**What are the voting requirements for electing members of our Board of Directors?**

The affirmative vote of a plurality of the votes cast is required for the election of directors, which means that the director nominee with the most votes for a particular slot is elected for that slot. You may vote for or withhold authority with respect to the election of directors. Only votes for or withhold authority are counted in determining whether a plurality has been cast in favor of a director.

**What does it mean if I get more than one proxy form?**

You will receive a proxy form for each account that you have. Please vote proxies for all accounts to ensure that all your shares are voted. **Corporate Governance**

**Board Structure**

Our current Board of Directors consists of nine directors who have diverse backgrounds and experience and is chaired by Edward R. Muller, our President and Chief Executive Officer. Mr. Muller was elected as Chairman of the Board, President and Chief Executive Officer on September 30, 2005. The other individuals listed above were originally appointed as directors on January 3, 2006, in conjunction with our emergence from Chapter 11 bankruptcy. All members of the current Board were re-elected at our 2006 Annual Meeting of Stockholders on May 9, 2006. Each director serves a one-year term and is subject to annual election.

A. D. (Pete) Correll serves as lead independent director. In this role he coordinates the activities of the other non-management directors, serves as chairman of the Nominating and Governance Committee, presides over meetings of the non-management directors and serves as the liaison between the non-management directors and the Chairman of the Board.

The Board of Directors met 13 times in 2006. No director attended fewer than 75% of the total of the Board meetings and the meetings of the committees upon which he served. All directors were present at our 2006 Annual Meeting of Stockholders held at our corporate headquarters on May 9, 2006.

**Corporate Governance Guidelines and Committee Charters**

In 2006, the Board of Directors approved new Corporate Governance Guidelines and new charters for the Audit, Compensation, and Nominating and Governance Committees that comply with applicable laws and regulations and the listing standards of the New York Stock Exchange. The Corporate Governance Guidelines describe the qualifications and role of the Board and outline the responsibilities of the directors. They provide that the Board will conduct an annual evaluation to assess and enhance its effectiveness, and the Guidelines direct non-management directors to meet in executive session at least quarterly, with the Company’s lead independent director presiding at these sessions. Under the Guidelines, directors are expected to attend the Company’s Annual Meeting of Stockholders. The Corporate Governance Guidelines and all three committee charters are posted on our website at <http://www.mirant.com>. Stockholders may obtain a copy of the Guidelines and committee charters by written request to the Corporate Secretary at Mirant Corporation, 1155 Perimeter Center West, Atlanta, GA 30338-5416.

**Director Independence**

The Board has determined that each of the following non-management directors is independent under applicable New York Stock Exchange listing standards and our Corporate Governance Guidelines: Thomas W. Cason, A.D. (Pete) Correll, Terry G. Dallas, Thomas H. Johnson, John T. Miller, Robert C. Murray, John M. Quain, and

**Table of Contents**

William L. Thacker. Each director designated as independent has no material relationship with the Company that would impair his independence. This determination was based upon the recommendation of the Nominating and Governance Committee and all relevant facts and circumstances appropriate for consideration in the judgment of the Board. As described in the Corporate Governance Guidelines, the Board applies the following standards in assessing independence:

- (1) No director can qualify as independent if he or she has a material relationship with the Company, either directly or as a partner, stockholder or officer of an organization that has a relationship with the Company.
- (2) A director is not independent if:
  - (i) The director is, or has been within the last three years, an employee of the Company, or an immediate family member of the director is, or has been within the last three years, an executive officer of the Company.
  - (ii) The director, or an immediate family member of the director, has received during any 12-month period during the last three years more than \$100,000 in direct compensation from the Company, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service). Compensation received by an immediate family member for service as an employee (other than an executive officer) is not considered for purposes of this standard.
  - (iii) The director, or an immediate family member of the director, is, or within the last three years has been, employed as an executive officer of another company where any of the Company's present executive officers serves or served at the same time on that company's compensation committee.
  - (iv) The director is a current employee, or has an immediate family member who is a current executive officer, of another company that has made payments to, or received payments from, the Company for property or services in an amount which, in any of the last three fiscal years, exceeds the greater of \$1 million or 2% of the other company's consolidated gross annual revenues.
  - (v) The director is, or in the past three years has been, an executive officer of a charitable organization to which the Company made contributions in an amount which in any single fiscal year exceeds the greater of \$1 million or 2% of such charitable organization's consolidated gross annual revenues.

