ITEM 11. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This Compensation Discussion and Analysis provides an overview of the material components of our executive compensation program for:

- Gary Steele, our Chief Executive Officer (our CEO);
- Paul Auvil, our Chief Financial Officer (our CFO); and
- Tracey Newell, our Executive Vice President, Worldwide Sales.

We refer to these executive officers collectively in this Compensation Discussion and Analysis and the related compensation tables as the Named Executive Officers.

Specifically, this Compensation Discussion and Analysis provides an overview of our executive compensation philosophy, the overall objectives of our executive compensation program, and each component of compensation that we provide. In addition, we explain how and why the compensation committee of our board of directors arrived at the specific compensation policies and decisions involving our executive officers, including the Named Executive Officers listed in the Summary Compensation Table set forth below, during 2013.

Table of Contents

Executive Compensation Philosophy and Objectives

We operate in a highly competitive business environment, which is characterized by frequent technological advances, rapidly changing market requirements, and the emergence of new market entrants. To successfully grow our business in this dynamic environment, we must continually develop and refine our solutions to stay ahead of customer needs and challenges. To achieve these objectives, we need a highly talented and seasoned team of technical, sales, marketing, operations, and other business professionals.

We compete with many other companies in seeking to attract and retain a skilled management team. To meet this challenge, we have embraced a compensation philosophy of offering our executive officers a competitive total compensation program that recognizes and rewards individual performance and contributions to our success, allowing us to attract, retain, and motivate talented executives with the skills and abilities needed to drive our desired business results.

The specific objectives of our executive compensation program are to:

- reward the successful achievement of our financial and strategic objectives;
- drive the development of a successful and profitable business;
- support the alignment of executive officer and shareholder interests by rewarding the achievement of company goals and the building of shareholder value;
- attract, motivate, reward, and retain highly-qualified executives who are important to our success; and
- recognize strong performers by offering compensation that rewards individual achievement as well as contributions to our overall success.

Compensation Program Design

Our executive compensation consists of base salary, an annual cash bonus opportunity, a sales commission plan for our sales executives, equity compensation in the form of stock options and restrictive stock units, and certain employee welfare benefits.

Historically, the key component of our executive compensation program has been equity awards for shares of our common stock. As a privately-held company and as a public company, we have emphasized the use of equity to provide incentives for our executive officers to focus on the growth of our overall enterprise value and, correspondingly, to create value for our stockholders. In 2013, we began to move from using stock options as our primary equity award vehicle for all of our employees to using restricted stock units as our primary equity award vehicle, while continuing to use stock option awards at our discretion. We believe that stock options and restricted stock units offer our employees, including the Named Executive Officers, a valuable long-term incentive that aligns their interests with the long-term interests of our

Edgar Filing: PROOFPOINT INC - Form 10-K/A

stockholders. Going forward, we may introduce other forms of stock-based compensation awards, as we deem appropriate, into our executive compensation program to offer our executive officers additional types of long-term equity incentives that further this objective.

In 2013, we evaluated our compensation philosophy and programs. Going forward, we expect to review executive compensation annually. As part of this review process, we expect to consider the levels of compensation that we would be willing to pay to ensure that our compensation remains competitive and that we are meeting our retention objectives, and to consider the cost to us if we were required to find a replacement for a key executive or employee.

We also offer cash compensation in the form of base salaries, annual cash bonus opportunities, and sales commissions. Typically, we have structured our annual cash bonus and equity bonus opportunities to focus on the achievement of specific short-term financial and strategic objectives that will further our longer-term growth objectives.

Historically, we have used standard industry surveys, including the Radford High-Technology Executive Compensation Survey, particularly for public companies with annual revenue of \$50 million to \$300 million, to assist the compensation committee in establishing cash compensation levels for our executive officers with an emphasis on technology companies with a similar size, stage of development, and growth potential. Using this information as a guideline, the compensation committee has emphasized remaining competitive in our market and differentiating total cash compensation levels through the use of an annual cash bonus plan and sales commissions. Equity compensation has been delivered on a discretionary basis with the goal to retain top talent and align the interests of our executive officers with the long-term interests of our stockholders.

We have not adopted any formal policies or guidelines for allocating compensation between current and long-term compensation, between cash and non-cash compensation, or among different forms of non-cash compensation. Instead, the compensation committee reviews each component of executive compensation separately and also takes into consideration the value of each executive officer's compensation package as a whole and its relative size in comparison to our other executive officers.

Table of Contents

Compensation-Setting Process

Role of the Compensation Committee

Since 2004, the compensation committee has been responsible for evaluating, approving, and reviewing the compensation arrangements, plans, policies, and programs for our executive officers, including the Named Executive Officers (other than our CEO), and directors, and overseeing our cash-based and equity-based compensation plans. In 2013, decisions with respect to the cash compensation and equity compensation of our executive officers (other than our CEO) were made by the compensation committee. In the case of our CEO's cash compensation and equity compensation awards, decisions have been made by the independent members of our board of directors.

