Simpson Manufacturing Co., Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements

(Unaudited)

1. Basis of Presentation
Principles of Consolidation
The consolidated financial statements include the accounts of Simpson Manufacturing Co., Inc. and its subsidiaries (the Company). Investments in 50% or less owned affiliates are accounted for using either cost or the equity method. All significant intercompany transactions have been eliminated.
Interim Period Reporting
The accompanying unaudited interim condensed consolidated financial statements have been prepared pursuant to the rules and regulations for reporting on Form 10-Q. Accordingly, certain information and footnotes required by accounting principles generally accepted in the United States of America (GAAP) have been condensed or omitted. These interim statements should be read in conjunction with the consolidated financial statements and the notes thereto included in the Company s Annual Report on Form 10-K for the fiscal year ended December 31, 2010 (the 2010 Annual Report).
The unaudited quarterly condensed consolidated financial statements have been prepared on the same basis as the audited annual consolidated financial statements and, in the opinion of management, contain all adjustments (consisting of only normal recurring adjustments) necessary to state fairly the financial information set forth therein, in accordance with GAAP. The year-end condensed consolidated balance sheet data were derived from audited financial statements, but do not include all disclosures required by GAAP. The Company s quarterly results fluctuate. As a result, the Company believes the results of operations for the interim periods are not necessarily indicative of the results to be expected for any future period.
Revenue Recognition
The Company recognizes revenue when the earnings process is complete, net of applicable provision for discounts, returns and incentives, whether actual or estimated, based on the Company is experience. This generally occurs when products are shipped to the customer in accordance

with the sales agreement or purchase order, ownership and risk of loss pass to the customer, collectibility is reasonably assured and pricing is fixed or determinable. The Company s general shipping terms are F.O.B. shipping point, where title is transferred and revenue is recognized when the products are shipped to customers. When the Company sells F.O.B. destination point, title is transferred and the Company recognizes revenue on delivery or customer acceptance, depending on terms of the sales agreement. Service sales, representing after-market repair and maintenance, engineering activities, software license sales and services and lease income, though significantly less than 1% of net sales and not material to the consolidated financial statements, are recognized as the services are completed or the software products and services are

delivered. If actual costs of sales returns, incentives and discounts were to significantly exceed the recorded estimated allowance, the Company s sales would be adversely affected.

Segment and Discontinued Operations Information

The Company had operated under two reportable segments, the connector products segment and the venting products segment. As set forth in Note 11 Discontinued Operations, on August 31, 2010, the Company sold substantially all of the assets and liabilities of its venting segment. Accordingly, the Company has classified the results of the venting products segment, including impairments and losses of goodwill and other assets, as discontinued operations in the Condensed Consolidated Statements of Operations for all periods presented. Except as otherwise stated below and except with respect to items reflected on the Company s Condensed Consolidated Balance Sheets, discussion in these notes pertains to the Company s continuing operations.

As a result of the sale of the assets of Simpson Dura-Vent Company, Inc (Simpson Dura-Vent), the Company has reorganized its operating segments into three reportable operating segments consisting of North America, Europe and Asia/Pacific.

Net Earnings (Loss) Per Common Share

Basic earnings (loss) per common share is computed based on the weighted average number of common shares outstanding. Potentially dilutive securities, using the treasury stock method, are included in the diluted per-share calculations for all periods when the effect of their inclusion is dilutive.

The following is a reconciliation of basic earnings (loss) per share (EPS) to diluted EPS:

(in thousands, except)		Three Montl March		nded		
per-share amounts)	201		31,	2010		
Earnings from continuing operations, net of tax	\$	7,078	\$	9,830		
Loss from discontinued operations, net of tax				(631)		
Net income available to common stockholders	\$	7,078	\$	9,199		
Basic weighted average shares outstanding		50,107		49,388		
Dilutive effect of potential common stock equivalents stock options		58		132		
Diluted weighted average shares outstanding		50,165		49,520		
Net earnings (loss) per share basic:						
Continuing operations	\$	0.14	\$	0.20		
Discontinued operations				(0.01)		
Net income		0.14		0.19		
Net earnings (loss) per share diluted:						
Continuing operations	\$	0.14	\$	0.20		
Discontinued operations	·			(0.01)		
Net income		0.14		0.19		
Potentially dilutive securities excluded from earnings per diluted share because their effect						
is anti-dilutive		1,743		1,066		

Anti-dilutive shares attributable to outstanding stock options were excluded from the calculation of diluted net income per share.

Accounting for Stock-Based Compensation

With the approval of the Company s stockholders on April 26, 2011, the Company adopted the Simpson Manufacturing Co., Inc. 2011 Incentive Plan (the 2011 Plan). The 2011 Plan amended and restated in their entirety, and incorporated and superseded, both the Simpson Manufacturing Co., Inc. 1994 Stock Option Plan (the 1994 Plan), which was principally for the Company s employees, and the Simpson Manufacturing Co., Inc. 1995 Independent Director Stock Option Plan (the 1995 Plan), which was for its independent directors. Options previously granted under the 1994 Plan or the 1995 Plan will not be affected by the adoption of the 2011 Plan and will continue to be governed by the 1994 Plan or the 1995 Plan, respectively.

Under the 1994 Plan, the Company could grant incentive stock options and non-qualified stock options, although the Company granted only non-qualified stock options under the 1994 Plan and the 1995 Plan. The Company generally granted options under each of the 1994 Plan and the 1995 Plan once each year. The exercise price per share of each option granted in February 2011 and February 2010 under the 1994 Plan equaled the closing market price per share of the Company s common stock as reported by the New York Stock Exchange on the day preceding the day that the Compensation and Leadership Development Committee of the Company s Board of Directors met to approve

the grant of the options. The exercise price per share under each option granted under the 1995 Plan is at the fair market value on the date specified in the 1995 Plan. Options vest and expire according to terms established at the grant date. Options granted under the 1994 Plan typically vest evenly over the requisite service period of four years and have a term of seven years. The vesting of options granted under the 1994 Plan will be accelerated if the grantee ceases to be employed by the Company after reaching age 60 or if there is a change in control of the Company. Options granted under the 1995 Plan are fully vested on the date of grant. Shares of common stock issued on exercise of stock options under the 1994 Plan and the 1995 Plan are registered under the Securities Act of 1933.

