STAR BULK CARRIERS CORP.

(Exact name of Registrant as specified in its charter)

Not Applicable

(Translation of Registrant's name into English)

Republic of the Marshall Islands

(Jurisdiction of incorporation or organization)

c/o Star Bulk Management Inc., 40 Agiou Konstantinou Str., Maroussi 15124, Athens, Greece

Edgar Filing: Star Bulk Carriers Corp. - Form 20-F

(Address of principal executive offices)

Petros Pappas, 011 30 210 617 8400, mgt@starbulk.com,
c/o Star Bulk Management Inc., 40 Agiou Konstantinou Str.
Maroussi 15124, Athens, Greece

(Name, telephone, email and/or facsimile number and address of Company Contact Person)

Securities registered or to be registered pursuant to Section 12(b) of the Act.

Title of each class	Name of exchange on which registered
Common Shares, par value \$0.01 per share	Nasdaq Global Select Market; Oslo Børs
8.30% Senior Notes due 2022	Nasdaq Global Select Market

Securities registered or to be registered pursuant to Section 12(g) of the Act: None.

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act: None.

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the annual report: As of December 31, 2018, there were 92,285,986 common shares of the registrant outstanding.

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.
Yes ☐ No ☐

If this report is an annual report or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934. Yes ☐ No ☐

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☐ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☐ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer.

Large accelerated filer ☐ Accelerated filer ☐ Non-accelerated filer ☐ Emerging Growth Company ☐

If an emerging growth company that prepares its financial statements in accordance with U.S. GAAP, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards[†] provided pursuant to Section 13(a) of the Exchange Act.

[†] The term "new or revised financial accounting standard" refers to any update issued by the Financial Accounting Standards Board to its Accounting Standards Codification after April 5, 2012.

Indicate by check mark which basis of accounting the registrant has used to prepare the financial statements included in this filing:

U.S. GAAP ☐ International Financial Reporting Standards as issued by the International Accounting Standards Board ☐ Other ☐

If "Other" has been checked in response to the previous question, indicate by check mark which financial statement item the registrant has elected to follow. Item 17 or ☐ Item 18. ☐

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes ☐ No ☐

FORWARD-LOOKING STATEMENTS

Star Bulk Carriers Corp. and its wholly owned subsidiaries (the “Company”) desire to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and are including this cautionary statement in connection with this safe harbor legislation. The Private Securities Litigation Reform Act of 1995 provides safe harbor protections for forward-looking statements in order to encourage companies to provide prospective information about their business. Forward-looking statements include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts.

This document includes “forward-looking statements,” as defined by U.S. federal securities laws, with respect to our financial condition, results of operations and business and our expectations or beliefs concerning future events. Words such as, but not limited to, “believe,” “expect,” “anticipate,” “estimate,” “intend,” “plan,” “targets,” “projects,” “likely,” “could” and similar expressions or phrases may identify forward-looking statements.

All forward-looking statements involve risks and uncertainties. The occurrence of the events described, and the achievement of the expected results, depend on many events, some or all of which are not predictable or within our control. Actual results may differ materially from expected results.

In addition, important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include:

- general dry bulk shipping market conditions, including fluctuations in charter rates and vessel values;
- the strength of world economies;
- the stability of Europe and the Euro;
- fluctuations in interest rates and foreign exchange rates;
- changes in demand in the dry bulk shipping industry, including the market for our vessels;
- changes in our operating expenses, including bunker prices, dry docking and insurance costs;
- changes in governmental rules and regulations or actions taken by regulatory authorities;
- potential liability from pending or future litigation;
- general domestic and international political conditions;
- potential disruption of shipping routes due to accidents or political events;
- the availability of financing and refinancing;
- our ability to meet requirements for additional capital and financing to grow our business;
- the impact of our indebtedness and the compliance with the covenants included in our debt agreements;
- vessel breakdowns and instances of off-hire;

·risks associated with vessel construction;

i

- potential exposure or loss from investment in derivative instruments;
- potential conflicts of interest involving our Chief Executive Officer, his family and other members of our senior management;
- our ability to complete acquisition transactions as and when planned; and
- other important factors described in “Risk Factors.”

We have based these statements on assumptions and analyses formed by applying our experience and perception of historical trends, current conditions, expected future developments and other factors we believe are appropriate in the circumstances. All future written and verbal forward-looking statements attributable to us or any person acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this section. We undertake no obligation, and specifically decline any obligation, except as required by law, to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. In light of these risks, uncertainties and assumptions, the forward-looking events discussed in this prospectus might not occur.

See the sections entitled “Risk Factors” of this Annual Report on Form 20-F for the year ended December 31, 2018 for a more complete discussion of these risks and uncertainties and for other risks and uncertainties. These factors and the other risk factors described in this prospectus are not necessarily all of the important factors that could cause actual results or developments to differ materially from those expressed in any of our forward-looking statements. Other unknown or unpredictable factors also could harm our results. Consequently, there can be no assurance that actual results or developments anticipated by us will be realized or, even if substantially realized, that they will have the expected consequences to, or effects on, us. Given these uncertainties, prospective investors are cautioned not to place undue reliance on such forward-looking statements.

Item 1. Identity of Directors, Senior Management and Advisers

Not Applicable.

Item 2. Offer Statistics and Expected Timetable

Not Applicable.

Item 3. Key Information

Throughout this report, the “Company,” “Star Bulk,” “we,” “us” and “our” all refer to Star Bulk Carriers Corp. and its wholly owned subsidiaries. We use the term deadweight ton (“dwt”) in describing the size of vessels. Dwt, expressed in metric tons, each of which is equivalent to 1,000 kilograms, refers to the maximum weight of cargo and supplies that a vessel can carry. We own, operate, have under construction dry bulk vessels of seven sizes:

1. Newcastlemax, which are vessels with carrying capacities of between 200,000 dwt and 210,000 dwt;
2. Capesize, which are vessels with carrying capacities of between 100,000 dwt and 200,000 dwt;
3. Post Panamax, which are vessels with carrying capacities of between 90,000 dwt and 100,000 dwt;
4. Kamsarmax, which are vessels with carrying capacities of between 80,000 dwt and 90,000 dwt;
5. Panamax, which are vessels with carrying capacities of between 65,000 and 80,000 dwt;
6. Ultramax, which are vessels with carrying capacities of between 60,000 and 65,000 dwt; and
7. Supramax, which are vessels with carrying capacities of between 50,000 and 60,000 dwt.

Unless otherwise indicated, all references to “Dollars” and “\$” in this report are to U.S. Dollars and all references to “Euro” and “€” in this report are to Euros.

We are a global shipping company providing worldwide seaborne transportation solutions in the dry bulk sector. Our vessels transport major bulks, which include iron ore, coal and grain and minor bulks which include bauxite, fertilizers and steel products. We were incorporated in the Marshall Islands on December 13, 2006 and maintain offices in Athens, Oslo, New York, Cyprus and Geneva. Our common shares trade on the Nasdaq Global Select Market and the Oslo Børs under the symbol “SBLK.” Taking into consideration the sales of vessels Star Aurora and Star Kappa, discussed elsewhere herein, as well as the delivery of our three new building vessels, we expect to have a fleet of 109 vessels, with an aggregate capacity of 12.5 million dwt, consisting of Newcastlemax, Capesize, Post Panamax, Kamsarmax, Panamax, Ultramax and Supramax vessels with carrying capacities between 52,055 dwt and 209,537 dwt. Our fleet currently includes 108 operating vessels, with an additional three newbuilding vessels under construction in China for expected delivery between March 2019 and June 2019. We also hold call options and have sold respective put options on four Capesize vessels, with exercise dates in early April 2019.

Oaktree

Oaktree Capital Management, L.P., together with its affiliates (“Oaktree”) is our largest shareholder. Oaktree is a leader among global investment managers specializing in alternative investments, with \$120 billion in assets under management as of December 31, 2018. The firm emphasizes an opportunistic, value-oriented and risk-controlled approach to investments in distressed debt, corporate debt (including high yield debt and senior loans), control investing, convertible securities, real estate and listed equities. Headquartered in Los Angeles, the firm has over 900 employees and offices in 18 cities worldwide. See “Item 7 “Major Shareholders and Related Party Transactions” for a discussion on the various limitations on the transfer and voting of our common shares by Oaktree.

Table of Contents

A. Selected Consolidated Financial Data

The table below summarizes our recent financial information. We refer you to the notes to our consolidated financial statements for a discussion of the basis on which our consolidated financial statements are presented. For the effects of the adoption of the new accounting guidance for revenue from contracts with customers (ASC 606) and presentation of restricted cash in the statements of cash flows (ASU 2016-18), please refer to Note 2 to our consolidated financial statements. The information provided below should be read in conjunction with “Item 5. Operating and Financial Review and Prospects” and the consolidated financial statements, related notes and other financial information included herein.

Following the 5-for-1 reverse stock split effected on June 20, 2016 (the “June 2016 Reverse Stock Split”), pursuant to which every five common shares issued and outstanding were converted into one common share, all share and per share amounts disclosed throughout this Annual Report have been retroactively updated to reflect this change in capital structure.

The historical results included below and elsewhere in this document are not necessarily indicative of the future performance of Star Bulk.

Table of Contents

- Average number of vessels is the number of vessels that constituted our owned fleet for the relevant period, as
- (1) measured by the sum of the number of days each operating vessel was a part of our owned fleet during the period divided by the number of calendar days in that period.
 - (2) Ownership days are the total calendar days each vessel in the fleet was owned by us for the relevant period.
 - (3) Available days for the fleet are the Ownership days after subtracting off-hire days for major repairs, dry docking or special or intermediate surveys and scrubber installation.
 - (4) Charter-in days are the total days that we charter-in third-party vessels.
 - (5) Fleet utilization is calculated by dividing (x) Available days plus Charter-in days by (y) Ownership days plus Charter-in days for the relevant period.

Time charter equivalent rate (the “TCE rate”) represents the weighted average daily time charter equivalent rates of our operating fleet (including owned fleet and fleet under charter in arrangements). TCE rate is a measure of the average daily net revenue performance of our vessels. Our method of calculating TCE rate is determined by dividing voyage revenues (net of voyage expenses, charter in hire expense, amortization of fair value of above/below market acquired time charter agreements and provision for onerous contracts, if any) by Available days for the relevant time period. Available days do not include the Charter-in days as per the relevant definitions provided above. Voyage expenses primarily consist of port, canal and fuel costs that are unique to a particular voyage, which would otherwise be paid by the charterer under a time charter contract, as well as commissions. TCE rate is a standard shipping industry performance measure used primarily to compare period to period changes in a shipping company’s performance despite changes in the mix of charter types (i.e., voyage charters, time charters, bareboat charters and pool arrangements) under which its vessels may be employed between the periods. Our method of computing TCE rate may not necessarily be comparable to TCE rates of other companies due to

- (6) differences in methods of calculation. The above reported TCE rates for the year ended December 31, 2017 were calculated excluding Star Logistics. We have excluded the revenues and expenses of Star Logistics because it was formed in October 2017, and its revenues and expenses had not yet normalized in that period, which obscure material trends of our TCE rates. As a result, we believe it is more informative to our investors to present the TCE rates excluding the revenues and expenses of Star Logistics for that period (December 31, 2017). The revenues and expenses of Star Logistics normalized in the year ended December 31, 2018 and are included for purposes of calculating the TCE rate. For the detailed calculation please see the table at the end of this release with the reconciliation of Voyage Revenues to TCE rate. We include TCE rate, a non GAAP measure, as it provides additional meaningful information in conjunction with voyage revenues, the most directly comparable GAAP measure, and it assists our management in making decisions regarding the deployment and use of our operating vessels and assists investors and our management in evaluating our financial performance. For further information concerning our calculation and reconciliation of TCE rate to voyage revenue, please see “Item 5. Operating and Financial Review and Prospects - A. Operating Results.”

Table of Contents

(7) Average daily operating expenses per vessel are calculated by dividing vessel operating expenses by Ownership days.

B. Capitalization and Indebtedness

Not Applicable.

C. Reasons for the Offer and Use of Proceeds

Not Applicable.

D. Risk factors

The following risks relate principally to the industry in which we operate and our business in general. Other risks relate principally to the securities market and ownership of our common shares. The occurrence of any of the events described in this section could significantly and negatively affect our business, financial condition, operating results or the trading price of our common shares.

Risks Related to Our Industry

Charter rates for dry bulk vessels are volatile and have declined significantly the past years since their historic highs and may remain at low levels or further decrease in the future, which may adversely affect our earnings, revenue and profitability and our ability to comply with our loan covenants.

The dry bulk shipping industry is cyclical with high volatility in charter rates and profitability. The degree of charter rate volatility among different types of dry bulk vessels has varied widely, and in recent years, charter rates for dry bulk vessels declined significantly from historically high levels. In the past, time charter and spot market charter rates for dry bulk carriers have declined below operating costs of vessels (including as recently as 2016). The Baltic Dry Index, or the “BDI”, a daily average of charter rates for key dry bulk routes published by the Baltic Exchange Limited, which has long been viewed as the main benchmark to monitor the movements of the dry bulk vessel charter market and the performance of the entire dry bulk shipping market, declined from a high of 11,793 in May 2008 to a low of 290 in February 2016, which represents a decline of 98%. In 2018, the BDI ranged from a low of 948 in April 2018, to a high of 1,774 in July 2018. As of the last week of February 2019, the BDI stood at 649.

Our ability to be profitable will depend upon a number of factors. Fluctuations in charter rates result from changes in the supply of and demand for vessel capacity and changes in the supply of and demand for the major commodities carried by water internationally. Because the factors affecting the supply of and demand for vessels are outside of our control and are unpredictable, the nature, timing, direction and degree of changes in industry conditions are also unpredictable. Since we charter our vessels principally in the spot market, we are exposed to the cyclical and volatility of the spot market. Spot market charter rates may fluctuate significantly based upon available charters and the supply of and demand for seaborne shipping capacity, and we may be unable to keep our vessels fully employed in these short-term markets. Alternatively, charter rates available in the spot market may be insufficient to enable our vessels to operate profitably. A significant decrease in charter rates would also affect asset values and adversely affect our profitability and cash flows.

Table of Contents

Factors that influence the demand for dry bulk vessel capacity include:

- supply of and demand for energy resources, commodities, consumer and industrial products;
- changes in the exploration or production of energy resources, commodities, consumer and industrial products;
- the location of regional and global exploration, production and manufacturing facilities;
- the location of consuming regions for energy resources, commodities, consumer and industrial products;
- the globalization of production and manufacturing;
- global and regional economic and political conditions, including armed conflicts and terrorist activities, embargoes and strikes;
- natural disasters and weather;
- embargoes and strikes;
- disruptions and developments in international trade, including trade disputes or the imposition of tariffs on various commodities or finished goods;
- changes in seaborne and other transportation patterns, including the distance cargo is transported by sea;
- environmental and other legal regulatory developments;
- currency exchange rates; and

Factors that influence the supply of dry bulk vessel capacity include:

- the number of newbuilding orders and deliveries including slippage in deliveries;
- number of shipyards and ability of shipyards to deliver vessels;
- port and canal congestion;
- the scrapping rate of vessels;
- speed of vessel operation;
- vessel casualties;
- the number of vessels that are out of service, namely those that are laid-up, dry docked, awaiting repairs or otherwise not available for hire;
- availability of financing for new vessels;

Table of Contents

- changes in national or international regulations that may effectively cause reductions in the carrying capacity of vessels or early obsolescence of tonnage; and
- changes in environmental and other regulations that may limit the useful lives of vessels.

In addition to the prevailing and anticipated freight rates, factors that affect the rate of newbuilding, scrapping and laying-up include newbuilding prices, secondhand vessel values in relation to scrap prices, costs of bunkers and other operating costs, costs associated with classification society surveys, normal maintenance costs, insurance coverage costs, the efficiency and age profile of the existing dry bulk fleet in the market, and government and industry regulation of maritime transportation practices, particularly environmental protection laws and regulations. These factors influencing the supply of and demand for shipping capacity are outside of our control, and we may not be able to correctly assess the nature, timing and degree of changes in industry conditions.

We anticipate that the future demand for our dry bulk vessels will be dependent upon economic growth in the world's economies, including China, Japan and India, seasonal and regional changes in demand, changes in the capacity of the global dry bulk fleet, including vessel scrapping and ordering rates of newbuildings, and the sources and supply of dry bulk cargo to be transported by sea. A decrease in the level of China's imports of raw materials or a decrease in trade globally could have a material adverse impact on our charterers' business and, in turn, could cause a material adverse impact on our results of operations, financial condition and cash flows. Global dry bulk supply is expected to remain low over the next two years, as a result of low orders placed over the past three years and the implementation of the IMO low sulfur regulation. Although global economic conditions have improved, there can be no assurance as to the sustainability of future economic growth. Adverse economic, political, social or other developments could have a material adverse effect on our business, financial condition and operating results.

If we are required to charter our vessels at a time when demand and charter rates are very low, we may not be able to secure employment for our vessels at all, or we may have to accept reduced and potentially unprofitable rates. If we are unable to secure profitable employment for our vessels, we may decide to lay-up some or all unemployed vessels until such time that charter rates become attractive again. During the lay-up period, we will continue to incur some expenditures, such as insurance and maintenance costs, for each such vessel. Additionally, before exiting lay-up, we will have to pay reactivation costs for any such vessel to regain its operational condition. As a result, our business, financial condition, results of operations and cash flows and our compliance with covenants in our credit facilities may be affected.

Global economic conditions may continue to negatively impact the dry bulk shipping industry.

Slow growth rates in the global economy may negatively impact the dry bulk industry. General market volatility has endured over the last several years as a result of uncertainty about the growth rate of the world economy and the Chinese economy in particular, on which the dry bulk industry depends to a significant degree. Charter rates have declined significantly in recent years. Although supply and demand fundamentals have slightly improved, in recent years the relatively weak global economic conditions have and may continue to have a number of adverse consequences for dry bulk and other shipping sectors, including, among other things:

- low charter rates, particularly for vessels employed on short-term time charters or in the spot market;
- decreases in the market value of dry bulk vessels and limited secondhand market for the sale of vessels;
- limited financing for vessels;
- widespread loan covenant defaults; and

· declaration of bankruptcy by certain vessel operators, vessel owners, shipyards and charterers.

The occurrence of one or more of these events could have a material adverse effect on our business, results of operations, cash flows and financial condition.

Table of Contents

The current state of global financial markets and current economic conditions may adversely impact our results of operations, financial condition, cash flows and ability to obtain financing or refinance our existing and future credit facilities on acceptable terms, which may hinder or prevent us from operating or expanding our business.

Global financial markets and economic conditions have been, and continue to be, volatile. Credit markets and the debt and equity capital markets have been distressed and the uncertainty surrounding the future of the global credit markets has resulted in reduced access to credit worldwide. These issues, along with significant write-offs in the financial services sector, the re-pricing of credit risk and the current weak economic conditions, have made, and will likely continue to make, it difficult to obtain additional financing. The current state of global financial markets and current economic conditions might adversely impact our ability to issue additional equity at prices that will not be dilutive to our existing shareholders or preclude us from issuing equity at all. Economic conditions may also adversely affect the market price of our common shares.

Also, as a result of concerns about the stability of financial markets generally and the solvency of counterparties specifically, the cost of obtaining money from the credit markets has increased as many lenders have increased interest rates, enacted tighter lending standards, refused to refinance existing debt at all or on terms similar to current debt and reduced, and in some cases ceased, to provide funding to borrowers. Due to these factors, we cannot be certain that financing will be available to the extent required, or that we will be able to refinance our existing and future credit facilities, on acceptable terms or at all. If financing or refinancing is not available when needed, or is available only on unfavorable terms, we may be unable to meet our obligations as they come due or we may be unable to enhance our existing business, complete the acquisition of our newbuildings and additional vessel acquisitions or otherwise take advantage of business opportunities as they arise.

The instability of the euro or the inability of countries to refinance their debts could have a material adverse effect on our revenue, profitability and financial position.

As a result of the credit crisis in Europe, the European Commission created the European Financial Stability Facility (the “EFSF”), and the European Financial Stability Mechanism (the “EFSM”), to provide funding to Eurozone countries in financial difficulties that seek such support. In March 2011, the European Council agreed on the need for Eurozone countries to establish a permanent stability mechanism, the European Stability Mechanism, which was established on September 27, 2012 to assume the role of the EFSF and the EFSM in providing external financial assistance to Eurozone countries. Despite these measures, concerns persist regarding the debt burden of certain Eurozone countries and their ability to meet future financial obligations and the overall stability of the euro. An extended period of adverse developments in the outlook for European countries could reduce the overall demand for dry bulk cargoes and for our services. These potential developments, or market perceptions concerning these and related issues, could affect our financial position, results of operations and cash flows.

An increase in trade protectionism and the unravelling of multilateral trade agreements could have a material adverse impact on our charterers’ business and, in turn, could cause a material adverse impact on our results of operations, financial condition and cash flows.

Table of Contents

Our operations expose us to the risk that increased trade protectionism will adversely affect our business. In the United States, there is significant uncertainty about the future relationship between the United States and other exporting countries, including with respect to trade policies, treaties, government regulations and tariffs. Trade tensions between the U.S. and China have resulted in both governments imposing tariffs, and both countries have indicated that they are willing to continue employing aggressive tactics, such as the imposition of additional punitive tariffs. As an example of such restrictions, in March 2018, President Trump imposed a 25% tariff on steel and a 10% tariff on aluminum imported into the United States, with temporary or permanent exemptions granted for certain countries. In response to these tariffs, China, the E.U., and other countries have implemented or are evaluating the use of retaliatory measures, which could further increase barriers to trade. Most notable in term of drybulk trade volumes, China imposed tariffs on U.S. soybean exports. Any increased trade barriers or restrictions on trade, especially trade with China, could have an adverse impact on global economic conditions and may decrease the amount of cargo that charterers pay to have transported on drybulk vessels. As such, increased trade barriers or restrictions on trade could have a material adverse effect on our business, results of operations, cash flows, financial condition.

Political uncertainty and the rise of populist or nationalist political parties could have a material adverse effect on our revenue, profitability and financial position.

As a result of the lingering effects of the recent global financial crisis and the limited global recovery, the rise of populist or nationalist political parties and economic nationalist sentiments has led to increasing political uncertainty and unpredictability throughout the world. On June 23, 2016, the United Kingdom held a referendum at which the electorate voted to leave the Council of the European Union (the “E.U.”). On March 29, 2017, the government of the United Kingdom invoked article 50 of the Treaty of Lisbon (the “Treaty”) and formally initiated the withdrawal of the United Kingdom from the E.U. The Treaty provides for a period of up to two years for negotiation of withdrawal arrangements, at the end of which (whether or not agreement has been reached) the treaties cease to apply to the withdrawing Member State unless the European Council, in agreement with the Member State concerned, unanimously decides to extend this period. Negotiations between the government of the United Kingdom and the E.U. Council began on June 19, 2017. The negotiations resulted in (a) an Agreement on the withdrawal arrangements of the United Kingdom from the E.U. and (b) a Political Declaration setting out the framework for the future relationship between the E.U. and the United Kingdom (together, the “Withdrawal Proposal”). The Withdrawal Proposal was subject to political agreement and ratification and on January 15, 2019, the United Kingdom Parliament voted to reject the Withdrawal Proposal. It is unclear whether it will be possible for the United Kingdom Government to obtain further concessions from the E.U. in order for the United Kingdom Parliament to vote to approve a revised withdrawal proposal. While there is much that could still happen, including an extension to the exit timeline, progress to an alternative withdrawal proposal, a change of United Kingdom Government or even political support for a second referendum, there is a risk that no withdrawal proposal between the United Kingdom and the E.U. will be reached concerning the United Kingdom’s departure from the E.U. Notwithstanding any withdrawal proposal that may be put in place, there is likely to be considerable uncertainty as to the position of the United Kingdom and the arrangement which will apply to its relationships with the E.U. and other countries following its withdrawal (including in the event that no withdrawal proposal is ratified and the United Kingdom leaves without agreeing transitional arrangements with the E.U., an eventuality which cannot currently be ruled out). Such positions and anticipated arrangements may be subject to change and / or develop at short notice. This uncertainty may affect other countries in the E.U. or elsewhere. The United Kingdom’s decision to leave the E.U. may bring an extended period of uncertainty and regulatory change in the European Economic Area and in the United Kingdom, which could have a material adverse effect on our revenue, profitability and financial position.

Additionally, political parties in several other E.U. member states have proposed that a similar referendum be held on their country’s membership in the E.U. It is unclear whether any other E.U. member states will hold such referendums, but such referendums could result in one or more other countries leaving the E.U. or in major reforms being made to the E.U. or to the Eurozone. These potential developments, market perceptions concerning these and related issues and the attendant regulatory uncertainty regarding, for example, the posture of governments with respect to taxation

and international trade and law enforcement, could have a material adverse effect on our revenue, profitability and financial position.

Table of Contents

The rise of populist or nationalist political parties may lead to increased trade barriers, trade protectionism and restrictions on trade. Our operations expose us to the risk that increased trade protectionism will adversely affect our business. If the continuing global recovery is undermined by downside risks and the recent economic downturn is prolonged, governments, especially populist governments, may turn to trade barriers to protect their domestic industries against foreign imports, thereby depressing the demand for shipping. Specifically, increasing trade protectionism in the markets that our charterers serve has caused and may continue to cause an increase in: (1) the cost of goods exported from China, (2) the length of time required to deliver goods from China and (3) the risks associated with exporting goods from China, as well as a decrease in the quantity of goods to be shipped.

Any increased trade barriers or restrictions on trade, especially trade with China, would have an adverse impact on our charterers' business, operating results and financial condition and could thereby affect their ability to make timely charter hire payments to us and to renew and increase the number of their time charters with us. Any increased trade barriers or restrictions on trade could have a material adverse effect on our business, results of operations and financial condition.

If economic conditions throughout the world do not improve, it may negatively affect our results of operations, financial condition and cash flows, and may adversely affect the market price of our common shares.

Negative trends in the global economy that emerged in 2008 continue to adversely affect global economic conditions. In addition, the world economy is currently facing a number of new challenges, recent turmoil and hostilities in various regions, including Syria, Iraq, North Korea, Venezuela, North Africa and Ukraine. The weakness in the global economy has caused, and may continue to cause, a decrease in worldwide demand for certain goods and, thus, shipping. Additionally, global financial markets and economic conditions have been, and continue to be volatile. Credit markets and the debt and equity capital markets have been distressed and the uncertainty surrounding the future of the global credit markets has resulted in reduced access to credit worldwide. Continuing instability could have a material adverse effect on our ability to implement our business strategy.

We face risks attendant to changes in economic environments, changes in interest rates, and instability in the banking and securities markets around the world, among other factors. Major market disruptions and the current adverse changes in market conditions and regulatory climate in the United States and worldwide may adversely affect our business or impair our ability to borrow amounts under credit facilities or any future financial arrangements. The recent and developing economic and governmental factors, together with possible further declines in charter rates and vessel values, may have a material adverse effect on our results of operations, financial condition or cash flows, or the trading price of our common shares.

Continued economic slowdown in the Asia Pacific region, particularly in China, may exacerbate the effect on us, as we anticipate a significant number of the port calls made by our vessels will continue to involve the loading or discharging of dry bulk commodities in ports in the Asia Pacific region. Before the global economic financial crisis that began in 2008, China had one of the world's fastest growing economies in terms of GDP, which had a significant impact on shipping demand. As published by the Chinese National Bureau of Statistics, based on the country's preliminary accounting results, the growth rate of China's GDP for the year ended December 31, 2018 was 6.6%. This growth rate is well below pre-2008 levels, albeit in line with the government's targets. China has imposed measures to restrain lending from time to time, which may further contribute to a slowdown in its economic growth. China has also announced plans to gradually transition from an investment led growth model to a consumption driven economic growth model, which could lead to smaller demand for iron ore and other commodities, and result in a decrease of demand in China for shipping. This transition may take place over the span of a number of years, and there can be no assurance as to the time frame for such a transformation or that any such transformation will occur at all. Moreover, the current economic slowdown in the economies of the United States, the European Union and other Asian countries may further adversely affect economic growth in China and elsewhere. Our business, financial condition and results of operations, as well as our future prospects, will likely be materially and adversely affected by a further economic

downturn in any of these countries.

10

Table of Contents

Changes in the economic and political environment in China and policies adopted by the government to regulate its economy may have a material adverse effect on our business, financial condition and results of operations.

The Chinese economy differs from the economies of western countries in such respects as structure, government involvement, level of development, growth rate, capital reinvestment, allocation of resources, bank regulation, currency and monetary policy, rate of inflation and balance of payments position. Prior to 1978, the Chinese economy was a “planned economy.” Since 1978, increasing emphasis has been placed on the utilization of market forces in the development of the Chinese economy. Annual and five-year State Plans are adopted by the Chinese government in connection with the development of the economy. Although state-owned enterprises still account for a substantial portion of the Chinese industrial output, in general, the Chinese government is reducing the level of direct control that it exercises over the economy through State Plans and other measures. There is an increasing level of freedom and autonomy in areas such as allocation of resources, production, pricing and management and a gradual shift in emphasis to a “market economy” and enterprise reform. Limited price reforms were undertaken with the result that prices for certain commodities are principally determined by market forces. In addition, economic reforms may include reforms to the banking and credit sector and may produce a shift away from the export-driven growth model that has characterized the Chinese economy over the past few decades. Many of the reforms are unprecedented or experimental and may be subject to revision, change or abolition based upon the outcome of such experiments. The level of imports to and exports from China could be adversely affected by the failure to continue market reforms or changes to existing pro-export economic policies. It may also be adversely affected by changes in political, economic and social conditions (including a slowing of economic growth) or other relevant policies of the Chinese government, such as changes in laws, regulations or export and import restrictions, internal political instability, changes in currency policies, changes in trade policies and territorial or trade disputes. For instance, the government of China has implemented economic policies aimed at increasing domestic consumption of Chinese-made goods and restricting currency exchanges within China. This may have the effect of reducing the supply of goods available for export and may, in turn, result in a decrease of demand for shipping. A decrease in the level of imports to and exports from China could adversely affect our business, operating results and financial condition. In addition, a number of our largest bareboat charter counterparties are Chinese financial institutions. Changes in the economic conditions of China (and any government response to such changes) may cause these financial institutions to adopt new positions or policies in their dealings with us.

Similarly, a negative change in the economic or regulatory conditions in any significant Asian economy, including Japan and India, could reduce dry bulk trade and demand, which could reduce charter rates and have a material adverse effect on our business, financial condition and results of operations.

We conduct a substantial amount of business in China. The legal system in China has inherent uncertainties that could have a material adverse effect on our business, financial condition and results of operations.

The Chinese legal system is based on written statutes and their interpretations by the Standing Committee of the National People’s Congress and the Supreme People’s Court. Prior court decisions may be cited for reference but have limited precedential value. Since 1979, the Chinese government has been developing a comprehensive system of commercial laws, and considerable progress has been made in introducing laws and regulations dealing with economic matters such as foreign investment, corporate organization and governance, commerce, taxation and trade. However, because these laws and regulations are relatively new, there is a general lack of authoritative interpretive guidance and because of the limited number of published cases and their non-binding nature, interpretation and enforcement of these laws and regulations involve uncertainties. We conduct a substantial portion of our business in China or with Chinese counter parties. For example, we enter into charters with Chinese customers, which charters may be subject to the laws and regulations in China. We may, therefore, be required to incur compliance or other administrative costs, and pay new taxes or other fees to the Chinese government. In addition, our three newbuilding vessels are being built at Chinese shipyards. Changes in laws and regulations, including with regards to tax matters, and their implementation by local authorities could affect our vessels that are either chartered to Chinese customers or

that call to Chinese ports and our vessels being built at Chinese shipyards, and could have a material adverse effect on our business, results of operations and financial condition.

Table of Contents

The market values of our vessels have declined in recent years and may further decline, which could limit the amount of funds that we can borrow, cause us to breach certain financial covenants in our credit facilities or result in impairment charges, and we may incur a loss if we sell vessels following a decline in their market value.

The fair market values of dry bulk vessels have generally experienced high volatility in recent years. The fair market value of our vessels may continue to fluctuate depending on a number of factors, including:

- prevailing level of charter rates;
- general economic and market conditions affecting the shipping industry;
- types, sizes and ages of vessels;
- supply of and demand for vessels;
- other modes of transportation;
- distressed asset sales, including newbuilding contract sales below acquisition costs due to lack of financing
- cost of newbuildings;
- governmental or other regulations;
- the need to upgrade vessels as a result of charterer requirements, technological advances in vessel design or equipment or otherwise;
- changes in environmental and other regulations that may limit the useful life of vessels;
- technological advances; and
- competition from other shipping companies and other modes of transportation.

If the fair market value of our vessels declines, we might not be in compliance with various covenants in our ship financing facilities, some of which require the maintenance of a certain percentage of fair market value of the vessels securing the facility to the principal outstanding amount of the loans under the facility or a maximum ratio of total liabilities to market value of adjusted total assets or a minimum market value adjusted net worth.

Under such circumstances, we may have to prepay the amount outstanding under a loan agreement, pay a certain amount to cover the security shortfall or provide additional security to remedy the security shortfall upon request by the relevant lenders. If we fail to take any such requested measures, such circumstances could result in an event of default under our loan agreements. In such circumstances, we may not be able to refinance our debt or obtain additional financing on terms that are acceptable to us or at all. If we are not able to comply with the covenants in our credit facilities and are unable to remedy the relevant breach, our lenders could accelerate our debt and foreclose on our vessels, or the funds required to pay for a vessel may not be available at the time the payments are due to the shipbuilder or seller.

Furthermore, as described under “Item 5. Operating and Financial Review and Prospects - A. Operating Results - Critical Accounting Policies - Impairment of long-lived assets,” due to the decline during the past years in vessel values, we have recorded an impairment charge in our consolidated financial statements which have adversely affected our financial results. In addition, because we sold vessels at a time when vessel prices had fallen and before

we recorded an impairment adjustment to our consolidated financial statements, the sale proceeds were less than the vessels' carrying value on our consolidated financial statements, resulting in a loss and a reduction in earnings.

Table of Contents

The value of our long-lived assets can become further impaired, as indicated by factors such declines in the fair market value of vessels, decreases in market charter rates, vessel sale and purchase considerations, fleet utilization, regulatory changes in the dry bulk shipping industry or changes in business plans or overall market conditions that may adversely affect cash flows. We will continue testing for impairment regularly, whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable.

Our financial results may be similarly affected in the future if we record an impairment charge or sell vessels before we record an impairment adjustment. Conversely, if vessel values are elevated at a time when we wish to acquire additional vessels, the cost of such acquisitions may increase and this could adversely affect our business, results of operations, cash flow and financial condition.

Compliance with safety and other vessel requirements imposed by classification societies may be very costly and may adversely affect our business.

The vast majority of commercial vessels are built to safety and other vessel requirements established by private classification, or class, societies such as the American Bureau of Shipping. The class society certifies that a vessel is safe and seaworthy in accordance with its standards and regulations, which is an element of compliance with the International Convention for the Safety of Life at Sea of 1974 (“SOLAS”), and, where so engaged, the applicable conventions, rules and regulations adopted by the country of registry of the vessel. Every classed vessel is subject to a specific program of periodic class surveys consisting of annual surveys, an intermediate survey and a class renewal or special survey normally every five years. Surveys become more intensive as the vessel ages.

In lieu of a special survey, a vessel’s machinery may be on a continuous survey cycle under which the machinery would be surveyed periodically over a five-year period. Every vessel is also required to be taken out of the water in a dry dock every two and a half to five years for inspection of its underwater parts.

Compliance with class society recommendations and requirements may result in significant expense. If any vessel does not maintain its class or fails any annual, intermediate or special survey, the vessel will be unable to trade between ports and will be unemployable and uninsurable until such failures are remedied, which could negatively impact our results of operations and financial condition.

We are subject to complex laws and regulations, including environmental regulations that can adversely affect the cost, manner or feasibility of doing business.

Our operations are subject to numerous international, national, state and local laws, regulations, treaties and conventions in force in international waters and the jurisdictions in which our vessels operate or are registered, which can significantly affect the ownership and operation of our vessels. These laws and other legal requirements include, but are not limited to, the U.S. Act to Prevent Pollution from Ships, the U.S. Oil Pollution Act of 1990 (the “OPA”), the U.S. Comprehensive Environmental Response, Compensation and Liability Act of 1980, the U.S. Clean Air Act, the U.S. Clean Water Act, the U.S. Ocean Dumping Act, 1972, the U.S. Maritime Transportation Security Act of 2002 and international conventions issued under the auspices of the United Nations International Maritime Organization including the International Convention on the Prevention of Marine Pollution by Dumping of Wastes and Other Matter, 1972 as modified by the 1996 London Protocol, the International Convention for the Prevention of Pollution from Ships, 1973 as modified by the Protocol of 1978, the International Convention for the Safety of Life at Sea, 1974, and the International Convention on Load Lines, 1966. Compliance with such laws and other legal requirements may require vessels to be altered, costly equipment to be installed or operational changes to be implemented and may decrease the resale value or reduce the useful lives of our vessels. Such compliance costs could have a material adverse effect on our business, financial condition and results of operations. A failure to comply with applicable laws and other legal requirements may result in administrative and civil monetary fines and penalties, additional compliance plans or programs or other ongoing increased compliance costs, criminal sanctions or the

suspension or termination of our operations. Because such laws and other legal requirements are often revised, we cannot predict the ultimate cost of complying with them or their impact on the resale prices or useful lives of our vessels. Additional conventions, laws and regulations or other legal requirements may be adopted which could limit our ability to do business or increase the cost of our doing business and which may materially adversely affect our business, financial condition and results of operations.

Table of Contents

Environmental laws often impose strict liability for remediation of spills and releases of oil and hazardous substances, which could subject us to liability without regard to whether we were negligent or at fault. Unpredictable events may result in further regulation of the shipping industry as well as modifications to statutory liability schemes, which could have a material adverse effect on our business, financial condition and results of operations. An oil spill caused by one of our vessels or attributed to one of our vessels could result in significant company liability, including fines, penalties and criminal liability and remediation costs for natural resource and other damages under a variety of laws and legal requirements, as well as third-party damages.

We are required by various governmental and quasi-governmental agencies to obtain certain permits, licenses, and certificates with respect to our operations and to satisfy insurance and financial responsibility requirements for potential oil (including marine fuel) spills and other pollution incidents. Any such insurance may not be sufficient to cover all such liabilities and it may be difficult to obtain adequate coverage on acceptable terms in certain market conditions. Claims against our vessels whether covered by insurance or not may result in a material adverse effect on our business, results of operations, cash flows and financial condition.

In order to comply with emerging ballast water treatment requirements, we may have to purchase ballast water treatment systems for 63 vessels in our fleet and modify such vessels to accommodate such systems.

The IMO has imposed updated guidelines for ballast water management systems specifying the maximum amount of viable organisms allowed to be discharged from a vessel's ballast water. Depending on the date of the IOPP renewal survey, existing vessels constructed before September 8, 2017 must comply with the updated D-2 standard on or after September 8, 2019. For most vessels, compliance with the D-2 standard will involve installing on-board systems to treat ballast water and eliminate unwanted organisms. Ships constructed on or after September 8, 2017 are to comply with the D-2 standards on or after September 8, 2017. We currently have 63 vessels that do not comply with the updated guideline. We are in the process of acquiring the relevant equipment, and costs of compliance may be substantial and adversely affect our cash flows.

Furthermore, United States regulations are currently changing. Although the 2013 Vessel General Permit ("VGP") program and U.S. National Invasive Species Act ("NISA") are currently in effect to regulate ballast discharge, exchange and installation, the Vessel Incidental Discharge Act ("VIDA"), which was signed into law on December 4, 2018, requires that the U.S. Coast Guard develop implementation, compliance, and enforcement regulations regarding ballast water within two years. The new regulations could require the installation of new equipment, which may cause us to incur substantial costs.

New environmental regulations could increase the cost of operating our vessels

Any passage of environmental legislation or other regulatory initiatives by the IMO, the EU, the U.S. or other countries where we operate, or any treaty adopted at the international level, that restricts emissions of greenhouse gases, or the use of scrubbers could require us to make significant financial expenditures which we cannot predict with certainty at this time.

Acts of piracy on ocean-going vessels have had and may continue to have an adverse effect on our business.

Acts of piracy have historically affected ocean-going vessels trading in regions of the world such as the South China Sea, the Indian Ocean and in the Gulf of Aden off the coast of Somalia. Although the frequency of sea piracy worldwide has decreased to its lowest level since 2009, sea piracy incidents continue to occur, particularly in the Gulf of Aden off the coast of Somalia and increasingly in the Gulf of Guinea and the West Coast of Africa, with dry bulk vessels particularly vulnerable to such attacks. If these piracy attacks result in regions in which our vessels are deployed being characterized as "war risk" zones by insurers, as the Gulf of Aden temporarily was in May 2008, or Joint War Committee "war and strikes" listed areas, premiums payable for such coverage could increase significantly and

such insurance coverage may be more difficult to obtain. In addition, crew costs, including those due to employing onboard security guards, could increase in such circumstances. Furthermore, while we believe the charterer remains liable for charter payments when a vessel is seized by pirates, the charterer may dispute this and withhold charter hire until the vessel is released. A charterer may also claim that a vessel seized by pirates was not “on-hire” for a certain number of days and is therefore entitled to cancel the charter party, a claim that we would dispute. We may not be adequately insured to cover losses from these incidents, which could have a material adverse effect on us. In addition, any detention hijacking as a result of an act of piracy against our vessels, or an increase in cost, or unavailability, of insurance for our vessels, could have a material adverse impact on our business, financial condition, cash flows and results of operations.

Table of Contents

We could face penalties under European Union, United States or other economic sanctions which could adversely affect our reputation, our financial results and the market for our common shares.

Our business could be adversely impacted if we are found to have violated economic sanctions, prohibitions or other restrictions imposed by the United States or other governments or organizations, including the United Nations, the E.U. and its member countries or another applicable jurisdiction against countries or territories such as Iran, Sudan, Syria, North Korea, Cuba and Crimea. U.S. economic sanctions, for example, prohibit a wide scope of conduct, target numerous countries and individuals, are frequently updated or changed and have vague application in many situations.

Many economic sanctions can relate to our business, including prohibitions on doing business with certain countries or governments, as well as prohibitions on dealings of any kind with entities and individuals that appear on sanctioned party lists issued by the United States, the E.U., and other jurisdictions (and, in some cases, entities owned or controlled by such listed entities and individuals). For example, on charterers' instructions, our vessels may from time to time call on ports located in countries subject to sanctions imposed by the United States, the E.U. or other applicable jurisdictions. As another example, certain of our charterers or other parties that we have entered into contracts with regarding our vessels may be affiliated with persons or entities that are the subject of sanctions imposed by the United States, the E.U. or other applicable jurisdictions as a result of the annexation of Crimea by Russia in 2014 or subsequent developments in eastern Ukraine. If we determine that such sanctions require us to terminate existing contracts or if we are found to be in violation of such applicable sanctions, our results of operations may be adversely affected or we may suffer reputational harm.

Additionally, the U.S. Iran Threat Reduction Act (which was signed into law in 2012) amended the Securities Exchange Act of 1934, as amended, to require issuers that file annual or quarterly reports under Section 13(a) of the Exchange Act to include disclosure in their annual and quarterly reports as to whether the issuer or its affiliates have knowingly engaged in dealings with certain types of counterparties in Iran or with certain entities or individuals appearing on U.S. sanctioned party lists.

Although we believe that we are in compliance with applicable sanctions laws and regulations, and intend to maintain such compliance, there can be no assurance that we will be in compliance in the future, particularly as the relevant sanctions restrictions are often ambiguous and change regularly. Any such violation could result in fines or other penalties that could severely impact our ability to access U.S. and European capital markets and conduct our business, and could result in some investors deciding, or being required, to divest their interest, or not to invest, in us. Even inadvertent violations of economic sanctions laws and regulations can result in the imposition of material fines and restrictions and could adversely affect our business, financial condition and results of operations, our reputation, and the market price of our common shares. In addition, regardless of any violation of applicable sanctions laws, certain institutional investors may have investment policies or restrictions that prevent them from holding securities of companies that have ties of any kind to countries identified by the United States as state sponsors of terrorism (currently, Iran, North Korea, Sudan and Syria). The determination by these investors not to invest in, or to divest from, our common shares may adversely affect the price at which our common shares trade. Moreover, our charterers may violate applicable sanctions laws and regulations as a result of actions that do not involve us or our vessels, and those violations could in turn negatively affect our reputation.

Table of Contents

Our operating results are subject to seasonal fluctuations.

We operate our vessels in markets that have historically exhibited seasonal variations in demand and, as a result, in charter rates. This seasonality may result in volatility in our operating results to the extent that we enter into new charter agreements or renew existing agreements during a time when charter rates are weaker or we operate our vessels on the spot market or index based time charters, which may result in quarter-to-quarter volatility in our operating results. The dry bulk sector is typically stronger during the 2nd half of the year in anticipation of increased consumption of coal and other raw materials in the northern hemisphere. In addition, unpredictable weather patterns in these months tend to disrupt vessel scheduling and supplies of certain commodities. Since we charter our vessels principally in the spot market, our revenues from our dry bulk carriers may be weaker during the fiscal quarters ended March 31 and June 30, and stronger during the fiscal quarters ended September 30 and December 31.

We are subject to international safety regulations, and the failure to comply with these regulations may subject us to increased liability, may adversely affect our insurance coverage and may result in a denial of access to, or detention in, certain ports.

The operation of our vessels is affected by the requirements set forth in the United Nations' International Maritime Organization's International Management Code (the "ISM Code"). The ISM Code requires shipowners, ship managers and bareboat charterers to develop and maintain an extensive "Safety Management System" that includes the adoption of a safety and environmental protection policy setting forth instructions and procedures for safe operation of vessels and describing procedures for dealing with emergencies. In addition, vessel classification societies impose significant safety and other requirements on our vessels.

The failure of a shipowner or bareboat charterer to comply with the ISM Code may subject it to increased liability, may invalidate existing insurance or decrease available insurance coverage for the affected vessels and may result in a denial of access to, or detention in, certain ports. Each of our existing vessels is ISM Code-certified, and each of the vessels that we have agreed to acquire will be ISM Code-certified when delivered to us. However, if we are found not to be in compliance with ISM Code requirements, we may have to incur material direct and indirect costs to resume compliance and our insurance coverage could be adversely impacted as a result of non-compliance. Our vessels may also be delayed or denied port access if they are found to be in non-compliance, which could result in charter claims and increased inspection and operational costs even after resuming compliance. Any failure to comply with the ISM Code could negatively affect our business, financial condition, cash flows and results of operations.

Increased inspection procedures and tighter import and export controls could increase costs and disrupt our business.

International shipping is subject to various security and customs inspection and related procedures in countries of origin and destination and trans-shipment points. Inspection procedures may result in the seizure of contents of our vessels, delays in the loading, offloading, trans-shipment or delivery and the levying of customs duties, fines or other penalties against us.

It is possible that changes to inspection procedures could impose additional financial and legal obligations on us. Changes to inspection procedures could also impose additional costs and obligations on our customers and may, in certain cases, render the shipment of certain types of cargo uneconomical or impractical. Any such changes or developments may have a material adverse effect on our business, financial condition, cash flows and results of operations.

The operation of dry bulk carriers entails certain operational risks that could affect our earnings and cash flow.

The international shipping industry is an inherently risky business involving global operations. Our vessels and their cargoes are at risk of being damaged or lost because of events such as marine disasters, bad weather, mechanical

failures, human error, environmental accidents, war, terrorism, piracy and other circumstances or events. In addition, transporting cargoes across a wide variety of international jurisdictions creates a risk of business interruptions due to political circumstances in foreign countries, hostilities, labor strikes and boycotts, the potential for changes in tax rates or policies, and the potential for government expropriation of our vessels. Any of these events may result in loss of revenues, increased costs and decreased cash flows to our customers, which could impair their ability to make payments to us under our charters.

Table of Contents

Furthermore, the operation of certain vessel types, such as dry bulk carriers, has certain unique risks. For a dry bulk carrier, the cargo itself and its interaction with the vessel can be an operational risk. By their nature, dry bulk cargoes are often heavy, dense and easily shifted and react badly to water exposure. In addition, dry bulk carriers are often subjected to battering treatment during unloading operations with grabs, jackhammers (to pry encrusted cargoes out of the hold) and small bulldozers. This treatment may cause damage to the vessel. Vessels damaged due to treatment during unloading procedures may be more susceptible to breach at sea. Hull breaches in dry bulk carriers may lead to the flooding of the vessels' holds. If a dry bulk carrier suffers flooding in its forward holds, the bulk cargo may become so dense and waterlogged that its pressure may buckle the vessel's bulkheads, leading to the loss of a vessel. If we are unable to adequately maintain our vessels, we may be unable to prevent these events. The total loss or damage of any of our vessels or cargoes could harm our reputation as a safe and reliable vessel owner and operator. Any of these circumstances or events may have a material adverse effect on our business, results of operations, cash flows and financial condition.

Fuel, or bunker, prices and marine fuel availability may adversely affect our profits.

Since we expect to primarily employ our vessels in the spot market, we expect that vessel fuel, known as bunkers, will be the largest single expense item in our shipping operations for our vessels. Changes in the price of fuel may adversely affect our profitability. The price and supply of fuel are unpredictable and fluctuate based on events outside our control, including geopolitical developments, supply and demand for oil and gas, actions by the Organization of the Petroleum Exporting Countries and other oil and gas producers, war and unrest in oil producing countries and regions, regional production patterns and environmental concerns. Further, fuel may become much more expensive in the future, which may reduce our profitability and competitiveness of our business versus other forms of transportation, such as truck or rail.

Sulfur regulations to reduce air pollution from ships are likely to require retrofitting of vessels with exhaust gas cleaning systems ("scrubbers") and will cause us to incur significant costs which we may be unable to recover.

The IMO announced in October 2016 that as of January 1, 2020, there will be a cap on sulfur content in vessel air emissions globally, with the exhaust gas from burning bunker fuel being limited to 0.5% m/m sulfur content, instead of 3.5% m/m sulfur currently. From January 1, 2020, vessels will be required to remove sulfur from emissions through installing scrubbers or burning more expensive marine fuel with lower sulfur content. We have decided to install scrubbers on the majority of our vessels in order to comply with this regulation (the "Scrubber Retrofitting Program"). We expect the Scrubber Retrofitting Program will be completed by early 2020. We expect the Scrubber Retrofitting Program will cost an aggregate of \$173.9 million. As of February 28, 2019, we have entered into agreements to finance \$134.2 million of these costs with the proceeds of new indebtedness. Costs of compliance with these regulatory changes may be significant and may have a material adverse effect on our future performance, results of operations, cash flows and financial position.

Additionally, there is no guarantee that our investment in the Scrubber Retrofitting Program will be successful. We expect that our scrubber-equipped vessels will be able to continue using the lower-priced standard 3.5% sulfur marine bunker fuel, making them more desirable to charterers because of their lower total fuel costs compared to vessels not equipped with scrubbers, which will be forced to burn low-sulfur fuel (which we expect will be much more expensive). Yet, if sulfur emissions regulations are relaxed, if their implementation or enforcement is delayed, or if the cost differential between low sulfur fuel and high sulfur fuel is lower than anticipated, we may not realize the economic benefits or recover the cost of the Scrubber Retrofitting Program. As a result, we may experience a material, adverse effect on our financial condition and results of operations due to any of the foregoing changes.

Our business has inherent operational risks, which may not be adequately covered by insurance.

Our vessels and their cargoes are at risk of being damaged or lost because of events or risks such as Acts of God, marine disasters, bad weather, mechanical failures, human error, environmental accidents, war, terrorism, piracy, cyber-attack, radioactive contamination and other circumstances or events. In addition, transporting cargoes across a wide variety of international jurisdictions creates a risk of business interruptions due to political circumstances in foreign countries, hostilities, labor strikes and boycotts, the potential for changes in tax rates or policies, and the potential for government expropriation of our vessels. Any of these events may result in personal injury or death, loss, damage or destruction of property or environmental damage, delays in delivery of cargo, governmental fines, penalties or restrictions on conducting business, higher insurance rates, loss of revenues, increased costs and decreased cash flows to our customers, which could impair their ability to make payments to us under our charters. Epidemics and other public health incidents may also lead to crew member illness, which can disrupt the operations of our vessels, or to public health measures, which may prevent our vessels from calling on ports or discharging cargo in the affected areas or in other locations after having visited the affected areas.

Table of Contents

In the event of a casualty to a vessel or other catastrophic event, we rely on our insurance to pay the insured value of the vessel or the damages incurred. Through our management agreements with our technical managers, we procure insurance for the vessels in our fleet against those risks that we believe the shipping industry commonly insures against. This insurance includes marine hull and machinery insurance, protection insurance and indemnity insurance, which include pollution risks and crew insurances, and war risk insurance. Currently, the amount of coverage for liability for pollution, spillage and leakage available to us on commercially reasonable terms through protection and indemnity associations and providers of excess coverage is \$1.0 billion per vessel per occurrence.

We maintain and expect to maintain hull and machinery insurance, protection insurance and indemnity insurance for all of our existing and newbuilding vessels, which includes environmental damage and pollution insurance coverage and war risk insurance for our fleet. We do not maintain nor expect to maintain, for our vessels, insurance against loss of hire, which covers business interruptions that result from the loss of use of a vessel. Therefore, if the availability of a vessel for hire is interrupted, the loss of earnings due to such interruption could negatively affect our business. Even if our insurance is adequate to cover our losses, we may not be able to timely obtain a replacement vessel in the event of a loss.

We may not be adequately insured against all risks. We may not be able to obtain adequate insurance coverage for our fleet in the future, and we may not be able to obtain certain insurance coverages. The insurers may not pay particular claims. Our insurance policies may contain deductibles for which we will be responsible and limitations and exclusions which may increase our costs or lower our revenue. Moreover, insurers may default on claims they are required to pay.

We cannot assure you that we will be adequately insured against all risks or that we will be able to obtain adequate insurance coverage at reasonable rates for our vessels in the future. For example, in the past more stringent environmental regulations have led to increased costs for, and in the future may result in the lack of availability of, insurance against risks of environmental damage or pollution. Additionally, our insurers may refuse to pay particular claims. Any significant loss or liability for which we are not insured could have a material adverse effect on our business and financial condition.

We may be subject to calls because we obtain some of our insurance through protection and indemnity associations.

We may be subject to increased premium payments, or calls, in amounts based on our claim records and the claim records of our fleet managers as well as the claim records of other members of the protection and indemnity associations (P&I Associations) through which we receive insurance coverage for tort liability, including pollution-related liability. Our insurance policies also contain deductibles, limitations and exclusions which, although we believe are standard in the shipping industry, may nevertheless increase our costs in the event of a claim or decrease any recovery in the event of a loss. In addition, our P&I Associations may not have enough resources to cover claims made against them. Our payment of these calls could result in a significant expense to us, which could have a material adverse effect on our business, results of operations, cash flows and financial condition.

The smuggling of drugs or other contraband onto our vessels may lead to governmental claims against us.

Our vessels may call in ports where smugglers attempt to hide drugs and other contraband on vessels, with or without the knowledge of crew members. To the extent our vessels are found with contraband, whether inside or attached to the hull of our vessel and whether with or without the knowledge of any of our crew, we may face governmental or other regulatory claims or restrictions which could have an adverse effect our reputation, business, financial condition, results of operations and cash flows.

Table of Contents

Maritime claimants could arrest one or more of our vessels, which could interrupt our cash flow.

Crew members, suppliers of goods and services to a vessel, shippers of cargo and other parties may be entitled to a maritime lien against a vessel for unsatisfied debts, claims or damages. In many jurisdictions, a claimant may seek to obtain security for its claim by arresting a vessel through foreclosure proceedings. The arrest or attachment of one or more of our vessels could interrupt our cash flow and require us to pay large sums of money to have the arrest or attachment lifted. In addition, in some jurisdictions, such as South Africa, under the “sister ship” theory of liability, a claimant may arrest both the vessel which is subject to the claimant’s maritime lien and any “associated” vessel, which is any vessel owned or controlled by the same owner. Claimants could attempt to assert “sister ship” liability against one vessel in our fleet for claims relating to another of our vessels.

Governments could requisition our vessels during a period of war or emergency, resulting in a loss of earnings.

A government could requisition one or more of our vessels for title or for hire. Requisition for title occurs when a government takes control of a vessel and becomes its owner, while requisition for hire occurs when a government takes control of a vessel and effectively becomes its charterer at dictated charter rates. Generally, requisitions occur during periods of war or emergency, although governments may elect to requisition vessels in other circumstances. Although we would be entitled to compensation in the event of a requisition of one or more of our vessels, the amount and timing of payment would be uncertain. Government requisition of one or more of our vessels may negatively impact our revenues.

Failure to comply with the U.S. Foreign Corrupt Practices Act (the “FCPA”) could result in fines, criminal penalties, charter terminations and an adverse effect on our business.

We may operate in a number of countries throughout the world, including countries known to have a reputation for corruption. We are committed to doing business in accordance with applicable anti-corruption laws, including the FCPA. We are subject, however, to the risk that we, our affiliated entities or our or their respective officers, directors, employees and agents may take actions determined to be in violation of such anti-corruption laws. Any such violation could result in substantial fines, sanctions, civil and/or criminal penalties and curtailment of operations in certain jurisdictions, and might adversely affect our business, results of operations or financial condition. In addition, actual or alleged violations could damage our reputation and ability to do business. Furthermore, detecting, investigating, and resolving actual or alleged violations is expensive and can consume significant time and attention of our senior management.

Because we generate all of our revenues in U.S. dollars but incur a portion of our expenses in other currencies, exchange rate fluctuations could have an adverse impact on our results of operations.

We generate all of our revenue in U.S. dollars, and the majority of our expenses are denominated in U.S. dollars. However, a portion of our ship operating and administrative expenses are denominated in currencies other than U.S. dollars. In addition, a substantial portion of our recently committed capital expenditure for vessel upgrades (the Scrubber Retrofitting Program) is denominated in Euro. For the years ended December 31, 2017 and 2018, we incurred approximately 6% and 6%, respectively, of our operating expenses and 53% and 52%, respectively, of our general and administrative expenses in currencies other than U.S. dollars. This difference could lead to fluctuations in net income due to changes in the value of the dollar relative to the other currencies, in particular the Euro. Expenses incurred in foreign currencies against which the dollar falls in value can increase, decreasing our earnings. Declines in the value of the dollar could lead to higher expenses payable by us. In order to mitigate our exposure to the foreign currency risk arising from our commitment for vessel upgrades denominated in Euro, in 2018 we converted a substantial amount of our cash into Euro (approximately €70.8 million). We have and we may in the future enter into derivatives or non-derivative instruments from time to time in the future in order to minimize this risk. Any future use of financial derivatives or non- derivative instruments would involve certain risks, including the risk that losses on a

hedged position could exceed the notional amount invested in the instrument and the risk that the counterparty to the derivative or non-derivative transaction may be unable or unwilling to satisfy its contractual obligations, which could have an adverse effect on our results.

Table of Contents

Risks Related to Our Company

We cannot assure you that we will be successful in finding employment for all of our vessels.

As of February 28, 2019, our existing fleet of 108 vessels had an aggregate capacity of approximately 12.1 million dwt. We have also acquired construction contracts for three newbuilding vessels, with scheduled deliveries to us between March 2019 and June 2019. We also hold call options and have sold corresponding put options on four Capesize vessels, with exercise dates in early April 2019. We intend to employ our vessels primarily in the spot market, under short term time charters or voyage charters. We cannot assure you that we will be successful in finding employment for our vessels in the volatile spot market immediately upon their deliveries to us or whether any such employment will be at profitable rates, nor can we assure you continued timely employment of our existing vessels. If demand for our vessels is not at desirable levels, we may not be able to generate enough revenues to operate profitably or to generate positive cash flows. In such a case, we may need to undertake further restructuring activities or deleveraging measures in the future, which could have a material adverse effect on our business and results of operations and have a material and adverse effect on holders of our common shares.

We are highly leveraged, which could significantly limit our ability to execute our business strategy and has increased the risk of default under our debt obligations.

As of February 28, 2019, we had \$1,458 million of outstanding indebtedness under our outstanding credit facilities and debt securities, including our capital lease obligations and the 2022 Senior Notes.

Our outstanding debt agreements impose operating and financial restrictions on us. These restrictions limit our ability, or the ability of our subsidiaries party thereto, to among other things:

- pay dividends if there is an event of default under our credit facilities;
- incur additional indebtedness, including the issuance of guarantees, or refinance or prepay any indebtedness, unless certain conditions exist;
- create liens on our assets, unless otherwise permitted under our credit facilities;
- change the flag, class or management of our vessels or terminate or materially amend the management agreement relating to each vessel;
- acquire new or sell vessels, unless certain conditions exist;
- merge or consolidate with, or transfer all or substantially all our assets to, another person; or
- enter into a new line of business.

Therefore, we may need to seek permission from our lenders in order to engage in some corporate actions. Our lenders' interests may be different from our interests and we may not be able to obtain our lenders' permission when needed. This may limit our ability to pay dividends on our common shares if we determine to do so in the future, finance our future operations or capital requirements, make acquisitions or pursue business opportunities.

In addition, our debt agreements require us or our subsidiaries to maintain various financial ratios, including:

- a minimum percentage of aggregate vessel value to secured loans (the "SCR");

- a maximum ratio of total liabilities to market value adjusted total assets;
- a minimum EBITDA to interest coverage ratio;

Table of Contents

·a minimum liquidity; and

·a minimum market value adjusted net worth.

Because some of these ratios are dependent on the market value of our vessels, should our charter rates or vessel values materially decline in the future, we may be required to take action to reduce our debt or to act in a manner contrary to our business objectives to meet any such financial ratios and satisfy any such financial covenants. We cannot assure you that we will meet these ratios or satisfy our financial or other covenants, or that our lenders will waive any failure to do so.

These covenants and restrictions may adversely affect our ability to finance future operations or limit our ability to pursue certain business opportunities or take certain corporate actions, restricting our growth and operations. The covenants may also restrict our flexibility in planning for changes in our business and the industry and make us more vulnerable to economic downturns and adverse developments. A breach of any of the covenants in, or our inability to maintain the required financial ratios under, our debt agreements could result in a default under our debt agreements. If a default occurs under our credit facilities, the lenders could elect to declare the outstanding debt, together with accrued interest and other fees, to be immediately due and payable and foreclose on the collateral securing that debt, which could constitute all or substantially all of our assets. Moreover, in connection with any waivers or amendments to our credit facilities that we may obtain, our lenders may impose additional operating and financial restrictions on us or modify the terms of our existing credit facilities. These restrictions may further restrict our ability to, among other things, pay dividends, repurchase our common shares, make capital expenditures, or incur additional indebtedness.

Our ability to meet our cash requirements, including our debt service obligations, is dependent upon our operating performance, which is subject to general economic and competitive conditions and to financial, business and other factors affecting our operations, many of which are or may be beyond our control. We cannot provide assurance that our business operations will generate sufficient cash flows from operations to fund these cash requirements and debt service obligations. If our operating results, cash flow or capital resources prove inadequate, we could face substantial liquidity problems and might be required to dispose of material assets or operations to meet our debt and other obligations. If we are unable to service our debt, we could be forced to reduce or delay planned expansions and capital expenditures, sell assets, further restructure or refinance our debt or seek additional equity capital, and we may be unable to take any of these actions on satisfactory terms or in a timely manner. Further, any of these actions may not be sufficient to allow us to service our debt obligations or may have an adverse impact on our business. Our debt agreements may limit our ability to take certain of these actions. Our failure to generate sufficient operating cash flow to pay our debts or to successfully undertake any of these actions could have a material adverse effect on us.

Our substantial leverage and the restrictions included in our debt agreements could materially and adversely affect our ability to obtain additional financing for working capital, capital expenditures, acquisitions, debt service requirements or other purposes, could make us more vulnerable to general adverse economic, regulatory and industry conditions, and could limit our flexibility in planning for, or reacting to, changes and opportunities in the markets in which we compete.

Furthermore, our debt agreements contain cross-default provisions that may be triggered if we default under the terms of any one of our financing agreements. In the event of default by us under one of our debt agreements, the lenders under our other debt agreements could determine that we are in default under such other financing agreements. Such cross defaults could result in the acceleration of the maturity of such debt under these agreements and the lenders thereunder may foreclose upon any collateral securing that debt, including our vessels, even if we were to subsequently cure such default. In the event of such acceleration or foreclosure, we might not have sufficient funds or other assets to satisfy all of our obligations, which would have a material adverse effect on our business, results of operations and financial condition.

Table of Contents

We are subject to certain risks with respect to our counterparties on contracts, and failure of such counterparties to meet their obligations could cause us to suffer losses or otherwise adversely affect our business.

We have entered into, and may enter into in the future, various contracts, including charterparties and contracts of affreightment with our customers, newbuilding contracts with shipyards, credit facilities with our lenders and operating leases as charterers. These agreements subject us to counterparty risks. The ability of each of our counterparties to perform its obligations under a contract with us will depend on a number of factors that are beyond our control and may include, among other things, general economic conditions, the condition of the maritime industry, the overall financial condition of the counterparty, charter rates received for specific types of vessels, and various expenses. In addition, in the event any shipyards do not perform under their contracts, and we are unable to enforce certain refund guarantees with third-party lenders for any reason, we may lose all or part of our investment, and we may not be able to operate the vessels we ordered in accordance with our business plan. Should our counterparties fail to honor their obligations under agreements with us, we could sustain significant losses, which could have a material adverse effect on our business, financial condition, results of operations and cash flows.

We are currently free to make dividend payments under our debt agreements, but we may be unable to pay dividends in the future.

Under the terms of a number of our outstanding financing arrangements, we are subject to various restrictions on our ability to pay dividends. Our financing arrangements prevent us from paying dividends if an event of default exists under our credit facilities or if certain financial ratios are not met. See “Item 5. Operating and Financial Review and Prospects-B. Liquidity and Capital Resources-Senior Secured Credit Facilities” and Note 8, “Long Term Debt” to our audited consolidated financial statements, for more information regarding these restrictions contained in our financing arrangements. In general, when dividends are paid, they are distributed from our operating surplus, in amounts that allow us to retain a portion of our cash flows to fund vessel or fleet acquisitions and for debt repayment and other corporate purposes, as determined by our management and board of directors.

In addition, the declaration and payment of dividends will be subject at all times to the discretion of our board of directors. The timing and amount of dividends will depend on our earnings, financial condition, cash requirements and availability, fleet renewal and expansion, restrictions in our loan agreements, the provisions of Marshall Islands law affecting the payment of dividends and other factors. The laws of the Republic of Marshall Islands generally prohibit the payment of dividends other than from surplus (retained earnings and the excess of consideration received for the sale of shares above the par value of the shares) or while a company is insolvent or would be rendered insolvent by the payment of such a dividend. We may not have sufficient surplus in the future to pay dividends and our subsidiaries may not have sufficient funds or surplus to make distributions to us. We can give no assurance that dividends will be paid at all.

We may be unable to attract and retain qualified, skilled employees or crew necessary to operate our business.

Our success depends in large part on the ability of us to attract and retain highly skilled and qualified personnel, both shoreside personnel and crew. We require technically skilled employees with specialized training who can perform physically demanding work. Competition to attract and retain qualified crew members and shoreside personnel is intense due to the increase in the size of the global shipping fleet. In addition, if we are not able to obtain higher charter rates to compensate for any crew cost and salary increases, it could have a material adverse effect on our business, results of operations, cash flows and financial condition. If we cannot hire, train and retain a sufficient number of qualified employees, we may be unable to manage, maintain and grow our business, which could have a material adverse effect on our business, financial condition, results of operations and cash flows.

