Table of Contents

**Accuray Incorporated**

**Notes to Condensed Consolidated Financial Statements**

**(Unaudited)**

**1. Summary of Significant Accounting Policies**

**Description of Business**

Accuray Incorporated (together with its subsidiaries, the Company or Accuray) is incorporated in Delaware. The Company designs, develops and sells advanced radiosurgery and radiation therapy systems for the treatment of tumors throughout the body. The Company conducts its business worldwide. The Company has its headquarters in Sunnyvale, California, with additional locations worldwide.

**Basis of Presentation and Principles of Consolidation**

The condensed consolidated financial statements include the accounts of the Company, its wholly-owned subsidiaries and a variable interest entity, Compact Particle Acceleration Corporation (CPAC) until its deconsolidation on December 21, 2012 (for further information, see Note 9). All significant inter-company transactions and balances have been eliminated in consolidation.

The accompanying condensed consolidated financial statements have been prepared in accordance with United States generally accepted accounting principles (GAAP), pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC). Certain information and note disclosures have been condensed or omitted pursuant to such rules and regulations. The unaudited condensed consolidated financial statements have been prepared on the same basis as the annual financial statements and, in the opinion of management, reflect all adjustments, which include only normal recurring adjustments, necessary for a fair presentation of the periods presented. The results for the three and nine months ended March 31, 2014 are not necessarily indicative of the results to be expected for the year ending June 30, 2014, for any other interim period or for any future year.

These condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements and accompanying notes for the year ended June 30, 2013 included in the Company's Annual Report on Form 10-K filed with the SEC. The Company's significant accounting policies are described in Note 2 to those audited consolidated financial statements.

**Recently Issued Accounting Standards**

## Edgar Filing: ACCURAY INC - Form 10-Q

In July 2013, the Financial Accounting Standards Board ( FASB ) issued ASU No. 2013-11, *Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists*. ASU No. 2013-11 requires that entities with an unrecognized tax benefit and a net operating loss carryforward or similar tax loss or tax credit carryforward in the same jurisdiction as the uncertain tax position present the unrecognized tax benefit as a reduction of the deferred tax asset for the loss or tax credit carryforward rather than as a liability, when the uncertain tax position would reduce the loss or tax credit carryforward under the tax law, thereby eliminating diversity in practice regarding this presentation issue. This new guidance is effective prospectively for annual reporting periods beginning on or after December 15, 2013, although retrospective application is permitted. The Company is currently assessing the impact of this guidance, if any, on its condensed consolidated financial statements.

In March 2013, the FASB issued ASU No. 2013-05, *Foreign Currency Matters (Topic 830): Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity*. This new standard is intended to resolve diversity in practice regarding the release into net income of a cumulative translation adjustment upon derecognition of a subsidiary or group of assets within a foreign entity. ASU No. 2013-05 is effective prospectively for fiscal years (and interim reporting periods within those years) beginning after December 15, 2013. The Company is currently reviewing this standard, but it does not anticipate that its adoption will have a material impact on the Company's condensed consolidated financial statements.

### **Use of Estimates**

The preparation of condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosures at the date of the financial statements. Key estimates and assumptions made by the Company relate to revenue recognition, the fair value of assets acquired and liabilities assumed in business combinations, asset impairments, inventories, share-based compensation expense, income taxes, loss contingencies and corporate bonus expenses. Actual results could differ materially from those estimates.

### **Concentration of Credit and Other Risks**

The Company's cash, cash equivalents and investments are deposited with several major financial institutions. At times, deposits in these institutions exceed the amount of insurance provided on such deposits. The Company has not experienced any losses in such accounts and believes that it is not exposed to any significant risk on these balances.

Table of Contents

For the three and nine months ended March 31, 2014 and 2013, there were no customers that represented 10% or more of total net revenue. At March 31, 2014, one customer accounted for 15% of the Company's total accounts receivable. At June 30, 2013, one customer accounted for 10% of accounts receivable.

Accounts receivable are typically not collateralized. The Company performs ongoing credit evaluations of its customers and maintains reserves for potential credit losses. Accounts receivable are deemed past due in accordance with the contractual terms of the agreement. Accounts are charged against the allowance for doubtful accounts once collection efforts are unsuccessful.

Single source suppliers presently provide the Company with several components. In most cases, if a supplier was unable to deliver these components, the Company believes that it would be able to find other sources for these components subject to any regulatory qualifications, if required.

**Revenue Recognition**

The Company earns revenue from the sale of products, the provision of related services, which include post-contract customer support ( PCS ), installation services, training and other professional services, and the operation of its shared ownership program. The Company records its revenues net of any value added or sales tax. For arrangements with multiple elements, the Company allocates arrangement fees to product and services based upon Vendor Specific Objective Evidence ( VSOE ) of fair value of the respective elements, Third-Party Evidence ( TPE ), or Best Estimate of Selling Price ( BESP ), using the relative selling price method.

*Product and Service Revenue*

The majority of product revenue is generated from sales of CyberKnife and TomoTherapy systems. If the Company is responsible for installation, the Company recognizes revenue after installation and acceptance of the system. Otherwise, revenue is recognized upon delivery, assuming all other revenue recognition criteria are met.

The Company could sell its systems with PCS contracts, installation services, training, and professional services. PCS contracts provide planned and corrective maintenance services, software updates, bug fixes, as well as call-center support. Service revenue is generated primarily from PCS (warranty period services and post warranty services), installation services, training, and professional services. PCS revenue is deferred and recognized over the service period. Installation service revenue is recognized concurrent with system revenue. Training and professional service revenues that are not deemed essential to the functionality of the systems are recognized as such services are performed.

Costs associated with service revenue are expensed when incurred, except when those costs are related to system upgrades where revenue recognition has been deferred. In those cases, the costs are deferred and are recognized over the period of revenue recognition.

*Shared Ownership Program*

The Company also enters into arrangements under its shared ownership program with certain customers. These arrangements typically have a term of five years and provide the customer an option to purchase the system during the contractual term at pre-determined prices. Under the terms of this program, the Company retains title to its system, while the customer has use of the system. The Company generally receives a minimum monthly payment and earns additional revenues from the customer based upon its use of the system which are included in product revenue in the condensed consolidated statements of operations and comprehensive loss.

**Net Loss Per Common Share**

Basic and diluted net loss per share is computed by dividing net loss attributable to stockholders by the weighted average number of common shares outstanding during the period.

## Edgar Filing: ACCURAY INC - Form 10-Q

### Table of Contents

A reconciliation of the numerator and denominator used in the calculation of basic and diluted net loss per share attributable to stockholders follows (in thousands):

	Three Months Ended March 31,		Nine Months Ended March 31,	
	2014	2013	2014	2013
<b>Numerator:</b>				
Loss from operations used in computing loss per share from continuing operations	\$ (4,665)	\$ (31,203)	\$ (25,639)	\$ (78,646)
Loss from discontinued operations used in computing loss per share from discontinued operations	\$	\$	\$	\$ (5,858)
Net loss used in computing net loss per share	\$ (4,665)	\$ (31,203)	\$ (25,639)	\$ (84,504)
<b>Denominator:</b>				
Weighted average shares used in computing basic and diluted loss per share	76,382	74,016	75,447	72,953

The potentially dilutive shares of the Company's common stock resulting from the assumed exercise of outstanding stock options, the vesting of Restricted Stock Units (RSUs), Market Stock Units (MSUs) and Performance-based Stock Units (PSUs), and the purchase of shares under the Employee Stock Purchase Plan (ESPP), as determined under the treasury stock method, are excluded from the computation of diluted net loss per share because their effect would have been anti-dilutive. The 3.75% Convertible Senior Notes due August 1, 2016 (the 3.75% Convertible Notes) and the 3.50% Convertible Senior Notes due February 1, 2018 (the 3.50% Convertible Notes) are included in the calculation of diluted net income per share only if their inclusion is dilutive. For the three and nine months ended March 31, 2014 and 2013, the potentially dilutive shares under the Convertible Notes were excluded from the calculation of diluted net loss per share as their inclusion would have been anti-dilutive. The following table sets forth all potentially dilutive securities excluded from the computation in the table above because their effect would have been anti-dilutive (in thousands):

	As of March 31,	
	2014	2013
Stock options	3,416	5,257
RSUs, PSUs and MSUs	4,229	3,321
3.75% Convertible Notes	10,560	10,560
3.50% Convertible Notes	21,576	21,576
Total	39,781	40,714

### **Segment Information**

The Company has determined that it operates in only one segment, as it only reports profit and loss information on an aggregate basis to its chief operating decision maker. Revenue by geographic region is based on the shipping addresses of the Company's customers. The following summarizes revenue by geographic region (in thousands):

	Three Months Ended March 31,		Nine Months Ended March 31,	
	2014	2013	2014	2013
Americas	\$ 32,224	\$ 28,372	\$ 106,248	\$ 99,262

Edgar Filing: ACCURAY INC - Form 10-Q

Europe, Middle East, India and Africa	40,419	25,290	93,320	78,246
Asia (excluding Japan and India)	10,096	8,496	27,762	29,154
Japan	14,405	8,389	40,089	24,412
Total	\$ 97,144	\$ 70,547	\$ 267,419	\$ 231,074

Information regarding geographic areas in which the Company has long lived assets (includes all tangible assets) is as follows (in thousands):

	March 31, 2014	June 30, 2013
Americas	\$ 32,035	\$ 31,797
Europe, Middle East, India and Africa	1,314	1,431
Asia (excluding Japan and India)	421	498
Japan	769	1,007
Total	\$ 34,539	\$ 34,733

Table of Contents**2. Balance Sheet Components****Financing receivables**

A financing receivable is a contractual right to receive money, on demand or on fixed or determinable dates, that is recognized as an asset in the Company's balance sheet. The Company's financing receivables, consisting of its accounts receivable with contractual maturities of more than one year, were \$2.8 million and \$2.9 million at March 31, 2014 and June 30, 2013, respectively, and are included in Other Assets in the condensed consolidated balance sheets. There was no balance in the allowance for doubtful accounts related to such financing receivables as of March 31, 2014 and June 30, 2013, respectively.

