It is expected that the solicitation will be primarily by mail, but proxies may also be solicited personally, by email, by facsimile or by telephone by officers and employees of the Corporation without additional compensation therefor. If one or more shareholders files a proxy statement or solicits proxies in opposition to the recommendations of the board of directors of the Corporation (the “Board of Directors” or the “Board”), the Corporation may engage outside solicitors to assist with its solicitation of proxies. Details regarding any such engagement would be set forth in a supplement to this Information Circular.

The cost of solicitation by management will be borne directly by the Corporation. Arrangements will be made with brokerage firms and other custodians, nominees and fiduciaries for the forwarding of solicitation materials to the beneficial owners of the Common Shares of the Corporation (“Common Shares”) held by such persons, and the Corporation will reimburse such brokerage firms, custodians, nominees and fiduciaries for the reasonable out-of-pocket expenses incurred by them in connection therewith.

At the time of printing this Information Circular, management of the Corporation knows of no such amendments, variations or other matters to come before the Meeting.

Each shareholder is entitled to one vote for each Common Share registered in his name as it appears on the list.

One-third of the outstanding Common Shares entitled to vote, represented in person or by properly executed proxy, is required for a quorum at the Meeting. Abstentions will be counted as "represented" for purposes of determining the presence or absence of a quorum. Complete broker non-votes, which are indications by a broker that it does not have discretionary authority to vote on any of the matters to be considered at the Meeting, will not be counted as "represented" for the purpose of determining the presence or absence of a quorum.

To the knowledge of the directors and executive officers of the Corporation, as of March 31, 2007, no person beneficially owns, directly or indirectly, or exercises control or direction over more than 10% of the outstanding Common Shares.

Compensation, Nominating and Governance Committee Interlocks and Insider Participation

The members of the Compensation, Nominating and Governance Committee are Pierre Lortie (Chair), James Golla and Michel Bazinet. Prior to June 1, 2006, the members of the Compensation, Nominating and Governance Committee were George Hartman (Chair), James Golla and David King. None of Messrs. Compensation Discussion & Analysis

Pursuant to Item 402(b) of Regulations S-K, promulgated under the United States Securities Act of 1933, as amended (the “Securities Act”), the following discussion is meant to provide an overview of the material elements of the Corporation’s compensation policy (the “Compensation Policy”). The following discussion is meant to be a principle-based discussion of the Corporation’s compensation policies and provide context to the tables that follow. Specific reference to disclosures in the Compensation Tables will be discussed in narrative descriptions following the respective Compensation Tables.

Compensation Philosophy

The objectives of our executive officer compensation policy are to attract and retain talented and dedicated executives, to tie compensation to the achievement of specified short-term and long-term performance objectives, and to align executives’ incentives with the creation of shareholder value. The Compensation, Nominating and Governance Committee approves and annually evaluates the Corporation’s compensation policies applicable to, and the performance of, the Corporation’s executive officers, including the Chief Executive Officer, Chief Financial Officer and the other executive officers identified in the Summary Compensation Table on page 19 (referred to as the “named executive officers”).

The following objectives guide compensation decisions:

- Provide a competitive total compensation package that enables the Corporation to attract and retain key executive talent;
- Align key elements of compensation with the Corporation’s annual and long-term business strategies & objectives; and
- Provide a mix of base compensation and performance-based compensation that directly links executive rewards to the performance of the Corporation and shareholder return.

Elements of Executive Compensation

The principal components of compensation for the Corporation’s named executive officers are as follows:

- Base salary;
- Annual incentive bonus;
- Long-term equity-based incentives, primarily stock options; and
- Discretionary bonus.

Named executive officers are entitled to benefits generally available to all full-time salaried employees of the Corporation. These benefits include up to 5 weeks per-year of paid time off for medical and vacation leave, subsidized group health plan coverage offered to all salaried employees of the Corporation, and eligibility to participate in the Corporation’s 401(k) Profit Sharing Plan (the “401(k) Plan”), matching contributions under the 401(k) Plan in an amount

up to the greater of 50% of the first \$2,500 contributed or 3% of the employee's base salary. As explained in "Termination and Change of Control Agreements" below, certain named executive officers may be entitled to severance payments in connection with a change of control or termination of their employment. Other than as described above, the named executive officers are not provided with special benefits or perquisites such as company cars, enhanced medical plans or dental plans.

Determination of Compensation

In order to evaluate the Corporation's competitiveness and appropriateness of the Corporation's total compensation, and mix of compensation, for executive officers, the Compensation, Nominating and Governance Committee reviews data on the base, annual incentive bonus and equity-based incentive compensation for various executive positions, as well as the mix of compensation components, of executive officers of a benchmark group of companies (about 240) that comprise the chemicals and biotech/biopharma business sectors of reporting public companies with annual revenues of less than \$100-million.

In addition, the Compensation, Nominating and Governance Committee receives a report on the base, annual incentive bonus and equity-based incentive compensation for various executive positions at the following selected 24 nanotechnology or biopharma companies:

Accelrys, Inc.
Advanced Battery Technologies, Inc.
Arrowhead Research Corp.
Biophan Technologies, Inc.
Biosante Pharmaceuticals, Inc.
Cambridge Display Technology, Inc.
FEI Co.
Harris & Harris Group, Inc.
Immunicon Corp.
JMAR Technologies, Inc.
Lumera Corp.
Luna Innovations, Inc.
Nano Chemical Systems Holdings, Inc.
Nano Proprietary, Inc.
Nanogen, Inc.
Nanometrics, Inc.
Nanophase Technologies Corp.
NVE Corp.
Spectrum Pharmaceuticals, Inc.
SYMX Technologies, Inc.
Tegal Corp.
US Global Nanospace, Inc.
VEECO Instruments, Inc.

The Compensation, Nominating and Governance Committee may add or delete from this select group from year to year. This group is used as a second source of benchmark information. Equilar, an independent company, produces all compensation reports.

In addition to the benchmark company information, in determining the amount of and mix of compensation, the Compensation, Nominating and Governance Committee considers evaluations of the Chief Executive Officer by each of the directors the Corporation, the recommendations of the Chief Executive Officer and Vice President of Human Resources with respect to officers other than the Chief Executive Officer, the performance of each executive officer against pre-determined business goals and objectives and the potential role of the executive in the strategic plan of the Corporation. Subject to adjustment upward or downward based upon the various evaluations, the Compensation, Nominating and Governance Committee generally targets base compensation and equity-based incentive awards near the median of the benchmark group and targets maximum annual incentive bonus near the 75th percentile of the benchmark group.