Under the 2011 Plan, the Company may grant incentive stock options, non-qualified stock options, restricted stock and restricted stock units, although the Company currently intends to award primarily restricted stock units and to a lesser extent, if at all, non-qualified stock options. The Company does not currently intend to award incentive stock options or restricted stock. Under the 2011 Plan, no more than 16.3 million shares of the Company s common stock may be issued (including shares already sold) pursuant to all awards under the 2011 Plan, including on exercise of options previously granted under the 1994 Plan and the 1995 Plan. The Company currently intends that shares of common stock to be issued pursuant to the 2011 Plan will be registered under the Securities Act of 1933.

The following table represents the Company s stock option activity, including both continuing and discontinued operations, for the three months ended March 31, 2011 and 2010:

		Three Mon Marc		
(in thousands)	:	2011	2	010
Stock option expense recognized in operating expenses	\$	1,449	\$	366
Tax benefit of stock option expense in provision for income taxes		522		110
Stock option expense, net of tax	\$	927	\$	256
Fair value of shares vested	\$	1,281	\$	382
Proceeds to the Company from the exercise of stock options	\$	154	\$	92
Tax effect from exercise of stock options, including shortfall tax benefits	\$	(39)	\$	(76)
		At Mai 2011	,	010
Stock option cost capitalized in inventory	\$	115	\$	61

The amounts included in cost of sales, research and development and other engineering, selling, or general and administrative expense depend on the job functions performed by the employees to whom the stock options were granted. The amounts attributed to discontinued operations were not significant for any of the periods presented.

The assumptions used to calculate the fair value of options granted are evaluated and revised, as necessary, to reflect market conditions and the Company's experience.

The Fair Value Measurements and Disclosures topic of the Financial Accounting Standards Board (FASARcounting Standards CodificationTM (ASC) establishes a valuation hierarchy for disclosure of the inputs used to measure fair value. This hierarchy prioritizes the inputs into three broad levels as follows: Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2 inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument; Level 3 inputs are unobservable inputs based on the Company s assumptions used to measure assets and liabilities at fair value. A financial asset s or liability s classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

8

As of March 31, 2011, the Company s investments consisted of only United States Treasury securities and money market funds aggregating \$215.4 million, which are maintained in cash equivalents and are carried at cost, approximating fair value, based on Level 1 inputs. There are no other recurring or non-recurring fair value measurements.

Income Taxes

The Company uses an estimated annual effective tax rate to measure the tax benefit or tax expense recognized in each interim period. The provision for income taxes for the first quarter of 2010, however, has been computed based on that quarter as a discrete period due to the uncertainty regarding the Company s ability to reliably estimate income before taxes during 2010, primarily as a result of uncertainty in the construction markets in which the Company operates.

The following table presents the Company s effective tax rates and income tax expense for the three months ended March 31, 2011 and 2010:

(in thousands, except)		Three Mon Marcl	ed	
percentage amounts)	201	1	2010	
Effective tax rate		42.6%		42.0%
Provision for income taxes	\$	5,263	\$	7,130

Recently Issued Accounting Standards

Recent authoritative guidance issued by the FASB (including technical corrections to the ASC), the American Institute of Certified Public Accountants, and the Securities and Exchange Commission did not or is not expected to have a material effect on the Company s consolidated financial statements.

2. Trade Accounts Receivable, Net

Trade accounts receivable consist of the following:

		At Mar		At December 31,

4. Property, Plant and Equipment, Net

Property, plant and equipment, net, consist of the following:

	At Mar	At December 31,	
(in thousands)	2011	2010	2010
Land	\$ 29,287	\$ 23,543	\$ 26,384
Buildings and site improvements	143,227	147,446	141,834
Leasehold improvements	3,794	3,819	3,693
Machinery and equipment	187,819	225,594	186,021
	364,127	400,402	357,932
Less accumulated depreciation and amortization	(194,869)	(220,303)	(189,751)
	169,258	180,099	168,181
Capital projects in progress	15,348	20,876	8,891
	\$ 184,606	\$ 200,975	\$ 177,072

The Company s vacant facilities in San Leandro, California, and in France, remained classified as assets held for sale at March 31, 2011, consistent with the classification at December 31, 2010. In April 2011, the facility in France was sold for its approximate carrying cost. If the Company concludes that the San Leandro facility is expected to be sold below carrying value, the Company will record an impairment charge equal to the amount by which carrying value exceeds net estimated realizable value. An impairment charge, if any, is not expected to be material to the Company s results of operations.

5. Investments

Equity Method Investment

At December 31, 2010, the Company had a 40.6% equity interest in Keymark Enterprises, LLC (Keymark), for which the Company accounts using the equity method. Keymark develops software that assists in designing and engineering residential structures. The Company's relationship with Keymark includes the specification of the Company's products in the Keymark software. The Company has no obligation to make any additional capital contributions to Keymark. In March 2011, Keymark's other owner defaulted on its loan and pledge agreement, entered into with the Company in October 2008, for the payment of the remaining balance of \$0.7 million that was due in March 2011. As a result, the Company was assigned an additional 5.5% equity interest pursuant to the pledge agreement, which discharged the remaining debt. The Company's equity interest in Keymark is now 46.1%.