At the beginning of each year, the compensation committee, after consulting with management, establishes the corporate performance objectives for our company and makes decisions with respect to any base salary adjustment, approves certain individual performance objectives and target annual cash bonus opportunities. Prior to 2013, the compensation committee would also formulate recommendations with respect to equity awards for our executive officers, including the Named Executive Officers, for the upcoming year and submit those recommendations to our board of directors for consideration and approval. In 2013, the compensation committee itself considered and approved all cash compensation and equity compensation to our executive officers (other than our CEO). Any recommendations for equity awards to our chief executive officer continue to be submitted to the independent members of our board of directors for their consideration and approval. After the end of the fiscal year, the compensation committee reviews the performance of our executive officers, including the Named Executive Officers, to determine the payouts for the annual cash bonus opportunities for the previous year.

The compensation committee reviews on a periodic basis, at least annually, our executive compensation program, including any incentive compensation plans, to determine whether they are appropriate, properly coordinated, and achieve their intended purposes and recommends to our board of directors any modifications or new plans or arrangements.

Role of Management

In carrying out its responsibilities, the compensation committee works with members of our management, including our CEO. Typically, our management assists the compensation committee by providing information on corporate and individual performance, market data, and management's perspective and recommendations on compensation matters. This information has included an analysis of the compensation mix and levels of our executive officers compared to the competitive market (as determined using compensation survey data) prepared by our Human Resources Department or the compensation consultant to the compensation committee. The compensation committee then uses this information as reference points in its deliberations on specific compensation actions and decisions.

Historically, the initial compensation arrangements with our executive officers, including the Named Executive Officers, have been determined in negotiations with each individual executive. Our CEO has been responsible for negotiating these arrangements, with the oversight and final approval of the compensation committee.

Edgar Filing: PROOFPOINT INC - Form 10-K/A

Typically, our CEO will make recommendations to the compensation committee regarding compensation matters, including the compensation of our executive officers (except with respect to his own compensation). Historically, these recommendations have been based on a review of competitive market data as prepared by our Human Resources Department or the compensation consultant to the compensation committee and our CEO's evaluation of each executive officer's individual performance. He also attends compensation committee meetings, except with respect to discussions involving his own compensation. Further, he recuses himself from meetings of our board of directors when they engage in deliberations with respect to his cash compensation and equity compensation awards.

While the compensation committee solicits and reviews our CEO's recommendations and proposals with respect to compensation-related matters, the compensation committee only uses these recommendations and proposals as one factor in making compensation decisions.

Role of Compensation Consultant

The compensation committee is authorized to retain the services of one or more executive compensation advisors from time to time, as it sees fit, in connection with carrying out its duties. Pursuant to that authority, the compensation committee engaged an independent compensation consultant, Compensia, Inc. (Compensia), to evaluate our executive compensation levels and practices and to provide advice and ongoing recommendations on executive compensation matters for 2013. The compensation committee retains and does not delegate any of its exclusive power to determine all matters of executive compensation and benefits, although the chief executive officer and the Human Resources Department present compensation and benefit proposals to the compensation committee. Compensia representatives meet with our compensation committee during certain of its regular meetings, including in executive sessions from time to time without any members of management present. Compensia works directly with our compensation committee (and not on behalf of management) to assist our compensation committee in satisfying its responsibilities and will undertake no projects for management without our compensation committee's approval.

Use of Competitive Data

To assess the competitiveness of our executive compensation program and current compensation levels and to assist it in setting compensation levels, historically the compensation committee referred to standard industry surveys, including the Radford High-Technology Executive Compensation Survey. While the compensation committee reviewed this compensation data to inform its decision-making process, it did not set compensation components to meet specific benchmarks. Instead, the compensation committee used this data as a point of reference so that it could set total compensation levels that it believed were reasonably competitive. While compensation levels differed among our executive officers based on competitive factors, and the role, responsibilities, and performance of each specific executive officer, there were not material differences in the compensation policies and practices for our executive officers, including the Named Executive Officers.

During 2013, the compensation committee, assisted by our management and Compensia, began to develop a compensation peer group comprised of comparably-sized publicly-held companies, taking into consideration size and growth potential, to be used as a reference source in connection with its executive compensation deliberations. This compensation peer group, which consisted of both technology companies that had conducted an initial public offering of their equity securities within the past several years and similarly-sized companies in the same industry sector, was used by the compensation committee for reference purposes during its compensation deliberations during 2013.

