PROSPECTUS SUPPLEMENT
(To Prospectus dated December 20, 2013)

\$10,000,000

Common Stock

We have entered into a sales agreement (the "sales agreement") with Cowen and Company, LLC ("Cowen" or the "sales agent") relating to shares of our common stock, \$0.0001 par value per share, offered by this prospectus. In accordance with the terms of the sales agreement and subject to the conditions thereof, we may offer and sell from time to time shares of our common stock having an aggregate offering price of up to \$10.0 million.

Our common stock is listed on the NYSE MKT under the symbol "APP." On May 6, 2015 the last reported sale price of our common stock on the NYSE MKT was \$0.66 per share.

Upon our delivery of a placement notice and subject to the terms and conditions of the sales agreement, Cowen may sell our common stock by methods deemed to be an "at the market offering" as defined in Rule 415 promulgated under the Securities Act of 1933, as amended (the "Securities Act"), including sales made directly on the NYSE MKT, on any other existing trading market for our common stock or to or through a market maker. In addition, with our prior written approval, Cowen may also sell our common stock in negotiated transactions. Cowen will act as sales agent using its commercially reasonable efforts consistent with its normal trading and sales practices, on mutually agreed terms between Cowen and us. There is no arrangement for funds to be received in any escrow, trust or similar arrangement.

We will pay Cowen a commission, or allow a discount, for its services in acting as agent and/or principal in the sale of common stock equal to 3.0% of the gross sales price per share of all shares sold through it as sales agent.

In connection with the sale of common stock on our behalf, Cowen may be deemed to be an "underwriter" within the meaning of the Securities Act, and the compensation paid to Cowen will be deemed to be underwriting commissions or discounts. We have also agreed to provide indemnification and contribution to Cowen with respect to certain liabilities, including liabilities under the Securities Act.

Investing in our common stock involves a high degree of risk. Before buying any common stock, you should carefully consider the risks that we have described in "Risk Factors" beginning on page S-2 of this prospectus supplement, as well as those described in our filings under the Securities Exchange Act of 1934, as amended.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus supplement or accompanying prospectus is truthful or complete. Any representation to the

contrary is a criminal offense.

RISK FACTORS

An investment in our common stock involves a high degree of risk. You should carefully consider the risks described below, as well as the risks described under the heading "Risk Factors" and elsewhere in our most recent Annual Report on Form 10-K that has been filed with the SEC and incorporated herein by reference, and any other documents that we have filed with the SEC and that are incorporated herein by reference, as well as other information in this prospectus supplement, the accompanying prospectus and in any other documents incorporated into this prospectus supplement or the accompanying prospectus by reference, before purchasing any of our common stock. We expect to update these Risk Factors from time to time in the periodic and current reports that we file with the SEC after the date of this prospectus supplement. These updated Risk Factors will be incorporated by reference in this prospectus supplement and the accompanying prospectus. Each of the risks described in these sections and documents could adversely affect our business, financial condition and results of operations, and could result in a complete loss of your investment. This prospectus supplement, the accompanying prospectus and the incorporated documents also contain forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the risks mentioned above.

Additional Risks Related to This Offering

We have experienced substantial losses in recent periods that are primarily attributable to a prolonged downturn in our business.

We had net losses of \$68,817,000, \$106,298,000 and \$37,272,000 in the years ended December 31, 2014, December 31, 2013 and December 31, 2012, respectively, and \$26,424,000 in the three months ended March 31, 2015. In the event we are unable to attain increased gross margins, reduced costs and/or generate sufficient additional revenues to offset our costs, we may continue to sustain losses in the future. If we are unable to operate profitably, the price of our common stock may decline and you may lose some or all of your investment in the common stock.

Our ability to service our indebtedness, to refinance our indebtedness or to fund our other liquidity needs is subject to various risks.

Our ability to make scheduled payments on and to refinance our existing indebtedness depends on, and is subject to, our financial and operating performance, which in turn is affected by general and regional economic, financial, competitive, business and other factors, including the availability of financing in the banking and capital markets as well as the other risks described herein and in our most recent Annual Report on Form 10-K that has been filed with the SEC and incorporated herein by reference and any other documents that we have filed or will file with the SEC that are or will be incorporated herein by reference. We have experienced significant losses from operations and significant net cash used in operating activities in recent periods. Accordingly, we cannot assure you that our business will generate sufficient cash flows from operations or that future borrowings will be available to us in an amount sufficient to enable us to service our debt, to refinance our debt or to fund our other liquidity needs. If we are unable to service our debt obligations or to fund our other liquidity needs, we could be forced to curtail our operations, reorganize our capital structure or liquidate some or all of our assets in a manner that could cause you to experience a partial or total loss of your investment in the common stock.

Resales of our common stock by our stockholders in the public market during this offering may cause the market price of our common stock to fall.

We may issue common stock from time to time in connection with this offering. This issuance from time to time of new shares of our common stock, or our ability to issue shares of common stock in this

Table of Contents

offering, could result in resales of our common stock by our current stockholders concerned about the potential dilution of their holdings. In turn, these resales could have the effect of depressing the market price for our common stock.

You may experience immediate dilution.

