NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(amounts in thousands, except per share data)

Note 1. Basis of Presentation

The accompanying consolidated financial statements of HRPT Properties Trust and its subsidiaries have been prepared without audit. Certain information and footnote disclosures required by accounting principles generally accepted in the United States for complete financial statements have been condensed or omitted. We believe the disclosures made are adequate to make the information presented not misleading. However, the accompanying financial statements should be read in conjunction with the financial statements and notes contained in our Annual Report on Form 10-K for the year ended December 31, 2007. In the opinion of management, all adjustments, which include only normal recurring adjustments considered necessary for a fair presentation, have been included. All intercompany transactions and balances between HRPT Properties Trust and its subsidiaries have been eliminated. Operating results for interim periods are not necessarily indicative of the results that may be expected for the full year. Reclassifications have been made to the prior years' financial statements to conform to the current year's presentation.

In September 2006, the Financial Accounting Standards Board, or FASB, issued Statement of Financial Accounting Standards No. 157, Fair Value Measurement, or SFAS No. 157, which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurement. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. As required, we adopted SFAS No. 157 on January 1, 2008 and have concluded that the effect is not material to our consolidated financial statements.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141 (revised 2007), Business Combinations, or SFAS 141(R). SFAS 141(R) establishes principles and requirements for how the acquirer shall recognize and measure in its financial statements the identifiable assets acquired, liabilities assumed, any noncontrolling interest in the acquiree and goodwill acquired in a business combination. SFAS 141(R) is effective for fiscal years beginning after December 15, 2008. We are currently evaluating the effect that the adoption of SFAS 141(R) will have on our consolidated financial statements.

Note 2. Real Estate Properties

During the three months ended March 31, 2008, we acquired two office properties for \$123,700, excluding closing costs, and we funded \$10,458 of improvements to our owned properties using cash on hand and borrowings under our revolving credit facility.

Note 3. Indebtedness

Edgar Filing: HRPT PROPERTIES TRUST - Form 10-Q

In January 2008, we prepaid, at par, \$28,600 of 8.50% mortgage debt due 2028, using cash on hand and borrowings under our revolving credit facility.

We have a \$750,000 unsecured revolving credit facility that we use for acquisitions, working capital and general business purposes. The interest rate on this facility averaged 3.9% and 5.9% per annum, for the three months ended March 31, 2008 and 2007, respectively. As of March 31, 2008, we had \$308,000 outstanding and \$442,000 available under our revolving credit facility.

Our public debt indentures and credit facility agreement contain a number of financial and other covenants, including a credit facility covenant which limits the amount of aggregate distributions on common shares to 90% of operating cash flow available for shareholder distributions as defined in the credit facility agreement. We believe that we are in compliance with these financial and other covenants.

Note 4. Earnings per Common Share

Earnings per common share, or EPS, is computed pursuant to the provisions of Statement of Financial Accounting Standards No. 128. The effect of our convertible preferred shares on income from continuing operations and net income available for common shareholders per share is anti-dilutive for the periods presented. The following table provides a reconciliation of both net income and the number of common shares used in the computations of basic and diluted EPS:

	Income	2008 Shares	Three Months Ended March 31,		Income	2007 Shares	Per Share
			Per Share				
Income from continuing operations	\$ 27,406			\$ 33,092			
Income from discontinued operations				56

Note 5. Segment Information

As of March 31, 2008, we owned 368 office properties and 169 industrial and other properties. We account for all of our properties in geographic operating segments for financial reporting purposes based on our method of internal reporting. We define these individual geographic segments as those which currently, or during either of the last two quarters, represent or generate 5% or more of our total square feet, revenues or property net operating income. Property level information by geographic segment and property type as of and for the three months ended March 31, 2008 and 2007 is as follows:

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(amounts in thousands, except per share data)

The table below reconciles our calculation of property net operating income, or NOI, to net income available for common shareholders, the most directly comparable financial measure under generally accepted accounting principles, or GAAP, reported in our consolidated financial statements for the three months ended March 31, 2008 and 2007. We consider NOI to be appropriate supplemental information to net income available for common shareholders because it helps both investors and management to understand the operations of our properties. We use NOI internally as a performance measure and believe NOI provides useful information to investors regarding our results of operations because it reflects only those income and expense items that are incurred at the property level. Our management also uses NOI to evaluate individual, regional and company wide property level performance. NOI excludes certain components from net income available for common shareholders in order to provide results that are more closely related to our properties' results of operations. NOI does not represent cash generated by operating activities in accordance with GAAP and should not be considered an alternative to net income, net income available for common shareholders or cash flow from operating activities as a measure of financial performance. A reconciliation of NOI to net income available for common shareholders for the three months ended March 31, 2008 and 2007 is as follows:

