WISCONSIN ENERGY CORPORATION  
WISCONSIN ELECTRIC POWER COMPANY

ITEM 8.01 OTHER EVENTS.

On March 23, 2012, Wisconsin Electric Power Company ("Wisconsin Electric") and Wisconsin Gas LLC ("Wisconsin Gas"), both subsidiaries of Wisconsin Energy Corporation, initiated rate proceedings with the Public Service Commission of Wisconsin ("PSCW"). Wisconsin Electric has asked the PSCW to approve a net increase related to non-fuel costs for its Wisconsin retail electric customers of approximately \$99.3 million (3.6%) for 2013. This proposed increase reflects an offset to the revenue requirement of approximately \$73.3 million related to the proceeds of a renewable energy tax grant we expect to receive under the National Defense Authorization Act upon completion of our biomass facility currently under construction. Wisconsin Electric's proposed plan, if approved by the PSCW, would return the proceeds from the tax grant to customers in the form of bill credits.

Absent the bill credits, the total electric rate increase requested by Wisconsin Electric is approximately \$172.6 million (6.2%) for 2013. Wisconsin Electric is requesting an additional increase in electric rates of approximately \$37.4 million in 2014, which would result in a 3.6% net increase for its Wisconsin retail electric customers. Wisconsin Electric also filed its fuel cost plan for 2013 with the PSCW as required by the Wisconsin fuel rules.

For its natural gas customers, Wisconsin Electric requested a rate decrease of approximately \$1.2 million (0.2%) for 2013 with no rate adjustment for 2014. In addition, Wisconsin Electric requested rate increases of approximately \$1.3 million (6.0%) for its Valley steam utility customers in 2013 and 2014, and approximately \$1.0 million (7.0%) for its Milwaukee County steam utility customers in 2013 and 2014.

Wisconsin Gas has asked the PSCW to approve a rate decrease for its natural gas customers of approximately \$15.9 million (2.3%) for 2013, with no rate adjustment for 2014.