6. Goodwill and Intangible Assets, Net

Goodwill was as follows:

Edgar Filing: SIMPSON MANUFACTURING CO INC /CA/ - Form 10-Q

		At Mar	At December 31,			
(in thousands)		2011		2010		2010
North America	\$	41.871	\$	41.697	\$	41,761
Europe	Ψ	27,500	Ψ	31,730	Ψ	26,367
Asia/Pacific		1,967		1,746		1,941
Venting products (discontinued operations)				4,435		
Total	\$	71,338	\$	79,608	\$	70,069

Intangible assets, net, were as follows:

		At March 31, 2011							
(in thousands)	C	Gross Carrying Amount		cumulated nortization		Net Carrying Amount			
North America	\$	24,022	\$	(11,443)	\$	12,579

Total	\$	39,701	\$	(12,812)	\$	26,889	

		At Dece	ember 31, 2010			
	Gross Carrying Amount		cumulated nortization	Net Carrying Amount		
North America	\$ 24,022	\$	(10,792)	\$	13,230	
Europe	14,632		(4,396)		10,236	
Total	\$ 38,654	\$	(15,188)	\$	23,466	

Intangible assets consist primarily of customer relationships, patents, unpatented technology and non-compete agreements. Amortization expense, for continuing and discontinued operations, for intangible assets during the three months ended March 31, 2011 and 2010, totaled \$1.1 million and \$1.3 million.

At March 31, 2011, estimated future amortization of intangible assets was as follows:

(in thousands)

Final nine months of 2011	\$ 3,301
2012	3,937
2013	3,370
2014	3,151
2015	2,410
2016	2,269
Thereafter	4,458
	\$ 22,896

The changes in the carrying amount of goodwill and intangible assets from December 31, 2010, to March 31, 2011, were as follows:

			Intangible
(in thousands)	Go	odwill	Assets
Balance at December 31, 2010	\$	70,069 \$	23,466

Reclassification		(227)	
Foreign exchange		1,496	528
Balance at March 31, 2011	\$	71,338 \$	22,896

7. Debt

The Company has revolving lines of credit with different banks in the United States and Europe. The Company s primary credit facility, a revolving line of credit with \$200.0 million in available credit, charges interest at LIBOR plus 0.27% (at March 31, 2011, LIBOR plus 0.27% was 0.51%), expires in October 2012, and has commitment fees payable at the annual rate of 0.08% on the unused portion of the facility. Other revolving credit lines, with combined available credit of \$4.7 million at March 31, 2011, charge interest ranging from 2.0% to 3.5% and have various maturity dates. There were no outstanding balances at March 31, 2011 and 2010, or December 31, 2010.

8. Commitments and Contingencies

Note 9 to the consolidated financial statements in the 2010 Annual Report provides information concerning commitments and contingencies. From time to time, the Company is involved in various legal proceedings and other matters arising in the normal course of business. The resolution of claims and litigation is subject to inherent uncertainty and could have a material adverse effect on the Company s financial condition, cash flows and results of operations.

The Company s policy with regard to environmental liabilities is to accrue for future environmental assessments and remediation costs when information becomes available that indicates that it is probable that the Company is liable for any related claims and assessments and the amount of the liability is reasonably estimable. The Company does not believe that these environmental matters will have a material adverse effect on the Company s financial condition, cash flows or results of operations.

Corrosion, hydrogen enbrittlement, cracking, material hardness, wood pressure-treating chemicals, misinstallations, misuse, design and assembly flaws, environmental conditions or other factors can contribute to failure of fasteners, connectors, tools and venting products. On occasion, some of the fasteners and connectors that the Company sells have failed, although the Company has not incurred any material liability resulting from those failures. The Company attempts to avoid such failures by establishing and monitoring appropriate product specifications, manufacturing quality control procedures, inspection procedures and information on appropriate installation methods and conditions. The Company subjects its products to extensive testing, with results and conclusions published in Company catalogues and on its websites.

Pending Claims

Four lawsuits (the Cases) have been filed against the Company in the Hawaii First Circuit Court: *Alvarez v. Haseko Homes, Inc.*, and Simpson Manufacturing, Inc., Civil No. 09-1-2697-11 (Case 1); Ke Noho Kai Development, LLC v. Simpson Strong-Tie Company, Inc., and Honolulu Wood Treating Co., LTD., Case No. 09-1-1491-06 SSM (Case 2); North American Specialty Ins. Co. v. Simpson Strong-Tie Company, Inc. and K.C. Metal Products, Inc., Case No. 09-1-1490-06 VSM (Case 3); and Charles et al. v. Haseko Homes, Inc. et al. and Third Party Plaintiffs Haseko Homes, Inc. et al. v. Simpson Strong-Tie Company, Inc., et al., Civil No. 09-1-1932-08 (Case 4). Case 1 was filed on November 18, 2009. Cases 2 and 3 were originally filed on June 30, 2009. Case 4 was filed on August 19, 2009. The Cases all relate to alleged premature corrosion of the Company s strap tie holdown products installed in buildings in a housing development known as Ocean Pointe in Honolulu, Hawaii, allegedly causing property damage. Case 1 is a putative class action brought by the owners of allegedly affected Ocean Pointe houses. Case 1 was originally filed as Kai et al. v. Haseko Homes, Inc., Haseko Construction, Inc. and

Simpson Manufacturing, Inc., Case No. 09-1-1476, but was voluntarily dismissed and then re-filed with a new representative plaintiff. Case 2 is an action by the builders and developers of Ocean Pointe against the Company, claiming that either the Company s strap tie holdowns are defective in design or manufacture or the Company failed to provide adequate warnings regarding the products—susceptibility to corrosion in certain environments. Case 3 is a subrogation action brought by the insurance company for the builders and developers against the Company claiming the insurance company expended funds to correct problems allegedly caused by the Company—s products. Case 4, like Case 1, is a putative class action brought by owners of allegedly affected Ocean Pointe homes. In Case 4, Haseko Homes, Inc. (Haseko—), the developer of the Ocean Pointe development, has brought a third party complaint against the Company alleging that any damages for which Haseko may be liable are actually the fault of the Company. None of the Cases alleges a specific amount of damages sought, although each of the Cases seeks compensatory damages, and Case 1 seeks punitive damages. The Company is currently investigating the facts underlying the claims asserted in the Cases, including, among other things, the cause of the alleged corrosion; the severity of any problems shown to exist; the buildings affected; the responsibility of the general contractor, various subcontractors and other construction professionals for the alleged damages; the amount, if any, of damages suffered; and the costs of repair, if needed. At this time, the likelihood that the Company will be found liable for any property damage allegedly suffered and the extent of such liability, if any, are unknown. The Company intends to defend itself vigorously in connection with the Cases.