The offering price per share of common stock in this offering may exceed the net tangible book value per share of our common stock outstanding prior to this offering. Assuming that an aggregate of 15,151,516 shares of our common stock are sold at a price of \$0.66 per share, the last reported sale price of our common stock on the NYSE MKT on May 6, 2015, for aggregate gross proceeds of \$10.0 million, and after deducting commissions and estimated offering expenses payable by us, you would experience immediate dilution of \$1.39 per share, representing the difference between our as adjusted net tangible book value per share as of March 31, 2015 after giving effect to this offering and the assumed offering price. The exercise of outstanding stock options and warrants would result in further dilution of your investment. See the section entitled "Dilution" below for a more detailed illustration of the dilution you may incur if you participate in this offering. Because the sales of the shares of common stock offered hereby will be made directly into the market or in negotiated transactions, the prices at which we sell these shares will vary and these variations may be significant. Purchasers of the common stock we sell, as well as our existing holders of common stock, will experience significant dilution if we sell shares at prices significantly below the price at which they invested.

There may be future sales or other dilution of our equity, which may adversely affect the market price of our common stock.

We are generally not restricted from issuing additional common stock, including any securities that are convertible into or exchangeable for, or that represent the right to receive, common stock. The market price of our common stock could decline as a result of sales of common stock or securities that are convertible into or exchangeable for, or that represent the right to receive, common stock after this offering or the perception that such sales could occur.

Our management might apply the net proceeds from this offering in ways with which you do not agree and in ways that may impair the value of your investment.

We currently intend to use the net proceeds from this offering for working capital and other general corporate purposes. Our management has broad discretion as to the use of these proceeds and you will be relying on the judgment of our management regarding the application of these proceeds. We might apply these proceeds in ways with which you do not agree, or in ways that do not yield a favorable return. If our management applies these proceeds in a manner that does not yield a significant return, if any, on our investment, it could compromise our ability to pursue our business strategies and adversely affect the market price of our common stock.

Our ability to use our net operating loss carry-forwards to offset future taxable income may become limited.

As of December 31, 2014, we had approximately \$202.8 million of federal and \$121.2 million of state operating loss carry-forwards available to offset future taxable income, which expire in varying amounts beginning in 2030 for federal and 2020 for state purposes if unused. It is possible that we will not generate taxable income in time to use these loss carry-forwards before their expiration. As of December 31, 2014, all deferred tax assets were fully offset by a valuation allowance for financial reporting purposes.

Table of Contents

Section 382 of the Internal Revenue Code of 1986, as amended (the "Code"), imposes restrictions on the use of a corporation's net operating losses, as well as certain recognized built-in losses and other carryforwards, after an "ownership change" occurs. A Section 382 "ownership change" occurs if one or more stockholders or groups of stockholders who own at least 5% of our stock (including certain "public groups" deemed created for Section 382 purposes) increase their ownership by more than 50 percentage points over their lowest ownership percentage within a rolling three-year period. It is possible that the issuance of common stock pursuant to this offering, and/or future issuances, purchases or sales of our stock or the exercise of certain options with respect to our stock (including certain transactions involving our stock that are outside of our control) could result in an ownership change under Section 382, and there can be no assurance that this will not happen. If an "ownership change" occurs, Section 382 would impose an annual limit on the amount of pre-change net operating losses and other losses we can use to reduce our taxable income generally equal to the product of the total value of our outstanding equity immediately prior to the "ownership change" (subject to certain adjustments) and the applicable federal long-term tax-exempt interest rate for the month of the "ownership change." The applicable rate for ownership changes occurring in the month of May 2015 is 2.47%.

Because U.S. federal net operating losses generally may be carried forward for up to 20 years, the annual limitation may effectively provide a cap on the cumulative amount of pre-ownership change losses, including certain recognized built-in losses that may be utilized. Such pre-ownership change losses in excess of the cap may be lost. In addition, if an ownership change were to occur, it is possible that the limitations imposed on our ability to use pre-ownership change losses and certain recognized built-in losses could cause a net increase in our U.S. federal income tax liability and U.S. federal income taxes to be paid earlier than otherwise would be paid if such limitations were not in effect. Further, if for financial reporting purposes the amount or value of these deferred tax assets is reduced, such reduction could negatively impact the book value of our common stock.

USE OF PROCEEDS

We intend to use the net proceeds from the sale of our common stock pursuant to this offering for working capital and general corporate purposes.

S-5

Table of Contents**DILUTION**

If you invest in our common stock, your interest will be diluted immediately to the extent of the difference between the public offering price per share of our common stock and the pro forma net tangible book deficit per share of our common stock after this offering.

The net tangible book deficit of our common stock as of March 31, 2015 was approximately \$(147.9) million, or approximately \$(0.84) per share. Net tangible book deficit per share represents the amount of our total tangible assets, excluding goodwill and intangible assets, less total liabilities divided by the total number of shares of our common stock outstanding.

Dilution per share to new investors represents the difference between the amount per share paid by purchasers for our common stock in this offering and the net tangible book deficit per share of our common stock immediately following the completion of this offering.

After giving effect to the sale by us of \$10.0 million aggregate amount of our common stock in this offering at an assumed offering price of \$0.66 per share, which is the last reported sale price of our common stock on May 6, 2015 on the NYSE MKT, and after deducting estimated commissions and offering expenses payable by us, our as adjusted net tangible book deficit as of March 31, 2015 would have been approximately \$(139.0) million, or approximately \$(0.73) per share. This represents an immediate increase in net tangible book deficit of approximately \$0.11 per share to our existing stockholders and an immediate dilution in as adjusted net tangible book deficit of approximately \$1.39 per share to new investors purchasing shares of our common stock in this offering, as illustrated by the following table:

| | |
|--|-----------|
| Assumed public offering price per share | \$ 0.66 |
| Net tangible book deficit per share as of March 31, 2015 | \$ (0.84) |
| Change in net tangible book deficit per share attributable to new investors | 0.11 |
| As adjusted net tangible book deficit per share as of March 31, 2015 after this offering | (0.73) |
| Dilution per share to new investors | \$ 1.39 |