Table of Contents

As we expand our fleet, we will need to expand our operations and financial systems and hire new shoreside staff and seafarers to staff our vessels; if we cannot expand these systems or recruit suitable employees, our performance may be adversely affected.

Our operating and financial systems may not be adequate as we expand our fleet, and our attempts to implement those systems may be ineffective. In addition, we rely on our managers for crew management. Shoreside personnel are recruited by Star Bulk Management Inc., Star Bulk Shipmanagement Company (Cyprus) Limited, and Starbulk S.A. through referrals from other shipping companies and traditional methods of securing personnel, such as placing classified advertisements in shipping industry periodicals. Our managers may not be able to continue to hire suitable employees as we expand our fleet. If we are unable to operate our financial and operations systems effectively, recruit suitable employees or if our managers encounter business or financial difficulties, our performance may be materially and adversely affected.

If we acquire and operate older secondhand vessels, we may be exposed to increased operating and other costs, which could adversely affect our earnings and, as our fleet ages, the risks associated with older vessels could adversely affect our ability to obtain profitable charters.

Our current business strategy includes additional growth which may, in addition to the acquisition of newbuilding vessels, include the acquisition of modern secondhand vessels. While we expect that we would typically inspect secondhand vessels prior to acquisition, this does not provide us with the same knowledge about their condition that we would have had if these vessels had been built for and operated exclusively by us. Generally, we, as a purchaser of secondhand vessels will not receive the benefit of warranties from the builders for the secondhand vessels that we acquire. In addition, unforeseen maintenance, repairs, special surveys or dry docking may be necessary for acquired secondhand vessels, which could also increase our costs and reduce our ability to employ the vessel to generate revenue.

In general, the cost of maintaining a vessel in good operating condition increases with the age of the vessel. As our vessels age they will typically become less fuel-efficient and more costly to maintain than more recently constructed vessels due to improvements in engine technology. Cargo insurance rates increase with the age of a vessel, making older vessels less desirable to charterers. Governmental regulations and safety or other equipment standards related to the age of vessels may also require expenditures for alterations or the addition of new equipment to our vessels and may restrict the type of activities in which our vessels may engage. As our vessels age, market conditions may not justify those expenditures or may not enable us to operate our vessels profitably during the remainder of their useful lives.

Technological innovation could reduce our charter hire income and the value of our vessels.

The charter rates and the value and operational life of a vessel are determined by a number of factors including the vessel's efficiency, operational flexibility and physical life. Efficiency includes speed, fuel economy and the ability to load and discharge cargo quickly. Flexibility includes the ability to enter harbors, utilize related docking facilities and pass through canals and straits. The length of a vessel's physical life is related to its original design and construction, its maintenance and the impact of the stress of operations. If new dry bulk carriers are built that are more efficient or more flexible or have longer physical lives than our vessels, competition from these more technologically advanced vessels could adversely affect the amount of charter hire payments we receive for our vessels once their initial charters expire and the resale value of our vessels could significantly decrease. In addition, although we view the fuel efficiency of our Eco-type vessels, which we define as vessels that are designed to be more fuel-efficient than standard vessels of similar size and age, as a competitive advantage, this competitive advantage may eventually erode (along with vessel value) as more Eco-type vessels are put into service by our competitors and older, less fuel-efficient vessels are retired. As a result, our business, results of operations, cash flows and financial condition could be adversely affected by technological innovation.

Table of Contents

We rely on our information systems to conduct our business, and failure to protect these systems against security breaches could adversely affect our business and results of operations. Additionally, if these systems fail or become unavailable for any significant period of time, our business could be harmed.

The efficient operation of our business, including processing, transmitting and storing electronic and financial information, is dependent on computer hardware and software systems. Information systems are vulnerable to security breaches by computer hackers and cyber terrorists. We rely on industry accepted security measures and technology to securely maintain confidential and proprietary information maintained on our information systems. However, these measures and technology may not adequately prevent security breaches. In addition, the unavailability of the information systems or the failure of these systems to perform as anticipated for any reason could disrupt our business and could result in decreased performance and increased operating costs, causing our business and results of operations to suffer. Any significant interruption or failure of our information systems or any significant breach of security could adversely affect our business and results of operations.

In the highly competitive international shipping industry, we may not be able to compete for charters with new entrants or established companies with greater resources, and as a result, we may be unable to employ our vessels profitably.

Our vessels are and will be employed in a highly competitive market that is capital intensive and highly fragmented. Competition arises primarily from other vessel owners, some of whom have substantially greater resources than we do. Competition for the transportation of dry bulk cargo by sea is intense and depends on price, location, size, age, condition and the acceptability of the vessel and its operators to the charterers. Due in part to the highly fragmented market, competitors with greater resources could enter the dry bulk shipping industry and operate larger fleets through consolidations or acquisitions and may be able to offer lower charter rates and higher quality vessels than we are able to offer. If we are unable to successfully compete with other dry bulk shipping companies, our results of operations would be adversely impacted.

We may be subject to litigation that, if not resolved in our favor and not sufficiently insured against, could have a material adverse effect on us.

We may be, from time to time, involved in various litigation matters. These matters may include, among other things, contract disputes, shareholder litigation, personal injury claims, environmental claims or proceedings, asbestos and other toxic tort claims, property casualty claims, employment matters, governmental claims for taxes or duties, and other litigation that arises in the ordinary course of our business. Although we intend to defend these matters vigorously, we cannot predict with certainty the outcome or effect of any claim or other litigation matter, and the ultimate outcome of any litigation or the potential costs to resolve them may have a material adverse effect on us. Insurance may not be applicable or sufficient in all cases and/or insurers may not remain solvent which may have a material adverse effect on our financial condition.

We may have difficulty managing our planned growth properly.

Historically, we have grown through acquisitions, including the 2014 Transactions and the 2018 Transactions (each as defined below under “Item 4. Information on the Company”), and we have built a number of newbuilding vessels. In addition, one of our strategies is to continue to grow by expanding our operations and adding to our fleet. Our future growth will primarily depend upon a number of factors, some of which may not be within our control. These factors include our ability to:

- identify suitable dry bulk carriers, including newbuilding slots at shipyards and/or shipping companies for acquisitions at attractive prices;

- obtain required financing for our existing and new operations;
- identify businesses engaged in managing, operating or owning dry bulk carriers for acquisitions or joint ventures;

Table of Contents

·integrate any acquired dry bulk carriers or businesses successfully with our existing operations, including obtaining any approvals and qualifications necessary to operate vessels that we acquire;

·hire, train and retain qualified personnel and crew to manage and operate our growing business and fleet;

·identify additional new markets;

·enhance our customer base; and

·improve our operating, financial and accounting systems and controls.

Our failure to effectively identify, acquire, develop and integrate any dry bulk carriers or businesses could adversely affect our business, financial condition and results of operations. The number of employees that perform services for us and our current operating and financial systems may not be adequate as we implement our plan to expand the size of our fleet in the dry bulk sector, and we may not be able to effectively hire more employees or adequately improve those systems.

Finally, acquisitions may require additional equity issuances, which may dilute our common shareholders if issued at lower prices than the price they acquired their shares, or debt issuances (with amortization payments), which could lower our available cash. If any such events occur, our financial condition may be adversely affected. We cannot give any assurance that we will be successful in executing our growth plans, obtain appropriate financings on a timely basis or on terms we deem reasonable or acceptable or that we will not incur significant expenses and losses in connection with our future growth.

In the 2014 Transactions, we acquired a 50% interest in Heron.

In the 2014 Transactions, we acquired a convertible loan to Heron, which has been converted into 50% of the equity of Heron. Heron is a 50-50 joint venture between Oceanbulk Shipping and ABY Group Holding Limited. During 2015, all vessels previously owned by Heron either were sold to third parties or distributed to Heron's equity holders. As part of these distributions, we acquired the two Heron Vessels. While Oceanbulk Shipping and ABY Group Holding Limited intend that Heron eventually will be dissolved shortly after local authorities in Malta permit, until that occurs, contingencies to us may arise. However, the pre-transaction investors in Heron will effectively remain as ultimate beneficial owners of Heron, until Heron is dissolved on the basis that, according to the Merger Agreement, any cash received from the final liquidation of Heron will be transferred to the sellers of the corresponding transaction. Under the Merger Agreement, we only agreed to issue 423,141 of our common shares, adjusted for the June 2016 Reserve Stock Split, and pay an amount of \$25.0 million in cash, for the acquisition of the two Heron Vessels. In July 2018, ABY Group Holding Limited transferred to ABY Florianna Limited its interests to Heron.

We are and will be exposed to volatility in the LIBOR and intend to selectively enter into derivative contracts, which can result in higher than market interest rates and charges against our income.

The loans under our credit facilities are generally advanced at a floating rate based on LIBOR, which was volatile prior to 2008 and can affect the amount of interest payable on our debt, and which, in turn, could have an adverse effect on our earnings and cash flow. LIBOR has been at relatively low levels but has demonstrated an increasing trend during recent periods. Our financial condition could be materially adversely affected at any time that we have not entered into interest rate hedging arrangements to hedge our exposure to the interest rates applicable to our credit facilities and any other financing arrangements we may enter into in the future, including those we enter into to finance a portion of the amounts payable with respect to newbuildings. Moreover, even if we have entered into interest rate swaps or other derivative instruments for purposes of managing our interest rate exposure, our hedging strategies may not be effective and we may incur substantial losses.

Table of Contents

We intend to selectively enter into derivative contracts to hedge our overall exposure to interest rate risk exposure. Entering into swaps and derivatives transactions is inherently risky and presents various possibilities for incurring significant expenses. The derivatives strategies that we employ in the future may not be successful or effective, and we could, as a result, incur substantial additional interest costs. See “Item 11. Quantitative and Qualitative Disclosures about Market Risk-Interest Rate” for a description of our interest rate swap arrangements.

In addition, in July 2017, the U.K. Financial Conduct Authority announced that it intends to stop collecting LIBOR rates from banks after 2021. The announcement indicates that LIBOR will not continue to exist on the current basis. We are unable to predict the effect of any changes to LIBOR, the establishment and success of any alternative reference rates, or any other reforms to LIBOR or any replacement of LIBOR that may be enacted in the United Kingdom or elsewhere. Such changes, reforms or replacements relating to LIBOR could have an adverse impact on the market for or value of any LIBOR-linked securities, loans, derivatives or other financial instruments or extensions of credit held by us. As such, LIBOR-related changes could affect our overall results of operations and financial condition.

We have made and in the future may make acquisitions and significant strategic investments and acquisitions, which may involve a number of risks. If we are unable to address these risks successfully, such acquisitions and investments could have a materially adverse impact on our business, financial condition and results of operations.

We have undertaken a number of acquisitions and investments in the past, including the 2014 Transactions, the 2018 Transactions (as defined below under “Item 4. Information on the Company”), and the Scrubber Retrofitting Program, and may do so from time to time in the future. The risks involved with these acquisitions and investments include:

- the possibility that we may not receive a favorable return on our investment or incur losses from our investment, or the original investment may become impaired;
- failure to satisfy or set effective strategic objectives;
- our assumption of known or unknown liabilities or other unanticipated events or circumstances;
 - the diversion of management’s attention from normal daily operations of the business;
- difficulties in integrating the operations, technologies, products and personnel of the acquired company or its assets;
- difficulties in supporting acquired operations;
- difficulties or delays in the transfer of vessels, equipment or personnel;
- failure to retain key personnel;
- unexpected capital equipment outlays and related expenses;
- insufficient revenues to offset increased expenses associated with acquisitions;
- under-performance problems with acquired assets or operations;
- issuance of common shares that could dilute our current shareholders;
-

recording of goodwill and non-amortizable intangible assets that will be subject to periodic impairment testing and potential impairment charges against our future earnings;

·the opportunity cost associated with committing capital in such investments;

Table of Contents

- undisclosed defects, damage, maintenance requirements or similar matters relating to acquired vessels; and
- becoming subject to litigation.

We may not be able to address these risks successfully without substantial expense, delay or other operational or financial problems. Any delays or other such operations or financial problems could adversely impact our business, financial condition and results of operations.

Our costs of operating as a public company are significant, and our management is required to devote substantial time to complying with public company regulations.

We are a public company, and as such, we have significant legal, accounting and other expenses in addition to our registration and listing expenses. In addition, Sarbanes-Oxley, as well as rules subsequently implemented by the SEC, Nasdaq and Oslo Børs, have imposed various requirements on public companies, including changes in corporate governance practices, and these requirements may continue to evolve. We and our management personnel, and other personnel, if any, will need to devote a substantial amount of time to comply with these requirements. Moreover, these rules and regulations increase our legal and financial compliance costs and make some activities more time-consuming and costly.

Sarbanes-Oxley requires, among other things, that we maintain and periodically evaluate our internal control over financial reporting and disclosure controls and procedures. In particular, we need to perform system and process evaluation and testing of our internal control over financial reporting to allow management and our independent registered public accounting firm to report on the effectiveness of our internal control over financial reporting, as required by Section 404 of Sarbanes-Oxley. Our compliance with Section 404 may require that we incur substantial accounting expenses and expend significant management efforts. If either management or our independent registered public accounting firm is unable to continue to provide reports as to the effectiveness of our internal control over financial reporting if required, our investors could lose confidence in the reliability of our financial statements, which could decrease the price of our common shares. Further, if we have a material weakness in our internal controls over financial reporting, we may not detect errors on a timely basis and our financial statements may be materially misstated.

There is a risk that we could be treated as a U.S. domestic corporation for U.S. federal income tax purposes after the merger of Star Maritime with and into Star Bulk, with Star Bulk as the surviving corporation, or the Redomiciliation Merger, which would adversely affect our earnings.

Section 7874(b) of the U.S. Internal Revenue Code of 1986, as amended (the “Code”), provides that, unless certain requirements are satisfied, a corporation organized outside of the United States which acquires substantially all of the assets (through a plan or a series of related transactions) of a corporation organized in the United States will be treated as a U.S. domestic corporation for U.S. federal income tax purposes if shareholders of the U.S. corporation whose assets are being acquired own at least 80% of the non-U.S. acquiring corporation after the acquisition. If Section 7874(b) of the Code were to apply to Star Maritime and the Redomiciliation Merger (as defined below), then, among other consequences, we, as the surviving entity of the Redomiciliation Merger, would be subject to U.S. federal income tax as a U.S. domestic corporation on our worldwide income after the Redomiciliation Merger. Upon completion of the Redomiciliation Merger and the concurrent issuance of shares to TMT Co. Ltd., or “TMT”, a shipping company headquartered in Taiwan, under the acquisition agreements, the shareholders of Star Maritime owned less than 80% of the Company. Therefore, we believe that the Company should not be subject to Section 7874(b) of the Code after the Redomiciliation Merger. Star Maritime obtained an opinion of its counsel, Seward & Kissel LLP (“Seward & Kissel”), that Section 7874(b) of the Code should not apply to the Redomiciliation Merger. However, there is no authority directly addressing the application of Section 7874(b) of the Code to a transaction such as the Redomiciliation Merger where shares in a foreign corporation such as the Company are issued concurrently

with (or shortly after) a merger. In particular, since there is no authority directly applying the “series of related transactions” or “plan” provisions to the post-acquisition share ownership requirements of Section 7874(b) of the Code, the U.S. Internal Revenue Service, or the “IRS”, may not agree with Seward & Kissel’s opinion on this matter. Moreover, Star Maritime has not sought a ruling from the IRS on this point. Therefore, the IRS may seek to assert that we are subject to U.S. federal income tax on our worldwide income for taxable years after the Redomiciliation Merger, although Seward & Kissel is of the opinion that such an assertion should not be successful.

Table of Contents

We may have to pay U.S. federal income tax on our U.S. source income, which would reduce our earnings.

Under the Code, 50% of the gross shipping income of a non-U.S. corporation, such as ourselves, that is attributable to transportation that begins or ends, but that does not both begin and end, in the United States is characterized as “United States source gross shipping income,” and such income is subject to a 4% U.S. federal income tax without allowance for any deductions, unless the corporation qualifies for exemption from U.S. federal income taxation under Section 883 of the Code and the Treasury Regulations promulgated thereunder.

We believe that we qualify for the exemption from U.S. federal income taxation under Section 883 of the Code for our 2018 taxable year. Accordingly, we do not believe that we will be subject to the 4% U.S. federal income tax on our United States source gross shipping income for our 2018 taxable year. Due to the factual nature of this inquiry, no assurance can be given of our ability to claim this exemption from U.S. federal income tax for future taxable years.

If a significant portion of our income is United States source gross shipping income, the imposition of such tax could have a negative effect on our business and would result in decreased earnings.

A change in tax laws, treaties or regulations, or their interpretation could result in a significant negative impact on our earnings and cash flows from operations.

We are an international company that conducts business throughout the world. Tax laws and regulations are highly complex and subject to interpretation. Consequently, a change in tax laws, treaties or regulations, or in the interpretation thereof, or in and between countries in which we operate, could result in a materially high tax expense or higher effective tax rate on our worldwide earnings, and such change could be significant to our financial results.

If any tax authority successfully challenges our operational structure, intercompany pricing policies or the taxable presence of our key subsidiaries in certain countries, or if the terms of certain income tax treaties are interpreted in a manner that is adverse to our structure, or if we lose a material tax dispute in any country, our effective tax rate on our worldwide earnings from our operations could increase substantially and our earnings and cash flows from these operations could be materially adversely affected.

We and our subsidiaries may be subject to taxation in the jurisdictions in which we and our subsidiaries conduct business. Such taxation would result in decreased earnings.

Investors are encouraged to consult their own tax advisors concerning the overall tax consequences of the ownership of our common shares arising in an investor’s particular situation under U.S. federal, state, local and foreign law.

The Internal Revenue Service could treat us as a “passive foreign investment company,” which could have adverse U.S. federal income tax consequences to U.S. shareholders.

A non-U.S. corporation will be treated as a “passive foreign investment company” (a “PFIC”) for U.S. federal income tax purposes if either (1) at least 75% of its gross income for any taxable year consists of certain types of “passive income” (e.g., dividends, interest, capital gains and rents derived other than in the active conduct of a rental business) or (2) at least 50% of the average value of the corporation’s assets produce or are held for the production of passive income. For purposes of determining the PFIC status of a non-U.S. corporation, income earned in connection with the performance of services does not constitute passive income, but rental income generally is treated as passive income unless the non-U.S. corporation is treated under specific rules as deriving its rental income in the active conduct of a trade or business. We intend to take the position that income we derive from our voyage and time chartering activities is services income, rather than rental income, and accordingly, that such income is not passive income for purposes of determining our PFIC status. Based on this characterization of income from voyage and time charters and the expected composition of our income and assets, we believe that we currently are not a PFIC, and we do not expect to

become a PFIC in the future. Additionally, we believe that our contracts for newbuilding vessels are not assets held for the production of passive income, because we intend to use these vessels for voyage and time chartering activities. However, there is no direct legal authority under the PFIC rules addressing our characterization of income from our voyage and time chartering activities nor our characterization of contracts for newbuilding vessels. Moreover, the determination of PFIC status for any year can only be made on an annual basis after the end of such taxable year and will depend on the composition of our income, assets and operations from time to time. Because of the above described uncertainties, there can be no assurance that the Internal Revenue Service will not challenge the determination made by us concerning our PFIC status or that we will not be a PFIC for any taxable year.

Table of Contents

If we were classified as a PFIC for any taxable year during which a U.S. shareholder owns common shares (regardless of whether we continue to be a PFIC), the U.S. shareholder would be subject to special adverse rules, including taxation at maximum ordinary income rates plus an interest charge on both gains on sale and certain dividends, unless the U.S. shareholder makes an election to be taxed under an alternative regime. Certain elections may be available to U.S. shareholders if we were classified as a PFIC.

Risks Related to Our Relationships with Mr. Pappas, Oaktree and Other Parties

Affiliates of Oaktree own a significant portion of our common shares, subject to certain restrictions on voting, acquisitions and dispositions thereof.

As of February 28, 2019, Oaktree and its affiliates beneficially own 31,587,490 common shares, which would represent approximately 33.9% of our outstanding common shares. However, pursuant to the Oaktree Shareholders Agreement, Oaktree and certain affiliates thereof have agreed to voting restrictions, ownership limitations and standstill restrictions. For instance, Oaktree and its affiliates will be entitled to nominate a maximum of four out of nine members of our board of directors, subject to certain additional limitations. In addition, Oaktree and its affiliates will be required to vote their voting securities in excess of 33% of the outstanding voting securities (subject to adjustment as set forth in the Oaktree Shareholders Agreement) proportionately with the votes cast by the other shareholders, subject to certain exceptions, which include (i) voting against a change of control transaction with an unaffiliated buyer and (ii) voting in favor of a change of control transaction with an unaffiliated buyer (but only if such transaction is approved by a majority of disinterested directors). In addition, Oaktree and affiliates thereof will be subject to certain standstill restrictions, and may not receive a control premium for their common shares as part of a change of control transaction. Despite the foregoing limitations, Oaktree and its affiliates are able to exert considerable influence over us. Oaktree and its affiliates may be able to prevent or delay a change of control of us and could preclude any unsolicited acquisition of us. The concentration of ownership and voting power in Oaktree may make some transactions more difficult or impossible without the support of Oaktree, even if such events are in the best interests of our other shareholders. The concentration of voting power in Oaktree may have an adverse effect on the price of our common shares. As a result of such influence, we may take actions that our other shareholders do not view as beneficial, which may adversely affect our results of operations and financial condition and cause the value of your investment to decline.

Additionally, Oaktree is in the business of making investments in companies and currently holds, and may from time to time in the future acquire, interests in the shipping industry that directly or indirectly compete with certain portions of our business. Further, if Oaktree pursues acquisitions or makes further investments in the shipping industry, those acquisitions and investment opportunities may not be available to us, and we have agreed to renounce any interest or expectancy in, or in being offered an opportunity to participate in, any corporate opportunities that may be presented to or become known to Oaktree or any of its affiliates.

In addition, the members of the board of directors nominated by Oaktree will have fiduciary duties to us and in addition may have duties to Oaktree. As a result, such circumstances may entail real or apparent conflicts of interest with respect to matters affecting both us and Oaktree, whose interests, in some circumstances, may be adverse to ours.

Table of Contents

Members of management and our directors may have relationships and affiliations with other entities that could create conflicts of interest.

While we do not expect that our Chief Executive Officer, Mr. Petros Pappas, will have any material relationships with any companies in the dry bulk shipping industry other than us, he will continue to be involved in other areas of the shipping industry, including as the founder of Oceanbulk Maritime, a dry cargo shipping company, and as a member of the management of PST Tankers LLC, which is a joint venture between Oaktree and entities controlled by the family of Mr. Petros Pappas involved in the product tanker businesses. Both children of our Chief Executive Officer are equity holders of Oceanbulk Maritime and/or Interchart, and in various other entities, some of which are involved in the dry bulk shipping industry. These other affiliations and ventures could cause distraction to Mr. Pappas as our Chief Executive Officer if he focuses a substantial portion of his time on them, and the involvement of Mr. Pappas with other ventures could cause conflicts of interest with us.

Any of these affiliations and relationships of Mr. Pappas, certain members of his family and certain members of our senior management may create conflicts of interest not in the best interest of us or our shareholders from time to time. This could result in an adverse effect on our business, financial condition, results of operations and cash flows. We use our best efforts to cause such individuals to comply with all applicable laws and regulations in addressing such conflicts of interest.

Two of our directors are affiliated with Oaktree. Our directors who are affiliates of Oaktree have fiduciary duties to us and in addition have duties to Oaktree. In addition, under the Oaktree Shareholders Agreements, none of our officers or directors who is also an officer, director, employee or other affiliate of Oaktree or an officer, director or employee of an affiliate of Oaktree will be liable to us or our shareholders for breach of any fiduciary duty by reason of the fact that any such individual directs a corporate opportunity to Oaktree or its affiliates instead of us, or does not communicate information regarding a corporate opportunity to us that such person or affiliate has directed to Oaktree or its affiliates. As a result, such circumstances may entail real or apparent conflicts of interest with respect to matters affecting both us and Oaktree, whose interests, in some circumstances, may be adverse to ours. In addition, as a result of Oaktree's ownership interest, conflicts of interest could arise with respect to transactions involving business dealings between us and Oaktree or their affiliates, including potential business transactions, potential acquisitions of businesses or properties, the issuance of additional securities, the payment of dividends by us and other matters.

Our executive officers will not devote all of their time to our business, which may hinder our ability to operate successfully.

Our executive officers participate in business activities not associated with us, including serving as members of the management teams of Oceanbulk Maritime and PST Tankers LLC, and are not required to work full-time on our affairs. Initially, we expect that each of our executive officers will devote a substantial portion of his/her business time to the completion of our newbuilding program and management of our Company. Our executive officers may devote less time to us than if they were not engaged in other business activities and may owe fiduciary duties to the shareholders of other companies with which they may be affiliated, including those companies listed above. This structure may create conflicts of interest in matters involving or affecting us and our customers and it is not certain that any of these conflicts of interest will be resolved in our favor. This could have a material adverse effect on our business, financial condition, results of operations and cash flows.

We are dependent on our managers and their ability to hire and retain key personnel.

Our success depends to a significant extent upon the abilities and efforts of our management team. For example, Mr. Pappas is integral to our business, and our success depends significantly on his abilities, industry knowledge, relationships and reputation. We do not maintain "key man" life insurance on any of our officers, and the loss of any of these individuals could adversely affect our business prospects and financial condition.

Table of Contents

Our continued success will depend upon our and our managers' ability to hire and retain key members of our management team. Difficulty in hiring and retaining personnel could adversely affect our results of operations. In crewing our vessels, we require technically skilled employees with specialized training who can perform physically demanding work. Competition to attract and retain qualified crew members is intense due to the increase in the size of the global shipping fleet. If we are not able to obtain higher charter rates to compensate for any crew cost increases, it could have a material adverse effect on our business, results of operations, cash flows and financial condition. If we cannot hire, train and retain a sufficient number of qualified employees, we may be unable to manage, maintain and grow our business, which could have a material adverse effect on our business, financial condition, results of operations and cash flows. As we expand our fleet, we will also need to expand our operational and financial systems and hire new shoreside staff and seafarers to crew our vessels; if we cannot expand these systems or recruit suitable employees, its performance may be adversely affected.

Our reliance upon "foreign private issuer" exemptions may afford less protection to holders of our common shares.

The corporate governance rules of the Nasdaq require, subject to exceptions, listed companies to have, among other things, a majority of their board members be independent and independent director oversight of executive compensation, nomination of directors and corporate governance matters. Nevertheless, a "foreign private issuer" (as defined in Rule 3b-4 of the Exchange Act) is permitted to follow its home country practice in lieu of the above requirements.

We are a foreign private issuer, and, as such, we may follow the laws of the Republic of the Marshall Islands, our home country, with respect to the foregoing requirements. For example, our board of directors is not required by the laws of the Republic of the Marshall Islands to have a majority of independent directors, so, while our board of directors includes seven members that would likely be deemed independent for purposes of the Nasdaq rules, we are not required to comply with the Nasdaq rule that requires us to have a majority of independent directors, and we may in the future have less than a majority of directors who would be deemed independent for purposes of the Nasdaq rules. Consequently, for so long as we remain a foreign private issuer, the approach of our board of directors may be different from that of a board of directors required to have a majority of independent directors, and as a result, our management oversight may be more limited than if we were required to comply with the Nasdaq rules applicable to U.S. domestic listed companies.

As a "foreign private issuer," we are not required to comply with all of the periodic disclosure and current reporting requirements of the Exchange Act applicable to U.S. domestic companies whose securities are registered under the Exchange Act.

The determination of foreign private issuer status is made annually on the last business day of an issuer's most recently completed second fiscal quarter, and accordingly the next determination will be made with respect to us on June 30, 2019. We will lose our foreign private issuer status if more than 50% of our outstanding voting securities are directly or indirectly held of record by residents of the U.S., and:

- more than a majority of our executive officers and directors are U.S. citizens or residents;
- more than 50% of our assets are located in the U.S.; or
- our business is administered principally in the U.S.

We may therefore lose our foreign private issuer status in the future.

If we were to lose our foreign private issuer status, we would be required to comply with the rules of the Nasdaq applicable to U.S. domestic listed companies within six months, including filing with the SEC periodic reports and

registration statements on U.S. domestic issuer forms, which are more detailed and extensive than the forms available to a foreign private issuer. We would also have to comply with U.S. federal proxy requirements, and our officers, directors and 10% shareholders would become subject to the short-swing profit disclosure and recovery provisions of Section 16 of the Exchange Act. In addition, we would lose our ability to rely upon exemptions from certain Nasdaq corporate governance requirements. As a result, the regulatory and compliance costs to us under U.S. securities laws as a U.S. domestic issuer could be significantly higher.

Table of Contents

Risks Related to Our Corporate Structure and Our Common Shares

We are a holding company, and we depend on the ability of our subsidiaries to distribute funds to us in order to satisfy our financial obligations and to make dividend payments.

We are a holding company, and our subsidiaries conduct all of our operations and own all of our operating assets. We have no significant assets other than the equity interests in our subsidiaries. As a result, our ability to satisfy our financial obligations and to make dividend payments in the future depends on our subsidiaries and their ability to distribute funds to us. If we are unable to obtain funds from our subsidiaries, our board of directors may exercise its discretion not to declare or pay dividends. We do not intend to obtain funds from other sources to pay dividends. Furthermore, certain of our outstanding financing arrangements restrict the ability of some of our subsidiaries to pay us dividends under certain circumstances, such as if an event of default exists. To the extent we do not receive dividends from our subsidiaries, our ability to pay dividends will be restricted.

Because we are organized under the laws of the Marshall Islands and because substantially all of our assets are located outside of the United States, it may be difficult to serve us with legal process or enforce judgments against us, our directors or our management.

We are organized under the laws of the Marshall Islands and substantially all of our assets are located outside of the United States. In addition, the majority of our directors and officers are or will be non-residents of the United States and all or a substantial portion of the assets of these non-residents are located outside the United States. As a result, it may be difficult or impossible for you to bring an action against us or against our directors and officers in the United States if you believe that your rights have been infringed under securities laws or otherwise. Even if you are successful in bringing an action of this kind, the laws of the Marshall Islands and of other jurisdictions may prevent or restrict you from enforcing a judgment against our assets or the assets of our directors or officers.

We are incorporated in the Marshall Islands, which does not have a well-developed body of corporate law.

Our corporate affairs are governed by our Fourth Amended and Restated Articles of Incorporation (the “Articles of Incorporation”) and our Third Amended and Restated Bylaws (the “Bylaws”) and by the Marshall Islands Business Corporations Act (the “MIBCA”). The provisions of the MIBCA resemble provisions of the corporation laws of a number of states in the United States. However, there have been few judicial cases in the Marshall Islands interpreting the MIBCA. The rights and fiduciary responsibilities of directors under the laws of the Marshall Islands are not as clearly established as the rights and fiduciary responsibilities of directors under statutes or judicial precedent in existence in the United States. The rights of shareholders of companies incorporated in the Marshall Islands may differ from the rights of shareholders of companies incorporated in the United States. While the MIBCA provides that it is to be interpreted according to the laws of the State of Delaware and other states with substantially similar legislative provisions, there have been few, if any, court cases interpreting the MIBCA in the Marshall Islands and we cannot predict whether Marshall Islands courts would reach the same conclusions as United States courts. Thus, you may have more difficulty in protecting your interests in the face of actions by the management, directors or controlling shareholders than would shareholders of a corporation incorporated in a United States jurisdiction that has developed a relatively more substantial body of case law. Additionally, the Republic of the Marshall Islands does not have a legal provision for bankruptcy or a general statutory mechanism for insolvency proceedings. As such, in the event of a future insolvency or bankruptcy, our shareholders and creditors may experience delays in their ability to recover their claims after any such insolvency or bankruptcy.

Table of Contents

The international nature of our operations may make the outcome of any bankruptcy proceedings difficult to predict.

We are incorporated under the laws of the Republic of the Marshall Islands and certain of our subsidiaries are also incorporated under the laws of the Republic of the Marshall Islands, Liberia, Cyprus, Malta and Switzerland, and we conduct operations in countries around the world. The Marshall Islands has passed an act implementing the U.N. Commission on Internal Trade Law (UNCITRAL) Model Law on Cross-Border Insolvency, or the Model Law. The adoption of the Model Law is intended to implement effective mechanisms for dealing with issues related to cross-border insolvency proceedings and encourages cooperation and coordination between jurisdictions. Notably, the Model Law does not alter the substantive insolvency laws of any jurisdiction and does not create a bankruptcy code in the Marshall Islands. Instead, the Act allows for the recognition by the Marshall Islands of foreign insolvency proceedings, the provision of foreign creditors with access to courts in the Marshall Islands, and the cooperation with foreign courts. Consequently, in the event of any bankruptcy, insolvency or similar proceedings involving us or one of our subsidiaries, bankruptcy laws other than those of the United States could apply. We have limited operations in the United States. If we become a debtor under the United States bankruptcy laws, bankruptcy courts in the United States may seek to assert jurisdiction over all of our assets, wherever located, including property situated in other countries. There can be no assurance, however, that we would become a debtor in the United States or that a United States bankruptcy court would be entitled to, or accept, jurisdiction over such bankruptcy case or that courts in other countries that have jurisdiction over us and our operations would recognize a United States bankruptcy court's jurisdiction if any other bankruptcy court would determine it had jurisdiction.

The price of our common shares may be highly volatile.

The price of our common shares may fluctuate due to factors such as:

- actual or anticipated fluctuations in our quarterly and annual results and those of other public companies in our industry;
- mergers and strategic alliances in the dry bulk shipping industry;
- market conditions in the dry bulk shipping industry;
- changes in market valuations of companies in our industry;
- changes in government regulation;
- the failure of securities analysts to publish research about us, or shortfalls in our operating results from levels forecast by securities analysts;
- announcements concerning us or our competitors; and
- the general state of the securities markets.

The seaborne transportation industry has been highly unpredictable and volatile. The market for our common shares in this industry may be equally volatile. Further, there may be no continuing active or liquid public market for our common shares. Consequently, you may not be able to sell the common shares at prices equal to or greater than those paid by you, or you may not be able to sell them at all.

Future sales of our common shares could cause the market price of our common shares to decline.

Our Articles of Incorporation authorize us to issue 300,000,000 common shares, of which 92,627,349 shares had been issued and 92,285,986 (excluding 341,363 treasury shares) were outstanding as of December 31, 2018. Sales of a substantial number of shares of our common shares in the public market, or the perception that these sales could occur, may depress the market price for our common shares. These sales could also impair our ability to raise additional capital through the sale of our equity securities in the future. We intend to issue additional shares of our common shares in the future. Our shareholders may incur dilution from any future equity offering and upon the issuance of additional shares of our common shares upon the exercise of options we have granted to certain of our executive officers or upon the issuance of additional common shares pursuant to our equity incentive plans.

Table of Contents

We may fail to meet the continued listing requirements of the Nasdaq, which could cause our common shares to be delisted.

Pursuant to the listing requirements of the Nasdaq Global Select Market, if a company's share price is below \$1.00 per share for 30 consecutive trading days, Nasdaq will notify the company that it is no longer in compliance with the Nasdaq listing qualifications, which are set forth in Nasdaq Listing Rule 5450(a). If a company is not in compliance with the minimum bid price rule, the company will have 180 calendar days to regain compliance. The company may regain compliance if the bid price of its common shares closes at \$1.00 per share or more for a minimum of ten consecutive business days at any time during the 180-day cure period.

On January 6, 2016, we received notice from Nasdaq that the minimum bid price for our common shares was below \$1.00 per share for a period of 30 consecutive business days, and that we therefore did not meet the minimum bid price requirement for the Nasdaq Global Select Market. Following the June 2016 Reverse Stock Split, effective June 20, 2016, on July 6, 2016 we received notice from Nasdaq that we had regained compliance with the minimum bid price requirement for the Nasdaq Global Select Market.

There can be no assurance that we will remain in compliance with the other Nasdaq listing qualification rules, or that our common shares will not be delisted. A delisting of our common shares could have an adverse effect on the market price, and the efficiency of the trading market for, our common shares and could cause an event of default under certain of our Senior Secured Credit Facilities.

Certain shareholders hold registration rights, which may have an adverse effect on the market price of our common shares.

On September 26, 2018, we filed a registration statement on Form F-3 (File No. 333-227538), which became effective on October 5, 2018. This registration statement covers the resale of up to 44,294,986 of our common shares by Oaktree, affiliates of Mr. Petros Pappas, affiliates of York, affiliates of Augustea and OCC (each as defined below under "Item 4. Information on the Company"). Additionally, we are a party to the Registration Rights Agreement, as amended, with Oaktree, affiliates of Mr. Petros Pappas, York and Augustea, see "Item 7. Major Shareholders and Related Party Transactions—B. Related Party Transactions." The acquisition agreement with E.R. (as defined below under "Item 4. Information on the Company") also provides E.R. with certain registration rights. The Registration Rights Agreement and the acquisition agreement with E.R. provide certain demand registration rights and shelf registration rights to Oaktree, affiliates of Mr. Petros Pappas, York, Augustea and E.R. in respect of common shares held by them, subject to certain conditions. In the event that we register additional common shares for sale to the public, we will be required to give notice to Oaktree, affiliates of Mr. Petros Pappas, York, Augustea and E.R. of our intention to effect such registration and, subject to certain limitations, we will be required to include common shares held by those holders in such registration. The resale of these common shares in addition to the offer and sale of the other securities included in such registration statements may have an adverse effect on the market price of our common shares. If Oaktree, affiliates of Mr. Petros Pappas, York, Augustea or E.R. were to sell large blocks of our common shares or the perception that such sales could occur, the market price of our common shares could drop significantly, it could become difficult for us to raise funds through future offerings of our common shares or acquire other businesses using our common shares as consideration.

Anti-takeover provisions in our organizational documents could have the effect of discouraging, delaying or preventing a merger or acquisition, or could make it difficult for our shareholders to replace or remove our current board of directors, which could adversely affect the market price of our common shares.

Several provisions of our Articles of Incorporation and our Bylaws could make it difficult for our shareholders to change the composition of our board of directors in any one year, preventing them from changing the composition of management. In addition, the same provisions may discourage, delay or prevent a merger or acquisition that

shareholders may consider favorable. These provisions include:

- authorizing our board of directors to issue “blank check” preferred stock without shareholder approval;
- providing for a classified board of directors with staggered, three-year terms;
- establishing certain advance notice requirements for nominations for election to our board of directors or for proposing matters that can be acted on by shareholders at shareholder meetings;

Table of Contents

- prohibiting cumulative voting in the election of directors;
- limiting the persons who may call special meetings of shareholders;
- authorizing the removal of directors only for cause and only upon the affirmative vote of the holders of a majority of the outstanding shares of our common shares entitled to vote for the directors; and
- establishing supermajority voting provisions with respect to amendments to certain provisions of our Articles of Incorporation and our Bylaws.

These anti-takeover provisions could substantially impede the ability of public shareholders to benefit from a change in control and, as a result, may adversely affect the market price of our common shares and your ability to realize any potential change of control premium.

Item 4. Information on the Company

A. History and Development of the Company

We, Star Bulk Carriers Corp., were incorporated in the Marshall Islands on December 13, 2006. Our executive offices are located at c/o Star Bulk Management Inc., 40 Agiou Konstantinou Str., Maroussi 15124, Athens, Greece and its telephone number is 011-30-210-617-8400. Our registered office is located at Trust Company Complex, Ajeltake Road, Ajeltake Island, Majuro, Marshall Islands, MH 96960.

Star Maritime Acquisition Corp. (“Star Maritime”), was organized under the laws of the State of Delaware on May 13, 2005 as a blank check company formed to acquire, through a merger, capital stock exchange, asset acquisition or similar business combination, one or more assets or target businesses in the shipping industry. On December 21, 2005, Star Maritime consummated its initial public offering. Star Maritime’s common stock and warrants started trading on the American Stock Exchange under the symbols “SEA” and “SEA.WS,” respectively, on December 21, 2005.

On January 12, 2007, Star Maritime and Star Bulk entered into definitive agreements to acquire a fleet of eight dry bulk carriers, referred to as the initial fleet.

On November 2, 2007, the Commission declared effective our joint proxy/registration statement filed on Forms F-1/F-4 and on November 27, 2007, we obtained shareholders’ approval for the acquisition of the initial fleet and for effecting a merger (the “Redomiciliation Merger”) as a result of which Star Maritime merged into Star Bulk with Star Maritime merging out of existence and Star Bulk being the surviving entity. The Redomiciliation Merger became effective on November 30, 2007, and the common shares and warrants of Star Maritime ceased trading on the American Stock Exchange under the symbols SEA and SEA.WS, respectively. Our common shares and warrants started trading on the Nasdaq Global Select Market on December 3, 2007, under the ticker symbols “SBLK” and “SBLKW,” respectively. All of our warrants expired worthless and ceased trading on the Nasdaq Global Select Market on March 15, 2010. We began our operations on December 3, 2007, with the delivery of our first vessel Star Epsilon.

2014 Transactions

On February 25, 2014, we acquired 33% of the total outstanding common stock of Interchart, a Liberian company affiliated with family members of our Chief Executive Officer, which acts as chartering broker to our fleet, for a total consideration of \$0.2 million in cash and 4,520 restricted common shares issued on April 1, 2014. The ownership interest was purchased from an entity affiliated with family members of our Chief Executive Officer, including our former director Ms. Milena-Maria Pappas. We and Interchart are parties to a services agreement for chartering, brokering and commercial services for our vessels for a monthly fee of \$0.3 million. The agreement following

consecutive renewals is currently effective until December 31, 2019.

35

Table of Contents

On July 11, 2014, we completed a merger (the “Merger”), pursuant to which we acquired Oceanbulk Shipping LLC (“Oceanbulk Shipping”) and Oceanbulk Carriers LLC (“Oceanbulk Carriers” and, together with Oceanbulk Shipping, “Oceanbulk”) from entities affiliated with family members of Mr. Petros Pappas, our Chief Executive Officer, and Oaktree Capital Management. Oceanbulk owned and operated a fleet of 12 dry bulk carrier vessels and owned contracts for the construction of 25 newbuilding dry bulk fuel-efficient Eco-type vessels at shipyards in Japan and China. The consideration paid by us in the Merger to the sellers of Oceanbulk was 9,679,153 common shares. Concurrently with the Merger, we acquired two Kamsarmax vessels (the “Heron Vessels”) from Heron Ventures Ltd. (“Heron”). On November 11, 2014, we entered into two separate agreements with Heron to acquire the two Heron Vessels, namely Star Gwyneth and Star Angelina, which were delivered to us on December 5, 2014. The cost for the acquisition of these vessels was determined based on the fair value of the 423,141 common shares, issued on July 11, 2014, in connection with the Heron Transaction, of \$25.1 million and \$25.0 million in cash payment which was financed by a secured term loan agreement with CiT Finance LLC in the amount of \$25.3 million (“the Heron Vessels Facility”). In addition, as part of the Merger we acquired the issued and outstanding shares of Dioriga Shipping Co. and Positive Shipping Company (collectively, the “Pappas Companies”), which were entities owned and controlled by affiliates of the family of Mr. Petros Pappas, our Chief Executive Officer. The Pappas Companies owned and operated a dry bulk carrier vessel, Tsu Ebisu and had a contract for the construction of a newbuilding dry bulk carrier vessel, Indomitable (ex-HN 5016), which was delivered to us in January 2015. The consideration paid for the Pappas Companies was 718,546 common shares. We refer to the above transactions as the “July 2014 Transactions.”

In connection with the July 2014 Transactions, Mr. Petros Pappas became our Chief Executive Officer, Mr. Hamish Norton became our President, Mr. Christos Begleris became our Co-Chief Financial Officer and Mr. Nicos Rescos became our Chief Operating Officer. Mr. Spyros Capralos resigned as our Chief Executive Officer but remained with us as our Non-Executive Chairman, and Mr. Zenon Kleopas (our former Chief Operating Officer) continued as our Executive Vice President—Technical Operations. Executive management for the year ended December 31, 2018 consists of our CEO, President, Co-CFOs and COO. For more information, see “Item 6. Directors, Senior Management and Employees.”

In connection with the July 2014 Transactions, we entered into a shareholders agreement with Oaktree and a shareholders agreement with Mr. Petros Pappas and his children, Ms. Milena-Maria Pappas (our former director) and Mr. Alexandros Pappas, and entities affiliated with them (“Pappas Shareholders”) (see “Item 7. Major Shareholders and Related Party Transactions—B. Related Party Transactions.”). We also entered into an Amended and Restated Registration Rights Agreement among us, Oaktree, affiliates of Mr. Petros Pappas and Monarch Alternative Capital LP (“Monarch”) (the “Registration Rights Agreement”). For more information regarding the terms of the Registration Rights Agreement, see “Item 7. Major Shareholders and Related Party Transactions—B. Related Party Transactions.”

On August 19, 2014, we entered into definitive agreements with Excel Maritime Carriers Ltd. (“Excel”) pursuant to which we acquired 34 operating dry bulk vessels, consisting of six Capesize vessels, 14 Kamsarmax vessels, 12 Panamax vessels and two Handymax vessels (the “Excel Vessels”). The transfers of the Excel Vessels were completed on a vessel-by-vessel basis, in general upon reaching port after their voyages and cargoes were discharged. We refer to the foregoing transactions, together, as the “Excel Transactions.” The total consideration for the Excel Transactions was 5,983,462 common shares and \$288.4 million in cash. We refer to the July 2014 Transactions and the Excel Transactions collectively, as the “2014 Transactions.”

As a result of the 2014 Transactions, we acquired 49 additional vessels and 26 additional newbuilding contracts.

2018 Transactions

On June 28, 2018, we completed the acquisition of three newbuilding Newcastlemax vessels (the “OCC Vessels”) with an aggregate capacity of 0.62 million dwt from Oceanbulk Container Carriers LLC (“OCC”), an entity affiliated with Oaktree Capital Management L.P. and with family members of our CEO, Mr. Petros Pappas (the “OCC Vessel

Acquisition”), for an aggregate consideration of 3,304,735 common shares.

Table of Contents

On July 6, 2018, we completed the acquisition of 15 operating vessels with an aggregate capacity of 1.48 million dwt (the “Songa Vessels”) from Songa Bulk ASA (“Songa”) for aggregate consideration of 13,725,000 common shares of the Company and \$145.0 million in cash (the “Songa Vessel Acquisition”). Following, and in connection with, this transaction, our common shares commenced trading on the Oslo Stock Exchange under the ticker “SBLK”. Companies controlled by Messrs. Arne Blystad, Magnus Roth and Herman Billung, represent approximately 29% of the outstanding shares of Songa. Upon completion of the Songa Vessel Acquisition, Mr. Arne Blystad was appointed to our board of directors as class C Director and Mr. Herman Billung joined our management team as Senior Vice President.

On August 3, 2018, we completed the acquisition of 16 vessels (the “Augustea Vessels”) with an aggregate capacity of 1.94 million dwt from entities affiliated with Augustea Atlantica SpA (“Augustea”) and York Capital Management (“York”) in an all-share transaction (the “Augustea Vessel Acquisition”). As consideration for the Augustea Vessel Acquisition, we issued 10,277,335 common shares to the sellers of the Augustea Vessels. Under the terms of the agreement governing the Augustea Vessel Acquisition, the consideration was determined based on the average vessel valuations by independent vessel appraisers. As part of the transaction, we assumed debt of approximately \$308.3 million. Upon completion of the Augustea Vessel Acquisition, Mr. Raffaele Zagari was appointed to our board of directors as a Class C Director.

In connection with the OCC Vessel Acquisition and the Augustea Vessel Acquisition, we amended the Registration Rights Agreement to add OCC, Augustea and York as parties. See “Item 7. Major Shareholders and Related Party Transactions—B. Related Party Transactions—Registration Rights Agreement.”

On August 27, 2018, we entered into a definitive purchase agreement for the acquisition of three operating dry bulk vessels (the “Step 1 Vessels”) within 2018 (the “Step 1 Acquisition”), and options to acquire additional four operating dry bulk vessels (the “Step 2 Vessels”) and, together with the Step 1 Vessels, the (“E.R Vessels”) in 2019 (the “Step 2 Acquisition”) from entities affiliated with E.R. Capital Holding GmbH & Cie. KG (“E.R.”). Pursuant to a three party novation agreement with charterers and E.R., the charterparties existing at the time of the deliveries of each of the E.R. Vessels were novated to Star Bulk. The Step 1 Vessels consisted of two Capesize and one Supramax vessel and the Step 2 Vessels consisted of four Capesize vessels. The first Step 1 Vessel was delivered in October 2018 and the remaining two of the Step 1 Vessels, Star Marianne and Star Janni were delivered to us in January 2019.

The Step 1 Vessels were acquired for an aggregate of approximately 1.34 million common shares of Star Bulk (the “Step 1 Consideration Shares”) and \$41.70 million in cash subject to adjustments for our cash, debt and remaining capital expenditures as of one business day prior to the delivery date of each of the Step 1 Vessels. In relation to the Step 2 Vessels, E.R. granted us a separate call option to acquire each of the four Step 2 Vessels for an aggregate exercise price of \$115.39 million or \$28.85 million per Step 2 Vessel (the “Call Options”), exercisable on April 1, 2019. Concurrently, we granted E.R. a separate put option to acquire each of the four Step 2 Vessels with an aggregate exercise price of \$105.39 million or \$26.35 million per Step 2 Vessel (the “Put Options”) exercisable by E.R. from April 2, 2019 to April 4, 2019 (inclusive), if we do not exercise the Call Options. The aggregate exercise price of the Call and Put Options is payable at our option in either, 2/3 cash and 1/3 common shares (the “Step 2 Consideration Shares”) or 100% cash. The number of Step 2 Consideration Shares to be issued to E.R. (if any) will be determined on the basis of the net asset value of the Company, which will be based on the average vessel valuations by independent vessel appraisers as of March 31, 2019 and will be subject to adjustments for our cash, debt and remaining capital expenditures as of one business day prior to the delivery date of each of the Step 2 Vessels. This transaction is collectively herein referred to as “E.R. Vessel Purchase Transaction.”

In connection with the E.R. Vessel Purchase Transaction, we granted E.R. certain demand registration rights and shelf registration rights.

We refer to the above transactions as the “2018 Transactions.” In connection with the 2018 Transactions, we entered into, amended or assumed a number of credit facilities. See “Item 5. Operating and Financial Review and Prospects – B. Liquidity and Capital Resources – Senior Secured Credit Facilities”.

Table of Contents

From time to time, in response to changing market conditions, we have disposed certain of our vessels (the majority of which were older vessels) and have sold, cancelled or transferred some of our newbuilding vessels. As a result, our fleet currently includes 108 operating vessels, with three additional newbuilding vessels under construction in China with expected deliveries in the first half of 2019, and is well-positioned to take advantage of any recovery in the dry bulk market.

B. Business overview

General

We are an international shipping company with extensive operational experience that owns and operates a fleet of dry bulk carrier vessels. Taking into consideration the sales of vessels Star Aurora and Star Kappa, discussed elsewhere herein, as well as the delivery of our three new building vessels, we will have a fleet of 109 vessels consisting of Newcastlemax, Capesize, mini- Capesize, Post Panamax, Kamsarmax, Panamax, Ultramax and Supramax vessels with a carrying capacity between 52,055 dwt and 209,537 dwt. Our vessels transport a broad range of major and minor bulk commodities, including ores, coal, grains and fertilizers, along worldwide shipping routes. Our highly experienced executive management team, with an extensive shipping industry experience, is led by Mr. Petros Pappas, who has more than 40 years of shipping industry experience and has managed more than 390 vessel acquisitions and dispositions.

As of February 28, 2019, our operating fleet of 108 vessels had an aggregate capacity of approximately 12.1 million dwt. We have also acquired contracts for the construction of three of the latest generation “Eco-type” vessels at a shipyard in China, which we define as vessels that are designed to be more fuel-efficient than standard vessels of similar size and age. As of February 28, 2019, the remaining payments for our three newbuilding vessels were expected to be \$90.8 million. The vessels are expected to be delivered between March 2019 and June 2019. We also had call options and sold respective put options on four Capesize vessels, with exercise dates in early April 2019.

Scrubber Retrofitting Program

The IMO announced on October, 2016 that as of January 1, 2020, there will be a cap on sulfur content in vessel air emissions globally, with the exhaust gas from burning bunker fuel being limited to 0.5% m/m sulfur content, instead of 3.5% m/m sulfur currently. From January 1, 2020 vessels will be required to remove sulfur from emissions through installing scrubbers or burning more expensive marine fuel with lower sulfur content. Our scrubber-equipped vessels will be able to continue using the lower-priced standard 3.5% sulfur marine bunker fuel, making them more desirable to charterers because of their lower total fuel costs compared to vessels not equipped with scrubbers, which will be forced to burn low-sulfur fuel (which we expect will be much more expensive). As such, we have decided to install scrubbers on the majority of our vessels in order to comply with this regulation (the “Scrubber Retrofitting Program”). We expect the Scrubber Retrofitting Program will be completed by early 2020. We expect the Scrubber Retrofitting Program will cost an aggregate of \$173.9 million. As of February 28, 2019, we have entered into agreements to finance \$134.2 million of these costs with the proceeds of new indebtedness.

We have decided to install scrubbers on the majority of our vessels, which we are financing, in part, with the proceeds of new indebtedness and believe will increase our competitive advantage commercially making our fleet more attractive to charterers and cargo owners. As of December 31, 2018, the remaining payments under our Scrubber Retrofitting Program are expected to be \$141.0 million and will be made through 2020 when the installation will be completed.

As of February 28, 2019, we had \$160.9 million of cash on hand and we had obtained commitments for \$225.6 million, in the form of secured credit facilities or lease arrangements to finance our newbuilding and Scrubber Retrofitting Program discussed above. Taking into consideration the sales of vessels Star Aurora and Star Kappa,

discussed elsewhere herein, as well as the delivery of our three new building vessels, by end of June 2019, we expect our fleet to consist of 109 wholly owned vessels, with an average age of 8.0 years and an aggregate capacity of 12.5 million dwt. On a fully delivered basis and based on publicly available information, we believe our fleet will make us one of the largest U.S. publicly traded dry bulk shipping companies by deadweight tonnage.

Table of Contents

Our Fleet

We have built a fleet through timely and selective acquisitions of secondhand and newbuilding vessels. Our fleet is well-positioned to take advantage of economies of scale in commercial, technical and procurement management. Because of the industry reputation and relationships of Mr. Pappas and our senior management, we have contracted with leading Japanese and Chinese shipyards for the construction of our newbuilding vessels. We have a large, modern, fuel-efficient and high-quality fleet, which emphasizes the largest Eco-type Capesize and Newcastlemax vessels, built at leading shipyards and featuring the latest technology. As a result, we believe we will have an opportunity to capitalize on rising market demand during a period of reduced fleet growth, customer preferences for our ships and economies of scale, while enabling us to capture the benefits of fuel cost savings through spot time charters or voyage charters.

Each of our newly delivered and newbuilding vessels is equipped with a vessel remote monitoring system that provides data to monitor fuel and lubricant consumption and efficiency on a real-time basis. While these monitoring systems are generally available in the shipping industry, we believe that they can be cost-effectively employed only by large-scale shipping operators, such as us.

In addition, as discussed above, pursuant to our Scrubber Retrofitting Program, the majority of our fleet will be fitted with emissions scrubbers by January 2020 when the IMO sulfur cap regulations come into force. We believe that the new maritime regulations will have a strong impact on the maritime industry and will distinguish us from other dry bulk owners that will have conventional dry bulk vessels that will not be able to consume less expensive bunker fuel with higher sulfur content.

Our large size vessels, primarily transports minerals from the Americas and Australia to East Asia, particularly China, but also Japan, South Korea, Taiwan, Indonesia and Malaysia. Our lower size vessels carry minerals, grain products and steel between the Americas, Europe, Africa, Australia and Indonesia and from these areas to China, Japan, South Korea, Taiwan, the Philippines and Malaysia.

The following tables summarize key information about our operating and newbuilding fleet, as of February 28, 2019:

Operating Fleet

Wholly Owned Subsidiaries	Vessel Name	DWT	Date Delivered to Star Bulk	Year Built

Our Competitive Strengths

We believe that we possess a number of competitive strengths in our industry, including:

Table of Contents

We manage a high quality modern fleet

We own a modern, diverse, high quality fleet of dry bulk carrier vessels. As of February 28, 2019, our fleet consists of 108 vessels currently in the water, and three additional Newcastlemax newbuilding vessels to be delivered from SWS by the end of June 2019. Taking into consideration the sales of vessels Star Aurora and Star Kappa, discussed elsewhere herein, as well as the delivery of our three new building vessels by end of June, 2019, our fleet will consist of 109 vessels, with an aggregate carrying capacity of 12.5 million dwt and an average age of 8.0 years. We also hold call options and have sold corresponding put options on four modern Capesize vessels, with exercise dates in early April 2019. In addition, we expect the majority of the fleet to be scrubber fitted by January 2020.

We believe that owning a modern, high quality fleet reduces operating costs, improves safety and provides us with a competitive advantage in securing favorable time charters. We maintain the quality of our vessels by carrying out regular inspections, both while in port and at sea, and adopting a comprehensive maintenance program for each vessel. Furthermore, we take a proactive approach to safety and environmental protection through comprehensively planned maintenance systems, preventive maintenance programs and by retaining and training qualified crews.

Based on the scale, scope and quality of our fleet and our commercial and technical management capabilities and because much of our fleet is currently chartered on the spot market, we believe we are well-positioned to take advantage of the ongoing recovery in the dry bulk market.

In-house commercial and technical management of our fleet enable us to have very competitive operating expenses and high vessel maintenance standards

We conduct a significant portion of the commercial and technical management of our vessels in-house through our wholly owned subsidiaries, Star Bulk Management Inc., Star Bulk Shipmanagement Company (Cyprus) Limited and Starbulk S.A. We believe having control over the commercial and technical management provides us with a competitive advantage over many of our competitors by allowing us to more closely monitor our operations and to offer higher quality performance, reliability and efficiency in arranging charters and the maintenance of our vessels. We also believe that these management capabilities contribute significantly in maintaining a lower level of vessel operating and maintenance costs, without sacrificing the quality of our operations. Reflecting the continued quality of our vessels, as of February 28, 2019, we are considered as a top quality service provider and we are rated among the top five operators among approximately 70 shipowners by Rightship, a ratings agency that evaluates the condition of dry bulk vessels.

Focus on scrubber fitted fuel efficient vessels and new technology to improve vessel operations

Because of emissions standards that limit the sulfur content of vessel emissions that are expected to go into effect on January 1, 2020, through our Scrubber Retrofitting Program, we are investing in installing emissions scrubbers on the vast majority of our fleet. Our scrubber-equipped vessels will be able to continue using the lower-priced standard 3.5% sulfur marine bunker fuel, making them more desirable to charterers because of their lower total fuel costs compared to vessels not equipped with scrubbers, which will be forced to burn low-sulfur fuel (which we expect will be much more expensive). The lower fuel costs will give us the opportunity to generate advantageous TCE rates. In addition, our Eco-type vessels (all of our vessels built from 2014 onwards), enable us to take advantage of available fuel cost savings and operational efficiencies. Most of our operating vessels have been or are in the process of being equipped with sliding engine valves and alpha lubricators, which provide increased fuel efficiency and decreased lubricant consumption, and approximately 30% of our operating fleet has been equipped with a sophisticated vessel remote monitoring system. The vessel remote monitoring system allows us to collect real-time information on the performance of critical on-board equipment, with a particular focus on fuel consumption and engine performance. Using this information, we are able to be proactive in identifying potential problems and to evaluate optimum operating parameters during various sea passage conditions. We also are able to compare actual vessel performance to

reported vessel performance and provide feedback to crews in real time, thereby reducing the likelihood of errors or omissions by our crews. The vessel remote monitoring system is designed to enhance our ability to manage the operations of our vessels, thereby increasing operational efficiency and reducing maintenance costs and off-hire time. Finally, because of the similarities between certain of our vessels, we can take advantage of efficiencies in crewing, training and spare parts inventory management and can apply technical and operational knowledge of one ship to its sister ships.

Table of Contents

Experienced management team with a strong track record in the shipping industry

Our company's leadership has considerable shipping industry expertise. Our founder and Chief Executive Officer, Mr. Pappas, has an established track record in the dry bulk industry, with more than 40 years of experience and more than 390 vessel acquisitions and dispositions. Mr. Pappas has extensive experience in operating and investing in shipping, including through his family's principal shipping operations and investment vehicle, Oceanbulk Maritime. Mr. Pappas also has extensive relationships in the shipping industry, and he has leveraged his deep relationships with shipbuilders to formulate our newbuilding program.

Mr. Hamish Norton, our President, is an executive of Oceanbulk Maritime and the Chief Financial Officer and Head of Corporate Development of Oceanbulk's joint ventures with Oaktree since 2012 with an extensive experience in the shipping industry. Prior to joining Oceanbulk Maritime, from 2007 through 2012, Mr. Norton was Managing Director and the Global Head of the Maritime Group at Jefferies LLC, and from 2000 to 2007, he was head of the shipping practice at Bear Stearns. Mr. Norton has advised in numerous capital markets and mergers and acquisitions transactions by shipping companies.

Mr. Christos Begleris, our Co-Chief Financial Officer, is an executive of Oceanbulk Maritime since 2013 and the Deputy Chief Financial Officer of Oceanbulk's joint ventures with Oaktree. He has been involved in the shipping industry since 2008 and has considerable banking and capital markets experience.

Mr. Simos Spyrou, our Co-Chief Financial Officer, has served as Chief Financial Officer of Star Bulk since September 2011. Mr. Spyrou also has approximately 14 years of experience in the Greek equity and derivative markets at the Hellenic Exchanges Group.

Mr. Nicos Rescos, our Chief Operating Officer, has served as the Chief Operating Officer of Oceanbulk Maritime since April 2010 and had served as the Commercial Director of Goldenport Holdings Inc. since 2000. He has been involved in the shipping industry in key commercial positions since 1993 and has strong expertise in the dry bulk, container and product tanker markets.

Mrs. Charis Plakantonaki, our Chief Strategy Officer, joined us in 2015. She has been involved in the shipping industry in key strategic planning positions since 2008 and has also extensive experience in strategic development projects for multinational companies across different industries.

For more information on our management team, see "Item 6. Directors, Senior Management and Employees - Directors, Senior Management and Employees."

Extensive relationships with customers, lenders, shipyards and other shipping industry participants

Through Mr. Pappas and our senior management team, we have strong global relationships with shipping companies, charterers, shipyards, brokers and commercial shipping lenders. Our senior management and chartering teams have a long track record in the voyage and time chartering of dry bulk ships, which we expect will have great benefit to us in increasing the profitability of our fleet. We believe that these relationships with these counterparties and our strong sale and purchase track record and reputation as a creditworthy counterparty should provide us with access to attractive asset acquisitions, chartering and ship financing opportunities. Mr. Pappas has also leveraged his deep relationships with various shipyards to enable us to implement our newbuilding program with vessels of high specification.

Table of Contents

Our Business Strategies

Our primary objectives are to grow our business profitably and to continue to grow as a successful owner and operator of dry bulk vessels. The key elements of our strategy are:

Capitalize on potential increases in charter rates for dry bulk shipping

The dry bulk shipping industry is cyclical in nature. The supply of dry bulk carriers is dependent on the delivery of new vessels and the removal of vessels from the global fleet, either through scrapping or loss, and the demand for dry bulk shipping is often dependent on economic conditions, and international trade. The recent historically low dry bulk charter rates seen in 2016 acted as a catalyst for ship owners, who scrapped a significant number of vessels, until equilibrium between demand and supply of vessels was achieved. Based on our analysis of industry dynamics, we believe that dry bulk charter rates will rise in the medium term due to historically low vessel deliveries. As of February 28, 2019, the global dry bulk carrier order book amounted to approximately 11.2% of the existing fleet at that time. During 2018, a total of 4.5 million dwt was scrapped, representing the lowest annual scrapping figure in a decade, as the dry bulk freight market improved. As of February 28, 2019, the year to date 2019 demolition rate is 1.5 million dwt, which represents a 36% increase over the demolition rate for the corresponding period in 2018 due to a series of dry bulk export disruptions and the US-China trade war having weighed on freight during the seasonally low first quarter. Historically, from 2006 to 2017, vessel annual demolition rate averaged 16.2 million dwt per year, with a high of 33.41 million dwt scrapped in 2012. Given the relatively low dry bulk orderbook and the upcoming IMO 2020 sulfur regulation, vessel supply is likely to be relatively constrained during the next two years. While the charter market remains at current levels, we intend to operate our vessels in the spot market under short-term time charter market or voyage charters in order to benefit from any future increases in charter rates and the increased attractiveness of our scrubber-equipped vessels as sulfur emissions standards go into effect on January 1, 2020.

Charter our vessels in an active and sophisticated manner

Our business strategy is centered on arranging voyage and short-term time charters for our vessels given the current market levels. This approach is also tailored specifically to the fuel efficiency of our younger vessels. While this process is more difficult and labor intensive than placing our vessels on longer-term time charters, it can lead to greater profitability, particularly for vessels that have lower fuel consumption than typical vessels. When operating a vessel on a voyage charter, we (as owner of the vessel) will incur fuel costs, and therefore, we are in a position to benefit from fuel savings (particularly for our Eco-type vessels). If charter market levels rise, we may employ part of our fleet in the long-term time charter market, while we may be able to more advantageously employ our newer Eco-type vessels in the voyage charter market and/or short-term time charters in order to capture the benefit of available fuel cost savings. Our large, diverse and high quality fleet provides scale to major charterers, such as iron ore miners, utility companies and commodity trading houses. On December 17, 2014, we announced the formation of a long-term strategic partnership with a significant iron ore mining company for the chartering of three Newcastlemax vessels, under an index-linked voyage charter for a five-year period. This arrangement allows us to take the full benefit of the vessels' increased cargo carrying capacity as well as potential savings arising from their fuel efficiency, as we will be compensated on a \$/ton basis, while being responsible for the voyage expenses of the vessels. We seek similar arrangements with other charterers, providing the scale required for the transportation of large commodity volumes over a multitude of trading routes around the world.

On January 25, 2016, we entered into a Capesize vessel pooling agreement ("CCL") with Bocimar International NV, Golden Ocean Group Limited and C Transport Holding Ltd. As of December 31, 2018, we operated eight of our Capesize dry bulk vessels as part of one combined CCL fleet. The CCL fleet consists of approximately 77 modern Capesize vessels and is being managed out of Singapore and Antwerp. Each vessel owner is responsible for the operating, accounting and technical management of its respective vessels. The objective of this pool is to provide improved scheduling ability through the joint marketing opportunity that CCL represents for our Capesize vessels,

with the overall aim of enhancing economic efficiencies.

On October 3, 2017, we formed Star Logistics LLC (“Star Logistics”) as a new subsidiary, through which we charter-in a number of third-party vessels on a short- to medium- term basis (usually not exceeding one year) to increase our operating capacity in order to satisfy our clients’ needs. The creation of Star Logistics has and is expected to further expand our commercial capability through additional commercial expertise on the Kamsarmax and geared bulk carriers (i.e. Ultramax and Supramax vessels). Moreover, Star Logistics provides us with access to considerable cargo flow and market information as it is staffed by an experienced team of shipping logistics professionals and is based in Geneva, Switzerland, giving us a significant presence in a main center of the dry bulk commodities market.