Based on facts currently known to the Company, the Company believes that all or part of the claims alleged in the Cases may be covered by its insurance policies. On April 19, 2011, an action was filed in the United States District Court for the District of Hawaii, *National Union Fire Insurance Company of Pittsburgh, PA v. Simpson Manufacturing Company, Inc., et al.*, Civil No. 11-00254 ACK. In this action, Plaintiff National Union Fire Insurance Company of Pittsburgh, Pennsylvania (National Union), which issued certain Commercial General Liability insurance policies to the Company, seeks declaratory relief in the Cases with respect to its obligations to defend or indemnify the Company, Simpson Strong-Tie Company Inc., and a vendor of the Company s strap tie holdown products. The Company has not yet appeared in this action, but anticipates that it will vigorously defend the allegations and file counterclaims against National Union.

On October 28, 2009, a patent infringement lawsuit, entitled *Ei-Land Corporation v. Simpson Strong-Tie Company Inc., Simpson Manufacturing Co., Inc., et at.*, was filed against the Company in the United States District Court, for the Eastern District of Texas, Marshall Division, 2:09-cv-00337-TJW. In this action, Plaintiff alleges that the Company s Steel Strong Wall® product infringes several claims of a patent owned by Plaintiff seeks monetary damages in the form of a reasonable royalty based on the Company s manufacture and sale of the allegedly infringing product. Plaintiff does not manufacture the invention disclosed by the patent-in-suit. The Company denies the allegations of the Plaintiff s complaint and has counterclaimed on the ground that the patent-in-suit is invalid. Trial is set to begin on April 2, 2012. At this time, liability, if any, is unknown.

9. Stock-Based Incentive Plans

The Company currently has one stock-based incentive plan, which incorporates and supersedes its two previous plans (see Note 1 Basis of Presentation Accounting for Stock-Based Compensation). Participants are granted stock-based awards only if the applicable Company-wide or profit-center operating goals, or both, established by the Compensation and Leadership Development Committee of the Board of Directors at the beginning of the year, are met.

The fair value of each stock option award was estimated on the date of grant using the Black-Scholes option pricing model. Expected volatility is based on historical volatilities of the Company s common stock measured monthly over a term that is equivalent to the expected life of the award. The expected term of awards granted is estimated based on the Company s prior exercise experience and future expectations of the exercise and termination behavior of the grantees. The risk-free rate is based on the yield of United States Treasury zero-coupon bonds with maturities comparable to the expected life in effect at the time of grant. The dividend yield is based on the expected dividend yield on the grant date.

Black-Scholes option pricing model assumptions for options granted in 2011 and 2010 are as follows:

Number of Options Granted (in thousands)	Grant Date	Risk- Free Interest Rate	Dividend Yield	Expected Life	Volatility	Exercise Price	Weighted Average Fair Value
1994 Plan							
1,362	02/03/11	2.62%	1.75%	6.2 years	39.0%	\$29.66 to \$32.63	\$ 10.33
148	02/02/10	2.93%	1.62%	6.5 years	36.0%	\$24.75	\$ 8.46
1995 Plan							
30	02/15/11	2.92%	1.76%	6.6 years	38.0%	\$29.58	\$ 10.49

No options were granted under the 1995 Plan in 2010.

The following table summarizes the Company s stock option activity for the three months ended March 31, 2011:

Non-Oualified Stock Options	Shares (in thousands)	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Life (in years)	Aggregate Intrinsic Value * (in thousands)
Outstanding at January 1, 2011	1,124	\$ 34.19	` • ´	`
Granted	1,392	29.66		
Exercised	(7)	23.74		
Forfeited	(8)	36.31		
Outstanding at March 31, 2011	2,501	\$ 31.69	4.8	\$ 1,478
Outstanding and expected to vest at March 31,				
2011	2,440	\$ 31.76	4.8	\$ 1,431
Exercisable at March 31, 2011	1,010	\$ 35.56	2.1	\$ 613

^{*} The intrinsic value represents the amount, if any, by which the fair market value of the underlying common stock exceeds the exercise price of the option, using the closing price per share of \$29.46 as reported by the New York Stock Exchange on March 31, 2011.

The total intrinsic value of options exercised during the three months ended March 31, 2011 and 2010, was \$40 thousand and \$11 thousand, respectively.

A summary of the status of unvested options as of March 31, 2011, and changes during the three months ended March 31, 2011, are presented below:

	Shares	Weighted- Average Grant-Date
Unvested Options	(in thousands)	Fair Value
Unvested at January 1, 2011	180 \$	7.85
Granted	1,392	10.33
Vested	(80)	9.97
Forfeited	(1)	6.55
Unvested at March 31, 2011	1,491 \$	10.06

As of March 31, 2011, \$10.7 million of total unrecognized compensation cost was related to unvested share-based compensation arrangements under the 1994 Plan. This cost is expected to be recognized over a weighted-average period of 3.8 years. Options granted under the 1995 Plan are fully vested and are expensed on the date of grant.

10. Segment Information

The Company is organized into three reportable segments. The segments are defined by the regions where the Company s products are manufactured, marketed and distributed to the Company s customers. The three regional segments are the North American segment, comprising primarily the United States and Canada, the European segment and the Asia/Pacific segment, comprising the Company s operations in China, Hong Kong, the south Pacific and the Middle East. These segments are similar in several ways, including the types of materials, the production processes, the distribution channels and the product applications.