Note 7. Subsequent Events

In April 2008, we declared a distribution of \$0.21 per common share, or approximately \$47,300, to be paid on or about May 23, 2008, to shareholders of record on April 23, 2008. We also announced a distribution on our series B preferred shares of \$0.5469 per share, or \$3,828, a distribution on our series C preferred shares of \$0.4453 per share, or \$2,672, and a distribution on our series D preferred shares of \$0.4063, or \$6,167, which will be paid on or about May 15, 2008, to our preferred shareholders of record as of May 1, 2008.

As of May 6, 2008, we have an executed purchase agreement for an additional office property with an aggregate of approximately 374,000 square feet of space for a total purchase price of \$53,050, excluding closing costs. This potential purchase transaction is subject to completion of diligence and other customary conditions; because of these contingencies we can provide no assurances that we will purchase this property.

HRPT PROPERTIES TRUST

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

(amounts in thousands, except per share data)

On May 5, 2008, we entered into a series of Purchase and Sale Agreements, or the Purchase Agreements, with Senior Housing Properties Trust, or SNH, for the sale by us to SNH, or certain of its subsidiaries, of 48 medical office, clinic and biotech laboratory buildings for an aggregate purchase price of \$565,000. On March 31, 2008, our investment in these properties totaled approximately \$397,800 at cost, and our depreciated book value totaled approximately \$347,900. We expect the closings of these sales to occur in phases over the next twelve months. Because we and SNH are both managed by Reit management & Research LLC, or RMR, the sales prices for the properties to be sold were established by reference to an independent appraisal and the terms of the transactions were negotiated by special committees of each company's board of trustees comprised solely of independent trustees. The transactions are subject to various conditions and contingencies typical of large commercial real estate transactions, including among other matters, waiver of any rights of first refusal held by tenants, the consent of mortgagees to the sales of the buildings which are encumbered by mortgages and financing contingencies relating to certain properties which have an aggregate purchase price of approximately \$245,000. Accordingly, the purchase prices which we may receive may change, these sales may be accelerated or delayed or these sales may not occur.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and tables should be read in conjunction with our consolidated financial statements and notes thereto included in this quarterly report and our Annual Report on Form 10-K for the year ended December 31, 2007.

OVERVIEW

We primarily own office buildings located throughout the United States. We also own approximately 17 million square feet of leased industrial and commercial lands located in Oahu, Hawaii.

Property Operations

As of March 31, 2008, 91.6% of our total square feet was leased, compared to 92.8% leased as of March 31, 2007. These results primarily reflect the 1.7 percentage point decrease in occupancy at properties we owned continuously since January 1, 2007. Occupancy data for 2008 and 2007 is as follows (square feet in thousands):

	All Properties (1) As of the Three Months Ended March 31,		Comparable Properties (2) As of the Three Months Ended March 31,	
	2008	2007	2008	2007
Total properties	537	507	503	503
Total square feet	65,315	60,227	59,664	59,664
Percent leased (3)	91.6%	92.8%	91.1%	92.8%

(1) Excludes properties sold or under contract for sale as of March 31, 2008.

(2) Based on properties owned continuously since January 1, 2007, and excludes properties under contract for sale as of March 31, 2008.

(3) Percent leased includes (i) space being fitted out for occupancy pursuant to signed leases and (ii) space which is leased, but is not occupied or is being offered for sublease by tenants.

During the three months ended March 31, 2008, we signed new leases for 273,000 square feet and lease renewals for 553,000 square feet, at weighted average rental rates that were 2% above rents previously charged for the same space. Average lease terms for leases signed during the three months ended March 31, 2008 were 5.6 years. Commitments for tenant improvement and leasing costs for leases signed during the three months ended March 31, 2008 totaled \$9.4 million, or \$11.40 per square foot (approximately \$2.04/sq. ft. per year of the lease term).

