be elected. Abstentions and broker non-votes are not counted for purposes of the election of Directors.

Ratification of the appointment of independent auditors will be decided by a majority of the votes cast for or against the proposal at this meeting. Abstentions and broker non-votes are not counted for these purposes.

PROPOSALS TO SHAREHOLDERS

1. ELECTION OF DIRECTORS

One of the purposes of the meeting is the election of twelve Directors to hold office until the next Annual Meeting of Shareholders in 2003 and until their respective successors are elected and qualified. It is intended that the accompanying proxy will be voted for the election of the twelve nominees named on the following pages, all of whom, with the exception of Mr. Larsen, are now Directors and whose terms expire in April 2002.

All nominees have indicated that they are willing to serve as Directors if elected. If any nominee should be unable or unwilling to serve, the proxies will be voted for the election of such person as may be designated by the Board of Directors to replace such nominee.

The Board recommends that you vote FOR the election of these nominees for Director.

This philosophy is supported by the following guiding principles for the Company's compensation programs:

A significant portion of pay will be dependent on the Company's annual and long-term performance including growth in shareholder value.

Compensation programs will emphasize stock-based incentives in order to link shareholder and executive interests and to encourage stock ownership by executives.

The Company intends to provide total compensation commensurate with performance—good performance resulting in superior compensation, and poor performance resulting in below average compensation levels—compared to other companies.

The Company's compensation program consists of three elements: annual base salary, annual cash incentive compensation and long-term incentives. To assist it in performing its duties, the Committee meets periodically with its own independent compensation consultant.

Competitive Labor Market

The Compensation Committee establishes compensation programs, in part, on the basis of competitive factors. It considers the pay levels and practices of a group of specific companies employing executives with comparable experience and skills as well as broad-based surveys of large industrial companies. The companies reviewed individually and those included in the principal broad-based surveys include those companies comprising the different indices used in the stock price performance graph, in addition to other companies.

Base Salary

The Company's base salary policy is intended to insure that compensation practices are competitive within relevant industries and with major industrial companies. The Compensation Committee believes that the middle of the salary range for Company executives should be at the median base salary of comparable industrial companies. The Compensation Committee recommends to the Board of Directors the base salary for the Chief Executive Officer and establishes the annual base salary for other Company officers at the level of senior vice president or higher.

Incentive Compensation

Incentive compensation is intended to motivate and retain qualified individuals who have the opportunity to influence Company results significantly and enhance shareholder value. The philosophy for incentive compensation plans is to provide competitive awards when financial objectives are achieved and provide reduced or no awards when the objectives are not achieved. Incentive compensation programs are divided into two types—annual cash bonus and long-term incentive compensation. Generally speaking, the higher an individual's level within the Company, the greater the percentage of his or her potential total compensation is represented by incentive compensation.

The Company utilizes its Value Management Program as a measurement tool for evaluating the Company's financial performance, for developing and evaluating its business plans and for incentive compensation. The primary measurements used by the Company are:

Relative Total Shareholder Return compared to a peer group of companies, which for 2001 were the manufacturing companies within the S&P 500 index (RTSR); and

Table of Contents

Total Business Return, which measures earnings before interest, taxes, depreciation and amortization (EBITDA) as well as cash flow (TBR).

The Company believes that these measurements have historically been accurate estimators of shareholder value creation.

For 2002, RTSR will be determined based upon a comparison with a peer group of comparable aerospace companies that the Committee believes will more accurately reflect the Company's business mix following the spin-off of the Company's Engineered Industrial Products (EIP) business to shareholders.

In addition, in 2002 the annual and long-term incentive compensation plans will include a performance measurement based on free cash flow (Free Cash Flow) at the corporate, segment, group and business unit level.

Annual Incentive Compensation

An individual's annual cash bonus target under the Company's Management Incentive Plan is expressed as a percentage of his or her salary, with the percentages of salary increasing with the level of the job. Incentive payments can range from 0% to 200% of target, based on the level of performance against the financial objectives. In certain cases, performance at a level exceeding 200% will result in a cash bonus being paid pro rata over an ensuing three-year period.