The following table illustrates certain measurements used by management to assess the performance as of or for the following periods:

	Three Months Ended March 31,		
(in thousands)	2011		2010
Net Sales			
North America	\$ 104,622	\$	100,531
Europe	25,798		21,111
Asia/Pacific	1,877		2,178
Administrative and all other	239		
Total	\$ 132,536	\$	123,820
Sales to Other Segments*			
North America	\$ 1,322	\$	642
Europe	81		52
Asia/Pacific	2,111		1,653
Total	\$ 3,514	\$	2,347
Income (Loss) from Operations			
North America	\$ 15,091	\$	20,223
Europe	(1,454)		(1,837)
Asia/Pacific	(712)		(192)

Administrative and all other	(642)	(1,102)
Total	\$ 12,283	\$ 17,092

^{*} The sales to other segments are eliminated on consolidation.

15

(in thousands)	At Mai 2011	rch 31,	2010	At December 31, 2010
Total Assets	2011		2010	2010
North America	\$ 566,939	\$	523,069	\$ 557,762
Europe	135,146		124,084	123,669
Asia/Pacific	24,856		21,274	25,576
Administrative and all other	156,229		167,526	167,702
Total	\$ 883,170	\$	835,953	\$ 874,709

Total assets from discontinued operations of \$69.5 million at March 31, 2010, are included in Administrative and all other. Cash collected by the Company's United States subsidiaries is routinely transferred into the Company's cash management accounts and, therefore, has been included in the total assets of Administrative and all other. Cash and cash equivalent balances in the Administrative and all other segment were \$237.9 million, \$160.6 million, and \$274.6 million, as of March 31, 2011 and 2010, and December 31, 2010, respectively. Real estate assets previously allocated to the venting products segment have been allocated to the Administrative and all other as of August 31, 2010. See Note 11.

11. Discontinued Operations

On August 31, 2010, the Company sold substantially all of the assets and liabilities of Simpson Dura-Vent pursuant to an agreement dated June 30, 2010, with M&G Holding B.V. (M&G) and M&G Dura-Vent, Inc. The Company decided to sell the assets of Simpson Dura-Vent in order to focus exclusively on the development of its profitable connector products business. Simpson Dura-Vent represented the Company s entire venting operating segment.

The results from discontinued operations for the three months ended March 31, 2010, was as follows:

(in thousands)

Revenues	\$ 10,080
Cost of sales	8,673
Gross profit	1,407
Operating and other expenses	2,455
Loss from discontinued operations	(1,048)
Benefit from income taxes from discontinued operations	(417)
Loss from discontinued operations, net of tax	\$ (631)

12. Subsequent Events

In April 2011, the Company s Board of Directors declared a cash dividend of \$0.125 per share, estimated to total \$6.3 million, to be paid on July 28, 2011, to stockholders of record on July 7, 2011.

In April 2011, the Company s stockholders approved and the Company adopted the Simpson Manufacturing Co., Inc. 2011 Incentive Plan (see Note 1 Basis of Presentation Accounting for Stock-Based Compensation).

Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations.

This document contains forward-looking statements, based on numerous assumptions and subject to risks and uncertainties. Although the Company believes that the forward-looking statements are reasonable, it does not and cannot give any assurance that its beliefs and expectations will prove to be correct. Many factors could significantly affect the Company's operations and cause the Company's actual results to be substantially different from the Company's expectations. See Part II, Item 1A - Risk Factors. Actual results might differ materially from results suggested by any forward-looking statements in this report. The Company does not have an obligation to publicly update any forward-looking statements, whether as a result of the receipt of new information, the occurrence of future events or otherwise.

The following is a discussion and analysis of the consolidated financial condition and results of continuing operations for the Company for the three months ended March 31, 2011 and 2010. The following should be read in conjunction with the interim Condensed Consolidated Financial Statements and related Notes appearing elsewhere herein.

Results of Continuing Operations for the Three Months Ended March 31, 2011, Compared with the Three Months Ended March 31, 2010

Income from operations decreased 28.1% from \$17.1 million in the first quarter of 2010 to \$12.3 million in the first quarter of 2011. The following table illustrates the change in the Company s continuing operations from the three months ended March 31, 2010, to March 31, 2011, and the increases or decreases for each category by segment.

	Three Months Ended March 31,

The following table represents net sales by segment for the three months ended March 31, 2010 and 2011:

	North				Asia/		Admin &	
(in thousands)	America		Europe		Pacific		All Other	Total
Three months ended:								
March 31, 2010	\$ 100,531	\$	21,111	\$	2,178	\$		\$ 123,820
March 31, 2011	104,622		25,798		1,877		239	132,536
Increase (decrease)	4,091		4,687		(301)		239	8,716
Percentage increase (decrease)	4.1%)	22.2%)	(13.8)%	ó		7.0%

Net sales increased 7.0% from \$123.8 million in the first quarter of 2010 to \$132.5 million in the first quarter of 2011. The increase in net sales resulted from increases in both sales volume and average prices, as average prices increased 4.0% as compared to the first quarter of 2010. The Company had income, net of tax, of \$7.1 million for the first quarter of 2011 compared to income, net of tax, of \$9.8 million for the first quarter of 2010. Diluted income, net of tax, was \$0.14 per common share for the first quarter of 2011 compared to diluted income, net of tax, of \$0.20 per common share for the first quarter of 2010.

In the first quarter of 2011, sales increased throughout most of North America and increased significantly in Europe. Sales increased in the United States with increases in California, the midwestern, southeastern and northeastern regions as compared to the first quarter of 2010, partly offset by decreases in the western region excluding California. Sales in Canada decreased compared to the first quarter of 2010. Sales in Asia and Australia, although relatively small, decreased as compared to the first quarter of 2010. Sales to contractor distributors, dealer distributors, lumber dealers and home centers increased, although economic conditions remain challenging. The sales increase was broad-based across most of the Company s major product lines as compared to the first quarter of 2010. Sales of anchor products and shearwalls also increased over the same period.