**Inventories**

Inventories consisted of the following (in thousands):

	<b>March 31, 2014</b>	<b>June 30, 2013</b>
Raw materials	\$ 39,536	\$ 33,721
Work-in-process	22,736	20,564
Finished goods	32,816	27,307
Inventories	\$ 95,088	\$ 81,592

**Property and equipment, net**

Property and equipment, net consisted of the following (in thousands):

	<b>March 31, 2014</b>	<b>June 30, 2013</b>
Furniture and fixtures	\$ 5,473	\$ 6,506
Computer and office equipment	10,566	9,481
Software	10,682	9,586
Leasehold improvements	18,054	19,199
Machinery and equipment	38,848	37,371
Shared ownership systems	6,265	4,979
Construction in progress	5,746	3,084
	95,634	90,206
Less: Accumulated depreciation	(61,095)	(55,473)
Property and equipment, net	\$ 34,539	\$ 34,733

## Edgar Filing: ACCURAY INC - Form 10-Q

Depreciation expense related to property and equipment for the three and nine months ended March 31, 2014 was \$3.0 million and \$9.1 million, respectively. Depreciation expense related to property and equipment for the three and nine months ended March 31, 2013 was \$3.7 million and \$11.6 million, respectively.

### 3. Goodwill and Intangible Assets

#### *Goodwill*

Activity related to goodwill consisted of the following (in thousands):

	<b>Nine Months Ended March 31, 2014</b>	<b>Year Ended June 30, 2013</b>
Balance at the beginning of the period	\$ 59,368	\$ 59,215
Addition related to acquisition		77
Currency translation and other adjustments	(1,266)	76
Balance at the end of the period	\$ 58,102	\$ 59,368

## Edgar Filing: ACCURAY INC - Form 10-Q

### Table of Contents

In connection with the acquisition of TomoTherapy in fiscal year 2011, the Company recognized liabilities related to unrecognized tax benefits as part of purchase accounting. During its first quarter of fiscal year 2014, the Company determined that certain of these liabilities related to unrecognized tax benefits were recorded in error. The Company evaluated the effects of this error on the financial statements and concluded that the error was not material to any prior annual or interim periods or the current period. In September of 2013, the Company reduced goodwill and accrued liabilities by \$1.3 million to remove the liability recorded in error.

In the second quarter of fiscal 2014, the Company performed its annual goodwill impairment test. Based on this analysis, the Company determined that there was no impairment to goodwill. The Company will continue to monitor its recorded goodwill for indicators of impairment.

### *Intangible Assets*

The Company's intangible assets associated with completed acquisitions at March 31, 2014 and June 30, 2013 are as follows (in thousands):

	Useful Lives (in years)	March 31, 2014			June 30, 2013		
		Gross Carrying Amount	Accumulated Amortization	Net Amount	Gross Carrying Amount	Accumulated Amortization	Net Amount
Developed technology	5 - 6	\$ 46,746	\$ (21,240)	\$ 25,506	\$ 46,747	\$ (15,276)	\$ 31,471
Distributor license	1.5 - 2.5	2,036	(2,036)		2,043	(1,618)	425
		\$ 48,782	\$ (23,276)	\$ 25,506	\$ 48,790	\$ (16,894)	\$ 31,896

In the quarter ended September 30, 2012, the Company recorded an impairment charge of \$12.2 million relating to the CPAC in-process research and development ( IPR&D ) asset, which was presented as part of loss from discontinued operations (Note 9).

The Company did not identify any triggering events that would indicate potential impairment of its definite-lived intangible and long-lived assets as of March 31, 2014 and June 30, 2013.

Amortization expense related to intangible assets for the three and nine months ended March 31, 2014 was \$2.0 million and \$6.4 million, respectively. Amortization expense related to intangible assets for the three and nine months ended March 31, 2013 was \$2.2 million and \$8.2 million, respectively.

The estimated future amortization expense of purchased intangible assets as of March 31, 2014 is as follows (in thousands):

Year Ending June 30,	Amount
2014 (remaining 3 months)	\$ 1,988

Edgar Filing: ACCURAY INC - Form 10-Q

2015	7,953
2016	7,953
2017	7,568
2018	44
Thereafter	
	\$ 25,506

**4. Financial Instruments**

The Company considers all highly liquid investments held at major banks, certificates of deposit and other securities with original maturities of three months or less to be cash equivalents.

The Company classifies all of its investments as available-for-sale at the time of purchase because it is management's intent that these investments are available for current operations and includes these investments on its balance sheets as short-term investments. Investments with original maturities longer than three months include commercial paper and investment-grade corporate debt securities. Investments classified as available-for-sale are recorded at fair market value with the related unrealized gains and losses included in accumulated other comprehensive income (loss), a component of stockholders' equity. Realized gains and losses are recorded based on specific identification of each security's cost basis.

## Edgar Filing: ACCURAY INC - Form 10-Q

### Table of Contents

The Company defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The fair value hierarchy contains three levels of inputs that may be used to measure fair value, as follows:

*Level 1* Unadjusted quoted prices that are available in active markets for the identical assets or liabilities at the measurement date.

*Level 2* Other observable inputs available at the measurement date, other than quoted prices included in Level 1, either directly or indirectly, including:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets in non-active markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by other observable market data.

*Level 3* Unobservable inputs that cannot be corroborated by observable market data and reflect the use of significant management judgment. These values are generally determined using pricing models for which the assumptions utilize management's estimates of market participant assumptions.

The following tables summarize the amortized cost, gross unrealized gains, gross unrealized losses and fair value by significant investment category for cash, cash equivalents and short-term investments (in thousands):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Market Value Cash and Cash Equivalents	Estimated Market Value Short-term Investments
Cash	\$ 74,736	\$	\$	\$ 74,736	\$
Level 1					
Certificates of deposit	9,394			9,394	
Money market funds	3,883			3,883	
	13,277			13,277	
Level 2					
Corporate notes	86,074	38	(103)		86,009
<b>Total</b>	<b>\$ 174,087</b>	<b>\$ 38</b>	<b>\$ (103)</b>	<b>\$ 88,013</b>	<b>\$ 86,009</b>

	Gross	Gross	Estimated Market Value
		<b>June 30, 2013</b>	

Edgar Filing: ACCURAY INC - Form 10-Q

	Amortized Cost	Unrealized Gains	Unrealized Losses	Cash and Cash Equivalents	Short-term Investments
Cash	\$ 60,082	\$	\$	\$ 60,082	\$
Level 1					
Certificates of deposit	15,365			12,758	2,607
Money market funds	473			473	
	15,838			13,231	2,607
Level 2					
Commercial paper	3,993		(1)		3,992
Corporate notes	94,941		(456)		94,485
	98,934		(457)		98,477
<b>Total</b>	\$ 174,854	\$	\$ (457)	\$ 73,313	\$ 101,084

The Company's Level 2 investments in the table above are classified as Level 2 items because quoted prices in an active market are not readily accessible for those specific financial assets, or the Company may have relied on alternative pricing methods that do not rely exclusively on quoted prices to determine the fair value of the investments.

The Company had investments that were in an unrealized loss position as of March 31, 2014. The Company determined that (i) it does not have the intent to sell any of these investments and (ii) it is not likely that it will be required to sell any of these investments before recovery of the entire amortized cost basis. The Company reviews its investments to identify and evaluate investments that have an indication of possible impairment. As of March 31, 2014, the Company anticipates that it will recover the entire carrying value of such investments and has determined that no other-than-temporary impairments associated with credit losses were required to be recognized during the three and nine months ended March 31, 2014.

Table of Contents

Contractual maturities of available-for-sale securities at March 31, 2014 were as follows (in thousands):

	March 31, 2014	
	Amortized Cost	Fair Value
Due in 1 year or less	\$ 29,560	\$ 29,570
Due in 1-2 years	28,559	28,552
Due in 2-3 years	27,955	27,887
	\$ 86,074	\$ 86,009

The following table summarizes the carrying values and estimated fair values of our long-term debt (in thousands):

	March 31, 2014		June 30, 2013	
	Carrying Value	Fair Value	Carrying Value	Fair Value
3.75% Convertible Notes	\$ 87,287	\$ 121,070	\$ 83,768	\$ 96,560
3.50% Convertible Notes	115,000	219,989	115,000	144,302
<b>Total</b>	\$ 202,287	\$ 341,059	\$ 198,768	\$ 240,862

The long-term debt is measured on a non-recurring basis using Level 2 inputs based upon observable inputs of the Company's underlying stock price and the time value of the conversion option, since an observable quoted price of the Convertible Notes is not readily available.

## 5. Commitments and Contingencies

The Company's contractual obligations were presented in the Annual Report on Form 10-K for the previous annual reporting period ended June 30, 2013. There have been no material changes outside of the ordinary course of business in those obligations during the three and nine months ended March 31, 2014.

### Litigation

From time to time, the Company is involved in legal proceedings arising in the ordinary course of its business. Currently, management believes the Company does not have any probable and estimable losses related to any current legal proceedings and claims that would individually or in the aggregate materially adversely affect its financial condition or operating results. For certain legal proceedings, management believes that there is a reasonable possibility that losses may be incurred. Management currently estimates a range of loss (in excess of amounts accrued) between zero and \$2 million in the aggregate for such legal proceedings, where it is possible to make such estimates. Litigation is inherently unpredictable and is subject to significant uncertainties, some of which are beyond the Company's control. Should any of these estimates and assumptions change or prove to have been incorrect, the Company could incur significant charges related to legal matters that could have a material impact on its results of operations, financial position and cash flows.

*Best Medical Trade Secret Litigation*

On September 3, 2009, Best Medical International, Inc., or Best Medical, filed a lawsuit against the Company in the U.S. District Court for the Western District of Pennsylvania, claiming that the Company induced certain individuals to leave the employment of Best Medical and join the Company in order to gain access to Best Medical's confidential information and trade secrets. Best Medical is seeking monetary damages and other relief. On October 25, 2011, the court presiding over the case granted summary judgment in favor of the Company on all counts. On November 21, 2011, Best Medical filed a notice of appeal. On December 22, 2011, the court awarded attorney fees and costs to the Company and ordered the Company to file an accounting of its fees and costs. Following the filing of the accounting of the Company's fees and costs, the magistrate judge presiding over the case issued a report on the Company's accounting and recommended an award to the Company in the amount of \$512,090 in attorney fees and costs, which was adopted in its entirety by the District Court on September 27, 2013. On July 3, 2013, the Court of Appeals for the Third Circuit issued a briefing schedule for the appeal of this case. Best Medical's brief was filed on September 16, 2013 and the Company's brief was filed on December 30, 2013. Best Medical filed its reply brief on January 10, 2014. Briefing is now closed on this appeal. Best Medical has filed a second notice of appeal of the District Court's orders relating to the fee amount. A briefing schedule has not yet been set for this second appeal.

