**PROXY STATEMENT
FOR ANNUAL MEETING OF SHAREHOLDERS
TO BE HELD MAY 4, 2004**

We are mailing this Proxy Statement, with the accompanying proxy card, to you on March 19, 2004 in connection with the solicitation of proxies by and on behalf of the Board of Directors of HON INDUSTRIES Inc. (the "Corporation" or "HON INDUSTRIES") for the 2004 annual meeting of shareholders and any adjournment or postponement of that meeting (the "Annual Meeting"). The meeting will be held on Tuesday, May 4, 2004, beginning at 10:30 a.m., local time, at the Holiday Inn, Highways 61 and 38 North, Muscatine, Iowa.

INFORMATION ABOUT VOTING

Who can attend and vote at the meeting?

Shareholders of record at the close of business on March 5, 2004 are entitled to attend and vote at the meeting. Each share of the Corporation's common stock, par value \$1.00 per share (the "Common Stock") is entitled to one vote on all matters to be voted on at the meeting and can be voted only if the shareholder of record is present to vote or is represented by proxy. The proxy card provided with this Proxy Statement indicates the number of shares of the Corporation's Common Stock that you own and are entitled to vote at the meeting.

What constitutes a quorum at the meeting?

The presence at the meeting, in person or represented by proxy, of the holders of a majority of the Common Stock outstanding (the "Outstanding Shares") on March 5, 2004 (the "Record Date") will constitute a quorum for purposes of the meeting. On the Record Date, 58,260,555 shares of Common Stock were outstanding. For purposes of determining whether a quorum exists, proxies received but marked "withhold" or "abstain" and so-called "broker non-votes" (described on following page) will be counted as present.

How do I vote by proxy?

If you properly fill in your proxy card and our transfer agent, Computershare Investor Services LLC, receives it in time to vote at the meeting, your "proxy" (one of the individuals named on your proxy card) will vote your shares as you have directed. No postage is required if your proxy card is mailed in the United States in the return envelope that has been enclosed with this Proxy Statement.

If you sign, date and return the proxy card but do not specify how your shares are to be voted, then your proxy will vote your shares as follows:

To elect the four nominees for Director named on page 5 under "*Election of Directors.*"

To change the Corporation's name to HNI Corporation by amending the Corporation's Articles of Incorporation as set out on page 20 under "*Change the Corporation's Name to HNI Corporation by Amending Section 1.01 of the Corporation's Articles of Incorporation.*"

To amend the Corporation's Articles of Incorporation as set out on page 21 under "*Update Anti-takeover Provisions of the Corporation's Articles of Incorporation to be More Consistent with Current Iowa Law.*"

In their discretion as to any other business which may properly come before the meeting.

How do I vote if my shares are held through a broker, trustee or other nominee?

If your shares are held for you as the beneficial owner, rather than directly in your name, through a broker, trustee or other nominee, such as a bank, in "street name," you will need to instruct your broker, trustee or other nominee concerning how to vote your shares. Since a beneficial owner is not the shareholder of record, you may not vote these shares in person at the meeting unless you obtain a "legal proxy" from the broker, trustee or other nominee that holds your shares, giving you the right to vote the shares at the meeting. Your broker, trustee or other nominee has enclosed or provided voting instructions for you to use in directing the broker, trustee or nominee how to vote your shares.

What discretion does my broker, trustee or other nominee have to vote my shares held in "street name"?

A broker, trustee or other nominee holding your shares in "street name" must vote those shares according to any specific instructions it receives from you. If specific instructions are not received, your broker, trustee or other nominee generally may vote your shares in its discretion, depending on the type of proposal involved. Under New York Stock Exchange ("NYSE") rules, there are certain matters on which brokers may not vote without specific instructions from you. If such a matter comes to a vote at the meeting, your shares will not be voted on that matter, giving rise to what is called a "broker non-vote." Shares represented by broker non-votes will be counted for purposes of determining the existence of a quorum.

Can I change my vote after I return my proxy card?

Yes. You may change your vote at any time before your proxy is exercised. To change your vote, you may:

Deliver to our corporate secretary a written notice revoking your earlier vote; or

Deliver to our transfer agent, if you are the shareholder of record, a properly completed and signed proxy card with a later date; or

Deliver to your broker, trustee or other nominee, if your shares are held in "street name," a properly completed and signed proxy card with a later date; or

Vote in person at the meeting.

Your attendance at the meeting will not be determined to revoke a previously delivered proxy unless you clearly indicate at the meeting you intend to revoke your proxy and vote in person.

How do I vote my 401(k) shares?

If you participate in the Corporation's 401(k) plan, you will receive a proxy card that covers Corporation shares allocated to your account. Properly completed and signed proxy cards will serve to instruct the plan trustee on how to vote any shares allocated to your account and a portion of all shares as to which no instructions have been received (the "undirected shares") from plan participants. The portion of the undirected shares to which your instructions will apply will be equal to the portion of the shares to which the trustee receives instructions represented by your shares.

How is the Corporation soliciting proxies?

We bear the cost of preparing, assembling and mailing the proxy material related to the solicitation of proxies by and on behalf of the Board of Directors for the meeting. In addition to the use of the mails, certain of our officers and members may, without additional compensation, solicit proxies in person, by telephone or other means of communication. We will also request brokerage houses, custodians, nominees and fiduciaries to forward copies of the proxy materials to those persons for whom they hold shares and will reimburse those record holders for their reasonable expenses in transmitting this material.

Is my vote confidential?

Proxy instructions, ballots and voting tabulations that identify individual shareholders are handled in a manner that protects your voting privacy. Your vote will not be disclosed either with the Corporation or to third parties, except: (1) as necessary to meet applicable legal requirements, (2) to allow for the tabulation of votes and certification of the vote, and (3) to facilitate a

successful proxy solicitation. Occasionally, shareholders provide written comments on their proxy cards, which are then forwarded to the Corporation's management.

Who will serve as inspector of elections?

The inspector of elections will be a representative of our transfer agent.

What should I do if I receive more than one set of voting materials?

You may receive more than one set of voting materials, including multiple copies of this proxy statement and multiple proxy cards or voting instruction cards. For example, if you hold your shares in more than one brokerage account, you may receive a separate voting instruction card for each brokerage account in which you hold shares in "street name." If you are a shareholder of record and your shares are registered in more than one name, you will receive more than one proxy card. Please complete, sign, date and return each proxy card and voting instruction card that you receive.

The Securities and Exchange Commission has adopted rules which allow us to deliver a single annual report or proxy statement to any household at which two or more shareholders reside, whom we believe to be members of the same family. If you have not previously consented to participate in this program and wish to receive only one copy of future HON INDUSTRIES Inc. Annual Reports or HON INDUSTRIES Inc. Proxy Statements, please write to us at Computershare Investor Services, Attention: Proxy Unit, P.O. Box 1878, Chicago, Illinois 60690-1878. Your consent to receive only copy of the annual report or proxy statement will remain in effect until we receive a written revocation notice from you. We will continue to separately mail a proxy card for each registered shareholder account.

Beginning this year, we will provide our annual reports, notices to shareholders of the annual meetings and proxy statements over the Internet. If you wish to give your consent to access such future documents over the Internet, please check the box in the CONSENT section on your proxy card. You will be advised when these documents become available on the Internet. Once you give your consent, it will remain in effect until you notify the Corporation that you wish to resume mail delivery of the annual reports and proxy statements. Even though you give your consent, you still have the right at any time to request copies of these documents.

Where can I find the voting results of the annual meeting?

The Corporation intends to announce preliminary voting results at the Annual Meeting and publish final results in our quarterly report on Form 10-Q for the second quarter of fiscal 2004.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Under the federal securities laws, the Directors and executive officers of the Corporation, and certain persons who own more than 10% of the Common Stock, are required to report their ownership of the Common Stock and changes in that ownership to the SEC and the NYSE. Specific due dates for these reports have been established, and we are required to report in this Proxy Statement any failure to file by these dates during the Corporation's fiscal year 2003.

Based solely on our review of copies of the reports we have received, or written representations from certain reporting persons, we believe that, during the Corporation's fiscal year 2003, all of these reporting requirements were timely satisfied by our Directors, executive officers and 10% holders, except Mr. Martin inadvertently filed one Form 4 one day after it was due.