The following table represents gross profit by segment for the three months ended March 31, 2010 and 2011:

		North			Asia/		Admin &	
(in thousands)	A	America		Europe	Pacific		All Other	Total
Three months ended:								
March 31, 2010	\$	46,828	\$	6,381	\$ 671	\$	147	\$ 54,027
March 31, 2011		48,479		8,090	223		156	56,948
Increase (decrease)		1,651		1,709	(448)		9	2,921
Percentage increase (decrease)		3.5%)	26.8%	(66.7)%	6	6.1%	5.4%

Gross margins decreased slightly from 43.6% in the first quarter of 2010 to 43.0% in the first quarter of 2011, primarily due to higher factory overhead costs. Steel prices increased from their levels in mid-2010, as steel mills have been raising prices as demand returns to global steel markets. The Company expects steel prices to remain at current levels or to increase throughout 2011. The Company s inventories increased 9.6% from \$152.3 million at December 31, 2010, to \$167.0 million at March 31, 2011, primarily due to purchases of raw materials.

Research and development and engineering expense increased 26.4% from \$4.7 million in the first quarter of 2010 to \$6.0 million in the first quarter of 2011, including increases in personnel costs of \$0.8 million, professional services of \$0.3 million and cash profit sharing of \$0.2 million. Selling expense increased 14.8% from \$14.9 million in the first quarter of 2010 to \$17.1 million in the first quarter of 2011, including increases in personnel costs of \$1.3 million, cash profit sharing and commissions of \$0.5 million, and promotional costs of \$0.2 million. General and administrative expense increased 27.7% from \$16.9 million in the first quarter of 2010 to \$21.6 million in the first quarter of 2011, including

increases in cash profit sharing of \$1.1 million, stock option expense of \$0.8 million, personnel costs of \$0.8 million, professional fees of \$0.7 million, provision for bad debt of \$0.5 million and various other items. The changes in operating costs were mostly attributable to the North American segment. The effective tax rate was 42.6% in the first quarter of 2011, as compared to 42.0% in the first quarter of 2010.

Critical Accounting Policies and Estimates

The Company did not make any significant changes to its critical accounting policies and estimates during the three months ended March 31, 2011, from those disclosed in Item 7. Management s Discussion and Analysis of Financial Condition and Results of Operations, included in the Company s Annual Report on Form 10-K for the fiscal year ended December 31, 2010. Recent authoritative guidance issued by the FASB (including technical corrections to the ASC), the American Institute of Certified Public Accountants, and the Securities and Exchange Commission did not or is not expected to have a material effect on the Company s consolidated financial statements.

Liquidity and Sources of Capital

As of March 31, 2011, working capital was \$512.4 million as compared to \$446.3 million at March 31, 2010, and \$511.6 million at December 31, 2010. The increase in working capital from December 31, 2010, was primarily due to increases in net trade accounts receivable of \$22.8 million and inventories of \$14.7 million, and a decrease in trade accounts payable of \$5.3 million. Net trade accounts receivable increased 33.4% from December 31, 2010, as a result of increased sales in the latter part of the first quarter of 2011 compared to the latter part of the fourth quarter of 2010. Raw material inventories increased 14.2% as compared to December 31, 2010, and in-progress and finished goods inventories increased 6.5% over the same period. These increases in working capital were partly offset by decreases in cash and cash equivalents of \$33.8 million, other current assets of \$2.8 million and available for sale assets of \$1.6 million, and an increase in accrued cash profit sharing and commissions of \$2.6 million. The balance of the change in working capital was due to the fluctuation of various other asset and liability accounts, none of which was individually material. The working capital change and changes in noncurrent assets and liabilities, combined with net income of \$7.1 million and noncash expenses, primarily depreciation, amortization and stock-based compensation charges totaling \$6.5 million, resulted in net cash used by operating activities of \$22.4 million. As of March 31, 2011, the Company had unused credit facilities available of \$204.7 million.

The Company s investing activities used cash of \$8.3 million. The Company s capital expenditures were primarily to improve its facility in San Bernardino, California, and to acquire real estate in Germany, and the cash received was primarily from the sale of a facility in Visalia, California. The Company estimates that its full-year capital spending will total between \$33 million and \$35 million in 2011.

The Company s vacant facility in San Leandro, California, remained classified as an asset held for sale as of March 31, 2011, consistent with the classification at December 31, 2010. If the Company concludes that the San Leandro facility is expected to be sold below carrying value, the Company will record an impairment charge equal to the amount by which carrying value exceeds net estimated realizable value. An impairment charge, if any, is not expected to be material to the Company s results of operations.

The Company s financing activities used net cash of \$4.9 million. The payments of cash dividends in the amount of \$5.0 million were the primary use of cash. Cash was provided from the issuance of the Company s common stock through the exercise of stock options totaling \$0.2 million. In April 2011, the Company s Board of Directors declared a cash dividend of \$0.125 per share, estimated to total \$6.3 million, to be paid on July 28, 2011, to stockholders of record on July 7, 2011.

The Company believes that cash generated by operations and borrowings available under its credit facility will be sufficient for the Company s working capital needs and planned capital expenditures for the next 12 months. Depending, however, on the Company s future growth and possible acquisitions, it may become necessary to secure additional sources of financing, which may not be available on reasonable terms, or at all.

The Company believes that the effect of inflation on the Company has not been material in recent years, as general inflation rates have remained relatively low. Because, however, the Company s main raw material is steel, increases in steel prices may adversely affect the Company s gross margins if it cannot recover the higher costs through price increases.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The Company has foreign exchange rate risk in its international operations, primarily Europe and Canada, and through purchases from foreign vendors. The Company does not currently hedge this risk. If the exchange rate were to change by 10% in any one country or currency where the Company has operations, the change in net income would not be material to the Company s operations as a whole. The translation adjustment resulted in an increase in accumulated other comprehensive income of \$6.9 million for the three months ended March 31, 2011, primarily due to the effect of the weakening of the United States dollar in relation to the Canadian and European currencies.