Table of Contents

***Best Medical Patent Litigation***

On August 6, 2010, Best Medical filed an additional lawsuit against the Company in the U.S. District Court for the Western District of Pennsylvania, claiming that the Company has infringed U.S. Patent No. 5,596,619, a patent that Best Medical alleges protects a method and apparatus for conformal radiation therapy. In December 2010, Best Medical amended its complaint by claiming that the Company also infringed U.S. Patent Nos. 6,038,283 and 7,266,175, both of which Best Medical alleges cover methods and apparatus for conformal radiation therapy. In March 2011, the court dismissed with prejudice all counts against the Company, except for two counts of alleged willful infringement of two of the patents. Following several procedural rulings by the court, Best Medical moved to voluntarily dismiss one of the two remaining patent claims on June 28, 2011, which the court granted on June 30, 2011, leaving only one patent (U.S. Patent No. 6,038,283) at issue in the case. The parties failed to reach settlement during mandatory settlement conferences held in March 2013, May 2013 and April 2014. Best Medical is seeking declaratory and injunctive relief, as well as unspecified compensatory and treble damages and other relief. The Company will continue to litigate this case, and depositions of the parties' fact witness are expected to be completed in May 2014.

***Rotary Systems***

On April 28, 2011, a former supplier to TomoTherapy, Rotary Systems Incorporated, filed suit in Minnesota state court, Tenth Judicial District, Anoka County, against TomoTherapy alleging misappropriation of trade secrets, as well as several other counts alleging various theories of injury. Rotary Systems alleges TomoTherapy misappropriated Rotary Systems' trade secrets pertaining to a component previously purchased from Rotary Systems, which component TomoTherapy now purchases from a different supplier. The suit alleges TomoTherapy improperly supplied the alleged trade secrets to its present supplier, Dynamic Sealing Technologies Inc. (also a named defendant in the suit). Rotary Systems has made an unspecified claim for damages of greater than \$50,000. TomoTherapy moved to dismiss the case on May 19, 2011, and on August 29, 2011, the court granted the motion to dismiss with respect to all counts other than the count alleging misappropriation of trade secrets. On May 21, 2012, the court granted the Company's motion for sanctions, in part, and gave Rotary Systems sixty days to identify the alleged trade secrets with specificity or face dismissal of its claim with prejudice. The court held a hearing on September 20, 2012 to review Rotary Systems' amended complaint and set a calendar for discovery. The court ruled on the amended complaint, and the parties have started discovery, which was originally expected to be completed by October 2013. The parties jointly asked the court to extend discovery until February 2014. The Company filed a motion for summary judgment and, on September 11, 2013, the court held a hearing on the Company's motion for summary judgment and to stay discovery pending the ruling on the summary judgment motion. On December 5, 2013, the court ruled in favor of the Company. Rotary Systems filed its notice of appeal on January 29, 2014. On April 14, 2014, Rotary Systems filed its Brief and Addendum of Appellant with the court. Unless it seeks an extension, the Company's responsive brief will be due on May 19, 2014.

***Sarif Biomedical Patent Litigation***

On January 28, 2013, Sarif Biomedical filed a patent infringement complaint against the Company in the U.S. District Court for the District of Delaware. The complaint alleges the Company's CyberKnife System directly infringes U.S. Patent No. 5,755,725 and seeks unspecified monetary damages for the alleged infringement. Accuray filed an answer to the complaint in March 2013. The court has not yet issued a scheduling order.

***Cowealth Medical***

## Edgar Filing: ACCURAY INC - Form 10-Q

On February 27, 2014, Cowealth Medical Holding Co., Ltd. ( Cowealth ), Accuray s former distributor in China, submitted a request for arbitration with the International Chamber of Commerce International Court of Arbitration ( ICC ) alleging, among other matters, that Accuray breached its distributor agreement with Cowealth by wrongfully terminating Cowealth as its distributor and misappropriated certain of Cowealth s confidential information. Cowealth is seeking damages and injunctive relief. Accuray s answer and counterclaim are due to be submitted to the ICC on May 7, 2014. Due to the preliminary nature of this litigation, the Company is unable to determine the likelihood of an unfavorable outcome against it and is unable to reasonably estimate a range of loss, if any.

### **Software License Indemnity**

Under the terms of the Company s software license agreements with its customers, the Company agrees that in the event the software sold infringes upon any patent, copyright, trademark, or any other proprietary right of a third party, it will indemnify its customer licensees against any loss, expense, or liability from any damages that may be awarded against its customer. The Company includes this infringement indemnification in all of its software license agreements and selected managed services arrangements. In the event the customer cannot use the software or service due to infringement and the Company cannot obtain the right to use, replace or modify the license or service in a commercially feasible manner so that it no longer infringes, then the Company may terminate the license and provide the customer a refund of the fees paid by the customer for the infringing license or service. The Company has not recorded any liability associated with this indemnification, as it is not aware of any pending or threatened actions that represent probable losses as of March 31, 2014.

Table of Contents**6. Acquisition**

On July 16, 2012, the Company acquired the remaining 90% of the outstanding shares of Morphormics, Inc., or Morphormics, a privately-held developer of medical imaging software based in North Carolina. This acquisition enables the Company to extend auto-contouring capabilities for both the CyberKnife and TomoTherapy systems to improve disease specific workflows. The Company previously held 10% of the outstanding shares of Morphormics, which had a carrying value of zero prior to the acquisition date and was valued at \$0.7 million as of the acquisition date based on the fair value of the consideration paid. The acquisition was accounted for as a business combination, and accordingly, Morphormics results of operations were included in the consolidated financial statements from July 16, 2012. This transaction was not considered a material business combination, and Company did not incur significant severance or acquisition-related costs in connection with the transaction.

The fair value of total purchase consideration paid and payable for 100% of Morphormics equity interest as of the acquisition date was as follows (in thousands):

Cash paid and payable	\$	5,385
Fair value of pre-existing investment in Morphormics		662
<b>Total</b>	\$	<b>6,047</b>

The total purchase price was allocated to the net tangible and intangible assets acquired and liabilities assumed based on their fair values as of the acquisition date as follows (in thousands):

Cash and cash equivalents	\$	668
Accounts receivable		283
Other current assets		7
Amortizable intangible assets - developed technology		5,100
Goodwill		77
Accrued compensation		(88)
<b>Total purchase price</b>	\$	<b>6,047</b>

**7. Share-Based Compensation**

The following table summarizes the share-based compensation charges included in the Company's condensed consolidated statements of operations and comprehensive loss (in thousands):

	Three Months Ended March			Nine Months Ended March				
	2014	31,	2013	2014	31,	2013		
Cost of revenue	\$	575	\$	477	\$	1,498	\$	1,043

	\$ 3,260	\$ 2,068	\$ 8,243	\$ 6,119

**8. Debt**

*3.75% Convertible Senior Notes due August 2016*

On August 1, 2011, the Company issued the 3.75% Convertible Notes to certain qualified institutional buyers, or QIBs. The 3.75% Convertible Notes were offered and sold to the QIBs pursuant to Rule 144A under the Securities Act of 1933, as amended, or Rule 144A. The net proceeds from the \$100 million offering, after deducting the initial purchaser's discount and commission and the related offering costs, were approximately \$96.1 million. The offering costs and the initial purchaser's discount and commission (which are recorded in Other Assets) are both being amortized to interest expense using the effective interest method over five years. The 3.75% Convertible Notes bear interest at a rate of 3.75% per year, payable semi-annually in arrears in cash on February 1 and August 1 of each year, beginning on February 1, 2012. The 3.75% Convertible Notes will mature on August 1, 2016, unless earlier repurchased, redeemed or converted.

The 3.75% Convertible Notes were issued under an Indenture between the Company and The Bank of New York Mellon Trust Company, N.A., as trustee. Holders of the 3.75% Convertible Notes may convert their 3.75% Convertible Notes at any time on or after May 1, 2016 until the close of business on the business day immediately preceding the maturity date. Prior to May 1, 2016, holders of the 3.75% Convertible Notes may convert their 3.75% Convertible Notes only under the following circumstances: (1) during any calendar quarter after the calendar quarter ending September 30, 2011, and only during such calendar quarter, if the closing sale price of the Company's common stock for each of 20 or more trading days in the 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter exceeds 130% of the conversion price in effect on the last trading day of the immediately preceding calendar quarter; (2) during the five

Table of Contents

consecutive business days immediately after any five consecutive trading-day period (such five consecutive trading-day period, the Note Measurement Period ) in which the trading price per \$1,000 principal amount of 3.75% Convertible Notes for each trading day of that Note Measurement Period was equal to or less than 98% of the product of the closing sale price of shares of the Company's common stock and the applicable conversion rate for such trading day; (3) if the Company calls any or all of the 3.75% Convertible Notes for redemption, at any time prior to the close of business on the business day immediately preceding the redemption date; or (4) upon the occurrence of specified corporate transactions as described in the Indenture. Upon conversion by holders of the 3.75% Convertible Notes, the Company will have the right to pay or deliver, as the case may be, cash, shares of common stock of the Company or a combination thereof, at the Company's election. At any time on or prior to the 33rd business day immediately preceding the maturity date, the Company may irrevocably elect to (a) deliver solely shares of common stock of the Company in respect of the Company's conversion obligation or (b) pay cash up to the aggregate principal amount of the 3.75% Convertible Notes to be converted and pay or deliver, as the case may be, cash, shares of common stock of the Company or a combination thereof in respect of the remainder, if any, of the Company's conversion obligation in excess of the aggregate principal amount of the 3.75% Convertible Notes being converted. The initial conversion rate is 105.5548 shares of the Company's common stock per \$1,000 principal amount of 3.75% Convertible Notes (which represents an initial conversion price of approximately \$9.47 per share of the Company's common stock). The conversion rate, and thus the conversion price, are subject to adjustment as further described below.