The table above assumes for illustrative purposes only an aggregate of 15,151,516 shares of our common stock are sold at a price of \$0.66 per share, for aggregate gross proceeds of \$10.0 million. The shares, if any, sold in this offering will be sold from time to time at various prices. In addition, the sales agreement for the offering limits the aggregate number of shares to be issued thereunder at 15 million shares. After an increase of \$0.10 per share in the price at which the shares are sold from the assumed offering price of \$0.66 per share shown in the table above, assuming all of our common stock in the aggregate amount of \$10.0 million is sold at that price, our adjusted net tangible book deficit per share after the offering would be \$(0.73) per share and the dilution in net tangible book deficit per share to new investors in this offering would increase to \$1.49 per share, after deducting commissions and estimated aggregate offering expenses payable by us. A decrease of \$0.10 per share in the price at which the shares are sold from the assumed offering price of \$0.66 per share shown in the table above, assuming all of our common stock in the aggregate amount of \$10.0 million is sold at that price, would decrease our adjusted net tangible book deficit per share after the offering to \$(0.72) per share and would decrease the dilution in net tangible book deficit per share to new investors in this offering to \$1.28 per share, after deducting commissions and estimated aggregate offering expenses payable by us. This information is supplied for illustrative purposes only.

The calculations above are based on 176,260,566 shares of common stock outstanding as of March 31, 2015 and exclude:

973,250 shares of our common stock reserved for the vesting of outstanding restricted share units granted under our equity compensation plans;

Table of Contents

973,250 shares of our common stock issuable upon the exercise of outstanding options to purchase our common stock, at a weighted average price of \$0.71 per share;

6,806,000 shares of our common stock that Dov Charney, our former Chairman and Chief Executive Officer, has a right to acquire if the volume-weighted average price of our common stock exceeds \$5.25 on or prior to April 15, 2016 for no additional consideration;

24,511,023 shares of our common stock issuable to Lion Capital, LLC and its affiliates (together, "Lion") upon exercise of Lion's existing warrants, at an exercise price of \$0.66 per share;

any additional shares of our common stock issuable to Lion upon exercise of any additional warrants issued to Lion, or anti-dilution adjustments to Lion's existing warrants, as a result of shares issued to Mr. Charney as described above, this offering or otherwise pursuant to anti-dilution protections in the Lion warrants; and

10,451,500 shares of our common stock reserved for future issuance under our equity compensation plans.

To the extent that any outstanding options or warrants are exercised, or shares are received under other rights or agreements, these issuances will cause further dilution per share to the investors purchasing securities in this offering. In addition, to the extent we need to raise additional capital in the future and we issue additional equity or convertible debt securities, our then existing stockholders may experience further dilution.

CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS FOR NON-U.S. HOLDERS

The following discussion is a summary of certain U.S. federal income tax considerations generally applicable to the purchase, ownership and disposition of our common stock by a Non-U.S. Holder (as defined below) that acquires our common stock in this offering and holds our common stock as a capital asset (generally, property held for investment). This summary does not cover all aspects of U.S. federal income taxation that may be relevant to a Non-U.S. Holder in light of the Non-U.S. Holder's particular circumstances. In addition, this summary does not describe the impact of the Medicare surtax on net investment income or the U.S. federal income tax consequences applicable to a Non-U.S. Holder that is subject to special treatment under the Code, including, without limitation, certain former citizens and former long-term residents of the United States, a "controlled foreign corporation," a "passive foreign investment company," a partnership or other "pass through" entity or an investor in any such entity, a tax-exempt organization, a bank or other financial institution, or a broker, dealer or trader in securities.

As used in this discussion, the term "Non-U.S. Holder" means a beneficial owner of our common stock that, for U.S. federal income tax purposes, is not a partnership (or any other entity or arrangement treated as a partnership for such purposes) and is not any of the following:

an individual that is a citizen or resident of the United States;

a corporation (or any other entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States, any state thereof or the District of Columbia;

an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust (1) whose administration is subject to the primary supervision of a United States court and that has one or more "United States persons" (within the meaning of the Code) who have the authority to control all substantial decisions of the trust, or (2) that has a valid election in effect under applicable Treasury regulations to be treated as a United States person.

This summary is based upon the provisions of the Code, the Treasury regulations promulgated thereunder, judicial opinions, rulings and pronouncements of the Internal Revenue Service (the "IRS") and other applicable authorities, all as in effect or in existence on the date hereof. These authorities may change or be subject to differing interpretations, perhaps retroactively, which could result in U.S. federal income tax consequences different from those summarized below. This discussion does not address any other U.S. federal tax considerations (such as estate or gift tax) or any state, local or non-U.S. tax considerations. Each prospective purchaser of our common stock is urged to consult its tax advisor about the U.S. federal, state, local and non-U.S. tax consequences of the purchase, ownership, and disposition of our common stock in light of its own particular circumstances.

If a partnership (or any other entity or arrangement treated as a partnership for U.S. federal income tax purposes) holds our common stock, the U.S. federal income tax treatment of a partner of that partnership will generally depend upon the status of the partner, the activities of the partnership and certain determinations made at the partner level. A partnership, and a partner in such a partnership, that holds our common stock is urged to consult its tax advisor regarding the tax consequences of the purchase, ownership and disposition of our common stock.