In 2001, Mr. Burner and six other executive officers did not participate in the Management Incentive Plan. Instead, they participated in the Senior Executive Management Incentive Plan, which is designed to meet the Federal income tax deductibility rules of the Internal Revenue Code. As required by the Code, the plan requires that any award be based upon an objective formula established at the beginning of the year. For 2001, target annual incentive awards and financial objectives under the plan were established based on the same criteria as the Management Incentive Plan. Incentive payments under the plan can range from 0% to 200% of target, based on the level of performance against the financial objectives.

As noted above, the performance measures used in 2001 in the Company's Management Incentive Plan and Senior Executive Management Incentive Plan are RTSR and TBR. The plan places various weightings on these measures depending upon a participant's role in the Company and his or her scope of responsibility. For 2001, the performance factors and weightings under these plans were as follows:

Measures	Corporate Staff	Segment COO	Segment Staff	Group Staff	Business Unit Staff
Company RTSR	50%	50%	30%		
Company TBR	50%				
Segment TBR		50%	70%	20%	
Group TBR				80%	20%
Business Unit TBR					80%

In determining 2001 annual incentive compensation, the Committee also took into consideration the Company's 2001 performance prior to the September 11, 2001 terrorist attacks on New York and Washington and the subsequent impact of those attacks on the Company's aerospace business. The Committee determined that, under the circumstances, it was appropriate to exercise its authority to make certain discretionary awards to specified Corporate and Aerospace participants in an amount not to exceed the target awards for TBR under the plans. Any such discretionary amounts were paid in cash or, in the case of persons who also participate in the Long-Term Incentive Plan, restricted stock with a three-year vesting period. The Committee also authorized management to consider discretionary awards for certain EIP participants.

Table of Contents

The performance measures to be used in 2002 in the Company's Management Incentive Plan and Senior Executive Management Incentive Plan are RTSR, TBR and Free Cash Flow. The plan places various weightings on these measures depending upon a participant's role in the Company and his or her scope of responsibility. For 2002, the performance factors and weightings under these plans will be as follows:

Measures	Corporate Staff	Segment COO	Segment Staff	Group Presidents	Group Staff	Business Unit Staff
Company RTSR	50%	50%	30%	30%		
Company TBR	25%	25%				
Company Free Cash Flow	25%	25%

Long-Term Incentive Compensation

Currently, long-term incentive compensation at the Company consists of a performance-related plan based on a three-year measurement cycle and stock options.

With respect to selected senior executives, including the persons named in the Summary Compensation Table, the Committee considers the recommendation of the Chief Executive Officer in determining the level of awards of long-term incentive compensation. It also considers its own evaluation of the individuals since the members have ample opportunity to observe their performance. With respect to other executives who receive long-term incentive compensation, the Committee makes the determination of the appropriate awards, but generally considers the recommendation of management in making the specific award within the established guidelines. The Committee has available information as to the level of past awards and individual stock ownership of the executive officers. The factors considered in making the awards for the Chief Executive Officer are discussed below.

Long-Term Incentive Plan

The Compensation Committee adopted the Long-Term Incentive Plan in 1992, which is based on the Stock Option Plan. In 2001, the Committee granted Long-Term Incentive Plan awards to 90 executives.

Currently, the Committee makes awards every year, based on overlapping three-year performance cycles. At the beginning of each three-year cycle, the Committee establishes the performance goals. The plan places various weightings on these measures depending upon a participant's role in the Company and his or her scope of responsibility.

For the 2001-2003 awards, the performance factors and weightings were as follows:

Measures	Corporate Staff	Segment COO	Segment Staff	Group Staff	Business Unit Staff
Company RTSR	50%	50%	30%	20%	20%
Company TBR	50%				
Segment TBR		50%	70%	80%	80%

Grants are credited as phantom Performance Shares in a book account for each participant. Each phantom Performance Share is equivalent to one share of Goodrich common stock. Participants will be entitled to a payout of shares at the end of each Plan cycle only if the threshold performance standard is met. The number of shares to be received will range from 0% to 200% of the total phantom Performance Share

Table of Contents

account (including shares credited through dividend equivalents), based on the level of performance against the above financial objectives. Awards will be paid in actual Goodrich common shares.