At the first scheduled Nominating and Governance Committee meeting each calendar year, management identifies for the Committee any related person transactions to be entered into for that calendar year,

Stockholders making a director nominee recommendation must submit a written notice to the Corporate Secretary, Mirant Corporation, 1155 Perimeter Center West, Atlanta, GA 30338-5416. Recommendations submitted for consideration by the Nominating and Governance Committee in preparation for the 2008 Annual Meeting of Stockholders must be received by December 5, 2007, and must contain the following information: (a) the name and address of the recommending stockholder; (b) the name and address of the person to be nominated; (c) a representation that the stockholder is a holder of Mirant's common stock entitled to vote at the meeting; (d) a statement in support of the stockholder's recommendation, including a description of the candidate's qualifications; (e) information regarding the candidate that would be required to be included in a proxy statement filed in accordance with the rules of the Securities and Exchange Commission (the "SEC"); and (f) the candidate's written, signed consent to serve if elected. The Nominating and Governance Committee will evaluate candidates recommended by stockholders based on the same criteria it uses to evaluate candidates from other sources. The Corporate Governance Guidelines, as approved by the Board of Directors and posted on our website, set forth qualifications and criteria for our directors and require that the assessment of potential candidates include independence, business and professional experience (including current public company boards on which a nominee serves), ability to devote sufficient time to the affairs of Mirant, and characteristics of the current Board of Directors, including diversity, age and skills (such as financial expertise, international experience and experience in the energy industry). The Committee's selection process also provides for engagement of third party search firms, interviews with various members of the Committee, the Board and management, and an evaluation of each individual in the context of the Board as a whole, applying the criteria that it deems appropriate. The final selection of nominees is made by the Board of Directors.

Alternatively, stockholders intending to appear at our Annual Meeting of Stockholders in order to nominate a candidate for election at the meeting (in cases where the Board of Directors does not intend to nominate the candidate or where the Nominating and Governance Committee was not required to consider his or her candidacy) must comply with the requirements set forth in Article II, Section 11A of the Company's Bylaws, which may be found on our website at <http://www.mirant.com>.

**Executive Compensation**

***Compensation Discussion and Analysis***

The Compensation Committee is responsible for establishing and administering the compensation and benefits programs for our named executive officers. The Compensation Committee reviews and approves compensation for our Chief Executive Officer, under the oversight of the Board's independent directors, and reviews and approves compensation for all corporate Executive Vice Presidents and Senior Vice Presidents, including salary, short-term and long-term incentives, severance and other executive benefits. The Compensation Committee also reviews and approves performance measures for the short-term incentive plan, formulates long-term incentive strategy, and provides oversight and guidance in the development of compensation and benefit programs for all employees of the Company.

**Compensation Program Philosophy and Objectives**

In determining the compensation for our named executive officers in 2006, the Compensation Committee's main focus was creating a pay for performance culture and ensuring that our compensation programs achieve the following objectives through a combination of fixed and variable cash- and equity-based elements:

Providing a competitive total compensation package, enabling us to attract and retain qualified executives;

Motivating employee performance by creating a direct link between a significant portion of the compensation that can be earned by each named executive officer and our financial performance; and

Aligning our named executive officers' interests with those of our stockholders by fostering stock ownership by our named executive officers.

The Compensation Committee intends to annually review our compensation policies and programs in light of these objectives and competitive practices.

In conjunction with the approval of the Plan of Reorganization that facilitated our emergence from bankruptcy protection, our 2005 Omnibus Incentive Compensation Plan became effective as of January 3, 2006. The Omnibus Incentive Compensation Plan provides for grants of stock options, stock appreciation rights, restricted stock, restricted stock units, performance units, performance shares, cash-based awards and other stock-based awards. Our directors and employees are eligible to receive grants under the Omnibus Incentive Compensation Plan. The purpose of the Omnibus Incentive Compensation Plan is to provide a means whereby employees and directors develop a sense of proprietorship and personal involvement in our development and financial success and to encourage them to devote their best efforts to our business, thereby advancing our interests and those of our stockholders.