Mix of Compensation

The Compensation, Nominating and Governance Committee believes that a significant percentage of the annual compensation of the named executive officers should be at-risk. During 2006, between approximately 38% and 44% of the named executive officers' potential annual compensation was dependent upon the achievement of individual and corporate goals. In addition, stock options granted to the Corporation's named executive officers for retention and incentive purposes generally vest over a period of three years.

The percentage of compensation at risk increases as the level of position increases, with the top figures in each of the ranges set forth above being that of the Corporation's Chief Executive Officer. This provides additional upside potential and downside risk for senior positions, recognizing that these roles have greater influence on the Corporation's performance.

Base Salary

Base salaries for the named executive officers are established based on the scope of their responsibilities, their skills and their historical and potential contributions to the Corporation, as well as the compensation paid by benchmarked companies for similar positions. Generally, base salaries are targeted near the median of the range of salaries for executives in similar positions with similar responsibilities at benchmark companies, in line with our compensation philosophy. Base salaries are reviewed annually, and adjusted from time to time to realign salaries with market levels after taking into account individual responsibilities, performance and experience.

Annual Incentive Bonus

The annual incentive bonus is intended to compensate executives for achieving corporate goals and individual performance objectives. A portion, usually 50%, of each named executive officer's annual incentive bonus is contingent upon the Corporation achieving pre-determined financial and operational goals. In addition, a portion, usually 50%, of each named executive officer's annual incentive bonus is contingent upon the achievement of pre-determined objectives within the scope of influence of the particular executive. Examples include strategic factors such as cash flow, product sales, new product & process developments, net loss and stock price.

Decisions with respect to annual incentive bonus are made shortly after the end of each fiscal year. At the beginning of each year, the Compensation, Nominating and Governance Committee sets annual performance goals, a target and maximum incentive bonus amount and a formula for determining the amount, if any, of the bonus each executive officer is entitled to receive. Annual incentive bonuses are paid 60% cash and 40% in stock options (with the value of the stock options being determined using the Black-Scholes formula). The Compensation, Nominating and Governance Committee reserves the right to award annual incentive bonuses above, and below, target amounts as it deems appropriate.

Targets and Results for 2006. During 2006, each named executive officer was eligible for target annual incentive bonuses ranging from 60% to 80% of his base salary, depending on his position. Of these amounts, 50% was tied to the achievement of corporate goals, specifically a revenue and net loss target in line with the Corporation's board-approved budget, and 50% was tied to the performance of individual goals. The Compensation, Nominating and Governance Committee reserve the discretion to award, or to deny, annual incentive bonuses whether or not performance targets were achieved, as it deems appropriate.

In 2006, the Corporation reached 79.3% of the revenue goal and 75% of the net loss goal. As a result, named executive officers were not eligible to, and did not, receive the 50% of the annual incentive bonus tied to achievement of corporate goals.

In 2006, three of the four named executive officers achieved or exceeded all individual goals. As a result, each named executive officer was eligible to receive, and was paid, the 50% of the annual incentive bonus tied to achievement of individual goals.

Based upon having achieved his individual goals in 2006, Alan Gotcher, the Corporations' Chief Executive Officer, received an annual incentive bonus of \$86,400 in cash and options to purchase an aggregate of 32,224 Common Shares at an exercise of \$2.63 per share (with a deemed value of \$55,446). The options were granted on January 15, 2007, have a 10-year term and vest immediately. The option exercise price was equal to the fair market value of the underlying Common Shares on the date of grant.

Based upon having achieved their individual goals in 2006, the remaining four named executive officers received a combined annual incentive bonus of \$65,400 in cash and options to purchase an aggregate of 25,603 Common Shares at an exercise of \$2.63 per share (with a deemed value of \$41,912). The options were granted on January 15, 2007, have a 10-year term and vest immediately.

Long term Equity-Based Incentives

The Corporation's 2005 Stock Incentive Plan (the "2005 Stock Plan") was adopted at the Corporation's Annual Meeting of Shareholders in May 2005. Under the 2005 Stock Plan, the Corporation is authorized to issue equity-based awards, including stock options, stock bonuses, restricted stock, stock appreciation rights, and performance-based awards, with respect to up to 3,000,000 Common Shares. The Compensation, Nominating and Governance Committee and the Board of Directors have joint authority to grant awards under the 2005 Stock Plan.

The Corporation had previously authorized its 1996 Stock Option Plan and 1998 Stock Option Plan, under which an aggregate of 1,915,600 awards continue to be outstanding as of March 15, 2007; however, awards can no longer be granted under such plans.

The Corporation's long-term equity-based incentive program is focused on rewarding performance that enhances shareholder value. The program involves the periodic grant of options to purchase Common Shares in order to provide executive officers with the opportunity to purchase an equity interest in the Corporation and to share in the appreciation of the value of the Corporation's Common Shares.

The program currently consists of two components. First, as explained above, 40% of the annual incentive bonus for each executive officer is paid in the form of a stock option. The value of each option is determined using the Black-Scholes formula, and the options have an exercise price equal to the market price on the date of grant, a 10-year term and vest immediately upon grant. Discretionary bonuses may also be paid through the grant of stock options.

Second, the Compensation, Nominating and Governance Committee periodically considers whether or not to grant additional stock options in order to maintain the overall competitiveness of the Corporation's compensation package for each executive officer and to ensure that executives, particularly executives whose other stock options have vested and or been exercised, have an incentive to remain with the Corporation long term and to increase shareholder value. Factors weighed in determining whether to make, and the amount of, these grants include the above-described review of benchmark compensation data and assessment of past performance, retention considerations, information regarding each named executive officer's existing equity and stock option ownership, potential shareholder dilution and the expense to the Corporation pursuant to Standard of Financial Accounting Standards No. 123(R), Share-Based Payment ("FAS No. 123(R)"). Such options generally have an exercise price equal to the market price on the date of grant, a 10-year term and generally vest over a three-year term.

In addition, from time to time stock option grants are made to newly hired employees based on their level of responsibility and competitive practices.

Retention Grants. In addition to the stock options awarded to him as part of his annual incentive bonus, Alan Gotcher was awarded a grant of options to purchase 200,000 Common Shares at an exercise price of \$2.63 per share on January 15, 2007. The options have a 10-year term and vest 33% immediately, 33% on January 15, 2008, and 33% on January 15, 2009. This retention grant was determined to be in line with median grants to CEO's in benchmarked companies.

In addition to the stock options awarded to them as part of their annual incentive bonuses, the remaining named executive officers were granted retention options to purchase an aggregate of 245,500 Common Shares at an exercise price of \$2.63 per share on January 15, 2007. The options have a 10-year term and vest 33% immediately, 33% on January 15, 2008, and 33% on January 15, 2009.