Guidelines establish a target award of Performance Shares with the aggregate market value of the shares awarded based upon a percentage of salary market value depending upon the individual's position level within the Company—the higher the position level the greater the percentage. The determination of whether to make an award is dependent upon the individual's past performance and expectations of future performance.

Stock Options

The Stock Option Plan is administered by the Compensation Committee. The Plan provides that options may not be granted at less than 100% of fair market value and that options may not be repriced. The Committee has established a target award for individuals based upon the aggregate exercise price of the options granted as a percentage of salary—the higher the salary, the greater the percentage. In 2001, the Committee granted stock options to 335 executives.

Stock Ownership Guidelines

The Compensation Committee has endorsed a management recommendation establishing stock ownership guidelines for participants in the Long-Term Incentive Plan at a multiple of their base salary. The multiple varies from between .75 to 4 times salary, with the multiple increasing with one's level within the Company. Individuals are given five years to achieve the target ownership levels.

Tax Deductibility of Compensation

Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to public companies for compensation in excess of \$1 million paid to the company's chief executive officer or any of the four most highly compensated executive officers. Certain compensation is specifically exempt from the deduction limit to the extent that it does not exceed \$1 million during any fiscal year or is performance based as defined in Section 162(m). The Compensation Committee believes that it is generally in the Company's best interests to comply with Section 162(m). The Committee also believes, however, that it must maintain the flexibility to take actions which it deems to be in the best interests of the Company and its shareholders but which may not qualify for tax deductibility under Section 162(m).

Chief Executive Officer

Effective January 1, 2001, the Compensation Committee recommended, and the Board of Directors set, Mr. Burner's base salary at \$950,000. In recommending this base salary, the Committee took into account surveys of base compensation of chief executive officers of other major industrial companies. The Committee considered his leadership and key contributions to the overall financial performance of the Company, and the Company's progress towards achieving important strategic objectives.

In 2001, Mr. Burner's target annual incentive award and financial objectives under the Senior Executive Management Incentive Plan were established based on the same criteria as the Management Incentive Plan. For 2001 Mr. Burner received \$41,800, or 4.4% of his target amount under the plan. Mr. Burner also received a discretionary award of 15,400 restricted shares with a three-year vesting period, which was made by the Board of Directors after taking into consideration the factors discussed above under Annual Incentive Compensation.

Table of Contents

In 2001, Mr. Burner received options to purchase 140,000 shares. During 2001, Mr. Burner was awarded 46,000 Performance Shares under the 2001-2003 Long-Term Incentive Plan. The performance guidelines for awards for the Chief Executive Officer and the actual performance targets are the same as for other corporate officers. The Compensation Committee and the Board of Directors used the same factors to make these awards as it did in determining the other elements of Mr. Burner's compensation.

(2) Based on a closing price of \$26.62 per share on December 31, 2001 and a total of 101,697,963 shares of Common Stock outstanding (excluding 14,000,000 shares held by a wholly owned subsidiary).

The dollar amounts under the potential realizable value column are the result of calculations of assumed annual compound rates of appreciation over the ten-year life of the options in accordance with the proxy regulations of the Securities and Exchange Commission and are not intended to forecast possible future appreciation, if any, of the Common Stock. The actual value, if any, an executive may realize will depend on the excess of the market price of the shares over the exercise price on the date the option is exercised. We did not use an alternative formula for a grant date valuation, as we are not aware of any formula that will determine with reasonable accuracy a present value based on future unknown or volatile factors. The options granted to the named individuals were immediately exercisable and were granted with limited stock appreciation rights which generally entitle the optionee to elect to receive the appreciation on the option in cash for a 60 day period following a change in control, which generally is deemed to have occurred if (i) any person becomes the beneficial owner of 20% or more of the Common Stock or combined voting power of our outstanding securities (subject to certain exceptions), (ii) during any two-year period there generally has been a change in the majority of our Directors, or (iii) certain corporate reorganizations are approved by our shareholders where the existing shareholders will not retain at least 70% of the voting securities of the surviving entity.