Holders of the 3.75% Convertible Notes who convert their 3.75% Convertible Notes in connection with a make-whole fundamental change, as defined in the Indenture, may be entitled to a make-whole premium in the form of an increase in the conversion rate. Additionally, in the event of a fundamental change, as defined in the Indenture, holders of the 3.75% Convertible Notes may require the Company to purchase all or a portion of their 3.75% Convertible Notes at a fundamental change repurchase price equal to 100% of the principal amount of 3.75% Convertible Notes, plus accrued and unpaid interest, if any, to, but not including, the fundamental change repurchase date.

On or after August 1, 2014 and prior to the maturity date, the Company may redeem for cash all or a portion of the 3.75% Convertible Notes if the closing sale price of its common stock exceeds 130% of the applicable conversion price (the initial conversion price is approximately \$9.47 per share of common stock) of such 3.75% Convertible Notes for at least 20 trading days during any consecutive 30 trading-day period (including the last trading day of such period).

In accordance with Accounting Standards Codification, or ASC 470-20, *Debt with Conversion and Other Options*, the Company separately accounts for the liability and equity conversion components of the 3.75% Convertible Notes. The principal amount of the liability component of the 3.75% Convertible Notes was \$75.9 million as of the date of issuance based on the present value of its cash flows using a discount rate of 10%, our approximate borrowing rate at the date of the issuance for a similar debt instrument without the conversion feature. The carrying value of the equity conversion component was \$24.1 million. A portion of the initial purchaser's discount and commission and the offering costs totaling \$0.9 million was allocated to the equity conversion component. The liability component is being accreted to the principal amount of the 3.75% Convertible Notes using the effective interest method over five years.

The following table presents the carrying value of the 3.75% Convertible Notes as of March 31, 2014 (in thousands):

	<b>March 31, 2014</b>	
<b>3.75% Convertible Note</b>		
Carrying amount of the equity conversion component	\$	23,189
Principal amount of the 3.75% Convertible Notes	\$	100,000
Unamortized debt discount (1)		(12,713)
Net carrying amount	\$	87,287

(1)As of March 31, 2014, the remaining period over which the unamortized debt discount will be amortized is 28 months.

*3.50% Convertible Senior Notes due February 2018*

In February 2013, the Company issued \$115.0 million aggregate principal amount of its 3.50% Convertible Notes to certain QIBs. The 3.50% Convertible Notes were offered and sold to the QIBs pursuant to Rule 144A. The net proceeds from the offering, after deducting the initial purchaser's discount and commission and the related offering costs, were approximately \$110.5 million. The offering costs and the initial purchaser's discount and commission (which are recorded in Other Assets) are both being amortized to interest expense using the effective interest method over five years. The 3.50% Convertible Notes bear interest at a rate of 3.50% per year, payable semi-annually in arrears in cash on February 1 and August 1 of each year, beginning on August 1, 2013. The 3.50% Convertible Notes will mature on February 1, 2018, unless earlier repurchased, redeemed or converted.

## Edgar Filing: ACCURAY INC - Form 10-Q

### Table of Contents

The 3.50% Convertible Notes were issued under an Indenture between the Company and The Bank of New York Mellon Trust Company, N.A., as trustee. Holders of the 3.50% Convertible Notes may convert their 3.50% Convertible Notes at any time until the close of business on the business day immediately preceding the maturity date. The 3.50% Convertible Notes are convertible, as described below, into common stock of Accuray at an initial conversion rate equal to 187.6877 shares of common stock per \$1,000 principal amount of the 3.50% Convertible Notes, which is equivalent to a conversion price of approximately \$5.33 per share of common stock, subject to adjustment.

Holders of the 3.50% Convertible Notes who convert their 3.50% Convertible Notes in connection with a make-whole fundamental change, as defined in the Indenture, may be entitled to a make-whole premium in the form of an increase in the conversion rate. Additionally, in the event of a fundamental change, as defined in the Indenture, holders of the 3.50% Convertible Notes may require the Company to purchase all or a portion of their 3.50% Convertible Notes at a fundamental change repurchase price equal to 100% of the principal amount of 3.50% Convertible Notes, plus accrued and unpaid interest, if any, to, but not including, the fundamental change repurchase date.

In accordance with guidance in ASC 470-20, *Debt with Conversion and Other Options* and ASC 815-15, *Embedded Derivatives*, the Company determined that the embedded conversion components of the 3.50% Convertible Notes did not require bifurcation and separate accounting. The \$115.0 million principal amount of the 3.50% Convertible Notes has been recorded in Long-term Debt on the condensed consolidated balance sheet as of March 31, 2014.

In April 2014, through a series of transactions, the Company refinanced approximately \$70.3 million aggregate principal amount of the 3.50% Convertible Notes with approximately \$70.3 million aggregate principal amount of the Company's new 3.50% Series A Convertible Senior Notes due 2018 (the New Notes). In connection with such transactions, the Company also paid approximately \$0.4 million in cash to the holders of the 3.50% Convertible Notes that participated in the refinancing. The New Notes have the same interest rate, maturity and other terms as the 3.50% Convertible Notes, except that the New Notes are convertible into cash, shares of the Company's common stock or a combination of cash and shares of common stock, at the Company's option. Following such transactions, approximately \$44.7 million aggregate principal amount of the 3.50% Convertible Notes remained outstanding. See Note 12, Subsequent Events, for more discussion of the issuance of the New Notes in April 2014.

A summary of interest expense related to the 3.75% Convertible Notes and the 3.50% Convertible Notes for the three and nine months ended March 31, 2014 and 2013 was as follows (in thousands):

	Three months ended March 31,		Nine months ended March 31,	
	2014	2013	2014	2013
Interest expense related to contractual interest coupon	\$ 1,943	\$ 1,441	\$ 5,831	\$ 3,316
Interest expense related to amortization of debt discount	1,205	1,093	3,519	3,192
Interest expense related to amortization of debt issuance costs	361	226	1,053	451
	\$ 3,509	\$ 2,760	\$ 10,403	\$ 6,959

### 9. Loss From Discontinued Operations

## Edgar Filing: ACCURAY INC - Form 10-Q

In April 2008, TomoTherapy established a new affiliate, CPAC, to develop a compact proton therapy system for the treatment of cancer. Between the date of formation of CPAC through December 2012, the Company and TomoTherapy contributed both cash and intellectual property to CPAC, resulting in a combined equity interest of approximately 15.4% of the outstanding stock of CPAC and approximately 16.3% on a fully diluted basis. As of the Company's acquisition of TomoTherapy on June 10, 2011, the Company determined that CPAC was a variable interest entity, as CPAC depended on the Company, TomoTherapy and other investors to fund its operations. Under the accounting standards for consolidating variable interest entities, the consolidating investor is the entity with the power to direct the activities of the venture that most significantly impact the venture's economic performance and with the obligation to absorb losses or the right to receive benefits from the venture that could potentially be significant to the venture. Although the Company and its subsidiary held less than a 50% ownership interest in CPAC, it was determined that the Company met these two characteristics, and therefore, was the primary beneficiary of CPAC. The Company consolidated the results of operations of CPAC from June 10, 2011 to December 21, 2012.

On December 21, 2012, the Company and CPAC entered into a Purchase Agreement and Release, or Purchase Agreement, which provided for all the equity and debt investments held by the Company in CPAC to be purchased by CPAC for a nominal consideration. In addition, the Company assigned all its rights to the Dielectric Wall Accelerator technology licensed from Lawrence Livermore National Security, LLC, to CPAC. As a result of the Purchase Agreement, the Company concluded that it was no longer the primary beneficiary of CPAC since it did not have any variable interest in CPAC. In the second quarter of fiscal 2013, the Company deconsolidated CPAC and recorded a loss of \$3.4 million, resulting from the write-down of the carrying value of CPAC's net liabilities, the write-off of receivables from CPAC and the non-controlling interest in CPAC, net of cash consideration received. The results of operations of CPAC, including the loss on deconsolidation of CPAC and the losses attributable to the non-controlling interest recorded during the nine months ended March 31, 2013 have been disclosed as discontinued operations in the condensed consolidated statements of operations and comprehensive loss.

Table of Contents**10. Restructuring and Severance Charges**

During December 2012, the Company vacated an office facility and recorded a charge of \$1.4 million in general and administrative expenses during the three months ended December 31, 2012 for the remaining lease obligations on the facility, net of estimated sub-lease income. The Company also recorded a charge of \$0.3 million in general and administrative expenses during the three months ended December 31, 2012 related to the disposition of certain fixed assets and leasehold improvements at this facility.

During the three months ended December 31, 2012, the Company also recorded severance related charges of \$2.2 million in general and administrative expenses due to the departure of Dr. Euan S. Thomson (former Chief Executive Officer), Mr. Chris Raanes (former Chief Operating Officer) and certain other employees.

On January 3, 2013, the Company announced a restructuring of operations to focus on improving commercial execution and position the Company to support sustainable revenue growth and profitability. During the three months ended March 31, 2013, the Company substantially completed the restructuring exercise, reduced its global workforce under this program by 108 full-time employees and recorded \$4.9 million in charges for severance and related benefits for all affected employees. Restructuring charges are reflected within general and administrative expenses in the condensed consolidated statements of operations and comprehensive loss.

**11. Accumulated Other Comprehensive Income**

The components of comprehensive loss consist of net loss, unrealized gains and losses on available-for-sale investments and foreign currency translation. The unrealized gains and losses on available-for-sale investments and foreign currency translation are excluded from earnings and reported as a component of stockholders' equity. The foreign currency translation adjustment results from those subsidiaries not using the United States dollar as their functional currency since the majority of their economic activities are primarily denominated in their applicable local currency. Accordingly, all assets and liabilities related to these operations are translated at the current exchange rates at the end of each period. The resulting cumulative translation adjustments are recorded directly to the accumulated other comprehensive loss account in stockholders' equity. Revenues and expenses are translated at average exchange rates in effect during the period.

