Item 7.01. Regulation FD.

As previously disclosed in its filings with the Securities and Exchange Commission, including the Current Report on Form 8-K filed on March 20, 2013 and the Annual Report on Form 10-K filed on November 25, 2014, AmerisourceBergen Corporation (the "Company") issued warrants on March 18, 2013 (the "Warrants") in connection with various agreements and arrangements with Walgreens Boots Alliance, Inc. ("WBA"), as successor in interest to Walgreen Co. and Alliance Boots GmbH. At that time, the Company determined that the Warrants had a fair value of \$242.4 million on the date of issuance, which approximated the tax deductible amount that would be deducted ratably on the Company's tax return over the 10-year term of the various agreements, and that any value in excess of the initial fair value of the Warrants on the date of issuance would not be tax deductible.

On November 23, 2015, the Company received a private letter ruling from the Internal Revenue Service determining that the Company may recognize the tax consequences of the Warrants when they are exercised. As a result, the Company will be entitled to an income tax deduction when the Warrants are exercised for the Warrant expense equal to the difference between the fair value of the Warrants on the date of exercise and the strike price to be paid to exercise the Warrants. As a result of the receipt of the private letter ruling, in the quarter ending December 31, 2015, the Company will recognize in earnings a tax benefit adjustment of approximately \$456 million representing the estimated tax deduction for the increase in the value of the Warrants since the inception of the arrangement through September 30, 2015. Additionally, the Company also expects to recognize the tax impact of the change in fair value of the Warrants, through the date of exercise, within the Company's results of earnings subsequently at the applicable tax rate, currently estimated to be 36.5%.

The estimated \$456 million tax benefit that the Company expects to record in the quarter ending December 31, 2015 will impact the Company's GAAP earnings; however, it will not impact the Company's previously announced expectations for fiscal year 2016 adjusted diluted earnings per share in the range of \$5.73 to \$5.90. The tax benefits are expected to eventually be beneficial to free cash flow, contingent upon the timing of the exercise of the Warrants and the stock price at the time of each exercise. The other key assumptions set forth in the Company's news release dated October 29, 2015 and furnished as Exhibit 99.1 to the Current Report on Form 8-K dated the same date remain unchanged.

The information in this Item 7.01 shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or otherwise subject to the liabilities of that section. This information shall not be deemed to be incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference to such disclosure in this Current Report on Form 8-K in such a filing.

Cautionary Note Regarding Forward-Looking Statements

Certain of the statements contained in this announcement are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Words such as "expect," "likely," "outlook," "forecast," "would," "could," "should," "will," "project," "intend," "plan," "continue," "sustain," "synergy," "on track," "believe," "seek," "estimate," "anticipate," "may," "possible," "words," and similar expressions are intended to identify such forward-looking statements. These statements are based on management's current expectations and are subject to uncertainty and change in circumstances. These statements are not guarantees of future performance and are based on assumptions that could prove incorrect or could cause actual results to vary materially from those indicated. Among the factors that could cause actual results to differ materially from those projected, anticipated, or implied are the following: competition; industry consolidation of both customers and suppliers resulting in increasing pressure to reduce prices for our products and services; changes in pharmaceutical market growth rates; price inflation in branded and generic pharmaceuticals, and price deflation in generics; declining economic conditions in the United States and abroad; financial market volatility and disruption; substantial defaults in payment, material reduction in purchases by or the loss, bankruptcy or insolvency of a major customer; the loss, bankruptcy or insolvency of a major supplier; changes to the customer or supplier mix; the retention of key customer or supplier relationships under less favorable economics or the adverse resolution of any contract or other dispute with customers or suppliers; interest rate and foreign currency exchange rate fluctuations; the disruption of AmerisourceBergen's cash

flow and ability to return value to its stockholders in accordance with its past practices; risks associated with the strategic, long-term relationship between Walgreen Boots Alliance, Inc. and AmerisourceBergen, including with respect to the pharmaceutical distribution agreement and/or the global sourcing arrangement; risks associated with the potential impact on AmerisourceBergen's earnings per share resulting from the issuance of the warrants to subsidiaries of Walgreen Boots Alliance, Inc. (the Warrants); AmerisourceBergen's inability to fully implement its hedging strategy to mitigate the potentially dilutive effect of the issuance of its common stock in accordance with the Warrants under its special share repurchase program due to its financial performance, the current and future share price of its common stock, its expected cash flows, competing priorities for capital, and overall market conditions; changes in the United States healthcare and regulatory environment; increasing governmental regulations regarding the pharmaceutical supply channel and pharmaceutical compounding; federal and state government enforcement initiatives to detect and prevent suspicious orders of controlled substances and the diversion of controlled substances; federal and state prosecution of alleged violations of related laws and regulations, and any related litigation, including shareholder derivative lawsuits or other disputes relating to our distribution of controlled substances; increased federal scrutiny and qui tam litigation for alleged violations of fraud and abuse laws and regulations and/or any other laws and regulations governing the marketing, sale, purchase and/or dispensing of pharmaceutical products or services and any related litigation; material adverse resolution of pending legal proceedings; declining reimbursement rates for pharmaceuticals; the acquisition of businesses that do not perform as expected, or that are difficult to integrate or control, including the integration of MWI and PharMEDium, or the inability to capture all of the anticipated synergies related thereto; managing foreign expansion, including non-compliance with the U.S. Foreign Corrupt Practices Act, anti-bribery laws and economic sanctions and import laws and regulations; malfunction, failure or breach of sophisticated information systems to operate as designed; risks generally associated with data privacy regulation and the international transfer of personal data; changes in tax laws or legislative initiatives that could adversely affect AmerisourceBergen's tax positions and/or AmerisourceBergen's tax liabilities or adverse resolution of challenges to AmerisourceBergen's tax positions; natural disasters or other unexpected events that affect AmerisourceBergen's operations; the impairment of goodwill or other intangible assets, resulting in a charge to earnings; errors in the production, labeling or packaging of products compounded by our compounded sterile preparations (CSP) business; and other economic, business, competitive, legal, tax, regulatory and/or operational factors affecting AmerisourceBergen's business generally. Certain additional factors that management believes could cause actual outcomes and results to differ materially from those described in forward-looking statements are set forth (i) in Item 1A (Risk Factors) and Item 1 (Business) in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2015 and elsewhere in that report and (ii) in other reports filed with the Securities and Exchange Commission. The reader is cautioned not to rely unduly on these forward-looking statements. The Company expressly disclaims any intent or obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.