PROPOSAL NO. 1 ELECTION OF DIRECTORS

The Corporation's By-laws provide for eleven Directors. The Board of Directors currently consists of eleven members. Nine of the current eleven Directors are independent, outside Directors. Mr. Michaels, Chairman and Chief Executive Officer, and Mr. Askren, President, are the only Directors employed by the Corporation.

Nominees for Election

The Board is nominating Dennis J. Martin, Jack D. Michaels and Abbie J. Smith for re-election and John A. Halbrook, who is not currently a Director, for election at the meeting (collectively, the "Nominees"). We have no reason to believe that any of the Nominees listed above will be unavailable to serve if elected. However, if any one of them becomes unavailable, the persons named as proxies in the accompanying proxy card have discretionary authority to vote for a substitute chosen by the Board. Any vacancies not filled at the meeting may be filled by the Board of Directors.

Stanley A. Askren, age 43, has been a Director of the Corporation since 2003. Mr. Askren has also been the President of the Corporation since 2003. Prior to that, he was the Executive Vice President of the Corporation from 2001 to 2003; the President of Allsteel Inc. from 1999 to 2003 and a Group Vice President of The HON Company from 1998 to 1999.

Retiring Director

Dr. Katz' term will expire at the Corporation's 2004 Annual Meeting of Shareholders. He is not standing for re-election. His biographical information follows.

Robert L. Katz, age 78, has been a Director of the Corporation since 1995. Dr. Katz has been the President of Robert L. Katz and Associates, consultants on corporate strategy, since 1953. He has also been the President of CalTex Investment Management Co., a venture capital firm, since 1975.

Director Independence

The Board has determined that each of the current non-management Directors standing for re-election, including each of the current members of the Audit Committee, the Human Resources and Compensation Committee and the Public Policy and Corporate Governance Committee and the new candidate for Director, Mr. Halbrook, has no material relationship with the Corporation (either directly or as a partner, shareholder or officer of an organization that has a relationship with the Corporation) and is independent within the Corporation's director independence standards, which reflect exactly the NYSE director independence standards as currently in effect and as they may be changed from time to time. Messrs. Michaels and Askren do not meet the aforementioned independence standards because they are the Chairman and Chief Executive Officer and the President of the Corporation, respectively, and are each a member of the Corporation.

Board Committees

The Board has three standing committees, the Audit, Human Resources and Compensation and Public Policy and Corporate Governance Committees, that deal with audit matters, compensation and corporate governance, including nominations to the Board. Each committee operates under a written charter, which has been approved by the Board of Directors. The Board reviews each committee charter at least annually. The Committees' charters can be found on the Corporation's website at www.honi.com under "*Corporate Governance Committee Charters*."

Audit Committee. The Audit Committee consists of three independent Directors: Cheryl A. Francis, Dennis J. Martin and Ronald V. Waters, III. The Board has determined that each member of the Committee is "independent" as independence for audit committees is defined in the NYSE listing standards applicable to the Corporation. No Audit Committee member serves simultaneously on audit committees of more than three public companies. The Corporation's Board of Directors has determined each of the Committee members are independent and audit committee financial experts (as defined by Securities and Exchange Commission ("SEC") regulations). The Committee met 4 times to review quarter end results and 4 times for regular meetings for a total of 8 times during 2003. The Committee appoints the independent accountant and reviews the independent accountant's performance, independence, fees and audit plans. The Committee also reviews the annual and quarterly financial statements; the independent accountant's management letter with both the independent accountant and management; internal audit staffing, budget, plans and reports; nonaudit services provided by the independent accountant; the Corporation's insurance coverage and any other financial matters as directed by the Board.

7

Human Resources and Compensation Committee. The Human Resources and Compensation Committee is comprised of Gary M. Christensen, Robert L. Katz and Abbie J. Smith. Each member of the Committee is an independent director as that term is defined by the NYSE listing standards. It met 4 times during the last fiscal year. The Committee reviews executive compensation, executive succession planning, benefit programs for all employees, management's recommendations on election of officers, human resources development and oversees the evaluation of the Chief Executive Officer by the Board.

Public Policy and Corporate Governance Committee. The Public Policy and Governance Committee ("Governance Committee") consists of Richard H. Stanley, Joseph Scalzo and Brian E. Stern, who are each deemed to be an independent director as that term is defined by the NYSE listing standards. The Committee met 4 times during the last fiscal year.

The responsibilities of the Governance Committee include: identifying individuals qualified to serve as Directors of the Corporation consistent with criteria approved by the Board; recommending that the Board select the Director nominees for the next Annual Meeting of Shareholders; developing and recommending to the Board corporate governance principles applicable to the Corporation; and overseeing the evaluation of the Board and the Corporation by the Directors.

The Governance Committee fulfills the role of a nominating committee.

The Board of Directors has adopted Guidelines for identifying and evaluating candidates for Director. Under those Guidelines, the Governance Committee takes into account a number of factors when identifying potential nominees, including: independence from management; diversity; relevant business experience; judgment, skill, integrity and reputation; existing commitments to other businesses; potential conflicts of interest with other pursuits; legal restraints; corporate governance background; financial and accounting background and education; executive compensation background; and size and composition of the existing Board of Directors.

Potential candidates are screened by the Governance Committee, and the Governance Committee recommends candidates to the Board of the Directors for nomination.

The Governance Committee will consider candidates for Director suggested by shareholders applying the criteria for candidates described above and considering the following additional information.

Shareholders wishing to suggest a candidate for Director should write to our Corporate Secretary and include: a statement that the writer is a shareholder and is proposing a candidate for Director; the name of and contact information for the candidate; statement of the candidate's business and educational experience; information about each of the factors listed above, except for the size and composition of the existing Board of Directors, sufficient to enable the Committee to evaluate the candidate; a statement detailing any relationship between the candidate and any customer, supplier or competitor of the Corporation; detailed information about any relationship or understanding between the writer or any other shareholder and the candidate; and a statement that the candidate is willing to be considered and will serve as a Director if nominated and elected.

The Corporation does not have any minimum qualifications for Director nominees. However, the Board believes that it should be comprised of Directors with varied and complimentary backgrounds. Directors should, at a minimum, have expertise that will be useful to the Corporation. Directors should also possess the highest personal and professional integrity and ethics and be willing and able to devote the required time to the Corporation.

The Governance Committee may use a variety of means to identify potential nominees, including recommendations from the Chairman, other Directors or others associated with the Corporation or with the help of executive search firms (which receive a fee for their services). Candidates with the desired skills, experience and abilities are identified.

Mr. Halbrook was recommended by a third-party executive search firm to which the Corporation paid a fee for services rendered in fiscal 2003. The firm identified several potential candidates based upon criteria supplied by the Governance Committee. The functions performed by the director search firm were traditional executive search functions, and included: (1) candidate identification based on specifications provided by the Governance Committee; (2) candidate interview and presentation; and (3) closure and follow-up. After reviewing the resumes of those candidates, candidates were selected for further evaluation by the Governance Committee. After interviewing those candidates, Mr. Halbrook was selected to be recommended to the Board for nomination.

The Board of Directors held four regular meetings and one special meeting during 2003. All of the Directors attended 100% of the meetings of the Board of Directors and Committees of the Board on which they served. The Board meets regularly without members of management present.

In accordance with the NYSE corporate governance listing standards, the Corporation's non-management Directors meet at regularly scheduled executive sessions without management present. Mr. Stanley, Vice Chairman, presides at these sessions.

Shareholder Communications with the Board of Directors

Shareholders and interested parties may communicate with Mr. Stanley, or with our non-management Directors as a group, by sending an email to "Boardofdirectors@honi.com" or by writing to Vice Chairman or Non-Management Directors at HON INDUSTRIES Inc., 414 East Third Street, P.O. Box 1109, Muscatine, Iowa 52761, Attention: Corporate Secretary. All communications received will be opened by the office of the Corporate Secretary for the sole purpose of determining whether the contents are a message to Directors. Any communications that are not in the nature of advertising or promotions of a product or service will be promptly forwarded.