The components of accumulated other comprehensive income in the equity section of the balance sheets are as follows (in thousands):

	March 31, 2014	June 30, 2013
Net unrealized loss on short-term investments, net of taxes	\$ (65)	\$ (457)
Cumulative foreign currency translation gain	2,440	2,339
Accumulated other comprehensive income	\$ 2,375	\$ 1,882

**12. Subsequent Events**

On April 17, 2014, the Company entered into note exchange agreements with certain holders (the Participating Holders ) of the 3.50% Convertible Notes (see Note 8, Debt ) to refinance approximately \$70.3 million aggregate principal amount of the 3.50% Convertible Notes with approximately \$70.3 million aggregate principal amount of the New Notes. Pursuant to the note exchange agreements, the Company also paid the Participating Holders an aggregate of approximately \$0.4 million in cash in connection with such transactions. The principal amount of 3.50% Convertible Notes refinanced for each \$1,000 principal amount of New Notes was \$1,000 and the amount in cash paid per \$1,000 principal amount of such 3.50% Convertible Notes delivered was determined in individual negotiations between the Company and each Participating Holder. The New Notes have the same interest rate, maturity and other terms as the 3.50% Convertible Notes, except that the New Notes are convertible into cash, shares of the Company's common stock or a combination of cash and shares of common stock, at the Company's option. Following such transactions, approximately \$44.7 million aggregate principal amount of the 3.50% Convertible Notes remain outstanding.

The \$70.3 million aggregate principal amount of New Notes plus \$0.4 million paid to the Participating Holders in cash will be allocated between the liability and equity conversion components of the New Notes. As a result of this allocation, the liability component will be measured based on the fair value of the New Notes which will be discounted using the Company's market interest rate for nonconvertible debt. The residual amount will be allocated to stockholders' equity. The discounted debt will be accreted up to its face value resulting in additional non-cash interest expense being recognized in subsequent periods within the Company's consolidated statements of operations and comprehensive loss. As of May 7, 2014, the allocation between total liabilities and stockholders' equity had not been finalized.

Table of Contents

**Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

*The following discussion and analysis of our financial condition as of March 31, 2014 and results of operations for the three and nine months ended March 31, 2014 and 2013 should be read together with our condensed consolidated financial statements and related notes included elsewhere in this report. Statements made in this Form 10-Q report that are not statements of historical fact are forward-looking statements and are subject to the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements in this report relate, but are not limited, to: expectations related to profitability and cash flows in fiscal 2014; sufficiency of cash resources and expected cash flows to fund future operations; expected uses of cash during fiscal 2014; the anticipated drivers of our future capital requirements; the anticipated successful modification of the MLC for the CyberKnife Systems, the timing of its release and its impact on our business; the impact of our prior sales reorganization on sales performance, particularly in the United States; the expected impact of and benefits from our restructuring of operations; anticipated increases in service revenue; our expectations regarding the factors that will impact sales, competitive positioning and long-term success for our CyberKnife and TomoTherapy Systems; our expectations regarding the impact on our revenues and business of the introduction of our new CyberKnife and TomoTherapy Systems; the anticipated risks associated with our foreign operations and fluctuations in the U.S. dollar; and the impact of recent legislation and regulation on our business. Forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from expectations, including risks detailed from time to time under the heading "Risk Factors" in Part II, Item 1A of this report, in Part I, Item 1A of the Company's annual report on Form 10-K for fiscal year 2013 and in Part II, Item 1A of the Company's quarterly reports on Form 10-Q for the quarters ended September 30, 2013 and December 31, 2013. Forward-looking statements speak only as of the date the statements are made and are based on information available to the Company at the time those statements are made and/or management's good faith belief as of that time with respect to future events. The Company assumes no obligation to update forward-looking statements to reflect actual performance or results, changes in assumptions or changes in other factors affecting forward-looking information, except to the extent required by applicable securities laws. Accordingly, investors should not place undue reliance on any forward-looking statements.*

*In this report, Accuray, the Company, we, us, and our refer to Accuray Incorporated and its subsidiaries.*

**Overview**

**Products and Markets**

Accuray is a radiation oncology company that develops, manufactures and sells precise, innovative treatment solutions. Our leading edge technologies are designed specifically to deliver radiosurgery, stereotactic body radiation therapy, intensity modulated radiation therapy, image guided radiation therapy and adaptive radiation therapy that is tailored to the specific needs of each patient. Our suite of products includes the CyberKnife® Systems and the TomoTherapy® Systems. The systems are generally complementary offerings, serving generally separate patient populations treated by the same medical specialty.

The CyberKnife Systems are robotic systems designed to deliver radiosurgery treatments to cancer tumors anywhere in the body. The CyberKnife Systems are the only dedicated, full body robotic radiosurgery systems on the market. Radiosurgery is an alternative to traditional surgery for tumors and is performed on an outpatient basis in one to five treatment sessions. It allows for the treatment of patients who otherwise would not be treated with radiation, who may not be good candidates for surgery, or who desire non-surgical treatments. The use of radiosurgery with CyberKnife Systems to treat tumors throughout the body has grown significantly in recent years, but currently represents only a small portion of the patients who develop tumors treatable with CyberKnife Systems. A determination of when it may or may not be appropriate to use a CyberKnife System for treatment is at the discretion of the treating physician and depends on the specific patient. However, given the

## Edgar Filing: ACCURAY INC - Form 10-Q

CyberKnife Systems design to treat focal tumors, the CyberKnife Systems are generally not used to treat (1) very large tumors, which are considerably wider than the radiation beam that can be delivered by CyberKnife Systems, (2) diffuse wide-spread disease, as is often the case for late stage cancers, because they are not localized (though CyberKnife Systems might be used to treat a focal area of the disease) and (3) systemic disease, like leukemias and lymphomas, which are not localized to an organ, but rather involve cells throughout the body.

In October 2012, we introduced our CyberKnife M6 Series Systems that have the option of: fixed collimator, iris collimator, and/or multi-leaf collimator, or MLC. The initial supplier producing the MLC for our CyberKnife M6 Series Systems has experienced low manufacturing yields and has been able to deliver only a small number of units. Our life-cycle testing revealed that the initial units did not have the durability that we, and our customers, expect in our products. Currently we expect a limited release of the MLC for the CyberKnife Systems in June of 2014. Our expectation is that the device will have original design specifications, but will be produced with modifications to our supply chain and quality control processes to ensure improved yield and durability. While we are confident in our path forward, due to the complexity of the MLC, there is still some risk in this project that could cause further delays. In the meantime, and despite the delay in the launch of the MLC upgrade, we are continuing to book orders and install the CyberKnife M6 Series Systems with fixed and iris collimators.

Table of Contents

We believe that the long-term success of the CyberKnife System is dependent on a number of factors including the following:

- Adoption of our recently introduced new CyberKnife M6 Series Systems;
- Production and shipment of our MLC that meets the standards that we, and our customers, expect in our products;
- Change in medical practice to utilize radiosurgery more regularly as an alternative to surgery or other treatments;
- Greater awareness among doctors and patients of the benefits of radiosurgery with the CyberKnife Systems;
- Continued evolution in clinical studies demonstrating the safety, efficacy and other benefits of using the CyberKnife Systems to treat tumors in various parts of the body;
- Continued advances in technology that improve the quality of treatments and ease of use of the CyberKnife Systems;
- Improved access to radiosurgery with the CyberKnife Systems in various countries through regulatory approvals;
- Medical insurance reimbursement policies that cover CyberKnife System treatments; and
- Expansion of sales of CyberKnife Systems in countries throughout the world.

The TomoTherapy Systems are advanced, fully integrated and versatile radiation therapy systems for the treatment of a wide range of cancer types. We began selling TomoTherapy Systems after our acquisition of TomoTherapy Incorporated on June 10, 2011. In October 2012, we introduced our new TomoTherapy H Series Systems that come in configurations of TomoHTM, TomoHDTM and TomoHDATM. Radiation therapy is used in a variety of ways, often to treat tissue surrounding a tumor area after surgical removal of the tumor and also as the primary treatment for tumors. Radiation therapy treatments impact both cancer cells as well as healthy tissue; therefore the total prescribed radiation dose is divided into many fractions and delivered in an average of 25 to 35 treatment sessions over several weeks. Radiation therapy has been widely available and used in developed countries for decades, though many developing countries do not currently have a sufficient number of radiation therapy systems to adequately treat their domestic cancer patient populations. The number of radiation therapy systems in use and sold each year is currently many times larger than the number of radiosurgery systems. We believe the TomoTherapy Systems offer clinicians and patients

## Edgar Filing: ACCURAY INC - Form 10-Q

significant benefits over other radiation therapy systems in the market. We believe our ability to capture more sales in this established market will be influenced by a number of factors including the following:

- Adoption of our recently introduced new TomoTherapy H Series Systems;
- Greater awareness among doctors and patients of the benefits of radiation therapy using TomoTherapy Systems;
- Advances in technology which improve the quality of treatments and ease of use of TomoTherapy Systems;
- Greater awareness among doctors of the improvement in reliability of TomoTherapy Systems; and
- Expansion of TomoTherapy System sales in countries throughout the world.

### **Sale of Our Products**

Generating revenue from the sale of our systems is a lengthy process. Selling our systems, from first contact with a potential customer to a signed sales contract that meets backlog criteria could generally span six months to two years. The time from receipt of a signed contract to revenue recognition is governed generally by the time required by the customer to build, renovate or prepare the treatment room for installation of the system. This time varies significantly, generally from six months to two years.

In the United States, while we primarily market to customers, including hospitals and stand-alone treatment facilities, directly through our sales organization, we also market to customers through a distributor and group purchasing organizations. Outside the United States, we market to customers directly and through distributors. We have sales and service offices in many countries in Europe, Japan and other countries in Asia, South America, and other countries throughout the world.

### **Backlog**

We report backlog in the following manner:

- **Products:** Orders for systems and upgrades excluding those acquired through the upgrade rights included in certain service contracts are reported in backlog, excluding amounts attributable to PCS (warranty period services and post warranty services), installation, training and professional services.

## Edgar Filing: ACCURAY INC - Form 10-Q

- Service: Orders for PCS, upgrades acquired through the upgrade rights included in certain service contracts, installation services, training and professional services are not reported in backlog.

Table of Contents

For orders that cover both products and services, only the portion of the order that will be recognized as product revenue is reported as backlog. The portion of the order that will be recognized as service revenue (for example, PCS) is not included in reported backlog. Product backlog totaled \$353.6 million as of March 31, 2014. This included \$37.1 million of orders for either new CyberKnife M6 Systems configured with an MLC or orders for MLC units to upgrade existing installed CyberKnife M6 Systems. Additionally, for \$37.5 million of CyberKnife orders, the customer has the option to upgrade to the new platform (M6) if the CyberKnife M6 Series is approved by regulatory authorities in its country prior to shipment. Product backlog totaled \$297.9 million as of March 31, 2013.