During the past twelve months, leasing market conditions in some of our markets have begun to show signs of weakness. The pace of new leasing activity and the leasing of currently vacant space within our portfolio has slowed and construction of new office properties in certain markets has increased, causing our occupancy to decline. Required landlord funded tenant build outs and leasing commissions payable to tenant brokers for new leases and lease renewals have generally remained unchanged over the past twelve months, but are starting to increase in certain markets in 2008. These build out costs and leasing commissions are generally amortized as a reduction of our income during the terms of the

affected leases. We believe that modest decreases in occupancy and effective rents may further reduce the financial results at some of our currently owned properties. However, there are too many variables for us to reasonably project what the financial impact of market conditions will be on our results for future periods.

Edgar Filing: HRPT PROPERTIES TRUST - Form 10-Q

Approximately 12.7% of our leased square feet and 15.8% of our rents are included in leases scheduled to expire through December 31, 2009. Lease renewals and rental rates at which available space may be relet in the future will depend on prevailing market conditions at that time. Lease expirations by year, as of March 31, 2008, are as follows (square feet and dollars in thousands):

Investment Activities

During the three months ended March 31, 2008, we acquired two office properties with 878,000 square feet for a gross purchase price totaling \$123.7 million. At the time of acquisition, these properties were 91% leased and projected to yield approximately 9.0% of the aggregate gross purchase price, based on estimated annual net operating income, or NOI, which we define as property rental income less property operating expenses on the date of closing.

Financing Activities

In January 2008, we prepaid, at par, \$28.6 million of 8.50% mortgage debt due 2028, using cash on hand and borrowings under our revolving credit facility.

Rental income. Rental income increased for the three months ended March 31, 2008, compared to the same period in 2007, primarily due to increases in rental income from our Oahu, HI and our Other Markets segments, offset by a decrease in rental income from our Metro Boston, MA segment, as described in the segment information footnote to our consolidated financial statements. Rental income for our Oahu, HI market increased \$1.5 million, or 10%, primarily due to an increase in weighted average rental rates for new leases and lease renewals signed during 2007. Rental income for our Other Markets segment increased \$7.9 million, or 8%, primarily because of the acquisition of 30 properties since December 2006. Rental income from our Metro Boston, MA market decreased \$1.0 million, or 7%, primarily due to the decrease in occupancy in 2008, partially offset by rental income from property acquisitions since December 2006. Rental income includes non-cash straight line rent adjustments totaling \$2.0 million in 2008 and \$4.7 million in 2007 and amortization of acquired real estate leases and obligations totaling (\$2.5) million in 2008 and (\$2.4) million in 2007. Rental income also includes lease termination fees totaling \$1.0 million in 2008 and \$325,000 in 2007.

Total expenses. The increase in total expenses primarily reflects our acquisition of properties since December 2006. In addition, the increase in depreciation and amortization expense reflects building and tenant improvement costs incurred throughout our portfolio since December 2006.

Interest expense. The increase in interest expense in 2008 reflects an increase in average total debt outstanding which was used primarily to finance acquisitions in 2008 and 2007.

Income from continuing operations. The decrease in income from continuing operations is due primarily to the increase in depreciation and amortization expense and a decrease in occupancy, partially offset by acquisitions in 2008 and 2007.

Net income and net income available for common shareholders. The decrease in net income and net income available for common shareholders is due primarily to the increase in depreciation and amortization expense and a decrease in occupancy, partially offset by acquisitions in 2008 and 2007. Net income available for common shareholders is net income reduced by preferred distributions. The decrease in preferred distributions reflects the partial redemption of our 8 ³/₄% series B preferred shares in November 2007.

LIQUIDITY AND CAPITAL RESOURCES

Our Operating Liquidity and Resources

Our principal sources of funds for current expenses and distributions to shareholders are rents from our properties. This flow of funds has historically been sufficient for us to pay our operating expenses, debt service and distributions. We believe that our operating cash flow will be sufficient to meet our operating expenses, debt service and distribution payments for the foreseeable future. Our future cash flows from operating activities will depend primarily upon the following factors:

- our ability to maintain or improve occupancies and effective rental rates at our properties;
- our ability to restrain operating cost increases at our properties; and
- our ability to purchase new properties which produce positive cash flows from operations.