All Directors are encouraged to attend the Annual Meeting of Shareholders when possible. Directors may attend either in person or by telephone. Last year each of the Directors attended the Annual Meeting in person.

Director Compensation

Each independent Director receives an annual retainer of \$30,000. Independent Directors are required to receive one-half of their annual retainer in the form of shares of Common Stock of the Corporation to be issued under the terms of the Amended and Restated 1997 Equity Plan for Non-Employee Directors of HON INDUSTRIES Inc. (the "Director Plan") or (to the extent the Director participates in the Directors Deferred Compensation Plan (the "Deferred Plan")) in the form of shares to be credited to the Director's Share Sub-Account under the Deferred Plan. However, this provision does not apply to any Director owning Common Stock with a market value of five times the annual retainer, or more. Independent Directors can also acquire Common Stock in several other ways. Under the Director Plan, Directors are entitled to receive up to 100 percent of their retainers and other fees in the form of shares of Common Stock. Under the Deferred Plan, each Director is provided with the opportunity to defer cash compensation earned as a Director, including retainer and other fees, in accordance with the provisions of the plan. Deferred compensation may be deferred in cash or in the form of shares of Common Stock (determined by dividing the amount of the compensation deferred by the fair market value per share of Common Stock on the date such compensation would have otherwise been paid). In addition, each independent Director is eligible to receive awards of options to purchase Common Stock of the Corporation, restricted stock or common stock grants, or any combination thereof, in such amounts as the Board of Directors may authorize under the Director Plan. In 2003, each independent Director was issued 800 shares of Common Stock of the Corporation under the Director Plan. All shares of Common Stock issued in lieu of cash retainer amounts or other Director fees (as described below) have heretofore been issued pursuant to the Corporation's amended and restated 1995 Stock-Based Compensation Plan (the "Restated Stock-Based Compensation Plan") or the Director Plan. The Committee Chairs also receive an annual retainer for their services. The Audit Committee Chair receives an annual retainer of \$5,000 and the Chairs of the Human Resources and Compensation and Public Policy and Corporate Governance Committees receive an annual retainer of \$4,000. Each independent Director also receives the following attendance fees: \$1,500 for each regular or special Board meeting, \$1,500 for each special committee meeting (not held in conjunction with a regularly scheduled Board meeting), and \$750 for each regular meeting of a committee of which the Director is a member. Independent Directors also receive an additional \$1,000 for each meeting attended if they are required to travel six hours or more on a round-trip basis. Each independent Director receives a \$750 fee for each special Board or committee meeting held by telephone conference. Independent Directors are also compensated for any meeting they attend at the request of the Chairman of the Board as follows: (1) meetings requiring less than two hours of the Director's time \$750; and (2) meetings requiring more than two hours of the Director's time \$1,500. Directors are also reimbursed for travel and related expenses incurred to attend meetings. Directors who are employees of the Corporation do not receive additional compensation for service on the Board of Directors.

Audit Committee Report

The Corporation's Board of Directors has adopted a written charter for the Audit Committee. The Charter is attached as Exhibit A. The Charter is also available on the Corporation's website www.honi.com, at "Corporate Governance Committee Charters." The primary functions of the Audit Committee are set forth in its Charter and on page 7 under "Board Committees."

All members of the Audit Committee are independent as defined in Sections 303.01, 303.02 and 303A.02 of the New York Stock Exchange Listed Company Manual and Rule 10A-3(b)(1) under the Securities Act of 1934, as amended.

The Audit Committee reviewed and discussed with management and PricewaterhouseCoopers LLP, the Corporation's independent auditor, the Corporation's audited financial statements for the year ended January 3, 2004. In addition, the independent auditor reviewed the Corporation's

Edgar Filing: HON INDUSTRIES INC - Form DEF 14A

quarterly financial statements with the Audit Committee and management.

The Audit Committee also discussed with the independent auditor the matters required to be discussed by Statement on Auditing Standards No. 61, *Communication with Audit Committees*, as amended.

The Audit Committee received and reviewed the written disclosures and the letter from the independent auditor required by Independence Standard No. 1, *Independence Discussions with Audit Committees*, as amended, and discussed with the auditor the auditor's independence. The Audit Committee also reviewed the Corporation's Disclosure Control Process and considered whether the provision of tax assistance and statutory audit of the Corporation's captive insurance subsidiary are compatible with maintaining the independence of the Corporation's independent auditor.

Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the financial statements referred to above be included in the Corporation's Annual Report on Form 10-K for the year ended January 3, 2004, for filing with the Securities and Exchange Commission.

Edgar Filing: HON INDUSTRIES INC - Form DEF 14A

The Audit Committee has delegated to the Chair of the Audit Committee authority to pre-approve audit-related and non-audit services not prohibited by law to be performed by the Corporation's independent auditors and associated fees. The Chair must report any decisions to pre-approve such audit-related or non-audit related services and fees to the full Audit Committee at its next regular meeting. Code of Business Conduct and Ethics

In November 2003, the Corporation updated its Code of Business Conduct and Ethics (the "Code") as part of its corporate compliance program. The Code applies to all Directors and members, including the Corporation's principal executive officer, principal financial officer, principal accounting officer or controller or persons performing similar functions. Certain Relationships and Related Transactions

On November 15, 1995, Robert L. Katz and Associates, of which Dr. Katz is President, entered into a one-year agreement with the Corporation to provide certain consulting services for \$5,000 per month. The agreement also provides for reimbursement of travel expenses and other reasonable out-of-pocket costs incurred on the Corporation's behalf and is automatically renewed each year unless notice of cancellation is given no later than 90 days prior to the end of the one-year term. The agreement has been renewed until May 2004. For 2003, the Corporation paid Robert L. Katz and Associates a total consulting fee of \$60,000, plus \$3,771 of expense reimbursement, for services rendered. The Board of Directors has evaluated the terms of the agreement with Dr. Katz in relation to the Corporation's director independence standards and has determined that Dr. Katz is independent under those standards.

Notes

(1) These figures and others on this Table include amounts deferred, if any, in respect of fiscal years 2003, 2002 and 2001 compensation but do not include any interest that may have accrued on any deferred compensation under the Corporation's Executive Deferred Compensation Plan (the "Deferral Plan"). The Deferral Plan permits a participant to elect to defer any combination of salary, bonus, cash profit-sharing, ERISA supplemental retirement, long-term performance, LTIP income, vested stock options or other stock grants under the Corporation's Restated Stock-Based Compensation Plan. The deferrals under this Deferral Plan may be made into a cash account or a HON INDUSTRIES Common Stock account. The Deferral Plan provides for interest to be paid on any amounts deferred to the cash account at an annual rate, compounded monthly, equal to one percent above the prime rate of The Northern Trust Company, Chicago, Illinois, effective as of the first business day of the year.

12

(2) The figures for bonuses reflect the awards of executive bonuses for the relevant fiscal years under the Corporation's Executive Bonus Plan. The executive bonuses are payable in February following the fiscal year for which they are earned, subject to a participant's continued employment with the Corporation at the time of payment. The figures in this column also include cash profit-sharing payments. In the 2003, 2002 and 2001 fiscal years, the Corporation made the following payments under the Cash Profit-Sharing Plan: Mr. Michaels \$12,628; \$11,506; \$10,494; Mr. Askren \$11,395; \$2,893; \$7,819; Mr. Burdakin \$12,826; \$12,573; \$9,966; Mr. Dittmer \$12,628; \$11,506; \$10,056; and Mr. Determan \$8,696; \$8,848; \$10,958. Members are generally able to participate in the Corporation's Cash Profit Sharing Plan after completing one year of service. Cash profit-sharing is earned on a non-fiscal year cycle.