Discretionary Bonus

The Compensation and Nominations Committee may also make discretionary bonuses from time to time if it determines, after considering the total base salary, annual incentive bonus and equity-based compensation to the executive, that the total compensation otherwise earned by the executive underrepresented the value or contribution of the executive during the year. A discretionary bonus may also be considered if necessary for retention or other purposes.

Results for 2006. During 2006, the Compensation and Nominations Committee determined to grant Alan Gotcher a discretionary bonus in the form of options to purchase 64,448 Common Shares at an exercise price of \$2.63 per share (with a deemed value of \$110,892 based upon the Black-Scholes formula). The options were granted on January 15, 2007, have a 10-year term and vest immediately. The option exercise price is equal to the fair market value of a Common Share on the grant date.

No other named executive officers received a discretionary bonus.

Compensation Adjustments

The Corporation may increase or decrease an executive's overall compensation at any time during any fiscal year after considering several factors, including level and scope of responsibilities, contribution to overall corporate performance and achievement of personal goals and objectives.

Termination and Change-of-Control Agreements

The employment agreements of the following named executive officers provide for termination and change of control benefits as follows:

Under the employment agreement of our Chief Executive Officer, Dr. Alan Gotcher, if Dr. Gotcher's employment is terminated by the Corporation without cause or by Dr. Gotcher with good reason during the term, which expires on February 17, 2009, he is entitled to receive his base salary, continuing group plan health coverage and his annual incentive bonus, to the extent earned, for a period of 12 months from the date of termination. If Dr. Gotcher's employment is terminated by the Corporation without cause subsequent to a Change of Control during the term, he is entitled to receive his base salary and continuing group health plan coverage for a period of 24 months from the date of termination. A "Change of Control" includes (a) any capital reorganization, reclassification of the capital stock of the Corporation, consolidation or merger of the Corporation with another corporation in which the Corporation is not the survivor (other than a transaction effective solely for the purpose of changing the jurisdiction of incorporation), (b) the sale, transfer or other disposition of all or substantially all of the Corporation's assets to another entity, or (c) the acquisition by a person or group of more than 40% of the Common Shares of the Corporation. Dr. Gotcher's current base salary is \$360,000 per year, and his target bonus for 2007 is \$288,000.

Under the employment agreement of our Chief Financial Officer, Edward Dickinson, if Mr. Dickinson's employment is terminated by the Corporation without cause or by Mr. Dickinson with good reason during the term, which expires on February 17, 2008, he is entitled to receive his base salary and continuing group health plan coverage for a period of 12 months from the date of termination. If Mr. Dickinson's employment is terminated by the Corporation without cause subsequent to a Change of Control during the term, he is entitled to receive his base salary and continuing group health plan coverage for a period of 18 months from the date of termination. Mr. Dickinson's current base salary is \$190,000 per year.

Under the employment agreement of our Chief Technology Officer, Dr. Bruce Sabacky, if Dr. Sabacky's employment is terminated by the Corporation without cause or by Dr. Sabacky with good reason during the term, which expires on June 1, 2008, he is entitled to receive his base salary and continuing group health plan coverage for a period of 12 months from the date of termination. If Dr. Sabacky's employment is terminated by the Corporation without cause subsequent to a Change of Control during the term, he is entitled to receive his base salary and continuing group health plan coverage for a period of 18 months from the date of termination. Dr. Sabacky's current base salary is \$190,000 per year.

The Compensation, Nominating, and Governance Committee believes that providing a reasonable severance arrangement tied to termination without cause is essential to attracting and retaining talented executive officers. In addition, the Compensation, Nominating and Governance Committee believes that the severance arrangements provided to certain of its named executive officers serve the best interests of the Corporation and its shareholders by ensuring that, if a hostile or friendly change of control is under consideration, its executives will feel secure enough about their post-transaction financial future that they will advise the Board of Directors about the potential transaction without consideration, or with lessened consideration, of any adverse effect of the transaction on their future compensation. The Corporation has no other severance agreements in place with other employees.

Role of Executive Officers in Determining Executive Pay

The Compensation Committee makes all decisions with respect to base compensation, annual incentive compensation and the award of stock options to the executive officers of the Corporation, including all named executive officers.

At the end of each fiscal year, the Corporation's Vice President of Human Resources and Chief Executive Officer are responsible for evaluating the performance of each named executive officer (and other officers) against corporate and individual performance objectives and for submitting a report to the Compensation Committee detailing the results of their evaluations. In connection with this report, each of the Vice President of Human Resources and Chief Executive Officer makes recommendations to the Compensation Committee with respect to compensation matters related to the prior year, including employee-specific recommendations but not with respect to himself. In addition, each of the two officers makes recommendations to the Compensation Committee with respect to compensation matters related to the upcoming year, including employee-specific recommendations (but not with respect to himself) and strategic and design recommendations. The Compensation, Nominating and Governance Committee considers these recommendations, and the report of these officers, among other factors by the Compensation Committee as it makes prior-year and coming-year compensation decisions.

Tax and Accounting Considerations

Accounting Treatment

The Corporation adopted Standard of Financial Accounting Standards No. 123(R), Share-Based Payment, which requires companies to expense the costs of stock-based compensation in their financial statements. As such, the Corporation began recording stock-based compensation expense in the income statement in 2006. The fair value of each award is estimated on the date of grant, using the Black-Scholes option-pricing model. Once the fair value of each award is determined, it is expensed in the income statement over the vesting period.

Deductibility of Executive Compensation

Section 162(m) of the United States Internal Revenue Code of 1986, as amended (the "Code"), imposes a \$1 million annual limit on the amount that a public company may deduct for compensation paid during a tax year to the company's Chief Executive Officer or to any of the company's four other most highly compensated executive officers who are still employed at the end of the tax year. The limit does not apply to compensation that meets the requirements of Code Section 162(m) for "qualified performance-based" compensation (i.e., compensation paid only if the executive meets pre-established, objective goals based upon performance criteria approved by the company's shareholders).

The Compensation, Nominating and Governance Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Code. In certain situations, the Compensation, Nominating and Governance Committee may approve compensation that will not meet the requirements of Code Section 162(m) in order to ensure competitive levels of total compensation for its executive officers. Stock option grants in 2006 were intended to constitute "qualified performance-based compensation" under Section 162(m). The Corporation's 2006 annual performance bonuses, however, were not "qualified performance-based compensation." In 2006, none of the named executive officers received base pay, annual bonus and other compensation in an amount in excess of the \$1 million deduction limit.

(1) Amounts reflect bonus amounts calculated based on the 2006 annual incentive bonus plan as approved by the Compensation, Nominating and Governance Committee on March 10, 2006 and an assumed grant date of March 10, 2006. The target equals the maximum since the bonus plan is capped at 100%.