Table of Contents

Expand and renew our fleet through opportunistic acquisitions of high-quality vessels at attractive prices

As market conditions continue to improve, we may opportunistically acquire high-quality vessels at attractive prices that are accretive to our cash flow. We also look to opportunistically renew our fleet by replacing older vessels that have higher maintenance and survey costs and lower operating efficiency with newer vessels that have lower operating costs, fewer maintenance and survey requirements, lower fuel consumption and overall enhanced commercial attractiveness to our charterers. When evaluating acquisitions, we will consider and analyze, among other things, our expectations of fundamental developments in the dry bulk shipping industry sector, the level of liquidity in the resale and charter market, the cash flow earned by the vessel in relation to its value, its condition and technical specifications with particular regard to fuel consumption, expected remaining useful life, the credit quality of the charterer and duration and terms of charter contracts for vessels acquired with charters attached, as well as the overall diversification of our fleet and customers. We believe that these circumstances combined with our management's knowledge of the shipping industry may present an opportunity for us to continue to grow our fleet at favorable prices.

Maintain a strong balance sheet through moderate use of leverage

We finance our fleet, including future vessel acquisitions, with a mix of debt (subject to certain restrictions in our debt agreements) and equity, and we intend to maintain moderate levels of leverage over time, even though we may have the capacity to obtain additional financing. As of December 31, 2018, our debt to total capitalization ratio was approximately 49%. Charterers have increasingly favored financially solid vessel owners, and we believe that our balance sheet strength will enable us to access more favorable chartering opportunities, as well as give us a competitive advantage in pursuing vessel acquisitions from commercial banks and shipyards, which in our experience have recently displayed a preference for contracting with well-capitalized counterparties.

Competition

Demand for dry bulk carriers fluctuates in line with the main patterns of trade of the major dry bulk cargoes and varies according to their supply and demand. We compete with other owners of dry bulk carriers in the Newcastlemax, Capesize, mini-Capesize, Post Panamax, Panamax (including the Kamsarmax subcategory), Ultramax and Supramax size sectors. Ownership of dry bulk carriers is highly fragmented. We compete for charters on the basis of price, vessel location, size, age and condition of the vessel, as well as on our reputation as an owner and operator.

Customers

We have well-established relationships with major dry bulk charterers, which we serve by carrying a variety of cargoes over a multitude of routes around the globe. We charter out our vessels to first class iron ore miners, utilities companies, commodity trading houses and diversified shipping companies.

For the year ended December 31, 2018, we derived 15% of our voyage revenues from one of our customers.

Table of Contents

Seasonality

Demand for vessel capacity has historically exhibited seasonal variations and, as a result, fluctuations in charter rates. This seasonality may result in quarter-to-quarter volatility in our operating results for vessels trading in the spot market. The dry bulk sector is typically stronger in the fall and winter months in anticipation of increased consumption of coal and other raw materials in the northern hemisphere. Seasonality in the sector in which we operate could materially affect our operating results and cash flows.

Operations

In-house Management of the Fleet

Star Bulk Management, Star Bulk Shipmanagement Company (Cyprus) Limited and Starbulk S.A., three of our wholly-owned subsidiaries, perform the operational and technical management services for the majority of the vessels in our fleet, including chartering, marketing, capital expenditures, personnel, accounting, paying vessel taxes and maintaining insurance.

On October 3, 2017, we formed a new wholly owned subsidiary, Star Logistics. Star Logistics charters-in a number of third-party vessels on a short- to medium- term basis (usually not exceeding one year) to increase its operating capacity in order to satisfy its clients' needs. In addition, Star Logistics contributes to the expansion of the commercial capability of Star Bulk through additional commercial expertise and advanced tools on the Kamsarmax and geared bulk carriers. Star Logistics is based in Geneva, Switzerland.

As of December 31, 2018, we had 169 employees engaged in the day to day management of our fleet, including our executive officers, through Star Bulk Management Inc, Star Bulk Shipmanagement Company (Cyprus) Limited, Starbulk S.A. and Star Logistics. Star Bulk Management Inc., Star Bulk Shipmanagement Company (Cyprus) Limited, Starbulk S.A. and Star Logistics employ a number of additional shore-based executives and employees designed to ensure the efficient performance of our activities. We reimburse and/or advance funds as necessary to our in-house managers in order for them to conduct their activities and discharge their obligations, at cost.

Star Bulk Management Inc. is responsible for the management of the vessels. Star Bulk Management's responsibilities include, inter alia, locating, purchasing, financing and selling vessels, deciding on capital expenditures for the vessels, paying vessels' taxes, negotiating charters for the vessels, managing the mix of various types of charters, developing and managing the relationships with charterers and the operational and technical managers of the vessels. Star Bulk Management Inc. subcontracts certain vessel management services to Starbulk S.A.

Starbulk S.A. provides the technical and crew management of the majority of our vessels. Technical management includes maintenance, dry docking, repairs, insurance, regulatory and classification society compliance, arranging for and managing crews, appointing technical consultants and providing technical support.

Star Bulk Shipmanagement Company (Cyprus) Limited provides technical and operation management services in respect of 17 of our vessels. The management services include arrangement and supervision of dry docking, repairs, insurance, regulatory and classification society compliance, provision of crew, appointment of surveyors and technical consultants.

Crewing

Starbulk S.A. and Star Bulk Shipmanagement Company (Cyprus) Limited are responsible for recruiting, either directly or through a technical manager or a crew manager, the senior officers and all other crew members for the vessels in our fleet. Both companies have the responsibility to ensure that all seamen have the qualifications and

licenses required to comply with international regulations and shipping conventions, and that the vessels are manned by experienced and competent and trained personnel. Starbulk S.A. and Star Bulk Shipmanagement Company (Cyprus) Limited are also responsible for insuring that seafarers' wages and terms of employment conform to international standards or to general collective bargaining agreements to allow unrestricted worldwide trading of the vessels and provides the crewing management for all the vessels in our fleet.

Table of Contents

Procurement

As of January 1, 2015, we engaged Ship Procurement Services S.A. (“SPS”), a third-party company, to provide to our fleet certain procurement services at a daily fee of \$295 per vessel.

Outsourced Management of the fleet

Following the completion of the Songa Vessel Purchase Transaction, we appointed Songa Shipmanagement Ltd, an entity affiliated with certain of the sellers of the corresponding transaction and specifically with one of our directors, Mr. Blystad (see Item 6. Directors, Senior Management and Employees, A. Directors, Senior Management and Employees) as the technical manager of certain of our vessels.

Following the completion of the Augustea Vessel Purchase Transaction, we appointed Augustea Technoservices Ltd., an entity affiliated with certain of the sellers of the corresponding transaction and specifically with one of the Company’s directors, Mr. Zagari (see Item 6. Directors, Senior Management and Employees, A. Directors, Senior Management and Employees) as the technical manager of certain of our vessels.

During 2018, we have also appointed Equinox Maritime Ltd, Zeaborn GmbH & Co. KG and Technomar Shipping Inc., which are third party management companies, to provide certain management services to our vessels.

Songa Shipmanagement Ltd, Augustea Technoservices Ltd, Equinox Maritime Ltd, Zeaborn GmbH & Co. KG and Technomar Shipping Inc., provide technical, operation and crewing management services to certain of the vessels in our fleet.

As of December 31, 2018, Songa Shipmanagement Ltd, Augustea Technoservices Ltd, Equinox Maritime Ltd, Zeaborn GmbH & Co. KG and Technomar Shipping Inc., provided management services to 33 of the 107 vessels of our fleet.

Basis for Statements

The International Dry Bulk Shipping Industry

Dry bulk cargo is cargo that is shipped in large quantities and can be easily stowed in a single hold with little risk of cargo damage. In 2018, based on preliminary figures, it is estimated that approximately 5.2 billion tons of dry bulk cargo was transported by sea.

The demand for dry bulk carrier capacity is derived from the underlying demand for commodities transported in dry bulk carriers, which is influenced by various factors such as broader macroeconomic dynamics, globalization trends, industry specific factors, geological structure of ores, political factors, and weather. The demand for dry bulk carriers is determined by the volume and geographical distribution of seaborne dry bulk trade, which in turn is influenced by general trends in the global economy and factors affecting demand for commodities. During the 1980s and 1990s seaborne dry bulk trade increased by 1-2% per annum. However, over the last decade, between 2008 and 2018, seaborne dry bulk trade increased at a compound annual growth rate of 4.0%, substantially influenced by the entrance of China in the World Trade Organization. The global dry bulk carrier fleet may be divided into seven categories based on a vessel’s carrying capacity. These main categories consist of:

Newcastlemax vessels, which are vessels with carrying capacities of between 200,000 and 210,000 dwt. These vessels carry both iron ore and coal and they represent the largest vessels able to enter the port of Newcastle in Australia. There are relatively few ports around the world with the infrastructure to accommodate vessels of this size.

Table of Contents

Capesize vessels, which are vessels with carrying capacities of between 100,000 and 200,000 dwt. These vessels generally operate along long-haul iron ore and coal trade routes. There are relatively few ports around the world with the infrastructure to accommodate vessels of this size.

Post-Panamax vessels, which are vessels with carrying capacities of between 90,000 and 100,000 dwt. These vessels tend to have a shallower draft and larger beam than a standard Panamax vessel, and a higher cargo capacity. These vessels have been designed specifically for loading high cubic cargoes from draft restricted ports, and they can transit the Panama Canal following the completion of its latest expansion.

Panamax vessels, which are vessels with carrying capacities of between 65,000 and 90,000 dwt. These vessels carry coal, grains, and, to a lesser extent, minor bulks, including steel products, forest products and fertilizers. Panamax vessels can pass through the Panama Canal.

Ultramax vessels, which are vessels with carrying capacities of between 60,000 and 65,000 dwt. These vessels carry grains and minor bulks and operate along many global trade routes. They represent the largest and most modern version of Supramax bulk carrier vessels (see below).

Handymax vessels, which are vessels with carrying capacities of between 35,000 and 60,000 dwt. The subcategory of vessels that have a carrying capacity of between 45,000 and 60,000 dwt are called Supramax. Handymax vessels operate along a large number of geographically dispersed global trade routes mainly carrying grains and minor bulks. Vessels below 60,000 dwt are sometimes built with on-board cranes enabling them to load and discharge cargo in countries and ports with limited infrastructure.

Handysize vessels, which are vessels with carrying capacities of up to 35,000 dwt. These vessels carry exclusively minor bulk cargo. Increasingly, these vessels have been operating along regional trading routes. Handysize vessels are well suited for small ports with length and draft restrictions that lack the infrastructure for cargo loading and unloading.

The supply of dry bulk carriers is dependent on the delivery of new vessels and the removal of vessels from the global fleet, either through scrapping or loss, and the demand for dry bulk shipping is often dependent on economic conditions, and international trade. The recent historically low dry bulk charter rates seen in 2016 acted as a catalyst for ship owners, who scrapped a significant number of vessels, until equilibrium between demand and supply of vessels was achieved. Based on our analysis of industry dynamics, we believe that dry bulk charter rates will rise in the medium term due to historically low vessel deliveries. As of February 28, 2019, the global dry bulk carrier order book amounted to approximately 11.2% of the existing fleet at that time. During 2018, a total of 4.5 million dwt was scrapped, representing the lowest annual scrapping figure in a decade, as the dry bulk freight market improved. As of February 28, 2019, the year to date 2019 demolition rate is 1.5 million dwt, which represents a 36% increase over the demolition rate for the corresponding period in 2018 due to a series of dry bulk export disruptions and the US-China trade war having weighed on freight during the seasonally low first quarter. Historically, from 2006 to 2017, vessel annual demolition rate averaged 16.2 million dwt per year, with a high of 33.41 million dwt scrapped in 2012. Given the relatively low dry bulk orderbook and the upcoming IMO 2020 sulfur regulation, vessel supply is likely to be relatively constrained during the next two years. While the charter market remains at current levels, we intend to operate our vessels in the spot market under short-term time charter market or voyage charters in order to benefit from any future increases in charter rates and the increased attractiveness of our scrubber-equipped vessels as sulfur emissions standards go into effect on January 1, 2020.

Charter rates paid for dry bulk carriers are primarily a function of the underlying balance between vessel supply and demand, although at times other factors may play a role. Furthermore, the pattern seen in charter rates is broadly similar across the different charter types and between the different dry bulk carrier categories. However, because demand for larger dry bulk carriers is affected by the volume and pattern of trade in a relatively small number of

commodities, charter rates (and vessel values) of larger ships tend to be more volatile than those for smaller vessels.

Table of Contents

In the time charter market, rates vary depending on the length of the charter period and vessel specific factors such as age, speed and fuel consumption. In the voyage charter market, rates are also influenced by cargo size, commodity, port dues and canal transit fees, as well as delivery and redelivery regions. In general, a larger cargo size is quoted at a lower rate per ton than a smaller cargo size. Routes with costly ports or canals generally command higher rates than routes with low port dues and no canals to transit.

Voyages with a load port within a region that includes ports where vessels usually discharge cargo or a discharge port within a region with ports where vessels load cargo are generally quoted at lower rates, because such voyages generally increase vessel utilization by reducing the unloaded portion (or ballast leg) that is included in the calculation of the return charter to a loading area.

Within the dry bulk shipping industry, the charter rate references most likely to be monitored are the freight rate indices issued by the Baltic Exchange, such as the Baltic Dry Index (“BDI”). These references are based on actual charter rates under charter entered into by market participants, as well as daily assessments provided to the Baltic Exchange by a panel of major shipbrokers.

The BDI declined from a high of 11,793 in May 2008 to a low of 290 in February 2016, which represents a decline of 98%. In 2018, the BDI ranged from a low of 948 in April 2018, to a high of 1,774 in July 2018. As of the last week of February 2019 the BDI stood at 649. Even though charter hire levels have increased compared to the lows of 2016, there can be no assurance that they will increase further, and the market could decline again.

Environmental and Other Regulations in the Shipping Industry

Government regulation and laws significantly affect the ownership and operation of our fleet. We are subject to international conventions and treaties, national, state and local laws and regulations in force in the countries in which our vessels may operate or are registered relating to safety and health and environmental protection including the storage, handling, emission, transportation and discharge of hazardous and non-hazardous materials, and the remediation of contamination and liability for damage to natural resources. Compliance with such laws, regulations and other requirements entails significant expense, including vessel modifications and implementation of certain operating procedures.

A variety of government and private entities subject our vessels to both scheduled and unscheduled inspections. These entities include the local port authorities (applicable national authorities such as the United States Coast Guard (“USCG”), harbor master or equivalent), classification societies, flag state administrations (countries of registry) and charterers, particularly terminal operators. Certain of these entities require us to obtain permits, licenses, certificates and other authorizations for the operation of our vessels. Failure to maintain necessary permits or approvals could require us to incur substantial costs or result in the temporary suspension of the operation of one or more of our vessels.

Increasing environmental concerns have created a demand for vessels that conform to stricter environmental standards. We are required to maintain operating standards for all of our vessels that emphasize operational safety, quality maintenance, continuous training of our officers and crews and compliance with United States and international regulations. We believe that the operation of our vessels is in substantial compliance with applicable environmental laws and regulations and that our vessels have all material permits, licenses, certificates or other authorizations necessary for the conduct of our operations. However, because such laws and regulations frequently change and may impose increasingly stricter requirements, we cannot predict the ultimate cost of complying with these requirements, or the impact of these requirements on the resale value or useful lives of our vessels. In addition, a future serious marine incident that causes significant adverse environmental impact could result in additional legislation or regulation that could negatively affect our profitability.

Table of Contents

International Maritime Organization

The International Maritime Organization, the United Nations agency for maritime safety and the prevention of pollution by vessels (the “IMO”), has adopted the International Convention for the Prevention of Pollution from Ships, 1973, as modified by the Protocol of 1978 relating thereto, collectively referred to as MARPOL 73/78 and herein as “MARPOL,” adopted the International Convention for the Safety of Life at Sea of 1974 (“SOLAS Convention”), and the International Convention on Load Lines of 1966 (the “LL Convention”). MARPOL establishes environmental standards relating to oil leakage or spilling, garbage management, sewage, air emissions, handling and disposal of noxious liquids and the handling of harmful substances in packaged forms. MARPOL is applicable to drybulk, tanker and LNG carriers, among other vessels, and is broken into six Annexes, each of which regulates a different source of pollution. Annex I relates to oil leakage or spilling; Annexes II and III relate to harmful substances carried in bulk in liquid or in packaged form, respectively; Annexes IV and V relate to sewage and garbage management, respectively; and Annex VI, lastly, relates to air emissions. Annex VI was separately adopted by the IMO in September of 1997.

Air Emissions

In September of 1997, the IMO adopted Annex VI to MARPOL to address air pollution from vessels. Effective May 2005, Annex VI sets limits on sulfur oxide and nitrogen oxide emissions from all commercial vessel exhausts and prohibits “deliberate emissions” of ozone depleting substances (such as halons and chlorofluorocarbons), emissions of volatile compounds from cargo tanks, and the shipboard incineration of specific substances. Annex VI also includes a global cap on the sulfur content of fuel oil and allows for special areas to be established with more stringent controls on sulfur emissions, as explained below. Emissions of “volatile organic compounds” from certain vessels, and the shipboard incineration (from incinerators installed after January 1, 2000) of certain substances (such as polychlorinated biphenyls, or PCBs) are also prohibited. We believe that all our vessels are currently compliant in all material respects with these regulations.

The MEPC, adopted amendments to Annex VI regarding emissions of sulfur oxide, nitrogen oxide, particulate matter and ozone depleting substances, which entered into force on July 1, 2010. The amended Annex VI seeks to further reduce air pollution by, among other things, implementing a progressive reduction of the amount of sulfur contained in any fuel oil used on board ships. On October 27, 2016, at its 70th session, the MEPC agreed to implement a global 0.5% m/m sulfur oxide emissions limit (reduced from 3.50%) starting from January 1, 2020. This limitation can be met by using low-sulfur compliant fuel oil, alternative fuels, or certain exhaust gas cleaning systems. Once the cap becomes effective, ships will be required to obtain bunker delivery notes and International Air Pollution Prevention (“IAPP”) Certificates from their flag states that specify sulfur content. Additionally, at MEPC 73, amendments to Annex VI to prohibit the carriage of bunkers above 0.5% sulfur on ships were adopted and will take effect March 1, 2020. These regulations subject ocean-going vessels to stringent emissions controls, and may cause us to incur substantial costs.

Sulfur content standards are even stricter within certain “Emission Control Areas,” or (“ECAs”). As of January 1, 2015, ships operating within an ECA were not permitted to use fuel with sulfur content in excess of 0.1%. Amended Annex VI establishes procedures for designating new ECAs. Currently, the IMO has designated four ECAs, including specified portions of the Baltic Sea area, North Sea area, North American area and United States Caribbean area. Ocean-going vessels in these areas will be subject to stringent emission controls and may cause us to incur additional costs. If other ECAs are approved by the IMO, or other new or more stringent requirements relating to emissions from marine diesel engines or port operations by vessels are adopted by the U.S. Environmental Protection Agency (“EPA”) or the states where we operate, compliance with these regulations could entail significant capital expenditures or otherwise increase the costs of our operations.

Amended Annex VI also establishes new tiers of stringent nitrogen oxide emissions standards for marine diesel engines, depending on their date of installation. At the MEPC meeting held from March to April 2014, amendments to

Annex VI were adopted which address the date on which Tier III Nitrogen Oxide (NO_x) standards in ECAs will go into effect. Under the amendments, Tier III NO_x standards apply to ships that operate in the North American and U.S. Caribbean Sea ECAs designed for the control of NO_x produced by vessels with a marine diesel engine installed and constructed on or after January 1, 2016. Tier III requirements could apply to areas that will be designated for Tier III NO_x in the future. At MEPC 70 and MEPC 71, the MEPC approved the North Sea and Baltic Sea as ECAs for nitrogen oxide for ships built after January 1, 2021. The EPA promulgated equivalent (and in some senses stricter) emissions standards in late 2009. As a result of these designations or similar future designations, we may be required to incur additional operating or other costs.

As determined at the MEPC 70, the new Regulation 22A of MARPOL Annex VI became effective as of March 1, 2018 and requires ships above 5,000 gross tonnage to collect and report annual data on fuel oil consumption to an IMO database, with the first year of data collection commencing on January 1, 2019. The IMO intends to use such data as the first step in its roadmap (through 2023) for developing its strategy to reduce greenhouse gas emissions from ships, as discussed further below.

Table of Contents

As of January 1, 2013, MARPOL made mandatory certain measures relating to energy efficiency for ships. All ships are now required to develop and implement Ship Energy Efficiency Management Plans (“SEEMPS”), and new ships must be designed in compliance with minimum energy efficiency levels per capacity mile as defined by the Energy Efficiency Design Index (“EEDI”). Under these measures, by 2025, all new ships built will be 30% more energy efficient than those built in 2014.

We may incur costs to comply with these revised standards. Additional or new conventions, laws and regulations may be adopted that could require the installation of expensive emission control systems and could adversely affect our business, results of operations, cash flows and financial condition.

Safety Management System Requirements

The SOLAS Convention was amended to address the safe manning of vessels and emergency training drills. The Convention of Limitation of Liability for Maritime Claims (the “LLMC”) sets limitations of liability for a loss of life or personal injury claim or a property claim against ship owners. We believe that our vessels are in substantial compliance with SOLAS. Owners’ compliance with LLMC requirements is covered under the Protection & Indemnity insurance.

Under Chapter IX of the SOLAS Convention, or the International Safety Management Code for the Safe Operation of Ships and for Pollution Prevention (the “ISM Code”), our operations are also subject to environmental standards and requirements. The ISM Code requires the party with operational control of a vessel to develop an extensive safety management system that includes, among other things, the adoption of a safety and environmental protection policy setting forth instructions and procedures for operating its vessels safely and describing procedures for responding to emergencies. We rely upon the safety management system that we and our technical management team have developed for compliance with the ISM Code. The failure of a vessel owner or bareboat charterer to comply with the ISM Code may subject such party to increased liability, may decrease available insurance coverage for the affected vessels and may result in a denial of access to, or detention in, certain ports.

The ISM Code requires that vessel operators obtain a safety management certificate for each vessel they operate. This certificate evidences compliance by a vessel’s management with the ISM Code requirements for a safety management system. No vessel can obtain a safety management certificate unless its manager has been awarded a document of compliance, issued by each flag state, under the ISM Code. We have obtained applicable documents of compliance for our offices and safety management certificates for all of our vessels for which the certificates are required by the IMO. The document of compliance and safety management certificate are renewed as required.

Regulation II-1/3-10 of the SOLAS Convention governs ship construction and stipulates that ships over 150 meters in length must have adequate strength, integrity and stability to minimize risk of loss or pollution. Goal-based standards amendments in SOLAS regulation II-1/3-10 entered into force in 2012, with July 1, 2016 set for application to new oil tankers and bulk carriers. The SOLAS Convention regulation II-1/3-10 on goal-based ship construction standards for bulk carriers and oil tankers, which entered into force on January 1, 2012, requires that all oil tankers and bulk carriers of 150 meters in length and above, for which the building contract is placed on or after July 1, 2016, satisfy applicable structural requirements conforming to the functional requirements of the International Goal-based Ship Construction Standards for Bulk Carriers and Oil Tankers (GBS Standards).

Amendments to the SOLAS Convention Chapter VII apply to vessels transporting dangerous goods and require those vessels be in compliance with the International Maritime Dangerous Goods Code (“IMDG Code”). Effective January 1, 2018, the IMDG Code includes (1) updates to the provisions for radioactive material, reflecting the latest provisions from the International Atomic Energy Agency, (2) new marking, packing and classification requirements for dangerous goods, and (3) new mandatory training requirements.

Table of Contents

The IMO has also adopted the International Convention on Standards of Training, Certification and Watchkeeping for Seafarers (“STCW”). As of February 2017, all seafarers are required to meet the STCW standards and be in possession of a valid STCW certificate. Flag states that have ratified SOLAS and STCW generally employ the classification societies, which have incorporated SOLAS and STCW requirements into their class rules, to undertake surveys to confirm compliance.

The IMO's Maritime Safety Committee and MEPC, respectively, each adopted relevant parts of the International Code for Ships Operating in Polar Water (the “Polar Code”). The Polar Code, which entered into force on January 1, 2017, covers design, construction, equipment, operational, training, search and rescue as well as environmental protection matters relevant to ships operating in the waters surrounding the two poles. It also includes mandatory measures regarding safety and pollution prevention as well as recommendatory provisions. The Polar Code applies to new ships constructed after January 1, 2017, and after January 1, 2018, ships constructed before January 1, 2017 are required to meet the relevant requirements by the earlier of their first intermediate or renewal survey.

Furthermore, recent action by the IMO's Maritime Safety Committee and United States agencies indicate that cybersecurity regulations for the maritime industry are likely to be further developed in the near future in an attempt to combat cybersecurity threats. For example, cyber-risk management systems must be incorporated by ship-owners and managers by 2021. This might cause companies to create additional procedures for monitoring cybersecurity, which could require additional expenses and/or capital expenditures. The impact of such regulations is hard to predict at this time.

Pollution Control and Liability Requirements

The IMO has negotiated international conventions that impose liability for pollution in international waters and the territorial waters of the signatories to such conventions. For example, the IMO adopted an International Convention for the Control and Management of Ships' Ballast Water and Sediments (the “BWM Convention”) in 2004. The BWM Convention entered into force on September 9, 2017. The BWM Convention requires ships to manage their ballast water to remove, render harmless, or avoid the uptake or discharge of new or invasive aquatic organisms and pathogens within ballast water and sediments. The BWM Convention's implementing regulations call for a phased introduction of mandatory ballast water exchange requirements, to be replaced in time with mandatory concentration limits, and require all ships to carry a ballast water record book and an international ballast Water management certificate.

On December 4, 2013, the IMO Assembly passed a resolution revising the application dates of BWM Convention so that the dates are triggered by the entry into force date and not the dates originally in the BWM Convention. This, in effect, makes all vessels delivered before the entry into force date “existing vessels” and allows for the installation of ballast water management systems on such vessels at the first International Oil Pollution Prevention (“IOPP”) renewal survey following entry into force of the convention. The MEPC adopted updated guidelines for approval of ballast water management systems (G8) at MEPC 70. At MEPC 71, the schedule regarding the BWM Convention's implementation dates was also discussed and amendments were introduced to extend the date existing vessels are subject to certain ballast water standards. Ships over 400 gross tons generally must comply with a “D-1 standard,” requiring the exchange of ballast water only in open seas and away from coastal waters. The “D-2 standard” specifies the maximum amount of viable organisms allowed to be discharged, and compliance dates vary depending on the IOPP renewal dates. Depending on the date of the IOPP renewal survey, existing vessels must comply with the D-2 standard on or after September 8, 2019. For most ships, compliance with the D-2 standard will involve installing on-board systems to treat ballast water and eliminate unwanted organisms. Ballast Water Management systems, which include systems that make use of chemical, biocides, organisms or biological mechanisms, or which alter the chemical or physical characteristics of the Ballast Water, must be approved in accordance with IMO Guidelines (Regulation D-3). Costs of compliance with these regulations may be substantial.

The cost of compliance with the BWM Convention could increase for ocean carriers and may have a material effect on our operations. Many countries already regulate the discharge of ballast water carried by vessels from country to country to prevent the introduction of invasive and harmful species via such discharges. The U.S., for example, requires vessels entering its waters from another country to conduct mid-ocean ballast exchange, or undertake some alternate measure, and to comply with certain reporting requirements.

The cost of compliance with the BWM Convention, cost of compliance could increase for ocean carriers and may have a material effect on our operations. Many countries already regulate the discharge of ballast water carried by vessels from country to country to prevent the introduction of invasive and harmful species via such discharges. The U.S., for example, requires vessels entering its waters from another country to conduct mid-ocean ballast exchange, or undertake some alternate measure, and to comply with certain reporting requirements.

Table of Contents

Anti Fouling Requirements

In 2001, the IMO adopted the International Convention on the Control of Harmful Anti fouling Systems on Ships, or the “Anti fouling Convention.” The Anti fouling Convention, which entered into force on September 17, 2008, prohibits the use of organotin compound coatings to prevent the attachment of mollusks and other sea life to the hulls of vessels. Vessels of over 400 gross tons engaged in international voyages will also be required to undergo an initial survey before the vessel is put into service or before an International Anti fouling System Certificate is issued for the first time; and subsequent surveys when the anti fouling systems are altered or replaced. We have obtained Anti fouling System Certificates for all of our vessels that are subject to the Anti fouling Convention.

Compliance Enforcement

Noncompliance with the ISM Code or other IMO regulations may subject the ship owner or bareboat charterer to increased liability, may lead to decreases in available insurance coverage for affected vessels and may result in the denial of access to, or detention in, some ports. The USCG and European Union authorities have indicated that vessels not in compliance with the ISM Code by applicable deadlines will be prohibited from trading in U.S. and European Union ports, respectively. As of the date of this report, each of our vessels is ISM Code certified. However, there can be no assurance that such certificates will be maintained in the future. The IMO continues to review and introduce new regulations. It is impossible to predict what additional regulations, if any, may be passed by the IMO and what effect, if any, such regulations might have on our operations.

United States Regulations

The U.S. Oil Pollution Act of 1990 and the Comprehensive Environmental Response, Compensation and Liability Act

The U.S. Oil Pollution Act of 1990 (“OPA”) established an extensive regulatory and liability regime for the protection and cleanup of the environment from oil spills. OPA affects all “owners and operators” whose vessels trade or operate within the U.S., its territories and possessions or whose vessels operate in U.S. waters, which includes the U.S.’s territorial sea and its 200 nautical mile exclusive economic zone around the U.S. The U.S. has also enacted the Comprehensive Environmental Response, Compensation and Liability Act (“CERCLA”), which applies to the discharge of hazardous substances other than oil, except in limited circumstances, whether on land or at sea. OPA and CERCLA both define “owner and operator” in the case of a vessel as any person owning, operating or chartering by demise, the vessel. Both OPA and CERCLA impact our operations.

Under OPA, vessel owners and operators are “responsible parties” and are jointly, severally and strictly liable (unless the spill results solely from the act or omission of a third party, an act of God or an act of war) for all containment and clean-up costs and other damages arising from discharges or threatened discharges of oil from their vessels, including bunkers (fuel). OPA defines these other damages broadly to include:

- (i) injury to, destruction or loss of, or loss of use of, natural resources and related assessment costs;
- (ii) injury to, or economic losses resulting from, the destruction of real and personal property;
- (iv) loss of subsistence use of natural resources that are injured, destroyed or lost;
- (iii) net loss of taxes, royalties, rents, fees or net profit revenues resulting from injury, destruction or loss of real or personal property, or natural resources;
- (v) lost profits or impairment of earning capacity due to injury, destruction or loss of real or personal property or natural resources; and
- (vi) net cost of increased or additional public services necessitated by removal activities following a discharge of oil, such as protection from fire, safety or health hazards, and loss of subsistence use of natural resources

Table of Contents

OPA contains statutory caps on liability and damages; such caps do not apply to direct cleanup costs. Effective December 21, 2015, the USCG adjusted the limits of OPA liability for non-tank vessels, edible oil tank vessels, and any oil spill response vessels, to the greater of \$1,100 per gross ton or \$939,800 (subject to periodic adjustment for inflation). These limits of liability do not apply if an incident was proximately caused by the violation of an applicable U.S. federal safety, construction or operating regulation by a responsible party (or its agent, employee or a person acting pursuant to a contractual relationship), or a responsible party's gross negligence or willful misconduct. The limitation on liability similarly does not apply if the responsible party fails or refuses to (i) report the incident where the responsible party knows or has reason to know of the incident; (ii) reasonably cooperate and assist as requested in connection with oil removal activities; or (iii) without sufficient cause, comply with an order issued under the Federal Water Pollution Act (Section 311 (c), (e)) or the Intervention on the High Seas Act.

CERCLA contains a similar liability regime whereby owners and operators of vessels are liable for cleanup, removal and remedial costs, as well as damages for injury to, or destruction or loss of, natural resources, including the reasonable costs associated with assessing the same, and health assessments or health effects studies. There is no liability if the discharge of a hazardous substance results solely from the act or omission of a third party, an act of God or an act of war. Liability under CERCLA is limited to the greater of \$300 per gross ton or \$5.0 million for vessels carrying a hazardous substance as cargo and the greater of \$300 per gross ton or \$500,000 for any other vessel. These limits do not apply (rendering the responsible person liable for the total cost of response and damages) if the release or threat of release of a hazardous substance resulted from willful misconduct or negligence, or the primary cause of the release was a violation of applicable safety, construction or operating standards or regulations. The limitation on liability also does not apply if the responsible person fails or refused to provide all reasonable cooperation and assistance as requested in connection with response activities where the vessel is subject to OPA.

OPA and CERCLA each preserve the right to recover damages under existing law, including maritime tort law. OPA and CERCLA both require owners and operators of vessels to establish and maintain with the USCG evidence of financial responsibility sufficient to meet the maximum amount of liability to which the particular responsible person may be subject. Vessel owners and operators may satisfy their financial responsibility obligations by providing a proof of insurance, a surety bond, qualification as a self-insurer or a guarantee. We comply and plan to comply going forward with the USCG's financial responsibility regulations by providing applicable certificates of financial responsibility.

The 2010 Deepwater Horizon oil spill in the Gulf of Mexico resulted in additional regulatory initiatives or statutes, including higher liability caps under OPA, new regulations regarding offshore oil and gas drilling, and a pilot inspection program for offshore facilities. However, several of these initiatives and regulations have been or may be revised. For example, the U.S. Bureau of Safety and Environmental Enforcement's ("BSEE") revised Production Safety Systems Rule ("PSSR"), effective December 27, 2018, modified and relaxed certain environmental and safety protections under the 2016 PSSR. Additionally, the BSEE released proposed changes to the Well Control Rule, which could roll back certain reforms regarding the safety of drilling operations, and the U.S. President proposed leasing new sections of U.S. waters to oil and gas companies for offshore drilling, expanding the U.S. waters that are available for such activity over the next five years. The effects of these proposals are currently unknown. Compliance with any new requirements of OPA and future legislation or regulations applicable to the operation of our vessels could impact the cost of our operations and adversely affect our business.

OPA specifically permits individual states to impose their own liability regimes with regard to oil pollution incidents occurring within their boundaries, provided they accept, at a minimum, the levels of liability established under OPA and some states have enacted legislation providing for unlimited liability for oil spills. Many U.S. states that border a navigable waterway have enacted environmental pollution laws that impose strict liability on a person for removal costs and damages resulting from a discharge of oil or a release of a hazardous substance. These laws may be more stringent than U.S. federal law. Moreover, some states have enacted legislation providing for unlimited liability for discharge of pollutants within their waters, although in some cases, states which have enacted this type of legislation

have not yet issued implementing regulations defining vessel owners' responsibilities under these laws. The Company intends to comply with all applicable state regulations in the ports where the Company's vessels call.

Table of Contents

We currently maintain pollution liability coverage insurance in the amount of \$1.0 billion per incident for each of our vessels. If the damages from a catastrophic spill were to exceed our insurance coverage, it could have an adverse effect on our business and results of operation.

Other United States Environmental Initiatives

The U.S. Clean Air Act of 1970 (including its amendments of 1977 and 1990) (“CAA”) requires the EPA to promulgate standards applicable to emissions of volatile organic compounds and other air contaminants. The CAA requires states to adopt State Implementation Plans, or SIPs, some of which regulate emissions resulting from vessel loading and unloading operations which may affect our vessels.

The U.S. Clean Water Act (“CWA”) prohibits the discharge of oil, hazardous substances and ballast water in U.S. navigable waters unless authorized by a duly-issued permit or exemption, and imposes strict liability in the form of penalties for any unauthorized discharges. The CWA also imposes substantial liability for the costs of removal, remediation and damages and complements the remedies available under OPA and CERCLA. In 2015, the EPA expanded the definition of “waters of the United States” (“WOTUS”), thereby expanding federal authority under the CWA. Following litigation on the revised WOTUS rule, in December 2018, the EPA and Department of the Army proposed a revised, limited definition of “waters of the United States.” The effect of this proposal on U.S. environmental regulations is still unknown.

The EPA and the USCG have also enacted rules relating to ballast water discharge, compliance with which requires the installation of equipment on our vessels to treat ballast water before it is discharged or the implementation of other port facility disposal arrangements or procedures at potentially substantial costs, and/or otherwise restrict our vessels from entering U.S. Waters. The EPA will regulate these ballast water discharges and other discharges incidental to the normal operation of certain vessels within United States waters pursuant to the Vessel Incidental Discharge Act (“VIDA”), which was signed into law on December 4, 2018 and will replace the 2013 Vessel General Permit (“VGP”) program (which authorizes discharges incidental to operations of commercial vessels and contains numeric ballast water discharge limits for most vessels to reduce the risk of invasive species in U.S. waters, stringent requirements for exhaust gas scrubbers, and requirements for the use of environmentally acceptable lubricants) and current Coast Guard ballast water management regulations adopted under the U.S. National Invasive Species Act (“NISA”), such as mid-ocean ballast exchange programs and installation of approved USCG technology for all vessels equipped with ballast water tanks bound for U.S. ports or entering U.S. waters. VIDA establishes a new framework for the regulation of vessel incidental discharges under Clean Water Act (CWA), requires the EPA to develop performance standards for those discharges within two years of enactment, and requires the U.S. Coast Guard to develop implementation, compliance, and enforcement regulations within two years of EPA’s promulgation of standards. Under VIDA, all provisions of the 2013 VGP and USCG regulations regarding ballast water treatment remain in force and effect until the EPA and U.S. Coast Guard regulations are finalized. Non-military, non-recreational vessels greater than 79 feet in length must continue to comply with the requirements of the VGP, including submission of a Notice of Intent (“NOI”) or retention of a PARI form and submission of annual reports. We have submitted NOIs for our vessels where required. Compliance with the EPA, U.S. Coast Guard and state regulations could require the installation of ballast water treatment equipment on our vessels or the implementation of other port facility disposal procedures at potentially substantial cost, or may otherwise restrict our vessels from entering U.S. waters.

European Union Regulations

In October 2009, the European Union amended a directive to impose criminal sanctions for illicit ship-source discharges of polluting substances, including minor discharges, if committed with intent, recklessly or with serious negligence and the discharges individually or in the aggregate result in deterioration of the quality of water. Aiding and abetting the discharge of a polluting substance may also lead to criminal penalties. The directive applies to all types of vessels, irrespective of their flag, but certain exceptions apply to warships or where human safety or that of

the ship is in danger. Criminal liability for pollution may result in substantial penalties or fines and increased civil liability claims. Regulation (EU) 2015/757 of the European Parliament and of the Council of 29 April 2015 (amending EU Directive 2009/16/EC) governs the monitoring, reporting and verification of carbon dioxide emissions from maritime transport, and, subject to some exclusions, requires companies with ships over 5,000 gross tonnage to monitor and report carbon dioxide emissions annually starting on January 1, 2018, which may cause us to incur additional expenses.

Table of Contents

The European Union has adopted several regulations and directives requiring, among other things, more frequent inspections of high-risk ships, as determined by type, age, and flag as well as the number of times the ship has been detained. The European Union also adopted and extended a ban on substandard ships and enacted a minimum ban period and a definitive ban for repeated offenses. The regulation also provided the European Union with greater authority and control over classification societies, by imposing more requirements on classification societies and providing for fines or penalty payments for organizations that failed to comply. Furthermore, the EU has implemented regulations requiring vessels to use reduced sulfur content fuel for their main and auxiliary engines. The EU Directive 2005/33/EC (amending Directive 1999/32/EC) introduced requirements parallel to those in Annex VI relating to the sulfur content of marine fuels. In addition, the EU imposed a 0.1% maximum sulfur requirement for fuel used by ships at berth in EU ports.

Greenhouse Gas Regulation

Currently, the emissions of greenhouse gases from international shipping are not subject to the Kyoto Protocol to the United Nations Framework Convention on Climate Change, which entered into force in 2005 and pursuant to which adopting countries have been required to implement national programs to reduce greenhouse gas emissions with targets extended through 2020. International negotiations are continuing with respect to a successor to the Kyoto Protocol, and restrictions on shipping emissions may be included in any new treaty. In December 2009, more than 27 nations, including the U.S. and China, signed the Copenhagen Accord, which includes a non-binding commitment to reduce greenhouse gas emissions. The 2015 United Nations Climate Change Conference in Paris resulted in the Paris Agreement, which entered into force on November 4, 2016 and does not directly limit greenhouse gas emissions from ships. On June 1, 2017, the U.S. President announced that the United States intends to withdraw from the Paris Agreement. The timing and effect of such action has yet to be determined, but the Paris Agreement provides for a four-year exit process.

At MEPC 70 and MEPC 71, a draft outline of the structure of the initial strategy for developing a comprehensive IMO strategy on reduction of greenhouse gas emissions from ships was approved. In accordance with this roadmap, in April 2018, nations at the MEPC 72 adopted an initial strategy to reduce greenhouse gas emissions from ships. The initial strategy identifies “levels of ambition” to reducing greenhouse gas emissions, including (1) decreasing the carbon intensity from ships through implementation of further phases of the EEDI for new ships; (2) reducing carbon dioxide emissions per transport work, as an average across international shipping, by at least 40% by 2030, pursuing efforts towards 70% by 2050, compared to 2008 emission levels; and (3) reducing the total annual greenhouse emissions by at least 50% by 2050 compared to 2008 while pursuing efforts towards phasing them out entirely. The initial strategy notes that technological innovation, alternative fuels and/or energy sources for international shipping will be integral to achieve the overall ambition. These regulations could cause us to incur additional substantial expenses.

The EU made a unilateral commitment to reduce overall greenhouse gas emissions from its member states from 20% of 1990 levels by 2020. The EU also committed to reduce its emissions by 20% under the Kyoto Protocol’s second period from 2013 to 2020. Starting in January 2018, large ships calling at EU ports are required to collect and publish data on carbon dioxide emissions and other information.

In the United States, the EPA issued a finding that greenhouse gases endanger the public health and safety, adopted regulations to limit greenhouse gas emissions from certain mobile sources, and proposed regulations to limit greenhouse gas emissions from large stationary sources. However, in March 2017, the U.S. President signed an executive order to review and possibly eliminate the EPA’s plan to cut greenhouse gas emissions. The EPA or individual U.S. states could enact environmental regulations that would affect our operations.

Any passage of climate control legislation or other regulatory initiatives by the IMO, the EU, the U.S. or other countries where we operate, or any treaty adopted at the international level to succeed the Kyoto Protocol or Paris Agreement, that restricts emissions of greenhouse gases could require us to make significant financial expenditures

which we cannot predict with certainty at this time. Even in the absence of climate control legislation, our business may be indirectly affected to the extent that climate change may result in sea level changes or certain weather events.

Table of Contents

International Labour Organization

The International Labor Organization (the “ILO”) is a specialized agency of the UN that has adopted the Maritime Labor Convention 2006 (“MLC 2006”). A Maritime Labor Certificate and a Declaration of Maritime Labor Compliance is required to ensure compliance with the MLC 2006 for all ships above 500 gross tons in international trade. We believe that all our vessels are in substantial compliance with and are certified to meet MLC 2006.

Vessel Security Regulations

Since the terrorist attacks of September 11, 2001 in the United States, there have been a variety of initiatives intended to enhance vessel security such as the U.S. Maritime Transportation Security Act of 2002 (“MTSA”). To implement certain portions of the MTSA, the USCG issued regulations requiring the implementation of certain security requirements aboard vessels operating in waters subject to the jurisdiction of the United States and at certain ports and facilities, some of which are regulated by the EPA.

Similarly, Chapter XI-2 of the SOLAS Convention imposes detailed security obligations on vessels and port authorities and mandates compliance with the International Ship and Port Facilities Security Code (“the ISPS Code”). The ISPS Code is designed to enhance the security of ports and ships against terrorism. To trade internationally, a vessel must attain an International Ship Security Certificate (“ISSC”) from a recognized security organization approved by the vessel’s flag state. Ships operating without a valid certificate may be detained, expelled from, or refused entry at port until they obtain an ISSC. The various requirements, some of which are found in the SOLAS Convention, include, for example, on-board installation of automatic identification systems to provide a means for the automatic transmission of safety-related information from among similarly equipped ships and shore stations, including information on a ship’s identity, position, course, speed and navigational status; on-board installation of ship security alert systems, which do not sound on the vessel but only alert the authorities on shore; the development of vessel security plans; ship identification number to be permanently marked on a vessel’s hull; a continuous synopsis record kept onboard showing a vessel’s history including the name of the ship, the state whose flag the ship is entitled to fly, the date on which the ship was registered with that state, the ship’s identification number, the port at which the ship is registered and the name of the registered owner(s) and their registered address; and compliance with flag state security certification requirements.

The USCG regulations, intended to align with international maritime security standards, exempt non-U.S. vessels from MTSA vessel security measures, provided such vessels have on board a valid ISSC that attests to the vessel’s compliance with the SOLAS Convention security requirements and the ISPS Code. Future security measures could have a significant financial impact on us. We intend to comply with the various security measures addressed by MTSA, the SOLAS Convention and the ISPS Code.

The cost of vessel security measures has also been affected by the escalation in the frequency of acts of piracy against ships, notably off the coast of Somalia, including the Gulf of Aden and Arabian Sea area. Substantial loss of revenue and other costs may be incurred as a result of detention of a vessel or additional security measures, and the risk of uninsured losses could significantly affect our business. Costs are incurred in taking additional security measures in accordance with Best Management Practices to Deter Piracy, notably those contained in the BMP5 industry standard.

Inspection by Classification Societies

The hull and machinery of every commercial vessel must be classed by a classification society authorized by its country of registry. The classification society certifies that a vessel is safe and seaworthy in accordance with the applicable rules and regulations of the country of registry of the vessel and SOLAS. Most insurance underwriters make it a condition for insurance coverage and lending that a vessel be certified “in class” by a classification society which is a member of the International Association of Classification Societies, the IACS. The IACS has adopted

harmonized Common Structural Rules, or the Rules, which apply to oil tankers and bulk carriers constructed on or after July 1, 2015. The Rules attempt to create a level of consistency between IACS Societies. All of our vessels are certified as being “in class” by all the applicable Classification Societies (e.g., American Bureau of Shipping, Lloyd's Register of Shipping).

Table of Contents

A vessel must undergo annual surveys, intermediate surveys, drydockings and special surveys. In lieu of a special survey, a vessel's machinery may be on a continuous survey cycle, under which the machinery would be surveyed periodically over a five-year period. Every vessel is also required to be drydocked every 30 to 36 months for inspection of the underwater parts of the vessel. If any vessel does not maintain its class and/or fails any annual survey, intermediate survey, drydocking or special survey, the vessel will be unable to carry cargo between ports and will be unemployable and uninsurable which could cause us to be in violation of certain covenants in our loan agreements. Any such inability to carry cargo or be employed, or any such violation of covenants, could have a material adverse impact on our financial condition and results of operations.

Risk of Loss and Liability Insurance

General

The operation of any cargo vessel includes risks such as mechanical failure, physical damage, collision, property loss, cargo loss or damage and business interruption due to political circumstances in foreign countries, piracy incidents, hostilities and labor strikes. In addition, there is always an inherent possibility of marine disaster, including oil spills and other environmental mishaps, and the liabilities arising from owning and operating vessels in international trade. OPA, which imposes virtually unlimited liability upon shipowners, operators and bareboat charterers of any vessel trading in the exclusive economic zone of the United States for certain oil pollution accidents in the United States, has made liability insurance more expensive for shipowners and operators trading in the United States market. We carry insurance coverage as customary in the shipping industry. However, not all risks can be insured, specific claims may be rejected, and we might not be always able to obtain adequate insurance coverage at reasonable rates.

Hull and Machinery Insurance

We maintain hull and machinery and war risks insurance, which include the risk of actual or constructive total loss, for all of our vessels. Our vessels are each covered for hull and machinery risks up to at least their fair market value with deductibles of \$100,000-\$150,000 per vessel per incident. We also maintain increased value insurance for most of our vessels. Under this increased value insurance, in the event of total loss of a vessel, we will be able to recover the sum insured under the increased value policy in addition to the sum insured under the hull and machinery policy. Increased value insurance also covers excess liabilities which are not recoverable under our hull and machinery policy.

Protection and Indemnity Insurance

Protection and indemnity insurance is provided by mutual protection and indemnity associations, or P&I Associations, covers our third-party liabilities in connection with our shipping activities. This includes third-party liability and other related expenses of injury or death of crew members and other third parties, loss or damage to cargo, claims arising from collisions with other vessels, damage to other third-party property, pollution arising from oil or other substances, and salvage, towing and other related costs, including wreck removal. Protection and indemnity insurance is a form of mutual indemnity insurance, extended by protection and indemnity mutual associations, or "clubs."

Our current protection and indemnity insurance coverage for pollution is \$1 billion per vessel per incident and for seamen or crew risks is limited to \$3 billion. The 13 P&I Associations that comprise the International Group insure approximately 90% of the world's commercial tonnage and have entered into a pooling agreement to reinsure each association's liabilities. The International Group's website states that the Pool provides a mechanism for sharing all claims in excess of US\$ 10 million up to, currently, approximately US\$ 8.2 billion. As a member of a P&I Association, which is a member of the International Group, we are subject to calls payable to the associations based on our claim records as well as the claim records of all other members of the individual associations and members of the shipping pool of P&I Associations comprising the International Group.

Table of Contents

C. Organizational structure

As of December 31, 2018, we are the sole owner of all of the outstanding shares of the subsidiaries listed in Note 1 of our consolidated financial statements under Item 18. “Financial Statements.”

D. Property, plant and equipment

We do not own any real property. Our interests in the vessels in our fleet are our only material properties. See Item 4. “Business overview-General.”

Item 4A. Unresolved Staff Comments

None.

Item 5. Operating and Financial Review and Prospects

Overview

The following management’s discussion and analysis of financial condition and results of operations should be read in conjunction with “Item 3. Key Information - Selected Financial Data”, “Item 4. Business Overview” and our historical consolidated financial statements and accompanying notes included elsewhere in this report. This discussion contains forward-looking statements that reflect our current views with respect to future events and financial performance. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors, such as those set forth in “Item 3. Key Information - D. Risk Factors” and elsewhere in this report.

We are an international shipping company with extensive operational experience that owns and operates a fleet of dry bulk carrier vessels. Our vessels transport a broad range of major and minor bulk commodities, including ores, coal, grains and fertilizers, along worldwide shipping routes.

A. Operating Results

We deploy our vessels on a mix of short to medium time charters or voyage charters contracts of affreightment, or in dry bulk carrier pools, according to our assessment of market conditions. We adjust the mix of these charters to take advantage of the relatively stable cash flow and high utilization rates associated with medium to long-term time charters, or to profit from attractive spot charter rates during periods of strong charter market conditions, or to maintain employment flexibility that the spot market offers during periods of weak charter market conditions.

Key Performance Indicators

Our business consists primarily of:

- employment and operation of dry bulk vessels constituted our operating fleet; and
- management of the financial, general and administrative elements involved in the conduct of our business and ownership of dry bulk vessels constituted our operating fleet.

The employment and operation of our vessels require the following main components:

- vessel maintenance and repair;

·crew selection and training;

60

Table of Contents

- vessel spares and stores supply;
- contingency response planning;
- onboard safety procedures auditing;
- accounting;
- vessel insurance arrangement;
- vessel chartering;
- vessel security training and security response plans pursuant to the requirements of the ISPS Code;
- obtaining ISM Code certification and audits for each vessel within the six months of taking over a vessel;
- vessel hire management;
- vessel surveying; and
- vessel performance monitoring.

The management of financial, general and administrative elements involved in the conduct of our business and ownership of our vessels requires the following main components:

- management of our financial resources, including banking relationships (i.e., administration of bank loans and bank accounts);
- management of our accounting system and records and financial reporting;
- administration of the legal and regulatory requirements affecting our business and assets; and
- management of the relationships with our service providers and customers.

The principal factors that affect our profitability, cash flows and shareholders' return on investment include:

- charter rates and duration of our charters;
- age, condition and specifications of our vessels
- levels of vessel operating expenses;
- depreciation and amortization expenses;
- fuel costs;
- financing costs; and
- fluctuations in foreign exchange rates.

Table of Contents

We believe that the important measures for analyzing trends in the results of operations consist of the following:

Average number of vessels is the number of vessels that constituted our owned fleet for the relevant period, as measured by the sum of the number of days each operating vessel was part of our owned fleet during the period divided by the number of calendar days in that period.

Ownership days are the total number of calendar days each vessel in the fleet was owned by us for the relevant period.

Available days for the fleet are the Ownership days after subtracting off-hire days for major repairs, dry docking or special or intermediate surveys and scrubber installation.

Charter-in days are the total days that we charter-in third-party vessels.

Fleet utilization calculated by dividing (x) Available days plus Charter-in days by (y) Ownership days plus Charter-in days for the relevant period.

Time charter equivalent rate. Represents the weighted average daily TCE rates of our operating fleet (including owned fleet and fleet under charter-in arrangements) (please refer below for its detailed calculation).

The following table reflects certain operating data of our fleet, including our, ownership days, fleet utilization and TCE rates for the periods indicated:

(TCE rates expressed in U.S. Dollars)

	Year ended December 31 , 2016	Year ended December 31 , 2017	Year ended December 31 , 2018
Average number of vessels	69.8	69.6	87.7
Number of vessels in operation (as of the last day of the periods reported)	67	71	107
Average age of operational fleet (in years)	7.7	8.2	8.0
Ownership days	25,534	25,387	32,001
Available days	24,623	25,272	31,614
Charter-in days	366	428	5,089
Fleet utilization	96	% 100	% 99
Time charter equivalent rate (TCE rate)	\$ 6,208	\$ 10,393	\$ 13,768
Voyage revenues	\$ 221,987	\$ 327,892	\$ 651,561

Time Charter Equivalent Rate (TCE rate)

Time charter equivalent rate (the “TCE rate”) represents the weighted average daily time charter equivalent rates of our operating fleet (including owned fleet and fleet under charter in arrangements). TCE rate is a measure of the average daily net revenue performance of our vessels. Our method of calculating TCE rate is determined by dividing voyage revenues (net of voyage expenses, charter in hire expense, amortization of fair value of above/below market acquired time charter agreements and provision for onerous contracts, if any) by Available days for the relevant time period. Available days do not include the Charter-in days as per the definitions provided above. Voyage expenses primarily consist of port, canal and fuel costs that are unique to a particular voyage, which would otherwise be paid by the charterer under a time charter contract, as well as commissions. TCE rate is a standard shipping industry performance

measure used primarily to compare period to period changes in a shipping company's performance despite changes in the mix of charter types (i.e., voyage charters, time charters, bareboat charters and pool arrangements) under which its vessels may be employed between the periods. Our method of computing TCE rate may not necessarily be comparable to TCE rates of other companies due to differences in methods of calculation. The above reported TCE rate for the year ended December 31, 2017 was calculated excluding Star Logistics. We have excluded the revenues and expenses of Star Logistics because it was formed in October 2017, and its revenues and expenses had not yet normalized in that period, which obscure material trends of our TCE rate. As a result, we believe it is more informative to our investors to present the TCE rate excluding the revenues and expenses of Star Logistics for that period (December 31, 2017). The revenues and expenses of Star Logistics normalized in the year ended December 31, 2018 and are included for purposes of calculating the TCE rate. For the detailed calculation please see the table below with the reconciliation of Voyage Revenues to TCE rate. We include TCE rate, a non GAAP measure, as it provides additional meaningful information in conjunction with voyage revenues, the most directly comparable GAAP measure, and it assists our management in making decisions regarding the deployment and use of our operating vessels and assists investors and our management in evaluating our financial performance.

Table of Contents

The following table reflects the calculation and reconciliation of TCE rate to voyage revenues as reflected in the consolidated statement of operations (for the year ended December 31, 2017, the TCE rate was calculated excluding Star Logistics):

(In thousands of U.S. Dollars, except for TCE rates expressed in U.S. Dollars)

	Year ended December 31, 2016	Year ended December 31, 2017	Year ended December 31, 2018
Voyage revenues	\$ 221,987	\$ 327,892 a)	\$ 651,561
Less:			
Voyage expenses	(65,821)	(63,034)b)	(121,596)
Charter-in hire expenses	(3,550)	(2,197)c)	(92,896)
Amortization of fair value of below/above market acquired time charter agreements	254	-	(1,820)
Time charter equivalent revenues	\$ 152,870	\$ 262,661	\$ 435,249
Available days for fleet	24,623	25,272	31,614
Time charter equivalent rate (TCE)	\$ 6,208	\$ 10,393	\$ 13,768

a) Voyage revenues used to calculate TCE rate for the year ended December 31, 2017 consist of (1) reported voyage revenues of \$332.0 million minus (2) voyage revenues of \$4.1 million attributable to Star Logistics.

b) Voyage expenses used to calculate TCE rate for the year ended December 31, 2017 consist of (1) reported voyage expenses of \$64.7 million minus (2) voyage expenses of \$1.7 million attributable to Star Logistics.

c) Charter in hire expenses used to calculate TCE rate for the year ended December 31, 2017 consist of (1) reported charter in hire expenses of \$5.3 million minus (2) charter in hire expenses of \$3.1 million attributable to Star Logistics.

Voyage Revenues

Voyage revenues are driven primarily by the number of vessels in our operating fleet, the duration of our charters, the number of charter in days, the amount of daily charter hire or freight rates that our vessels earn under time and voyage charters, respectively, which, in turn, are affected by a number of factors, including our decisions relating to vessel acquisitions and disposals, the number of vessels chartered-in, the amount of time that we spend positioning our vessels, the amount of time that our vessels spend in dry dock undergoing repairs, maintenance and upgrade work, the age, condition and specifications of our vessels, levels of supply and demand in the seaborne transportation market.

Vessels operating on time charters for a certain period of time provide more predictable cash flows over that period of time, but can yield lower profit margins than vessels operating in the spot charter market during periods characterized by favorable market conditions. Vessels operating in the spot charter market generate revenues that are less predictable, but may enable us to capture increased profit margins during periods of improvements in charter rates, although we would be exposed to the risk of declining vessel rates, which may have a materially adverse impact on our financial performance. If we employ vessels on period time charters, future spot market rates may be higher or lower than the rates at which we have employed our vessels on period time charters.

Table of Contents

Vessel Voyage Expenses

Voyage expenses may include port and canal charges, agency fees, fuel (bunker) expenses and brokerage commissions payable to related and third parties. Voyage expenses are incurred for both our owned and chartered-in vessels during voyage charters, ballast voyages or when the vessel is unemployed. Bunker expenses, port and canal charges primarily increase in periods during which vessel are employed on voyage charters because these expenses are paid by the owners. Our voyage expenses primarily consist of bunkers cost, port expenses and commissions paid in connection with the chartering of our vessels.

Charter-in hire expenses

Charter-in hire expenses represent hire expenses for chartering-in third party vessels, either under time charters or voyage charters. Charter-in hire expenses are expected to continue to increase as the activity of Star Logistics expands.

Vessel Operating Expenses

Vessel operating expenses include crew wages and related costs, the cost of insurance and vessel registry, expenses relating to repairs and maintenance, the cost of spares and consumable stores, tonnage taxes, regulatory fees, technical management fees, lubricants and other miscellaneous expenses. Other factors beyond our control, some of which may affect the shipping industry in general, including for instance developments relating to market prices for crew wages, lubricants and insurance, may also cause these expenses to increase.

Dry Docking Expenses

Dry docking expenses relate to regularly scheduled intermediate survey or special survey dry docking necessary to preserve the quality of our vessels as well as to comply with international shipping standards and environmental laws and regulations. Dry docking expenses can vary according to the age of the vessel, the location where the dry docking takes place, shipyard availability and the number of days the vessel is under dry dock. We utilize the direct expense method, under which we expense all dry docking costs as incurred.

Depreciation

We depreciate our vessels on a straight-line basis over their estimated useful lives, which is determined to be 25 years from the date of their initial delivery from the shipyard. Depreciation is calculated based on a vessel's cost less the estimated residual value.

General and Administrative Expenses

We incur general and administrative expenses, including our onshore personnel related expenses, directors and executives' compensation, share based compensation, legal, consulting, audit and accounting expenses.

Management Fees

Management fees include fees paid to a third party as well as related parties providing certain procurement services to our fleet.

Interest and Finance Costs

We incur interest expense and financing costs in connection with our outstanding indebtedness under our existing loan facilities (including bareboat leases with purchase obligations), the 2019 Notes (while they were outstanding) and the 2022 Notes. We also incur financing costs in connection with establishing those facilities, which are presented as a direct deduction from the carrying amount of the relevant debt liability and amortize them to interest and financing costs over the term of the underlying obligation using the effective interest method.

Table of Contents

Gain / (Loss) on Derivative Financial Instruments

We may enter into interest rate swap transactions to manage interest costs and risk associated with changing interest rates with respect to our variable interest loans and credit facilities. Interest rate swaps are recorded in the balance sheet as either assets or liabilities, measured at their fair value based on Level 2 observable inputs of the fair value hierarchy, such as interest rate curves, with changes in such fair value recognized in earnings under (gain)/loss on derivative financial instruments, unless specific hedge accounting criteria are met.

Gain / (Loss) on Forward Freight Agreements and Bunker Swaps

From time to time, we may take positions in freight derivatives, including freight forward agreements (the “FFAs”) and freight options with an objective to utilize those instruments as economic hedges that are highly effective in reducing the risk on specific vessels trading in the spot market and to take advantage of short term fluctuations in the market prices. Upon the settlement, if the contracted charter rate is less than the average of the rates, as reported by an identified index, for the specified route and time period, the seller of the FFA is required to pay the buyer the settlement sum, being an amount equal to the difference between the contracted rate and the settlement rate, multiplied by the number of days in the specified period covered by the FFA. Conversely, if the contracted rate is greater than the settlement rate, the buyer is required to pay the seller the settlement sum. All of our FFAs are settled on a daily basis through reputable exchanges such as London Clearing House (LCH) or Singapore Exchange (SGX). Customary requirements for trading in FFAs include the maintenance of initial and variation margins based on expected volatility, open position and mark to market of the contracts. Freight options are treated as assets/liabilities until they are settled. Any such settlements by us or settlements to us under FFAs are recorded under (Gain)/Loss on forward freight agreements and bunker swaps.

Also, from time to time, we may enter into bunker swap contracts to manage our exposure to fluctuations of bunker prices associated with the consumption of bunkers by our vessels. Bunker swaps are agreements between two parties to exchange cash flows at a fixed price on bunkers, where volume, time period and price are agreed in advance. Our bunker swaps are settled through reputable clearing houses, including the London Clearing House. The fair value of bunker swaps is the estimated amount that we would receive or pay to terminate the swaps at the reporting date (Level 2 observable inputs of the fair value hierarchy). Bunker price differentials paid or received under the swap agreements are recognized under (Gain)/Loss on forward freight agreements and bunker swaps.

Interest Income

We earn interest income on our cash deposits with our lenders and other financial institutions.

Inflation

Inflation does not have a material effect on our expenses given current economic conditions. In the event that significant global inflationary pressures appear, these pressures would increase our operating, voyage, administrative and financing costs.

Foreign Exchange Fluctuations

Please see Item 11. “Quantitative and Qualitative Disclosures about Market Risk.”

Critical Accounting Policies

We make certain estimates and judgments in connection with the preparation of our consolidated financial statements, which are prepared in accordance with accounting principles generally accepted in the United States (“U.S. GAAP”),

that affect the reported amount of assets and liabilities, revenues and expenses and related disclosure of contingent assets and liabilities at the date of our consolidated financial statements. Actual results may differ from these estimates under different assumptions or conditions.

Table of Contents

Critical accounting policies are those that reflect significant judgments or uncertainties, and potentially result in materially different results under different assumptions and conditions. We have described below what we believe are the most critical accounting policies that involve a high degree of judgment and the methods of their application. For a description of all of our significant accounting policies, see Note 2 (Significant Accounting Policies) to our consolidated financial statements included herein for more information.

Impairment of long-lived assets: We follow guidance related to the impairment or disposal of long-lived assets, which addresses financial accounting and reporting for such impairment or disposal. The standard requires that long-lived assets held and used by an entity be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. The guidance calls for an impairment loss when the estimate of future undiscounted net operating cash flows, excluding interest charges, expected to be generated by the use and eventual disposition of the asset is less than its carrying amount to the extent that its carrying amount is higher than its fair market value. The impairment loss is determined by the difference between the carrying amount of the asset and the fair value of the asset. The Company determines the fair value of its assets based on management estimates and assumptions and by making use of available market data and taking into consideration agreed sale prices and third-party valuations. In this respect, management regularly reviews the carrying amount of each vessel, including newbuilding contracts, when events and circumstances indicate that the carrying amount of a vessel or a new building contract might not be recoverable (such as vessel sales and purchases, business plans, obsolescence or damage to the asset and overall market conditions).

When impairment indicators are present, we determine if the carrying value of each asset is recoverable by comparing (A) the future undiscounted net operating cash flows for each asset, using the Value-In-Use method, to (B) the carrying values for such asset. Our management's subjective judgment is required in making assumptions and estimates used in forecasting future operating results for this calculation. Such judgment is based on current market conditions, historical industry's and Company's specific trends, as well as expectations regarding future charter rates, vessel operating expenses, vessel's residual value and vessel's utilization over the remaining useful life of the vessel, which is assumed to be 25 years from its delivery from the shipyard. These estimates are also consistent with the plans and forecasts used by the management to conduct our business.

The future undiscounted projected net operating cash flows are determined by considering the charter revenues from existing time charters for the fixed vessel days and an estimated daily time charter equivalent rate for the unfixed days over the estimated remaining economic life of each vessel, net of brokerage and address commissions. Estimates of the daily time charter equivalent for the unfixed days are based on the current Forward Freight Agreement ("FFA") rates for the first three-year period, average of FFA rates and historical rate levels for the fourth year and historical average rate levels of similar size vessels for the period thereafter. The expected cash inflows from charter revenues are based on an assumed fleet utilization rate of approximately 98% for the unfixed days, also taking into account expected technical off-hire days. In assessing expected future cash outflows, management forecasts vessel operating expenses, which are based on our internal budget for the first annual period, and thereafter assume an annual inflation rate of up to 3% (escalating to such level during the first three-year period and capped at the thirteenth year thereafter), management fees, vessel expected maintenance costs (for dry docking and special surveys) as well as expected costs for the procurement and installation of Ballast Water Management System where applicable in order to comply with the relevant IMO regulations. The estimated salvage value of each vessel is \$300 per light weight ton, in accordance with our vessel depreciation policy. We use a probability weighted approach for developing estimates of future cash flows used to test our vessels for recoverability when alternative courses of action are under consideration (i.e. sale or continuing operation of a vessel). If our estimate of future undiscounted net operating cash flows for any vessel is lower than the vessel's carrying value, the carrying value is written down to the vessel's fair market value with a charge recorded in earnings.

Using the framework for estimating projected future undiscounted net operating cash flows described above, we completed our impairment analysis for the years ended December 31, 2016, 2017 and 2018, for those operating

vessels whose carrying values were above their respective market values and for those newbuilding vessels whose fully delivered cost was above their market value. For the year ended 2017, no asset impairment was necessary. An impairment loss of \$29.2 million and \$17.8 million was recognized for the years ended December 31, 2016 and 2018, which resulted primarily from our actual and intended vessel sales are further described elsewhere herein.