(3) Included are Corporation contributions to the HON INDUSTRIES Inc. Profit-Sharing Retirement Plan, as well as the dollar value of Corporation-paid life insurance under the HON INDUSTRIES Inc. Group Term Life Insurance Plan, all of which are generally applicable to all members. Above market interest (interest in excess of 120% of the long-term federal rate at the beginning of the plan year) payable on deferred income is also included. The amounts paid under the HON INDUSTRIES Inc. Profit-Sharing Retirement Plan for the 2003, 2002 and 2001 fiscal years were as follows: Mr. Michaels \$19,774; \$18,923; \$15,477; Mr. Askren \$19,774; \$11,348; \$13,440; Mr. Burdakin \$19,791; \$19,786; \$14,911; Mr. Dittmer \$19,774; \$18,923; \$15,477; and Mr. Determan \$19,791; \$17,940; \$16,362. The dollar value of Corporation-paid life insurance under the HON INDUSTRIES Inc. Group Term Life Insurance Plan in the 2003, 2002 and 2001 fiscal years were as follows: Mr. Michaels \$1,651; \$1,651; \$846; Mr. Askren \$123; \$120; \$ 0-;

Edgar Filing: HON INDUSTRIES INC - Form DEF 14A

Mr. Burdakin \$209; \$199; \$180; and Mr. Dittmer \$ 0-; \$ 0-; \$42. Above market interest on deferred compensation for Mr. Michaels for 2003, 2002 and 2001 was as follows: \$ 0-; \$ 0-; \$74,541. This column also includes amounts equal to the value of Corporation Common Stock paid in respect of the 2003, 2002 and 2001 fiscal years under the Corporation's ERISA Supplemental Retirement Plan ("ESRP"), as follows: Mr. Michaels \$242,577; \$143,695; \$169,888; Mr. Askren \$47,151; \$8,218; \$32,500; Mr. Burdakin \$64,927; \$32,116; \$27,489; Mr. Dittmer \$40,907; \$14,837; \$16,687; and Mr. Determan \$22,634; \$19,301; \$13,571. Under this Plan, certain executives receive certain benefits in the form of Corporation Common Stock equal in value to benefits they would have received under certain Corporation ERISA plans and the Corporation's Cash Profit-Sharing Plan but for a \$200,000 earnings cap for 2003. The number of shares of Corporation Common Stock to be paid is determined by dividing the value of such benefits by the average of the closing prices of a share of the Corporation's Common Stock for each trading day of the last calendar quarter of the most recent calendar year immediately preceding the date of payment, with cash payable in lieu of any fractional share. The amount included in this column as compensation under the ESRP is equal to the closing price of the shares on the date they are issued. The shares for 2003 were issued as of February 27, 2004. The Common Stock is issued under the Corporation's Restated Stock-Based Compensation Plan and may not be transferred while the recipient remains employed by the Corporation.

Stock Options

The following table contains information concerning the grant of stock options under the Corporation's Restated Stock-Based Compensation Plan to the Named Executive Officers for the year ended January 3, 2004, all of which are reflected in the Corporation's Summary Compensation Table.

Notes

(1) The options were granted pursuant to the Corporation's Restated Stock-Based Compensation Plan, which was approved by the shareholders. All options granted under the Restated Stock-Based Compensation Plan in 2003 are non-qualified stock options. No stock appreciation rights ("SARs") were granted under the Restated Stock-Based Compensation Plan in 2003. In fiscal year 2003, 28 key executives received stock option grants.

(2) The average of the high and low transaction prices of a share of Common Stock on February 12, 2003, the date of grant, was \$25.82 per share. The average of the high and low transaction prices of a share of Common Stock on August 4, 2003, the date of grant, was \$32.93 per share. The exercise price may be paid (a) in cash, or (b) in shares of Common Stock valued at fair market value on the date of delivery, or (c) by authorizing the Corporation to withhold shares of Common Stock which would otherwise be delivered upon exercise of the option, having a fair market value equal to the purchase price payable by reason of the exercise, or (d) in cash by a broker-dealer acceptable to the Corporation to whom the optionee has submitted an irrevocable notice of exercise, or by a combination of (a), (b), (c) or (d). The options become exercisable at the end of four years after the grant date. Upon a Change in Control (as defined in the Restated Stock-Based Compensation Plan), all options then outstanding become immediately exercisable in full and remain exercisable for the remaining term of the option. Those participants who terminate employment due to disability may exercise

options, which shall become fully vested as of the date of disability, until the earlier of the expiration date of the option or the second anniversary of the date of disability. The representative of participants whose employment is terminated due to death may exercise options, which shall become fully vested as of the date of death, until the earlier of the expiration date of the option or the second anniversary of the date of death. Those participants, except for Mr. Michaels, who terminate employment due to retirement may exercise options, which shall become fully vested as of the date of retirement, until the earlier of the expiration of the option, or, the third anniversary of the date of retirement. In Mr. Michaels' case, termination of employment due to retirement does not change the vesting schedule or term during which the options may be exercised. Those participants who terminate employment for any other reason (except termination "for cause" in which case no additional exercise period is provided) may exercise options which are vested as the date of termination until the earlier of the expiration of the option or the end of the 30th day following the date of termination. Except as set forth above, all options terminate upon termination of employment.

(3)

Calculated on option terms of ten years beginning February 12, 2003 through February 12, 2013 and August 4, 2003 through August 4, 2013, with annual compounding. The dollar amounts under these columns are the result of calculations at the 5 percent and 10 percent rates set by the Securities and Exchange Commission and therefore are not intended to forecast possible future appreciation of the Common Stock of the Corporation. The Corporation did not use an alternative formula for a grant date valuation, as the Corporation is not aware of any formula, which will determine with reasonable accuracy a present value based on future unknown or volatile factors.

Option Exercises and Holdings

The following table sets forth information with respect to the Named Executive Officers concerning the exercise of options and the unexercised options held as of January 3, 2004. One of the Named Executive Officers exercised stock options during 2003.

Notes

- (1) The number of unexercised options consists of non-qualified stock options granted under the Corporation's Restated Stock-Based Compensation Plan. No SARs were issued or outstanding as of January 3, 2004 under the Restated Stock-Based Compensation Plan.
- (2) Determined by multiplying the number of securities times the difference of the closing price of the Corporation's common stock on January 2, 2004 and the exercise prices of the options.

Long Term Performance Plan

The awards made in 2003 under the Corporation's Long-Term Performance Plan ("Performance Plan") are designed to focus executives on both growth of earnings and return on invested capital. This focus is created by requiring minimum standards for compound average annual increases in earnings and minimum average returns on capital for segments of the Corporation's business during the three-year performance period before a benefit is paid to the executives within each segment.

Edgar Filing: HON INDUSTRIES INC - Form DEF 14A

Target dollar awards are made at the beginning of the performance period. The value of each target award, other than the Chief Executive Officer, is determined by the Board based upon the participant's compensation level, position in the Corporation, ability to influence the Corporation's performance and industry survey data provided by national compensation consulting firms. The value of the target award for the Chief Executive Officer is determined by the Human Resources and Compensation Committee in conjunction with the other independent Directors. The actual value of an award earned by an executive at the end of the performance period is based upon actual financial results during the performance period compared to the standards set for the applicable business. The award earned can range from zero to 200% of the initial target award.

Awards, if any, under the Performance Plan will be paid shortly after the end of the performance period. One-half of the benefit will be paid in cash and one-half in unrestricted, Common Stock of the Corporation.

The table below sets forth information with respect to awards granted under the Corporation's Performance Plan to the Named Executive Officers in 2003.

Notes

- (1) The plan provides for adjustments in vesting and benefit payout in the events of death, disability, retirement, transfer or change in responsibilities, change of control, or sale of the business unit.

Notwithstanding anything to the contrary set forth in any of the Corporation's previous filings under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, that might incorporate future filings, including this Proxy Statement, in whole or in part, the preceding Audit Committee Report and the following Performance Graph and the Report of the Human Resources and Compensation Committee of the Board of Directors of the Corporation on Executive Compensation shall not be incorporated by reference into any such filings.

Performance Graph Comparison of Five-Year Cumulative Total Return Among S & P 500 Index, Office Furniture Industry Group, and the Corporation

*

The Office Furniture Industry Group is a composite peer index constructed by the Corporation and weighted by market capitalization that includes the following companies, but from which the Corporation has been excluded: Herman Miller, Inc.; Kimball International, Inc.; Teknion Corporation; and Steelcase Inc.

The total return assumes \$100.00 invested in each of the Corporation's Common Stock, the S & P 500 Index, and the Office Furniture Industry Group Stocks on January 2, 1999. It includes reinvestment of dividends and is based on the closing stock price on the last trading day of the Corporation's fiscal quarter.