(2) The number of options granted reflects the 40% portion of the annual 2005 bonus paid through the issuance of options in 2006. Since these options were associated with 2005 performance, the vesting terms were immediate. Since the service period of these options related to 2005, which is prior to the Company's adoption of FAS 123(R), no expense was booked for this option grant in the fiscal year ended December 31, 2006. The value associated with these awards was included in the disclosures presented in Note 2 in the Company's audited financial statements for the year ended December 31, 2005 included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 16, 2006. The values presented in the table above were calculated in accordance with FAS 123(R) utilizing the Black-Scholes model and a grant date of March 10, 2006.

(3) These options were issued in connection with the 2006 retention grant. As such, the vesting terms were set at 25% to vest immediately and 25% to vest over the next 3 years from date of grant. The same vesting terms applied to all retention grants issued in 2006 to other employees of the Corporation.

Audit Committee and Audit Committee Report

Audit Committee

The Audit Committee operates pursuant to a written charter adopted by the Board, a copy of which may be found on the Corporation's website under the heading "Investors" and is attached hereto as Appendix B. A copy may also be obtained free of charge by mailing a request in writing to: Secretary, Altair Nanotechnologies Inc. 204 Edison Way, Reno, Nevada 89502.

The Audit Committee is comprised solely of non-employee directors, each of whom has been determined by the Board to be independent under the requirements of the NASDAQ listing standards and National Instrument 52-110 of the Canadian Securities Administrators ("NI 52-110"). The Audit Committee is comprised of Jon Bengtson, George Hartman and Christopher Jones. If elected by the shareholders, Jon Bengtson, George Hartman and Christopher Jones are expected to be members of the Audit Committee during 2007. The Audit Committee held one meeting in person and five meetings via conference call during the fiscal year ended December 31, 2006.

The Board has determined in its business judgment that each member of the Audit Committee satisfies the requirements with respect to financial literacy set forth in NASD Rule 4350(d)(2)(A)(iv) and applicable Canadian securities laws; and the Board has determined that Jon Bengtson, the Chair of the Audit Committee, is an "audit committee financial expert" as such term is defined in Item 401(h) of Regulation S-K promulgated by the SEC, is independent under Item 7(d)(3)(iv) of Schedule 14A under the Exchange Act and is, as a result of his past employment experience in finance or accounting, requisite professional certification in accounting or other comparable experience or background, sophisticated with respect to financial matters.

The Audit Committee's responsibility is to assist the Board in its oversight of the (a) quality and integrity of the Corporation's financial reports, (b) the independence and qualifications of the Corporation's independent auditor and (c) the compliance by the Corporation with legal and regulatory requirements. Management of the Corporation has the responsibility for the Corporation's financial statements as well as the Corporation's financial reporting process, principles and internal controls. The Corporation's independent auditors are responsible for performing an audit of the Corporation's financial statements and expressing an opinion as to the conformity of such financial statements with accounting principles generally accepted in the United States of America.

Audit Committee Report

This section is not "soliciting material," is not deemed "filed" with the SEC, and is not to be incorporated by reference in any filing of the Corporation under the Securities Act or the Securities Exchange Act of 1934, each as amended, regardless of date or any other general incorporation language in such filing.

The Audit Committee has reviewed and discussed the audited financial statements of the Corporation as of and for the year ended December 31, 2006 with management and the independent auditors. The Audit Committee has discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees), as currently in effect. In addition, the Audit Committee has received the written disclosures and the letter from the independent auditors required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), as currently in effect, and it has discussed with the independent auditors their independence from the Corporation.

The Audit Committee has also considered whether the independent auditor's provision of non-audit services to the Corporation is compatible with maintaining the auditors' independence.

The members of the Audit Committee are not engaged in the accounting or auditing profession and, consequently, are not experts in matters involving auditing or accounting including in respect of auditor independence. As such, it is not the duty of the Audit Committee to plan or conduct audits or to determine that the Corporation's financial statements fairly present the Corporation's financial position and results of operation and are in accordance with generally accepted accounting principles and applicable laws and regulations. Each member of the Audit Committee is entitled to rely on (i) the integrity of those persons within the Corporation and of the professionals and experts (such as the independent auditor) from which the Audit Committee receives information, (ii) the accuracy of the financial and other information provided to the Audit Committee by such persons, professionals or experts absent actual knowledge to the contrary and (iii) representations made by management or the independent auditors as to any information technology services of the type described in Rule 2-01(c)(4)(ii) of Regulation S-X and other non audit services provided by the independent auditor to the Corporation.

Based on the reports and discussions described above, the Audit Committee recommended to the Board that the audited financial statements be included in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2006, for filing with the SEC.

Meetings of Directors and Attendance at Shareholders Meetings

During the year ended December 31, 2006, the Board held four meetings in person and two meetings via conference call. All directors attended all of the in-person meetings, with the exception of Pierre Lortie, who was unable to attend one of the meetings. All directors participated in all conference calls, with the exception of Alan Gotcher, who was unable to attend one of the meetings. In addition, the Board considered and acted on various matters throughout the year by executing four consent resolutions.

The Corporation does not have a policy with respect to the attendance of shareholder meetings by directors. All members of the Board attended the 2006 annual shareholders meeting.

Nominating Committee

The purpose of the Compensation, Nominating and Governance Committee related to nomination of directors and corporate governance matters is (i) to recommend to the Board the slate of director nominees for election to the Corporation's Board of Directors, individuals to fill vacancies occurring between annual meetings of stockholders, and individuals for nomination as members of the standing committees of the Board and (ii) to develop and recommend to the Board a set of corporate governance principles applicable to the Corporation.

In identifying nominees for directors, the Compensation, Nominating and Governance Committee takes into consideration such factors as it deems appropriate. These factors may include judgment, skill, diversity, experience with businesses and other organizations of comparable size, relationship of work experience and education to the current and proposed lines of business of the Corporation, the interplay of the candidate's experience with the experience of other Board members, the extent to which the candidate would be a desirable addition to the Board and any committees of the Board and the extent to which the candidate satisfies any objective requirements (such as residence, independence or expertise requirements) applicable to the Board or any committees of the Board. The Compensation, Nominating and Governance Committee considers candidates submitted by shareholders in accordance with the policies set forth in the most recent proxy statement delivered to shareholders and may, but is not required to, consider candidates proposed by management.

The Compensation, Nominating and Governance Committee met one time during 2006 in person or by telephone. The members of the Compensation, Nominating and Governance Committee are Pierre Lortie (Chair), James Golla and Michel Bazinet, each of whom is independent under NASDAQ's listing standards. The charter governing operations of the Compensation, Nominating and Governance Committee was initially adopted in April 2004, was updated in February 2007 and is available at the Corporation's website at www.altairnano.com under "Investors."