Table of Contents

Although we believe that the assumptions used to evaluate potential asset impairment are based on historical trends and are reasonable and appropriate, such assumptions are highly subjective. To minimize such subjectivity, our analysis for the year ended December 31, 2018, also involved sensitivity analysis to the model input we believe is most important, being the historical rates. In particular, in terms of our estimates for the charter rates for the unfixed period, we consider that the FFA as of December 31, 2018, which is applied in our model for the first three years period, approximates the levels of charter rates at which the Company could fix all of its unfixed vessels currently should management opted for a fully hedged chartering strategy over the next three years. We, however, sensitized our model with regards to freight rate assumptions for the unfixed period beyond the first three years. Our sensitivity analysis revealed that, to the extent the historical rates would not decline by more than a range of 16% to 56%, depending on the vessel, we would not require to recognize additional impairment.

Vessel Acquisitions and Depreciation: We record the value of our vessels at their cost (which includes acquisition costs directly attributable to the vessel and delivery expenditures, including pre-delivery expenses and expenditures made to prepare the vessel for its initial voyage) less accumulated depreciation. We depreciate our vessels on a straight-line basis over their estimated useful lives, after considering the estimated salvage value. We estimate the useful life of our vessels to be 25 years from the date of initial delivery from the shipyard, with secondhand vessels depreciated from the date of their acquisition through their remaining estimated useful life.

An increase in the useful life of a vessel or in its residual value would have the effect of decreasing the annual depreciation and extending it into later periods. A decrease in the useful life of a vessel or in its residual value would have the effect of increasing the annual depreciation and accelerating it into earlier periods.

A decrease in the useful life of the vessel may occur as a result of poor vessel maintenance, harsh ocean going and weather conditions, or poor quality of shipbuilding. When regulations place limitations over the ability of a vessel to trade on a worldwide basis, its remaining useful life is adjusted to end at the date such regulations preclude such vessel's further commercial use. Weak freight market rates result in owners scrapping more vessels, and scrapping them earlier in their lives due to the unattractive returns.

An increase in the useful life of the vessel may occur as a result of superior vessel maintenance performed, favorable ocean going and weather conditions, superior quality of shipbuilding, or high freight market rates, which result in owners scrapping the vessels later in their lives due to the attractive cash flows.

Fair value of above/below market acquired time charters: If time charters are assumed when vessels are acquired, we value any asset or liability arising from the market value of the time charters. The value of above- or below-market acquired time charters is determined by comparing existing charter rates in the acquired time charter agreements with the market rates for equivalent time charter agreements prevailing at the time the foregoing vessels are delivered. Such intangible assets or liabilities are recognized ratably as adjustments to revenues over the remaining term of the assumed time charter.

Trade accounts receivable, net: The amount shown as trade accounts receivable, at each balance sheet date, includes estimated receivables from customers net of any provision for doubtful debts. At each balance sheet date, we provide for doubtful accounts on the basis of identified doubtful receivables.

Derivatives: We designate our derivatives based upon guidance on accounting for derivative instruments and hedging activities, which establishes accounting and reporting standards for derivative instruments. The guidance on accounting for certain derivative instruments and certain hedging activities requires all derivative instruments to be recorded on the balance sheet as either an asset or liability measured at its fair value, with changes in fair value recognized in earnings, unless specific hedge accounting criteria are met.

Table of Contents

Hedge Accounting: If the instruments are eligible for hedge accounting, at the inception of a hedge relationship, we formally designate and document the hedge relationship to which we wish to apply hedge accounting and the risk management objective and strategy undertaken for the hedge. The documentation includes identification of the hedging instrument, hedged item or transaction, the nature of the risk being hedged and how we will assess the hedging instrument's effectiveness in offsetting exposure to changes in the hedged item's cash flows attributable to the hedged risk. Hedges are expected to be highly effective in achieving offsetting changes in cash flows or in the fair value of the hedged item and are assessed on an ongoing basis to determine whether they actually have been highly effective throughout the financial reporting periods for which they were designated. Contracts that meet the strict criteria for hedge accounting are accounted for as cash flow hedges. A cash flow hedge is a hedge of the exposure to variability in cash flows that is attributable to a particular risk associated with a recognized asset or liability, or a highly probable forecasted transaction that could affect profit or loss. A fair value hedge is a hedge of the exposure to changes in the fair value of a recognized asset or liability, or of an unrecognized firm commitment, which in each case is attributable to a particular risk. We discontinue prospectively fair value or cash flow hedge accounting if the hedging instrument expires or is sold, terminated or exercised and/or it no longer meets all the criteria for hedge accounting, or if we will discontinue fair value or cash flow hedge accounting.

Year ended December 31, 2018 compared to the year ended December 31, 2017

Voyage revenues net of Voyage expenses: Voyage revenues for the year ended December 31, 2018 increased to \$651.6 million from \$332.0 million for the year ended December 31, 2017. Voyage revenues net of Voyage expenses for the year ended December 31, 2018 increased to \$530.0 million from \$267.3 million for the year ended December 31, 2017. This increase was primarily attributable to the significant rise in charter rates as reflected in the BDI, which led to a TCE rate of \$13,768 for the year ended December 31, 2018, compared to a TCE rate of \$10,393 for the year ended December 31, 2017, representing a 32% increase, as well as an increase in the average number of vessels in our fleet to 87.7 in the year ended December 31, 2018, up from 69.6 in the year ended December 31, 2017 and the increase in charter-in days to 5,089 in the year ended December 31, 2018 from 428 in the year ended December 31, 2017. The increase in average number of vessels in 2018 was mainly due to the 2018 Transactions.

Charter-in hire expenses: For the years ended December 31, 2018 and 2017, charter hire expenses were \$92.9 million and \$5.3 million, respectively. The increase in charter in hire expenses was mainly due to an increase in charter in days to 5,089 in the year ended December 31, 2018 (attributable to the activities of our new subsidiary Star Logistics, which was created in the fourth quarter of 2017) from 428 in the year ended December 31, 2017 (attributable to the charter in of the vessel Astakos and the activities of Star Logistics).

Vessel operating expenses: For the years ended December 31, 2018 and 2017, vessel operating expenses were \$128.9 million and \$101.4 million, respectively. This increase was primarily due to the increase in the average number of vessels to 87.7 from 69.6. Vessel operating expenses for the years ended December 31, 2018 and 2017 include pre delivery and prejoining expenses of \$1.1 million and \$2.3 million, respectively, incurred in connection with the delivery of the new vessels in our fleet during each period.

Dry docking expenses: For the years ended December 31, 2018 and 2017, dry docking expenses were \$9.0 million and \$4.3 million, respectively. During the year ended December 31, 2018, eight of our vessels underwent and seven of them completed their periodic dry docking surveys during the same period. During the year ended December 31, 2017, four vessels underwent and completed their periodic dry docking surveys.

Depreciation: For the years ended December 31, 2018 and 2017, depreciation expense increased to \$102.9 million from \$82.6 million due to the increase in number of vessels in our owned fleet.

General and administrative expenses: For the years ended December 31, 2018 and 2017, general and administrative expenses were \$34.0 million and \$31.0 million, respectively. The formation of Star Logistics, the increase of the

number of our employees due to the recent expansion of our fleet and a higher USD/EUR exchange rate during the year ended December 31, 2018 resulted in higher payroll cost compared to the corresponding period in 2017. In addition, general and administrative expenses increased as a result of the listing of our common shares on the Oslo Stock Exchange.

Management Fees: For the years ended December 31, 2018 and 2017 management fees were \$11.3 million and \$7.5 million, respectively. The increase is attributable to the new management agreements entered into in connection with the 2018 Transactions as well as the increase in the number of our vessels.

Table of Contents

Impairment loss: For the years ended December 31, 2018 impairment loss of \$17.8 million was recognized (a) in anticipation of the sale of the Star Delta and its delivery to its new owners in early January 2019, which as of December 31, 2018, was classified as held for sale and (b) in connection with negotiated sales of two additional vessels built before 2005, Star Aurora and Star Kappa.

Interest and finance costs net of interest and other income/(loss): For the years ended December 31, 2018 and 2017, interest and finance costs net of interest and other income/(loss) were \$71.8 million and \$47.5 million, respectively. The increase is mainly attributable to the increase in (i) the weighted average balance of our outstanding indebtedness of \$1,234.6 million during the year ended December 31, 2018 compared to \$1,027.1 million for the same period in 2017 and (ii) LIBOR between the corresponding periods.

Year ended December 31, 2017 compared to the year ended December 31, 2016

Voyage revenues net of Voyage expenses: Voyage revenues for the year ended December 31, 2017 increased to \$332.0 million from \$222.0 million for the year ended December 31, 2016. For the year ended December 31, 2017, total voyage revenues net of voyage expenses were \$267.3 million, compared to \$156.2 million for the year ended December 31, 2016. This increase was primarily attributable to the significant rise in charter rates, which led to a TCE rate of \$10,393 (excluding Star Logistics) for the year ended December 31, 2017, compared to \$6,208 for the year ended December 31, 2016 as well as the increase in available days due to reactivation in 2017 of all vessels that were laid-up during the year ended December 31, 2016.

Charter-in hire expenses: For the year ended December 31, 2017 and 2016, charter hire expense was \$5.3 million and \$3.6 million, respectively. During the year ended December 31, 2017, charter hire expense included the expense for leasing back the vessel Astakos (which we sold in September 2015) until August 2017 and the expense for chartered-in third party vessels by Star Logistics. The corresponding expense for the year ended December 31, 2016 included only the expense for leasing back the vessel Astakos throughout the year.

Vessel operating expenses: For the year ended December 31, 2017 and 2016, vessel operating expenses were \$101.4 million and \$98.8 million, respectively. Vessel operating expenses for such periods include one-time expenses, consisting mainly of pre-delivery and pre-joining expenses, of \$2.3 million and \$1.8 million, respectively. Excluding these amounts, our average daily operating expenses per vessel for the years ended December 31, 2017 and 2016 were slightly increased mainly due to the reactivation in 2017 of all vessels that were laid-up during the year ended December 31, 2016.

Dry docking expenses: For the year ended December 31, 2017 and 2016, dry docking expenses were \$4.3 million and \$6.0 million, respectively. During the year ended December 31, 2017, four vessels underwent and completed their periodic dry docking surveys. During the same period in 2016, nine vessels underwent their periodic dry docking surveys, two of which were ongoing from December 2015.

General and administrative expenses: For the years ended December 31, 2017 and 2016, general and administrative expenses were \$31.0 million and \$24.6 million, respectively. These expenses for the year ended December 31, 2017 include share-based compensation expense of \$9.3 million and legal fees of \$1.0 million incurred in connection with the restructuring of our indebtedness. During the year ended December 31, 2016, general and administrative expenses included share-based compensation expense of \$4.2 million and professional advisory services of \$0.3 million that were not part of our ordinary course of business. Excluding the above mentioned share-based compensation expense and one-time expenses, our general and administrative expenses were slightly increased mainly due to the higher EUR/USD exchange rate during the year ended December 31, 2017 compared to the year ended December 31, 2016 which resulted in higher wage expenses.

Other operational gain: For the year ended December 31, 2017, we recognized other operational gain of \$2.9 million, consisting of an amount of \$2.1 million, resulting from a cash settlement of a commercial dispute and gain from hull and machinery insurance claims. During the year ended December 31, 2016, we recognized other operational gain of \$1.6 million, mainly consisting of gain from insurance claims.

Table of Contents

(Gain)/Loss on sale of vessel: During the year ended December 31, 2017 we recognized an aggregate net gain on sale of vessels of \$2.6 million in connection with the sale of the Star Eleonora and the Star Vanessa. During the year ended December 31, 2016, we recognized an aggregate net loss on sale of vessels of \$15.2 million in connection with the sale of 15 vessels. Total proceeds from these sales were \$380.2 million and \$15.2 million for the years ended December 31, 2016 and 2017, respectively.

Interest and finance costs net of interest and other income/(loss): For the years ended December 31, 2017 and 2016, interest and finance costs net of interest and other income/(loss) were \$47.5 million and \$40.3 million, respectively. The respective increase is attributable to: (i) the increase in LIBOR between the periods, (ii) the increase in the weighted average balance of our outstanding indebtedness to \$1,027.1 million during the year ended December 31, 2017 compared to \$978.8 million for the same period in 2016 and (iii) the decrease in interest capitalized from general debt in connection with the payments made for our newbuilding vessels to \$2.4 million from \$3.9 million, respectively, which is recognized as a credit to the interest and finance costs. The increase was partially offset by higher interest income earned due to higher outstanding cash balances held in time deposits during 2017.

Gain/(Loss) on derivative financial instrument, net: During the year ended December 31, 2017, we recorded a gain on derivative financial instruments of \$0.2 million, while during the year ended December 31, 2016 we recorded a loss on derivative financial instruments of \$2.1 million in connection with our interest rate swaps that do not qualify for hedge accounting. The reversal of the aforementioned loss into a gain is attributable to the increase in LIBOR during the respective periods.

Loss on debt extinguishment: During the year ended December 31, 2017 we recorded \$1.3 million of loss on debt extinguishment in connection with the non-cash write-off of unamortized deferred finance charges resulting from the cancellation of a previous loan commitment and the refinancing in full of our 2019 Notes in December 2017. During the year ended December 31, 2016, we recorded \$2.4 million of loss on debt extinguishment in connection with the non-cash write-off of unamortized deferred finance charges resulting from the mandatory prepayment in full of outstanding loan balances following the sale of certain vessels, as well as from the cancellation of certain committed loan amounts resulting from (i) the sale of certain newbuilding vessels upon their delivery from the shipyards and (ii) the termination of two newbuilding contracts agreed in February 2016.

Recent Accounting Pronouncements

For recent accounting pronouncements see Note 2 to our consolidated financial statements, including for the effects of the adoption of the new accounting guidance for revenue from contracts with customers (ASC 606) and presentation of restricted cash in the statements of cash flows (ASU 2016-18).

B. Liquidity and Capital Resources

Historically, our principal sources of funds have been equity provided by our shareholders through equity offerings, additional debt under secured credit facilities, debt securities or bareboat lease financings, cash flows from operations and vessel sales. Our principal uses of funds have been capital expenditures to establish, grow our fleet, maintain the quality of our dry bulk carriers and comply with international shipping standards, environmental laws and regulations, fund working capital requirements, make principal and interest payments on outstanding indebtedness and to make dividend payments when approved by the Board of Directors.

Our short-term liquidity requirements include paying operating costs, funding working capital requirements and the short-term equity portion of the cost of vessel acquisitions and vessel upgrades, interest and principal payments on outstanding indebtedness and maintaining cash reserves to strengthen our position against adverse fluctuations in operating cash flows. Our primary source of short-term liquidity is cash generated from operating activities, available cash balances and portions from debt and equity financings.

Our medium- and long-term liquidity requirements are funding the equity portion of our newbuilding vessel installments and secondhand vessel acquisitions, funding required payments under our vessel financing and other financing agreements and paying cash dividends when declared. Sources of funding for our medium- and long-term liquidity requirements include cash flows from operations, new debt or capital lease financing, sale and lease back arrangements, equity issuances and vessel sales.

Table of Contents

As of December 31, 2018, the total aggregate payments related to the construction of our remaining three newbuilding vessels were expected to be \$95.2 million, payable upon their delivery. Delivery is expected between March 2019 and June 2019 for all our three newbuilding vessels. In connection with the acquisition of the two E.R. Vessels Star Janni and Star Marianne total remaining payments as of December 31, 2018 were \$27.7 million which were financed through proceeds from two tranches under ABN \$115.0 million Facility.

Additionally, as of December 31, 2018, the total aggregate payments relating to the remaining Scrubber Retrofitting Program were \$141.0 million, payable through the completion of the program in 2020. As of December 31, 2018, we have entered into agreements to finance \$92.4 million of these costs with the proceeds of new indebtedness.

As of February 28, 2019, we had \$160.9 million of cash on hand and we had obtained commitments for \$225.6 million, in the form of secured credit facilities or lease arrangements to finance our newbuilding and Scrubber Retrofitting Program discussed above.

As of February 28, 2019, we had outstanding borrowings (including bareboat lease commitments and 2022 Notes) of \$1,458 million.

We believe that our current cash balance, together with committed financing and our operating cash flows to be generated over the short-term period will be sufficient to meet our 2019 liquidity needs and at least through the end of the first quarter of 2020, including funding the operations of our fleet, capital expenditure requirements and any other present financial requirements. However, we may seek additional indebtedness to refinance our existing debt or to finance future vessels acquisitions or replacements in order to maintain our strong cash position. Our ability to obtain bank financing or to access the capital markets for future offerings may be limited by our financial condition at the time of any such financing or offering, including the market value of our fleet, as well as by adverse market conditions resulting from, among other things, general economic conditions, weakness in the financial and equity markets, that are beyond our control.

We may fund possible growth through our cash balances, operating cash flows, additional long-term borrowing, capital leases, sale and lease back arrangements and the issuance of new equity. Our practice has been to acquire dry bulk carriers using a combination of funds from operations and bank debt or lease financing secured by mortgages on our dry bulk carriers. Our business is capital-intensive and its future success will depend on our ability to maintain a high-quality fleet through the acquisition of newer dry bulk carriers and the selective sale of older dry bulk carriers. These acquisitions will be principally subject to management's expectation of future market conditions as well as our ability to acquire dry bulk carriers on favorable terms. However our ability to obtain bank or lease financing or to access the capital markets for future offerings may be limited by our financial condition at the time of any such financing or offering, including the market value of our fleet, as well as by adverse market conditions resulting from, among other things, general economic conditions, weakness in the financial and equity markets, that are beyond our control.

Recent Equity Offerings and Senior Notes

On September 20, 2016, we issued and sold 11,976,745 common shares in an underwritten public offering, at a price of \$4.30 per share. The aggregate proceeds net of underwriting commissions were \$50.3 million, raised for general corporate purposes.

On January 26, 2017 and February 2, 2017, we issued and sold an aggregate 6,310,272 common shares pursuant to a private placement, at a price of \$8.15 per share. The aggregate proceeds to us, net of private placement agent's fees and expenses were approximately \$50.4 million, raised for general corporate purposes.

On November 9, 2017, we issued \$50.0 million aggregate principal amount of 8.30% Senior Notes due 2022 (the “2022 Notes”). The 2022 Notes mature in November 2022 and are senior, unsecured obligations of Star Bulk Carriers Corp. The 2022 Notes are not guaranteed by any of our subsidiaries. We used the proceeds of the 2022 Notes to redeem in full our issued and outstanding \$50.0 million aggregate principal amount of 8.00% Senior Notes due 2019 (the “2019 Notes”).

Table of Contents

Cash Flows

Cash and cash equivalents as of December 31, 2018 were \$204.9 million, compared to \$257.9 million as of December 31, 2017. We define working capital as current assets minus current liabilities, including the current portion of long-term debt and recognized leases. Our working capital surplus was \$66.7 million as of December 31, 2018, compared to \$93.4 million as of December 31, 2017.

As of December 31, 2017 and 2018, we were required to maintain minimum liquidity, not legally restricted, of \$51.4 million and \$53.5 million, respectively, which is included within “Cash and cash equivalents” in the 2017 and 2018 balance sheets, respectively. In addition, as of December 31, 2017 and 2018, we were required to maintain minimum liquidity, legally restricted, of \$15.6 million and of \$9.0 million, respectively, which is included within “Restricted cash” in the 2017 and 2018 balance sheets, respectively.

Year ended December 31, 2018 compared to the year ended December 31, 2017

Net Cash Provided By / (Used In) Operating Activities

Net cash provided by operating activities for the years ended December 31, 2017 and 2018 was \$82.8 million and \$169.0 million, respectively. The positive change was due to: the significant recovery of the dry bulk market during the year ended December 31, 2018, which resulted in a significantly higher TCE rate of \$13,768 compared to \$10,393 for the year ended December 31, 2017. The increase in TCE rates as well as the increase in the average number of vessels in our fleet is also reflected in the increase of our operating income (excluding non-cash items) to \$260.9 million for the year ended December 31, 2018 from \$128.0 million for the corresponding period in 2017. This positive effect was partially offset by (i) a net working capital outflow of \$20.9 million during the year ended December 31, 2018 compared to a net working capital inflow of \$1.7 million for the year ended December 31, 2017 and (ii) by higher net interest expense for the year ended December 31, 2018 compared to the corresponding period in 2017.

Net Cash Provided By / (Used In) Investing Activities

Net cash used in investing activities for the year, ended December 31, 2018 and 2017 was \$325.3 million and \$127.1 million, respectively. For the year ended December 31, 2018, net cash used in investing activities mainly consisted of \$328.6 million paid mainly for advances and other capitalized expenses for our newbuilding and newly acquired vessels delivered during the period as well as for the acquisition and installation of scrubber equipment for certain of our vessels, offset partially by hull and machinery insurance proceeds of \$3.3 million.

For the year ended December 31, 2017, net cash used in investing activities consisted of: \$143.7 million paid for advances and other capitalized expenses for our newbuilding and newly delivered vessels; offset partially by: i) \$15.2 million of proceeds from the sale of the Star Eleonora and the Star Vanessa; and ii) \$1.4 million of hull and machinery insurance proceeds.

Net Cash Provided By / (Used In) Financing Activities

Net cash provided by financing activities for the year ended December 31, 2018 and 2017 was \$96.7 million and \$122.0 million, respectively. For the year ended December 31, 2018, net cash provided by financing activities consisted of: \$988.0 million of proceeds from financing including financing from bareboat leases; offset partially by:

- (a) \$875.0 bareboat lease and debt obligations paid in aggregate in connection with:
 - (i) the regular amortization of outstanding vessel financings,
 - (ii) early repayment due to the refinancing of certain of our facilities;
 - (iii) payments under our cash sweep mechanism and

(iv) full repayment of deferred debt amounts;

72

Table of Contents

- (b) \$3.1 million used to repurchase 341,363 of our common shares in open market transactions; and
- (c) \$13.8 million of financing fees paid in connection with the new financing agreements.

For the year ended December 31, 2017, net cash provided by financing activities consisted of:

- (a) \$79.9 million increase in capital lease obligations, relating to two delivered newbuilding vessels under bareboat charters;
- (b) \$30.8 million of proceeds drawn under the newly entered loan facilities;
- (c) \$50.0 million proceeds from the issuance of our 8.30% senior unsecured notes due 2022, used to redeem in full our 2019 Notes in December 2017; and
- (d) \$50.4 million of proceeds, net of aggregate fees and expenses of \$1.0 million, from a private placement of our common shares, which was completed in February 2017; offset partially by:
 - (a) \$36.3 million paid in aggregate in connection with:
 - (i) the regular amortization of outstanding vessel financings,
 - (ii) early repayment due to the refinancing of a loan facility and due to the sale of a vessel;
 - (iii) payments to our lenders in accordance with the terms of our restructuring agreements;
 - (b) \$50.0 million used to redeem in full the 2019 Notes; and
 - (c) \$2.9 million of financing fees, paid in connection with
 - (i) the restructuring of our indebtedness,
 - (ii) a new facility entered during the corresponding period;
 - (iii) the refinancing of the Heron Vessels Facility and
 - (iv) the issuance of our 8.30% senior unsecured notes due 2022.

Year ended December 31, 2017 compared to the year ended December 31, 2016

Net Cash Provided By / (Used In) Operating Activities

Net cash provided by operating activities for the year ended December 31, 2017 was \$82.8 million, whereas net cash used in operating activities for the year ended December 31, 2016 was \$33.2 million. The increase is due to: (i) the significant recovery of the dry bulk market during the year ended December 31, 2017, which resulted in a significantly higher TCE rate of \$10,393 (excluding Star Logistics) compared to \$6,208 for the year ended December 31, 2016, which is also reflected in the increase of our operating income (excluding non-cash items) and (ii) a \$1.7 million working capital inflow during the year ended December 31, 2017 compared to a \$9.5 million working capital outflow for the year ended December 31, 2016. These positive factors were partially offset by higher net interest expense for the year ended December 31, 2017 compared to the corresponding period in 2016.

Net Cash Provided By / (Used In) Investing Activities

Net cash used in investing activities for the year, ended December 31, 2017 and 2016 was \$127.1 million and \$13.4 million, respectively. For the year ended December 31, 2017, net cash used in investing activities consisted of: (i) \$143.7 million paid for advances and other capitalized expenses for our newbuilding and newly delivered vessels; offset partially by (ii) \$15.2 million of proceeds from the sales of the Star Eleonora and the Star Vanessa; and (iii) \$1.4 million of hull and machinery insurance proceeds.

For the year ended December 31, 2016, net cash used in investing activities consisted of: (i) \$396.2 million paid for advances and other capitalized expenses for our newbuilding and newly delivered vessels; offset partially by (ii) \$380.2 million of proceeds from the sales of operating vessels and certain newbuilding vessels, which were sold upon their delivery from the shipyard; and (iii) \$2.5 million of hull and machinery insurance proceeds.

Table of Contents

Net Cash Provided By/ (Used In) Financing Activities

Net cash provided by financing activities for the year ended December 31, 2017 and 2016 was \$122.0 million and \$20.4 million, respectively. For the year ended December 31, 2017, net cash provided by financing activities consisted of: (i) \$79.9 million in increased capital lease obligations, relating to two delivered newbuilding vessels, under bareboat charters; (ii) \$30.8 million of proceeds drawn under a loan facility used for the financing of the Star Charis and the Star Suzanna and the refinancing of the Heron Vessels Facility; (iii) \$50.0 million proceeds from the issuance of our 2022 Notes, used to redeem in full our 2019 Notes, in December 2017 and (iv) \$51.5 million of proceeds, net of aggregate private placement agent's fees and other offering expenses of \$1.0 million, from a private placement of our common shares completed in February 2017; offset partially by (v) \$21.4 million paid in aggregate in connection with: (a) the regular amortization of outstanding vessel financings, (b) capital lease installments, (c) the partial prepayment of a loan facility due to the sale of the Star Eleonora (d) the prepayment to the banks of an amount equal to 20% of the equity issuance proceeds used for the acquisition of four vessels during the period and (e) the excess cash for the quarter ended September 30, 2017, paid pursuant to the cash sweep mechanism in our Supplemental Agreements; (vi) \$14.8 million used for the prepayment in full of the Heron Vessels Facility; (vii) \$50.0 used to redeem in full the 2019 Notes; and (viii) \$0.9 million of financing fees, paid in connection with the restructuring of our indebtedness and the new facility used for the financing of the Star Charis and the Star Suzanna and the refinancing of the Heron Vessels Facility and a further \$2.1 million of financing fees, paid in connection with the issuance of our 2022 Notes.

For the year ended December 31, 2016, net cash provided by financing activities consisted of: (i) \$86.4 million in increased capital lease obligations, relating to two delivered newbuilding vessels, under bareboat charters; (ii) an aggregate of \$65.4 million of proceeds from loan facilities used for the financing of delivery installments for four of our newbuilding vessels delivered during this period; (iii) \$50.6 million of proceeds, net of underwriting discounts and commissions and other offering expenses of \$0.3 million, from a public offering of our common shares completed in September 2016; offset partially by (iv) \$181.2 million paid in aggregate in connection with: (a) the regular amortization of outstanding vessel financings, (b) capital lease installments and (c) mandatory prepayment of several loan facilities due to the sale of the corresponding mortgaged vessels; and (v) \$0.5 million of financing fees, paid in connection with the restructuring of our indebtedness.

Senior Secured Credit Facilities

1. HSH Nordbank \$35.0 million Facility

On February 6, 2014, we entered into a secured term loan agreement (the "HSH Nordbank \$35.0 million Facility") with HSH Nordbank AG. for the financing of an aggregate amount of up to \$35.0 million. The borrowings under this new loan agreement were used to partially finance the acquisition cost of the vessels Star Challenger and Star Fighter. The HSH Nordbank \$35.0 million Facility is secured by a first priority mortgage over the financed vessels. The borrowers under the HSH Nordbank \$35.0 million Facility are the two vessel-owning subsidiaries that own the two vessels and Star Bulk Carriers Corp. is the guarantor. This facility matures in February 2021 and is repayable in 28 equal, consecutive, quarterly installments, commencing in May 2014, of \$0.3 million for each of the Star Challenger and Star Fighter, and a final balloon payment of \$8.8 million and \$9.3 million, payable together with the last installments for Star Challenger and Star Fighter, respectively.

On June 29, 2015, we and HSH Nordbank signed a supplemental agreement to amend certain covenants governing this facility until December 31, 2016.

Please see below for information regarding the related Supplemental Agreement executed pursuant to the restructuring letter agreements ("RLAs").

In December 2018, we refinanced the tranche relating to Star Fighter through proceeds from a sale and lease back transaction with Kyowa Sanso Co. Ltd. as further described below.

2. NIBC \$32.0 million Facility

On November 7, 2014, we and NIBC Bank N.V. entered into an agreement with respect to a credit facility (the “NIBC \$32.0 million Facility”) for the financing of an aggregate amount of up to \$32.0 million, which is available in two tranches of \$16.0 million, to partially finance the construction cost of two vessels, Star Acquarius and Star Pisces. We drew \$15.2 million for each vessel in July and August 2015, respectively concurrently with the delivery of the relevant vessels to us. Each tranche is repayable in consecutive quarterly installments of \$0.3 million, commencing three months after the drawdown of each tranche, plus a balloon payment of \$9.6 million and \$9.9 million, respectively, both due in November 2020. The NIBC \$32.0 million Facility is secured by a first priority cross collateralized mortgage over the financed vessels and general and specific assignments and is guaranteed by Star Bulk Carriers Corp.

Table of Contents

On June 29, 2015, we signed a supplemental letter with NIBC Bank N.V to amend certain financial covenants governing this facility until December 31, 2016.

Please see below for information regarding the related Supplemental Agreement executed pursuant to the RLAs.

3.DVB \$24.8 million Facility

On October 30, 2014, we entered into a credit facility with DVB Bank SE, Frankfurt (the “DVB \$24.8 million Facility”) to partially finance the acquisition of 100% of the equity interests of Christine Shipco LLC, which is the owner of the vessel Star Martha (ex-Christine), one of the Excel Vessels. On October 31, 2014, we drew \$24.8 million to pay Excel the related cash consideration. The DVB \$24.8 million Facility is repayable in 24 consecutive, quarterly principal payments of \$0.9 million for each of the first four quarters and of \$0.5 million for each of the remaining 20 quarters, with the first becoming due and payable three months from the drawdown date, and a balloon payment of \$12.2 million payable simultaneously with the last quarterly installment, which is due in October 2020. The DVB \$24.8 million Facility is secured by a first priority pledge of the membership interests of the Christine Shipco LLC and general and specific assignments and is guaranteed by Star Bulk Carriers Corp.

On June 29, 2015, we signed a supplemental letter with DVB Bank SE, Frankfurt to amend certain covenants governing this facility until December 31, 2016.

Please see below for information regarding the related Supplemental Agreement executed pursuant to the RLAs.

4.Sinosure Facility

On February 11, 2015, we, Deutsche Bank (China) Co., Ltd. Beijing Branch and HSBC Bank plc agreed (the “Sinosure Facility”) for the financing of an aggregate amount of up to \$156.5 million to partially finance the construction cost of the newbuilding vessels, Honey Badger, Wolverine, Star Antares, Star Lutas, Kennadi, Mackenzie (the “Sinosure Financed Vessels”). The financing under the Sinosure Facility was available in six separate tranches, one for each Sinosure Financed Vessel, and is credit insured (95%) by China Export & Credit Insurance Corporation. Each tranche, which is documented by a separate credit agreement, , matures twelve years after each drawdown date, which took place at or around the time each vessel was delivered to us, and is repayable in 48 equal and consecutive quarterly installments. The Sinosure Facility is secured by a first priority cross collateralized mortgage over the Sinosure Financed Vessels and general and specific assignments and is guaranteed by Star Bulk Carriers Corp. The vessels Honey Badger and Wolverine were delivered to us in February 2015. The vessel Star Antares was delivered to us in October 2015. The vessels Star Lutas and Kennadi were delivered to us in early January 2016 and the vessel Mackenzie was delivered to us in March 2016.

On September 2, 2015, we signed a supplemental letter agreement with Deutsche Bank (China) Co., Ltd. Beijing Branch and HSBC Bank plc to amend certain covenants governing the existing credit agreements from June 26, 2015 until December 31, 2016.

Please see below for information regarding the related Supplemental Agreement executed pursuant to the RLAs.

Table of Contents

5.NBG \$30.0 million Facility

On April 19, 2018, we entered into a loan agreement with the National Bank of Greece (the “NBG \$30.0 million Facility”) for the refinancing of the then existing agreement with Commerzbank AG (the “Commerzbank \$120.0 million Facility”). On May 3, 2018, we drew \$30.0 million under the NBG \$30.0 million Facility, which we used along with cash on hand to fully repay the \$34.7 million outstanding under the Commerzbank \$120.0 million Facility. The NBG \$30.0 million Facility is secured by a first priority mortgage on the vessels Star Gamma, Star Delta, Star Epsilon, Star Theta, Star Iris and Star Aurora. The NBG \$30.0 million Facility matures on December 31, 2022 and is repayable in 19 equal quarterly installments of \$0.95 million, commencing in August 2018, and a final balloon payment of \$12.0 million, payable together with the last installment.

6.DNB \$310.0 million Facility

On September 27, 2018, we entered into a loan agreement with DNB Bank ASA (the “DNB \$310.0 million Facility”) for a loan of \$310.0 million, a tranche of \$240.0 million of which refinanced all amounts outstanding under a (i) ABN AMRO (the “ABN \$87.5 million Facility”), (ii) DNB, SEB and CEXIM (the “DNB-SEB-CEXIM \$227.5 million Facility”), (iii) DNB (the “DNB \$120.0 million Facility”), (iv) Deutsche Bank AG (the “Deutsche Bank AG \$39.0 million Facility”) and (v) ABN AMRO Bank N.V.(the “ABN AMRO Bank N.V \$30.8 million Facility”). The loan is secured by a first priority mortgage on the vessels Big Bang, Strange Attractor, Big Fish, Pantagruel, Gargantua, Goliath, Maharaj, Star Poseidon, Star Nasia, Diva, Star Danai, Star Renee, Star Markella, Star Laura, Star Moira, Star Jennifer, Star Mariella, Star Helena, Star Maria, Star Sirius, Star Vega, Star Triumph, Star Charis, Star Suzanna, Star Angelina and Star Gwyneth. The \$240.0 million tranche was drawn down on September 28, 2018 and is repayable in 20 equal quarterly installments of \$8.7 million and a balloon payment of \$66.1 million payable with the last installment. The tranche of \$70.0 million will be used to finance the acquisition and installation of scrubber equipment for the mortgage vessels under the DNB \$310.0 million, which is expected to be drawn in 2019, will be repayable in 12 quarterly installments, each being equal to 3.9 million and the remaining balance will be repaid in the form of a balloon installment at the final repayment date.

7.ING \$47.8 million Facility

On September 28, 2018, we entered into a loan agreement with ING Bank N.V., London Branch (the “ING \$47,800 Facility”) for an aggregate amount of \$47,800, available in four tranches. The first two tranches of \$45,000 in aggregate were used to refinance the outstanding amount of \$51,876 under the then existing agreement with Deutsche Bank (the “Deutsche Bank \$85,000 Facility”) and were both drawn on October 2, 2018. The two equal tranches of \$22,500 are each repayable in 28 equal quarterly installments of \$469 and a balloon payment of \$9,375 payable together with the last installment. The remaining two tranches of \$1,400 each will be used to finance the acquisition and installation of scrubber equipment for the two mortgaged vessels under the ING \$47,800 Facility are expected to be drawn in 2019, and will be repayable in 16 quarterly installments, of \$88 each. The facility is secured by a first priority mortgage on Peloreus and Leviathan.

8.Citibank \$130.0 million Facility

On October 18, 2018, we entered into a loan agreement with Citibank N.A., London Branch (the “Citi \$130.0 million Facility”) for a loan of approximately \$130.0 million to refinance in full the approximately \$100.1 million outstanding under the then existing facility with Citibank, N.A., London Branch (“Citi Facility”) and the existing indebtedness of five of the Augustea Vessels. The amount under Citi \$130.0 million Facility was available in two equal tranches of \$65,000, which was drawn on October 23, 2018 and November 5, 2018 and is repayable in 20 equal quarterly installments of \$1.83 million each, commencing in January 2019, and a balloon payment along with the last installment in an amount of \$28.5 million. The facility is secured by a first priority mortgage on the vessels Star Pauline, Star Angie, Star Sophia, Star Georgia, Star Kamila and Star Nina and five of the Augustea Vessels, ABML

Eva, Paola., Star Aphrodite, Star Lydia and Star Nicole.

9. ABN \$115.0 million Facility

On December 17, 2018, we entered into a loan agreement with ABN AMRO BANK (the “ABN \$115.0 million Facility”), for an amount of up to \$115.0 million available in four tranches. The first and the second tranches of \$69.5 million and \$7.9 million, respectively, were drawn on December 20, 2018. The first tranche was used to refinance the then existing indebtedness of four of the Augustea Vessels ABY Virginia, ABY Scarlett, ABY Jeannette and Star Audrey and the second was used to partially finance the acquisition cost of the Star Bright. The first and the second tranche are repayable in 20 equal quarterly installments of \$1.7 million and \$0.3 million respectively, and balloon payments are due along with the last installment in an amount of \$35.4 million and \$2.3 million, respectively. The remaining two tranches of \$17.9 million each were drawn in January 2019 and were used to partially finance the acquisition cost of the Star Marianne and Star Janni. The loan is secured by a first priority mortgage on the four Augustea vessels and the Step 1 Vessels.

10. BNP Facility

BNP Paribas provided term loan financing in two tranches, for the vessels Star Despoina and Pierra (the “BNP Facility”). On August 3, 2018, the date of the acquisition of the Augustea Vessels, the outstanding amount of the first and the second tranche was \$15.9 million and \$15.0 million, respectively. The outstanding balance of the first tranche is repayable in 16 remaining quarterly installments, the first 15 of which are in an amount of \$0.5 million and the sixteenth is in an amount of \$8.4 million. The outstanding balance of the second tranche is repayable in 17 remaining quarterly installments the first 16 of which of \$0.5 million and the seventeenth is in an amount of \$7.0 million. The loan is secured by a first priority mortgage on the two Augustea vessels.

11. Bank of Tokyo Facility

Bank of Tokyo provided term loan financing for the vessel Star Monica (the “Bank of Tokyo Facility”). On August 3, 2018, the date of the acquisition of the Augustea Vessels, the outstanding amount of the Bank of Tokyo Facility was \$16.0 million and is repayable in 16 remaining quarterly installments the first fifteen of which are in the amount of \$0.3 million and the sixteenth is in an amount of \$10.5 million. The loan is secured by a first priority mortgage on the Augustea vessel.

12. Credit Agricole \$43.0 million Facility

On August 21, 2018, we entered into a loan agreement with Credit Agricole Corporate and Investment Bank (the “Credit Agricole \$43.0 million Facility”) for a loan of \$43.0 million to refinance the outstanding amount of \$44.1 million under the then existing agreement with Credit Agricole Corporate and Investment Bank (the “Credit Agricole \$70.0 million Facility”). The facility is secured by the vessels Star Borealis and Star Polaris. The Credit Agricole \$43.0 million Facility was drawn on August 23, 2018. in two equal tranches, each being repayable in 20 equal quarterly installments of \$0.6 million and a balloon payment of \$9.0 million payable with the last installment.

13. HSBC \$80.0 million Facility

On September 26, 2018, we entered into a loan agreement with HSBC Bank plc for a loan of \$80.0 million (the “HSBC \$80.0 million Facility”) to refinance the full the amounts outstanding of \$74.7 million under the agreement with HSH Nordbank (the “HSH Nordbank \$64,500 Facility”) and with HSBC (the “HSBC \$86,600 Facility”). The loan is secured by a first priority mortgage on the vessels Kymopolia, Mercurial Virgo, Pendulum, Amami, Madreus, Star Emily, Star Cosmo, Star Kappa, Star Omicron and Star Zeta. The total loan amount of \$80.0 million was drawn on September 28, 2018 and is repayable in 20 equal quarterly installments of \$2.4 million and a balloon payment of \$32.4 million payable along with the last installment.

14. SEB Facility

On January 28, 2019, we entered into a loan agreement with Skandinaviska Enskilda Banken AB (SEB), the “SEB Facility,” for the financing of up to \$71.4 million. The facility is available in four tranches. The first two tranches of \$32.8 million each drawn on January 30, 2019 and used together with cash on hand to pay all the outstanding amounts under the lease agreements of the Star Laetitia and the Star Sienna, which are two of Augustea vessels. The remaining two tranches of approximately \$1.2 million each will be used to finance the acquisition and installation of scrubber equipment for the respective vessels are expected to be drawn in 2019 and are repayable in 12 equal quarterly installments. The SEB Facility is secured by a first priority mortgage on the two vessels and will mature in January 2025.

Table of Contents

15.E.SUN Facility

On January 31, 2019, we entered into a loan agreement with E. SUN Commercial Bank, Hong Kong branch, the (“E.SUN Facility”), for the financing of an amount of up to \$37.1 million to pay all outstanding amounts under the lease agreement of the Star Ariadne. The E.SUN Facility is secured by first priority mortgage on the respective vessel and will mature in February 2024.

16.ING \$52.8 million Facility

In February 2019, we entered into a committed term-sheet with ING Bank N.V., London Branch for the financing of an amount up to \$52.8 million (the “ING \$52.8 million Facility”). The facility will be available in four tranches. The first two tranches of \$17.4 million and \$32.6 million, respectively, will be used to refinance all outstanding amounts under the lease agreements of the Star Magnanimus and the Aby Asia and are expected to be drawn in late March 2019 with maturing date seven years later. The remaining two tranches of \$1.4 million each, which will be used to finance the acquisition and installation of scrubber equipment for the respective vessels, are expected to be drawn in 2019 and will mature four years later. The ING \$52,800 Facility will be secured by a first priority mortgage on the two aforementioned vessels. The completion of the transaction is subject to the execution of customary definitive documentation.

All of our bank loans bear interest at LIBOR plus a margin.

Credit Facility Covenants

Our outstanding credit facilities generally contain customary affirmative and negative covenants, on a subsidiary level, including limitations to:

- pay dividends if there is an event of default under our credit facilities;
- incur additional indebtedness, including the issuance of guarantees, or refinance or prepay any indebtedness, unless certain conditions exist;
- create liens on our assets;
- change the flag, class or management of our vessels or terminate or materially amend the management agreement relating to each vessel;
- acquire new or sell vessels, unless certain conditions exist;
- merge or consolidate with, or transfer all or substantially all our assets to, another person; or
- enter into a new line of business.

Furthermore, our credit facilities contain financial covenants requiring us to maintain various financial ratios, including:

- a minimum percentage of aggregate vessel value to loans secured (security cover ratio or “SCR”);
- a maximum ratio of total liabilities to market value adjusted total assets;
- a minimum EBITDA to interest coverage ratio;

- a minimum liquidity; and
- a minimum market value adjusted net worth.

Table of Contents

As of December 31, 2017 and 2018, we were in compliance with the applicable financial and other covenants contained in our debt agreements.

The Restructuring Transactions

The prolonged market downturn in the dry bulk market, depressed freight rates and low prevailing vessel market values in the past years led to net losses over an extended period of time. As a result of these operating conditions, we took significant steps in fiscal years 2015 and 2016 to improve our liquidity through a reduction in the operating costs of our vessels, opportunistic vessel sales, cancellation of newbuilding contracts and the negotiated deferral of delivery or reduction of the purchase price of all of our newbuilding vessels.

In addition to a number of measures (described above) implemented to address the adverse market conditions and in order to avoid any possibility that we might have been unable to comply with certain financial and other covenants in our credit agreements described below that were in place in August 2016 (the “RLA Credit Facilities”) with our banks and export credit agencies (the “Lenders”), we and all of our Lenders completed in August 2016, a global restructuring of our RLA Credit Facilities, which we refer to as the “Restructuring Transactions.” Under the Restructuring Transactions, we and the Lenders agreed to defer \$224.0 million, equal to 100%, of our principal payments (including all scheduled amortization and balloon payments at stated maturity) due between June 1, 2016 and June 30, 2018, and waived in full or substantially relaxed the financial and other covenants in our RLA Credit Facilities until December 31, 2019. As of August 31, 2016, we entered into separate standstill agreements (“Standstill Agreements”) and RLAs with each of the Lenders. Each Standstill Agreement was designed to provide for a waiver and/or relaxation of covenants and suspension of principal payments until the execution of the relevant supplemental agreement (each, a “Supplemental Agreement”) for the permanent restructuring of each RLA Credit Facility, which finalized in July 2017.

The Supplemental Agreement to each RLA Credit Facility, among other things (i) deferred principal payments owed from June 1, 2016 through June 30, 2018 to the due date of the balloon installments of each facility (the “Deferred Amounts”), (ii) waived in full or substantially relaxed the financial covenants, effective until December 31, 2019 and (iii) implemented a cash sweep mechanism pursuant to which excess cash at the consolidated level above certain thresholds was applied towards the payment of Deferred Amounts, payable pro rata based on each loan facility’s and lease agreement’s outstanding Deferred Amounts relative to the total Deferred Amounts at the end of each quarter. In exchange, we agreed to raise additional equity of not less than \$50.0 million by September 30, 2016 (which condition was satisfied after the completion of September 2016 Equity Offering) and impose restrictions on paying dividends until all Deferred Amounts have been repaid. The Standstill Agreements, the RLAs and the Supplemental Agreements and the transactions contemplated thereby are included in the term “Restructuring Transactions.”

Following the execution of the RLAs, we entered into a Restructuring Letter Agreement with one of our lease providers to defer a portion of the principal repayments included in the hire amounts that were scheduled for payment between October 1, 2016 and June 30, 2018 under all the lease agreements (the “Deferred Lease Amounts”). The Deferred Lease Amounts will be amortized on a monthly basis in the remaining charter period, unless otherwise prepaid as part of a cash sweep mechanism which shall be implemented on a consolidated level as discussed above.

On December 28, 2017, we announced that in light of our improved performance and the dry bulk market in general, we were planning to make debt principal repayments that are in total at least equivalent to the amortization payments scheduled prior to the commencement of debt amortization holidays for the first and second quarters of 2018, under the “cash sweep” mechanism incorporated in our Supplemental Agreements. This decision terminated the deferral of amortization payments pursuant to the Supplemental Agreements, six months ahead of schedule.

Table of Contents

In accordance with the terms of the Supplemental Agreements, in 2017 we distributed pro rata to all parties under the Restructuring (including the lease provider): an amount of \$10.0 million. During the year ended December 31, 2018 we made the below payments: (i) in February 2018, an amount of \$35.6 million, representing the excess cash resulting from the cash sweep mechanism as of December 31, 2017, (ii) in May and July 2018 an amount of \$30.0 million and \$22.7 million, respectively, representing the repayments that were in total at least equivalent to the amortization payments scheduled prior to the commencement of debt amortization holidays for the first and second quarter 2018 and (iii) in October 2018, we repaid all outstanding Deferred Amounts that had been accumulated from June 1, 2016 through September 30, 2018 and were still outstanding.

Redemption of 2019 Notes and Issuance of 2022 Notes

On November 6, 2014, we issued \$50.0 million aggregate principal amount of 8.00% Senior Notes due 2019 (the “2019 Notes”). The net proceeds were \$48.4 million. On November 9, 2017, we issued \$50.0 million aggregate principal amount of 8.30% Senior Notes due 2022 (the “2022 Notes”). The proceeds were \$50.0 million were applied to redeem the 2019 Notes on December 11, 2017 at an aggregate redemption price of 100% of the outstanding principal amount, plus accrued and unpaid interest to, but not including, the date of redemption. The 2022 Notes mature in November 2022 and are senior, unsecured obligations of Star Bulk Carriers Corp. The 2022 Notes are not guaranteed by any of our subsidiaries.

The 2022 Notes bear interest at a rate of 8.30% per annum, payable quarterly in arrears on the 15th of February, May, August and November of each year, commencing on February 15, 2018.

We may redeem the 2022 Notes, in whole or in part, at any time on or after May 15, 2019 at a redemption price equal to 100% of the principal amount to be redeemed, plus accrued and unpaid interest to, but excluding, the redemption date. Prior to May 15, 2019, we may redeem the 2022 Notes, in whole or in part, at a price equal to 100% of their principal amount plus a make-whole premium and accrued interest to the date of redemption. In addition, we may redeem the 2022 Notes in whole, but not in part, at any time, at a redemption price equal to 100% of their principal amount to be redeemed, plus accrued and unpaid interest to, but excluding, the redemption date, if certain events occur involving changes in taxation.

The indenture governing the 2022 Notes requires us to maintain a maximum ratio of net debt to consolidated total assets and a minimum consolidated tangible net worth. The indenture governing the 2022 Notes also contains various negative covenants, including a limitation on asset sales and a limitation on restricted payments. The indenture governing the 2022 Notes prevents us from paying dividends if the two above financial ratios are not met. The indenture governing the 2022 Notes also contains other customary terms and covenants, including that upon certain events of default occurring and continuing, either the Trustee or the holders of not less than 25% in aggregate principal amount of the 2022 Notes then outstanding may declare the entire principal amount of all the 2022 Notes plus accrued interest, if any, to be immediately due and payable. Upon certain change of control events, we are required to offer to repurchase the 2022 Notes at a price equal to 101% of their principal amount, plus accrued and unpaid interest to, but not including, the date of redemption. If we receive net cash proceeds from certain asset sales and do not apply them within a specified deadline, we will be required to apply those proceeds to offer to repurchase the 2022 Notes at a price equal to 101% of their principal amount, plus accrued and unpaid interest to, but not including, the date of redemption.

As of December 31, 2018, we were in compliance with the applicable financial and other covenants contained in the 2022 Notes.

Bareboat Charters

We are party to separate bareboat charter party contracts with affiliates of New Yangzijiang shipyards regarding the Ultramax vessels Idee Fixe, Roberta, Laura and Kaley. Pursuant to the terms of the bareboat charters, we pay New Yangzijiang a pre-agreed daily bareboat charter rate on a 30-days advance basis. In addition, we have monthly purchase options to acquire each of the vessels at a pre-determined, amortizing-during-the-charter-period price. On the eighth anniversary of the delivery of each vessel, we have the obligation to purchase the vessel at a purchase price of \$6.0 million. Upon the earlier of the exercise of the purchase options or the expiration of the bareboat charters, we will own the four vessels, and these vessels are therefore recognized in our consolidated financial statements as fixed assets at historical cost. The four vessels were delivered to us on March 25, 2015, March 31, 2015, April 7, 2015 and June 26, 2015, respectively.

Table of Contents

As of December 31, 2018, we are also party to separate bareboat charter party contracts with affiliates of CSSC regarding the Newcastlemax vessels Star Marisa, Star Ariadne, Star Libra, Star Virgo and Star Magnanimus. Pursuant to the terms of the bareboat charter, we are required to pay CSSC a daily bareboat charter rate payable monthly plus a variable amount. In addition, we have monthly purchase options to acquire each of the vessels at a pre-determined, amortizing-during-the-charter-period price. On the tenth anniversary from the delivery of each vessel, we have the obligation to purchase each of the vessels at a purchase price ranging from \$12.0 million to \$13.0 million. Upon the earlier of the exercise of the purchase options or the expiration of the bareboat charters, we will own the vessels, and these vessels are therefore recognized in our consolidated financial statements as fixed assets at historical cost. We took delivery of the Star Marisa during the year ended December 31, 2016, of the Star Ariadne during the year ended December 31, 2017 while Star Magnanimus was delivered in March 2018.

In order to finance the delivery installment of Star Eleni and Star Leo, on December 13, 2017 and on May 2, 2018, respectively, we sold each of the vessels and simultaneously entered into a bareboat charter party contract with an affiliate of CSSC to bareboat charter them for ten years. Pursuant to the terms of the bareboat charters, an amount of \$30.0 million, corresponding to the delivery installment to the shipyard, was financed by CSSC, to whom we pay a daily bareboat charter rate in monthly installments consisting of a fixed and variable amount. Under the terms of the bareboat charter, we have the option to purchase each of the vessels at any time after such vessel's delivery, such option being exercisable on a monthly basis against a pre-determined, amortizing-during-the-charter-period price while we have an obligation to purchase each vessel at the expiration of the bareboat term at a purchase price of approximately \$9.0 million per vessel. Upon the earlier of the exercise of the purchase option or the expiration of the bareboat charter, we will own each of the vessels. These vessels are therefore recognized in our consolidated financial statements as fixed assets. As further described above, we took delivery of Star Eleni on January 3, 2018 and Star Leo on May 14, 2018. In September 2018, we exercised our purchase options and paid the outstanding amount of \$28.7 million and \$29.4 million, respectively under the respective lease agreements using proceeds from another sale and lease back agreement with China Merchants Bank Leasing ("CMBL") described above.

In order to finance the cash portion of the consideration related to the Songa Vessel Purchase Transaction, discussed above, in July 2018, we entered, for each of the subject vessel, into an agreement to sell each such vessel and simultaneously entered into a bareboat charter party contract with affiliates of CMBL to bareboat charter the vessel for five years upon delivery of the vessel from Songa. CMBL provides an aggregate finance amount of \$180.0 million, \$19.6 million of which still remains available to be drawn to finance the acquisition and installation of scrubber equipment for the respective vessels. Pursuant to the terms of the bareboat charter, we pay CMBL a bareboat charter rate in quarterly installments consisting of a fixed and a variable amount. Under the terms of the bareboat charter, we have options to purchase each vessel starting on the second anniversary of such vessel's delivery to us, at pre-determined, amortizing purchase prices, while we have an obligation to purchase each vessel at the expiration of the bareboat term at a purchase price ranging from \$2.2 million to \$8.4 million. Upon the earlier of the exercise of the purchase option or the expiration of the bareboat charter, we will own these vessels. These vessels are therefore recognized in our consolidated financial statements as fixed assets.

On September 27, 2018, we entered into an agreement to sell the vessels Star Eleni and Star Leo and simultaneously entered into two bareboat charter party contracts with affiliates of China Merchants Bank Leasing ("CMBL") to bareboat charter each one of the respective vessels for five years. CMBL provides in aggregate a finance amount of \$57.3 million. Pursuant to the terms of the bareboat charters, we pay CMBL a bareboat charter rate in quarterly installments consisting of a fixed and a variable amount. Under the terms of the bareboat charters, we have options to purchase the vessels from year two onwards each at a pre-determined, amortizing purchases price, while it has an obligation to purchase the vessel at the expiration of the bareboat term at a purchase price of \$18.2 million for vessel Star Eleni and \$20.0 million for vessel Star Leo. Upon the earlier of the exercise of the purchase option or the expiration of the bareboat charters, we will own these vessels. Therefore these vessels are recognized in our consolidated financial statements as fixed assets.

Table of Contents

Three of the Augustea Vessels, ABYO Sienna, ABYO Laetitia and ABOY Karlie, are also subject to bareboat charter party contracts with affiliates of CSSC, one of which matures in early 2026, while two mature in early 2027. Pursuant to the terms of the bareboat charters, we pay a daily bareboat charter rate payable monthly plus a variable amount. In addition, we have the option to purchase each vessel each at a pre-determined, amortizing price, while it has an obligation to purchase the vessels at the expiration of the bareboat term at a purchase price ranging between \$12.0 million and \$13.0 million. Upon the earlier of the exercise of the purchase options or the expiration of the bareboat charters, we will own these vessels. These vessels are therefore recognized in our consolidated financial statements as fixed assets. In January 2019, we exercised our purchase options and paid all outstanding amounts under the lease agreements with CSSC for two of the three Augustea Vessels, using the proceeds from a new financing agreement.

In addition one of the Augustea Vessels, ABY Asia, is also subject to a bareboat charter party contract with an affiliate of Mitsui & Co., Ltd., which matures in June 2019. We intend to refinance the outstanding amount under the respective lease agreement using proceeds from a new financing agreement.

In December 2018, we sold and simultaneously entered into a bareboat charter party contract with an affiliate of Kyowa Sanso to bareboat charter the vessel Star Fighter for ten years. Pursuant to the terms of the bareboat charter, we pay a daily bareboat charter rate payable monthly plus a variable amount. Under the terms of the bareboat charter, we have an option to purchase the vessel starting on the third anniversary of the vessel's delivery to us at a pre-determined, amortizing purchases price, while we have an obligation to purchase the vessel at the expiration of the bareboat term at a purchase price of \$2.5 million. Upon the earlier of the exercise of the purchase option or the expiration of the bareboat charter, we will own this vessel. This vessel is therefore recognized in our consolidated financial statements as fixed asset.

Dividend Payments

Following the full repayment of Deferred Amounts in 2018, currently, we are able under our financing agreements to pay dividends unless an event of default has occurred. Please see the section of this annual report entitled "The Restructuring Transactions." We did not pay any dividends for the years ended 2016, 2017 and 2018.

C. Research and Development, Patents and Licenses

Not Applicable.

D. Trend Information

Please see Item 4 "Information on the Company" and Item 5 "Operating and Financial Review and Prospects"

E. Off-balance Sheet Arrangements

As of the date of this annual report, we do not have any off-balance sheet arrangements.

Table of Contents

F. Tabular Disclosure of Contractual Obligations

The following table sets forth our contractual obligations and their maturity dates as of December 31, 2018:

In thousands of
Dollars

Obligations	Total	Payments due by period			
		Less than 1 year -2019	1-3 years (2020 -2021)	3-5 years (2022-2023)	More than 5 years (After January 1, 2024)
Principal Loan Payments (1)	797,823	101,007	230,775	409,346	56,695

- (1) Principal loan payments pursuant to our credit facilities as further described in Note 8 to our audited consolidated financial statements included in this report.

- Amounts shown reflect interest payments we expect to make with respect to our long-term debt obligations, as well as 2022 Notes. The interest payments reflect an assumed LIBOR based on the applicable rate of 2.808% (the (2) three-month LIBOR as of December 31, 2018) plus the relevant margin of the applicable credit facility. The amounts shown do not include loan interest of \$3.5 million and interest on the 8.30% 2022 Notes of \$0.5 million which had accrued thereon as of December 31, 2018.

- Amounts represent remaining payments under our Scrubber Retrofitting Program. For the respective payments, we have secured total financing of \$134.2 million, of which \$92.4 million was committed under loan and bareboat lease agreements signed as of December 31, 2018 (as further described in Notes 5 and 8 to our consolidated (3) financial statements included in this report) and \$41.8 million was committed under loan and finance lease agreements signed subsequently (as further described in Note 19 to our consolidated financial statements included in this report).

- The amounts represent our commitments under the bareboat lease arrangements for our three newbuilding vessels acquired as part of the OCC Vessel Acquisition which, as of December 31, 2018, were under construction further (4) analyzed in Note 6 to our consolidated financial statements included in this report. The bareboat charter hire is comprised of fixed and variable portion, the variable portion is calculated based on the 3-month LIBOR of 2.808% as of December 31, 2018.

(5)

The amounts represent our commitments under the bareboat lease arrangements for our operating vessels, representing the fixed and variable charter hire, which is further analyzed in Note 5 to our consolidated financial statements included in this report. The interest payments reflect an assumed 6-month LIBOR of 2.876% and 3-month LIBOR of 2.808% as of December 31, 2018, as applicable, plus the relevant margin of the lease arrangements.

- (6) The amounts represent our commitments under the outstanding as of December 31, 2018 time charter-in arrangements for third party vessels.

Table of Contents

(7) Amounts represent our commitments, as of December 31, 2018, under the E.R Vessel Purchase Transaction for the acquisition of Star Marianne and Star Janni which were delivered in January 2019.

The office rent includes an amount of 188,000 NOK (or approximately \$0.02 million, using the exchange rate as of (8) December 31, 2018, which was \$0.1156 per NOK) up to the twelve month period ended December 31, 2024, concerning a rental agreement with indefinite term.

Our Fleet - Illustrative Comparison of Possible Excess of Carrying Value over Estimated Charter-Free Market Value of Certain Vessels

In “Item 5.A, “Critical Accounting Policies - Impairment of long-lived assets,” we discuss our policy for impairing the carrying values of our vessels. During the past few years, the market values of vessels have experienced particular volatility, with substantial declines in many vessel classes. As a result, the charter-free market value, or basic market value, of certain of our vessels may have declined below those vessels’ carrying value. We would, however, not impair those vessels’ carrying value under our accounting impairment policy, due to our belief that future undiscounted net operating cash flows expected to be earned by such vessels over their operating lives would exceed such vessels’ carrying amounts.

The table set forth below indicates: (i) the carrying value of each of our vessels as of December 31, 2018, and (ii) which of our vessels we believe have a market value below their carrying value. As of December 31, 2018, we have 55 operating vessels that we believe have a market value below their carrying value. The aggregate difference between the carrying value of these vessels and their market value of \$219 million represents the amount by which we believe we would have to reduce our net income if we sold these vessels in the current environment, on industry standard terms, in cash transactions, and to a willing buyer where we are not under any compulsion to sell, and where the buyer is not under any compulsion to buy. For purposes of this calculation, we have assumed that the vessels would be sold at a price that reflects our estimate of their charter-free market values as of December 31, 2018. However, we are not holding our vessels for sale, unless expressly stated.

Our estimates of charter-free market value assume that our vessels are all in good and seaworthy condition without need for repair and if inspected would be certified in class without notations of any kind. Our estimates are based on information available from various industry sources, including:

- reports by industry analysts and data providers that focus on our industry and related dynamics affecting vessel values;

- news and industry reports of similar vessel sales;

- news and industry reports of sales of vessels that are not similar to our vessels, where we have made certain adjustments in an attempt to derive information that can be used as part of our estimates;

- approximate market values for our vessels or similar vessels that we have received from shipbrokers, whether solicited or unsolicited, or that shipbrokers have generally disseminated;

- offers that we may have received from potential purchasers of our vessels; and

- vessel sale prices and values of which we are aware through both formal and informal communications with ship owners, shipbrokers, industry analysts and various other shipping industry participants and observers.

As we obtain information from various industry and other sources, our estimates of charter-free market value are inherently uncertain. In addition, vessel values are highly volatile; as such, our estimates may not be indicative of the

current or future charter-free market value of our vessels or prices that we could achieve if we were to sell them.

(1) Vessels subject to a bareboat charter with purchase obligation at the expiration of the bareboat charter term.

(2) The vessel Star Delta was classified as Held for sale as of December 31, 2018.

(3) Vessels agreed to be sold subsequently to December 31, 2018

* Indicates dry bulk carrier vessels for which we believe, as of December 31, 2018, the basic charter-free market value is lower than the vessel's carrying value.

We refer you to the risk factor entitled "The market values of our vessels have declined and may further decline, which could limit the amount of funds that we can borrow, cause us to breach certain financial covenants in our credit facilities or result in impairment charges, and we may incur a loss if we sell vessels following a decline in their market value" and the discussion herein under the headings "Critical Accounting Policies - Impairment of long-lived assets" and "Results of Our Operations - Year ended December 31, 2018 compared to the year ended December 31, 2017 - Impairment Loss."

G. Safe Harbor

Item 6. Directors, Senior Management and Employees

A. Directors and Senior Management

Set forth below are the names, ages and positions of our directors and executive officers. The board of directors is elected annually on a staggered basis, and each director elected holds office until his successor shall have been duly elected and qualified, except in the event of his death, resignation, removal or the earlier termination of his term of office. Officers are elected from time to time by vote of our board of directors and hold office until a successor is elected.

In July 2014 and in connection with the 2014 Transactions, the board of directors increased the number of directors constituting the board of directors to nine and, following the resignation of Ms. Milena-Maria Pappas, appointed Mr. Rajath Shourie as a Class A director, Ms. Emily Stephens as a Class B director, Ms. Renée Kemp as a Class C director and Mr. Stelios Zavvos as a Class A director. Under the Oaktree Shareholders Agreement, (described in “Item 4. Information on the Company-A. History and Development of the Company”), Oaktree currently has the right to nominate three of our ten directors.

On February 17, 2015, Mr. Shourie and Ms. Stephens were replaced by Mr. Mahesh Balakrishnan and Ms. Jennifer Box, respectively. On March 14, 2016 and May 9, 2016, respectively, Ms. Kemp and Mr. Zavvos stepped down from our board of directors. Following the resignation of Ms. Kemp and Mr. Zavvos, we appointed Mr. Nikolaos Karellis to fill the vacated Class A directorship and reduced the number of directors constituting our board of directors to eight. The three directors currently designated by Oaktree are Messrs. Pappas, Balakrishnan and Ms. Stephens.

At the 2016 annual general meeting in November 2016, Messrs. Petros Pappas and Spyros Capralos were re-elected as Class C directors.

At the 2017 annual general meeting in November 2017, Messrs. Tom Søfteland, Mahesh Balakrishnan and Nikolaos Karellis were re-elected as Class A directors.

In June 2018, upon completion of the Songa Vessel Acquisition, Mr. Arne Blystad was appointed as a Class C director. In August 2018, upon completion of the Augustea Vessel Acquisition, Mr. Raffaele Zagari was appointed as a Class C director.

At the 2018 annual general meeting in November 2018, Messrs. Erhardt and Schmitz were re-elected as Class B directors. On November 20, 2018, Ms. Box was replaced by Ms. Stephens.

Our directors and executive officers are as follows:

Name	Age	Position
Petros Pappas	66	Chief Executive Officer and Class C Director
Spyros Capralos	64	Non-Executive Chairman and Class C Director
Hamish Norton	60	President
Simos Spyrou	44	Co-Chief Financial Officer
Christos Begleris	37	Co-Chief Financial Officer
Nicos Rescos	47	Chief Operating Officer
Charis Plakantonaki	40	Chief Strategy Officer
Tom Søfteland	58	Class A Director
Koert Erhardt	63	Class B Director
Roger Schmitz	37	Class B Director
Mahesh Balakrishnan	36	Class A Director

Edgar Filing: Star Bulk Carriers Corp. - Form 20-F

Emily Stephens	44	Class B Director
Nikolaos Karellis	68	Class A Director
Arne Blystad	64	Class C Director
Raffaele Zagari	50	Class C Director

Table of Contents

Petros Pappas, Chief Executive Officer and Director

Mr. Petros Pappas serves since July 2014 as our CEO and as a director on our board of directors. Mr. Pappas served from our inception up to July 2014 as our non-executive Chairman of the board of directors and director. He served as a member of Star Maritime's board of directors since its inception. Throughout his career as a principal and manager in the shipping industry, Mr. Pappas has been involved in approximately 300 vessel acquisitions and disposals. In 1989, he founded Oceanbulk Maritime S.A., a dry cargo shipping company that has operated managed vessels aggregating as much as 1.6 million deadweight tons of cargo capacity. He also founded Oceanbulk affiliated companies, which are involved in the ownership and management sectors of the shipping industry. Mr. Pappas is the Chairman of the UK Defense Club, a leading insurance provider of legal defense services in the shipping industry worldwide and is a member of the Union of Greek Ship Owners (UGS). Mr. Pappas received his B.A. in Economics and his MBA from The University of Michigan, Ann Arbor. Mr. Pappas was awarded the 2014 Lloyd's List Greek Awards "Shipping Personality of the Year."

Spyros Capralos, Non-Executive Chairman and Director

Mr. Spyros Capralos serves since July 2014 as the Non-Executive Chairman of our board of directors and as a director. He is also the Chairman of the Compensation Committee. From February 2011 to July 2014, Mr. Capralos served as our Chief Executive Officer, President and director. Effective as of January 1, 2015, Mr. Capralos also serves as Chief Executive Officer of Oceanbulk Container Carriers LLC. From October 2004 to October 2010, Mr. Capralos served as Chairman of the Athens Exchange and Chief Executive Officer of the Hellenic Exchanges Group and for the period from 2008-2010 was also the President of the Federation of European Securities Exchanges. He was formerly Vice Chairman of the National Bank of Greece, Vice Chairman of Bulgarian Post Bank, Managing Director of the Bank of Athens and has a ten-year banking experience with Bankers Trust Company (now Deutsche Bank) in Paris, New York, Athens, Milan and London. In February 2013, Mr. Capralos was re-elected as President of the Hellenic Olympic Committee for a four-year term (2017-2021). Previously, he served as Secretary General of the Athens 2004 Olympic Games and Executive Director and Deputy Chief Operating Officer of the Organizing Committee for the Athens 2004 Olympic Games. He has been an Olympic athlete in water polo and has competed in the Moscow (1980) and the Los Angeles (1984) Olympic Games. He studied economics at the University of Athens and earned his Master Degree in Business Administration from INSEAD University in France.

