The Administrator of the
PACCAR Inc Savings Investment Plan

We have audited the accompanying statements of net assets available for benefits of the PACCAR Inc Savings Investment Plan as of December 31, 2003 and 2002, and the related statement of changes in net assets available for benefits for the year ended December 31, 2003. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2003 and 2002, and the changes in its net assets available for benefits for the year ended December 31, 2003, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedules of assets (held at end of year) as of December 31, 2003, and reportable transactions for the year then ended, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

PACCAR Inc

Savings Investment Plan

Notes to Financial Statements

December 31, 2003

1. Description of the Plan

The PACCAR Inc Savings Investment Plan (the Plan) is a defined contribution plan covering substantially all nonunion U.S. employees of PACCAR Inc and its U.S. subsidiaries (the Company). Such employees are eligible to participate in the Plan after completion of 30 days of service. Participants are eligible to receive employer contributions after one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code of 1986 (the Code). This description of the Plan provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

Contributions

Participants may elect to contribute not less than 1% and not more than 35% of their respective annual compensation (as defined in the Plan document) subject to the Internal Revenue Service-mandated annual maximum of \$12,000 and \$11,000 for 2003 and 2002, respectively. Participant contributions to the Plan are excluded from the participants' current taxable earnings in accordance with Code Section 401(k). Beginning in 2002, catch-up contributions were made available under the Plan for those participants age 50 and older. The maximum annual catch-up contribution for 2003 and 2002 was \$2,000 and \$1,000, respectively.

The Company annually matches participant contributions up to the lesser of 5% of the participants' respective compensation or the annual deferrals of eligible participants that are actively employed on December 31. In certain cases, as described in the Plan document, employees who terminated during the year will be eligible to receive matching contributions. Company matching contributions are allocated in the form of PACCAR Inc common stock and are valued for allocation purposes on the basis of the average price per share of all shares paid to the Plan as part of the Company matching contribution. The Company may suspend or reduce its contributions when its Consolidated Net Earnings are less than 8% of the Company's Capital Base, as defined by the Plan.

Upon reaching age 50, participants who have completed 5 or more years of service have a one-time opportunity to transfer to any one or more of the other investment options available under the Plan, any whole percentage of the value of his or her Company matching contribution of PACCAR Inc common stock. Any future matching contributions allocated to such participants will continue to be made in the form of PACCAR Inc common stock.

Participant Accounts

Individual accounts are maintained for all Plan participants that reflect their contributions and related Company contributions to the Plan and any earnings or losses on the Plan's investments. The benefit to which the participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Plan participants are immediately 100% vested in both participant and Company matching contributions when made, plus any investment earnings thereon.

Investment Options

Upon enrollment in the Plan, a participant may direct their employee contributions in whole percentage increments to any of the Plan's fund options. Participants may subsequently change their investment options daily for either existing or future participant contributions, in whole percentage increments, to any of the Plan's fund options.

Participant Loans

Actively employed participants may borrow from their individual accounts a minimum of \$1,000, up to the lesser of \$50,000 less the highest outstanding loan balance during the previous 12 months, 50% of the participants' total account balance, or the participants' total account balance, excluding Company matching contributions in the PACCAR Inc common stock fund and related earnings. Loan terms range from 1 to 5 years, or up to 15 years for the purchase of a primary residence, and early payoffs can be made without penalty. The loans are secured by the balance in the participant's account and bear interest equal to the prime rate plus 1%, as determined monthly by the Plan administrator. Interest rates ranged from 5.0% to 10.5% on loans outstanding as of December 31, 2003. Principal and interest are repaid either through after-tax payroll deductions or personal check directly to The Fidelity Management Trust Company (the Trustee) at least on a quarterly basis. Loans outstanding will not affect the amount of annual matching contributions the Company pays to participants' accounts. Beginning April 1, 2002, the number of loans that a participant can take was limited to two new loans per calendar year. Prior to April 1, 2002, the number of participant loans was not limited.

Benefit Payments

Participants who leave the Company may choose a single cash payment or whole shares of PACCAR Inc common stock included in the participant's account, plus a cash payment for the remaining balance. Effective May 1, 2003, the Plan discontinued the cash installment method of benefit payments. This method of payment was previously offered to participants who left the Company on or after reaching age 55. Participants that leave the Company whose account balance is less than \$5,000 will automatically receive a single cash payment. Also, active employees who reach age 70½ have the additional options of electing to have their account balance distributed to them or to receive minimum required distributions.

Plan Termination

It is the intention of the Company that the Plan will continue indefinitely. However, should the Company elect to terminate the Plan subject to the provisions of ERISA, the termination date shall be treated as the valuation date, and the balances in the participants' accounts will be distributed to them.

Expenses

Third-party management fees are charged to the Plan, and the Company pays all other expenses relating to the Plan's administration.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The fair value of the participation units owned by the Plan in mutual funds is based on the mutual funds' quoted market prices, which represent the net asset value of the underlying investments as reported by the funds on the last business day of the Plan year. The fair value of participation units in commingled trust funds are based on the quoted market price of the underlying securities and the number of units owned by the Plan at year-end. Investments in securities traded on a national securities exchange are valued at their market prices on the last business day of the Plan year. The money market fund is valued at cost, which approximates fair value. Participant loans are recorded at their outstanding balances, which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options. Investment securities, in general, are exposed to various risks, such as interest rate, market volatility, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the value of participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

3. Investments

Assets held in the Plan are managed and investment transactions are executed by Fidelity Management Trust Company or other outside mutual fund companies.

5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated October 2, 2002 stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. On December 16, 2002, the Plan was amended and restated effective January 1, 2002 to comply with the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA). Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended and restated, is qualified and the related trust is tax exempt.

6. Transactions with Parties-in-Interest

The Plan invests in the common stock of the Plan's sponsor, PACCAR Inc, which is purchased by the Trustee on the open market at fair value. The Plan made purchases totaling \$39,163,237 and sales totaling \$89,721,854 of PACCAR Inc common stock during 2003. The Plan received dividends on this stock totaling \$10,656,324 in 2003. Dividends receivable as of December 31, 2003 and 2002 are \$7,838,201 and \$4,842,795, respectively.