Our named executive officers for 2006 include Edward R. Muller, our President and Chief Executive Officer; James V. Iaco, our Executive Vice President and Chief Financial Officer; Robert M. Edgell, our Executive Vice President and U.S. Region Head; S. Linn Williams, our Executive Vice President and General Counsel; and William P. von Blasingame, our Senior Vice President and General Manager - Caribbean. While our Compensation Committee approves the compensation arrangements of all officers at the level of Senior Vice President and above, the Chief Executive Officer provides input and recommendations from management, other than with regard to himself, including with respect to appropriate merit increases.

**Compensation Consultant**

Since 2001, the Compensation Committee has engaged Hewitt Associates to advise the Committee and provide expertise on compensation strategy and program design. The consultant works from time to time with management,

**Table of Contents**

at the request of the Compensation Committee, in formulating materials and proposals for consideration by the Committee. In such instances the Senior Vice President, Administration, the Chair of the Committee and the consultant work together to determine the nature and scope of the consultant's assignments. Hewitt's 2006 services included providing advice on the design of compensation programs, providing competitive data, reviewing technical provisions of program design and advising the Committee and management on the impact of regulatory and legislative changes on the Company's compensation programs. A representative of Hewitt Associates attended eight Compensation Committee meetings in 2006.

In addition to serving as consultant to the Compensation Committee, Hewitt administers the Company's pension programs. The Committee has determined that this pension administration work, as well as the work with management at the Committee's direction, does not impair the independence of Hewitt in its role as compensation consultant.

**Review of Compensation Program in 2006**

Due to our emergence in 2006 from Chapter 11 protection and the resulting appointment of a new Board of Directors, the Compensation Committee reviewed all of our existing compensation programs. In conducting this review, the Committee consulted with the compensation consultant as appropriate. Following this review, the Committee made several modifications to existing programs and reviewed and approved the following new plans and programs during 2006:

Deferred Compensation Plan

Change-in-Control Severance Plan

Severance Pay Plan

2006 Special Bonus Plan

Stock Ownership Guidelines

Director Compensation Plan

Equity Grant Policy

Deferred Compensation Plan. The Deferred Compensation Plan is a nonqualified plan, and participation is limited to our Board of Directors and employees with an annual base salary of \$160,000 or more. Under the Plan, directors may defer up to 100% of board and committee meeting fees and retainer fees. Employees may defer up to 100% of base pay and short-term incentive pay (less applicable FICA taxes). The adoption of a new Deferred Compensation Plan facilitated our compliance with IRS Regulation 409A, which places certain restrictions on deferred compensation under nonqualified plans. This Deferred Compensation Plan is effective for all deferrals beginning in 2006.

Change-in-Control and Severance Pay Plans. The Compensation Committee adopted new severance and change-in-control programs during the year. The Compensation Committee believes these programs are necessary to remain competitive in the marketplace and to address workforce uncertainty due to our recent emergence from bankruptcy and speculation regarding potential industry consolidation. See *Post-Termination Compensation* below for a description of the Change in Control and Severance Pay Plans.

2006 Special Bonus Plan. In November 2006, the Compensation Committee approved the implementation of the 2006 Special Bonus Plan to reward participants for successful completion of our business and asset sales announced in July and August of 2006, as well as to provide a retention incentive for certain participants. Participants in the Special Bonus Plan include approximately 125 U.S. employees (representing 7% of the U.S. employee population) at a level of Senior Vice President or below who are considered critical to our operation. None of our named executive officers is covered by the 2006 Special Bonus Plan. However, please see the *Long-Term Incentives* section below for a discussion of special equity grants to our named executive officers that were made in conjunction with the implementation of the Special Bonus Plan. The maximum amount payable pursuant to the 2006 Special Bonus Plan is

\$34 million. Payments under the 2006 Special Bonus Plan will be made on or about June 30, 2008, upon the satisfaction of specified conditions to vesting, including (1) the achievement of an established threshold

**Table of Contents**

value from the planned sales of our Philippine and Caribbean businesses and certain U.S. natural gas-fired assets; and (2) the completion of the planned sale of our Philippine business and receipt of 65% of the threshold values from the planned sales of the Caribbean business and the U.S. natural gas-fired assets.