In order for the product portion of a sales agreement to be counted as backlog, it must meet the following criteria:

- The contract is signed and properly executed by both the customer and us. A customer purchase order that is signed and incorporates the terms of our contract quote will be considered equivalent to a signed and executed contract;
  
- The contract is non-contingent it either has cleared all its contingencies or contains no contingencies when signed;
  
- We have received a minimum deposit or a letter of credit; the sale is a direct channel sale to a government entity, or the product has shipped to a customer with credit sufficient to cover the minimum deposit;
  
- The specific end customer site has been identified by the customer in the written contract or written amendment; and
  
- Less than 2.5 years have passed since the contract met all the criteria above.

Although our backlog includes only contractual agreements from our customers to purchase CyberKnife Systems or TomoTherapy Systems, we cannot provide assurance that we will convert backlog into recognized revenue due to factors outside our control, which include, without limitation, changes in customers' needs or financial condition, changes in government or health insurance reimbursement policies, changes to regulatory requirements, or other reasons for cancellation of orders.

Table of Contents**Results of Operations Three and Nine Months Ended March 31, 2014 and 2013**

(Dollars in thousands)	Three Months Ended March 31,					Nine Months Ended March 31,				
	2014		2013		2014-2013	2014		2013		2014-2013

(a) Expressed as a percentage of total net revenue, except for product and services gross profits which are expressed as a percentage of related product and services revenue.

**Net Revenue**

Sales of our products outside of the Americas region account for a significant portion of our total net revenue. Revenue derived from sales outside of the Americas region was \$64.9 million and \$42.2 million for the three months ended March 31, 2014 and 2013, respectively, and represented 67% and 60% of our net sales during these periods, respectively. Revenue derived from sales outside of the Americas region was \$161.2 million and \$131.8 million for the nine months ended March 31, 2014 and 2013, respectively, and represented 60% and 57% of our net sales during these periods, respectively.

*Product Net Revenue.* Product net revenue increased by \$22.0 million for the three months ended March 31, 2014 as compared to the three months ended March 31, 2013. Product net revenue increased \$19.0 million primarily due to a higher number of units sold, although the units also were sold at a higher average selling price due to product configuration mix. We recognized revenue on 15 units initially sold during the three months ended March 31, 2014 as compared to 9 units during the three months ended March 31, 2013. Additionally, in the three months ended March 31, 2014, product net revenue increased by \$3.0 million due to increased revenue from cash basis collections and increased upgrade revenue.

## Edgar Filing: ACCURAY INC - Form 10-Q

Product net revenue increased by \$22.9 million for the nine months ended March 31, 2014 as compared to the nine months ended March 31, 2013. The increase in product net revenue was primarily due to a higher number of units sold offset by product mix. We recognized revenue on 46 units during the nine months ended March 31, 2014 as compared to 36 units during the nine months ended March 31, 2013.

*Services Net Revenue.* Services net revenue increased by \$4.6 million for the three months ended March 31, 2014 as compared to the three months ended March 31, 2013. The increase in services net revenue of \$2.6 million was attributable to an increase in our installed base and customer conversion to higher priced maintenance contracts (particularly the TomoTherapy Systems). The remaining increase of \$2.0 million was primarily due to an increase in installation and training revenue due to more units installed.

Services net revenue increased by \$13.4 million for the nine months ended March 31, 2014 compared to the nine months ended March 31, 2013. The increase in services net revenue of \$10.4 million was attributable to an increase in our installed base and customer conversion to higher priced maintenance contracts (particularly the TomoTherapy Systems). The increase of \$2.8 million was primarily due to an increase in installation and training revenue due to more units installed.

### **Gross Profit**

The overall gross profit margin for the three months ended March 31, 2014 increased by 13 percentage points as compared to the three months ended March 31, 2013. Product gross margin for the three months ended March 31, 2014 increased by 20 margin points primarily due to reduction of fixed costs per unit sold due to the increase in sales. Services gross margin for the three months ended March 31, 2014 increased by 6 margin points primarily due to cost reductions associated with increased reliability of the TomoTherapy Systems and continued revenue growth due to installed base increases and contract mix.

The overall gross profit margin for the nine months ended March 31, 2014 increased by 9 percentage points as compared to the nine months ended March 31, 2013. Product gross margin for the nine months ended March 31, 2014 increased by 5 margin points as compared to the nine months ended March 31, 2013; product gross margin was higher by 3 margin percentage points due to increased revenues reducing fixed costs per unit, and higher by 2 margin percentage points due to the reduction in intangible asset amortization related to the acquisition of TomoTherapy on June 10, 2011. Services gross margin for the nine months period ended March 31, 2014 increased by 10 margin points primarily due to cost reductions associated with the increased reliability of the TomoTherapy Systems and continued revenue growth due to the increase in installed base and contract mix.

Table of Contents

**Research and Development**

Research and development expenses were \$13.8 million in the three months ended March 31, 2014 as compared to \$15.7 million in the three months ended March 31, 2013, which represents a decrease of \$1.9 million, or 12%. The decrease was primarily due to lower compensation and compensation-related expense of \$1.8 million primarily resulting from the re-organization of the research and development function during the third quarter of fiscal 2013. Project related consulting costs decreased by \$1.5 million due to the completion of various research and development projects. The decrease was offset by higher bonus expense of \$0.9 million and higher share-based compensation expense of \$0.3 million.

Research and development expenses were \$40.1 million in the nine months ended March 31, 2014 as compared to \$51.5 million in the nine months ended March 31, 2013, which represents a decrease of \$11.4 million, or 22%. The decrease was primarily due to lower compensation expense of \$10.2 million resulting from the re-organization of the research and development function during the third quarter of fiscal 2013. Project related consulting costs decreased by \$3.5 million due to the completion of various research and development projects. The decrease was offset by the higher bonus expense of \$2.2 million and higher share-based compensation expense of \$0.5 million.

**Selling and Marketing**

Selling and marketing expenses for the three months ended March 31, 2014 were \$15.3 million as compared to \$12.6 million for the three months ended March 31, 2013, which represents an increase of \$2.7 million, or 21%. The increase was primarily due to a \$2.5 million increase in compensation and compensation related expenses; commission expense increased by \$0.7 million due to higher sales, bonus expense increased by \$0.6 million, share-based compensation expense increased by \$0.3 million, and other compensation related expense of \$0.9 million increased mainly due to the increase in headcount.

Selling and marketing expenses for the nine months ended March 31, 2014 were \$44.0 million as compared to \$41.3 million for the nine months ended March 31, 2013, which represents an increase of \$2.7 million, or 7%. The increase was partially attributable to a \$4.9 million increase in compensation and compensation related expenses, which consisted mainly of the increase in commission expense of \$2.1 million due to higher sales, \$1.4 million increase in bonus expense, and \$0.7 million increase in share-based compensation expense mainly due to the increase in grants of equity awards and higher value per grant. The increase was offset by lower trade show expense of \$2.5 million due to the introduction of two new products at an industry trade show in October 2012.

**General and Administrative**

General and administrative expenses for the three months ended March 31, 2014 were \$11.1 million as compared to \$16.7 million for the three months ended March 31, 2013, which represents a decrease of \$5.6 million, or 34%. The decrease was partially attributable to \$4.9 million of severance charges incurred during the three months ended March 31, 2013 due to the restructuring of operations announced in January 2013. In addition, other payroll and contractual labor expenses decreased by \$0.8 million, consulting, legal and accounting related expenses decreased by \$1.0 million due to cost control initiatives, and allowance for doubtful accounts decreased by \$0.4 million due to the collection of doubtful accounts receivable during the three months ended March 31, 2014 as compared to the three months ended March 31, 2013. The decrease was offset by higher bonus expense of \$0.8 million and higher share-based compensation expense of \$0.4 million during the three months ended

## Edgar Filing: ACCURAY INC - Form 10-Q

March 31, 2014 as compared to the three months ended March 31, 2013.

General and administrative expenses for the nine months ended March 31, 2014 were \$33.7 million as compared to \$45.5 million for the nine months ended March 31, 2013, which represents a decrease of \$11.8 million, or 26%. This decrease was partially attributable to \$7.2 million of severance charges incurred during the three months ended December 31, 2012 for the departure of our former CEO, COO, CFO and other employees, and \$1.7 million related to lease acceleration and fixed asset disposal charges from vacating an office facility during the three months ended December 31, 2012. In addition, payroll and contractual labor expenses decreased by \$2.1 million and consulting, legal and accounting related expenses decreased by \$2.5 million due to cost control initiatives during the nine months ended March 31, 2014 as compared to the nine months ended March 31, 2013. The decrease was offset by higher bonus expense of \$1.6 million and higher share-based compensation expense of \$0.4 million during the nine months ended March 31, 2014 as compared to the nine months ended March 31, 2013.

Table of Contents

**Other Expense, Net**

Net other expense for the three months ended March 31, 2014 was \$3.3 million as compared to \$5.6 million for the three months ended March 31, 2013, which represents a decrease of \$2.3 million. During the three months ended March 31, 2014, we recognized \$3.5 million of interest expense related to our 3.75% Convertible Notes and 3.50% Convertible Notes, partially offset by interest income of \$0.1 million from our available-for-sale investments. During the three months ended March 31, 2013, we recognized net other expense of \$5.6 million primarily due to \$2.8 million of interest expense related to our 3.75% Convertible Notes and 3.50% Convertible Notes and \$2.5 million of foreign currency losses primarily resulting from the depreciation of the Japanese Yen against the U.S. Dollar.

Net other expense for the nine months ended March 31, 2014 was \$9.5 million as compared to \$8.8 million for the nine months ended March 31, 2013, which represents an increase of \$0.7 million. During the nine months ended March 31, 2014, we recognized \$10.4 million of interest expense related to our 3.75% Convertible Notes and 3.50% Convertible Notes, partially offset by interest income of \$0.4 million from our available-for-sale investments and \$0.3 million gain from foreign currency exchange. During the nine months ended March 31, 2013, we recognized net other expense of \$8.8 million primarily due to \$7.0 million of interest expense related to our 3.75% Convertible Notes and 3.50% Convertible Notes and \$2.2 million of foreign currency losses primarily resulting from the depreciation of the Japanese Yen against the U.S. Dollar, partially offset by a \$0.7 million gain on our previously held equity interest in Morphormics, Inc., resulting from our acquisition of Morphormics on July 16, 2012.