Retirement Pensions

We have in effect a pension plan for salaried employees which provides pensions payable at retirement to each eligible employee. The plan makes available a pension which is paid from funds provided through contributions by us and contributions by the employee, if any, made prior to 1972. The plan is not available to Directors other than those who are employees. The amount of an employee's pension depends on a number of factors including Final Average Earnings (FAE) for the highest 48 consecutive months of an employee's earnings and years of credited service to the Company.

The following chart shows the annual pension amounts currently available to employees who retire with the combinations of FAE and years of credited service shown in the chart, which should be read in conjunction with the notes following the chart. The current plan formula, which became effective as of January 1, 1989, generally provides a benefit of 1.15% of FAE times all years of pension credit plus 0.45% of FAE in excess of covered compensation times years of pension credit up to 35 years. In addition employees hired prior to January 1, 1990, may receive an additional pension credit of up to 4 years. Benefits become vested after 5 years of service.

The chart does not include amounts payable to Messrs. Burner, Larsen, Schaub, Schmidt and Linnert under a non-qualified supplemental plan that is funded in part with life insurance policies. Under this non-qualified plan, the executives earn an additional benefit equal to 1.6 percent of FAE for each of their first

- (1) Earnings include salary, certain incentive payments including annual cash bonuses, but excludes awards under long-term incentive programs and the Company match in the Company savings plans. For the named executive officers, only the amounts shown in the Summary Compensation Table as Salary and Bonus under Annual Compensation constitute FAE. As of December 31, 2001, FAE for Messrs. Burner, Larsen, Schaub, Linnert and Schmidt were as follows: D. L. Burner, \$1,753,155; M. O. Larsen, \$1,024,879; E. F. Schaub, \$593,635; T. G. Linnert, \$533,812; and U. Schmidt, \$432,731.
- (2) In computing the pension amounts shown, it was assumed that an employee would retire at age 65 and elect to receive a five year certain and continuous annuity under the pension plan and that the employee would not elect any of the available survivor options, which would result in a lower annual pension. Pensions are not subject to any deduction for Social Security or any other offset amounts.
- (3) As of December 31, 2001, Messrs. Burner, Larsen, Schaub, Linnert and Schmidt had the following credited years of service under the pension plan (including, where appropriate, up to the 4 additional years): D. L. Burner, 22 years, 8 months; M. O. Larsen, 24 years, 0 months; E. F. Schaub, 30 years, 2 months; T. G. Linnert, 4 years, 2 months; and U. Schmidt, 7 years, 6 months.
- (4) Certain executives, including Messrs. Burner, Larsen, Schaub, Linnert and Schmidt, became vested in benefits immediately.
- (5) Any benefits shown in the chart which exceed the level of benefits permitted to be paid from a tax-qualified pension plan under the Internal Revenue Code are payable under a non-qualified supplemental pension plan, funded in part with life insurance policies.

Management Continuity Agreements

In 1984 we first entered into management continuity agreements (the Agreements) with certain employees, which include all of the executive officers named in the Summary Compensation Table. Presently there are 23 Agreements in effect.

The purpose of the Agreements is to encourage the individuals to carry out their duties in the event of the possibility of a change in control of the Company. The Agreements are not ordinary employment agreements and do not provide any assurance of continued employment unless there is a change in control. They generally provide for a two-year period of employment commencing upon a change in control which generally is deemed to have occurred if (i) any person becomes the beneficial owner of 20% or more of the Common Stock or combined voting power of our outstanding securities (subject to certain exceptions), (ii) during any two-year period there generally has been a change in the majority of our Directors, or (iii) certain corporate reorganizations occur where the existing shareholders do not retain at least 70% of the voting securities of the surviving entity. The Agreements generally provide for the continuation of employment of the individuals in the same positions and with the same responsibilities and authorities that they possessed immediately prior to the change in control and generally with the same benefits and level of compensation, including average annual increases.