Distributions on Common Stock

In the event that we make a distribution of cash or other property (other than certain distributions of our stock) in respect of our common stock, the distribution generally will be treated as a dividend to the extent of our current or accumulated earnings and profits as determined under U.S. federal income

Table of Contents

tax principles. Any portion of a distribution that exceeds our current and accumulated earnings and profits generally will be treated first as a tax-free return of capital, on a share-by-share basis, to the extent of the Non-U.S. Holder's tax basis in our common stock, and, to the extent such portion exceeds the Non-U.S. Holder's tax basis in our common stock, the excess will be treated as gain from the disposition of the common stock, the tax treatment of which is discussed below under "Sales, Exchanges or Other Taxable Dispositions of Common Stock."

The gross amount of dividends paid to a Non-U.S. Holder will generally be subject to withholding of U.S. federal income tax at a rate of 30% or such lower rate as may be specified by an applicable income tax treaty. Dividends that are effectively connected with the conduct of a trade or business by the Non-U.S. Holder within the United States (and, where required by an applicable income tax treaty, are attributable to a permanent establishment or fixed base maintained by the Non-U.S. Holder in the United States), however, are not subject to this withholding tax, provided certain certification and disclosure requirements are satisfied. Instead, such dividends are subject to U.S. federal income tax on a net income basis at regular graduated U.S. federal income tax rates in the same manner as if the Non-U.S. Holder were a United States person as defined in the Code. In addition, a Non-U.S. Holder that is treated as a corporation for U.S. federal income tax purposes may be subject to an additional "branch profits tax" at a 30% rate, or such lower rate as may be specified by an applicable income tax treaty, on the Non-U.S. Holder's earnings and profits that are effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States, subject to adjustments.

A Non-U.S. Holder that wishes to claim the benefit of an applicable income tax treaty for dividends will be required to provide the applicable withholding agent with a valid IRS Form W-8BEN or W-8BEN-E, as applicable (or other applicable form) and certify under penalties of perjury that such holder is not a United States person as defined under the Code and is eligible for treaty benefits. This certification must be provided to the applicable withholding agent prior to the payment of dividends and may be required to be updated periodically. If our common stock is held through a non-U.S. partnership or non-U.S. intermediary, the non-U.S. partnership or non-U.S. intermediary will also be required to comply with additional certification requirements under applicable Treasury regulations.

A Non-U.S. Holder eligible for a reduced rate of U.S. withholding tax pursuant to an income tax treaty may obtain a refund or credit of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS.

Sales, Exchanges or Other Taxable Dispositions of Common Stock

Subject to the discussion below regarding backup withholding and the discussion below regarding FATCA, a Non-U.S. Holder will generally not be subject to U.S. federal income or withholding tax on any gain recognized upon the sale, exchange or other taxable disposition of our common stock unless:

the gain is effectively connected with such Non-U.S. Holder's conduct of a trade or business in the United States and, where required by an applicable income tax treaty, the gain is attributable to such Non-U.S. Holder's permanent establishment or fixed base in the United States;

such Non-U.S. Holder is an individual present in the United States for 183 days or more in the calendar year of the sale, exchange or other taxable disposition and certain other conditions are satisfied; or

we are or have been a "United States real property holding corporation," as such term is defined in section 897(c) of the Code, at any time during the shorter of (1) the five-year period ending on the date of disposition or (2) the Non-U.S. Holder's holding period for our common stock. As long as our common stock is regularly traded on an established securities market, within the meaning of section 897(c)(3) of the Code, these rules will apply only to a Non-U.S. Holder who actually or constructively holds more than 5% of our common stock at any time

Table of Contents

during the shorter of the two periods mentioned above. Although there can be no assurances, we believe that we are not a United States real property holding corporation, and we do not expect to become a United States real property holding corporation.

Gain that is effectively connected with such Non-U.S. Holder's conduct of a trade or business in the United States and, where required by an applicable income tax treaty, is attributable to such Non-U.S. Holder's permanent establishment or fixed base in the United States will be subject to tax on a net income basis at regular graduated U.S. federal income tax rates in the same manner as if such Non-U.S. Holder were a United States person as defined under the Code. A Non-U.S. Holder that is a corporation may also be subject to the branch profits tax described above. An individual Non-U.S. Holder present in the United States for 183 days or more in the calendar year of the sale, exchange or other taxable disposition (and who satisfies certain other conditions) will be required to pay (subject to applicable income tax treaties) a flat 30% tax on the gain derived from the sale, which may be offset by certain United States source capital losses, even though the individual is not considered a resident of the United States for U.S. federal income tax purposes.

Information Reporting and Backup Withholding

The applicable withholding agent with respect to a Non-U.S. Holder must generally report annually to the IRS and to such Non-U.S. Holder the amount of dividends paid to such Non-U.S. Holder and the tax withheld with respect to such dividends, regardless of whether withholding was required. Copies of the information returns reporting such dividends and withholding may also be made available to the tax authorities in the country in which the Non-U.S. Holder resides under the provisions of an applicable income tax treaty or tax information exchange agreement.

Payments of dividends in respect of, or proceeds on the disposition of, our common stock made to a Non-U.S. Holder may be subject to additional information reporting and backup withholding unless such Non-U.S. Holder establishes an exemption, for example by properly certifying that such Non-U.S. Holder is not a United States person as defined under the Code on a valid IRS Form W-8BEN or W-8BEN-E, as applicable, or another appropriate version of Form W-8 (provided that the payor does not have actual knowledge or reason to know that such Non-U.S. Holder is a United States person).

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules from payments made to a Non-U.S. Holder will reduce the Non-U.S. Holder's U.S. federal income tax liability. If withholding results in an overpayment of taxes, a refund or credit may generally be obtained from the IRS, provided the required information is timely furnished to the IRS. A Non-U.S. Holder is urged to consult its tax advisor regarding the application of the information reporting and backup withholding rules.