The comparative performance of the Corporation's Common Stock against the indexes as depicted in this graph is dependent on the price of stock at a particular measurement point in time. Since individual stocks are more volatile than broader stock indexes, the perceived comparative performance of the Corporation's Common Stock may vary based on the strength or weakness of the stock price at the new measurement point used in each future proxy statement graph. For this reason, the Corporation does not believe that this graph should be considered as the sole indicator of Corporation performance.

**Report of the Human Resources and Compensation Committee
of the Board of Directors of the Corporation
on Executive Compensation**

What is our executive compensation philosophy?

The Corporation's executive compensation program is designed to be linked to Corporation performance. To this end, the Corporation has developed an overall compensation strategy and specific compensation plans that tie executive compensation to the Corporation's success in meeting its business goals and objectives.

Edgar Filing: HON INDUSTRIES INC - Form DEF 14A

The executive compensation strategy is designed to: (i) ensure the total program will assist the Corporation to attract, motivate, and retain executives of the highest quality; (ii) relate total compensation to individual executive performance and the performance of the broad business segment in which he or she manages and the specific business unit he or she manages; and (iii) provide incentives for high levels of performance that reward strong Corporation performance and recognize individual initiative and achievement.

The Corporation also believes executive compensation should be subject to independent review. Relative matters pertaining to executive compensation are submitted to the independent outside Directors of the Board for approval following review and recommendation by the Human Resources and Compensation Committee (the "Committee"). The Committee is comprised of three independent outside Directors and met four times during fiscal year 2003.

Operating within the framework of a statement of duties and responsibilities established by the Board of Directors, the Committee's role is to assure the Corporation's: (1) compensation strategy is aligned with the long-term interest of the shareholders and members; (2) compensation structure is fair and reasonable; and (3) compensation reflects both Corporation and individual performance. In discharging its responsibilities, the Committee utilizes broad-based, comparative compensation surveys developed by independent professional organizations.

The Committee's Charter provides that any outside compensation consultants retained to offer advice on compensation levels and benefits for the Chairman, Chief Executive Officer or other senior executives will be retained by the Committee, will report to the Chair of the Committee, and will submit fee statements to the Chair of the Committee for approval. The consultants' findings will be reported directly to the Committee. Any other consulting services by such compensation consultants for the Corporation must be approved in advance by the Committee Chair.

Approximately every three to five years, the Board of Directors, with the assistance of a compensation consultant, conducts a more extensive competitive assessment of the Corporation's executive compensation programs. From time to time, the Committee retains compensation consultants to offer professional assistance on other select executive compensation matters.

The federal corporate income tax law (IRS Code Section 162(m)) limits the ability of public companies to deduct compensation in excess of \$1 million paid annually to the chief executive officer or the other four most highly compensated executive officers. There are exceptions to this limit, including exceptions for compensation that qualifies as "performance based." The Corporation has structured the performance-based portion of the compensation of its executive officers in a manner that complies with the exception to Section 162(m) to permit the Corporation to deduct the related expenses.

How were executive base salaries determined for fiscal year 2003?

Base salary ranges are determined by evaluating the duties and level of responsibilities of a position, the experience of a candidate, prior compensation, compensation for positions having similar scope and accountability within the Corporation, and market survey data. In general, the Corporation uses as a guide, for setting base salary targets, 90% of the mid-point of base salary ranges from compensation surveys. The Corporation participates annually in the Towers Perrin Compensation Survey, which is widely used and gives relevant compensation information on executive positions. While some of the companies in the peer group chosen for comparison of shareholder returns in the Performance Graph on page 16 may be included in the surveys considered by the Committee in setting executives' salaries, there is no set peer group against which those salaries are measured. Annual base salaries are determined for executive officers by considering an executive's individual performance and level of experience, changes in responsibilities, potential for advancement, and by reference to salary surveys for comparably situated executives with companies of similar size.

17

How were annual executive bonuses determined for fiscal year 2003?

The purpose of the Corporation's Executive Bonus Plan ("Bonus Plan") is to motivate and reward executive management to achieve specific financial and non-financial objectives. A target bonus level, stated as a percent of annual base salary, is established for each participant and approved by the Committee and the Board annually. A target bonus is comprised 60% of financial goals related to annual profitability and return on net asset goals for operating units, or annual profitability and return on invested capital goals for the overall Corporation; and 40% of strategic objectives established for each participant based upon the participant's position and responsibilities. Participants can achieve up to two times the target financial goal award based on performance against annual financial goals established by the Board. For the Chairman and Chief Executive Officer, the Committee and other independent Directors determine the annual bonus opportunity and performance objectives. The annual target bonus percentage for the Chairman and Chief Executive Officer is equal to 100% of base salary. The other named executives in the Summary Compensation Table have annual target bonus percentages that range from 75% to 85% of their base salary. The Bonus Plan objectives are reviewed and approved annually by the Chairman and Chief Executive Officer, President, the Committee, and the Board. Bonuses are normally awarded annually based upon achievement of predetermined financial performance targets and strategic objectives, measured over the Corporation's fiscal year. The bonus awards for each fiscal year are approved by the Committee and the Board of Directors.

In what long-term incentive compensation programs could executives participate in fiscal 2003?

Long-Term Performance Plan. In fiscal year 2000, the Board approved the Long-Term Performance Plan ("Performance Plan"). The purpose of the Performance Plan is to promote the attainment of the Corporation's financial goals. The Performance Plan is designed to reward increasing long-term shareholder value and is based on the three-year financial goals for office furniture and hearth business segments of the Corporation and three-year financial goals for the overall Corporation from its three-year strategic plan. The Performance Plan provides target awards to each participant at the beginning of a three-year performance period. Actual awards are based upon growth in profitability and average return on capital during the performance period (See "Long Term Performance Plan" on page 15).

Restated Stock-Based Compensation Plan. The Restated Stock-Based Compensation Plan authorizes, among other things, the grant of stock options to participants, including the Corporation's executives. The grant of stock options is intended to further the growth, development, and financial success of the Corporation by providing additional incentives to key executives and assist them to become owners of Common Stock of the Corporation. As owners, they will benefit directly from its growth, development and financial success of the Corporation with other shareholders. Stock option grants will also enable the Corporation to attract and retain the services of executives considered essential to the long-range success of the Corporation by providing them with a competitive compensation package and an opportunity to become owners of Common Stock of the Corporation.

Stock option awards were based on market survey data of long-term incentive compensation for executives in similar positions and individual performance of each participant. Stock option grants are generally made to those few individuals who have the ability through their leadership, strategic planning and actions to impact the long-term performance of the Corporation and, consequently, its stock price. In 2003, 28 executives at the Corporation were awarded stock options.

Executive Stock Ownership Guideline. The Corporation has adopted an Executive Stock Ownership Guideline based upon the belief that key executives who can impact shareholder value through their achievements should own significant amounts of the Corporation Common Stock. Under this Guideline, ownership levels are provided for participants to acquire and hold a recommended amount of Common Stock of the Corporation based on their position and compensation level. Such Common Stock ownership will align the interests of key executives with shareholder interests and provide a personal benefit for the success of the Corporation. Vested stock options and amounts held in the Corporation's Deferred Compensation Plan stock account provide means, among others, by which key executives can satisfy this Policy.

Executive Long-Term Incentive Compensation Plan. The purpose of the Executive Long-Term Incentive Compensation Plan (the "LTIP") is to focus the attention of senior executives on the long-term financial performance of the Corporation and to strengthen the ability of the Corporation to attract, motivate and retain senior executives of high caliber.

Awards made under the LTIP are in the form of rights to the appreciation, over a five-year period (unless otherwise designated by the Board of Directors), in the value of units of permanent capital of the Corporation and/or one of its operating companies.