This peer group is comprised of the following companies:

Actuate Corporation	KIT digital, Inc.
BroadSoft, Inc.	LogMeIn, Inc.
Carbonite, Inc.	LivePerson, Inc.
comScore, Inc.	Responsys, Inc.
Constant Contact, Inc.	ServiceSource International, Inc.

Executive Compensation Program Components

The following describes each component of our executive compensation program, the rationale for each, and how compensation amounts and awards are determined.

Base Salary

Base salary is the primary fixed component of our executive compensation program. We use base salary to compensate our executive officers, including the Named Executive Officers, for services rendered during the year, and to ensure that we remain competitive in attracting and

Edgar Filing: PROOFPOINT INC - Form 10-K/A

retaining executive talent. The compensation committee conducts an annual review of each executive officer's base salary and makes adjustments as it determines to be reasonable and necessary to reflect the scope of an executive officer's performance, contributions, responsibilities, experience, prior salary level and position (in the case of a promotion), and market conditions.

In January 2013, the compensation committee reviewed the base salaries of our executive officers, including the Named Executive Officers, taking into consideration a compensation analysis performed by Compensia and the base salary recommendations of our CEO (except with respect to his own base salary), as well as the other factors described above. Exercising its judgment and discretion, the compensation committee determined to make adjustments to the annual base salaries of certain of our executive officers that ranged from 10% to 18%. The compensation committee took into account data from the Radford High-Technology Executive Compensation Survey and the data from the peer group companies compiled by Compensia in making these subjective determinations. The compensation committee determined that such adjustments were necessary and appropriate to maintain the fixed component of our executive officers' compensation at competitive levels.

The adjustments to the base salaries of the Named Executive Officers for 2013 were as follows:

Named Executive Officer	2012 Base Salary	Percentage Increase	2013 Base Salary
Mr. Steele	\$ 380,000	18%	\$ 450,000
Mr. Auvil	\$ 310,000	10%	\$ 340,000
Ms. Newell	N/A	N/A	\$ 400,000

These base salary adjustments were effective on February 1, 2013. Mr. Steele's base salary was increased and his base salary is below the 75th percentile of the compensation data from the Radford survey and data from Compensia. Similarly, Mr. Auvil's base salary was increased and his base salary is just above the 75th percentile of such data. Finally, Ms. Newell did not join us until August 2013 but her base salary is above the 75th percentile of such data.

Table of Contents

The base salaries paid to the Named Executive Officers during 2013 are set forth in the Summary Compensation Table below.

Annual Cash Bonuses

We use cash bonuses to motivate our executive officers, including the Named Executive Officers, to achieve our annual financial and operational objectives, while making progress towards our longer-term growth and other goals. Generally at the beginning of each year, the compensation committee adopts an annual bonus plan for our management team and selects one or more corporate financial and operational measures based on our annual operating plan for use in determining the target size of the bonus pool for the year from which bonuses will be paid. In addition, with respect to our executive officers, including the Named Executive Officers, the compensation committee also establishes target bonus opportunities for each executive officer and determines the individual performance objectives for variable compensation for certain executive officers.

2013 Executive Bonus Plan

In January 2013, the compensation committee approved our Executive Bonus Plan for purposes of providing bonus opportunities to our management team, including the Named Executive Officers.

Target Bonus Opportunities

Under the Executive Bonus Plan, the target bonus opportunities were designed to reward our executive officers based on our overall company performance and the individual executive officer's contribution to that performance. As in prior years, the compensation committee determined that the target bonus opportunities for each executive officer should be determined as a percentage of such executive officer's base salary. The target bonus opportunities for the Named Executive Officers were as follows:

Named Executive Officer	Target Bonus Opportunity (as a percentage of base salary)
Mr. Steele	100%
Mr. Auvil	50%
Ms. Newell	44%

With respect to each of the Named Executive Officers listed above, the amount of the target bonus opportunity was established by the compensation committee in consultation with our CEO (except with respect to his own target bonus opportunity) and was based on several factors, including the scope of the Named Executive Officer's performance, contributions, responsibilities, experience, prior years' target bonus opportunities and position (in the case of a promotion), and market conditions. In the case of Ms. Newell, the amount of the target bonus opportunity was based on several factors, including the scope of her performance, responsibilities, experience, position and market conditions.