FATCA

Pursuant to the Foreign Account Tax Compliance Act, or "FATCA," foreign financial institutions (which term includes most foreign hedge funds, private equity funds, mutual funds, securitization vehicles and other investment vehicles) and certain other foreign entities generally must comply with certain new information reporting rules with respect to their U.S. account holders and investors or confront a new withholding tax on U.S.-source payments made to them (whether received as a beneficial owner or as an intermediary for another party). A foreign financial institution or such other foreign entity that does not comply with the FATCA reporting requirements will generally be subject to a new 30% withholding tax with respect to any "withholdable payments." For this purpose, withholdable payments generally include U.S.-source payments otherwise subject to nonresident withholding tax (e.g., U.S.-source dividends) and also include the entire gross proceeds from the sale or other disposition of any stock of U.S. issuers, even if the payment would otherwise not be subject to U.S. nonresident withholding tax (e.g., because it is capital gain). Withholding under FATCA generally

Table of Contents

will apply to payments of dividends on our common stock, although withholding will be deferred until January 1, 2017 for gross proceeds from dispositions of our common stock. Foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the United States governing FATCA may be subject to different rules.

We will not pay any additional amounts to you in respect of any amounts withheld pursuant to FATCA. Under certain circumstances, you might be eligible for refunds or credits of such taxes.

You are urged to consult with your own tax advisors regarding the effect, if any, of the FATCA provisions to you based on your particular circumstances.

PLAN OF DISTRIBUTION

We have entered into a sales agreement with Cowen, under which we may issue and sell from time to time shares of our common stock having an aggregate offering price of up to \$10.0 million through Cowen as our sales agent; provided that the sales agreement also limits the aggregate number of shares to be sold thereunder to 15 million shares. The form of sales agreement will be filed as an exhibit to a current report on Form 8-K and incorporated by reference in this prospectus supplement. Sales of the common stock, if any, will be made at market prices by any method permitted by law deemed to be an "at the market offering" as defined in Rule 415 under the Securities Act, including sales made directly on the NYSE MKT and any other existing trading market for the common stock, or to or through a market maker. In addition, with our express authorization, Cowen may also sell our common stock in negotiated transactions.

Cowen will offer the common stock subject to the terms and conditions of the sales agreement on a daily basis or as otherwise agreed upon by us and Cowen. We will designate the maximum amount of common stock to be sold through Cowen on a daily basis or otherwise determine such maximum amount together with Cowen. Subject to the terms and conditions of the sales agreement, Cowen will use its commercially reasonable efforts to sell on our behalf all of the shares of common stock requested to be sold by us. We may instruct Cowen not to sell common stock if the sales cannot be effected at or above the price designated by us in any such instruction. We or Cowen may suspend the offering of the common stock being made through Cowen under the sales agreement upon proper notice to the other party. We and Cowen each have the right, by giving written notice as specified in the sales agreement, to terminate the sales agreement in each party's sole discretion at any time.

The aggregate compensation payable to Cowen as sales agent shall be equal to 3.0% of the gross proceeds from the sales of our common stock sold through it as sales agent.

The remaining sales proceeds, after deducting any expenses payable by us and any transaction fees imposed by any governmental, regulatory, or self-regulatory organization in connection with the sales, will equal our net proceeds for the sale of such common stock.

Cowen will provide written confirmation to us following the close of trading on the NYSE MKT each day in which common stock is sold through it as sales agent under the sales agreement. Each confirmation will include the number of shares of common stock sold through it as sales agent on that day, the gross sales price per share, the net proceeds to us and the compensation payable by us to Cowen.

We will report at least quarterly the number of shares of common stock sold through Cowen under the sales agreement and the net proceeds to us.

Settlement for sales of common stock will occur, unless the parties agree otherwise, on the third business day that is also a trading day following the date on which any sales were made in return for payment of the net proceeds to us. There is no arrangement for funds to be received in an escrow, trust or similar arrangement.

In connection with the sales of the common stock on our behalf, Cowen may be deemed to be an "underwriter" within the meaning of the Securities Act, and the compensation paid to Cowen may be deemed to be underwriting commissions or discounts. We have agreed in the sales agreement to provide indemnification and contribution to Cowen against certain liabilities, including liabilities under the Securities Act. In addition, we have agreed, under certain circumstances, to reimburse a portion of the expenses of Cowen incurred in connection with this offering up to a maximum of \$55,000. As sales agent, Cowen will not engage in any transactions that stabilize our common stock.

We estimate that the total expenses of the offering payable by us, excluding commissions and expenses payable to Cowen under the sales agreement, will be approximately \$785,000.

USE OF PROCEEDS

We will retain broad discretion over the use of the net proceeds from the sale of our securities offered hereby. We intend to use the net proceeds from the sale of securities covered by this prospectus for general corporate purposes unless otherwise indicated in the applicable prospectus supplement.

DILUTION

We will set forth in a prospectus supplement and/or a free writing prospectus the following information, as required, regarding any dilution of the equity interests of investors purchasing securities in an offering under this prospectus:

the net tangible book value per share of our equity securities before and after the offering;

the amount of the change in such net tangible book value per share attributable to the cash payments made by purchasers in the offering; and

the amount of the immediate dilution from the public offering price which will be absorbed by such purchasers.

RATIO OF COMBINED FIXED CHARGES AND PREFERENCE DIVIDENDS TO EARNINGS

If we offer preference equity securities under this prospectus, then we will, if required at that time, provide a ratio of combined fixed charges and preference dividends to earnings in the applicable prospectus supplement for such offering.

