**Item 5. Other Events and Regulation FD Disclosure.**

We are filing this Current Report on Form 8-K to disclose segment financial information reflecting recent organizational changes within our Company.

Effective April 1, 2004, we implemented certain internal organizational changes to better manage our business. These organizational changes necessitated an assessment of our reportable segments under Financial Accounting Standard No. 131, *Disclosures about Segments of an Enterprise and Related Information*. As a result, we are now reporting each of our three Strategic Business Units (i.e., Health Services, Human Services, and Technical Services) as separate external reporting segments. A brief description of these segments is as follows:

Our Health Services Segment delivers administrative services and provides medical management services for federal and state public health programs, as well as provides system development, integration and implementation for public health services agencies. The Health Services Segment consists of the Eastern Region Division, the Central Region Division, the Western Region division, the Center for Health Dispute Resolutions Division (which now includes certain contracts of our former Federal Services Division which were previously reported under the Management Services Segment), and the Health Systems Division.

Our Human Services Segment specializes in the administration and management of government human services programs, as well as in assisting state and local governments in maximizing federal funding for these human service programs. The Human Services Segment consists of the Workforce Services Division, the Child Support Division, the Correctional Services Division, as well as the divisions that were previously reported under the former Financial Services Segment including the Educational Services Division, the Revenue Services Division, the Child Welfare Division, and the Cost Services Division (which now also includes the former Management Solutions Division which was previously reported under the Management Services Segment), and the Unison Division (which was previously reported within the Management Solutions Division).

Our Technical Services Segment provides state and local government agencies with software solutions and systems design and implementation to improve efficiency and cost-effectiveness of their program administration. The Technical Services Segment consists of the ERP Solutions Division, the Technology Support Division (which was previously reported under the Management Services Segment), the Enterprise Solutions Division (which now includes certain contracts of our former Federal Services Division which were previously reported under the Management Services Segment), the Educational Systems Division, the Justice Solutions Division, the Asset Solutions Division, and the Asset Services Division (which was previously reported under the Management Services Segment).

We are herein providing certain financial segment information for earlier periods to reflect this change in the composition of our reportable segments as if we had operated under the new organizational structure during the last two full fiscal years and the first two quarters of our current fiscal year. The consolidated financial information in this report is unchanged from that previously reported. This data is being provided for informational purposes only.