If we or our successor terminate the individual's employment for reasons other than cause or the individual voluntarily terminates his or her employment for a good reason (in each case as defined in the Agreements) the individual would be entitled to:

a lump sum cash payment equal to one-twelfth of the individual's annualized base salary in effect immediately prior to termination, multiplied by the number of months in such individual's Payment Period. As used in the Agreement, Payment Period means 36 months in the case of Messrs. Burner, Larsen, Schaub, Linnert and Schmidt and eight other individuals and 24 months in the case of the other individuals.

a lump sum cash payment equal to one-twelfth of the greater of the individual's most recent annual bonus or the individual's target incentive amount under our management incentive program, multiplied by a factor equal to the number of months in the individual's Payment Period.

an accelerated payout of outstanding awards under our Long-Term Incentive Plans.

continuation of all health and welfare benefit plans and programs and all fringe benefit programs, perquisites and similar arrangements during the Payment Period.

a cash payment equal to the sum of the number of stock options in the last annual grant of stock options by us to the individual, multiplied by the number of years in the Payment Period, multiplied by the calculated market value of our Common Stock on the date of the stock option grant, multiplied by a factor used by us in valuing fully vested stock options with a 10-year life in our most recent Annual Report on Form 10-K for options held by senior executives pursuant to the Black-Scholes method of valuing stock options, or, if such valuation was not made in the Form 10-K, then under the Black-Scholes method assuming options would be outstanding for 10 years.

in addition to the benefits to which the individual is entitled under the retirement plans or programs in which he or she participates, a lump sum cash payment at retirement in an amount equal to the actuarial equivalent of the retirement pension to which the individual would have been entitled under the terms of such retirement plans or programs had the individual accumulated additional years of continuous service under such plans equal in length to the Payment Period.

The Agreements provide for a tax gross-up for any excise tax due under the Internal Revenue Code for these types of agreements.

Indebtedness

In connection with the relocation of our corporate and aerospace segment headquarters to Charlotte, North Carolina in 1999, we established two real estate loan programs to assist relocating executives.

Table of Contents

Under the first program, an executive may obtain a no-interest loan from us, the proceeds of which may be used solely for the construction of a new principal residence. The loan is secured by a first priority lien on the new residence and is payable in full on demand and in any event, not later than 30 days after the executive obtains a certificate of occupancy for the new residence. Three of our executive officers (Messrs. Larsen, Schaub and Huggins) participated in this program in 2001.

Under the second program, an executive may obtain an unsecured, no-interest bridge loan from us, the proceeds of which may be used solely for the purchase of a new principal residence. The principal amount of the loan cannot be greater than the amount of equity in the executive's former principal residence. The loan is payable in full on demand and, in any event, not later than 15 days after the sale of the executive's former principal residence. One of our executive officers (Mr. Larsen) participated in this program in 2001.

The following table sets forth information regarding these loans.

Name	Largest Aggregate Amount Outstanding At Any Time During 2001 (\$)	Principal Balance at February 28, 2002 (\$)
M. O. Larsen	882,038	-0-
E. F. Schaub	1,675,000	-0-
S. R. Huggins	1,931,383	219,454

Executive Stock Purchase Program

We have adopted an Executive Stock Purchase Program (the Program) to encourage direct, long-term ownership of our common stock by our senior executives (including all of our executive officers). Under the Program, the executives may use the proceeds of personal full-recourse bank loans to purchase our common stock in open market or negotiated transactions with independent parties. We have agreed to guarantee the loans in the event of default, but have recourse to the executives if we incur a loss under the guarantee. Participants in the Program are fully liable for any losses, as well as for the repayment of the loans when they come due. At February 28, 2002, the aggregate principal balance of loans outstanding under the Program was \$9,748,954.

Table of Contents**CUMULATIVE TOTAL SHAREHOLDER PERFORMANCE GRAPH**

Set forth below is a line graph showing the yearly percentage change in the cumulative total shareholder return for the Common Stock with the similar returns for the Standard & Poor's 500 Stock Index, the Standard & Poor's Aerospace/ Defense Index and the Standard & Poor's Specialty Chemicals Index. Each of the returns is calculated assuming the investment of \$100 in each of the securities on December 31, 1996 and reinvestment of dividends into additional shares of the respective equity securities when paid. The graph plots the respective values on the five single days which are the last trading days of calendar years 1996 through 2001. Past performance is not necessarily indicative of future performance.