Hamish Norton, President

Mr. Hamish Norton serves as our President. Until December 31, 2012, Mr. Norton was Managing Director and Global Head of the Maritime Group at Jefferies & Company Inc. Mr. Norton is known for creating Nordic American Tanker Shipping and Knightsbridge Tankers, the first two high dividend yield shipping companies. He advised Arlington Tankers in the merger with General Maritime and has been an advisor to U.S. Shipping Partners. He also advised New Mountain Capital on its investment in Intermarine. In the 1990s, he advised Frontline on the acquisition of London and Overseas Freighters and arranged the sale of Pacific Basin Bulk Shipping. Prior to joining Jefferies, Mr. Norton ran the shipping practice at Bear Stearns. From 1984-1999 he worked at Lazard Frères & Co.; from 1995 onward as general partner and head of shipping. In addition to his role at Star Bulk, he is also an executive of Oceanbulk Maritime S.A. and is Chief Financial Officer and Head of Corporate Development of Oceanbulk's joint ventures with Oaktree since 2012. Mr. Norton is a director of Neptune Lines and the Safariland Group. Mr. Norton received an AB in Physics from Harvard and a Ph.D. in Physics from University of Chicago.

Table of Contents

Simos Spyrou, Co-Chief Financial Officer

Mr. Simos Spyrou serves as our Co-Chief Financial Officer. Mr. Spyrou joined us as Deputy Chief Financial Officer in 2011, and was appointed Chief Financial Officer in September 2011. From 1997 to 2011, Mr. Spyrou worked at the Hellenic Exchanges (HELEX) Group, the public company which operates the Greek equities and derivatives exchange, the clearing house and the central securities depository. From 2005 to 2011, Mr. Spyrou held the position of Director of Strategic Planning, Communication and Investor Relations at the Hellenic Exchanges Group and he also served as a member of the Strategic Planning Committee of its board of directors. From 1997 to 2002, Mr. Spyrou was responsible for financial analysis at the research and technology arm of the Hellenic Exchanges Group. Mr. Spyrou attended the University of Oxford, receiving a degree in Mechanical Engineering and an MSc in Engineering, Economics & Management, specializing in finance. Following the completion of his studies at Oxford, he obtained a post graduate degree in Banking and Finance, from Athens University of Economics & Business.

Christos Begleris, Co-Chief Financial Officer

Mr. Christos Begleris serves as our Co-Chief Financial Officer since 2014. Until March 2013 he was a strategic project manager and senior finance executive at Thenamaris (Ships Management) Inc. From 2005 to 2006, Mr. Begleris worked in the principal investments group of London & Regional Properties based in London, where he was responsible for the origination and execution of large real estate acquisition projects throughout Europe. From 2002 to 2005, Mr. Begleris worked in the Fixed Income and Corporate Finance groups of Lehman Brothers based in London, where he was involved in privatization, restructuring, securitization, acquisition financing and principal investment projects in excess of \$5.0 billion. In addition to his role at Star Bulk, Mr. Begleris is also an executive of Oceanbulk Maritime S.A. and is Deputy Chief Financial Officer of Oceanbulk's joint ventures with Oaktree and with Monarch. Mr. Begleris received an M.Eng. in Mechanical Engineering from Imperial College, London, and an MBA from Harvard Business School.

Nicos Rescos, Chief Operating Officer

Mr. Nicos Rescos serves as our Chief Operating Officer. He also serves as Chief Operating Officer and Commercial Director of Oceanbulk Maritime S.A. since April 2010. Mr. Rescos has been involved in the shipping industry since 1993 and has strong expertise in the dry bulk, container and product tanker markets having been responsible for more than 120 vessel acquisitions and dispositions and several joint ventures in the dry bulk and tanker sectors. From 2007 to 2009, Mr. Rescos worked with a family fund in Greece investing in dry bulk vessels and product tankers. From 2000 to 2007, Mr. Rescos served as the Commercial Manager of Goldenport Holdings Inc. where he was responsible for the acquisition of 35 dry bulk and container vessels and initiated the company's entry in the product tankers arena through an innovative joint venture with a major commodity trading company. He received a BSc in Management Sciences from The University of Manchester Institute of Science and Technology (UMIST) and an MSc in Shipping Trade and Finance from the City University Business School.

Tom Sjøfteland, Director

Mr. Tom Sjøfteland has served as a director on our board of directors since inception and as Chairman of our Audit Committee. He served as a member of Star Maritime's board of directors since its inception. During 1982 - 1990 he served in different positions within Odfjell Chemical Tankers, including operations, chartering and project activities. In August 1990 he joined the shipping department of IS Bank ASA and in 1992 he was appointed general manager of the shipping, oil & offshore department. In 1994 he was promoted to the position of Deputy CEO of IS BANK ASA. During the fourth quarter of 1996, Mr. Sjøfteland founded Capital Partners A.S. of Bergen, Norway, a financial services firm which specialized in shipping, oil & off-shore finance, investment bank and asset management services. He held the position of CEO until June 2007. From the second half of 2007, Mr. Sjøfteland has been a principal of the investment company, Spinnaker AS, based in Norway and has served in various positions at EGD Holding AS, Sea

Sea Shipping Ltd, Tailwind, Stream Tankers and Arise Dynamic Rig Supply. Mr. Søfteland received a Business Economic degree from the Norwegian School of Business and Administration (NHH).

Table of Contents

Koert Erhardt, Director

Mr. Koert Erhardt has served as a director of our board of directors since inception. He is also the Chairman of the Nominating and Corporate Governance Committee. He is currently the Managing Director of Augustea Bunge Maritime Ltd. of Malta. From September 2004 to December 2004, he served as the Chief Executive Officer and a member of the board of CC Maritime S.A.M., an affiliate of the Coeclerici Group, an international conglomerate whose businesses include shipping and transoceanic transportation of dry bulk materials. From 1998 to September 2004, he served as General Manager of Coeclerici Armatori S.p.A. and Coeclerici Logistics S.p.A., affiliates of the Coeclerici Group, where he created a shipping pool that commercially managed over 130 vessels with a carrying volume of 72 million tons and developed the use of the Freight Forward Agreement trading, which acts as a financial hedging mechanism for the pool. From 1994 to 1998, he served as the General Manager of Bulk Italia, a prominent shipping company which at the time owned and operated over 40 vessels. From 1990 to 1994, Mr. Erhardt served in various positions with Bulk Italia. From 1988 to 1990, he was the Managing Director and Chief Operating Officer of Nedlloyd Drybulk, the dry bulk arm of the Nedlloyd Group, an international conglomerate whose interests include container ship liner services, tankers, oil drilling rigs and ship brokering. Mr. Erhardt received his Diploma in Maritime Economics and Logistics from Hogere Havenen Vervoersschool (now Erasmus University), Rotterdam, and successfully completed the International Executive Program at INSEAD, Fontainebleau, France. Mr. Erhardt has also studied at the London School of Foreign Trade.

Roger Schmitz, Director

Mr. Roger Schmitz has served as a director of our board of directors since July 2013. Mr. Schmitz is a Partner at Smith Cove Capital Management LP, where he focuses on investment opportunities across credit and equity markets. Mr. Schmitz currently serves on the board of Gener8 Maritime Inc. (NYSE: GNRT). From 2006 to 2016, Mr. Schmitz worked for Monarch, where he was most recently a Managing Principal responsible for evaluating investment opportunities in a wide variety of corporate and sovereign situations, both domestically and internationally. Prior to joining Monarch in 2006, Mr. Schmitz was an Analyst in the Financial Sponsors Group at Credit Suisse, where he focused on leverage finance. Mr. Schmitz received an A.B., cum laude, in economics from Bowdoin College.

Mahesh Balakrishnan, Director

Mr. Mahesh Balakrishnan has served as a director of our board of directors since February 2015. Ms. Balakrishnan is a Managing Director in Oaktree's Opportunities Funds. He joined Oaktree in 2007 and has focused on investing in the chemicals, energy, financial institutions, real estate and shipping sectors. Mr. Balakrishnan has worked with a number of Oaktree's portfolio companies and currently serves on the boards of STORE Capital Corp. (NYSE:STOR) and Momentive Performance Materials. He has been active on a number of creditors' committees, including ad hoc committees in the Lehman Brothers and LyondellBasell restructurings. Prior to Oaktree, Mr. Balakrishnan spent two years as an analyst in the Financial Sponsors & Leveraged Finance group at UBS Investment Bank. Mr. Balakrishnan graduated cum laude with a B.A. degree in Economics (Honors) from Yale University.

Emily Stephens, Director

Ms. Emily Stephens has served on our board of directors since November 2018 and served previously for the period July 2014 - February 2015. She is a Managing Director in the Distressed Debt group of Oaktree. Prior to joining Oaktree in 2006, Ms. Stephens served as a Vice President and Associate General Counsel at Trust Company of the West. Prior to that, Ms. Stephens spent five years as a Corporate Associate at Munger, Tolles & Olson LLP. She also serves on the boards of Aleris Corporation and Neo Performance Materials Inc. Ms. Stephens holds a B.A. in Government from Dartmouth College and a J.D. from the University of Texas School of Law.

Nikolaos Karellis, Director

Mr. Nikolaos Karellis has served as a director of our board of directors since May 2016. Mr. Karellis is currently a Director of the advisory firm MARININVEST ADVISERS LTD and has more than 35 years of experience in the shipping sector in financial institutions. Until 2013, he served as the Head of Shipping of HSBC BANK PLC in Athens, Greece for 28 years, where he built a business unit providing a comprehensive range of services to Greek shipping companies. Prior to HSBC, he worked at Bank of America. Mr. Karellis received his Msc in Mechanical Engineering from the National Technical University of Athens and received an MBA in Finance from the Wharton School, University of Pennsylvania.

Table of Contents

Arne Blystad, Director

Mr. Arne Blystad has served on our board of directors since July 6, 2018. He is an independent investor located in Oslo, Norway. The Blystad Group, which is 100% owned and controlled by Mr. Arne Blystad and his immediate family, has a long history in international shipping. Mr. Blystad began, after high school, his career as a shipbroker in London and New York. He later started various ventures within the shipping and offshore drilling space. This has involved both private and public listed companies, where he has held various board and management positions over the years. The Blystad Group has investments in various shipping segments such as dry bulk, chemical tankers, container feeder and semi sub heavy-lift, real-estate and securities.

Raffaele Zagari, Director

Mr. Raffaele Zagari has served as director on our board of directors since August 2018. In his career he has developed approximately 25 years' experience in the shipping business. Since 2010, as CEO of Augustea Group Mr Zagari engineered and implemented the expansion and consolidation of the dry bulk business that has led to the incorporation of Augustea Atlantica, and its subsidiaries in Argentina, Singapore, London and Malta ("Augustea Group"). He has actively promoted the incorporation of CBC, AOM, ABML and ABY, the joint ventures in which Augustea Atlantica is a shareholder. He founded the towage company Augustea Grancolumbia in the Santa Marta area in Colombia and he has over the years worked closely with Drummond Coal and Glencore on their logistical/maritime needs for their local coal loading operations which have a combined 60 million tons yearly throughput. During this time he supervised in excess of 50 vessel sale and purchase transactions (both new building and second hand), and more than a dozen long-term ship leases primarily with the support of Japanese conglomerate Mitsui & Co. Since 1997, he has actively led the Chartering Department of Augustea Dry Bulk Division, and directing the other business of the Augustea Group. In 2017, Raffaele was appointed Chairman of Augustea Group Holding SpA, in addition to his role as the Group's CEO. He is also a non-executive director of Steamship Mutual, one of the largest P&I marine insurance, where he also chairs the Underwriting and Reinsurance Committee. Prior to joining Augustea, and for the period 1993-1995, Mr Zagari worked for Blenheim Shipping (a company of the former Scinicariello Augustea Group) during which time he gained extensive experience in the Japanese shipyards, Sumitomo Yokuska and Sanoyas Mitsushima, as assistant site supervisor. In 1996 -1997, he worked at Zodiac Maritime Agencies with the operations department before joining the Augustea Group. Mr Zagari holds a Diploma in Commercial Operation of Shipping at Guldhall University London.

Charis Plakantonaki, Chief Strategy Officer

Charis Plakantonaki joined Star Bulk in 2015. As Chief Strategy Officer, she is responsible for Strategic Planning, Human Resources, Information Technology and Corporate Communications. From 2008 to 2015 she worked at Thenamaris (Ships Management) Inc., for the first five years as Strategic Projects Manager and subsequently as their Head of Corporate Communications. Prior to joining Thenamaris, she was a Senior Consultant at the Boston Consulting Group where she managed strategy development projects for multinational companies across different industries, and before that she worked at the Centre of Excellence of the global FMCG company DIAGEO and at the Organizing Committee of the ATHENS 2004 Olympic & Paralympic Games. Mrs. Plakantonaki received a B.S. in International & European Economics & Politics from the University of Macedonia, where she graduated as valedictorian, and an MBA from INSEAD.

B. Compensation of Directors and Senior Management

For the year ended December 31, 2018, aggregate compensation to our senior management was \$2.2 million under the employment agreements. Non-employee directors of Star Bulk receive an annual cash retainer of \$15,000, each. The chairman of the audit committee receives a fee of \$15,000 per year and each of the audit committee members receives as fee of \$7,500. Each chairman of our other standing committees receives an additional \$5,000 per year. In addition,

each director is reimbursed for out-of-pocket expenses in connection with attending meetings of the board of directors or committees. We do not have a retirement plan for our officers or directors. The aggregate compensation of the board of directors for the year ended December 31, 2018 was \$159,000.

Table of Contents

Employment and Consultancy Agreements

We are a party to employment and consultancy agreements with certain members of our senior management team. For a description of these agreements, see “Item 7. Major Shareholders and Related Party Transactions-B. Related Party Transactions - Employment and Consultancy Agreements.”

Equity Incentive Plan

On May 9, 2016, February 22, 2017 and February 27, 2018, respectively, our board of directors approved the 2016 Equity Incentive Plan (the “2016 Equity Incentive Plan”), the 2017 Equity Incentive Plan (the “2017 Equity Incentive Plan”) and the 2018 Equity Incentive Plan (the “2018 Equity Incentive Plan”) (collectively, the “Equity Incentive Plans”), under which our officers, key employees, directors, and consultants are eligible to receive options to acquire common shares, share appreciation rights, restricted shares and other share-based or share-denominated awards. We reserved a total of 940,000 common shares, 950,000 common shares and 700,000 common shares for issuance under the Equity Incentive Plans, subject to further adjustment for changes in capitalization as provided in the plans. The purpose of the Equity Incentive Plans is to encourage ownership of shares by, and to assist us in attracting, retaining and providing incentives to, our officers, key employees, directors and consultants, whose contributions to us are or may be important to our success and to align the interests of such persons with our shareholders. The various types of incentive awards that may be issued under the Equity Incentive Plans, enable us to respond to changes in compensation practices, tax laws, accounting regulations and the size and diversity of our business. The Equity Incentive Plans are administered by our compensation committee, or such other committee of our board of directors as may be designated by the board. The Equity Incentive Plans permit issuance of restricted shares, grants of options to purchase common shares, share appreciation rights, restricted shares, restricted share units and unrestricted shares.

Under the terms of the Equity Incentive Plans, share options and share appreciation rights granted under the Equity Incentive Plans will have an exercise price per common share equal to the fair market value of a common share on the date of grant, unless otherwise determined by the administrator of the Equity Incentive Plans, but in no event will the exercise price be less than the fair market value of a common share on the date of grant. Options and share appreciation rights are exercisable at times and under conditions as determined by the administrator of the Equity Incentive Plans, but in no event will they be exercisable later than ten years from the date of grant.

The administrator of the Equity Incentive Plans may grant restricted common shares and awards of restricted share units subject to vesting and forfeiture provisions and other terms and conditions as determined by the administrator of the Equity Incentive Plans. Upon the vesting of a restricted share unit, the award recipient will be paid an amount equal to the number of restricted share units that then vest multiplied by the fair market value of a common share on the date of vesting, which payment may be paid in the form of cash or common shares or a combination of both, as determined by the administrator of the Equity Incentive Plans. The administrator of the Equity Incentive Plans may grant dividend equivalents with respect to grants of restricted share units.

Adjustments may be made to outstanding awards in the event of a corporate transaction or change in capitalization or other extraordinary event. In the event of a “change in control” (as defined in the Equity Incentive Plans), unless otherwise provided by the administrator of the Equity Incentive Plans in an award agreement, awards then outstanding shall become fully vested and exercisable in full.

The board of directors may amend or terminate the Equity Incentive Plans and may amend outstanding awards, provided that no such amendment or termination may be made that would materially impair any rights, or materially increase any obligations, of a grantee under an outstanding award. Shareholders’ approval of Equity Incentive Plans amendments may be required in certain definitive, pre-determined circumstances if required by applicable rules of a national securities exchange or the Commission. Unless terminated earlier by the board of directors, the Equity Incentive Plans will expire ten years from the date on which the Equity Incentive Plans was adopted by the board of

directors.

The terms and conditions of the Equity Incentive Plans are substantially similar to those of the previous plans. As of February 28, 2019 there are 71,500 common shares unvested from the 2018 Equity Incentive Plan.

93

Table of Contents

During the years 2016, 2017 and 2018 as of February 28, 2019, pursuant to the Equity Incentive Plans, we have granted to certain directors and officers the following securities:

On May 9, 2016, 385,000 restricted common shares were granted to certain of our directors and officers. In July 2016, 345,000 of respective shares were vested, while the remaining 40,000 vested on March 1, 2018.

On September 12, 2016, 345,000 restricted common shares were granted to certain of our directors and officers for their participation in the negotiations with our lenders related to the Restructuring. 305,000 of such restricted common shares vested on March 30, 2017, with the remaining 40,000 vested on March 1, 2018.

On February 22, 2017, 544,000 restricted common shares were granted to certain of our directors and officers, all of which vested on August 22, 2017.

On February 27, 2018, 396,500 restricted common shares were granted to certain of our directors and officers, of which 253,500 restricted common shares vest on August 27, 2018, 71,500 restricted common shares vest on February 27, 2019 and the remaining 71,500 restricted common shares vest on February 27, 2021.

On January 7, 2019, our Board of Directors and Compensation Committee established an incentive program for key employees, pursuant to which an aggregate of four million (4,000,000) restricted share units (each, a “RSU”) will be issued. Each RSU represents, upon vesting, a right for the relevant beneficiary to receive one (1) SBLK share. The RSUs are subject to the satisfaction of certain performance conditions, which apply if our fleet performs better than relevant dry bulk charter rate indices as reported by the Baltic Exchange (the “Indices”) during 2020 and 2021. The RSUs start to vest if the Company’s fleet performs better than the Indices by at least \$120,000,000, and vest in increasing amounts if and to the extent the performance of our fleet exceeds those of the relative to the Indices by up to an aggregate of \$300,000,000. We take the view that the current likelihood of vesting of these RSUs does not meet a “more likely than not” standard under US GAAP, and as a result no charge will be amortized through our statement of operations, until vesting becomes probable. Subject to the vesting conditions being met on April 30, 2021 and April 30, 2022 (each, a “Vesting Date”) two million RSUs will vest on each Vesting Date, and the relevant SBLK shares will be issued and distributed to the relevant beneficiaries as per the allocation of the Board of Directors. Any non-vested RSUs at the applicable Vesting Date will be cancelled.

As of the date of this annual report, 86,074 common shares are available under the Equity Incentive Plans.

C. Board Practices

Our board of directors is divided into three classes with only one class of directors being elected in each year and following the initial term for each such class, each class will serve a three-year term. The term of each class of directors expires as follows:

- The term of the Class A directors expires in 2020;
- The term of Class B directors expires in 2021; and
- The term of Class C directors expires in 2019.

Committees of the Board of Directors

Our audit committee which is comprised of three independent directors, is responsible for, among other things, (i) reviewing our accounting controls, (ii) making recommendations to the board of directors with respect to the engagement of our outside auditors and (iii) reviewing all related party transactions for potential conflicts of interest

and all those related party transactions and subject to approval by our audit committee.

Table of Contents

Our compensation committee, which is comprised of three independent directors, is responsible for, among other things, recommending to the board of directors our senior executive officers' compensation and benefits.

Our nominating and corporate governance committee, which is comprised of three independent directors, is responsible for, among other things, (i) recommending to the board of directors nominees for director and directors for appointment to committees of the board of directors, and (ii) advising the board of directors with regard to corporate governance practices.

Shareholders may also nominate directors in accordance with procedures set forth in Bylaws.

Our Audit Committee consists of Mr. Koert Erhardt, Mr. Nikolaos Karellis and Mr. Tom Søfteland, who is the chairman of the committee. Our Compensation Committee consists of Mr. Tom Søfteland, Mr. Mahesh Balakrishnan and Mr. Spyros Capralos, who is the chairman of the committee. Our Nominating Committee consists of Mr. Spyros Capralos, Ms. Emily Stephens and Mr. Koert Erhardt, who is the chairman of the committee.

There are no service contracts between us and any of our directors providing for benefits upon termination of their employment or service.

D. Employees

As of December 31, 2016, 2017 and 2018, and February 28, 2019 we had 145, 149, 169 and 176 employees, respectively, including our executive officers.

E. Share Ownership

With respect to the total amount of common shares owned by all of our officers and directors, individually and as a group, see Item 7 "Major Shareholders and Related Party Transactions."

Item 7. Major Shareholders and Related Party Transactions**A. Major Shareholders**

The following table presents certain information as of February 28, 2019, February 27, 2018 and March 9, 2017 regarding the ownership of our common shares with respect to each shareholder, who we know to beneficially own more than five percent of our outstanding common shares, and our executive officers and directors.

Beneficial Owner	Common Shares Beneficially Owned as of							
	February 28, 2019		February 27, 2018		March 9, 2017

Table of Contents

Percentage amounts based on 93,089,717 common shares outstanding as of February 28, 2019, 64,160,004

- (1) common shares outstanding as of February 27, 2018 and 63,068,779 common shares outstanding as of March 9, 2017.

As of February 28, 2019, consists of (i) 1,316,498 shares held by Oaktree Value Opportunities Fund, L.P. (“VOF”), (ii) 2,397,106 shares held by Oaktree Opportunities Fund IX Delaware, L.P. (“Fund IX”), (iii) 22,016 shares held by Oaktree Opportunities Fund IX (Parallel 2), L.P. (“Parallel 2”), (iv) 11,445,307 shares held by Oaktree Dry Bulk Holdings LLC (“Dry Bulk Holdings”), (v) 16,253,983 shares held by OCM XL Holdings L.P., a Cayman Islands exempted limited partnership (“OCM XL”) and (vi) 152,580 shares held by OCM FIE, LLC (“FIE”). Each of the foregoing funds and entities is affiliated with Oaktree Capital Group Holdings GP, LLC (“OCGH”). The members of OCGH are Howard S. Marks, Bruce A. Karsh, Jay S. Wintrob, John B. Frank, Sheldon M. Stone, Larry W. Keele, Stephen A. Kaplan and David M. Kirchheimer. Each of the direct and indirect general partners, managing members, directors, unit holders, shareholders, and members of VOF, Fund IX, Parallel 2, Dry Bulk Holdings,

- (2) OCM XL and FIE, may be deemed to share voting and dispositive power over the shares owned by such entities, but disclaims beneficial ownership in such shares except to the extent of any pecuniary interest therein. The address for these entities (collectively, the “Oaktree Funds”) is c/o Oaktree Capital Management, L.P., 333 South Grand Avenue, 28th Floor, Los Angeles, California 90071. OCM Investments, LLC (a subsidiary of Oaktree Capital Management, L.P., which is the investment manager of the Oaktree Funds) is registered as a broker-dealer with the Commission and in all 50 states, the District of Columbia and Puerto Rico, and is a member of the U.S. Financial Industry Regulatory Authority. Oaktree Funds acquired common shares in the ordinary course of business and, at the time of the acquisition of the Company’s common shares to be resold under this registration statement, had no agreements or understandings, directly or indirectly, with any person to distribute the common shares.

As of February 28, 2019, consists of (i) 3,208,148 shares beneficially owned directly by Augustea MED Limited, a Malta limited liability company (“Augustea MED”), (ii) 1,370,044 shares beneficially owned directly by Augustea Bunge Maritime Limited, a Malta limited liability company (“ABML”) and (iii) 44,705 shares beneficially directly owned by Augustea Oceanbulk Maritime Malta Limited, a Malta limited liability company (“Augustea Oceanbulk”). Augustea MED is owned by Augustea Atlantica S.p.A, a joint stock limited liability company incorporated in Italy (“Augustea Atlantica”), ABML is 50.85 % owned by Augustea Atlantica and 49.15% owned by Bunge Investment Management Limited, a British Virgin Islands limited liability company (“BIML”), however, certain matters require

- (3) the approval of 75% of the issued shares and Augustea Oceanbulk is (a) 0.12% owned directly by Augustea Atlantica and (b) 65.84% owned by Augustea Malta Holding Limited, which is wholly owned by Augustea Atlantica. Augustea Atlantica is wholly owned by Augustea Holding S.p.A., a joint stock limited liability company incorporated in Italy (“Augustea Holding”). The directors of Augustea Holding are Raffaele Zagari (Chairman, Executive Director and CEO), Maurizio Pavesi (Executive Director and CFO), Pietrantonio Cafiero (Non-executive Director), Roberto Donnini (Non-executive, Independent Director) and Stefano Ferrailo (Non-executive, Independent Director). Mr. Raffaele Zagari was appointed as a member of the Company’s Board of Directors on August 3, 2018.

These numbers of shares do not include shares beneficially owned by Messrs, Pappas, Blystad and Zagari, which

- (4) are presented within line items “Entities affiliated with Petros Pappas”, “Entities affiliated with Arne Blystad” and “Augustea Entities”, respectively, above.
- (5) All of the 2,974,261 common shares that are currently directly held by Oceanbulk Container Carriers LLC will be distributed to Oaktree when such a distribution were to take place.

Our major shareholders, save for what is below referred, have the same voting rights as our other shareholders. No foreign government owns more than 50% of our outstanding common shares. We are not aware of any arrangements,

the operation of which may at a subsequent date result in a change in control of Star Bulk.

Even if Oaktree owns more than 50% of our outstanding common shares, under the Oaktree Shareholders Agreement (described in “Item 7. Major Shareholders and Related Party Transactions-B. Related Party Transactions.”), with certain limited exceptions, Oaktree effectively cannot vote more than 33% of our outstanding common shares (subject to adjustment under certain circumstances). Furthermore, pursuant to the Oaktree Shareholders Agreement, so long as Oaktree and its affiliates beneficially own at least 10% of our outstanding voting securities, Oaktree and its affiliates have agreed not to directly or indirectly acquire beneficial ownership of any additional voting securities of ours or other equity-linked or other derivative securities with respect to our voting securities if such acquisition would result in Oaktree’s beneficial ownership exceeding 63.8%, subject to certain specified exceptions. In addition, pursuant to the Oaktree Shareholders Agreement, subject to various exclusions, so long as Oaktree and its affiliates beneficially own at least 10% of our voting securities, unless specifically invited in writing by our board of directors, they may not (i) enter into any tender or exchange offer or various types of merger, business combination, restructuring or extraordinary transactions, (ii) solicit proxies or consents in respect of such transactions, (iii) otherwise act to seek to control or influence our management, board of directors or other policies (except with respect to the nomination of Oaktree designees pursuant to the Oaktree Shareholders Agreement and other nominees proposed by the Nominating and Corporate Governance Committee) or (iv) enter into any negotiations, arrangements or understandings with any third party with respect to any of the above. Pursuant to the Oaktree Shareholders Agreement, Oaktree also agreed to various limitations on the transfer of its common shares.

Table of Contents

In addition, we have granted certain demand registration rights and shelf registration rights to Oaktree, affiliates of Mr. Petros Pappas, York and Augustea pursuant to the Registration Rights Agreement and to E.R. in connection with the E.R. Vessel Purchase Transaction. See “See “Item 7. Major Shareholders and Related Party Transactions—B. Related Party Transactions—Registration Rights Agreement.”

As of February 28, 2019, 93,089,717 of our outstanding common shares were held in the United States by 193 holders of record, including Cede & Co., the nominee for the Depository Trust Company, which held 64,563,050 of those shares.

B.Related Party Transactions

Transactions with Oceanbulk Maritime, S.A. and affiliates

Oceanbulk Maritime, S.A., a related party, is a ship management company and is controlled by our former director Ms. Milena-Maria Pappas. One of the affiliated companies of Oceanbulk Maritime provides us certain financial corporate development services. The related expenses for the years ended December 31, 2016, 2017 and 2018 were \$0.3 million, \$0.3 million and \$0.3 million respectively, and are included in General and administrative expenses in the consolidated statement of operations.

As of December 31, 2017 and 2018, we had an outstanding receivable balance of \$0.1 million and \$0.1 million, respectively, from Oceanbulk Maritime S.A and its affiliates for payments made by us on its behalf for certain administrative items.

OCC Vessel Acquisition

As more specifically described in Item 4.A “Information on the Company—History and development of the Company,” on May 14, 2018, we entered into a definitive agreement with OCC, an entity affiliated with Oaktree Capital Management L.P. and with family members of its CEO, Mr. Petros Pappas, pursuant to which we acquired the OCC Vessels with an aggregate capacity of 0.62 million dwt for an aggregate of 3,304,735 common shares of Star Bulk. CSSC (Hong Kong) Shipping Company Limited had agreed to provide a ten-year capital lease of \$104.4 million to finance the then remaining \$103.8 million capital expenditures of the OCC Vessels. The OCC Vessel Acquisition was approved by the disinterested members of our board of directors.

Employment and Consultancy Agreements

We are a party to three consultancy agreements in each case with a separate company owned and controlled by either Mr. Simos Spyrou, our Co-Chief Financial Officer, Mr. Christos Begleris, our Co-Chief Financial Officer or Mr. Nicos Rescos, our Chief Operating Officer. Pursuant to each of these consultancy agreements, we are required to pay an aggregate base fee of \$0.5 million per annum to these three companies (this amount includes certain fees determined in Euros, using the exchange rate as of December 31, 2018, which was \$1.15 per euro).

We are also a party to six employment agreements with each of the Chief Executive Officer, the President, the Chief Operating Officer, the Co-Chief Financial Officers and the Chief Strategy Officer, Messrs. Petros Pappas, Hamish Norton, Nicos Rescos, Simos Spyrou, Christos Begleris and Mrs. Charis Plakantonaki, respectively.

Table of Contents

In aggregate, the related expenses under the employment agreements for 2016, 2017 and 2018 were \$1.8 million, \$1.9 million and \$2.2 million, respectively, and are included in General and administrative expenses in the consolidated statement of operations.

In aggregate, the related expenses under the consultancy agreements for 2016, 2017 and 2018 were \$0.5 million for each year respectively, and are included in General and administrative expenses in the consolidated statement of operations.

Office Lease Agreements

On January 1, 2012, Starbulk S.A. entered into a one year lease agreement for office space with Combine Marine Ltd., or Combine Ltd., a company controlled by Ms. Milena-Maria Pappas and by Mr. Alexandros Pappas, both children of our Chief Executive Officer, Mr. Petros Pappas. The lease agreement provided for a monthly rental of €2,500 (approximately \$2,875, using the exchange rate as of December 31, 2018, which was \$1.15 per euro). On January 1, 2013, the agreement was renewed and unless terminated by either party, it will expire in January 2024.

In addition, on December 21, 2016 Starbulk S.A., entered into a six year lease agreement for office space with Alma Properties, a company controlled by Mrs. Milena - Maria Pappas. The lease agreement provides for a monthly rental of €300 (approximately \$345, using the exchange rate as of December 31, 2018, which was \$1.15 per euro).

Interchart Shipping Inc.

Interchart, a Liberian company affiliated with family members of our Chief Executive Officer, acts as a chartering broker for all of our vessels. In 2014, we acquired 33% of the total outstanding common stock of Interchart. The ownership interest was purchased from an entity affiliated with family members of our Chief Executive Officer. In November 2014, we entered into a new services agreement with Interchart for chartering, brokering and commercial services for all of our vessels for a monthly fee of \$275,000, with a term until March 31, 2015, which following consecutive renewals is currently effective until December 31, 2018. In November 2018, we entered into a new service agreement with Interchart, with effect from November 1, 2018 until December 31, 2019, pursuant to which the monthly fee was increased to \$325,000. During the years ended December 31, 2016, 2017 and 2018, the brokerage commission on charter revenue charged by Interchart amounted to \$3.3 million, \$3.3 million and \$3.4 million, respectively, and is included in “Voyage expenses” in the consolidated statements of operations.

Sydelle Marine Ltd.

In April 2017, Sydelle Marine Limited (“Sydelle”), a company controlled by members of the family of Mr. Petros Pappas, entered into a pooling agreement (the “Sydelle Agreement”) with our fully owned subsidiary Domus Shipping LLC, owner of the vessel Star Ariadne, whereby the net revenues of Star Ariadne and the vessel owned by Sydelle, will be equally split between the two companies. Pursuant to the Sydelle Agreement, the pool adjustment for the years ended December 31, 2017 and 2018 was (\$0.3) million and (\$0.9) million, respectively, which is recorded in “Voyage revenues” in the relevant consolidated statement of operations. As of December 31, 2017 and 2018, we had an outstanding receivable amount of \$0.04 million and an outstanding payable of \$0.3 million, respectively, in connection with the Sydelle Agreement. The agreement was terminated effective December 31, 2018.

Oaktree Shareholders Agreement

The following is a summary of the material terms of the Oaktree Shareholders Agreement. Capitalized terms that are used in this description of the Oaktree Shareholders Agreement but not otherwise defined below have the meanings ascribed to them under the caption, “8. Certain Definitions.”

Table of Contents

General

The Oaktree Shareholders Agreement was entered into on the date the Merger was completed (July 11, 2014) and governs the ownership interest of Oaktree and its affiliated investment funds that own Common Shares (and any Affiliates (as defined below) of the foregoing persons that become Oaktree Shareholders pursuant to a transfer or other acquisition of our Equity Securities (as defined below) in accordance with the terms of the Oaktree Shareholders Agreement, collectively, the “Oaktree Shareholders”) following the Merger. Based on the number of our outstanding common shares on February 28, 2019, the Oaktree Shareholders beneficially own approximately 33.9% of the common shares outstanding of the Company.

Representation on the Board of Directors

After the closing of the Merger, we and the board of directors increased the size of the board of directors from six directors (“Directors”) to nine Directors.

The Oaktree Shareholders are entitled to nominate four (but in no event more than four) Directors (each such nominee, including the persons designated at the closing of the Merger as described in the preceding paragraph the “Oaktree Designees”) to the board of directors for so long as the Oaktree Shareholders and their Affiliates in the aggregate beneficially own (for purposes of the Oaktree Shareholders Agreement and this summary, as such term is defined in Rule 13d-3 under the Securities Exchange Act of 1934) 40% or more of our outstanding Voting Securities. During any period the Oaktree Shareholders are entitled to nominate four Directors pursuant to the Oaktree Shareholders Agreement: (i) if Mr. Petros Pappas is then serving as our Chief Executive Officer and as a Director, then the Oaktree Shareholders are entitled to nominate only three Directors and (ii) at least one of the Oaktree Designees will not be a citizen or resident of the United States solely to the extent that (x) at least one of the nominees to the board of directors (other than the Oaktree Designees) is a United States citizen or resident and (y) as a result, we would not qualify as a “foreign private issuer” under Rule 405 under the Securities Act and Rule 3b-4(c) under the Exchange Act if such Oaktree Designee is a citizen or resident of the United States.

The Oaktree Shareholders are entitled to nominate three Directors, two Directors and one Director to the board of directors for so long as the Oaktree Shareholders and their Affiliates beneficially own 25% or more, but less than 40% of the outstanding Voting Securities, own 15% or more, but less than 25% of the outstanding Voting Securities and own 5% or more, but less than 15% of our outstanding Voting Securities, respectively. The three directors currently designated by Oaktree are Messrs. Pappas and Balakrishnan and Ms. Stephens.

We have also agreed to establish and maintain an audit committee (the “Audit Committee”), a compensation committee (the “Compensation Committee”) and a nominating and corporate governance committee (the “Nominating and Corporate Governance Committee”), as well as such other board of directors committees as the board of directors deems appropriate from time to time or as may be required by applicable law or the rules of Nasdaq (or other stock exchange or securities market on which the Common Shares are at any time listed or quoted). The committees will have such duties and responsibilities as are customary for such committees, subject to the provisions of the Oaktree Shareholders Agreement.

The Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee will consist of at least three Directors, with the number of members determined by the board of directors; provided, however, that for so long as the Oaktree Shareholders and their Affiliates in the aggregate beneficially own 15% or more of our outstanding Voting Securities, the Compensation Committee and the Nominating and Corporate Governance Committee will consist of three members each, and the Oaktree Shareholders are entitled to include one Oaktree Designee on each such Committee.

The board of directors will appoint individuals selected by the Nominating and Corporate Governance Committee to fill the positions on the committees of the board of directors that are not required to be filled by Oaktree Designees. See Item 6. “Directors and Senior Management.”

Table of Contents

Directors serve on the board until their resignation or removal or until their successors are nominated and appointed or elected; provided, that if the number of Directors that the Oaktree Shareholders are entitled to nominate pursuant to the Oaktree Shareholder Agreement is reduced by one or more Directors, then the Oaktree Shareholders shall, within 5 business days, cause such number of Oaktree Designees then serving on the board of directors to resign from the board of directors as is necessary so that the remaining number of Oaktree Designees then serving on the board of directors is less than or equal to the number of Directors that the Oaktree Shareholders are then entitled to nominate. However, no such resignation will be required if a majority of the Directors then in office (other than the Oaktree Designees) provides written notification to the Oaktree Shareholders within such 5 business day period that such resignation will not be required.

If any Oaktree Designee serving as a Director dies or is unwilling or unable to serve as such or is otherwise removed or resigns from office, then the Oaktree Shareholders can promptly nominate a successor to such Director (to the extent they are still entitled to pursuant to the Oaktree Shareholder Agreement). We have agreed to take all actions necessary in order to ensure that such successor is appointed or elected to the board of directors as promptly as practicable. If the Oaktree Shareholders are not entitled to nominate any vacant Director position(s), we and the board of directors will fill such vacant Director position(s) with an individual(s) selected by the Nominating and Corporate Governance Committee.

Voting

Except with respect to any Excluded Matter (as defined below), at any meeting of our shareholders, Oaktree Shareholders have agreed to (and have agreed to cause their Affiliates to) vote, or cause to be voted, or exercise their rights to consent (or cause their rights to consent to be exercised) with respect to, all our Voting Securities beneficially owned by them (and which are entitled to vote on such matter) in excess of the Voting Cap as of the record date for the determination of our shareholders entitled to vote or consent to such matter, with respect to each matter on which our shareholders are entitled to vote or consent, in the same proportion (for or against) as our Voting Securities that are owned by shareholders (other than an Oaktree Shareholder, any of their Affiliates or any Group (for purposes of the Oaktree Shareholders Agreement and this summary, as such term is defined in Section 13(d)(3) of the Exchange Act), which includes any of the foregoing) are voted or consents are given with respect to each such matter.

In any election of directors to the board of directors, except with respect to an election of Directors to the board of directors where one or more members of the slate of nominees put forward by the Nominating and Corporate Governance Committee is being opposed by one or more competing nominees (a “Contested Election”), the Oaktree Shareholders have agreed to (and have agreed to cause their Affiliates to) vote, or cause to be voted, or exercise their rights to consent (or cause their rights to consent to be exercised) with respect to, all our shares beneficially owned by them (and which are entitled to vote on such matter) in favor of the slate of nominees approved by the Nominating and Corporate Governance Committee.

In the case of a Contested Election, Oaktree Shareholders have agreed to (and have agreed to cause their Affiliates to) vote, or cause to be voted, or exercise their rights to consent (or cause their rights to consent to be exercised) with respect to, all shares beneficially owned by them in excess of the Voting Cap in the same proportion (for or against) as all of our shares that are owned by our other shareholders (other than the Oaktree Shareholders, any of their Affiliates or any Group which includes any of the foregoing) are voted or consents are given with respect to such Contested Election.

For so long as the Oaktree Shareholders and their affiliates in the aggregate beneficially own at least 33% of the outstanding Voting Securities of the Company, without the prior written consent of Oaktree, we and the board of directors have agreed not to, directly or indirectly (whether by merger, consolidation or otherwise), (i) issue Preferred Shares or any other class or series of our Equity Interests that ranks senior to the shares as to dividend distributions and/or distributions upon the liquidation, winding up or dissolution of the Company or any other circumstances, (ii)

issue Equity Securities to a person or Group, if, after giving effect to such transaction, such issuance would result in such Person or Group beneficially owning more than 20% of our outstanding Equity Securities (except that we and the board of directors retain the right to issue Equity Securities in connection with a merger or other business combination transaction with the consent of the Oaktree Shareholders), or (iii) issue any Equity Securities of any of our subsidiaries (other than to the Company or a wholly-owned subsidiary of the Company). During the 18 months following the closing date, which period has now expired, we and the board also agreed not to terminate the Chief Executive Officer or any other of our officers set forth in the Oaktree Shareholders Agreement, except if such termination were to have been for Cause (as defined in our 2014 Equity Incentive Plan).

Table of Contents

Standstill Restrictions

For so long as the Oaktree Shareholders and their Affiliates in the aggregate beneficially own at least 10% of our outstanding Voting Securities, the Oaktree Shareholders and their Affiliates have agreed not to, directly or indirectly, acquire (i) the beneficial ownership of any additional of our Voting Securities, (ii) the beneficial ownership of any other of our Equity Securities that derive their value from any of our Voting Securities or (iii) any rights, options or other derivative securities or contracts or instruments to acquire such beneficial ownership that derive their value from such Voting Securities or other Equity Securities, in each case of clauses (i), (ii) and (iii), if, immediately after giving effect to any such acquisition, Oaktree Shareholders and their Affiliates would beneficially own in the aggregate more than a percentage of our outstanding Voting Securities equal to (A) the Oaktree Shareholders' ownership percentage of our Voting Securities immediately after the closing of the Merger (i.e., approximately 61.3%) plus (B) 2.5%.

The foregoing restrictions do not apply to participation by the Oaktree Shareholders or their Affiliates in: (i) pro rata primary offerings of our Equity Securities based on number of outstanding Voting Securities held or (ii) acquisitions of our Equity Securities that have received Disinterested Director Approval (as defined below).

For so long as the Oaktree Shareholders and their Affiliates in the aggregate beneficially own at least 10% of our Voting Securities, unless specifically invited in writing by the board of directors (with Disinterested Director Approval), neither Oaktree nor any of their Affiliates will in any manner, directly or indirectly, (i) enter into any tender or exchange offer, merger, acquisition transaction or other business combination or any recapitalization, restructuring, liquidation, dissolution or other extraordinary transaction involving the Company, (ii) make, or in any way participate in, directly or indirectly, any "solicitation" of "proxies," "consents" or "authorizations" (as such terms are used in the proxy rules of the SEC promulgated under the Exchange Act) to vote, or seek to influence any person other than the Oaktree Shareholders with respect to the voting of, any of our Voting Securities (other than with respect to the nomination of the Oaktree Designees and any other nominees proposed by the Nominating and Corporate Governance Committee), (iii) otherwise act, alone or in concert with third parties, to seek to control or influence the management, board of directors or policies of the Company or any of its Subsidiaries (other than with respect to the nomination of the Oaktree Designees and any other nominees proposed by the Nominating and Corporate Governance Committee), or (iv) enter into any negotiations, arrangements or understandings with any third party with respect to any of the foregoing activities.

However, if (i) we publicly announce our intent to pursue a tender offer, merger, sale of all or substantially all of our assets or any similar transaction, which in each such case would result in a Change of Control Transaction, or any recapitalization, restructuring, liquidation, dissolution or other extraordinary transaction involving the Company and its subsidiaries, taken as a whole, then the Oaktree Shareholders are permitted to privately make an offer or proposal to the board of directors and (ii) if the board of directors approves, recommends or accepts a buyout transaction with an Unaffiliated Buyer, the restrictions of the Oaktree Shareholders' participation in such transaction will cease to apply, except that any such actions must be discontinued upon the termination or abandonment of the applicable buyout transaction (unless the board of directors determines otherwise with Disinterested Director Approval).

Limitations on Transfer; No Control Premium

For so long as Oaktree and their Affiliates in the aggregate beneficially own at least 10% of our Voting Securities, the Oaktree Shareholders and their Affiliates have agreed not to sell any of their Common Shares to a person or group that, after giving effect to such transaction, would hold more than 20% of our outstanding Equity Securities. Notwithstanding the foregoing, the Oaktree and their Affiliates may sell their shares in the Company to any person or Group pursuant to:

Table of Contents

· sales that have received Disinterested Director Approval;

· a tender offer or exchange offer, by an Unaffiliated Buyer, that is made to all of our shareholders, so long as such offer would not result in a Change of Control Transaction, unless the consummation of such Change of Control Transaction has received Disinterested Director Approval;

· transfers to an Affiliate of the Oaktree Shareholders that is an investment fund or managed account in accordance with the Oaktree Shareholders Agreement; and

· sales in the open market (including sales conducted by a third-party underwriter, initial purchaser or broker-dealer) in which the Oaktree Shareholder or their Affiliates do not know (and would not in the exercise of reasonable commercial efforts be able to determine) the identity of the purchaser.

For so long as the Oaktree Shareholders and their Affiliates in the aggregate beneficially own at least 10% of our Voting Securities, neither the Oaktree Shareholders nor any of their Affiliates will sell or otherwise dispose of any of their Common Shares in any Change of Control Transaction unless our other shareholders of the Company are entitled to receive the same consideration per Common Share (with respect to the form of consideration and price), and at substantially the same time, as the Oaktree Shareholders or their Affiliates with respect to their Common Shares in such transaction.

Other Agreements

For so long as the Oaktree Shareholders are entitled to nominate at least one Director, all transactions involving the Oaktree Shareholders or their Affiliates, on the one hand, and the Company or its subsidiaries, on the other hand, will require Disinterested Director Approval; provided, that Disinterested Director Approval will not be required for (a) pro rata participation in primary offerings of our Equity Securities based on number of outstanding Voting Securities held, (b) arms-length ordinary course business transactions of not more than \$5 million in the aggregate per year with portfolio companies of the Oaktree Shareholders or investment funds or accounts Affiliated with the Oaktree Shareholders or (c) the transactions expressly required or expressly permitted under the Merger Agreement relating to Heron, the Registration Rights Agreement and the Oaktree Shareholders Agreement.

We have also agreed to waive (on behalf of itself and its subsidiaries) the application of the doctrine of corporate opportunity, or any other analogous doctrine, with respect to the Company and its subsidiaries, to the Oaktree Designees, to any of the Oaktree Shareholders or to any of the respective Affiliates of the Oaktree Designees or any of the Oaktree Shareholders. None of the Oaktree Designees, any Oaktree Shareholder or any of their respective Affiliates has any obligation to refrain from (i) engaging in the same or similar activities or lines of business as the Company or any of its subsidiaries or developing or marketing any products or services that compete, directly or indirectly, with those of the Company or any of its subsidiaries, (ii) investing or owning any interest publicly or privately in, or developing a business relationship with, any Person engaged in the same or similar activities or lines of business as, or otherwise in competition with, the Company or any of its subsidiaries or (iii) doing business with any client or customer of the Company or any of its subsidiaries (each of the activities referred to in clauses (i), (ii) and (iii), a “Specified Activity”). We (on behalf of the Company and its subsidiaries) have agreed to renounce any interest or expectancy in, or in being offered an opportunity to participate in, any Specified Activity that may be presented to or become known to any Oaktree Shareholder or any of its Affiliates. However, if and to the extent that from time to time after the closing of the Merger Mr. Petros Pappas may be considered an Affiliate of any Oaktree Shareholder, the foregoing waivers do not apply to Mr. Petros Pappas, and any provisions governing corporate opportunities set forth in the Pappas Shareholders Agreement with respect to Mr. Petros Pappas and/or any employment or services agreement between the Company and Mr. Petros Pappas control.

Certain Exclusions

The restrictions described in “Voting,” “Standstill Restrictions” and “Limitations on Transfer; No Control Premium” of this summary do not apply to portfolio companies of the Oaktree Shareholders or their Affiliates unless Oaktree (or its successor) possesses at least 50% of the voting power of such portfolio companies or an action of such portfolio company is taken at the express request or direction of, or in coordination with, an Oaktree Shareholder or its affiliate investment funds.

Table of Contents

We have agreed to acknowledge that the Oaktree Shareholders have made investments and entered into business arrangements with Mr. Petros Pappas, his immediate family and certain affiliates thereof (immediately prior to the Merger) or their respective Affiliates (collectively, the “Pappas Investors”) outside of the Oceanbulk Companies, and may from time to time enter into certain agreements with respect to the holding and/or disposition of Equity Securities of the Company. For purposes of the Oaktree Shareholders Agreement, these arrangements and potential future agreements between the Oaktree Shareholders or their Affiliates, on the one hand, and the Pappas Investors, on the other hand, will not cause (i) any Oaktree Shareholder to be deemed to be an Affiliate of, or constitute a group or beneficially own any Equity Securities of the Company beneficially owned by, the Pappas Investors, or (ii) the Equity Securities of the Company held by the Pappas Investors to be deemed to be subject to the provisions of the Oaktree Shareholders Agreement.

Certain Definitions

For purposes of this description of the Oaktree Shareholders Agreement, the following definitions apply:

“Affiliate” means, with respect to any Person, another Person that directly, or indirectly through one or more intermediaries, controls, is controlled by, or is under common control with, such first Person, where “control” for purposes of this definition means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of a Person, whether through the ownership of voting securities, by contract, as trustee or executor or otherwise.

“Change of Control Transaction” means (a) any acquisition, in one or more related transactions, by any Person or Group, whether by transfer of Equity Securities, merger, consolidation, amalgamation, recapitalization or equity sale (including a sale of securities by the Company) or otherwise, which has the effect of the direct or indirect acquisition by such Person or Group of the Majority Voting Power in the Company; or (b) any acquisition by any Person or Group directly or indirectly, in one or more related transactions, of all or substantially all of the consolidated assets of the Company and its subsidiaries (which may include, for the avoidance of doubt, the sale or issuance of Equity Securities of one or more subsidiaries of the Company).

“Common Shares” means the shares of common stock, par value \$0.01 per share, of the Company, or any other capital stock of the Company or any other Person into which such stock is reclassified or reconstituted (whether by merger, consolidation or otherwise) (as adjusted for any stock splits, stock dividends, subdivisions, recapitalizations and the like).

“Company” means Star Bulk Carriers Corp.

“Disinterested Director Approval” means, with respect to any transaction or conduct requiring such approval pursuant to this Agreement, the approval of a majority of the Disinterested Directors with respect to such transaction or conduct (and the quorum requirements set forth in the charter or bylaws of the Company shall be reduced to exclude any Directors that are not Disinterested Directors for purposes of such approval).

“Disinterested Directors” means any Directors who (a) are not Oaktree Designees and (b) do not have any material business, financial or familial relationship with a party (other than the Company or its subsidiaries) to the transaction or conduct that is the subject of the approval being sought. Notwithstanding the foregoing, Petros Pappas shall not constitute an Oaktree Designee (other than for purposes of the election of directors, the standstill obligations and the transfer limitations applicable to the Oaktree Shareholders and their Affiliates), and the existing agreements and potential future arrangements with respect to the holding and/or disposition of Equity Securities between the Pappas Investors and the Oaktree Shareholders shall not disqualify Petros Pappas or other Pappas Investors from constituting a Disinterested Director for purposes of this Agreement (with certain exceptions).

“Equity Securities” means, with respect to any entity, all forms of equity securities in such entity or any successor of such entity (however designated, whether voting or non-voting), all securities convertible into or exchangeable or exercisable for such equity securities, and all warrants, options or other rights to purchase or acquire from such entity or any successor of such entity, such equity securities, or securities convertible into or exchangeable or exercisable for such equity securities, including, with respect to the Company, the Common Shares and Preferred Shares.

Table of Contents

“Excluded Matter” includes each of the following:

- (a) any vote of the shareholders in connection with a Change of Control Transaction with an Unaffiliated Buyer; provided, however, that if the Oaktree Shareholders or their Affiliates are voting in support of such Change of Control Transaction, then such vote shall constitute an Excluded Matter only if such Change of Control Transaction has received the Disinterested Director Approval; and
- (b) any vote of the shareholders in connection with (i) an amendment to the charter or bylaws of the Company or (ii) the dissolution of the Company; provided, however, that if the Oaktree Shareholders or their Affiliates are voting in support of such matter in either case, then such vote shall constitute an Excluded Matter only if such matter has received the Disinterested Director Approval.

“Majority Voting Power” means, with respect to any Person, either (a) the power to elect or direct the election of a majority of the board of directors or other similar body of such Person or (b) direct or indirect beneficial ownership of Equity Securities representing more than 39% of the Voting Securities of such Person.

“Other Large Holder” means, with respect to any matter in which the shareholders are entitled to vote or consent, any Person or Group that is not an Oaktree Shareholder, an Affiliate of an Oaktree Shareholder or a Group that includes any of the foregoing; provided, however, that if the Oaktree Shareholders, on the one hand, and the Pappas Investors, on the other hand, are entitled to vote on or consent to such matter and a majority of the Voting Securities held by the Pappas Investors are voting on or consenting to such matter in the same manner as a majority of the Voting Securities held by the Oaktree Shareholders (i.e., both positions of Voting Securities are “for” or both positions of Voting Securities are “against”), then an “Other Large Holder” shall mean any Person or Group that is not an Oaktree Shareholder, a Pappas Investor, an Affiliate of either of the foregoing or a Group that includes any of the foregoing.

“Other Large Holder Effective Voting Percentage” means, with respect to an Other Large Holder as of the record date for the determination of shareholders entitled to vote or consent to any matter, the ratio (expressed as a percentage) of (a) the sum of (i) the number of Voting Securities of the Company beneficially owned by such Other Large Holder as of such record date, plus (ii) the product of (x) the excess (if any) of the number of Voting Securities of the Company beneficially owned in the aggregate by the Oaktree Shareholders and their Affiliates as of such record date, over the number of Voting Securities of the Company that is equal to the product of the total number of Voting Securities of the Company outstanding as of such record date, multiplied by the Voting Cap Percentage applicable with respect to such matter, multiplied by (y) a percentage equal to (I) the number of Voting Securities of the Company beneficially owned by such Other Large Holder as of such record date, divided by (II) the number of Voting Securities of the Company beneficially owned by all shareholders (other than the Oaktree Shareholders and their Affiliates) as of such record date and with respect to which a vote was cast or consent given (for or against) in respect of such matter, divided by (b) the total number of Voting Securities of the Company outstanding as of such record date.

“Person” means an association, a corporation, an individual, a partnership, a limited liability company, a trust or any other entity or organization, including a Governmental Authority.

“Preferred Shares” means the shares of preferred stock, par value \$0.01 per share, of the Company, or any other capital stock of the Company or any other Person into which such stock is reclassified or reconstituted (whether by merger, consolidation or otherwise) (as adjusted for any stock splits, stock dividends, subdivisions, recapitalizations and the like).

“Unaffiliated Buyer” means any Person other than (a) an Oaktree Shareholder, (b) an Affiliate of an Oaktree Shareholder, (c) any Person or Group in which an Oaktree Shareholder and/or any of its Affiliates has, at the applicable time of determination, Equity Securities of at least \$100 million (whether or not such Person or Group is deemed to be an Affiliate of an Oaktree Shareholder) (provided that this clause (c) shall not be applicable for purposes

of Section 4.2 hereof) and (d) a Group that includes any of the foregoing.

Table of Contents

“Voting Cap” means, as of any date of determination, the number of Voting Securities of the Company equal to the product of (a) the total number of outstanding Voting Securities of the Company as of such date multiplied by (b) the Voting Cap Percentage as of such date.

“Voting Cap Maximum” means, as of any date of determination, a percentage equal to the Other Large Holder Effective Voting Percentage as of such date multiplied by 110%; provided, that if the Voting Cap Percentage obtained by applying such Voting Cap Maximum would exceed 39%, then the Voting Cap Maximum shall equal the greater of (a) the sum of the Other Large Holder Effective Voting Percentage as of such date plus 1% and (b) 39%.

“Voting Cap Percentage” means 33%; provided, however, that if as of the record date for the determination of shareholders entitled to vote or consent to any matter, an Other Large Holder beneficially owns greater than 15% of the outstanding Voting Securities of the Company (the “Voting Cap Threshold”), then, subject to the next proviso, for every 1% of outstanding Voting Securities of the Company beneficially owned by such Other Large Holder in excess of the Voting Cap Threshold, the Voting Cap Percentage shall be increased by 2%; provided further, however, that the Voting Cap Percentage shall not exceed a percentage equal to the Voting Cap Maximum as of such record date. For the avoidance of doubt, if multiple Other Large Holders beneficially own more than 15% of the outstanding Voting Securities of the Company, the Voting Cap Percentage shall be adjusted in relation to that Other Large Holder having the greatest beneficial ownership of Voting Securities of the Company.

“Voting Securities” means, with respect to any entity as of any date, all forms of Equity Securities in such entity or any successor of such entity with voting rights as of such date, other than any such Equity Securities held in treasury by such entity or any successor or subsidiary thereof, including, with respect to the Company, Common Shares and Preferred Shares (in each case to the extent (a) entitled to voting rights and (b) issued and outstanding and not held in treasury by the Company or owned by subsidiaries of the Company).

Pappas Shareholders Agreement

The following is a summary of the material terms of the Pappas Shareholders Agreement. Capitalized terms that are used in this description of the Pappas Shareholders Agreement but not otherwise defined below have the meanings ascribed to them under the caption, “8. Certain Definitions.”

General

The Pappas Shareholders Agreement, which entered into effect on July 11, 2014, upon the closing of the Merger, governs the ownership interest of Mr. Petros Pappas and his children, Ms. Milena-Maria Pappas (one of our former directors) and Mr. Alexandros Pappas, and entities affiliated to them (“Pappas Shareholders”) in the Company following consummation of the Merger. Based upon the number of our shares outstanding as of April 6, 2015, the Pappas Shareholders beneficially own approximately 6.80% of our total issued and outstanding common shares of the Company.

Voting

At any meeting of our shareholders, the Pappas Shareholders have agreed to (and have agreed to cause their Affiliates to) vote, or cause to be voted, or exercise their rights to consent (or cause their rights to consent to be exercised) with respect to, all of our shares beneficially owned by them (and which are entitled to vote on such matter) in excess of the Voting Cap as of the record date for the determination of our shareholders entitled to vote or consent to such matter, with respect to each matter on which our shareholders are entitled to vote or consent, in the same proportion (for or against) as all shares owned by other of our shareholders.

Except as described below, in any election of directors to the board of directors, the Pappas Shareholders have agreed to (and have agreed to cause their Affiliates to) vote, or cause to be voted, or exercise their rights to consent (or cause their rights to consent to be exercised) with respect to, all of our shares beneficially owned by them (and which are entitled to vote on such matter) in favor of the slate of nominees approved by the Nominating and Corporate Governance Committee.

Table of Contents

At any Contested Election following the later of (i) the date on which Mr. Petros Pappas ceases to be our Chief Executive Officer or (ii) the date on which Mr. Petros Pappas ceases to be a Director, the Pappas Shareholders have agreed to (and have agreed to cause their Affiliates to) vote, or cause to be voted, or exercise their rights to consent (or cause their rights to consent to be exercised) with respect to, all shares beneficially owned by them in excess of the Voting Cap in the same proportion (for or against) as all shares owned by other of our shareholders.

Standstill Restrictions

Under the terms of the Pappas Shareholders Agreement, until the Pappas Shareholders Agreement is terminated, neither the Pappas Shareholders nor any of their Affiliates will in any manner, directly or indirectly, (i) enter into any tender or exchange offer, merger, acquisition transaction or other business combination or any recapitalization, restructuring, liquidation, dissolution or other extraordinary transaction involving the Company, (ii) make, or in any way participate, directly or indirectly, in any solicitations of proxies, consents or authorizations to vote, or seek to influence any Person other than the Pappas Shareholders with respect to the voting of, any Voting Securities of the Company or any of its Subsidiaries (other than with respect to the nomination of any nominees proposed by the Nominating and Corporate Governance Committee), (iii) otherwise act, alone or in concert with third parties, to seek to control or influence the management, board of directors or policies of the Company or any of its Subsidiaries (other than with respect to the nomination of any nominees proposed by the Nominating and Corporate Governance Committee), (iv) otherwise act, alone or in concert with third parties, to seek to control or influence the management, board of directors or policies of the Company or any of its Subsidiaries (other than with respect to the nomination of any nominees proposed by the Nominating and Corporate Governance Committee), or (v) enter into any negotiations, arrangements or understandings with any third party with respect to any of the foregoing activities. However, if (i) we publicly announce our intent to pursue a tender offer, merger, sale of all or substantially all of our assets, then the Pappas Shareholders will be permitted to privately make an offer or proposal to the board of directors and (ii) if the board of directors approves, recommends or accepts a buyout transaction the standstill restrictions of the Pappas Shareholders' participation in such transaction will cease to apply until such buyout transaction is terminated or abandoned and will become applicable again upon any such termination or abandonment (unless the board of directors determines otherwise with Disinterested Director Approval).

No Aggregation with Oaktree

We have agreed to acknowledge that the Pappas Shareholders have made investments and entered into business arrangements with the Oaktree Shareholders outside of Oceanbulk, and may from time to time enter into certain agreements with respect to the holding and/or disposition of Equity Securities of the Company. For purposes of the Pappas Shareholders Agreement, these arrangements and potential future agreements between the Pappas Shareholders and the Oaktree Shareholders will not cause (i) any Pappas Shareholder to be deemed to be an Affiliate of, or constitute a group or beneficially own of our Equity Securities beneficially owned by, the Oaktree Shareholders, or (ii) our Equity Securities held by the Oaktree Shareholders to be deemed to be subject to the provisions of the Pappas Shareholders Agreement.

Other Agreements

All transactions involving the Pappas Shareholders or their Affiliates, on the one hand, and the Company or its Subsidiaries, on the other hand, will require Disinterested Director Approval; provided, that Disinterested Director Approval will not be required for pro rata participation in primary offerings of our Equity Securities based on number of outstanding Voting Securities held.

Table of Contents

Corporate Opportunity

From and after the date of the Pappas Shareholders Agreement and through and including the earliest of (x) the date of termination of the Pappas Shareholders Agreement, (y) the 36-month anniversary of the date of the Pappas Shareholders Agreement and (z) the date that Petros Pappas ceases to be our Chief Executive Officer, if a Pappas Shareholder (or any Affiliate thereof) acquires knowledge of a potential dry bulk transaction or dry bulk matter which may, in such Pappas Shareholder's good faith judgment, be a business opportunity for both such Pappas Shareholder and the Company (subject to certain exceptions), such Pappas Shareholder (and its Affiliate) has the duty to promptly communicate or offer such opportunity to the Company. If we do not notify the applicable Pappas Shareholder within five business days following receipt of such communication or offer that it is interested in pursuing or acquiring such opportunity for itself, then such Pappas Shareholder (or its Affiliate) will be entitled to pursue or acquire such opportunity for itself.

Termination

The Pappas Shareholders Agreement will terminate upon the earlier of (a) a liquidation, winding-up or dissolution of the Company and (b) the later of (x) such time as the Pappas Shareholders and their Affiliates in the aggregate beneficially own less than 5% of the outstanding our Voting Securities and (y) the date that is six months following the later of (i) the date Petros Pappas ceases to be the Chief Executive Officer or (ii) the date Mr. Petros Pappas ceases to be a Director.

Certain Definitions

For purposes of this description of the Pappas Shareholders Agreement, the following definitions apply:

"Affiliate" means, with respect to any Person, another Person that directly, or indirectly through one or more intermediaries, controls, is controlled by, or is under common control with, such first Person, where "control" means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of a Person, whether through the ownership of voting securities, by contract, as trustee or executor or otherwise.

"beneficial owner" means a "beneficial owner", as such term is defined in Rule 13d-3 under the Exchange Act; "beneficially own", "beneficial ownership" and related terms shall have the correlative meanings.

"Company" means Star Bulk Carriers Corp.

"Contested Election" means an election of Directors to the board of directors where one or more members of the slate of nominees put forward by the Nominating and Corporate Governance Committee is being opposed by one or more competing nominees.

"Disinterested Director Approval" means the approval of a majority of the Disinterested Directors (and the quorum requirements set forth in the Charter or bylaws of the Company shall be reduced to exclude any Directors that are not Disinterested Directors for purposes of such approval).

"Disinterested Directors" means any Directors who (a) are not Petros Pappas, any other Pappas Shareholder or any Affiliate of any Pappas Shareholder and (b) do not have any material business, financial or familial relationship with a party (other than the Company or its Subsidiaries) to the transaction or conduct that is the subject of the approval being sought. Notwithstanding the foregoing, the agreements and relationships between the Pappas Shareholders and the Oaktree Shareholders shall not disqualify any Director designated by Oaktree from constituting a Disinterested Director (except if any such Oaktree designee is Mr. Petros Pappas, any Pappas Shareholder or any Affiliate thereof). Notwithstanding anything to the contrary in the foregoing, any Oaktree designee shall be disqualified from

constituting a Disinterested Director for purposes of the standstill provision.

“Equity Securities” means, with respect to any entity, all forms of equity securities in such entity or any successor of such entity (however designated, whether voting or non-voting), all securities convertible into or exchangeable or exercisable for such equity securities, and all warrants, options or other rights to purchase or acquire from such entity or any successor of such entity, such equity securities, or securities convertible into or exchangeable or exercisable for such equity securities, including, with respect to the Company, the Common Shares and Preferred Shares.

107

Table of Contents

“Voting Cap” means, as of any date of determination, the number of Voting Securities of the Company equal to the product of (a) the total number of outstanding Voting Securities of the Company as of such date multiplied by (b) 14.9%.

Registration Rights Agreement

On July 11, 2014, Oaktree, affiliates of Mr. Petros Pappas and Monarch entered into the Registration Rights Agreement. Monarch has since been removed from the Registration Rights Agreement. Pursuant to the terms of the Registration Rights Agreement, we have, among other things, filed Form F-3 registration statement (Registration No. 333-197886), covering the resale of shares owned by such shareholders, which was declared effective on September 25, 2014.

In addition, the Registration Rights Agreement also provides Oaktree with certain demand registration rights and provides Oaktree and affiliates of Mr. Petros Pappas with certain shelf registration rights in respect of any of our common shares held by them, subject to certain conditions, including those shares acquired pursuant to the July 2014 Transactions.

In addition, in the event that we register additional common shares for sale to the public following the closing of the July 2014 Transactions, we are required to give notice to Oaktree and affiliates of Mr. Petros Pappas of our intention to effect such registration and, subject to certain limitations, we are required to include our common shares held by those holders in such registration. We obtained the consent of the above shareholders before filing Form F-3 registration statement (Registration No. 333-198832) covering the resale of our common shares issued under the Purchase Agreement for the Excel Vessels, which was declared effective on February 25, 2015.