Item 4. Controls and Procedures.

Disclosure Controls and Procedures. As of March 31, 2011, an evaluation of the effectiveness of the design and operation of the Company s disclosure controls and procedures was performed under the supervision and with the participation of the Company s management, including the chief executive officer (CEO) and the chief financial officer (CFO). Based on that evaluation, the CEO and the CFO concluded that the Company s disclosure controls and procedures were effective at the reasonable assurance level as of that date and that the Company s disclosure controls and procedures at that date were designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission s rules and forms, including ensuring that information required to be disclosed by the Company in such reports is accumulated and communicated to the Company s management, including the CEO and the CFO, as appropriate to allow timely decisions regarding required disclosures.

The Company s management, including the CEO and the CFO, does not, however, expect that the Company s disclosure controls and procedures or the Company s internal control over financial reporting will necessarily prevent all fraud and material errors. An internal control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. In addition, the design of a control system must reflect the facts that there are resource constraints and that the benefits of controls must be considered relative to their costs. The inherent limitations in an internal control system include the realities that judgments can be faulty and that breakdowns can occur because of simple error or mistake. Controls also can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of controls. The design of any system of internal control is also based in part on assumptions about the likelihood of future events, and there can be only reasonable, not absolute, assurance that any design will succeed in achieving its stated goals under all potential events and conditions. Over time, controls may become inadequate because of changes in circumstances, or the degree of compliance with the policies and procedures may deteriorate.

Changes in Internal Control over Financial Reporting. During the three months ended March 31, 2011, the Company made no changes to its internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934) that have materially affected, or are reasonably likely to materially affect, its internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings.

From time to time, the Company is involved in various legal proceedings and other matters arising in the normal course of business.

Four lawsuits (the Cases) have been filed against the Company in the Hawaii First Circuit Court: Alvarez v. Haseko Homes, Inc. and Simpson Manufacturing, Inc., Civil No. 09-1-2697-11 (Case 1); Ke Noho Kai Development, LLC v. Simpson Strong-Tie Company, Inc., and Honolulu Wood Treating Co., LTD., Case No. 09-1-1491-06 SSM (Case 2); North American Specialty Ins. Co. v. Simpson Strong-Tie Company, Inc. and K.C. Metal Products, Inc., Case No. 09-1-1490-06 VSM (Case 3); and Charles et al. v. Haseko Homes, Inc. et al. and Third Party Plaintiffs Haseko Homes, Inc. et al. v. Simpson Strong-Tie Company, Inc., et al., Civil No. 09-1-1932-08 (Case 4). Case 1 was filed on November 18, 2009. Cases 2 and 3 were originally filed on June 30, 2009. Case 4 was filed on August 19, 2009. The Cases all relate to alleged premature corrosion of the Company s strap tie holdown products installed in buildings in a housing development known as Ocean Pointe in Honolulu, Hawaii, allegedly causing property damage. Case 1 is a putative class action brought by the owners of allegedly affected Ocean Pointe houses. Case 1 was originally filed as Kai et al. v. Haseko Homes, Inc., Haseko Construction, Inc. and Simpson Manufacturing, Inc., Case No. 09-1-1476, but was voluntarily dismissed and then re-filed with a new representative plaintiff. Case 2 is an action by the builders and developers of Ocean Pointe against the Company, claiming that either the Company s strap tie holdowns are defective in design or manufacture or the Company failed to provide adequate warnings regarding the products susceptibility to corrosion in certain environments. Case 3 is a subrogation action brought by the insurance company for the builders and developers against the Company claiming the insurance company expended funds to correct problems allegedly caused by the Company s products. Case 4, like Case 1, is a putative class action brought by owners of allegedly affected Ocean Pointe homes. In Case 4, Haseko Homes, Inc. (Haseko), the developer of the Ocean Pointe development, has brought a third party complaint against the Company alleging that any damages for which Haseko may be liable are actually the fault of the Company. None of the Cases alleges a specific amount of damages sought, although each of the Cases seeks compensatory damages, and Case 1 seeks punitive damages. The Company is currently investigating the facts underlying the claims asserted in the Cases, including, among other things, the cause of the alleged corrosion; the severity of any problems shown to exist; the buildings affected; the responsibility of the general contractor, various subcontractors and other construction professionals for the alleged damages; the amount, if any, of damages suffered; and the costs of repair, if needed. At this time, the likelihood that the Company will be found liable for any property damage allegedly suffered and the extent of such liability, if any, are unknown. The Company intends to defend itself vigorously in connection with the Cases.

Based on facts currently known to the Company, the Company believes that all or part of the claims alleged in the Cases may be covered by its insurance policies. On April 19, 2011, an action was filed in the United States District Court for the District of Hawaii, *National Union Fire Insurance Company of Pittsburgh, PA v. Simpson Manufacturing Company, Inc., et al.*, Civil No. 11-00254 ACK. In this action, Plaintiff National Union Fire Insurance Company of Pittsburgh, Pennsylvania (National Union), which issued certain Commercial General Liability insurance policies to the Company, seeks declaratory relief in the Cases with respect to its obligations to defend or indemnify the Company, Simpson Strong-Tie Company Inc., and a vendor of the Company s strap tie holdown products. The Company has not yet appeared in this action, but anticipates that it will vigorously defend the allegations and file counterclaims against National Union.

On October 28, 2009, a patent infringement lawsuit, entitled *Ei-Land Corporation v. Simpson Strong-Tie Company Inc., Simpson Manufacturing Co., Inc., et at.*, was filed against the Company in the United States District Court, for the Eastern District of Texas, Marshall Division, 2:09-cv-00337-TJW. In this action, Plaintiff alleges that the Company s Steel Strong Wall® product infringes several claims of a patent owned by Plaintiff seeks monetary damages in the form of a reasonable royalty based on the Company s manufacture and sale of the allegedly infringing product. Plaintiff does not manufacture the invention disclosed by the patent-in-suit. The Company denies the allegations of the Plaintiff s complaint and has counterclaimed on the ground that the patent-in-suit is invalid. Trial is set to begin on April 2, 2012.