**Provision for Incomes Taxes**

On a quarterly basis, the Company provides for income taxes based upon an estimated annual effective income tax rate. Income tax expense was \$0.9 million and \$2.6 million for the three and nine months ended March 31, 2014, respectively, compared to income tax expense of \$0.6 million and \$1.9 million for the three and nine months ended March 31, 2013, respectively. The increase in tax expense of \$0.3 million for the three months ended March 31, 2014 compared to the three months ended March 31, 2013 and the increase of \$0.7 million for the nine months ended March 31, 2014 compared to the nine months ended March 31, 2013 were primarily related to an increase in corporate earnings of our foreign subsidiaries, net of release of tax reserves on several foreign entities due to a lapse of statute of limitations during the period.

**Loss from Discontinued Operations**

As a result of the deconsolidation of CPAC in the second quarter of fiscal 2013, the results of operations of CPAC and the losses attributable to the non-controlling interest recorded for the three and nine month periods ended March 31, 2013 have been presented as discontinued operations.

**Impairment of Indefinite Lived Intangible Assets**

We incurred \$12.2 million of impairment charges related to the write-down of our IPR&D asset during the three months ended September 30, 2012 based on results of research and development work carried out by CPAC, a variable interest entity consolidated by us until

## Edgar Filing: ACCURAY INC - Form 10-Q

December 2012. See Note 3, Goodwill and Intangible Assets to the condensed consolidated financial statements for details.

### Liquidity and Capital Resources

At March 31, 2014, we had \$88.0 million in cash and cash equivalents and \$86.0 million in short-term investments, for a total of \$174.0 million. Cash from operations could be affected by various risks and uncertainties, including, but not limited to the risks included in Part II, Item 1A of this Form 10-Q and in Part I, Item 1A titled Risk Factors of our Form 10-K for the year ended June 30, 2013. Also refer to Note 8, Debt to the condensed consolidated financial statements for discussion of the Convertible Notes. Based on our current business plan and revenue prospects, we believe that we will have sufficient cash resources and anticipated cash flows to fund our operations for at least the next 12 months.

In addition, the undistributed earnings of our foreign subsidiaries at March 31, 2014 are considered to be indefinitely reinvested and unavailable for distribution in the form of dividends or otherwise. Accordingly, no provisions for U.S. income taxes have been provided thereon. We anticipate that we have adequate liquidity and capital resources and would not need to repatriate earnings. As of March 31, 2014, we had approximately \$74.2 million of cash and cash equivalents at our foreign subsidiaries.

Table of Contents

Our cash flows for the nine months ended March 31, 2014 and 2013 are summarized as follows (in thousands):

	<b>Nine months ended March 31,</b>	
	<b>2014</b>	<b>2013</b>
Net cash provided by (used in) operating activities	\$ 834	\$ (61,941)
Net cash provided by (used in) investing activities	4,556	(15,714)
Net cash provided by financing activities	7,194	116,017
Effect of exchange rate changes on cash and cash equivalents	2,116	(340)
Net increase in cash and cash equivalents	\$ 14,700	\$ 38,022

**Cash Flows From Operating Activities**

Net cash provided by operating activities in the nine months ended March 31, 2014 was \$0.8 million, as compared to \$61.9 million used in the nine months ended March 31, 2013. Net cash provided by operating activities in the nine months ended March 31, 2014 was primarily related to:

- Net loss of \$25.6 million;
- Net loss was offset by non-cash items of \$31.3 million related to depreciation of fixed assets, amortization of intangible assets, share-based compensation, amortization and accretion of discount and premium on investments, amortization of debt issuance costs, accretion of interest on long-term debt, recovery of doubtful accounts receivable and provision for excess and obsolete inventory;
- Increase in accounts receivable of \$2.0 million as a result of increased sales of \$36.3 million offset by cash collections from customers in the nine months ended March 31, 2014;
- Increase in inventories of \$14.8 million due to increase in purchases to support sales;
- Increase in prepaid expenses and other assets of \$5.2 million primarily due to the increase in prepaid commissions balance of \$3.1 million as a result of the increase in orders and prepaid taxes of \$2.9 million mostly in foreign locations;
- Increase in accounts payable of \$2.3 million due to the increase in inventory and timing of payments;

## Edgar Filing: ACCURAY INC - Form 10-Q

- Increase in accrued liabilities of \$10.9 million primarily due to the increase in accrued bonus expense of \$10.6 million, increase in other accrued compensation expense of \$1.4 million, partially offset by the decrease in interest payable of \$1.8 million due to the timing of payments; and

- Increase in customer advances of \$4.2 million due to the payments received for the future revenue deliverables.

Net cash used in operating activities in the nine months ended March 31, 2013 was primarily related to:

- Net loss of \$97.8 million, comprised of \$78.7 million from continuing operations and \$19.1 million from discontinued operations;

- Net loss was offset by non-cash items of \$46.6 million primarily related to depreciation of fixed assets, amortization of intangible assets, impairment charges related to in-process research and development assets, share-based compensation, loss on deconsolidation of CPAC, amortization of debt issuance costs and accretion of interest expense on the 3.75% Convertible Notes, recovery of doubtful accounts receivable and provision for excess and obsolete inventory;

- Decrease in accounts receivable of \$13.2 million due to lower billings;

- Increase in inventories of \$12.2 million due to delays in manufacturing newly introduced products;

- Decrease in accounts payable and accrued liabilities of \$14.5 million due to timing of vendor payments, payment of accrued bonuses for the prior fiscal year, reduction of compensation related accruals, payments for inventory buy-back obligations and other liabilities; and

- Increase in deferred revenue of \$8.1 million mainly from increases in deferrals for support services due to an increase in the installed base.

Table of Contents

**Cash Flows From Investing Activities**

Net cash provided by investing activities was \$4.6 million for the nine months ended March 31, 2014, which primarily consisted of purchases of property and equipment of \$9.6 million, purchases of investments of \$30.4 million and sales and maturities of short-term investments of \$44.6 million.

Net cash used in investing activities was \$15.7 million for the nine months ended March 31, 2013, which primarily consisted of the purchase of property and equipment of \$11.6 million and \$3.9 million related to the acquisition of Morphormics.

**Cash Flows From Financing Activities**

Net cash provided by financing activities during the nine months ended March 31, 2014 was \$7.2 million, attributable to \$7.4 million from proceeds from employee stock plans, partially offset by \$0.2 million of taxes paid related to net share settlement of equity awards.

Net cash provided by financing activities was \$116.0 million for the nine months ended March 31, 2013. In February 2013, we issued the 3.50% Convertible Notes for net proceeds of \$110.5 million. In addition, we received \$5.5 million attributable to proceeds from the exercise of common stock options and the purchase of common stock under our equity compensation plans during the nine months ended March 31, 2013.

**Operating Capital and Capital Expenditure Requirements**

Our future capital requirements depend on numerous factors. These factors include but are not limited to the following:

- Revenue generated by sales of our products and service plans;
- Costs associated with our sales and marketing initiatives and manufacturing activities;
- Facilities, equipment and IT systems required to support current and future operations;
- Rate of progress and cost of our research and development activities;

- Costs of obtaining and maintaining FDA and other regulatory clearances of our products;
- Effects of competing technological and market developments; and
- Number and timing of acquisitions and other strategic transactions.

We believe that our current cash, cash equivalents and investments will be sufficient to meet our anticipated cash needs for working capital and capital expenditures for at least 12 months. If our cash and cash equivalents are insufficient to satisfy our liquidity requirements, we may seek to sell additional equity or debt securities or obtain additional credit facilities. The sale of additional equity or convertible debt securities could result in dilution to our stockholders. If additional funds are raised through the issuance of debt securities, these securities could have rights senior to those associated with our common stock and could contain covenants that would restrict our operations. Additional financing may not be available at all, or in amounts or on terms acceptable to us. If we are unable to obtain this additional financing, we may be required to reduce the scope of our planned product development and marketing efforts.

#### **Contractual Obligations and Commitments**

We presented our contractual obligations in our Annual Report on Form 10-K for the previous annual reporting period ended June 30, 2013. There have been no material changes outside of the ordinary course of business in those obligations during the current quarter.

#### **Off-Balance Sheet Arrangements**

We do not have any off-balance sheet arrangements.

Table of Contents

**Critical Accounting Policies and Estimates**

The discussion and analysis of our financial condition and results of operations is based on our condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America ( GAAP ). The preparation of these condensed consolidated financial statements requires management to make estimates and judgments that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements, as well as revenue and expenses during the reporting periods. We evaluate our estimates and judgments on an ongoing basis. We base our estimates on historical experience and on various other factors we believe are reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities. Actual results could therefore differ materially from those estimates if actual conditions differ from our assumptions.

During the three and nine months ended March 31, 2014, there have been no changes to the critical accounting policies and estimates as discussed in Part II, Item 7 of our Form 10-K for the year ended June 30, 2013, which we believe are those related to revenue recognition, business combinations and intangible asset impairment, inventories, share-based compensation expense, income taxes, loss contingencies and corporate bonus expense and accruals.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

*Foreign Currency Exchange Rate Risk*

Future fluctuations in the value of the U.S. dollar may affect the price competitiveness of our products outside the United States. For direct sales outside the United States, we sell in both U.S. dollars and local currencies, which could expose us to additional foreign currency risks, including changes in currency exchange rates. Our operating expenses in countries outside the United States are payable in foreign currencies and therefore expose us to currency risk. To the extent that management can predict the timing of payments under sales contracts or for operating expenses that are denominated in foreign currencies, we may engage in hedging transactions to mitigate such risks in the future.

*Interest Rate Risk*

We maintain an investment portfolio of various holdings, types, and maturities. These securities are generally classified as available for sale and consequently, are recorded on the balance sheet at fair value with unrealized gains and losses reported as a separate component of accumulated other comprehensive income (loss). At any time, a sharp rise or decline in interest rates could have a material adverse impact on the fair value of our investment portfolio. Likewise, increases and decreases in interest rates could have a material impact on interest earnings for our portfolio. The following table presents the hypothetical change in fair values in the financial instruments we held at March 31, 2014 that are sensitive to changes in interest rates. The modeling technique used measures the change in fair values arising from selected potential changes in interest rates on our investment portfolio, which had a fair value of \$86.0 million at March 31, 2014. Market changes reflect immediate hypothetical parallel shifts in the yield curve of plus or minus 100, 75, 50 and 25 basis points (in thousands).