DESCRIPTION OF SECURITIES

We may offer shares of our common stock and preferred stock and warrants to purchase any such securities with a total offering price of up to \$50,000,000 from time to time under this prospectus at prices and on terms to be determined by market conditions at the time of offering. Each time we offer a type or series of securities, we will provide a prospectus supplement or a free writing prospectus that will contain specific information about the terms of the offering, including the specific amounts, prices and other important terms of the securities.

Common Stock

We may issue shares of our common stock from time to time. Holders of our common stock are entitled to one vote per share for the election of directors and on all other matters that require stockholder approval. Subject to any preferential rights of any outstanding preferred stock, in the event of our liquidation, dissolution or winding up, holders of our common stock are entitled to share ratably in the assets remaining after payment of liabilities and the liquidation preferences of any outstanding preferred stock. Our common stock does not carry any redemption rights or any preemptive rights enabling a holder to subscribe for, or receive shares of, any class of our common stock or any other securities convertible into shares of any class of our common stock.

We are authorized to issue 230,000,000 shares of common stock, par value of \$0.0001 per share, of which 113,408,430 and 111,336,887 shares were issued and outstanding, respectively, as of December 4, 2013.

Edgar Filing: AMERICAN APPAREL, INC - Form 424B5

Our common stock is listed on the NYSE MKT under the symbol "APP." The transfer agent and registrar for the common stock is Continental Stock Transfer & Trust Co. Its address is 17 Battery Place, New York, New York 10004.

Preferred Stock

We may issue shares of our preferred stock from time to time, in one or more series. Our board of directors is expressly granted authority by our certificate of incorporation to issue up to 1,000,000 shares of preferred stock, par value \$0.0001 per share, in one or more series, and to fix for each such series such voting powers, full or limited, and such designations, preferences and relative, participating, option or other special rights and such qualifications, limitations or restrictions thereof as shall be stated and expressed in the resolution or resolutions adopted by our board of directors providing for the issuance of such shares. An affirmative vote of the holders of a majority of the voting power of all then outstanding shares of our capital stock entitled to vote may increase or decrease the number of authorized shares of preferred stock (but not below the number of shares thereof then outstanding), voting as a single class, without a separate vote of the holders of preferred stock unless such vote is required pursuant to any preferred stock designation.

If we issue preferred stock, we will fix the rights, preferences, privileges, qualifications and restrictions of the preferred stock of each series that we sell under this prospectus and applicable prospectus supplements in the certificate of designations relating to that series. If we issue preferred stock, we will incorporate by reference into the registration statement of which this prospectus is a part the form of any certificate of designations that describes the terms of the series of preferred stock we are offering before the issuance of the related series of preferred stock. We urge you to read the prospectus supplement related to any series of preferred stock we may offer, as well as the complete certificate of designations that contains the terms of the applicable series of preferred stock.

As of the date of this prospectus, there are no outstanding shares of preferred stock of any series.

Warrants

We may issue warrants for the purchase of common stock and/or preferred stock in one or more series, from time to time. We may issue warrants independently or together with common stock and/or preferred stock, and the warrants may be attached to or separate from those securities.

If we issue warrants, they will be evidenced by warrant agreements or warrant certificates issued under one or more warrant agreements, which are contracts between us and an agent for the holders of the warrants. We urge you to read the prospectus supplement related to any series of warrants we may offer, as well as the complete warrant agreement and warrant certificate that contain the terms of the warrants. If we issue warrants, forms of warrant agreements and warrant certificates relating to warrants for the purchase of common stock and preferred stock will be incorporated by reference into the registration statement of which this prospectus is a part from reports we would subsequently file with the SEC.

Outstanding Warrants and Other Rights

Below is a description of warrants exercisable for, and certain other rights to purchase, shares of our common stock, outstanding as of the date of this prospectus. The following summary is not a complete description of the applicable provisions of the terms of such warrants or other rights, and is qualified in its entirety by reference thereto. See "Where You Can Find More Information."

Lion Warrants

As of December 4, 2013, Lion Capital LLP or its affiliates ("Lion") holds warrants exercisable at any time during their term, all expiring on February 18, 2022, for an aggregate of 21,606,025 shares of our common stock, representing beneficial ownership of approximately 16% of the outstanding shares of our common stock on an as-exercised basis.

The Lion warrants have an exercise price of \$0.75 per share, subject to adjustment, and may be exercised by paying their exercise price in cash, by cashless exercise, or by a combination of the two methods. The Lion warrants are subject to anti-dilution protections providing for proportional adjustment of the exercise price and, under certain circumstances, the number of shares of common stock issuable upon exercise of the warrants, in connection with, among things, stock dividends, subdivisions and combinations; distributions of cash (other than cash dividends), debt, warrants or rights to holders of common stock; and the issuance of additional equity securities at a price per share (or with a conversion, exercise or exchange price per share) less than market price.

SOF Warrants

SOF Investments, L.P. ("SOF"), as of December 4, 2013, holds warrants exercisable to purchase a total of up to 1,000,000 shares of common stock, with an exercise price of \$2.148 per share, subject to adjustment under certain circumstances. These warrants expire on December 19, 2013.

Dov Charney Anti-Dilution Adjustments

April 2011 Charney Purchase Agreement

In connection with a purchase agreement entered into on April 26, 2011 (the "Investor Purchase Agreement"), we entered into a purchase agreement, dated as of April 27, 2011, with Dov Charney, our Chairman and Chief Executive Officer (the "Charney Purchase Agreement"), pursuant to which, among other things, Mr. Charney received certain anti-dilution rights (the "Charney Anti-Dilution Provision").

