## Forward Looking Statements

This Form 8-K and other reports we file from time to time with the Securities and Exchange Commission (collectively the “Filings”) contain or may contain forward looking statements and information that are based upon beliefs of, and information currently available to, our management as well as estimates and assumptions made by our management. When used in the filings the words “anticipate”, “believe”, “estimate”, “expect”, “future”, “intend”, “plan” or the negative terms and similar expressions as they relate to us or our management identify forward looking statements. Such statements reflect our current view with respect to future events and are subject to risks, uncertainties, assumptions and other factors (including the risks contained in the Filings) relating to our industry and our operations and results of operations. Should one or more of these risks or uncertainties materialize, or should the underlying assumptions prove incorrect, actual results may differ significantly from those anticipated, believed, estimated, expected, intended or planned.

Although we believe that the expectations reflected in the forward looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements and except as required by applicable law, including the securities laws of the United States, we do not intend to update any of the forward-looking statements to conform these statements to actual results. The following discussion should be read in conjunction with the exhibits attached to this Current Report on Form 8-K.
