Item 2.05 Costs Associated with Exit or Disposal Activities.

On November 23, 2004, Engelhard Corporation committed to a plan to reduce costs and improve operating efficiency at its Middle Georgia Operations, which manufacture kaolin-based products. The planned actions are consistent with the company's ongoing efforts to simplify processing and manage product mix to maximize profitability and growth opportunities. The plan calls for consolidation of certain manufacturing operations resulting in a reduced number of employees. The company expects to record a severance charge of approximately \$1.5 million in the fourth quarter of 2004. The severance will be paid out in cash over the next 12 months. Employees eligible for severance under this plan were notified December 1, 2004, and will be severed by December 31, 2004.

Item 2.06 Material Impairments.

As a result of the decision to consolidate certain manufacturing operations in order to improve efficiency, as described under Item 2.05 above, the company will incur an impairment charge in the fourth quarter of 2004 for idled equipment. This charge is estimated to range between \$5.0 million and \$7.0 million and will be non-cash. Both amounts will be included in "Operating Earnings" in the "Special Charge" line of the "Consolidated Statement of Earnings."