As of December 4, 2013, Mr. Charney has the right to receive a total of 20,415,800 shares of common stock pursuant to the Charney Anti-Dilution Provision, issuable in three equal installments, one per each measurement period set forth below, subject to meeting the applicable volume weighted average closing price, or VWAP for 30 consecutive trading days, calculated as set forth in the Charney Purchase Agreement as follows: (i) for the measurement period from April 16, 2012 to and including April 15, 2014, if the VWAP of the common stock during a period of 30 consecutive trading days exceeds \$3.25 per share; (ii) for the measurement period from but not including April 16, 2014 to and including April 15, 2015, if the VWAP of the common stock during a period of 30 consecutive trading days exceeds \$4.25 per share; and (iii) for the measurement period from but not including April 16, 2015 to and including April 15, 2016, the VWAP of the common stock during a period of 30 consecutive trading days exceeds \$5.25 per share.

March 2011 Charney Purchase Agreement

The Company and Mr. Charney are parties to a purchase agreement, dated March 24, 2011, pursuant to which Mr. Charney purchased from the Company an aggregate of 3,913,399 shares of our common stock and received the right to receive a further 2,111,597 shares of our common stock if prior to March 24, 2014 (x) the closing sale price of our common stock on the NYSE MKT exceeds \$3.50 for 30 consecutive trading days or (y) there is a change of control of the Company, as defined in such purchase agreement.

Anti-Takeover Effects of Certain Provisions in Our Certificate of Incorporation and Bylaws

Our certificate of incorporation and bylaws contain some provisions which may have the effect of delaying, deferring or preventing a change in control of the Company. The following summary is not a complete description of the applicable provisions of our certificate of incorporation or bylaws, the terms of the other agreements or arrangements related to our capital stock or of applicable statutory or other law, and is qualified in its entirety by reference thereto. See "Where You Can Find More Information."

Authorized but Unissued Shares

Our authorized capital stock consists of 230,000,000 shares of common stock and 1,000,000 of preferred stock. As of December 4, 2013, we had 113,408,430 shares of common stock issued and 111,336,887 shares of common stock outstanding. Accordingly, our certificate of incorporation would permit us to issue up to 49,666,337 additional shares of common stock (after taking into account the 17,500,000 shares reserved for issuance under existing employee benefit plans or pursuant to exercise of existing options or that represent granted but unvested shares of restricted stock, 22,527,397 shares issuable to Mr. Charney as described further under the heading "Dov Charney Anti-Dilution Adjustments" in this prospectus, 22,606,025 shares reserved for issuance upon exercise of Lion's and SOF's warrants as described further under the heading "Warrants" in this prospectus and 4,291,811 shares issuable to Lion in the form of additional warrants if Mr. Charney's additional shares are issued), and up to 1,000,000 shares of preferred stock. However, such issuances would be subject to the rules of the NYSE MKT, which in some cases may require stockholder approval or impose other limitations. These additional shares may be utilized for a variety of corporate purposes, including future public offerings to raise additional capital, corporate acquisitions and employee benefit plans. The existence of authorized but unissued shares of common stock and preferred stock could make it more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise.

Election and Removal of Directors

Our board of directors is divided into three classes (Class A, Class B and Class C), with the number of directors in each class to be as nearly equal as possible. The directors in each class are elected for a term of office to expire at the third succeeding annual meeting of stockholders after their election. At all meetings of stockholders for the election of directors, a plurality of the votes cast is sufficient to elect. Except as the General Corporation Law of the State of Delaware, or DGCL, may otherwise require, in the interim between annual meetings of stockholders or special meetings of stockholders called for the election of directors and/or the removal of one or more directors and the filling of any vacancy in that connection, newly created directorships and any vacancies in the board of directors, including unfilled vacancies resulting from the removal of directors for cause, may be filled by the vote of a majority of the remaining directors then in office, although less than a quorum (as defined in the bylaws), or by the sole remaining director. Under the DGCL, in the case of a corporation, such as the Company, whose board is classified and where the certificate of incorporation does not provide otherwise, the stockholders, by the act of a majority of the shares then entitled to vote at an election of directors, may effect the removal of any director or the entire board of directors only for cause. All directors hold office until the expiration of their respective terms of office and until their successors shall have been elected and qualified. A director elected to fill a vacancy resulting from the death, resignation or removal of a director serves for the remainder of the full term of the director whose death, resignation or removal created such vacancy and until his successor shall have been elected and qualified.

Pursuant to the Investment Agreement dated as of March 13, 2009, between American Apparel, Inc. and Lion, Lion currently has the right to designate two persons to our board of directors

and a board observer, subject to maintaining certain minimum ownership thresholds of shares of common stock issuable under Lion's warrants. There are currently two Class B vacancies on our board of directors, as a result of the resignation of Lion's designees on March 30, 2011. Lion has indicated that it will retain its ability to re-designate directors to our board of directors and a board observer at the appropriate time in the future, pursuant to its designation rights under the Investment Agreement.