Corporate Performance Measures

Under the Executive Bonus Plan, the compensation committee selected revenue and EBITDA, measured quarterly, as the two corporate performance measures that best supported our annual operating plan and enhanced long-term value creation for purposes of funding the bonus pool. For purposes of funding the plan bonus pool on a quarterly basis, achievement of certain quarterly revenue targets would incrementally fund the bonus pool, though the quarterly bonus pool funding would be limited based on measurement of the company's planned EBITDA target for such quarter, which included funding of the non-executive bonus pool. For 2013, the target levels for these two performance measures, per quarter, were set as follows:

Performance Measure	Target Performance Level (\$) and Related Percentage Funding of Pool (%)
Q1 2013 Revenue and EBITDA	If quarterly revenue does not equal or exceed \$28.6 million, then the quarterly pool funds at 0%. If quarterly revenue is equal to or exceeds \$28.6 million but does not equal or exceed \$30.1 million, then the quarterly pool funds at 50%. If quarterly revenues equal \$30.1 million, then the quarterly pool funds at 100%. If quarterly revenues exceed \$30.1 million, then for every \$1 of EBITDA overachievement, the quarterly pool funds at an additional \$0.30, provided that in no case may the quarterly pool fund at more than 150%. Quarterly EBITDA must meet or be better than negative \$2.2 million to provide for any funding for the quarter.
Q2 2013 Revenue and EBITDA	If quarterly revenue does not equal or exceed \$30.0 million, then the quarterly pool funds at 0%. If quarterly revenue is equal to or exceeds \$30.0 million but does not equal or exceed \$31.6 million, then the quarterly pool funds at 50%. If quarterly revenues equal \$31.6 million, then the quarterly pool funds at 100%. If quarterly revenues exceed \$31.6 million, then for every \$1 of EBITDA overachievement, the quarterly pool funds at an additional \$0.30, provided that in no case may the quarterly pool fund at more than 150%. Quarterly EBITDA must meet or be better than negative \$1.2 million to provide for any funding for the quarter.
Q3 2013 Revenue and EBITDA	If quarterly revenue does not equal or exceed \$31.6 million, then the quarterly pool funds at 0%. If quarterly revenue is equal to or exceeds \$31.6 million but does not equal or exceed \$33.3 million, then the quarterly pool funds at 50%. If quarterly revenues equal \$33.3 million, then the quarterly pool funds at 100%. If

Table of Contents

	quarterly revenues exceed \$33.3 million, then for every \$1 of EBITDA overachievement, the quarterly pool funds at an additional \$0.30, provided that in no case may the quarterly pool fund at more than 150%. Quarterly EBITDA must meet or be better than negative \$1.1 million to provide for any funding for the quarter.
Q4 2013 Revenue and EBITDA	If quarterly revenue does not equal or exceed \$33.1 million, then the quarterly pool funds at 0%. If quarterly revenue is equal to or exceeds \$33.1 million but does not equal or exceed \$34.8 million, then the quarterly pool funds at 50%. If quarterly revenues equal \$34.8 million, then the quarterly pool funds at 100%. If quarterly revenues exceed \$34.8 million, then for every \$1 of EBITDA overachievement, the quarterly pool funds at an additional \$0.30, provided that in no case may the quarterly pool fund at more than 150%. Quarterly EBITDA must meet or be better than \$0.6 million to provide for any funding for the quarter.

The compensation committee believed that the target levels for these two performance measures for 2013 would require a focused effort by management to generate the target funding for the bonus pool associated with these measures.

Individual Performance Measures

To achieve our compensation objective of rewarding individual performance, our CEO developed a series of performance objectives for our executive officers, including the other Named Executive Officers (other than himself), which he deemed to be integral to the achievement of the corporate performance objectives as well as the strengthening of our internal operations. In addition, the compensation committee determined the individual performance objectives that would be applicable to our CEO.

For purposes of the Executive Bonus Plan, these performance objectives for the Named Executive Officers participating in the Executive Bonus Plan were as follows: for Mr. Steele, his performance objectives related to achieving our externally-communicated revenue, free cash flow, and gross margin targets, staffing recruitment and development, sales team productivity, inorganic growth and geographic revenue mix; for Mr. Auvil, his performance objectives related to the public reporting process and associated statutory filings, investor relations, continued cost reductions, and continued forecasting and reporting process improvements; and for Ms. Newell, her performance objectives related to sales team productivity, quota-carrying sales capacity and sales leadership recruitment and hiring.

Further, our CEO was to evaluate each executive officer's individual contributions towards the achievement of these performance objectives. In the case of our CEO, the compensation committee would evaluate his individual contributions towards the achievement of his performance objectives.

Award Decisions and Analysis

In January 2014, the compensation committee evaluated our performance during 2013 and determined the amount of the annual cash bonuses to be paid to our executive officers, including the Named Executive Officers, for 2013. In making these awards, the compensation committee consulted with our CEO with respect to the Named Executive Officers (except with respect to his own bonus) and evaluated our financial and operational performance and the level of achievement of the corporate performance objectives for the year. The compensation committee determined that, with respect to the annual revenue target and target EBITDA performance for 2013, we had achieved a bonus pool funding

Edgar Filing: PROOFPOINT INC - Form 10-K/A

factor of 87% of the 2013 target bonus pool. Based on these results, the compensation committee then set the size of the bonus pool to be used to pay cash bonuses under the Executive Bonus Plan at 87% of the target bonus pool amount for executives. Therefore, the target bonus based on achievement of corporate objectives would be 87% of the amount of each Named Executive Officer's target bonus based on individual performance.