**Stock Ownership Guidelines.** In November 2006, our Compensation Committee approved stock ownership guidelines that apply to certain corporate officers as well as our Board of Directors. These guidelines establish minimum levels of share ownership to be attained over five years as set forth below:

<b>Position</b>	<b>Multiple of Annual Salary</b>
Chief Executive Officer	500%
Executive Vice President	400%
Senior Vice President	300%
Vice President/Officer*	100%
Board of Directors	3x annual LTI Grant

\* All corporate officers with a base salary greater than \$180,000.

Shares counted toward satisfaction of the guidelines outlined above include shares owned outright, vested restricted stock units or restricted shares, vested stock options (at two-thirds of their value), and phantom shares/units.

**Director Compensation Plan** For information on the Director Compensation Plan adopted in 2006, see the *Director Compensation Table* under *Executive Compensation* below.

**Equity Grant Policy** In November 2006, our Compensation Committee approved an Equity Grant Policy that applies to any compensatory award under our Omnibus Incentive Compensation Plan in the form of common stock or common stock derivatives, including stock options, restricted stock, restricted stock units, performance shares or performance units. Under the Equity Grant Policy, both annual equity grants and special equity grants must be made during an open trading window, which normally follows our quarterly earnings releases. The Equity Grant Policy also confirms that the grant date of any equity award approved by the Compensation Committee will be the date of the meeting at which the award was approved, and the grant price will be the closing price of our common stock on the New York Stock Exchange on such date.

**Peer Group Analysis and Compensation Assessment**

In order to determine competitive market-level compensation for our senior executives, we benchmark either annually or bi-annually (based on market conditions) all elements of executive compensation and review these results with the Compensation Committee. In 2006, for our named executive officers, we utilized a general industry comparator group of approximately 60 companies of similar revenue size, which includes certain industry peers. Hewitt assisted us in identifying an appropriate comparator group and we presented the proposed group to the Compensation Committee for approval. A regression analysis was performed to determine market pay on a size-adjusted basis. We are near the median of the selected peer group in revenue and market capitalization, though we have fewer than the median number of employees for these companies. Our objective is to pay a total compensation package that is at the median of market for target performance.

**Components of In-Service Compensation**

We utilize base salary, short-term cash incentives, long-term equity incentives, benefits and perquisites to compensate our named executive officers. We target the median market level for these components in order to ensure our competitiveness in attracting and retaining our named executive officers.

***Base Salary***

The Committee establishes base salary levels for our executive group by comparison to competitive market levels for their job functions. In 2006, we analyzed our executive positions against the peer group data as described above

**Table of Contents**

consistent with our objective to pay at the median of market for target performance. Because we replaced most of our existing senior management in conjunction with our emergence from bankruptcy, we negotiated base salaries ranging from the 50<sup>th</sup> to the 75<sup>th</sup> percentile of market in order to attract the caliber of talent needed to execute a demanding business plan.

As a company, our base salaries generally approximate the median of the market and may be adjusted based on individual performance. Salaries are reviewed at least annually in order to assess market conditions and to maintain competitive market levels of compensation. We think that our base salaries are set at competitive rates to attract the necessary talent. In addition, we provide a pool for annual merit raises of approximately 3.5% of our total annual base salary expense, which is available for all employees.

The 2006 base salary for each of our named executive officers is set forth in the *2006 Summary Compensation Table* below. In November 2006, the Compensation Committee approved an increase in Mr. von Blasingame's annual base salary from \$285,000 to \$340,000. This adjustment was made to align his salary with market pay for management of a business of the size and complexity of Mirant's Caribbean business.

Each of our named executive officers other than Mr. von Blasingame received a 2007 annual salary increase ranging from 4% to 10%. See *Employment Agreements* in the narrative discussion below *Grants of Plan-Based Awards in 2006* for the 2007 salaries of our named executive officers.