Pursuant to the Investment Voting Agreement dated as of March 13, 2009, between Mr. Charney and Lion, for so long as Lion has the right to designate any person or persons to our board of directors, Mr. Charney has agreed to vote his shares of our common stock in favor of Lion's designees, and Lion has agreed to vote its shares of our common stock in favor of Mr. Charney each time Mr. Charney is nominated for election to our board of directors. Mr. Charney's obligation to so vote terminates if he owns less than 6,000,000 shares of our common stock (which number will be adjusted appropriately to take into account any stock split, reverse stock split or similar transaction). Lion's obligation to so vote terminates if either (i) Mr. Charney beneficially owns less than 27,900,000 shares of our common stock (which number will be adjusted appropriately to take into account any stock split, reverse stock split or similar transaction) or (ii) (A) Mr. Charney is no longer employed on a full-time basis by the Company or any subsidiary of the Company and (B) Mr. Charney is in material breach of the non-competition and nonsolicitation covenants contained in the Amended and Restated Agreement and Plan of Reorganization, dated November 7, 2007, among the Company, Mr. Charney and the other parties thereto, as extended by a letter agreement dated March 13, 2009, among the Company, Mr. Charney and Lion. Mr. Charney's obligations under such non-competition and nonsolicitation covenants will expire on December 31, 2013, subject to earlier termination as set forth in such letter agreement.

PLAN OF DISTRIBUTION

We may sell the securities covered by this prospectus from time to time in one or more offerings. Registration of the securities covered by this prospectus does not mean, however, that those securities will necessarily be offered or sold.

We may sell the securities separately or together:

through one or more underwriters or dealers in a public offering and sale by them;

directly to investors; or

through agents.

We may sell the securities from time to time:

in one or more transactions at a fixed price or prices, which may be changed from time to time;

at market prices prevailing at the times of sale;

in "at the market offerings," within the meaning of Rule 415(a)(4) of the Securities Act, to or through a sales agent or market maker or into an existing trading market, on an exchange or otherwise;

at prices related to such prevailing market prices; or

at negotiated prices.

We will describe the method of distribution of the securities and the terms of the offering in the prospectus supplement or free writing prospectus. Any discounts or concessions allowed or re-allowed or paid to dealers may be changed from time to time.

If underwriters are used in the sale of any securities, the securities will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions described above. The securities may be either offered to the public through underwriting syndicates represented by managing underwriters, or directly by underwriters. Generally, the underwriters' obligations to purchase the securities will be subject to conditions precedent and the underwriters will be obligated to purchase all of the securities if they purchase any of the securities. We may use underwriters with whom we have a material relationship. We will describe in the prospectus supplement or free writing prospectus, naming the underwriter, the nature of any such relationship.

We may designate agents to sell the securities. Unless otherwise specified in connection with any particular sale of securities, the agents will agree to use their best efforts to solicit purchases for the period of their appointment.

We may authorize underwriters, dealers or agents to solicit offers by certain purchasers to purchase the securities from us at the public offering price set forth in the prospectus supplement or free writing prospectus pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future. The contracts will be subject only to those conditions set forth in the prospectus supplement or free writing prospectus, and the prospectus supplement or free writing prospectus will set forth any commissions we pay for solicitation of these contracts.

Edgar Filing: AMERICAN APPAREL, INC - Form 424B5

We may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement indicates, in connection with those derivatives, the third parties may sell securities covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, the third party may use securities pledged by us or borrowed from us or others to settle those sales or to close out any related open borrowings of stock, and may use securities received from us in settlement of those derivatives to close out any related open borrowings of stock. The third party in such sale transactions will be an underwriter and will be identified in the applicable prospectus supplement or in a post-effective amendment.

Underwriters, dealers and agents may be entitled to indemnification by us against certain civil liabilities, including liabilities under the Securities Act, or to contribution with respect to payments made by the underwriters, dealers or agents, under agreements between us and the underwriters, dealers and agents.

We may grant underwriters who participate in the distribution of securities an option to purchase additional securities to cover over-allotments, if any, in connection with the distribution.

Underwriters, dealers or agents may receive compensation in the form of discounts, concessions or commissions from us or our purchasers, as their agents in connection with the sale of securities. These underwriters, dealers or agents may be considered to be underwriters under the Securities Act. As a result, discounts, commissions or profits on resale received by the underwriters, dealers or agents may be treated as underwriting discounts and commissions. The prospectus supplement or free writing prospectus will identify any such underwriter, dealer or agent and describe any compensation received by them from us. Any initial public offering price and any discounts or concessions allowed or re-allowed or paid to dealers may be changed from time to time.

Unless otherwise specified in the related prospectus supplement, all securities we offer, other than common stock, will be new issues of securities with no established trading market. Any underwriters may make a market in these securities, but will not be obligated to do so and may discontinue any market making at any time without notice. Any common stock sold pursuant to a prospectus supplement or free writing prospectus will be listed for trading on the NYSE MKT or other principal market for our common stock. We may apply to list any series of preferred stock or warrants on an exchange, but we are not obligated to do so. Therefore, there may not be liquidity or a trading market for any series of securities.

Any underwriter may engage in over-allotment transactions, stabilizing transactions, short-covering transactions and penalty bids in accordance with Regulation M under the Exchange Act. Over-allotment involves sales in excess of the offering size, which create a short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Short covering transactions involve purchases of the securities in the open market after the distribution is completed to cover short positions. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the securities originally sold by the dealer are purchased in a covering transaction to cover short positions. Those activities may cause the price of the securities to be higher than it would otherwise be. If commenced, the underwriters may discontinue any of the activities at any time. We make no representation or prediction as to the direction or magnitude of any effect that such transactions may have on the price of the securities. For a description of these activities, see the information under the heading "Underwriting" or "Plan of Distribution" in the applicable prospectus supplement.

Edgar Filing: AMERICAN APPAREL, INC - Form 424B5

Underwriters, broker-dealers or agents who may become involved in the sale of the common stock may engage in transactions with and perform other services for us in the ordinary course of their business for which they receive compensation.