Our CEO evaluated the achievement of each executive officer against his individual performance objectives and formulated a recommendation for each such executive officer's annual bonus for consideration by the compensation committee. These recommendations were based on his subjective assessment of each individual's contributions against the personal performance objectives during the year. In the case of our CEO, the compensation committee evaluated his performance against his individual performance objectives and determined the amount of his annual bonus. Mr. Steele was determined to have satisfied his performance objectives at a level of 90%. Mr. Auvil was determined to have satisfied his personal performance objectives at a level of 100%. Ms. Newell was determined to have satisfied her personal performance objectives at a level of 100%.

Based on these determinations, the compensation committee approved cash bonuses based on pro-rated salaries to account for salary increases for the Named Executive Officers as follows:

Named Executive Officer	Target Cash Bonus Opportunity		Cash Bonus	
Mr. Steele	\$	439,900	\$	382,713
Mr. Auvil	\$	167,100	\$	145,377
M. Newell	\$	66,880	\$	58,186

Equity Compensation

We use equity awards to incentivize and reward our executive officers, including the Named Executive Officers, for long-term corporate performance based on the value of our common stock and, thereby, to align the interests of our executive officers with those of our stockholders. These equity awards have been granted in the form of stock options to purchase shares of our common stock and in the form of restricted stock units. We believe that an appropriate mix of stock options, when granted with exercise prices equal to the fair market value of our common stock on the date of grant, and restricted stock units allow us to compete effectively in the current market, and provides an appropriate long-term incentive for our executive officers, since the stock options reward them only to the extent that our stock price grows and stockholders realize value following their grant date and the restricted stock units provides long-term retentive value

Typically, we have granted stock options to our executive officers, including the Named Executive Officers, as part of the compensation committee's annual review of executive compensation. To date, the compensation committee has not applied a rigid formula in determining the size of these equity awards. Instead, the compensation committee considers and approves an equity award for each executive officer after taking into consideration a compensation analysis performed by our Human Resources Department and/or the compensation committee's compensation consultant, the equity award recommendations of our CEO (except with respect to his own award), the scope of an executive officer's performance, contributions, responsibilities and experience, and the amount of equity compensation held by the executive officer (including the current economic value of his unvested equity and the ability of these unvested holdings to satisfy our retention objectives, market conditions, and internal equity). In making its award decisions, our compensation committee exercises its judgment and discretion to set the size of each award at a level it considers appropriate to create a meaningful opportunity for reward predicated on the creation of long-term stockholder value.

On January 29, 2014, the compensation committee approved the granting of stock option awards and restricted stock unit awards for certain of our executive officers, including the Named Executive Officers, in light of the contributions listed above, including each executive officer's individual performance for 2013, and an overall assessment of our financial performance in areas such as revenue, bookings, gross margin and cash flow. On January 29, 2014, the independent members of our board of directors approved our CEO's cash compensation and approved the granting of equity compensation awards for our CEO.

The size of these stock option grants was determined by the compensation committee based on its evaluation of a compensation analysis prepared by Compensia, its subjective assessment of the performance of each of our executive officers, and its motivation and retention objectives for each of our executive officers. Initially, the compensation committee reviewed the analysis prepared by Compensia, which was based on its evaluation of the recent equity decisions of the companies in the compensation peer group described above, as well as the practices of similarly-sized companies as reflected in the Radford High-Technology Executive Compensation Survey. This information was used by the compensation committee to assess current market practices for equity awards to executives and to evaluate how the contemplated awards would influence the total direct compensation of the executive officers.

The compensation committee then exercised its subjective judgment to set the value of the equity awards for each executive officer, taking into consideration its assessment of each individual's performance (based largely on the recommendations of our CEO), the current equity holdings of each executive officer (with an emphasis on the remaining vesting requirements of any unvested holdings), the relative roles and responsibilities of each executive officer, and its desire to maintain parity in the awards granted to executive officers performing substantially similar responsibilities. In particular, in the case of the award for Mr. Auvil, the compensation committee considered his performance of his responsibilities as our principal financial executive through our transition to public company status during 2012 and its expectations with respect to his performance of this role in 2013. The compensation committee also noted that a new award would provide him with additional incentive to remain with the company for the next several years as we aim to expand our business as a public company. In the case of Ms. Newell, at the time of her hiring, the compensation committee considered her prior experience as an executive officer, the need to be competitive in the current market, and its expectations with respect to her performance of this role in 2013 and for the next several years as we aim to expand our business

as a public company.