Shareholder Suggestions for Nominees and Communications with the Board of Directors

The Board will consider director candidates recommended by shareholders. Such recommendations should include the name, age, address, telephone number, principal occupation or employment, background and qualifications of the nominee and the name, address and telephone number of and number of Common Shares owned by the shareholder making the recommendation. It should be sent to the Secretary of the Corporation at the address first set forth above. Candidates submitted by shareholders in accordance with the policies set forth in the most recent proxy statement delivered to shareholders are considered under the same standards as nominees recommended by other persons.

Shareholders may send communications to the Board or to specified individual directors by mailing such communications to the Secretary of the Corporation at the address of the Corporation first set forth above and indicating that such communications are for the Board or specified individual directors, as appropriate. All communications received by mail are forwarded to the directors to which they are addressed unless the communications contain information substantially similar to that forwarded by the same shareholder, or an associated shareholder, within the past 90 days.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires the Corporation's officers and directors to file reports concerning their ownership of Common Shares with the SEC and to furnish the Corporation with copies of such reports. Based solely upon the Corporation's review of the reports required by Section 16 and amendments thereto furnished to the Corporation, the Corporation believes that all reports required to be filed pursuant to Section 16(a) of the Exchange Act during 2006, were filed with the SEC on a timely basis except as follows: (a) a Form 4 for David King, a Director, was due on June 5, 2006 but was filed on June 12, 2006; and (b) a Form 4/A for Pierre Lortie, a Director, was due on June 6, 2006 but was filed on June 8, 2006.

Statement of Corporate Governance Practices

National Policy 58-201 of the Canadian Securities Administrators has set out a series of guidelines for effective corporate governance (the “Guidelines”). The Guidelines address matters such as the constitution and independence of corporate boards, the functions to be performed by boards and their committees and the effectiveness and education of board members. National Instrument 58-101 (“NI 58-101”) of the Canadian Securities Administrators requires the disclosure by each listed corporation of its approach to corporate governance with reference to the Guidelines as it is recognized that the unique characteristics of individual corporations will result in varying degrees of compliance.

Set out below is a description of the Corporation's approach to corporate governance in relation to the Guidelines.

1. The Board of Directors

NI 58-101 defines an "independent director" as a director who has no direct or indirect material relationship with the corporation. A "material relationship" is in turn defined as a relationship that could, in the view of the corporation's board of directors, be reasonably expected to interfere with such member's independent judgement. The Board of Directors of the Corporation is currently comprised of eight members, a majority of whom the Board has determined are "independent directors" within the meaning of NI 58-101.

Dr. Gotcher is considered a non-independent director, as he is an officer of the Corporation. Mr. Hemphill is an Executive Vice President of The AES Corporation, an investor in the Corporation and potential business partner. Notwithstanding that Mr. Hemphill qualifies as independent according to the objective criteria under the listing standards of the NASDAQ, the Board of Directors believes that Mr. Hemphill is not independent based on a previous financing and contemplated future business transactions.

Messrs. Bazinet, Bengtson, Golla, Hartman, Jones and Lortie are considered independent directors since they are all independent of management and free from any material relationship with the Corporation. The basis for this determination is that, since the beginning of the fiscal year ended December 31, 2006, none of the independent directors have worked for the Corporation, received more than Cdn\$75,000 in annual remuneration from the Corporation, excluding fees received for serving on the board of directors or any board committee, or had material contracts with or material interests in the Corporation which could interfere with their ability to act with a view to the best interests of the Corporation.

The Board believes that it functions independently of management. To enhance its ability to act independent of management, the Board may meet in the absence of members of management and the non-independent directors or may excuse such persons from all or a portion of any meeting where a potential conflict of interest arises or where otherwise appropriate. The Board held six meetings of the independent directors in the absence of members of management and the non-independent directors during the fiscal year ended December 31, 2006. Mr. Bengtson, Chairman of the Board, generally acts as the chairman during meetings of the independent directors.

Additional information concerning meetings of the Board held in fiscal 2006 is set forth above under the heading "Meetings of the Directors and Attendance at Shareholders Meeting."

Mr. Lortie serves as chairman of the board of Lyrtech (TSX-V:LYT), and as director of Group Canam (TSX-V:CAM).

The responsibilities of the Chairman of the Board are to consult with other Board members in determining the times and duration of the Board meetings, chair all regular sessions of the Board and set the agenda for Board meetings.

2. Board Mandate

The Board has a mandate to set the strategic direction of the Corporation and to oversee its implementation by management of the Corporation. A copy of the Board mandate is set forth in Appendix A to this Information Circular and a copy may also be found on the Corporation's website, <http://www.altairnano.com>, under the heading "Investors."

3. Position Descriptions

Given the current size of the Corporation's infrastructure and the existence of only four executive officers and seven directors, the Board does not feel that it is necessary at this time to formalize position descriptions or corporate objectives for any of the Chairman of the Board, Chairmen of committees of the Board, or the President and Chief Executive Officer in order to delineate their respective responsibilities. Accordingly, the roles of the executive officers of the Corporation are delineated on the basis of the customary practice

4. Orientation and Continuing Education

Although the Corporation currently has no formal orientation and education program for new Board members, sufficient information (such as recent annual reports, prospectus, proxy solicitation materials and various other operating and budget reports) is provided to any new Board member to ensure that new directors are familiarized with the Corporation's business and the procedures of the Board. In addition, on at least an annual basis, the Board is given a presentation by an attorney or other professional regarding their role, responsibilities and obligations. In addition, new directors are encouraged to visit and meet with management on a regular basis. The Corporation also encourages continuing education of its directors and officers where appropriate in order to ensure that they have the necessary skills and knowledge to meet their respective obligations to the Corporation.

5. Ethical Business Conduct

The Board has adopted a formal code of conduct and code of ethics. See "Code of Conduct and Code of Ethics" above. In order to ensure compliance with the Code of Conduct and Code of Ethics, and to ensure that directors exercise independent judgement, the Audit Committee has assumed responsibility for approving transactions involving the Corporation and any "related party" (as that term is defined in Ontario Securities Commission Rule 61-501), except for decisions related to compensation, which are approved by the Compensation, Nominating and Governance Committee. The full Board is responsible for monitoring the Corporation's compliance with strategic planning matters, implementing a process for assessing the effectiveness of committees of directors and individual directors, and reviewing changes in or additions to compliance policies, standards, codes and programs, as well as applicable legislation.

6. Nomination of Directors

The Board has established a Compensation, Nominating and Governance Committee, which has assumed the responsibility for identifying new candidates for Board nomination. See "Nominating Committee" above.