***Performance-Based Compensation******Short-Term Incentives***

Pay for performance is a key feature of our compensation program. We have established a broad-based short-term cash incentive program, in which all of our named executive officers participate. This program is designed to award participants for our achievement of key economic and strategic goals that are established annually by the Compensation Committee.

Under our short-term incentive plan, annual cash bonuses are awarded taking into account an individual's target bonus percentage (a percentage of such participant's base salary), the Company's performance against established business and financial goals (referred to as the corporate payout factor), and individual performance. The Compensation Committee approves the short-term incentive plan goals at the beginning of each calendar year based on management's recommendations. In 2006, two-thirds of the corporate payout factor was dependent on achievement of a range of targeted Adjusted EBITDA (earnings before interest, taxes, depreciation and amortization). The remaining one-third was dependent upon the achievement of other operational and strategic goals and metrics.

We think that Adjusted EBITDA is an appropriate financial measure for the Company and provides insight into the overall health of our earnings. The level of Adjusted EBITDA necessary to earn 50%, 100% and 200% of the target payout under the short-term incentive plan was set at the beginning of 2006 taking into consideration our projected Adjusted EBITDA under our 2006 operating plan. Bonus amounts between the threshold and target and between the target and maximum are based on interpolated performance between the specified levels. The target performance goals are set at levels deemed by the Compensation Committee, with input from management, to be achievable with strong performance by all employees. Generally, the Committee sets the minimum, target and maximum levels such that the relative difficulty of achieving the target level is consistent from year to year.

The Compensation Committee is responsible for assessing our achievement of the operational and strategic goals and metrics under the short-term incentive plan, and it makes award decisions at a meeting following the completion of the annual audit process. For 2006, the corporate performance was 123% of target and was used to determine the available pool for short-term incentive payments. The Adjusted EBITDA used for purposes of the short-term incentive calculation was the same as reported in the Company's year-end earnings release. Bonus payments are allocated to employees from this pool and may be adjusted for each employee based on his or her individual performance. See the *2006 Summary Compensation Table* and the *Grants of Plan Based Awards Table*

**Table of Contents**

below for the target and actual amounts earned by our named executive officers under the short-term incentive plan. Our 2007 short-term incentive goals are based on the same structure utilized in 2006, with an Adjusted EBITDA goal representing two-thirds of the corporate payout factor and operational and strategic metrics comprising the other one-third.

*Long-Term Incentives*

We utilized stock options and restricted stock units for our 2006 long-term incentive grants to executives and directors, with the grants composed of two-thirds stock options and one-third restricted stock units. For the 2007 annual long-term incentive grants, the Compensation Committee decided to shift the allocation to two-thirds restricted stock units and one-third stock options. The Committee intends to retain this allocation for future grants. In determining to use such vehicles and in determining the relative allocation, the Committee weighed the effectiveness and the perceived value of such grants by participants against their associated compensation expense. Its assessment with respect to the grants for 2007 and beyond was that the long-term incentive grants would provide an important retention incentive for a critical component of the workforce. In addition, our awards vest over three years, providing an additional retention incentive.

All long-term incentive grants are issued under our 2005 Omnibus Incentive Compensation Plan. In light of our recent emergence from bankruptcy and the potential volatility of our stock price, the Compensation Committee made the 2006 annual long-term incentive grant in two tranches, one on January 13, 2006, and one on February 17, 2006. Long-term incentive grants also may be made to new employees when they commence employment with the Company. In determining the eligibility for and size of grants, the Company used the 50<sup>th</sup> percentile market equivalent economic value for employees at companies in our comparator group where long-term incentives are a prevalent component of pay. A small group of management-level employees received a long-term incentive grant that was in excess of the market equivalent. This increased grant was intended to attract and retain a talented management team and to further align the compensation of these individuals with the interests of our stockholders, in addition to motivating and rewarding long-term performance. The 2006 long-term incentive grants for our named executive officers were set out in their employment agreements with the Company.