We are required to bear the registration expenses, other than underwriting discounts and commissions and transfer taxes, if any, attributable to the sale of any holder’s securities pursuant to the Registration Rights Agreement. The Registration Rights Agreement includes customary indemnification provisions in favor of the shareholders party thereto, any person who is or might be deemed a control person (within the meaning of the Securities Act, and the Exchange Act and related parties against certain losses and liabilities (including reasonable costs of investigation and legal expenses) arising out of or relating to any filing or other disclosure made by us under the securities laws relating to any such registration.

On August 28, 2014, the Registration Rights Agreement was amended in conjunction with the Excel Transactions. Pursuant to the terms of this Amendment No. 1 to the Registration Rights Agreement, we have, among other things, filed Form F-3 registration statement (Registration No. 333-198832) covering the resale of our common shares issued under the Purchase Agreement for the Excel Vessels, which was declared effective on February 25, 2015.

In February 2017, the Registration Rights Agreement was amended in conjunction with the February 2017 Private Placement to add Senator as a party. Pursuant to the terms of this Amendment No. 2 to the Registration Rights Agreement, we have, among other things, filed Form F-3 registration statement (Registration No. 333-219381) covering the resale of our common shares issued in the February 2017 Private Placement, which was declared effective on September 6, 2017. Senator has since been removed from the Registration Rights Agreement.

In June 2018, the Registration Rights Agreement was amended in conjunction with the OCC Vessel Transaction and the Augustea Vessel Transaction to add York, Augustea and OCC as parties.

On June 29, 2018, a fund affiliated with Oaktree Capital Management, L.P. completed an underwritten secondary sale of 5,000,000 of our common shares at a price of \$13.10 per share. We did not sell any common shares and did not receive any proceeds as a result of this secondary sale.

In September 2018, we filed a Registration Statement on Form F-3 (Registration No. 333-227538) covering the resale of shares owned by Oaktree, affiliates of Mr. Pappas, York, Augustea and OCC.

Table of Contents

StarOcean Manning Philippines Inc.

We have 25% ownership interest in StarOcean Manning Philippines, Inc. (“StarOcean”), a company that is incorporated and registered with the Philippine Securities and Exchange Commission, which provides crewing agency services. The remaining 75% interest is held by local entrepreneurs. This investment is accounted for as an equity method investment which as of December 31, 2018 stands at \$0.05 million and is included in “Other Current Assets” in the relevant consolidated balance sheet. As of December 31, 2018 the Company has an outstanding receivable of \$0.07 million from StarOcean relating to advances paid for working capital purposes.

Augustea Technoservices Ltd.:

Following the completion of the Augustea Vessel Purchase Transaction, we appointed Augustea Technoservices Ltd., an entity affiliated with certain of the sellers of the Augustea Vessels (including one of our directors, Mr. Zagari), as the technical manager of certain of our vessels. The management fees incurred since the completion of the Augustea Vessel Purchase Transaction, on August 3, 2018 and until December 31, 2018 were \$2.3 million and are included in “Management fees” in the consolidated statement of operations. The outstanding balance due to Augustea Technoservices Ltd as of December 31, 2018 is \$1.1 million and is included in Due to related parties in the relevant consolidated balance sheet. In addition, pursuant to the post-closing adjustments set forth in the underlying purchase agreement, as of December 31, 2018 the Company had an outstanding receivable of \$0.9 million from the sellers of the Augustea Vessels, which is included in Due from related parties in the relevant consolidated balance sheet.

Songa Shipmanagement Ltd.:

Following the completion of the Songa Vessel Purchase Transaction, we appointed Songa Shipmanagement Ltd, an entity affiliated with certain of the sellers of the Songa Vessels (including one of our directors, Mr. Blystad), as the technical manager of certain of our vessels. The management fees incurred since the completion of the Songa Vessel Purchase Transaction, on July 7, 2018 and until December 31, 2018 were \$0.4 million and are included in “Management fees” in the relevant consolidated statement of operations. The outstanding balance due from Songa Shipmanagement Ltd as of December 31, 2018 is \$0.3 million and is included in Due from related parties in the relevant consolidated balance sheet.

Purchase of Shares in the September 2016 Equity Offering

As part of the September 2016 Equity Offering, certain of our major shareholders at the time (including Oaktree and affiliates of Mr. Pappas) purchased 7,744,480 common shares, out of the total 11,976,745 common shares offered as part of this offering at the public offering price of \$4.30 per common share. The aggregate proceeds to us of the September 2016 Equity Offering, net of underwriters’ commissions, were approximately \$50.3 million.

Purchase of Shares in the February 2017 Private Placement

As part of the February 2017 Private Placement, Oaktree purchased 3,244,292 common shares at the price of \$8.154 per common share. The aggregate gross proceeds to us of the February 2017 Private Placement were approximately \$51.5 million.

All ongoing and future transactions between us and any of our officers and directors or their respective affiliates, including loans by our officers and directors, if any, will be on terms believed by us to be no less favorable than are available from unaffiliated third parties, and such transactions or loans, including any forgiveness of loans, will require prior approval, in each instance by a majority of our uninterested “independent” directors or the members of our board of directors who do not have an interest in the transaction, in either case who had access, at our expense, to our attorneys or independent legal counsel.

Item 8. Financial Information

A. Consolidated statements and other financial information.

See Item 18. “Financial Statements.”

Legal Proceedings

In March 2013, we commenced arbitration proceedings against Hanjin HHIC-Phil Inc., the shipyard that constructed the Star Polaris, relating to engine failure the vessel experienced in South Korea. This resulted in 142 off-hire days and the loss of \$2.3 million in revenues. We pursued the compensation for the cost of the repairs and the loss of revenues and following the arbitration hearing in July 2015, the arbitral tribunal issued its partial final award (the “Award”), which found the yard liable for certain aspects of the claim but did not quantify the Award. Following the dismissal of the loss of revenues claim before the High Court of the United Kingdom in the appeal proceedings, in 2018 a settlement agreement was entered into between us, the yard and H&M insurers, out of which we had no financial impact.

We have not been involved in any legal proceedings which we believe may have, or have had, a significant effect on our business, financial position, results of operations or liquidity, nor are we aware of any proceedings that are pending or threatened which we believe may have a significant effect on our business, financial position, and results of operations or liquidity. From time to time, we may be subject to legal proceedings and claims in the ordinary course of business, principally personal injury and property casualty claims. We expect that these claims would be covered by insurance, subject to customary deductibles. Those claims, even if lacking merit, could result in the expenditure of significant financial and managerial resources.

Dividend Policy

We pay dividends, if any, on a quarterly basis from our operating surplus, in amounts that allowed us to retain a portion of our cash flows to fund vessel or fleet acquisitions, and for debt repayment and other corporate purposes, as determined by our management and board of directors. The declaration and payment of dividends will be subject at all times to the discretion of our board of directors. The timing and amount of dividends will depend on our earnings, financial condition, cash requirements and availability, fleet renewal and expansion, restrictions in our loan agreements, the provisions of Marshall Islands law affecting the payment of dividends and other factors. Marshall Islands law generally prohibits the payment of dividends other than from surplus or while a company is insolvent, or would be rendered insolvent upon the payment of such dividends, or if there is no surplus, dividends may be declared or paid out of net profits for the fiscal year in which the dividend is declared, and for the preceding fiscal year.

We believe that, under current law, our dividend payments from earnings and profits would constitute “qualified dividend income” and as such will generally be subject to a preferential United States federal income tax rate (subject to certain conditions) with respect to non-corporate individual shareholders. Distributions in excess of our earnings and profits will be treated first as a non-taxable return of capital to the extent of a United States shareholder’s tax basis in its common stock on a Dollar-for-Dollar basis and thereafter as capital gain. Please see Item 10 “Additional Information-E. Taxation” for additional information relating to the tax treatment of our dividend payments.

Following the full repayment of Deferred Amounts in 2018, currently, we are able under our financing agreement to pay dividend unless an event of default has occurred. Please see the section of this annual report entitled “Item 5.

Operating and Financial Review and Prospects-B. Liquidity and Capital Resources.” We did not pay any dividends in 2018.

A. Offer and Listing Details

Our common shares are traded on the Nasdaq Global Select Market and the Oslo Børs under the symbol “SBLK.”

Item 10. Additional Information

A. Share Capital

Not Applicable.

B. Memorandum and Articles of Association

Our Articles of Incorporation were filed as Exhibit 3.1 to our Report on Form 6-K filed with the Commission on June 23, 2016 and are incorporated by reference into Exhibit 1.1 to this Annual Report. Pursuant to the Articles of Incorporation, we effected a 5-for-1 reverse stock split of our issued and outstanding common shares, par value \$0.01 per share, effective as of June 20, 2016. The reverse stock split was approved by shareholders at a special meeting of shareholders held on December 21, 2015. The reverse stock split reduced the number of our issued and outstanding common shares from 219,778,437 common shares to 43,955,659 common shares and affected all issued and outstanding common shares. The number of our authorized common shares was not affected by the reverse split. No fractional shares were issued in connection with the reverse stock split.

Under our Articles of Incorporation, our authorized capital stock consists of 325,000,000 registered shares of stock:

· 300,000,000 common shares, par value \$0.01 per share; and

25,000,000 preferred shares, par value \$0.01 per share. Our board of directors shall have the authority to issue all or any of the preferred shares in one or more classes or series with such voting powers, designations, preferences and relative, participating, optional or special rights and qualifications, limitations or restrictions as shall be stated in the resolutions providing for the issue of such class or series of preferred shares.

As of February 28, 2019, we had issued and outstanding 93,089,717 common shares. No preferred shares are issued or outstanding.

In addition, our Articles of Incorporation grant the Chairman of our board of directors a tie-breaking vote in the event the directors’ vote is evenly split or deadlocked on a matter presented for vote.

Our Articles of Incorporation and Bylaws

Our purpose, as stated in Section B of our Articles of Incorporation, is to engage in any lawful act or activity for which corporations may now or hereafter be organized under the Marshall Islands Business Corporations Act (the “MIBCA”).

Table of Contents

Directors

Our directors are elected by a majority of the votes cast by shareholders entitled to vote in an election. Our Articles of Incorporation provide that cumulative voting shall not be used to elect directors. Our board of directors must consist of at least three members. The exact number of directors is fixed by a vote of at least 66 % of the entire board of directors. Our Articles of Incorporation provide for a staggered board of directors whereby directors shall be divided into three classes: Class A, Class B and Class C, which shall be as nearly equal in number as possible. Shareholders, acting as at a duly constituted meeting, or by unanimous written consent of all shareholders, initially designated directors as Class A, Class B or Class C with only one class of directors being elected in each year and following the initial term for each such class, each class will serve a three-year term. The terms of our board of directors are as follows: (i) the term of our Class A directors expires in 2020; (ii) the term of our Class B directors expires in 2021; and (iii) the term of our Class C directors expires in 2019. Each director serves his or her respective term of office until his or her successor has been elected and qualified, except in the event of his or her death, resignation, removal or the earlier termination of his or her term of office. Our board of directors has the authority to fix the amounts which shall be payable to the members of the board of directors for attendance at any meeting or for services rendered to us.

Shareholder Meetings

Under our Bylaws, annual shareholder meetings will be held at a time and place selected by our board of directors. The meetings may be held in or outside of the Marshall Islands. Special meetings may be called at any time by the board of directors, or by the chairman of the board of directors or by the president. No other person is permitted to call a special meeting and no business may be conducted at the special meeting other than business brought before the meeting by the board of directors, the chairman of the board of directors or the president. Under the MIBCA, our board of directors may set a record date between 15 and 60 days before the date of any meeting to determine the shareholders that will be eligible to receive notice and vote at the meeting.

Dissenters' Rights of Appraisal and Payment

Under the MIBCA, our shareholders have the right to dissent from various corporate actions, including any merger or consolidation, sale of all or substantially all of our assets not made in the usual course of our business, and receive payment of the fair value of their shares. However, the right of a dissenting shareholder to receive payment of the appraised fair value of his shares is not available under the MIBCA for the shares of any class or series of stock, which shares or depository receipts in respect thereof, at the record date fixed to determine the shareholders entitled to receive notice of and to vote at the meeting of the shareholders to act upon the agreement of merger or consolidation, were either (i) listed on a securities exchange or admitted for trading on an interdealer quotation system or (ii) held of record by more than 2,000 holders. In the event of any further amendment of our Articles of Incorporation, a shareholder also has the right to dissent and receive payment for his or her shares if the amendment alters certain rights in respect of those shares. The dissenting shareholder must follow the procedures set forth in the MIBCA to receive payment. In the event that we and any dissenting shareholder fail to agree on a price for the shares, the MIBCA procedures involve, among other things, the institution of proceedings in the High Court of the Republic of the Marshall Islands or in any appropriate court in any jurisdiction in which our shares are primarily traded on a local or national securities exchange.

Shareholders' Derivative Actions

Under the MIBCA, any of our shareholders may bring an action in our name to procure a judgment in our favor, also known as a derivative action, provided that the shareholder bringing the action is a holder of common shares both at the time the derivative action is commenced and at the time of the transaction to which the action relates.

Indemnification of Officers and Directors

Our Bylaws include a provision that entitles any our directors or officers to be indemnified by us upon the same terms, under the same conditions and to the same extent as authorized by the MIBCA if the director or officer acted in good faith and in a manner reasonably believed to be in and not opposed to our best interests, and with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful.

112

Table of Contents

We are also authorized to carry directors' and officers' insurance as a protection against any liability asserted against our directors and officers acting in their capacity as directors and officers regardless of whether we would have the power to indemnify such director or officer against such liability bylaw or under the provisions of our Bylaws. We believe that these indemnification provisions and insurance are useful to attract and retain qualified directors and executive officers.

The indemnification provisions in our Bylaws may discourage shareholders from bringing a lawsuit against directors for breach of their fiduciary duty. These provisions may also have the effect of reducing the likelihood of derivative litigation against directors and officers, even though such an action, if successful, might otherwise benefit us and our shareholders.

Anti-takeover Provisions of our Charter Documents

Several provisions of our Articles of Incorporation and our Bylaws may have anti-takeover effects. These provisions are intended to avoid costly takeover battles, lessen our vulnerability to a hostile change of control and enhance the ability of our board of directors to maximize shareholder value in connection with any unsolicited offer to acquire us. However, these anti-takeover provisions, which are summarized below, could also discourage, delay or prevent (1) the merger or acquisition of our company by means of a tender offer, a proxy contest or otherwise, that a shareholder may consider in its best interest, and (2) the removal of incumbent officers and directors.

Blank Check Preferred Stock

Under the terms of our Articles of Incorporation, our board of directors has authority, without any further vote or action by our shareholders, to issue up to 25,000,000 shares of blank check preferred stock. Our board of directors may issue shares of preferred stock on terms calculated to discourage, delay or prevent a change of control of our company or the removal of our management.

Classified Board of Directors

Our Articles of Incorporation provide for a board of directors serving staggered, three-year terms. Approximately one-third of our board of directors will be elected each year. The classified provision for the board of directors could discourage a third party from making a tender offer for our shares or attempting to obtain control of our company. It could also delay shareholders who do not agree with the policies of the board of directors from removing a majority of the board of directors for two years.

Election and Removal of Directors

Our Articles of Incorporation prohibit cumulative voting in the election of directors. Our Articles of Incorporation also require shareholders to give advance written notice of nominations for the election of directors. Our Articles of Incorporation further provide that our directors may be removed only for cause and only upon affirmative vote of the holders of at least 70% of our outstanding voting shares. These provisions may discourage, delay or prevent the removal of incumbent officers and directors.

Limited Actions by Shareholders

Our Bylaws provide that if a quorum is present, and except as otherwise expressly provided by law, the affirmative vote of a majority of the common shares represented at the meeting shall be the act of the shareholders. Shareholders may act by way of written consent in accordance with the provisions of Section 67 of the MIBCA.

Table of Contents

Advance Notice Requirements for Shareholder Proposals and Director Nominations

Our Articles of Incorporation provide that shareholders seeking to nominate candidates for election as directors or to bring business before an annual meeting of shareholders must provide timely notice of their proposal in writing to the corporate secretary. Generally, to be timely, a shareholder's notice must be received at our principal executive offices not less than 120 days nor more than 180 days prior to the one-year anniversary of the preceding year's annual meeting. Our Articles of Incorporation also specify requirements as to the form and content of a shareholder's notice. These provisions may impede shareholders' ability to bring matters before an annual meeting of shareholders or make nominations for directors at an annual meeting of shareholders.

C. Material Contracts

As of December 31, 2018, we had a number of credit facilities with commercial banks. For a discussion of our facilities, please see the section of this annual report entitled "Item 5. Operating and Financial Review-B. Liquidity and Capital Resources-Senior Secured Credit Facilities." In addition, as of December 31, 2018, we had certain bareboat leases with purchase obligations at the end of the lease term. For a discussion of our bareboat leases, please see the section of this annual report entitled "Item 5. Operating and Financial Review-B. Liquidity and Capital Resources-Bareboat Charters."

As of December 31, 2018, we were also a party to a senior indenture with U.S. Bank National Association, as trustee. For a discussion of the indenture, please see the section of this annual report entitled "Item 5. Operating and Financial Review-B. Liquidity and Capital Resources-2022 Senior Notes Offering."

As of December 31, 2018, we were a party to the Oaktree Shareholders Agreement, the Pappas Shareholders Agreement, the Registration Rights Agreement and the acquisition agreement with E.R.. For a discussion of these agreements, please see the section of this annual report entitled "Item 7. Major Shareholders and Related Party Transactions-B. Related Party Transactions."

We have no other material contracts, other than contracts entered into in the ordinary course of business, to which we are a party.

D. Exchange Controls

Under the laws of the Marshall Islands, Liberia, Cyprus, Malta and Switzerland, which are the countries of incorporation of the Company and its subsidiaries, there are currently no restrictions on the export or import of capital, including foreign exchange controls or restrictions that affect the remittance of dividends, interest or other payments to non-resident holders of our common shares.

E. Taxation

The following is a discussion of the material Marshall Islands and U.S. federal income tax regimes relevant to an investment decision with respect to our common shares.

In addition to the tax consequences discussed below, we may be subject to tax in one or more other jurisdictions, including Greece, Cyprus, Malta and Switzerland, where we conduct activities. We expect that our tax exposure for year 2018 in these jurisdictions, including Malta and Switzerland, is immaterial.

Marshall Islands Tax Consequences

We are incorporated in the Marshall Islands. Under current Marshall Islands law, we are not subject to tax on income or capital gains, and no Marshall Islands withholding tax will be imposed upon payments of dividends by us to our shareholders.

Table of Contents

Material United States Federal Income Tax Considerations

The following is a discussion of the material U.S. federal income tax consequences to us of our activities and to our shareholders of the ownership and disposition of our common shares. This discussion is not a complete analysis or listing of all of the possible tax consequences to our shareholders of the ownership and disposition of our common shares and does not address all tax considerations that might be relevant to particular holders in light of their personal circumstances or to persons that are subject to special tax rules. In particular, the information set forth below deals only with shareholders that will hold common shares as capital assets for U.S. federal income tax purposes (generally, property held for investment) and that do not own, and are not treated as owning, at any time, 10% or more of the value of our stock or 10% or more of the total combined voting power of all classes of our stock entitled to vote. In addition, this description of the material U.S. federal income tax consequences does not address the tax treatment of special classes of shareholders, such as (i) financial institutions, (ii) regulated investment companies, (iii) real estate investment trusts, (iv) tax-exempt entities, (v) insurance companies, (vi) persons holding the common shares as part of a hedging, integrated or conversion transaction, constructive sale or “straddle,” (vii) persons that acquired common shares through the exercise or cancellation of employee stock options or otherwise as compensation for their services, (viii) U.S. expatriates, (ix) persons subject to the alternative minimum tax or the net investment income tax, (x) dealers or traders in securities or currencies, (xi) persons required to recognize income for U.S. federal income tax purposes no later than when such income is reported on an “applicable financial statement” and (xii) U.S. shareholders whose functional currency is not the U.S. dollar. You are encouraged to consult your own tax advisors concerning the overall tax consequences arising in your own particular situation under U.S. federal, state, local or non-U.S. law of the ownership of our common shares.

U.S. Federal Income Tax Considerations

The following is a discussion of the material U.S. federal income tax consequences to us of our activities and to U.S. Holders and Non-U.S. Holders (each as defined below) of the ownership and disposition of our common shares.

The following discussion is based upon the Internal Revenue Code of 1986, as amended (the “Code”), U.S. judicial decisions, administrative pronouncements and existing and proposed Treasury Regulations, all as in effect as of the date hereof. All of the preceding authorities are subject to change, possibly with retroactive effect, so as to result in U.S. federal income tax consequences different from those discussed below. We have not requested, and will not request, a ruling from the U.S. Internal Revenue Service (the “IRS”) with respect to any of the U.S. federal income tax consequences described below, and as a result there can be no assurance that the IRS will not disagree with or challenge any of the conclusions we have reached and describe herein.

This summary does not address estate and gift tax consequences or tax consequences under any state, local or non-U.S. laws.

Tax Classification of the Company

Star Maritime was a Delaware corporation, which, in 2007, merged into the Company pursuant to the Redomiciliation Merger.

Section 7874(b) of the Code, or “Section 7874(b),” provides that a corporation organized outside the United States, such as the Company, which acquires (pursuant to a “plan” or a “series of related transactions”) substantially all of the assets of a corporation organized in the United States, such as Star Maritime, will be treated as a U.S. domestic corporation for U.S. federal income tax purposes if shareholders of the U.S. corporation whose assets are being acquired own at least 80% of the non-U.S. acquiring corporation after the acquisition. If Section 7874(b) were to apply to Star Maritime and the Redomiciliation Merger, then the Company, as the surviving entity of the Redomiciliation Merger, would be subject to U.S. federal income tax as a U.S. domestic corporation on its worldwide income after the Redomiciliation

Merger. In addition, as a U.S. domestic corporation, any dividends paid by us to a Non-U.S. Holder, as defined below, would be subject to a U.S. federal income tax withholding at the rate of 30% or such lower rate as provided by an applicable U.S. income tax treaty.

Table of Contents

After the completion of the Redomiciliation Merger, the shareholders of Star Maritime owned less than 80% of the Company. Star Maritime received an opinion of its counsel, Seward & Kissel, that Star Bulk should not be subject to Section 7874(b) after the Redomiciliation Merger. Based on the structure of the Redomiciliation Merger, the Company believes that it is not subject to U.S. federal income tax as a U.S. domestic corporation on its worldwide income for taxable years after the Redomiciliation Merger. However, there is no authority directly addressing the application of Section 7874(b) to a transaction such as the Redomiciliation Merger where shares in a foreign corporation, such as the Company, are issued concurrently with (or shortly after) a merger. In particular, since there is no authority directly applying the “series of related transactions” or “plan” provisions to the post-acquisition stock ownership requirements of Section 7874(b), there is no assurance that the U.S. Internal Revenue Service (IRS) or a court will agree with Seward & Kissel’s opinion on this matter. Moreover, Star Maritime has not sought a ruling from the IRS on this point. Therefore, there is no assurance that the IRS would not seek to assert that the Company is subject to U.S. federal income tax on its worldwide income after the Redomiciliation Merger, although the Company believes that such an assertion should not be successful.

The remainder of this discussion assumes that the Company will not be treated as a U.S. domestic corporation for any taxable year.

U.S. Federal Income Taxation of the Company

U.S. Tax Classification of the Company

We are treated as a corporation for U.S. federal income tax purposes. As a result, U.S. Holders will not be directly subject to U.S. federal income tax on our income, but rather will be subject to U.S. federal income tax on distributions received from us and dispositions of common shares as described below.

U.S. Federal Income Taxation of Operating Income: In General

We anticipate that we will earn substantially all our income from the hiring or leasing of vessels for use mostly on a voyage or time charter basis or from the performance of services directly related to those uses, all of which we refer to as “shipping income.”

Unless a non-U.S. corporation qualifies for an exemption from U.S. federal income taxation under Section 883 of the Code, such corporation will be subject to U.S. federal income taxation on its “shipping income” that is treated as derived from sources within the United States. For U.S. federal income tax purposes, 50% of shipping income that is attributable to transportation that begins or ends, but that does not both begin and end, in the United States constitutes income from sources within the United States (“United States source gross transportation income” or “USSGTI”), and, in the absence of exemption from tax under Section 883 of the Code, such USSGTI generally will be subject to a 4% U.S. federal income tax imposed without allowance for deductions.

Shipping income of a non-U.S. corporation attributable to transportation that both begins and ends in the United States is considered to be derived entirely from sources within the United States. However, U.S. law prohibits non-U.S. corporations, such as us, from engaging in transportation that produces income considered to be derived entirely from U.S. sources.

Shipping income of a non-U.S. corporation attributable to transportation exclusively between two non-U.S. ports will be considered to be derived entirely from sources outside the United States. Shipping income of a non-U.S. corporation derived from sources outside the United States will not be subject to any U.S. federal income tax.

Exemption of Operating Income from U.S. Federal Income Taxation

Under Section 883 of the Code and the Treasury Regulations thereunder, a non-U.S. corporation will be exempt from U.S. federal income taxation on its U.S. source shipping income if:

116

Table of Contents

(1) it is organized in a country that grants an “equivalent exemption” from tax to corporations organized in the United States in respect of each category of shipping income for which exemption is being claimed under Section 883 of the Code (a “qualified foreign country”); and

(2) one of the following tests is met: (A) more than 50% of the value of its shares is beneficially owned, directly or indirectly, by “qualified shareholders,” which term includes individuals that (i) are “residents” of qualified foreign countries and (ii) comply with certain substantiation requirements (the “50% Ownership Test”); (B) it is a “controlled foreign corporation” and it satisfies an ownership test (the “CFC Test”); or (C) its shares are “primarily and regularly traded on an established securities market” in a qualified foreign country or in the United States (the “Publicly-Traded Test”). We do not currently anticipate circumstances under which we would be able to satisfy the 50% Ownership Test or the CFC Test. Our ability to satisfy the Publicly-Traded Test is described below.

The Republic of the Marshall Islands has been officially recognized by the IRS as a qualified foreign country that grants the requisite “equivalent exemption” from tax in respect of each category of shipping income we earn and currently expect to earn in the future.

As discussed below, we believe that we qualify for exemption under Section 883 for 2018. However, we may not qualify for this tax exemption for subsequent tax years due to the factual nature of this inquiry.

Publicly-Traded Test. The Treasury Regulations under Section 883 of the Code provide, in pertinent part, that shares of a non-U.S. corporation will be considered to be “primarily traded” on an established securities market in a country if the number of shares of each class of stock that are traded during any taxable year on all established securities markets in that country exceeds the number of shares in each such class that are traded during that year on established securities markets in any other single country. Our common shares are “primarily traded” on the NASDAQ Global Select Market.

Under the Treasury Regulations, stock of a non-U.S. corporation will be considered to be “regularly traded” on an established securities market if (1) one or more classes of stock of the corporation that represent more than 50% of the total combined voting power of all classes of stock of the corporation entitled to vote and of the total value of the stock of the corporation, are listed on such market and (2) (A) such class of stock is traded on the market, other than in minimal quantities, on at least 60 days during the taxable year or one-sixth of the days in a short taxable year and (B) the aggregate number of shares of such class of stock traded on such market during the taxable year must be at least 10% of the average number of shares of such class of stock outstanding during such year or as appropriately adjusted in the case of a short taxable year.

Notwithstanding the foregoing, the Treasury Regulations provide, in pertinent part, that a class of shares will not be considered to be “regularly traded” on an established securities market for any taxable year in which 50% or more of the vote and value of the outstanding shares of such class are owned, actually or constructively under specified share attribution rules, on more than half the days during the taxable year by persons that each own 5% or more of the vote and value of such class of outstanding stock (the “5% Override Rule”).

For purposes of determining the persons that actually or constructively own 5% or more of the vote and value of our common shares (“5% Shareholders”), the Treasury Regulations permit us to rely on those persons that are identified on Schedule 13G and Schedule 13D filings with the U.S. Securities and Exchange Commission, as owning 5% or more of our common shares. The Treasury Regulations further provide that an investment company which is registered under the Investment Company Act of 1940, as amended, will not be treated as a 5% Shareholder for such purposes.

In the event the 5% Override Rule is triggered, the Treasury Regulations provide that the 5% Override Rule will nevertheless not apply if we can establish that within the group of 5% Shareholders, qualified shareholders (as defined for purposes of Section 883) own sufficient number of shares to preclude non-qualified shareholders in such group

from owning 50% or more of the total value of the class of stock of the closely held block that is a part of our common shares for more than half the number of days during the taxable year.

Table of Contents

Based on information contained in Schedules 13G and 13D filing with the U.S. Securities and Exchange Commission, we believe that we satisfy the Publicly Traded Test for 2018 because we are not subject to the 5% Override Rule for the 2018 year because 5% Shareholders did not collectively own more than 50% of our outstanding common stock for more than half of the days in 2018. Accordingly, we believe that we qualify for exemption under Section 883 for 2018. However, we may not qualify for this exemption from U.S. federal income tax on our U.S. source shipping income in subsequent taxable years due to the factual nature of this inquiry.

Taxation in Absence of Section 883 Exemption

For any taxable year in which we are not eligible for the benefits of Section 883 exemption, our USSGTI will be subject to a 4% tax imposed by Section 887 of the Code without the benefit of deductions to the extent that such income is not considered to be “effectively connected” with the conduct of a U.S. trade or business, as described below. Since under the sourcing rules described above, no more than 50% of our shipping income would be treated as derived from sources within the United States, the maximum effective rate of U.S. federal income tax on our shipping income would never exceed 2% under this regime.

To the extent our shipping income derived from sources within the United States is considered to be “effectively connected” with the conduct of a U.S. trade or business, as described below, any such “effectively connected” shipping income, net of applicable deductions, would be subject to U.S. federal income tax, currently imposed at a rate of 21%. In addition, we would generally be subject to the 30% “branch profits” tax on earnings effectively connected with the conduct of such trade or business, as determined after allowance for certain adjustments, and on certain interest paid or deemed paid attributable to the conduct of our U.S. trade or business.

Our shipping income would be considered “effectively connected” with the conduct of a U.S. trade or business only if:

- (1) we have, or are considered to have, a fixed place of business in the United States involved in the earning of U.S. source shipping income; and
- (2) substantially all of our U.S. source shipping income is attributable to regularly scheduled transportation, such as the operation of a vessel that follows a published schedule with repeated sailings at regular intervals between the same points for voyages that begin or end in the United States.

We do not intend to have, or permit circumstances that would result in having, any vessel sailing to or from the United States on a regularly scheduled basis. Based on the foregoing and on the expected mode of our shipping operations and other activities, it is anticipated that none of our shipping income will be “effectively connected” with the conduct of a U.S. trade or business.

U.S. Taxation of Gain on Sale of Vessels

Regardless of whether we qualify for exemption under Section 883, we will not be subject to U.S. federal income tax with respect to gain realized on a sale of a vessel, provided that (i) the sale is considered to occur outside of the United States under U.S. federal income tax principles and (ii) such sale is not attributable to an office or other fixed place of business in the United States. In general, a sale of a vessel will be considered to occur outside of the United States for this purpose if title to the vessel, and risk of loss with respect to the vessel, pass to the buyer outside of the United States. We intend to conduct our operations so that the gain on any sale of a vessel by us will not be taxable in the United States.

Table of Contents

U.S. Federal Income Taxation of U.S. Holders

As used herein, a “U.S. Holder” is a beneficial owner of a common share that is: (1) a citizen of or an individual resident of the United States, as determined for U.S. federal income tax purposes; (2) a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) created or organized under the laws of the United States or any state thereof or the District of Columbia; (3) an estate the income of which is subject to U.S. federal income taxation regardless of its source; or (4) a trust (A) if a court within the United States is able to exercise primary jurisdiction over its administration and one or more U.S. persons have authority to control all substantial decisions of the trust or (B) that has a valid election in effect under applicable Treasury Regulations to be treated as a U.S. person.

If a pass-through entity, including a partnership or other entity classified as a partnership for U.S. federal income tax purposes, is a beneficial owner of our common shares, the U.S. federal income tax treatment of an owner or partner will generally depend upon the status of such owner or partner and upon the activities of the pass-through entity. Owners or partners of a pass-through entity that is a beneficial owner of common shares are encouraged to consult their tax advisors.

U.S. Holders are urged to consult their tax advisors as to the particular consequences to them under U.S. federal, state and local, and applicable non-U.S. tax laws of the ownership and disposition of common shares.

Distributions

Subject to the discussion of passive foreign investment companies (“PFICs”) below, any distributions made by us with respect to our common shares to a U.S. Holder will generally constitute foreign-source dividends to the extent of our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Distributions in excess of such earnings and profits will be treated first as a nontaxable return of capital to the extent of the U.S. Holder’s tax basis in its common shares and thereafter as capital gain. However, we do not maintain calculations of our earnings and profits in accordance with U.S. federal income tax principles, and you should therefore assume that any distribution by us with respect to our common shares will constitute ordinary dividend income. Because we are not a U.S. corporation, U.S. Holders that are corporations generally will not be entitled to claim a dividends received deduction with respect to any distributions they receive from us.

If the common shares are readily tradable on an established securities market in the United States within the meaning of the Code, such as the NASDAQ Global Select Market, and if certain holding period and other requirements (including a requirement that we are not a PFIC in the year of the dividend or the preceding year) are met, dividends received by non-corporate U.S. Holders will be “qualified dividend income” to such U.S. Holders. Qualified dividend income received by non-corporate U.S. Holders (including an individual) will be subject to U.S. federal income tax at preferential rates.

Sale, Exchange or Other Disposition of Common Shares

Subject to the discussion of PFICs below, a U.S. Holder generally will recognize capital gain or loss upon a sale, exchange or other disposition of our common shares in an amount equal to the difference between the amount realized by the U.S. Holder from such sale, exchange or other disposition and the U.S. Holder’s tax basis in such shares. Such gain or loss will be treated as long-term capital gain or loss if the U.S. Holder’s holding period is greater than one year at the time of the sale, exchange or other disposition. Such capital gain or loss will generally be treated as U.S. source income or loss, as applicable, for U.S. foreign tax credit purposes. Long-term capital gains of certain non-corporate U.S. Holders are currently eligible for reduced rates of taxation. A U.S. Holder’s ability to deduct capital losses is subject to certain limitations.

Table of Contents

Passive Foreign Investment Company Considerations

The foregoing discussion assumes that we are not, and will not be, a PFIC. If we are classified as a PFIC in any year during which a U.S. Holder owns our common shares, the U.S. federal income tax consequences to such U.S. Holder of the ownership and disposition of common shares could be materially different from those described above. A non-U.S. corporation will be considered a PFIC for any taxable year in which (i) 75% or more of its gross income is “passive income” (e.g., dividends, interest, capital gains and rents derived other than in the active conduct of a rental business) or (ii) 50% or more of the average value of its assets produce (or are held for the production of) “passive income.” For this purpose, we will be treated as earning and owning our proportionate share of the income and assets, respectively, of any of our subsidiaries that are treated as pass-through entities for U.S. federal income tax purposes. Further, we will be treated as holding directly our proportionate share of the assets and receiving directly the proportionate share of the income of corporations of which we own, directly or indirectly, at least 25%, by value. For purposes of determining our PFIC status, income earned by us in connection with the performance of services would not constitute passive income. By contrast, rental income would generally constitute “passive income” unless we were treated under specific rules as deriving our rental income in the active conduct of a trade or business. We intend to take the position that income we derive from our voyage and time chartering activities is services income, rather than rental income, and accordingly, that such income is not passive income for purposes of determining our PFIC status. By contrast, we intend to take the position for that income we derive from our bareboat chartering activities is passive income for purposes of determining our PFIC status. We do not believe that the income we derive from our bareboat chartering activities will materially affect our conclusion that we are not a PFIC for U.S. federal income tax purposes. We believe that there is substantial legal authority supporting our position consisting of case law and IRS pronouncements concerning the characterization of income derived from voyage and time charters as services income for other tax purposes. Additionally, we believe that our contracts for newbuilding vessels are not assets held for the production of passive income, because we intend to use these vessels for voyage and time chartering activities.

Assuming that it is proper to characterize income from our voyage and time chartering activities as services income and based on the expected composition of our income and assets, we believe that we currently are not a PFIC, and we do not expect to become a PFIC in the future. However, our characterization of income from voyage and time charters and of contracts for newbuilding vessels is not free from doubt. Moreover, the determination of PFIC status for any year must be made only on an annual basis after the end of such taxable year and will depend on the composition of our income, assets and operations during such taxable year. Because of the above described uncertainties, there can be no assurance that the IRS will not challenge the determination made by us concerning our PFIC status or that we will not be a PFIC for any taxable year.

If we were treated as a PFIC for any taxable year during which a U.S. Holder owns common shares, the U.S. Holder would be subject to special adverse rules (described in “-Taxation of U.S. Holders Not Making a Timely QEF or Mark-to-Market Election”) unless the U.S. Holder makes a timely election to treat us as a “Qualified Electing Fund” (a “QEF election”) or marks its common shares to market, as discussed below. We intend to promptly notify our shareholders if we determine that we are a PFIC for any taxable year. A U.S. Holder generally will be required to file IRS Form 8621 if such U.S. Holder owns common shares in any year in which we are classified as a PFIC.

Taxation of U.S. Holders Making a Timely QEF Election. If a U.S. Holder makes a timely QEF election, such U.S. Holder must report for U.S. federal income tax purposes its pro-rata share of our ordinary earnings and net capital gain, if any, for each of our taxable years during which we are a PFIC that ends with or within the taxable year of such U.S. Holder, regardless of whether distributions were received from us by such U.S. Holder. No portion of any such inclusions of ordinary earnings will be treated as “qualified dividend income.” Net capital gain inclusions of certain non-corporate U.S. Holders might be eligible for preferential capital gains tax rates. The U.S. Holder’s adjusted tax basis in the common shares will be increased to reflect any income included under the QEF election. Distributions of previously taxed income will not be subject to tax upon distribution but will decrease the U.S. Holder’s tax basis in the common shares. An electing U.S. Holder would not, however, be entitled to a deduction for its pro-rata share of any

losses that we incur with respect to any taxable year. An electing U.S. Holder would generally recognize capital gain or loss on the sale, exchange or other disposition of our common shares. A U.S. Holder would make a timely QEF election for our common shares by filing IRS Form 8621 with its U.S. federal income tax return for the first year in which it held such shares when we were a PFIC. If we determine that we are a PFIC for any taxable year, we would provide each U.S. Holder with all necessary information in order to make the QEF election described above.

Table of Contents

Taxation of U.S. Holders Making a “Mark-to-Market” Election. Alternatively, if we were treated as a PFIC for any taxable year and, as we anticipate, our common shares are treated as “marketable stock,” a U.S. Holder would be allowed to make a “mark-to-market” election with respect to our common shares. If that election is properly and timely made, the U.S. Holder generally would include as ordinary income in each taxable year that we are a PFIC the excess, if any, of the fair market value of the common shares at the end of the taxable year over such U.S. Holder’s adjusted tax basis in the common shares. The U.S. Holder would also be permitted an ordinary loss in each such year in respect of the excess, if any, of the U.S. Holder’s adjusted tax basis in the common shares over their fair market value at the end of the taxable year, but only to the extent of the net amount previously included in income as a result of the mark-to-market election. A U.S. Holder’s tax basis in its common shares would be adjusted to reflect any such income or loss amount recognized. Any gain realized on the sale, exchange or other disposition of our common shares in a year that we are a PFIC would be treated as ordinary income, and any loss realized on the sale, exchange or other disposition of the common shares in such a year would be treated as ordinary loss to the extent that such loss does not exceed the net mark-to-market gains previously included by the U.S. Holder.

Taxation of U.S. Holders Not Making a Timely QEF or Mark-to-Market Election. If we were treated as a PFIC for any taxable year, a U.S. Holder that does not make either a QEF election or a “mark-to-market” election (a “Non-Electing Holder”) would be subject to special rules with respect to (1) any excess distribution (i.e., the portion of any distributions received by the Non-Electing Holder on the common shares in a taxable year in excess of 125% of the average annual distributions received by the Non-Electing Holder in the three preceding taxable years, or, if shorter, the Non-Electing Holder’s holding period for the common shares), and (2) any gain realized on the sale, exchange or other disposition of our common shares. Under these special rules:

- (1) the excess distribution or gain would be allocated ratably over the Non-Electing Holder’s aggregate holding period for the common shares;
- (2) the amount allocated to the current taxable year, and any taxable year prior to the first taxable year in which we were a PFIC, would be taxed as ordinary income and would not be “qualified dividend income”; and
- (3) the amount allocated to each of the other taxable years would be subject to tax at the highest rate of tax in effect for the applicable class of taxpayer for that year, and an interest charge for the deemed tax deferral benefit would be imposed with respect to the resulting tax attributable to each such other taxable year.

U.S. Holders are urged to consult their tax advisors concerning the U.S. federal income tax consequences of holding common shares if we are considered a PFIC in any taxable year.

U.S. Federal Income Taxation of Non-U.S. Holders

As used herein, a “Non-U.S. Holder” is any beneficial owner of a common share that is, for U.S. federal income tax purposes, an individual, corporation, estate or trust and that is not a U.S. Holder.

If a pass-through entity, including a partnership or other entity classified as a partnership for U.S. federal income tax purposes, is a beneficial owner of our common shares, the U.S. federal income tax treatment of an owner or partner will generally depend upon the status of such owner or partner and upon the activities of the pass-through entity. Owners or partners of a pass-through entity that is a beneficial owner of common shares are encouraged to consult their tax advisors.

Distributions

A Non-U.S. Holder generally will not be subject to U.S. federal income or withholding tax on dividends received from us with respect to our common shares, unless that income is effectively connected with the Non-U.S. Holder’s

conduct of a trade or business in the United States. In general, if the Non-U.S. Holder is entitled to the benefits of an applicable U.S. income tax treaty with respect to those dividends, that income is taxable only if it is attributable to a permanent establishment maintained by the Non-U.S. Holder in the United States.

Table of Contents

Sale, Exchange or Other Disposition of Common Shares

A Non-U.S. Holder generally will not be subject to U.S. federal income or withholding tax on any gain realized upon the sale, exchange or other disposition of our common shares, unless:

- (1) the gain is effectively connected with the Non-U.S. Holder's conduct of a trade or business in the United States; in general, in the case of a Non-U.S. Holder entitled to the benefits of an applicable U.S. income tax treaty with respect to that gain, that gain is taxable only if it is attributable to a permanent establishment maintained by the Non-U.S. Holder in the United States; or
- (2) the Non-U.S. Holder is an individual who is present in the United States for 183 days or more during the taxable year of disposition and other conditions are met.

Income or Gains Effectively Connected with a U.S. Trade or Business

If the Non-U.S. Holder is engaged in a U.S. trade or business for U.S. federal income tax purposes, dividends on the common shares and gain from the sale, exchange or other disposition of the shares, that is effectively connected with the conduct of that trade or business (and, if required by an applicable U.S. income tax treaty, is attributable to a U.S. permanent establishment), will generally be subject to regular U.S. federal income tax in the same manner as discussed in the previous section relating to the taxation of U.S. Holders. In addition, in the case of a corporate Non-U.S. Holder, its earnings and profits that are attributable to the effectively connected income, which are subject to certain adjustments, may be subject to an additional U.S. federal branch profits tax at a rate of 30%, or at a lower rate as may be specified by an applicable U.S. income tax treaty.

Information Reporting and Backup Withholding

Information reporting might apply to dividends paid in respect of common shares and the proceeds from the sale, exchange or other disposition of common shares within the United States. Backup withholding (currently at a rate of 24%) might apply to such payments made to a U.S. Holder unless the U.S. Holder furnishes its taxpayer identification number, certifies that such number is correct, certifies that such U.S. Holder is not subject to backup withholding and otherwise complies with the applicable requirements of the backup withholding rules. Certain U.S. Holders, including corporations, are generally not subject to backup withholding and information reporting requirements, if they properly demonstrate their eligibility for exemption. United States persons who are required to establish their exempt status generally must provide IRS Form W-9 (Request for Taxpayer Identification Number and Certification). Each Non-U.S. Holder must submit an appropriate, properly completed IRS Form W-8 certifying, under penalties of perjury, to such Non-U.S. Holder's non-U.S. status in order to establish an exemption from backup withholding and information reporting requirements. Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules will be allowed as a refund or credit against your U.S. federal income tax liability, provided that the required information is furnished to the IRS in a timely manner.

Individuals who are U.S. Holders (and to the extent specified in the applicable Treasury Regulations, certain individuals who are non-U.S. Holders and certain U.S. entities) who hold "specified foreign financial assets" (as defined in Section 6038D of the Code and the applicable Treasury Regulations) are required to file IRS Form 8938 (Statement of Specified Foreign Financial Assets) with information relating to each such asset for each taxable year in which the aggregate value of all such assets exceeds \$75,000 at any time during the taxable year or \$50,000 on the last day of the taxable year. Specified foreign financial assets would include, among other assets, our common stock, unless the common stock were held through an account maintained with a U.S. financial institution. Substantial penalties apply to any failure to timely file IRS Form 8938, unless the failure is shown to be due to reasonable cause and not due to willful neglect. Additionally, the statute of limitations on the assessment and collection of U.S. federal income tax with respect to a taxable year for which the filing of IRS Form 8938 is required may not close until three

years after the date on which IRS Form 8938 is filed. U.S. Holders (including U.S. entities) and non-U.S. Holders are encouraged to consult their own tax advisors regarding their reporting obligations under Section 6038D of the Code.

Item 11. Quantitative and Qualitative Disclosures about Market Risk

Interest Rates

Our exposure to market risk for changes in interest rate relates primarily to our long-term debt and bareboat lease arrangements with purchase obligations. The international dry bulk industry is a capital intensive industry, requiring significant amounts of investment. Much of this investment is provided in the form of secured long-term debt and bareboat lease arrangements with purchase obligations. Our debt financing (including bareboat leasing) arrangements contain interest rates that fluctuate with LIBOR. Significant increases in interest rates could adversely affect our operating margins, results of operations and our ability to service our debt.

From time to time, we may take positions in interest rate derivative contracts to manage interest costs and risk associated with changing interest rates with respect to our variable interest loans and leasing facilities. Generally, our approach is to economically hedge a portion of the floating-rate debt associated with our vessels. We manage the exposure to the rest of our debt based on our outlook for interest rates and other factors.

We are exposed to credit loss in the event of non-performance by the counterparties to the interest rate derivative contracts. In order to minimize counterparty risk, we only enter into derivative transactions with counterparties that bear an investment grade rate at the time of the transaction. In addition, to the extent possible and practical, we enter into interest rate derivative contracts with different counterparties to reduce concentration risk.

All existing interest rates swaps as of December 31, 2017 matured during the year ended December 31, 2018 or were prepaid prior to their maturity through the refinancing of the corresponding debt.

Table of Contents

As of December 31, 2018, the floating rate portion of our long-term obligations consisted of senior secured credit facilities and recognized bareboat lease obligations and the fixed rate portion consisted of the 2022 Notes. The total interest expense of our long-term debt and bareboat leasing obligations for the year ended December 31, 2018 was \$68.1 million, including the effects of the effective cash flow hedges. Our estimated total interest expense for the year ending December 31, 2019 is expected to be \$77.7 million. Our estimated amount of interest expense reflects interest payments we expect to make with respect to our long-term debt obligations, our recognized bareboat lease obligations, as well as the 2022 Notes. The interest expense related to the floating rate portion of our long-term debt and bareboat leasing obligations reflects an assumed LIBOR-based applicable rate of 2.808% (the three-month LIBOR rate as of December 31, 2018) plus the relevant margin of the applicable credit facility and the interest expense related to the floating rate portion of our recognized bareboat lease obligations reflects an assumed LIBOR-based applicable rate of 2.876% (the six-month LIBOR rate as of December 31, 2018) or 2.808% (the three-month LIBOR rate as of December 31, 2018), as applicable, plus the relevant margin of the applicable lease arrangement. The following table sets forth the sensitivity of our existing long-term obligations in millions of Dollars, as of December 31, 2018, as to a 100 basis point increase in LIBOR during the next five years:

For the year ending December 31,	Estimated amount of interest expense	Estimated amount of interest expense after an increase of 100 basis points	Sensitivity
2019	77.7	89.9	12.2
2020	70.2	81.4	11.1
2021	60.3	69.8	9.5
2022	50.2	58.1	7.9
2023	29.4	34.5	5.1

The table below provides information about our financial instruments at December 31, 2018, that are sensitive to changes in interest rates, including our debt and lease contracts. For long-term debt and leases, the table presents expected outstanding balances and related weighted-average interest rates by expected maturity dates.

In thousands of Dollars	As of year ended December 31,				
	2019	2020	2021	2022	2023
<u>Long-Term Debt:</u>					
Variable Rate Debt, outstanding balance	\$1,241,756	\$1,054,156	\$893,921	\$719,496	\$257,755
Average Interest Rate on Variable Debt ⁽¹⁾	5.6 %	5.8 %	5.8 %	5.8 %	6.0 %
Fixed-Rate Debt, outstanding balance	50,000	50,000	50,000	-	-
Average Interest Rate on Fixed Debt ⁽²⁾	8.3 %	8.3 %	8.3 %	8.3 %	-

(1) Average Interest Rate on Variable Debt represents the weighted average interest rate for our floating rate debt and leases comprising of LIBOR rate as of December 31, 2018 and applicable margin.

(2) Average Interest Rate on Fixed Debt represents the annual coupon for our 8.30% 2022 Notes outstanding as of December 31, 2018.

Table of Contents

Currency and Exchange Rates

We generate all of our revenues in Dollars and operating expenses in currencies other than the Dollar are approximately 6% of total operating expenses during 2018. Further, 68% of our General and administrative expenses, excluding expenses of \$8.1 million relating to the amortization of share-based compensation recognized in connection with the restricted shares issued to directors and employees, including consulting fees, salaries and traveling expenses were incurred in currencies other than the Dollar (mainly Euros) during 2018. For accounting purposes, expenses incurred in Euros are converted into Dollars at the exchange rate prevailing on the date of each transaction. Because a significant portion of our expenses are incurred in currencies other than the Dollar, our expenses may from time to time increase relative to our revenues as a result of fluctuations in exchange rates, particularly between the Dollar and the Euro, which could affect the amount of net income that we report in future periods. As of December 31, 2018, the effect of a 1% adverse movement in Dollar/Euro exchange rates would have resulted in an increase of \$167,008 and \$60,586 in our General and administrative expense and our operating expenses, respectively. In 2018 we converted approximately €70.8 million, of which approximately €20.5 million was designated as a fair value hedge, in order to mitigate our corresponding exposure to the foreign currency risk attributable to Euro denominated commitments under our Scrubber Retrofitting Program which were fixed at the time of designation. In addition, while we historically have not mitigated the risk associated with exchange rate fluctuations through the use of financial derivatives, we may determine to employ such instruments from time to time in the future in order to minimize this risk. The use of financial derivatives or non-derivative instruments, including foreign exchange forward agreements, would involve certain risks, including the risk that losses on a hedged position could exceed the nominal amount invested in the instrument and the risk that the counterparty to the derivative or non-derivative transaction may be unable or unwilling to satisfy its contractual obligations, which could have an adverse effect on our results.

Freight Derivatives

From time to time, we may take positions in freight derivatives, including Freight Forward Agreements (“FFAs”) and freight options. Generally freight derivatives may be used to hedge a vessel owner’s exposure to the charter market for a specified route and period of time. Upon settlement, if the contracted charter rate is less than the average of the rates reported on an identified index for the specified route and time period, the seller of the FFA is required to pay the buyer the settlement sum, being an amount equal to the difference between the contracted rate and the settlement rate, multiplied by the number of days of the specified period. Conversely, if the contracted rate is greater than the settlement rate, the buyer is required to pay the seller the settlement sum. If we take positions in FFAs or other derivative instruments we could suffer losses in the settling or termination of these agreements. This could adversely affect our results of operations and cash flow.

During the years ended December 31, 2018, 2017 and 2016, we entered into a number of FFAs on the Capesize and Panamax and Supramax indexes. We used these freight derivatives as an economic hedge to reduce the risk on specific vessels trading in the spot market, or to take advantage of short term fluctuations in the market prices. Our freight derivatives do not qualify as cash flow hedges for accounting purposes and therefore gains or losses are recognized in earnings. FFAs are settled on a daily basis through reputable exchanges such as London Clearing House or Singapore Exchange (SGX). Customary requirements for trading in FFAs include the maintenance of initial and variation margins based on expected volatility, open position and mark to market of the contracts. Freight options are treated as assets/liabilities until they are settled. As part of these FFAs, we recognized a loss of \$0.08 million, a loss of \$0.9 million and a gain of \$0.4 million during the years ended December 31, 2018, 2017 and 2016, respectively, while the open position as of December 31, 2018 was an asset of \$0.5 million.

Bunker Swaps

Also, from time to time, we may enter into bunker swap contracts to manage our exposure to fluctuations of bunker prices associated with the consumption of bunkers by our vessels. Bunker swaps are agreements between two parties

to exchange cash flows at a fixed price on bunkers, where volume, time period and price are agreed in advance. If we take positions in bunker swaps or other derivative instruments we could suffer losses in the settling or termination of these agreements. This could adversely affect our results of operations and cash flow.

Table of Contents

We used these bunker swaps as an economic hedge to reduce the risk on bunker price differentials. Our bunker swaps do not qualify as cash flow hedges for accounting purposes and therefore gains or losses are recognized in earnings. Our bunker swaps are settled through reputable clearing houses, including the London Clearing House. Bunker swaps are treated as assets/liabilities until they are settled. During the years ended December 31, 2018 and 2017, we entered into a number of bunker swaps. As part of these transactions, we recognized a loss of \$0.4 million and a gain of \$0.06 million during the years ended December 31, 2018 and 2017, respectively, while the open position as of December 31, 2018 was a liability of \$1.8 million.

Item 13. Defaults, Dividend Arrearages and Delinquencies

None.

Item 14. Material Modifications to the Rights of Security Holders and Use of Proceeds

None.

Item 15. Controls and Procedures

(a) Disclosure Controls and Procedures

As of December 31, 2018, our management (with the participation of our Chief Executive Officer and Co-Chief Financial Officers) conducted an evaluation pursuant to Rule 13a-15 and 15d-15 promulgated under the Exchange Act, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on the evaluation, our Chief Executive Officer and Co-Chief Financial Officers concluded that as of December 31, 2018, our disclosure controls and procedures, which include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports we file or submit under the Exchange Act is accumulated and communicated to the management, including our Chief Executive Officer and Co-Chief Financial Officers, as appropriate to allow timely decisions regarding required disclosure, were effective to provide reasonable assurance that information required to be disclosed by us in reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Commission.

(b) Management's Annual Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15 and 15d-15 under the Securities and Exchange Act of 1934, as amended. Our internal control over financial reporting is a process designed under the supervision of our Chief Executive Officer and Co-Chief Financial Officers, and carried out by our board of directors, management, and other personnel, to provide reasonable assurance regarding the reliability of our financial reporting and the preparation of our consolidated financial statements for external reporting purposes in accordance with U.S. GAAP. Our internal control over financial reporting includes policies and procedures that:

Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect transactions and dispositions of our assets;

Provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with U.S. GAAP, and that receipts and expenditures are being made only in accordance with authorizations of our management and directors; and

Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of our assets that could have a material effect on the consolidated financial statements.

Management has conducted an assessment of the effectiveness of our internal control over financial reporting based on the framework established in the "Internal Control - Integrated Framework" issued by the Committee of Sponsoring Organizations of the Treadway Commission, or COSO, (2013 Framework).

Based on this assessment, management has determined that our internal control over financial reporting as of December 31, 2018 is effective.

Table of Contents

(c) Attestation Report of the Independent Registered Public Accounting Firm

The attestation report on the Company's internal control over financial reporting issued by the registered public accounting firm that audited the consolidated financial statements Deloitte Certified Public Accountants S.A., appears under "Item 18. Financial Statements" of this annual report and is incorporated herein by reference.

(d) Changes in Internal Control over Financial Reporting

There were no changes in our internal controls over financial reporting that occurred during the period covered by this Annual Report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on Effectiveness of Controls

Our management, including our Chief Executive Officer and the Co-Chief Financial Officers, does not expect that our disclosure controls or our internal control over financial reporting will prevent or detect all error and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. Our disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives. Projections of any evaluation of controls effectiveness to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures. Further, in the design and evaluation of our disclosure controls and procedures our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

Item 16A. Audit Committee Financial Expert

Our board of directors has determined that Mr. Softeland, whose biographical details are included in Item 6. "Directors and Senior Management," the chairman of our Audit Committee qualifies as a financial expert and is considered to be independent according to the Commission rules.

Item 16B. Code of Ethics

We have adopted a code of ethics that applies to our directors, officers and employees. A copy of our code of ethics is posted in the "Corporate Governance" section of Star Bulk Carriers Corp. website, and may be viewed at <http://www.starbulk.com/gr/en/code-of-ethics/>. We will also provide a hard copy of our code of ethics free of charge upon written request of a shareholder. Shareholders may direct their requests to the attention of Investor Relations, c/o Star Bulk Management Inc., 40 Agiou Konstantinou Str., Maroussi 15124, Athens, Greece.

Item 16C. Principal Accountant Fees and Services

Ernst & Young (Hellas) Certified Auditors Accountants S.A. ("Ernst & Young"), an independent registered public accounting firm, has audited our annual financial statements acting as our independent auditor for the fiscal year ended December 31, 2017. Deloitte Certified Public Accountants S.A. ("Deloitte"), an independent registered public accounting firm, has audited our annual financial statements acting as our independent auditor for the fiscal year ended December 31, 2018. This table below sets forth the total amounts billed and accrued for Ernst & Young and Deloitte services regarding fiscal years 2017 and 2018 and breaks down these amounts by category of services:

Table of Contents

(In thousands of Dollars)

	2017	2018
Audit fees ^(a)	\$ 841	\$ 656
Audit-related fees ^(b)	18	17
Tax fees ^(c)	-	-
All other fees ^(d)	-	-
Total fees	\$ 859	\$ 673

(a) Audit Fees: Audit fees represent professional services rendered for the audit of our annual financial statements and services provided by the principal accountant in connection with statutory and regulatory filings or engagements.

(b) Audit-Related Fees: Audit-related fees consisted of assurance and other services which have not been reported under Audit Fees above.

(c) Tax Fees: Tax fees represent fees for professional services for tax compliance, tax advice and tax planning.

(d) All Other Fees: All other fees include services other than audit fees, audit-related fees and tax fees set forth above.

The Audit Committee is responsible for the appointment, replacement, compensation, evaluation and oversight of the work of the independent auditors. As part of this responsibility, the Audit Committee pre-approves the audit and non-audit services performed by the independent auditors in order to assure that they do not impair the auditor's independence from the Company. The Audit Committee has adopted a policy which sets forth the procedures and the conditions pursuant to which services proposed to be performed by the independent auditors may be pre-approved.

Item 16D. Exemptions from the Listing Standards for Audit Committees

Not Applicable.

Item 16E. Purchases of Equity Securities by the Issuer and Affiliated Purchasers

Share Repurchase Program

On November 29, 2018, our Board of Directors authorized a share repurchase program (the "Share Repurchase Program") to purchase up to an aggregate of \$50.0 million of our common shares. The timing and amount of any repurchases will be in the sole discretion of our management team, and will depend on legal requirements, market conditions, share price, alternative uses of capital and other factors. Repurchases of common shares may take place in privately negotiated transactions, in open market transactions pursuant to Rule 10b-18 of the Exchange Act and/or pursuant to a trading plan adopted in accordance with Rule 10b5-1 of the Exchange Act. We are not obligated under the terms of the Share Repurchase Program to repurchase any of its common shares. The Share Repurchase Program has no expiration date and may be suspended or terminated by us at any time without prior notice. We will cancel common shares repurchases as part of this program.

Table of Contents

During the year ended December 31, 2018, we purchased the following common shares:

Period	(a) Total Number of Shares (or Units) Purchased	(b) Average Price Paid per Share (or Unit) (1)	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
November 29-30, 2018	63,864	\$ 9.654	63,864	\$ 49,383,454
December 1-31, 2018	277,499	\$ 9.062	277,499	\$ 46,868,823
Total	341,363	N/A	341,363	N/A

(1) The average price paid per share does not include commissions paid for each transaction.

Item 16F. Change in Registrants Certifying Accountant

On April 24, 2018, the Audit Committee of the Board of Directors approved and signed the engagement letter appointing Deloitte Certified Public Accountants S.A. ("Deloitte") as the Company's independent registered public accounting firm for the year ending December 31, 2018. The Company's annual general meeting of shareholders held on October 16, 2018 approved such appointment. The audit committee approved the engagement of Deloitte following the expiration of the engagement letter with the Company's previous independent registered public accounting firm, Ernst & Young.

The reports of Ernst & Young on the financial statements of the Company as of December 31, 2017 and 2016 did not contain an adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principles. In connection with the audits of the Company's financial statements for each of the two fiscal years ended December 31, 2017 and 2016 there were no disagreements with Ernst & Young on any matters of accounting principles or practices, financial statement disclosure, or auditing scope or procedures which, if not resolved to the satisfaction of Ernst & Young, would have caused Ernst & Young to make reference to the matter of such disagreements in their reports. In connection with the audits of the Company's financial statements for each of the two fiscal years ended December 31, 2017 and 2016 none of the events described in paragraphs (A) through (D) of Item 16F(a)(1)(v) of Form 20-F occurred.

In connection with the audits of the Company's financial statements for each of the two fiscal years ended December 31, 2017 and 2016 neither the Company nor anyone on its behalf consulted with Deloitte on the application of accounting principles to a specified transaction, either completed or proposed; or the type of audit opinion that might be rendered on the Company's financial statements or any matter that would have been the subject of a disagreement, as that term is defined in Item 16F(a)(1)(iv) of Form 20-F and the related instructions to Item 16F of Form 20-F, or a reportable event, as that term is defined in Item 16F(a)(1)(v).

The Company has provided Ernst & Young with a copy of these disclosures prior to the filing hereof and has requested that Ernst & Young furnish to the Company a letter addressed to the Securities and Exchange Commission stating whether Ernst & Young agrees with the statements made by the Company in this report.

Ernst & Young's letter is attached as Exhibit 16.1 to this Annual Report on Form 20-F.

Item 16G. Corporate Governance

As a foreign private issuer, we are permitted to follow home country practices in lieu of certain Nasdaq corporate governance requirements. We have certified to Nasdaq that our corporate governance practices are in compliance with, and are not prohibited by, the laws of the Republic of the Marshall Islands. We are exempt from many of Nasdaq's corporate governance practices other than the requirements regarding the disclosure of a going concern audit opinion, submission of a listing agreement, notification of material non-compliance with Nasdaq corporate governance practices, the voting rights agreement and the establishment and composition of an audit committee and a formal written audit committee charter. The practices we follow in lieu of Nasdaq's corporate governance requirements are as follows:

Table of Contents

While our board of directors is currently comprised of directors a majority of whom are independent, we cannot assure you that in the future we will have a majority of independent directors. Our board of directors does not hold annual meetings at which only independent directors are present, or executive sessions.

Consistent with Marshall Islands law requirements, in lieu of obtaining an independent review of related party transactions for conflicts of interests, our Bylaws require any director who has a potential conflict of interest to identify and declare the nature of the conflict to the board of directors at the next meeting of the board of directors. Our code of ethics and Bylaws additionally provide that related party transactions must be approved by a majority of the independent and disinterested directors. If the votes of such independent and disinterested directors are insufficient to constitute an act of the board of directors, then the related party transaction may be approved by a unanimous vote of the disinterested directors.

In lieu of obtaining shareholder approval prior to the issuance of designated securities, we plan to obtain the approval of our board of directors for such share issuances.

In lieu of an audit committee comprised of a minimum of three directors all of whom are independent and a compensation committee comprised solely of independent directors, our audit committee consists of three independent directors and our compensation committee consists of an executive director and two independent directors.

As a foreign private issuer, we are not required to solicit proxies or provide proxy statements to Nasdaq pursuant to Nasdaq corporate governance rules or Marshall Islands law. Consistent with Marshall Islands law and as provided in Bylaws, we will notify our shareholders of meetings between 10 and 60 days before the meeting. This notification will contain, among other things, information regarding business to be transacted at the meeting. In addition, our Bylaws provide that shareholders must give between 120 and 180 days advance notice to properly introduce any business at a meeting of the shareholders.

Other than as noted above, we are in full compliance with applicable Nasdaq corporate governance standard requirements for U.S. domestic issuers.

Item 16H. Mine Safety Disclosure

Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Directors of Star Bulk Carriers Corp.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheet of Star Bulk Carriers Corp. and subsidiaries (the “Company”) as of December 31, 2018, the related consolidated statement of operations, comprehensive income/(loss), shareholders’ equity, and cash flows, for the year ended December 31, 2018, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2018, and the results of its operations and its cash flows for the year ended December 31, 2018, in conformity with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company’s internal control over financial reporting as of December 31, 2018, based on criteria established in Internal Control — Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 21, 2019 expressed an unqualified opinion on the Company’s internal control over financial reporting.

Basis for Opinion

These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

/s/ Deloitte Certified Public Accountants S.A.

Athens, Greece

March 21, 2019

We have served as the Company’s auditor since 2018.

Table of Contents

Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Directors of Star Bulk Carriers Corp.

Opinion on Internal Control over Financial Reporting

We have audited the internal control over financial reporting of Star Bulk Carriers Corp. and subsidiaries (the “Company”) as of December 31, 2018, based on criteria established in Internal Control — Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2018, based on criteria established in Internal Control — Integrated Framework (2013) issued by COSO.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated financial statements as of and for the year ended December 31, 2018, of the Company and our report dated March 21, 2019, expressed an unqualified opinion on those financial statements.

Basis for Opinion

The Company’s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying “Management’s Annual Report on Internal Control Over Financial Reporting.” Our responsibility is to express an opinion on the Company’s internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control over Financial Reporting

A company’s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Report of Independent Registered Public Accounting Firm

To the Stockholders and the Board of Directors of Star Bulk Carriers Corp.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheet of Star Bulk Carriers Corp. (the Company) as of December 31, 2017, the related consolidated statements of operations, comprehensive loss, stockholders' equity and cash flows for each of the two years in the period ended December 31, 2017, and the related notes (collectively referred to as the "consolidated financial statements"). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2017, and the results of its operations and its cash flows for each of the two years in the period ended December 31, 2017, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provide a reasonable basis for our opinion.

STAR BULK CARRIERS CORP.

Notes to Consolidated Financial Statements

December 31, 2018

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

1. Basis of Presentation and General Information:

The consolidated financial statements as of and for the years ended December 31, 2016, 2017 and 2018, include the accounts of Star Bulk Carriers Corp. (“Star Bulk”) and its wholly owned subsidiaries as set forth below (collectively, the “Company”).

Star Bulk was incorporated on December 13, 2006 under the laws of the Marshall Islands and maintains offices in Athens, Oslo, New York, Limassol and Geneva. The Company is engaged in the ocean transportation of dry bulk cargoes worldwide through the ownership and operation of dry bulk carrier vessels. Since December 3, 2007, Star Bulk shares trade on the NASDAQ Global Select Market under the ticker symbol “SBLK” (primary listing). Following, and in connection with, the Songa Vessel Purchase Transaction, as defined below, Star Bulk’s common shares also trade on the Oslo Stock Exchange (secondary listing) under the same ticker.

Effective June 20, 2016, the Company effected a 5-for-1 reverse split of its issued and outstanding common shares (the “2016 Reverse Split”) (Note 9). All share and per share amounts disclosed in the consolidated financial statements give effect to this reverse stock split retroactively, for all periods presented.