7. Compensation

The Board has established a Compensation, Nominating and Governance Committee, which has assumed the responsibility for making recommendations to the Board on compensation related matters. See "Composition of the Compensation Committee" and "Compensation Committee Report on Executive Compensation" above. During 2005 and 2006, a compensation consultant was retained to review and make recommendations with respect to compensation for directors, officers and employees of the Corporation.

8. Committees

The Board currently has no standing committees other than the Audit Committee and the Compensation, Nominating and Governance Committee.

9. Assessments

The Board assesses, on an annual basis, the contributions of the Board as a whole, the Audit Committee and Compensation, Nominating and Governance Committee, and each of the individual directors, in order to determine whether each is functioning effectively. The Compensation, Nominating and Governance Committee has responsibility for conducting and overseeing the annual self-evaluations for the Board and reporting such results to the Board following the end of each fiscal year. The evaluations, documented in the form of questionnaires, include peer review evaluations and are based on such objective and subjective criteria, as such committee deems appropriate.

Interest of Informed Persons in Material Transactions

Except as otherwise disclosed in the Information Circular (see “Certain Relationships and Related Transactions”), no informed person of the Corporation (within the meaning of applicable Canadian securities laws), any nominee for election as a director or any associate or affiliate thereof, has or has had any material interest in any transaction since the commencement of the Corporation’s last completed financial year, or in any proposed transaction, which has materially affected or would materially affect the Corporation.

Indebtedness of Directors and Executive Officers

There is currently no outstanding indebtedness of (i) any present or former director, executive officer or employee; or (ii) any associate of any current or former director, executive officer or employee, either owing to the Corporation or any of its subsidiaries, or owing to another entity which is the subject of a guarantee, support agreement, letter of credit or similar arrangement or understanding provided by the Corporation or any of its subsidiaries.

Policies for Approval of Related Party Transactions

PROPOSAL NO. 2 — APPOINTMENT OF INDEPENDENT AUDITORS

Approval of the appointment of Perry Smith LLP as the independent auditors for the Corporation for the fiscal year ending December 31, 2007, and authorization of the Audit Committee to set their remuneration, is to be voted upon at the Meeting. Representatives of Perry Smith LLP are expected to be present at the Meeting but will not have an opportunity to make a statement. However, representatives of Perry Smith LLP will be available to respond to appropriate questions. Perry Smith LLP were first appointed auditors of the Corporation on September 26, 2005, prior

Change of Independent Auditors

Deloitte & Touche LLP, the independent auditors initially retained by the Corporation for the fiscal year ended December 31, 2005, resigned on August 18, 2005. In connection with the audit of the Corporation's financial statements for the fiscal years ended December 31, 2003 and December 31, 2004 and the subsequent interim period ended August 18, 2005, there were no disagreements with Deloitte & Touche on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedures, which disagreement if not resolved to Deloitte & Touche's satisfaction would have caused them to make reference in connection with their opinion to the subject matter of the disagreement. The audit reports of Deloitte & Touche on the consolidated financial statements of the Corporation and its subsidiaries as of and for the fiscal years ended December 31, 2003 and December 31, 2004 did not contain any adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles.

Pursuant to the recommendation of management and the approval of the Board and Audit Committee, the Corporation appointed Perry-Smith LLP as the Corporation's independent auditors for the fiscal year ended December 31, 2005. No consultations occurred between the Corporation and Perry-Smith during the two fiscal years and any interim period preceding the appointment of Perry-Smith regarding the application of accounting principles, the type of audit opinion that might be rendered or other accounting, auditing or financial reporting issues. The Corporation engaged Perry-Smith LLP effective September 26, 2005.

Audit Fees. During the fiscal years ended December 31, 2005 and 2006, the aggregate fees billed by the Corporation's independent auditors for the audit of the Corporation's financial statements for such fiscal years, for the reviews of the Corporation's interim financial statements and for the review of SEC registration statements, including the cost of auditing internal controls were \$132,012 and \$187,575, respectively.

Audit-Related Fees. During the fiscal year ended December 31, 2005, the Corporation paid audit-related fees of \$132,012 to Deloitte & Touche and to \$5,100 to Perry-Smith LLP. During the fiscal year ended December 31, 2006, the Corporation paid audit-related fees of \$162,075 to Perry-Smith LLP. These fees include any internal control audit fees.

Tax Fees. During the fiscal year ended December 31, 2005, the Corporation did not pay to Deloitte & Touche or Perry-Smith LLP any fees for tax compliance, advice and planning. During the fiscal year ended December 31, 2006, the Corporation paid fees for tax compliance, advice and planning of \$1,475.

All Other Fees. During the fiscal year ended December 31, 2005, the Corporation paid Deloitte & Touche LLP \$17,180 of consulting fees in connection with the implementation requirements of Section 404 of the Sarbanes - Oxley Act and \$10,712 in connection with other matters. During the fiscal year ended December 31, 2006, the Corporation paid Perry-Smith LLP \$35,340 in connection with other matters.

Audit Committee Pre-Approval Policy. The Audit Committee pre-approves the services provided to the Corporation by its independent auditors in connection with the audit of the Corporation's annual financial statements, the review of the Corporation's quarterly financial statements and tax preparation and consultation. Management is not permitted to engage its independent auditors for other audit or permitted non-audit services without the case-by-case pre-approval of the Audit Committee. The Audit Committee approved all the services provided to the Corporation by its independent auditors described above.

Vote Required and Recommendation of the Board of Directors

The affirmative vote of a majority of the votes cast on this proposal shall constitute approval of the appointment of Perry-Smith LLP and authorization of the Audit Committee to set their remuneration.

The Board recommends a vote FOR approval of the appointment of Perry-Smith LLP as the Corporation's independent auditors for the fiscal year ending December 31, 2007 and authorization of the Audit Committee to set their remuneration.

**PROPOSAL NO. 3 - APPROVAL OF INCREASE IN NUMBER OF AUTHORIZED SHARES
UNDER ALTAIR NANOTECHNOLOGIES INC. 2005 STOCK INCENTIVE PLAN**

In 2005, the Board and the shareholders of the Company approved the Altair Nanotechnologies Inc. 2005 Stock Plan, pursuant to which the Board and any authorized subcommittee thereof (the Board and any authorized committees, the "Committee") are authorized to grant options and other incentive awards with respect to an aggregate of 3,000,000 Common Shares and to otherwise administer the Plan. The Board believes that it is in the best interests of the Company to increase the number of authorized shares available under the 2005 Plan for the grant of options and other equity-based incentive awards by 6,000,000 shares to an aggregate of 9,000,000 Common Shares. Under rules governing the Corporation's listing on the NASDAQ SmallCap Market, the Corporation is required to seek shareholder approval for an increase in the number of authorized shares available under the 2005 Plan.