Both the options and restricted stock units vest ratably over three years unless otherwise stipulated in an employment agreement. As described under *Employment Agreements* in the narrative description below *Grants of Plan-Based Awards in 2006*, certain of our executives, including all named executive officers, have employment agreements that provide that their 2006 equity grant vests ratably 6, 12, 24 and 36 months after the bankruptcy emergence date of January 3, 2006, and that all restricted stock units are deferred until employment terminates. During 2006, the equivalent of approximately 4.7 million shares were granted to approximately 265 employees. See the *Grants of Plan-Based Equity Awards in 2006* table and *Outstanding Equity Grants at Fiscal Year End* table below for information on option and restricted stock unit grants to our named executive officers in 2006.

*Special Equity Grants*

In conjunction with the implementation of the 2006 Special Bonus Plan described above under *Review of Compensation Program in 2006*, the Compensation Committee also approved special equity grants to our named executive officers under the Omnibus Incentive Compensation Plan with the same conditions to vesting as awards under the 2006 Special Bonus Plan. The equity grants are sized as a multiple of three times the executive's base salary and are intended to reward our named executive officers for successful completion of our planned business and asset sales. For each of our named executive officers, the equity grants are conditioned upon (1) the achievement of an established threshold value from the planned sales of our Philippine and Caribbean businesses and certain U.S. natural gas-fired assets; and (2) the completion of the planned sale of our Philippines business and receipt of 65% of the threshold values from the planned sales of the Caribbean business and the U.S. natural gas-fired assets. Mr. von Blasingame's equity grant would also vest if the Company fails to offer him a position at a comparable level of compensation after the planned sale of the Company's Caribbean assets. If the above conditions are met, the equity grants will be made on or about June 2008, but delivery will be deferred until employment

**Table of Contents**

terminates. The special equity grant amounts for each named executive officer are set forth in the table entitled *Grants of Plan-Based Awards in 2006* below.

***Benefits***

Company benefits available to all of our employees, including our named executive officers, include health and welfare, dental, prescription drugs, paid vacation, life insurance, accidental death and dismemberment, short term disability and long term disability. All employees, including our named executive officers, also are entitled to participate in our qualified 401(k) program, pursuant to which we match 75% of the first 6% contributed. We also provide for a 3% quarterly fixed contribution and an annual discretionary profit sharing contribution to all employees who are not accruing a defined benefit pension or who are not subject to a collective bargaining agreement, based on our performance against our short-term incentive goals, of up to 7% of base salary and short-term incentive.

Senior executives participate in a nonqualified supplemental benefit plan. The supplemental benefit plan is intended to compensate for IRS limitations on compensation for company matching and profit sharing contributions to a qualified 401(k) plan. The Compensation Committee believes that this plan is market-competitive.

The recently adopted nonqualified deferred compensation plan allows senior executives to defer certain amounts of base salary and short-term incentive compensation and is described in more detail above under *Review of Compensation Programs in 2006*.

***Perquisites***

We have a perquisite policy that provides an allowance to our officers who earn over a certain threshold amount. The allowance amounts are pre-tax and are tiered according to salary. The allowances range from \$9,000 to \$21,000 annually and are fully taxable to the executives. The allowances are intended to compensate executives for income tax preparation and financial and estate planning. We also provide executive physicals to these officers. We believe these perquisite levels are competitive in the market.

Relocation benefits also were provided in 2006 to certain executives and their families in conjunction with their moves to the Company's headquarters in Atlanta, Georgia. All named executive officers commenced employment with the Company between October 2005 and January 2006 and were required to relocate as a result. See the *2006 Summary Compensation Table* below for perquisite amounts received by each of our named executive officers.

***Employment Agreements***

Each of our named executive officers has an employment agreement with the Company that is described in the narrative following the table below entitled *Grants of Plan-Based Awards in 2006*. Each of these agreements was approved by the Compensation Committee. We utilized employment agreements to attract our named executive officers because they were being hired while we were still in bankruptcy. The agreements were necessary to provide competitive benefits to these executives, such as severance and change-in-control protection, that had been curtailed during our bankruptcy.

**Post-Termination Compensation**

The Compensation Committee determined the post-termination benefits for our named executive officers based on a market study of prevalent program designs in our comparator group and in our industry and their relation to our compensation philosophy and program objectives.