On June 28, 2018, the Company completed the acquisition of three newbuilding Newcastlemax dry bulk vessels (“OCC Vessels”), from Oceanbulk Container Carriers LLC (“OCC”), an entity affiliated with Oaktree Capital Management, L.P. (“Oaktree”) and with family members of the Company’s CEO, Mr. Petros Pappas, for an aggregate 3,304,735 of Company’s common shares (“OCC Vessel Purchase Transaction”) (Note 3 and 6).

On July 6, 2018 the Company completed the acquisition of 15 operating dry bulk vessels (the “Songa Vessels”) from Songa Bulk ASA (“Songa”) for an aggregate of 13,725,000 of the Company’s common shares (the “Songa Consideration Shares”) and \$145.0 million in cash (collectively the “Songa Vessel Purchase Transaction”). The cash portion of the consideration was financed through proceeds from a five-year capital lease of \$180.0 million with China Merchants Bank Leasing (Note 5). Following the closing of the Songa Vessel Purchase Transaction, Mr. Arne Blystad was appointed to the Company’s Board of Directors as a Class C Director, and Mr. Herman Billung joined the Company’s management team as Senior Vice President.

On August 3, 2018, the Company completed the acquisition of 16 operating dry bulk vessels (the “Augustea Vessels”) from entities affiliated with Augustea Atlantica SpA and York Capital Management in an all-share transaction for an aggregate of 10,277,335 of Company’s common shares (the “Augustea Vessel Purchase Transaction”). Following the completion of this transaction, Mr. Raffaele Zagari was appointed to the Company’s Board of Directors as a Class C Director. As part of this transaction, the Company also assumed debt of approximately \$308.3 million (Note 8).

On August 27, 2018, the Company entered into a definitive purchase agreement with entities affiliated with E.R. Capital Holding GmbH & Cie. KG (“E.R.”), pursuant to which the Company approved the acquisition of three operating dry bulk vessels (the “Step 1 Vessels”) in 2018 (the “Step 1 Acquisition”) and received an option to acquire four additional operating dry bulk vessels (the “Step 2 Vessels”) and, together with the Step 1 Vessels, the “E.R. Vessels” in 2019 (the “Step 2 Acquisition”). The consideration for the Step 1 Vessels was approximately 1.34 million common shares of the Company (the “Step 1 Consideration Shares”) and \$41.7 million in cash, subject to certain pre-delivery adjustments. The first of the Step 1 Vessels, Star Bright, was delivered to the Company in October 2018 in exchange for 291,300 common shares and \$9.2 million cash. The remaining two of the Step 1 Vessels, Star Marianne and Star Janni were delivered to the Company in January 2019 in exchange for 999,336 common shares and \$32.5 million

cash. The cash portion of the consideration for the Step 1 Vessels was financed through proceeds from a new five-year term loan agreement for an amount of up to \$115.0 million with ABN AMRO Bank N.V (Note 8).

Table of Contents

STAR BULK CARRIERS CORP.

Notes to Consolidated Financial Statements

December 31, 2018

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

1. Basis of Presentation and General Information – (continued):

E.R. granted the Company a separate call option to acquire each Step 2 Vessel at an exercise price of \$28.85 million per Step 2 Vessel (the “Call Options”), exercisable on April 1, 2019.

Concurrently, the Company granted E.R. a separate put option to acquire each Step 2 Vessel at an exercise price of \$26.35 million per Step 2 Vessel (the “Put Options”) exercisable by E.R. from April 2, 2019 to April 4, 2019 (inclusive), if the Company does not exercise the Call Options. The aggregate exercise price of the Call and Put Options is payable at the Company’s option in either 2/3 cash and 1/3 common shares (the “Step 2 Consideration Shares”) or 100% cash. The number of Step 2 Consideration Shares to be issued to E.R. (if any) will be determined on the basis of the Company’s net asset value, which will be based on the average vessel valuations by independent vessel appraisers as of March 31, 2019 and will be subject to certain pre-delivery adjustments. This transaction is collectively referred to as “E.R. Vessel Purchase Transaction”.

The OCC Vessel Purchase Transaction, Songa Vessel Purchase Transaction, Augustea Vessel Purchase Transaction and E.R. Vessel Purchase Transaction are collectively herein defined as the “2018 Transactions.”

As of December 31, 2018, the Company owned a modern fleet of 107 dry bulk vessels consisting of Newcastlemax, Capesize, Mini Capesize, Post Panamax, Kamsarmax, Panamax, Ultramax and Supramax vessels with a carrying capacity between 52,055 deadweight tonnage (“dwt”) and 209,537 dwt, and a combined carrying capacity of 11.7 million dwt. Additionally, through its subsidiary, Star Logistics Management S.A. (or “Star Logistics”), which was formed in October 2017 and is based in Geneva, Switzerland, the Company charters-in a number of third-party vessels on a short- to medium- term basis (usually not exceeding one year) to increase its operating capacity in order to satisfy its clients’ needs.

Below is the list of the Company’s wholly owned subsidiaries as of December 31, 2018:

STAR BULK CARRIERS CORP.

Notes to Consolidated Financial Statements

December 31, 2018

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

1. Basis of Presentation and General Information - (continued):

Charterers who individually accounted for more than 10% of the Company's voyage revenues during the years ended December 31, 2016, 2017 and 2018 are as follows:

Charterer	2016	2017	2018
A	N/A	N/A	15 %
B	13 %	14 %	N/A

The outstanding accounts receivable balance as at December 31, 2018 of this charterer (A) was \$1,367.

2. Significant Accounting policies:

Principles of consolidation: The consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America ("U.S. GAAP"), which include the accounts of Star Bulk and its wholly owned subsidiaries referred to in Note 1 above. All intercompany balances and transactions have been eliminated on consolidation.

Star Bulk as the holding company determines whether it has controlling financial interest in an entity by first evaluating whether the entity is a voting interest entity or a variable interest entity. Under ASC 810 "Consolidation", a voting interest entity is an entity in which the total equity investment at risk is sufficient to enable the entity to finance itself independently and provides the equity holders with the obligation to absorb losses, the right to receive residual returns and make financial and operating decisions. Star Bulk consolidates voting interest entities in which it owns all, or at least a majority (generally, greater than 50%), of the voting interest.

Following the provisions of ASC 810 "Consolidation", the Company evaluates all arrangements that may include a variable interest in an entity to determine if it may be the primary beneficiary, and would be required to include assets, liabilities and operations of a variable interest entity ("VIE") in its consolidated financial statements. Company's evaluation did not result in an identification of variable interest entities for the years 2016, 2017 and 2018.

Equity method investments: Investments in the equity of entities over which the Company exercises significant influence, but does not exercise control are accounted for by the equity method of accounting. Under this method, the Company records such an investment at cost and adjusts the carrying amount for its share of the earnings or losses of the entity subsequent to the date of investment and reports the recognized earnings or losses in income. The Company also evaluates whether a loss in value of an investment that is other than a temporary decline should be recognized. Evidence of a loss in value might include absence of an ability to recover the carrying amount of the investment or inability of the investee to sustain an earnings capacity that would justify the carrying amount of the investment. Dividends received reduce the carrying amount of the investment. When the Company's share of losses in an entity accounted for by the equity method equals or exceeds its interest in the entity, the Company does not recognize further losses, unless the Company has made advances, incurred obligations and made payments on behalf of the entity.

c) Use of estimates: The preparation of the consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported

amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates under different assumptions or conditions.

Table of Contents

STAR BULK CARRIERS CORP.

Notes to Consolidated Financial Statements

December 31, 2018

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

2. Significant Accounting policies - (continued):

Comprehensive income/(loss): The statement of comprehensive income/(loss) presents the change in equity (net assets) during a period from transactions and other events and circumstances from non-owner sources. It includes all changes in equity during a period except those resulting from investments by shareholders and distributions to shareholders. Reclassification adjustments are presented out of accumulated other comprehensive income/(loss) on the face of the statement in which the components of other comprehensive income/(loss) are presented or in the notes to the financial statements. The Company follows the provisions of ASC 220 "Comprehensive Income", and presents items of net income/(loss), items of other comprehensive income/(loss) and total comprehensive income/(loss) in two separate and consecutive statements.

Concentration of credit risk: Financial instruments, which potentially subject the Company to significant concentrations of credit risk, consist principally of cash and cash equivalents and restricted cash, trade accounts receivable and derivative contracts (including freight derivatives, bunker derivatives and interest rate swaps). The Company's policy is to place cash and cash equivalents, and restricted cash with financial institutions evaluated as being creditworthy. Cash and cash equivalents and restricted cash are therefore exposed to minimal credit risk. The Company may be exposed to credit risk in the event of non-performance by counter parties to derivative contracts. To manage this risk, the Company has adopted a policy of no exposure in over-the-counter transactions by selecting freight derivatives and bunker swaps that clear through reputable clearing houses, including the London Clearing House ("LCH"). The Company performs periodic evaluations of the relative credit standing of those financial institutions with which the Company transacts. In addition the Company limits its credit risk with accounts receivable by performing ongoing credit evaluations of its customers' financial condition.

Foreign currency transactions: The functional currency of the Company is the U.S. Dollar since its vessels operate in the international shipping markets, and therefore primarily transact business in U.S. Dollars. The Company's books of accounts are maintained in U.S. Dollars. Transactions involving other currencies during the period are converted into U.S. Dollars using the exchange rates in effect at the time of the transactions. At the consolidated balance sheet dates, monetary assets and liabilities, which are denominated in other currencies, are converted into U.S. Dollars at the period-end exchange rates. Resulting gains/(losses) are included in "Interest and other income/(loss)" in the consolidated statements of operations.

Cash and cash equivalents: The Company considers highly liquid investments such as time deposits and certificates of deposit with an original maturity of three months or less or from which cash is readily available without penalty, to be cash equivalents.

Restricted cash: Restricted cash represents minimum cash deposits or cash collateral deposits required to be maintained with certain banks under the Company's borrowing arrangements or derivative contracts, which are legally restricted as to withdrawal or use. In the event that the obligation to maintain such deposits is expected to be terminated within the next twelve months, these deposits are classified as current assets. Otherwise, they are classified as non-current assets.

Table of Contents

STAR BULK CARRIERS CORP.

Notes to Consolidated Financial Statements

December 31, 2018

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

2. Significant Accounting policies - (continued):

Trade accounts receivable, net: The amount shown as Trade accounts receivable, net, at each balance sheet date, i) includes receivables from customers, net of any provision for doubtful debts. At each balance sheet date, the Company provides for doubtful accounts on the basis of specific identified doubtful receivables. .

Inventories: Inventories consist of lubricants and bunkers, which are stated at the lower of cost or net realizable j) value, which is the estimated selling prices less reasonably predictable costs of disposal and transportation. Cost is determined by the first in, first out method.

Vessels, net: Vessels are stated at cost, which consists of the purchase price and any material expenses incurred k) upon acquisition, such as initial repairs, improvements, delivery expenses and other expenditures to prepare the vessel for its initial voyage. Any subsequent expenditure, when it does not extend the useful life of the vessel, increase the earning capacity or improve the efficiency or safety of the vessel, is expensed as incurred.

The cost of each of the Company's vessels is depreciated beginning when the vessel is ready for its intended use, on a straight-line basis over the vessel's remaining economic useful life, after considering the estimated residual value (vessel's residual value is equal to the product of its lightweight tonnage and estimated scrap rate per ton).

Management estimates the useful life of the Company's vessels to be 25 years from the date of initial delivery from the shipyard. When regulations place limitations over the ability of a vessel to trade on a worldwide basis, its remaining useful life is adjusted at the date such regulations are adopted. The estimated salvage value of each vessel is \$0.3 per light weight ton as of December 31, 2018 and 2017, which is based on the historical average demolition prices.

Advances for vessels under construction and acquisition of vessels: Advances made to shipyards or sellers of shipbuilding contracts during construction periods or advances made to sellers of secondhand vessels to be acquired are classified as "Advances for vessels under construction and acquisition of vessels" until the date of delivery and acceptance of the vessel, at which date they are reclassified to "Vessels and other fixed assets, net." l) Advances for vessels under construction also include supervision costs, amounts paid under engineering contracts, and other expenses directly related to the construction of the vessel or the preparation of the vessel for its initial voyage. Interest cost incurred during the construction period of the vessels are also capitalized and included in the vessels' cost.

Fair value of above/below market acquired time charters: The Company values any asset or liability arising from the market value of the time charters assumed when a vessel is acquired. The value of above or below market m) acquired time charters is determined by comparing the existing charter rates in the acquired time charter agreements with the market rates for equivalent time charter agreements prevailing at the time the vessels are delivered. Such intangible asset or liability is recognized ratably as an adjustment to revenues over the remaining term of the assumed time charter.

n) Impairment of long-lived assets: The Company follows guidance under ASC 360 "Property, Plant, and Equipment" related to the impairment or disposal of long-lived assets which addresses financial accounting and reporting for the impairment or disposal of long-lived assets. The standard requires that long-lived assets held and used by an entity be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. When the estimate of future undiscounted net operating cash flows, excluding interest charges, expected to be generated by the use and eventual disposition of the asset is less than its carrying

amount, the Company should record an impairment loss to the extent the asset's carrying value exceeds its fair value. The Company determines the fair value of its assets based on management estimates and assumptions and by making use of available market data and taking into consideration agreed sale prices and third party valuations.

F-18

Table of Contents

STAR BULK CARRIERS CORP.

Notes to Consolidated Financial Statements

December 31, 2018

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

2. Significant Accounting policies - (continued):

In this respect, management regularly reviews the carrying amount of the vessels, including newbuilding contracts, on a vessel-by-vessel basis, when events and circumstances indicate that the carrying amount of the vessels or newbuilding contracts might not be recoverable (such as vessel sales and purchases, business plans, obsolescence or damage to the asset and overall market conditions). When impairment indicators are present, the Company compares future undiscounted net operating cash flows to the carrying values of the Company's vessels to determine if the asset is required to be impaired. In developing its estimates of future undiscounted net operating cash flows, the Company makes assumptions and estimates about vessels' future performance, with the significant assumptions being related to charter rates, ship operating expenses, vessels' residual value, fleet utilization and the estimated remaining useful lives of the vessels, assumed to be 25 years from the delivery of the vessel from the shipyard. These assumptions are based on current market conditions, historical industry and Company's specific trends, as well as future expectations.

The future undiscounted net operating cash flows are determined by considering the charter revenues from existing time charters for the fixed vessel days and an estimated daily time charter equivalent rate for the unfixed days over the estimated remaining economic life of each vessel, net of brokerage and address commissions. Estimates of the daily time charter equivalent for the unfixed days are based on the current Forward Freight Agreement ("FFA") rates, for the first three-year period, average of FFA rates and historical rate levels for the fourth year and historical average rate levels of similar size vessels for the period thereafter. The expected cash inflows from charter revenues are based on an assumed fleet utilization rate of approximately 98% for the unfixed days over available days, taking also into account expected technical off-hire days. In assessing expected future cash outflows, management forecasts vessel operating expenses, which are based on the Company's internal budget for the first annual period and thereafter assume an annual inflation rate of up to 3% (escalating during the first three-year period) and are capped at the thirteenth year thereafter, vessel expected maintenance costs (for dry docking and special surveys), management fees, as well as expected costs for the procurement and installation of Ballast Water Management System where applicable in order to comply with the relevant IMO regulations. The estimated salvage value of each vessel is \$0.3 per light weight ton, in accordance with the Company's vessel depreciation policy. The Company uses a probability weighted approach for developing estimates of future cash flows used to test its vessels for recoverability when alternative courses of action are under consideration (i.e. sale or continuing operation of a vessel). If the Company's estimate of future undiscounted net operating cash flow for any vessel is lower than the vessel's carrying value, the carrying value is written down to the vessel's fair market value with a charge recorded under "Impairment loss" in the consolidated statement of operations.

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

2. Significant Accounting policies - (continued):

Vessels held for sale: The Company classifies a vessel as being held for sale when all of the following criteria, enumerated under ASC 360 "Property, Plant, and Equipment", are met: (i) management has committed to a plan to sell the vessel; (ii) the vessel is available for immediate sale in its present condition; (iii) an active program to locate a buyer and other actions required to complete the plan to sell the vessel have been initiated; (iv) the sale of the vessel is probable, and transfer of the asset is expected to qualify for recognition as a completed sale within one year; (v) the vessel is being actively marketed for sale at a price that is reasonable in relation to its current fair value; and (vi) actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Vessels classified as held for sale are measured at the lower of their carrying amount or fair value less cost to sell. The resulting difference, if any, is recorded under "Impairment loss" in the consolidated statement of operations. The vessels are not depreciated once they meet the criteria to be classified as held for sale

Financing costs: Fees paid to lenders or required to be paid to third parties on the lenders' behalf for obtaining new loans, senior notes, for refinancing or amending existing loans or securing leases, are required to be presented on the balance sheet as a direct deduction from the carrying amount of that debt liability, similar to debt discounts. These costs are amortized as interest and finance costs using the effective interest rate method over the duration of the related debt. Any unamortized balance of costs relating to debt repaid or refinanced that meet the criteria for Debt Extinguishment (see Subtopic 470-50), is expensed in the period in which the repayment is made or refinancing occurs. Any unamortized balance of costs relating to debt refinanced that do not meet the criteria for Debt Extinguishment, are amortized over the term of the refinanced debt. Other fees incurred for obtaining loan facilities whose committed loans have not been drawn on or before the balance sheet date are recorded under "Other non-current assets", and are reclassified as a direct deduction from the carrying amount of the loan facilities once financing takes place.

Debt Modifications and extinguishments: The Company follows the provisions of ASC 470-50, "Modifications and Extinguishments" to account for all modifications or extinguishments of debt instruments, except debt that is extinguished through a troubled debt restructuring (see Subtopic 470-60) or a conversion of debt to equity securities of the debtor pursuant to conversion privileges provided in terms of the debt at issuance (see Subtopic 470-20). This Subtopic also provides guidance on whether an exchange of debt instruments with the same creditor constitutes an extinguishment and whether a modification of a debt instrument should be accounted for in the same manner as an extinguishment. In circumstances where an exchange of debt instruments or a modification of a debt instrument does not result in extinguishment accounting, this Subtopic provides guidance on the appropriate accounting treatment.

Share based compensation: Share based compensation represents the cost of shares and share options granted to employees, executive officers and to directors, for their services, and is included in "General and administrative expenses" in the consolidated statements of operations. The shares are measured at their fair value equal to the market value of the Company's common shares on the grant date. The shares that do not contain any future service vesting conditions are considered vested shares and the total fair value of such shares is expensed on the grant date. Guidance related to shares compensation describes two generally accepted methods of recognizing expense for non-vested share awards with a graded vesting schedule for financial reporting purposes: 1) the "accelerated method", which treats an award with multiple vesting dates as multiple awards and results in a front-loading of the costs of the

award and 2) the “straight-line method” which treats such awards as a single award and results in recognition of the cost ratably over the entire vesting period. The shares that contain a time-based service vesting condition are considered non-vested shares on the grant date and a total fair value of such shares is recognized using the accelerated method. Further, the Company accounts for restricted share award forfeitures upon occurrence.

F-20

Table of Contents

STAR BULK CARRIERS CORP.

Notes to Consolidated Financial Statements

December 31, 2018

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

2. Significant Accounting policies - (continued):

Awards of restricted shares, restricted share units or share options that are subject to performance conditions are also measured at their fair value, which is equal to the market value of the Company's common shares on the grant date. If the award is subject only to performance conditions, compensation cost is recognized only if the performance conditions are satisfied (essentially, the requisite service is not considered to have been provided if the performance condition is not achieved). For awards that are subject to performance conditions and future service conditions, if it is probable that the performance condition for these awards will be satisfied, the compensation cost in respect of these awards is recognized over the requisite service period. If it is initially determined that it is not probable that the performance condition will be satisfied and it is later determined that the performance conditions are likely to be satisfied (or vice versa), the effect of the change in estimate is retroactively accounted for in the period of change by recording a cumulative catch-up adjustment to retroactively apply the new estimate. If the award is forfeited because the performance condition is not satisfied, any previously recognized compensation cost is reversed.

The fair value of share options grants is determined with reference to option pricing models, and depends on the terms of the granted options. The fair value is recognized (as compensation expense) over the requisite service period for all awards that vest.

s) Dry docking and special survey expenses: Dry docking and special survey expenses are expensed when incurred.

Accounting for revenue and related expenses: The Company generates its revenues from charterers for the charter hire of its vessels under time charter agreements or voyage charter agreements. Under a time charter agreement a contract is entered into for the use of a vessel for a specific period of time and a specified daily charter hire rate.

t) Under a voyage charter agreement, a contract is made in the spot market for the use of a vessel for a specific voyage to transport a specified agreed upon cargo at a specified freight rate per ton or occasionally a lump sum amount. Under a voyage charter agreement, the charter party generally has a minimum amount of cargo and the charterer is liable for any short loading of cargo or "dead" freight.

Under time charter agreements, voyage costs, such as fuel and port charges are borne and paid by the charterer. The Company's time charter agreements are classified as operating leases pursuant to ASC 840 "Leases", according which revenues under operating lease arrangements are recognized when a charter agreement exists, the charter rate is fixed and determinable, the vessel is made available to the lessee and collection of the related revenue is reasonably assured. Revenues are recognized ratably on a straight line basis over the period of the respective charter agreement in accordance with guidance ASC 840 related to leases.

For the year ended December 31, 2017 Voyage revenues included revenues from i) time charter agreements of \$240,529, ii) voyage charter agreements of \$102,977 and iii) pool arrangements of \$574. For the year ended December 31, 2016 Voyage revenues included revenues from i) time charter agreements of \$148,012, ii) voyage charter agreements of \$82,306 and iii) pool arrangements of (\$588). In addition address commissions for the years ended December 31, 2017 and 2016 were (\$12,104) and (\$7,743) and are also included under "Voyage revenues" in the consolidated statement of operations.

In May 2016, the FASB issued their final standard on revenue from contracts with customers. The standard, which was issued as ASU 2014-09 (Topic 606 or ASC 606) by the FASB, as amended, outlines a single comprehensive model for entities to use in accounting for revenue from contracts with customers and supersedes most legacy revenue

recognition guidance. The core principle of the guidance in ASC 606 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services by applying the following steps: (1) identify the contract(s) with a customer; (2) identify the performance obligations in each contract; (3) determine the transaction price; (4) allocate the transaction price to the performance obligations in each contract; and (5) recognize revenue when (or as) the entity satisfies a performance obligation.

The Company adopted the provisions of ASC 606 on January 1, 2018.

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

2. Significant Accounting policies - (continued):

Voyage charter agreements do not contain a lease and are therefore considered service contracts that fall under the provisions of ASC 606. The majority of revenue from voyage charter agreements is usually collected in advance. The Company has determined that there is one single performance obligation for each of its voyage contracts, which is to provide the charterer with an integrated transportation service within a specified time period. In addition, the Company has concluded that a contract for a voyage charter meets the criteria to recognize revenue over time because the charterer simultaneously receives and consumes the benefits of the Company's performance as the Company performs. Therefore, since the Company's performance obligation under each voyage contract is met evenly as the voyage progresses, revenue is recognized on a straight line basis over the voyage days from the loading of cargo to its discharge. Prior to the adoption of ASC 606, revenue from voyage contracts was recognized from the later of the discharge of the prior voyage or the contract date of the current voyage, until the discharge of the current voyage. The effect of this change is presented further below in this note.

Demurrage income, which is considered a form of variable consideration, is included in voyage revenues, and represents payments by the charterer to the vessel owner when loading or discharging time exceeds the stipulated time in the voyage charter agreements. Demurrage income for the years ended December 31, 2016, 2017 and 2018 was not material.

The following table shows the voyage revenues earned from time charters, voyage charters and pool agreements for the year ended December 31, 2018, as presented in the consolidated statement of operation:

	Twelve Months Ended December 31, 2018
Time charters	\$ 397,499
Voyage charters	253,812
Pool revenues	250
	\$ 651,561

Under voyage charter agreements, all voyage costs are borne and paid by the Company. Voyage expenses consist primarily of brokerage commissions, bunker consumption, port and canal expenses and agency fees related to the voyage. Before the adoption of ASC 606, brokerage commissions were expensed over the related charter period, while the remaining voyage expenses were expensed as incurred. Charter-in hire expense and the related commissions for chartering-in the respective vessels were expensed ratably on a straight line basis over the period of the respective charter agreement. Following the adoption of ASC 606 and the implementation of ASC 340-40 Other assets and deferred costs- Contracts with customers for contract costs, all voyage costs are considered contract fulfilment costs because they are directly related to the performance of the voyage contract. Those costs are expensed as incurred, with the exception of those contract fulfilment costs incurred prior to the commencement of loading the cargo on the relevant vessel, which are capitalized to the extent the Company, in its reasonable judgement, determines that they (i) are directly related to a contract, (ii) will be recoverable and (iii) enhance the Company's resources by putting the Company's vessel in a location to satisfy its performance obligation under a contract. These capitalized contract fulfilment costs are recorded under "Other current assets" and are amortized on a straight-line basis as the related performance obligations are satisfied.

The Company adopted ASC 606 using the modified retrospective approach, and has been applied to all voyage contracts not completed as of the date of the initial application. As such, the comparative information has not been restated and continues to be reported under the accounting standards in effect for periods prior to January 1, 2018.

December 31, 2018

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

2. Significant Accounting policies - (continued):

Following the adoption of the new revenue standard in 2018, as of December 31, 2018, the Company has deferred revenue of \$4,202 and has deferred expenses of \$2,067 (consisting of \$1,455 of voyage expenses and \$612 of charter-in expenses), each of which will be reflected in the Company's earnings as the corresponding voyages are performed, which are expected to be recognized in the first fiscal quarter of 2019.

The following table presents the impact of the adoption of ASC 606 on the Company's consolidated balance sheet as at December 31, 2018:

	As of December 31, 2018		
	As Reported	Balances without Adoption of ASC 606	Effect of Change
Assets			
Trade accounts receivable	\$38,402	\$ 40,792	\$ (2,390)
Other current assets	7,046	4,992	2,054
Liabilities			
Deferred revenue	10,855	9,043	(1,812)
Accrued liabilities	16,854	16,867	13

As of December 31, 2018, trade accounts receivable, net increased by \$22,264, and deferred revenue increased by \$2,489 compared to December 31, 2017. These changes were mainly attributable to the increase in the number of the Company's vessels, the timing of collections and revenue recognition.

Further, as of December 31, 2018, deferred assets related to revenue contracts (included within "Other current assets") increased by \$791 compared to December 31, 2017. This change was mainly attributable to the increase in the number of the voyage contracts in progress as of December 31, 2018 and the timing of commencement of revenue recognition.

The following table presents the impact of the adoption of ASC 606 on the Company's consolidated statement of operations for the year ended December 31, 2018:

	For the twelve months ended December 31, 2018		
	As Reported	Balances without Adoption of ASC 606	Effect of Change
Voyage revenues	\$ 651,561	\$ 652,228	\$ (667)
Voyage expenses	121,596	122,037	441
Charter-in hire expenses	92,896	93,508	612
Net income/(loss)	58,397	58,011	386
Earnings/(Loss) per share, basic	\$ 0.76	\$ 0.75	\$ 0.01
Earnings/(Loss) per share, diluted	\$ 0.76	\$ 0.75	\$ 0.00

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

2. Significant Accounting policies - (continued)

The adoption of ASC 606 had no impact on net cash provided by operating activities, investing activities and financing activities for the year ended December 31, 2018.

The following table presents the cumulative effect of changes made to the Company's opening consolidated balance sheet on January 1, 2018 from the adoption of ASC 606:

	December 31, 2017	Effect of Adoption of ASC 606	January 1, 2018
Assets			
Trade accounts receivable	\$ 18,521	\$ (2,383) \$ 16,138
Other current assets	5,157	1,263	6,420
Liabilities			
Deferred revenue	7,229	(1,137) 8,366
Accrued liabilities	10,521	(2) 10,523
Stockholders' Equity			
Accumulated deficit	(1,036,303) (2,259) (1,038,562)

Under ASC 606, unearned voyage charter revenue represents the consideration received for undelivered performance obligations. The Company recorded \$4,579 as unearned revenue and \$1,263 as deferred expenses related to voyages in progress as of January 1, 2018, which were recognized in earnings in the year ended December 31, 2018 as the performance obligations were satisfied in that period.

Fair value measurements: The Company follows the provisions of ASC 820, "Fair Value Measurements and Disclosures" that defines and provides guidance as to the measurement of fair value. ASC 820 creates a hierarchy of measurement and indicates that, when possible, fair value is the price that would be received to sell an asset or paid u) to transfer a liability in an orderly transaction between market participants. The fair value hierarchy gives the highest priority (Level 1) to quoted prices in active markets and the lowest priority (Level 3) to unobservable data, for example, the reporting entity's own data. Under the standard, fair value measurements are separately disclosed by level within the fair value hierarchy (Note 18).

Earnings/ (loss) per share: Earnings or loss per share are computed in accordance with guidance related to Earnings per Share. Basic earnings or loss per share are calculated by dividing net income or loss available to common shareholders by the basic weighted average number of common shares outstanding during the period. Diluted earnings per share is computed by the treasury stock method whereby all of the Company's dilutive securities are v) assumed to be exercised and the proceeds used to repurchase common shares are calculated at the weighted average market price of the Company's common shares during the relevant periods. The incremental shares (the difference between the number of shares assumed issued and the number of shares assumed purchased) are included in the denominator of the diluted earnings per share computation (Note 13).

w) Segment reporting: The Company reports financial information and evaluates its operations and operating results by total charter revenues and not by the type of vessel, length of vessel employment, customer or type of charter. As a result, management, including the Chief Executive Officer, who is the chief operating decision maker, reviews operating results solely by revenue per day and operating results of the fleet, and thus, the Company has determined

that it operates under one reportable segment, that of operating dry bulk vessels. Furthermore, when the Company charters a vessel to a charterer, the charterer is free to trade the vessel worldwide, subject to restrictions as per the charter agreement, and, as a result, the disclosure of geographic information is impracticable.

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

2. Significant Accounting policies - (continued):

Accounting for leases: The Company follows the provisions under ASC 840 “Leases” for accounting for its lease arrangements. Leases of assets under which substantially all the risks and rewards of ownership are effectively retained by the lessor are classified as operating leases. Lease payments under an operating lease are recognized as an expense on a straight-line method over the lease term.

Leases of vessels are classified as capital leases when they satisfy the criteria for capital lease classification under ASC 840, “Leases.” When the ownership of a vessel is transferred at the end of the lease, or there is a bargain purchase option, the vessel is depreciated on a straight-line basis over its useful life as if the vessel was owned. Otherwise, vessels under capital lease are depreciated on a straight-line basis over the term of the lease. Capital leases are capitalized at the inception of the lease at the lower of the fair value of the leased assets and the present value of the minimum lease payments. Each lease payment is allocated between liability and finance charges to achieve a constant rate on the capital balance outstanding. The interest incurred under a capital lease is included within “Interest and finance costs” in the consolidated statement of operations. The amortization of vessels under recognized lease is included within “Depreciation” in the consolidated statement of operations.

Pursuant to the provisions of the ASC 840, “Leases”, in cases of changes in the contractual terms, the Company reassesses its conclusions for the accounting of the subject leases.

y) Derivatives & Hedging:

i) Derivative Financial Instruments:

The Company enters into derivative and nonderivative financial instruments to manage risks related to fluctuations of interest rates and foreign currency exchange rates.

All derivatives are recorded on the Company’s balance sheet as assets or liabilities and are measured at fair value. The valuation of interest rate swaps is based on Level 2 observable inputs of the fair value hierarchy, such as interest rate curves. The changes in the fair value of derivatives not qualifying for hedge accounting are recognized in earnings. Cash inflows/outflows attributed to derivative instruments are reported within cash flows from operating activities in the consolidated statements of cash flows.

For the purpose of hedge accounting, hedges are classified as:

- fair value hedges, when hedging the exposure to changes in the fair value of a recognized asset or liability or an unrecognized firm commitment, which in each case is attributable to a particular risk, including foreign currency risk;
- cash flow hedges, when hedging exposure to variability in cash flows that is either attributable to a particular risk associated with a recognized asset or liability or a highly probable forecast transaction that could affect earnings; or
- hedges of a net investment in a foreign operation. This type of hedge is not used by the Company.

Table of Contents

STAR BULK CARRIERS CORP.

Notes to Consolidated Financial Statements

December 31, 2018

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

2. Significant Accounting policies - (continued):

In case the instruments are eligible for hedge accounting, at the inception of a hedge relationship, the Company formally designates and documents the hedge relationship to which the Company wishes to apply hedge accounting and the risk management objective and strategy undertaken for the hedge. The documentation includes identification of the hedging instrument, the hedged item or transaction, the nature of the risk being hedged and how the Company will assess the hedging instrument's effectiveness in offsetting exposure to changes in the hedged item's cash flows or fair value attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in cash flows or fair value and are assessed at each reporting date to determine whether they actually have been highly effective throughout the financial reporting periods for which they were designated.

Fair value hedges

A fair value hedge is a hedge of the exposure to changes in the fair value of a recognized asset or liability, or of an unrecognized firm commitment, which in each case is attributable to a particular risk.

The change in the fair value of a hedging instrument is recognized in the consolidated statement of operations. The change in the fair value of the hedged item attributable to the risk hedged is recorded as part of the carrying value of the hedged item and is also recognized in the consolidated statement of operations.

For fair value hedges, in which a nonderivative is used as hedging instrument for foreign currency risk of unrecognized firm commitments, the hedging instrument is re-measured based on the movement in functional currency cash flows attributable to the change in spot exchange rates between the functional currency and the currency in which the nonderivative hedging instrument is denominated. An asset or liability is recorded for the unrecognized firm commitment, which equals the foreign exchange gain or loss that is recorded in earnings as a result of the hedge relationship. The resulting asset or liability will eventually be treated as part of the consideration when the firm commitment is recognized.

Cash Flow hedges

A cash flow hedge is a hedge of the exposure to variability in cash flows that is attributable to a particular risk associated with a recognized asset or liability or a highly probable forecasted transaction that could affect earnings.

For derivatives designated as cash flow hedges, the effective portion of the changes in their fair value is recorded in "Accumulated other comprehensive income / (loss)" and is subsequently recognized in earnings when the hedged items impact earnings, while the ineffective portion, if any, is recognized immediately in current period earnings under "Gain / (Loss) on derivative financial instruments, net."

Discontinuation of hedge relationships

The Company discontinues prospectively fair value or cash flow hedge accounting if the hedging instrument expires or is sold, terminated or exercised and it no longer meets all the criteria for hedge accounting or if the Company de-designates the instrument as a cash flow or fair value hedge. As part of a cash flow hedge, at the time the hedging relationship is discontinued, any cumulative gain or loss on the hedging instrument recognized in equity remains in equity until the forecasted transaction occurs or until it becomes probable of not occurring. When the forecasted

transaction occurs, any cumulative gain or loss on the hedging instrument is recognized in earnings. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognized in equity is reclassified and recognized in earnings for the year. Similarly, as part of a fair value hedge, if the hedged item is derecognized, the unamortized fair value is recognized immediately in earnings.

Notes to Consolidated Financial Statements

December 31, 2018

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

2. Significant Accounting policies - (continued):

ii) Forward Freight Agreements and Bunker Swaps:

In addition, from time to time, the Company may take positions in derivative instruments including forward freight agreements, or FFAs. Generally, FFAs and other derivative instruments may be used to hedge a vessel owner's exposure to the charter market for a specified route and period of time. Upon settlement, if the contracted charter rate is less than the average of the rates for the specified route and time period, as reported by an identified index, the seller of the FFA is required to pay the buyer the settlement sum, being an amount equal to the difference between the contracted rate and the settlement rate, multiplied by the number of days in the specified period covered by the FFA. The Company measures the fair value of all open positions at each reporting date on this basis (Level 2). Conversely, if the contracted rate is greater than the settlement rate, the buyer is required to pay the seller the settlement sum. FFAs are intended to serve as an economic hedge for the Company's vessels that are being chartered in the spot market, effectively locking-in an approximate amount of revenue that the Company expects to receive from such vessels for the relevant periods. All of the FFAs are settled on a daily basis through reputable exchanges such as LCH, Singapore Exchange (SGX) or Nasdaq. The Company's FFAs do not qualify for hedge accounting and therefore gains or losses are recognized in the consolidated statements of operations under "(Gain)/Loss on forward freight agreements and bunker swaps."

Also, from time to time, the Company enters into bunker swap contracts to manage its exposure to fluctuations of bunker prices associated with the consumption of bunkers by its vessels. Bunker swaps are agreements between two parties to exchange cash flows at a fixed price on bunkers, where volume, time period and price are agreed in advance. The Company's bunker swaps do not qualify for hedge accounting and are settled through reputable clearing houses, including LCH. The fair value of bunker swaps is the estimated amount that the Company would receive or pay to terminate the swaps at the reporting date (Level 2). Bunker price differentials paid or received under the swap agreements are recognized under "(Gain)/Loss on forward freight agreements and bunker swaps".

Taxation: The Company follows the provisions of ASC 740-10, "Accounting for Uncertainty in Income Taxes" which clarifies the accounting for uncertainty in income taxes by prescribing the minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. ASC 740-10 also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

Table of Contents

STAR BULK CARRIERS CORP.

Notes to Consolidated Financial Statements

December 31, 2018

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

2. Significant Accounting policies - (continued):

aa) Offering costs: Expenses directly attributable to an equity offering are deferred and presented against paid-in capital, unless the offering is aborted, in which case they are written-off and charged to earnings.

ab) Share repurchases: The Company records the repurchase of its common shares at cost based on the settlement dates of repurchase transactions. These common shares are classified as treasury stock, which is a reduction to shareholders' equity. Treasury shares are included in authorized and issued shares but excluded from outstanding shares.

ac) Evaluation of purchase transactions: When the Company enters into an acquisition transaction, it determines whether the acquisition transaction was the purchase of an asset or a business based on the facts and circumstances of the transaction. In accordance with ASU No. 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business, if substantially all of the fair value of the gross assets acquired in an acquisition transaction are concentrated in a single identifiable asset or group of similar identifiable assets, then the set is not a business. To be considered a business, a set must include an input and a substantive process that together significantly contributes to the ability to create an output. All assets acquired and liabilities assumed in a business combination are measured at their acquisition-date fair values. For asset acquisitions, the cost of the acquisition is allocated to individual assets and liabilities on a relative fair value basis. Acquisition costs associated with business combinations are expensed as incurred. Acquisition costs associated with asset acquisitions are capitalized.

Other Recent accounting pronouncements - adopted:

Statement of Cash Flows (230): In August 2016, the FASB issued ASU No. 2016-15, "Statement of Cash Flows (Topic 230) – Classification of Certain Cash Receipts and Cash Payments" addressing specific cash flow issues with the objective of reducing the existing diversity in practice. The pronouncement was effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. The Company adopted this ASU on January 1, 2018. The impact of the adoption of this amended guidance did not result in any changes in the classification of cash receipts and cash payments.

In November 2016, the FASB issued ASU 2016-18, "Statement of Cash Flows (230): Restricted Cash". The amendments in this update require that a statement of cash flows explains the change during the period in the total amount of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Therefore, amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. The Company adopted this accounting standard update as of January 1, 2018, and this presentation was applied retrospectively to all periods presented as required by the guidance. The prior periods have been adjusted to conform to current period presentation, which resulted in a) a decrease in cash flows used in operating activities by \$216 and an increase in cash flows used in investing activities of \$209 for the year ended December 31, 2016 compared to the amounts previously reported of (\$33,448) and (\$13,216), respectively and b) an increase in cash flows provided by operating activities by \$1,834 and an increase in cash flows used in investing activities of \$249 for the year ended December 31, 2017 compared to the amounts previously reported of \$80,970 and (\$126,852), respectively, related to changes in restricted cash amounts. Moreover, the beginning period and the ending period cash balances now include restricted cash. The following table provides a reconciliation of (a) cash and cash equivalents, and restricted cash reported within the consolidated balance sheets to (b) the total amount of such items

reported in the statements of cash flows:

Cash and cash equivalents and restricted cash at end of period shown in the statement of cash flows	\$195,762	273,500	213,877

Recent accounting pronouncements - not yet adopted:

Leases: In February 2016, the FASB issued Accounting Standards Update No. 2016-02, “Leases (Topic 842).” According to the new Accounting Standard, lessees will be required to recognize assets and liabilities on the balance sheet for the rights and obligations created by all leases with term of more than 12 months. For lessees, leases will be classified as either capital or operating, with classification affecting the pattern of expense recognition in the income statement. ASU 2016-02 requires lessors to classify leases as a sales-type, direct financing, or operating lease. A lease is a sales-type lease if any one of five criteria included in Topic 842 are met, each of which indicates that the lease, in effect, transfers control of the underlying asset to the lessee. If none of those five criteria are met, and two other criteria included also in Topic 842 are both met, indicating that the lessor has transferred substantially all of the risks and benefits of the underlying asset to the lessee and a third party, the lease would be classified as a direct financing lease. All leases that are not sales-type leases or direct financing leases are operating leases. ASU 2016 - 02 is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years, with early adoption permitted. The FASB issued additional accounting standards updates in July and December 2018 that made further amendments to accounting for leases and provide for, among other things, (a) an optional new transition method for adoption that results in initial recognition of a cumulative effect adjustment to retained earnings in the year of adoption and (b) a practical expedient for lessors, under certain circumstances, to combine the lease and non-lease components of revenues for presentation purposes. The Company will adopt this ASU for the reporting period commencing on January 1, 2019 and elected the optional new transitional approach and the practical expedient for lessors described above. Its adoption will not have a material effect on the Company’s consolidated financial statements for the reasons discussed below:

Company acting as Lessor:

The Company’s revenues from time charter contracts are governed by ASU 2016-02 “Leases”, effective from January 1, 2019. Upon adoption of ASC 842, the timing and recognition of earnings from time charter contracts to which the Company is party did not change from previous practice. The Company has determined to recognize lease revenue as a combined single lease component for all time charter contracts (operating leases) as the related lease component and non-lease component will have the same timing and pattern of transfer and the predominant component is the lease. The performance obligations in a time charter contract are satisfied over the term of the contract, beginning when the vessel is delivered to the charterer and ending when it is delivered back to the Company. As a result, the adoption of this standard is not expected to have an effect on the Company’s opening retained earnings, consolidated balance sheets and consolidated statements of operations for these types of contracts (time charter contracts), except for the additional disclosure requirements of this ASU.

Company acting as Lessee:

- a) All charter-in operating leases that the Company had entered into and were effective as of December 31, 2018 are short term leases, i.e less than 12 months.

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

2. Significant Accounting policies - (continued):

- b) The adoption of this new leasing guidance did not change the accounting for the capital leases already recognized on the balance sheet.

Each sale and lease back transaction that the Company had entered into as of December 31, 2018, involved a c) purchase obligation and was therefore treated as failed sale or merely a financing arrangement under both leasing standards (old and new), and therefore is and will not be within the scope of sale and leaseback accounting.

- d) Rights and obligations created by office rental arrangements that the Company is party to, are immaterial to the Company's consolidated financial statements.

Financial Instruments - Credit Losses (Topic 326): In June 2016, the FASB issued ASU No. 2016-13- "Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments." This standard, including the codification improvements issued in November 2018, requires entities to measure all expected credit losses of financial assets held at a reporting date based on historical experience, current conditions, and reasonable and supportable forecasts in order to record credit losses in a more timely manner. ASU 2016-13 also amends the accounting for credit losses on available-for-sale debt securities and purchased financial assets with credit deterioration. In November 2018, FASB issued ASU 2018-19 "Codification Improvements to topic 326, Financial Instruments-Credit Losses". The amendments in this update clarify that operating lease receivables are not within the scope of ASC 326-20 and should instead be accounted for under the new leasing standard, ASC 842. For public entities, the amendments of this update are effective for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. Early application is permitted. The adoption of this ASU is not expected to have a material effect on the Company's consolidated financial statements and accompanying notes.

Financial Instruments - Derivatives Held or Issued (subsequent to the adoption of ASU 2017-12, Targeted Improvements to Accounting for Hedging Activities): In August 2017, the FASB issued ASU 2017-12, Targeted Improvements to Accounting for Hedging Activities. ASU 2017-12 amends the current hedge accounting model and requires certain new or modified disclosures to enable entities to better portray the economics of their risk management activities in their financial statements. For public business entities, the amendments in ASU 2017-12 are effective for financial statements issued for fiscal years beginning after 15 December 2018, and interim periods within those fiscal years. For all other entities, the amendments in ASU 2017-12 are effective for financial statements issued for fiscal years beginning after 15 December 2019, and interim periods within fiscal years beginning after 15 December 2020. Early adoption is permitted, including adoption in an interim period. The adoption of this ASU is not expected to have a material effect on the Company's consolidated financial statements and accompanying notes.

Fair Value Measurement (Topic 820): In August 2018, the FASB issued ASU 2018-13, "Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the disclosure requirements for fair value measurement." The amendments in this update modify the disclosure requirements on fair value measurements in Topic 820, Fair Value Measurement, including the consideration of costs and benefits. The amendments in this update are effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. The amendments on changes in unrealized gains and losses, the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements, and the narrative description of measurement uncertainty should be applied prospectively for only the most recent interim or annual period presented in the initial fiscal year of adoption. All other amendments should be applied retrospectively to all periods presented upon their effective date.

Early adoption is permitted upon issuance of this update. An entity is permitted to early adopt any removed or modified disclosures upon issuance of this update and delay adoption of the additional disclosures until their effective date. The adoption of this ASU is not expected to have a material effect on the Company's consolidated financial statements and accompanying notes.

Interchart Shipping Inc. or Interchart: The Company holds 33% of the total outstanding common shares of Interchart. The ownership interest was purchased in 2014 from an entity affiliated with family members of a) Company's Chief Executive Officer. This investment is accounted for as an equity method investment and is presented within "Long term investment" in the consolidated balance sheets.

In November 2014, the Company entered into a services agreement with Interchart for chartering, brokering and commercial services for all of the Company's vessels for a monthly fee of \$275, with a term until March 31, 2015, which following consecutive renewals was effective until December 31, 2018. In November 2018, the Company entered into a new service agreement with Interchart, with effect from November 1, 2018 until December 31, 2019, pursuant to which the monthly fee was increased to \$325.

During the years ended December 31, 2016, 2017 and 2018 the brokerage commissions charged by Interchart were \$3,300, \$3,300 and \$3,400, respectively, and are included in “Voyage expenses” in the consolidated statements of operations.

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

3. Transactions with Related Parties - (continued):

Management and Directors Fees: The Company has entered into consulting agreements with companies owned and controlled by each one of its Chief Operating Officer and co-Chief Financial Officers. Pursuant to the corresponding agreements, these entities are entitled to receive an annual discretionary bonus, as determined by the Company's Board of Directors in its sole discretion. Pursuant to these agreements, the Company is required to pay an aggregate base fee of \$544 per year (this amount includes certain fees determined in Euros), using the exchange rate as of December 31, 2018, which was \$1.15 per euro).

The expenses related to the aforementioned consulting agreements for the years ended December 31, 2016, 2017 and 2018, were \$496, \$493 and \$534, respectively, and are included under "General and administrative expenses" in the consolidated statements of operations. The related expenses of Company's directors for the years ended December 31, 2016, 2017 and 2018 were \$148, \$145 and \$159, respectively, and are included under "General and administrative expenses" in the consolidated statements of operations. As of December 31, 2017 and 2018, the Company had outstanding payables of \$229 and \$236, respectively, to its executive officers and directors and non-executive directors, representing unpaid consulting fees and unpaid fees for their participation in the Company's Board of Directors and other special committees.

Office rent: On January 1, 2012, Starbulk S.A., entered into a lease agreement for office space with Combine Marine Ltd., a company controlled by Mrs. Milena - Maria Pappas and by Mr. Alexandros Pappas, both of whom are children of the Company's Chief Executive Officer. The lease agreement provides for a monthly rental of €2,500 (approximately \$2.9, using the exchange rate as of December 31, 2018, which was \$1.15 per euro). Unless terminated by either party, the agreement will expire in January 2024. The related rent expense for the years ended December 31, 2016, 2017 and 2018 was \$34, \$35 and \$37, respectively, and is included under "General and administrative expenses" in the consolidated statements of operations.

In addition, on December 21, 2016 Starbulk S.A., entered into a six year lease agreement for office space with Alma Properties, a company controlled by Mrs. Milena - Maria Pappas. The lease agreement provides for a monthly rental of €300 (approximately \$0.3, using the exchange rate as of December 31, 2018, which was \$1.15 per euro). The related rent expense for the years ended December 31, 2017 and 2018 was \$4 and \$4 and is included under "General and administrative expenses" in the consolidated statement of operations.

Oceanbulk Maritime S.A.: Oceanbulk Maritime S.A. ("Oceanbulk Maritime") is a ship management company controlled by Mrs. Milena-Maria Pappas. A company affiliated to Oceanbulk Maritime provides the Company certain financial corporate development services. The related expenses for the years ended December 31, 2016, 2017 and 2018 was \$270, \$284 and \$322 and are included under "General and administrative expenses" in the consolidated statement of operations. As of December 31, 2017 and 2018, the Company had outstanding receivables of \$107 and \$85 from Oceanbulk Maritime and its affiliates, respectively for payments made on their behalf regarding certain administrative items.

3. Transactions with Related Parties - (continued):

Oaktree Shareholder Agreement: On July 11, 2014, the Company and Oaktree Dry Bulk Holding LLC (including affiliated funds, "Oaktree"), one of the Company's major shareholders, entered into a shareholders agreement (the "Oaktree Shareholders Agreement"). Under the Oaktree Shareholders Agreement, Oaktree has the right to nominate four of the Company's nine directors so long as it beneficially owns 40% or more of the Company's outstanding voting securities. The number of directors able to be designated by Oaktree is reduced to three directors if Oaktree beneficially owns 25% or more but less than 40% of the Company's outstanding voting securities, to two directors if Oaktree beneficially owns 15% or more but less than 25%, and to one director if Oaktree beneficially owns 5% or more but less than 15%. Oaktree's designation rights terminate if it beneficially owns less than 5% of the Company's outstanding voting securities.

The three directors currently designated by Oaktree are Messrs. Pappas and Balakrishnan and Ms. Stephens. Under the Oaktree Shareholders Agreement, with certain limited exceptions, Oaktree effectively cannot vote more than 33% of the Company's outstanding common shares (subject to adjustment under certain circumstances).

Augustea Technoservices Ltd.: Following the completion of the Augustea Vessel Purchase Transaction, the Company appointed Augustea Technoservices Ltd., an entity affiliated with certain of the sellers of the corresponding transaction and specifically with one of the Company's directors, Mr. Zagari as further described in Note 1 above, as the technical manager of certain of its vessels. The management fees incurred since the completion of the Augustea Vessel Purchase Transaction, on August 3, 2018 and until December 31, 2018 were \$2,309 and are included in "Management fees" in the consolidated statement of operations. The outstanding balance due to Augustea Technoservices Ltd as of December 31, 2018 is \$1,111 and is included in Due to related parties in the consolidated balance sheet. In addition, pursuant to the post-closing adjustments set forth in the underlying purchase agreement, as of December 31, 2018 the Company had an outstanding receivable of \$867 from the sellers of the Augustea Vessels, which is included in Due from related parties in the consolidated balance sheet.

Songa Shipmanagement Ltd.: Following the completion of the Songa Vessel Purchase Transaction, the Company appointed Songa Shipmanagement Ltd, an entity affiliated with certain of the sellers of the corresponding transaction and specifically with one of the Company's directors, Mr. Blystad as further described in Note 1 above, as the technical manager of certain of its vessels. The management fees incurred since the completion of the Songa Vessel Purchase Transaction, on July 7, 2018 and until December 31, 2018 were \$376 and are included in "Management fees" in the consolidated statement of operations. The outstanding balance due from Songa Shipmanagement Ltd as of December 31, 2018 is \$305 and is included in Due from related parties in the consolidated balance sheet.

Sydelle profit sharing agreement: In April 2017, Sydelle Marine Limited ("Sydelle"), a company controlled by members of the family of Mr. Petros Pappas, entered into a pooling agreement (the "Sydelle Agreement") with the Company's fully owned subsidiary Domus Shipping LLC, owner of the vessel Star Ariadne, whereby the net revenues of Star Ariadne and the vessel owned by Sydelle will be equally split between the two companies. Pursuant to the Sydelle Agreement, the pool adjustment for the years ended December 31, 2017 and 2018 was (\$329) and (\$875), respectively, which is recorded in "Voyage revenues" in the consolidated statement of operations. As of December 31, 2017 and 2018, the Company had an outstanding receivable amount of \$44 and a payable amount of \$302, respectively, in connection with the Sydelle Agreement. The pooling agreement was terminated, effective December 31, 2018.

3. Transactions with Related Parties - (continued):

StarOcean Manning Philippines Inc.: The Company has 25% ownership interest in StarOcean Manning Philippines, Inc. ("StarOcean"), a company that is incorporated and registered with the Philippine Securities and Exchange Commission, which provides crewing agency services. The remaining 75% interest is held by local entrepreneurs.

i) This investment is accounted for as an equity method investment, which as of December 31, 2017 and 2018 is \$21 and \$50 and is included in "Other Current Assets" in the consolidated balance sheets. As of December 31, 2017 and 2018 the Company has an outstanding receivable of \$80 and \$65, respectively, from StarOcean relating to advances paid for working capital purposes.

j) Oceanbulk Container Carriers LLC.: On June 28, 2018, the Company completed the acquisition of three newbuilding Newcastlemax vessels (the "OCC Vessels") from Oceanbulk Container Carriers LLC ("OCC"), an entity affiliated with Oaktree Capital Management L.P. and with family members of the Company's CEO, (the "OCC Vessel Acquisition"), for an aggregate consideration of 3,304,735 common shares.

4. Inventories:

The amounts shown in the consolidated balance sheets are analyzed as follows:

	December 31, 2017	December 31, 2018
Lubricants	\$ 7,604	\$ 12,071
Bunkers	11,741	15,365
Total	\$ 19,345	\$ 27,436

5. Vessels and other fixed assets, net:

The amounts in the consolidated balance sheets are analyzed as follows:

	December 31, 2017	December 31, 2018
Cost		
Vessels	\$ 2,184,841	\$ 3,147,072
Other fixed assets	2,015	2,201
Total cost	2,186,856	3,149,273
Accumulated depreciation	(411,775)	(493,165)
Vessels and other fixed assets, net	\$ 1,775,081	\$ 2,656,108

As of December 31, 2018, 75 of the Company's 107 owned vessels, having a net carrying value of \$1,649,497, were subject to first-priority mortgages as collateral to their loan facilities (Note 8). In addition, all 31 of the Company's bareboat chartered vessels, having a net carrying value of \$992,777, were cross-collateralized under the Company's bareboat lease agreements.

Vessels acquired / disposed of during the year ended December 31, 2016

Delivery of newbuilding vessels:

- (i) On January 6, 2016, the Company took delivery of the vessel Star Lutas (ex-HN NE 197). The delivery installment of \$19,770 was partially financed by \$14,813 drawn down under the Sinasure Facility (Note 8).

5. Vessels and other fixed assets, net – (continued):

(ii) On January 8, 2016, the Company took delivery of the vessel Kennadi (ex-HN 1080). The delivery installment of \$21,229 was partially financed by \$14,478 drawn down under the Sinasure Facility (Note 8).

On February 26, 2016, the Company took delivery of the vessel Star Poseidon (ex-HN NE 198). The delivery
(iii) installment of \$33,390 was partially financed by \$23,400 drawn down under the DNB-SEB-CEXIM \$227,500 Facility (Note 8).

On March 2, 2016, the Company took delivery of the vessel Mackenzie (ex-HN 1081). The delivery installment
(iv) of \$18,221 was partially financed by \$12,720 drawn down under the Sinasure Facility (Note 8).

On March 11, 2016 and June 6, 2016, the Company took delivery of the vessels Star Marisa (ex-HN 1359) and Star
(v) Libra (ex-HN 1372), which are each subject to a separate bareboat charter agreement with CSSC (Hong Kong) Shipping Company Limited (“CSSC”). Each of these bareboat charter agreements is recognized in the Company’s consolidated financial statements as a fixed asset, as further described below.

Sale of operating vessels and newbuilding vessels upon their delivery from the shipyards in 2016:

In late 2015, the Company entered into various separate agreements with third parties to sell four of its operating vessels (Indomitable, Magnum Opus, Tsu Ebisu and Deep Blue) and five of its newbuilding vessels (Behemoth, Bruno Marks, Jenmark, Star Aries and Star Taurus) upon their delivery from the shipyards. In addition, in 2016, the Company entered into various separate agreements with third parties to sell the operating vessels Obelix, Star Michele, Star Monisha, Star Aline and Star Despoina and the newbuilding vessel Megalodon (ex-HN 5056) upon its delivery from the shipyard. All these vessels were delivered to their purchasers during the year ended December 31, 2016, and the Company recognized an aggregate net loss on sale of \$15,248.

In connection with the sale of the vessels Tsu Ebisu, Deep Blue, Magnum Opus, Obelix, Indomitable, Star Michele, Star Monisha, Star Aline and Star Despoina described above, during the year ended December 31, 2016 the Company prepaid an aggregate amount of \$130,062 outstanding under several loan agreements which had a mortgage over the sold vessels.

Vessels acquired / disposed of during the year ended December 31, 2017

Delivery of newbuilding and secondhand vessels:

On March 1, 2017 and March 28, 2017, the Company took delivery of the Newcastlemax vessels Star Virgo
(i) (ex-HN 1371) and Star Ariadne (ex-HN 1360), respectively, which, as further described below, are financed under bareboat charters from CSSC and are recognized in the Company’s consolidated financial statements as fixed assets, as further described below.

(ii) On March 2, 2017, the Company entered into agreements to acquire two modern Kamsarmax dry bulk vessels from a third party for \$15,150 each. Each of the vessels has a carrying capacity of 81,711 deadweight tons and was built with high specifications at Jiangsu New Yangzijiang in 2013. Star Charis was delivered to the Company on March 22, 2017, and Star Suzanna was delivered to the Company on May 15, 2017. On June 23, 2017, the

Company executed a loan agreement with ABN AMRO Bank N.V. for an aggregate principal amount of \$30,844, \$16,000 of which was drawn in June 2017, in order to partially finance the two vessels (Note 8).

(iii) On June 2, 2017, the Company entered into an agreement to acquire Diva, a Supramax vessel with carrying capacity of 56,582 deadweight tons, built at Jiangsu Hantong Ship Heavy Industry co Ltd China in 2011, for a purchase price of \$10,500. The vessel was delivered to the Company on July 24, 2017 and replaced the sold vessel Star Eleonora, as a pledged vessel under the DNB \$120,000 Facility (Note 8).

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

5. Vessels and other fixed assets, net – (continued):

- (iv) On October 25, 2017, the Company entered into an agreement to acquire Star Triumph, a Capesize vessel with carrying capacity of 176,343 deadweight tons, built at Universal Shipbuilding Shipyard, Japan in 2004, for a purchase price of \$14,200. The vessel was delivered to the Company on December 8, 2017 and replaced the sold vessel Star Vanessa, as a pledged vessel under the Deutsche Bank AG \$39,000 Facility (Note 8).

Sale of vessels:

On February 9, 2017, the Company entered into an agreement with a third party to sell the vessel Star Eleonora. The vessel was delivered to its new owner in March 2017. In addition, on September 15, 2017, the Company entered into an agreement with a third party to sell the vessel Star Vanessa. The vessel was delivered to its new owners on November 1, 2017. In connection with these sales, the Company recognized an aggregate net gain on sale of \$2,598.

Vessels acquired/delivered during the year ended December 31, 2018

Delivery of newbuilding and secondhand vessels:

- (i) On January 3, 2018, March 26, 2018 and May 14, 2018, the Company took delivery of the Newcastlemax vessels Star Eleni (ex HN 1342), Star Magnanimus (ex HN 1361) and Star Leo (ex HN 1343) which, as further described below, were financed under bareboat leases with CSSC. These leases, among other things, require the Company to acquire each underlying vessel at a specified price upon the completion of its bareboat term and are therefore recognized in the Company's consolidated financial statements as fixed assets, as further described below.

- (ii) As further described in Note 1, the Company acquired the 16 Augustea Vessels and the 15 Songa Vessels during the third quarter of 2018. The Augustea Vessel Purchase Transaction and the Songa Vessel Purchase Transaction were accounted for as asset acquisitions, in accordance with ASU No. 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business, with the cost of the vessels acquired totaling \$452,661 and \$327,680, respectively, being reflected, in "Vessels and other fixed assets, net" in the consolidated balance sheet. The cost of the shares issued as consideration in these transactions was determined by reference to the Company's closing share market price on the corresponding closing dates, which was \$13.31 per share on July 6, 2018 and \$14.00 per share on August 3, 2018.

- (iii) On October 10, 2018, the Company took delivery of the Supramax vessel Star Bright as part of the Step 1 Acquisition of the E.R. Vessels further discussed in Note 1. The vessel was delivered to the Company in exchange for 291,300 shares and cash consideration of \$9,167 with the total acquisition cost being \$13,073. The cash consideration of the vessel acquisition was partially financed through the second tranche of the ABN \$115,000 Facility (Note 8). The cost of the shares issued in connection with this acquisition was determined by reference to the Company's closing share market price on the delivery date, October 10, 2018, of \$13.87 per share.

- (iv) On November 16, 2018, the Company took delivery of the Ultramax vessel Star Anna, which has been acquired from a third party for a purchase price of \$19,800.

Notes to Consolidated Financial Statements

December 31, 2018

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

5. Vessels and other fixed assets, net - (continued):

Sale of vessels/ Vessel held for sale:

On November 20, 2018, the Company entered into an agreement with a third party to sell the vessel Star Delta. The vessel was delivered to its new owner on January 8, 2019. The Company decided to sell the respective vessel as part of its strategic goal to dispose the older vessels in its fleet. As of December 31, 2018, the vessel met the criteria for classification as held for sale and is therefore separately presented within "Vessels held for sale" in the consolidated balance sheet, at agreed selling price less cost to sell.

In addition, as of December 31, 2018, as part of its strategic goal to dispose the older vessels in its fleet, the Company was in negotiations for the sale of the vessels Star Kappa and Star Aurora. The Company executed the respective sale agreements entered with third parties in February 2019. The vessels were delivered to their new owners in March 2019. None of these two vessels met the criteria to be classified as held for sale as of December 31, 2018.

Financing through bareboat leases:

The Company is party to separate bareboat charter party contracts with affiliates of New Yangzijiang shipyard regarding the Ultramax vessels Idee Fixe, Roberta, Laura and Kaley. Pursuant to the terms of each bareboat charter, the Company pays New Yangzijiang a pre-agreed daily bareboat charter hire rate on a 30-days advance basis. In addition, the Company has monthly purchase options to acquire each vessel at a pre-determined, amortizing-during-the-charter-period price. On the eighth anniversary of the delivery of each vessel, the Company has the obligation to purchase the vessel at a purchase price of \$6,000. Upon the earlier of the exercise of the purchase options or the expiration of the bareboat charters, the Company will own the four vessels and these are therefore recognized in the Company's consolidated financial statements as fixed assets at historical cost. The Company took delivery of these four vessels during the year ended December 31, 2015.

As of December 31, 2018 the Company is also party to separate bareboat charter party contracts with affiliates of CSSC regarding the Newcastlemax vessels Star Marisa, Star Libra, Star Virgo, Star Ariadne (Note 19), and Star Magnanimus. Pursuant to the terms of the bareboat charter, the Company is required to pay CSSC a daily bareboat charter hire rate payable monthly plus a variable amount. In addition, the Company has monthly purchase options to acquire each vessel at a pre-determined, amortizing-during-the-charter-period price. On the tenth anniversary of the delivery of each vessel, the Company has the obligation to purchase each vessel at a purchase price ranging from approximately \$11,990 to \$12,960. Upon the earlier of the exercise of the purchase options or the expiration of the bareboat charters, the Company will own the vessels and these are therefore recognized in the Company's consolidated financial statements as fixed assets at historical cost. As further described above, the Company took delivery of Star Marisa and Star Libra during the year ended December 31, 2016, Star Virgo and Star Ariadne during the year ended December 31, 2017, while Star Magnanimus was delivered in March 2018.

In order to finance the delivery installments of vessels Star Eleni and Star Leo, discussed above, on December 13, 2017 and May 2, 2018, respectively, the Company sold the vessels and simultaneously entered into two bareboat charter party contracts with an affiliate of CSSC to bareboat charter each vessel for ten years. Pursuant to the terms of the bareboat charters, an amount of \$30,000, for each vessel, , was financed by CSSC, to which the Company pays a daily bareboat charter hire rate payable monthly plus a variable amount. Under the terms of each bareboat charter, the Company has the option to purchase each vessel at any time after the vessel's delivery, such option being exercisable

on a monthly basis against a pre-determined, amortizing-during-the-charter-period price, while it has an obligation to purchase each vessel at the expiration of the bareboat term at a purchase price of approximately \$9,000. Upon the earlier of the exercise of the purchase option or the expiration of each bareboat charter, the Company will own the vessels. The vessels are therefore recognized in the Company's consolidated financial statements as fixed assets. As further described above, the Company took delivery of the vessel Star Eleni (ex-HN 1342) on January 3, 2018 and the vessel Star Leo (ex-HN 1343) on May 14, 2018. In September 2018, the Company exercised its purchase options and paid the outstanding amount of \$28,744 for Star Eleni and \$29,368 for Star Leo under the respective lease agreements with CSSC, using proceeds from two sale and lease back agreements with China Merchants Bank Leasing ("CMBL") described below.

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

5. Vessels and other fixed assets, net - (continued):

In order to finance the cash portion of the consideration related to the Songa Vessel Purchase Transaction, discussed above, in July 2018, the Company entered, for each of the subject vessels, into an agreement to sell each such vessel and simultaneously entered into a bareboat charter party contract with affiliates of CMBL to bareboat charter the vessel for five years upon delivery of the vessel from Songa. CMBL agreed to provide an aggregate finance amount of \$180,000, \$19,600 of which still remains available to be drawn to finance the acquisition and installation of scrubber equipment for the respective vessels. Pursuant to the terms of each bareboat charter, the Company pays CMBL a fixed bareboat charter hire rate in quarterly installments plus interest. Under the terms of the bareboat charter, the Company has options to purchase each vessel starting on the second anniversary of such vessel's delivery to the Company, at a pre-determined, amortizing purchase price, while it has an obligation to purchase each vessel at the expiration of the bareboat term at a purchase price ranging from \$2,200 to \$8,400. Upon the earlier of the exercise of the purchase option or the expiration of the bareboat charter, the Company will own the vessels. The vessels are therefore recognized in the Company's consolidated financial statements as fixed assets.

On September 27, 2018, the Company entered, into an agreement to sell the vessels Star Eleni and Star Leo and simultaneously entered into two bareboat charter party contracts with affiliates of CMBL to bareboat charter each one of the respective vessels for five years. CMBL provided in aggregate a finance amount of \$57,346. Pursuant to the terms of the bareboat charters, the Company pays CMBL a fixed bareboat charter hire rate in quarterly installments plus interest. Under the terms of the bareboat charters, the Company has options to purchase the vessels from year two onwards each at a pre-determined, amortizing purchase price, while it has an obligation to purchase the vessel at the expiration of the bareboat term at a purchase price of \$18,231 for vessel Star Eleni and \$20,000 for vessel Star Leo. Upon the earlier of the exercise of the purchase option or the expiration of the bareboat charters, the Company will own the vessels. Therefore the vessels are recognized in the Company's consolidated financial statements as fixed assets.