In the case of the award for Mr. Steele, the compensation committee considered his performance in 2012 through our transition to public company status as well as his efforts to develop our senior management team. The compensation committee also noted that, as the chief executive officer of a public company with a recent history of steady revenue growth, his ability in moving us toward profitability, and his proven leadership in a growing industry sector, a meaningful equity award was appropriate to set his overall total direct compensation opportunity at a level commensurate with the chief executive officers of the companies in the compensation peer group. Finally, the compensation committee determined that, in view of his role and responsibilities compared to our other executive officers, Mr. Steele's award should be significantly larger than those of these other individuals.

The stock options for Mr. Steele and Mr. Auvil were granted with an exercise price equal to \$14.12 per share, the fair market value of our common stock as determined by the closing price on that date. Ms. Newell was granted 175,000 stock options with an exercise price equal to \$29.44, the fair market value of our common stock as determined by the closing price on that date, and 75,000 restricted stock units. The stock option and restricted stock unit award grants made to the Named Executive Officers were as follows:

Named Executive Officer	Number of Shares Underlying Stock Option Grant(s) and Restricted Stock Unit Award(s)
Mr. Steele	180,000
Mr. Auvil	90,000
Ms. Newell	250,000

Welfare and Other Benefits

We have established a tax-qualified Section 401(k) retirement plan for all employees who satisfy certain eligibility requirements, including requirements relating to age and length of service. We currently do not match any contributions made to the plan by our employees, including executive officers. We intend for the plan to qualify under Section 401(a) of the Internal Revenue Code so that contributions by employees to the plan, and income earned on plan contributions, are not taxable to employees until withdrawn from the plan.

In addition, we provide other benefits to our executive officers, including the Named Executive Officers, on the same basis as all of our full-time employees in the country in which they are resident. These benefits include medical, dental, and vision benefits, medical and dependent care flexible spending accounts, short-term and long-term disability insurance, accidental death and dismemberment insurance, and basic life insurance coverage.

We design our employee benefits programs to be affordable and competitive in relation to the market, as well as compliant with applicable laws and practices. We adjust our employee benefits programs as needed based upon regular monitoring of applicable laws and practices and the competitive market.

Currently, we do not view perquisites or other personal benefits as a significant component of our executive compensation program. Accordingly, we do not provide perquisites to our executive officers, except in situations where we believe it is appropriate to assist an individual in the performance of his or her duties, to make our executive officers more efficient and effective, and for recruitment and retention purposes. During 2013, none of the Named Executive Officers received perquisites or other personal benefits that were, in the aggregate, \$10,000 or more for each Named Executive Officer.

In the future, we may provide perquisites or other personal benefits in limited circumstances, such as where we believe it is appropriate to assist an individual executive officer in the performance of his or her duties, to make our executive officers more efficient and effective, and for recruitment, motivation, or retention purposes. All future practices with respect to perquisites or other personal benefits will be approved and subject to periodic review by the compensation committee.

Employment Agreements

We have entered into employment agreements with each of our executive officers, except as described below, which are comprised of an offer letter, the Proprietary Information and Inventions Agreement, and the Arbitration Agreement. Our employment agreement with Mr. Steele is comprised solely of an offer letter and the Employee Confidentiality Agreement. Each of these arrangements was approved on our behalf by our board of directors or, in certain instances, the compensation committee. We believe that these employment offer letters were necessary to induce these individuals to forego other employment opportunities or leave their current employer for the uncertainty of a demanding position in a new and unfamiliar organization.

Edgar Filing: PROOFPOINT INC - Form 10-K/A

In filling these executive positions, our board of directors and the compensation committee, as applicable, was aware that it would be necessary to recruit candidates with the requisite experience and skills to manage a growing business in a unique market niche. Accordingly, it recognized that it would need to develop competitive compensation packages to attract qualified candidates in a dynamic labor market. At the same time, our board of directors and the compensation committee was sensitive to the need to integrate new executive officers into the executive compensation structure that it was seeking to develop, balancing both competitive and internal equity considerations.

Each of these employment offer letters provided for at will employment and sets forth the initial compensation arrangements for the executive officer, including an initial base salary, an annual cash bonus opportunity and/or a commissions plan, and an equity award in the form of a stock option to purchase shares of our common stock. These letters do not provide for any arrangements for payments or benefits upon termination of their employment in specified circumstances, including following a change in control (except the programmatic benefits inherent in any stock option award for the executives). These arrangements (including potential payments and terms) are discussed in more detail in the Potential Payments upon Termination or Change in Control section below.