***Severance and Change in Control Plans***

All of our named executive officers have employment agreements that provide specified change in control and severance benefits. These benefits are discussed below in *Employment Agreements* in the narrative discussion below the *2006 Grants of Plan-Based Awards Table*. The Compensation Committee adopted new severance and change in

**Table of Contents**

control plans in 2006 that cover certain senior executives and certain other employees not covered by employment agreements. They were adopted because of the prevalence of such programs in the market and their necessity in recruiting and retaining executive talent. The Compensation Committee believes the terms of the arrangements are competitive. Management conducted a market review of comparable plans with the assistance of the compensation consultant, and the Compensation Committee approved each plan. The Committee anticipates reviewing the plans every two to three years.

The Change-in-Control Severance Plan provides for the payment of a specified level of benefits to employees at the level of a director with a base salary of greater than \$175,000 in the event that we undergo a change in control and the covered employee is not offered continuing employment, referred to as a double trigger. Directors receive the equivalent of one year's base salary and target short-term incentive; Vice Presidents receive the equivalent of two year's base salary and target short-term incentive; and Senior Vice Presidents receive the equivalent of three year's base salary and target short-term incentive.

Our Omnibus Incentive Compensation Plan separately includes change in control provisions affecting long-term incentives payable to our named executive officers and other employees. Under the Omnibus Incentive Compensation Plan, a change in control alone, referred to as a single trigger, normally will result in accelerated vesting of unvested long-term incentives if they are not replaced by the new controlling organization. See *Potential Payments Upon Termination* below for a further discussion of amounts payable to our named executive officers upon termination due to a change in control of the Company.

The Severance Pay Plan provides for the payment of severance benefits to any covered employee who is severed, whether or not in connection with a change in control.

*Restrictive Covenants*

All of our employees enter into confidentiality and intellectual property agreements, and any executive under an employment agreement is subject to non-solicitation, non-disparagement and non-compete provisions.

**Impact of Regulatory Requirements**

Several regulatory requirements have an impact on certain of our compensation decisions. Section 162(m) of the Internal Revenue Code of 1986, as amended, generally denies a publicly traded company a federal income tax deduction for compensation in excess of \$1 million paid to certain of its executive officers unless the amount of such excess is payable based solely upon the attainment of objective performance criteria. We have undertaken to qualify substantial components of our incentive compensation to executive officers for the performance exception to non-deductibility. However, in appropriate circumstances, it may be necessary or appropriate to pay compensation or make special incentive or retention awards that do not meet the performance-based exception and therefore may not be deductible under Section 162(m). In 2006, \$22,500 was not deductible under the provisions of Section 162(m). In October 2004, the American Jobs Creation Act of 2004 was signed into law, changing the tax rules applicable to nonqualified deferred compensation arrangements. We structured our deferred compensation arrangements discussed above to comply with the provisions of this Act.

We account for stock-based compensation under SFAS No. 123R, which requires companies to recognize in the income statement the grant-date fair value of stock options and other equity-based compensation issued to employees. We use the Black-Scholes option-pricing model to measure the grant-date fair value of our stock options. All of the stock-based awards granted in 2006 qualified for equity accounting treatment under SFAS No. 123R.

**Conclusion**

In 2006, the Compensation Committee reviewed the amounts payable under each individual element of compensation and the aggregate compensation for each Senior Vice President and above, including all named

**Table of Contents**

executive officers. In conducting this review, the Committee examined tally sheets outlining the comprehensive compensation for each officer, including long term-incentive grants and potential payouts under various termination scenarios, including a change of control. Based on such review and discussions with the compensation consultant, the Committee has concluded that the compensation for these officers is reasonable and appropriate and accurately reflects our compensation philosophy and objectives.

In addition to reviewing all elements of total compensation in 2006 for our named executive officers, the Compensation Committee and compensation consultant have reviewed the overall design of the Company's compensation programs. The Committee has concluded that our compensation program is appropriate for a company of our size, performance and industry.

**Compensation Committee Report**

We have reviewed and discussed with management this Compensation Discussion and Analysis included in the Company's 2007 Schedule 14A Proxy Statement, filed pursuant to Section 14(a) of the Securities Exchange Act of 1934. Based on these reviews and discussions, we recommended to the Board of Directors that the Compensation Discussion and Analysis be included in the Proxy Statement.