We believe that present leasing market conditions in some areas where our properties are located may result in modest decreases in effective rents. Recent rises in fuel prices may cause our future operating costs to increase; however, the impact of these increases is expected to be partially offset by pass-through of operating cost increases to our tenants pursuant to lease terms. We generally do not purchase turnaround properties or properties which do not generate positive cash flows. Our future purchases of properties which generate positive cash flows can not be accurately projected because such purchases depend upon available opportunities which come to our attention.

Cash flows provided by (used for) operating, investing and financing activities were \$62.0 million, (\$127.2) million and \$77.3 million, respectively, for the three months ended March 31, 2008, and \$37.0 million, (\$84.7) million and \$53.0 million, respectively, for the three months ended March 31, 2007. Changes in all three categories between 2008 and 2007 are primarily related to property acquisitions in 2008 and 2007, and repayments and issuances of debt obligations.

Our Investment and Financing Liquidity and Resources

In order to fund acquisitions and to accommodate cash needs that may result from timing differences between our receipt of rents and our desire or need to make distributions or pay operating or capital expenses, we maintain an unsecured revolving credit facility with a group of institutional lenders. At March 31, 2008, there was \$308 million outstanding and \$442 million available under our revolving credit facility, and we had cash and cash equivalents of \$32.1 million. We expect to use cash balances, borrowings under our credit facility, proceeds from the sale of properties and net proceeds of offerings of equity or debt securities to fund future property acquisitions.

When significant amounts are outstanding under our revolving credit facility or the maturity dates of our revolving credit facility and term debts approach, we explore alternatives for the repayment of amounts due. Such alternatives usually include incurring additional term debt and issuing new equity securities. We have an effective shelf registration statement that allows us to issue public securities on an expedited basis, but it does not assure that there will be buyers for such securities. Although there can be no assurance that we will consummate any debt or equity offerings or other financings, we believe we will have access to various types of financing, including debt or equity offerings, to finance future acquisitions and capital expenditures and to pay our debt and other obligations.

The completion and the costs of our future debt transactions will depend primarily upon market conditions and our credit ratings. We have no control over market conditions. Our credit ratings depend upon evaluations by credit rating agencies of our business practices and plans and, in particular, whether we appear to have the ability to maintain our earnings, to space our debt maturities and to balance our use of debt and equity capital so that our financial performance and leverage ratios afford us flexibility to withstand any reasonably anticipatable adverse changes. We intend to conduct our business activities in a manner which will continue to afford us reasonable access to capital for investment and financing activities.

During 2008, we purchased two office properties for \$123.7 million, plus closing costs and funded improvements to our owned properties totaling \$10.5 million. We funded our 2008 acquisitions and improvements to our owned properties with cash on hand and by borrowing under our revolving credit facility.

As of March 31, 2008, we had an outstanding agreement to purchase an additional office property containing approximately 374,000 square feet of space for \$53.1 million, plus closing costs. The acquisition of this property is subject to various closing conditions customary in real estate transactions and no assurances can be given as to when or if we will purchase this property.

Edgar Filing: HRPT PROPERTIES TRUST - Form 10-Q

On May 5, 2008, we entered into a series of Purchase and Sale Agreements, or the Purchase Agreements with Senior Housing Properties Trust, or SNH, for the sale by us to SNH, or certain of its subsidiaries, of 48 medical office, clinic and biotech laboratory buildings for an aggregate purchase price of \$565 million. On March 31, 2008, our investment in these properties totaled approximately \$397.8 million at cost, and our depreciated book value totaled approximately \$347.9 million. We expect the closings of these sales to occur in phases over the next twelve months. The transactions are subject to various conditions and contingencies typical of large commercial real estate transactions, including among other matters, waiver of any rights of first refusal held by tenants, the consent of mortgagees to the sales of the buildings which are encumbered by mortgages and financing contingencies relating to certain properties which have an aggregate purchase price of approximately \$245 million. Accordingly, the purchase prices which we may receive may change, these sales may be accelerated or delayed or these sales may not occur.