The Board believes that the availability of stock options and other equity-based incentives is an important factor in the Corporation's ability to attract and retain qualified employees and to provide an incentive for them to exert their best efforts on behalf of the Corporation. The Corporation has, and may periodically continue to, use stock options and other incentive awards to compensate consultants that provide services to the Corporation.

Description of the 2005 Stock Incentive Plan

The following summary of the 2005 Plan is qualified in its entirety by reference to the full text of the 2005 Plan, a copy of which is available from the Corporation upon request.

Shares Reserved for Issuance Under the 2005 Plan. The Corporation has reserved a total of 3,000,000 Common Shares for issuance under the 2005 Plan. The Board is currently seeking shareholder approval to increase the number of shares available under the 2005 Plan to 9,000,000 Common Shares. There are no other amendments to the 2005 Plan. The number and kind of shares available for grants under the 2005 Plan will be adjusted proportionately by the Board if the number of outstanding Common Shares is hereafter increased or decreased or changed into or exchanged for a different number or kind of shares or other securities of the Corporation by reason of any stock split, combination of shares, dividend payable in shares, recapitalization or reclassification. As of April 10, 2007, the closing sale price of the Common Shares, as reported by the NASDAQ SmallCap Market, was \$3.17 per share.

Types of Awards. The 2005 Plan authorizes the Committee to grant incentive stock options, non-incentive stock options, stock bonuses, restricted stock and performance-based awards.

Eligibility. Grants under the 2005 Plan may, at the discretion of the Committee, be awarded to directors, officers and employees and non-employee agents, consultants, advisers and independent contractors of the Corporation or any parent or subsidiary of the Corporation. The Corporation currently has seven directors, seventy-six employees and officers, and an indeterminable number of consultants and advisers who are eligible to receive grants under the 2005 Plan.

Administration. The Compensation, Nominating and Governance Committee currently acts as the “Committee” with respect to administration of the 2005 Plan; however, the Board retains overlapping authority. Subject to the terms of the 2005 Plan, the Committee may from time to time adopt and amend rules and regulations relating to the administration of the 2005 Plan, advance the lapse of any waiting period, accelerate any exercise date, waive or modify any restriction applicable to shares (except those restrictions imposed by law) and make all other determinations in the judgment of the Committee necessary or desirable for the administration of the 2005 Plan. Notwithstanding the broad delegation of authority to the Committee, only the Board may amend or terminate the 2005 Plan.

Amendment and Termination of the 2005 Plan. The Board may amend the 2005 Plan at any time in any respect, subject to any legal or regulatory restriction. Except for changes in outstanding options in connection with changes in capital structure and Significant Transactions (as defined below), no change in an option already granted may be made without the consent of the holder of the option. The 2005 Plan will terminate when all shares reserved for issuance under the 2005 Plan have been issued and all restrictions on such shares have lapsed or when earlier terminated by the Board.

Description of Stock Options

Options Terms. With respect to each option grant, the Committee determines the number of shares subject to the option, the exercise price, the term of the option and the time or times at which the option may be exercised. At the time of the grant of an option or at any time thereafter, the Committee may provide that an optionee who exercised an option to purchase Common Shares shall automatically receive a new option to purchase additional shares equal to the number of shares surrendered and may specify the terms and conditions of such new options.

Exercise of Options. Except as described under “Termination of Employment, Disability or Death” below or as determined by the Committee, an option may not be exercised unless, when exercised, the optionee is an employee of, or is providing service to, the Corporation or any subsidiary of the Corporation and has been continuously so employed or providing service since the date the option was granted. Absence on leave approved by the Corporation, parent or subsidiary or on account of illness or disability is not deemed a termination or interruption of employment or service for this purpose. Unless otherwise determined by the Committee, vesting of options continues during a medical, family or military leave of absence, whether paid or unpaid, and vesting of options is suspended during any other unpaid leave of absence.

When exercising an option, the optionee must pay the full purchase price in cash or check unless the Committee determines otherwise. Subject to the approval of the Committee, which may be withheld for any or no reason, an optionee may pay for all or some of the shares with Common Shares of the Corporation valued at fair market value, restricted stock, performance units or other contingent awards denominated in either stock or cash or other forms of consideration. The 2005 Plan permits the Committee to accept promissory notes as consideration for stock options; however promissory notes are generally not sufficient consideration for the issuance of Common Shares under the CBCA.

Termination of Employment, Disability or Death. Unless otherwise determined by the Committee at any time, if an optionee ceases to be employed by or to provide service to the Corporation, any parent or subsidiary of the Corporation for any reason other than death or total disability, the optionee may exercise any option then held at any time prior to the earlier of its expiration date or 30 days following the termination date, but only if and to the extent the option was exercisable as of the termination date. Any portion of an option not exercisable at the date of termination lapses.

Unless otherwise determined by the Committee, if the optionee's employment or service terminates because of total disability, the optionee may exercise any option then held at any time prior to the earlier of its expiration date or 12 months after the date of termination, but only to the extent the option was exercisable on the date of termination.

Unless otherwise determined by the Committee, if an optionee dies while in the employment of or providing services to the Corporation or any parent or subsidiary of the Corporation, the option then held may be exercised by the optionee's legal heirs at any time prior to the earlier of its expiration date or 12 months after the date of death, but only if and to the extent the option was exercisable as of the date of death.

Non-Transferability of Options. Unless otherwise determined by the Committee at any time, each stock option granted under the 2005 Plan by its terms is nonassignable and nontransferable by an optionee, either voluntarily or by operation of law, other than by will or the laws of descent or distribution upon the death of an optionee. An option may be exercised only by an optionee or, after death, by a successor or representative of an optionee.

Merger, Reorganization, Dissolution, Stock Split or Similar Event. In the event of a merger, consolidation, plan of exchange, acquisition of property or stock, split-up, split-off, spin-off, reorganization or liquidation to which the Corporation is a party or any sale, lease, exchange or other transfer (in one transaction or a series of related transactions) of all, or substantially all, of the assets of the Corporation, or the transfer by one or more shareholders, in one transfer or several related transfers, of 50% or more of the Common Shares outstanding on the date of such transfer (or the first of such related transfers) to persons, other than wholly-owned subsidiaries or family trusts, who were not shareholders of the Corporation prior to the first such transfer (each, a "Significant Transaction"), the Committee shall, in its sole discretion and to the extent possible under the structure of the Significant Transaction, select one of the following alternatives for treating outstanding options under the 2005 Plan:

· Outstanding options shall remain in effect in accordance with their terms;

- Outstanding options shall be converted into options to purchase stock in one or more of the corporations, including the Corporation, that are the surviving or acquiring corporations in the Significant Transaction (with the amount, type of securities subject thereto and exercise price of the converted options being determined by the Committee taking into account the relative values of the companies involved in the Significant Transaction)
- The Committee shall provide a period at least 10 days before the completion of the Significant Transaction during which outstanding options may be exercised to the extent then exercisable, and upon the expiration of that period, all unexercised options shall immediately terminate (The Committee may, in its sole discretion, accelerate the exercisability of options so that they are exercisable in full during that period.)