**Potential Payments Upon Termination**

Each of our named executive officers has an employment agreement that provides for certain severance payments in the event his employment is terminated without good cause, or due to death, disability or a change in control. The agreements have three-year terms and continue through late 2008 or early 2009, depending on the individual named executive officer. After the three year term, the agreements are to be automatically extended in one-year increments unless we give prior notice of termination.

Under the agreements, the executives receive severance payments in the event of termination without cause, non-renewal of their contract on competitive terms, or termination by the executive for good reason. These severance payments are a combination of a multiple of the executive's annual salary and a multiple of his target short-term incentive in the year in which his employment is terminated. A description of the payout multiples for our named executive officers is included under *Employment Agreements* above. In addition, the named executive officer will receive continued coverage for 24 months under the retirement, life insurance, long-term disability, medical, dental and other group health benefits and plans in effect at the time of termination.

Severance payments upon death or disability also are set out in the individual employment agreements and the agreements generally provide for a lump sum payment of target annual bonus prorated for the number of days during the year that the executive was employed by the Company during the year.

The agreements also provide that named executive officers could be entitled to certain severance benefits following a change in control of the Company. If, for up to two years following a change in control, the named executive officer is terminated for any reason, other than for disability or for cause, or if such executive officer terminates his or her employment for good reason (as defined in the agreements), then the named executive officer is entitled to a severance payment that will be equal to the sum of (i) 36 months of the named executive officer's monthly base salary and (ii) the higher of (a) three times the last full-year's annual incentive payment or (b) three times the target annual incentive payment for the year in which termination occurs. In addition to the cash severance payment, the executives also would receive continuation of retirement, life insurance, long-term disability, medical, dental, and other group health benefits and plans in effect at termination. The severance generally would be paid in the form of a lump sum cash payment. In addition, in accordance with the terms of the award agreements for each of the named executive officers, unvested stock options and unvested restricted stock units accelerate, vest, and become exercisable if they are not replaced upon the change in control.

Under the employment agreements, a change in control would include any of the following events:

any person, as defined in the Securities Exchange Act of 1934, acquires 50 percent or more of our voting securities;

a majority of our Board of Directors is replaced by a two-thirds vote ;

consummation of a reorganization, merger, consolidation, sale or other disposition with more than a 50% beneficial ownership change; or

shareholders approve certain mergers, or a liquidation or sale of our assets.

In the event that any payments made in connection with a change in control would be subjected to the excise tax imposed by Section 4999 of the Internal Revenue Code, we will gross up, on an after-tax basis, the named executive officer's compensation for all federal, state and local income and excise taxes and any penalties and interest, but the gross-up is capped at \$7 million for the Chief Executive Officer and at \$2 million for all other named executive officers.

The table below sets forth potential benefits that each named executive officer would be entitled to receive upon termination of employment in the situations outlined above. These disclosed amounts are estimates only and do not

**Table of Contents**

necessarily reflect the actual amounts that would be paid to the named executive officers, which would only be known at the time that they become eligible for payment. The amounts shown in the table are the amounts that could be payable under existing plans and arrangements if the named executive officer's employment had terminated at December 31, 2006, including a gross-up for certain taxes in the event that any payments made in connection with a change in control would be subject to the excise tax imposed by Section 4999 of the Internal Revenue Code. Values for stock option and restricted stock unit grants are based on our closing price of \$31.57 on December 31, 2006.

**Table of Contents****2006 Director Compensation Table**

In May 2006, the Compensation Committee adopted the 2006 Non-Employee Directors Compensation Plan that sets forth the annual and supplemental retainers, meeting fees and equity compensation payable to the non-employee directors. Pursuant to the plan, our non-management directors each receive an annual retainer of \$60,000 and are paid \$1,500 for each Board and committee meeting that they attend. The following annual supplemental retainers also are paid as applicable: \$20,000 for the Audit Committee Chair; \$10,000 for each of the Compensation and Nominating and Governance Committee Chairs, and \$20,000 for the lead independent director. The Company reimburses directors for their travel and related expenses in connection with attending Board meetings and Board-related activities, as well as for continuing education programs related to their directorships.