18

Appreciation is measured on a net cumulative basis over the award period. Under the LTIP, permanent capital is determined by the Board of Directors and is generally defined as total assets less current liabilities (excluding current portions of long-term debt and capital lease obligations). Appreciation is defined as after-tax net income exclusive of non-operating items such as gains and losses from sales of assets and sales, transfers, or redemption of permanent capital, and certain other extraordinary and non-operating items. Each unit of permanent capital is equal to one dollar. The size of an award is dependent upon the impact the participant has on the long-term realization of Corporation or business unit, or both, sales and profits. Maximum amounts are not specified, but are dependent upon the net cumulative appreciation or net growth in the permanent capital of the relevant business unit during the period, which is itself based on such business unit's financial and business performance and is governed by such practical limitations as the size of the market, the rigors of competition and the business unit's manufacturing capacity. The ultimate value of an award payment, which is equal to the net cumulative appreciation, if any, on units of permanent capital, is dependent on the financial performance of the Corporation or the applicable business unit, or both.

No LTIP awards were made in fiscal year 2003.

How was the Chief Executive Officer's compensation determined for fiscal year 2003?

In determining Jack D. Michaels' compensation, the Committee and other independent Directors consider, in a manner consistent with the base salary guidelines applied to executive officers of the Corporation as described above, the Corporation's success in implementing strategies for long-term growth, profitability and shareholder value creation. The primary measures of the Chief Executive Officer's performance used by the Committee include the Corporation's performance in the areas of revenue, profitability, return on equity, return on capital, growth, financial soundness, member relations, fostering corporate citizenship and other Corporation values set out in its Vision, and achievement of long-term

initiatives related to strategic business objectives. The Committee also considers the financial performance of the Corporation compared to its competitors and the compensation levels of other chief executive officers as shown by Towers Perrin survey data and other reputable independent surveys for organizations of similar size.

Mr. Michaels' annual base salary was set at \$800,000, effective February 2003. In setting Mr. Michaels' base salary, the Committee reviews survey data for comparable positions within the manufacturing industry and considers data published by outside compensation consultants. In setting Mr. Michaels' base pay in February 2003, the Board concluded that his base pay should be at or near the top of the range of pay established by the Committee for his position, given his extensive business experience, performance against long-term initiatives, leadership in the ongoing succession process to select and develop a new CEO in 2004, and his willingness to continue in his position beyond age 65 to guide the transition to a new CEO.

Under the Bonus Plan, Mr. Michaels received an award of \$840,000 in respect of fiscal year 2003 compared to an award of \$993,750 for fiscal year 2002. No bonus award was made to Mr. Michaels with respect to 2001 financial goals. The 2003 award reflected the performance of the Corporation against financial goals established by the Board under the Bonus Plan for fiscal year 2003 and the Board's judgment regarding the level of achievement by Mr. Michaels of non-financial, strategic goals established for him by the Board for that year. For 2003, Mr. Michaels' target bonus award was \$800,000, comprised of 60%, or a target of \$480,000, linked to financial goals, and 40%, or a target of \$320,000, linked to personal goals. Under the Corporation's Executive Bonus Plan, participants can earn up to two times, or 200%, of the financial portion of the target award based on performance against budgeted financial goals established by the Board for a given fiscal year. (See discussion of Executive Bonus Plan on page 18). For 2003, Mr. Michaels earned 115% of his target financial goal and 90% of his target personal goal for a total executive bonus award of \$840,000. The Corporation's financial performance for 2003 and 2002 out performed its peer group and the S&P 500 (See "Performance Graph" on page 16).

Mr. Michaels received a grant of 150,000 stock options in fiscal year 2003.

PROPOSAL NO. 2 CHANGE THE CORPORATION'S NAME TO HNI CORPORATION BY AMENDING SECTION 1.01 OF THE CORPORATION'S ARTICLES OF INCORPORATION

As the Corporation moves forward with its strategy of managing multiple distinct and independent brands, the management team and its Board of Directors believe that the current corporate identity is no longer properly aligned with the Corporation's long-range growth strategy and has become an increasing source of confusion in the market as "HON" is both in the corporate name and the name of its largest operating company. The proposed name, HNI Corporation, would not only resolve these issues but would do so in a way that links it to the Corporation's past.

What is the Corporation proposing?

The Corporation proposes changing its name from HON INDUSTRIES Inc. to HNI Corporation.

Why is the Corporation proposing a name change?

The Corporation believes that changing its name will allow it to accomplish three important goals as it moves forward with its strategy of managing multiple distinct and independent brands: 1) create a corporate identity that clearly represents who it is today the parent company for

Edgar Filing: HON INDUSTRIES INC - Form DEF 14A

many of the leading brand name companies in the office furniture and hearth markets; 2) establish a corporate brand that better reflects the Corporation's strategic growth program product line extensions, market expansion and strategic acquisitions; and 3) eliminate the confusion in the marketplace, resulting from the use of "HON" in both the corporate name and in the name of its largest operating company, and clarify the ownership of our other operating companies and their relationship with The HON Company.

Why is the Corporation proposing HNI Corporation as the new name?

The investment community, shareholders and member owners already know the Corporation by its NYSE symbol "HNI." By adopting HNI Corporation as the new corporate identity, the Corporation will not only achieve the three primary goals of the name change creating a name that: 1) better represents who it is; 2) better reflects where the Corporation is going; and 3) eliminates market confusion but will do so in a way that keeps it closely connected with the Corporation's proud past.

Does this name change mean there is a change in strategic direction or the core values of the Corporation?

No. If anything, this proposed name change will only aid the Corporation's strategic initiatives, not alter them. Likewise, the Corporation's core values which have served as guideposts since its founding in 1944 will remain unchanged. The purpose of the name change is to achieve better alignment between the corporate brand and the growth strategy of building leading brands, taking care of end-users and achieving operational excellence that the Corporation has been focused on for some time. Nothing, other than the name, is changing.

What will the impact be on stakeholders including shareholders, members, suppliers, customers and the communities?

There will be no impact other than the reference to the Corporation now will be HNI Corporation instead of HON INDUSTRIES.

20

Does this mean the Corporation is changing the emphasis of The HON Company?

No, not at all. HON is the strongest, most well-known and most powerful operation in the Corporation's family of businesses. HON's market leadership position and contributions to the Corporation will not be diminished in any way.

When will the changes be made?

The Board of Directors approved the change to be submitted to shareholders for approval at the May 2004 shareholder meeting. The affirmative vote by holders of a majority of the shares of common stock outstanding and entitled to vote at the meeting is required to approve the proposed amendment. Abstentions or failure to vote on the proposal will be treated as a vote against the proposal. If approved, this change will become effective upon the filing of articles of amendment to the Articles of Incorporation with the Secretary of State of the State of Iowa, which is expected to follow shortly after the approval.

Will I have to do anything with my stock certificates?

No. The name change will not affect the validity of outstanding stock certificates. The rights, privileges and preferences of the Corporation's shareholders will remain the same as they were before the amendment. Certificates for shares issued by HON INDUSTRIES Inc. will represent the same number of shares in HNI Corporation. Shareholders will not be required to surrender or exchange any stock certificates currently held. The Corporation's current stock symbol on the NYSE, HNI, will remain the same. New stock certificates issued upon transfer of shares will bear the name HNI Corporation and will have a new CUSIP number. Delivery of existing stock certificates will continue to be accepted in transactions made by shareholders after the name change is made.

The full text of Section 1.01 of the Articles of Incorporation, as proposed to be amended, is as follows:

"Section 1.01. Name. The name of the Corporation is HNI Corporation."

What does the Board of Directors Recommend?

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" THIS PROPOSAL. PROXIES RECEIVED BY THE BOARD OF DIRECTORS WILL BE SO VOTED UNLESS SHAREHOLDERS SPECIFY A CONTRARY CHOICE IN THEIR PROXIES.

PROPOSAL NO. 3 UPDATE ANTI-TAKEOVER PROVISIONS OF THE CORPORATION'S ARTICLES OF INCORPORATION TO BE MORE CONSISTENT WITH CURRENT IOWA LAW

The anti-takeover provisions contained in Section 4.10 of the Corporation's Article of Incorporation ("Articles") have become outdated, duplicative, and inconsistent and, in some cases, are more restrictive than Iowa laws governing the same or similar takeover transactions. The Board of Directors is recommending the shareholders approve this update to the Corporation's Articles to be more consistent with current Iowa law.

What is being proposed?

This proposal would amend the Corporation's Articles to remove Section 4.10.

Why is the Corporation proposing this change?

Section 4.10 of the Articles of Incorporation is outdated and could have the effect of delaying changes in the Corporation's existing management and discouraging future takeover attempts, which the Corporation's shareholders may deem to be in their best interest.