As a result of the divestiture of our Performance Materials segment in February 2001, we believe that a comparison to the Standard & Poor's Specialty Chemicals Index is no longer relevant to investors and therefore that index will not be included in the performance graphs in our future proxy statements.

GOVERNANCE OF THE COMPANY

Pursuant to the New York Business Corporation Law and our By-Laws, our business is managed under the direction of our Board of Directors. Members of the Board are kept informed of our business through discussions with the Chairman and officers, by reviewing materials provided to them and by participating in meetings of the Board and its committees.

Our Board of Directors held 11 meetings in 2001. All Directors attended more than 75% of the aggregate total number of meetings held in 2001 by the Board of Directors and the Committees of the Board of Directors on which they served.

Board Committees

The Board of Directors has an Audit Review Committee, a Committee on Governance, a Compensation Committee and a Financial Policy Committee. All members of these committees are non-employee independent directors. The Board has established formal written charters for each of these committees.

The Board also has an Executive Committee, consisting of: David L. Burner, Chairman; James J. Glasser; and Alfred M. Rankin, Jr. This committee did not meet in 2001. The Executive Committee may exercise all of the powers of the Board of Directors, so far as they may be legally delegated, when the Board is not in session.

Audit Review Committee. The members of the Audit Review Committee as of the date of this proxy statement are: Richard de J. Osborne, Chairman; Harris E. DeLoach, Jr.; Douglas E. Olesen; Alfred M. Rankin, Jr.; and A. Thomas Young. This committee held three meetings in 2001. The Audit Review Committee:

considers the selection and recommends to the Board of Directors not later than at its meeting in February each year a firm of certified public accountants to be appointed as our independent auditors for our then current fiscal year;

evaluates together with the Board of Directors the performance of the independent auditors and, if so determined by the Audit Review Committee, recommends that the Board replace the independent auditors;

oversees independence of the independent auditors by:

receiving from the independent auditors, on a periodic basis, a formal written statement delineating all relationships between the independent auditors and us consistent with generally accepted auditing standards;

reviewing and actively discussing with the Board of Directors, if necessary, and the independent auditors, on an annual basis, any disclosed relationships or services between the independent auditors and us or any other disclosed relationships or services that may impact the objectivity and independence of the independent auditors; and

recommending, if necessary, that the Board of Directors take certain actions to satisfy itself of the auditors' independence;

reviews with the independent auditors and our chief audit executive the scopes of the audits and the results of the audit examinations by the independent auditors and our chief audit executive with respect to our current fiscal year;

reviews with management and the independent auditors our annual financial statements, including a discussion with the independent auditors of the matters required to be discussed by generally accepted auditing standards;

reviews with management and the independent auditors our quarterly financial statements prior to the filing of our Quarterly Report on Form 10-Q, including a discussion with the independent auditors of the matters required to be discussed by generally accepted auditing standards. The Chairman of the Audit Review Committee may represent the entire Audit Review Committee for purposes of this review;

Table of Contents

reviews the system of internal controls with the independent auditors, our chief audit executive and other financial officers and our General Counsel; and

on at least an annual basis, reviews with our General Counsel any legal matters that may have a material impact on our financial statements, our compliance policies and any material reports or inquiries received from regulators or governmental agencies.

While the Audit Review Committee has the powers and responsibilities set forth in its charter, it is not the responsibility of the Audit Review Committee to plan or conduct audits or to determine that our financial statements are complete and accurate or are in compliance with generally accepted accounting principles. This is the responsibility of management and the independent auditors. Likewise, it is not the responsibility of the Audit Review Committee to conduct investigations, resolve disputes, if any, between management and the independent auditors or to assure compliance with laws and regulations or our legal and ethical compliance policies.

Committee On Governance. The members of the Committee on Governance as of the date of this proxy statement are: James J. Glasser, Chairman; William R. Holland; Richard de J. Osborne; and James R. Wilson. This committee held three meetings in 2001. The Committee on Governance:

recommends candidates for our Board of Directors;

reviews annually the tenure of each Director; and

considers the size and composition of the Board, the ratio of non-employee to employee Directors, compensation and retirement of Directors, frequency and format of Board meetings, Committee structure, service on Committees and management succession planning.