Outstanding Stock Options and Restricted Stock Units

In the event that the employment of an executive officer is involuntarily terminated within 18 months following a change in control of our company for executive officers who have worked for our company one year or more prior to involuntary termination, the unvested shares of our common stock subject to all of the outstanding stock options or restricted stock units previously granted to such executive officer will become immediately vested and exercisable in full, as described in Potential Payments Upon Termination or Change in Control. In the event that the employment of an executive officer is involuntarily terminated within 18 months following a change in control of our company for executive officers who have worked for our company less than one year prior to involuntary termination, the shares of our common stock subject to the

outstanding stock options or restricted stock units that are scheduled to be vested through the twelve (12) month anniversary of the change of control event will become immediately vested and exercisable in full, as described in Potential Payments Upon Termination or Change in Control.

Objectives of Protections

We believe that these protections assisted us in attracting these individuals to join our company. We also believe that these protections serve our executive retention objectives by helping the Named Executive Officers maintain continued focus and dedication to their responsibilities to maximize stockholder value, including in the event that there is a potential transaction that could involve a change in control of our company. The terms of these agreements were determined after review by our board of directors or the compensation committee, as applicable, of our retention goals for each executive officer and an analysis of relevant market data.

For a summary of the material terms and conditions of these severance and change in control arrangements, see Potential Payments Upon Termination or Change in Control below.

Other Compensation Policies

Stock Ownership Guidelines

Currently, we have not implemented a policy regarding minimum stock ownership requirements for our executive officers, including the Named Executive Officers.

Compensation Recovery Policy

Currently, we have not implemented a policy regarding retroactive adjustments to any cash or equity-based incentive compensation paid to our executive officers and other employees where the payments were predicated upon the achievement of financial results that were subsequently the subject of a financial restatement. We intend to adopt a general compensation recovery (clawback) policy covering our annual and long-term incentive award plans and arrangements once we are a publicly-traded company and after the SEC adopts final rules implementing the requirement of Section 954 of the Dodd-Frank Act.

Derivatives Trading and Hedging Policy

Edgar Filing: PROOFPOINT INC - Form 10-K/A

Our Insider Trading Policy, adopted in April 2012 concurrently with our Initial Public Offering, and amended in March 2013, prohibits the trading of derivatives or the hedging of our equity securities by our employees, including the Named Executive Officers, and directors.

Tax and Accounting Considerations

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code generally disallows public companies a tax deduction for federal income tax purposes of remuneration in excess of \$1.0 million paid to the chief executive officer and each of the three other most highly-compensated executive officers (other than the chief financial officer) in any taxable year. Generally, remuneration in excess of \$1.0 million may only be deducted if it is performance-based compensation within the meaning of the Code. In this regard, the compensation income realized upon the exercise of stock options granted under a stockholder-approved stock option plan generally will be deductible so long as the options are granted by a committee whose members are non-employee directors and certain other conditions are satisfied.

Where reasonably practicable, the compensation committee seeks to qualify the variable compensation paid to our executive officers for the performance-based compensation exemption from the deductibility limit. As such, in approving the amount and form of compensation for our executive officers in the future, we will consider all elements of the cost to our company of providing such compensation, including the potential impact of Section 162(m). In the future, the compensation committee may, in its judgment, authorize compensation payments that do not comply with an exemption from the deductibility limit when it believes that such payments are appropriate to attract and retain executive talent.

Taxation of Parachute Payments

Sections 280G and 4999 of the Internal Revenue Code provide that executive officers and directors who hold significant equity interests and certain other service providers may be subject to significant additional taxes if they receive payments or benefits in connection with a change in control of our company that exceeds certain prescribed limits, and that our company (or a successor) may forfeit a deduction on the amounts subject to this additional tax. We did not provide any executive officer, including any Named Executive Officer, with a gross-up or other reimbursement payment for any tax

Table of Contents

liability that the executive officer might owe as a result of the application of Sections 280G or 4999 during 2011, and we have not agreed and are not otherwise obligated to provide any executive officer with such a gross-up or other reimbursement.

Accounting for Stock-Based Compensation

We follow ASC 718 for our stock-based compensation awards. ASC 718 requires companies to measure the compensation expense for all share-based payment awards made to employees and directors, including stock options, based on the grant date fair value of these awards. This calculation is performed for accounting purposes and reported in the compensation tables below, even though our executive officers may never realize any value from their awards. ASC 718 also requires companies to recognize the compensation cost of their stock-based compensation awards in their income statements over the period that an executive officer is required to render service in exchange for the option or other award.

Executive Compensation Tables

The following table provides information regarding all plan and non-plan compensation awarded to, earned by or paid to our principal executive officer and our two other most highly compensated executive officers serving as such at December 31, 2013 for all services rendered in all capacities to us during 2013.