The Board believes that it is in the best interests of the Corporation to remove Section 4.10 for several reasons.

21

First, Section 4.10 is, to a large degree, duplicative and provides protection against abusive takeovers, which overlaps with the Iowa Business Corporation Act, Section 490.1110 (the "Iowa Code Section") updated in 2003. The Board of Directors believes that Section 4.10 has been overtaken by these more current trends in regulating Combinations (defined below) with Significant Shareholders (defined below), and that these transactions should be governed by the statutory provisions.

Second, the Board believes that the Corporation would have greater legal certainty when faced with a proposed Combination with a Significant Shareholder if it were governed only by the Iowa Code Section rather than by both Section 4.10 and the Iowa Code Section. While Section 4.10 is unique to the Corporation, the Iowa Code Section, or similar statutes adopted by other states, has been interpreted by the courts and legal scholars. The Board believes that the existence of case law and commentary on the Iowa Code Section or similar statutes would provide valuable guidance in making an informed judgment as to the application of applicable state-law takeover provisions in the event a Significant Shareholder attempted to gain control of the Corporation in a transaction that the Board did not believe to be in the best interests of the Corporation. Section 4.10 does not have such interpretive resources.

Third, in some instances, the voting requirement required by Section 4.10 may be unenforceable because it imposes a higher voting requirement than allowed by the Iowa Code Section. Such an unenforceable provision may create confusion among the Corporation's shareholders.

Finally, the Board of Directors believes that Section 4.10 potentially could place restrictions on the Corporation's ability to engage in transactions that technically meet Section 4.10's definition of "Corporate Combinations" with a Significant Shareholder, including raising capital through the placement of common stock with a Significant Shareholder and certain share repurchases that may have the effect of increasing the proportionate share of the outstanding shares of common stock of the Corporation which is owned by a Significant Shareholder.

What is the background of Section 4.10?

In 1983, the Board of Directors recommended and the Corporation's shareholders approved a proposal to amend the Articles to, among other things, add certain fairness procedures designed to prevent certain inequitable tactics by a Significant Shareholder during an attempt to take over the Corporation. These procedures are contained in Section 4.10. The procedures make it more difficult for a person to acquire 10% or more of the Corporation's common stock and thereafter make the Corporation engage in certain transactions that benefit that shareholder.

Section 4.10 deals with the vote required for actions relating to a "Corporate Combination." "Corporate Combinations" are certain transactions involving "Related Persons" and "Transaction Persons." A Related Person is any person owning more than 10 percent of the outstanding common stock of the Corporation. A Transaction Person is any person who becomes a Related Person as a result of a proposed Corporate Combination, or any Related Person who proposes, initiates, or facilitates any Corporate Combination. "Corporate Combination" is defined to include (i) mergers or consolidations of the Corporation; (ii) sales or other dispositions in a transaction with a Transaction Person of any assets of the corporation with a value of \$1 million or more; (iii) the issuance or transfer by the Corporation of the Corporation's securities to a Transaction Person in exchange for \$1 million or more; (iv) the adoption of a plan or a proposal for liquidation or dissolution of the Corporation; and (v) any reclassification of securities, including any reverse stock split or recapitalization of the Corporation, or any merger or consolidation of the Corporation with any of its subsidiaries, or any other transaction, which has the effect, directly or indirectly, of increasing the

proportionate share of the outstanding shares of any class of equity securities or convertible securities of the Corporation or any subsidiary which is directly or indirectly owned by any Related Person or any affiliate of any Related Person.

Section 4.10 requires the affirmative vote of the number of outstanding shares of common stock owned by a Related Person, plus two-thirds of the remaining outstanding shares, for any act of the shareholders relating to adoption and authorization of a Corporate Combination. Section 4.10 also provides that a lesser percentage, equal to two-thirds of the outstanding shares of common stock, is sufficient for approval of a Corporate Combination if certain minimum price and procedural requirements relating to the Corporate Combination are met.

22

How does Section 4.10 compare with the Iowa Code Section?

Subsequent to the Corporation's 1983 adoption of Section 4.10, the State of Iowa enacted the Iowa Code Section as part of an update of the Iowa Business Corporation Act. The Iowa Code Section contains provisions similar, but not identical, to those contained in Section 4.10.

Both Section 4.10 and the Iowa Code Section contain provisions that make it difficult for certain shareholders generally those holding more than 10% of the voting stock of the Corporation (referred to in Section 4.10 as "Related Persons" or "Transaction Persons" and in the Iowa Code Section as "Interested Shareholders," and collectively referred to herein as "Significant Shareholders") to cause the Corporation to enter into certain fundamental transactions. These include transactions, such as a merger with a Significant Shareholder, a sale of a significant portion of the Corporation's assets to a Significant Shareholder, or a reclassification of the securities of the Corporation and certain other transactions that result in an increase in the proportionate shareholdings of a Significant Shareholder (these and certain other fundamental transactions collectively referred to in the Articles as "Corporate Combinations" and in the Iowa Code as "Business Combinations," and both collectively referred to herein as "Combinations"). Both require supermajority approval of the Combination by the Corporation's shareholders, or establish various other procedural fairness requirements.

The Iowa Code Section prohibits an Iowa corporation from engaging in Combinations with any Significant Shareholder for a period of three years following the date that such shareholder became a Significant Shareholder, unless:

- (i) before that date, the Board of Directors of the Corporation approved either the Combination or the transaction that resulted in the shareholder becoming a Significant Shareholder;
- (ii) upon consummation of the transaction which resulted in the shareholder becoming an Significant Shareholder, the Significant Shareholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced; or
- (iii) on or after that date, the Combination is approved by the Board of Directors and authorized at a meeting of shareholders by the affirmative vote of at least two-thirds of the outstanding voting stock that is not owned by the Significant Shareholder.

The differences between Section 4.10 and the Iowa Code Section include:

- (i) The Iowa Code Section does not apply to a shareholder that has held more than 10% of the outstanding stock in the Corporation for more than three years. Section 4.10 does apply to such a shareholder.
- (ii) Section 4.10 provides that all shareholders not voting in favor of the Combination must receive a price for their shares at least equal to the price paid by the Significant Shareholder to any other shareholder of the Corporation in the preceding two years, in order for a Combination to be subject to approval by the lower percentage (two-thirds of all outstanding stock entitled to vote). The Iowa Code Section has no similar provision.
- (iii) Under the Iowa Code Section, if a majority of the members of the Board of Directors in office before the Significant Shareholder became a Significant Shareholder approve, or do not oppose, the Combination, and certain other fairness procedures are met, certain Combinations do not require prior shareholder approval. Section 4.10 has no similar provision.
- (iv)

Edgar Filing: HON INDUSTRIES INC - Form DEF 14A

In some cases Section 4.10 could require approval by a larger percentage of voted shares than required by the Iowa Code Section.

(v)

Section 4.10 and the Iowa Code Section differ in some regards in how they define Combinations and Significant Shareholders. In particular, the Iowa Code Section expressly does not apply to a transaction that increases the proportionate share of stock owned by a Significant Shareholder if such increase is the result of any purchase or redemption of any shares of stock not caused, directly or indirectly, by the Significant Shareholder.

23

The full text of Section 4.10 is included as Exhibit B to this proxy statement, and the full text of the Iowa Code Section is included as Exhibit C to this proxy statement. The summary description of the terms of Section 4.10 and the Iowa Code Section set forth above is qualified in its entirety by reference to Exhibit B and Exhibit C.

What will be the impact of the change?

The Iowa Code Section currently applies to the Corporation. Therefore, the Board of Directors believes that the deletion of Section 4.10 from the Articles will not have a significant impact on the Corporation.

The Board does not believe that the restrictions in Section 4.10 are necessary to protect the Corporation's shareholders from inadequate or coercive offers, and believes that the provisions of the Iowa Code Section, and its more current definition of "Business Combinations," afford adequate protection. If the proposed amendment is approved, the Corporation will have greater flexibility to enter into these and other corporate transactions and to do so without incurring the expense and delay of receiving shareholder approval, if shareholder approval would not otherwise be required under Iowa law.