All candidates for Director are considered and selected strictly on the basis of their ability to contribute to the deliberations of the Board of Directors. Shareholders wishing to recommend candidates for the Board may submit the names of such candidates, together with any desired supporting information, to our Secretary. This information is made available to the Committee on Governance to assist it in fulfilling its duties in this area.

Compensation Committee. The members of the Compensation Committee as of the date of this proxy statement are: James R. Wilson, Chairman; Diane C. Creel; George A. Davidson, Jr., Harris E. DeLoach, Jr.; and James J. Glasser. This committee held five meetings in 2001. The Compensation Committee:

establishes the annual merit salary increase budget for corporate staff executives; reviews and approves compensation for individuals holding the offices of Senior Vice President and above and reviews and recommends to the Board of Directors for approval the compensation for the Chief Executive Officer.

Olesen; Alfred M. Rankin, Jr.; and A. Thomas Young. This committee held five meetings in 2001. The Financial Policy Committee:

reviews, prior to action by the Board, our proposed major financing activities or acquisitions;

authorizes certain actions with respect to our debt or preferred stock; and

authorizes policies and procedures with respect to our short-term investments.

Compensation of Directors

During 2001 each of our non-employee Directors received fixed compensation for serving as a Director at the rate of \$50,000 per year, plus \$1,000 for each Board and Board Committee meeting attended, except that the chairperson of a Committee received \$2,000 for each meeting of that Committee attended. One half of the fixed compensation is deferred into a phantom Goodrich share account and is paid out in shares of Common Stock following termination of service as a Director. Dividends which would be earned on the phantom share account are credited to the account in additional phantom shares. Directors may elect to defer a portion or all of the remaining fixed compensation and meeting fees into the phantom share account. The Board believes that a portion of Director compensation should be based on Common Stock similar to executive compensation. This should more closely align the financial interests of Directors with the financial interests of shareholders.

In September 1995, the Board of Directors replaced the existing cash retirement plan for Directors with a new Directors Phantom Share Plan. Under the terms of the plan, outside Directors receive annual grants of phantom shares equal in value to the current annual retainer for up to ten years. Dividend equivalents accrue on all phantom shares credited to a Director's account. All phantom shares become fully vested at the earlier of five years from the date of grant, the Director's termination of Board service after age 55, or upon a change in control of the Company as defined in our Stock Option Plan. Following termination of service as a Director, the cash value of the vested number of phantom shares will be paid to each Director in twelve monthly installments. The value of each phantom share is determined on the relevant date by the fair market value of the Common Stock. The former cash retirement plan provided upon retirement from the Board of Directors after reaching the age of 55 with at least ten years of service as a Director, any non-employee Director would be entitled to receive an annual amount equal to the fixed compensation level in effect at the time of retirement. A retiring Director who has reached age 55 and has served for at least five but less than ten years would be entitled to a reduced amount equal to 50% of the fixed compensation level in effect at retirement, plus 10% of such compensation level for each additional year of service (rounded to the nearest whole year) up to ten. Transitional provisions have been provided between the old cash retirement plan and the new Directors Phantom Share Plan based on a Director's years of service as of September 1995. Directors with more than ten years of service will continue to be eligible under the old plan but will not receive any phantom shares under the new plan. Outside Directors with at least five but less than ten years service will continue to be eligible to receive benefits under the old plan with respect to their accrued benefits through the date of the adoption of the Directors Phantom Share Plan and will receive annual grants of phantom shares through their tenth year. Outside Directors with less than five years of service will receive no benefits under the old plan, but received initial grants of phantom shares equal to the current annual cash retainer times the number of completed years of service and will thereafter receive annual grants of phantom shares up to an aggregate of ten years. Retired Directors will continue to receive their retirement benefits.

Insurance

As authorized by Section 726 of the Business Corporation Law of the State of New York and our By-Laws, we have purchased insurance providing indemnification for the Company and its subsidiaries as well as their directors and officers. The insurance is part of a package which includes employment practices, fiduciary and crime insurance coverage. The insurance coverage was written by XL Capital, The Hartford, Royal & Sun Alliance, St. Paul Fire and Marine, Zurich American Insurance, Starr Express and Kemper Insurance Company, commencing June 19, 2001, for a three-year period, at a total premium cost of \$2,861,000.