## Edgar Filing: ACCURAY INC - Form 10-Q

Change in interest rate	Decrease in interest rates						Increase in interest rates		
	-100 BPS	-75 BPS	-50 BPS	-25 BPS	25 BPS	50 BPS	75 BPS	100 BPS	
Unrealized gain (loss)	\$ 1,262	\$ 943	\$ 626	\$ 312	\$ (310)	\$ (617)	\$ (923)	\$ (1,226)	

### *Equity Price Risk*

On August 1, 2011, we issued \$100 million aggregate principal amount of 3.75% Convertible Notes. Upon conversion, we can settle the obligation by issuing our common stock, cash or a combination thereof at an initial conversion rate equal to 105.5548 shares of common stock per \$1,000 principal amount of the 3.75% Convertible Notes, which is equivalent to a conversion price of approximately \$9.47 per share of common stock, subject to adjustment. There is no equity price risk if the share price of our common stock is below \$9.47 upon conversion of the 3.75% Convertible Notes. For every \$1 that the share price of our common stock exceeds \$9.47, we expect to issue an additional \$10.6 million in cash or shares of our common stock, or a combination thereof, if all of the 3.75% Convertible Notes are converted.

On April 24, 2014, we issued approximately \$70.3 million aggregate principal amount of New Notes. Upon conversion, we can settle the obligation by issuing our common stock, cash or a combination thereof at an initial conversion rate equal to 187.6877 shares of common stock per \$1,000 principal amount of the New Notes, which is equivalent to a conversion price of approximately \$5.33 per share of common stock, subject to adjustment. There is no equity price risk if the share price of our common stock is below \$5.33 upon conversion of the New Notes. For every \$1 that the share price of our common stock exceeds \$5.33, we expect to issue an additional \$13.2 million in cash or shares of our common stock, or a combination thereof, if all of the New Notes are converted.

#### **Item 4. Controls and Procedures**

##### **Evaluation of Disclosure Controls and Procedures**

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow for timely decisions regarding required disclosure.

Table of Contents

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of March 31, 2014. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that as of March 31, 2014 our disclosure controls and procedures were effective to provide reasonable assurance that the information required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

*Changes in Internal Control Over Financial Reporting*

During the three months ended March 31, 2014, there was no change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

*Inherent Limitations of Internal Control Over Financial Reporting*

Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Internal control over financial reporting also can be circumvented by collusion or improper management override. Because of such limitations, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. However, these inherent limitations are known features of the financial reporting process. Therefore, it is possible to design into the process safeguards to reduce, though not eliminate, this risk. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and in reaching a reasonable level of assurance, management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

**PART II. OTHER INFORMATION**

**Item 1. Legal Proceedings.**

Please refer to Note 5, Commitments and Contingencies, to the condensed consolidated financial statements above for a description of certain legal proceedings currently pending against the Company. From time to time we are involved in legal proceedings arising in the ordinary course of our business.

**Item 1A. Risk Factors.**

## Edgar Filing: ACCURAY INC - Form 10-Q

A description of the risk factors associated with our business is included under Risk Factors contained in Part I, Item 1A of our Form 10-K for the year ended June 30, 2013, as updated in Part II, Item 1A of our quarterly reports on Form 10-Q for the quarters ended September 30, 2013 and December 31, 2013, and is incorporated herein by reference. The descriptions below include material changes to the risk factors affecting our business that were previously disclosed in such filings. Any risk factor included below supersedes the description of the relevant risk factor in such filings. Other than the items discussed below, there have been no material changes in our risk factors since such filings.

***We have a large accumulated deficit, may incur future losses and may be unable to achieve profitability.***

As of March 31, 2014, we had an accumulated deficit of \$345.3 million. We may incur net losses in the future, particularly as we resolve manufacturing and supply issues with the MLC option for our new CyberKnife M6 Series and improve our selling and marketing activities. Our ability to achieve and sustain long-term profitability is largely dependent on our ability to successfully market and sell the CyberKnife and TomoTherapy Systems and to control our costs and effectively manage our growth. We cannot assure you that we will be able to achieve profitability. In the event we fail to achieve profitability, our stock price could decline.

***If third-party payors do not provide sufficient coverage and reimbursement to healthcare providers for use of the CyberKnife and TomoTherapy Systems, demand for our products and our revenue could be adversely affected.***

Our customers rely significantly on reimbursement for CyberKnife and TomoTherapy procedures. Our ability to commercialize our products successfully will depend in significant part on the extent to which public and private third party payors provide adequate coverage and reimbursement for procedures that are performed with our products. Third-party payors, and in particular managed care organizations, challenge the prices charged for medical products and services and institute cost containment measures to control or significantly influence the purchase of medical products and services. If reimbursement policies or other cost containment measures are instituted in a manner that significantly reduces the coverage for or payment for the procedures that are performed with our products, our existing customers may not continue using our products or may decrease their use of our products, and we may have difficulty obtaining new customers. Such actions would likely have a material adverse effect on our operating results.

Table of Contents

In November 2013, the centers for Medicare and Medicaid Services, or CMS, issued the 2014 Medicare payment rates for hospital outpatient services, for physicians, and services performed in the freestanding center setting for calendar year 2014. When compared to the prior year, the 2014 reimbursement rates are modestly higher or flat for conventional radiotherapy (IMRT and 3D conformal). For radiosurgery, some reimbursement rates significantly increased and others moderately decreased when compared to the prior year. Such decreases could have a negative impact on the continued use of our products by existing customers and our ability to obtain new customers. CMS reviews such rates annually, and could implement more significant changes in future years, which could discourage existing and potential customers from purchasing or using our products.

***As a strategy to assist our sales efforts, we may offer extended payment terms, which may potentially result in higher Days Sales Outstanding and greater payment defaults.***

We offer longer or extended payment terms for qualified customers in some circumstances. As of March 31, 2014, customer contracts with extended payment terms of more than one year amounted to less than 5% of our accounts receivable balance. While we qualify customers to whom we offer longer or extended payment terms, their financial positions may change adversely over the longer time period given for payment. This may result in an increase in payment defaults, which would affect our future revenue, as we recognize revenue on such transactions on a cash basis.

***Our liquidity could be adversely impacted by adverse conditions in the financial markets.***

At March 31, 2014, we had \$88.0 million in cash and cash equivalents and \$86.0 million in investments. The available cash and cash equivalents are held in accounts managed by third party financial institutions and consist of cash in our operating accounts and cash invested in money market funds and certificates of deposit. The investments are managed by third party financial institutions and consist of U.S. corporate debt securities and commercial paper. To date, we have experienced no realized losses on or lack of access to our invested cash, cash equivalents or investments; however, we can provide no assurances that access to our invested cash and cash equivalents will not be impacted by adverse conditions in the financial markets.

At any point in time, we also have funds in our operating accounts that are with third party financial institutions that exceed the Federal Deposit Insurance Corporation, or FDIC, insurance limits. While we monitor daily the cash balances in our operating accounts and adjust the cash balances as appropriate, these cash balances could be impacted if the underlying financial institutions fail or become subject to other adverse conditions in the financial markets. To date, we have experienced no loss or lack of access to cash in our operating accounts.

***Our major stockholders own approximately 43% and directors and executive officers own approximately 0.9% of our outstanding common stock as of March 31, 2014, which could limit other stockholders' ability to influence the outcome of key transactions, including changes of control.***

As of March 31, 2014, our current holders of 5% or more of our outstanding common stock held in the aggregate approximately 43% of our outstanding common stock, while our directors and executive officers held in the aggregate approximately 0.9% of our outstanding common stock. This concentration of ownership may delay, deter or prevent a change of control of our company and will make some transactions more difficult or impossible without the support of these stockholders.

*Future issuances of shares of our common stock could dilute the ownership interests of our stockholders.*

Any issuance of equity securities could dilute the interests of our stockholders and could substantially decrease the trading price of our common stock. We may issue equity securities in the future for a number of reasons, including to finance our operations and business strategy (including in connection with acquisitions, strategic collaborations or other transactions), to adjust our ratio of debt to equity, to satisfy our obligations upon the exercise of outstanding options or for other reasons.

On August 1, 2011, we issued \$100 million aggregate principal amount of our 3.75% Convertible Notes, and in February 2013, we issued \$115 million aggregate principal amount of our 3.50% Convertible Notes. In April 2014, we issued approximately \$70.3 million aggregate principal amount of our New Notes and paid approximately \$0.4 million in cash to refinance approximately \$70.3 million aggregate principal amount of our 3.50% Convertible Notes. Following such transactions, approximately \$44.7 million aggregate principal amount of the 3.50% Convertible Notes remained outstanding. To the extent we issue common stock upon conversion of the Convertible Notes, that conversion would dilute the ownership interests of our stockholders.

Table of Contents

*Increased leverage as a result of our Convertible Notes offerings may harm our financial condition and operating results.*

As of March 31, 2014, we had total consolidated long-term liabilities of approximately \$216.9 million, including the liability component of the 3.75% Convertible Notes in the amount of \$87.3 million and the 3.50% Convertible Notes in the amount of \$115.0 million.

In April 2014, we refinanced approximately \$70.3 million aggregate principal amount of the 3.50% Convertible Notes held by the Participating Holders with approximately \$70.3 million aggregate principal amount of the New Notes. In connection with such transactions, we also paid the Participating Holders approximately \$0.4 million in cash.

Our level of indebtedness could have important consequences to stockholders and note holders, because:

- It could affect our ability to satisfy our obligations under the Convertible Notes;
  
- A substantial portion of our cash flows from operations will have to be dedicated to interest and principal payments and may not be available for operations, working capital, capital expenditures, expansion, acquisitions or general corporate or other purposes;
  
- It may impair our ability to obtain additional financing in the future;
  
- It may limit our flexibility in planning for, or reacting to, changes in our business and industry; and
  
- It may make us more vulnerable to downturns in our business, our industry or the economy in general.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

*(a) Sales of Unregistered Securities*

None.

(b) *Use of Proceeds from Public Offering of Common Stock*