The Corporation's management routinely evaluates mergers and acquisition opportunities. The effect of this proposal could also facilitate such transactions.

Shareholders should note that one effect of the approval of this proposal would be that State Farm Insurance Company and its affiliates ("State Farm"), the largest shareholder of the Corporation, would, in some cases, no longer be subject to a supermajority-voting requirement in the event that it proposed that the Corporation engage in a Combination with it or one of its affiliates, which could be to the Corporation's disadvantage. This would be the result because, as described above, the protections of the Iowa Code Section do not apply to a shareholder that has been a Significant Shareholder for at least three years (which State Farm has). There is no such exemption under Section 4.10. State Farm has advised the Corporation that it has no present intention to engage in a Combination involving the Corporation.

The elimination of Section 4.10 would not in all cases eliminate the heightened voting requirement for certain Combinations presently that are subject to the supermajority requirements of Section 4.10 but are not subject to the supermajority requirements of the Iowa Code Section. Such Combinations would still, in some cases, require supermajority vote pursuant to one or more of Sections 4.06, 4.07, 4.08 and 4.09 of the Articles.

When will the change be effective?

The Board of Directors approved this proposal, subject to approval by the shareholders. The change will become effective, if it receives the required affirmative vote by shareholders, upon the filing of articles of amendment to the Articles with the Secretary of State of Iowa. The filing is expected to occur shortly after approval.

What is the vote required to approve the Proposal?

The proposal to delete Section 4.10 requires the affirmative vote of the holders of the number of outstanding shares of common stock of the Corporation entitled to vote which are owned or controlled by a Related Person (as defined in Section 4.10), plus two-thirds of the remaining number of outstanding shares of common stock of the Corporation entitled to vote at the meeting.

As of March 5, 2004, 7,366,400 shares of the Corporation's 58,260,555 outstanding shares were owned or controlled by persons who, to management's knowledge were Related Persons. Accordingly the proposal to amend the Articles requires the affirmative vote of 41,295,837 shares of the Corporation's 58,260,555 outstanding shares.

The abstention or failure to vote on the proposal would not be an affirmative vote and will have the same affect as a negative vote on the proposal at the meeting.

What is the proposed resolution to amend the Corporation's Articles of Incorporation?

RESOLVED, that the Articles of Incorporation of the Corporation be amended as follows (collectively, the "Amendments"):

1. Amend Section 4.06 by inserting the word "and" before "4.09" in the second line and deleting "and 4.10" from the second line.
2. Amend Section 4.07 by deleting "4.10" from Subsection (a)(1) and deleting "any Corporate Combination (as defined in Section 4.10)," from Subsection (a)(3).
3. Delete Section 4.10 in its entirety.

What does the Board of Directors recommend?

THE BOARD OF DIRECTORS OF THE CORPORATION RECOMMENDS A VOTE "FOR" THIS PROPOSAL. PROXIES RECEIVED BY THE BOARD OF DIRECTORS WILL BE SO VOTED UNLESS SHAREHOLDERS SPECIFY A CONTRARY CHOICE IN THEIR PROXIES.

Change in Control Employment Agreements

The Corporation has entered into change in control employment agreements with corporate officers and certain other key employees. According to the agreements, a change in control occurs when a third person or entity becomes the beneficial owner of 20 percent or more of the Corporation's Common Stock or more than one-third of the Corporation's Board of Directors is composed of persons not recommended by at least three-fourths of the incumbent Board of Directors, or upon the occurrence of certain business combinations involving the Corporation. Upon a change in control, a two-year employment contract between the Corporation and each such executive becomes effective, and all his or her benefits become vested under Corporation plans. In addition, the executive becomes entitled to certain benefits if, at any time within two years of the change in control, any of the following occurs: (i) employment is terminated by the Corporation for any reason other than cause or disability of the executive, or (ii) employment is terminated by the executive for good reason, as such terms are defined in the agreement. In such circumstances, the executive is entitled to receive his or her annual salary through the date of termination, a bonus equal to the average of the executive's annual bonuses for the prior two years prorated based on the length of employment during the year in which termination occurs, and a severance payment equal to two times the sum of (i) the executive's annual base salary and (ii) the average of the executive's annual bonuses for the prior two years. The executive will also be entitled to a continuation of certain employee benefits for two years, or longer if comparable benefits are not otherwise available to the executive. The executive will be entitled to receive reimbursement for any legal fees and expenses, plus interest thereon, that may be incurred in enforcing or defending his or her employment agreement. All of the executive officers named in the Summary Compensation Table have executed such agreements.

(5) The receipt by the interested shareholder of the benefit, directly or indirectly, except proportionately as a shareholder of such corporation, of any loans, advances, guarantees, pledges, or other financial benefits, other than those expressly permitted in subparagraphs (1) through (4), provided by or through the corporation or any direct or indirect majority-owned subsidiary.

d. *"Control"*, including the terms *"controlling"*, *"controlled by"*, and *"under common control with"*, means the ability, directly or indirectly, to direct or cause the direction of the management and policies of a person, whether through the ownership of voting stock, by contract, or otherwise. A person who is the owner of twenty percent or more of the outstanding voting stock of any corporation, partnership, unincorporated association, or other entity is presumed to have control of such entity, in the absence of proof by a preponderance of the evidence to the contrary. Notwithstanding this paragraph, a presumption of control shall not apply where a person holds voting stock, in good faith and not for the purpose of circumventing this section, as an agent, bank, broker, nominee, custodian, or trustee for one or more owners who do not individually or as a group have control of such entity.

e. *"Interested shareholder"* means any person, other than the corporation and any direct or indirect majority-owned subsidiary of the corporation, that is the owner of ten percent or more of the outstanding voting stock of the corporation, or is an affiliate or associate of the corporation and was the owner of ten percent or more of the outstanding voting stock of the corporation at any time within the three-year period immediately prior to the date on which it is sought to be determined whether such person is an

interested shareholder, and the affiliates and associates of such person. *"Interested shareholder"* does not include a person whose ownership of shares in excess of the ten percent limitation is the result of action taken solely by the corporation, provided that such person is an interested shareholder if, after such action by the corporation, the person acquires additional shares of voting stock of the corporation, other than as a result of further corporate action not caused, directly or indirectly, by such person.

For purposes of determining whether a person is an interested shareholder, the outstanding voting stock of the corporation does not include any other unissued stock of the corporation which may be issuable pursuant to any agreement, arrangement, or understanding, or upon exercise of conversion rights, warrants, or options, or otherwise.

f. *"Owner"*, including the terms *"own"* and *"owned"* when used with respect to any stock, means a person that individually or with or through any of such person's affiliates or associates satisfies any of the following:

(1) Beneficially owns such stock, directly or indirectly.

(2) Has the right to do either of the following:

(a) Acquire such stock, whether such right is exercisable immediately or only after the passage of time, pursuant to any agreement, arrangement, or understanding, or upon the exercise of conversion rights, exchange rights, warrants, or options, or otherwise. However, a person is not deemed the owner of stock tendered pursuant to a tender or exchange offer made by such person or any of such person's affiliates or associates until such tendered stock is accepted for purchase or exchange.

(b) Vote such stock pursuant to any agreement, arrangement, or understanding. However, a person is not deemed the owner of any stock because of such person's right to vote such stock if the agreement, arrangement, or understanding to vote such stock arises solely from the revocable proxy or consent given in response to a proxy or consent solicitation made to ten or more persons.

(3) Has any agreement, arrangement, or understanding for the purpose of acquiring, holding, voting, or disposing of such stock with any other person who beneficially owns, or whose affiliates or associates beneficially own, directly or indirectly, such stock. However, an agreement, arrangement, or understanding for the purpose of voting such stock does not include voting pursuant to a revocable proxy or consent under subparagraph (2), subparagraph subdivision (b).

g. *"Person"* means any individual, corporation, partnership, unincorporated association, or other entity.

h. *"Stock"* means, with respect to any corporation, capital stock and, with respect to any other entity, any equity interest.

i. *"Voting stock"* means, with respect to any corporation, stock of any class or series entitled to vote generally in the election of directors and, with respect to any entity that is not a corporation, any equity interest entitled to vote generally in the election of the governing body of such entity.