Consulting Agreement with Mr. Holland

William R. Holland, one of our directors, will serve as the non-executive chairman of EnPro Industries, Inc. following the spin-off of that company to our shareholders in the second quarter of 2002. We and EnPro have entered into a consulting agreement with Mr. Holland for the additional time required of him in connection with the spin-off. Under the agreement, Mr. Holland will be paid a monthly consulting fee of \$36,000 for the period of March 1 through June 30, 2002 (when activity relating to the spin-off is at its peak) and \$15,000 per month beginning in July 2002. We will be responsible for payment of all consulting fees relating to services provided prior to the spin-off date, and EnPro will be responsible for payment of all consulting fees relating to services provided on or after the spin-off date. The Agreement terminates April 30, 2003. During the term of the agreement, Mr. Holland will also be compensated for his services as a Goodrich director. See Compensation of Directors .

AUDIT REVIEW COMMITTEE REPORT

The Audit Review Committee reviews the Company's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the Company's financial statements and the reporting process, including the system of internal controls.

In this context, the Committee has met and held discussions with management and the independent auditors. Management represented to the Committee that the Company's consolidated financial statements were prepared in accordance with generally accepted accounting principles, and the Committee has reviewed and discussed the consolidated financial statements with management and the independent auditors. The independent auditors discussed with the Committee the matters required to be discussed by Statement on Auditing Standards No. 61 (*Communication With Audit Committees*).

In addition, the Committee received the written disclosures and the letter from the independent auditors required by Independence Standards Board Standard No. 1 (*Independence Discussions With Audit Committees*), and discussed with the independent auditors the auditor's independence from the Company and its management. The Committee also considered whether the provision of non-audit services to the Company is compatible with the auditor's independence.

The Committee discussed with the Company's internal and independent auditors the overall scope and plans for their respective audits. The Committee meets with the internal and independent auditors, with and without management present, to discuss the results of their examinations, the evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting.

In reliance on the reviews and discussions referred to above, the Committee recommended to the Board of Directors, and the Board has approved, that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2001, for filing with the Securities and Exchange Commission. The Committee and the Board also have recommended, subject to shareholder approval, the appointment of the Company's independent auditors.

and executive officers, we believe that during 2001 all such reports were filed on a timely basis except that, due to an administrative oversight by the Company, Mr. Larsen filed an incomplete Form 4 with respect to a stock option exercise. An amended Form 4 was filed promptly following discovery of the error.

2. RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

The Board of Directors on February 19, 2002 appointed the firm of Ernst & Young LLP, subject to ratification by the shareholders at the Annual Meeting, to audit our accounts with respect to our operations for the year 2002 and to perform such other services as may be required. Representatives of the firm of Ernst & Young LLP, our auditors for the most recently completed fiscal year, are expected to be present at the Annual Meeting, will have the opportunity to make a statement if they desire to do so, and will be available to respond to appropriate questions from shareholders.

Audit Fees

Ernst & Young LLP's fees for our 2001 annual audit were \$1.6 million.

Financial Information Systems Design and Implementation Fees

Ernst & Young LLP did not render any professional services to us in 2001 with respect to financial information systems design and implementation.

All Other Fees

Ernst & Young LLP's fees for all other professional services rendered to us during 2001 were \$5.3 million, comprised of:

Audit services related to the sale of Performance Materials	\$ 1.1 million

Other audit related services generally include fees for employee benefit plan and statutory audits, business acquisitions, accounting consultations and SEC registration statements.

The Board of Directors recommends that you vote FOR ratifying this appointment.

SECTION 10. (A) **Annual Meetings of Shareholders.** (1) Nominations of persons for election to the Board of Directors of the Company and the proposal of business to be considered by the shareholders may be made at an annual meeting of shareholders (a) pursuant to the Company's notice of meeting, (b) by or at the direction of the Board of Directors or (c) by any shareholder of the Company who was a shareholder of record at the time of giving of notice provided for in this By-Law, who is entitled to vote at the meeting and who complied with the notice procedures set forth in this By-Law.