Three of the Augustea Vessels ABOY Sienna, ABOY Laetitia and ABOY Karlie, are also subject to bareboat charter party contracts with affiliates of CSSC, one of which matures in early 2026, while two mature in early 2027. Pursuant to the terms of the bareboat charters, the Company pays a daily bareboat charter hire rate payable monthly plus a variable amount. In addition, the Company has the option to purchase each vessel at a pre-determined, amortizing price, while it has an obligation to purchase the vessels at the expiration of the bareboat term at a purchase price ranging between \$12,000 and \$12,960. Upon the earlier of the exercise of the purchase options or the expiration of the bareboat charters, the Company will own the vessels. The vessels are therefore recognized in the Company's consolidated financial statements as fixed assets. In January 2019, the Company exercised its purchase options and paid all outstanding amounts under the lease agreements with CSSC for two of the three Augustea Vessels, using the proceeds from a new financing agreement (Note 19).

In addition one of the Augustea Vessel, ABY Asia, is also subject to a bareboat charter party contract with an affiliate of Mitsui & Co., Ltd., which matures in June 2019. The Company intends to refinance the outstanding amount under the respective lease agreement using proceeds from a new financing agreement (Note 19).

Notes to Consolidated Financial Statements

December 31, 2018

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

5. Vessels and other fixed assets, net - (continued):

In December 2018, the Company sold and simultaneously entered into a bareboat charter party contract with an affiliate of Kyowa Sansho to bareboat charter the vessel Star Fighter (Note 8) for ten years. Pursuant to the terms of the bareboat charter, the Company pays a daily bareboat charter hire rate payable monthly plus a variable amount. Under the terms of the bareboat charter, the Company has an option to purchase the vessel starting on the third anniversary of the vessel's delivery to the Company at a pre-determined, amortizing purchases price, while it has an obligation to purchase the vessel at the expiration of the bareboat term at a purchase price of \$2,450. Upon the earlier of the exercise of the purchase option or the expiration of the bareboat charter, the Company will own the vessel. The vessel is therefore recognized in the Company's consolidated financial statements as a fixed asset.

Based on applicable accounting guidance, the Company determined that the bareboat charters described above should be classified as capital leases or that the sale and lease back transactions are in substance merely financing arrangements due to the accompanying purchase obligations included in the Company's bareboat agreements. As a result, in accordance with the applicable capital lease accounting guidance, the Company has recorded a financial liability and a financial asset equal to the lower of the fair value of the asset at the inception of the lease and the present value of the minimum lease payments at the beginning of the lease term. On the other hand, the Company continues to record on the balance sheet at historical cost all vessels sold and leased back for which the leasing arrangement includes a purchase obligation and as discussed above are in substance merely financing arrangements and therefore not within the scope of sale and lease back accounting. The net book value of these vessels as of December 31, 2017 and 2018, for which the Company does not have ownership title but are recognized on the balance sheet as discussed above, is reflected within "Vessels and other fixed assets, net" in the consolidated balance sheet. The amortization of these leased assets is included within "Depreciation expense" in the consolidated statement of operations. The corresponding interest expense on the financial liability related to all aforementioned bareboat leases for the years December 31, 2016, 2017 and 2018 was \$7,477, \$12,590 and \$26,825, respectively, and is included within "Interest and finance costs" in the consolidated statement of operations. As of December 31, 2017 and 2018 the net book value of the bareboat chartered vessels was \$325,301 and \$992,777, respectively, with accumulated amortization of \$21,264 and \$51,956, respectively.

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

5. Vessels and other fixed assets, net - (continued):

The payments required to be made after December 31, 2018, for the outstanding bareboat lease obligations recognized on the balance sheet as of December 31, 2018, as described above, are as follows:

Twelve month periods ending	Amount
December 31, 2019	\$94,352
December 31, 2020	82,228
December 31, 2021	79,889
December 31, 2022	76,930
December 31, 2023	180,771
December 31, 2024 and thereafter	216,024
Total bareboat lease minimum payments	\$730,194
Unamortized debt issuance costs	2,975
Total bareboat lease minimum payments, net	\$727,219
Excluding bareboat lease interest	120,457
Lease commitments – short term	65,837
Lease commitments – long term	540,925

Impairment Analysis

In light of the continued economic downturn and the prevailing conditions in the shipping industry, as of December 31, 2016, 2017 and 2018, the Company performed an impairment analysis for each of its operating vessels whose carrying value was above its market value and for each newbuilding whose cost, on a fully delivered basis, was above its market value.

In connection with the termination of two shipbuilding contracts and the sale of two operating vessels and by reference to their agreed sale prices (Level 2), the Company recognized during the year ended December 31, 2016, an impairment loss of \$18,537. In addition, based on the Company's impairment analysis, using the same framework that was used in the previous years, which is described in Note 2(n) and taking also into consideration the probability of vessel sales, the Company recognized an additional impairment loss of \$10,684. The total impairment charge of \$29,221, for the year ended December 31, 2016 is separately reflected in the consolidated statement of operations (Note 18).

The Company's annual impairment analysis for the year ended December 31, 2017 did not result in any impairment charges due to improvements in the dry bulk market.

As part of the agreed and intended sales in 2018, as described above, and by reference to their agreed or negotiated sale prices (Level 2), the Company recognized an impairment loss of \$17,784, for the year ended December 31, 2018, which is separately reflected in the consolidated statement of operations (Note 18). Further to that, based on the Company's impairment analysis framework described in Note 2(n), taking also into consideration the probability of vessel sales, no further impairment loss was considered necessary for the year ended December 31, 2018.

STAR BULK CARRIERS CORP.

Notes to Consolidated Financial Statements

December 31, 2018

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

6. Advances for vessels under construction and acquisition of vessels:

The amounts shown in the consolidated balance sheets are analyzed as follows:

	December 31, 2017	December 31, 2018
Pre-delivery yard installments	\$ 30,402	\$ 8,700
Fair value of the share consideration for OCC Vessels	-	42,962
Bareboat capital leases – upfront hire	10,460	-
Capitalized interest	4,753	1,307
Other capitalized costs	2,959	2,034
Advances for secondhand vessels	-	4,897
Total	\$ 48,574	\$ 59,900

As further described in Note 1 with respect to the recently completed OCC Vessel Purchase Transaction, which was accounted for as an acquisition of assets, in accordance with ASU No. 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business, CSSC (Hong Kong) Shipping Company Limited has agreed to provide in aggregate a finance amount of up to \$104,400 to finance the remaining, at the time of the transaction, \$103,844 construction cost for three OCC Vessels via a ten-year bareboat charter. Pursuant to the terms of each bareboat charter, CSSC will provide an amount of up to \$34,800 for each of the three newbuilding vessels, which will be applied to the third and the fourth (delivery) installment of the OCC Vessels. The Company will pay CSSC each month a daily bareboat charter hire rate consisting of a fixed and a variable amount. Under the terms of the bareboat charter, the Company has the option to purchase each of the vessels at any time after each vessel's delivery, such option being exercisable on a monthly basis against a pre-determined, amortizing price while it has a respective obligation of purchasing each of the vessels at the expiration of each bareboat charter term at a purchase price of approximately \$10,440. Upon the earlier of the exercise of the purchase option or the expiration of each bareboat charter, the Company will acquire the vessels. During the fourth quarter of 2018, the Company paid the third installments for two of the OCC Vessels, of \$4,350 each, which was financed through a pre-delivery financing from CSSC, as discussed above. The total aggregate remaining contracted price for these three newbuilding vessels, as of December 31, 2018 plus agreed extras was \$95,700 and will be financed through the CSSC financing arrangements described above.

In connection with the Step 1 Acquisition of the E.R. Vessels, Star Marianne and Star Janni, which were delivered to the Company in January 2019 as further described in Note 1, the Company as of December 31, 2018, has paid an amount of \$4,880 which is included in "Advances for vessels under construction and acquisition of vessels" in the consolidated balance sheet.

7. Fair value of Above / Below Market Acquired Time Charters:

As part of the merger with Oceanbulk Shipping LLC ("Oceanbulk Shipping") and Oceanbulk Carriers LLC (collectively, "Oceanbulk") in July 2014 (the "Merger"), a \$1,967 intangible asset was recognized corresponding to a fair value adjustment for two favorable time charters under which Oceanbulk was the lessor at the time of acquisition, with respect to the vessels Amami and Madredeus. This intangible asset was fully amortized in 2016 and the amortization of \$254 for the year ended December 31, 2016, is included under "Voyage revenues" in the consolidated

statements of operations.

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

7. Fair value of Above / Below Market Acquired Time Charters – (continued):

In addition, for two Augustea Vessels, which were transferred to the Company with time charter agreements attached, the Company recognized a liability of \$5,373, since it determined that the respective charter rates were below market rates on the date of the transfers (Level 2). For the year ended December 31, 2018, the amortization of fair value of the below market acquired time charters was \$1,820 and is included under “Voyage revenues” in the consolidated statement of operations. The accumulated amortization of these below market time charters as of December 31, 2018 was \$1,820.

The unamortized balance of this intangible liability as of December 31, 2018 of \$3,553 is expected to be amortized over the weighted average period of 3.02 years as follows:

Twelve month periods ending	Amount
December 31, 2019	\$ 1,337
December 31, 2020	927
December 31, 2021	924
December 31, 2022	365
Total Fair value of below market time charters acquired	\$ 3,553

8. Long-term debt:

New Financing Activities during the year ended December 31, 2018

i) NBG \$30,000 Facility:

On April 19, 2018, the Company entered into a loan agreement with the National Bank of Greece (the “NBG \$30,000 Facility”), for the refinancing of the then existing agreement with Commerzbank (the “Commerzbank \$120,000 Facility”). On May 3, 2018 the Company drew \$30,000 under the NBG \$30,000 Facility, which was used along with cash on hand to fully repay the outstanding amount of \$34,726 under the Commerzbank \$120,000 Facility. The NBG \$30,000 Facility is secured by a first priority mortgage on the vessels Star Gamma, Star Delta, Star Epsilon, Star Theta, Star Iris and Star Aurora. The NBG \$30,000 Facility matures on December 31, 2022 and is repayable in 19 equal quarterly installments of \$950 each, commencing in August 2018, and a final balloon payment of \$11,950, payable together with the last installment.

ii) Credit Agricole \$43,000 Facility:

On August 21, 2018, the Company entered into a loan agreement with Credit Agricole Corporate and Investment Bank (the “Credit Agricole \$43,000 Facility”) for the financing of an aggregate amount of \$43,000, to refinance the outstanding amount of \$44,100 under the then existing agreement with Credit Agricole (the “Credit Agricole \$70,000 Facility”). The amount of \$43,000 was drawn on August 23, 2018, in two equal tranches of \$21,500, each being repayable in 20 equal quarterly installments of \$625 and a balloon payment of \$9,000, payable together with the last installment. The facility is secured by the vessels Star Borealis and Star Polarix.

iii) HSBC \$80,000 Facility:

On September 26, 2018, the Company entered into a loan agreement with HSBC Bank plc (the “HSBC \$80,000 Facility”) to refinance the aggregate outstanding amount of \$74,647 under the agreement with HSH Nordbank (the “HSH Nordbank \$64,500 Facility”) and with HSBC (the “HSBC \$86,600 Facility”). The amount of \$80,000 was drawn on September 28, 2018, and is repayable in 20 equal quarterly installments of \$2,380 and a balloon payment of \$32,400, payable together with the last installment. The facility is secured by the vessels Kymopolia, Mercurial Virgo, Pendulum, Amami, Madreus, Star Emily, Star Cosmo, Star Kappa, Star Omicron, and Star Zeta.

iv) DNB \$310,000 Facility:

On September 27, 2018, the Company entered into a loan agreement with DNB Bank ASA (the “DNB \$310,000 Facility”), for an amount of up to \$310,000, available in two tranches. The first tranche of \$240,000 was used to refinance the aggregate outstanding amount of \$240,440 under the then existing facilities with (i) ABN AMRO (the “ABN \$87,458 Facility”), (ii) DNB, SEB and CEXIM (the “DNB-SEB-CEXIM \$227,500 Facility”), (iii) DNB (the “DNB \$120,000 Facility”), (iv) Deutsche Bank AG (the “Deutsche Bank AG \$39,000 Facility”) and (v) ABN AMRO Bank N.V. (the “ABN AMRO Bank N.V. \$30,844 Facility”). The loan is secured by a first priority mortgage on Big Bang, Strange Attractor, Big Fish, Pantagruel, Gargantua, Goliath, Maharaj, Star Poseidon, Star Nasia, Diva, Star Danai, Star Renee, Star Markella, Star Laura, Star Moira, Star Jennifer, Star Mariella, Star Helena, Star Maria, Star Sirius, Star Vega, Star Triumph, Star Charis, Star Suzanna, Star Angelina and Star Gwyneth. The first tranche was drawn down on September 28, 2018 and is repayable in 20 equal quarterly installments of \$8,696 and a balloon payment of

\$66,087 payable together with the last installment. The second tranche of \$70,000 will be used to finance the acquisition and installation of scrubber equipment for the mortgaged vessels under the DNB \$310,000 Facility, is expected to be drawn in 2019, and will be repayable in 12 quarterly installments, each equal to \$3,885 and the remaining balance will be repaid in the form of a balloon installment at the final repayment date of the first tranche.

8. Long-term debt - (continued):

New Financing Activities during the year ended December 31, 2018 – (continued):

v) ING \$47,800 Facility:

On September 28, 2018, the Company entered into a loan agreement with ING Bank N.V., London Branch (the “ING \$47,800 Facility”) for an aggregate amount of \$47,800, available in four tranches. The first two tranches of \$45,000 in aggregate were used to refinance the outstanding amount of \$51,876 under the then existing agreement with Deutsche Bank (the “Deutsche Bank \$85,000 Facility”) and were both drawn on October 2, 2018. The two equal tranches of \$22,500 are each repayable in 28 equal quarterly installments of \$469 and a balloon payment of \$9,375 payable together with the last installment. The remaining two tranches of \$1,400 each will be used to finance the acquisition and installation of scrubber equipment for the two mortgaged vessels under the ING \$47,800 Facility, are expected to be drawn in 2019, and will be repayable in 16 quarterly installments, of \$88 each. The facility is secured by a first priority mortgage on Peloreus and Leviathan.

vi) Citi \$130,000 Facility:

On October 18, 2018, the Company entered into a loan agreement with Citibank N.A., London Branch (the “Citi \$130,000 Facility”) for an amount of up to \$130,000, to refinance the aggregate outstanding amount of \$100,075 under the then existing agreement with Citibank N.A., London Branch (the “Citi Facility”) and the existing indebtedness of five of the Augustea Vessels (as described below). The amount under Citi \$130,000 Facility was available in two equal tranches of \$65,000, which were drawn on October 23, 2018 and November 5, 2018. Each tranche is repayable in 20 equal quarterly installments of \$1,825, commencing in January 2019, and a balloon payment along with the last installment in an amount of \$28,500. The Citi \$130,000 Facility is secured by a first priority mortgage on Star Pauline, Star Angie, Star Sophia, Star Georgia, Star Kamila and Star Nina and five of the Augustea Vessels ABML Eva, Paola., Star Aphrodite, Star Lydia and Star Nicole.

vii) ABN \$115,000 Facility:

On December 17, 2018, the Company entered into a loan agreement with ABN AMRO BANK (the “ABN \$115,000 Facility”), for an amount of up to \$115,000 available in four tranches. The first and the second tranches of \$69,525 and \$7,900, respectively, were drawn on December 20, 2018. The first tranche was used to refinance the then existing indebtedness of four of the Augustea Vessels ABY Virginia, ABY Scarlett, ABY Jeannette and Star Audrey (as described below) and the second was used to partially finance the acquisition cost of the Star Bright (Note 5). The first and the second tranche are repayable in 20 equal quarterly installments of \$1,705 and \$282 respectively, and balloon payments are due along with the last installment in an amount of \$35,428 and \$2,260, respectively. The remaining two tranches of \$17,875 each were drawn in January 2019 and were used to partially finance the acquisition cost of the Star Marianne and Star Janni. The loan is secured by a first priority mortgage on the four Augustea vessels and the Step 1 Vessels.

Assumed debt as part of the acquisition of Augustea Vessels:

As further described in Note 1, as part of the acquisition of the Augustea Vessels the Company assumed debt of approximately \$308,279 including capital lease obligations of \$127,101 through bareboat leases for four of the

Augustea vessels (Note 5). During the fourth quarter of 2018, the Company used proceeds from (i) the second tranche of Citi \$130,000 Facility to refinance the aggregate outstanding amount of \$60,790 under the then existing agreement with Credit Suisse for five Augustea Vessels and (ii) the first tranche of ABN \$115,000 Facility to refinance the aggregate outstanding amount of \$69,907 under the then existing agreement with ABN AMRO for four Augustea Vessels. The remaining three Augustea vessels are financed under the two loan agreements described below:

F-44

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

8. Long-term debt - (continued):

Assumed debt as part of the acquisition of Augustea Vessels – (continued):

i) BNP Facility:

BNP Paribas provided financing under secured term loan agreement in two tranches, for the vessels Star Despoina and Pierra (the “BNP Facility”). On August 3, 2018, the date of the acquisition of the Augustea Vessels, the outstanding amount of the first and the second tranche was \$15,914 and \$14,977, respectively. The outstanding balance of the first tranche is repayable in 16 remaining quarterly installments, the first 15 of which are in an amount of \$500 and the sixteenth is in an amount of \$8,414. The outstanding balance of the second tranche is repayable in 17 remaining quarterly installments, the first 16 of which of \$500 and the seventeenth is in an amount of \$6,977. The loan is secured by a first priority mortgage on the two Augustea vessels.

ii) Bank of Tokyo
Facility:

Bank of Tokyo provided financing under secured term loan agreement for the vessel Star Monica (the “Bank of Tokyo Facility”). On August 3, 2018, the date of the acquisition of the Augustea Vessels, the outstanding amount of the Bank of Tokyo Facility was \$16,000 and is repayable in 17 remaining quarterly installments, the first sixteen of which are in the amount of \$346 and the seventeenth is in an amount of \$10,464. The loan is secured by a first priority mortgage on the Star Monica.

Pre - Existing Loan Facilities:

i) HSH Nordbank AG \$35,000 Facility:

On February 6, 2014, the Company entered into a new \$35,000 secured term loan agreement (the “HSH Nordbank \$35,000 Facility”) with HSH Nordbank AG. The borrowings under this new loan agreement were used to partially finance the acquisition cost of the vessels Star Challenger and Star Fighter. The HSH Nordbank \$35,000 Facility is secured by a first priority mortgage over the financed vessels. This facility matures in February 2021 and is repayable in 28 equal, consecutive, quarterly installments, commencing in May 2014, of \$312.5 and \$291.7 for the Star Challenger and the Star Fighter, respectively, and a final balloon payment of \$8,750 and \$9,332.4, payable together with the last installments, for the Star Challenger and the Star Fighter, respectively.

Please see below for information regarding the related Supplemental Agreement executed pursuant to the Restructuring Letter Agreements.

In December 2018, the Company refinanced the tranche relating to Star Fighter through proceeds from a sale and lease back transaction with Kyowa Sansho Co. Ltd. described in Note 5.

ii) NIBC \$32,000
Facility:

On November 7, 2014, the Company and NIBC Bank N.V. entered into an agreement with respect to a credit facility (the “NIBC \$32,000 Facility”) for the financing of an aggregate amount of up to \$32,000, which is available in two tranches of \$16,000, to partially finance the construction cost of two vessels, Star Aquarius and Star Pisces. An amount of \$15,237 for each vessel was drawn in July and August 2015, concurrently with the delivery of the respective vessels to the Company. Each tranche is repayable in consecutive quarterly installments of \$255, plus a balloon payment of \$9,633 and \$9,888, for each of the two vessels, both due in November 2020. The NIBC \$32,000 Facility is secured by a first priority cross collateralized mortgage over the financed vessels.

8. Long-term debt - (continued):

Please see below for information regarding the related Supplemental Agreement executed pursuant to the Restructuring Letter Agreements.

Pre - Existing Loan Facilities – (continued):

iii) DVB \$24,750 Facility:

On October 30, 2014, the Company and DVB Bank SE, Frankfurt entered into an agreement with respect to a credit facility (the “DVB \$24,750 Facility”), to partially finance the acquisition of 100% of the equity interests of Christine Shipco LLC, which is the owner of the vessel Star Martha. On October 31, 2014, the Company drew \$24,750 which is repayable in 24 consecutive, quarterly principal payments of \$900 for each of the first four quarters and of \$450 for each of the remaining 20 quarters, and a balloon payment of \$12,150 payable simultaneously with the last quarterly installment, which is due in October 2020. The DVB \$24,750 Facility is secured by a first priority pledge of the membership interests of the Christine Shipco LLC.

Please see below for information regarding the related Supplemental Agreement executed pursuant to the Restructuring Letter Agreements.

iv) Sinosure Facility:

On February 11, 2015, the Company and Deutsche Bank (China) Co., Ltd. Beijing Branch and HSBC Bank plc entered into six separate agreements with respect to credit facilities (the “Sinosure Facility”) for the financing of an aggregate amount of \$98,165 to partially finance the construction cost of the newbuilding vessels, Honey Badger, Wolverine, Star Antares, Star Lutas, Kennadi, Mackenzie, (the “Sinosure Financed Vessels”). The financing under the Sinosure Facility was available in six separate tranches, one for each of the Sinosure Financed Vessels, and is credit insured (95%) by China Export & Credit Insurance Corporation. Each tranche matures twelve years after each drawdown date and is repayable in 48 equal and consecutive quarterly installments. The Sinosure Facility is secured by a first priority cross collateralized mortgage over the Sinosure Financed Vessels. The vessels Honey Badger and Wolverine were delivered to the Company in February 2015. The vessel Star Antares was delivered to the Company in October 2015. The vessels Star Lutas and Kennadi were delivered to the Company in early January 2016 and the vessel Mackenzie was delivered to the Company in March 2016 (Note 5).

Please see below for information regarding the related Supplemental Agreement executed pursuant to the Restructuring Letter Agreements.

v) Issuance of 8.30% 2022 Notes: On November 9, 2017 the Company completed a public offering of \$50,000 aggregate principal amount of senior unsecured notes due in 2022 (the “2022 Notes”). The 2022 Notes will mature on November 15, 2022. The 2022 Notes are not guaranteed by any of the Company’s subsidiaries and bear interest at a rate of 8.30% per year, payable quarterly in arrears on the 15th day of February, May, August and November commencing on February 15, 2018. The Company may redeem the 2022 Notes at its option, in whole or in part, at any time after May 15, 2019, at a redemption price equal to 100% of the principal amount of the 2022 Notes to be redeemed plus accrued and unpaid interest. Prior to May 15, 2019, the Company may redeem the 2022 Notes, in whole or in part, at a price equal to 100% of the principal amount plus a make-whole premium and accrued interest to the date of redemption. In addition, the Company may redeem the 2022 Notes in whole, but not in part, at any

time at its option, at a redemption price equal to 100% of the principal amount to be redeemed, plus accrued and unpaid interest to, but excluding, the redemption date, if certain events occur involving changes in taxation.

In December 2017 the Company used the proceeds from the sale of the 2022 Notes to redeem in full the \$50,000 aggregate principal amount of 8.00% Senior Notes due in 2019 (the “2019 Notes”) that had been issued in November 2014.

8. Long-term debt - (continued):

Supplemental Agreements executed during the year ended December 31, 2016

As of August 31, 2016, the Company entered into restructuring letter agreements (the “Restructuring Letter Agreements”) with all the banks and export credit agencies providing its senior credit facilities to, among other things, (i) defer principal payments owed from June 1, 2016 through June 30, 2018 to the due date of the balloon installments of each facility (the “Deferred Amounts”), (ii) waive in full or substantially relax the financial covenants, effective during the period until and including December 31, 2019 and (iii) implement a cash sweep mechanism pursuant to which excess cash at consolidated level will be applied towards the payment of Deferred Amounts, payable pro rata based on each loan facility’s and lease agreement’s outstanding Deferred Amounts relative to the total Deferred Amounts at the end of each quarter. In exchange, the Company agreed to raise additional equity of not less than \$50.0 million by September 30, 2016 (which condition was satisfied after the completion of the Company’s equity offering in September 2016) and impose restrictions on paying dividends until all Deferred Amounts have been repaid (the “Restructuring”). In July 2017, the Company finalized the Restructuring through the execution of all corresponding Supplemental Agreements (the “Supplemental Agreements”).

In accordance with the terms of the Supplemental Agreements, in 2017 the Company distributed pro rata to all parties under the Restructuring (including the lease provider): an amount of \$9,768. During the year ended December 31, 2018 the Company made the following payments: (i) in February 2018, an amount of \$35,632, representing the excess cash resulting from the cash sweep mechanism as of December 31, 2017, (ii) in May and July 2018 an amount of \$30,000 and \$22,723, respectively, representing the repayments that were in total at least equivalent to the amortization payments scheduled prior to the commencement of debt amortization holidays for the first and second quarter 2018, as decided by the Company in light of its then improved performance and the improved dry bulk market in general and (iii) in October 2018, the Company repaid all outstanding Deferred Amounts that had been accumulated from June 1, 2016 through September 30, 2018 and were still outstanding.

All of the Company’s aforementioned facilities are secured by a first-priority ship mortgage on the financed vessels under each facility and general and specific assignments and guaranteed by Star Bulk Carriers Corp except for the Citi \$130,000 Facility and BNP Facility which are also guaranteed by Star ABY LLC and the Bank of Tokyo Facility which is only guaranteed by Star ABY LLC.

Credit Facility and Senior Notes Covenants:

The Company’s outstanding credit facilities and senior notes generally contain customary affirmative and negative covenants, on a subsidiary level, including limitations to:

- pay dividends if there is an event of default under the Company’s credit facilities;
- incur additional indebtedness, including the issuance of guarantees, refinance or prepay any indebtedness, unless certain conditions exist;
- create liens on Company’s assets, unless otherwise permitted under Company’s credit facilities;
-

change the flag, class or management of Company's vessels or terminate or materially amend the management agreement relating to each vessel;

· acquire new or sell vessels, unless certain conditions exist;

· merge or consolidate with, or transfer all or substantially all Company's assets to, another person; or

December 31, 2018

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

8. Long-term debt - (continued):

· enter into a new line of business.

Furthermore, the Company's credit facilities and senior notes contain financial covenants requiring the Company to maintain various financial ratios, including:

· a minimum percentage of aggregate vessel value to secured loans (security cover ratio or "SCR");

· a maximum ratio of total liabilities to market value adjusted total assets;

· a minimum EBITDA to interest coverage ratio;

· a minimum liquidity; and

· a minimum market value adjusted net worth.

As of December 31, 2017 and 2018, the Company was required to maintain minimum liquidity, not legally restricted, of \$51,359 and \$53,500, respectively, which is included within "Cash and cash equivalents" in the balance sheets. In addition, as of December 31, 2017 and 2018, the Company was required to maintain minimum liquidity, legally restricted, of \$15,589 and \$8,956, respectively, which is included within "Restricted cash" current and non-current, in the consolidated balance sheets.

As of December 31, 2018, the Company was in compliance with the applicable financial and other covenants contained in its debt agreements, including the 2022 Notes.

The weighted average interest rate (including the margin) related to the Company's existing debt, 2019 and 2022 Notes and bareboat leases as of December 31, 2016, 2017 and 2018 was 4.13%, 4.72% and 5.59% respectively. The commitment fees incurred during the years ended December 31, 2016, 2017 and 2018, with regards to the Company's unused credit facilities were \$472, \$6 and \$1,049, respectively.

The principal payments required to be made after December 31, 2018, are as follows:

Twelve month periods ending	Amount
December 31, 2019	\$101,007
December 31, 2020	129,395
December 31, 2021	101,380
December 31, 2022	115,544
December 31, 2023	293,802
December 31, 2024 and thereafter	56,695
Total Long term debt	\$797,823
Unamortized debt issuance costs	10,997
Total Long term debt, net	\$786,826
Current portion of long term debt	101,007
Long term debt, net	685,819

The current portion of long term debt as of December 31, 2018, includes the scheduled loan repayments for the twelve month period ended December 31, 2018 according to the outstanding loan agreements adjusted also in connection with the new refinancing agreements as described in Note 19 and an amount of \$3,537 prepaid in January 2019 under NBG \$30,000 Facility in connection with the sale of the Star Delta (Note 5).

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

8. Long-term debt - (continued):

The 2022 Notes mature in November, 2022 and are presented in the consolidated balance sheets as of December 31, 2018 net of unamortized debt issuance costs of \$1,590.

All of the Company's bank loans and applicable bareboat leases bear interest at LIBOR plus a margin. The amounts of "Interest and finance costs" included in the consolidated statements of operations are analyzed as follows:

	2016	2017	2018
Interest on long term debt and bareboat leases	\$40,449	\$48,814	\$69,977
Less: Interest capitalized	(3,940)	(2,423)	(1,753)
Reclassification adjustments of interest rate swap loss/(gain) transferred to Interest and finance costs from Other Comprehensive Income (Note 18)	1,252	852	(3)
Amortization of debt issuance costs	2,855	2,660	3,253
Other bank and finance charges	601	555	2,241
Interest and finance costs	\$41,217	\$50,458	\$73,715

During the years ended December 31, 2016, 2017 and 2018, in connection with the prepayments described above following (i) the sale of mortgaged vessels, (ii) the cancellation of certain loan commitments, (iii) the termination of two newbuilding contracts, (iv) the refinancing agreements entered into in 2018 and (v) the redemption of the 2019 Notes, as applicable, \$2,375, \$1,257 and \$2,383 of unamortized debt issuance costs were written off and included under "Loss on debt extinguishment" in the consolidated statements of operations.

9. Preferred, Common Shares and Additional paid in capital:

Preferred Shares: Star Bulk is authorized to issue up to 25,000,000 preferred shares, \$0.01 par value with such designations, as voting, and other rights and preferences, as determined by the Board of Directors. As of December 31, 2017 and 2018 the Company had not issued any preferred shares.

Common Shares: As per the Company's Amended and Restated Articles of Incorporation, Star Bulk is authorized to issue 300,000,000 registered common shares, par value \$0.01 per share.

Each outstanding share of the Company's common shares entitles the holder to one vote on all matters submitted to a vote of shareholders. Subject to preferences that may be applicable to any outstanding preferred shares, holders of common shares are entitled to ratably receive all dividends, if any, declared by the Company's Board of Directors out of funds legally available for dividends. Holders of common shares do not have conversion, redemption or preemptive rights to subscribe to any of the Company's securities. All outstanding common shares are fully paid and non-assessable. The rights, preferences and privileges of holders of common shares are subject to the rights of the holders of any preferred shares which the Company may issue in the future.

On April 13, 2016, the Company issued 131,545 common shares (adjusted for the 2016 Reverse Split) in connection with its 2015 Equity Incentive Plan and 3,000 common shares (adjusted for the 2016 Reverse Split) to two of the Company's directors, which had been granted and vested on July 11, 2014 (as described in Note 12). In addition, during the fourth quarter of 2016, the Company issued 558,050 common shares in connection with its 2016 Plan.

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

9. Preferred, Common Shares and Additional paid in capital – (continued):

On September 20, 2016, the Company completed a primary underwritten public offering of 11,976,745 of its common shares, at a price of \$4.30 per share. The aggregate proceeds to the Company, net of underwriters' commissions and offering expenses, were \$50,278.

On February 2, 2017, the Company completed a private placement of 6,310,272 common shares, at a price of \$8.154 per share (the "February 2017 Private Placement"), raised for general corporate purposes. The aggregate proceeds to the Company, net of private placement agent's fees and expenses, were approximately \$50,427. One of the Company's significant shareholders, Oaktree and its affiliates, purchased a total of 3,244,292 of the common shares in the February 2017 Private Placement.

During the year ended December 31, 2017 the Company issued 1,220,825 common shares to the Company's directors and employees in connection with its equity incentive plans.

On June 29, 2018, a fund affiliated with Oaktree Capital Management, L.P. completed an underwritten secondary sale of 5,000,000 common shares of the Company at a price of \$13.10 per share. The Company did not sell any common shares and did not receive any proceeds as a result of this secondary sale. In addition, in September 2018, the Company filed a new shelf registration statement, which included all selling shareholders that had registration rights. In connection with these transactions the Company incurred and accrued aggregate offering expenses of \$2,032, which are separately presented in the consolidated statement of shareholders' equity for the year ended December 31, 2018.

As further discussed in Note 1, during the year ended December 31, 2018, the Company issued 3,304,735 common shares, 13,725,000 common shares and 10,331,313 common shares in connection with the OCC Vessel Purchase Transaction, Songa Vessel Purchase Transaction and Augustea Vessel Purchase Transaction, respectively. In addition, pursuant to the post-closing adjustments set forth in the underlying agreement, in October 2018, the Company cancelled 53,978 common shares out of those issued as part of the consideration for the Augustea Vessel Purchase Transaction, reducing the total shares consideration issued in connection with the Augustea Vessel Purchase Transaction to 10,277,335. Lastly, in October 2018 the Company issued 291,300 common shares in connection with the acquisition of the Star Bright (Note 5).

In addition during the year ended December 31, 2018 the Company issued 868,975 common shares to the Company's directors and employees in connection with its equity incentive plans.

On November 29, 2018, the Company announced a share repurchase program to purchase up to an aggregate of \$50.0 million of the Company's common shares. The timing and amount of any repurchases will be in the sole discretion of the Company's management team, and will depend on legal requirements, market conditions, share price, alternative uses of capital and other factors. The Company is not obligated under the terms of the program to repurchase any of its common shares. The repurchase program has no expiration date and may be suspended or terminated by the Company at any time without prior notice. Common shares repurchases as part of this program will be cancelled by the Company. Pursuant to this share repurchase program, during the fourth quarter of 2018, the Company repurchased 341,363 of its common shares in open market transactions at an average price of \$9.17 for an aggregate consideration of \$3.1 million. All the aforementioned repurchased shares were canceled and removed from the Company's share capital on January 3, 2019.

10. Other operational gain:

For the year ended December 31, 2016, other operational gain of \$1,565, was recognized, mainly consisting of gain from hull and machinery insurance claims. For the year ended December 31, 2017, other operational gain of \$2,918 was recognized mainly consisting of an amount of \$2,139, resulting from a cash settlement of a commercial dispute and gain from hull and machinery insurance claims.

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

11. Management fees:

As of January 1, 2015, the Company engaged Ship Procurement Services S.A. (“SPS”), a third party company, to provide to its fleet certain procurement services. During the year ended December 2018, the Company entered into the following management agreements with: i) Augustea Technoservices Ltd and Songa Shipmanagement Ltd to provide technical management to certain of its vessels, following the completion of the Augustea Vessel Purchase Transaction and Songa Vessel Purchase Transaction (Note 3) and ii) Equinox Maritime Ltd, Zeaborn GmbH & Co. KG and Technomar Shipping Inc to provide certain management services to certain of its vessels. Total management fees under the aforementioned management agreements in effect for the years ended December 31, 2016, 2017 and 2018, were \$7,604, \$7,543 and \$11,321, respectively, and are included in “Management fees” in the consolidated statement of operations.

12. Equity Incentive Plans:

On April 13, 2015, the Company’s Board of Directors adopted the 2015 Equity Incentive Plan (the “2015 Plan”) and reserved for issuance 280,000 common shares thereunder. The terms and conditions of the 2015 Plan are substantially similar to the terms and conditions of Company’s previous equity incentive plans. On the same date, the Company granted 135,230 restricted common shares to certain directors, former directors, officers and employees, which vested on April 13, 2016. The fair value of each restricted share was \$17.75, which was determined by reference to the closing price of the Company’s common shares on the grant date.

In addition, on the same date, the Board of Directors granted share purchase options of up to 104,250 common shares to certain executive officers, at an option exercise price of \$27.50 per share. These options are exercisable in whole or in part between the third and the fifth anniversary of the grant date, subject to the respective individuals remaining employed by the Company at the time the options are exercised.

The fair value of all share option awards was calculated based on the modified Black-Scholes method. A description of the significant assumptions used to estimate the fair value of the share option awards is set out below:

· Option type: Bermudan call option

· Grant Date: April 13, 2015

Expected term: Given the absence at the grant date of expected dividend payments (described below), the Company expected that it is optimal for the holders of the granted options to avoid early exercise of the options. As a result, the Company assumed that the expected term of the options is their contractual term (i.e. five years from the grant date).

Expected volatility: The Company used the historical volatility of the common shares to estimate the volatility of the price of the shares underlying the share option awards. The final expected volatility estimate, which was based on historical volatility for the two years preceding the grant date, was 59.274%.

· Expected dividends: The Company does not currently pay any dividends to its shareholders, and the Company’s loan agreements contain restrictions and limitations on dividend payments. Based on the foregoing, the outstanding newbuilding orderbook of the Company and the market conditions prevailing in the dry bulk industry at the time of valuation, the Company’s management determined that for purposes of this calculation the Company is not expected

to pay dividends before the expiration of the share options.

Dilution adjustment: Compared to the number of common shares outstanding, the Company's management considers the overall number of shares covered by the options as immaterial, and no dilution adjustment was incorporated in the valuation model.

F-51

Notes to Consolidated Financial Statements

December 31, 2018

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

12. Equity Incentive Plans - (continued):

Risk-free rate: The Company has elected to employ the risk-free yield-to-maturity rate to match the expected term of the options (which as explained above is expected to be five years from the grant date). As of the grant date, the yield-to-maturity rate of five-year U.S. Government bonds was approximately 1.3%.

On May 9, 2016, the Company's Board of Directors adopted the 2016 Equity Incentive Plan (the "2016 Plan") and reserved for issuance 940,000 common shares thereunder. The terms and conditions of the 2016 Plan are substantially similar to the terms and conditions of Company's previous equity incentive plans. On the same date, 690,000 restricted common shares were granted to certain directors, officers, employees of the Company, 650,000 of which vested in July, 2016 while the remaining 40,000 vested on March 1, 2018. The fair value of each share was \$3.75, based on the closing price of the Company's common shares on the grant date.

On September 12, 2016, the Company's Board of Directors granted 345,000 restricted common shares to certain of its directors and officers, for their participation in the negotiations with the Company's lenders related to the Restructuring. Out of these shares, 305,000 vested on March 30, 2017, and the remaining 40,000 vested on March 1, 2018. The fair value of each share was \$4.94, based on the closing price of the Company's common shares on the grant date.

On February 22, 2017, the Company's Board of Directors adopted the 2017 Equity Incentive Plan (the "2017 Plan") and reserved for issuance 950,000 common shares thereunder. The terms and conditions of the 2017 Plan are substantially similar to the terms and conditions of the Company's previous equity incentive plans. On the same date, 944,000 restricted common shares were granted to certain of our directors, officers and employees, of which 744,000 shares vested on August 22, 2017. The remaining 200,000 restricted common shares vested on August 22, 2018. The fair value of each share was \$9.59, based on the closing price of the Company's common shares on the grant date.

On February 27, 2018, the Company's Board of Directors adopted the 2018 Equity Incentive Plan (the "2018 Plan") and reserved for issuance 700,000 common shares thereunder. The terms and conditions of the 2018 Plan are substantially similar to the terms and conditions of the Company's previous equity incentive plans. On the same date, 396,500 restricted common shares were granted to certain of the Company's directors and officers of which 253,500 restricted common shares vested on August 27, 2018, 71,500 restricted common shares vested on February 27, 2019 and the remaining 71,500 restricted common shares vest on February 27, 2021. The fair value of each share was \$12.49, based on the closing price of the Company's common shares on February 27, 2018. In addition, on April 9, 2018, 276,000 restricted common shares were granted to the Company's employees, all of which vested on August 27, 2018. The fair value of each share was \$10.51, based on the closing price of the Company's common shares on April 9, 2018.

All non-vested shares and options vest according to the terms and conditions of the applicable award agreements. The grantee does not have the right to vote the non-vested shares or exercise any right as a shareholder of the non-vested shares, although the issued and non-vested shares pay dividends as declared. The dividends with respect to these shares are forfeitable if the service conditions are not fulfilled. Share options have no voting or other shareholder rights. For the years ended December 31, 2016, 2017 and 2018, the Company paid no dividends on non-vested shares.

The Company expects that there will be no forfeitures of non-vested shares or options. The shares which are issued in accordance with the terms of the Company's equity incentive plans or awards remain restricted until they vest. For the years ended December 31, 2016, 2017 and 2018, the share based compensation cost was \$4,166, \$9,267 and \$8,072, respectively, and is included under "General and administrative expenses" in the consolidated statements of operations.

Notes to Consolidated Financial Statements

December 31, 2018

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

12. Equity Incentive Plans - (continued):

A summary of the status of the Company's non-vested restricted shares as of December 31, 2016, 2017 and 2018, and the movement during these years, is presented below:

	Number of shares	Weighted Average Grant Date Fair Value
Unvested as at January 1, 2016	135,230	\$ 17.75
Granted	1,035,000	4.15
Cancelled	(1,685)	17.75
Vested	(783,545)	6.14
Unvested as at December 31, 2016	385,000	\$ 4.82
Unvested as at January 1, 2017	385,000	\$ 4.82
Granted	944,000	9.59
Vested	(1,049,000)	8.24
Unvested as at December 31, 2017	280,000	\$ 8.09
Unvested as at January 1, 2018	280,000	\$ 8.09
Granted	672,500	11.68
Vested	(809,500)	10.29
Unvested as at December 31, 2018	143,000	\$ 12.49

A summary of the status of the Company's non-vested share options as of each of the years ended December 31, 2016, 2017 and 2018 is presented below. There has been no movement during each year:

Options	Number of options	Weighted average exercise price	Weighted Average Grant Date Fair Value
Outstanding at beginning of period	104,250	\$ 27.5	\$ 7.0605
Granted	-	-	-
Vested	-	-	-
Outstanding at end of period	104,250	\$ 27.5	\$ 7.0605

The estimated compensation cost relating to non-vested share options and restricted share awards not yet recognized was \$189 and \$784, respectively, as of December 31, 2018 and is expected to be recognized over the weighted average period of 1.28 years and 1.8 years, respectively. The total fair value of shares vested during the years ended December 31, 2016, 2017 and 2018 was \$3,580, \$12,023 and \$10,745 respectively.

13. Earnings / (Loss) per share:

All common shares issued (including the restricted shares issued under the Company's equity incentive plan) have equal rights to vote and participate in dividends. The restricted shares issued under the Company's equity incentive plans are subject to forfeiture provisions set forth in the applicable award agreement. The calculation of basic earnings per share does not consider the non-vested shares as outstanding until the time-based vesting restriction has

lapsed. For the purpose of calculating diluted earnings/ (loss) per share, the weighted average number of diluted shares outstanding includes the incremental shares assumed issued, determined in accordance with the treasury stock method. For the years ended December 31, 2016 and 2017, during which the Company incurred losses, the effect of 385,000 and 280,000 non-vested shares, respectively, as well as the effect of 104,250 non vested share options, would be anti-dilutive, and “Basic loss per share” equals “Diluted loss per share.” Diluted earnings per share for the year ended December 31, 2018 does not include the effect of 104,250 non-vested share options outstanding as of that date, as their effect was anti-dilutive.

STAR BULK CARRIERS CORP.

Notes to Consolidated Financial Statements

December 31, 2018

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

14. Accrued liabilities:

The amounts shown in the consolidated balance sheets are analyzed as follows:

	2017	2018
Audit fees	\$243	\$295
Legal fees	59	34
Other professional fees	86	1,502
Vessel Operating and voyage expenses	5,608	6,514
Loan interest and financing fees	4,287	8,277
Income tax	238	232
Total Accrued Liabilities	\$10,521	\$16,854

15. Income taxes

The Company is in the business of international shipping and is not subject to a material amount of income taxes. The Company is subjected to tonnage taxes in certain jurisdictions as described below and includes these taxes under “Vessel Operating Expenses” in the consolidated statements of operations.

The Company does receive dividends from its operating subsidiaries and these are not subject to withholding taxes nor are these dividends taxed at the Company upon receipt. Thus, the Company does not record deferred tax liabilities for any unremitted earnings as there are no taxes associated with the remittances.

The Company is subjected to tax audits in the jurisdictions it operates in. There have been no adjustments assessed to the Company in the past and the Company believes there are no uncertain tax positions to consider.

a) Taxation on Marshall Islands Registered Companies and tonnage tax

Under the laws of the countries of the shipowning companies’ incorporation and/or vessels’ registration, the shipowning companies are not subject to tax on international shipping income. However, they are subject to registration and tonnage taxes. In addition, each foreign flagged vessel managed in Greece by Greek or foreign ship management companies is subject to Greek tonnage tax, under the laws of the Hellenic Republic. The technical managers of the Company’s vessels, which are established in Greece under Greek Law 89/67, are responsible for the filing and payment of the respective tonnage tax on behalf the Company. Furthermore, under the New Tonnage Tax System (“TTS”) for Cypriot merchant shipping, qualifying ship managers who opted and are accepted to be taxed under the TTS are subject to an annual tax referred to as tonnage tax, which is calculated on the basis of the net tonnage of the qualifying ships they manage. The technical managers of the Company’s vessels, which are established and operate in Cyprus, are responsible for the filing and payment of the respective tonnage tax. These taxes for 2016, 2017 and 2018 were \$2,438, \$2,565 and \$1,506 respectively, and have been included under “Vessel operating expenses” in the consolidated statements of operations.

b) Taxation on US Source Income - Shipping Income

Under the United States Internal Revenue Code of 1986, as amended (the “Code”), the U.S. source gross transportation income of a ship-owning or chartering corporation, such as the Company, is subject to a 4% U.S.

federal income tax without allowance for deduction, unless that corporation qualifies for exemption from tax under Section 883 of the Code and the Treasury Regulations promulgated thereunder. U.S. source gross transportation income consists of 50% of the gross shipping income that is attributable to transportation that begins or ends, but that does not both begin and end, in the United States.

Table of Contents

STAR BULK CARRIERS CORP.

Notes to Consolidated Financial Statements

December 31, 2018

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

15. Income taxes - (continued):

Under IRS regulations, a Company's shares will be considered to be regularly traded on an established securities market if (i) one or more classes of its shares representing 50% or more of its outstanding shares, by voting power of all classes of shares of the corporation entitled to vote and of the total value of the shares of the corporation, are listed on the market and (ii) (A) such class of share is traded on the market, other than in minimal quantities, on at least 60 days during the taxable year or one sixth of the days in a short taxable year; and (B) the aggregate number of shares of such class of share traded on such market during the taxable year must be at least 10% of the average number of shares of such class of share outstanding during such year or as appropriately adjusted in the case of a short taxable year. Notwithstanding the foregoing, the treasury regulations provide, in pertinent part, that a class of the Company's shares will not be considered to be "regularly traded" on an established securities market for any taxable year in which 50% or more of the vote and value of the outstanding shares of such class are owned, actually or constructively under specified share attribution rules, on more than half the days during the taxable year by persons who each own 5% or more of the vote and value of such class of the Company's outstanding shares, ("5% Override Rule").

For the taxable years 2016 and 2017 the Company believes that it was not exempt from U.S. federal income tax of 4% on U.S. source shipping income, as it believes that it does not satisfy the Publicly Traded Test for these years because it is subject to the 5% Override Rule. As a result, tax charge of approximately \$267 and \$202 was recognized in the consolidated statement of operations for the year ended December 31, 2016 and 2017, respectively, under "Income taxes".

For the taxable year 2018 the Company believes that it was exempt from U.S. federal income tax of 4% on U.S. source shipping income, as it believes that it satisfies the Publicly Traded Test for this year because it is not subject to the 5% Override Rule.

c) Taxation on Maltese and Swiss Registered Companies

In addition to the tax consequences described above, the Company may be subject to tax in one or more other jurisdictions, including Malta and Switzerland, where the Company conducts activities. The Company believes that its tax exposure for years ended December 31, 2016, 2017 and 2018 in Malta and Switzerland is immaterial.

16. Commitments and Contingencies:

a) Legal proceedings

Various claims, suits, and complaints, including those involving government regulations and product liability, arise in the ordinary course of the shipping business. In addition, losses may arise from disputes with charterers, agents, insurance and other claims with suppliers relating to the operations of the Company's vessels. The Company's vessels are covered for pollution of \$1 billion per vessel per incident, by the Protection and Indemnity (P&I) Association in which the Company's vessels are entered. The Company's vessels are subject to calls payable to their P&I Association and may be subject to supplemental calls which are based on estimates of premium income and anticipated and paid claims. Such estimates are adjusted each year by the Board of Directors of the P&I Association until the closing of the relevant policy year, which generally occurs within three years from the end of the policy year. Supplemental calls, if any, are expensed when they are announced and according to the period they relate to. The Company is not aware of any supplemental calls in respect of any policy years other than those that have already been recorded in its

consolidated financial statements.

Notes to Consolidated Financial Statements

December 31, 2018

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

16. Commitments and Contingencies - (continued):

a) Legal proceedings - (continued)

In March 2013, the Company commenced arbitration proceedings against Hanjin HHIC-Phil Inc., the shipyard that constructed the Star Polaris, relating to an engine failure the vessel experienced in Korea. This resulted in 142 off-hire days and the loss of \$2,343 in revenues. The Company pursued the compensation for the cost of the repairs and the loss of revenues and following the arbitration hearing in July 2015, the arbitral tribunal issued its partial final award (the "Award"), which found the yard liable for certain aspects of the claim but did not quantify the Award. Following the dismissal of the loss of revenues claim before the High Court of the United Kingdom in the appeal proceedings, in 2018 a settlement agreement was entered into between the Company, the yard and H&M insurers. The Company had no financial impact from the respective settlement agreement. .

b) Other contingencies:

Contingencies relating to Heron

Following the completion of the Merger, Oceanbulk Shipping became a wholly owned subsidiary of the Company. Oceanbulk Shipping owned a convertible loan, which was convertible into 50% of Heron Ventures Ltd's ("Heron") equity. After the conversion of the loan, on November 5, 2014, Heron was a 50-50 joint venture between Oceanbulk Shipping and ABY Group Holding Limited, and Oceanbulk Shipping shared joint control over Heron with ABY Group Holding Limited. Based on the applicable related agreements, neither party will entirely control Heron. In addition, any operational and other decisions with respect to Heron will need to be jointly agreed between Oceanbulk Shipping and ABY Group Holding Limited. As of December 31, 2017, all vessels previously owned by Heron have been either sold or distributed to its equity holders. While Oceanbulk Shipping and ABY Group Holding Limited intend that Heron eventually will be dissolved shortly after receiving permission from local authorities in Malta, until that occurs, contingencies to the Company may arise. However, the pre-transaction investors in Heron effectively remain as ultimate beneficial owners of Heron, until Heron is dissolved on the basis that, according to the agreement governing the Merger, any cash received or paid by the Company from the final liquidation of Heron will be settled accordingly by the pre-Merger investors in Oceanbulk (the "Oceanbulk Sellers"). The Company had no outstanding balance with the Oceanbulk Sellers as of December 31, 2016 and 2017, respectively. In July 2018, ABY Group Holding Limited transferred to ABY Floriana Limited its interests to Heron.

16. Commitments and Contingencies - (continued):

c) Lease commitments:

The following table sets forth inflows and outflows, related to the Company's charter party arrangements and other commitments, as at December 31, 2018.

+ inflows/ - outflows	Twelve month periods ending December 31,						2024 and thereafter
	Total	2019	2020	2021	2022	2023	
Future, minimum, non-cancellable charter revenue ⁽¹⁾	\$72,588	\$66,581	\$6,007	\$-	\$-	\$-	\$-
Future, minimum, charter-in hire payments ⁽²⁾	(8,926)	(8,926)	-	-	-	-	-
Vessel upgrades ⁽³⁾	(140,974)	(136,689)	(4,285)	-	-	-	-
Bareboat commitments charter hire ⁽⁴⁾	(142,771)	(10,223)	(12,083)	(11,912)	(11,742)	(11,563)	(85,248)
Office rent ⁽⁵⁾	(1,647)	(398)	(323)	(318)	(290)	(245)	(73)
Payments for E.R. Vessel acquisition ⁽⁶⁾	(27,653)	(27,653)	-	-	-	-	-
Total	\$(249,383)	\$(117,308)	\$(10,684)	\$(12,230)	\$(12,032)	\$(11,808)	\$(85,321)

The amounts represent the minimum contractual charter revenues to be generated from the existing, as of
 (1) December 31, 2018, non-cancellable time charter agreements, until their expiration, net of address commission, assuming no off-hire days other than those related to scheduled interim and special surveys of the vessels.

(2) The amounts represent the Company's commitments under the existing, as of December 31, 2018, time charter-in arrangements for third party vessels.

The amounts represent the Company's commitments for vessel upgrades that the Company entered into in 2018.
 (3) For the respective payments, the Company has secured total financing of \$134,225, of which \$92,400 was committed under loan and bareboat lease agreements signed as of December 31, 2018 (Note 5 and 8) and \$41,825 was committed under loan and finance lease agreements signed subsequently (Note 19).

The amounts represent the Company's commitments under the bareboat lease arrangements representing the charter hire for the three vessels acquired as part of the OCC Vessel Purchase Transaction discussed in Note 6 above,
 (4) which, as of December 31, 2018, were under construction. The bareboat charter hire is comprised of fixed and variable portion, the variable portion is calculated based on the 3-month LIBOR of 2.808% as of December 31, 2018.

The office rent includes an amount of 188,000 NOK (or approximately \$22, using the exchange rate as of
 (5) December 31, 2018, which was \$0.1156 per NOK) up to the twelve month period ended December 31, 2024, concerning a rental agreement with indefinite term.

The amounts represent the remaining payments to be made with respect to the two Step 1 Vessels Star Marianne (6) and Star Janni that were delivered in January 2019 (Note 6). The Company has financed the total acquisition cost of the vessels through the ABN \$115,000 Facility (Note 8).

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

17. Voyage and Vessel operating expenses:

The amounts in the consolidated statements of operations are analyzed as follows:

	2016	2017	2018
Voyage expenses			
Port charges	\$30,229	\$21,060	\$37,215
Bunkers	28,121	34,997	72,287
Commissions – third parties	2,506	3,438	6,179
Commissions – related parties (Note 3)	3,300	3,300	3,400
Miscellaneous	1,665	1,887	2,515
Total voyage expenses	\$65,821	\$64,682	\$121,596
Vessel operating expenses			
Crew wages and related costs	\$62,920	\$63,074	\$80,360
Insurances	6,124	6,314	7,544
Maintenance, repairs, spares and stores	17,194	18,589	26,368
Lubricants	6,372	7,016	8,494
Tonnage taxes	2,438	2,565	1,506
Pre-delivery and Pre-joining expenses	1,784	1,925	1,234
Miscellaneous	1,998	1,945	3,366
Total vessel operating expenses	\$98,830	\$101,428	\$128,872

18. Fair Value Measurements and Hedging:

The guidance for fair value measurements applies to all assets and liabilities that are being measured and reported on a fair value basis. This guidance enables the reader of the financial statements to assess the inputs used to develop those measurements by establishing a hierarchy for ranking the quality and reliability of the information used to determine fair values. The same guidance requires that assets and liabilities carried at fair value should be classified and disclosed in one of the following three categories based on the inputs used to determine its fair value:

Level 1: Quoted market prices in active markets for identical assets or liabilities;

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data;

Level 3: Unobservable inputs that are not corroborated by market data.

In addition, ASC 815, “Derivatives and Hedging” requires companies to recognize all derivative instruments as either assets or liabilities at fair value in the balance sheet.

Fair value on a recurring basis:

Interest rate swaps:

The Company enters into interest rate derivative contracts to manage interest costs and risk associated with changing interest rates with respect to its variable interest loans and credit facilities.

F-59

Table of Contents

STAR BULK CARRIERS CORP.

Notes to Consolidated Financial Statements

December 31, 2018

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

18. Fair Value Measurements and Hedging - (continued):

Interest rate swaps:

Due to (i) changes in the timing of delivery of some of the Company's newbuilding vessels and, by extension, the timing of some of the forecasted transactions, (ii) changes in LIBOR curves, and (iii) the sale of some of the Company's vessels in 2015 whose loans had been designated as hedged items, the Company determined that the "highly effective" criterion of the hedging effectiveness test for the then existing swaps with Goldman Sachs & Co. LLC (the "Goldman Sachs Swaps") was not satisfied for the quarter ended June 30, 2015. Consequently, the hedging relationship related to the Goldman Sachs Swaps no longer qualified for cash flow hedge accounting, and as of April 1, 2015, the Company de-designated the cash flow hedge related to the Goldman Sachs Swaps. As a result, changes in the fair value of these swaps since the date of de-designation, April 1, 2015, were reported in earnings under "Gain / (Loss) on derivative financial instruments, net." The amount already reported up to March 31, 2015 in "Accumulated other comprehensive income / (loss)" with respect to the corresponding swaps is reclassified to earnings when the hedged forecasted transaction impacts the Company's earnings (i.e., when the hedged loan interest is incurred), except for amounts related to loans of sold or expected to be sold vessels which are being reclassified to earnings when sale is probable, since the forecasted transaction attributable to these vessels is no longer expected to occur. The amount reclassified into earnings during the years ended December 31, 2016, 2017 and 2018 was \$570, \$527 and \$114 respectively.

All existing interest rates swaps as of December 31, 2017 matured during the year ended December 31, 2018 or were prepaid prior to their maturity through the refinancing of the corresponding debt. Therefore, all amounts previously recognized in Other Comprehensive Income / (Loss), deriving from the effective portion of unrealized gains/losses from the designated cash flow hedges have been reclassified into earnings.

Forward Freight Agreements and Bunker Swaps:

During the years ended December 31, 2016, 2017 and 2018, the Company entered into a certain number of FFAs on the Capesize, Panamax and Supramax indices. The results of the Company's FFAs during the years ended December 31, 2016, 2017 and 2018 and the valuation of the Company's open position as at December 31, 2017 and 2018 are presented in the tables below.

During the years ended December 31, 2017 and 2018, the Company also entered into a certain number of bunker swaps. The results of the Company's bunker swaps and the valuation of the Company's open position as at December 31, 2017 and 2018 are presented in the tables below.

The amount of Gain/ (Loss) on derivative financial instruments, forward freight agreements and bunker swaps recognized in the consolidated statements of operations are analyzed as follows:

Edgar Filing: Star Bulk Carriers Corp. - Form 20-F

Bunker swaps - liability position	-	-	1,799	-
Interest rate swaps - liability position	609	16	-	-
Total	\$ 609	16	1,799	-

The carrying values of temporary cash investments, restricted cash, accounts receivable and accounts payable approximate their fair value due to the short-term nature of these financial instruments. The fair value of long-term bank loans and bareboat leases (Level 2), bearing interest at variable interest rates, approximates their recorded values as of December 31, 2018, due to the variable interest rate nature thereof.

F-61

Table of Contents

STAR BULK CARRIERS CORP.

Notes to Consolidated Financial Statements

December 31, 2018

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

18. Fair Value Measurements and Hedging - (continued):

The 2022 Notes have a fixed rate, and their estimated fair value as of December 31, 2017 and 2018, determined through Level 1 inputs of the fair value hierarchy (quoted price on NASDAQ under the ticker symbol SBLKZ), was approximately \$50,640 and \$49,800, respectively.

Fair value hedge designation

In order to mitigate its exposure to the foreign currency risk arising from its commitment for vessel upgrades denominated in Euro discussed in Note 16 c)3) above, in early April 2018 the Company converted some of its cash held in US dollars to Euro in an amount sufficient to cover 100% of its fixed orders for vessel upgrades and approximately 50% of its then optional orders for vessel upgrades. During the fourth quarter of 2018 an additional amount of cash in USD was converted to Euro in order to cover the orders for vessel upgrades. The total amount of Euro converted was approximately €70.8 million, of which approximately €20.5 million was related to the fixed orders at the time of designation. This amount is being held until the payments under the contracts for upgrades (or “unrecognized firm commitment”) are made. The Euro conversions corresponding to the fixed orders at that time were designated, on April 3, 2018, as a fair value hedge with the portion of the unrecognized firm commitment corresponding to the fixed orders being the “hedged item” and the Euro deposits corresponding to the fixed orders being the “Hedging Instrument”. Because the critical terms (currency, timing, and notional amounts) of the hedged item and the hedging instrument match in all material respects, the hedge is considered to highly offset changes in the fair value of the unrecognized firm commitment attributable to changes in the USD/Euro exchange rates. The foreign exchange loss recognized from the re-measurement of the total Euro conversions discussed above during the year ended December 31, 2018 was \$3,159 and is included in “Interest and other income/(loss)” in the consolidated statement of operations. The cumulative amount of fair value hedging adjustment that is attributable to the aforementioned hedge during the year ended December 31, 2018 was \$1,609 and is reflected within “Vessels and other fixed assets, net”, in the consolidated balance sheet, following the recognition of the corresponding firm commitment during the year. The corresponding gain of \$1,609 recognized from April 3, 2018 to December 31, 2018 is recorded within “Interest and other income/(loss)” in the consolidated statement of operations. The ineffective portion of the aforementioned hedge as of December 31, 2018 was \$39 and is reflected within “Interest and other income/(loss)” in the consolidated statement of operations. As of December 31, 2018, the entire amount of €20.5 million Euro conversions associated with this hedging relationship had been used.

Fair value on a nonrecurring basis

The Company reviewed, in 2016, 2017 and 2018 the recoverability of the carrying amount of its vessels. As further disclosed in Note 5, during 2016 the Company recognized an impairment loss of \$18,537 related to the sale of two operating vessels and the termination of two newbuilding contracts during the year. The carrying value of the sold vessels was written down to their fair value as determined by reference to their agreed sale prices (Level 2). In addition pursuant to the Company’s impairment analysis for its entire fleet, as at December 31, 2016, using the same framework that was used in the previous years, which is described in Note 2(n), the Company recognized an additional impairment loss of \$10,684. The carrying value of the respective vessels was written down to their fair value as determined by reference to the vessel valuations of independent shipbrokers as of as of December 31, 2016 (Level 2).

Table of Contents

STAR BULK CARRIERS CORP.

Notes to Consolidated Financial Statements

December 31, 2018

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

18. Fair Value Measurements and Hedging - (continued):

The table following table summarizes the valuation of these assets measured at fair value on a non-recurring basis as of December 31, 2016:

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3) Impairment loss	Impairment loss
Long-lived assets held and used				
Vessels, net	\$ -	\$ 12,700	\$ -	\$ 10,684
TOTAL	\$ -	\$ 12,700	\$ -	\$ 10,684

The Company's impairment analysis as of December 31, 2017, indicated that the carrying amount of the Company's vessels, was recoverable, and therefore, the Company concluded that no impairment charge, was necessary.

In addition, as further disclosed in Note 5, during 2018 the Company recognized an impairment loss of \$17,784 related to the agreed and intended sale of three operating vessels. The carrying value of the sold vessels was written down to the fair value as determined by reference to their agreed or negotiated sale prices (Level 2).

The table following table summarizes the valuation of these assets measured at fair value on a non-recurring basis as of December 31, 2018:

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3) Impairment loss	Impairment loss
Long-lived assets held and used				
Held for sale	\$ -	\$ 5,949	\$ -	\$ 1,606
Vessels, net	\$ -	\$ 14,893	\$ -	\$ 16,178
TOTAL	\$ -	\$ 20,842	\$ -	\$ 17,784

19. Subsequent Events:

Pursuant to the E.R. Vessel Purchase Transaction as further discussed in Note 1, the Company took delivery of two of the three committed dry bulk vessels, namely the 2010 built Capesize vessels Star Marianne and Star Janni on January 7, 2019 and January 14, 2019, respectively, in exchange for an aggregate of 999,336 of the Company's common shares and \$32.5 million cash. The cash portion of such acquisitions was financed through proceeds from the third and the fourth tranche under the ABN \$115,000 Facility (Note 8).

On January 28, 2019, the Company entered into a loan agreement with Skandinaviska Enskilda Banken AB (SEB), the “SEB Facility,” for the financing of an amount up to \$71.4 million. The facility is available in four tranches. The first two tranches of \$32.8 million each were drawn on January 30, 2019 and used together with cash on hand to pay all the outstanding amounts under the lease agreements of the Star Laetitia and the Star Sienna, which are two of Augustea vessels (Note 5). The remaining two tranches of approximately \$1,190 each, which will be used to finance the acquisition and installation of scrubber equipment for the respective vessels, are expected to be drawn in 2019 and are repayable in 12 equal quarterly installments. The SEB Facility is secured by a first priority mortgage on the two vessels and will mature in January 2025.

(Expressed in thousands of U.S. dollars except for share and per share data unless otherwise stated)

19. Subsequent Events - (continued):

On January 31, 2019, the Company entered into a loan agreement with E. SUN Commercial Bank, Hong Kong branch, (the “E.SUN Facility”), for the financing of an amount of up to \$37.1 million to pay all outstanding amounts under the lease agreement of the Star Ariadne (Note 5). On March 1, 2019 the Company drew the amount of \$37.1 million. The E.SUN Facility is secured by a first priority mortgage on the respective vessel and will mature in February 2024.

As part of the Company’s share repurchase program discussed in Note 9, subsequent to December 31, 2018 the Company acquired 195,605 of its common shares which were canceled and removed from the Company’s share capital on February 28, 2019.

On January 7, 2019, the Company’s Board of Directors and Compensation Committee established an incentive program for key employees, pursuant to which an aggregate of four million (4,000,000) restricted share units (each, a “RSU”) will be issued. Each RSU represents, upon vesting, a right for the relevant beneficiary to receive one (1) SBLK share. The RSUs are subject to the satisfaction of certain performance conditions, which apply if the Company’s fleet performs better than relevant dry bulk charter rate indices as reported by the Baltic Exchange (the “Indices”) during 2020 and 2021. The RSUs start to vest if the Company’s fleet performs better than the Indices by at least \$120,000, and vest in increasing amounts if and to the extent the performance of the Company’s fleet exceeds the performance that would have been derived based on the Indices by up to an aggregate of \$300,000. The Company takes the view that the current likelihood of vesting of these RSUs does not meet a “more likely than not” standard under US GAAP, and as a result no charge will be amortized through the Company’s statement of operations, until vesting becomes probable. Subject to the vesting conditions being met on April 30, 2021 and April 30, 2022 (each, a “Vesting Date”) two million RSUs will vest on each Vesting Date, and the relevant SBLK shares will be issued and distributed to the relevant beneficiaries as per the allocation of the Board. Any non-vested RSUs at the applicable Vesting Date will be cancelled.

In February 2019, the Company entered into a committed term-sheet with ING Bank N.V., London Branch for the financing of an amount up to \$52,800 (the “ING \$52,800 Facility”). The facility will be available in four tranches. The first two tranches of \$17,400 and \$32,600, respectively, will be used to refinance all outstanding amounts under the lease agreements of the ABY Asia and the Star Magnanimus (Note 5) and are expected to be drawn in late March 2019 with maturing date seven years later. The remaining two tranches of \$1,400 each, which will be used to finance the acquisition and installation of scrubber equipment for the respective vessels, are expected to be drawn in 2019 and will mature four years later. The ING \$52,800 Facility will be secured by a first priority mortgage on the two aforementioned vessels. The completion of the transaction is subject to the execution of customary definitive documentation.

On February 28, 2019, the Company entered into a loan agreement with ABN AMRO Bank N.V. (the “Atradius Facility”) for the financing of an amount up to \$36.6 million that will be used to finance the acquisition of scrubber equipment for 42 vessels. The respective financing is credit insured (85%) by Atradius Dutch State Business N.V. of the Netherlands (the “Atradius”). The amount is expected to be drawn in 2019, and will be repayable in 10 consecutive half yearly installments of \$3.6 million. The facility is secured by second mortgage on certain of the 42 vessels.
