***Item 2.02 Disclosure of Results of Operations and Financial Condition***

On June 27, 2006, Vector Group Ltd. (the Company) filed a Current Report on Form 8-K (the 2006 Form 8-K) to report the retrospective application of the Financial Accounting Standards Board's Emerging Issue Task Force Issue No. 05-8, Income Tax Effects of Issuing Convertible Debt with a Beneficial Conversion Feature (EITF Issue No. 05-8) as of January 1, 2006. In EITF Issue No. 05-8, the EITF concluded the issuance of convertible debt with a beneficial conversion feature creates a temporary difference on which deferred income taxes should be provided. EITF Issue No. 05-8 is required to be applied in fiscal periods beginning after December 15, 2005, by retrospective restatement of prior financial statements retroactive to the issuance of the convertible debt.

The 2006 Form 8-K revised Item 6, Selected Financial Data, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, and Item 8, Financial Statements and Supplementary Data of the Form 10-K originally filed on March 16, 2006.

On November 9, 2006, the Company determined it would restate its financial statements for each of the years ended December 31, 2004 and 2005. The restatement corrected an error in the computation of the debt discount amortization created by the embedded derivative and the beneficial conversion feature associated with the Company's 5% variable interest senior convertible notes due 2011, which were issued in the last quarter of 2004 and the first half of 2005. The restatement adjustments affected the Company's previously reported interest expense, the related income tax effect, and extraordinary items, as well as its previously reported other assets, long-term debt, additional paid-in capital and accumulated deficit balances. See Note 2 Restatement of Financial Results and Note 23 Restated Financial Information to the financial statements included in the Company's Form 10-K/A, filed on November 24, 2006.

The aggregate net effect of the restatement was to increase stockholders' equity by \$3.422 million as of December 31, 2005 and \$336,000 as of December 31, 2004. The restatement also increased net income by \$3.290 million (\$0.05 per diluted common share) and \$336,000 (\$0.01 per diluted common share) for the years ended December 31, 2005 and 2004, respectively.

The restatement adjustments corrected the previous amortization method used in calculating the amortization of the debt discount created by the embedded derivative and beneficial conversion feature associated with the Company's 5% variable interest senior convertible notes due 2011, which were issued in the last quarter of 2004 and the first half of 2005. The Company previously amortized the debt discount on its 5% variable interest senior convertible notes due 2011, which were issued in the last quarter of 2004 and the first half of 2005, using an erroneous amortization method that did not result in a consistent yield on the convertible debt over its term.

The Company is filing this Amendment No. 1 to the 2006 Form 8-K to update the previously filed information related to the retrospective application of EITF Issue No. 05-8.