During the three months ended March 31, 2008 and 2007, cash expenditures made and capitalized for tenant improvements, leasing costs, building improvements and development and redevelopment activities were as follows (amounts in thousands):

Three Months Ended March 31,			
	2008		2007
Tenant improvements	\$ 5,178	\$ 12,629	
Leasing costs	3,859	4,253	
Building improvements (1)	1,789	1,592	
Development, redevelopment and other activities (2)	3,491	7,302	

- (1) Building improvements generally include recurring expenditures that we believe are necessary to maintain the value of our properties.
(2) Development, redevelopment and other activities generally include non-recurring expenditures or expenditures that we believe increase the value of our existing properties.

Commitments made for expenditures in connection with leasing space during the three months ended March 31, 2008, are as follows (amounts in thousands, except as noted):

Average lease term (years)	6.0	5.4		5.6	
Leasing costs per square foot per year (whole dollars)	\$ 3.86	\$ 1.04		\$ 2.04	

In January 2008, we prepaid at par, \$28.6 million of 8.50% mortgage debt due in 2028, using cash on hand and borrowings under our revolving credit facility.

We have no commercial paper, swaps, hedges, joint ventures or off balance sheet arrangements as of March 31, 2008.

Debt Covenants

Our principal debt obligations at March 31, 2008, were our unsecured revolving credit facility and our \$2.25 billion of publicly issued unsecured term debt. Our publicly issued debt is governed by an indenture. Our public debt indenture and related supplements and our revolving credit facility agreement contain a number of financial ratio covenants which generally restrict our ability to incur debts, including debts secured by mortgages on our properties, in excess of calculated amounts, require us to maintain a minimum net worth, restrict our ability to make distributions under certain circumstances and require us to maintain other financial ratios. At March 31, 2008, we believe we were in compliance with all of our covenants under our indenture and related supplements and our revolving credit facility agreement.

In addition to our unsecured debt obligations, we have \$363.8 million, excluding unamortized premiums and discounts, of mortgage notes outstanding at March 31, 2008.

None of our indenture and related supplements, our revolving credit facility or our mortgage notes contain provisions for acceleration or require us to provide collateral security which could be triggered by our debt ratings. However, our senior debt rating is used to determine the interest rate and the fees payable under our revolving credit facility.

Our public debt indenture and related supplements contain cross default provisions to any other debts of \$20 million or more. Similarly, a default on our public debt indenture would be a default under our revolving credit facility.

Related Person Transactions

On May 5, 2008, we entered into the Purchase Agreements with SNH for the sale by us to SNH, or certain of its subsidiaries, of 48 medical office, clinic and biotech laboratory buildings for an aggregate purchase price of \$565 million. We expect the closings of these sales to occur in phases over the next twelve months. SNH was formerly our 100% owned subsidiary. It was spun off to our shareholders in 1999 and, at the time of this spin off, we and SNH entered into a Transaction Agreement which, among other things, prohibited SNH from purchasing medical office, clinic and biotech laboratory buildings. Concurrently with the execution and delivery of the Purchase Agreements, we and SNH entered into an amendment to the Transaction Agreement, or the First Amendment Agreement, to permit SNH, rather than us, to invest in medical office, clinic and biomedical, pharmaceutical and laboratory buildings, whether of single purpose or mixed use. The First Amendment Agreement is subject, in the case of mixed use buildings, to our retaining the right to invest in any mixed use building for which the rentable square footage is less than 50% medical office, clinic and biomedical, pharmaceutical and laboratory use. Barry M. Portnoy and Adam D. Portnoy, our Managing Trustees, are the owners of RMR. RMR is also SNH's manager. In addition, another of our trustees, Frederick N. Zeytoonjian, is also a trustee of SNH. The sales prices for the properties to be sold were established by reference to an independent appraisal and the terms of the transactions were negotiated by special committees of each company's board of trustees comprised solely of independent trustees. The transactions are subject to various conditions and contingencies typical of large commercial real estate transactions, including among other matters, waiver of any rights of first refusal held by tenants, the consent of mortgagees to the sales of the buildings which are encumbered by mortgages and financing contingencies relating to certain properties which have an aggregate purchase price of approximately \$245 million. Accordingly, the purchase prices which we may receive may change, these sales may be accelerated or delayed or these sales may not occur.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to risks associated with market changes in interest rates. Our strategy to manage exposure to changes in interest rates is unchanged since December 31, 2007. Other than as described below, we do not foresee any significant changes in our exposure to fluctuations in interest rates or in how we manage this exposure in the near future.