Change in Control Arrangements

Generally, our equity award agreements with each of our Named Executive Officers provide for acceleration of the stock options or restricted stock units in the event that the employment of an executive officer is involuntarily terminated (as such term is defined in the applicable equity award agreement) within 18 months following a change in control of our company. For executive officers who have worked for our company one year or more prior to involuntary termination, the unvested shares of our common stock subject to all of the outstanding stock options or restricted stock units previously granted to such executive officer will become immediately vested and exercisable in full. For executive officers

Edgar Filing: PROOFPOINT INC - Form 10-K/A

who have worked for our company less than one year prior to involuntary termination, the shares of our common stock subject to the outstanding stock options and the restricted stock units that are scheduled to be vested through the twelve (12) month anniversary of the change of control event will become immediately vested and exercisable in full. The following table summarizes the intrinsic value of this acceleration benefit to our Named Executive Officers pursuant to these awards, assuming an involuntary termination of employment and change in control of our company as of December 31, 2013. Values are based upon the value of a share of our common stock as of December 31, 2013, calculated based on the fair market value as of December 31, 2013 less the exercise price of each outstanding stock option.

Each initial stock option award will vest in equal annual installments over three years from the date of grant while each annual stock option award will vest in full on the earlier of the one-year anniversary of the date of grant or immediately prior to the first annual meeting of our stockholders to occur after the date of grant. Options granted to non-employee directors under the policy described above will accelerate and vest in full in the event of a change of control. The awards will have 10-year terms and will terminate three months following the date the director ceases to be one of our directors or consultants or 12 months following that date if the termination is due to death or disability. In addition to the awards provided for above, non-employee directors are eligible to receive discretionary equity awards.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE**Related Party Transactions**

Other than compensation arrangements, including employment, termination of employment and change of control arrangements and indemnification arrangements, discussed, when required, above in the section entitled Executive Compensation, there are no transactions since January 1, 2013 or currently proposed transactions in which:

- we have been or are to be a participant;

- the amount involved exceeded or exceeds \$120,000; and

- any of our directors, executive officers or holders of more than 5% of our capital stock, or any immediate family member of or person sharing the household with any of these individuals, had or will have a direct or indirect material interest.

Independence of Directors

Our board of directors determines the independence of our directors by applying the independence principles and standards established by the NASDAQ Global Market. These provide that a director is independent only if the board affirmatively determines that the director has no direct or indirect material relationship with our company. They also specify various relationships that preclude a determination of director independence. Material relationships may include commercial, industrial, consulting, legal, accounting, charitable, family and other business, professional and personal relationships.

Applying these standards, the board annually reviews the independence of the company's directors, taking into account all relevant facts and circumstances. In its most recent review, the board considered, among other things, the relationships that each non-employee director has with our company and all other facts and circumstances our board of directors deemed relevant in determining their independence, including the beneficial ownership of our capital stock by each non-employee director.

Table of Contents

Based upon this review, our board of directors has determined that the following director nominee and members of our board of directors are currently independent as determined under the rules of the NASDAQ Global Market:

Eric Hahn	Jonathan Feiber
Anthony Bettencourt	Doug Garn
Sydney Carey	Kevin Harvey
Dana Evan	Philip Koen

All members of our audit committee, compensation committee, nominating and corporate governance committee must be independent directors as defined by our Corporate Governance Guidelines. Members of the audit committee must also satisfy a separate SEC independence requirement, which provides that they may not accept directly or indirectly any consulting, advisory or other compensatory fee from Proofpoint or any of its subsidiaries other than their directors' compensation. No member of the audit committee may be a partner, member or principal of a law firm, accounting firm or investment banking firm that accepts consulting or advisory fees from Proofpoint or any of its subsidiaries. Our board of directors has determined that all members of our audit committee, compensation committee and nominating and corporate governance committee are independent and all members of our audit committee satisfy the relevant SEC additional independence requirements for the members of such committee.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

Principal Accountant Fees and Services

We regularly review the services and fees from its independent registered public accounting firm. These services and fees are also reviewed with our audit committee annually. In accordance with standard policy, PricewaterhouseCoopers LLP periodically rotates the individuals who are responsible for Proofpoint's audit.

In addition to performing the audit of Proofpoint's consolidated financial statements, PricewaterhouseCoopers LLP provided various other services during fiscal 2012 and 2013. Our audit committee has determined that PricewaterhouseCoopers LLP provisioning of these services, which are described below, does not impair PricewaterhouseCoopers LLP independence from Proofpoint. The aggregate fees billed for fiscal 2012 and 2013 for each of the following categories of services are as follows:

Fees Billed to Proofpoint	Fiscal Year 2012	Fiscal Year 2013

Our audit committee's policy is to pre-approve all audit and permissible non-audit services provided by the independent registered public accounting firm. These services may include audit services, audit-related services, tax services and other services. Pre-approval is detailed as to the particular service or category of services and is generally subject to a specific budget. The independent registered public accounting firm and management are required to periodically report to the audit committee regarding the extent of services provided by the independent registered public accounting firm in accordance with this pre-approval, and the fees for the services performed to date.