The Company is not engaged in any other legal proceedings as of the date hereof, which the Company expects individually or in the aggregate to have a material adverse effect on the Company s financial condition, cash flows or results of operations. The resolution of claims and litigation is subject to inherent uncertainty and could have a material adverse effect on the Company s financial condition, cash flows or results of operations.

Item 1A. Risk Factors

We are affected by risks specific to us, as well as risks that affect all businesses operating in global markets. Some of the significant factors that could materially adversely affect our business, financial condition and operating results appear in Item 1A. Risk Factors of our most recent Annual Report on Form 10-K (available at www.simpsonmfg.com/docs/10K-2010.pdf or www.sec.gov).

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

In February 2011, the Board of Directors authorized the Company to repurchase up to \$100.0 million of the Company s common stock. This replaced the \$50.0 million repurchase authorization from December 2009. The authorization will remain in effect through the end of 2011. The Company did not repurchase any of its common stock in the first three months of 2011.

Item 6. Exhibits.

The following exhibits are either incorporated by reference into this report or filed with this report, as indicated below.

- 3.1 Certificate of Incorporation of Simpson Manufacturing Co., Inc., as amended, is incorporated by reference to Exhibit 3.1 of its Quarterly Report on Form 10-Q for the quarter ended September 30, 2007.
- 3.2 Bylaws of Simpson Manufacturing Co., Inc., as amended through December 13, 2010, are incorporated by reference to Exhibit 3.2 of its Current Report on Form 8-K dated December 16, 2010.
- 4.1 Amended Rights Agreement dated as of June 15, 2009, between Simpson Manufacturing Co., Inc. and Computershare Trust Company, N.A., which includes as Exhibit B the form of Rights Certificate, is incorporated by reference to Exhibit 4.1 of Simpson Manufacturing Co., Inc. s Registration Statement on Form 8-A/A dated June 15, 2009.
- 4.2 Certificate of Designation, Preferences and Rights of Series A Participating Preferred Stock of Simpson Manufacturing Co., Inc., dated July 30, 1999, is incorporated by reference to Exhibit 4.2 of its Registration Statement on Form 8-A dated August 4, 1999.
- 4.3 Simpson Manufacturing Co., Inc. 401(k) Profit Sharing Plan for Salaried Employees is incorporated by reference to Exhibit 4.3 of Simpson Manufacturing Co., Inc. s Registration Statement on Form S-8, File Number 333-173811, dated April 29, 2011.

4.4 Simpson Manufacturing Co., Inc. 401(k) Profit Sharing Plan for Hourly Employees is incorporated by reference to Exhibit 4.4 of Simpson Manufacturing Co., Inc. s Registration Statement on Form S-8, File Number 333-173811, dated April 29, 2011.
10.1 Simpson Manufacturing Co., Inc. 1994 Stock Option Plan, as amended through February 13, 2008, is incorporated by reference to Exhibit 10.1 of Simpson Manufacturing Co., Inc. s Quarterly Report on Form 10-Q for the quarter ended June 30, 2008.
10.2 Simpson Manufacturing Co., Inc. 1995 Independent Director Stock Option Plan, as amended through November 18, 2004, is incorporated by reference to Exhibit 10.2 of Simpson Manufacturing Co., Inc. s Quarterly Report on Form 10-Q for the quarter ended June 30, 2008.
10.3 Simpson Manufacturing Co., Inc. Executive Officer Cash Profit Sharing Plan, as amended through February 25, 2008, is incorporated by reference to Exhibit 10.3 of Simpson Manufacturing Co., Inc. s Quarterly Report on Form 10-Q for the quarter ended June 30, 2008.

10.4 Credit Agreement dated as of October 10, 2007, among Simpson Manufacturing Co., Inc. as Borrower, the Lenders party thereto, Wells Fargo Bank as Agent, and Simpson Strong Tie Company Inc., and Simpson Strong-Tie International, Inc. as Guarantors, is incorporated by reference to Exhibit 10.4 of Simpson Manufacturing Co., Inc. s Quarterly Report on Form 10-Q for the quarter ended June 30, 2010.
Form of Indemnification Agreement between Simpson Manufacturing Co., Inc. and its directors and executive officers, as well as the officers of Simpson Strong-Tie Company Inc. and Simpson Dura-Vent Company, Inc., is incorporated by reference to Exhibit 10.2 of Simpson Manufacturing Co., Inc. s Annual Report on Form 10-K for the year ended December 31, 2004.
10.6 Compensation of Named Executive Officers is incorporated by reference to Exhibit 10 of Simpson Manufacturing Co., Inc. s Current Report on Form 8-K dated February 8, 2011.
10.7 Simpson Manufacturing Co., Inc. 2011 Incentive Plan is incorporated by reference to Exhibit A of Simpson Manufacturing Co., Inc. s Schedule 14A Proxy Statement dated March 10, 2011.
31. Rule 13a-14(a)/15d-14(a) Certifications are filed herewith.
32. Section 1350 Certifications are filed herewith.
99.1 Simpson Manufacturing Co., Inc. 1994 Employee Stock Bonus Plan, as amended through November 18, 2004, is incorporated by reference to Exhibit 99.1 of Simpson Manufacturing Co., Inc. s Annual Report on Form 10-K for the year ended December 31, 2007.
Financial statements from the quarterly report on Form 10-Q of Simpson Manufacturing Co., Inc. for the quarter ended March 31, 2011, formatted in XBRL, are filed herewith and include: (i) the Condensed Consolidated Balance Sheets, (ii) the Condensed Consolidated Statements of Operations, (iii) the Condensed Consolidated Statements of Stockholders Equity, (iv) the Condensed Consolidated Statements of Cash Flows and (v) the Notes to Condensed Consolidated Financial Statements tagged as blocks of text.