Our unsecured revolving credit facility and \$200 million of our senior notes bear interest at floating rates and mature in August 2010 and March 2011, respectively. As of March 31, 2008, we had \$308 million outstanding and \$442 million available for drawing under our revolving credit facility. Repayments under our revolving credit facility may be made at any time without penalty. Repayments under our floating rate senior notes may be made on periodic interest payment dates. We borrow in U.S. dollars and borrowings under our revolving credit facility and our floating rate senior notes require interest at LIBOR plus premiums. Accordingly, we are vulnerable to changes in U.S. dollar based short term rates, specifically LIBOR. Our

exposure to fluctuations in floating interest rates will increase or decrease in the future with increases or decreases in the outstanding amount of our floating rate debt.

Item 4. Controls and Procedures

As of the end of the period covered by this report, our management carried out an evaluation, under the supervision and with the participation of our Managing Trustees, President and Chief Operating Officer and Treasurer and Chief Financial Officer of the effectiveness of our disclosure controls and procedures pursuant to the Securities Exchange Act of 1934, as amended, or the Exchange Act, Rules 13a-15 and 15d-15. Based upon that evaluation, our Managing Trustees, President and Chief Operating Officer and Treasurer and Chief Financial Officer concluded that our disclosure controls and procedures are effective.

There have been no changes in our internal control over financial reporting during the quarter ended March 31, 2008, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II. Other Information

Item 5. Other Information

On May 5, 2008, we entered into the Purchase Agreements with SNH for the sale by us to SNH, or certain of its subsidiaries, of 48 medical office, clinic and biotech laboratory buildings for an aggregate purchase price of \$565 million. Under the individual Purchase Agreements, SNH and its subsidiaries have agreed to pay aggregate purchase prices of approximately \$554 million in cash and to assume three mortgages on two properties which total approximately \$11 million. The transactions under the individual Purchase Agreements are scheduled to close in phases over the next twelve months, and the timings of the closings may be accelerated in certain circumstances. The transactions are subject to various closing conditions and contingencies typical of large commercial real estate transactions, including among other matters, waiver of any rights of first refusal held by tenants, the consent of mortgagees to the sales of the buildings which are encumbered by mortgages and financing contingencies relating to certain properties which have an aggregate purchase price of approximately \$245 million. As a result, some or all of these properties may not be sold.

SNH was formerly our 100% owned subsidiary. It was spun off to our shareholders in 1999 and, at the time of this spin off, we and SNH entered into a Transaction Agreement which, among other things, prohibited SNH from purchasing medical office, clinic and biotech laboratory buildings. Concurrently with the execution and delivery of the Purchase Agreements, we and SNH entered into an amendment to the Transaction Agreement, or the First Amendment Agreement, to permit SNH, rather than us, to invest in medical office, clinic and biomedical, pharmaceutical and laboratory buildings, whether of single purpose or mixed use. The First Amendment Agreement is subject, in the case of mixed use buildings, to our retaining the right to invest in any mixed use building for which the rentable square footage is less than 50% medical office, clinic and biomedical, pharmaceutical and laboratory use.

Concurrently with the execution and delivery of the Purchase Agreements and the First Amendment Agreement, we and SNH also entered into a Right of First Refusal Agreement pursuant to which we granted to SNH a right of first refusal to purchase up to 45 additional identified properties (approximately 4.6 million square feet) that are currently leased by us principally to tenants in medical related businesses in the event that we determine to sell such properties or in the event of our change of control or of our subsidiary which owns such properties.

We and SNH are managed by RMR, which is beneficially owned by Messrs. Barry M. Portnoy and Adam D. Portnoy. In addition, Messrs. Barry M. Portnoy, Frederick N. Zeytoonjian and Adam D. Portnoy, three of our current trustees, also serve as trustees of SNH and SNH owns 1,000,000 of our common shares. The sale prices for the properties to be sold were established by reference to an independent appraisal and the terms of the transactions were negotiated by special committees of each company's board of trustees comprised solely of independent trustees.

The descriptions of the Purchase Agreements, the First Amendment Agreement and the Right of First Refusal Agreement are qualified in their entirety by reference to the Purchase Agreements, the First Amendment Agreement and the Right of First Refusal Agreement, which are filed as Exhibits 10.1 to 10.23, to this Quarterly Report on Form 10-Q and incorporated herein by reference.