In the event of the dissolution of the Corporation, options will be treated as provided in the immediately preceding paragraph.

Stock Bonuses and Restricted Stock.

The Committee may award Common Shares under the 2005 Plan as stock bonuses or as restricted stock. Shares awarded as a bonus or as restricted stock are subject to the terms, conditions and restrictions determined by the Committee, including restrictions concerning transferability and forfeiture of the shares awarded. The Committee may require the recipient to sign an agreement as a condition of the award, which agreement shall contain any terms, conditions, restrictions, representations and warranties required by the Committee. The certificates representing the shares shall bear any legends required by the Board.

Performance-based Awards.

Under the 2005 Plan, the Committee may grant performance-based awards. These awards are intended to qualify as qualified performance-based compensation under Section 162(m) of the Code and regulations thereunder. Performance-based awards shall be denominated at the time of grant either in Common Shares or in dollar amounts. Performance-based awards may be granted in whole or in part if the Corporation achieves written objective goals established by the Committee over a designated period of time. Payment of an award earned may be in cash or stock or both as determined by the Committee. In addition to the requirement that participants satisfy certain performance goals, the Committee may impose additional restrictions to payment under a performance-based award.

No participant may receive in any fiscal year stock-based performance awards under which the aggregate amount payable under the awards exceeds the equivalent of 500,000 Common Shares or cash-based performance awards under which the aggregate amount payable exceeds \$1,000,000.

United States Federal Income Tax Consequences

The following is a general discussion of certain United States federal income tax consequences of stock options granted under the 2005 Plan. The discussion does not describe any tax consequences under the tax laws of any state, locality or foreign jurisdiction and does not include any tax consequences associated with any awards other than stock options. Furthermore, the discussion is based on the provisions of the Code and regulations, rulings and judicial decisions thereunder as of the date hereof, and such authorities may be repealed or modified retroactively so as to result in federal income tax consequences different from those discussed below. The discussion below does not discuss all federal tax consequences that may be relevant to a particular grantee, and is not intended as tax advice. Each grantee should consult his or her individual tax adviser.

Options

Incentive Options. No income is recognized by the grantee of an incentive stock option upon the grant or timely exercise of the incentive stock option. Exercise of an incentive stock option may, however, give rise to taxable ordinary income to the optionee if the optionee subsequently engages in a "disqualifying disposition," as described below. Additionally, the spread between the fair-market value of shares obtained upon exercise of an incentive stock option and the exercise price normally is an adjustment to alternative minimum taxable income and may result in the optionee having to pay federal alternative minimum tax for the year of exercise.

A sale, exchange or disposition by an optionee of Common Shares acquired through the exercise of an incentive stock option more than one year after the transfer of the shares to such optionee and more than two years after the date of grant of the incentive stock option will result in any difference between the net sale proceeds and the exercise price being treated as long-term capital gain (or loss) to the optionee. If such a sale, exchange or disposition (including inter vivos gifts) takes place within two years after the date of grant of the incentive stock option or within one year from the date of exercise of the incentive stock option, such sale or exchange will generally constitute a "disqualifying disposition" of the Common Shares.

A disqualifying disposition will have the following results: any excess of (i) the lesser of (a) the fair market value of one Common Share at the time of exercise of the incentive stock option or (b) the amount realized on a disqualifying disposition of the Common Shares through sale; less (ii) the exercise price, will be ordinary income to the optionee, subject to applicable tax reporting requirements. Any further gain generally will qualify as capital gain, and will be long-term capital gain if the holding period for such Common Shares is more than one year from the date of exercise.

Non-Incentive Options. Provided that the exercise price is not less than the fair market value of the underlying stock on the date of grant, no income is recognized by the grantee of a non-incentive stock option until the non-incentive option is exercised. When the non-incentive stock option is exercised, the optionee recognizes ordinary compensation income, and the Corporation generally becomes entitled to a deduction, in the amount by which the fair market value of the shares subject to the non-incentive stock option at the time of exercise exceeds the exercise price. With respect to non-incentive options exercised by certain executive officers, the Corporation's deduction can in certain circumstances be limited by the \$1,000,000 cap on deductibility set forth in Section 162(m) of the Code. The Corporation is required to withhold on all amounts treated as ordinary income to optionees who are employees of the Corporation or an affiliate of the corporation. Upon the sale of shares acquired by exercise of a stock option, the optionee generally will recognize capital gain or loss measured by the difference between the sale proceeds and the fair market value of the shares on the date of exercise. That gain or loss will be long-term if shares have been held for more than one year.

Canadian Income Taxation

If an optionee is a resident of the United States and not a resident of Canada, and if the optionee has not been employed in Canada, (i) neither the receipt nor the exercise of a stock option will give rise to federal Canadian income tax liability and (ii) the sale of the underlying Common Shares generally will not be subject to federal Canadian income tax unless (a) the optionee and persons who do not deal at arm's length with the optionee owned, at any time in the five year period before sale, 25% or more of the outstanding Common Shares, or (b) if the Common Shares are used in carrying on a business in Canada.

Restrictions on Transferability of Shares

The Corporation is not obligated to cause to be issued or delivered any certificates evidencing Common Shares pursuant to the 2005 Plan unless and until the Corporation is advised by its counsel that the issuance and delivery of such certificates is in compliance with all applicable laws and regulations of any governmental authority and the requirements of any securities exchange on which Common Shares are traded. The Corporation may require, as a condition of the issuance and delivery of certificates evidencing Common Shares pursuant to the 2005 Plan, that the recipient of such shares make such covenants, agreements and representations, and that such certificates bear such legends as the Corporation, in its sole discretion, deems necessary or desirable.

New Plan Benefits

As of April 10, 2007, a total of 2,838,513 stock options and other awards have been granted under the 2005 Plan. The Corporation is unable to determine the amount of awards that may be granted in the future to its officers, directors, or affiliates, inasmuch as grants of awards are subject to the discretion of the Board.

Vote Required for Approval and Recommendation by the Board

The Board recommends a vote FOR approval of an increase of 6,000,000 in the number of authorized shares available under the 2005 Plan to an aggregate of 9,000,000 Common Shares. The proposal to approve this must be approved by the holders of at least a majority of the votes cast at the Meeting. Abstentions, and broker non-votes are not counted and have no effect on the results of the vote.
